HORSE RACES OPEN TO-MORROW

A GOOD PROGRAMME OFFERED THE PUBLIC

Many Entries for the Various Events --The Meet Lasts Three Days.

To-morrow afternoon the Victoria Driving Club will inaugurate its initial track meet which will last three days and which will surpass anything of its kind ever before seen in the city or even in the province of British Columbia.

The programme for each day has been carefully arranged and there are five races on the card for to-morrow afternoon, two harness and three galloping events.

The entries for the harness events closed on Monday night but a few belated mail entries arrived yesterday morning and were accepted. The complete list is announced to-day. The entries for to-morrow's running events will close to-night at 9 o'clock. The following races are billed for the opening afternoon.

Event No. 1.—3-minute class, trot or pace, three-in-five. Purse \$250.
Event No. 2.—2:15 trot or 2:30 pace, three in five.—Purse \$250.
Event No. 3.—Running, half-mile dash. Purse \$150.
Event No. 4.—Running, five-eighths mile dash. Purse \$150.
Event No. 5.—Running, seven-eighths mile dash. Purse \$150.

The harness events with the exception of the gentlemen's driving class have all been well filled. As this event has not been filled, the committee are taking steps to arrange for a race to take the place of this event.

The following is a list of the entries:

Three-Minute Class.

Cashmount, b. g., by Cauton-Al-
meester, owned by J. K. Love, Seattle.
Kittie Hart, a m., by Lovelace
Prince-Marjold, owned by V. P. Hart,
Seattle.

Sister Stell, b. m., by Kid Rebuff,
Bridle, owned by F. Shires, Victoria,
Victoria.

Dr. H., b. g., owned by G. Mitchell,
Victoria.

Max Dell, b. s., by Delnorte-Bella
Belane, owned by I. D. Chappelle, Vic-
toria.

The Prince, b. g., by Argolo, owned
by I. D. Chappelle, Victoria.

Belane, owned by Direct, owned by
Thompson and Brothers, Victoria.

2:15 Trot or 2:30 Pace.

Starlight, ch. f., by Flaxmont-Thor-
oughbred, owned by Crawford, Van-
couver.

Dan D., b. g., owned by Thompson
and Brothers, Victoria.

Elma O, blk. m., by Red Byron,
owned by I. D. Chappelle, Victoria.

Gibbie, br. g., by McVeever-Lizzie,
owned by E. Cudihoe, Seattle.

2:35 Trot or 2:40 Pace.

The Prince, owned by I. D. Chap-
pelle, Victoria.

Max Dell, owned by I. D. Chappelle,
Victoria.

Dintzone, owned by Thompson and
Brothers, Victoria.

Dr. H., owned by G. Mitchell, Vic-
toria.

Free-for-All.

Yukon, b. s., by Bay Bird-Jay Bird,
owned by I. D. Chappelle, Victoria.

Elma O, blk. m., by Red Byron,
owned by I. D. Chappelle, Victoria.

Ora Wilkes, b. s., by Ora Wilkes,
owned by Thompson and Brothers,
Victoria.

Gibbie, br. g., by McVeever-Lizzie,
owned by E. Cudihoe, Seattle.

2:55 Trot or 3:20 Pace.

Cashmount, owned by J. K. Love,
Seattle.

E. C. King, b. s., by King Patchen-
Laura West, owned by J. W. Hollings-
head, Ladners.

Kittie Hart, owned by V. P. Hart, Se-
attle.

Starlight, owned by Crawford, Van-
couver.

Sister Stell, owned by F. Shires,
Victoria.

Queen Victoria, blk. m., by Capt.
Brino, owned by Dr. J. A. Graham,
Victoria.

Minnie Jerome, b. m., by Coeur de
Lion-Hazelmout, owned by Dr. J. B.
Hart, Vancouver.

Six horses arrived this morning which
included the fast trotter Gibbie, owned
by Sheriff Cudihoe, of Seattle and en-
tered in the "free for all" class. Kittie

WAS CRIBBING INDULGED IN

DENTAL CANDIDATES CHARGED WITH IT

Dr. Verrinder, Presiding Exam- ner, Will Not Discuss Question With- out Authority of Board

A certain element of dissatisfaction has been evinced both among the rejected candidates and among some of the public since the results of the recent dental examination held in this city were announced. Out of fourteen candidates, the largest number that ever sat for examination in the province, only four passed.

Yesterday, according to a dispatch to the Times, a semi-official statement was made in Vancouver to the effect that the reason only four out of the fourteen candidates passed was due to the fact that wholesale cribbing was carried on. It further stated that this cribbing was discovered by a candidate dropping a book which he had concealed under his vest.

When seen with reference to this statement, Dr. Verrinder, who had conducted the examination, stated that without the sanction of the dental board of examiners he could not either deny or affirm the story. He was kind enough, however, to open his rooms where the examination was held for inspection, and the inspectors were satisfied that the candidates had insufficient room during the tests were of an unfounded character.

The examination is divided into two parts, theoretical and practical. In the former, which lasts three days, the candidates were provided with desks, all situated in the one room, and throughout the entire test were under the personal supervision of Dr. Verrinder. The practical examination, by a by-law of the dental board, must be completed in six days. This by-law is, however, not enforced, and the candidates that sat at the recent examination were informed before the work commenced that ample time would be allowed them.

The practical work consists of one gold filling, one amalgam filling in one full denture, an inlay in the mouth. Dummy work for deposit with the examiners consists of one four tooth bridge, one porcelain inlay and one porcelain carved crown. The work, according to Dr. Verrinder, can be completed in six days, whereas the candidates at the late examination were allowed a fortnight.

The operative dentistry was carried out in a room where there were five chairs. While this was in progress many of the candidates were engaged in laboratory, so that the candidates in the operating room were never without a chair, except on one occasion, when a candidate desired a special chair and waited for fifteen minutes until it was unoccupied. As the practical work was split up between three rooms there was ample space for the 15 pupils. Only 12 sat for the practical examination, as two of the candidates had passed it before.

The dental examination calls for an all round proficiency. To be successful a candidate must secure an average of 70 per cent, and in no one subject must less than 50 per cent be scored in the two subjects both operative dentistry and prosthodontia, a minimum of 70 per cent, is necessary.

In declaring the results the examiners tell the unsuccessful pupils whether they have failed in practical or theoretical work. No table of the marks secured is furnished to the dental board and when again next November at Vancouver and probably pass. Were specific instances given in respect to the recent test, those instances might, and undoubtedly would, do the candidates little good in their future practice of the profession.

SUN SPOTS.

(Special to the Times.)

Ottawa, June 18.—The Dominion astronomer at the observatory this forenoon noticed large spots on the sun. These spots are estimated to be 100,000 miles long and 250,000 to 300,000 in width.

SNAPSHOTS OF FIFTH REGIMENT

1. On Way to Church Last Sunday. 2. Fifth Entering Church. 3. Regimental Camp With Field Guns. 4. Forming the Parade. 5. Shearwater's Crew Entering Church.

REGIMENT HAD GOOD PRACTICE

WERE ENGAGED ON BIG GUNS AT FORT

Fifth Are Making Steady Progress at Their Annual Training on Macaulay Plains.

Last evening the firing was carried on in the fort for about an hour and a half by members of the Fifth Regiment. The practice was pretty good for the first night. The remaining routine duties of the camp were well performed. The layers and fuse-setters were examined. Good work was done at drill with the 15 pounders on the field and with the 4-inch breech loaders and Maxims in the fort.

The men are looking forward to the commencement of this year's target practice. The regulation target consists of two bodies moving in a straight line at a varying distance apart. By this means on any one day a definite sized vessel may be supposed to be represented by the target. A long tow line is attached to the first part of the moving target. This ensures the tug being at a safe distance from the line of fire. The vital part of the target is the open space between the two bodies. This represents the portion of a vessel where the engines are concentrated. But the target is not so simple as it appears. This is the most strongly armoured portion of the ship. A battleship at the present day is so constructed as to permit of their being shot down to the water's edge at the bow and stern—that is so far as all upper structures are concerned. But men will in all probability present themselves again next November at Vancouver and probably pass. Were specific instances given in respect to the recent test, those instances might, and undoubtedly would, do the candidates little good in their future practice of the profession.

The mine at Comox in which the fire has been giving so much trouble for a week or two will be put in shape to work again as quickly as it is possible to do it. The management has decided to block up the affected part and then clear the remainder of the mine so that their operations free from the danger of gas and fumes of the section where the fire was located.

The management of the mine, attempted the mode of flooding the affected parts in the hope of putting out the fire, but this it appears, has not been as successful as was anticipated. A tremendous amount of water has been poured into the mine and the pumping out of this will occupy the best part of a month's time.

In the meantime, the affected parts will be shut off from the rest of the mine, and the walls separating it made tight so that there may be no air entering the mine. The clearing of the level will be done as quickly as possible so that the miners may get back to work again.

Distribution of all the men available not required in the work of No. 4, the mine affected by the fire, will be employed in the other mines of the company at Cumberland and as No. 4 is cleared miners will be put to work taking out coal in the parts not injured or which have been cleared of the gas, etc.

In this way the Wellington Colliery company will endeavor to provide as fully as possible for the coal shortage which the increased demand on the coast has created.

PREMIER TRIES TO DELUDE

IS SEEKING HONOR WHICH IS NOT HIS

Did Hon. R. McBride Make a Fatal Blunder in Not Acting at Conference?

The campaign in the interests of Hon. Richard McBride, to prove that he has accomplished something in the way of better terms, continues. The efforts manifested by his friends in this direction cannot but be admitted. All of them realize that the provincial premier has utterly failed. He has accomplished nothing. Realizing this his friends for party reasons endeavor to make it appear that the London trip resulted in a great victory because the Imperial parliament struck out the phrase "final and unalterable" in referring to the increased subsidies now being granted by the Dominion to the various provinces.

It is safe to say that Premier McBride had nothing to do with the striking out of these words. It is equally certain that the Premier should have got his work in on this at the conference of the provincial premiers in Ottawa, but failed to do so.

One of the best students of constitutional government in this province has said that there was no likelihood of the British parliament passing the amendment to the British North America Act with the words "final and unalterable" in it. They were sure to have been struck out. The nearest approach to such a declaration was made many years ago when the British parliament, threatened with the disruption of the colonies now composing the United States, disavowed the right to collect internal revenues in the colonies. The situation at the time was regarded as exceptional, and the step was considered necessary to avoid an appeal to arms. The Imperial parliament, above all other representative bodies in the British Dominion, would be very slow to declare its consent to be passed by it to be "final and unalterable."

But there is pointed out to be a danger in connection with those words having been allowed to enter into the resolutions of the provincial premiers. Had they been incorporated in an act passed by the British parliament, the latter would not have been binding upon the parliament. Passed by the provincial premiers, however, the resolutions contain the declaration that they shall be "final and unalterable." The question arises whether the provinces having asked for this and had the terms agreed to by the Dominion authorities, the latter may feel bound to the language.

It is evident, therefore, that Premier McBride made a fatal blunder in not fighting this language at the proper time, when good could have been accomplished. Instead of raising and pressing his agreement with the resolutions at Ottawa, he should have put forth an effort to have objectionable language eliminated.

But, as usual, Hon. Mr. McBride was slow to act. The opportunity passed. He never saw the danger in the language until his attention was called to it by the leader of the opposition in the local legislature, J. A. Macdonald.

Failing to accomplish what he claimed he was going to London to do—get better terms—the Premier tries to delude the public by representing that he got the words struck out, although insisting on a "rest—put—up—accomplishing this."

The waterworks construction gang at Indian Head have struck for \$5.90 per day instead of \$5. The waterworks extension is being delayed.

DEVELOPMENT OF FERNIE MINES

EXTENSIVE SCHEME TO BE CARRIED OUT

Death of Centenarian at Bloomfield, Ontario—Stock Exchange Officers.

(Associated Press.)
Toronto, June 18.—G. S. S. Lindsey, general manager, and Mr. McEvoy, chief engineer, of the Crow's Nest Pass Coal Company, arrived from the West yesterday and on Wednesday at a meeting of directors will submit plans for the extensive development of the company's properties. Mr. Lindsey did not feel disposed to discuss the matter of the programme under contemplation until it has been formally placed before the directors. The company has been somewhat handicapped through the lack of men, but lately they have been coming in more freely.

Centenarian Dead.

Pictou, Ont., June 18.—John Pymar, of Bloomfield, the oldest resident of Prince Edward county, died last night in his 104th year. He was born in London, England in April, 1804, and came to Canada in the early thirties and performed military duty at the battle of the Windmill near Prescott. His occupation was that of a farmer and for a number of years he was a resident of Rose Hill, but subsequently was employed on a farm in the Burr settlement, township of Hallowell. He raised a family of ten children. His wife died eighteen years ago.

