AGPDPS 400.12

SUBJECT: Extension and Termination of Service (JPNO) Type Procurement Demands

TO : Commanding General
 I Corps
 APO 301

1. Reference is made to the following letters:

a. Letter, Headquarters Eighth Army, file AGPDPS 400.12 (410), dated 24 March 1949, subject: "Extension of Service (JPNO) Type Procurement Demands", copy attached.

b. Letter, Headquarters Eighth Army, file AGPDPS 400.12 (409), dated 24 March 1949, subject: "Termination of Service (JPNO) Type Procurement Demands", copy attached.

2. Reference is extended all service (JPNO) type procurement demands for which the Procurement Section received specific requests for extension either by checkslip or by Service Contract Summary Reports (QGE Form 57) and all service procurement demands covered by the M4 Forecast but on which no request for extension or termination were received.

3. Reference is terminated all JPNO procurement demands on which the Procurement Section received specific requests for cancellation from the interested Eighth Army Staff sections and all service procurement demands not covered by the M4 Forecast and on which no request for extension or termination was received.

4. It is directed that you inform the receiving officers under your command of the contents of the above referenced letters and the status of their procurement demands as indicated therein.

BY COMMAND OF LIEUTENANT GENERAL WALKER:

2 Incls:
 As stated above.

AGIDES 400.12 (410)

24 March 1949

SUBJECT: Extension of Service (JFNO) Type Procurement Demands

THRU: Yokohama Liaison and Coordination Office

TO: Japanese Government
(Attention: Special Procurement Board)

1. Reference is made to letter, General Headquarters, Supreme Commander for the Allied Powers, file AG 400.12 (23 Oct 48)GFA, dated 1 March 1949, subject: "Service Procurement Demands".
2. The above referenced letter classifies service (JFNO) type procurement demands into the following classifications:
 - a. Classification I. Cancel. Non-essential.
 - b. Classification II. Cancel, delete labor and reissue for materials only. Labor to be secured by labor requisitions and a new contract to be negotiated for only supplies and/or equipment stating specific quantity and unit price authorized.
 - c. Classification III. Revise to limit labor and materials. A new contract to be issued for this service, stating maximum number of employees, amount of supplies by item, unit cost, and maximum authorized yen expenditure.
 - d. Classification IV. Cancel and re-establish on lump sum basis. A new contract to be negotiated for this service, stating the specific and item or end service to be supplied, the unit cost, and lump sum or maximum authorized yen expenditure.
 - e. Classification V. Continue pending evaluation. The operation covered, to be continued on present basis pending review in detail to determine requirement on an end item or end service basis and cost factors. Thereafter contract to be re-established on lump sum basis.
3. The referenced letter further states that all existing service procurement demands will terminate on 31 March 1949 or as soon thereafter as is practicable, and that all new service procurement demands effective on or after 1 April 1949 will be identified by the letter symbol JFNS.
4. In accordance with the cited GPO, SCA. letter, this headquarters has prepared the inclosed list of service (JFNO) type procurement demands which are automatically extended to the dates indicated therein and for which this letter will serve as authority for the continuation of and payment for the services procured under these demands until the extended date. The letter (payment) is defined to include such advance payments as may be necessary and as are presently authorized, as well as payments made upon completion of contracts. Any amendments issued subsequent to the date of this letter will supersede the action stated herein.

AGFDIS 400.12 (410)

24 March 1949

Subject: Extension of Service (JFNO) Type Procurement Demands

5. It is directed that the information contained in this letter be forwarded to all Branch Offices of the Special Procurement Board by the Central Special Procurement Board. In order to facilitate the dissemination of this information, the inclosed list has been arranged according to the District and Branch Offices of the Procurement Section, this headquarters, indicating the demand pertinent to the area served by each. Also, additional copies of this letter may be obtained from the Procurement Section, this headquarters, if such extra copies will serve to facilitate compliance with its provisions.

6. In order to preclude any unnecessary or undue hardship to either the contractors involved or the Occupation Forces, by virtue of curtailment of services, it is directed that all contractors involved in furnishing the services required by these demands be informed, of the extension of delivery dates by the most expeditious means available.

BY COMMAND OF LIEUTENANT GENERAL WALKER:

/s/ Charles A. Hull
Capt TC
Actg Asst Adj Gen

AGPDPS 400.12 (409)

24 March 1949

SUBJECT: Termination of Service (JPNO) Type Procurement Demands

THRU : Yokohama Liaison and Coordination Office

TO : Japanese Government
 (Attention: Special Procurement Board)

1. References:

a. Letter, General Headquarters, Supreme Commander for the Allied Powers, file AG 400.12 (23 Oct 48) GPA, dated 1 March 1949, subject: "Service Procurement Demands."

b. Letter, this headquarters, file AGPDPS 400.12 (410), dated 24 March 1949, subject: "Extension of Service (JPNO) Type Procurement Demands", to the Japanese Government.

