Subject: Dictator who Perverts National Health Insurance Activities

To : Ch., TCAR

From : "Anonymous"

Dated : 13 April, 1950

Sir:

I am one of the officials working in a cirtain village office of the National Haelth Insurance Organization.

I know it's not proper to write you a letter sent from "anonymous", but I have to do it due to the reason what you will understand when you have read the letter.

You probably know that the present state of the Nat'l Health Insurance business is facing a deadlock in various unfavorable circumstances. As means to overcome this deadlock, we, the village and town offices' workers, are striving day and night for collecting of insurance fees in arrears.

However, it is regretable and resentful to know that there is a boss who fills his own pocket by governing the Nat'l Health Insurance, pretending as though not knowing of our efforts. The League of Miyagi Prefectural Nat'l Health Insurance Organizations (Office - c/o Social Works Hall, 1 Atozuke-cho, Sendai) is collecting tens of thousands of Yen from each of the town and village N.H.I.Offices for its ¥ 4,000,000 fiscal budget in 1950. In spite of having an important mission as the League, they spend the budget for their daily feasts of drinking and eating. This League seems a democratic organization in appearance, but is actually being administered arbitrarily by a man, named Yoji GOTO. I heard there are embezzlement and misappropriation in the League. So when the auditors come to the League's Office, GOTO usually treat them

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

with sake and food, not showing them the books at all. Being he has been in the Govt. office for long years and is still influential among the Govt. officials, we are affraid of his retaliation if we take a step against him. Few years ago, he was asked to resign from the post. But he is still holding the position

I can't write here each of his evil conducts. But I'm sure he has made some preparations against the days of investigation as he is quite smart on such business. He might be a free man, if there was no proof of his crimes. I believe that if there was conducted an unsigned ballot of confidence, 99% of voters would cast a vote against him.

I request, therefore, you would be kind enough to take any measure to drive him out for the sake of 5,000,000 powerless insurants.

An Official*
of
Nat'l H. Insurance office

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

REVIEW OF MATSUSHIMA NHI PROGRAM, MIYAGI KEN

1. Origin of Program

a. This town has a population of 15,378, consisting of 2,666 house-holds.

b. From 22 May 1943 to July 1948, the NHI program of this town was operated by the local agricultural association. It was stated that in November 1948, the staff of the local agricultural cooperative, the members of the local town assembly, and "Sodan-iin" who represent the people in their respective block, conferred and came upon the conclusion to have the local government operate the NHI program. In this case, the official stated that the "Sodan-iin," ~~or block leaders, visited each house-hold in their respective area, or summoned the heads of households in his area to his home~~ CONTACTED EACH HEAD OF THE HOUSEHOLD and "asked for their opinion" on the mode of operation of the NHI program. This matter was then taken up and SUBSEQUENTLY approved by the town assembly. The actual operation commenced on 1 Feb. 1949. The town office however, did not inherit any debts or profits from its predecessor.

c. There are a total of 64 "Sodan-iin" in this town, and according to the town official, they are elected to their post by the people of their respective blocks and do not receive any compensation for their work. "These people are capable of doing the job, and they are not influential persons." Their term of office varies from 1 to 2 years which is decided by the people of the block at the time of election. Prior to the termination of a "Sodan-iin," a successor is elected and reported to the town office. Of the 64, 23 are also "Distribution Liaison men (Haikyu Renraku-iin, an entirely separate group from the Sodan-iin, ~~whose sole duties are to distribute ration tickets and notify people in his area of special rations~~), 1 assemblyman, and others consist of farmers,

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

merchants, and fishermen. The town official stated that ~~four~~ MAJORITY of those elected to office dislike their positions due to the many duties involved. Some of their duties are: disseminating all information received from the town office; encouraging payment of delinquent premiums; acting as consultants for the people of their respective blocks concerning private and public matters; and conveying the opinion of the people in their respective areas to the town office.