New Officers.

Toronto, June 19.—At the annual meeting of the Toronto stock exchange held yesterday the following officers were elected: President, A. B. Burritt; vice president, O. Duchane; secretary, W. H. Brouse; treasurer, F. T. Omer; committee, Murray Alexander, H. R. O'Hara, and Edward Cronyn; auditors, J. K. Diven and J. Ewart Osborne.

In Full Bloom.

Morden, Man., June 19.—The orchards are in full bloom, apple trees having the best show of blossoms ever seen in this district, and as the bloom is late, there is little danger from frost. Apple and plum trees are greatly overladen, one-half. They are being used extensively for weddings in an orange blossom, but many are going to waste. The orchards look lovely with a profusion of apple, crab and plum blossoms, something like a bit of transplanted Ontario.

THE TRIAL OF W. D. HAYWOOD

WITNESSES FOR THE DEFENCE ARRIVING.

Nearly Two Hundred Will Reach Boise Before the End of the Week.

(Associated Press.)
Boise, June 19.—Secrecy is the watchword of the men who are conducting the prosecution of W. D. Haywood, charged with compassing the death by assassination of a former chief executive of the state, and mystery surrounds every move made by the counsel retained by the Western Federation of Miners to defend their secretary. The case has reached a stage where every move on the part of State's attorney is closely watched and reported on by scores of sleuths employed by the defence in order that counteracting evidence may be secured in the four or five western states where the alleged conspiracy culminated, according to the allegations of the prosecutors, in half a hundred murders, and from which the state is producing witnesses.

While the state has its data in court, another score of detectives watch the employees of the defence in the hope of uncovering some—saw—mass—by which the counsel for Haywood hope to clear their client. In the last days during which the state hopes to clinch and corroborate without a doubt the story told by Harry Orchard, the self-confessed conspirator with Haywood, a tremendous activity is apparent. Witnesses for the state are constantly arriving.

Witnesses for the defence, numbering 150 or 200, will be here by the end of the week. Colorado supplies a large number of them, but California, Idaho and Washington will send others.

LONGSHOREMEN'S WAGES.

Conciliation Board Decides in Favor of An Increase.

(Special to the Times.)

Ottawa, June 19.—The conciliation board has decided in favor of the longshoremen of Montreal, giving them an increase of 2-1/2 cents an hour which they asked this season, in addition to 2-1/2 cents granted by the shipping federation. The increase will only be granted this year by way of a bonus from July 1st. These men work for the season. Next year the rates will be thirty cents an hour for day work and 35 cents for night.

ALEXANDER HENDERSON.

Who Has Been Sworn in as Commissioner of the Yukon.

(Special to the Times.)

Ottawa, June 18.—Alexander Henderson was sworn in as commissioner of the Yukon this afternoon by Mr. Bennett, assistant clerk of the privy council. He leaves for Vancouver this evening on his way to Dawson.

Mr. Henderson was born in Oshawa, Ont., in 1855, the son of Alex. Henderson, a native of Calthness, Scotland, and Grace Kilpatrick, of Paisley. He was educated at Oshawa High school and later graduated from Toronto University with the degree of B. A. in 1884.

In 1881 he came to British Columbia and began the practice of law in New Westminster. He has always taken a deep interest in politics, and in 1899 he was elected a member of the provincial legislature to represent New Westminster, and upon the resignation of Joseph Martin in August 1906, he

entered the Semi-Cotton cabinet as attorney-general, retaining that position until the dismissal of the ministry in February, 1906.

In June 1901 he was made a judge of the county court for Vancouver county.

Last year he resigned from the bench and entered upon the practice of law in Vancouver. He contested the seat for the city of Vancouver at the provincial elections. He was defeated with the other Liberal candidates, and since that time has devoted his attention to his law practice.

He is regarded as an admirable appointment for Commissioner of the Yukon. His experience in the local government and on the bench will aid him materially in his administration of affairs in the north.

Mrs. Henderson is a daughter of William McCraney, who formerly represented Halton County, Ont., in the Dominion House of Commons.

SEVENTY SOLDIERS SHOT IN FIGHT

DETAILS OF THE MUTINY AT KIEV Sanginary Engagement Between Mutineers and Loyal Troops Before Trouble Was Suppressed.

(Associated Press.) St. Petersburg, June 19.—Details of the mutiny of sappers at Kiev shows it was only suppressed after a bloody engagement at midnight between the mutineers and loyal troops. About 70 men were killed or wounded. Kiev is one of the cities where revolutionary military organization is most powerful, counting among its members dozens of officers.

THE FULL COURT THIS MORNING UPHeld the judgment of Judge Lammiman in the County court, whereby the city and W. Rockett, who built the Rock Bay bridge, were made liable to the owners of the saw Saddle for damages.

MR. CHAMBERLAIN FAILING RAPIDLY

Rep rt Current in the House of Commons That Statesman is Dying.

(Associated Press.) New York, June 19.—A special cable to the World from London says: "A report was current in the House of Commons last night that Joseph Chamberlain is dying. Mr. Chamberlain was brought to his London house yesterday from Highbury, his place near Birmingham. Since his return from abroad he had shown an increasing loss of nervous and mental power and it was the desire to have him within reach of the best medical advice that London afforded. Austen Chamberlain, his son, was with him all day, but inquiry at Mr. Chamberlain's residence gets only the stereotyped reply that he bore the journey well. He is 74 years old."

TRAIN JUMPED TRACK

(Special to the Times.) Spokane, June 19.—A freight train on the Spokane and International jumped the track near Greenacres, severely injuring eight employees. Fireman Waters may die. Engineer Kendall's legs and hands were badly burned and Fireman Cameron was slightly scalded.

SET HIMSELF ON FIRE

Copenhagen, June 19.—A land owner named Christoffersen, said to be a religious fanatic, and desiring to die as a reformer, John Huss, saturated himself with oil and set himself on fire. He was cremated.

TRUE BILL AGAINST EDITOR GROCKETT

(Special to the Times.) Ottawa, June 19.—A true bill has been rendered against Crockett in the Emerson-Crockett case, at Fredericton. Both women, Mrs. Allan and Mrs. Bouthern, will attend and give evidence. Mrs. Allan is ill.

LEGAL NEWS

Local Cases Argued in the Full Court—Shipwrights' Suit. The Full court this morning upheld the judgment of Judge Lammiman in the County court, whereby the city and W. Rockett, who built the Rock Bay bridge, were made liable to the owners of the saw Saddle for damages.

THAT BEST TENT

To the Editor.—E. Le Roy Dakin, in your issue of Monday, promises to try and be calm under the influence of a flaming spirit. It is to be hoped he will succeed. What spare water there is needed to beautify the lawns. Judging from his impressions all the available beer will be required for the fair grounds to damp things out there.

ADORES FRENCH-HEELS

Mrs. Della Collier is suing the Detroit Automobile for \$10,000 damages. In a collision between her automobile and one of its cars she suffered a broken ankle, and she says her one great distress in that in consequence of it she can never again wear high French heels.

BORN

BOWERS—At 46 Vancouver street, Victoria, on the 19th inst., to the wife of R. V. Bowers, a son.

DEPARTED

McFADDEN—At Salt Spring Island, on June 17th, Edwin Joseph Rosman McFadden, aged 19 years.

DEPARTED

ELLISON—At Vancouver, on June 17th, Frank E. Ellison, aged 60 years.

MANY LETTERS ARE INTRODUCED IN THE HAYWOOD CASE AT BOISE

Defence Made Numerous Objections Which Were Overruled by the Judge.

Boise, Idaho, June 18.—The trial of Wm. D. Haywood was resumed at 9:30 a. m. Harry Orchard was recalled to the stand for the examination for impeachment by Mr. Richardson for the defence. Before Orchard was called, J. T. Nicholas, who as deputy sheriff in charge of the Caldwell jail when Orchard was arrested for the Steuenberg murder, identified a copy of a letter received by Orchard from Pettibone, Nicholas said that Fred Miller, a Spokane lawyer, who is now helping to defend Haywood, visited Orchard in jail after sending him a telegram signed "M."

An alleged talk with former Lieutenant Governor Coates, in which Orchard is reported to have said: "The more I see of my old partner in the Hercules, the more bitter I feel. They are all rich, and I am a wandering pauper. I'll get even with Steuenberg yet," was denied by Orchard.

At this point the state took Orchard over for re-direct examination, and the witness answered questions of J. H. Hawley as to his interest in the Hercules mine, which he said re-sold in March, 1897.

The prosecution offered one of its most important pieces of evidence against Haywood, when it introduced and secured the admission of four letters tending to show that Haywood during the fall of 1895, when Orchard swears he was engaged in the Steuenberg murder, participated in a plan to deceive Mrs. Orchard, the second wife of George Orchard, as to the whereabouts of her husband. Over a variety of protests from the defence, Orchard was allowed to testify that early in the summer of 1895, Haywood told him that Orchard was willing to give information as to Orchard's whereabouts. Orchard swore that he proposed that he should write his wife a series of letters that were to be

Falsely Dated and delivered to Mrs. Orchard by agents of the Federation. He said that he first wrote two letters dated at San Francisco, and had them delivered through Paddy Mullane, who represented the Federation at Cripple Creek. Orchard identified the two letters, and overruling all objections of the defence, Judge Wood admitted them.

Next Orchard swore that he wrote a third letter purporting to come from Nome, Alaska, and that under the general arrangement that he had made with the Federation officials, Marion Moore carried the letter to Nome, where he went as organizer of the Federation, and posted it. This letter, bearing the date of Nome, August 5th, 1895, was produced, identified and admitted as evidence.

Orchard then identified a letter which Haywood wrote to Mrs. Orchard, and that too was admitted in evidence and handed to the jury. It was as follows:

"Denver, Nov. 18th, 1895. Mrs. H. Orchard—Dear Madam and Sister—I have not heard a word since I saw you. I think Paddy Mullane, who represents the Federation at Cripple Creek, has issued an order to discontinue the guns and head back to Sebastopol, where after troops had been sent aboard the warships several hundred sailors were disembarked and imprisoned."

LAND FRAUDS.

Jury Returns Verdict of Guilty on Two Counts in North Idaho Conspiracy Cases.

Portland, June 18.—A special to the Oregonian from Moscow says: "The jury in the North Idaho land conspiracy cases returned a verdict of guilty on two of the five counts of the indictment against G. H. Kester, William Dwyer and W. F. Kattenbach, and acquitted them on the other three counts."

J. W. Robinson, the sick juror, was carried into court on a cot and was attended by a trained nurse, his head being covered with blankets. After polling the jury, Judge Dietrich examined the verdict and ordered the clerk to read it. The defendants were acquitted on counts 1, 2 and 5, and found guilty on counts 3 and 4.

Count 3 is known as the "Cory indictment" and counts 4 as the "Guy L. Wilson indictment."

"Cory and Wilson, acting with the defendants, each filing on quarter section of timber land in 1894, for which they received approximately \$5 an acre. The prosecution regards the verdict as a signal victory, which paves the way for the prosecution of similar cases which will be tried at the fall term of the federal court."

"It is said notice of appeal to the United States Court of Appeals will be filed by attorneys for defence."

"Kattenbach is president, and Kester cashier, of the Lewiston National Bank, of Lewiston, Idaho. Dwyer is a timber cruiser. He also lives at Lewiston."

SUPERVISIONS ARE REBUKED

SCHMITZ SENDS LETTER TO BOARD

Warns Members That Recognition of Gallagher as Mayor Will Lead to Trouble.

San Francisco, June 18.—Supervisor Gallagher, who was yesterday by the board of supervisors, appointed acting mayor in place of Mayor Schmitz, who is confined in the county jail awaiting sentence for the crime of extortion, will be, by the bribery-graft prosecution, retained in that office until Schmitz has perfected his appeal from last week's conviction. This statement was made this evening to the Associated Press by District Attorney Langdon.

He further said: "The members of the prosecution have not even discussed with each other the name of any man to succeed Gallagher as emergency mayor for the remainder of this year. We have not gone that far yet. We are yet proceeding carefully, and with due regard to the seriousness of the situation. I am not yet ready to answer with a detailed plan the question 'Will we sweep out of office the entire Schmitz administration?' but I will say this: 'We have shaped up and are now filling in the body of a policy whose one and only object is prompt and effectual relief for the public, and we shall permit nothing to interfere with the carrying forward of that policy.' We do not fear any counter moves by the mayor's counsel. We are fully advised of the law, and have entire confidence in the legality of the step we have already taken to appoint the acting mayor. I propose taking when Mr. Schmitz has perfected his appeal."

