

WELL KNOWN AUTO MAN SUMMONED

H. B. Knudsen Called; Business Destroyed by Fire Recently.

Death claimed one of Duluth's best known citizens last night when H. B. Knudsen, 1118 East First street, died shortly after midnight from an acute illness of only a few days.

Mr. Knudsen, who celebrated his sixty-third birthday on Sept. 23, was taken ill Wednesday noon, but the illness was not considered serious until last night.

Head Homecoming. He was born in Odalinn, Norway, and came to America when he was 19 years old. At first Mr. Knudsen

worked on a farm in Iowa, but shortly after he went to Hudson, Wis. where he organized a business there. His remained in Hudson for several years.

The early life was a struggle and for a considerable time he was a clerk on the Northern Pacific cars. In 1885 he married and his wife assisted him in the organization of a business there and helped him cook.

Mr. Knudsen settled in Duluth thirty years ago last spring. He had a building car outfit for the D. M. & N. railroad and maintained his interest in the building cars up to the time of his death.

He was actively engaged in the produce business for about ten years and while in this field Mr. Knudsen was credited with having one of the biggest produce houses in the Northwest. About twelve or fourteen years ago he severed his connections with the produce business, and although the firm still bears his name he had no interest in it.

Business Destroyed by Fire. In 1915 he entered the automobile business and this and his building car interests were his only business activities up to the time of his death. About three weeks ago the building car outfit was destroyed by fire which destroyed the building at Second avenue east and Superior street, housing the Knudsen Auto company, was destroyed by fire with a loss of \$25,000. Since then Mr. Knudsen was busy re-arranging his business and preparing to move to new quarters.

Residue of his wife he is survived by three sons, Glenn, 25, Bert, 21, and Harold, 30. Among the lodges to which he belonged were the Masonic, Elks, Old Settlers association, U. C. T. and Eagles. He was a thirty-second degree Mason.

Although the funeral arrangements have not yet been made it is probable that the services will be held Monday.

RESUME BUILDING OF WILSON DAM (Continued from page 1) example of Florida, with cheap power. He does not concern himself with the question of whether a woman with an up-to-date electric hair-cutting iron in Mobile is to benefit, nor whether the farmer in Mississippi, Tennessee and Alabama is to light his premises, pump his water or drive his machinery, with the electrical energy which is to come from the harnessing of the waters now to be brought under the guiding hand of man.

The Day's Log

The Weather.

Local Forecast. For Duluth, Superior, Two Harbors and the iron ranges: cloudy weather with rain tonight and Sunday. Slight change in temperature. Moderate and possibly fresh northwesterly wind.

A considerable rise in temperature has occurred in Western Canada in connection with a low pressure overlying Western Massachusetts and Northeastern Alberta. This depression and another general precipitation Friday or last night over the Upper Missouri valley, the Great Plains states from the Dakotas to Indiana, the weather, and much of the Rocky Mountain region. Areas of high barometer overlie Michigan and Oregon. Forecast: weather overcast tonight and Sunday and on Monday.

General Forecast. Chicago, Nov. 4.—Forecast for the twenty-four hours ending at 7 p. m. Sunday: Moderate rain tonight and Sunday; not much change in temperature. Upper Michigan—Rain tonight and Sunday; warm to extreme northwest portion. Wisconsin—Rain tonight and Sunday; continued mild temperature. North Dakota—Showers, probably to night and Sunday; not much change in temperature.

Upper Lakes—Moderate variable winds followed by general subsidence over Michigan and eastern Superior; overcast weather over Wisconsin and Superior tonight and Sunday and on Monday. Temperatures. Highest in the last twenty-four hours and the lowest in the twelve, ending at 1 a. m.

Table with columns for location and temperature. Locations include Duluth, Superior, Two Harbors, and various points in Minnesota and Wisconsin.

Vital Statistics. Births. Mr. and Mrs. J. T. Fritzer, 1134 Tenth avenue east.

Deaths. Mrs. Anna O. Williams, aged 55 years, 212 West Ninth street.

Marriage Licenses. Harry Henriksen and Thelma Stewart, both of Duluth.

Contagious Diseases. Cases. Cholera, 1. Typhoid fever, 2.

Building Permits. Albert Blomberg, 120 North Fifth street, frame dwelling.

NEW AMBASSADOR FROM ITALY TRAINED DIPLOMAT

BARON AVEZZANO.

Washington, Nov. 4.—Baron Camillo Romano Avezzano, reported to have been named as Italian ambassador to the United States, is a trained diplomat. He came to Washington in 1912 from Greece, where he had been Italian minister of consular affairs. His service as ambassador here was short, he was a very busy man, closing up many of the troublesome war-time issues connected with Italian financial relations to America.

Princess Augusta abhorred. While she is hardly known beyond the German borders, and seldom if ever was mentioned even in the newspapers of Germany which profess to have intimate knowledge of her character, and in these the preponderance of opinion is that she has some qualities to make her a valuable and sympathetic companion to the imperial couple of Bonn.

most in the public mind, the fact is the country will demand that an impressive start, at least, be made on the following problems.

Third, the government's relation to agricultural credit must be more positive and helpful.

Second, the ineffectual phases of the tariff must be removed and the elastic provisions of the law actually applied.

Fourth, whether by issuance of certificates or some other plan the bonus sentiment of the soldiers and sailors and their friends cannot be ignored. If it cannot be satisfied, it must be placated.

Fifth, America's foreign policy is not satisfying the thoughtful members of any political party. Far from seeking American participation in the league of nations, the writer has heard the league discussed.

Sixth, the whole country is watching to see whether Mr. Harding will bow to the will of congress which is to ship subsidy or force the measure through in the national interest.

Seventh, the whole country is watching to see whether Mr. Harding will concede his courage.

Eight, the whole country is watching to see whether Mr. Harding will concede his courage.

Nine, the whole country is watching to see whether Mr. Harding will concede his courage.

Ten, the whole country is watching to see whether Mr. Harding will concede his courage.

Eleven, the whole country is watching to see whether Mr. Harding will concede his courage.

Twelve, the whole country is watching to see whether Mr. Harding will concede his courage.

Thirteen, the whole country is watching to see whether Mr. Harding will concede his courage.

Fourteen, the whole country is watching to see whether Mr. Harding will concede his courage.

Fifteen, the whole country is watching to see whether Mr. Harding will concede his courage.

Sixteen, the whole country is watching to see whether Mr. Harding will concede his courage.

minimized the importance of the incident, well informed quarters declare that only the most energetic efforts on the part of the powers can prevent a serious violation of the armistice terms by the Turkish forces in Eastern Thrace.

Seek Armistice Return. Washington, Nov. 4.—Action of Greek and Armenian nationals evacuated from Eastern Thrace and who forcibly took with them cattle and transport animals instead of food supplies has created a situation in Eastern Thrace that the Allied commission in Constantinople are attempting to deal with.

The effect had been to make it impossible for the civil population remaining to carry on farming and the Allied commissioners would endeavor to see, Admiral Bristol said, that animals belonging in Eastern Thrace and taken away by the Greeks and Armenians were returned.

Fear Armistice Violation. Paris, Nov. 4.—Strong representations are being made to the Turkish Nationalist government at Ankara by the Allied powers on the necessity of Turkey living up to the letter of the Mudanya armistice convention.

While the French foreign offices believe that the sultan will be forced to abdicate, the British government is watching to see whether Mr. Harding will concede his courage.

MESABA SYMPHONY TO PLAY AT THE LYCEUM

Luis Lombardi and his forty-piece Mesaba Symphony orchestra will make their first appearance in Duluth on Sunday, Nov. 12, when they will present three performances in the afternoon and evening at the Lyceum theater.

The Mesaba Symphony orchestra was first organized one year ago this fall by Lombardi and in that short time it has climbed to one of the highest pinnacles in the symphony concert world.

Forty musicians and several soloists are included in the Mesaba Symphony orchestra and a diversified program of symphony, instrumental and vocal numbers will be presented to the audience.

The members of the orchestra are the best musicians on the iron range and in Duluth and this season they are presenting a wider and more varied program.

Luis Lombardi will appear in person with his orchestra and will direct the three concerts.

The first performance will be given at the Lyceum theater Sunday, Nov. 12 at 3 p. m. This program will last for forty-five minutes.

Two programs, each lasting fifteen minutes, will be presented in the evening. The first one will commence at 7:45 and the second one at 9:45.

SMASHING CLIMAX IN "SHADOWS" WITH CHANEY

"Shadows" which brings Lon Chaney and a strong cast to the New Lyric next Saturday, is based upon Wilbur Daniel Steele's prize story, "Ching Ching Chinaman," which was acclaimed one of the greatest stories of 1917. It tells of Yen Sin, a Chinaman, who drifts out of the storm to Yicko, a little fishing village on the New England coast. The narrow-minded townsfolk despise and revile him because he does not hold the same religious convictions as they. How he battles his own soul to save those of his Christian associates forms the keystone of a drama that will astound and grip even the most blasé picture patron," says an advance announcement. Never has a Chinaman been portrayed before. The usual run of motion pictures puts the Chinaman in a vindictive light but Chaney in "Shadows" is the sort of Oriental that Confucius or some other Chinese sage must have been—kindly, benign and helpful.

Pierre and Pagie, said to be musical comedy artists of unusual ability, will open an engagement at the New Garrick theater this afternoon. They recently appeared in Victor Herbert's "My Golden Girl," and formerly with "The Belle of New York." They have also appeared as prologue entertainers in connection with Baramount feature attractions. Their Spanish Temptation dance, given in connection with Rodolph Valentino in "Blood and Sand," won them much praise because of their grace and creative ability. Miss Pagie, a beautiful, exotic type, is known as the Cameo Girl, the perfectly formed dancer, from a painting by Paul Honore from the Chicago Art Institute.

MUSICAL COMEDY PLAYERS OPEN ENGAGEMENT AT NEW GARRICK

PIERRE AND PAGIE.

New Donald Brian Show. Donald Brian is to be starred by the Shuerts in a new musical comedy, called "Up She Goes." This piece was written by Frank Craven, with music by Joseph McCarthy and lyrics by Harry Tierney. It opened at Providence this week.

Zelda—"Remembrance" With Star Cast

Goldwyn pictures are noted wherever motion pictures are shown for the excellence of their casts and the presence in each of players who are usually featured or starred by other producers. Goldwyn's cast standard is maintained, and even surpassed, in the cast for its new Rupert Hughes picture, "Remembrance," written and directed by Mr. Hughes, which will be seen for one week at the Lyceum theater, beginning today. Jackson's orchestra will provide special music.

"Remembrance" is a story about father, the often overlooked keystone in the arch of domestic affairs, and it makes of father a real human document and not a cut-and-dried conception of a mere man of business. Claude Gillingwater was engaged to act the part of "Pop" Groat, head of the Groat family in a small Western city. Mr. Gillingwater has long been known on the speaking stage as an actor of sterling ability whose work has ranged from musical comedy to dramatic leads. He headed John Golden's cast in "The Wise Fool" for two seasons before taking the plunge in pictures with Mary Pickford in "Little Lord Fauntleroy."

Kate Lester, cast as "Mom" Groat, is one of the best known interpreters of elderly women on the screen. She began her stage career with Richard Mansfield and has acted with Julia Marlowe, John Drew and Mrs. Pike. She has appeared in motion pictures with half a dozen producing concerns. Her previous Goldwyn pictures were "The Cup of Fury," "Don't Neglect Your Wife," "Scratch My Back," "Dangerous Curves Ahead," "Earthbound" and "Made in Heaven."

Cullen Landis, long a versatile and popular member of the Goldwyn Stock company and recently featured in "Watch Your Step," is seen as Seth Smith, a humble clerk in "Pop" Groat's store and a suitor for the hand of his daughter, Mab.

Patsy Ruth Miller, who plays the daughter, Mab, is a Goldwyn find. She is but 18 years old and has been placed under a long-time contract. Her first picture for the firm was "Watch Your Step," opposite Cullen Landis.

Richard Tucker, the elder Groat son, is a member of the Goldwyn Stock company. He has had important roles in more than a dozen of the firm's photoplays.

