Shelter - Takes children 4 - 18 yrs., now have eight here and one in an infant's home. The longest period is a child who has been here since July. Tomorrow these children and one other are to be placed in a boy's home which opens tomorrow. Another child who entered 23 July returns to family tomorrow.

The shelter is located upstairs; has five rooms, one of which is the infirmary. Two rooms are for boys and two for girls. The kitchen is downstairs. The couple who are for the children have another room.

Most of the children in the shelter come from the RR Public Safety Section. Children are usually catching a ride on the train so the RR man turns children over to Safety Section to Center. Police Stations refer some and staff in T & V Welfare offices refer others. JFS has first consultation with welfare office and JI and court submit information. also parents. A family history, issued by refistry office of permanent residence, accompanies the child admitted from T & V. If there are no parents, the court submits to them a guardianship paper. Those who escape wander under different names from ken to ken, usually have IQ of 70. Cannot say if this is a true figure or not. They have had the tests in so many places or may be hungry so hurry thru to eat. Use IQ figure as a reference. Watch him daily to see his usual behavior. Most of waifs are from Tokyo and probably began wandering in March 1945 when they had their most serious bombing there.