Mayor Schmitz this afternoon at the close of a conference with his attorneys addressed to the board of supervisors a letter rebuking that body for its action of yesterday. In this letter he declared himself able and willing to perform the duties of the mayor-alty, commanded the board to forward to him all matters requiring review by the mayor and warned the board that any recognition of Gallagher as acting mayor will result in trouble for the city.

Supervisor Gallagher made no attempt to-day to take possession of the mayor's office at Post and Franklin streets. A police sergeant was "on the door" all day, and his instructions were to see that no one encroached on the premises.

Gallagher says he has had no use yet for the office at Post and Franklin; the mayor's office is wherever he happens to be.

Visit to Attorney.

Mayor Schmitz was given permission by Judge Lawlor this morning to pay another visit to the offices of his attorneys during the day, but failed in his efforts to have the court extend the scope of his absence from the county jail so as to permit him to attend to other than private business. His attorney, Frank Drew, of his counsel, appeared before Judge Lawlor at the opening of court and demanded that Schmitz be permitted to leave the jail to consult with his attorneys and "for the transaction of such other private and public business as is his right."

The application was denied by the district attorney, who is seeking to usurp his office, and it is necessary for him to take steps to prevent it. Judge Lawlor stipulated that Schmitz should visit the office of his attorneys only, and placed no limitation on the time he might be away from jail.

IOWA'S GOVERNOR FAVORS RECIPROCITY

The American Habit of Placing Duties on Goods—Stands for Tariff Revision.

Pittsburg, Pa., June 18.—Governor Albert E. Cummings, of Iowa, delivered the principal address last night at a meeting of the "Pittsburg Board of Trade. He spoke on "Reciprocity," and Wm. R. Corwin, secretary of the New York committee of the American reciprocal tariff league, also made an address.

Governor Cummings characterized the placing of duties upon many things as an American habit, and said, "I stand just as firmly and as persistently for a reduction in some of the duties in order that the home buyer may be protected as I do for reciprocal arrangements that will enlarge our sales abroad. I am for tariff revision and for tariff reduction as a measure of justice to the buyers of protected commodities. It seems to me that we have gone mad in our zeal for the tender mercies of monopoly, combination and greed. The people have borne the excessive tariff with marvelous patience, but they will not bear it in silence and little by little they are coming nearer to their own. The way is beset by many difficulties, but a congress will convene that will be a swift to give them the relief to which they are entitled as congresses of the last few years have been resolute in denying."

TELEGRAPHERS' GRIEVANCES.

United States Labor Commissioner Will Make Inquiries and Report to President Roosevelt.

New York, June 18.—Chas. P. Neill, United States labor commissioner, is expected to arrive in New York from Washington to-day to investigate the threatened strike of telegraph operators against the Western Union and Postal Telegraph companies. It is stated that Mr. Neill will hear both sides of the controversy and then report to President Roosevelt.

The question at stake is the 10 per cent. increase in wages which the two companies promised to give on March 1st. The two companies declare emphatically that they did give the 10 per cent. increase, while the telegraphers contend only a few favorites received the increase, while more than 90 per cent. of the men are getting even less than they were receiving March 1st.

Officials of the Western Union company will not talk on the subject beyond saying that there are no grievances on the part of those employed by the company.

It was declared that there would be no conference between officials of the company and parties who have manifested an interest in telegraphers' complaints. This would not apply, however, to any investigation to be made by Commissioner Neill as a government official.

DESTRUCTIVE BUSH FIRES.

Much Valuable Timber and Camp Buildings Burned.

Cobalt, Ont., June 18.—Prospectors returning from Temagami forest reserve report that serious bush fires are destroying tents, canoes and camp buildings. Jack Munroe is said to have lost two camps. Big forest fires are burning near Haliburton. The fire got uncomfortably close to two magazines of powder.

The townships of Smith and James, on the Montreal river, were almost burned and much valuable timber has been destroyed. Prospectors are pleased, as they can now easily get in their boats.

EXPLOSION IN MINE.

Seven Men Killed and Two Injured—Due to Carelessness of a Door Tender.

Scranton, Pa., June 18.—Seven men were killed outright and two others seriously injured in two explosions of mine gas in the Johnson mine at Piceburg late to-day.

The first explosion, which occurred about 2 o'clock, was caused by the carelessness of a door tender, who, by leaving the door open, allowed gas to accumulate in the workings. One man was injured as a result of this explosion.

The second explosion, which resulted in the death of seven men and the injury of another, was caused by the ignition of the deadly fire damp which accumulated after the first explosion. About 1,500 men work in the mine. No account was kept of those who had come out before the explosion, and it is impossible to determine until the rescuers return whether the death list is complete.

TRAIN DISPATCHERS MEET.

Boston, Mass., June 18.—Delegates from every section of the country were present to-day at the opening of the twentieth annual convention of the "Train Dispatchers' Association of America. An address of welcome was made by President Louis J. Tuttle, of the Boston & Maine railroad, to which James Holleran and John F. Mackie, respectively president and secretary of the association, responded.

FERRY STEAMERS COLLIDE.

San Francisco, June 18.—The ferry steamers Thuren and James M. Donahue collided shortly after 8 o'clock to-night off Alcatraz Island. There were many passengers aboard. News has just been received that no passengers were hurt, and all got ashore. It is reported that the Donahue is sinking.

FINE MUSIC.

Fine music is best expressed on a perfect piano. There is one piano described perfect by the artists and music-lovers, and that is the New Scale "Wielans." See it and hear it.

A SANE CONSERVATIVE VIEW.

A contemporary has seen fit to publish the opinions of the Vancouver Province, which it alleges to be a Liberal newspaper, although it knows that the Province is as rabidly Conservative as perverts usually are, upon the subject of Premier McBride's mission to Westminster and upon better terms generally.

There is one other matter in connection with the subject that seems to require some reference. If the provincial interests are to be served in the most effective way, the question must be dealt with as one entirely outside of party politics.

The News-Advertiser gives utterance to sage counsel when it says that "if the provincial interests are to be served in the most effective way, the question must be dealt with as one entirely outside of party politics."

Notwithstanding the protest of the News-Advertiser, we observe from the tone of the Conservative convention held last night that it is the intention of the federal wing of the party to follow the example of Premier McBride and endeavor to make political capital out of the question of better terms.

The opposition behind Mr. Borden in Ottawa, is a much more influential factor in Dominion politics than Mr. McBride. If the issue of better terms be raised in the Dominion generally, it will be necessary to defeat Mr. Whitney's course in moving the resolution granting the extra million dollars to British Columbia in satisfaction of her demand for better terms.

RESULTS OF THE INTELLECTUAL PREFERENCE.

Many American publications of more or less merit are abandoning the Canadian field because the post office department has decreed that they must pay the full cost of the transportation of their works through the mails.

We were convinced it would come to pass that people in large Eastern cities who had been complaining of the disposition of winter to daily in the lap of spring would before the lapse of many days be muttering maledictions about the excessive heat.

A correspondent of one of the London dailies, writing from Helsingfors, gives some account of the nineteen female members who form so notable a feature of the new Finnish Diet.

elections. Among other antiquated restrictions which he denounced is one by which a woman desiring to teach in a boys' school is compelled to petition the Emperor to consider her as a man; that is, to renounce her sex.

The annual anthem by D. Albert Ham, organist of St. James' Cathedral, Toronto, has been published by Whalley, Royce & Co. "Canada, God and Our Land" is the title, the words being by W. A. Frazer, the widely-known Canadian novelist.

Broad fields and rivers wide, Shores laved by ocean's tide, Proud we of Canada; Glorious and great and strong, Theme of a nation's song, God bless our Canada, God and our Land.

Mr. R. F. Green says he cannot understand why Victoria should not elect a Conservative at the next Dominion election. If the "pressure of private business" which compelled the retirement of Mr. R. F. Green from the provincial government will admit, he should contest the seat.

It is freely predicted by all persons who have business to transact in the Victoria registry office that such business will be greatly accelerated by recent appointments by the provincial government to the staff of that institution.

What Other People Think

A WORD WITH MR. McPHILLIPS.

To the Editor: How the Conservatives do love to ring the changes on "Quebec." Ever since Sir Wilfrid Laurier became Premier, they have endeavored to erect a scarecrow out of "Quebec."

I take the liberty of transposing Mr. McPhillips's utterances and applying them to the possibilities that he forgot to mention and they would read as follows: "It is possible to build a Normal School at Vancouver. Can it be that Victoria is to receive unequal treatment?"

But, Mr. Editor, in every one of these matters Victoria did receive "unequal treatment" at the hands of the Conservative party at the recent session of the Legislature.

Then Mr. McPhillips says: "With a solid seven at Ottawa, surely something could be done in the way of subsidizing a car ferry." Well to hear him talk one would imagine that there were loaded trains with steam at high pressure waiting to be conveyed across the water by the ferry.

An interesting sidelight in connection with the recent seizure of the Carlotta G. Cox has been discovered. When the United States revenue cutter Tush was in communication with Washington with reference to the seizure the following telegram in substance was received from the American captain: 'To the captured sealer to Port Simpson and hand her over to the British authorities there. If there are no practical vessels in the port, the sealer British authorities place a warrant officer on board and send the vessel to Victoria. State the reason for the capture, and then proceed to the high seas and search for more vessels hunting in prohibited waters.'

CITY NEWS IN BRIEF Ladies' second hand bicycle left with us to sell at a bargain. Owner leaving city. Pimley Auto Co., Ltd., opposite post office. We pay men of 22 years and under good wages and at the same time teach them a good trade—Albion Stove Works Pembroke St. Great clearance sale of ladies' and children's hats all this week at Robinson's Cash Store, 80 Yates street. Every hat reduced to half regular price. The Nurses' Club held a meeting yesterday afternoon for the purpose of making arrangements for a sale of work and garden party to be held at Mrs. Harter's residence, Esquimalt road, on July 11th. Next Sunday the Troquois will stop one hour at Mayne and return via the picturesque Inland channel and Pender Island canal. This is a most delightful outing among the Thousand Islands of the Gulf. The coming marriage is announced of Miss Eva Ventnor Annie Cornish, daughter of John C. Cornish, photographer of New Westminster, and A. E. Mallett, of the Mallett Co., of Vancouver. The marriage will take place at Victoria, and will be strictly private on account of the recent death of Mrs. Cornish. The Gorge Park carnival under the auspices of the Victoria Auxiliary held on Saturday resulted in the following returns being made to the Anti-Tuberculosis Society as the receipts taken at the following booths on the day of the picnic: Ice cream booth, \$96.35; flower booth, \$41; tea booth, \$58.10; candy booth, \$58.45; Aunt Sallie, \$12; finger rings, \$45.25; Aunt Sallie, \$58.35; Ash Board, \$50; donkey hire, \$22. Total, \$495.45; expenses \$86; net proceeds, \$409.45. Buck Sue, the Chinaman charged with stealing \$80 from the Montana restaurant last week, again figured in the police court this morning. He was remanded until this afternoon. Mr. Moresby, for the defence, saying that he was not prepared to go on with the case until further witnesses had been secured. He also stated to the magistrate that he understood Mr. Morphy, the prosecutor, was prepared to drop the case after these witnesses had been secured. The case was proceeding at the time of going to press. The local lodge of Victoria is being represented on the Supreme Orange Lodge at Vancouver by the following brethren: George Grimason, John Walsh, Isaac Walsh, I. Wallace, C. A. Gass and Isaac Post. Local Orange men hope to be able to make arrangements acceptable to the Supreme lodge, now in session at Vancouver, whereby the Supreme lodge will be able to see their way to visit their brethren of the local lodge at Victoria. If these arrangements can be satisfactorily completed the local Orangemen will provide a fitting reception for their brethren at Vancouver. Thomas Catterall has been awarded the contract for the annex to W. and J. Wilson's building on Tronace alley, the plans of which have been filed with the city assessor. These plans provide for a one-story building with a basement, but the cost, on account of the heaviness of walls and foundations which will be especially constructed to sustain additional stories that may be added when occasion requires, will be \$12,000. It is anticipated that the building may be raised to four stories at some date in the future, and that it will take in the C. P. R. offices and the one-story building occupied by Messrs. Wilson on Government street. A sure cure for the worst case of dandruff, hair falling out, if it is used will return its brightness, makes the hair soft and curly; best hair grower; contains no dye or oil; used on blonde or black hair. Gray Hair Elixir will return gray hair to its natural color. All Dr. H. B. P. Christian's French toilet preparations represented by Mrs. Winch, 128 Cormorant street. Ask for name by mail; receive special attention.

