Award Contract for Magnificent Vessel In Northern Route

Canadian Pacific Places Order With Wallace Shipyards To Build \$1,500,000 Steamer; Will Be Capable of Seventeen Knots; Act As Relief Ship.

The Wallace shipyards of North Vancouver have received the contract for the construction of the new coasting steamer for the Canadian Pacific Railway, British Columbia coast service.

The vessel will cost \$1,500,000, be a handsome craft, and will be 325 feet long, developing a speed of 17 knots. She will be specially constructed for the Alaska run.

For a considerable time it has been expected that the Princess Sophia, which was lost with all hands on Vanderbilt Reef in a snow-storm on October 24, 1918, would be replaced with a modern vessel.

Relief Boat Wanted.

In regard to the proposed new steamer D. C. Coleman, Western Vice-President of the C. P. R., issued a statement when he was on a

visit to Victoria just a month ago, which explained the efforts made by the company to place the contract in British Columbia, and the needs of a vessel to act as reserve for the fleet.

Mr. Coleman said: "The Coast business at the present time demands increased facility for the handling of travel and freight on the Alaska run more than anywhere else, and for that reason a special design has been developed for the proposed vessel that will make it particularly useful in that way. It is not so much the fact that current yearly business makes a larger fleet of vessels imperative, but the fact that the company at the present time is operating without any reserve. In case a vessel should have to be withdrawn from her run for any reason, difficulty would be found during the busy season in providing emergency sailings. This is particularly true in regard to ships suitable to the Northern run."

Several months ago Captain Troop, manager of the B. C. Coast Service, paid a visit to the United Kingdom, with the hope of placing a contract for this ship. He found, however, that none of the vessels could guarantee delivery within two years. Estimates were then obtained from British Columbia yards. About two weeks ago Captain Troop left for Montreal again to consult the directors of the C. P. R. in connection with the immediate construction of a new steamer. Tenders were received from the B. C. yards were then consulted, and an award made.

Increasing Cost. A striking commentary on the cost of construction is afforded to-day by the fact that the Princess Charlotte was constructed in 1908 at a cost of \$625,000, whereas the new Princess, which will be five feet longer than the Princess Charlotte, but of less horsepower, will cost more than twice as much. The C. P. R. is building a ship of a speed which has proven very satisfactory for the Alaska run. A ship with 17 knots being found suitable for the tourist trade. The Princess Charlotte was constructed with a designed speed of 20 knots. It is possible that the new steamer will have sufficient speed to relieve on the triangular service.

This will be the largest contract for a single ship for the British Columbia yard. Four British Columbia firms, Yarrows and Harbor Marine, of Victoria; J. Coughlan & Sons, and Wallace's, of Vancouver, are understood to have tendered on the contract.

Further details of the construction of the steamer will be awaited with interest.

WANT MORE STEEL MADE IN CANADA Ontario Mining Association To Place Views Before Commission

Sudbury, Ont., Aug. 12.—Deploring the unfavorable trade balance existing between Canada and the United States and proving by statistics that the major portion of this adverse state of affairs was due to Canada's tremendous importation of iron-ore and iron and steel products, the Ontario Mining Association yesterday appointed Colonel R. W. Leonard, George E. Cowie and A. J. Young a committee to tender assistance and represent the views of the mining industry of Northern Ontario before the Government Commission now investigating the possibilities of the iron ore industry in Canada.

Government assistance in the beneficiation of iron ores to smelter grade was accepted in principle as being highly desirable, and the combination benefited by the Federal Highway Act and coal from Alberta was accepted as commercially practicable.

SIR WILLIAM SMITH VISITS DOMINION New York, Aug. 19.—Sir William Smith, head of the Royal Institute of Public Health of Great Britain, arrived yesterday on his way to Canada. They will visit a number of cities of the Dominion before returning to the United Kingdom. Sir William is one of the world's greatest authorities on public health and is a leading member of the English medical profession.

Links Between Soviet And the London Herald London, Aug. 19.—A series of wireless messages between George Tchitcherin, Russian Bolshevik Foreign Minister, and Maxim Litvinoff, Bolshevik representative in Copenhagen, during February, March and July, dealing with financial transactions between the Russian Soviet Government and The London Daily Herald, was officially made public here last night. These messages, intercepted in several European countries, seem incomplete. Some of them refer to a commercial deal in newspaper paper and others apparently show that M. Litvinoff was urging M. Tchitcherin to subsidize The Herald.

The Daily Herald is the organ of Labor in London.

MAIL CAR ROBBED; ONE POUND FOUND St. Louis, Mo., Aug. 18.—One of the pouches of mail taken from the Missouri Pacific train that was robbed on the outskirts of St. Louis last night by two men was found to-day in a camp of weeds along the railroad track. The contents were intact.

JAPAN TO KEEP GUARDS ON CHINESE EASTERN RAILWAY Tokyo, Aug. 18.—Japan has sent communication to China saying the Government is unable to comply with China's request for a withdrawal of the Japanese guards on the Chinese Eastern Railway.

SEATTLE THEATRE ROBBED BY THUGS Coliseum Movie House Robbed Last Night, While Hundreds Were Near Seattle, Aug. 19.—While hundreds of persons were passing the place, two armed bandits entered the office of the Coliseum Theatre at 1030 o'clock last night, forced Ben Larsen, superintendent of the theatre, to open the safe, and after extracting \$500, tied both Larsen and Frank Steffy, the manager, to their chairs and escaped. More than \$2,000 was overlooked.

As soon as the bandits had gone out, the theatre officials started working their chairs toward the desk telephones in the room. Both finally reached it and, while Steffy lifted the receiver off the hook with his teeth, Larsen called to police headquarters and gave the alarm.

Wife Saw Tragedy. The aviator's wife was an eye-witness of the accident, which was viewed by hundreds of people on the beach. A tug brought the machine ashore. Mr. Brenton was born in Victoria thirty-three years ago. He was a son of the Rev. C. J. Brenton, who at one time conducted the old King's College on Burrard Street in this city.

Widow and Two Children of Late William King Left Destitute A public appeal is being made on behalf of the family of the late William King, who with his eldest daughter, Louisa, was accidentally drowned at Goldstream on Monday last while fishing. The widow, who is an invalid, is left destitute with two small children of six and seven years of age, and the state of her health precludes the possibility of her being able to go out to work to support her little ones.

Major McLaurin this morning made a careful examination of the plane, but it was in such a damaged condition owing to the crash, the subsequent towing and hauling up on the beach that it was impossible to tell what caused the accident. Propeller Free. However, the engine was found in a twisted condition underneath the boat. It was in good mechanical order with the propeller running free, and the extensions and shaft all were all right.

PRINCE FEISAL, "KING OF SYRIA," GOES TO EUROPE

Cairo, Aug. 18.—Prince Feisal, son of the King of the Hedjaz, who was elected King of Syria at Damascus some weeks ago, left Port Said for Europe to-day. Following his election as King of Syria, he became involved in difficulties with the French and later left that country.

RUSO-SOVIET NEGOTIATIONS WERE HALTED YESTERDAY

London, Aug. 19.—The Russo-Polish peace negotiations at Minsk were not continued Wednesday as agreed, owing to the fault of the Polish delegation, according to a message from Moscow, Wednesday, sent by George Tchitcherin, Soviet Foreign Minister, to Leo Kameneff, the Soviet representative in London.

Prairies Oppose Higher Railway Rates on Grain

Ottawa, Aug. 19.—(Canadian Press)—The desire of the representatives of the prairie provinces that in the event of higher railway rates being granted they should not be made applicable to grain, and more particularly wheat, was emphasized at the resumed hearing by the Railway Board of the application of the railways for increased rates this morning. This demand was made by H. J. Symington, counsel for the Government of Manitoba, in further examination by him of William J. Moule, assistant comptroller of the C. P. R., who appears to be the star witness in the case.

FIVE GAVE LIVES IN RESCUE ATTEMPTS

Heroic Children Were Drowned In Lake Ontario and Minnesota Toronto, Aug. 19.—In a heroic effort to rescue twelve-year-old Sheila McAlister from drowning, Annie Phillips aged fifteen, lost her life in Lake Ontario off here yesterday.

STILL SEARCH FOR BODY OF AVIATOR

Failure of Mechanism Believed Cause of Brenton's Death At Vancouver Vancouver, Aug. 19.—Diligent search so far has failed to recover the body of Captain Hilbert B. Brenton, the aviator, who last night fell to his death in the waters of English Bay, when the Boeing flying boat in which he was making a flight crashed from a height of 1,000 feet.

BERGDOLL CALLED DESERTER AND SENT TO PRISON IN U.S.