Escher Ilaton, remembered for her work in "Huckleberry Finn" and "Whispering Devils," is one of the daughters and Nell Craig of "The Queen of Sheba," "Passion's Playground" and "Her First Disappointment," the other daughter.

Others in the cast include Dana

Todd, Arthur Trimble, Lucille Rickson, the little leading woman in Booth Tarkington's "Edgar Comedies," Max Davidson, William Carroll and Helen Hayward.

LYCEUM LAST TIME TONIGHT WALKER WHITESIDE IN "THE HINDU"

Peggy Wood with Savage. Peggy Wood, at present on tour with "Marjolaine," signed a long-term contract with Henry W. Savage, who will star her in a new musical comedy next month. Rehearsals are to begin shortly. In the meantime Miss Wood will continue with "Marjolaine."

The Tony Sang Almanac, beginning with "The First Barber," is being distributed by the educational film exchanges.

Philadelphia, Pa., 4.—William T. Tilden, U.S. national tennis champion, declared yesterday that whatever the result of his tennis match with Arthur Godfrey, which may stiffen and handicap his play, he will not retire.

WEST AND SOUTH CLASH WITH EAST

Three Big Intersectional Games Hold Center of Football Stage.

(By The Associated Press.) New York, Nov. 4.—Intersectional games and gridiron tussles between teams of extraordinary playing caliber and records feature the football card in the East today.

WILL INSPECT SITES FOR OLYMPIC TEAMS

New York, Nov. 4.—Commissioned by the United States Olympic team in Paris in 1924, Albert J. Heine, athletic director of the American Olympic association, will inspect sites for the Olympic stadium and other buildings.

WILLY CURLING CLUB TO OPEN DRIVE FOR MEMBERS

STATE PUSHERS ARE PLANNING ACTIVE WINTER

Curling, Hockey, Dances and Skating Will Be Featured.

MANY IMPROVEMENTS Club Is Preparing to Give Members Best Season in History.

By HERLOCK PETERSON.

With Jack Frost hanging around the portal waiting to move in with his snow and ice features, members of the Duluth Curling club are preparing to give the old boy a hearty welcome. It is only a short jump now until winter comes and when it does the North country will be in a receptive mood.

Regardless of the fact that the Northwestern bonspiel, which has been a fixture in Duluth for many years, will be staged here during the coming winter, interest in the rock-pushing pastime has not diminished here, but rather is on the increase. It is reasonable to presume, from the general tone of things right now, that the Duluth Curling club will have one of the greatest years in its history.

Since last spring a number of the curlers have returned from the city and to fill their places a four-day recruiting campaign will be conducted by the club. The members, starting Wednesday, will be waiting for the curling stone to be rolled up to the limit, and with a fair supply of members, the club will be in a position to start a program for the frozen months.

Prospects for curling are very bright, improvements having been made which will be greatly appreciated by all curlers. Sheets 1 and 12 and 13 have been repaired and strengthened. Plate glass between the spectators stands and curling ice has been put in, adding greatly to the enjoyment of watching the games.

The curling, hockey, skating and dance features of the club have a strong appeal for local folk, for it gives them a grand recreation program for the frozen months.

Prospects for curling are very bright, improvements having been made which will be greatly appreciated by all curlers. Sheets 1 and 12 and 13 have been repaired and strengthened.

Wednesday night will again be regular dance night for all members. Band music will be provided two nights a week for skating. Harley Davidson has been engaged to be the emcee of the skating, and his services will always be free to the members. The stage and walls of the rink will be decorated for the winter. One of the most successful innovations this year will be that the club will be open on Sunday afternoon from 2 o'clock until 5 o'clock, and will promptly curling matches. This will be a great boon to the members. The club is one of those Duluth-made products, like the Patrick Haman's, which is saying considerable. To analyze this means a lot, because while the cold weather is here, it is disagreeable, the weather outside, the greater the enjoyment inside the club.

WHEN THE BAND BEGINS TO LEAD THE SEQUENTIVE PROCESSION AROUND THE FIELD.

AND REMEMBER THE NIGHT HERE'S HOW OSCAR!

WILL YOU EVER FORGET THE NIGHT HERE'S TO CRIME.

I WAS A JOKER THEN BUT HERE'S LOOKIN' AT YA!

THE COLLEGE GRAD IS AS KOO KOO OVER HIS FOOTBALL AS HIS OFFICE BOY IS OVER BASEBALL.

THEN SKIM LEFT TROUBLE FOR 6 VARS AND 2.

AND THEN HE TRIES TO EXPLAIN IT TO HIS WIFE AFTER THE GAME.

CARRYING A SPOOL OF WHITE COTTON HOME TO THE WIFE—BUT ON THE DOOR OF THE GAME!!!!

BUT AFTER ALL THERE ARE OTHER FEATURES OF THE GAME.

FOR THE GAME'S SAKE

BY LAWRENCE PERRY

Chicago, Nov. 4.—The great point of difference between football in the East and among the universities of the Western conference lies not so much in styles of play as in methods of conduct. At this very moment with a great stadium in construction in Columbus and the University of Illinois about to begin construction of a new stadium at Chicago, the Western visitor gets the impression that intercollegiate football is not as firmly established as might be.

Watchful waiting describes accurately the attitude of the educational authorities of the Big Ten. Immense powers are theirs. Things because intercollegiate athletics in the conference is definitely and indisputably a part of the war and woof of the university system. There are no graduate managers. Alumni bodies in the Middle West are not nearly so well organized as in the East. In fact there is hardly any organization. Hence graduate influence in most of the universities of the Big Ten is practically negligible.

Athletics are conducted by men known as directors of athletics. These are direct representatives of the faculty. They are direct representatives of the faculty. They are direct representatives of the faculty.

INDIANAPOLIS TO BUILD NEW TEAM

Indianapolis will be represented in the American association next year by a practically a new team, according to Manager Jack Hendricks.

One new outfielder and a new infielder already have been obtained and the club is casting around for other ball players of ability. A new string of pitchers also will be in Indian uniforms next spring, Hendricks said.

FOOTBALL RESULTS

Denn State, 0; Navy, 14.
Huron high, 19; Aberdeen high, 19.
Moorehead college, 6; St. Cloud Teachers, 0.
De Paul, 0; Valparaiso, 7.
Parson, 3; Iowa State Teachers, 0.
Morningside, 7; Des Moines university, 0.
St. Thomas college, 33; Gustavus Adolphus, 0.
La Crosse normal, 1; River Falls normal, 10.
Jamestown college, 6; Concordia college, 3.

COX IS LEADING DRIVER ON GRAND CIRCUIT TRACKS

Wins More Races and Money Than Any Other Teamster.

Philadelphia, Nov. 4.—The antics have been hung up for the winter in this section of the country, with the exception of a few nearby matinee clubs, which race for ribbons and glory. Down the big line, the Grand Circuit of 1922, the most of the reinmen swung into their accustomed places on the winning lists.

THE STOVE LEAGUE

BY JOHN B. POSTER.

They were superior in play to their older rivals.

In total runs the National league gained on the American this year, as the former scored eighteen runs in five games to eleven in five games for the Yankees. That brings the grand total to 345 runs for the National league as opposed to 227 for the American league. The difference of sixteen runs between them is almost the average total of a whole world series for one team. The National league clubs are better runners than the American league clubs.

THREE BIG TEAMS WITHOUT GAMES

Chicago, Nov. 4.—The war of words in the Western conference was made a side issue for a few hours today, while plunging backs and charging lines brushed aside the breath of football scandal.

CLABBY OUTPOSTS O'KEEFE.

Indiana's Hector, Ind. Nov. 4.—Jimmy Clabby of Hammond, Ind., outclassed Danny O'Keefe of South Chicago in a 10-round bout here last night. In the opinion of spectators, they fought at 152 pounds. Frankie Walsh, welterweight, Chicago, knocked out Johnny Nolan of Elgin, Ill., in the first round of a scheduled 8-round bout.

ATTRACTIVE SOCIAL AFFAIRS TO BE HELD

Local Society Leaps From Lethargy to Pronounced Activity; Full Calendar

Irene Castle Engagement Opens Period of Rush in Social Circles and Soon Comes Charity Ball; Numerous Private Affairs Are Slated.

SOMETHING has happened to local society. It has come out of its lethargy and the social calendars of maids and matrons are dotted with interesting affairs. One of the largest events will be the Irene Castle production to be given on Friday evening at the Armory.

Several attractive affairs have been planned in compliment to Mr. and Mrs. Paul A. Vanneman, Jr. of Philadelphia, who are the guests of Mrs. Vanneman's parents, Mr. and Mrs. J. H. Vanneman, on Monday evening.

Another noticeable date in midweek's calendar forecasts the dancing parties which the members of the Kiwanis club will give at Piper's ballroom.

On the second and fourth Tuesdays of each month the Tuesday club will meet for dancing parties at the Piper ballroom.

Among the interesting private parties given in the clubrooms, promises to be a most interesting affair, as a cast of thirty is being working for some time under the direction of Earl Baker, who has been drilling and rehearsing them.

Half the Joy in Dining Is in the Table Service. Delectable and succulent chicken, meringued pie done up and served in the best of china with the nicest silver for company, and bread pudding, flank steak or prunes on the old dishes, with no garnishing for the family is the trick of a number of housekeepers.

Prunes are probably the most common fruit that we have, and when served half-cooked, in a mummy liquid, with absolutely no flavor, their unpopularity is not to be wondered at.

Flanked hamburger steak is not well known, but it is delicious. Flatten out the chopped beef slightly, shape like a porthouse steak and insert a strip of suet to represent the bone.

Mr. and Mrs. E. Vandenberg, 1102 Lake avenue south, announce the birth of a daughter last Sunday.

Mr. and Mrs. Edward Copland have moved from Sixteenth street to 193 Lake avenue south for the winter.

Minstrel Show to Be Given at Elks' Club. The Elks will open their season of social features by their annual minstrel show, which they will give on Nov. 8 and 9, Wednesday evening's performance will be for the Elks only and on Thursday evening it will be given for the Elks' ladies and their friends.

An attractive guest in the city, for whom many delightful social affairs have been planned, is Mrs. Paul A. Vanneman, Jr. of Philadelphia, who with the guest, her parents, Mr. and Mrs. F. H. Vanneman, is in charge of the group of young society girls who are to usher and give out programs at the Irene Castle production to be put on at the Armory next week by Mrs. George Richards.

MISS DOROTHY CROSBY. PHOTO BY NORMAN.

University Homecoming and Annual Struggle With Wisconsin Attracting Duluth Adherents in Search of Thrill

AN any thrill be quite the same as that experienced when one looks over the grandstand of a football field, crowded with girls in fur coats with their gay colored hats, and corsages of chrysanthemums, as the strains of the song of one school come across the field, followed closely by the voices of the students on the other side of the stadium?

Homecoming at Minnesota this year is more than the usual demonstration, for aside from renewing old friendships, and revisiting old haunts, the alumni are signifying their co-operation in regard to the erection of the new stadium, and the auditorium which will be erected in honor of the university soldier dead.

Among the Duluthians who are in Minneapolis over the week-end are Miss Alexandra Van Bergen and Mrs. Max Purford, who motored down on Tuesday.

Mr. and Mrs. Theron Hawkes, Miss Eleanor Currie and Roland Hawkes motored down this morning, as did Howard Sikesforth.

WEDDINGS AND ENGAGEMENTS. Miss Sarah Renaudis, daughter of Mr. and Mrs. P. J. Renaudis, became the bride of Frank Lohelbe on Tuesday, Oct. 31, at 3 o'clock at St. John's Baptist church, which was decorated with yellow and lavender chrysanthemums.

Pleasurable Events at State Teachers College This Week

The juniors at the Duluth state teachers college whose names begin with letters from M to Z were entertained at a tea party in the kindergarten on Thursday afternoon.

New officers elected for November by the third and fourth grades school city are: Mayor, Cameron Newell; street commissioner, Jack Kleitich; commissioner of public safety, Alva Parker; park commissioner, Margaret McCloud; health commissioner, Donald Walker, and city clerk, Betty Bradley.

Mr. and Mrs. E. H. Fleury also left early today. Mr. and Mrs. Theron Hawkes, Miss Eleanor Currie and Roland Hawkes motored down this morning.