The Union Steamship Company's steamer Cacomor arrived in port this afternoon from the North. She berthed at the outer wharf and is discharging her cargo there. A garden party under the auspices of the Ladies Guild of the Metropolitan Methodist church is in progress to-day at the residence of David Spencer. Mrs. Spencer is giving Mr. Morton will assist in the musical programme. The inaugural meeting of the new board of park commissioners will take place at 8 o'clock to-morrow night in the committee room at the city hall. The business will be the election of a chairman and the appointment of a secretary, besides general discussion for the purpose of formulating plans. This afternoon the annual garden party organized by the ladies of the Knox Presbyterian church is in progress on the grounds adjoining Major Dupont's estate, fronting on Belmont avenue. Both afternoon and evening Mr. Longfield's orchestra is in attendance and light refreshments can be obtained at any time. A. T. Goward, local manager of the B. C. Electric Railway, informed a Times reporter this morning that the new Japanese tea gardens at the Gorge Park would be open on July 1st. Although refreshments will be dispensed throughout the summer in the gardens, it is not expected that they will be completed for at least a year. Commencing next Sunday the Esquimalt & Nanaimo Railway will put in effect their special Sunday rates to the different points along the line as far as Duncan; the tickets being available for Sundays only. These reduced rates afford an excellent opportunity of spending the day in the country and will be welcomed by sportsmen and picnic parties. For the past thirteen years the Ladies' Aid Society of St. Paul's church, Victoria West, have made the annual garden party on the manse grounds a leading feature of their work which this year will take place next Tuesday afternoon and evening. Strawberries and cream, cakes, etc., will be served, with stais where ice cream and home made candies can be procured. An orchestra will play from 8 to 10. The members of the Ladies' Guild of St. John's Anglican church have farwell to Miss Al. who is going back to England shortly, at a social held in the schoolroom last evening. An impromptu programme of vocal and instrumental items was rendered and following this Rev. Mr. Jerns presented Miss Ard with a watch and chain subscribed for by the congregation of the church. He accompanied the gift with an appropriate speech, to which the recipient made a feeling reply. The social was preceded by a garden party and sale of work held during the afternoon on the lawn of the rectory. There was a very large attendance and the refreshment and other booths were well patronized. IS YOUR BACK LAME? Why suffer when relief is so easily secured by rubbing on 'Nerviline' Penetrating, sinks to the core of the pain, cures from its first application. Try Poligon's Nerviline, 25c per bottle.

STANDARD STEAM LAUNDRY 55 VIEW STREET. Phone 1017 You will find no flaws in the Laundry work that we send home. Every article is properly washed and carefully ironed. Nothing is more annoying than to find your clothes spotted with dirt worn and frayed by careless handling. All such annoyances are done away with when you send your washing to this Laundry.

After a Spin White Rock As a beverage or a blender you will find it perfect—the incomparable mineral water, which refreshes and delights on a warm June day.

The W.C.T.U. have discontinued their "afternoon tea" until September. The dance of the Companions of the Forest has been indefinitely postponed on account of counter attractions. A meeting of the police commissioners for the discussion of general business has been called for this afternoon. The regular meeting of the Vancouver Quinlan Lodge, A. F. and A. M., will be held to-night in the Masonic Temple. The sub-high school examinations will commence at 9 a. m. to-morrow morning in the High school. A large number of candidates are expected to write. Pretty Windsor ties, in the newest plaid effects and colorings of rich silk, with finished ends. Special-value at 25c each. Robinson's Cash Store, 86 Yates street. Reports from Danicans indicate great improvements in progress there. Among the fine new cottages in course of erection are buildings for Messrs. Bell and Rutledge. The Hicks Lovick Piano Co. Vernon Block, Douglas street, have been appointed sole agents for British Columbia for the Thermo-Piano, and have just received a shipment of very latest model. The Hicks Lovick Piano Co. extends an invitation to you to come and hear it. J. D. Hunter, of Victoria, obtained the degree of M. D. C. M., at the McGill Medical Association examinations last week. W. Brydon-Jack, of Vancouver, was another student from British Columbia, taking honors in several subjects. E. H. Frank, of Rossland, was prizeman for the year, and captured the senior anatomy prize. The Masonic Grand Lodge meets to-day at Vancouver. Grand Secretary R. B. Brett, of the A. F. and A. M., crossed over to Vancouver on Monday to perfect the business coming before Grand Lodge to-day. The local past grand masters and the present master, together with the senior and junior wardens, left yesterday. ROYAL TYPIST. A typewriter for the King of Spain has just been finished at the works of the Linwood Typewriter Company. The machine is an Underwood No. 5, finished in white enamel and gold with nickel plated parts. This is the second machine ever made by the Underwood people with white enamel finish—the first one was made for the Emperor of Russia. The machine for King Alfonso has the recent keys necessary for the Spanish language. We pay men of 22 years and under good wages and at the same time teach them a good trade—Albion Stove Works, Pembroke St.

Each arrival of the steamer Tees from the West Coast of Vancouver Island has as far as Victoria is concerned, come to be indelibly branded with the word 'business', and once more when she put to port this morning interesting information was forthcoming of the great activity which prevails at Sechart. Yesterday when the Tees arrived at the station no fewer than five of the mammals were lying at the slip. Four of these were humpbacks, and the other a large sulphur bottom. The workers at the station have as many as they can handle and are engaged in the cutting up process day and night. At Clayoquot the sealing schooner Thomas F. Hayward was at anchor. She left here last week to procure a crew of Indian hunters, when she will proceed to the Behring Sea to commence hunting at the end of the season. Throughout her present trip the Tees experienced fine weather, but this morning reports that a heavy fog invests the entrance to the Straits and stretches out for some distance over the ocean. Twenty-five passengers were landed at this port. Among these was Mr. Knapp, the representative of the Redcliffe Lumber Company, of Duluth, who had come from the Alberni canal, where the company has large timber areas. Steamer Tees, Captain Townsend, will sail again for the West Coast to-morrow night, taking a large party of trail builders to Pachena Point, and during her trip going as far north as Cape Scott. MARINE NOTES. James A. Moore, of Seattle, has bought the three-masted derrick barque Melanope in order to take over from his mines in British Columbia to Ironside. The Melanope is the vessel which left Nanaimo some time ago for San Francisco with a cargo of coal and was disabled in a heavy gale off Cape Flattery. Towed by the tug Lorne from the Royal Roads the British barque Glenmark has arrived at Vancouver where she will load with a cargo of lumber at the Hastings mill. Carrying a heavy shipment of cannery supplies, the Rivers, left the steamer Queen City, Captain Gunn, sailed from port last night. The sealing schooners Markland, Dora Steward, Jessie and Eva Marie are expected to leave for the Behring Sea during the next few days. The first vessel to reach St. Michael this summer was the Yucatan, a sister ship of the Northwestern, now being repaired at Esquimalt. She reached the port on Monday. Owing to the break-down in the machinery of the steamer Troquois, she will not be placed on the Seattle-Bellingham-Vancouver route until next week. The Blue Funnel liner Bellerophon is expected in port this evening to discharge cargo. She has been at Vancouver for the past week. The vessel has 800 tons of general freight for this port. Bound for this port, the steamer Tartar is scheduled to leave Hongkong to-day. She is at present at Vancouver. Outward bound the Canadian-Australian liner Aorangi is expected to leave the outer wharf for Australia on Friday night. She is at present at Vancouver loading with cargo. The Empress of Japan, carrying the overseas mail and due to arrive here on the 24th inst., has over 800 passengers. Latest reports from Tatsien state that a heavy fog is hanging over the entrance to the Straits. The mountain ranges of Europe lie east and west, and those of America north and south.

FOR ORIENTAL RUN. Frank Waterhouse & Co. announced on Monday, says the Seattle Post-Intelligence, that two new steamships would be placed on the Seattle-Oriental run within the next thirty days, to be run in conjunction with the Boston Steamship Company's fleet. The Kumeric and Suverto, the two largest steamships of the Welr fleet, will sail regularly from Seattle for Japan and China, going through to Manila. The first sailing will be on August 1st. In speaking of the new service Mr. Waterhouse said: 'The Kumeric and Suverto will be placed on the Oriental run from Seattle. The Kumeric will sail during the month of August and will be followed in October by the Suverto, which will make another trip to North China ports before assuming the new service. 'It is our intention to run these vessels in conjunction with the Boston Steamship Company's fleet, the sailings being arranged so as to come in between the sailings of their fleet. Both of these vessels are new and represent the highest grade of their class. With the addition of these two vessels, the company will be able to give shippers a three-week service between Seattle and the Orient. As with the Boston Steamship Company's fleet, both of these vessels will call regularly at Manila, Hongkong, Shanghai, Kobe and Yokohama. These two vessels, with the exception of the Minnesota, are of the largest class of vessels to engage in the Oriental trade, and have a cargo-carrying capacity of 12,000 measurement tons, or 12,000 tons dead weight. Both ships are practically new, the Kumeric, which will be the first to leave Seattle on the new schedule, is a passenger-carrying vessel, and is bringing 1,000 Portuguese immigrants to Honolulu, from which port she will go to the navy yard, Puget Sound, for which place she has a cargo of 3,000 tons of Cardiff coal consigned to the government. The vessel was built in Glasgow in 1905, by Russell & Co. The dimensions are: 460 feet in length, 55 feet in breadth, 20 1/2 feet in depth of hold, and a displacement of 13,500 tons. The Suverto is a sister ship of the Kumeric, and is well known on this coast, as is Capt. Shorten, her master, having loaded cargo at Seattle for the North China trade. The vessel was built last year, and has practically the same dimensions as the Kumeric, being 460 feet in length, 55 feet in breadth, 20 1/2 feet in depth of hold, and a displacement of 13,500 tons.

SPORTING NEWS

THE RIFLE DOMINION PRIZE MEET.

The programme of the Dominion Rifle Association prize meeting, which will be held at the Rockcliffe range, Ottawa, during the week commencing Monday, August 26th, has just been issued, and is now being studied by all those who hope to take part in the big matches this year.

The meeting this year will be a five-day instead of a six-day affair. It will commence on Monday, August 26th, and conclude on Friday, August 30th, which will allow competitors one work day for sightseeing in Ottawa.

Several important changes appear in the list of events and the conditions governing them, as compared with last year. First and foremost are the rules for the future selection of teams of twenty who will represent Canada at Bisley. The old Bisley aggregate, which formerly comprised the aggregate of those matches known as the Bankers, Walker, Macdougall, Dominion, and Governor-General's first stage, will henceforth be known as the Grand Aggregate.

Briefly, the change means the exact doubling of the number of shots fired in the long ranges of the Bisley Aggregate. Formerly, in addition to the short distances it was seven shots at 500, seven at 600, but now it will be fourteen at 500 and fourteen at 600. The King's Prize has thirty shots between 500 and 1,000 yards. The Universiade Match and the School Cadets' Match, competitions which were introduced last year to encourage shooting among university students and school cadets, have been dropped, as they were poorly patronized last year. The air rifle competition has also disappeared.

A new match this year is the Coates Match, a battalion team competition for a challenge cup presented by Messrs. Coates & Co., of London, England. It will be competed for in uniform by teams of six officers or men representing any regiment in Canada. Ranges 600 and 800, and ten shots at each range.

A special notice issued by the Dominion Rifle Association says that the National Rifle Association of Great Britain and the United States having requested them to hold an international rifle match for the Palma Trophy at Ottawa, they have arranged to do so, and it will be shot the week following the Dominion Rifle Association meeting on Friday, September 6th. The team to represent Canada will be selected during the Dominion Rifle Association prize meet.

One of the features of the meet will be the presence of the British team, which will afterward proceed to Australia to compete in the international rifle matches (military) in Australia.

THE RING ABOUT SQUIRES.

George Siler, one of the greatest referees in the business, and a sporting writer who is an authority on the game of fisticuffs, has high regard for Bill Squires, the Australian who is to fight Tommy Burns at Colma, near San Francisco, July 4th. Siler says: "According to Barney Reynolds, Tommy Burns is in for a good hiding when he meets Bill Squires at Colma on July 4th. Bill is Squires' right hand man. He came to this country with the champion of Australia, and does all his talking and his matching."

Barney came from San Francisco to Tonopah, Nev., to see the Marvin Hart-Mike Schreck fight, and to arrange, if possible, a match between his man and the winner. I have bumped into all kinds of fight managers during my career, good, bad and indifferent, and am forced to admit that, although Barney is a stranger to our methods of conducting fights, making matches, etc., the cleverest of our managers and promoters have nothing on him. He knows the fighting game from A to Z and has his weather eye open for the main chance.