2. In accordance with the policy set forth in reference 1a above, the content of which is summarized in reference 1b, a list of service (JPNO) type procurement demands which will terminate 31 March 1949 is inclosed. In cases where a specific amendment to the demand is not issued, this letter will serve as a basis for the termination in lieu of the amendment, and as authority for payments as may be necessary upon completion of contracts. Any amendments issued subsequent to the date of this letter will supersede the action stated herein.

3. It is directed that the information contained in this letter be forwarded to all Branch Offices of the Special Procurement Board by the Central Special Procurement Board. In order to facilitate the dissemination of this information, the inclosed list has been arranged according to the District and Branch Offices of the Procurement Section, this headquarters, indicating the demands pertinent to the area served by each. Also additional copies of this letter may be obtained from the Procurement Section, this headquarters, if such copies will serve to facilitate compliance with its provisions.

4. In order to preclude any unnecessary or undue hardship to the contractors by virtue of any information received which is in conflict to that contained herein, it is further directed that all contractors involved in furnishing the services required by these demands be informed of the termination dates by the most expeditious means available.

BY COMMAND OF LIEUTENANT GENERAL ALKIER:

/s/ CHARLES A. HULL
 Capt., TC
 Actg Asst Adj Gen

Incl:
 As stated in par 2 above.

OFFICE OF THE COMMANDING GENERAL
APO 343

ACPDPS 400.12 (+10)

24 March 1949

SUBJECT: Extension of Service (JPNO) Type Procurement Demands

THRU: Yokohama Liaison and Coordination Office

TO: Japanese Government
(Attention: Special Procurement Board)

1. Reference is made to letter, General Headquarters, Supreme Commander for the Allied Powers, file AG 400.12 (23 Oct 48)GPA, dated 1 March 1949, subject: "Service Procurement Demands".

2. The above referenced letter classifies service (JPNO) type procurement demands into the following classifications:

- a. Classification I. Cancel. Non-essential.
- b. Classification II. Cancel, delete labor and issuance for materials only. Labor to be secured by labor requisitions and a new contract to be negotiated for only supplies and/or equipment stating specific quantity and unit price authorized.
- c. Classification III. Revise to limit labor and materials. A new contract to be issued for this service, stating maximum number of employees, amount of supplies by item, unit cost, and maximum authorized yen expenditure.
- d. Classification IV. Cancel and re-establish on lump sum basis. A new contract to be negotiated for this service, stating the specific end item or end service to be supplied, the unit cost, and lump sum or maximum authorized yen expenditure.
- e. Classification V. Continue pending evaluation. The operation covered, to be continued on present basis pending review in detail to determine requirement on an end item or end service basis and cost factors. Thereafter contract to be re-established on lump sum basis.

3. The referenced letter further states that all existing service procurement demands will terminate on 31 March 1949 or as soon thereafter as is practicable, and that all new service procurement demands effective on or after 1 April 1949 will be identified by the letter symbol JPNS.

4. In accordance with the cited GHO, SCAP letter, this headquarters has prepared the inclosed list of service (JPNO) type procurement demands which are automatically extended to the dates indicated therein and for which this letter will serve as authority for the continuation of and payment for the services procured under these demands until the extended date. The latter (payment) is defined to include such advance payments as may be necessary and as are presently authorized, as well as payments made upon completion of contracts. Any amendments issued subsequent to the date of this letter will supersede the action stated herein.

INFORMATION COPY

400.12 (20)

24 March 1949

Subject: Extension of Service (JFNO) Type Procurement Demands

5. It is directed that the information contained in this letter be forwarded to all Branch Offices of the Special Procurement Board by the Central Special Procurement Board. In order to facilitate the dissemination of this information, the inclosed list has been arranged according to the District and Branch Offices of the Procurement Section, this headquarters, indicating the demand pertinent to the area served by each. Also, additional copies of this letter may be obtained from the Procurement Section, this headquarters, if such extra copies will serve to facilitate compliance with its provisions.

6. In order to preclude any unnecessary or undue hardship to either the contractors involved or the Occupation Forces, by virtue of curtailment of services, it is directed that all contractors involved in furnishing the services required by these demands be informed of the extension of delivery dates by the most expeditious means available.