2. Staff

The public welfare section consists of insurance sub-section, Public Health sub-section, and public assistance sub-section. The chief of the public welfare section is also the chief of all 3 sub-sections. Besides the chief, the NHI sub-section consists of 2 public health nurses, 1 clerk (female) in charge of qualification and filing-in forms on notification of premiums due (premiums are collected quarterly), 1 tax collector whose secondary duty is collecting NHI premiums for which he receives ¥ 4,694 per ~~year~~ MONTH (HE IS NOT ON THE PAYROLL OF THE TAXATION SECTION.) from the NHI special fund. ~~A plan has been drawn to hire 1 part-time doctor on an advisory capacity at a rate of ¥500 per day for 100 days during the fiscal year 1950. His duties will include physical examination of the insured, lectures on public health, and advise concerning prevention of communicable diseases.~~

3. Budget

4694.25

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

5. Collection of Contributions

a. Premiums are assessed on the basis of property rate(50%), equality rate(20%), and family rate(30%). The highest premium is ¥8,220 (only one household) and the lowest is ¥111 per year. The average premium is ¥1,463 annually.

b. The NHI official stated that the tax collector mentioned under "Staff" collect all premiums under NHI, however, spot checks revealed that he collects delinquent premiums only, while others pay either directly to the town office, or through the tax payment ~~association.~~ SAVING COOPERATIVE

c. As of 31 May 1950, this ~~association~~ NHI had a deficit of ¥1,963,176.54. Of this amount, ¥1,515,560 is arrears in premiums, and ¥447,616.54 is the amount due to the insurer by the insured. The explanation for the latter figure is that from Feb. 49 to July 49, the NHI paid in full to the medical practitioner and later collected 30%. From August 1949, 50% of the cost was provided by NHI and the insured paid the equal amount to the medical practitioner at the time treatment is received.

d. Notices for collection of premiums are distributed through the "Sodan-iin" to the household concerned.

6. Medical Care Services and Facilities

a. There are 8 medical practitioners in this town and all of whom are under contract with NHI. In addition to the above, the NHI has contracts with 38 public and private hospitals, and clinics in a nearby city (Shiogama City). ~~There are no complaints from doctors on the NHI program.~~

7. Cash Benefits

a. Funeral aid is ¥300 per case.

b. Birth allowance is ¥200 per case.

8. Medical Fee and Payments

a. The point system is used (¥9 per point).

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

b. 50% of medical bills are paid directly to the medical practitioner by the patients. Medical bills in equal amount are sent by the practitioner to the town office who in turn sends it to the Federation of NHI where the bills are reviewed and returned to the town office for disposition. This whole process takes approximately 3 months before the practitioner receives his money from the time treatment is administered. For example: medical bills received during the month of March ARE sent to the Federation on 10 Feb; bills are then returned to the town office by the 10th of May. The official stated that the Federation recommended that bills be paid within 21 days following the receipt of the reviewed bills.

9. Appeal Procedure

A few complaints were received last year and these were settled at the local level. No complaints has been received this year.

10. Advisory Council

a. The advisory council consists of 1 representative of the MED. PROFESSION, 1 REP. PUB. INT.

b. The town has a council which held a meeting on 20 July 1950 at which the council discussed the subject "What method is most practical in collecting premiums." Council meetings are held once every 2 months.

11. Information to Persons Concerned

In Feb. 1949 the town office held block meetings throughout the town at which the NHI program was explained. The official stated that the citizens are very familiar with the program.

12. Reporting

Monthly operational report sent to prefectural insurance section through the district office.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

13. Spot Checks

a. Six households from 4 separate blocks were picked at random and interviewed. The occupation of the heads of the households were as follows:

(1) Employee of a candy shop

(2) Operator of a small sightseeing sailboat

(3) Fisherman

(4) Railroad employee

(5) Retired Government Railway official

(6) Farmer (formerly "Tonari-gumi-cho")

(7) FARMER (SODAN-IIN AND AT THE SAME TIME DIR. OF TPSC)

b. All those interviewed, spoke favorably of the NHI program, **

(8) FARMER (A TONARI GUMI CHO)

The household of the railway employee is covered by NHI and the Railway

(9) PHYSICIAN (GYNECOLOGIST)

Workers' Mutual Aid Association. The head of the household stated that his household would like to drop out of NHI, however, the town official refused and told him that he has nothing to lose since HIS ~~family household~~ DEPENDENTS get full coverage by being insured under NHI and Mutual Aid Association (NHI and Mutual Aid Association share the medical bill in equal amounts.) This particular household is, at the present, delinquent in premiums for 1 year. The town official, according to the head of the household, visits him once every 3 months and encourages him to pay the premiums. No pressing letter has been received as yet.

c. During the course of Spot Checks, the following ADDITIONAL information was obtained concerning "Sodan-iin," and the existence of a block tax payment SAVINGS COOP. ~~association~~ which collects taxes and premiums for their respective blocks.

