

**RECOMMENDS HARD SURFACING HIGHWAY**

Leading California Motorist Greatly Impressed With Island Main Road

A glowing account of the tour of the Island roads was given to The Times this morning by H. R. Basford, of San Francisco, Chairman of the Executive Committee of the California State Automobile Association, before he left for the South.

Mr. Basford has made a tour on behalf of his association to look into the condition of roads in the Pacific Northwest, and is able to record a most appreciative opinion of the Georgian circuit roads, particularly that part on Vancouver Island.

"I was much struck," he stated "with the start made on permanent work out of Victoria, and would recommend that the policy of cement road be adopted, because experience has approved cement in other parts of this coast. The tractive pull on the Malahat road is about 160 pounds per ton as against 32 pounds on a cement road.

"The next point I would make is that while permanent roads are preferably for tourists, they are the best asset in building up a country, and you will get settlers on the island when they have good roads to bring their produce into town, as has been proved in the immediate vicinity of the city.

"I would not hesitate," he concluded, "to compare the scenery on the Island Highway to some of the best on the famed Columbia Highway, and shall certainly recommend the route to California friends."

Mr. Basford stated that a report, which would include the Georgian circuit, would be published next Spring for the information of Californian motorists likely to visit the Pacific Northwest. He was met here by C. L. Harris, Secretary of the Island Automobile Association.

**POPULAR GIRL WED AT VICTORIA WEST**

Rev. Father Silver was the officiating clergyman at the marriage of Julia, youngest daughter of Mrs. K. Lewis, 423 McPherson Avenue, to Lieut. Austin Craven, M.C., South Lancashire Regiment, only son of Austin Craven, J.P., of Holly House, Streteford, Manchester, England, which took place at Mary's Roman Catholic Church, Victoria West, on Monday evening. The bride was given away by her uncle, Thos. O'Connell, wore a smart, traveling suit of navy tricotine embroidered in black silk braid with hat en suite. She wore a corsage bouquet of roses, sweet peas and maidenhair fern. Miss Eileen Ashbee, the bridesmaid, was in a cream serge suit embroidered in blue and white hat. The bridegroom wore the uniform of his regiment and was supported by J. F. Lewis, brother of the bride. The church was beautifully decorated for the occasion. During the ceremony Mrs. Gales sang "Ave Maria" and while the register was being signed, Mr. Craven sang "O Promise Me."

After the ceremony a reception was held at the home of the bride, car-nations and sweet peas being used in the artistic decoration of the reception rooms.

The groom's gift to the bride was a cheque, to the bridesmaid a cameo ring, and to the best man a gold watch chain. The bride was the recipient of many handsome gifts, among them being a cut-glass bowl from the staff of Angus Campbell & Co., with which she has been employed for the past eight years.

Amid showers of confetti and rice, Lieut. and Mrs. Craven left for the mainland, where the honeymoon will be spent. On their return they will reside in Victoria West, and will be "at home" to their friends early in October.

**MARION EVELYN COX IN RECITAL TUESDAY**

An interesting musical event is scheduled for Tuesday evening next at the Empress Hotel, when Miss Marion Evelyn Cox, the popular contralto, will give a song recital commencing at 8.30 o'clock. Miss Cox has an international reputation as a singer, and her voice is familiar to thousands who have not heard her in person through the medium of the Edison Re-Creations.

On Tuesday evening, Miss Cox will be heard in several numbers in comparison with the Edison Re-Creation of her voice. Miss Doris Proudfit, the assisting violinist will also render many favorite selections.

The recital is free, but admission can only be gained by cards which may be obtained at Kent's Edison Store, 1904 Government St., as long as accommodation remains.

Miss Cox comes to Victoria from a long and successful concert tour of Eastern Canada and the United States. She has an exceptionally pleasing contralto voice, and a most magnetic personality and a treat is in store for those who hear her.