BY COMMAND OF LIEUTENANT GENERAL WALKER:

/s/Charles A. Hull
Capt TC
Actg Asst Adj Gen

Incl:

As stated in par 4 above.

Cite ICE 25. This message in four parts

1. All commanders and receiving officers are directed that no service or supplies will be accepted from Japanese supplier unless a written procurement demand has been processed to the Japanese Government covering such services or supplies after 31 March 1949.

2. Many procurement demands will expire 31 March 1949 due to one or more of the following reasons;

a. Not forecasted for period 1 April 1949 to 31 March 1950.

b. Directed to be cancelled by General Headquarters SCAP as of 31 March 1949.

c. Not extended or rewritten due to administrative delays.

3. The branch offices of the four procurement district located at Kyoto, Nagoya, Osaka, Kure, and Fukuoka have been notified concerning final action taken by General Headquarters SCAP on all existing procurement demands and are now processing extensions and new demands for those contracts approved after 31 March 1949. Receiving officers are advised to check with the above agencies regarding the status of any particular procurement demand.

4. Commanders will notify all receiving officers within their organizations by the most expeditious means.

AGFDPS 400.12 (409)

24 March 1949

SUBJECT: Termination of Service (JPNO) Type Procurement Demands

THRU: Yokohama Liaison and Coordination Office

TO: Japanese Government
(Attention: Special Procurement Board)

1. References:

a. Letter, General Headquarters, Supreme Commander for the Allied Powers, file AG 400.12 (23 Oct 48) GPA, dated 1 March 1949, subject: "Service Procurement Demands".

b. Letter, this headquarters, file AGFDPS 400.12 (410), dated 24 March 1949, subject: "Extension of Service (JPNO) Type Procurement Demands", to the Japanese Government.

2. In accordance with the policy set forth in reference 1a above, the content of which is summarized in reference 1b, a list of service (JPNO) type procurement demands which will terminate 31 March 1949 is inclosed. In cases where a specific amendment to the demand is not issued, this letter will serve as a basis for the termination in lieu of the amendment, and as authority for payments as may be necessary upon completion of contracts. Any amendments issued subsequent to the date of this letter will supersede the action stated herein.

3. It is directed that the information contained in this letter be forwarded to all Branch Offices of the Special Procurement Board by the Central Special Procurement Board. In order to facilitate the dissemination of this information, the inclosed list has been arranged according to the District and Branch Offices of the Procurement Section, this headquarters, indicating the demands pertinent to the area served by each. Also additional copies of this letter may be obtained from the Procurement Section, this headquarters, if such copies will serve to facilitate compliance with its provisions.

4. In order to preclude any unnecessary or undue hardship to the contractors by virtue of any information received which is in conflict to that contained herein, it is further directed that all contractors involved in furnishing the services required by those demands be informed of the termination dates by the most expeditious means available.

BY COMMAND OF LIEUTENANT GENERAL WALKER:

Incl:
As stated in par 2 above./s/ CHARLES A HULL
Capt TC
Actg Asst Adj Gen

ADMINISTRATIVE INSPECTION AND INVESTIGATION
OF COAL DISTRIBUTION

Attached is a copy of the EIB document No. 1,059 which constitutes a combination administrative inspection and enforcement investigation.

The production and distribution of coal is a vital factor in the Japanese economy. The Government exercises control over the distribution of coal from the mine to the consumer through the Coal Distribution Kodan. The investigation will cover all of the concerned agencies (Article II B 3 (a) and (b)), large scale consumers (Article II B 3 (c) and mine operators (Article VIII B (1))).

Information reaching this office indicates that there is some diversion of coal directly from the mine and also from large-scale consumers into the blackmarket.

The information obtained from the administrative inspection will be given serious consideration in determining the extent of changes to be made, if any, in the coal program for the next fiscal year.

EIV No. 1,059

February 15, 1949
Central E.I.B.Executive Program on Administration Inspection and
Investigation on Coal Distribution

I. Principle

Administration Inspection and investigation shall be conducted on actual flow and materialization of coupon and relating to the allocation, transportation, distribution and consumption of coal.