Mr. and Mrs. Theron Hawkes, Miss Eleanor Currie and Roland Hawkes motored down this morning, as did Howard Sikesforth.

There are two methods for planting bulbs in the house. One can grow them in earth in pretty painted flower pots, or in water in an attractive bowl with some pebbles in it.

Women Preparing For Red Cross Drive; Responding Well

Women have been taxed for so much volunteer service lately that one often wonders just when they get time to do some of the things they really desire to do.

So far the Red Cross has met with splendid results in gaining the women's support.

Women Preparing For Red Cross Drive; Responding Well

Women have been taxed for so much volunteer service lately that one often wonders just when they get time to do some of the things they really desire to do.

So far the Red Cross has met with splendid results in gaining the women's support.

Mr. and Mrs. E. Vandenberg, 1102 Lake avenue south, announce the birth of a daughter last Sunday.

Mr. and Mrs. Edward Copland have moved from Sixteenth street to 193 Lake avenue south for the winter.

Mr. and Mrs. E. Vandenberg, 1102 Lake avenue south, announce the birth of a daughter last Sunday.

WOMEN'S COUNCIL NOVEMBER WEEK

Needlework Guild Roundup to Be Held Next Tuesday to Provide Needy With Clothes

Twenty-Nine Years of Usefulness Helping Other Organizations Help the Helpless; Overlap With No Other Societies.

THE COMMUNITY DRIVE is past and the Red Cross drive is still quite a few days ahead, but there is one campaign which is almost ready for the grand, and that is the Needlework Guild "roundup," which is to take place next Tuesday at the Duluth Curling club, when the many captains from all over the city will be at the club to receive the heaps and heaps of articles destined to comfort, via the route of the Needlework Guild, countless local families in dire need of clothing and provisions.

For twenty-nine years the Needlework Guild of Duluth has been carrying on the splendid work of fitting into the general scheme of charity work and helping out in all the needs of the city and the fields of other charitable organizations. For many years the Associated Charities has acted as a general clearing house for the guild and has directed the women to places where need is felt the most keenly.

Early in the season various district captains of the city are told that they are responsible for 110 articles and some money supporters, and are asked to get their things in by roundup time. They in turn communicate with women in their districts and get the promise of their quota of garments. These things are piled up until the roundup, when the things begin to pour in to the district captains.

No Religious Lines.—There is no religious sect to the organization and all the garments and funds are used for local charity. Anything is acceptable from infants' wear to old ladies' clothes. Many felt this year that the activities of the guild were not in line with the Community fund, but upon careful investigation it has been found that the Community fund and the Needlework Guild are in no way antagonistic, but that the latter is an extension of the former.

This year the Salvation Army has been added to the list of beneficiaries, which includes the following as beneficiaries: Bethel Home, Children's Home, St. Paul's Orphan Home and Swedish Bethany. Many individual women. The present officers' list, which includes Mrs. Thomas Merrill, honorary president; Mrs. A. C. Weiss, president; Mesdames R. Draper, Margaret Copeland, E. B. Gates and D. W. Stocking, vice presidents; Mrs. H. H. Meyer, secretary; Mrs. P. E. Lindahl, assistant secretary; Mrs. S. W. Dix, treasurer; and Mesdames D. C. Bond, J. O. Crosby, A. B. Schwartz, Alex. Hartman, O. S. Wilson, W. H. Eversard and M. E. Hanson, executive committee. The guild contains a number of representative women whose efforts and enthusiasm are directed into channels of this sort.

Last year 5,275 garments were donated and in 1922 it is hoped to reach the goal of 6,000. This year the aim of the organization is to try to equal last year's record. It is provided that American-born women have the cooperation of every patriotic woman in the city. If any woman who wishes to contribute has been overlooked in the campaign she is urged to send her name to Mrs. C. Weiss with her name attached so that she will be credited for her donation.

Woman's Council Hears Talks on Variety of Subjects, From Weeds to National Legislation

At a meeting of the Woman's Council which was held in the library clubrooms yesterday a committee composed of Mrs. J. D. Titcomb, Mrs. M. B. Baldwin and Mrs. T. Cole, which had been appointed at a board meeting, was announced. They are to investigate the regulations of dance halls.

Mrs. J. D. Titcomb read a report of the district which was held at Chautauqua last June. She said that she didn't believe there was anything ever done in the world that was not discussed at that convention at which twenty-three resolutions were adopted. Mrs. Harper spoke on the elimination of the obnoxious weed, and gave a most interesting account of the work that had been done in and around Duluth, and the weeds that were most prevalent. He said that fifteen acres of white daisies had been cut. While they may be beautiful if they are in a field they will destroy it as a pasture. The rag weed is very thick around Duluth, and unless we get rid of it we can't boost Duluth as a hay fever resort. Mr. Harper has had sixty-seven square miles of territory to cover, and it is too much for one man, he declared.

On National Legislation.—Mrs. C. C. O'Connell gave a brief report of national legislation. She told about the Cable act which was signed Sept. 22, and which gives married women citizenship in their own right. It provided that American-born women who marry foreigners can retain their own citizenship unless they renounce it.

Against Farmers' Aid Law.—In passing the bill which has to do with aiding the farmers we are not only letting class legislation come into our Constitution, but we are paving the way for more, she declared. We are opening the door to a body of elective men who are not financiers. While they may be beautiful if they are in a field they will destroy it as a pasture. The rag weed is very thick around Duluth, and unless we get rid of it we can't boost Duluth as a hay fever resort. Mr. Harper has had sixty-seven square miles of territory to cover, and it is too much for one man, he declared.

On National Legislation.—Mrs. C. C. O'Connell gave a brief report of national legislation. She told about the Cable act which was signed Sept. 22, and which gives married women citizenship in their own right. It provided that American-born women who marry foreigners can retain their own citizenship unless they renounce it.

Apathy Seriously Imperils Nation, Head of League of Women Voters Warns People

The country is seriously imperiled by just one thing—the apathy of enfranchised men and women, and the danger that threatens is greater than the menace of any army enemy," said Mrs. Maud Wood Park, president of the National League of Women Voters. "Destruction of our commerce, bombardment of our coast cities, invasion of our shores, could in no wise destroy us. Our country is too large, too varied, too rich, ever to be conquered, but it can be wrecked from within. It can cease to possess a democratic government if the people wish, their best interests, and become an autocracy ruled by the vicious or stupid few, and every man or woman who fails to vote this year contributes all that is in his power to such an overthrow of the republic as it is possible to imagine."

On Excuse for Not Voting.—"There is no excuse for neglecting to vote. I have heard it said in one place that both tickets are so bad neither deserves support. That is a shallow and ignorant plea for the men on both tickets cannot be equally undesirable. The man who does not vote is a wholly bad ticket in the field. The 'plague on both houses' attitude is the attitude of the mentally inert. It is clear to thinking minds that to vote for the better man is a duty no more to be neglected than any other of the duties which belong to honor and a clean conscience and right living."

Smith College Is Trying Honor Plan; Differs From Others

A unique experiment in educational methods is being carried on by Smith College. This experiment, known as the honor plan, is based on the hypothesis that able students need pleasure to think and read rather than assignments. During their first two years of college they are supervised and have acquired habits of study and intellectual interests and to be ready for more intensive application in some chosen field. So, at the end of their sophomore year, all students having an average of B or more may become candidates for special honors by the removal of many of the usual routine requirements.

D. A. R. to Give Series of Benefit Bridge Parties

The Daughters of Liberty chapter of the D. A. R. will give the first of a series of bridge parties at the home of Mrs. T. J. Davis on Friday at 2 o'clock. Mrs. E. A. Sparks has charge of reservations so that anyone wanting them should call her. Mrs. W. J. Prince is the chairman of the committee of arrangements. Mrs. Isaac Moore is the other member of the committee.

What Has Become of Household System of Grandmothers' Time? Do Modern Ways Improve?

Grandma Had Day for Everything; That's Shattered; Do Modern Appliances Accomplish Results in Less Time and More Effectively?

ON THE DAYS of our grandmothers every day had its own meaning, and Monday was wash day for everyone. If the washing couldn't be done on that day the week was ruined, and nothing could make it right. Tuesday was always ironing day, for the clothes couldn't remain unironed after Tuesday. Wednesday the mending basket emerged, and it was a tidy bit of mending that was done, and there wasn't the case of putting on a stocking and then having to hastily sew up a rip before one could go forth into the outer world. On Thursday and Friday the cleaning was done, and the housewife could sit in comfort for the rest of the week, knowing that her house was in order. On Saturday the baking was done, bread for the week, cakes, cookies, doughnuts and all kinds of goodies. On Sunday the cooking for Sunday, Sunday was a day of rest, in spite of the large Sunday dinner, and the dear wife deserved it. It was the one day that she could breathe for a minute, knowing that she wasn't leaving something undone.

How different is our modern life and modern housekeeping! Some houses have no working plan, and everything is a jumble-jodge with all ways some work that has been left, and no particular time for doing anything. Modern laboring conditions and modern inventions have done all kinds of things to the old-fashioned routine of housework, and even though there be a definite working scheme, things are more or less turned around. Some women who take in washing send Johnnie after it in a Ford, and then they do it at home with the modern washing machine. Nowadays if there is no particular concern it is much easier to throw away an old pair of friend husband's socks than to mend them.

Housecleaning is entirely changed from that of the good old days. Everyone does their own part, and vacuum cleaner has done more than anything else to change this plan of work. Washing days are now changed to daily cleaning hours. The spring and fall housecleaning is usually a matter of several days of concentrated effort, although some women have even upst their by doing a room a month. It may be no particular concern it is much easier to throw away an old pair of friend husband's socks than to mend them.

Results Apparent.—The question of whether the home is less tidy than it used to be or whether they are cleaner seems to solve itself. Good housekeeping is as much of a habit as caring for the children, and there are women of the positive and negative type. While the attitude toward the home are alluring, some women will never leave until every thing is in order, for even the remembrance of a hidden bit of dirt annoys their souls, and would spoil an afternoon of bridge. And again, there are some women today hit the high spots in cleaning are the last things in the world to hinder their pleasure. As some women today hit the high spots in cleaning are the last things in the world to hinder their pleasure. As some women today hit the high spots in cleaning are the last things in the world to hinder their pleasure.

Lodge, Church and Club Activities.—The Scottish Rite is planning a vaudeville to be given at the ladies at the Masonic temple on Thursday evening at 8 o'clock. Ralph Davis is the chairman of the committee in charge, and the students, which are being kept a secret, promise to be good ones.

Club Events of the Evening Week.—Sunday, 7:30 o'clock at the Y. W. C. A., at 4:30 o'clock. Monday, Trinity Cathedral guild at 8 o'clock. Tuesday, 7:30 o'clock at the Y. W. C. A., at 4:30 o'clock. Wednesday, 7:30 o'clock at the Y. W. C. A., at 4:30 o'clock. Thursday, 7:30 o'clock at the Y. W. C. A., at 4:30 o'clock. Friday, 7:30 o'clock at the Y. W. C. A., at 4:30 o'clock. Saturday, 7:30 o'clock at the Y. W. C. A., at 4:30 o'clock.

Note the gentle after-tingle it gives. That tells the story why JAP ROSE is different from all other soaps — it cleanses the pores in the skin, not only the surface.

AUTOMOBILES

SCOURS EUROPE FOR RACE ENTRIES

Hoosier Speedway Representative Goes Abroad; Memorial Day.

Indianapolis, Ind., Oct. 28.—Carl G. Fisher, president of the Indianapolis Motor Speedway company, announces that T. E. Myers, secretary and general manager of the Hoosier track, has sailed for Europe. The Indianapolis Motor Speedway company sent Mr. Myers to Europe to get a line on the prospects for European factory entries in the eleventh annual international 500-mile sweepstakes, on May 30, for 123-cubic-inch cars.

European factories have raced the 123-cubic-inch class this year in the French Grand Prix and the Monza speedway at Milan, Italy. On the latter course, which is Europe's first attempt to duplicate the Indianapolis course, the Europeans have also had success with the 91-cubic-inch class. These classes, in European terms are known as the two and one-half and one-half liter divisions, being based on the cubic inch piston displacement of the engine.