New York, Aug. 19.—Erwin R. Bergdoll, of Philadelphia, has been found guilty of desertion from the army by evading the draft, and sentenced to four years' hard labor at Fort Leavenworth, it was announced to-day at Governor's Island.

SEATTLE THEATRE ROBBED BY THUGS

Coliseum Movie House Robbed Last Night, While Hundreds Were Near Seattle, Aug. 19.—While hundreds of persons were passing the place, two armed bandits entered the office of the Coliseum Theatre at 1030 o'clock last night, forced Ben Larsen, superintendent of the theatre, to open the safe, and after extracting \$500, tied both Larsen and Frank Steffy, the manager, to their chairs and escaped. More than \$2,000 was overlooked.

BELGIAN COAL MINES AT PRE-WAR OUTPUT

Production For May Last Reached 90 Per Cent. of That For Period of 1913

Brussels, Aug. 19.—Belgian coal miners have almost reached pre-war production. The output of the Belgian mines for the month of May, 1920, reached 90.9 per cent. of the production for May, 1913, amounting to 7,737,080 tons, as compared with 1,810,710 for the same period before the war.

What is more remarkable; still, production for the Mons coal fields, taken alone, was even greater during May than during the same month before the war, the percentage being 104.5.

Further illustrating the wonderful progress toward reconstruction which Belgium has made, Director General of Telegraphs and Telephones Rosen points out that 282 central telephone offices out of 283 have been re-established and 80 per cent. of the pre-war subscribers have been re-gained.

At Antwerp, Malines and Turnhout more telephone subscribers are reported than before the war. The scarcity of material has prevented even greater results in reconstruction. Wires were hard to obtain, the Germans having carried away most of the wiring throughout Belgium.

The Germans carried away 3400,000 worth of telephone and telegraph materials from Brussels and 12,000,000 from Belgium as a whole.

SUPPLIES FROM THIS COUNTRY TO POLAND

Delegation Now in Montreal Is Preparing For Reconstruction

Montreal, Aug. 19.—Even while Poland is at death grips with the Russian Reds, as the Bolsheviks threaten their capital city, Warsaw, the Poles are preparing for the reconstruction of their country. To this end a delegation of Polish officials on this continent with headquarters in New York, arrived in Montreal yesterday to investigate the possibilities of securing various supplies from Canada. The Poles are anxious to buy from Canada railway locomotives, rails and rolling stock, machinery for factories, agricultural machinery, seed grains from the early wheat and other crops, and seed for the introduction into Poland of Canadian hardy apples, peaches and other fruits.

Members of the delegation said last night that Poland is so nearly like Canada in climatic and other conditions that they found it more useful to deal with this country than the United States, although they had already made large purchases of locomotives and similar supplies in that country.

MUSTAPHA TALKS AS THOUGH CONFIDENT

Angora, Asia Minor, Aug. 18.—Mustapha Kemal Paasha, the Turkish Nationalist leader, apparently is undaunted by the Greek advance in Asia Minor. To-day he told the Associated Press that the Entente had underestimated the Turkish strength, and intimated that disaster lies ahead of the Greek forces which are massing for a movement against the Anatolian railway.

Mustapha Kemal also frankly admitted co-operation of the Turkish Nationalists with the Bolsheviks. He declared that Bolshevism was not incompatible with Islamism, and expressed the belief that Turkey could not possibly suffer a worse fate than the "destruction" arranged for her in the peace treaty.

WOULD AMEND LEAGUE COVENANT

Norway, Sweden and Denmark Suggest Changes in the Rules

London, Aug. 19.—Headquarters of the League of Nations announced yesterday four amendments to the covenant suggested by Denmark, Norway and Sweden for consideration at the first meeting of the League Assembly November 15. They were announced as follows:

(1) Providing for a fixed annual meeting of the Assembly and proposing that ten members of the League can demand and secure a special meeting at any time.

(2) Seeking to regulate the method of selecting the four non-permanent members of the Council. It is proposed to accomplish this by providing that the Assembly, after making the first selections of four to serve respectively three, four, five and six years, shall name a new state yearly after the third year to serve four years and not be subject to re-election for the following period.

(3) Making the obligation for arbitration more absolute by omitting the words "generally" from Article XIII, in the paragraph beginning "Disputed" and ending "submission to arbitration."

(4) Permitting the Council to authorize a state in the vicinity of a state against which an economic blockade is in force to maintain a degree of intercourse with the latter provided the Council considers this necessary to prevent the blockaded state from attacking its neighbor.

FRENCH ATTITUDE TOWARD THE SOVIET SAME AS THAT OF U.S.

Washington, Aug. 19.—The French reply to the American note on the Russian-Polish situation "states without reservation that the French Government, Mr. Colby said, is in agreement with the principles set forth in the American note." Secretary Colby stated yesterday afternoon.

"It is almost identical words the views of this Government regarding the Soviet regime in Russia," Mr. Colby continued, "and declares that France has no official relations with a Government that conspired against its institutions; whose diplomats will be instigators of revolt and whose spokesman proclaim that they sign contracts with the intention not to observe them."

An informal reply to the American note has been received from the Italian Government, Mr. Colby said, with a promise of a complete and formal reply.

ITALY NOW ASKING BIGGER OIL SUPPLY

Wants More From Territories Over Which Britain Holds Mandates

London, Aug. 18.—Italy, in return for her constant support of Great Britain since the armistice, is urging Great Britain to alter her oil agreement with France so that Italy may get a larger share of oil from the territories over which Great Britain holds mandates.

The Italian Ambassador conferred with Premier Lloyd George, and it is reported that he urged upon Mr. Lloyd George Italy's needs for fuel, pointing out, if only inferentially, that Italy considers that she is largely in the Spa coal decision and is the only one of the Allies openly backing Great Britain's policy in Russia, notwithstanding the fact that Italy has less interest in Russia than any of the other Allies.

What promises, if any, the Prime Minister gave Ambassador, are unknown.

United States.

While Mr. Lloyd George is listening to Italy's plea, he also has before him an uncompleted exchange of communications with the United States Government on the subject of oil. The United States is adhering to its general policy regarding oil—its general policy regarding oil—and several communications have been exchanged between the United States and Great Britain on the subject. Should Italy finally decide to take the same stand as the United States, it is unlikely that the matter will be settled quickly.

There is a growing disposition against reaching final agreements with the United States until after the Presidential election. The view taken is that no matter what party wins, the new administration might be disposed to change agreements made now.

Sunken Eyes Brighten Quickly Health Returns

In a Message to Ailing Women Doctor Hamilton Tells How It Is Done

In speaking of the ills from which women suffer, Dr. Hamilton points out that nine out of every ten women are by nature inclined to habitual constipation. Harsh purgatives are resorted to which only intensify the trouble. Although not generally known, it is a constipated condition of the bowels that causes half the sickness and tired weariness with which all womankind is so familiar. It was after long years of study that Dr. Hamilton perfected the pills which have been of such marvellous benefit to women all over the world. In his pills of Mandrake and Butternut every sufferer will find an absolute specific for constipation, sick headache and biliousness. It is safe to say that Dr. Hamilton's Pills bring better health and keep the system in a more vigorous condition than any other medicine ever discovered. At all dealers, in 25c boxes

TWO CHILDREN WERE KILLED BY TRAIN

Trenton, Ont., Aug. 19.—Two children named Woodcock were killed yesterday and their mother was severely injured in the destruction of a motor car by Grand Trunk train No. 10 at a Canadian National Railway crossing in the west end of this town. L. A. Darling, driver of the car, was badly shaken up.

PRAIRIE FARMING SURPRISES EDITOR

Regina, Aug. 19.—"Of course the thing that strikes a British agriculturalist about your farming is the dearth of livestock," said J. Macdonald, editor of the Farmer and Stockbreeder (England), who is touring the West with the Imperial Free Corn and Cattle League. "You will be compelled to extend your farming before long, I think."

Mr. Macdonald had just returned from an all-day motor trip through grain fields of Manitoba. He was interested in the continued grain cropping on Western farm lands without manuring. The theory that the ground dries out and that fertility from the snowfall be found interesting, and thought that fertilization aided by the rigors of Winter had something to do with it.

"It seems the only explanation of what is otherwise a contradiction of

RELATIVES VISIT F. W. HOHENZOLLERN

Wife, Children and Brothers Visit Former German Crown Prince

The Hague, Aug. 19.—The solitary state of Friedrich Wilhelm Hohenzollern, former Crown Prince of Germany, on Wieringen Island, is considerably lightened by frequent visits of relatives.

Tuesday evening former Crown Princess Cecilie with her four sons arrived at the Dutch frontier station of Oldenzaal, where she was received by J. P. Kan, Secretary-General of the Dutch Government. Next morning she continued her journey to Wieringen, where she was planning to stay a few weeks, with a visit in the meantime to Doorn Castle.