II Execution Program

- A. Period
10th March to 10th May
- B. Object
1. Goods
Coal and Coke
 2. Area
 - (a) Administration Inspection
The Regional EIB shall select more than 2 prefectures which represent in producing, relaying, landing and consuming area.
 - (b) Investigation
Country wide
 3. Agencies and Consumers
 - (a) Ministry of Commerce and Industry, Coal Board, competent certificate issuance agencies as the Ministry of Agriculture and Forestry, the Ministry of Transportation and the Coal Distribution Kodan.
 - (b) The Commerce and Industry Bureau (including branch office), Material Adjustment Office of the Ministry of Agriculture and Forestry, the Financial Bureau, the District Monopoly Bureau, the Maritime transportation Bureau, the Railway Bureau (including the branch offices), the branch office of the Coal Distribution Kodan (including sub branches).
 - (c) Coal Mining Company, Reclaiming workers, Coal Salvaging Company, Coal Waste Dealer Transportation agencies (land and marine transportation, stevedoring companies) large scale coal consumers (Electric Power, Iron and Steel, Textile, Fertilizer, Rubber, Gas, Coke, Ship-building, Machine manufacturing, Pottery, Paper, Food, Sake, Shipping and Harbor facilities). of the Coal.

III. Method

- A. Method of the Administration Inspection.
1. The Central EIV shall conduct inspection as stated in above object of 3 (a). The Regional EIB shall conduct inspection as stated in the object 3 b. Concerning Osaka and Kobe Districts the Central EIB with cooperation of the Osaka Regional EIB shall conduct it directly.

2. The Investigators: Central EIB 5, Each Regional EIB 8.
3. Procedure
 - (a) Tracing the transaction of the Coal Kodan at consumer distribution, a concrete and systematic inspection on the actual situation shall be carried out.

(b) Adequacy of allocation by the concerned agencies shall be inspected based on accurate data obtained by tracing down on actual distribution.

4. Emphasis shall be placed as of annexed chart. Each Regional EIB shall draft their own detailed program based on this general program.
- B. Method of the Investigation.
1. Formation of Investigation Unit:
Formation of a unit composing more than 2 persons (1 of them shall be a investigator), investigation shall be conducted by cooperation with competent officials of concerned agencies. According to the nature of the investigation object, cooperation of the Coal Kodan staff shall be requested.
 2. Procedure
Investigation shall be started on large scale or suspicious transporter and consumers and coal mining do. Investigation on the consumers shall be made on each industrial level (big, medium and small).
- C. During the execution period the Administration Inspection Division and the Investigation Division shall keep close contact and cooperate each other wherever necessary.

- IB. Enforcement and Prevention of Violation.
- A. Acceleration of the back log shipping shall be positively carried out.
 - B. Concerning those who do not fulfil their production instructions, actual situation shall be clarified and measures shall be taken to accelerate fulfilment.
 - C. Laws and regulations shall be thoroughly explained and defects of book-keeping other faults shall be revised and guided whenever necessary.

- V. Disposition on the Results.
- A. Disposition of Administration Inspection Results.
During this period any case where corrective measures can be taken within the prefecture, the concerned agency shall be informed and it shall be followed up to see that proper action is promptly taken.
 - B. Disposition of Investigation Results.
Various large scale quantity and price violation cases shall be submitted to the procurator's office and the competent agency shall be informed for the decrease of stoppage or future allocation or cancellation of license.

C. **Corrective Measures**

When common faults are found guidance and education shall be carried out through the association and prevention measures. On violation shall be fully explained to accomplish full effects of the investigation.

Any faults found upon investigation which result on the side of Kodan or government agencies shall be promptly transmitted to the Administration Inspection Division and actions be taken.

VI. **Education and Publicity.**

Education and publicity shall be carried out through this period in newspapers and by radio broadcasting.

VII. **Contact and Cooperation with concerned Agencies in Investigation**

A. **Ministry of Industry and Commerce**

The Coal Board carry out stringent surveillance over the proper flow of coal mines and have her officials participate in the investigation team. The consuming industries shall also give positive cooperation in this investigation by supplying necessary references and data.

B. **Ministry of Agriculture and Forestry.**

Necessary data and reference by consuming groups shall be supplied and the Ministry shall give Cooperation in any other phase where necessary.

C. **Procurator's Office**

The field Procurator's Office shall be instructed by the Supreme Procurator's Office to guide the police, especially the Autonomous Police on the enforcement of control and the prosecution of violations.

D. **Police**

Stringent control shall be enforced on illegal purchase of coal by city consumers, illegal transportation by trucks from coal mines, blackmarketeering of waste coal from coal carrying barges and other black market operations.

E. **Maritime Security Board**

Cooperation shall be offered in the control of unauthorized marine transportation, off shore black market transaction, pilferage aboard coal-ship and other violations.

G. **Ministry of Transportation.**

Positive cooperation shall be given by stringent surveillance over illegal disguised transportation, landing at stations and pilferages.

VIII. **Important Points in Execution**

A. **Administration Inspection**

1. Adequacy in the efficiency and fairness of allocation by competent coal allocating agency and the effective balance of demand and supply.