Due to the number of European factories racing the small classes, Mr. Myers expects to have a greater number of European entries than ever before in the eleventh annual 500-mile event. W. F. Bradley of Paris, the European representative of the Indianapolis speedway, will accompany him on his visit to the European factories. Mr. Myers plans to visit factories in England, France, Belgium, Germany, Austria, Italy and Spain to inspect the factories and to meet with the Hoosier and the new Monza track at Milan.

With Admit Germans.
The Italians have permitted the German race teams to compete in their events and the Indianapolis speedway has decided to accept entries from Germany and Austria for the coming year.

It is expected that Louis Costantini will race with a team of English Sunbeams, that Ernest Ballot will again put a Fiat team in the field and that the longest of the Fiat team in 1923 and the Italian have been anxious to race at Indianapolis since 1917, but have never felt their cars could make the kind of a showing necessary to win at Indianapolis.

The decision to accept German entries should bring back the Mercedes type which were prominent in the early 500-mile events and with which Hahn in Palma won the 1915 event. The Mercedes factory has had two-litre cars since 1914.

The increased interest in Europe and the announcement recently that the Packard Motor Car company would be back in the game next season, augurs a record entry list for Indianapolis next May 30 in spite of the reduction of the piston displacement. Judging by the speeds made by the European cars in the races in France and Italy during the present season the speed next Memorial Day should equal that of last year when Jimmy Murphy shattered all marks by averaging 94.88 miles per hour for the five-century grind.

Pierce-Arrow Sales for Fall Months Break All Records
Fall sales of Pierce-Arrow passenger cars are continuing their upward curve, according to announcement made by Myron E. Forbes, vice president of the Pierce-Arrow Motor Car company. Total sales made during September were the greatest made in any September since 1915, showing a 120 per cent increase over the total of a year ago.

Indicative of the increase in volume of business is the fact that September orders showed an increase of 10 per cent over the previous month, which was the biggest August in the history of the Pierce-Arrow company.

The company's big plant at Buffalo, N. Y., is running on a full-time production schedule to keep pace with the accelerated demand for Pierce-Arrow cars.

See Profit and Health in Car.
Better business and healthful recreation are the chief assets of a motor car. In the opinion of Felix Block, 135 East Broadway, New York, who recently won an automobile in a newspaper contest. Says Mr. Block: "I suppose every one wants a car. I know I do. It comes in handy. You see, I'm a salesman of knit goods, and I can use it in my work. But even more than that, I've been wanting one to take my mother out in. She isn't very strong, and you should have seen how delighted she was when she heard I'd won it!"

YOUR CYLINDERS NEED REGRINDING
WE DO REGRINDING
Our long experience and years of service in the automotive industry make our advice valuable to you. Our shop is busy. If your cylinders do not need regrinding we will be glad to tell you so.

HITTIN' ON HIGH

George O. Watson, manager of the L. A. Ocell Motor company, spent several days this week visiting various Durant agencies in the range district.

George L. Wilson of the Pioneer Auto company was taken to his home this week and will remain there for the next month until his ankle becomes sufficiently strong again. Mr. Wilson tried to make the third green in one at the Country Club several Sundays ago and in taking an extra hard swing at the ball missed, slipped and broke his left ankle.

Members of the staff of the Service Motor company, Duluth Ford agency on Superior street, are laughing this week at the rare one they heard pulled the other day by an elderly woman, who accompanied her daughter and son-in-law on a prospective buying tour at the agency. Standing before the beautiful Lincoln car on display in the sales room, she turned to her companions and in a loud voice exclaimed: "Who ever said that they Ford wasn't a beautiful car? Why there is the prettiest automobile I ever saw. Daughter, you must buy one."

Martin Rosendahl is an ardent believer in advertising and yesterday quoted as an example of faith well-founded as the fact that he sold thirty-six new automobiles and trucks and sixteen used cars during the month of October. The record for the first two days of November is three a day.

Happy the man, and happy he alone. He who can call today his own; He who secure within can say: Cold weather doth me no harm, I've got my coupe today.

A closed car job in the new Star will arrive next week at the D. A. Ocell Motor company. It was announced yesterday. Five new Stars will arrive in the same shipment. The new demonstration machines have now been placed in the Durant agency at Hibbing, Grand Rapids, Superior and Two Harbors, Mr. Watson said.

Phil Holgate of Holgate, Bolton & Swanette is back again on the job after a week's illness which confined him to a bed in his home.

Orders are being received daily for spring delivery on Maxwell and Chalmers machines. M. E. Montgomery of the Duluth Maxwell company says: "Approximately 40 per cent of the orders are for closed cars, and the indications are that the automobile

BATTERY CHEMISTRY OF AUTO'S ELECTRIC SYSTEM EXPLAINED

The chemical changes which take place in your storage battery are said to be "reversible." That is to say, the acid in the battery solution acts upon the active materials in the plates and electrical current is generated during the process. When electricity is passed into the battery the changes are reversed and the acid in the plates is liberated and returned to the solution, while the plates return to their original composition.

While the battery is discharging, the active material of the positive plate, which was originally lead dioxide, is converted to lead sulphate through combination with some of the acid in the battery solution. The material of the negative plate that was spongy lead becomes lead sulphate in the same way. The solution becomes weaker in acid by this process, as is shown by the lowered density when tested with a battery hydrometer.

Lead sulphate on the plates has a greater volume than the lead peroxide or spongy lead formerly there, and forms a layer of inert material over the remaining active material. Thus the weakening battery solution cannot penetrate the sulphate to reach more unchanged active materials and the battery becomes less active and its voltage lower.

In recharging a battery, direct current must be passed through the cells in a direction opposite to that of discharge. During this period the lead sulphate on the positive plate is reconverted into lead peroxide, and the lead sulphate on the negative plate is reconverted into spongy lead. The electrolyte gradually increases in density and at the end of the charge will be of the same strength as before the discharge.

The Willard Storage Battery company of Cleveland, together with most other nationally known storage battery manufacturers, has always urged that no other substances of any kind be placed in a lead sulphuric acid battery. The proper chemicals have been placed in these batteries by authorized service stations. None of these chemicals are lost through use or evaporation and nothing but distilled water should be added by the users.

HUP PUTS OUT NEW MODEL FOR FOLK WHO LIKE SNAPPY CAR

In order to answer a steadily-growing demand among some of the Hummobile enthusiasts for the specially-equipped type of car, so much in vogue now, that concern has just announced a new model of that distinctive in both touring car and roadster styles.

While the new car, carry a full line of the fancy equipment which is so closely associated with certain modern demand, they still follow out the long established Hummobile policy of avoiding the extreme.

The radiator, radiator cap and bar, the cowl lamps and barrel head lamps are all nickel-plated and of the most advanced Hummobile design. Aluminum scuff plates are on the running board. Disc wheels are standard equipment, and the top is a Special Burbank in brown.

The roadster and touring car are alike in equipment except that the roadster carries the additional equipment of nickel-plated bars on the rear deck and a tilted tire carrier.

Except for the changes noted above, both cars are the same as the standard Hummobile models.

"The advent of a specially-equipped type of car in the Hummobile family does not mean that we have any thoughts of substituting it for the standard line," said O. C. Hutchinson, general sales manager.

"The new car is designed especially for that increasing class of buyers which seeks the specially-equipped models. And because it is

SEDAN GIVEN TO FASTEST FLYER

Just before departing for his home in San Francisco, Lieut. R. L. Maughan, who won the Pulitzer trophy when he broke the world's speed record in the aviation races in Detroit, was presented with another and wholly unexpected trophy. It was a new Dodge Brothers sedan, given by Dodge Brothers, Detroit manufacturers, as evidence of their interest in the promotion of aviation.

The ceremonies were witnessed by Herbert Hoover, secretary of commerce; Brig.-Gen. William Mitchell, assistant chief of United States air service, and other notables. Immediately after the presentation, Gen. Mitchell mounted the plane in which Lieut. Maughan had lowered the world's record and proceeded to establish other records for straight flights.

The gift of the sedan is particularly significant in view of the fact that it is the first car ever presented to an individual by Dodge Brothers.

Secretary Hoover commented on it as a "splendid example of the patriotism that the country needs if it is to maintain its superiority in the air."

Gen. Mitchell was equally enthusiastic.

Mr. Bloomer, in his presentation address, said:

"It is our belief that an adequate air force, equipped and maintained to the highest point of efficiency, is absolutely necessary to the safety of this country. Because of this we rejoice in presenting a specimen of our own product to the winner of these contests, feeling that by so doing we are evidencing our respect and admiration for all those who have contributed in any way to your remarkable achievement."

Lieut. Maughan departed immediately for his home in San Francisco, where the Dodge Brothers dealer, J. E. French, formerly of Detroit, is arranging for a huge reception when he arrives.

so attractive—so appealing to the popular demand—we expect that at least 50 per cent of our open car production will soon be devoted to its output."

market next spring will be the greatest in the history of the country.

T. H. Bell, sales manager of the Northwestern Automobile company, Minneapolis, spent several days this week in Duluth looking over the Oldgoobile field.

"A horse! A horse!" yelled King Richard as his car bogged in the mire—but that was before we had the Miller trunk road from Duluth to the range. Nowadays you won't need a horse and don't have to give a kingdom for an automobile either.

The boys up at the Durant agency are preparing to take a vacation up in the North woods chasing the elusive deer next week. Col. Griffin has promised to supply all of the boys with venison enough to last them throughout the winter, which is believed to be a slight exaggeration.

J. M. Muggus of Minneapolis, Duluth, spent last week in Duluth, the guest of Martin Rosendahl, and incidentally looking over the Reno field bars.

The good Maxwell has demonstrated hill climbing ability never equalled by any car in any price class. In a laboratory test conducted by a leading scientific school, it actually negotiated a grade with a percentage of 123 in high gear. More than 100 much higher priced cars similarly tested failed to reach the Maxwell record. Only a most powerful engine, perfect car balance and easy rolling bearings enabled the good Maxwell to perform such an unparalleled feat.

Cord tires, non-skid front and rear; disc steel wheels, demountable at rim and at hub; drum type lamps; Alameda lubrication; motor-driven electric horn; unusually long springs; new type water-tight windshield; snug, cushions that open with the doors. Fine Closed Cars With Fine Car Equipment

Coupe \$1445—Sedan \$1465 F. O. B. Detroit
Tax Extra

It is now very generally conceded that the mechanical foundation of Jewett cars is one of the great engineering triumphs of the year. There could be no more perfect six-cylinder motor. There could be no stronger or more efficient chassis from radiator to rear axle.

