MANSON REFORMS POLICE FOR DEATH WAR ON RUM MEN Vigorous Onslaught Planned on Whisky Runners and Other Bootleggers

Police Heads From All B. C. Summoned Here for Conferences Complete re-organization of the Provincial police is being worked out at police headquarters here by Col. J. H. McMullin, new head of the force, and Attorney-General Manson, in order to make the force a more vigorous instrument for enforcing the laws throughout the Province.

Police heads from the four police districts of the Province have been summoned to Victoria, and are attending the conference. Attorney-General Manson has been planning changes in the force for some time in order to bring it up to scratch. Col. McMullin assumed charge of the force on April 1 and since then has been making a survey of the situation with a view to working out the changes with the Attorney-General.

GREATEST TOURIST SEASON STARTING

Shipman living in California. Both plan to bring their motors up here "to do this island." "So far as California is concerned, the special railway rates of last year will be in effect this year," Mr. Cuthbert went on. "The improvement in the size and accommodation of steamship travel up the Coast and the near completion of the Pacific Highway of 1660 miles with less than 200 miles unopened, means that the people of California, who are better off than the people of any other state to-day, will follow the lines of least resistance and come to the Northwest."

Mr. Cuthbert pointed out that with the isolation from the Mainland removed by the system of ferries now being established, Vancouver Island will get a great bulk of the tourists who have once come to this part of the Coast, will want to see the best part of it before they leave, and will thus come across to the Island.

It all started right here in this city," Mr. Cuthbert went on. "The 'only-thing-lacking-and-it-is-the-biggest-thing-left-uncompleted-to-cinch-tourist-travel-Over-B.C.-is-the-completion-of-the-transcontinental-highway-through-B.C.' The Banff-Windermere highway is going to be one of the biggest money makers for B. C. the Province ever had. If people could return through the Rockies to Vancouver, it is reasonable to assume that B. C. would be one of the greatest auto touring countries in the world and the amount of money left here would be far greater than anyone has any conception of at present."

TWO MEN WERE KILLED BY MINER IN OHIO TOWN

Pomeroy, Ohio, May 9.—J. E. Miller, aged 33, a coal miner, to-day shot and killed Edward Arnold and A. W. Swiner at his home here. Miller told police that Arnold and Swiner were West Virginia non-union miners who had attempted to duct him and take him back to West Virginia, where he formerly worked. Miller is a union man.

Votes may be obtained from institute officers and members of the committee. Each 10c ticket is good for ten votes and may be sold to anyone whether resident in the district or not.

WOMAN ACCUSED OF SUGAR FRAUDS

Court Refuses United States Government's Application Next Step Appeal to U. S. Supreme Court

New York, May 9.—Federal Judge Mayer announced this afternoon that the government's application for an injunction to restrain the New York Coffee and Sugar Exchange and the New York Coffee and Sugar Association from dealing in sugar futures has been denied.

From the nature of the proceedings it would be possible to take the case to the highest court without passing through the Court of Appeal. In addition, the Supreme Court may expedite its consideration of the appeal, as a decision one way or the other can be obtained without delay.

ACCUSED WOMAN FAILED TO ESCAPE Clara Phillips Held in Honduras for Los Angeles Authorities

Tegucigalpa, Honduras, May 9.—Photographs of Clara Phillips, the "blonde murderer," which were brought here from Los Angeles, show a marked resemblance to the woman held here as Mrs. Phillips. In addition, both the blouse and large scarf worn this morning by the prisoner are apparently identical with those depicted in the photographs taken in California.

### MINIMUM WHEAT PRICE PLAN URGED

Winnipeg, May 9.—Representation will be made to the Federal Government next week to take immediate action to bring into force the resolution introduced by the Manitoba Legislature urging a minimum price on wheat based on the actual cost of production by A. R. Bolvin, Progressive M. P. for Iversville. Mr. Bolvin will leave next Thursday for the East, and will meet the Progressive, Liberal and Conservative parties and

outline his scheme for fixing the minimum price on wheat. Wide support, it is claimed, has been given the plan both in Canada and the United States.

### MOVIE STARS GET \$350,000 A PICTURE

From \$100,000 Up to That Sum, Says Producer

### Federal Trade Commission Hearing in New York

New York, May 9.—Well-known motion picture stars receive from \$100,000 to \$350,000 for each picture they work in, it was revealed yesterday by John D. Williams, organizer of the First National Exhibitors' Circuit, Inc., who testified at the Federal Trade Commission hearing as to whether the Famous Players-Lasky Corporation and its subsidiaries constitute a trust. Williams told of the salaries paid the stars after his testimony that the Famous Players had controlled sixty per cent. of the leading film men and women in 1915 was challenged.

Charlie Chaplin, he said, had received \$1,000,000 in 1917 to produce eight pictures, while between 1917 and 1918 Mary Pickford had received \$250,000 for each of three pictures.

Norma Talmadge, he said, first received \$150,000 each with a share in the profits of eight pictures, and later had been engaged at \$350,000 for each of twelve more pictures.

Constance Talmadge had appeared first in twelve pictures at \$110,000 each, and later received \$150,000 each for a second dozen.

Katherine McDonald had received \$600,000 for six pictures.

Thousands of dollars, Williams said, had been paid to the stars before work on the picture began, and in instances, in addition to their salaries, they had received a share of the profits and even higher salaries for renewals of contracts. Some received as high as \$50,000 bonus for signing contracts, he said.

### NEW BRUNSWICK RAILWAYS COMING BACK TO NORMAL

### I. PITBLADO, K. C., HANDLES MANITOBA'S FREIGHT RATE CASE

Winnipeg, May 9.—Isaac Pitblado, K. C., will represent the Province of Manitoba at the hearing of the British Columbia freight rate appeal against the decision of the Board of Railway Commissioners when it comes up before the General-Council shortly. Hon. E. W. Craig, K. C., Attorney-General, announced.

Mr. Pitblado, who has been connected with former freight rates investigations, will not oppose actively the British Columbia appeal unless it is seen that the effect of the appeal will be detrimental to Manitoba's best interests.

### DR. V. DOLMAGE WILL DIRECT COAST GEOLOGICAL SURVEY

### D. MACKINNON NOT TO GO TO THE U.S.

But Will Advise Australian Government on Trade Matters

London, May 9.—Donald Mackinnon, according to a dispatch to The London Times from Melbourne, said yesterday he had not been appointed Australian Trade Commissioner to the United States, although he would advise the Government on matters concerning trade.

A dispatch from Perth, Australia, Monday night, said Premier Bruce had announced the appointment of Mr. Mackinnon, former Attorney-General, as Australian Commissioner to the United States.

### COAST ROUTE FOR PRAIRIE GRAIN URGED AT OTTAWA

Ottawa, May 9.—A delegation from Edmonton waited upon the Dominion Government yesterday and urged the section of interior storage, cleaning and hospital elevators at Edmonton. The deputation, led by J. M. Imrie, managing director of The Edmonton Journal, was received by the Prime Minister, Hon. Charles Stewart, Hon. J. A. Robb, Hon. G. P. Graham and Hon. W. R. Motherwell.

After discussing the matter the Premier announced that the Government had already asked the Board of Grain Commissioners to prepare at once a full report on the question of the proposed elevators.

The delegation, in a memorandum presented to the Government, claimed that although last year's crop had been the greatest in its history, the prairies, after selling the crop found themselves worse off financially than a year before. Congestion of east-bound routes was a condition which was seriously interfering with the farmers' prosperity, it was asserted. To remedy this, the delegation urged the importance of the development of the alternative grain outlet via the Pacific Coast ports, with the erection of storage, cleaning and hospital elevators situated so as to be interior reservoirs for westbound traffic. This would relieve the pressure upon the farmers for immediate threshing and admit of spreading the flow of Canadian wheat over a longer period to the world's markets. Alberta would be directly tributary to developed Pacific Coast route, it was held. Under existing rail rates the breaking point was about the centre of Saskatchewan. This would mean that approximately 100,000,000 bushels of wheat could be moved to Liverpool more economically via the Pacific than the Atlantic. Only dry grain could be handled via the Panama, and it was asserted that grain could be kept in a dry condition for an indefinite period in the high altitude at Edmonton.

### PORT DEVELOPMENT PLANS AT SEATTLE

Voters Authorize Purchase of Skinner & Eddy Shipyard

Seattle, May 9.—Voters of King County yesterday authorized the purchase of the site of the Skinner & Eddy war-time shipyard for public port development. With permission to transfer \$550,000 of bonds issued for another improvement to this project. Apparently refused, the full returns were awaited from all precincts in King County, which is co-extensive with the Seattle port district.

The proposal to issue \$750,000 in bonds for new school buildings was lost, but a three-mill extra levy for this purpose was granted.

A bond issue of \$500,000 to build a bridge across the Lake Washington Canal was apparently authorized by a narrow margin.

Councilman Oliver T. Erickson, with 21,067 votes, Philip Tindall 19,388, and Robert H. Hesketh, 18,887, were re-elected to the City Council. W. S. Lincoln was re-elected to the Port Commission with more than half the total vote cast for five candidates and with more than 14,900 lead over his nearest competitor. For the School Board, E. B. Holmes, 19,791, and O. B. Thorgrimson, 13,346, were elected.

