TO : Reparations Section
Hyogo Prefectural Government
THRU: Hyogo Liaison Office

1. You are hereby directed to inform all reparations plants in Hyogo-ken that the following procedures for the maintenance and preservation of inventoried machines and equipment will be imperative:

a. Each plant will instigate a system whereby machine tool operators and laborers will devote a reasonable period of time, (15 mimutes or more) before the end of each shift and before closing hours, to clean up all operating machines. Machines cleaned after each period should be absolutely free of cutting oil, shavings and dirt, thus preventing any possibility of undesirable accumulations.

b. All machines in the first and second class categories, whether idle or otherwise, will be adjusted and properly lubricated by experienced mechanics. Thereafter, frequent inspections to correct any additional discrepancies must be accomplished.

c. All machines in the first and second class categories will be given a protective coating, either a light coating of grease or heavy machine oil. The practice of leaving a machine "dry" to await inspection will cease since the factor of deterioration renders such action impractical.

2. The instructions mentioned above will be disseminated to the Kobe Kaiun Kyoku and the Kobe Office of the Osaka Zaimu Kyoku. It will be the responsibility of your office to establish a procedure for the surveillance of plants under the jurisdiction of the aforementioned offices.

2. We respectfully solicit to have your office extend to the plants mentioned in above paragraph whatever consideration the plants may deserve to the end that they be deleted from the reparations list.

3. The following plants are engaged in the production of either articles indispensable for the rehabilitation of Japan or items required by the Allied Forces. It is therefore requested that the final removal of such machines as considered necessary for the continuance of the production of subject articles or items be postponed.

A. Aircraft plants:

I. Naruo Plant, Kawanishi Aircraft K. K.,
1, Aza Daito, Naruo, Naruo-mura, Muko-gun

1) Number of machinery inventoried 3,338

Number of machinery the postponement of removal of which is desired 251

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

2) Items of production — auto three wheeler

3) Actual production up to the end of April, 1947, after conversion — auto three wheeler: 43

4) Reasons for requesting postponement:

Production has been normal since the completion of the trial car No. 1, in Aug., 1946. The plant is endeavouring to reach the rate of 120 cars per month by the end of this current year and subsequently 500 cars per month in future. As this is the only plant in Hyogo Prefecture making this type of small vehicles required for local transportation, continuous operation of this plant is highly desired.

Remarks:

In order to realize the production rate of 500 cars per month as mentioned above, the plant needs, in addition to 251 machines of its own, 257 machines from Takarazuka plant and 8 machines from Konan plant, Kawanishi Aircraft Co., the postponement of removal of which is also requested.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

II. Hokuban Plant, Kawasaki Sangyo K,K.
794, Kamitakino, Takino-cho, Kato-gun, Hyogo Pref.

1. Number of machinery inventoried: 966

Number of machinery the postponement of removal of which is desired: 89

2. Items of production:
Automobile gears
Auto-tricycle gears
Spinning gears
Other gears

3. Actual production up to the end of April 1947 after conversions:

Automobile gears	3,234
Auto-tricycle gears	49,346
Spinning gears	250
Other gears	1,185

4. Reasons for requesting postponement:
As an expert maker of gears, the plant has turned out many types of gears as outlined above, the monthly production being approximately 8,000 pieces. The subject plant is noted for its technical skill and is very eager to boost up the output. This is one of the few gear producers and is regarded as the principal source of supplier.

III. Kanzaki Seisakusho, Nikkoku Kogyo K.K.
750, Tonouchi, Sonoda-mura, Kawabe-gun, Hyogo Pref.

1. Number of machinery inventoried: 426

Number of machinery the postponement of removal of which is desired: 118

2. Items of production:
Repairing trucks of electric-car.
Repairing air-compressors of electric car.
Repairing motors of electric car.
Repairing of trucks released by the Allied Forces.

3. Actual production up to the end of April 1947 after conversion:
Repairing of electric car trucks
Repairing of electric car air-compressors
Repairing of electric car motors
and so forth: Total sum ¥2,650,000

4. Reason for requesting postponement:
This plant is now engaged in repairing work of trucks, air-compressers, motors and other

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 715 013

parts of tramcars, belonging to Keihanshin Express Electric Railway Co. Ltd., Sanyo Electric Railway Co. Ltd., Kinki-Nippon Electric Railway Co. Ltd., Kobe Municipal Tramcar and other electric railway companies in Kinki District. Immediate and complete repairs on these tramcars are absolute necessity for the reason that the cars were overworked during war years without due care and maintenance.

IV. Nomura Plant, Teikoku Seimitsu Kogyo K.K. Co. Ltd.
Nomura, Shigeharu-mura, Taka-gun, Hyogo Pref.

1. Number of machinery inventoried: 228

Number of machinery the postponement of removal of which is desired: 104

2. Items of production:
Textile machinery's parts
Woodwork machinery
Chlorine and oxygen valve

3. Actual production up to the end of April 1947 after conversion:
Number of textile machine spindles: 8,500
Number of autometic hollow chisel mortiser: 53
Number of control valves: 8,800

4. Reason for requesting postponement:
Urgent need is felt for repair and replacement of worn-out textile machines. As far as the manufacture of mule spindle in Hyogo ~~spindle~~ Pref. is concerned, the plant is the principal maker and has a capacity of producing 2,000 mule-spindle monthly and expects shortly to turn out 5,000 pieces in Aug.

