TOWN MEETING WARRANT.

*Middleton ss. To Oscar Cram, Constable for the
Town of Middleton, in the County of Essex.*

GREETING.

In the name of the Commonwealth of Massachusetts, you are directed to notify the inhabitants of the Town of Middleton qualified to vote in elections and in town affairs, to meet at the Town Hall in said Town, on

Monday, the Seventh day of March, next,

at six o'clock A. M., for the following purposes, viz :

To choose a Moderator to preside at said meeting and all other meetings to be held under this warrant.

To choose by ballot the following town officers for the ensuing year, viz : Town Clerk, three Selectmen, one Assessor for three years, one Overseer of the Poor, for three years, one School Committee for three years, Highway Surveyor for one year, two trustees of Flint Public Library, for three years, Constable for one year, Treasurer, Tax Collector, Auditor, three Fence Viewers, Tree Warden, Superintendent of Burials, and Janitor for Town Hall.

Also on the same ballot to give in their votes, "Yes" or "No" in answer to the following question: Shall license be granted for the sale of intoxicating liquors in this town?

The Polls will be opened at six o'clock A. M. and may be closed at 2.30 P. M.

You are hereby required to notify and warn said qualified inhabitants to meet subsequently, at the Town Hall on Wednesday, March 2, 1910 at 7.30 o'clock P. M. for the following purposes, viz :

ART. 1. To choose such other town officers as are required to be chosen annually.

ART. 2. To see how much money the town will raise to defray town charges the ensuing year and determine how the same shall be appropriated.

ART. 3. To see what action the Town will take in regard to enforcing the liquor law.

ART. 4. To see how much money the Town will raise for the observance of Memorial day.

ART. 5. To see what action the Town will take in regard to interest on taxes.

ART. 6. To see if the Town will by request of a committee appointed at a special Town Meeting held in Danvers on February 8, 1910, nominate a committee to confer with the Danvers committee in regard to some arrangement for a water supply for the Town of Middleton and its inhabitants.

ART. 7. To see if the Town will authorize the selectmen to employ counsel to appear before the Legislative Committee in favor of the Town on Senate Bill No. 79.

ART. 8. To see if the Town will vote to require the Highway Surveyor to provide a suitable quantity of sand and use the same on the sidewalks when covered with ice.

ART. 9. To see what action the Town will take in regard to compensation of Tax Collector.

ART. 10. To see what action the Town will take in regard to letting the Town Hall.

ART. 11. To see what action the Town will take concerning the cemetery.

ART. 12. To see what measures the Town will adopt for the removal of snow from the sidewalks.

ART. 13. To see if the Town will appropriate a sum of money for medical examiner for school children according to law.

ART. 14. To see if the Town will authorize the Treasurer, under the direction of the selectmen, to hire such sums of money as may be necessary to meet current expenses in anticipation of taxes of the present year and payable therefrom.

ART 15. To see if the Town will authorize the Collector to use all means of collecting the taxes which Town Treasurer when appointed may use.

ART. 16. To see if the Town will pay for bonds required of Town officials.

And you are directed to serve this warrant by posting attested copies thereof, one at the Town Hall and one at Centre Post Office and one at the Post Office in South Middleton in said Town seven days at least before the time of holding said meeting. Hereof fail not and make due return of this warrant with your doings thereon, to the Town Clerk, at the time and place of said meeting aforesaid.

Given under our hands this 21st day of February,
A. D. 1910.

MAURICE E. TYLER,
H. ERSKINE HOWE,

Selectmen of Middleton.

ANNUAL REPORTS
OF THE
SCHOOL COMMITTEE
AND
SUPERINTENDENT OF SCHOOLS
OF THE
TOWN OF MIDDLETON
FOR THE YEAR ENDING JANUARY 1, 1910

SALEM, MASS.
MILO A. NEWHALL & CO.
1910

Report of the School Committee.

To the Citizens of Middleton and the Secretary of the State Board of Education:—

It is again our duty and pleasure to prepare the annual report of the Middleton School Committee. This will be of a general character only, as a review of the school work in detail by Supt. Thomson is given in the pages which follow.