2. Adequacy of functioning of the Coal Distribution Kadan in carrying out efficient and economical method from the purchase of coal at coal mines to transportation, coal piling, distribution and the collection of coal bills from consumers.

B. Investigation

1. In producing areas, the blackmarketeing of coal mining companies.
2. In large cities, distribution and consumption.

IX. Report

A.

Administration Inspection

1. Important problems shall be reported in interim report which shall be submitted by the 10th of April.
2. Final over all results shall be submitted by the 20th of May.
3. Any corrective measures taken shall be reported in the report.

B.

Investigation

- Interim report shall be made by the 20th of April and final report shall be made by the 20th of May.
1. Cases in accordance to business, number of personnel participated, man day. (as per annexed form)
 2. Number of violations, quantity, amount and measures taken. (as per annexed form).
 3. Irrational faults in production distribution and consumption and measures taken.
 4. Other significant matters found during investigation.
 5. Effects and reaction of investigation.
 6. Desire and opinion.
 7. Matters transmitted to the Administrative Inspection Division.

Remarks:

Each Division shall submit their report to the Deputy Director General of the Central BIB.

8. Report on following points in accordance to each prefectural BIB as from April, 1948, onwards.
 - (a) Actual Production Quantity.
 - (b) Allocation Quantity.
 - (c) Actual Delivery Quantity.
 - (d) Percentage of (c) against (b).
 - (e) Quantity of exposed black market coal.
 - (f) Estimation of total black market coal.
 - (g) Percentage of (e) against (f).

INSTRUCTION ON IMPORTANT POINTS.
IN
ADMINISTRATION INSPECTION
OF
COAL DISTRIBUTION

COAL DISTRIBUTION KODAN

Purchase at coal mine	1. Adequacy of quality inspection and weight check when purchasing at coal mine	Residence Official Distribution
Transportation	2. Is efficient and economical transportation program drafted and smoothly executed?	Coal Bureau (including branch of- fices)
	3. Is transportation contracts made economically and justly?	Nitt-u, load- ing agencies -shipping com- panies and organization Distribution
	4. Adequacy of quality and weight check at relaying points	Coal Bureau
	5. Adequacy in the operation of coal yard, loading and unloading facilities in relaying points and is efficiently and economically carried out.	Ditto
	6. Is adjustment of steamer and motor sailing boat in marine transportation carried out economically?	"
	7. Is utmost measure taken to save demurrage or not?	"
	8. Adequacy of preventive measure on the loss and pilferage during transportation and the stockpiling at relaying points.	"
Disposition at Loading Port	9. Adequacy of the inspection of quality and weight and the surveillance on stevedoring in unloading port.	"

- | | | |
|--|---|------------------------------|
| | 10. Adequacy of adjustment of reserve stockpile at unloading port in accordance with police of the sale by grading (special attention shall be given to the mixing of 1st grade coal with under grade coal) | Ditto |
| | 11. Adequacy of coal piling at coal yard and the preventive measure on pilferage at unloading port. | " |
| Coal Distribution | 12. Efficiency and fairness of coal distribution. | " |
| | 13. Coal distribution situation per quality or designation of coal to meet with the consumers demand. | " |
| | 14. Is there any criticism or claim concerning the quality or weight? | " |
| | 15. In case of large stockpiled finding of adequate reasons from consumers. | " |
| Accounting | 16. Collection result of coal bill any situation of non-collected bill and their cause | The coal Distribution Bureau |
| | 17. Efficient accounting functioning from sending of bill after distribution to collection. (check the average days spent on this item) | Ditto |
| | 18. Adequacy in adjustment of incorrect weight at reweighing points, unloading port of shipment to consumers (check unloading point report with account book) | " |
| The Efficiency of the Kodan Functioning and its commission | 19. Adequacy of number of Kodan staff judged from the coal distributing quantity. | " |
| | 20. Is there any concrete case where the Kodan cost could be economized? | " |

The Consumer (The Administration Inspection Participating in the Investigation Unit)

Consumer's Opinion

1. The opinion concerning the quality, quantity, price and the time of the distribution.

Effective Demand and its actual situation

2. Is there any actual case of unbalance of coupon coal can not be obtained?

The Ticket

3. Is there case that due to the delay of coupon coal can not be obtained?
4. Is there case where the unusable grade coal are distributed and stock piled or any mishap caused by distribution of low grade coal?
5. Any irrational case comparing the standard basic unit for the coal consumption in industries as to consumption results from past three months.