(1) Organization of present "Tonari-gumi" system obtained from a former "Tonari-gumi Cho" AND THE SODAN-IN is illustrated below:

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

Copy 3

Town office

Sodan-iin (64 in this town; this figure obtained from town office)

~~Block Kai (61 households in each Block Kai)~~

Tonari-gumi (6 ~~members under 1 Block Kai~~ 3-6 IN EACH BLOCK)

Households (10-14 households under 1 Tonari-gumi Cho)

(2) The "Sodan-iin" is the contact man between the town office and the ~~Block Kai~~ TONARIGUMICHO. It was stated that their duties consist of relaying information, distributing premium and tax payment notices TONARIGUMICHO (because of TPSC study in his area, total 64) to each ~~Block Kai~~, and representing the people in their respective block. ~~In instances,~~ The Sodan-iin also acts as consultant for the households in his area whenever "they have a problem or want to give their opinion on public matters." ~~The Block Kai in~~ THE TONARIGUMICHO turn relays it down to the households, ~~through the Tonari-gumi.~~

(3) All persons interviewed were aware of the fact that the "Tonari-gumi" system was abolished, however, 4 of the 8 interviewed outright admitted that it still existed and consistently referred to it as the "Tonari-gumi." It was learned that in most cases each head of the household in their respective area would assume the duties of Tonari-gumi and by rotation, ~~(one of those interviewed, a farmer, formerly assumed the duties of Tonari-gumi).~~ In other cases, the head of the household with the most free time continually assume the duties as such, and are usually wealthy people. The majority of the middle and lower class people are

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

reluctant to assume the duties of Tonari-gumi ~~Association~~ C40 due to the time and expenses involved. These people do not receive any compensation for their work. Their duties consist of the following:

(a) Dissemination of information received from town office, through ~~channels~~ THE SODAN-IN, to households in his area.

(b) Distribution of premium collection notices.

(c) Distribution of food ration tickets RECEIVED FROM RICE DIST. STORE THROUGH THE SAVING COOP.

(4) The Tax Payment ~~Association~~ SAVING COOP. which handles the collection of premiums and taxes exists in several blocks. Some of the blocks have 1-3, and in others no such organization exists. It was learned that THE TOWN OFFICE SUGGESTED THE ~~these associations~~ COOP ~~were organized locally and do not receive any compensation for their work.~~ THE PURPOSE IS TO PROMPT PAYMENT OF TAXES. The assumption of duties as collector, in most cases, are also on rotation basis among head of households affiliated with the Tax Payment ~~Association.~~ SAVING COOP. The primary purpose for the establishment of this organization is to relieve the people in the block ~~of~~ OF the year-end taxes BY ~~saving~~ DEPOSITING SMALL SUM OF MONEY DAILY, EVERY TEN DAYS, OR MONTHLY ESTABLISHMENT OF which includes ~~town residence tax, Prefecture resident tax, land tax, and house tax;~~ INHABITANT TAX, AND PROPERTY TAX AND OTHER TAXES; however, affiliation is not compulsory. Roughly estimated NHI premiums and taxes are turned over to the ~~association~~ COOP. by the head of the household ~~monthly or every ten days depending on when he receives his pay.~~ The ~~association,~~ COOP. in turn, deposits the money collected in the bank, and withdraws the amount necessary for NHI premium when premium collection notice for the person

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

concerned is received by the ~~association~~ COOP. from the town office. THROUGH THE RESPONSIBLE SODAN-IIN. The same procedure applies to tax payment. Persons who are not affiliated with the association pay their premiums directly to the town office. During the review of this program at the town office, the official stated that one person employed in the tax office collects all premiums; however, spot checks revealed that this premium collector makes his rounds only to delinquent households.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

fund raising campaigns such as
* It was also learned that ~~xxxxxx~~ when/Community Chest, Red Cross, Green Cross (an organization who raises funds to control floods by preserving forestry, and aid~~xxx~~ flood victims. This organi-
only and
zation exists/in Miyagi Ken.)/prefectural raffles are conducted in th~~i~~stown, the "Sodan-iin" are allocated a certain amount
be raffle tickets to be sold
to/collected or/sold in ~~xxxxxxxxxxxx~~ their respective blocks. According to the "Sodan-iin" they must collect or
the
sell/allocated sum or number.

