The copy filmed here has been reproduced thanks to the generosity of:

Harold Campbell Vaughan Memorial Library  
Acadia University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# THE INDEX OF CURRENT EVENTS.

Vol. II. No. 4.

MONTREAL, FEBRUARY 7, 1889.

\$6.00 PER ANNUM.  
PUBLISHED WEEKLY.

Commencing with Vol. II No. I the dates given in the *Index* are the actual dates of the occurrences, not as hitherto the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The intermediate issues contain the news of the current month to date.

We have to acknowledge with thanks the receipt of a large number of papers offered in exchange for the *Index*. As the *Index* is published principally for the use of editors, and has to depend chiefly upon its contemporaries for support, it is obviously impossible for it to indulge in the luxury of an exchange list.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

HENRY DALBY,  
P. O. Box 864,

MONTREAL, Que.

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, Ottawa, writes: "I am sending you a subscription for two copies of your '*Index*,' which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with references also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians."

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—"Enclosed please find six Dollars, in payment for State Library subscription to the '*Index of Current Events*;' for 1889."

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERRICK, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the '*Index*;' enterprise. I hope I may have the joy of congratulating you upon your success year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number I; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—"It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURN, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger*, writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO EMPIRE," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. VALEN, OF THE "NEW-YORK MORNING JOURNAL," writes:—"I find the *Index* of great value, saving, as they do, much valuable time in looking up dates of important events."

(FROM THE MONTREAL GAZETTE.)

Mr. Henry Dalby, a well-known and respected journalist of this city, has been for some months past publishing a periodical which all persons, whose business demands accuracy of date, all students of contemporary history, all newspaper writers, and, in fact, all persons who would have within their reach an unfailing *aide-memoire* as to the chronology of their own time, will find extremely useful. It is entitled "*The Index of Current Events*," and is published weekly. Though necessarily brief, the record of each successive noteworthy event is sufficiently clear to be an mistake as to its purport. Where fuller information is sought, the date supplies prompt indication of hundreds of authorities on the subject, as the reader has only to turn up the file of his local newspaper to bring all the particulars back to his mind. No memory however active and extensive could keep track of the rapid succession of occurrences of every nature and kind which, in this telegraphic age, form the raw material of history. But by this ingenious plan the searcher is never astray. Instead of perplexing himself and boring his friends, he consults his *Index*, and there, if a politician, he finds the election of which he desired the date; if a business man, the failure, or the rise in wheat or the promulgation of the new tariff; if an insurance agent, he is at no loss as to the fire in which he is interested; if a sportsman, he can learn when the great race comes off. In fine, such a chronological record is invaluable to some and serviceable to all. The subscription is \$6, payable yearly or half-yearly, in advance. Address, 31 University street, Montreal.

(FROM THE ALBANY SUNDAY PRESS.)

The *Index of Current Events*, a weekly publication by Henry Dalby, 31 University street, Montreal, is an eminently valuable enterprise. It thoroughly reviews recent events, and is a great help to historically inclined readers.

(FROM THE TORONTO EMPIRE.)

The memory of the average individual is seldom able to recall with accuracy information regarding recent events. It is surprising how vague the ideas of people are as to the exact date when events happened within the preceding year or half year. Professional men often need just such knowledge, and are frequently at a loss without it unless a good deal of time be spent in "hunting up" the facts required. Mr. Henry Dalby, a well-known Montreal journalist, is issuing an *Index of Current Events* to obviate this difficulty. The *Index* is a complete compendium, issued weekly, of the occurrences recorded from every part of the world in the columns of the newspapers. Each entry is brief, but the gist of the matter is there, and fuller details can be obtained by turning to a newspaper file, an easy performance when one knows the exact date. The *Index* will be simply invaluable in a newspaper office, while many others besides journalists will consider it a great convenience.

(FROM THE PORTLAND ADVERTISER.)

A unique magazine comes from Montreal—*The Index of Current Events*. It is a classified index to the dates of publication of important occurrences reported in the newspapers. It is published every week, for convenience, but the notices in every month contain all the references for the preceding month, and alone needs to be preserved to form a complete file. The *Index* will be very useful to everybody who has occasion to conduct the files of newspapers. The Price is \$6 a year.

Commencing with Vol. II No. I the dates given in the *Index* are the actual dates of the occurrences; not as hitherto the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The intermediate issues contain the news of the current month to date.

We have to acknowledge with thanks the receipt of a large number of papers offered in exchange for the *Index*. As the *Index* is published principally for the use of editors, and has to depend chiefly upon its contemporaries for support, it is obviously impossible for it to indulge in the luxury of an exchange list.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

HENRY DALBY,  
P. O. Box 864,  
MONTREAL, Que.

MR. MARTIN J. GIFFIN, LIBRARIAN OF PARLIAMENT, Ottawa, writes: "I am sending you a subscription for two copies of your '*Index*,' which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians."

MR. JOHN M. DOANE, STATE LIBRARIAN of Ohio, writes:—"Enclosed please find six dollars, in payment for State Library subscription to the '*Index of Current Events*' for 1888."