The Competent Agencies in Charge of Coal Allocation

Adequacy of allocation

1. Adequacy in gathering of the data to examine the contents of the allocation application.
2. Are measures taken for the adequate grasping of the effective demand?
3. Utilization of the Allocation Council.
4. Efficient and fair exercise of allocation functioning
5. Adequate enforcement on checking and arrangement of the returned coupons.
6. Is any measures taken in connection with the transportation certificate system?

General Headquarters, Far East Command, APO 500

1. General. The current policy of this Headquarters to keep at a minimum the financial impact of the Occupation Forces on the Japanese economy requires constant examination of the procedures of procurement of labor and materials on a non-reimbursable basis with a view to elimination of wasteful or unjustifiable methods. A recent review of the situation indicated certain revisions toward reduction of items of procurement and the institution of stricter controls. Addressee commanders will take the necessary steps to enforce compliance with the instructions contained herein.

2. Principles for Procurement. The procurement of construction, supplies, labor, and/or services from the Japanese economy for use of the Occupation Forces will be governed by the following general principles:

a. The directives to the Japanese Government will include only those requirements for the Occupation Forces which would normally be furnished Zone of Interior forces through proper expenditure of United States appropriated funds. Except as specifically authorized by the Supreme Commander for the Allied Powers, requirements furnished by the Japanese Government in excess of the foregoing will be on a reimbursable basis.

b. No procurement will be initiated solely for the purpose of raising above existing standards Occupation Force services or facilities.

c. Procurement will be initiated for essential requirements only, and then only when such requirements cannot be fulfilled from assets or means already available.

3. Supplies, Equipment and Materials.

a. Supplies, materials and equipment will be procured from the Japanese economy only when they cannot be obtained by requisition from the Zone of Interior and when substitutes are not available within the commands through which the requisition is processed.

AG 400.12 (14 Feb 49)GD, 14 Feb 49

Subj: Procurement policy in Relation to the Stabilization of the Japanese Economy

b. The accumulation of stocks of supplies, equipment and materials by the Occupation Forces in excess of requirements is not permissible. The extent of current excesses will be determined by examination of all echelons of supply. Unconditional release to the Japanese Government of all supplies, equipment and materials found excess to the coordinated authorized requirements of the Occupation Forces will be accomplished with the least practicable delay.

c. The use of letter directives to permit accumulation of supplies, equipment and materials by the Japanese Government was authorized to permit the Japanese Government sufficient time to procure materials required to meet approved occupation construction programs and maintenance schedules. It has become increasingly evident that the Japanese Government has been required by letter directives to stockpile materials far in excess of imminent Occupation Force requirements. Any materials acquired by the Japanese Government in compliance with letter directives and not required for accomplishment of approved programs, and which are in excess of the coordinated known requirements of the Occupation Forces, will be released for utilization in the Japanese economy. Specific directives covering these releases will issue from General Headquarters.

4. Employment of Japanese Labor.

a. A substantial portion of the cost of occupation accrues through employment of Japanese labor. Accordingly, the elimination of existing abuses in the employment of such labor is essential to the overall economy program. The employment of excessive numbers of Japanese by the Occupation Forces, and excessive overtime payments to these employees are the two major abuses which must be eliminated. Manning tables and manning levels for all types and categories of labor will be critically re-examined with a view to effecting substantial reductions. Review of the Japanese labor situation will be undertaken to effect a maximum reduction in numbers and the limiting or elimination entirely of overtime payments except for domestic servants.

b. The employment of indigenous labor to perform military tasks for which troops should be trained is not favorably considered in principle. The procurement of indigenous labor to perform such tasks will be held to that irreducible minimum beyond which essential operational functions of the occupation forces would cease.

c. Indigenous labor reported as employed by tactical troops in October 1948 totalled 26,748. Reports included 4,528 guards, 1,555 drivers, 988 clerks and 54 telephone switchboard operators, which, if employed for interior guard or other functions of authorized and assigned personnel of combat units, should be replaced by unit

AG 400.12 (14 Feb 49)GD, 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy

personnel. Reports also included 145 building managers, 132 office managers and 432 foremen, which, if employed by combat or service units below depot level for supervision of tactical unit functions, should likewise be replaced by unit personnel. Addressee commanders will submit requests for exception to the foregoing with full justification, if the situation warrants.

d. Indigenous labor will not be employed to perform functions of personnel of combat organizations, except to the extent that the employment of civilian personnel by such organizations is authorized by regulations.

e. When indigenous labor is procured to perform organizational tasks of service units below depot level, it will not be procured by means of service contracts but will be directly procured and employed under military supervision so as to assure that military supervisory personnel receive functional training and that direct control is exercised over military functions.