4. Coverage (As of 1 April 1950)

	Household	Persons
a. Population	2,666	15,378
b. Covered by NHI	2,506	13,788
c. Covered by SHI or MAA only		1,194
d. DLSL	105	364
e. Medical practitioners and their dependents	8	32

** however, the ~~xxxxxx~~ physician complained that the NHI ~~xxxxxxxxx~~ owes him approximately ¥100,000 during ~~xxxxxxxx~~ for treatment administered ~~xxx~~ the months April, ~~xxxxxx~~ May, June, ~~xxxx~~ and July 1950. He claims that lack of interest ~~xxxxxxxxxxxx~~ shown this ~~is~~ due to the ~~xxxxxxxxxx~~ by the town officials toward ~~xxx~~ medical practitioners.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

REVIEW OF MATSUSAKA NHI PROGRAM, MIYAGI PREF.

1. Origin of Program

a. This town has a population of 15,378, consisting of 2,666 households.

b. From 22 May 1943 to July 1948, the NHI program of this town was operated by the local agricultural ~~cooperative.~~ ASSOCIATION. It was stated that in November 1948, the staff of the local agricultural cooperative, the members of the local town assembly, and "Sodan-iin" (WHO REPRESENT THE PEOPLE IN THEIR RESPECTIVE BLOCKS) conferred and came upon the conclusion to have the local government operate the NHI program.* This matter was then taken up and approved by the town assembly. The actual operation commenced on 1 February 1949. The town office however, did not inherit any debts or profits from its predecessor.

c. There are a total of 65 "Sodan-iin" in this town, and according to the town official, they are elected to their post by the people of their respective blocks and do not receive any compensation for their work. "These people are capable of doing the job, and they are not influential persons." Their term of office varies from 1 to 2 years which is decided by the people of the block at the time of election. Prior to the termination of a "Sodan-iin", a successor is elected and reported to the town office.

Of the 65, 23 are also "Distribution Liaison men" (Haikyu Renraku-iin) (AN ENTIRELY SEPARATE GROUP FROM THE SODAN-IIN) whose SOLE DUTIES ARE TO distribute ration tickets and notify people in his area of special rations. 1 assemblyman, and others consist of farmers, merchants, and fishermen.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

* (In this case, the official stated that the "Sodan-iin", or block leaders, visited each household in their respective area, or summoned the heads of households in his area to his home and "asked for their opinion" on the mode of operation of the NHI program.)

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

The town official stated that few of those elected to office dislike their positions due to the many duties involved. Some of their duties are: disseminating all information received from the town office; encouraging payment of delinquent premiums; acting as consultants for the people of their respective blocks concerning private and public matters; and conveying the opinion of the people in their respective areas to the town office.

2. Staff

The public welfare section consists of insurance sub-section, Public Health sub-section, and public assistance sub-section. The chief of the public welfare section is also the chief of all 3 sub-sections. Besides the chief, the NHI sub-section consists of 2 public health nurses, 1 clerk (female) in charge of qualification and filling-in forms on notification of premiums due, (premiums are collected quarterly,) and 1 tax collector whose secondary duty is collecting NHI premiums for which he receives ¥ per year from the NHI special fund. A plan has been drawn to hire 1 part-time doctor on an advisory capacity at a rate of ¥500 per day for 100 days during the fiscal year 1950. His duties will include physical examination of the insured, lectures on public health, and advise concerning prevention of communicable diseases.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

4. Collection of Contributions.

a. The NHI official stated that the tax collector mentioned under "Staff" collect all premiums under NHI, however, spot checks revealed that he collects delinquent premiums only, while others pay either directly to the town office, or through the tax payment association.

b. As of 31 May 1950, this association had a deficit of ¥1,963,176.54. Of this amount, ¥1,515,560 is arrears in premiums, and ¥447,616.54 is the amount due to the insurer by the insured. The explanation for the latter figure is that From February 1949 to July 1949, the NHI paid in full to the medical practitioners and later collected 30%. From August 1949, ~~it was decided that~~ 50% of the cost ~~would~~ was provided by NHI and ~~that~~ the insured ~~pay 50%~~ PAID THE EQUAL AMT. to the medical practitioner ~~when~~ AT THE TIME treatment is received.

c. Notices for collection of premiums are distributed through the "Sodan-lin" ~~either to the Tax payment Association of~~ to the household concerned. (~~The operation of the Tax Payment Association is given under "Spot Checks."~~)

6 B. Medical Care and Services and Facilities

a. There are 8 medical practitioners in this town all of whom are under contract with NHI. In addition to the above, the NHI has contracts with 38 public and private hospitals, and clinics in a nearby city (Shiogama City.)

b.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

** Premiums are assessed on the basis of property rate, equality rate, and family rate. The highest premium is ¥8,220 (only 1 in H.) and the lowest is ¥111 per year. The average premium is ¥1,463 annually.