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERRIES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done good thing, a very good thing, in starting the '*Index*' enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the *Index* is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—"It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURK, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger*, writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. GOLDSCHMIDT OF THE "TORONTO *Empire*," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. YADEN, OF THE "NEW-YORK *Morning Journal*," writes:—"I find the *Indices* of great value, saving, as they do, much valuable time in looking up important events."

(FROM THE MONTREAL GAZETTE).

Mr. Henry Dalby, a well-known and respected journalist of this city, has been for some months past publishing a periodical which all persons, whose business demands accuracy of date, all students of contemporary history, all newspaper writers, and, in fact, all persons who would have within reach an unfailing *aide-memoire* as to the chronology of their own time, will find extremely useful. It is entitled "*The Index of Current Events*," and is published weekly. Though necessarily brief, the record of each successive noteworthy event is sufficiently clear to be no mistake as to its purport. Where fuller information is sought, the date supplies prompt indication of hundreds of authorities on the subject, as the reader has only to turn up the file of his local newspaper to bring all the particulars back to his mind. No memory however active and extensive could keep track of the rapid succession of occurrences of every nature and clime which, in this telegraphic age, form the raw material of history. But by this ingenious plan the searcher is never astray. Instead of perplexing himself and boring his friends, he consults his *Index*, and there, if a politician, he finds the election of which he desired the date; if a business man, the failure, or the rise in wheat or the promulgation of the new tariff; if an insurance agent, he is at no loss as to the time in which he is interested; if a sportsman, he can learn when the great race comes off. In fine, such a chronological record is invaluable to some and serviceable to all. The subscription is \$6, payable yearly or half-yearly, in advance. Address, 34 University street, Montreal.

(FROM THE ALBANY SUNDAY PRESS.)

The *Index of Current Events*, a weekly publication by Henry Dalby, 34 University street, Montreal, is an eminently valuable enterprise. It thoroughly reviews recent events, and is a great help to historically inclined readers.

## "INDEX OF CURRENT EVENTS."

The "Index of Current Events" is much appreciated not only by the press of Canada and the United States, but also by the public men of both countries. Its list of subscribers includes such great newspapers as the *Philadelphia Ledger*, the *Boston Transcript*, the *New York World*, the *Cincinnati Enquirer*, the *Brooklyn Eagle*, the *Toronto Empire*, the *Cleveland Leader*, the *Chicago Herald*, the *Cincinnati Post*, the *New York Morning Journal*, the *Chicago Daily News*, the *Indianapolis Journal*, the *New York Star*, the *Troy Budget*, the *Chicago Staats Zeitung*, the *New York Nation*, the *Troy Press*, the *Washington Star*, the *Chicago Inter-Ocean*, and many less known but important newspapers. Some of these papers are well known to keep admirable indexes of their own, yet find it advantageous to subscribe to the INDEX OF CURRENT EVENTS. We have the honor to include among our subscribers, Her Majesty's Privy Council for Canada; also, Sir John Macdonald, G. C. B., Premier of the Dominion, Sir Hector Langevin, Minister of Public Works, Sir A. P. Caron, Minister of Militia, the Hon. G. E. Foster, Minister of Finance, the Hon. Mackenzie Bowell, Minister of Customs, the Hon. J. A. Chapleau, Secretary of State, the Hon. John Costigan, Minister of Inland Revenue, the Hon. John Haggart, Postmaster General, the Hon. John Curling, Minister of Agriculture, the Hon. C. H. Tupper, Minister of Marine and Fisheries, the Hon. Commissioner of Agriculture and Colonization Quebec, the Hon. Boucher de La Bruère, late speaker of the Legislative Council, Quebec, the Hon. Lieutenant Governor Royal, Mr. Ernestus Winman, the Hon. Minister of Public Works, Toronto. The Librarian of Parliament, the House of Commons Reading Room and the Librarians of many of the Provinces of the Dominion and States of the Union subscribe to the *Index*. The leading bankers (including the Bank of Montreal), brokers, lawyers and hotel keepers of Canada, and many clergymen also keep the *Index* on file.

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, Ottawa, writes: I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF Ohio, writes:—Enclosed please find \$3 dollars, in payment for State Library subscription to the "*Index of Current Events*" for 1889.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERRIES, OF THE *BROOKLYN Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—"It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURK, ASSOCIATE EDITOR OF THE *PHILADELPHIA Public Ledger*, writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO EMPIRE," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. VADEN, OF THE "NEW-YORK MORNING JOURNAL," writes:—"I find the *Indices* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, REC. SEC. MASS. PRESS ASSOCIATION, writes:—"Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate,

Commencing with Vol. II No. I the dates given in the *Index* are the actual dates of the occurrences; not as formerly the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The intermediate issues contain the news of the current month to date.