### BANKING CHANGES DECLARED NEEDED

Commons Committee Hears President of Labor Congress

Ottawa, May 9.—(Canadian Press)—"There is a growing belief that the present financial system does not function for the benefit of the masses, but that it is enabling small groups to obtain a strangle hold on the nation and that we are faced with the need of immediate and radical changes," declared Tom Moore, president of the Dominion Trades and Labor Congress, before the Commons Committee on Banking and Currency yesterday.

Mr. Moore said he did not speak as an expert, but with "the desire to transmit expressions of opinion that are heard daily throughout this country."

"Credits," proceeded Mr. Moore, "are the weapons used by banks to the general detriment of the people generally. It has been said at times by employers that the banks have exercised their authority through the general use of credits. Tom Moore said that industrial policies and their lack of knowledge of the conditions facing the actual employers has at times precipitated strikes."

"Whatever truth there may be for this broad assertion," Mr. Moore added, "it is a known fact that many firms, who have been often in commencing or carrying on industrial disputes have been those most dependent upon the banks. Credits are refused to finance disbursements of stocks at lower prices. In brief, credit manipulations and deflations are mostly responsible for our large losses through unemployment. Work is to be done; machinery and material are on hand; workers are waiting in semi-starvation for the opportunity to do this work; in despair are leaving the country. Thousands more in Great Britain and Europe are anxious to come to Canada and help in its building up. The only thing preventing development and perpetuating this apparently insane condition, so we are told, is the need for money credits."

Nurses Not Paid. Mr. Moore cited the situation "in a certain Northern Ontario town" as an illustration of the "chaotic conditions" brought about by refusal of credits. "This town," he said, "has met with two great disasters and now is suffering from a grave epidemic. No further credits can be got from the banks, with the result that nurses cannot be paid."

### PLANS TO EXPEDITE LEGISLATORS' WORK

Committees of House of Commons and Senate to Meet

Ottawa, May 9.—The Senate has appointed a committee to confer with the committee of the House of Commons, to the best means of expediting information and assistance in the consideration thereof at all stages of legislation in both Houses of Parliament.

GOING AFTER THE SETTLER.

British Columbians interested in getting more settlers into this Province will have learned with satisfaction that it is the intention of the provincial authorities to send a qualified representative to the Old Country to get into touch with the right sort of people.

It has naturally taken a very considerable amount of time and thought to bring arrangements into practical shape. It was necessary to be assured of co-operation from the Imperial Government, as well as the Federal authorities at Ottawa, before an active start could be made.

Major Clark's experience in British Columbia, as a practical farmer in all its branches as well as in an administrative capacity in the soldier settlement branch of the provincial Government, amply equips him for the important task which has now been entrusted to him.

On the other hand we take it that the Province intends to let all healthy and loyal people know that British Columbia offers them a living and the hope of independence if they are prepared to come here and work.

THE RIGHT SPIRIT.

Yesterday's visit of our neighbors from the State of Washington was a happy event in itself and a promising augury for the many invasions that are to take place during the coming months.

We can echo the sentiments which Senator Wells expressed at the Chamber of Commerce luncheon. They are good antidotes to the somewhat melancholy findings of the Sulgrave Institute.

As we have previously observed it is the personal touch between the British and American peoples, made possible by such visits as that of yesterday, that is going to improve an already very friendly understanding on both sides of the Atlantic.

THE COMBINES BILL.

Only political strawplitters who are suffering from an exaggerated attack of industrial nervousness, or those who contemplate wrong doing, will find anything to worry them in the Combines measure which passed its second reading by such a substantial majority in the House of Commons yesterday.

On the other hand the people of this country have a pretty good idea that there have existed and may still exist certain industrial and commercial combinations that do not hesitate to use their power when it suits them best.

RUSSIA MUST BEHAVE.

Great Britain gave Soviet Russia an excellent opportunity to demonstrate her good faith and do business on decent lines. Representatives of the two countries entered into a trade agreement.

Quite a large section of the public press of Britain and throughout the Empire discouraged any sort of intercourse with Russia. To all of these objections a more moderate element, more versed in cold commerce than swayed by international sentiment and prejudice, replied that as long as Europe ignored the existence of more than 150,000,000 people the gap in the Old World's economic edifice would not be closed.

The course which the British Government has just decided upon is that it would prefer to ignore economic considerations than have to plead guilty to doing business with any nation which can commit official murder under the guise of justice.

Meanwhile the authorities at Moscow, with a series of confessions of Communism's failure fresh in the public mind, must decide between a decent recognition of international usage and a course that will not only dethrone themselves at no very distant date, but hasten the day when Russia will be even less necessary to the world at large than she may be to-day.

LET ESQUIMALT DECIDE.

If it shall be determined by the people of Esquimalt, in any manner considered reasonably expressive of popular sentiment, that there is no necessity for the establishment of a liquor store in the Township, it can be assumed without hesitation that neither the Liquor Control Board nor the Government would dream of acting contrary to such expressed wish.

When the present Attorney-General assumed office he made it perfectly plain that the curtailment or expansion of the business of this branch of the public service should be responsive to the expressed will of the people. It may be argued that the provisions of the Act oblige the Government to furnish reasonable opportunity for the people to satisfy their desires; conversely it may also be argued that there is no authority for littering the Province with unnecessary and unwanted vending establishments.

Mr. Manson will not go wrong in allowing Esquimalt—or any other community within range of reasonable facility—to express itself by straw vote upon this particular phase of the law's privileges as long as the spirit of popular instruction, as expressed in 1920, shall not be challenged.

NOTE AND COMMENT

According to the Medical Officer of Health at Manchester the first shipment of Canadian cattle to reach Britain under the new arrangement was "very healthy." Strangely enough we in Canada have had no fault to find with our sirloin steak for many a day.

Those Chinese bandits may get their two millions of Mexican dollars in this case; but they can thank their lucky stars if they are at liberty long enough to spend it all. Some very definite concerted action may be expected as a consequence of the daring incident which is now interesting the world.

Some of the Labor-Socialist members of the Leeds City Council refuse to have anything to do with the ceremonies that have been arranged for the forthcoming visit of the Prince of Wales. They would feel foolish if H. R. H. got their addresses and called upon them in person. A little thing like that would not worry him very much.

Apparently the French Chamber of Deputies is quite satisfied with the situation in the Ruhr. Premier Poincare refused to make a statement on foreign policy yesterday and asked that the Ruhr debate be postponed indefinitely. The issue was made a question of confidence and the Chamber approved the Premier's stand by a vote of 498 to 78.

OUR CONTEMPORARIES

POORLY DEVELOPED. Vancouver Province.—There does not appear to be anything positive about Conan Doyle's spook negatives.

WHO IS HE? Toronto Globe.—The assertion that a Canadian banker, whose identity is not disclosed, is one of the men responsible for unwarranted advances in the price of sugar in the United States should be denied at once if denial is possible. We in Canada would object most strenuously to the manipulation of the prices of food-stuffs by foreign bankers and speculators.

To the Editor.—Will you be kind enough to allow me, through the medium of your columns, to make another appeal to our residents to join the carnival crowd in the pleasant take place 11 a. m. on May 25th, at Beacon Hill Park.

I already have two hundred of the singers of Victoria and hope for more. The cast consists of the best talent in the city, but we are very short of people who will wear fancy dress, attend two rehearsals, and form the picture of the entertainment. Time is passing so fast and I trust that many will now send in to me their names and addresses as well as to take part, so that we may have an entertainment worthy of the occasion.

HOUSE APPROVED COMBINES BILL

Majority of 117 in Commons Largest of This Session

Means of Letting in Light, Said Premier King

Ottawa, May 8.—By a majority of 117, the largest Government majority of the session, the House last night gave second reading to the Combines Bill. The division came after two full days of debate. In the vote, all Liberals and all Progressives voted for the bill.

Premier King, in his speech, declared the legislation would provide a means of "letting light into the dark recesses of business." Once the public knew the facts, it could, through Parliament and other means, apply the remedy.

MURDOCK SPOKE

Hon. James Murdock, Minister of Labor, said the provisions of the Criminal Code designed to prevent conspiracy in restraint of trade had been useless, since the late Government had taken care to make the Combines Investigation Act inoperative. He agreed with Hon. H. H. Stevens that the great majority of combinations were in the public interest, but he quoted a remark of that member at the cost of sipping investigation before a committee of the House some four years ago.

Turning to the Opposition leader, Mr. Murdock quoted his explanation of the nature of a combine under the act establishing the Board of Commerce as being such as were "operating or likely to operate to the detriment of the public consumers, producers or others." This, he remarked, was the origin of the definition of a combine in the bill now before the House.

IN 1920.

After dealing with newspaper paper situation early in 1920, when, under Fort Frances, Ont., was forbidden to ship paper out of Canada, was soon permitted to resume exports to the United States. Mr. Murdock said Mr. Meighen seemed to have overlooked entirely the fact that the case had been tried and the verdict rendered in respect to the alleged and the camouflaged pretense of a combines investigation act for the protection of consumers, producers and others by the late Government. The verdict of the people of Canada had been rendered upon that subject, he said.