In the course of recent weeks the former Crown Prince has had his brothers Eitel and Adalbert as his guests. The former departed for Germany and Adalbert returned to Doorn, where he intends to stay for some time.

EFFORTS TO INCREASE ORCHARD PRODUCTION

Vernon, B.C., Aug. 19.—Presided over by Dr. D. Warnock, Deputy Minister of Agriculture, the third annual meeting of Western horticulturists, entomologists and plant pathologists is in session here. It was opened yesterday and will continue to-morrow.

About fifty delegates from Washington, Oregon and British Columbia are in attendance, and the programme is a most comprehensive one, dealing with all aspects of the work of fighting fruit pests and increasing production in orchards and farms.

CALIFORNIA AND ECUADOR TRADE

San Francisco, Aug. 19.—Exports of California foodstuffs, such as flour, canned goods and preserves, to the Republic of Ecuador, will be nearly double in amount this year over 1919, according to Dr. Manuel C. de Vaca, Consul-General of Ecuador in San Francisco.

For 1919 the total exports from San Francisco to Guayaquil were about \$700,000, while for the first eight months of 1920 the average was about \$120,000 a month.

Imports from Ecuador to California also are showing a healthy increase, according to Dr. de Vaca, nearly \$4,000,000 worth of chocolate a month being received here.

UNITED STATES AND AID FOR POLAND

Washington, Aug. 19.—Appealing to President Wilson for material aid to drive the Bolsheviks from Poland, 300 representatives of American citizens of Polish extraction declared in a statement presented at the White House yesterday that Poland's downfall probably would mean the overthrow of western civilization.

Secretary Tumulty assured the delegation that Poland in its present distress had the heartfelt sympathy of President Wilson.

A declaration that the American Government would support Polish independence to the full extent of the constitutional power conferred in the executive, was made by Secretary Colby.

"Every measure that can legally be taken will be adopted to render

OVER 45,000,000 USED FERRY BOATS

San Francisco, Aug. 18.—San Francisco Bay ferries collected more than 45,000,000 passenger fares during the year ended June 30, 1920. Capt. John K. Bulger, inspector of Steam Vessels, has reported. The ferries operate between San Francisco, Oakland, Berkeley, Alameda, Sausalito and other bay points.

GAINED BY EXCHANGE.

Riverside, Cal., Aug. 18.—Charles Sanjo, Riverside, recently received word from his father in Jugo-Slavia that their ancestral farm near Ragusa was about to be foreclosed under a mortgage of 5,000 kronen. Sanjo sent his father \$200, with a promise that it would be followed by more money soon. In reply he has now received a letter stating that his remittance, at the prevailing rate of exchange, had paid off the mortgage and left a balance of 10,000 kronen.

KILLS SEA-LIONS

AND GETS BOUNTY

Man Bags Game Around Mouth of Columbia River and Collects

Astoria, Ore., Aug. 18.—William M. Hunter, known here as "king" of sea-lion hunters, has collected \$880 bounty from the state for 252 sea-lion scalps, paid at the rate of \$2.50 each. Bounty is paid on the sea-lions because they are considered the Pacific Coast salmon's worst enemy. They gather off the mouth of the Columbia River here to prey on fish bound upstream.

Sea-lion hunting is dangerous. Hunter says, and he tells of narrow escapes from angry bulls. Seals, he asserts, are not as awkward as they appear but can travel at a fast rate of speed. Recently he chased him over the rocks but was killed by Hunter's companion before it reached him.

Hunter works from a small launch while at sea. Much of his hunting is done on rocky beaches where seals congregate. He earned his trade, as he terms it, as a mountaineer hunter of bear and deer in the Cascade Mountains.

In addition to the Government bounty Hunter is paid by salmon cannerymen for destroying seals. Estimated on the 1919 pack, the rate of the cannery bounty would be about \$2,000 for every 1,000 sea-lions killed.

Sea-lions destroy the fish by snapping off their heads, it is said. During the salmon running seasons in the Spring, tons of the fish are victims of the sea-lions herds.

CALIFORNIA AMERICAN LEGION CONVENTION

San Diego, Cal., Aug. 18.—American Legion men from all parts of California are expected to attend the Legion's 1920 state convention to be held here August 22 to 25.

Most of the delegates from the San Joaquin Valley are coming to the convention in two automobile caravans. The caravans will form in Bakersfield. Steamships are expected to bring many of the delegates from the San Francisco Bay region and northern California.

Dr. David P. Barrows, president of the University of California and state commander of the American Legion, will preside. Governor William D. Stephens has accepted an invitation to address the convention. Merced County delegates already have announced that they want the 1921 convention. If successful they will hold it in Yosemite Valley, they have announced.

OPERATE FOR LESS

IN WESTERN CANADA

Railway Earnings Proportionately Greater Than In East; Rate Hearing

Ottawa, Aug. 18.—An interesting development in the hearing before the Railway Commission of the application of the Canadian railways for increases in freight and passenger rates came just before the 5 o'clock adjournment yesterday afternoon, when H. J. Symington, counsel for the Government of Manitoba, threw out the suggestion that in view of the fact that operating expenses are lower and earnings higher on Western Canadian Pacific Railway lines, the same necessity does not exist for an increase of rates in the West.

Mr. Symington had been examining W. J. Moule, assistant controller of the Canadian Pacific Railway, at length on the cost of operation in the East and the West, it being shown that during the past four years net operating expenses in the West were lower than in the East, and the net earnings per train mile higher, those for 1919 being approximately eighty per cent. higher.

West and East. "Would you say in view of these figures," asked Mr. Symington, "that freight rate increases should be the same in the West as in the East, if the increase is to be upon the basis of paying money for service rendered?"

Mr. Moule, in reply, said that operating expenses in the East were largely incurred for the benefit of the West. These included large expenditures for port terminals, etc. For this reason, he said, operating ratios were not a proper indication of earnings on Eastern and Western lines. Expenses in the East of this kind were not, he said, spread over the entire system.

"Is not more traffic originated in the West for the long haul?" asked Mr. Symington.

"Even so," interposed Chief Commissioner Carvell, "does it not have to be transported over 1,000 miles of waste country?"

Mr. Symington remarked that it was strange that the Lake Superior C.P.R. division was one of the best paying divisions of the C.P.R.

W. E. Carroll, of Carroll Brothers, sand shippers, with headquarters at Buffalo, told the Commission that he considered the increase would make the freight rate on sand excessive. Mr. Carroll said his firm had commenced business in 1888. At that time the freight rate on sand amounted to \$14 a car. Gradually the rate had been raised, until now he was paying from \$28 to \$30 a carload. If the increase asked by the railways was granted it would mean that Carroll Brothers would be practically excluded from the American market. They get the sand from the north shore of Lake Erie.

Chief Commissioner Carvell asked Mr. Carroll if he thought the Railway Commission should consider the question of increased rates from the point of view of the various interests throughout the country, or whether it should consider the actual requirements of the railways.

Mr. Carroll said he thought that it was not in the interest of the country that any business should be choked to death.

STICKS AND STONES INSTEAD OF LEATHER

Dunedin, New Zealand, Aug. 18.—Eight boxes in a cargo landed here by the freighter Kumara from New York contained not kid leather, as supposed, but sticks and stones. The leather, had it been in the boxes, would have been worth about \$12,500.

HANDLING OF WOOL GROWN IN CALIFORNIA

Berkeley, Cal., Aug. 18.—The California Farm Bureau Federation's wool pool, organized to handle the marketing of the Spring wool clip for farmers, has assigned to date about 1,900,000 pounds of wool, according to W. H. Heilman, secretary. From the total amount shipped, Yolo and Mendocino Counties consigned fully one-fourth.

Party Visits Big Trees in California

Auburn, Cal., Aug. 18.—Seven Sequoias in the Sequoia bluff district said to be the most northern of California's big tree groves have been visited by a party of state and local officials, guided by W. B. Lardner, former State Senator.

The seven big trees are in a remote section and have been visited by but comparatively few people. The object of the visit was to provide protection for the trees and to make them accessible to the public.

HARBOR CLOCK AT HONOLULU SOON

Honolulu, T. H., Aug. 18.—Honolulu is to have a harbor clock that will look across 2,100 miles of ocean and tick off the seconds in unison with its older relation in the tower of the Perry Building at San Francisco. Plans of the Honolulu Harbor Board bear fruit.

Early in September the Board will open bids for several large new piers which have no coverings. It is proposed to place the clock in a tower on the top of these piers.

Owing to the difference in time, Honolulu's harbor clock would run two and one-half hours behind the famous clock near the Golden Gate.