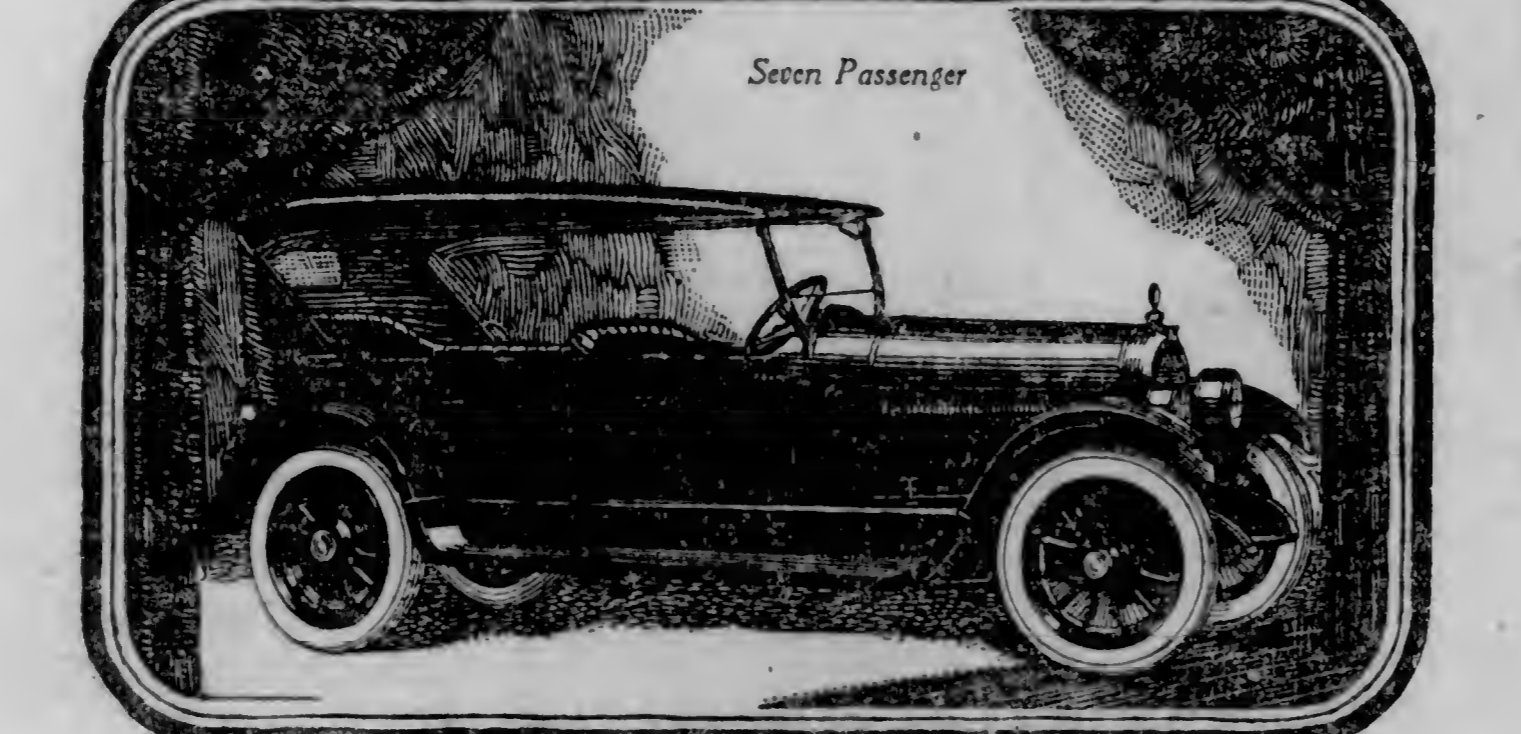

But inspect the Sedan and Coupe and you will make another startling discovery. Despite the extremely low prices, you will find yourself viewing the finest of body work, upholstery and general appointments. Then, and then only, you will appreciate that these are fine cars that set an entirely new standard of value. Here there is no compromise.

Study the list of Jewett features at the right. They tell a story of refinement that has never been equalled in the popular priced field.

The complete Paige-Jewett line of six-cylinder passenger cars offers a selection of thirteen models priced from \$995 to \$3350. The complete line of Paige trucks meets every haulage need. They are sold and serviced by Paige Dealers everywhere.

First Showing of The New Marmon Phaeton with the Panorama Top

Prepare for a surprise. The new Marmon Phaeton exceeds all expectations. Come and see it at once—become acquainted with the latest mode—learn what will be the accepted vogue a year hence.

Smarter lines, graceful modeling, a lower, rakish skyline, and many architectural refinements make this new Marmon the handsomest, smartest car you've ever seen. One striking feature is the Panorama Top—which brings for the first time a perfect all-season car—an open touring car in summer and a snug Sedan in winter—at very little extra expense.

Examine the Phaeton carefully, drive it or ride in it—you'll discover the added refinements—the heritage of 20 years of experience in building fine cars.

But to attempt to describe this tomorrow-type Marmon car is difficult—you must see it and ride in it to fully appreciate its many advancements and its beauty. It is

TIME FOR MAKING OF ROAD LAWS NEAR

Many Legislatures Meet in 1923 and Bills Are Being Prepared.

Matters of import to the motorists of the United States will be before the legislatures of forty-three states next early in 1923. Of this number, twenty-one states meet in January, one, Florida, in April, and one, Georgia, in June. The five states in which legislatures do not meet in 1923 are Kentucky, Louisiana, Maryland, Mississippi and Virginia. In a statement of the National Motorists' association, "Officers of highway commissions in the forty-three states in question are now busy preparing drafts of new, or amendments to old legislation for submission to legislative bodies when they convene. These drafts doubtless will contain suggestions with reference to the bridging of state laws in line with the Federal aid law, the question of their prevention, motor registration, legislation controlling headlights, automatic signals, etc., and having to do with taxes and fees in the operation of motor vehicles.

"Still other subjects to be given consideration will have to do with the question of detaching motor vehicles to be common carriers, uniform traffic laws, elimination of grade crossings, highway enforcement legislation, snow removal, in addition to dozens of other pertinent and important related matters.

N. M. A. Support.

"The National Motorists' association through its national headquarters in Washington, and its affiliated clubs in the different cities, will keep in touch with the progress of legislation affecting directly or indirectly the interests of motorists, and will give support to those measures deemed for the best interests of motorists.

"It is important that states which have not already done so comply with requirements of the Federal aid road act within the next few years. If they are to gain the benefit of its provisions, according to the bureau of public roads, in the charge of the execution of this act.

"In the states in which legislative sessions are held next year (Georgia, Massachusetts, New Jersey, New York, Rhode Island and South Carolina meet annually in odd-numbered years, except Alabama, which meets quadrennially. That a vast amount of road legislation is badly needed, and that highway development problems will be widely regarded throughout the United States. If legislative bodies meeting in 1923 fail to meet the needs of the times, it is evident, according to the executive officers of the N. M. A., that the highway program is in jeopardy.

BE A ROAD "SMILER"

Are you becoming a nation of motorist grouches? Why is it that a perfectly healthy man, normal in every way, kindly at home, popular among many friends—genial and cordial to meet socially and professionally—immediately becomes an overbearing, sneering grouch behind the wheel of his automobile or truck?

What is there about "driving" to accomplish such a metamorphosis? Should the milk of human kindness get all curdled up because we have "sped up" traffic? Is an extra minute or two—a slight delay caused by a neighbor motorist sufficient cause for intolerable selfishness in an otherwise normal individual? The answer is obvious.

We rush along our heedless, thoughtless way, thinking that because we don't know the name of our neighbor on the highway we are entitled to abuse, cowl or even curse him for having the nerve to get in our way—or cause us a slight inconvenience.

If our selfishness ended with words, however, there would be little harm done. But selfishness and thoughtlessness cause most of the accidents on the highway. It is time we became neighborly, affable, genial and kindly on the highway.

I would like to launch a society or group or club—call it what you will—"Road Smilers." Various automobile clubs around the country have started interorganizations called "Safe Drivers' club" or "Accident Prevention societies" or the like, and I would like to offer this suggestion to these organizations. The desire for safe streets, less accidents, reduction of congestion and a fairer deal for every user of the highways must come from the minds of those every-day folks you meet and pass continually on the streets. Why not ask them to sign a pledge to be a "road smiler"?

IMPORTANT OFFICE IN CHALMERS CO. IS FILLED BY E. B. WILSON

Detroit, Mich., Oct. 28.—An appointment of universal interest in motor car circles was made yesterday by Arthur E. Barker, vice president of the Chalmers Motor company, with the announcement that Earl B. Wilson, long and favorably known in various motor car sales capacities, has been selected for the office of director of sales in the Chalmers organization. Mr. Wilson entered the wholesale selling field almost eight years ago with one of the leading farm machinery manufacturers, and for a number of years thereafter was connected with various farm implement companies as a sales executive.

His entrance into the motor car industry was with the Buick Motor company, where he served both as a retail and wholesale sales executive. In 1916 he was made sales manager of Buick's Chicago branch and also organized and managed a similar Buick organization in Memphis. Later he was placed in charge of the important Philadelphia branch. He was then appointed director of sales of the Buick Motor company with headquarters at Flint. After leaving the Buick organization and until the present time, he served in a sales managerial capacity for the Willys corporation in Memphis.

Nash device that permits light adjustment to any angle quickly. Across the front of the chassis side-members is a heavy bar that anchors the frame solidly against "weaving" or road strain.

AUTO NECESSARY TO FARMER THESE DAYS

"The automobile has been a great boon to farm life," maintains George O. Watson, manager of the D. A. Odell Motor Car company, local dealer in Durant and Star cars. "In the past there was always a great exodus of farmers' sons to the city. The farmer, because of its distance from the city, and often from the railroad, its lack of entertainment and recreation, the tedious long drives to town, was everything but appealing. The motor car has changed this.

"Today the younger generation finds the farmer much better situated. No longer can the complaint of isolation stand. The automobile has eliminated the great stretches of distance between the city and country. Easy access to town and the market is accorded the farmer.

"The farmer finds a multitude of uses for the automobile. Business, recreation, entertainment and even culture has been facilitated for him through the motor car. He can get his produce to town much quicker and easier; transact his business promptly and thereby save time for more work upon the farm, or for cultural and recreational pursuits.

Moving Jennings, Mich. by Truck. The town of Jennings, founded about twenty-five years ago, is being moved today by motor truck to Cadillac, Mich., a distance of eleven miles. The houses to be moved vary in size from 24 by 30 feet to 24 by 40 feet. The eleven-mile trip is made in about four hours.

LINCOLN SERVICE

The satisfaction to be derived from the operation of an automobile is in direct proportion to its quality, the facilities provided for its maintenance and the care which it receives. Only when these elements are well balanced does the purchase of a motor car become a good investment.

And Yet Another Service

A complete Solid Tire Service is now at your disposal. At a very considerable expense we have installed equipment with which we can re-cut the original all-weather tread in your solid tires when they are worn smooth. This adds thousands of traction and cushioned miles to the life of your solid tires.

Service Counts

H. V. Eva Tire Co.

"Goodyear Master Service Station"

DRIVE-IN SERVICE

GOODYEAR

Lincoln owners know that Lincoln cars in ordinary usage demand little attention other than the replenishment of gasoline, oil and water. That is because the service requirements of motor cars are in inverse ratio to the quality and character built into them by the manufacturer.

Periodic inspection, proper lubrication and minor adjustments, when necessary, are essential to the proper and prolonged functioning of any piece of machinery. With quality as a prime factor, it is the secret of economical and dependable transportation.

To insure the operation of Lincoln cars as a source of uninterrupted satisfaction and enjoyment, through the medium of adequate and convenient service facilities, it is the purpose of the Ford Motor Company that its entire dealer organization be equipped to render efficient and intelligent service to Lincoln owners.

Thousands of Ford Dealers in the United States are being equipped with specially trained Lincoln men, competent to make minor adjustments and of providing for ordinary service requirements.

Under this arrangement, a Lincoln owner, whether touring a continent or crossing his own city, may with confidence enter a Ford Dealer's place of business and be assured of prompt, courteous and intelligent treatment by an organization with a personal interest in his welfare.

It is not intended, or necessary, that all Ford Dealers be equipped to do major repair work or overhauling on Lincoln cars. Adequate provision is made, however, whereby such work will be done in each territory, when necessary, by dealers who are specially equipped to render high grade service in keeping with the character of the product.

We believe that the Lincoln will run farther and require less mechanical attention than any other car in the world. It is significant and a matter of utmost importance to prospective owners of quality cars that the incomparable, world-wide facilities of the Ford Motor Company should make the ownership of a Lincoln even more desirable than ever before.

PURE OIL CO. PAYS DIVIDEND; APPROVES NEW OIL TANKER

Directors of the common stock dividend of 1 per cent cash, payable Dec. 1 to stock of record Nov. 15.

Approval has been given the purchase of an oil-steel tanker of 10,000-ton capacity, built by the Merchants-Shipbuilding corporation of Chester, Pa. It will be put in service immediately as the steamship W. W. Mills, being named for a director of the Pure Oil company.

This is the first tanker to be acquired directly by the company and its purchase is the result of rapidly increasing shipping requirements, due to expansion of the company's foreign business. Pure Oil company's German interest, the Oilworks, Julius Schindler, Inc. is interested in several tankers which have been in service between the Pure Oil refinery at Marcus Hook, Pa., and Hamburg. In addition, Pure Oil company has had a number of tankers under charter during the last year.

The tanker W. W. Mills has a length of 433 feet and a breadth of 66 feet. It is steam powered and has a capacity for carrying 75,000 barrels of oil.