MACLEAN'S PROPOSALS.

There was passing reference to a sugar combine in the Progressive speech. W. F. Maclean, Conservative, South York, urged that those behind the alleged combine in Montreal be notified that if they had not afforded relief by Friday, the tariff would be cut. If that did no good, he would have the Royal Bank and the Bank of Nova Scotia, which he said were behind the sugar trust, facilities for rediscout would be taken away. Finally if nothing still were done, Mr. Maclean would have the Manufacturers' Association informed that the tariff on other items would be reduced.

Mr. Maclean said there were 600,000 women of the country watching what the Government was going to do. He did not believe in taking the sugar dealers to the courts. His fifty years of public life had told him that the courts' efforts ended nowhere.

Participation in attempted sugar combines had raised more capitalists in this country than almost any other organization, he said. The House had heard much about shipping combines which were treating the farmers of this country infamously in regard to freight rates. These combines must use the canals, which were public property. If they refused to cease operating against the public welfare, the Government should refuse them the use of the canals.

Forke's Views. Robert Forke, leader of the Progressives, said he had been a little astonished by the remarks of some Liberal members who had "opinioned with faint praise" the proposed legislation.

Mr. Forke did not agree with J. S. Woodsworth that the combines were a move toward Socialism. The idea, said Mr. Forke, did not fit in with Anglo-Saxon beliefs that each man should own the only property he did not think that Socialism would ever find a resting place here. Much had been said about an alleged newspaper monopoly. A monopoly of this nature was one of the most dangerous that could possibly exist in a civilized country. Newspapers were the only means of informing the people of developments and a dependable press was necessary to the country. Mr. Forke referred to the plank in the Progressive platform requiring the publication of names of those who owned and controlled stock in newspapers. This, he said, would show who was

In Right Direction. The present bill was a move in the right direction. Mr. Forke believed in the proper direction. Canada's economic and industrial life was honeycombed with combines and rings of all sorts, he said. Canada had weapons with which to fight the monopolists and combiners, declared Mr. McMaster. We controlled our own ports and harbors and could refuse to allow goods to move in or out of the country.

(Concluded on page 17.)

Control of Ports. A. R. McMaster, Liberal, Bronte, Que., was also in favor of the bill as it was in the proper direction. Canada's economic and industrial life was honeycombed with combines and rings of all sorts, he said. Canada had weapons with which to fight the monopolists and combiners, declared Mr. McMaster. ## MEN AND HORSES

How closely related is man to the more intelligent of the animals is seen in many of the ailments to which both are prone and the remedies to which they answer.

Doctors and veterinarians are oftentimes surprised to learn of the similarity of their methods of handling the ailments of man and beast.

Sprains, burns, scalds, scratches and many other minor injuries, many everyday ailments, too in men and animals take the same course, and both answer immediately to the same treatment—Absorbine Jr.

Absorbine was first discovered by a very close student of the horse, W. F. Young, and by him, devoted to its cause. Its very exceptional benefits, however, were promptly seized upon for the human race and, in a milder form, the preparation is sold all over the continent today as Absorbine Jr. It is used for men, women and children everywhere as a positive germicide—a germ killer—and a prompt and certain healer of all hurts. It is useful not only for all the purposes served by ordinary liniments and embrocations, but as a mouth-wash and for anything else where a germicide is needed. Don't wait until you need it. Get it in the house today. \$1.25 at your druggist's.

## South American Notes

By Arthur Floyd, Formerly of This City.

Perhaps there is no part of the world of more interest to North Americans as is the great continent of South America, with its vast fertile plains and great and beautiful cities. The first place encountered on a trip from New York to South America is Pernambuco, Brazil, a colorful city in line with the equator, but made tolerably healthy by fresh winds from the South Atlantic. Here one can buy parrots and macaws of all the colors of the rainbow for 2 milreis (about 30 cents). Just south of Pernambuco is Bahia, an important cigar centre and port for the export of crude rubber. Enroute south before reaching

Belra Mar being glorious thoroughfares with fine trees four rows deep, and at night lighted as no other street in the world, with the exception of New York's Broadway. The exhibition is a very fine one, commemorating the Centennial of Brazil's freedom from the Portuguese yoke, but is not a success in a financial sense. Canada is not represented, but Great Britain, France, Italy and the United States, have fine pavilions. A Canadian Company owns the street car system in Rio and the service is excellent, and the fares cheap. Continuing south the city of Montevideo, Uruguay, charms the stranger as he enters the

with fine gardens and drives and numerous fountains and lakes a feature being a large rose garden with perlas for decorating. Buenos Aires has 12 daily newspapers, including two in English, the Herald and the Standard, and the cable service and news is excellent.

"La Prensa" is one of the finest newspapers on the American continent, having a most modern mechanical plant, with 23 linotypes and two octuple, two sectuple and two small presses and the circulation of over 200,000 can be run off in an hour. The building of "La Prensa" has concert hall and music rooms, numerous baths for the editors and reporters, a fencing room, also a cafe and bar for the use of the use of the paper's employees. The whole building is a revelation to one from the North. "La Prensa" has the greatest ornament to the newspaper profession and the graphic arts to be seen everywhere. South

## AMONG SOUTH AMERICANS

VIEW OF RIO DE JANEIRO, OVERLOOKING CITY

Rio de Janeiro, the mouth of the Amazon is passed and the fresh water from this, the world's largest river, bows out to sea as far as 500 miles and the ocean has a different appearance as a result.

**Brazil's Capital.** The next stopping place is Rio de Janeiro, the world's most beautiful city, with a harbor second to none for grandeur. The entrance to city of Rio is a sight that beggars description, and all sides are mountains covered with exotic growth and palm trees, and huge rock formations, like the Sugar Loaf and the far-famed Corcovado. There is nothing mean or commercial about the harbor at Rio until the docks are reached. The city has backed up the natural beauty of Brazil's metropolis and has laid out magnificent avenues and boulevards, the Avenida Rio Branca and the Avenida

breakwater at the mouth of the Rio Plata.

**Montevideo.** Montevideo is a clean, well-built city of about 400,000, with warm fine piazzas and buildings and some fine seaside resorts, reminding one of the European beaches at Deauville, France, and others at Brighton, England, and the system of bathing is from a little house on wheels, which is dragged to the water by horses as in the Old Country. Across the Rio Plata, and a night's ride on a steamer just like the Princess Charlotte of the C.P.R., is the wonderful city of Buenos Aires, Argentina's metropolis and the second largest Latin city in the world, with a population of nearly 2,000,000, with a subway and all the airs of a great city, and perhaps boasting the finest park in the world called Palermo, a huge open space

America is undoubtedly the most fascinating place for the traveler in search for something new.

## OFFICERS ELECTED FOR ENSUING YEAR

### Metropolitan Young People's Forum Commences New Church Year

The annual election of officers, and the commencement of a new church year were the features of the meeting of the Metropolitan Young People's Forum. There was a large attendance of members and friends, and an encouraging increase in the membership was noticeable. Rev. Dr. Sippell took over the meeting for a short period, and conducted a reception service for some twenty new members who were welcomed. Others unable to be present will be received at an early meeting, with any who may subsequently wish to join.

Much enthusiasm and earnestness of purpose was in evidence at the meeting. A ten-minute song and prayer service led by Ernest Wilderspin opened the meeting. Appreciation for the loyalty of the Young People of the organization during the last year was expressed by Mr. Wilderspin, who is president of the organization.

The treasurer's report showed an increase of 50 per cent. in the society's contributions to missions over the amount given the previous year. A balance of funds with which to start the new church year was also shown.

The election of officers concluded the meeting. Much interest was shown in the balloting, the following officers being elected: E. C. Wilderspin, re-elected; vice-president, Norman Redman; secretary, Miss Mary McFadden, re-elected; treasurer, Miss Mae Lewis, re-elected; pianist, Mrs. E. C. Wilderspin, re-elected; historian, P. C. Richards. Committees conveners: Devotional, Miss A. Carbut, re-elected; missionary, Miss E. Middleton, re-elected; literary, Wm. H. Gropp, re-elected; social, Miss B. Schofield; membership, Miss N. Hudson. There will be a meeting of the old and new executive on Friday night at 8 o'clock in the lecture room of the church.

## MINING NEWS AND NOTES

**Outside Group.** The property near Maple Bay, Portland Canal, known as the Outside Group, on which the Granby Company has been pushing development work for the past five months, will soon become a factor in the operation of the big company. Last week a force of men was dispatched from Anxox to prepare a camp at the beach, and this week the pile driver and crew is being sent around to construct a dock. The aerial tramway will be repaired and put in first class shape as quickly as possible, and from all present indications shipment from this point to the local smelter should begin by October 1. The Outside Group was last operated by the Brown-Alaska Company, in 1906, when it was the source of silicious ore for the smelter at Hedley, Alaska. It has been considered by the Granby Company as primarily a flux property, but recent developments have given some cause to hope that it may later produce ore of a good enough grade to be self-supporting as a producing mine. Palmer J. Cook, who has been in the employ of the Granby Company for a number of years, and recently in charge of the Midas Mine at Valdez, Alaska, a Granby property, will be in charge of the operations at Maple Bay, and is now at that point.