After the Hart-Schreck fight Johnson and Brown, the Tonopah promoters, assisted by Jack Curley, tried to inveigle him into watching his man against Schreck to fight on Labor Day. They tried to convince him the contest would net the fighters thousands of dollars and that it would draw better at Tonopah than in any other place in the country. A representative of Goldfield also was on the ground, and

IT IS AS SIMPLE AS A B C, that, to get money ahead, one must not spend all. It is equally simple, that, to keep from spending all, some part of the income must be put away before the spending commences.

Our Savings Bank is open every day during business hours.

THE IMPERIAL BANK, Car. Government and Yates Sts. J. S. GIBB, Mgr. Victoria Branch.

he made strenuous efforts to secure the fight for his camp. As an inducement he told Barney the Battling Nelson-Joe Gans fight drew nearly \$70,000 and that the Goldfielders would turn out stronger for a first-class fight than would the Tonopah folks. Reynolds was favorably impressed with his talk, and, for that matter, so was Billy Hogan, Schreck's manager. Barney, however, would not commit himself, and kept the promoters busy offering big inducements. The money looked big to the Australian, but he would not sign, stating it would be time enough after his man got through with Burns. "You Americans," he said, "know nothing of Squires' ability as a fighter, and should Burns tick him you would have no use for him, so I'll thank you to let me fight Schreck until after the July 4th fight."

The promoters met that argument with: "Well, why not sign articles and insert a clause that the articles are void should he lose?" Barney would not fall for that, stating he would give a definite answer after a consultation with Bill Curley, who is in San Francisco with Reynolds, with full power to sign the men, but as yet has not succeeded. Barney is an old stager at the game and has an excellent line on all fighters in this country and can talk old-time fights until doomsday.

Judging from his talk, he knows a fighter when he sees him, and can argue his good and bad points like a past master. He saw Burns fight Jack O'Brien, and lost no time matching his man against him and for \$5,000 a side at that. That shows the confidence he has in Squires winning. He does not claim exceptionally fine science for Bill, but states he is fast on his feet, his straight as an arrow, and carries a knockout punch in either hand.

"I do not claim him as good a man as Peter Jackson, Bob Fitzsimmons, or Jim Hall, as they were the best we ever had. Nor do I think him as good as Jeffries, Corbett, or Sharkey, but your heavyweight market is not overstocked at present, and if Burns and Schreck are the best you have I consider Squires in their class. Either of them may beat him, but I have wagered \$5,000 that Burns cannot do the trick, and should we beat him I will wager the same amount he can beat Squires."

He saw Schrick fight Hart and Burns fight O'Brien, and he has formed an opinion of their flat abilities. Schreck and Burns are in the dark as to Squires' fighting qualities, and when they say they do not amount to much they simply are guessing. Speaking of Squires' chances with Jeffries, Reynolds says that Bill will fight him, and that should the odds be as good as 5 to 2 against him that Bill will wager half of his wealth on the result. Squires, he says, argues that Jeff cannot beat himself after laying off three years. He admits he would not stand a ghost of a chance to beat the big fellow three or four years ago, but doubts his ability to train to his old form after his long retirement. He likens him to a horse that has not been to the races for several years. The old feelings and the speed may be there for a part of the journey, but over the long route; therefore, Jeff would have to lick him, say, in ten rounds, and, falling, would be apt to go to pieces.

There is the utmost divergence of opinion among racing men as to which was the best race horse this country ever produced. It will always remain a matter of speculation, just as Americans are divided on the question of their greatest citizen. The list named below probably includes America's greatest thoroughbreds, and if the question were put to a yoke the writer would cast his in favor of Hamburg, says a writer in the St. Louis Post-Dispatch. They are Hindoo, Hanover, Kings-ton, Domino, Tammany, Morello, Salvatore, Yo Tambien, Imp, Firenze, Rosenberg, Henry of Navarre, Fenny, The Bard, Gold Heels, Hamburg, Syn-soby, Dick Welles and El Rib Rey. Hamburg's racing career ended as a 3-year-old, and he did not, therefore, have sufficient opportunity to show how really great he was. In all his twenty-one races he never failed to run in money, being first sixteen times, second three times and third twice. Hamburg's sire, Hanover, while a great racer, is better known as a sire, and his family, of which several have been most distinguished, is a most extensive one. Kingston has many admirers. He was in every sense of the word a great horse. In his first ninety-nine starts he was "out of the money" but once, and this record is unparalleled on the American and probably on the English turf.

THE TURF AMERICA'S BEST.

Kingston was until he was ten years old, and was almost as good then as he was in his prime.

THE ALEXANDRA CUP. The document of gift of the Alexandra cup to the trustees is in regular legal form and is most explicit regarding the conditions under which the big international cup race is to be sailed at Seattle on July 4th.

This agreement between the donor, the Honorable James Dunsmuir, Lieutenant-Governor of British Columbia, and the trustees sets forth that the object of this cup is to promote yacht design, building and racing between yacht owners of Canada and the United States. These races will be held under the auspices of the Northwest-ern International Yacht Racing Association, and all yachts competing must be governed by the regulations of the association.

To constitute a race there must, at least, be one Canadian yachtsman and one

U. S. yacht club represented, and these clubs must be affiliated with the association. The cup will be competed for only once each year and the yacht which first wins any two races in one series will hold the cup for that season. All yachts eligible for this race must measure into the twenty-foot class as stated under the rules and regulations of the association.

The course which will be laid out by the officers of the association will be twelve nautical miles in length, and will be in the form of an equilateral triangle, having of necessity four nautical miles to each leg.

LACROSSE. PRACTICE THIS EVENING.

The Victoria lacrosse team will hold their regular practice this evening at Oak Bay. On Monday evening a large crowd turned out and had a fine practice. The boys are showing up in fine form this year and will certainly make the Vancouver rivals play on July 1st.

ATHLETICS. TO BREAK RECORD.

Alfred Shrubbs, the English professional, will endeavor to break the American five-mile record at New York on June 23rd. He will be paced by the best men obtainable.

BASEBALL. STANDING OF LEAGUES.

Table with columns for League, Team, W, L, P.C. Includes Northwestern and American leagues.

FRUIT EXCHANGE.

Directors at Meeting at Revelstoke Appointed L. M. Hagar Secretary-Manager.

The directors of the British Columbia Fruit Exchange met at Revelstoke last week to discuss general business, and to receive the applications for the position of secretary-manager, the following gentlemen being present: J. Johnstone, Nelson, president; H. E. R. Smythe, Revelstoke, vice-president; Dr. M. S. Wade, Kamloops; P. Wilson, Chilliwack; W. J. Brandrith, Ladner, secretary pro tem; F. B. Howarth, Salmon Arm, proxy for J. J. McCullum.

During the afternoon session a wire was received from Mr. Morley, who has been informed by telegraph of his appointment as secretary-manager, stating that he could not accept the position. A long discussion ensued as to who should be appointed, L. M. Hagar, late of Fairbanks & Co., being finally chosen. Mr. Hagar is well known in the Northwest, and is in every way suitable for the position.

The session was taken up with discussing the season's work and the arranging of prices, the secretary-manager being instructed to get in touch with all the local associations to see what they had got. The next meeting of directors will be held on

ACTIVITY MARKS ALL LINES IN CITY

Large Influx Expected This Fall—Bank Clearings Well Up to Average.

A member of a well known real estate firm in this city informed a Times reporter this week that the active business of the city, after the quiet time of March and April, has continued its steady advance. This season will see, they prophesy, a great influx of permanent residents for Victoria. The men of means in the Northwest, after the experiences of last winter in Manitoba, are coming irrespective of the fact of a good or a bad harvest. A large manufacturer has since this time last year exactly double his profits. He even calculates that as the extra hands he has taken on are only few compared with the greater trade, as he was able to use the same plant and machinery, therefore his doubling of the returns represent rather more than one hundred per cent. increase in his business. His increased business he attributes to the great increase of the population in Victoria. The returns of the Victoria clearing house for the week ending June 18th show that the prosperity of the city is being steadily maintained. The total amount was \$1,058,595. This is a sum well up to the average established within the past few months in Victoria.

In the line of building the work is limited only by the number of men available by the contractors. No longer it is said are the contractors seeking work, but on the contrary they are being waited upon by prospective builders. The complaint, constantly raised is that there is not the labor available to do the work contracted for.

VICTORIA CREAMERY.

Removal of City Would not Affect Farmers of Saanich Injuringly. The secretary of the Victoria Creamery company, in conversation with the Times this morning, discredited the reports that general dissatisfaction was felt among the farmers of North Saanich to the proposed removal of the creamery from Carey road to some point within the city limits. He also denied that a site for the creamery had been offered to the company by J. Brethour, of Sidney, as an inducement for it to locate the establishment in that town. Such a site is beyond consideration as it is directly in opposition to the desire of the directors to locate as near as possible to Victoria. The majority of the business transacted by the company is with the city and to remove the creamery to Sidney would not be desirable. The claim that the removal of the creamery from the Saanich district would result in the erection of a rival establishment at Sidney is also discredited by officers of the company. Victoria is, they say, the focus of the business and the nearer to it the creamery is moved the larger the business will be. A meeting of the directors will be called at an early date at which the matter will be discussed and some action taken. Meanwhile the creamery company is still looking for a site within the city limits. No complaints, it is said, have been received by the company against the removal of the plant to Victoria from the farmers in the Saanich district of the islands. While the change of location will mean much for the concern, the farmers will not be materially affected.

District Attorney Jerome, of New York, announced on Tuesday that the grand jury investigation of insurance companies has been concluded. His office, he said, will now prepare a report on the indicted officials.

CROSSING FOR OLD ESQUIMALT ROAD

Applications Will Be Made to the Railway Commission by City and Company.

It has been agreed to take a formal application before the Dominion Railway Commission with respect to the proposed crossing of the old Esquimalt road by the city.

The subject of a crossing has been before the council for some time and residents in the district affected have pressed for the opening of the street with a crossing provided. At the meeting of the city council held on Monday evening the following report from the city solicitors referring to the meeting of the city engineer, city solicitors and engineers of the C.P.R. in regard to the railroad crossing at the old Esquimalt road was read and adopted:

Gentlemen—We beg to report that, in company with the city engineer, city writer had an interview (by arrangement) with the engineers of the C. P. R. Company, and the following is an account of the interview: It was represented by us, on behalf of the corporation that the growth of the district to the north, as well as the south, of the road was seriously retarded by the want of a carriage crossing, and that the corporation regarded the making of a vehicle crossing as a matter of immediate necessity.

Further, that the highway still existed as a highway, and that the obstructing fences were placed over the highway without lawful authority.

This latter point was not contested by the company, but their contention is that the corporation could not remove the fences, which constitute a protection to the public safety, without an order of the board of railway commissioners of Canada, who are alone the authority which can permit the making of a level crossing and prescribe the precautions for the public safety, and it was intimated that if the city persisted in the attitude we advised, to take away the fences, the company would apply for an injunction, and the delay of legal proceedings would undoubtedly be more serious than the delay of the company's making application to the board of commissioners.

We then pointed out that there must necessarily be considerable delay in obtaining the sanction of the board of commissioners to the company's plans for construction of the level crossing. The company's engineer asserted, however, that frequently applications of this nature had been accorded to without delay of application, and they undertook to use all dispatch, and it appeared to us that, if the corporation, with full reservation of their legal rights, in this application, the time would be shortened, and we proposed, therefore, to advise the corporation to make a joint application with the company for permission to the company, as their cost, to construct a level crossing.

We went thoroughly into the question of whether temporary works could not be constructed by the company on removal by the city of the obstruction, leaving the application to the board of commissioners to go through the usual routine. The company's solicitor, however, advised that no works of any description can be undertaken without incurring heavy penalties, and that any such works, as heavily visited on the company and its officials that he would not for a moment consider this question.

We should say that we do not quite agree with this apprehension. The circumstances are, in our judgment, quite exceptional, and such a case as the present was not contemplated or dealt with in the Dominion Railway Act, but on the whole we are of opinion that the corporation will do wisely to allow us to carry out the proposition discussed, and whilst making full reservation of the corporation's position, concur in the corporation's application for permit to make the level crossing.

One serious apprehension of danger to the public safety was stated by the company's engineer, viz., the raising of the grade of the street hiding the crossing from distant view, and it was suggested that possibly the corporation could assist by reducing the grade of the street to the grade of the crossing.

The city engineer has the requisite information to prepare the necessary plans to accompany the application. We trust the council will instruct us to acquiesce in the proposal.