CALIFORNIA LABOR. San Francisco, Aug. 18.—Formal call has been issued for the twenty-first annual convention of the California State Federation of Labor to be held at Fresno beginning Monday, October 4, 1920. The call was issued by the executive council of the California State Federation of Labor, of which Daniel C. Murphy, San Francisco, is president.

A DANGEROUS WARNING BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

DUAL CITIZENSHIP DIFFICULTIES EXIST

Japanese Consul in Honolulu Suggests American-Japanese Agreement

Honolulu, T. H., Aug. 18.—A treaty or an agreement of some sort between the United States and Japan to do away with difficulties of dual citizenship is the suggestion of C. Yada, new Japanese Consul-General here.

Mr. Yada's proposal followed his refusal to forward to Japan the applications of 200 Hawaiian-born Japanese children for exemption from the Japanese dual citizenship laws until the applications are accompanied by the nine official forms required by the Tokio Government. When these forms are filled out, said Mr. Yada, he will be glad to send them on to Japan.

American and Japanese citizenship laws constantly are in conflict, said the Consul-General. He pointed out that under the United States law a child born of American parents anywhere in the world is held to be an American citizen, while a child born of alien parents in the United States also is eligible for citizenship rights. The Japanese law, said Mr. Yada, works practically along the same lines and the two are bound to conflict.

The Japanese representative denied reports that Japanese born in the United States who refuse to return down punishment on the heads of their relatives in Japan.

Mr. Voiles, Takes Adler-i-ka!

"I suffered from indigestion and constipation and my doctor told me to take Adler-i-ka. It helped me in two days and three bottles CURED me. (Signed) O. E. Voiles. Adler-i-ka flushes BOTH upper and lower bowel so completely it relieves ANY CASE—gas on the stomach or sour stomach. Removes foul matter which poisoned stomach for months. Often CURES constipation. Prevents appendicitis. Alder-i-ka is a mixture of buckthorn, cascara, glycerine and nine other simple ingredients. Sold by Hall & Co. Druggists, 792 Yates St. Sold in Equinimat at Lam's Drug Store.

Try an Iced Coffee

Make the coffee fresh and pour it into cups already about half filled with chipped ice. Sweeten to taste and add just a little milk. This brings out the rich mellowness and "tang" of good coffee. MRS. C. W.

This is, indeed, a cooling dinner drink for hot days.

An Advance Showing of New Fall Coats, Suits and Dresses

Truly women of fashion are going to have abundant cause for rejoicing this coming Autumn. Even the most fleeting glance at these authentic apparel originations will assure you of that. We assembled these particular wraps, suits and frocks because of all the styles the foremost fashion creators have designed they were the most indicative of the trend of the new modes. In them beautiful soft fabrics and lovely color tones find the best expression and their lines reflect the gracefulness of idealized youth. Come and see them. You'll get a lot of enjoyment and a number of ideas about your Autumn wardrobe out of a visit to these advance showings.

The New Wraps

—Have an air of simple elegance about them that makes an enthusiastic admirer out of every woman who sees them.

The New Suits

—Are everything but monotonous. Slender, long lines, clever panels, scallops and fur trimmings lend them individuality and charm.

New Frocks for Which Great Vogue is Predicted

Long sleeve for woolsen street frocks; elbow length sleeves for afternoon modes. Such is Fashion's verdict regarding frocks for Autumn. Effective motifs of soutache braiding and chemise lines are outstanding features. Colors vary, with navy blue and black well in the lead.

Physicians Recommend Castoria

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you; the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Your physician knows that Castoria is purely a child's remedy. It was sought for and discovered as a substitute for Castor Oil in the ailments of Infants and Children. Your physician will tell you this for he knows that preparations put on the market for adults are not adaptable for the very young and he is particularly interested in your baby.

Children Cry For Fletcher's CASTORIA

Is Baby Well and Strong?

Your heart aches when your baby falls sick. You feel so anxious to help the little sufferer, yet so helpless because baby can't tell you where it feels bad. But, if you are wise, you know that generally baby sickness comes from a disordered stomach or bowels. You can tell easily that baby is constipated or has pain, eructations, flatulence, diarrhoea, is restless, feverish, wakeful, fretful. Good mothers use Fletcher's Castoria, a wonderful remedy, purely vegetable, discovered by a family doctor and used in the best families for over thirty years.

Children cry for Fletcher's Castoria. It is a comfort to babies, the mother's unfailing friend. Any Mother who has used Fletcher's Castoria will advise you to use it for your baby. Give your sick baby a dose of it and note how soon baby begins to feel better. A few doses and you will realize what a wonderful remedy Fletcher's Castoria is for babies, what a comfort it is for mothers to depend on.

Never try to relieve baby with a remedy that you would use for yourself. Don't say tomorrow, get it today.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

WARSAW CLEAR.

The tide of the battle for Warsaw appears to be flowing strongly against the Russians, the centre of whose front has been driven back in some places twenty-five miles by the Polish counter-offensive. This development, at least for the time being, removes the menace from Warsaw, and if the Poles are able to make the most of their present successes the danger to their capital will have disappeared for good.

HOPE FOR THE SETTLER.

With the advent of Canadian Pacific control of the Edmonton, Dunvegan and British Columbia Railway—as provided for under the provisions of the agreement recently negotiated by the company and the Province of Alberta—there is good reason to believe that an outlet for the produce of the Pouce Coupe section of this Province will be provided earlier than was thought likely prior to the new conditions of operation.

and afford economical and speedier means of transit. It is to be hoped, therefore, that the British Columbia Government's representations in behalf of the Pouce Coupe settlers will result in appropriate action on the part of the new controlling authority of the E. D. and R. C. Railway.

NOTE AND COMMENT

In case any of our readers may not have digested the correspondence which has taken place in our columns during the last few weeks on the subject of frills and non-frills, it is pertinent to suggest to them that the subject has no relation whatsoever to either masculine or feminine raiment.

According to a Vancouver dispatch the Attorney-General's Department has given its assurance that the huge stock of liquor formerly owned by the Pacific Wine Company and now confiscated to the Crown will be held with reasonable precautions to preserve the stock intact. What loose phraseology!

Victorians no doubt are becoming more expectant, if not excited, as the first of September approaches, for that is the day upon which construction of the Drydock at Skinner's Cove is scheduled to commence; that is to say, on the assumption that the Federal Member for Nanaimo meant this year when he made the prediction.

Ramsgate's police had a difficult job in subduing a mob which gathered at the quay the other day in order to prevent the loading of a German ship. Small wonder; both Ramsgate and the twin resort of Margate have not forgotten the havoc wrought by a series of air raids during the war.

Montreal and New York have held their protest meetings tendering their sympathy to Archbishop Mannix. Nevertheless the Australian prelate owes his liberty to-day to the fact that he is a British subject. He would have been free in the United States just about twenty-four hours after publicly expressing his desire to see the downfall of the Republic.

Mr. Napier Denison's address to the Kiwanis Club included the interesting reminder that the rising of the tide depresses the rocks in the floor of the Straits of Juan de Fuca sufficiently to cause the Olympics and Gonzales Hill to bend towards each other each day. But it must not be supposed that the inhabitants of either side of the Straits ever will be able to catch the two eminences bending sufficiently to permit of jumping across.

Premier Millerand says that the differences between the Allies regarding policies they will follow have no influence upon their cordial relations. The French Premier is quite right, of course, but cordiality between nations has been and always will be an unknown quantity. The best guarantee that it will not be disturbed is unity of action rather than individual enterprise where wider interests, sooner or later, are bound to clash.

OTHER PAPERS' VIEWS

When one hears ministers in office, and heads of boards of control read off long strings of figures to prove that increased prices are a direct result of a world-wide reduction in the output of the staples of life he is tempted to believe that, after all, things are not worse than they might have been expected to be. But when one remembers that balancing the decrease in production, there has been a forced decrease in consumption, through the isolation of whole nations; and also that, in normal years, there always is an over-plus in production, he can see that the actual shortage is not so very great after all.

LETTERS

Letters addressed to the Editor and intended for publication must be short, and must be accompanied by the name and address of the writer, but not for publication unless the writer wishes. The Editor's responsibility is assumed by the paper that is submitted to the Editor.

COAL PRICES

To the Editor—I want to correct a statement in an article in Sunday's issue of The Colonist in reference to the conversation held with the Board of Commerce at the Empress Hotel on Saturday, August 14. It stated that Mr. Kingham answered Capt. Gadsden and that Capt. Gadsden said he was perfectly correct, which is all quite true, except for the fact that that of Mr. Kingham's answer as given was not made by him to myself, namely, the benevolent assertion that if he held a similar concession to what was held by the United Co-operative Association on the Songhees reserve from the Provincial Government, he would reduce the price of coal \$1.00 per ton. In the article the impression is that the above statement was made to Premier Oliver when Mr. Kingham was complaining to him of unfairness to him as a coal dealer in having to pay for his private wharfage while being in competition with a firm which was receiving a free advantage from the Government.