### Municipality Aided by Organizations Will Make Unprecedented Showing

Esquimalt will have four or five floats in the Maytime Frolic if the wishes of delegates to a mass meeting held in the Municipal Hall last night are carried through to fruition. The gathering was called by the Reeve and Council and met with a generous response.

Delegates were present from the School Board, Women's Institute, Child Hygiene Council, Parent-Teacher Association, Ladies' Guild of the Sailors' Club, Scottish Daughters,

and other bodies. Reeve Alexander Lockley was voted to the chair, and Municipal Clerk, G. H. Pullen made secretary. Tentative plans were discussed with considerable enthusiasm, and all agreed that Esquimalt this year should avail herself of the unique advantages of history and position to an outstanding showing in the Maytime Frolic. To be represented and well represented was the best of good business, it was decided.

As delegates from the various organizations were not empowered to act in money matters a further meeting has been called for May 11 when final plans will be drawn up. The School Board has already opened the ball with a donation of \$30.

## "Most of my patients are slowly poisoning themselves"

A prominent physician was speaking. "It is always amazing to me," he said, "to discover how many of my patients are slowly poisoning themselves with constipation—people who never realize that they are constipated at all."

Everyone knows that the "waste" which clogs the intestines must be removed regularly. If not—it begins to generate deadly poisons that escape into the blood and flood your whole system.

Yet nowadays there are fewer and fewer people who do not suffer from constipation. Our concentrated modern diet lets the intestinal muscles get soft and flabby. They fail to remove the waste completely—a poisonous residue is left in the intestines. Then, little by little, we begin to suffer from all the ills of constipation—premature age, loss of appetite and vitality, skin disorders, indigestion, etc.

Restoring thousands of sufferers to perfect normal health

Medical science knows that drugs and cathartics are useless in getting rid of the trouble—indeed, they actually weaken the intestinal muscles and make matters worse.

That is why so many physicians and hospitals are prescribing Fleischmann's Yeast today. Every cake consists of millions of tiny living plants, which soften and increase

the bulk of the waste matter, and gently encourage even the weakest muscles to act. Every such action gives the muscles normal, natural exercise—something that violent cathartics and purges can never do—and so gradually trains them back to a healthy, active state.

Hundreds of thousands of men and women are finding in Fleischmann's Yeast the key to freedom from all the evils of constipation. They are learning that a body freed from poisons means such health and vigor as they have never known.

Be sure you get Fleischmann's Yeast—yeast in its natural fresh form. Recent experiments have shown that yeast corrects constipation only when its cells are alive and active, and that it loses its laxative effect when these cells are "killed" and dried.

Fleischmann's Yeast, like any other food must be eaten regularly, to secure results. Eat two or three cakes a day—plain, or dissolved in water, milk or fruit juices—preferably half an hour before a meal, or at the last thing at night. Get several cakes at a time—they will keep several days in a cool, dry place. Be sure you get Fleischmann's Yeast! All grocers have it.

Send for free booklet, "The New Found Value of Fleischmann's Yeast in Building Health." The Fleischmann's Company, 1186 Burrard Street, Vancouver, B. C.

## DOMINION W. M. S. HEAD TENDERED RECEPTION

Mrs. W. J. Pendry entertained at a largely attended reception at her home on Belleville Street yesterday afternoon in honor of Mrs. Lavell, wife of Judge Lavell, of Kingston, Ontario, president of the Women's Missionary Society of the Methodist Church for the Dominion of Canada. Representatives of all the W.M.S. of the district were among the guests, as well as other interested friends.

Mrs. Spencer and Mrs. Miller presided over the tea table with its dainty decorations of purple violets and yellow tulips. During the afternoon Mrs. Downard, Mrs. Lewtas, Mrs. Morton and Miss Morton contributed musical numbers. Mrs. Lavell addressed the meeting on the work of the society and briefly reviewed the recent international conference on missions held at Bethlehem, New York.

At the conclusion of her address Mrs. Lavell was tendered a vote of the bill before the House. Sent with a bouquet of roses by little Miss Pendry.

## V. O. NURSES BUSY

Cases Nursed in April Numbered 131; To Participate in May 24 Parade

A full complement of members was present at the monthly meeting of the Victoria branch of the V. O. N. held yesterday afternoon in the headquarters, 115 Collinson Street. A standing vote of sympathy was passed to the family of the late Mrs. Hardie, who had for long been a valued member of this committee.

Plans were discussed for the tag day on June 2, also the decorations for the float representing the V. O. N. to take part in the May 24 parade. The head nurse in her report stated that the total cases nursed last month were 131; total number of visits paid, 817, of which 469 were nursing visits; 249 paid for by the Metropolitan Insurance Co.; visits to infants, 82; child welfare, 152.

A short vacation after graduating from Oregon Agricultural College, where he majored in horticulture and minored in journalism. While at college he was prominent in student activities, being day editor of The Barometer, College Daily, assistant editor of The Oregon Countryman, special feature writer for The Beaver, college annual, and chairman of the senior class publicity committee. He was honored in his junior year by election to two national honorary college fraternities, Sigma Welta Chi, National Journalism, and Alpha Zeta National Honorary Agricultural Fraternity. He was also instructor in the Department of English.

Mr. de Macedo is a member of the Pi Happa Alpha, National Social Fraternity, and was accompanist of the college glee club on its recent Western Washington tour. Mr. de Macedo has left Victoria to take up a temporary appointment under investigation of plant diseases for the United States Government, and his headquarters are at Corvallis, Oregon.

At her home on Suttell Street, Miss Olive Scaplen entertained last evening at a miscellaneous linen shower in honor of Miss Helen Johnston, a popular bride-elect. The pleasure of the evening was enhanced by the vocal and instrumental selections given by Miss Vivian Moggey and Miss Marjorie Broley respectively.

The numerous pretty gifts were concealed in "Jack Horner Pie" of rose petals. Among those present were Miss Helen Johnston, Mrs. Walter Hall, Miss Vivian Moggey, Miss Marjorie Broley, Mrs. Tuthill, Mrs. W. Dinmore, Mrs. Johnston, Miss Richardson, of Vancouver; Miss Vera Casey, Miss Bessie Middleton, Miss Mabel Edgar, Miss Florence McMillan, Miss Mamie McMillan, Miss Dorothy Bellby, Miss Lillian Manford, the Misses Melita and Muriel Wilson, Jean and Janet McEwan, Miss Teresa Dorrill, Miss Dorritt Pullen, Miss Elsie Scott, Miss Margaret McMillan, Miss Connie Williams, Miss Dot Hindeil, Miss Helen Elliott, and Miss Bessie Graham.

## ESQUIMALT W. I. TO ENTER MAY PARADE

Conveners Also Elected for Big Exhibition in August

As earnest of its interest in the welfare of crippled children, the Esquimalt Women's Institute at its meeting last evening received with approval a request from the Central Women's Institute of Vancouver asking for assistance for certain cases, and at once voted \$25 for this purpose. Reports of the various conveners proved most satisfactory. A delegation appointed to attend the Municipal Council meeting announced that of the four floats which Esquimalt will enter in the May 24 parade, one will be entered by the Women's Institute.

Arrangements were made for the exhibition which the Institute will hold in the canteen grounds on Wednesday, August 15. Conveners were elected as follows: General conveners, Mrs. Booth, Mrs. J. Nicol; home cooking, Mrs. Lockley, Mrs. F. Locke; jams, jellies, pickles, Mrs. C. Sae; adult needlework, Mrs. Holligan; children's needlework, Mrs. Appley; baby show, Mrs. F. Campbell; health exhibit, Mrs. Booth, Mrs. Ricketts, Mrs. J. Bowden; tea, Mrs. Brooker, Mrs. Elton; gate, Mesdames Wilson, James, Ford, Sadler, Brown and Hutchinson.

At the close of the meeting a social was held in honor of Mrs. W. Scott, who will leave shortly for Montreal, and who was presented with a bouquet of pink roses and carnations, which were much enjoyed. Delicious refreshments were served by Mesdames Appley, Brooker, Cave, Davis, Elton, Sadler, Stockley and T. Scott.

## CANADIAN LEGION AUXILIARY

The W. A. to the Canadian Legion held their general meeting last evening, Mrs. Thorpe, the president, being in the chair. Most satisfactory reports were handed in by the various committees, showing that the Auxiliary was alive and is doing good work. Four new members have recently been added to the membership.

**YOUR HOME AND YOU**  
 By HELEN KENDALL  
**The Fadeless Fabric**

Of all the good news for housewives that has percolated through the advertising pages of the newspapers and magazines during the last few months, the most welcome is the announcement of fabrics that will defy the strongest sun and endure the ordeal of the laundry tub without "turning a thread," so to speak.