We have to acknowledge with thanks the receipt of a large number of papers offered in exchange for the *Index*. As the *Index* is published principally for the use of editors, and has to depend chiefly upon its contemporaries for support, it is obviously impossible for it to indulge in the luxury of an exchange list.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, Ottawa, writes I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Library subscription to the "*Index of Current Events*" for 1889.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, or it will grow more valuable every year.

MR. HERRICK, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number I; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—"It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BUSH, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger*, writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO EMPIRE," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. VADEN, OF THE "NEW-YORK MORNING JOURNAL," writes:—"I find the *Indices* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, REC. SEC. MASS. PRESS ASSOCIATION, writes:—"Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate.

Commencing with Vol. II No. I the dates given in the *Index* are the actual dates of the occurrences; not as formerly the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The intermediate issues contain the news of the current month to date.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, OTTAWA, writes, I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with references also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Library subscription to the "*Index of Current Events*" for 1889.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERRIES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURK, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger* writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO EMPIRE," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*." The idea and its execution are alike worthy of all praise.

MR. VALEN, OF THE "NEW-YORK MORNING JOURNAL," writes:—"I find the *Indices* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, RE. SEC. MASS. PRESS ASSOCIATION, writes: Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate.

Commencing with Vol. II No. 1 the dates given in the *Index* are the actual dates of the occurrences; no, as formerly the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The immediate issues contain the news of the current month to date.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

The leading bankers (including the Bank of Montreal), brokers, lawyers and hotel keepers of Canada, and many clergymen also keep the *Index* on file.

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GIFFIN, LIBRARIAN OF PARLIAMENT, OTTAWA, writes, I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Library subscription to the "*Index of Current Events*" for 1888.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERRIES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number I; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURK, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger* writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO *EMPIRE*," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. VADEN, OF THE "NEW-YORK *MORNING JOURNAL*," writes:—"I find the *Indices* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, REC. SEC. MASS. PRESS ASSOCIATION, writes: Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The Librarian of Parliament, the House of Commons Reading Room and the Librarians of many of the Provinces of the Dominion and States of the Union subscribe to the *Index*. Among the well known public librarians who subscribe are, Mr. J. C. Hurlbut, Librarian of the American Geographical Society, New-York, Mr. W. A. Bardwell, Librarian of the Brooklyn Library, Mr. W. H. Brett, Librarian of the Cleveland Public Library, Mr. F. P. Jordan, Librarian of the Public School Library, Battle Creek, Michigan, Mr. W. T. Whelpley, Librarian of the Cincinnati Public Library and Mr. C. B. Tillingham, State Librarian of Massachusetts. The leading bankers (including the Bank of Montreal), brokers, lawyers and hotel keepers of Canada, and many clergymen also keep the *Index* on file.

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, OTTAWA, writes I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Librarian subscription to the "Index of Current Events" for 1889.

I regard it as a very valuable publication, and hope that you may meet with such success as warrant its continuance, for it will grow more valuable every year.

MR. HERRIES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BARK, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger* writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO EMPIRE," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. VALEN, OF THE "NEW-YORK MORNING JOURNAL," writes:—"I find the *Index* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, REC. SEC. MASS. PRESS ASSOCIATION, writes: Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate.

Commencing with Vol. II No. 1 the dates given in the *Index* are the actual dates of the occurrences; not as formerly the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The immediate issues contain the news of the current month to date.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

## TO ADVERTISERS.

### HOW TO GET THE MOST SERVICE FOR THE MONEY!

The Advertiser who would be willing to pay twenty-five cents for every family who could be "educated" up to the value of his goods would thus devote \$3,000,000 to educate the 12,000,000 families which make up the 60,000,000 people of the United States. This sum would do the business thoroughly in a year, for it is sufficient to pay for the insertion of a full column in every issue of every publication, and for resetting the matter, making it new in every issue of each separate publication. We will receive and execute the contract.

\$10.—We devote all necessary care to placing small orders for Advertising;—even the smallest! Time is saved by sending check with the order. Often the Advertiser is not possessed of sufficient information on the subject to enable him to judge of the merits of an estimate for advertising, and he decides by the footings of the figures whether he will or will not do the work. Yet the estimate binds the Agent, and makes it improper for him to make any variation in its specifications, however much his judgment may point to material changes which ought to be made. This is specially liable to be the case when the order comes a considerable time after the estimate was made.

\$50.—If you are in the habit of occasionally inserting a small advertisement in a few papers, investing a few dollars, and carefully noting the result, we desire you to make trial of our Advertising Bureau, sending us the advertisement and the money, leaving the selection of the papers to us, and judging of the service rendered by results rather than by names, circulation claims or prices. To make up careful estimates calls for much work. It does not pay to make them indiscriminately for every applicant. If such estimates as are asked for were always given, the Advertiser who wished to expend \$50 would frequently find himself in possession of the scheme which it would cost \$500 or possibly \$5,000 to carry out.