VICTIMS OF DOUBLE TRAGEDY BURIED

Late William King and His Daughter Laid at Rest Yesterday

The Centennial Methodist Church was crowded with a sorrowing congregation yesterday afternoon for the double funeral of William King and his daughter, Louise, who were drowned at Goldstream on Monday afternoon last. The Rev. J. L. Bitty, the pastor, conducted the simple but impressive service, assisted by Noah Shakespeare.

TELLS CITY ABOUT GOVERNMENT BOARD

Inspector Baird Describes Objects of Proposed Body Plans

What a Local Government Board would do for the municipalities of the Province, both in financial matters and also in the problems of the machinery of government, most important of all in the various activities relative to public welfare, is set forth in a memorandum which Robert Baird, Inspector of Municipalities, has prepared and which has been forwarded to the cities and towns throughout the Province.

PRAIRIES OPPOSE HIGHER RAILWAY RATES ON GRAIN

Mr. Moule maintained when present prices of grain are considered the farmers were in a position of sixty per cent. better than in 1913, even with a forty per cent. increase in rates in force. Mr. Symington: "Have you gone into the question of what the farmer gets for his grain and what it costs him?"

CHARGE OF MURDER LAID IN SEATTLE

Seattle, Aug. 18.—Charles Hellander, a sailor, to-day was charged with first degree murder, following an alleged confession in which, according to police, Hellander admitted he shot and killed Charles Johnson, a fisherman, Monday night in an altercation over a search for a buried gallon of whisky.

SAANICH CAMPAIGN IN WARD SEVEN THIS EVENING

Sympathy of organized labor was with the railwaymen and a committee was appointed to talk the whole matter over with them. "There never was any disposition on the part of this Council to do anything but support the railwaymen," Secretary E. S. Woodward declared when Delegate Nunn voiced complaints concerning the Council's attitude. "As between them and jitneys there is no question."

work on her car should be paid the money, through her attorney, J. A. Aikman, now says that it is up to her father's estate to pay the bill for painting her car, although she admits that she gave the orders for the painting, made the arrangements and selected the colors. Mr. Aikman succeeded in persuading Judge Barker to make Miss Dunsmuir the defendant in the action, which will come to trial soon.

CARTIER CREDITORS ASK COURT FOR DUNSMUIR MONEY

Automobile Man Having Disappeared; Miss Dunsmuir Wants Workmen Paid

More details of the recent financial troubles of W. D. Cartier, automobile man, and the question of whether the estate of the late Hon. James Dunsmuir is responsible for debts against automobiles registered in his name, came before Judge Barker in the County Court to-day. It took Sheriff Richards, Frank Higgins, K.C., and J. A. Aikman to tell the story to the judge. They told the judge that the big twelve-cylinder touring car that Miss Eleanor Dunsmuir drives is registered in the name of her father's estate, although she pays all the bills. Miss Dunsmuir recently took the car to Mr. Cartier and he agreed to paint it for \$125. Before the painting was finished, Mr. Cartier, pursued by the sheriff and sought by process servers, disappeared. The lawyers and the sheriff told the judge. Since the man got out of the city without leaving trace of where he went, workmen have completed the painting of the Dunsmuir car. Miss Dunsmuir was about to pay them the money when Frank Higgins, K.C., representing numerous creditors in different parts of the city, started proceedings to garnish the payment. Miss Dunsmuir, who is anxious that the men who did the actual painting

**PREPARING FOR
WARD EXHIBITION**

Ward Two, Saanich, Will Hold
Successful Show on
August 28

The Cottage Gardeners' Society of Ward Two, Saanich, expects to hold successful show in St. Mark's Hall on August 28. A large number of prizes have been received, and the favorable season is resulting in anticipating an exhibit of high-class garden and orchard produce. Many valuable prizes are offered, and for the first time there is a ladies' and children's section.

The energetic committee is now busy making arrangements for what will undoubtedly be its most successful exhibition.

All residents of the ward having good gardens should obtain a copy of the prize list, and all residents of the ward are invited to be present at the show.

In addition to the Hon. S. F. Colmie, who has promised to open the show, Professor Stevenson will also speak.

**WILL REPRESENT CITY
AT LABOR CONVENTION**

A. C. Pike, President of the Trades and Labor Council, was appointed by that body last night to attend the Windsor convention of the Trades and Labor Congress of Canada. Mr. Pike will leave for the East to-day with his family, proceeding as far as New York, and during the convention week will proceed to Windsor.

In connection with the convention the Council went on record as favoring the proposal that the Provincial Executive be composed of nominees of the various Trades and Labor Councils of the Province. The Council was opposed to the executive officers of the Congress being also the employment of the Government.

A resolution introduced by the Engineer's local, urging the Council to recommend to the Congress the passage of a Dominion law calling for a maximum eight-hour day wherever possible, was approved.

A PROMOTER DROPS IN.

"Is this the office of The Toadville Marion?" asked the prosperous-looking stranger.

"It is, sir," replied the editor.

"My name is Blobs, sir. I. Vander-yke Blobs, of New York, Chicago, Philadelphia and Boston."

"Glad to meet you, Mr. Blobs."

"I've come here to do great things for your town."

"Do you mean to say you came all the way from New York, Chicago, Philadelphia and Boston, just to do great things for Toadville?"

"I did, sir."

"Well, by gum, I'll give you a personal notice in my paper, but I'm not going to buy any oil stock," Birmingham Age-Herald.

**MRS. LUCY DOUCETTE, of
Manchester, N. H., who says
she's just so happy over the way
Tanlac restored her health she
can't keep from telling people
about it.**

"I am just so happy over the way Tanlac has restored my health that I can't keep from telling people about it," said Mrs. Lucy Doucette, of 76 Park Street, Manchester, New Hampshire, a few days ago. "I suffered so long with chronic indigestion that I didn't know what it was to sit down and enjoy a single meal. My stomach was so badly disordered I had to live on the strictest diet, and nothing seemed to agree with me. At times my breath seemed to be cut off, and I would suffer terribly for hours at a time."

"I lost my strength completely and became so weak and run-down I could give out several times during the day and would have to stop and rest. I was extremely nervous and irritable, and just felt like I would break down completely."

"One day I saw a statement from a friend of mine who said Tanlac had helped her wonderfully, so I was convinced it was a dependable medicine and I began taking it immediately, and I am more than pleased at the splendid results. My appetite improved right from the first, and the terrible indigestion from which I suffered so long has entirely disappeared."

"I have now finished my fourth bottle, and can eat just anything I wish without any bad after-effects. I also sleep better and have more strength and energy. It is a pleasure to tell others what Tanlac has done in my case."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt road.

Over 400,000,000 War Savings Certificates have now been taken out, or nearly ten for every man, woman, and child in the United Kingdom.

DAVID SPENCER, LIMITED

Store Hours: 9 a.m. to 6 p.m. Wednesday, 1 p.m. Saturday, 6 p.m.

**Our Groceteria Will
Open Saturday**

Saturday morning at 9 a.m. the doors of our new Cash and Carry Grocery will swing open to the public.

This new department has been under preparation for some time, and will be ready Saturday morning, heavily stocked.

Under the new way of selling groceries all unnecessary expense is done away with—such as delivery and selling expense.

We are going to save our customers this cost, and our buying opportunities will enable us to sell groceries as near the actual cost as it is possible to get.

We wish to state that everything in this department will be offered for sale at a uniform close margin of profit. The 10c article as well as the \$5.00 article.

We also wish to state that only groceries of the very best grade will be offered for sale.

Nothing will be delivered—no goods will be charged.

THE COURAGE OF ONE'S CONVICTIONS

Foolish, indeed, is any woman who hasn't the courage of her own convictions or who is swayed or influenced by what others may do or say. Persons thus lacking in will power must certainly find life a rather trying affair.

to fear or brood over, and the opinions of the folks near by should not give us a second thought. If a lady finds that she cannot always depend on her laundry work on schedule times she will if she is wise refuse to become semi-hysterical over the postponed washing.

Beautiful Women of Society

of Society, during the past seventy years have relied upon it for their distinguished appearance. The soft, refined, pearly white complexion it renders instantly is always the source of flattering comment.

Gouraud's Oriental Cream

It is the only cream that has been used by the most distinguished women of the world for over a century.

Twelve Tenders For Saanich Health Centre Building

Twelve tenders have been received on the building of the Saanich War Memorial Health Centre, on site at Royal Oak, corner of Glanford Avenue and Saanich Road.
The architect, Major Spurgin, at the request of the Saanich Council, invited tenders alternatively for hollow tile, brick and frame construction of the building. The tenders in are based on this arrangement, some, it is believed, being for hollow tile, which has become an industry in which Saanich residents are interested.