**How to Beautify a Summer Soiled Face**

It's really a simple matter to renovate a face soiled by sun, winds or dirt. Ordinary mercurochrome, "Useful" cream, will transform the worst old complexion into one of snowy whiteness and velvet softness. It literally peels off the outer veil of spruce skin, but so gently, gradually, there's no discomfort. The worst skin comes off, not in patches, but evenly, in tiny particles leaving no evidence of the treatment. The younger, healthy under-skin forming the new complexion, is one of captivating loveliness. One ounce of mercurochrome was to be had at any drug store, is enough to remove any tanned, reddened, pimpled, freckled or blotchy skin. Apply before retiring, washing it off morning.

Many skins wrinkle easily with every wind that blows, with heat, worry, etc. An excellent wrinkle remover, because it tightens the skin and strengthens relaxed muscles, is a wash lotion made as follows: Powdered saxolite, one ounce, dissolved in witch hazel, one-half pint. This gives immediate results.

**Our Entire Stock of Groceries Marked At Our Very Lowest Prices**

**DAVID SPENCER, LIMITED**

Store Hours: 9 a.m. to 8 p.m. Wednesdays, 1 p.m. Saturday, 8 p.m.

### REPORT UNTRUE.

Montreal, Aug. 25.—"There is no truth in the statement that Serbia has requested a Canadian, Dr. Colonel F. Burnham, to leave Montenegro," said Captain A. F. Seferavitch, Consul-General of the Kingdom of the Serbs, Croats and Slavs, this morning.

To-day I received word from my Government in Belgrade that there was absolutely no foundation for the rumor. The cable stated that if Colonel Burnham has left Montenegro, he has done so of his own free will and desire."

### WOMEN MEET.

Toronto, Aug. 25.—University women from all over Canada are in session here to-day at the first annual meeting of the recently formed National Federation of University Women, which brings together for the first time in a common purpose the various Canadian women's university clubs. A feature of the proceedings this afternoon will be the report of the delegate, Miss Jessie Dykes, who represented the Canadian unit at the

### WOULD HEAR PREMIER SPEAK IN THE NORTH

The Liberal Association of Vancouver wishes to hear an address by Hon. John Oliver, during his present trip through the northern country, according to word received at the Parliament Buildings to-day. The Premier's secretary has telegraphed his chief, informing him of the Vancouver people's desire, and it is expected that the Premier's chief executive will be able to make arrangements accordingly.

Mr. Oliver speaks at Vancouver, he will follow closely after W. J. Bowser, K. C., Leader of the Opposition, who spoke in the northern town a few days ago.

No word has been received from the Premier since his departure for the North, but it is expected that he has arrived by this time in Prince Rupert.

## UNEXPECTED TURN TO SESSION WITH HON. C. BALLANTYNE

Delegation From Harbor Marine Company Provokes Criticism of Minister

### SHIPBUILDING ISSUE BONE OF CONTENTION

Criticism leveled at the Federal Government regarding its naval policy on the Pacific and its failure to live up to its promise to place further ship contracts with the Harbor Marine Company here, was answered at a private meeting of the Council of the Board of Trade yesterday afternoon by Hon. C. C. Ballantyne, Federal Minister of Marine and Fisheries. Mr. Ballantyne declared that the present provisions for naval defence were purely temporary, and that permanent arrangements could not be decided upon until after the Imperial Conference on naval affairs next year; and he denied emphatically that he had promised the Harbor Marine Company further contracts, as alleged by a delegation representing the Company, which was present at the meeting.

The Federal Government, said Mr. Ballantyne, had not taken into consideration the question of whether the cruiser and destroyers to be sent to Esquimaux were adequate. The needs of the Pacific Coast, however, had been investigated, he stated, and the conclusions reached probably would form the basis of a plan to be laid before the Imperial conference in 1921. Until that time, he emphasized, the naval policy of Canada could only be a temporary one. Mr. Ballantyne asserted that the war vessels accepted by Canada from the Imperial Government were a big improvement upon the Rainbow and the Niobe and other craft, and he felt that the Government's policy in regard to the craft was the only reasonable one which could be adopted. At the same time, he wished to make it clear that these ships by no means represented the Government's policy in regard to naval defence on the Pacific. This policy, he repeated, would not be formulated until after the Imperial Conference.