Each of us heaves a sigh of relief at the tidings. How many times have we uprooted the cushions of our wicker chairs, hung jelly colored curtains at our windows, and prinked our small daughters out in pretty Summer frocks, only to see the color fade out slowly but surely—and not so very slowly at that! By the end of Summer, hangings, cushion covers, and dresses had more the appearance of sickly invalids than anything else.

Then came the turn for the better. At first there was only one fabric that was guaranteed to be sunfast, and that was expensive and appropriate for hangings only. Little by little other materials began to appear on the counters of the shops.

Not very much choice in pattern, perhaps, and only a limited selection in weight. It wasn't what we wanted, but it was all we could get.

But now—oh, joy! Every possible tone and shade of color, in weights varying from the sheerest voile to the heaviest brocade!—and all guaranteed to be sunproof and laundry-fast. If they fade, the manufacturer will not only refund the cost of the material, but pay the cost of making the finished article. Dainty gingham and sturdy linens, fabrics with the finish of poplin, raw silk, and mercerized cottons; beautiful striped silks and brocaded satins for hangings de luxe; heavy fadeless crash for outdoor use—all sorts of beautiful color variations and combinations. So far I have seen no large variety of patterns or all-over figured grounds, and no sunfast chintz or cretonne—but these ideas doubtless follow as the sunproof idea develops.

There are a number of prominent firms making these guaranteed fadeless fabrics. The shops carry different makes of them and the advertising pages call eloquent attention to the trade names. All you have to do is to inquire of the house-decorating and dress goods departments of the material that pleases you, and then start in for a satisfactory Summer with fabrics that keep their color through rain or shine.

## Saanich Classes Receive Instruction in Home Nursing

The above pictures depict phases in the work of public health nursing in Saanich. The two upper groups show the Little Mothers' League classes of Tillicum and Strawberry Vale schools with their instructor, Miss Buckley, school nurse, while in the lower group the South Saanich Women's Institute class is receiving lessons in first-aid, with Miss Ray Chittick, the instructor.

## DOMINION

The story has gone all over Miami, Florida, where Rex Ingram was making his latest production for Metro, "Where the Pavement Ends" now at the Dominion Theatre, of how the young director was canoeing around the studio lot during the flood season when an outside manager of the studio, who had never met him, appeared at the door of one building and shouted: "Hi there, you! I want to go over to the laboratory—quickly!"

The young director, without cracking a smile, paddled over and with his commanding presence headed for the laboratory. On the way the passenger berated Ingram for his clumsy paddling. Once there he bade him wait until he was ready to go back.

All this Rex Ingram, who had been called by Miami as the pioneer of the southern movie industry, who had been feted by the mayor, and the Rotarians, and even approved of by the Ladies Aid, did without protest, and in the end paddled the aggressive manager back to his own apartment.

All Miami knew of it before the manager himself, who, it is rumored, collapsed immediately on hearing of it, and was only saved by a quick summons to the family bootlegger.

"Where the Pavement Ends," a story of the South Seas, was adapted by Rex Ingram from the story by John Russell. Alice Terry and Ramon Navarro have prominent roles in this thrilling screen play, which was photographed by John E. Seitz.

## CAPITOL

Dynamic, dazzling Dean is with us again, and this time Priscilla dances through the sheer artistry of her wonderful technique and not by reason of elaborate costumes or settings. This more one sees of this clever actress the more one appreciates that she is one of the outstanding figures in the world of cinema. There are stars many that depend upon fancy costumes or beautiful faces to "put them over," but few that win out through real dramatic ability and that at the head of the list stands the name of Priscilla Dean.

Miss Dean's latest vehicle at the Capitol Theatre last night, is a Hobart Henley Universal-Jewel adaptation of one of Francis Hodgson Burnett's widely read novels of English life. It tells the story of the English coal fields during the period of 1870 when the landed gentry of England looked upon the slate-pickers, miners and other workers as "less than the dust under their feet."

It was into such a camp that a wealthy young man came to learn the business "from the ground up," perhaps one should say "from the ground down." He was an exception to the general rule of his class in that he looked upon "less than the dust under human beings and his own desire to help them better themselves. Robert Ellis as Joan attracts the attention of the "overman" and centres his efforts on her. His attitude is misconstrued by her fellow workers and she is forced to endure their vulgar jibes. Joan's father is anything but a paragon of virtue. He hates the upper class and this includes the overman who has tried to be his friend. Burnett, master villain, brings to the part of the father all the consummate artistry of his long and varied experience.

It would not be fair to divulge the entire plot, but it is one that is bound to hold any audience spell-bound. There is a scene of a mine fire and disaster that is a masterpiece of realism. Others in the excellent cast are all capable and great credit must be extended to Universal and Director Hobart Henley for this addition to the list of really great cinema plays.

## "THE OLD DUMBELLS"

Victoria theatregoers have been delighted in the past with the Old Dumbells, but never before has this noted organization achieved such a marked success as that accorded "Full O' Pep," their latest and best production, which opened at the Royal Victoria on Monday evening for a three-day engagement and which concludes with a popular matinee on Wednesday, and again to-night at 8:30 sharp.

The old favorites who are so well-known everywhere from coast to coast, all having appeared here on former occasions with "Riff, Bang, Bang," and the "Topsy Turvy" show, include the following stars: "Red" Newman, Arthur Holland, Jimmie Goode, Alan Murray, Jack McLaren, Fred Fenwick, Charlie McLean, Ted Charter, Ivor Ayle, Jerry Brayford, Bill Tennant, Tom Young, Bert Langley, Bob Anderson and Percy Campbell.

Several magnificent concerted numbers are offered in the revue which are entirely new and novel and different from anything ever done by this company. "The Wedding in the Moon," with Arthur Holland, Fred Fenwick and company; "The Ancient Dance" by Bert Langley; "The Hyde Park Girl,"

with Arthur Holland and the boys; and two-temper sketches, "Billet Duet," "Oily Gosh," that's right, Mr. Chaney. Art comes first with us actors," capitulated the five-year-old and pranced away to leave the wolf.

"The Trap" and Stanley's bobbed locks were savored for the public and will be seen at the Columbia Theatre to-day.

## KATHERINE MACDONALD AT ROYAL TO-MORROW IN "WHITE SHOULDERS"

Katherine MacDonald, one of the foremost of screen leading women as well as one of the most beautiful, will open at the Royal Theatre on Thursday for a three day run, as star of "White Shoulders," her newest First National attraction.

"White Shoulders" is an adaptation of George Kibbe Turner's novel of the same name, originally published as a serial in the Saturday Evening Post. Lois Zellner made the screen version with the rare dramatic skill that has characterized her numerous screen roles.

In this new photoplay, Miss MacDonald is supported by a cast of exceptionally able and experienced screen players including Bryant Washburn, Tom Forman, who not only directed the production but also played one of the chief roles as well, Nigel Barrie, little Richard Heald, who played the extra work in "The Child Thou Gavest Me," another First National attraction, Fred Astaire, Charles French, James Harrow, Lincoln Steedman, Lillian Lawrence, and others.

In "White Shoulders" Miss MacDonald is seen as a beautiful young girl whose mother has determined that she shall only marry a rich man, and who, in order to accomplish this matrimonial goal, goes to the extreme of buying her daughter's gowns from a credit house, when there is no adequate home money will be forthcoming to pay for them.

## HAROLD LLOYD COMEDY COMING TO THE DOMINION

For every foot of film that was used in Harold Lloyd's new feature comedy, "Safety Last," virtually nine feet were thrown into the cutting basket. And that just goes to show further the tireless efforts of the popular young comedian in turning out a comedy—a comedy that must satisfy him in every way before he will permit it to leave the studio.

To give a few interesting statistics, "Safety Last," which is unusual in that it is a comedy, was almost six months in the making. During the production the cameraman used a total of 12,660 feet of film, of this amount, 118,978 feet, or approximately twenty-three miles were developed and nearly half were printed. All this means that the seven reels of film seen on the screen were culled from about ten-miles-of film that had been OK'd by Harold Lloyd and his staff.

But there is one thing of the utmost importance. Before Harold Lloyd will permit one of his pictures to be shipped east he has it previewed by about seven different theatres, catering to different types of audiences. He watches the effect. He listens to the criticisms of everyone from the lowest truck driver to the multi-millionaire and the shrewd theatre owner.

While critics have analyzed the success of Harold Lloyd and praised his versatility, his personality and his vision, many of them have missed a big point. There is one dominating factor back of the young comedian's success—he never has been afraid to careen. And now, at the top of his career, he works it harder than ever before to maintain the standard he has set in the past.

When "Safety Last" comes to the Dominion Theatre next week no one will doubt the fact that Harold Lloyd is a glutton for work. Two reels of the offering show Harold climbing the side of a two-story building, and the thrills brought about by the many obstacles he encounters in his dizzy climb surpass anything that has ever been filmed, or anything that will be, for that matter. The picture also has a charming love story, with Mildred Davis, of course, being the girl in the case.