St. John's Picnic a Success

Fully three hundred members of St. John's Sunday school and their friends entered with whole-hearted enjoyment into the pleasures of the annual picnic, held at Cadboro Bay yesterday afternoon. The turn-out was the largest in the history of the school, and from 10 o'clock in the morning, when the majority had gathered on the beach, until late in the evening, fun and frolic was the order of the day. An exceptionally attractive sports programme occupied the major portion of the day, adjournment being made at noon, and again to dusk to the refreshment tables, where good things galore were arrayed in tempting fashion. The burden of the arrangements fell upon the shoulders of Stanley Hawkins, to whose indefatigable efforts the success of the undertaking was largely due. The rector, Rev. F. A. Chadwick and his family were in attendance, and assisted materially in promoting the success of the affair.

PRESS DELEGATES WARM IN PRAISE OF CANADIAN HOMES

"We have many fine clubs in London, but none to equal this. I do a great deal of this sort of work at home and shall carry back many of the ideas I have received. May I say, too, that you can not estimate what it has been to me meeting you all in your own homes. Your homes are yourselves—you have given us your homes. We shall always remember Canada not only as a country of beauty, but as a country of homes."

Admires Canadian Homes

Miss Billington, ex-president of Britain's Women Journalists, was also most enthusiastic about Canada's homes in her happy speech.
Miss Billington said: "I have been ever so impressed by the beauty of your homes—miles and miles of them with grass growing right to the sidewalk—I believe that's the right word to use here," she said amid laughter. "You are greatly to be congratulated

MOVED BARRELS WHILE CONSTABLE WAS ABSENT ON BEAT

Sometime during the dark hours of Wednesday morning thieves broke into the liquor warehouse at 1207 Store Street and removed nearly a hundred cases of whiskey and similar liquors, leaving no trace of their operations other than a vast number of burned matches lying on the floor and the broken lock of the door, which had been carefully replaced in position.

was apparently in order, there was nothing whatever to arouse any suspicion in his mind as to what was going on.

Composed in part of Chinese whisky and other Oriental drinks, in all valued at around \$10,000, these Far Eastern liquors were carefully left untouched, the whiskies taken being worth nearly \$4,000.

The method of operation was apparently to watch for the rounds of the constable and then, when he was safely out of the way, to transfer the cases across the road to a dark alleyway, where it would be possible to either load them on a truck or place them in a boat. It is the impression of the police department that there must have been a considerable number of men engaged in the exploit.

The warehouse is operated by the B. C. Trading Co., and the stolen liquor was the property of Chun Shing, a wealthy Chinaman residing at Calgary.

BEST NATIVE GIRL IS BEING SOUGHT

Local Maid Wanted For Distinction For Made-in-Victoria Week

Who is the most popular native daughter of Victoria?
J. C. Macdonald has been set the task of finding her. He has been placed in charge of the contest by the Victoria and Island Development Association in connection with the Made-in-Victoria week which opens here on September 6.

This much sought after young woman is to be discovered by a ballot contest, Mr. Macdonald has decided. He says this method will be less embarrassing to the committee than if the members had to start out and pick her out personally.

The most popular native girl, besides the distinction and having her photograph in the newspapers, will be given a prize of \$100. The second and third girls in the contest will get prizes of \$75 and \$50. Those who enter may be either married or single, young or old. The only limitation is that they must have been born in Victoria or district.

Start Next Monday.

Next Monday the contest will be under way. Contestants will be given ballots which they must get housewives to sign.

Each ballot will count for six points. The ballots must be turned in before 11 o'clock on Tuesday, September 7. Ballots turned in on September 8 will count 5 points, and one point less on each succeeding day of that week.

The text of the pledge to be printed on the cards follows:

"I hereby subscribe to the objects of Made-in-Victoria Week as initiated by the Victoria and Island Development Association for a more substantial patronage of Victoria-made goods and realize that by such an increased production can be secured, which represents the employment of more labor and the keeping of our money in circulation at home."

Further, I pledge myself to patronize home products during Made-in-Victoria Week, and tender this my ballot for the candidate above mentioned."

Space for the signature of the householder or housewife who takes the pledge follows, and above the pledge is printed the name of the candidate in whose interest the card is being signed.

ACCEPT KIWANIS CLUB'S CHALLENGE

Rejoicing over its victory on the diamond in Vancouver the other day, the Victoria Rotary Club today issued its challenge to the Kiwanis Club's challenge to another cricket game. The game, probably, will be played in September and meantime Captain W. N. Kelly intends to train his team to a high stage of efficiency, and the club will summon home Lester Patrick, who is in the East, and who largely accounts for the Kiwanis Club's defeat in the first game.

A feature of to-day's luncheon was an address by T. R. Myers, who detailed in detail the workings of the B. C. Electric Company's auxiliary plant at Brentwood Bay—an institution visited by the club last week.

The club was addressed also by Lieut. R. Byrner, Secretary of the Victoria Branch of the Navy League of Canada, who urged the Rotarians to give their support to the work of the Boys' Brigade. Two lads, members of the Brigade, were introduced to the club as examples of the fine product which the organization was turning out. The Rotarians will visit the Brigade's camp at Rockside this evening.

HARD, SOFT, OR BLEEDING?
No matter what kind or where located, any corn is promptly cured by Putnam's Corn Extractor; being purely vegetable it causes no pain. Guarantee with every bottle of "Putnam's" use no other, 25c. at all dealers.

STEADY DEMAND FOR LABOR AT TRAIL

The steady growth of the Consolidated Mining & Smelting Company's premises at Trail, with the application of science to ore reduction on the largest scale in Canada, has rendered it imperative to secure an adequate amount of labor.

The company has sent down a representative to the Coast cities to secure labor, which it is announced is temporarily in character, carpenters and joiners being in demand for the present, there is every assurance of permanent positions.

Mr. Dockrill, the company's representative, will be at the Provincial Labor Bureau office to-morrow and Saturday to meet prospective employees who are anxious to obtain work at Trail.

OBITUARY RECORD

The funeral of Brian Bevan Alexander, who died in Seattle on Tuesday, will be held from the C. Funeral Chapel on Friday at 2 o'clock, proceeding to Christ Church Cathedral, where services will be conducted by the Rev. F. H. Pattison. Interment will be made at Ross Bay Cemetery.

Caroline Viola Roark, the three-year-old daughter of Mr. and Mrs. W. C. Roark died yesterday afternoon at the family residence, 1048 North Park Street. Interment will be made tomorrow morning from the B.C. Funeral Chapel at 8.45, proceeding to St. Andrew's Cathedral where services will be held. Interment will be made in Ross Bay Cemetery.

The remains of the late Miss Dean Carter will be laid to rest in Ross Bay Cemetery Friday afternoon. Services will be held in the B. C. Funeral Chapel at 3.30 o'clock. Rev. F. A. P. Chadwick officiating.

SAYS WATERWORKS BY-LAW SHOULD PASS

Ex-Councillor H. E. Tanner Advises Ward Three Voters To Support Extension

Ratepayers of Ward Three, Saanich, at a meeting held last night in the Cadboro Beach Hotel, passed a resolution strongly supporting the waterworks by-law.

There was a good representative attendance, and the gathering was addressed on the by-law by Reeve Watson, Councillors Clark and Dooley, and ex-Councillor H. E. Tanner.

Mr. Tanner announced himself as entirely in favor of the extension of the waterworks system into Gordon Head, and said that he was fully supporting the present by-law. At the same time he maintained that he could see no merit in the proposed sewerage by-law, and repeated his arguments against the scheme.

Candidates Clarence Oldfield and D. S. Tait both made appeals for support in their contest for the vacancy on the School Board.

MEN MUST SET BOYS EXAMPLE

This Must Be Foundation Of Rotary Boys' Work, Club Is Told

The men of to-day must set an example for the men of to-morrow if Canadian citizenship is to be developed along the best possible lines, Rotarian Rev. F. A. P. Chadwick warned the Rotary Club at its luncheon to-day in an inspiring address on boys' work—the most important work which, in his opinion, Rotary could undertake.

Period of Adolescence.

Reviewing the consideration which the International Rotary Convention at Atlantic City some time ago gave to boys' work, Mr. Chadwick, who was one of the Victoria Club's delegates to the convention, recalled the investigations conducted by International Rotary had revealed that the period in a boy's life between the ages of fourteen and eighteen was the time of trial and stress, the time when lives were made or ruined. It was at this time that boys required the help and guidance of the man. It was at this time that Rotary, in prosecuting its programme of boys' work, must reach them. The lives of great men, Chadwick recalled, all revealed beyond question that this period was perhaps the most vital in a boy's life.