B. Spot Checks

a. Six households were picked at random from 4 separate blocks and interviewed. The occupation of the heads of the households were as follows:

(1) Employee of a candy shop

(2) Operator of a small sightseeing sailboat

(3) Fisherman

(4) Railroad employee

(5) Retired Government Railway official

XXX (6) Farmer (FORMERLY "TONARI GUMI CHO")

c. During the course of ~~the interviews~~ SPOT CHECKS, the following information were obtained concerning "Sodan-iin," and the existence of a block tax payment association, which collects taxes and premiums for their respective blocks, were obtained.

(1) Organization of present "Tonari-gumi" system obtained from a former "Tonari-gumi ~~member~~ CHO" is illustrated below.

Town office
Sodan-iin (64 in this town; This fig. obtained from town office)
Block Kai (84 HH in each Block Kai)
Tonari-gumi (6 members under 1 Block Kai)
Households (14 households under 1 Tonari-gumi ~~member~~ CHO)

(2) The "Sodan-iin" ~~appear to be~~ are the contact man between the town office and the Block Kai. It was stated that their duties consist of relaying information, distributing premium collection notices to each Block Kai, and representing the people in their respective block. (from town officials, etc.) In instances, the Sodan-iin acts as consultant for the Households in his area whenever "they have a problem or want to give their opinion on public matters." The Block Kai in turn relays it down to the households through the Tonari-gumi.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

(5.) All ~~of the~~ persons interviewed were aware of the fact that the "Tonari-gumi" system was abolished, however, 2 of the 6 interviewed outright admitted that it still existed and consistently referred to it as the "tonari-gumi." It was learned that in most cases each head of the household in their respective area would assume the duties of Tonari-gumi by rotation (one of those interviewed, a farmer, formerly assumed the duties of Tonari-gumi). In other cases, the head of the household with the most free time continually assume the duties as such, and are usually wealthy people. The majority of the middle and lower class people are reluctant to assume the duties of Tonari-gumi due to the time and expenses involved. These people do not receive any compensation for their work. Their duties consist of the following:

(1) Dissemination of information received from town office, through channels, to households in his area.

(2) Distribution of premium collection notices.

(3) Distribution of food ration tickets.

(4) The Tax Payment Association which handles the collection of premiums and taxes exists in several blocks. Some of the blocks have 1, ~~OR 2~~ TPA, ~~in others no such org. exist. in others 2 TPA, and none~~. It was learned that this association was organized locally and do not receive any compensation for their work. THE ASSUMPTION OF DUTIES AS COLLECTOR, IN MOST CASES, ARE ALSO ON A ROTATION BASIS AMONG ALL HOUSEHOLDERS. Their PRIMARY purpose for the establishment of this organization is to relieve the people in the block of the year-end taxes which includes Town residence tax, prefecture residence tax, land tax, AND house tax; however, affiliation is not compulsory. Roughly estimated NHI premiums and taxes are turned over to the association by the head of the household monthly or every ten days depending on when he receives his pay. The association, in turn, deposits the money collected in the bank, and withdraws the amount necessary for NHI premium when premium collection notice for the person

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

← During the review of this program at the town office, the official stated that one person employed in the tax office collects all premiums; however, spot checks revealed that this premium collector makes his rounds only to delinquent households.

b. All those interviewed spoke favorably of the NHI program. The household of the railway employee is covered by NHI and the Railway Workers' Mutual Aid Association. The head of the household stated that his household would like to drop out of NHI however, the town official refused and told him that the has nothing to lose since his household gets full coverage by being insured under NHI and Mutual Aid Association. (NHI and Mutual Aid Association share the medical bill in equal amounts.) This particular household is, at the present, delinquent in premiums for 1 year. The town official, according to the head of the household, visits him once every 3 months and encourage him to pay the premiums. No pressing letter has been received as yet.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

concerned is received by the association from the town office. ~~and~~ the same PROCEDURE ~~FOR PAYMENT OF TAX~~ applies to tax payment. Persons who are not affiliated with the association pay their premiums directly to the town office.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

Review of the SHI Program
of the Katakura Spinning Co.
Sendai Brandh, Sendai City. Miyagi Ken

1. This is an association operated program, and is a branch of the Katakura Spinning Company SHI Association, the main office of which is in Tokyo. There are 2 other Branch Associations in Miyagi Ken.