5. Services furnished Occupation Forces by the Japanese Government by Service Contracts.

a. Service contracts now under review by General Headquarters indicate the following:

- (1) Service contracts are being utilized for the procurement of labor for the operation of facilities. Contracts of this type serve to circumvent and defeat the purpose of labor ceilings, and in many instances violate Japanese public Law 141 which prohibits the exploitation of labor by labor bosses.
- (2) Excessive numbers of employees are utilized by service contractors considering the type and amount of services rendered.
- (3) Operational equipment which is appropriately a part of or an adjunct to Occupation Forces installations is being furnished by service contractors at excessive rental rates.
- (4) Many service contracts are in effect for the provision of services no longer required by the Occupation Forces, for example, a large number of architect engineer firms.

AG 400.12 (14 Feb 49)GD, 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy

- (5) In the past, construction and other operations which could not be considered as either an end item or a part of the end service to be delivered under the service contract, have been accomplished by contractors at the expense of the Japanese Government thus circumventing prescribed controls.

b. Based upon the above review, it is deemed essential that immediate action be taken to correct wasteful or improper service procurement practices. Service contracts which, as a result of review, are considered essential to meet Occupation Force requirements as well as all future service contracts must, wherever possible, provide only for the furnishing by the Japanese Government of an "end item" or an "end service." All service contracts will require approval by General Headquarters.

6. Occupation Forces requests for Construction.

a. General.

- (1) New construction will be limited to only the most essential operational requirements of the occupation forces which cannot be met by any expedient other than new construction.
- (2) Maintenance will be provided for those facilities occupied by the Occupation Forces and standby maintenance for those facilities not occupied but required for a definite future occupancy.
- (3) Minor construction will consist of alterations, extensions and additions to existing facilities, and will be limited to \$500 per work order per facility. Only one work order may be executed for any one alteration, extension or addition. Funds to accomplish this minor construction will be included in Repairs and Utilities allocations.

b. Dependent Housing. The number of dependent housing units in Japan is now firm and no additional construction will be authorized at the expense of the Japanese Government.

c. Troop Housing. It is expected that troop strengths will approach and may reach authorized TO&E strength. There is no objection to troops being relocated for tactical purposes, where housing is available at the new location, but there will be no new construction authorized for that purpose. Troop housing spaces are available at present to house the maximum expected troop strength.

AG 400.12 (14 Feb 49)GD, 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy

d. General Construction.

- (1) Operational and administrative facilities will be limited as indicated in paragraphs 6 a (1) and (2) above.
- (2) Logistic facilities, except as indicated below, will be limited as indicated in paragraphs 6a (1) and (2) above.
 - (a) Ammunition storage. It is assumed that existing ammunition storage in general is adequate. Additional ammunition storage will be constructed only to provide for readjustment of stocks to conform to modified safety standards declared essential by the Ordnance Officer. Any construction for this purpose will be of most economical type possible within safety standards.
 - (b) Ordnance "BIG 5" and Engineer "BIG 9" Programs. Construction requirements for the Ordnance "BIG 5" and Engineer "BIG 9" programs, if and when authorized, will be obtained by procurement demand, and the cost will be amortized by increasing the unit dollar cost of rebuilt assemblies to be exported.
 - (c) Provision of covered storage will be limited to procurement of serviceable warehouses that may be obtained through procurement of warehouses not in use by the Japanese, or procurement of Special Procurement Board warehouses which become available through the release of excess supplies now stored in such warehouses.

e. Airborne Training Facilities. No additional training facilities for an airborne division will be provided during Japanese Fiscal Year 1949 at the Eighth Army airborne training center.

f. Destruction of Airfields. The destruction of airfields is not an appropriate charge against that part of the Japanese budget appropriated for the direct support of the Occupation Force. Their destruction is analogous to the disposal of war combat items (ammunition, demilitarized combat equipment, and scrap) surrendered by the Japanese. Specific instructions on this subject will issue from General Headquarters.

AG 400.12 (14 Feb 49)GD, 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy

g. Athletic and Recreational Facilities. Construction of athletic and recreational facilities will be limited to only that construction which can be accomplished by troop and/or currently employed indigenous labor. This policy does not provide for the construction of buildings, playing fields or courts requiring concrete surfaces, swimming pools or for other sizeable projects. It is intended that it shall provide principally for the improvement of ground areas to make them suitable for athletic purposes and minor improvements to other existing recreational and athletic facilities.