AUTOMOBILE and TRUCK STORAGE and PAINTING

We have storage space for a limited number of cars to be taken under contract for a fixed term—charges to include painting. Also monthly storage for cars and trucks without painting. Make your reservations early to insure obtaining space. Heated building; reasonable rates.

Martin Rosendahl

"Watch 'Em Go By"
The House of Many Friends

Yes, we can truly call this the "House of Many Friends."

People come to me from all parts of this North country and they tell me that this man or that man told them to go to Rosendahl and buy either a truck or a motor car. Last month we sold 36 new cars and trucks. Also 16 used cars. This is the third of November. We sold Landmark & Olson a Reo Truck; we sold Ecklund & Boyland, contractors, a big Samson Truck and we sold J. N. Castonquay, contracting plasterer, a Samson Truck. We probably have 150 good, real prospects who are figuring to purchase trucks and cars from us. Our big service station is a big success. We are in a better position, I believe, to do a greater business than any other automobile concern in Duluth. Why do we sell so many cars and trucks? The answer is: We have the cars and trucks that sell.

Look at the Great Reo Touring Car and Speed Wagon
We sell and we service them.

Look at the Great New Oakland Six—
Made by a division of General Motors. This Light Six is a masterpiece and it is a real motor car worth real money. You can buy one and you have real value.

Look at the Oldsmobile
Also made by a division of General Motors. Who sells a car that can equal the Olds "four" at a price of \$1,095 delivered? It is classy, sturdy and will command big money in the used car market after it has been driven 30,000 miles.

IT IS MADE FOR DULUTH and our slogan will be, "Watch 'em climb." More power than any other car made.

Look at the Samson Trucks
Also made by a division of General Motors. We can certainly feel proud over these trucks. We feel that dozens of families in Duluth have their wood and coal now delivered on account of this great flock of Samsons operating in Duluth.

The Samson boys make money. The Light Duty sells for \$795.00, fully equipped and delivered here. The Heavy Duty at \$1,195.00, fully equipped and delivered.

We have the cars and trucks. We operate the biggest stations in town. We can sell you on time. Come and see us, we will treat you fair.

Light-Six Roadster
\$975

Studebaker

It is not necessary to buy a high-priced roadster to get maximum comfort. Comfort is a matter of correct design. Comfort is built into the Studebaker Light-Six.

The seat is placed at just the right angle for relaxation and is provided with big, fat cushions, upholstered in genuine leather. The semi-elliptic springs are long, strong and resilient.

There is ample luggage space under the rear deck—plenty of room for everything you may want to carry.

Vibration, which is so destructive to motor cars, is practically eliminated by the perfect balance of the motor. This is largely due to the fact that the crankshaft and connecting rods are machined on all surfaces, an exclusive Studebaker practice for cars at anywhere near the Light-Six price.

Economy of operation is increased by valves inclined at a 20-degree angle and by the internal hot spot.

This handsome roadster is a quality car throughout. It is sold at \$975 only because of complete manufacture, in large volume, in one of the most modern and complete motor car plants in the world. Middlemen's profits are thus eliminated, and the savings are passed on to you.

The Light-Six Roadster well upholds Studebaker's 70-year reputation for dependability and dollar-for-dollar value.

NO POWER WASTE OF GAS & OIL SOOTY SPARK PLUGS

FEW motor owners realize how little wear it takes on the cylinder walls to cause them all kinds of trouble. It is essential to have a motor run properly, that the cylinders be rounded and the same must be straight and absolutely square with the base of the cylinders.

Otherwise there will be a noticeable loss of power and pep, excessive use of gas and oil out of proportion to the service rendered, piston slap and a continued fouling of spark plugs.

Realizing that no overhauling job is complete without regrading the cylinders, we have equipped with the finest machine possible and can guarantee to make your old motor fully as good, if not better than new, because the bloc is seasoned and you will get an individually fitted job.

Come in and talk it over

It will cost you nothing and may save you many dollars.

S. M. STRAIN HEADS NEW LEGION POST

West Duluth Post Its Name; Engert Has Active Place.

A. M. Strain was chosen commander of the new American Legion post that held its organization meeting at the West Duluth Y. M. C. A. last night, which will close its membership drive by Friday evening.

Former business manager of the post, Harry Golding, was elected first vice commander, Edward Blechl, second vice commander, Clarence Olafson, adjutant, and Spencer Schiberg, finance officer.

At the meeting the name of the new post was decided to be the West Duluth Post, American Legion.

Former business manager of the post, Harry Golding, was elected first vice commander, Edward Blechl, second vice commander, Clarence Olafson, adjutant, and Spencer Schiberg, finance officer.

At the meeting the name of the new post was decided to be the West Duluth Post, American Legion.

Former business manager of the post, Harry Golding, was elected first vice commander, Edward Blechl, second vice commander, Clarence Olafson, adjutant, and Spencer Schiberg, finance officer.

YOUTHFUL VANDALS GIVEN LECTURE; MUST REPORT TO POLICE

Three parents hovered about the West Duluth municipal court this morning while Judge H. W. Lanners lectured three young men who were arrested yesterday afternoon by the action of the juvenile court after they had persisted in mutilating the fence posts around the cemetery by using them for targets for their rifles and revolvers.

Judge Lanners gave the three young men, Max Linquist, Donald Mosman and Clifford Johnson, a severe lecture on disobeying fire arms within the city limits, and especially their conduct of shooting at cemetery fence posts.

When Judge Lanners got through with the boys, the parents began taking them in tow, and as they left the station were busily engaged in urinating against the destructive spirit of their respective offspring.

Glenn Watkins, former master mechanic of the fire department, arrested for speeding, pleaded guilty, declaring that the officer's speedometer was defective. Judge Lanners ordered a test be made next Friday morning, after which Watkins will again be arraigned before him on the speed charge.

EUCLID CRIBBAGE CLUB WILL BE HOST AT CABARET PARTY

The Euclid Cribbage club, self-styled "World's Champion Cribbage Team" of Euclid lodge, No. 193, A. F. & A. M., will entertain at a cabaret party Friday evening, Nov. 17. Plans for the party were made last evening at a gathering of the committee headed by George W. Small.

Details of the party program is not announced as yet, but from what the committee members are willing to acknowledge there will be several special "stunts" staged. Music for dancers and carousels for those who do not dance will be provided.

An invitation is extended to all associates and their wives or sweethearts to attend. The affair is to be held in the West Duluth temple, 515 North Central avenue.

Club Meeting Postponed. The weekly meeting of the West Duluth Commercial club was postponed last night until next Friday evening. Matters that were to have been brought before the members will be taken up next week, L. A. Barnes, president, announced this morning.

B. A. Y. Will Give Party. Non-Exceller homebased, No. 475, B. A. Y. will hold a social hour Tuesday evening following the regular business meeting. Music for dancing, to be followed by refreshments, is planned. Arrangements for a special joint entertainment for the three Duluth homebaseds will be discussed.

Good Fellowship Plans. An indoor carnival, with dancing, marbled ball games, diving exhibitions, swimming events, gym stunts and many other novelties is being planned

NEW FASCISTI GOVERNMENT OF ITALY HAS MANY TERRITORIAL AMBITIONS

Arrow (1) indicates Island of Malta. Arrow (2), Fiume, on the coast of Sicily, to Italy and bring about a reunion of Fiume with their country. The Maltese islands are now held by England, which operates a naval base there. Fiume has been a problem to Italy ever since D'Annunzio's famous coup.

desire to avoid publicity by contracting parties, particularly in the case of dukes, peers, theatrical stars and other persons when remarrying.

CLUBS AND SCHOOLS TO WAR ON SLANG

Iowa City, Iowa, Nov. 4.—Innocent speech and slang are to be the subjects of a nation-wide campaign by women's clubs and schools of the country, according to Prof. Glenn N. Merry, head of the department of speech of the University of Iowa and chairman of the joint committee of the National Council of Teachers of English, the National Association of Federated of Women's clubs, which are instituting the better speech movement.

"Women's clubs will attack incorrect speech the next week," he said. "Schools will take up the attack the third week in February. In both instances the action will be concerted throughout the country and will be an effort to erase the bad features of our language."

The policy of the committee is determined by a broad ideal of avoiding purism, fadism and artificiality on one hand and vulgarism on the other," he said. "Distinctions of utterance and agreeable voice quality are achievements in speech worthy of cultivation."

mittee, will be attempted in Louisville, according to Mayor Huston Quinn.

This action is to be taken, he said, because of the intention of a number of leading citizens to make gifts to the city to be disbursed for civic work.

In order that the fund shall be properly spent, it is planned to have the committee composed of men of different professions. The United States district judge will be asked to appoint one member, the county or probate judge one, the trust companies one, the Louisville Board of Trade one, and the mayor one. Terms of members are to be from one to five years.

GEORGIA "SENATRESS" LAUDED AS FEARLESS

Columbus, Ohio, Nov. 4.—Mrs. W. H. Felton, United States senator at interim from Georgia, recently appointed following the death of Senator Wilson, is described as "strong and fearless" by Miss Anita Pollitzer, secretary of the National Woman's party, here on business in the interest of the party.

"The grand old woman of Georgia," says Miss Pollitzer, "is not alone respected because she has followed the majority opinion of her state, as evidenced in the national suffrage fight. Even when the National Woman's party began its campaign, in the so-called militant days when only women of stamming dared fight for suffrage, Mrs. Felton, believing that human rights were greater than state's rights, helped and gave of her influence. The Woman's party has always looked upon her as a fearless leader."

"Furthermore, Mrs. Felton looks forward to the future. Last year when she came to Washington she visited the new headquarters of the National Woman's party, and congratulated us upon this stronghold in which work would go ahead for the future."

Miss Pollitzer is here to confer with Dr. Gillette Hayden, Ohio state chairman of the Woman's party, who is arranging a delegation to the national conference of the party to be held at Washington, Nov. 11-12.

with Dr. Gillette Hayden, Ohio state chairman of the Woman's party, who is arranging a delegation to the national conference of the party to be held at Washington, Nov. 11-12.

FISHERMEN WAIT 14 YEARS FOR MENHADEN

St. Ives, Cornwall, Nov. 4.—For fourteen years two gnarled, hawk-eyed fishermen, perched upon a precipitous cliff at St. Ives, overlooking the Atlantic, have watched for the return of the pichard to the Cornish seas. This fish goes by the name of menhaden in the United States.

William Noall and Edward Cothey keep their vigil from dawn until sunset. They never have their meals together—one eats while the other watches for the return of the fish to the bay, which was formerly the pichards' favorite haum.

Fourteen years ago there was the greatest catch of pichards ever known, and wealth came to the local fishermen, but since then the fish

whistling of an engine frightened them away, and possible fortunes were lost.

Imps of Hades armed with red-hot pitchforks could scarcely inflict more cruel, agonizing torture than that endured by many sufferers from neuritis.

The sharp, stabbing pains caused by this disease are usually centered about the shoulder, neck, forearm, small of the back or along the thigh and leg in the region of the sciatic nerve. Sometimes they move from one part to another, sending out lightning jabs which produce untold misery.

You want prompt relief, apply Tysanol over the part that hurts, and the pain should disappear.

Tysanol is absorbed through the pores of the skin and has a soothing, healing effect upon the inflamed, diseased nerves. Contains no "dope," guaranteed harmless. Price \$1 at W. A. Abbott's and leading druggists everywhere. Tysanol Company, Mfg. Chemists, 400 Sutter St., San Francisco.

WILSON'S SWAMP DRAINAGE IS BIG PROBLEM

GAME WARDENS NAB VIOLATORS SHIP BIRDS OUT OF STATE

Iron Mountain, Mich., Nov. 4.—(Special to The Herald.)—A scheme to ship partridge out of the state where they were sold was frustrated before it got very far in the arrest Thursday night of Peter Provost and Alphonse Charifoux by Deputy Game Warden Andrews and Luke of this city. The officers secreted themselves under cover of darkness behind a pile of logs near the road station at Belega and waited several hours for the passenger train to arrive. When the train pulled into the station, one of the men threw a suitcase full of partridges into the baggage car. A new commission on the head of which is George Curry, prominent farmer with J. M. Johnson and Adolph Humble as the other two members, is expected to make material progress during the next few months. Jerod Day, Ashland city engineer, has surveyed a considerable portion of the swamp. The upper portion of White River rises west of the swamp, flowing through it with a rapidly perceptible current, and the dam at Mason, which was built by the lumber company at last year's age, has problems which must be met at the outlet. The swamp is practically impervious in summer and has long been the refuge of numerous colonies of beaver, which become so numerous that under state supervision many were trapped two years ago.