2. Staff

This consists of an official, 1 clerk, and 1 trainee. This staff also handles welfare and recreational programs for the employees of this factory.

3. Budget and Subsidy

~~See Attached~~

4. Coverage (As of 18 August 1950)

a.	Primary insured	288
	(1) Female	228
	(2) Male	60
b.	Secondary insured	158
	(1) Male	50
	(2) Female	78

5. Collection of Contributions

a. Deductions are made monthly from wages and salaries.
b. The rate of contribution is 4% of the standard MONTHLY REMUNERATION (2% paid by employee)
c. Highest premium ¥360; lowest ¥40; average ¥80.

The majority of the insured pay ¥70 (4th class)

d. Premiums collected are forwarded AT THE END OF THE MONTH to the main office in Tokyo after payments are made to the MFPF, and ~~cash benefits~~ to the beneficiaries; however, when the branch association runs into deficit, the main office defray the amount necessary.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

6. Cash Benefits

In addition to the regular benefits specified by law, a special nursing allowance amounting to ¥600 per case is provided.

7. Medical Care Services and Facilities within the factory

a. A clinic/operated by the management xxxxxxxxxx is utilized by all employees, for minor injuries.

b. All xxmedical facilities designated by the Prefectural Insurance Section are contracted, ~~by this association~~.

c. The xxxxxxxxx Red Cross Hospital is also located in the factory (one section of the factory has been leased to the RED Cross) and the majority of the patients/this hospitalx visit.

d. TB tests are given to all employee yearly, xxxx and physical examinations are given twice a year.
xxxxxxxxxxx

xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx

8. Medical Fees and Payment

a. The point system is used (¥10 per point).

b. The facilities of the Miyagi Ken Medical Fee Payment Fund xxxxxxxxxx are utilized. xxxxxx All payments to the MFPF are made promptly.

c. ~~Medical Bills are submitted to the Medical Fee Payment Fund by the physicians, and paid.~~ The ~~xxxx expenses are then paid by the association to the MFPF.~~

9. Appeals

None

10. Information to persons concerned

a. SHI official from the main office in Tokyo gives lectures on SHI Social insurance to employees twice a year at the auditorium of the factory. Prefectural insurance official also gives lecture on this subject when requested by the official of the branch association.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

b. Training films on sanitation are projected in the auditorium at least three times a year.

c. Leaflets are printed and distributed to branch associations by the main office. These leaflets are posted on xxx bulletin boards located at xxx entrances of xxx dormitories (228 primary insured (female) xxxxx live in dormitories attached to the factory), and office.

11. Reporting

Monthly operational report is sent to the main office in Tokyo.

watch on the family and give guidance." The welfare office stressed the importance of delineating the respective responsibilities of the secretaries and the minsei-iin. It remains to be seen whether the secretaries will be a paralell organization, or whether there will be integration of function with the minsei-iin and a proper measure of subordination by the latter.

c. <u>In-Service Training</u>.

The in-service training director in Akita has a full-time job and is paid from funds of the social affairs section. He was appointed 1 April 1950. Two types of training are given: (1) collective training - conferences of all community officials, minsei-iin, and jido-iin, and (2) so called in-service training - visits are made to welfare officials and on this visits guidance and training at the place of work is given.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

ADMINISTRATIVE REVIEW OF OMINATO TOWN NHI PROGRAM

1. Introduction

The program was association operated from Nov. 1943 to 31 Aug., 48. It became a public operation 1 September 1948.

2. Staff

There is a section chief and 6 other members consisting of 1 accountant, 1 in charge of benefits, 1 on collections, 1 on qualifications, 1 who receives and dispatches documents, and 1 nurse who is unlicensed. The nurse spends 45 of her 48 hours on home visits. This is most unusual compared to all other communities.

3. Budget and Subsidies

a. A budget was not received by this office to date.

b. In the previous fiscal year, the town gave a subsidy of ¥500,000; but this year only ¥3,000 is available. The prefecture contributes ¥200 monthly to help defray the nurse's expenses. Her salary is ¥4,344 monthly. In the last fiscal year, the Ministry of Welfare contributed ¥15,600.