## SMOKE NECESSARY TO GIVE LIFE TO THIS NIGHT LIFE SET

"Don't smoke on this set!" Those who have visited motion picture studios during the making of pictures have seen a sign like this and they have heard the director and his assistant cry with dismay when smoke percolated into the atmosphere before the camera. And many an innocent bystander has been "bawled out" for puffing smoke into a scene. But Edwin Carewe, who directed "Mighty Lak" at the Royal First National release which will be shown at the Royal all next week, changed all that while he was making the underworld dancehall scenes in this picture.

As he got all ready to "shoot" a big scene the actors and actresses, remembering that they were taught not to smoke because it interfered with camera work, stopped puffing.

"What's the matter with the smoke," cried Carewe. "This is an underworld dancehall scene. Did you ever see one? Smoke, everybody. Wait a minute." He gathered together nearly everybody not working on the set, carpenters, grips, members of the cast. "Get out your cigarettes, your cigars, your pipes. Now have the smoke of your lives. Puff clouds of it."

And in a few minutes he had the "atmosphere" and he related he repeated the stunt every time he was ready to "shoot" an underworld scene, of which there were many, though each time some of the "smoke" gang were missing. The pace was too hot for them.

Among those in the cast of this Carewe picture are James Rennie, Dorothy Mackall, Sam Hardic, Heleg Montrose, Anders Randolf, Paul Panzer and Harry Short.

## COMPTON COMPANY TO OPEN TO-NIGHT

Playhouse Will Welcome the Public Once More

To-night will witness the first performance of the Compton Comedy Company in that evergreen favorite, "David Garrick." Many of the older generation who have seen the play, will doubtless, by their favorable comment, induce the younger people to patronize it in large numbers. The well-known story of Garrick promising to cure the rich merchant's daughter of her infatuation for him by disguising her with the assumed drunkenness, and then discovering, too late, that it is the girl he is in love with; but keeping his promise in spite of it, gives Mr. Compton, in the little role, an admirable opportunity, as well as displaying to full advantage the talented company he has brought with him.

The costumes which Mr. Compton has imported from England will give Victoria theatregoers a correct impression of the fashions of the period, whilst the excellent scenic pictures will complete a production which it is safe to say should not be missed.

The management of the Playhouse has spared no expense or effort to produce this play in a manner as nearly approaching the London originals as possible.

## ARION CLUB'S FINAL CONCERT TO-NIGHT

Attractive Programme to Be Given at First Presbyterian Church

The Arion Male Voice Club, which for thirty-one years has contributed in no small degree to the musical life of Victoria, will give a concert for this season at the First Presbyterian Church, Quadra Street, this evening, at 8 o'clock. The programme assures a musical treat for the large audience which will undoubtedly be in attendance.

Eleven Local Ladies Enter First Round

Mrs. Sweeny Medalist in British Columbia Ladies' Golf Championship, With Mrs. Philbrick But One Stroke Behind Her—Both Seattle Players Qualify

Ideal weather favored the ladies as they teed off yesterday afternoon in the qualifying round of the British Columbia championship. The golf, however, was not as good as the weather and the cards were all up in high numbers.

Victoria has a fine representation of golfing stars in the play for the title, no less than eleven of the local players qualifying. Two Seattle and three Vancouver ladies remain in the play so that if numerical strength counts for anything the Capital should capture the championship.

The Colwood course was in lovely condition but the warmth undoubtedly affected the play of the ladies a little. Quite a number of them ran into unexpected difficulties and some required double figures for one or two of the holes.

Mrs. Sweeny Wins. Mrs. Sweeny, a former Victorian, who is playing under the colors of the Jericho Golf Club, of Vancouver, played a very steady game and secured the qualifying round. She just managed to nose out Mrs. Philbrick, of the Oak Bay Club, by one point.

Both the Seattle entries entered the charmed circle. Mrs. Jackson getting an even hundred, while Mrs. Carey required six additional strokes. Miss Hurley, from Tacoma, the only other American in the competition, requires 111 for the eighteen holes and failed to qualify by two strokes.

The team from the Victoria Golf Club had the greatest success on the day's play as seven of its players qualified. Colwood and Uplands each have two ladies in the running, while Shaughnessy, of Vancouver, has two, and Jericho one.

There is a lot of speculation as to the outcome of the tournament. There is a strong following which expects Mrs. Sweeny to win, as she has been successful in many competitions in the past and her steady game may bring her through successfully.

Don't Overlook These. Mrs. Philbrick, Mrs. Hutchinson and Mrs. Patterson, of Victoria, however, are sure of being right up in the race, and Mrs. Jackson, of Seattle, must not be overlooked as she is capable of splendid golf as was shown in the P. N. W. championships here last Summer.

The first round is being played this afternoon and the championship and first flights will be made up when play is completed. Eight players will compete in each of the flights.

Disposition Of Mann Cup Up to Locals

Mainlanders Seek Sanction of Billy Moresby to Put Cup Up for Competition

Special to The Times. Vancouver, May 9.—Before the week is out the Mann Cup should be in the possession and under the control, in so far as this season is concerned at least, of the British Columbia Coast Amateur Lacrosse Association.

Yesterday afternoon Con Jones, holder of the trophy, informed G. E. McCrossan, president of the coast body, that he was prepared to hand the cup to the league officials as soon as the sanction of W. C. Moresby, of Victoria, was secured. Over the long distance telephone last night, Mr. Moresby assured the officials that he was prepared to give his sanction to the cup should be in the hands of a responsible body.

It was not a "hole in the corner league," Mr. Moresby said, would favor the trophy being turned over forthwith. He said that Victoria was entitled to be recognized before any action was taken to dispose of the cup.

Westminster Was Barred. To Mr. McCrossan yesterday, Mr. Jones said he had entered into agreement with Victoria, when he accepted the Mann Cup, not to put it up for play with New Westminster, for a term of three years. He also pointed out that Mr. Moresby was president of the league under whose jurisdiction the cup was played for last year.

He added, was the principal reason he disliked disposing of the cup without consulting his island colleagues of last year. Mr. McCrossan will write Mr. Moresby at once and ask him to sanction the island officials would not sanction the move inasmuch as Victoria and Nanaimo, it was understood, were entering the league, heating the Vancouver suggestion made a few days ago by Dr. J. G. Davidson, that the cup be turned over to the amateur union, of which he is the official secretary.

Johnson Lacks Knockout Punch and Angel Firpo Looks Like Best of Quartette of Fighters Awaiting Gong

(By Billy Evans). New York, May 9.—Just at present the heavyweight situation is the all-absorbing topic of conversation in this burg.

With Jess Willard at Yonkers getting in shape for Floyd Johnson, and Luis Firpo making ready to annihilate Jack McAuliffe, the pot is boiling among the big fellows.

Willard certainly looks in great shape. If he was a younger man by five or more years, I certainly would be willing to concede him a fine chance against Dempsey. There isn't a bit of superfluous weight on Willard. He looks to be in the best condition of his career.

Some years ago I saw Willard box the late Luther McCarthy at Madison Square Garden. Willard was in the novice class then. The Willard I saw the other day doing his training stunts looks to be a better conditioned athlete than the Willard of six or seven years ago.

Age Real Question Mark. As I watched Willard in action with his sparring partner I simply couldn't brush aside the fact that he is past 40 years of age. Regardless of his fine condition, I am unable to believe that he possesses the reserve strength to take a lacing and go a long way. It strikes me that Willard must do the big things in the early rounds of any fight in which he takes part.

Let us pass up Willard and consider his opponent, Floyd Johnson, in the heavyweight situation. Johnson is a contender for Dempsey's title. Recently I saw Johnson go 12 rounds with Fred Fulton, the much-placed plasterer. Johnson won on points but failed to impress me as I hoped he would.

Last October I saw Johnson dispose of Bob Martin, once a highly touted contender for Dempsey's title. Despite the fact that Martin is only a shadow of his former self, fighting ability considered, Johnson's victory was impressive because he showed promise.

Since then Johnson has beaten a number of so-so heavyweights. A few weeks ago, however, at Grand Rapids, he was able to get only a draw with Pete Lohman of Toledo, a fighter but little known outside of his own confines.

Johnson dropped Lohman in the first round, seemed to have him all but out, but failed to finish him, and during the rest of the bout had his hands full.

LEFT TO RIGHT, LUIS FIRPO, WILLARD AND JACK MCAULIFFE. LOWER, FLOYD JOHNSON

His failure to drop Lohman and Fulton for the count, after having them all but helpless in the opening round, would make it seem so. Johnson hit Fulton with everything, but Fulton, never noted for his ability to take it, smiled through the entire affair.

Does Johnson's wallop lack dynamite? Johnson is courageous. He showed me that. However, he lacks experience and Willard may upset some of his plans for a Dempsey meeting.

At present Johnson wouldn't have a chance with the champion. He needs at least a year more of preparation.

Of the four fighters to be seen in action shortly, Willard, Firpo, McAuliffe and Johnson, Firpo, at present looks by far the most dangerous of the quartet.

Deal, Eng., May 9.—The weather was fine to-day for the third round of the play for the British amateur golf title.

The chief interest of the spectators was centred in the three Brits, E. W. Holderness, Cyril Tolley and Roger Washered, who were regarded as likely to put up a stiff fight for the championship. Two of the trio of British stars were successful, but Holderness, the present titleholder, was eliminated by Douglas Grant, of London.