SWAMP IS BIG FOOT HED

Swamp is supposed to be the largest nest of the northern woodcock. In ditching the public highway through a portion of the swamp two years ago, it was found that the ditch passed through a bed of solid peat a mile long. The same conditions prevail wherever excavations have been made. Highway No. 24, the direct road from Chequamegon bay to the Twin Falls, is supposed to be the best road in the swamp, and at times it was practically impassable from the overflow of heavy rains and gully-wash from the swamp. The land, formerly considered valueless, is a solid mass of black vegetation, mud and peat, and small portions which have been drained produce heavy crops.

KELLOGG, LA FOLLETTE ATTACK EACH OTHER AT RIVAL MASS MEETINGS

St. Paul, Minn., Nov. 4.—Senator Frank H. Kellogg of Minnesota and Senator H. M. La Follette of Wisconsin addressed rival mass meetings here last night. Senator Kellogg spoke in behalf of his candidacy for re-election and Senator La Follette spoke in behalf of his candidacy for re-election.

RURAL TEACHER LOPS OFF TOES WHILE SPLITTING WOOD

Aitkin, Minn., Nov. 4.—(Special to The Herald.)—While splitting kindling in his schoolhouse in Aitkin, Minn., near the town of Aitkin, Miss Dorothy Jensen of Pipestone, the teacher, cut off the third toe of her right foot with a splitting axe on her left foot. She was brought to Aitkin for medical care and is staying at the home of Mrs. Harry Descott.

BRIDE OF TWO MONTHS COMMITS SUICIDE

Minneapolis, Minn., Nov. 4.—Two short months of married life and then Mrs. Minnie Lindblom, aged 16, wrote a short, pithy note on the back of her marriage certificate and took her own life.

FARGO SALESMAN IS KILLED AT GRAND FORKS

Grand Forks, N. D., Nov. 4.—W. B. Stevenson, Fargo, N. D., and R. W. Peterson, Minneapolis, died here last night shortly after being struck by Great Northern train No. 4 one mile south of here as they were crossing the tracks in an automobile at about 6:15 o'clock. Mr. Peterson had been here for a few weeks representing the McClellan Paper company of Minneapolis.

Well Known in Fargo

Fargo, N. D., Nov. 4.—W. B. Stevenson, killed in an automobile accident near Grand Forks last night, was very well known in Fargo and Moorhead. He was a traveling salesman for Hoover, Allison, Cord & Co., Minneapolis. He is survived by his widow and one daughter, Helen, aged 7 years.

Candidates Debate

Grand Forks, N. D., Nov. 4.—Attorney General Sven Johnson and H. F. Baker, Nonpartisan league candidate for commissioner of agriculture and labor, debated the comparative records of the Nonpartisan league and independent administrations at the auditorium here last night.

Blank Resignation

St. Paul, Minn., Nov. 4.—The Farmers and Merchants State bank of Cornell, Minn., has resigned because of depleted reserves, has been reorganized and reopened, the state banking department announced.

Minnesota

Winona—Ronald Lester, 15, is in a hospital with a wound in his left leg sustained when a shotgun in the hands of his brother, James, aged 16, was accidentally discharged while they were hunting.

NEW DEVONSHIRE APARTMENTS ENCLOSED; APPLICATIONS MADE

Construction is being made in pushing forward the Devonshire apartments at 121st street and 13th avenue east. The exterior walls are now up and the roof on and workmen are engaged upon the building ready for the reception of tenants by April 1, next. An investment of \$300,000 will be entailed. Applicants for fully paid-out lots of the apartments have already been received, according to the Whittney Wall company, general contractors. Charles E. De Zurik and Herman Catlow of Minneapolis. Carleton Brothers, Minneapolis, are the contractors and Arthur Dahlstrom of Minneapolis is the architect.

SWEDEN.

Americans in Swedish Inquiry. Charles E. De Zurik, president of the National City Bank, New York, accompanied by George Weeks, European manager of that bank, recently spent a week in Sweden, under conditions in Sweden and conferring with prominent financiers. Mr. De Zurik and Mr. Weeks returned to New York last night. Mr. De Zurik is expected to return to New York on Monday. Mr. Weeks is expected to return to New York on Tuesday.

DENMARK.

After its victory passing, with the aid of the Conservatives, the military law, the Liberal government is now endeavoring to pass a limited import regulation, including the import of alcohol. The measure is favored by all parties outside of that represented in the government.

NORWAY.

General News. By the death of the veteran statesman, Jørgen Lovland, Norway has lost one of her greatest sons, a politician of exceptional ability and unblemished character. The son of a poor farmer, Lovland was not able to obtain a university education, but his thirst for knowledge was insatiable, and by patient self-education he became one of the best learned men in Norway, mastering three foreign languages and knowing, perhaps, more of the history of his country than any other Norwegians.

FINLAND.

Loans From Swedish Banks. The Scandinavian Kreditaktiebank and the Stockholm's Enskilda bank, Stockholm, Sweden, have entered an agreement with the Finnish government to place a Finnish loan of 200,000,000 Finnish marks at 7 per cent interest, offered at 95, and convertible after ten years. There has been a steady increase of trade between Sweden and Finland, and it is reasonable to believe that the transaction will prove entirely satisfactory to both sides.

ACTS OF HEROISM ARE SUITABLY RECOGNIZED

Pittsburgh, Pa., Nov. 4.—Thirteen persons who lost their lives in performing heroic deeds were honored by the Carnegie hero fund commission at its fall meeting here yesterday. The acts of heroism were recognized by the commission, which awarded silver medals in four cases and bronze medals in twenty-nine cases. The dependents of eight of the heroes who sacrificed their lives were granted pensions aggregating \$6,780 a year, while in four similar cases \$2,900 was awarded.

HIGHWAYS ARE FAIR FOLLOWING HEAVY RAINS GENERALLY

St. Paul, Minn., Nov. 4.—Minnesota trunk highways in general are in fair condition following soaking fall rains over the state which slowed up the gravelled and ungravelled sections of the system.

MAY ADMIT BELGIUM TO NEAR EAST PARLEY

Brussels, Nov. 4.—The British and Italian governments have received with favor the request of Belgium that it be permitted to take part in the coming conference at Lausanne on Near Eastern affairs. France has not yet announced her stand on the request, but no difficulty in this direction is anticipated.

THE WOMEN

Have equal rights at the ballot box with the men. The women of the state are eligible to representation as officeholders. In this great county of 200,000 or more souls, only one woman is running for office, viz: CATHERINE B. LAWRENCE. Candidate for REPRESENTATIVE 67th Legislative District. Support her at the polls if you believe in justice and representation for the women voters.

CONDENSED DISPATCHES

Des Moines, Iowa, Nov. 4.—Nine former city employees were indicted by a grand jury here on charges of conspiracy in connection with alleged irregularities in the disposal of city funds. The irregularities are said by state investigators to involve more than \$100,000.

THRIFT, ECONOMY AND INDEPENDENCE

BUY AND BUILD IN DULUTH

THE HOME BUILDER BECOMES THE BUSINESS BUILDER

CONTRACTORS BUSY ON-BUILDING WORK

More Large Jobs Going Out for Figures; House Work Active.

Few large contracts for new construction were given out during the last week, but foundations were started for several houses, both moderate-priced and of the better type, to go up in various parts of the city.

During the coming week bids are scheduled to be opened and contracts awarded in connection with the proposed St. Louis county jail to be built on Second street west at an estimated cost of \$400,000.

Decisions upon the Chisholm, Minn. city hall proposal is expected to be reached early next week. It will be of fireproof construction, and its cost is estimated at \$1,500,000. The plans

were prepared by the late Anthony Puck and E. C. Gillison.

The rebuilding of the Knudson Auto company's building at Superior street and Second avenue east was the largest job lot during the week. McLeod & Smith were awarded the contract, and they have already started work in clearing up the site and in testing out the strength of the standing walls. An expenditure of approximately \$75,000 will be entailed.

The roofing jobs upon the Milaca, Minn., courthouse and the Hayward, Wis., school have been awarded to the Walker-Jamar company of Duluth.

The remodeling of the Bridgeman-Hussell company's dairy plant at Houghton, Minn., has been awarded to August Gauthier of that place.

Should weather conditions remain favorable, it is expected that a start will be made upon several new projects in the way of commercial buildings in this city, as it is felt that lumber, cement and other materials are likely to be higher next spring, and concerns interested in new building projects are desirous of covering themselves as far as possible this fall.

HOUSE INQUIRY IS REALTY FEATURE

Moderate-Priced Homes in Demand; Much House Building.

House inquiry absorbed the attention of realtors mainly during the last week. A large number of prospective buyers of moderate-priced houses were reported to be in the market, and a substantial number of sales resulted.

As an example of the extent of the home-building movement during the present season, it was mentioned by N. J. Upham, realtor, that his office had built nineteen houses in the Homewood addition since early last summer, of which eighteen had been sold. Eleven other houses had during the same period been built by purchasers of lots.

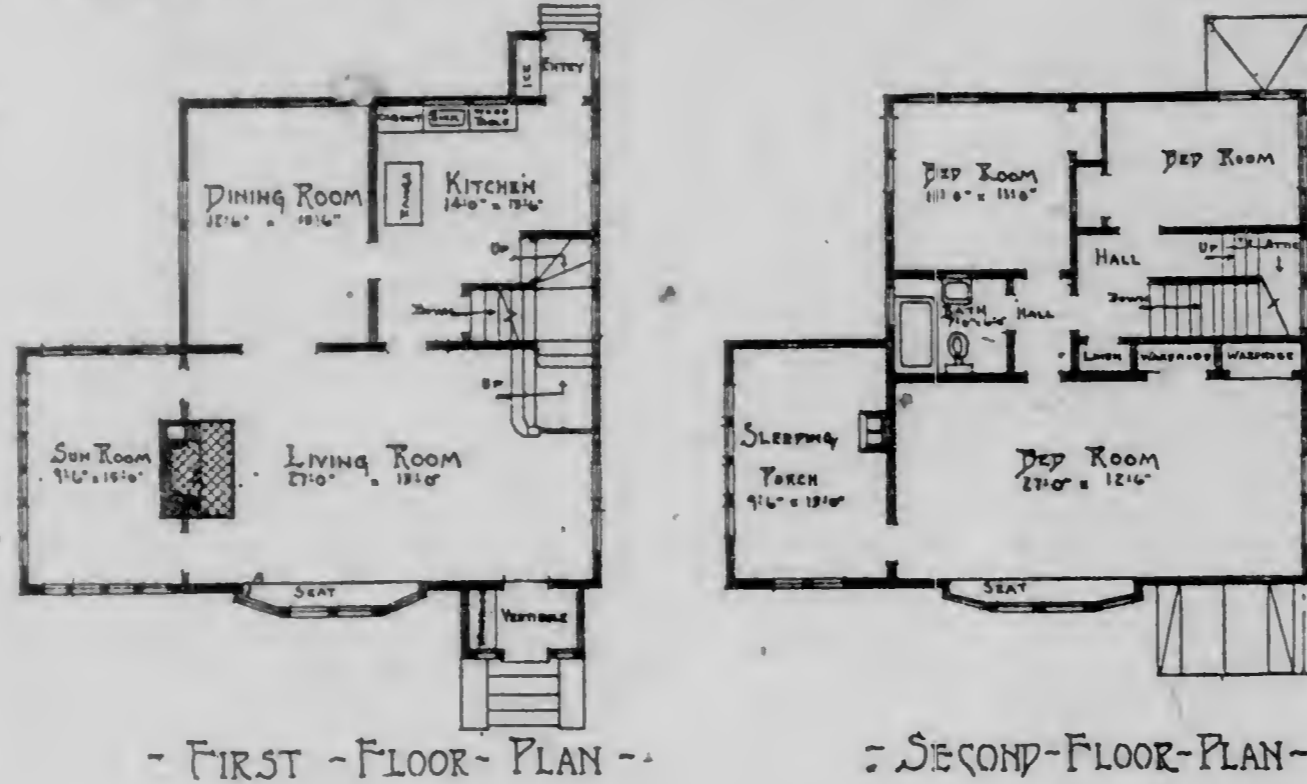

W. B. Harrison, Jr., was the purchaser of a house built for E. N. Williams on Superior street, near Twenty-ninth avenue east.