\$100.—The Advertiser who sends his advertisements, asking for the best service possible for one hundred dollars, will often get from five to fifty per cent. more service for his money than he would had he required us to tell him in advance exactly what service we would promise, for when an estimate has been given its plan and specifications must, in a general way at least, control the advertising to be done. It ties the Agent's hands, and prevents his giving his patrons *to-day* a better service than he could have promised yesterday, because yesterday the opportunity had not presented itself: *to-morrow it may have passed!* Some publications are used most economically on contracts for a single issue; in others, insertion for a month may be had as cheaply as for a single week; but in furnishing an estimate in advance, if the Agent attempts to go into details, his correspondence becomes voluminous and the advertiser confused.

\$250.—Prepare a small advertisement and send with check for \$250, or any other sum. The practice of asking the Agent to name his papers in advance compels him to name such as are well known, otherwise there is reason to suspect that his judgment is biased;—*and the best papers do not like to have their rates quoted below their schedule.*

\$500.—Leading newspapers, especially the leading Agricultural newspapers, frequently issue large special editions (of twenty, fifty, one hundred, or even five hundred thousand copies), and solicit advertisement orders from us, on terms which would often be accepted by our patrons if there was time to invite attention to the matter; but the question must generally be decided before there would be time to write and receive a reply, and often the case cannot be fully stated within the limits of a letter.

\$1,000.—If we are given authority to insert advertisements to a limited amount, in such mediums as offer inducements which seem to us specially favorable, we shall not abuse the confidence reposed in us, and shall render statements of whatever is done (if anything) from day to day. When trusted with the placing of an advertisement, we are put upon honor, and are bound in honor to give the best service possible for the money to be used.

\$5,000.—One of the most successful Advertisers we ever had always ordered his advertisements in this way, "Get the best service you can for me for \$5,000," leaving every detail to us. We were thus enabled to say to a Publisher, if you put this in at a large reduction from your rate it will be no criterion for further transactions. It was a surprise to find ourselves so often able to contract for the insertion of that particular advertisement at half rates, in papers which would not permit us to offer their columns at a penny's deviation from their printed schedule. The advertising rates of one New York paper are double those of another which has twice the circulation of the first. Similar discrepancies are not uncommon. The advertisement entrusted to us to be placed in accordance with our judgment often does double service for half the money. A dollar for twenty-five cents.

Boucher de La Bruère, late speaker of the Legislative Council, Quebec, the Hon. Lieutenant Governor Royal, Mr. Ernstus Wüman, the Hon. Minister of Public Works, Toronto. The Librarian of Parliament, the House of Commons Reading Room and the Librarians of many of the Provinces of the Dominion and States of the Union subscribe to the *Index*. Among the well known public librarians who subscribe are, Mr. J. C. Hurlbut, Librarian of the American Geographical Society, New-York, Mr. W. A. Bardwell, Librarian of the Brooklyn Library, Mr. W. H. Brett, Librarian of the Cleveland Public Library, Mr. F. P. Jordan, Librarian of the Public School Library, Battle Creek, Michigan, Mr. W. T. Peoples, Librarian of the Mercantile Library, New-York, Mr. Robert E. Rich, Librarian of the Public Library, Portsmouth, N.

H., Mr. J. P. Dunn, Librarian of the Indiana State Library, Indianapolis, Mr. F. W. Vaughan, Librarian of the Social Law Library, Boston, Mr. James G. Barnwell, Librarian of the Philadelphia Library, the Librarian of the Providence Public Library, the Librarian of the Free Public Library, San Francisco, Mr. John M. Doane, State Librarian of Ohio, Mr. William H. Egle, State Librarian of Pennsylvania, Mr. M. Chamberlain, Librarian of the Boston Public Library, Mr. A. W. Whelpley, Librarian of the Cincinnati Public Library and Mr. C. B. Tillinghart, State Librarian of Massachusetts. The leading bankers (including the Bank of Montreal), brokers, lawyers and hotel keepers of Canada, and many clergymen also keep the *Index* on file.

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, OTTAWA, writes:—I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Library subscription to the "Index of Current Events" for 1889.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERRIES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—"It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURN, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger* writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO *EMPIRE*," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*. The idea and its execution are alike worthy of all praise."

MR. VALEN, OF THE "NEW-YORK *MORNING JOURNAL*," writes:—"I find the *Index* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, REC. SEC. MASS. PRESS ASSOCIATION, writes:—Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate.

Commencing with Vol. II No. 1 (the dates given in the *Index* are the actual dates of the occurrences; not as formerly the dates of publication).

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The ...mediate issues contain the news of the current month to date.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

## READY, RAPID & RELIABLE FIRE ESCAPE.

The Best, Safest and Quickest Means of Emptying School and other Dormitories in Case of Fire.

The accompanying cut exhibits the essential features of the contrivance, which may be adapted either to the interior or to the exterior of a building, but preferably to the latter, so as to create no draught for flame or smoke. *C c* represent the floor or, as in the present diagram, platforms which may assume the form of an ornamental balcony. These platforms are secured to the walls by suitable brackets *e e*. Two vertical shafts *f f* pass through the

floors or staging from the roof to the ground; *g g* are circular openings which alternate from one side to the other at each succeeding landing. The landing to be placed before a window at every story.