4. Coverage and Premiums

a. The town has a population of 14,450 persons included in approximately 3,100 households. 12,445 persons are covered by NHI which also includes the secondarily insured under SHI.

b. The average premium is ¥1,100 per year and the highest is ¥3,000 (1 household). There are 50 classes of which the 12th class has the largest number of households (45). The annual premium for this group is ¥960.

5. Collection of Contributions

There is a full time collector, but all premiums are collected by the tax office. Just what the full time collector does was not made clear. As of July 12, there was still outstanding 28% of the previous year's premiums.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

6. Cash Benefits and Other Benefits

a. Birth aid - ¥250 - and funeral aid - ¥300 - are the only cash benefits.

b. The patient pays 70% of medical costs and the insurer 30%. The patient pays in full and gets a reimbursement from the town.

7. Medical Care Service and Facilities

a. The town has a national hospital in which there are 220 patients and one doctor. This is probably a TB sanitarium. NHI patients also pay 70% of costs at this hospital.

b. The 5 doctors and the 3 dentists are under NHI contracts. They get no special fees.

c. A former naval officers' barracks will open as a clinic in July 1950. The town purchased the building from the Finance Ministry for ¥1,480,000 and purchased equipment from the Liquidation Office of the Japan Medical Association for ¥250,000. The Welfare Ministry provided ¥700,000 of the total cost.

d. The approval of the purchase of the medical equipment was given by the chief of the public health center. The equipment looked like a pile of worthless junk to the author.

8. Advisory Council

The chief could not remember when it last held a meeting.

9. Guidance or Supervision

a. An official from the district office visits every other month and gives guidance on clerical matters.

b. A prefectural official visits twice a year and points out "deficits" and gives advice.

10. Information

A pamphlet (leaflet) on NHI has been distributed and a meeting was

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

held at which many people attended.

11. Popular Expression on NHI

a. It is felt that the majority of people would reject the program. However, with the opening of the clinic, this trend may be reversed.

b. There are complaints about the 70% cost of medical care compared to 50% in other communities. There is also a desire that the premiums be reduced in amount. This town has few indications of the remotest type of prosperity. With medical costs under NHI at 70%, it is doubtful whether the program is justified. A considerable sum of the funds must go into administration rather than into medical benefits.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

3. Miyagi Prefecture

a. Hospitals and Sanitoria Owned by National Government:

(1) Nagalie Cho (First National Hospital) in Sendai has a capacity of 15 beds, but plans to increase this to 30. It is administered by the Miyagi Ken SHI Society for Government managed SHI.

(2) Naga Machi (Second National Hospital) in Sendai has a capacity of 20 beds. Its administration is the same as that of the Nagalie Cho.

(3) National Hospital in Sendai has a capacity of 500 beds.

(4) Nishitaga Sanitorium in Sendai has a capacity of 110 TB beds.

(5) Miyagi Sanatorium in Yamashta Village has a capacity of 900 TB beds.

(6) Tamura Sanatorium in Tamoura Village has a capacity of 150 TB beds.

(7) Tohoku Shinsei in Nittamura Village has a capacity of 650 leper beds.

b. The University Hospital , with a general disease capacity of approximately 1000 beds, is in Sendai. The Governor makes a contract for SHI and SI with the University Hospital. Here the point system for food is not used.

c. There are no hospitals or sanatoria owned and operated by the Prefecture.

d. Municipally owned and operated hospitals:

(1) Sendai City Has a capacity of 200 beds.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

(2) Shiogama City Hospital has a capacity of 81 beds.

(3) Eight towns in the Prefecture own hospitals, but no villages operate them.

e. There are Red Cross Hospitals for general disease in the following places:

(1) Sendai City operates a hospital with a capacity of 150 beds.

(2) Tshinomaki City Hospital has a capacity of 250 beds.

f. Hospitals owned by juridical persons:

(1) The T. B. Research Hospital in Sendai City has a capacity of 300 beds. The Governor has a contract with this hospital as with the University Hospital for SHI and Si.

(2) The Konan Hospital for general disease has a capacity of 51 beds.

(3) Yamaguchi Hospital fnr general disease in Sendai has a capacity of 21 beds.