The School Committee organized for the year 1909-10 at the regular March meeting as follows:—Prince T. Woods, M. D., Chairman; Ansel P. Tyler, Secretary and Purchasing Agent; Albert F. Henderson, Special Visitor for Inspection of Schools.

The year just past has been a busy one. Changes were made in the school house doors to make them conform with the State laws for public buildings. Minor repairs were made both inside the building and on the roof, and there are still other repairs which need attention. The windows should be thoroughly overhauled to put in shape weakened and worn sash and casings. There is a small portion of the south wall of the cellar that is in need of repair before it breaks through.

Alterations in the heating and ventilating system, which were found necessary during the year, have proved very effective and the halls and school-rooms have been warm and comfortable at all times, with much better ventilation than before.

The janitor service has been excellent and because of the changes in the heating system, and careful operation of same, a saving of nearly eight tons of coal has been made in the cost of heating the building.

While Middleton schools rank well with others in the Commonwealth, and are superior to many in large cities outside of

the State, it must be remembered that to maintain good schools liberal support from the citizens is necessary. We therefore hope that the Town at its Annual Meeting will make a substantial appropriation for the support and maintenance of the Schools, so that the present high standard may continue to improve.

We have the same excellent corps of teachers and the same superintendent and all are doing good work. The special instructors in drawing, (Miss London) and music, (Mr. Stone,) have done exceptionally well and have been well sustained by the teachers of the several grades. We hope that the same working force can be retained for the coming year. It will be better for the Town and better for the schools. Changing teachers, when we already have good ones, should be avoided if possible.

Because of two fatal cases of diphtheria it was found necessary to close the schools for two weeks.

We regret exceedingly to be obliged to report that tardiness and absence from school on the part of pupils has been excessive during the year. This is a serious matter, to the prevention of which parents should give their careful attention. So far as possible they should co-operate with the teachers, and the committee, to secure better attendance and punctuality on the part of the pupils. Have them at school every school day if possible and **HAVE THEM ON TIME!**

The painting done inside the school-house has been a great improvement and it is to be hoped that the Town will make an appropriation for painting the exterior of the building.

The course in "The First Principles of Agriculture", which was introduced into the grammar grades on recommendation of the Chairman, has proved to be a success. As conducted by the Superintendent and teachers it has awakened much interest among the scholars, who are learning how things grow and how dependent we are upon the farm for our daily food.

The matter of transportation of school children still calls

for careful attention on the part of the committee. The conveyances should be kept in good repair and in a thoroughly sanitary condition. Ample provision should be made at all times for the comfort of the small passengers, who must take a long and sometimes cold ride—in order to reach school. Those who live on transportation routes should make a special effort to have their children on time, in order to avoid serious delays and to insure prompt arrival at the school.

We take this opportunity to thank the citizens for their cordial support during the past year and to again express our appreciation of the work done by all our teachers and the Superintendent of Schools. We hope that we have merited your approval and that you will show it by a liberal and substantial appropriation for the support and operation of Middleton schools. We look forward with the firm conviction that another year will show still better schools, better work and better progress.

Respectfully submitted,

MIDDLETON SCHOOL COMMITTEE.

PRINCE T. WOODS, M. D.

Chairman.

ANSEL P. TYLER,

Sec'y and Purchasing Agent.

ALBERT F. HENDERSON,

Special Visitor of Schools.

Report of the Superintendent of Schools.

To the School Committee:

GENTLEMEN:

It gives me pleasure to submit to you this my fifth annual report as Superintendent of Schools of the Town.

In making a report at this time, approximately the middle of the school year, we must of necessity cover the second half of the last school year, from January to June, and the former half of the present, from September to January and in planning for the year to come there must be a look ahead to ascertain the conditions of the schools for the next school year. It must also be borne in mind that by the law of the Commonwealth the statistical tables of school attendance cover the school year ending June, 1909.

The schools of Middleton have enjoyed two very prosperous years. The same corps of teachers has been retained and has maintained a standard of excellence in the work accomplished. The Town may be justly proud of its schools. The school officials who have visited Middleton during the last year have in several instances spoken in very complimentary terms of our work.

Just as this goes to print Miss Helen Lock of the Lower Grammar resigns to take a position in Malden.

TEACHERS' SALARIES.