V. Itami Plant, Tokushu Sangyo (Special Industry) Co.Ltd.
Aza-minamibata 1. Konoike, Nagao-mura, Kawabe-gun, Hyogo Pref.

1. Number of machinery inventoried: 267

Number of machinery the postponement of removal of which is desired: 100

2. Items of production:
CO_2 Fire Extinguisher.

3. Actual production up to the end of April 1947 after conversion:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Number of CO_2 Fire extinguishers: 7,370

4. Reason for requesting postponement:
The plant has the capacity for 3,000 CO_2 fire extinguishers per month, and has a marked techinical skill. About one half of its production is supplied to the Occupation Forces.

B. Machine tool manufacturing plant:

I. Koami Plant, Shibaura Machine Tool Manufacturing Co.Ltd.
1000 Hamada, Aboshi-ku, Himeji.

1. Number of machinery inventoried: 255

Number of machinery the postponement of removal of which is desired: 74

2. Items of production:
Trolley cars, wood-working machinery.

3. Actual production for last six months:

Trolley cars:	4
Wood-work machinery:	59
Air-compressor for trolley:	13
Other machineries.	

4. Reason for requesting postponement:
The subject plant is now engaged in manufacture of trolley cars and also air-compressors for Kobe Municipal Electric Tramcar as well as Sanyo Electric Railway Co.Ltd. In order to alleviate the traffic congestion now prevalent in this area, it is requested that postponement be granted.

Report on Reparations Business

- Reparations Section,
Hyogo Prefecture. -

Hereunder is submitted our report on the above-subject covering the period from March 1 to March 15, 1947.

March 1: The Reparations Section has made an investigation in connection with the transportation of the facilities of those factories designated as reparations objects in Hyogo Prefecture, and is conducting consultations with the government authorities concerned in regard to the subject.

March 5: Mr. Shimaji, Commissioner of the Reparations Executive Bureau of the Ministry of Commerce & Industry visited Hyogo Prefecture and held consultations with the Reparations Section in regard to reparations business.

March 10: The factories designated as reparations objects in Hyogo Prefecture were respectively given the allotments for the month of ~~grease~~ naturals for March to be used for the purpose of preserving factory-machinery. (vide the attached sheet A)

March 11: The factories designated as reparation objects in Hyogo Prefecture were given allotment of printing out paper for blue-prints. (As per the attached sheet B)

March 12: The persons in charge of the management of aircraft manufacturing factories and (ordnance manufacturing factories) designated as reparations objects in Hyogo Prefecture were called together at the Zenpuku-ji Temple in Kobe City. On that occasion, explanations were given by the officials of the Reparations Section concerning how to maintain and repair the machinery of the factories designated for custody and control by the Allied Forces, and also instructions were given in regard to the future preservation and custody of those machineries.

HYOGO LIAISON OFFICE

May 15, 1947 Liaison

To: Lt. Col. Russell G. Rehkop,
Commanding,
Hyogo Military Government Team.

Subject: Report on Permission for Recovering Munitions Cargo from Sunken Vessel.

Sir,

The Toyo Salvage Company, Ltd., Kobe Branch, has filed with our office an application for permission to recover the cargo, consisting of former munitions, carried on the s/s "Tairyu Maru", which was sunken off the Wada Point Signal Tower, Kobe.

Based on the communication from the Hyogo Military Government Team, dated April 29, 1947, to the Kobe Harbor Master and the Chief of the Marine Affairs Dept., Maritime Bureau, we have given permission to the aforesaid application on the following conditions:

A. When salvaging is started, the progress of the work shall be reported to the Prefectural Government.

B. When the operations are completed, a list of all recovered items shall be made and submitted to the Prefectural Government.

C. Pending instructions from the Prefectural authorities, all recovered items shall be stored under strict custody on the responsibility of the Company, and the details of guard conditions reported to the Chief of Public Safety Section, Police Dept., Hyogo Prefecture for further directions.

D. All recovered items are to be dealt with as special items with the approval of the Commanding Officer of the Hyogo Military Government Team, and therefore they shall not be disposed of without the permission of the Prefectural Government.

E. Other necessary particulars shall be arranged after making contact with the Reparations Section, Hyogo Prefecture.

F. In case of night operations, lamplights shall be provided to each salvage vessel.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

HYOGO LIAISON OFFICE

May 15, 1947

To: Lt. Col. Russell C. Renkop,
Commanding,
Hyogo Military Government Team.

Subject: Report on Permission for Recovering Munitions Cargo from Sunken Vessel.

Sir,

The Toyo Salvage Company, Ltd., Kobe Branch, has filed with our office an application for permission to recover the cargo, consisting of former munitions, carried on the s/s "Tairyu Maru", which was sunken off the Wada Point Signal Tower, Kobe.

Based on the communication from the Hyogo Military Government Team, dated April 29, 1947, to the Kobe Harbor Master and the Chief of the Marine Affairs Dept., Maritime Bureau, we have given permission to the aforesaid application on the following conditions:

A. When salvaging is started, the progress of the work shall be reported to the Prefectural Government.

B. When the operations are completed, a list of all recovered items shall be made and submitted to the Prefectural Government.

C. Pending instructions from the Prefectural authorities, all recovered items shall be stored under strict custody on the responsibility of the Company, and the details of guard conditions reported to the Chief of Public Safety Section, Police Dept., Hyogo Prefecture for further directions.

D. All recovered items are to be dealt with as special items with the approval of the Commanding Officer of the Hyogo Military Government Team, and therefore they shall not be disposed of without the permission of the Prefectural Government.

E. Other necessary particulars shall be arranged after making contact with the Reparations Section, Hyogo Prefecture.

F. In case of night operations, lamplights shall be provided to each salvage vessel.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

G. In case explosives are found on the vessel, the operation shall be stopped, and the matter reported at once.

We wish to have it understood that we intend to dispose of the recovered items as munitions the same as before, with your approval to be obtained after another contact with your office.

Yours truly,

Hiroto Tanaka,
Chief,
Hyogo Liaison Office.