Mr. Ballantyne criticized an editorial article which appeared in the morning paper, saying that it was obvious that that newspaper had not kept in touch with the discussion on this question in the House of Commons.

The Sensation.

A mild sensation swept over the harbor when representatives of the Harbor Marine Company met the Minister of falling to live up to his promise to place further shipbuilding contracts with the Company here.

The delegation consisted of J. V. Spratt, President of the Company; Major Bullock-Webster, Capt. Orford, Major Kirkpatrick-Crockett, J. Baxter, and R. R. Neild, former manager of the Victoria Machinery Depot, and associate of Mr. Spratt.

Mr. Spratt and other members of the delegation declared that the needs of the Harbor Marine Company, in accepting the contracts for the two ships now being completed here, had been assured by the Federal authorities that other contracts would follow. As it happened, however, he pointed out, the Government had failed to award additional contracts, however, he felt that the Government had broken faith with the Company. He stated that the Board of Trade had on file correspondence which bore out his assertions in this regard.

Minister Replies.

Considerably aroused by the allegations of the delegation, Mr. Ballantyne replied vigorously. He had not promised further contracts, he declared emphatically. When contracts for the construction of two ships had been let to the Harbor Marine Company he said, it had been made clear that the granting of further contracts on the completion of these vessels, would depend solely upon the Government's financial situation at that time. As it happened, he pointed out, the Government had found itself unable to let further contracts.

The Harbor Marine delegates laid emphasis upon the fact that the Harbor Marine Company was giving employment chiefly to returned men who, they thought, were receiving unfair treatment from the Government.

Call for Withdrawal.

These assertions appeared to cause Mr. Ballantyne much indignation and he answered warmly that no Government in the world had done as much for the returned men as the Canadian Government. He resented such allegations and said he hoped that the delegation would have the good grace to withdraw its statements. The delegation, however, did not recede from its position.

Mr. Ballantyne urged the Harbor Marine Company to go out and get its own contracts as the Government was no longer in the shipbuilding business. He stated that he was deeply impressed by the work which the Harbor Marine yard was turning out and felt that there was no reason why it could not secure further contracts. He asked Mr. Spratt whether he had sent a representative to France to secure contracts there.

Mr. Spratt replied that this had not been done.

Mr. Ballantyne suggested that the company take action in this direction as France and other countries, for that matter, required tonnage.

President J. L. Beckwith, in closing the meeting took a hand in the debate, which had become somewhat heated, by declaring that as a Canadian he strongly resented the statement that the Canadian Government had not done its duty by the returned man. He felt that no country in the world had treated its ex-service men as well as Canada had.

Mr. Beckwith denied that the Board of Trade, as alleged by Mr. Spratt, had on file any correspondence in which the Federal Government had promised further ship contracts. He produced the correspondence which had reached the Board in connection with this matter. The

only communication in which such contracts were mentioned as probable was a telegram from Ottawa stating that contracts might be awarded if conditions were found satisfactory.

In answer to a question from Mr. Beckwith, Mr. Ballantyne stated that the construction of the Esquimaux drydock was part of the Government's fixed policy in which no change had been made. The matter, of jurisdiction, was out of the jurisdiction of his department, but the question had been definitely settled.

Capt. W. H. Logan urged the Minister to ask the Government to stretch a point and award the contract for the new ice breaker to the Wallace Shipyards, Ltd. He assured the Government of the day for having the Malaspina and the Galiano built at Dublin, instead of in Canada.

### MONTREAL MAN SEEKS \$43,000,000 ESTATE

Montreal, Aug. 25.—A claim to a \$43,000,000 California estate now in the hands of the United States Government, the heirs to which have been advertised for a number of years, was yesterday placed in the hands of L. W. Jacobs, K. C., by Hyman Horovitz, of 1375 St. Urbain Street, Montreal.

The estate, it is claimed, was left by Mr. Horovitz's father's uncle, also named Horovitz, who was a bishop in the Roman Catholic Church in the United States. There is a long romance connected with the case, which ended in the death of the bishop, who died in Mount Sinai Hospital, New York, leaving an estate worth \$45,000,000. The bishop was born in Austria, leaving that country after a love affair, which terminated because the girl was not of the same religion as himself.