After the age of fourteen, Mr. Chadwick proceeded, having in mind the investigations conducted by International Rotary, the boy came less and less under his mother's influence, and more under the influence of his father. Outside influences to which he was exposed were of the very greatest importance.

Outside Influences.

Of the outside influences Mr. Chadwick mentioned first the school. "The trouble with our present system," Mr. Chadwick affirmed, "is that we are too anxious to rush our boys through school and into business too soon. This may bring them immediate success but between the ages of thirty and forty the man feels the lack of the education which he failed to secure earlier in his life."

The speaker referred with high commendation to one Rotary Club which had made a survey of the entire boyhood of its community and whose members had personally visited the homes of boys who were contemplating ceasing their studies in order to persuade them, if possible to remain at school. Excellent results had been achieved in this way and Mr. Chadwick felt that the Victoria Club would do well in following out this plan. Indeed, Canada, he thought, should aim to make the age of eighteen the standard for boys leaving school.

Christian Influence.

After the school Mr. Chadwick referred to the influence of the church upon the boy. "It is a sad thing," he said, "that Christianity is not what it should be as an influence upon the lives of our boys to-day. They seem to drift away from the church for various reasons, but Christianity to-day has a plan, an ideal for the young manhood of the world. It is holding before them the ideal of Jesus Christ, and it is not what it should be. It is in this work of training boys to develop along these lines that we ask for your co-operation. It's not your money we ask, but it is in the example you set. If you are leading an unclean or money-grubbing life that will be the boy's ideal. If you set them a bad example they cannot build up a strong, moral citizenship. It is for you to set your house in order that the boys may follow safely in your footsteps."

\$15,000 FIRE IN VANCOUVER TO-DAY

Vancouver, Aug. 19.—Fire early this afternoon did damage amounting to \$15,000 to building of the Barclay Sound Fishery Company and several other business places on Main Street.

A Tonic Worth While

Do you need a Tonic? Are you out of sorts? Have you indigestion, liver troubles, or are your nerves out of tune. If so just try Vital Tablets. They are a wonderful Tonic. BRIEF LOCALS. Bank Clearings.—Bank clearings for the week ending to-day were \$2,492,276, as compared with \$2,443,721 in the corresponding period of 1919.

ALBERT HEAD FIRE. Fire Warden's Save Much Machinery In Two Days' Fight. Machinery valued at about \$150,000, stored in a shed at the Albert Head gravel pits, and the property of Grant Smith, McDonnell, Ltd., has for two days been in imminent danger of destruction by fire, but after a strong fight waged by eight men, under the supervision of the Provincial Forestry Service, the danger has been averted.

Body Found at Saturna.—Provincial Constable Rogers, of Ganges, reported this morning to Superintendent McMillan that he had discovered a body ashore at Pine Island. The remains were of a slightly-built man, apparently five feet two inches tall, and wearing a blue bathing suit with red trimmings. As the remains were very decomposed, Constable Rogers and the lightkeeper buried them, where they were.

To Have Jury Trial.—Sergeant Robert Jardine Williams sent up for trial by Magistrate Jay on a charge of embezzlement of \$558 from the Sergeant's Mess of the Work Point Barracks appeared before Judge Barker on a jury trial to-day and Magistrate Jay, R. C. Lowe, his counsel, pleaded that he be allowed out on bail. The judge granted him bail of \$1,000 in two jurisdictions of \$500 each.

Yawl Changes Hands.—The auxiliary yawl "Sea Bird," over which long litigation has been proceeding, has been purchased by Paul Gore, her builder and original owner. At one time J. P. Walls, Jr. owned the yacht and later the failure of a buyer to pay for her provoked legal proceedings. A third interest in the boat is understood to be still in question. She is 36 feet in length.

Constable Intervenes.—Robert Barnett admitted to Magistrate Jay this morning in the city police court that he had been in possession of liquor in a place other than a dwelling-house and paid a fine of \$50 for the offence. As a matter of formality Constable Bishop took the stand and told the court that Barnett was apparently about to hand a flask of rum to another man, the two men being in the "Alibi Hotel" last night. Constable Bishop put out his hand and relieved Barnett of the flask before it had actually changed hands. And that was a good kind action of the constable, commented Magistrate Jay. "You see my man, had you handed that flask over you would have been sentenced to a \$50 fine, instead of the \$50 which you will now pay."

LIBRARY CLASSES TO START SOON. The students apprentice classes for library work, which have some years been operated in the winter months by Miss Helen Stewart, will be resumed again this year at the Victoria Public Library, and the Board of Library Commissioners is now inviting applications for permission to take the course. These applications will be considered on August 28, and the course will probably be commenced within the next two weeks. The classes are primarily organized to supply somewhat trained junior workers for the Victoria library, and the studies include both practical work in the library and a series of lectures. The period of instruction lasts for six months, and applicants must have a senior matriculation standing or its equivalent, the age limits being from seventeen to thirty. During the few years the classes have been held there have been twenty-three students who have taken the course under Miss Stewart, and of these seven are now holding responsible positions in some of the great libraries of the continent.

MINERS IDLE AT SPRINGHILL, N.S. Amherst, N. S., Aug. 19.—The Dominion Coal Company's mines at Springhill are again idle. Yesterday the management agreed to give a "two-fire schedule" instead of three fires a man, a one-month trial understanding. Since then only two fires had been kept up and the result was that sufficient steam pressure to run the mines was not maintained. In view of the management order, the introduction of the three-fire schedule. The men refused to comply and the result of the disagreement was that this morning they again struck, being up the whole plant and throwing nearly a thousand men out of employment.

KATTOWITZ QUIET AFTER DISORDERS. Berlin, Aug. 18.—Via London, Aug. 19.—A dispatch to-night from Kattowitz stated the town was quiet and that a strong force of security police was on patrol. The Allied Commission has declared an intensified state of siege as a result of the fatal disorders Tuesday, when twenty-seven persons are said to have lost their lives.

COLD IN REGINA. Regina, Aug. 19.—The lowest temperature here last night was 45 degrees of cold. There was no frost.

DIED OF INJURIES. Aberdeen, Wash., Aug. 19.—Frank Durant, fireman on the Pullman log train, which plunged through a burned bridge near Hoquiam August 11, died last night in Hoquiam from injuries received in the accident. Durant was badly scalded, both legs having to be amputated.

CANTU CEASES OPPOSING MEXICAN GOVERNMENT FORCES. Mexico City, Aug. 19.—President De La Huerta and Esteban Cantu conferred yesterday by wireless, says the newspaper Universal. Cantu declared he was willing to surrender this morning in Gleichen, where a splendid exhibition of cattle herding and broncho busting was staged for the benefit of the newspapermen under the auspices of the Southern Alberta Committee of the Imperial Press Conference. A touch of the picturesque past of the western plains has been injected into Canada's welcome to the newspapermen of the Empire.

DEFEATED BY LEGISLATORS. Raleigh, N.C., Aug. 19.—The Federal suffrage amendment was defeated by the North Carolina House of Representatives to-day by a vote of seventy-one to forty-one.

MENNONITE PROPOSAL. Quebec, Aug. 19.—A delegation of Mennonites numbering twenty, and accompanied by two of their bishops, met Premier Taschereau this afternoon in regard to the proposal to transfer the disaffected tribe from Manitoba to Quebec.

"BABE" RUTH AGAIN. New York, Aug. 19.—"Babe" Ruth of New York, to-day cracked out his forty-third home run of the season in the fourth inning of the game between New York and Cleveland. Caldwell was on the mound.

ALDERMAN TO SWIM. Joseph Patrick Dares Younger Blood To Beat Him In Contest At Gorge, At Citizens' Picnic. Alderman Joseph Patrick J. Carl Pendray, president of the Victoria and Island Development Association, and Peter Johnson of the Rotary Club are to furnish the opening feature at the monster Citizens' Picnic at the Gorge, on Labor Day, September 6, it was announced to-day by officials in charge of the celebration.

For some time the alderman has been hearing talk about the way certain men say they can swim just as if they were young bucks. This talk decided him to show them that, although he is an alderman and a grandfather, he is not out of the race yet. The result is to be a fifty yard swimming race between these three men. The Citizens' Picnic is to mark the opening of Made-in-Victoria Week.

A Canadian Piano of the Highest Quality. The Nordheimer Piano. is an instrument that conveys a very definite impression of supreme quality. And this Nordheimer supremacy costs but little more than mediocrity! To play upon the Nordheimer Piano is to realize that its prestige is well-merited, for its refinement of tone and faultless keyboard mechanism are at once apparent. Sole Agents in Victoria. Two Canadians Qualify In Two Famous Dashes

Phillips Will Compete in 400 Metres and Ponton in 200 Metres; Pat Ryan, of New York, Wins Hammer Throw; French and English Athletes Win 10,000 Metre Semi-Finals.