Tolley, the Oxford star, easily defeated Maxwell Marston, of Philadelphia. Washered defeated J. J. Murray, of Romford, three and one. Francis Oulmet, the Boston star, completely outclassed R. C. Lough, of Bradford.

Results of other third round matches follow: G. N. Humphreys, England, defeated Fred Wright, Jr., of Los Angeles, 3 and 2. Dr. O. F. Willing, Portland, Ore., defeated E. Blackwell, of Prestwick, 3 and 2. John F. Neville, San Francisco, defeated W. H. R. Yeardo, of Worpleston, 4 and 2. W. B. Torrance, Edinburgh, defeated G. L. Mellin, of Addington, 4 and 2. George Rotan, of Texas, defeated F. L. Stone, of Sidcup, 3 and 1. T. A. Torrance, England, defeated Michael Scott, the French champion, 5 and 4.

Burnham, Eng., May 9.—Miss Edith Cummings, of Chicago, the only American entrant in the ladies' open golf championship of Great Britain, was eliminated to-day by Miss M. G. Wickenden, of Neville, five and four.

FOOTBALL PROTEST. Vancouver, B. C., May 9.—The management of the Veterans' Football Club have requested to attend a practice to be held this evening at 8:15 o'clock at the Stadium. Practices will be held every Wednesday and Saturday evening in order to get the team in shape for the opening match here on May 26 with the Native Sons of Vancouver.

EMPRESS BILLIARDS. In the final of the Empress billiard handicap played last night at the Empress Billiard Parlors, McNell (r. 25) defeated Dyke (r. 100) by nine points after an exceedingly close match.

WOODWARD BEATEN. Winnipeg, May 9.—A. P. Woodward, of Montreal, ex-Canadian-English billiards champion, was defeated in an exhibition match here last night by Frank Petty, of Winnipeg, 750 to 423. The balls used were bonzole, an ounce or more heavier than the crystallite to which the champion had been accustomed.

CANCELLED HIS BOU. New York, May 9.—Fresh injury to a cut over one eye yesterday forced Charlie White, Chicago lightweight boxer, to cancel his fifteen-round match here Friday night with Alex Hart, of Philadelphia.

Man Who Has Been Interested in Soccer for Many Years Elected President of V.D.F.A.—"Scotty" Dowds New Secretary—Footballers in Annual Session

Alex Robertson has been selected as the head of football in Victoria for the ensuing year. He was the unanimous choice of the delegates at the annual meeting of the Victoria and District Football Association held last evening in the Veterans of France clubrooms.

Mr. Robertson succeeds Jim Mesher, who has held office for two years. The new head has had a great deal of experience in football and for many years was head of the Vancouver body. It is expected that he will give a new impetus to the game in this city and that soccer will be put on a higher plane next winter.

J. C. ("Scotty") Dowds has picked up the job of secretary-treasurer of the association. "Scotty" has been playing soccer for the Metropolis for several seasons and likes working on books and writing letters, so the delegates gave him a job to his liking.

Want League Under Wing. Besides electing officers, the Victoria District Football Association discussed the prospects of having the Victoria Football League come under its jurisdiction.

President Robertson and Secretary Dowds were instructed to attend the annual meeting of the Wednesday League next week and talk over the matter with the officials of that circuit.

The officers of the V.D.F.A. will be as follows: President, A. Robertson; secretary-treasurer, J. C. Dowds; other members of the board, J. Sullivan, J. Bloom and J. F. Mesher.

It is a matter in which the association was appointed a committee to revise the constitution, and managers are asked to send in suggested amendments to the secretary by July 15.

The district governing board of the B.C.F.A. also held a session last night and decided on certain matters. Mr. Robertson and J. Sullivan were appointed as delegates to the annual meeting of the B.C.F.A.

Jim Mesher becomes president of the governing board of the Victoria District Football Association. The following officers: Secretary, W. J. Cull, and J. C. Dowds, J. Bloom and A. Cox.

It was decided to have a representative Victoria team play an exhibition game with a representative Nanaimo eleven, with a return match here on May 19.

Federation Not Against Poor Charlie

National Body in U.S. Has Not Committed Itself in Amateur Controversy

New York, May 9.—(Associated Press).—Henry Breckinridge, president of the National Amateur Federation of America, last night issued a statement denying published reports that he had sustained the action of the Amateur Athletic Union in disqualifying Charles Paddock, California sprinter, for participation without A. A. U. sanction in a students' meet in Paris last week.

The president of the National Amateur Athletic Federation of America, Mr. Breckinridge's statement said, "has been quoted as sustaining the action of the Amateur Athletic Union in the Paddock case. This report of his position is entirely unfounded in fact."

While it was inferred from his statement that the N. A. A. U. might side with the National Collegiate Athletic Association, which has backed Paddock in his defiance of the A. A. U., it was emphasized by Elwood C. Brown, executive officer of the federation, that no official action had been taken as yet.

In No Way Concerned. "As far as the federation is concerned," Mr. Brown explained, "the Paddock case has not come before it officially, because, as it stands at present, it is a matter in which our organization is in no way concerned."

Asked whether the federation might go on record, however, either on the side of the N. C. A. A. or the A. A. U., Mr. Brown replied that it was altogether possible that the executive board would take up the issue at its next session. Until then, he added, no statement of its opinion as an athletic governing body would be forthcoming.

Brigadier-General Palmer E. Pierce, president of the N. C. A. A., which is a constituent member of the federation, came out last week in support of Paddock's participation in the Paris meet after the A. A. U. had declared it would disbar the sprinter for his alleged violation of international athletic regulations.

Subsequently the French Athletic Association, supporting the A. A. U., took steps to stop Paddock from competing, and if its edict was ignored, placed under official ban the Paris University Club, which sponsored the meet.

Paris, May 9.—The French Athletic Federation, after full discussion of the participation of Charles Paddock, the American sprinter, in the International University championship games, has decided to prohibit Paddock from giving exhibitions at meets organized by clubs affiliated with the federation.

Last Friday the federation warned the officials of the University championship games that they must not allow Paddock to compete, but announced that the federation would permit the sprinter to give exhibitions, so long as he did not compete in the events of the federation by the officials of the federation.

PRO SOCCER CLUBS HURT BY DECISION

Football Association Has No Right to Interfere With Pay, Court Rules

London, May 9.—A severe blow was dealt professional soccer clubs yesterday when in an important case, the King's Bench court allowed the appeal of Henry Leddy, a professional player of Chesterfield, who sought a reversal of the decision of a county court judge, that the clubs' agreement to pay him a wage of nine pounds a week was subject to the Football Association's ruling of April 12 that the wage should be eight pounds a week for the playing season and six pounds a week during the summer.

The judicial opinion was that the club's contentions were unreasonable, as the association might even reduce wages to four pounds a week or on the other hand increase them to ten pounds, which in the latter case would be an anomaly, all professional players receiving ten pounds, while Leddy was bound to the club's agreement to play for nine pounds a week. Leave for further appeal was allowed.

If the appeal is upheld it means that football clubs will have to pay all arrears since the reduction in wages.

CHAMPIONS MATCHED. Chicago, May 9.—Two champions—Gene Tunney, American light heavyweight champion, and Mickey Walker, welterweight titleholder—will appear in ten-round contests here May 16.

Walker last night was matched to box Cowboy Padgett, a welterweight of Oklahoma City, while Tunney will meet Jimmy Delaney, of St. Paul, a protégé of Mike Gibbons.

A WIN FOR DAVIS. Seattle, May 9.—Travis Davis, of Everett, won a popular decision over Jimmy Marcus, Los Angeles, welterweight, in six rounds here last night. Marcus, who has before shown the fans of this section that he is a tough, willing boy, did most of the leading, but Davis landed most of the blows. The only knockdown in the bout was when Marcus went down for a short count in the second round.

JUNIOR BALLERS PLAY OPENING GAME MAY 18

A meeting was held last night at the Y. M. C. A. of the Junior Baseball League. There was a good turnout of delegates from the different teams being represented, namely the Pirates, Mets, C. A. Bays, Oakland and Hustlers.

Nomination and election of officers took place and the following were elected to guide the league: President, H. C. Cross; vice-president, S. Feldon, and secretary-treasurer, H. Ward.

The opening games will be played on May 18 with the Pirates locking horns with the Mets at the High School grounds while the Oakland nine will clash with the Hustlers team at the North Ward Park, while at the other end of the town, Beacon Hill Park, the Bays will take on the Y. M. C. A.

The juniors expect to have a bumper season and as the Bays, last year's winners, and the runners-up are entered, the competition should be exceedingly keen. It is expected that this year will be the same as last year, seventeen years and under.

SEATTLE TEAMS TO PLAY HERE MAY 26. A meeting was held last night of the executive committee of the Amateur Baseball League. Final arrangements were made for the opening game on Saturday afternoon. Everything is in readiness and the teams are all in shape and just ready to go. Alie MacGregor has been secured to umpire the games again this season.