Obediently yours, MASON & MANN, City Solicitors.

NEW FAST SERVICE.

C. P. R. Transcontinental Flyer Will Leave Montreal on July 2nd.

Winnipeg, June 18.—Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, is here to look into western developments of the system and important business matters affecting the company's interests, in the prairie provinces. The biggest matter occupying the official's attention at the present is a new transcontinental flyer. Everything is now settled with regard to the new fast tri-weekly through service to the Pacific Coast except the naming of the new train. The idea is to adopt some name which shall be descriptive of the character of the service and the geographical features it embodies. It is intended to have everything that has yet been introduced in the way of transcontinental travel both as regards comfort and luxury of travel. The journey to Vancouver is to be made in eighty-five and a half hours. The days on which the fast trains will run during the summer are Tuesdays, Thursdays and Saturdays as it is considered these are the days that steamboat connections are most likely to be made. The first train will leave Windsor station, Montreal, at 12 p. m. Tuesday, July 2nd, and will reach Vancouver on Saturday, July 6th at 7 p. m.

Reports. Victoria—Barometer, 30.18; temperature, 49; minimum, 46; wind, calm; weather, clear. New Westminster—Barometer, 30.20; temperature, 50; minimum, 48; wind, 4 miles E; weather, clear. Kamloops—Barometer, 30.08; temperature, 51; minimum, 51; wind, calm; weather, clear. Barkerville—Barometer, 30.30; temperature, 50; minimum, 49; wind, calm; weather, clear. San Francisco—Barometer, 30.01; temperature, 50; minimum, 50; wind, 8 miles W; weather, cloudy. Edmonton—Barometer, 30.00; temperature, 49; minimum, 46; wind, calm; weather, fair.

A WIFE BEATER. Ohio Man Declares He Should Not Be Prosecuted for Whipping His Spouse. "Yes, Your Honor, I admit beating my wife, but I had a perfect right to do so when she disobeyed me," said Lon Cottrell when he was arraigned in court in Hamilton, Ohio, on the charge of wife beating.

Cottrell insisted on arguing the point with Mayor Thomas, of Hamilton, and after the Mayor fined him \$2.55 and sentenced him to six months in the Cincinnati Workhouse, Cottrell said he would be willing to let the mayor name any citizen who should tie him to a post and then would submit to a whipping in the court-house before the spectators. The court could not see its way.

PERSONAL.

J. C. Sproule is disposing of all his Winnipeg property as soon as possible, and will make Victoria his home. During a recent visit to Winnipeg he was forced to the conclusion that a great influx to Victoria of substantial men from Winnipeg and Manitoba generally will shortly commence. The summer and fall will see them arrive in great numbers. They will all invest in homes here. In Winnipeg Mr. Sproule was besieged with inquiries about this city, as Victoria is the beau ideal of the Manitobans who want to live in surroundings where they can enjoy the comforts of life, combined with the beauty of nature and the health-giving properties of an equable climate. Mr. Sproule himself is fully determined to invest all his capital in Victoria and Vancouver Island.

H. F. Fall, a timber cruiser of Hudson, Wis., a prominent lumber man in Wisconsin, is staying at the Dominion. He has been "crusting" the forests of the mainland of British Columbia. He and his Wisconsin friends have acquired over one hundred limits on the Mainland. Mr. Fall will this summer stay on Vancouver Island for about two months.

M. B. Grans, proprietor of the Golden West hotel, of Minneapolis, is staying at the Dominion.

DARGAI HERO RETIRES. The Famous Charge by the Gordon Highlanders Recalled. Colonel Mathias, the famous leader of the assault by the Gordon Highlanders of the heights of Dargai in the autumn of 1897, has retired from the army under the age regulation. It was a critical moment in a fight with the Afridis when Colonel Mathias said to his men: "Highlanders, the General says the position must be taken at all costs. The Gordons will take it." And they did. "The Cook of the North" until the Gordons had won the heights, and he had won the Victoria Cross.

Among the wounded was Piper Findlater, who, shot in both ankles, propped himself up against a boulder and piped "The Cook of the North" until the Gordons had won the heights, and he had won the Victoria Cross.

DENTAL ACT MAY BE ULTRA VIRES

Chas. Wilson - K. C. Contended in Court That it Went Beyond Provincial Powers.

The Vancouver Police Magistrate has had knotty questions to decide with respect to the dental laws of the province.

Is the provincial act, making it an offence for unregistered dentists to practice dentistry, valid and within the powers of the Legislature?

To what extent can a student practice while in the office of a registered dentist in the office of a registered dentist?

Upon the first of these questions in the case of Dr. J. W. H. McCready of the Ohio Dentists, Magistrate Williams after an hour's hearing, reserved judgment until Saturday. Upon the second question in the case against J. V. Binyay, a student in the office of the Chicago Dentists, Vancouver, the court, after another hour of hearing, evidence granted an adjournment for a week. It was sought by the Board of Dental Surgeons to meet expert testimony which the defence had offered through Dr. Binyay to show that the work Dr. Binyay had done, the filling of a patient's tooth, was necessary for his examinations. The defence also sought the adjournment to put in further expert evidence.

In the McCready case two witnesses were called. Detective Wright, who had obtained the evidence for the Dental Association said he visited Dr. J. W. H. McCready at the Ohio Dental Parlors on Hastings street about three months ago. He was placed in the chair and had his teeth examined. He was told the price for the work that he required. He left his plate and visited a few days later. The work was completed, two teeth inserted in the plate. He paid for it, and got a receipt.

"Was the work satisfactory?" asked the court.

"It was better than the work I had done in Seattle a year before, but I can't say it suited me."

"You went there for the express purpose of informing, didn't you?" asked Charles Wilson, K. C., for the defence.

"I went there to see if they were practicing dentistry."

"Did you know that a prosecution would follow?"

"What is your business?"

"I am employed by the Canadian Detective Bureau."

"You may tell me by whatever name you please," smiled the witness.

In further examination the witness admitted that when he entered the office of the Ohio Dentists, he was told by Dr. McCready that the proprietor was absent, but that McCready was practicing for him.

Another witness, a clerk in a Hastings street store, testified to having a tooth filled, and of paying the fee.

"Why did you go there?" asked Mr. Wilson.

"I was advised to go there as it was a good place where I would get the work well done, and at a reasonable price."

This closed the evidence in the case against Dr. McCready. Mr. Wilson moved for its dismissal. The evidence was not sufficient to justify the charge, said the court.

Mr. Wilson then urged that to a limited extent an assistant had the right to practice for his principal, and cited cases in support of this contention. Then the argument touched an interesting point.

"I go further, and contend that this act is beyond the powers of the Legislature. It creates an offence, and the Legislature has no authority to do that."

"Did you frame the act?" asked the court.

"Oh, no, that is not one of mine. I think I would not have the Legislature create a crime, and that it what it has done here. But such law is for the Dominion Parliament. The Legislature might impose a fine, or the remedy might be a civil suit for penalties. But this act making the practice of dentistry by an unregistered dentist an offence is a crime, and I venture to argue that that act is unconstitutional."

The court did not think it had the power to consider that point.

"I do in the case of by-laws, but not statutes."

But Mr. Wilson argued that he had the power, and was not bound by a decision quoted by W. J. Bowser on the other side. The latter argued that the act was not in question.

A HEALTHY OLD AGE

OFTEN THE BEST PART OF LIFE

Help for Women Passing Through Change of Life.

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Mrs. M. J. Dabruzzo

Nervous exhaustion, digestive disease. This statement is the positive truth.

When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in any way, you are in danger; your nerves have given out; you need building up at once!

To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is a testimonial: Mrs. Mary J. Dabruzzo, 1150 Main Street, Winnipeg, Manitoba, writes: Dear Mrs. Pinkham: Lydia E. Pinkham's Vegetable Compound has been a blessing to me through that delicate period known as the change of life. For six years it disturbed my entire system. I had hot flushes, was extremely nervous, became pale and debilitated, very irregular in the matter of my periods, and blood almost seemed to be in my head. I had frequent palpitation and throbbing of the heart; in fact, my whole system seemed to be in disorder.

"I received no relief from the suffering incident to this period until I took Lydia E. Pinkham's Vegetable Compound, but I am now as well as ever. I gradually improved, nature took her course painlessly, and in due time I was a well woman."

Lydia E. Pinkham, daughter-in-law of Lydia E. Pinkham, of Lynn, Mass., invites all sick and ailing women to write her for advice. Her great experience is at their service.

Write to her at her office, 255 Central Bldg., Boston, Mass.

SERIES OF ACCIDENTS

Fruit Inspector Run Over by Engine at Vancouver and Died From Injuries.

H. Harris, fruit inspector, was fatally injured in the C. P. R. yards, Vancouver, on Monday afternoon being run over by an engine. He received terrible injuries and only lived for two hours after being taken to St. Paul's hospital. The accident occurred about noon at the crossing between the cars of a freight which blocked the way. While doing so, the train started with a heavy load on the rails. A leg was severed and he was badly mangled. Deceased was 72 years of age, came west from Nova Scotia.

Serious Runaway.

J. Drun was driving in a buggy down Corby street, Vancouver, on Monday, when the horse ran away and threw him to the ground, inflicting painful injuries. His face was badly bruised and one of his wrists was sprained.

Leg Broken.

J. M. Dorr, miner, a recent arrival from Cumberland, England, being run over by a train while working in the Britannia mines, which are of a serious character. The injured man, who has been working in the mines for about three months, was endeavouring to displace a hanging rock when it unexpectedly fell upon him, badly crushing one of his legs.

Painter Badly Injured.

A painter named Jack Sellen, fell off the scaffolding at the new Alexandra hotel on Water street, Vancouver, and received several nasty cuts. He was working on a scaffold thirty feet above the ground, when another workman on the fire escape at the back of the building handed him a long board to make additional staging. The weight of the board threw him off his balance and he fell with the bucket of paint and the board and struck the ground with terrific force, landing near the end of the cement sidewalk.

Accident at Wharf.

D. Adornato, a longshoreman, engaged in unloading coal at the C. P. R. wharf, Vancouver, met with a nasty accident on Monday, some coal falling on his face, bruising and cutting it badly.

MANCHURIAN AFFAIRS.

Statement by Japanese Foreign Minister Who is Paying a Visit to Mukden.

Mukden, June 18.—Viscount Hayashi, foreign minister of Japan, who regards the new administration of Manchuria, which is the outcome of Baron Komura's mission to China in December, 1905, as the medium of a settlement of existing differences between Japan and China, favoured the view of Mukden here, and the two held a long consultation at Haushi Chang today.

It is reported that Japanese position and policy in Manchuria, Viscount Hayashi said to the Associated Press that he regretted many incidents which had taken place during the military regime, but expressed a willingness to accept the situation, just claims, especially in the matter of certain houses and lands, which constitute a minor difference. Here Japan will be able to compromise, as she desired to be conciliatory, but he would insist on adherence to a liberal interpretation of the treaty, as in the case of the requirements of the Yalu Timber Company, which China was not disposed to concede.

FOREST FIRES RAGING.

Many Camps Along Route of Grand Trunk Pacific Have Been Destroyed.

Winnipeg, June 18.—Immense forest fires are raging along the route of the Grand Trunk Pacific in the district of Fort William. Three power houses have been blown up, and many camps and supplies destroyed, many contractors suffering severe losses. Thousands of dollars' damage has been done to settlers' houses and effects.

TWO PROSPECTORS DROWNED.

Toronto, June 18.—Two unknown prospectors were drowned in the upsetting of a canoe at Mountain Lake, Temagami.

WILL WITHDRAW FROM TEXAS.

Decision Reached by Number of Life Insurance Companies.

Dallas, Tex., June 18.—Following a conference at New York between directors of non-resident life insurance companies, Maurice Locke, attorney for the majority of the more important non-resident companies, has announced definitely that all of the larger companies will withdraw from Texas on July 11th, because of the inability of the companies to comply with the law, which requires the companies doing business in Texas to deposit 75 per cent. of their reserves on Texas bonds inside the state and to pay a tax of 1 per cent. on gross premiums collected.

The companies which will withdraw are the Washington Life, Mutual Life of New York; New York Life, Northwestern Mutual Life, Equitable Life, Penn Mutual, Manhattan Life, Massachusetts Life and Home Life.

MORE BODIES FOUND.

Remains of Three Victims of Launch Disaster Recovered.

Newport News, Va., June 17.—Clad in full naval uniform, and with faces and hands fearfully mutilated, the bodies of Midshipmen P. H. Field, W. H. Stevenson and F. P. Holcomb were found in Chesapeake bay today.