The shaft to the left of *f*, and which is secured to the next platform above (not shown in the figure), is firmly clasped, not with the hands, but with the legs and arms, and the person slides down the shaft to the next landing below, regulating with ease, by the pressure of his limbs, the rapidity of the descent.

## TO ADVERTISERS.

### HOW TO GET THE MOST SERVICE FOR THE MONEY!

The Advertiser who would be willing to pay twenty-five cents for every family who could be "educated" up to the value of his goods would thus devote \$3,000,000 to educate the 12,000,000 families which make up the 60,000,000 people of the United States. This sum would do the business thoroughly in a year, for it is sufficient to pay for the insertion of a full column in every issue of every publication, and for resetting the matter, making it new in every issue of each separate publication. We will receive and execute the contract.

\$10.—We devote all necessary care to placing small orders for Advertising:—even the smallest! Time is saved by sending check with the order. Often the Advertiser is not possessed of sufficient information on the subject to enable him to judge of the merits of an estimate for advertising, and he decides by the footings of the figures whether he will or will not do the work. Yet the estimate binds the Agent, and makes it improper for him to make any variation in its specifications, however much his judgment may point to material changes which ought to be made. This is specially liable to be the case when the order comes a considerable time after the estimate was made.

\$50.—If you are in the habit of occasionally inserting a small advertisement in a few papers, investing a few dollars, and carefully noting the result, we desire you to make trial of our Advertising Bureau, sending us the advertisement and the money, leaving the selection of the papers to us, and judging of the service rendered by results rather than by names, circulation claims or prices. To make up careful estimates calls for much work. It does not pay to make them indiscriminately for every applicant. If such estimates as are asked for were always given, the Advertiser who wished to expend \$50 would frequently find himself in possession of the scheme which it would cost \$500 or possibly \$5,000 to carry out.

\$100.—The Advertiser who sends his advertisements, asking for the best service possible for one hundred dollars, will often get from five to fifty per cent. more service for his money than he would had he required us to tell him in advance exactly what service we would promise; for when an estimate has been given its plan and specifications must, in a general way at least, control the advertising to be done. It ties the Agent's hands, and prevents his giving his patrons *to-day* a better service than he could have promised yesterday, because yesterday the opportunity had not presented itself: *to-morrow it may have passed!* Some publications are used most economically on contracts for a single issue; in others, insertion for a month may be had as cheaply as for a single week; but in furnishing an estimate in advance, if the Agent attempts to go into details, his correspondence becomes voluminous and the advertiser confused.

\$250.—Prepare a small advertisement and send with check for \$250, or any other sum. The practice of asking the Agent to name his papers in advance compels him to name such as are well known, otherwise there is reason to suspect that his judgment is biased;—*and the best papers do not like to have their rates quoted below their schedule.*

\$500.—Leading newspapers, especially the leading Agricultural newspapers, frequently issue large special editions (of twenty, fifty, one hundred, or even five hundred thousand copies), and solicit advertisement orders from us, on terms which would often be accepted by our patrons. If there was time to invite attention to the matter; but the question must generally be decided before there would be time to write and receive a reply, and often the case cannot be fully stated within the limits of a letter.

\$1,000.—If we are given authority to insert advertisements to a limited amount, in such mediums as offer inducements which seem to us specially favorable, we shall not abuse the confidence reposed in us, and shall render statements of whatever is done (if anything) from day to day. When *trusted* with the placing of an advertisement, we are put upon honor, and are bound in honor to give the best service possible for the money to be used.

\$5,000.—One of the most successful Advertisers we ever had always ordered his advertisements in this way, "Get the best service you can for me for \$5,000," leaving every detail to us. We were thus enabled to say to a Publisher, if you put this in at a large reduction from your rate it will be no criterion for further transactions. It was a surprise to find ourselves so often able to contract for the insertion of that particular advertisement at half rates, in papers which would not permit us to offer their columns at a penny's deviation from their printed schedule. The advertising rate of one New York paper are double those of another which has twice the circulation of the first. Similar discrepancies are not uncommon. The advertisement entrusted to us to be placed in accordance with our judgment often does double service for half the money. A dollar for twenty-five cents.

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, Ottawa, writes and sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Library subscription to the "*Index of Current Events*" for 1888.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERBES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*." enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BART., HIGH COMMISSIONER FOR CANADA, writes:—"It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate.

Commencing with Vol. II No. 1 the dates given in the *Index* are the actual dates of the occurrences; not as formerly the dates of publication.

The *Index* is published four times a month; but to form a complete file for the year it is necessary to preserve only the first issue in each month.

The intermediate issues contain the news of the current month to date.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

COMPANION PICTURES.

Another handsome reminder of the continued enterprise of THE YOUTH'S COMPANION, the favorite family paper, has come to us in the form of a Colored Announcement Card, printed in fourteen colors. It is folded in the centre, and has on either cover companion pictures.

