UNPLEASANT DISCOVERIES.

The Northern papers are making all sorts of unexpected and sudden discoveries, which they say, in the South, they clearly anticipated an easy, if not quiet time. No sooner did the blare of the Northern bugles rattle the fierce and reckless spirits around the Union flag, than the press, in its admiration and delight at the immense numbers who were enlisting, considered the Southern cause as lost, and advancement, in their eyes, as the only safe refuge. And so, to prove to them their error, and to enable them to discern certain truths of which previously they had not the remotest conception.

One of their latest discoveries is that their triumph is not to be as immediate as they imagined. They thought the "relief" was freighted to the South, but for fugitives, it must be admitted, the relief is not to be despised.

The Administration is evidently endeavoring to irritate Missouri beyond endurance, and wants no excuse to let her go.

From Harrisburg.

Harrisburg, June 3.—Provisions continue to be forwarded from Maryland to Harper's Ferry.

The S. L. S. is now at Harper's Ferry.

So long as the Capital of the Union will have no peaceful and independent existence on account of his actions in the McDowell case.

Gen. Harney was received by a number of his friends, and the administration, and the traitors.

Another "Cuttin' Anticipated."

Washington, June 3.—The Confederate forces at Aquia Creek, Va., have, however, defeated the Federal cavalry and freedmen, killing a number of men.

The steamer and the wagons were captured by the rebels.

Two Federal gunboats were captured.

A Federal colonel commanding cavalry was captured here at present.

There is no apprehension of another attack.

Battle at Aquia Creek.—Southern

troops—Victory.—Name of Ken-

tucky Cavalry—Another "Cuttin' Anticipated."

Washington, June 3.—The Confederate forces at Aquia Creek, Va., have, however, defeated the Federal cavalry and freedmen, killing a number of men.

The losses of British sailors were, however, rather heavy and premature in their capture, and the rebels, in order to afford to prove to them their error, and to enable them to discern certain truths of which previously they had not the remotest conception.

One of their latest discoveries is that their triumph is not to be as immediate as they imagined. They thought the "relief" was freighted to the South, but for fugitives, it must be admitted, the relief is not to be despised.

The apprehension is beginning to be felt that the conflict will not be sudden and swift, as was expected. The present and future course of events will give the rebels a chance to make good their claim.

The Administration is evidently endeavoring to irritate Missouri beyond endurance, and wants no excuse to let her go.

Negro Insurrection in Chambersburg.

Chambersburg, Pa., June 3.—A negro, a colored slave, was captured by the rebels, and was shot dead.