The bodies, after being examined and identified, were taken by the naval tug Potomac to the naval hospital at Portsmouth.

The bodies of four of the eleven men drowned in the Minnesota's launch a week ago to-night have now been found. The one drowned in the launch was that of a fireman, G. W. Westphal.

The bodies of three midshipmen and four seamen are still missing and the launches and tugs are still searching the lower bay and roads for them.

The bodies found to-day had drifted ten or twelve miles from the scene of the tragedy. This gives rise to a fear that all of the bodies will never be found.

DO YOU EASILY TIRE?

IF A DAY'S TOIL EXHAUSTS YOUR BODY OR BRAIN FIND THE REASON WHY.

We all inherit a disposition to disease. With one it's consumption, another heart disease or perhaps nervousness.

"At first you are languid, but as the fatigue increases your appetite and spirit, feel as if work wasn't in your line."

Surely no clearer evidence of ill-health is needed.

Thousands have been in the same sickly condition; those who headed not were sorry, those who used Dr. Hamilton's Pills were cured.

Your weakness proves germ life has eaten up the vitality of the blood, and a cleansing tonic like Dr. Hamilton's Pills is urgently needed.

At once your blood will redden and gain strength.

Digestion will so improve that additional nourishment will be supplied to all needy organs.

Surplus vigor will be instilled into the system (ill disease and weakness are completely driven out).

Truly wonderful is the tonic effect of Dr. Hamilton's Pills which are considered the best system purifier extant.

When you can renew your health with this safe vegetable remedy, the prescription of a noted physician, your duty is clear. Get Dr. Hamilton's Pills at once.

Remember this: It is the prescription of an eminent physician you use in taking Dr. Hamilton's Pills. Absolute safety and permanent results guaranteed in every case of languor, weakness, headache and debility.

Price 25c per box or five boxes for \$1.00, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

ANOTHER FIRE AT TORONTO.

Outbreak in Foundry Caused Damage Estimated at \$10,000.

Toronto, June 18.—Fire at Gray's foundry yesterday morning did \$10,000 damages before the brigade got the flames under control.

CHAMBERLAIN IN LONDON.

London, June 18.—Joseph Chamberlain arrived here last evening from Birmingham. He said that his health was improving and that he wished to be in touch with his son, Angus. The family deny that Mr. Chamberlain proposes resigning from parliament.

SURVEYOR MISSING.

It is Feared Man Lost His Life in Creek Twenty-eight Miles From Enderby.

News reached Enderby late Thursday afternoon that William Stuart, a member of a survey party which left town Wednesday for Mabel lake, was missing. The party, which was under the charge of Guy Williams, had been sent by Major Burnett to map out some line: around the lake, going in via the trail from Enderby. The party camped on the bank of Kingfisher creek the same evening, leaving for the lake early on Thursday morning. The missing man, who was cooking for the outfit, was the last to leave camp, that being the last place where he was seen. Some time later, when three other members of the party returned for some stuff that had been left behind, it was found that Stuart was missing, and a hasty search failed to reveal any trace of him.

Provincial Constable Gardom, accompanied by a search party, left for the scene. It is feared that the unfortunate man has fallen into the creek and drowned. On account of the bridge at this point having been washed out, it is necessary to cross the creek by a large cottonwood log, and it is surmised that Stuart in crossing with a heavy pack, missed his footing, and fell into the swollen creek and was carried out into the main river, which is only twenty yards from this bridge. The spot is about twenty-eight miles from Enderby, four miles above Hupe's place, and about one mile from the lake.

ORANGE GRAND LODGE.

Opening Meeting in the Terminal City This Afternoon.

Many delegates to the Orange Grand Lodge arrived on Sunday, being welcomed here by local members of the order, says Tuesday's Vancouver News-Advertiser. Yesterday others came in, and it is expected that all the representatives from the East will be here to-day in readiness for the opening to-morrow.

This afternoon the Black Chapter will meet in the Orange hall. As in the case of the lower lodge, there are some important amendments to the constitution to be considered and other routine work to be performed. It is not improbable that the higher degrees will be conferred upon several candidates during the season.

The grand lodge sessions begin in the city hall to-morrow afternoon at 2 o'clock, when the lodge will be opened in due form. At 4 o'clock an adjournment is to be taken and a reception will be tendered by the city council and an address of welcome read by His Worship Mayor Bethune. The lodge will continue in session till Thursday night.

A public mass meeting will be held to-morrow evening at the city hall. Among the speakers will be: Dr. T. S. Sprague, supreme grand master; Col. Sam. Hughes, M. P.; E. T. Esary, ex-mayor of London, Ont.; Colonel J. H. Scott, M. P.; P. A. of Kincardine, Ont.; Rev. W. Walsh, M. A., of Brampton, grand chaplain; H. C. Hocken, editor of the Sentinel, Toronto; John McMillan, P. G. M., Toronto, and W. A. Galbraith, Montreal, grand master of Quebec.

On Thursday the delegates are going for a trip up the Inlet in the Belcarra. Invitations have been extended to Mayor Bethune and the aldermen, who have accepted. The power station and other places of interest will be visited.

TRAMP LIVED IN YACHT.

Made Journey From Montreal to Seattle in Mr. Field's Boat.

A strange tale has come to the knowledge of the C. P. R. detective force, says a Montreal exchange. Not long ago Henry Field, of Seattle, Washington, bought a steam yacht measuring some forty feet in length, of an eastern firm, which was first sent to Montreal, where it was placed on board one of the Canadian Pacific trains, en route for the West. It was found on the arrival of the boat at its destination, that a tramp had made his home therein during the trip. There were traces of canned viands and provisions, indicating that the "hobo" had made suitable provision for the trip, but it was also found that in departing the ungrateful traveller had taken along with him all the movable stoves and appliances available, possibly to defray the expenses of a further journey.

PRESBYTERIAN CHURCH UNION

DEBATE IN THE GENERAL ASSEMBLY

The Committee Authorized to Continue Negotiations—Method of Procedure Discussed

The question of Church Union was very earnestly discussed at the Presbyterian General Assembly at Montreal last Tuesday afternoon and evening, and at midnight 137 votes were recorded in favor of the committee's proposals in the direction of union, while only eleven hands were held up against it. Two amendments had been submitted, but the first was withdrawn, leaving the second standing alone in the name of the Rev. Dr. Barclay, as follows: "That there be added to Dr. Barclay's original motion the words, 'And further that presbyteries, sessions and congregations be requested to fully consider and to express their judgment upon the whole question.'"

This amendment was defeated by 124 votes to 69, and Dr. Barclay's motion was carried in the conclusive manner already indicated.

Dr. Barclay's motion was to adopt the report of the committee which recommended: "That the executive committee be empowered to choose a committee of fifteen to confer with any delegation that may be appointed by the Church of England on the question of the union."

"That a committee of seven be appointed to meet any representatives which the Maritime Union of Baptist Churches may choose to discuss the question of federal union. The committee to consist of three Presbyterians,

BILEANS FOR BILIOUSNESS.

"What was the purpose for which the church was assigned?" he asked. "Was it not to fulfill the Master's command to go and preach the Gospel to every nation? As he had listened to the discussion of the previous afternoon, he could not help asking himself: Has the Presbyterian Church grown effete? Has she failed to reach down and uplift the masses? And then he had thought of such men as Dr. Chalmers, of Edinburgh, and of Dr. Guthrie, with his ragged school, and splendid work for the uplifting of the fallen. He felt that all this need he had asked himself. Was Presbyterianism dead? He could not believe it to be true. He thought that the Presbyterian form of government would pull them through. In regard to union, he was not opposed to it as a principle. But we cannot form a union without beneficial result to us or to the people without first making sure of their wishes."

"Some bands of union weakened. When this thing took place—living, organic union—it must come from the hearts of the people. Neither this Assembly nor any other had the right to press this matter down on the people." He supported the amendment of Mr. Mackay. "We must say to the people: Are you of the belief that it is advisable that a committee should spend days and weeks considering the subject? Let us move quietly, he said, and not be deceived by the unions that have already taken place in the Old Land. After all, mere magnitude did not signify strength."

Dr. E. D. Millar, Vancouver, was firmly convinced that this discussion should never be referred to again. The resolution only suggested that the question should be sent down to the presbyteries for discussion. He had no objection to the discussion, but he did not think it necessary. He remembered the discussion in the old Eskimo church. He remembered that there was the contemplation of union with the Congregational and Methodist churches, and that was urged by Dr. Cook. The question was no new thing. He had never heard before that Christ's prayer did not refer to organic union. He was surprised to hear yesterday that Christ never referred to diversity of unity. Paul found four divisions in the church, and he made short work of them. (Loud applause.) One said, "I am of Paul; another, I am of Apollus, and another, I am of Cephas." Paul said, "Ye are carnal!" (More applause.)

The speaker showed how in the West work was overlapping; it was not business, co-operation, too, was a failure; it had been tried and had failed, and had caused friction.

Rev. James Buchanan, Dundalk, was in favor of union, but he must have the terms of union. He wanted to gain his conscience, and he wanted to gain as much as he lost. He wanted to carry the church with him. He thought that the matter should be remitted to the presbyteries for deliberation. Was all the wisdom confined to the professors, principals and doctors of divinity, which the union committee was composed of? (Laughter.) Or was there not some modicum of common sense left in the residuum of ministers and people? (Laughter.) "I have felt some of the arguments were premature," he continued. "I am seldom troubled with the clamor, which is seldom argument and rarely reason. I have the warmest regard for all the churches with which we have entered into negotiations. I believe that all of these churches are valuable contributions to Christian life. I believe that they present different aspects of truth. We are ready to deal and Christian brotherhood on social and more questions. But there is a danger of moving too fast. I stand on the democratic platform of the church, and the inalienable right of the people to decide."

Urged Caution.

Dr. Barclay felt deeply his youth and inexperience in the Assembly. He longed and prayed for Christian union, but he had feelings and opinions that made him doubt. But he thought that this matter was premature. He had not the broom to sweep away the resistless tide of which they had heard. Take care that tide did not prove a disastrous flood. He did not want to go into the history of any of the churches. They had all played their parts. He never had any friction with his brethren and he had always worked cordially with them. He did not believe in moving hurriedly. It should be sent down to the Presbyteries—to the people. There might be not a single congregation that would say no. And how much better it would be if the committee had at their back the full strength of the Presbyteries and the congregations. He moved an amendment to the effect that presbyteries and congregations are requested to send in their suggestions on the proposal for union.

Dr. Gordon Concurred.

Dr. C. W. Gordon seconded. He desired union, but he preferred to have his congregation at his back. It would be a brave thing if, after some serious step had been taken, they found that a mass of the people disagreed with it. It had been argued that it would not send a half completed scheme to the Presbyteries, but it was a far better thing to do to send half completed scheme down than to send a completed scheme which is unsatisfactory. All the amendment did was to treat the question as an open one. Personally he had never had a chance to discuss his question, and it would be unfair to him if the matter came down to him and he was immediately asked for his opinion on a scheme he had never seen.

Dr. Forrest Disagreed.

Dr. Forrest disagreed with both amendments. In the American Presbyterian Church they did not send their questions of union down to their people because they took it for granted that every Christian desired it. (Loud applause.) Neither of the amendments was needed. Both were out of order. "I will not accept the amendment," he said, "because of the speeches that were made in support of it. I do not believe that the sentiment of the mover and seconder of the first amendment were those of the Presbyterian Church. I should not be in this church to-day."

Dr. T. Walker Taylor, of North West-

It is a "snap" as an investment.

all the facts before them. The committee welcomed all the criticism levelled at it, even though some of it was ungenerous and unjust. Three proposals had been made. One by the committee, and two amendments. To the first amendment he was absolutely opposed. To understand it properly it must be interpreted in the light of the speeches in its support. (Applause.) It raised the primary issue of whether or not this church shall continue to prosecute negotiations with the Methodist and Congregational churches. That was not the language used—much more idiomatic language was employed three years ago. But its meaning was the same—practically meaning the discharge of this committee. It was here explained that the amendment had been withdrawn, but the moderator said he had not understood that. In any case the sanction of the Assembly must be given.

This was accorded, and so Dr. Barclay's amendment stood alone. Principal Patrick said he thought its movers as heartily in support of union as himself. (Applause.) Therefore, he did not wish the matter put before the Assembly in such a way as to misrepresent the judgment of that body before the Presbyterian Church and the people of Canada.