Spring is represented by a beautiful maiden who is returning through the fields, her hands filled with trailing arbutus—that delicate spring flower which grows so plentifully in many localities. On the companion page, the farmer's daughter is pictured coming through the harvested grain, carrying a well-filled pinner and basket. The bearer of the noon-day lunch is a welcome sight to the hungry reapers. The interior of the card contains an array of authors and articles for the coming volume unsurpassed by any paper.

This beautiful Card is only an indication of the great enterprise of THE COMPANION, which has made it a National Family Paper, with more than 430,000 subscribers. Nowhere can there be obtained so much entertainment and instruction for so little money. (Only \$1.75 a year).

If you subscribe now you will receive the paper free to Jan. 1, 1890, and for a full year from that date. The publishers offer to send specimen copies and this Colored Announcement Card free. Address THE YOUTH'S COMPANION, Boston, Mass.

## TO ADVERTISERS.

### HOW TO GET THE MOST SERVICE FOR THE MONEY!

The Advertiser who would be willing to pay twenty-five cents for every family who could be "educated" up to the value of his goods would thus devote \$3,000,000 to educate the 12,000,000 families which make up the 50,000,000 people of the United States. This sum would do the business thoroughly in a year, for it is sufficient to pay for the insertion of a full column in every issue of every publication, and for resetting the matter, making it new in every issue of each separate publication. We will receive and execute the contract.

\$10.—We devote all necessary care to placing small orders for Advertising;—even the smallest! Time is saved by sending check with the order. Often the Advertiser is not possessed of sufficient information on the subject to enable him to judge of the merits of an estimate for advertising, and he decides by the feelings of the figures whether he will or will not do the work. Yet the estimate binds the Agent, and makes it improper for him to make any variation in its specifications, however much his judgment may point to material changes which ought to be made. This is specially liable to be the case when the order comes a considerable time after the estimate was made.

\$50.—If you are in the habit of occasionally inserting a small advertisement in a few papers, investing a few dollars, and carefully noting the result, we desire you to make trial of our Advertising Bureau, sending us the advertisement and the money, leaving the selection of the papers to us and judging of the service rendered by results rather than by names, circulation claims or prices. To make up careful estimates calls for much work. It does not pay to make them indiscriminately for every applicant. If such estimates are asked for were always given, the Advertiser who wished to expend \$50 would frequently find himself in possession of the scheme which it would cost \$500 or possibly \$5,000 to carry out.

\$100.—The Advertiser who sends his advertisements, asking for the best service possible for one hundred dollars, will often get from five to fifty per cent. more service for his money than he would had he required us to tell him in advance exactly what service we would promise; for when an estimate has been given its plan and specifications must, in a general way at least, control the advertising to be done. It ties the Agent's hands, and prevents his giving his patrons *to-day* a better service than he could have promised yesterday, because yesterday the opportunity had not presented itself: *to-morrow* it may have passed! Some publications are used most economically on contracts for a single issue; in others, insertion for a month may be had as cheaply as for a single week; but in furnishing an estimate in advance, if the Agent attempts to go into details, his correspondence becomes voluminous and the advertiser confused.

\$250.—Prepare a small advertisement and send with check for \$250, or any other sum. The practice of asking the Agent to name his papers in advance compels him to name such as are well known, otherwise there is reason to suspect that his judgment is biased;—and the best papers do not like to have their rates quoted below their schedule.

\$500.—Leading newspapers, especially the leading Agricultural news papers, frequently issue large special editions (of twenty, fifty, one hundred or even five hundred thousand copies), and solicit advertisement orders from us, on terms which would often be accepted by our patrons if there was time to invite attention to the matter; but the question must generally be decided before there would be time to write and receive a reply, and often the case cannot be fully stated within the limits of a letter.

\$1,000.—If we are given authority to insert advertisements to a limited amount, in such mediums as offer inducements which seem to us specially favorable, we shall not abuse the confidence reposed in us, and shall render statements of whatever is done (if anything) from day to day. When *traded* with the placing of an advertisement, we are put upon honor, and are bound in honor to give the best service possible for the money to be used.

\$5,000.—One of the most successful Advertisers we ever had always ordered his advertisements in this way, "Get the best service you can for me for \$5,000," leaving every detail to us. We were thus enabled to say to a Publisher, if you put this in at a large reduction from your rate it will be no criterion for further transactions. It was a surprise to find ourselves so often able to contract for the insertion of that particular advertisement at half rates, in papers which would not permit us to offer their columns at a penny's deviation from their printed schedule. The advertising rate of one New York paper are double those of another which has twice the circulation of the first. Similar discrepancies are not uncommon. The advertisement entrusted to us to be placed in accordance with our judgment often does double service for half the money. A dollar for twenty-five cents.

