(o) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary.)

Boards and debris were observed flying up several hundred feet.

(p) Were Photographs Taken? No Photographs of Damage, When Taken, Should Be Attached By Staple.

A dive bombing attack was made on tree houses along the beach to the south of the City of Cebu. Pushovers were at 7,000 feet, releases at 2,000 feet, and pullouts at 1,500 feet. Strafing was conducted in the dive, and one additional strafing pass was made. One bomb hung and dropped into the water, a second bomb hung and was later jettisoned over the water. The other ~~six~~ six bombs plastered the target area, making hits, as boards and debris were observed flying up several hundred feet. No enemy opposition or activity was seen, and all planes returned safely.