In order to retain our teachers it has been necessary to increase their salaries. This money has been well spent. If a teacher of known excellence who has the power to inspire her pupils with ambition, and require their best efforts, can be retained by an increase of a dollar or two a week it will prove a

gain to the well being of the town. Teachers' salaries have of necessity advanced with the increased cost of living and Middleton must meet the increase if she wishes to maintain her standard of schools.

GRADUATION.

There were but two pupils to graduate from the Grammar school last spring; both of whom entered the Danvers High school. Owing to the small number of graduates the Grammar school undergraduates assisted in the closing exercises, furnishing the usual pleasing program.

ELEMENTARY AGRICULTURE.

Last spring a class in elementary agriculture was started. The principles of this very important and useful science were studied from a text book supplemented by some practical work done in the fields. Some successful grafting was performed by the children. There was only a beginning made and we hope to carry on grafting, pruning and other field work. During the present year weekly lessons have been given in the principles of agriculture. This work should be done in an experimental way but there is no room in which to perform the experiments. If a plot of ground could be secured, a school garden could be carried on with both pleasure and profit to the pupils. The great difficulty with a school garden is to get it cared for in the summer.

ARRANGEMENT OF SCHOOL.

In all probability there will not be accommodation for the three grades in the Grammar room next year. Some of the other rooms will be obliged to undertake three grades leaving two grades in the Grammar room.

DRINKING CUPS.

Since it has been pretty well established that the common drinking cup has been to blame for the spread of much conta-

gious disease, it would seem wise to establish a drinking fountain in each of the basements—the boys' and the girls'—and do away with the old cup used in the common. This can be done at slight expense.

MUSIC AND DRAWING.

The work in music and drawing has been conducted in a most commendable manner during the year. Pupils and teachers constantly receive fresh impulse to do their best because of the never failing zeal of the music supervisor. The reports of these special teachers will be found in the appendix.

ATTENDANCE.

Again, Middleton's low rate of attendance must be commented upon. Why we should fall behind in this matter is always a query with me. There seems to be a laxity on the part of parents to see to it that their children are in school every day. We trust for a decided improvement in this respect during the coming year.

The fidelity of the teachers to their work and their cordial attitude toward supervision make my day in Middleton always a pleasure. The pleasant relation with the school committee is very gratifying.

Respectfully submitted,

ANDREW S. THOMSON,
Supt. of Schools.

Report of Music Teacher.

MR. A. S. THOMSON, Supt. of Schools.

Dear Sir:

It gives me pleasure to write of the steady improvement in music in the Middleton school. Many voices show real musical quality, revealing a resonance and purity of tone very gratifying.

A marked improvement has taken place in sight singing; the greatest improvement, however, has been made in interpretation. Many of the pupils now perceive that the mere transformation of written symbols into sounds is not music, that real music must have feeling,—soul.

The teachers deserve much praise for their efficient work; they have not only entered into the spirit of the music themselves, but have been able to impart this spirit to their pupils.

I take this opportunity to thank the pupils for the cheerfulness they have evinced in their work, for the respect shown me and the attention given me, and for their many deeds of kindness,—all of which have greatly endeared them to me.

Respectfully submitted,

HENRY L. STONE.

Report of Drawing Teacher.

MR. A. S. THOMSON, Supt. of Schools.
Middleton, Mass.

Dear Sir:

It gives me great pleasure to be able to say that the work in drawing, in the school, during the past year, has shown very good results. The children show the desire and willingness to express themselves by means of this language, and aided by the constant efforts of the teachers, we may hope to produce good work.

I wish to thank the Committee for their ready response to my suggestion in last year's report. We are now using the objects which I selected and find that they are supplying just what was missing in making object drawing more interesting to the children.

Another great help, would be a set of water-color tins, that is, small tin dishes in which to hold water during a painting lesson. At present we are laboring under difficulties in that particular direction, as the children are obliged to use an assorted set of china cups and ink-wells of all sizes. These tin dishes can be purchased for a very small sum.

I wish to thank the teachers for their interest and their ever ready assistance. Their co-operation is what is necessary to make the work successful.

Respectfully submitted,

GOLDIE LONDON.

School Calendar.

1910-1911.

- March 25. Schools close for spring vacation.
- April 4. Schools open for spring term.
- June 17. Schools close for summer vacation.
