Lack of Sanitation Cause of Much Trouble—Credit System Recommended—Co-operation Is the Chief Necessity

Special Message to the Queen Elizabeth... WASHINGTON, D. C., Feb. 19.—President Roosevelt, in his message to the Country Life Commission, today has set forth the chief faults of the present rural life in this country, and has given the remedies for them. He says that the chief cause of the trouble is the lack of sanitation, and that this is the chief reason why the farmer is so poor and why his life is so miserable. He also points out the need for a credit system and for co-operation among farmers.

LINCOLN'S GETTYSBURG ADDRESS.

Fourteen and seven years ago before tonight four of the bravest of our nation, gathered in hasty and dedicated to the purpose that all men are created equal.

We are gathered in a great hall, being nothing but a log cabin, or any other building not dedicated, on this spot. We are met on a great battle field of our time. We have come to dedicate a portion of that field as a national cemetery. We have come to dedicate a portion of that field as a national cemetery. We have come to dedicate a portion of that field as a national cemetery.

Verses on Woman.

Woman is the glory of our race. She is the glory of our race. She is the glory of our race. She is the glory of our race.

Resents an Insult.

The man who is insulted by a woman, he is insulted by a woman. He is insulted by a woman. He is insulted by a woman.

THE SOLUTIONS OF DR. FURNIVALL

BEING THE HISTORY OF SEVERAL PERPLEXING CASES, SOLVED BY THE MARVELOUS PSYCHOMETRIC DEDUCTIVE POWERS OF A FAMOUS PHYSICIAN-DETECTIVE.

By Dr. George F. Butler and Herbert Nisley

"THE PLANT AT NO. 76"

O ne of the most curious and mysterious cases which have come under the hands of the illustrious physician-detective, Dr. George F. Butler, occurred at the residence of a certain individual at No. 76, West 76th street, New York city, in the early part of the year 1901. The case was so peculiar and so perplexing that it has since become known as "The Plant at No. 76."

It was found that there had been a fire in the apartment house at No. 76, which had been extinguished by the fire department. The fire had done considerable damage to the property, and it was found that the loss was considerable. The owner of the apartment house, a certain Mr. X, had been told by a certain individual that a plant had been put in the apartment house, and that the plant was the cause of the fire.

The case was so peculiar and so perplexing that it has since become known as "The Plant at No. 76." The owner of the apartment house, a certain Mr. X, had been told by a certain individual that a plant had been put in the apartment house, and that the plant was the cause of the fire. The case was so peculiar and so perplexing that it has since become known as "The Plant at No. 76."

THE OLD DRAUGHTS BOARD.

The draughts board is a board used for the game of draughts. It is a square board with 8 columns and 8 rows of squares. The squares are numbered 1 to 8 in each row, from left to right. The rows are numbered 1 to 8, from bottom to top. The pieces are placed on the squares in the following manner: White pieces are placed on the squares in the 1st, 3rd, 5th, and 7th rows. Black pieces are placed on the squares in the 2nd, 4th, 6th, and 8th rows.

The game is played by moving the pieces from one square to an adjacent square, either horizontally or vertically. The objective is to capture the opponent's pieces and to get one's own pieces to the opposite side of the board. The game is a classic test of strategy and skill.