Antwerp, Aug. 19.—There were only two final events scheduled for to-day in the seventh Olympiad, these being the hammer throw and the 1,500-metre race. The day's programme also includes elimination heats in the 400-metre race, the pole vault, the 10,000-metre run, the 200-metre dash and the hop, step and jump.

Canadians Elated. The Canadians are elated over the brilliant performance of Earl Thomson, of Prince Albert, Sask., who yesterday clipped one-fifth of a second from the 110-metre hurdle mark, and while it is realized that Canada has but little chance of figuring very prominently in the matter of points, owing to the comparatively small number of entries from the Dominion, the fact that one Canadian has made athletic history has greatly encouraged Thomson's team-mates.

Europeans Too Fast. Antwerp, Aug. 19.—P. J. Ryan, of Loughlin Lyeum, New York, won the Olympic hammer throw to-day. Only one American, Fred W. Falter, of the Dorchester Club, qualified in the two forenoon semi-final heats of the 10,000-metre run. Another American, A. Patson, of Haskell Institute, Kansas, dropped out in the twentieth lap of the first heat.

Water Polo Draw. America and Greece drew a bye for the Olympic water polo preliminary next week. In the first match Italy will meet Spain; in the second England meets Canada; in the third Sweden meets Yugoslavia; in the fourth France meets Brazil; in the fifth Switzerland meets Belgium; and in the sixth Holland meets Australia.

Rudd Breezes Home. Schiller made the fastest time, coming home in 50 2/5 seconds, 2 1/5 seconds short of the record made by C. D. Reidpath at the Stockholm

SCHOOL COURSES COME IN FOR MUCH DISCUSSION Meeting At Tolmie School Hears Warm Crossfire Of Argument On Economy. Keen Minded Men, Energetic and Successful, Rely on It, Asserts Prominent New York Physician. Nitro-Phosphate a Godsend. Men and women, nervous and fretful, easily upset and often fatigued, need plenty of organic phosphate, and the sooner they heed this advice the better their health will be.

Warm discussions marked the meeting held last night at the Tolmie School by the supporters of D. S. Tait for the vacancy on the Saanich School Board. Some forty persons were present, the majority apparently in favor of the retention of manual training and allied courses in the schools. Advocates of simplification took every opportunity to make their views known, their speakers contesting the ruling of Chairman R. E. Collis that, as guests at the meeting, they should be satisfied with a minor portion of the time of the meeting. Mr. Tait said that, while a strong advocate of economy, he was not in favor of saving at the expense of the children. "I, therefore, am not supporting any economy which will reduce the benefits which the present curriculum gives the pupils," he said. Cost is Small. A study of the savings to be made by the proposal to cut out certain studies shows that less than \$5,000 is involved. The assessment in Saanich is now around \$12,000,000, and the saving would be less than half a mill, something less than 1 1/2 cents per resident with his home on one lot. Even the farmer with an assessment of \$10,000 would only save about 45¢, he stated. Referring to the argument that the training courses take up time required for other studies and are responsible for most of the failures at the recent examinations, Mr. Tait showed that the manual training courses actually made for better results in the other subjects, as they stimulated the interest of the pupils in their other work. Mr. Tait said that experience all over the world had shown that for developing co-ordination of mind and hand there were no other studies comparable, and that most boys eventually become workers, the training they receive in the manual training courses eventually became of great value to them. Trustee Holloway, speaking for the candidature of Mr. Oldfield, reiterated his arguments regarding the waste of funds spent in teaching manual training and school gardening, but when asked as to the actual cost of these courses in Saanich he denied possession of exact figures. "Don't Save That Way." Ex-Reeve George McGregor was frankly in favor of the candidature of Mr. Tait, saying that as regards economy he considered there were far better places at which to start saving money than making an attack on the future of the children. "Start on something bigger than these little ones if you want to make a real saving," he said. "We hear from all portions of the Province that Saanich is a model municipality, but that Saanich should have a candidate running for election on such a platform is as poor an advertisement as we could have." Regretting that the residents of Saanich do not take a greater interest in the schools, Mr. McGregor said that the recent talk of the school teachers being too highly paid was an example of lack of knowledge. "With the farmers getting the prices they are, it is impossible to expect the teachers to exist on the old scale of pay." John Kyle, Director of Technical Education, gave information as to the spread of technical education throughout the progressive nations of the world, pointing out that the time to teach hand and brain to work together is in early youth, and that if the question of retention of technical studies were put before the children themselves they would be unanimous in favor of continuance. "It is the adult who to-day sits on the brake of progress," he said. Interest Brings Success. H. E. Hallwright, Supervisor of School Gardens, appealed for reason in criticism of the work being done. He pointed out that it was impossible to attain success at those schools where the parents were not supporting the work. He submitted the results attained at Keating, Craigflower and North Dairy School as fair examples of what can be done when support to the work is given by the parents. "At none of those schools would the parents interested be pleased if the courses were abandoned, they have seen real benefits come through the gardens." John Brydon urged that support be given to Clarence Oldfield because, as the candidate of the Central Ratepayers' Association, he was an advocate of the concentration of all resources on the provision of more school accommodation. He claimed that until Saanich had more schools it could not afford the "frill" studies, and cited Tillicum school as a case of unhealthy congestion. He claimed that the farmer's element of the population was paying a large contribution towards the provisions of schools for the close in wards, and their point of view should be given consideration. This remark brought a storm of comment from all parts of the room the burden of the many voices being that the close in wards had paid for the farmers' fine hard highways and now the farmers were expected to keep their hands off the education of the children. Mr. Cheatham said that too much theory was the trouble with the present day educational plan and the technical courses prevented concentration by the pupils on the ordinary subjects. James Dakers said that he was heartily in support of Mr. Tait, as technical training was of great value to the coming workers of the country. Says Value is Proven. Principal Leonard Tait said: "I have had a long experience in the teaching profession, and I note that the successful boy in other studies is the lad who has been interested in manual training. In the same way the high mark girls are those who are domestic science pupils. Don't talk of the expense of educating children. Children are the land's one great asset." Trustee H. M. Dignon gave figures as to the exact cost of school gardening and characterized the campaign as a "storm in a teacup." He agreed with Mr. Brydon that the examination failures might well be due to overcrowding in the schools, and

FEAR MILITARISM IN PUBLIC SCHOOLS

Labor Council Objects To Saluting and Handling Of Rifles. Fear that the spirit of militarism is being inculcated in the minds of Victoria boys through the military training which they are forced to undergo in the public schools was expressed by delegates at the Trades and Labor Council meeting last night. A big majority of the Council members present appeared to agree that this training should be abolished from the curriculum of British Columbia schools, and they appointed a committee to investigate the whole thing and see what could be done. "Children go to school not to learn military matters," one delegate declared, "but to learn something that will be some use to them in after life, both commercially and morally. It's getting beyond a joke when children of twelve and thirteen are taught to salute and handle a rifle. It's time enough to learn how to handle rifles when it's necessary. I would like to see this Council protest against this matter." "We are ill-informed as to the extent of military training in the schools," warned Secretary E. S. Woodward, who urged the Council to go slow until it could investigate the matter. "If it can be proved that military training is taught extensively we could do something. I don't like, however, to pass censure on public bodies without adequate information. It can be shown that there is military training in the schools you will find me as strong as an opponent of it as any delegate can possibly be." Delegate No. 1, however, thought that it was far better for the children to undergo military training at school than for Canada to maintain a standing army. "Ernest Stevens pointed out that the Council could not expect to get the curriculum of British Columbia schools changed in a day. It might require the labor of years, and probably would entail action by the next session of the Legislature." Finally Delegates Ready, Bourne, and Caldwell were appointed a committee to interview the School Board on the question and report back to the Council later.

WESTERN PUBLISHER HERE

E. P. Adler, President of Lee Newspaper Syndicate, on Visit. E. P. Adler, president of the Lee Newspaper Syndicate, of Davenport, Iowa, was in the city yesterday, leaving on the afternoon boat for Seattle. Mr. Adler's syndicate controls six newspapers, distributed in the states, and he personally superintends The Davenport Times. Situated at a strategic point in the midst of a rich country, and having important manufacturing interests, his city is making steady progress in industries. He stated to The Times that after a tour of Western Canada he was greatly impressed with the magnificent opportunities which are available for population, and for the utilization of the pulp, water power and mining resources of British Columbia. The grandeur of the Rockies impressed him when he stayed at Lake Louise and Banff, and thence he came on to the Coast, arriving in Victoria on Tuesday.
