My dear Colonel Bresee:

Early in 1943 the Department instructed the American Legation at Bern to request that the Swiss Legation at Tokyo transmit by telegraph the names of American prisoners of war in Japanese custody which were communicated to it by the Japanese authorities. This procedure was employed to supplement a similar service rendered by the International Red Cross Committee to insure that the names of all American prisoners of war in Japanese custody, which were officially reported by the Japanese Government, reached the United States authorities. The lists received by this Department through diplomatic channels have been transmitted to your office informally as soon as they reached this Department.

Officers of this Department have made inquiries of officers of the Prisoner of War Information Bureau as to the usefulness which the lists transmitted through diplomatic channels have served and have been informed th that these lists have been for the most part duplicates of the lists which the Prisoner of War Information Bureau receives by telegraph from the International Red Cross Committee at Geneva. It is understood that the International Red Cross confirms by letter to the Prisoner of War Information Bureau the information and the lists which it transmits by telegraph.

I shall appreciate being informed whether the Prisoner of War Information Bureau believes it to be advisable to continue receiving through diplomatic

channels

Colonel Howard F. Bresee,
Chief, Information Branch,
Prisoner of War Division,
Office of the Provost Marshal General,
Room 2850, Munitions Building,
War Department.

channels the lists which the Department of State has previously furnished to the War Department. A considerable saving to this Government might be effected through the discontinuance of the telegraphic transmission of these lists from the Swiss Legation at Tokyo to Bern.

The American Chargé d'Affaires a.i. at Bern has the honor to refer to the Legation's telegram No. 756 of February 2, 1945, in which it was stated that a request was made of the Swiss Foreign Office that the Swiss Legation at Tokyo endeavor to obtain a complete report regarding the bomb explosions that were mentioned in telegram US/2706 of January 12, 1945, from the International Red Cross Committee at Geneva to the Prisoner of War Information Bureau at Washington. This telegram listed seventeen American casualties.

The Legation now desires to enclose, for the Department's information, four photostatic copies of a telegram despatched on January 24, 1945, by the Swiss Legation at Tokyo to the Swiss Foreign Office which transmitted a list entitled "JU/70" indicating the names of the seventeen American prisoners of war who died at the Mukden camp of wounds caused by bomb splinters.

The enclosed list was received in sextuplicate on February 3, under cover of a note dated February 1, 1945, from the Swiss Foreign Office and is merely the routine report of the death of American prisoners of war and should not be considered as the Swiss reply to the Legation's request mentioned in its telegram under reference.