Mr. Horovitz claims he is in possession of the documents proving that he is the second cousin to the dead bishop. The claimant keeps a small grocery store in this city.

### TESTING DIVINING ROD

French Academy of Science To Find Out What It Really Is.

Paris, Aug. 25.—The "divining rod" has figured so often in the location of water that the French Academy of Science has appointed a commission to determine whether the "rod" is a scientific instrument or a relic of superstition. A trade paper offered funds for the inquiry and the commission has been organized with a number of prominent scientists as members.

### SIDNEY NOTES.

Sidney, Aug. 25.—The S. S. Kathadin, of Seattle, was in port Sunday to clear for James Island with a load of nitre for the Canadian Explosives, Ltd. She left port the same night.

The S. S. Wakeen, Capt. Kelly, of Seattle, cleared from port on Wednesday from Vancouver for 700 nitre, where she is taking on a cargo of cement for the Pulp & Paper Co., of Port Angeles.

Almost a disaster occurred at Parker Island on the evening of August 17 to Mr. Frank Armstrong, better known to all as "Paddy" steward for Parker Island Veterans' Products Co., Ltd., in his efforts to get ashore from one of the company's launches. He stepped into the "dive" basket, which overturned and dumped Mr. Armstrong. Frank was not able to swim, but Ernie McPherson, a fellow employee, dived in and was able to bring Frank safely to shore. While the seriousness of the situation was obvious it also had its comical side. "Paddy" was ducking Mr. Armstrong suffered the loss of 500 cigarettes and a few parcels, but he was soon "dried out" and ashore once more.

The two fishing vessels owned by the Products Co. are busy engaged in shark fishing and are bringing in full packs regularly. The Company has already made two shipments of shark hides to leather and oil, and an appreciation of the number of large shark livers which they are receiving and which is the source of their oil supply, for which there is a large demand. A liquid fish glue is made from the cartilage of the shark's head, while the tails and fins are used for fertilizer and cured by some Chinese firm for shipment to China, so that nearly every part of the shark is of some value.

The Pacific Crating & Manufacturing Co., of Sidney Island, are now busy on the installation of their new machinery and are loading three cars of crating for delivery in Chicago. The Brick & Tile Co. are also busy and shipped a score of bricks to Vancouver on Friday.

The waterfront at Sidney presented quite a lively scene during the last few days, as in addition to the numerous small craft Sidney port "entertainers" about two vessels daily, tugs with booms and cranes in or out clear from Sidney.

Capt. W. A. Ostrom, of Vancouver, accompanied by Mr. G. Townley, also of Vancouver, put into Sidney on Monday evening in the tugboat Bamber, which they have had chartered for the last two months from the B. C. Cement Works at Bamberton. Capt. Ostrom reports many difficulties in navigation during their trip down from Ocean Falls owing to the dense smoke caused by the lush fires, and owing to this fact they ran on a reef and damaged their boat considerably. The River Inlet are now bringing it down to go on the ways at Yarrow's for an examination by the insurance people in order to ascertain the damage and also to have the necessary repairs effected.

### VANCOUVER ISLAND NEWS

Fire at Port Alberni.

Port Alberni—Fire on Sunday broke out at the Alberni Pacific Lumber Company's logging camp just back of the Port. The cookhouse caught fire, it is supposed, from a spark lighting on the roof. In a short time the building was burned, together with a big supply of food and dining and kitchen equipment. The total loss is estimated to be about \$10,000. No insurance was carried. Men who were on the job when the fire was first discovered say it could have been put out immediately if the water pressure had been adequate.

### Moving to Salt Spring.

Ganges—Mr. A. Oxenham, of Formby House School, has purchased the property of the late Arthur Ward at Ganges, and intends taking up residence there about the first of next month. At the present time Mr. and Mrs. Oxenham and little daughter are spending a week or so at their cottage in North Vancouver.