(4) In addition, there are 36 private hospitals in the Prefecture with capacities ranging from 20 to 125 beds, and 4 hospitals for mental diseases with a capacity of 131 in Sendai City.

g. NHI Hospitals:

(1) Okawara Town has a capacity of 36 beds

(2) Murata Town has a capacity of 26 beds

(3) Kachemadai Villace, operated by the farmers' coop, has a capacity of 23 beds.

(4) Tsuya Town has a capacity of 20 beds.

h. There are 36 clinics operated by towns and villages and having

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

i. Hospitals owned and operated by Farmers' Cooperatives:

(1) Toyosato Village has a general capacity of 36 plus an additional 12 beds for communicable diseases.

(2) Furakawa Town has a hospital with a capacity of 150 beds plus an additional 25 for communicable disease.

(3) Kurokawa Hospital in Yoshioka Town has a capacity of 58 beds plus and additional 12 for T. B. patients.

(4) Iwadeyama Town Hospital has a capacity of 35 beds for general cases.

(5) Marya Town has 49 beds for general cases and 6 for communicable diseases.

j. The Niyagi Ken SHI Rest Hotel: This is owned by the AKiu Electric Line Club. "Technically" the Chief of the General Affairs Section in the Ministry of Welfare "rents" the hotel. However, actually the government only pays the required ¥300 per person per night for the monthly average of 80 persons. Although in most cases a doctor's certificate is required, about 10 of the total of 80 are in good health; the government pays only half of their bill - or ¥150 per night. These 10 are admitted by means of a ticket issued by the Prefectural Insurance Section on the recommendation of the management. The Japan Electric Generation and Distribution Company has society managed SHI. This company also operates a Hot Springs Hotel for its 1000 employees in Hirose Village.

k. Company Owned Hospitals and Clinics: The only two in this prefecture include: a small clinic operated by the Kirin Beer Company, with a total of 400 workers, and a small clinic operated by the Motoyama Company, which employs about 100 people. Both are under Government managed SHI; and the Hikari Life Insurance Company, with a pay roll of 30 people, operates a clinic; while the Hisokura Zinc Mining Company, with a total of

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

2304 employees in Uguisuzawa Village, operates a hospital. The latter two are under Society Managed SHI.

1. Facilities for SI:

The Seaman's Insurance Society in Tokyo rents a rest hotel in Marugo Town. The President of this Society is also the Director of the Insurance Bureau of the Welfare Ministry. The insured person pays ¥50 per night while the society pays the remaining ¥200. The Society rents only 10 of the Hotel's total of 100 spaces. The Chief of the Social Insurance Section of the prefecture is the representative of the Society and distributes tickets to ship owners in proportion to the number of seamen they employ. The Society pays the hotel a monthly rental of ¥3000.

m. Medical Practices under NHI: The insured carries a certificate which is presented to insurance doctors. The patient pays 50%; bills for over this amount are sent to the coordination Board of NHI, where the bills are reviewed by the Governor's Medical Advisory Council. Doctors charge on a point system. In hospitals and clinics Doctors get a certain percentage of the revenue from big operations. Some NHI doctors get ¥2000 monthly in addition to their fees as consultants, training Public Health Nurses and acting as Public Health leaders. Doctors working in clinics get their residences and maintenances except for groceries; however some patients bring food as "gratitude."

n. Medical Practices under the U. L. S. L.: The sick person first reports to his Minsei Iin where he is provided with a certificate sending him to a specific doctor, clinic or hospital. In cases of emergency the patient may go to any doctor, clinic or hospital and report to the Minsei Iin later. The Doctor then presents his bill to the city, town or village head man. People not under the U. L. S. L., or any other insurance, but unable to pay for medical care, must go through the

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

o. Other inquiried:

(1) The prefectural federation of NHI is a group of insurers who maintain liaison and coordinate their activities. There are 11 branch offices, each having a paid worker. The Prefecture has 16 guns; hence some branch offices cover more than one gun.

(2) Insured under NHI can get Medical care from carriers other than their own. They pay the doctor in full and then get a 50% refund from their own insurer upon presentation of a receipt.

(3) Collection of Premiums of Seaman: Usually the ship owner collects the premiums and forwards them through the bank or post office. In Kessenima Town there is an association which received the notices. The Motoyoshi Gun Coop. of Fishing Boat owners collect premiums and send them to the prefecture thru a bank or post office.

(4) Many ship owners are the seaman themselves and when it is time to pay premiums they take off in their boats.

p. Attached is the structural chart of the Miyagi Social Insurance Section.