Minister of Public Works, Toronto, The Librarian of Parliament, the House of Commons Reading Room and the Librarians of many of the Provinces of the Dominion and States of the Union subscribe to the *Index*. Among the well known public librarians who subscribe are, Mr. C. Hurlbut, Librarian of the American Geographical Society, New-York, Mr. W. A. Bardwell, Librarian of the Brooklyn Library, Mr. W. H. Brett, Librarian of the Cleveland Public Library, Mr. F. P. Jordan, Librarian of the Public School Library, Battle Creek, Michigan, Mr. W. T. Peoples, Librarian of the Mercantile Library, New-York, Mr. Robert E. Rich, Librarian of the Public Library, Portsmouth, N.

H., Mr. J. P. Dunn, Librarian of the Indiana State Library Indianapolis, Mr. F. W. Vaughan, Librarian of the Social Law Library, Boston, Mr. James G. Barnwell, Librarian of the Philadelphia Library, the Librarian of the Providence Public Library, the Librarian of the Free Public Library, San Francisco, Mr. John M. Doane, State Librarian of Ohio, Mr. William H. Egle, State Librarian of Pennsylvania, Mr. M. Chamberlain, Librarian of the Boston Public Library, Mr. A. W. Whelpley, Librarian of the Cincinnati Public Library and Mr. C. B. Tillinghast, State Librarian of Massachusetts. The leading bankers (including the Bank of Montreal), brokers, lawyers and hotel keepers of Canada, and many clergymen also keep the *Index* on file.

What is thought of the *Index* may be gathered from the numerous entirely unsolicited expressions of approval sent in by well known public men, of which the following are specimens:

MR. MARTIN J. GRIFFIN, LIBRARIAN OF PARLIAMENT, OTTAWA, writes:—I am sending you a subscription for two copies of your "*Index*," which will be most useful and which deserves encouragement. If you will take particular pains to give the dates and figures of elections and the dates of speeches of public men, with reference also to the place at which the speech was delivered, you will do a very grateful thing for public people and editors, and I may add librarians.

MR. JOHN M. DOANE, STATE LIBRARIAN OF OHIO, writes:—Enclosed please find six dollars, in payment for State Library subscription to the "*Index of Current Events*" for 1888.

I regard it as a very valuable publication, and hope that you may meet with such success as to warrant its continuance, for it will grow more valuable every year.

MR. HERBES, OF THE BROOKLYN *Eagle*, writes:—"I congratulate you most heartily upon having done a good thing, a very good thing, in starting the "*Index*" enterprise. I hope I may have the joy of congratulating you upon your success a year hence. A man with *Index* on the brain is one after my own heart. My judgment was formed upon Number 1; if the indexing is kept up as thoroughly in all subsequent numbers it will be a great help to us."

SIR CHARLES TUPPER, BARRISTER AT LAW, HIGH COMMISSIONER FOR CANADA, writes:—It seems to me to be a very useful publication, and one that will be valuable for reference purposes."

MR. BURK, ASSOCIATE EDITOR OF THE PHILADELPHIA *Public Ledger*, writes:—"Your *Index* is highly appreciated at this office, where it has long been a desideratum."

MR. COLQUHOUN OF THE "TORONTO *EMPIRE*," writes:—"Allow me to congratulate you most cordially upon your admirable *Index*." The idea and its execution are alike worthy of all praise."

MR. VALEN, OF THE "NEW-YORK *MORNING JOURNAL*," writes:—"I find the *Indices* of great value, saving, as they do, much valuable time in looking up important events."

MR. WILL A. WOODWARD, REC. SEC. MASS. PRESS ASSOCIATION, writes:—Enclosed please find subscription for one year for "*Index of Current Events*." I have examined the specimen sent me with much interest and do not hesitate to commend it as an invaluable assistant in the newspaper office. The amount of time and labor it is calculated to save, cannot be compensated by one hundred times its subscription rate.

Commencing with Vol. II No. 1 the dates given in the *Index* are the actual dates of the occurrences; not as formerly the dates of publication.

The *Index* is published four times a month; but to form a complete *Index* for the year it is necessary to preserve only the first issue in each month.

The intermediate issues contain the news of the current month to date.

The subscription is \$6 per annum, payable yearly or half yearly in advance. Remittances should be made to

MONTREAL, Oct., 1889.

JOHN LOVELL, *Publisher.*

Alden's Manifold Cyclopaedia.

America and Artemis are the beginning and ending of the second volume of Alden's Manifold Cyclopaedia, which, even better than the first, fulfils the promises of the publisher's prospectus. It is a really handsome volume of 640 pages, half Morocco binding, large type, profusely illustrated, and yet sold for the price of 85 cents; cloth binding only 60 cents—postpaid. Large discounts even from these prices are allowed to early subscribers, the price being gradually advanced as the work progresses; particulars sent on request.

The Manifold Cyclopaedia is, in many ways, unlike any other Cyclopaedia. It undertakes to present a survey of the entire circle of knowledge, whether of WORDS or of THINGS, thus combining the characteristics of a Cyclopaedia and a Dictionary, including in its vocabulary every word which has any claim to a place in the English language. Its form of publication is as unique as its plan—the "Ideal Edition" its publisher calls it, and the popular verdict seems to sustain his claim. It certainly is delightfully convenient. It will not be strange if this proves to be the great popular cyclopaedia. It certainly is worthy of examination by all searchers after knowledge. The publisher sends a specimen volume on receipt of price, to be returned if not wanted. JOHN B. ALDEN, Publisher, New York, Chicago, or Atlanta.