7. Transportation.

a. Rail transportation. More effective controls must be exercised over use of indigenous transportation by the Occupation Forces. Instances have been reported involving shipments of privately owned property other than checkable baggage and shipments of privately owned or officially assigned automobiles for use by individuals on leave status. The use of indigenous rail transportation facilities at the expense of the Japanese Government will be limited to the official travel of Occupation Force personnel and movement of Occupation Force cargo for official purposes. The cost of all non-official travel by Occupation Force personnel will be paid by the individual except for travel on those inter-urban lines where collection of fares has not yet been instituted. All non-official cargo shipped on Japanese facilities will be at established rates and payment therefor will be made in yen by the shipper.

b. Motor Vehicle Transportation. Motor trucks and cargo carrying motor vehicles will not be obtained from the Japanese economy either by direct procurement or by means of service contract. Occupation Forces cargo transportation requirements will be provided through the use of equipment assigned to tactical and service units and to established motor vehicle pools.

c. Water Transportation. Operation of excessive water transportation in the form of small boats and craft, largely employed for pleasure purposes, must be discontinued. Where such craft are authorized and maintained for pleasure purposes, the full cost of their maintenance and operation must be met by reimbursement.

8. Operation and Maintenance of Athletic and Recreational Facilities including Service Clubs of All Types.

a. The normal operation and maintenance of physical facilities, i.e., plant, grounds and buildings, for athletic and recreational purposes, may be procured at the expense of the Japanese Government for the use of Occupation Forces personnel in general, as opposed to private or personal use by individuals or small groups. Such facilities include golf courses, swimming pools, tennis courts, stadiums, field houses, theaters and clubs. Only the minimum number

AG 400.12 (14 Feb 49)GD, 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy

of indigenous personnel necessary for such operation and maintenance will be employed.

b. Any additional operation and maintenance costs including the cost of indigenous personnel desired or required for conducting special instructions, life guarding, officiating, entertainment, personal services such as caddy masters, caddies, play equipment maintenance men, personnel not fully engaged in the care of grounds and buildings and/or personnel employed in connection with special events, will be procured only on a reimbursable basis.

c. Special equipment such as riding horses, bicycles, boats, fishing tackle or plying equipment required in connection with athletic and recreational facilities may be procured only on a reimbursable basis.

d. To effect the maximum economy in operation and maintenance of athletic and recreational facilities commanders addressed will survey all such facilities under their control with a view to a consolidation of activities and the elimination of those in which the percentage of utilization does not justify the cost of operation and maintenance.

9. Real Estate. Assuming that the Occupation Forces now have adequate facilities to meet essential requirements, procurement of real estate of any description, additional to that now held, will be effected only upon prior approval of this headquarters.

OCT 23 1948

SUBJECT: Forecast 4, Miscellaneous Indigenous Items, to be Procured
 from the Japanese Government

TO : Commanding Officer, Gifu Military Government Team, APO 25 Unit 2

Reference Forecast 4, Items to be procured from the Japanese Government, during the period 1 April 1949 to 31 March 1950. General Headquarters, Supreme Commander for the Allied Powers, disapproves of services of a Japanese contractor to furnish posters, charts, graphs and signs, also services of a Japanese printer for local printing jobs.

2. Essential requirements to meet official use may be submitted to the Far East Command Printing Plant. Requests will be submitted through channels to Headquarters Eighth Army.

APO 25, Unit 2 (Gifu, Honshu)

19 March 1948

SUBJECT: Requisition for additional Office Space

THRU: Commanding Officer
Tokai-Hokuriku Military Government Region
APO 710

TO: Commanding General
Headquarters Eighth Army
APO 343

1. Request that additional office space be procured in the Gifu Prefectural Government Building to adequately accommodate the increase in personnel authorized by the new T/O for this Military Government Team (8th Army Ltr Order 1-8 dated 23 Jan 48)

2. The following data is quoted for your information:

Additional space required	990 sq ft
Present space occupied	3210 sq ft
Number of personnel working in Military Government Offices	60

3. Additional office space required is shown on attached floor plan outlined in red ink. This requirement was discussed with the Prefectural Liaison Officer who stated that after 1 May 48 the loss of these offices to Military Government would not inconvenience their operation as a new building is being constructed for the use of the agency now occupying requested offices.

4. The cost of renovating this office should not exceed two hundred dollars (\$200.00). It requires repainting and the installation of electric fixtures.

5. The present office space is procured on Procurement Demand OSKE 1804 Account Code 104 R and OSKE 479 Account Code 104 R. Request that a new Procurement Demand be issued to cover a total office area of 4200 sq ft per attached plans.

6. This new Procurement Demand should provide for renovating and equipping of requested office space; removal, change, or addition of temporary partitioning; and for maintenance of all the offices, to include the halls and passage ways approaching these offices as outlined in blue.