As to the proposed union itself, the very first question it raised was on what terms it was to be accomplished. No one could say whether it was desirable or not until they knew that. But it was undesirable that the negotiations should be complicated by any lack of unanimity in this church and assembly on the point, especially after three Assemblies had endorsed the principle. They did not wish to finally commit the Assembly at this stage but that the committee should be able to fortify itself with all the advice and experience it could collect from the people themselves. Then, in two years hence, the committee could report to the Assembly that its labors were completed and that the basis of an honorable and satisfactory union had been accomplished. Then they could ask the Assembly to approve it and refer it to the Presbyteries and congregations for their approval.

In conclusion, Dr. Patrick said he hoped some means could be devised of reconciling the motion and second amendment, so that a unanimous vote could be arrived at. He hoped all would vote for what they considered was wisest and best in the interests, not merely of their common Presbyterianism, but of their common Canadian Christianity. (Applause.)

Principal Scrimger appealed to the meeting for a unanimous vote, and in order that the seemingly different elements might be reconciled he proposed that the amendment might be referred to a committee with a view to finding a basis of agreement with the original proposition. The difference, he added, between the amendment and the main motion was so infinitesimal that he did not want the house to be divided upon them, as it would put the Assembly in a false light before the country and the Church.

Dr. Barclay, however, took exception to this, remarking that his amendment differed completely from the motion presented by the committee. The amendment was offered by Principal Scrimger was lost by so large a majority that a count was not demanded. The vote was then taken on Dr. Barclay's amendment, and the announcement of its defeat by 124 to 69, was greeted with applause.

The main motion to adopt the committee's report was accepted by 137 to 11 votes.

BOY'S BODY RECOVERED.

One of the victims in the drowning accident in the Hoesal river, at the foot of the falls, has been recovered, says a Port Eslington dispatch. A party of Kitkatia Indians left for the scene shortly after hearing of the mishap to the Campbell boys, Paul and Edward, and continued the search until their efforts were rewarded by the discovery of Paul's body a short distance from where the canoe overturned, between a boom and the falls. Coroner Wilson empaneled the jury Wednesday and a verdict of accidental drowning was returned, with no blame attached to anyone.

PUBLICITY

THE CLAM

If the inventor of a typewriter planned and built a typewriter in his barn without letting anyone know about it, if he kept absolutely quiet about what he was doing, the typewriter never would be known. If the inventor of a typewriter looked for intrinsic merit to sell his goods he would find many months and many years would elapse before his business developed into profitable proportions.
Bell, the inventor of telephone, summed up his invention for years before he succeeded in interesting capital.
The wonderful progress of the automobile is due to printer's ink, and so it is with every success—every business.

OCEAN TRAFFIC ACHIEVEMENTS
CANADA'S EARLY DAYS TO THE PRESENT
 First Mail Service—Voyage From Halifax to London Averaged Thirty-Six Days

The remarkable performance of the other day of the Canadian Pacific's Empress of Ireland, which in addition to making a swift voyage across the Atlantic with Prince Fushimi and Lord Grey aboard, steamed up the river St. Lawrence for a distance of 100 miles at an average speed of over 20 knots an hour, against an adverse wind and current, led an official of the archives department to discourse for a few minutes to an Ottawa Citizen reporter on the navigation of the St. Lawrence.

"It is a far cry," he said, "from the cockle-shell craft of the early days to the Empress. Those high-pooped barques were in many instances so tiny that the crew could lean over the rail and wash their hands in the sea. The Intendant Talon, the pupil of Colbert, was 177 days in crossing the Atlantic from France to Quebec; the Jesuits Maize and Blard 129 days. Two months was considered quick time.

As they came up river went down the river the vessels anchored at night. There were no harbours, no wharves, no long-time no charts or soundings. Here and there an iron kettle with blazing pine knots was suspended from a tree, but that was all. The first fire-tower, was built at Louisbourg in 1737. As late as 1810 there was only a single light between Quebec and Belle Isle; now there is 150. The first mail service between Canada and England, sailing monthly from Halifax to London, was established in 1785. The voyage averaged 36 days. Under the French regime it usually took six days for bateaux to sail from Quebec to Montreal. The Empress makes the entire journey from Liverpool to Quebec in that time.

"Compare the comfort or rather the luxury of travelling on one of the Empresses or Allan turbines with the hardships experienced in early times. Sheep and poultry were carried for the captain and officers, but the passengers, unless they happened to be persons of distinction messaged with the sailors. The staple dish for breakfast, dinner and supper was salt meat with sea biscuit, frequently mouldy and worm-eaten. With a liberal supply of wine or brandy. The sailors were frequently drunk and riotous. Scurvy and ship's fever haunted every ship. Father Canot, a Jesuit, who was a passenger on the king's ship Le Rubis, which sailed from Rochelle for Quebec on June 19th, 1749, gives an account of the fearful sufferings of passengers and crew. The hold where all hands slept was pitch-dark and filled with hammocks and shake-downs where the victims of the disease raved in delirium and died. As they neared Quebec there was scarcely any one left to sail the ship—all were prostrated or dead, chaplains, clergy, surgeons, officers, pilots, along with seamen. Mgr. De Lauberville, the fifth bishop of Quebec, on his way out to take possession of the sea, died shortly after reaching land, and so did many others. Father Canot himself was very ill; when they got to Belle Isle he felt like leaving the vessel, but he says a priest is bound to have courage and not to quit his charge under such circumstances, so he remained on board, ministering to the sick and dying to the end.

Ocean freight rates, even in times of peace, when convoys were not required, were of course

Tells a Different Story. The chamber of commerce of Rochelle in 1761 addressed a memorial to Choiseul, minister of marine, who was also what we should call colonial secretary, protesting in the strongest language against the proposed cessation of England to Canada. The chambers of Bayonne, Bordeaux, Nantes, Marseilles, Saintes, Rouen, Lunel and other ports followed suit. The Rochelle memorial speaks of the vast extent of Canada, counting in the Louisiana region, of its lakes and rivers, mines, forests, fisheries and rich soil; of the fecundity of the people; of the ability of the country to support a truly enormous population, and, curiously enough, of its water-powers, capable, it was pointed out, of being made to toll, without much expense, in the service of man.

"The memorialists declared it would be better to renew the war with England and prolong it indefinitely, even though France should go bankrupt, than to surrender Canada with its great natural wealth and its manifestly great future. Voltaire puts the well-known phrase about Canada being merely a few acres of snow in the mouth of Marlin, one of the characters in Candide. Marlin had been robbed by his wife, beaten by his son, abandoned by his daughter and persecuted for heresy, so that much may be forgiven him. In his serious writings, Voltaire more than once speaks of the misgovernment of Canada by France, to which he ascribed its slow progress. Abbe Raynal agrees with him. There is abundant evidence that the loss of Canada created profound disappointment and grief throughout France."

ROBE'S GUM AIDS DIGESTION.
 There was weak competition at the school lands sale at Neepawa, where twenty parcels were sold out of 107. The highest price paid was \$15 per acre, but the average was about half that.

CHARGED WITH MURDER.
 Recent Arrival from England in Gaol As Result of Fight.

Stratford, Ont., June 17.—Henry Lockey is in gaol here charged with murder, as a result of an altercation Saturday night with Noah Hill. Lockey and Hill had been drinking more or less Saturday and had a quarrel at one of the city hotels and were turned out. They decided to settle the quarrel by fighting it out with fists, "for points," as is alleged by Lockey, the winner of the most points to buy beer. The men first determined to fight on the hay market, but as this was too public the rear of the skating rink was decided on. Repairing there and divesting themselves of surplus clothing, and shaking hands, the contest commenced. Hill, the taller man, got in a blow on Lockey's chest. The latter retaliated with a blow on Hill's right jaw, breaking Hill's neck. Lockey claims Hill stumbled and fell and that the blow he received was "but a Yank." Prominent medical men say that while this is hardly possible, it might be the cause of his death.

Coroner Devlin was soon on the scene and also Dr. Rankin. Hill was found to be dead and death was determined to have been almost instantaneous, the neck being broken. Coroner Devlin decided upon an inquest. All parties to the unfortunate affair are Englishmen, recently out from the Old Land. Hill was about 45 and leaves a wife and several children. Lockey is also married and has a family.

SENT TO JAIL.
 Sentences Passed on Defendants in North Idaho Land Fraud Cases.

Portland, June 18.—A special to the Oregonian from Moscow, Ida., says: Sentences were imposed yesterday on the defendants in the North Idaho land fraud cases.

William Dwyer was given eighteen months in the penitentiary, with a \$100 fine and eight months in the county jail. The penitentiary sentence is for subornation of perjury, for which he was convicted last fall.

C. W. Rohmet was sentenced to eight months in the penitentiary for subornation of perjury and a fine of \$100.

William F. Kettinbach, president, and George Keeter, cashier, of the Lewiston National Bank of Lewiston, Ida., were each sentenced to eight months in the county jail and to pay a fine of \$1,000 each.

Appreal bonds in each case were fixed at \$2,500.

Keeter, Kettinbach and Dwyer were sentenced on conviction of conspiracy to defraud the government of Idaho timber lands.

SELF-CONFESSED MURDERER.
 His Statement Does Not Tally With China.

Wilkesbarre, Pa., June 18.—J. McNulty, who gave himself up to the Los Angeles police and confessed to three alleged murders at Yateville, is not known there. Kate McDermott, of Yateville was not killed as McNulty alleges, but John Sarth, her sweetheart, while talking to her one night about ten years ago, was killed.

John and Michael Herrin, of Pittston, whom McNulty confessed to having murdered, were both found out to pieces on the Delaware & Hudson railroad tracks several years ago, and it is thought they were killed by a train.

George Martin, formerly of Yateville, who is now in Los Angeles, and who is said to have identified McNulty, has now disappeared.

MUTINY OF SAPPERS.
 Russian Officer Killed—Mutineers Wounded Four Loyal Soldiers.

Kelv, June 19.—Last night the 21st battalion of sappers, 450 strong, mutinied. They killed the commander of the third company and began firing volleys at random. Five other battalions were summoned to quell the mutiny and called upon the mutineers to surrender. They replied with shots, wounding four of the loyal soldiers. The loyal battalion fired and the mutineers fled.

Two hundred and fifty-eight were arrested. The others escaped.

BLOWN TO PIECES.
 Williamsport, Pa., June 18.—Five men were killed by an explosion in the gelatine department of the Sintono Hoising Powder Manufacturing Co. Only fragments of the bodies were found. As all the men in the building were killed it is impossible to ascertain the cause of the explosion. Two men at work nearby were injured.

Trees of swift development and remarkably rapid growth are not always short lived. On the contrary, the giant eucalyptus of Australia often remains sound and vigorous to a great age.

THE QUIET DRESSER
 The Quiet Dresser is just as particular about the cut of his suit, as the ultra Fashionable fellow.

White radical changes in styles do not appeal to him, he sticks upon all the little variations that each season introduces. His Coat and Vest must be of the correct length and the lapels of the latest width and depth; and the Trousers neither too wide nor too narrow, but just right.

THE FIT-REFORM is the store for these conservative and refined dressers.
 SUITS \$15, \$18, \$20, \$30.

New Cosy Cribs for the Kiddies

MANY mothers have been waiting for the arrival of our shipment of "Cosy Cribs of the Kiddies" and their arrival will be welcomed by mother and child alike.

We have just received and placed on show on our fourth floor an excellent line of Iron, Iron and Brass, and Brass Cribs. These show the same marks of superior workmanship and material as our much famed line of Brass and Iron Beds. The enameling is just a little better, the brass a little heavier and the construction all through better than most makes.

Give the "little tot" a safe and comfortable bed by buying one of these superior Cribs. We have several kinds of comfortable mattresses to fit and blankets and bedding galore. You can get the complete outfit here and for less, too.

Come in and let us show you the up-to-date drop-side and the superior wire spring of these children's beds.

Crib, white enameled, brass trimmings, 2 ft. x 4 ft. \$10.00
 Crib, white enameled, brass trimmings, 2 ft. 6 in. x 4 ft. 6 in. \$10.50
 Crib, white enameled, brass trimmings, 2 ft. 6 in. x 4 ft. 6 in. \$15.00
 Crib, white enameled, brass trimmings, 2 ft. 6 in. x 4 ft. 6 in. \$18.00

Are You Gift-Choosing for June Brides?

If you are you have probably thought of CUT-GLASS—it comes first in the mind of the great majority.

You will be perfectly safe in sending a piece of CUT-GLASS but be sure it's "LIBBEY" GLASS. You cannot look beyond "LIBBEY" for the very simple, but very excellent reason that no other CUT-GLASS can seriously pretend to approach it in loveliness.

We are sole agents for this glass and carry by far the largest stock of CUT-GLASS in Western Canada.