READY, RAPID & RELIABLE FIRE ESCAPE.

The Best, Safest and Quickest Means of Emptying School and other Dormitories in Case of Fire.

The accompanying cut exhibits the essential features of the contrivance, which may be adapted either to the interior or to the exterior of a building, but preferably to the latter, so as to create no draught for flame or smoke. *C c* represent the floor, or, as in the present diagram, platforms, which may assume the form of an ornamental balcony. These platforms are secured to the walls by suitable brackets *e e*. Two vertical shafts *f f* pass through the

floors or staging from the roof to the ground; *g g* are circular openings which alternate from one side to the other at each succeeding landing. The landing to be placed before a window at every story.

The shaft to the left of *f*, and which is secured to the next platform above (not shown in the figure), is firmly clasped, not with the hands, but with the legs and arms, and the person slides down the shaft to the next landing below, regulating with ease, by the pressure of his limbs, the rapidity of the descent.

## TO ADVERTISERS. HOW TO GET THE MOST SERVICE FOR THE MONEY!

The Advertiser who would be willing to pay twenty-five cents for every family who could be "educated" up to the value of his goods would thus devote \$3,000,000 to educate the 12,000,000 families which make up the 60,000,000 people of the United States. This sum would go the business thoroughly in a year, for it is sufficient to pay for the insertion of a full column in every issue of every publication, and for resetting the matter, making it new in every issue of each separate publication. We will receive and execute the contract.

\$10.—We devote all necessary care to placing small orders for Advertising—even the smallest! Time is saved by sending check with the order. Often the Advertiser is not possessed of sufficient information on the subject to enable him to judge of the merits of an estimate for advertising, and he decides by the footings of the figures whether he will or will not do the work. Yet the estimate binds the Agent, and makes it improper for him to make any variation in its specifications, however much his judgment may point to material changes which ought to be made. This is specially liable to be the case when the order comes a considerable time after the estimate was made.

\$50.—If you are in the habit of occasionally inserting a small advertisement in a few papers, investing a few dollars, and carefully noting the result, we desire you to make trial of our Advertising Bureau, sending us the advertisement and the money, leaving the selection of the papers to us and judging of the service rendered by results rather than by names, circulation claims or prices. To make up careful estimates calls for much work. It does not pay to make them indiscriminately for every applicant. If such estimates as are asked for were always given, the Advertiser who wished to expend \$50 would frequently find himself in possession of the scheme which it would cost \$500 or possibly \$5,000 to carry out.

\$100.—The Advertiser who sends his advertisements, asking for the best service possible for one hundred dollars, will often get from five to fifty per cent. more service for his money than he would had he required us to tell him in advance exactly what service we would promise; for when an estimate has been given its plan and specifications must, in a general way at least, control the advertising to be done. It ties the Agent's hands, and prevents his giving his patrons *to-day* a better service than he could have promised yesterday, because yesterday the opportunity had not presented itself: *to-morrow it may have passed!* Some publications are used most economically on contracts for a single issue; in others, insertion for a month may be had as cheaply as for a single week; but in furnishing an estimate in advance, if the Agent attempts to go into details, his correspondence becomes voluminous and the advertiser confused.

\$250.—Prepare a small advertisement and send with check for \$250, or any other sum. The practice of asking the Agent to name his papers in advance compels him to name such as are well known, otherwise there is reason to suspect that his judgment is biased;—and the best papers do not like to have their rates quoted below their schedule.

\$500.—Leading newspapers, especially the leading Agricultural newspapers, frequently issue large special editions (of twenty, fifty, one hundred or even five hundred thousand copies), and solicit advertisement orders from us, on terms which would often be accepted by our patrons. If there was time to invite attention to the matter; but the question must generally be decided before there would be time to write and receive a reply—and often the case cannot be fully stated within the limits of a letter.

\$1,000.—If we are given authority to insert advertisements to a limited amount, in such mediums as offer inducements which seem to us specially favorable, we shall not abuse the confidence reposed in us, and shall render statements of whatever is done (if anything) from day to day. When trusted with the placing of an advertisement, we are put upon honor, and are bound in honor to give the best service possible for the money to be used.

\$5,000.—One of the most successful Advertisers we ever had always ordered his advertisements in this way, "Get the best service you can for me for \$5,000," leaving every detail to us. We were thus enabled to say to a Publisher, if you put this in at a large reduction from your rate it will be no critic! for further transactions. It was a surprise to find ourselves so often able to contract for the insertion of that particular advertisement at half rates, in papers which would not permit us to offer their columns at a penny's deviation from their printed schedule. The advertising rate of one New York paper are double those of another which has twice the circulation of the first. Similar discrepancies are not uncommon. The advertisement entrusted to us to be placed in accordance with our judgment often does double service for half the money. A dollar for twenty-five cents.