The first game should prove to be a thriller as the Eagles are rumored as having a strong line-up, while the C. P. R. team is composed of players that are all known to the fans. A few new faces will be seen in the line-ups this year.

The C. P. R. has now definitely arranged to bring a Seattle team over to play an exhibition game at the Stadium on May 26.

## Preparing for Arctic Trip

Prominent in Ontario Election Campaign: L. W. Oke (left), U. F. O. member for East Lambton; Robert Cooper (right), Liberal member for Welland.

Parkdale Canoe Club, Toronto, was destroyed by fire with a loss of \$130,000. It is the third time in the club's history, that its premises have been burned.

Southern women have engaged Borglum to carve a giant Confederate memorial at a cost of \$2,000,000 on the side of Stone Mountain, said to be the largest mass of solid rock in the world. Borglum conceived the idea of "marking" the mountain by means of a giant motion picture machine. Picture shows Gutson Borglum (with mustache) operating his powerful projection machine. Inset, how the projection looks.

Hon. E. C. Drury (left), Prime Minister of Ontario; and Hon. Manning Doherty (right), Minister of Agriculture, arriving at the Conference with the U. F. O. Executive in Toronto, which resulted in the healing of the breach in the party caused by the "broadening-out" issue.

"Johnny" Jones, of Toronto, and four companions are preparing for an expedition into the Northland to film the Eskimo at home. Above, Jones' team of huskies which will carry him on the 1,400-mile trip over ice and snow. Centre, a new railroad bridge being constructed over the Jaw Bone Rapids, Abitibi River, on the route to Moose Factory. Bottom, "Johnny" Jones in Arctic attire.

U. S. Congressman S. G. Porter of Pennsylvania, charges the League of Nations with encouraging instead of suppressing the drug traffic.

**C. W. Burr**  
U. F. O. candidate for Prince Edward County. He was nominated after Convention had turned down the name of Hon. Nelson Parliament, the speaker of the House. Mr. Parliament sits as Liberal member of the riding and states his name was put before the U. F. O. convention without his knowledge or consent.

The Stair Building (upper left), at Bay and Adelaide Streets, Toronto, is one of the Canadian properties owned by the late Lord Carnarvon. The property was purchased by the Rt. Hon. Howard Moynese, father of the famous Egyptologist. At the upper right is the old Zion Church which formerly occupied the site.

**Miss Lois Stanley**  
who inaugurated the system says she wouldn't give it up for the most exclusive Fifth Avenue "shoppe." With a barrage of hat frames and an extensive assortment of artificial roses, forget-me-nots and wheat clusters she flutters up to the door of a modest frame cottage. "Anything in hats to-day?" she queries, and the whole family sallies forth to be fitted.

## SCHOOL DAYS By DWIG

HOUSE APPROVED COMBINES BILL (Continued from page 4.)

T. L. Church, Conservative, Toronto North, suggested an amendment, which he said he proposed to move when the bill got into committee. It provided that any grand jury duty and lawfully convened in any province might exercise as respects any person or property within such province any power which by this act might be exercised by the registrar or any commissioner appointed under this act, without obligation, however, to report to any Minister of the Crown and with power to make a presentation in accord with the facts found by it.

Canadian Press.

F. Rinfret, Liberal member for the St. James Division of Montreal, said he thought the charter of the Canadian Press of 1914 granted to the association the privilege of establishing regulations for the admission and the expulsion of members. Possibly there was too great a liberty given to the association. Mr. Rinfret would think that, if the alleged combination was merely an arrangement whereby the Canadian public was getting news all over the country, not of a political or contentious character, but of a general nature, and the public was getting it at a cheaper rate than it could if the association did not exist.

Coming down to the main provisions of the bill, Mr. Rinfret said he thought these were satisfactory inasmuch as they gave the public the right to institute an inquiry which would be impracticable under the Criminal Code on account of the expense involved.

Hon. J. B. M. Baxter, from the Conservative side, declared "it was of no use to represent to the people that a wonderful panacea had been discovered, for I am sure, they are in for another disillusionment."

RICKARD PLANS TO MATCH THE WINNERS

New York, May 9.--Tex Rickard, matchmaker for the Milk Fund bouts at the Yankee Stadium Saturday, announced last night that he was trying to match the winners of the two main bouts of that programme for a contest this summer to be held in the Metropolitan district on a date to be decided later. Such a bout would bring together the winners of the Firpo-McAuliffe and Willard-Johnson bouts. Rickard declined to discuss the prospective purchase.

EASTERN CANADA BALL LEAGUE GETS STARTED

Montreal, May 9. -- The Eastern Canada League opened yesterday with games here and in Three Rivers. The league is composed of four teams. There is one change in the circuit this year, as the Ottawa Senators have relinquished their franchise to the Ottawa Canadiens, who will operate in Montreal. Yesterday's scores were:

Quebec 4, Three Rivers 1; Montreal 2, Ottawa Canadiens 2; called thirteenth.

**ITS FIRST TRIP MADE BY FERRY**

New Boat Declared to Look Like Ocean Greyhound

Calls It Logical Route Between Victoria and Washington

It was approaching 3 p. m. city time, when the party of visitors who came over on the ferry trip of the season from Anacortes yesterday, sat down to luncheon in the restaurant of the Chamber of Commerce. There were 140 of them, together with enough citizens of Victoria to make a little over three hundred in all. As the luncheon was given by the Publicity Bureau, the chairs were occupied by Joseph Patrick who is this year chairman of that organization. As the visitors desired a chance to take a drive around the city before leaving again for home in the evening, brief speeches after the luncheon were made.

**The Welcome**

Mr. Patrick remarked that the Anacortes bunch was getting faster. Last year it took them five hours to make the crossing. This time they did it in three hours and a half, with two stops. When he saw the new ferry approaching Sidney, it looked like an ocean greyhound.

Mayor Hayward welcomed the guests briefly. The Anacortes ferry would be another link in the great chain binding the two peoples together, he said. He believed the ferry would be a success and he knew the people of Victoria wished its owners the greatest prosperity. He reminded the guests that there would be a Maytime Frolic in this city May 24-26, and he invited them to come again on that occasion and enjoy themselves.

M. B. Jackson, M. P. for the Islands, pronounced the visitors a fine-looking bunch of people, "nearly as fine as any bunch of Canadians I ever saw." Next time they came, he hoped they would be able to stay a little longer and go through the Gulf Islands which he represented in the Legislature. He hoped the day was not so far distant when all the branches of the English-Speaking peoples throughout the world would be united in some form in one great state striving for the common good.

**The Response**

President Dodge of the Anacortes Chamber of Commerce was called upon but remarked that he was no speaker, and would hand the job over to Senator Wells, who is not unknown in Victoria, having spoken here on a former occasion.

Senator Wells said that when he was here before, the Victoria-Anacortes ferry was a project, a dream. Since then, it had become a reality. He stated that there would soon be another attractive feature for the tourist on this route, in the shape of a good road to the top of Mt. Constitution on Orcas Island. He was convinced that this ferry would continue to be regarded as the logical route between Victoria and the State of Washington.

**San Juan's Opinion**

Elmon Gedeste, of San Juan Island, remarked that there had once been a large volume of traffic between that island and Victoria, the produce of San Juan finding a good market here. This business had fallen off during the past few years, whether because of the tariff or for some other reason. He saw no reason why the former traffic should not be restored, and he looked forward to seeing this occur. Meantime those from San Juan were glad to have had the chance to put their feet under Victoria's table and he expected to do so more frequently in future.

In compliment to the visitors a verse of "America" was sung, followed by a verse of "God Save the King." This brought the formal proceedings to a close. The rest of the afternoon was consumed by an automobile trip to the Butchart Gardens and other points of interest. The ferry left Sidney on the return trip for Anacortes at 6:30 p. m., standard time.

**TELLS OF WORK OF RED CROSS SHOPS**

Scope of Workshops and Benefits to War Veterans Described

The value of Red Cross workshops and their future prospects were outlined to members of the Royal Sons of St. George at their meeting in the Conservative Club Rooms last night by Dr. Wace, in charge of the local branch of the S. C. R.

Dr. Wace described in detail the work that is being done here and elsewhere for returned men through the work of the organization operated. Through this work the disabled veteran was given a sympathetic course of discipline and a hopeful outlook for himself and family, he said. In this way he was enabled to become a useful citizen. It was the duty of the Government to make provision for men so disabled that they could not find ordinary employment, and this was being done through the Red Cross workshops.

The Government, said Dr. Wace, had assisted the Red Cross generously, but had decided that it could not grant a subsidy to the man with a high or one hundred per cent disability and Dr. Wace considered that this attitude was a sound one from the standpoint of trustees of public funds. The Government, however, had decided that it could take such men and train them by keeping them on piece work if other less disabled men were thereby kept out of training. The high disability case, he explained, can secure work in the Red Cross workshops provided the Red Cross can back him up. To do this required the assistance of the public.

Papers by F. T. C. Wickett and Mr. Deaville on "Derbyshire" and "Lancashire" featured the meeting last night. Mr. Wickett also spoke on the author of "Home Sweet Home," which was sung by the audience. Songs by Mr. Turner also were enjoyed.