The Hoopes-Kohagen company reported the sale to Hannah Roney of a house and lot at Twelfth avenue east and Ninth street. A lot in the Kent Road addition was also sold by that office for improvement.

A Six-Room Stucco House

Hugo W. Wold - ARCHITECT

When you think of your new home, you think of comfortable rooms and good cheer on the inside. But you must give the appearance of the outside a thought also. In the above you will find an unusually comfortable house, which at the same time is especially well planned. The construction is of stucco on wood frame, with a concrete foundation and basement floor, and shingled roof. The entrance at the corner balances well with the porch windows and the whole is held together by the bay window. This latter feature, although quite large, has but a shallow projection and is thus prevented from dominating the composition. The cut-back gables add interest to the roof. The principal entrance to the house is through a vestibule which contains a built-in wardrobe or coat closet. The vestibule projects from the house and thus does not cut into the living room. The bay window in the living room contains a built-in seat under which is the radiator. The kitchen has well-placed windows to afford cross ventilation and at one corner opens into a short flight of stairs which connect with the main stair at a landing. Combination stairs such as these offer many advantages and provide good circulation. The second floor contains three bedrooms, a bathroom and a sleeping porch. The hall is compact and well lighted and contains a linen closet and the stair to the attic. French doors open into a small passage which connects the bath and two of the bedrooms. Their arrangement gives an air of privacy and forms a sort of suite arrangement that is valued by many people. In the unique there is strong attraction. In this plan you have something different, yet embodying all the beauty and convenience that marks the perfect home. It is a home which will certainly cause you to feel the pride of ownership. The cost of building this home, complete, is \$9,500. Plans were prepared by William Hugo Wold, architect, room 7, Nelson building, Fifty-seventh avenue west and Grand, West Duluth.

Pipe Covering for Warm Air Furnaces—gives you a warmer house on less coal

IF YOUR furnace pipes are not covered, or if they are covered only with a SINGLE LAYER of Asbestos PAPER you are LOSING AN AMAZING AMOUNT OF HEAT in the basement which OUGHT to be going to your ROOMS ABOVE.

ASBESTAIR will stop this loss of heat in the basement, drive it to the rooms ABOVE and keep the average eight-room house warmer than ever before on TWO TONS less coal per season.

ASBESTAIR is an air-filled, fire-proof Asbestos pipe covering manufactured exclusively by The Philip Carey Company and is sold in this vicinity exclusively by us.

Phone us and we will apply it for you; or if you prefer you can apply it yourself with a tape measure, a pair of shears and a little string. It will see you through the winter on less coal.

It will pay for itself this year in coal saved. It requires no care. It outlasts the furnace. Can be applied while the fire is going. Phone today.

BUSINESS AND FINANCIAL NEWS

IRREGULARITY IN THE CURB MARKET

Profit-Taking Develops After Some General Advances.

By WILLIAM R. HOFFMANN. (By Special Leased Wire to The Herald.) New York, Nov. 4.—New outside buying continued on the curb exchange in the early dealings today with some of the larger commission houses the leaders. Professional operators and floor traders, however, did not take part in the purchasing and after advances had been established profit-taking and some short selling developed which caused irregularity later in the short session. The high priced oil shares again attracted most attention. Prairie Pipe Line was a feature and advanced sharply on the execution of moderate market buying orders. Independent issues were firm. Cilia Service, and common, rose more than a point, and there was strength in New England Fuel. Southern States Oil was in good demand at an advance. Among the industrial group New Jersey Zinc was strong and moved up several points on moderate transactions. National Bleach new stock was in fair demand. Cilia Safety Razor was influenced by realizing sales and a small decline took place in Amalgamated Leather. The radio shares were steady. Mining stocks continued fairly active and generally firm. Bonds were quiet and steady.

IMPROVEMENT IN BONDS CONTINUES

Buying on Large Scale for Saturday's Short Market.

By GEORGE T. HUGHES. (By Special Leased Wire to The Herald.) New York, Nov. 4.—The improvement in the bond market, which started Thursday and continued today throughout all parts of the list, has been maintained and higher for all the issues. The new refunding 4 1/2s sold above par and all the old 4 1/2s advanced approximately from quarter to a half point. All the old issues sold above 97. The 4 1/2s exempt 3 1/2s were quoted above 101. Buying was on a large scale for Saturday's short market and by Saturday the high grade rails Atchafalpa general made new high on the recovery. Central Pacific and Rock Island refunding were also up from a half to a point. Colorado Southern 4 1/2s at 97 were up three-quarters of a point over yesterday's closing. Among industrials the feature was the new deal in the Chile Copper per share in response to the speculative activity in the stock. Both the 1916 and the 1917 issues were up a point and a half. They are convertible into Chile Copper stock at 25. Both are convertible into the foreign list Republic of Chile, both the 1916 and 1917 issues. The 1916 issue is convertible into Chilean currency and is convertible into the foreign list Republic of Chile. The 1917 issue is convertible into Chilean currency and is convertible into the foreign list Republic of Chile.

IMPLEMENT HIT BY LOW PRODUCE PRICES

Abilene, Kan., Nov. 4.—The limited buying power of farmers has dealt a staggering blow to profits of dealers in agricultural implements, according to Herbert J. Hodge of this city, secretary of the Western Retail Implement and Hardware association. However, the dealers are trying to meet it by aiding the farmer in various ways, Mr. Hodge said.

EXTRAVAGANCE OF JAPS IS SEEN IN STRONG DRINK BILL

Osaka, Japan, Nov. 4.—The consumption of sake, Japan's national and potent drink, increased from 4,266,354 koku in 1914 to 6,782,176 in 1919 and cigarettes from 7,687,174,460 to 17,996,000,000 in the same period. These figures were quoted by Dr. Rentaro Mizuno, minister of home affairs, as evidence of the growing extravagance of the people of Japan. "Japan is still suffering from the high prices of the war period," the minister said. "The causes may be attributed to the continued extravagance of the nation, which is apparently still existing, and to the increase of purchasing power. But the increasing purchasing power of the Japanese people is lacking soundness. The urgent need of today is to break through the prevailing extravagant habits by the promotion of economy. The export and import trade of Japan in pre-war days stood in the neighborhood of 1,361,000,000 yen, which increased to 4,272,000,000 yen in 1919, while the excess of exports over imports during this period amounted to 1,400,000,000 yen. The specie also showed a most remarkable increase. This state of affairs is responsible for the present luxurious habits of the Japanese people. But the foreign trade of the country has, since the restoration of peace, been suffering a severe adverse balance, the excess of imports over exports reaching 387,000,000 yen in 1920, 361,000,000 yen in 1921 and 348,000,000 yen during the first half of this year alone." Dr. Mizuno also spoke of the excessive prices charged for entertainments. Entertainers, to hear whom not more than 1 yen would be charged in America, get 10 yen for seats in Tokyo and the houses are always crowded. The government, he said, had adopted measures for the reduction of prices, but they had not been altogether successful.

IOWA COLLEGE GIVEN BUTTERFLY COLLECTION

Ames, Iowa, Nov. 4.—Gauzy, lacyn-winged butterflies to the number of 17,000, embracing specimens from virtually every part of the world, have been made a part of Iowa State college's entomological collection, a gift from J. S. Faaborg of Clinton, Iowa, who spent a lifetime in collecting the brilliant insects. Eight thousand different varieties of butterflies were represented in the gift. Rare species from Java, Japan and Brazil were numbered in the collection. From Java came several giant Atlas moths, the largest measuring ten inches across. The wings of this moth have markings which resemble snake's heads, protecting it from attack from birds. Other peculiar butterflies among the collection are death's head moths from Japan, which carry the marking of a skull on their backs, and highly colored butterflies from Brazil and a transparent-winged species from Africa. Most of the specimens of foreign butterflies contained in the collection were obtained by Mr. Faaborg by collecting Iowa species and trading them to foreign dealers. NOTHING BUT BEST FOR JAPANESE ARMY. Tokyo, Nov. 4.—The reduction in the army will enable the recruiting sergeants to choose when this year's conscripts come before them for examination. Only men who heretofore have been chosen A physically will be taken for the army. The training will be more intensive for the same amount of work will be done in twenty-two months. Gen. Yamamashi, minister of war, replying to the agitation for a reduction of the period to sixteen months, said if this was adopted the war office would have to abolish all holidays, including Sundays. At present the recruits have many days off, including occasional fortnights to assist their parents in their business.

Trade Situation Good Over Northwest Ground

Current Business Attains Heavy Volume; Retailer Placing Future Orders More Freely; Firm Prices Inspire Confidence Among Merchants.

Merchandising is being done in a healthy strong way over the Northwest, in the opinion of Duluth jobbers. Current business is attaining a substantial aggregate in all lines, and the volume of orders being placed for spring delivery is greatly exceeding recent expectations. The fact that the price advances that have been registered in practically all lines of goods during the last few months have not resulted in checking buying on the part of the public, has inspired confidence in general retail and wholesale trades circles. That is generally accepted as an indication that the public has come to understand that the advanced prices registered in factory products have been fully warranted by the high costs of raw materials. Jobbers and retail merchants are not, however, so sanguine in anticipation of a shortage of goods as was the case during the boom period of two years ago. Many agreements of factories are keeping close tabs on their orders in arrangement for their outputs and as the volume of business places accounts for the productions, they are pursuing policy of withdrawing those lines

DRY GOODS MARKET.

(By Special Leased Wire to The Herald.) New York, Nov. 4.—Trading in cotton cloths today was confined largely to filling spot requirements, with very little up commitments in preparation for the week-end and election day. Prices were exceedingly firm and trading at second hand was less in evidence. Print cloths, sheetings, drills, twills and pajama checks all recorded some business. The raw silk market was quiet and quotations were practically unchanged, although the tone was softer. X. C. A. 20-22 denim fell off to \$3.99 a pound.

BOSTON WOOL MARKET.

(By Special Leased Wire to The Herald.) Boston, Mass., Nov. 4.—The summer trading wool market wound up a week of scant trading with prices up perceptibly over the level of last Saturday. Quotations were strong and in excellent demand. The foreign market continued strong with evidence of fair American participation in trading.

from the market for the time being, or until they feel satisfied that stocks of similar goods produced packages which will be held in their hands for some time.

Wholefoods' optimistic outlook upon progressive improvement in the country over during the past few months, and the fact that they are fully warranted by the generally forward trend in the purchasing power of the nation, is not sufficient to induce them to be over-optimistic in their demand for practically all lines of hardware, including the Minnesota range in steel products plants and other industrial quarters. It is regarded as significant that the funds of the general public are not to be advanced in road work in this territory should be as readily absorbed in other avenues of employment.

Freight car shortages and the railroads' lack of locomotives to handle the great diversion of production into the road is expected to be of some importance in the future. While that condition is expected to be one of the most serious, it is also accepted as an evidence of growing trade activity.

Dry Goods Trade Good.

Specialty salesmen now on the road are sending good orders for ready-made goods (for spring delivery), including light overcoats, cutting suits, neckties, and sport shirts. J. A. Patrick & Co. Retailers are also placing liberal orders in wash goods and other seasonal lines, apparently recognizing that nothing is to be gained by holding back in the hope that lower prices may be made. The market is therefore being very active, and the original quantities, resulting in the first offerings, are being advanced to a maximum of 25 to 35 per cent. Lower prices are being taken at an advance of 10 per cent, and another raise of the same amount is expected in the near future. All other finished cotton products are correspondingly active. It is expected that eight-ounce hosiery, for example, that is two-ounce hosiery in a year, is being advanced to 25 per cent, and the New York cotton mills are being curtailed through the cotton shortage. This is regarded as an interesting development in the wool sales of holiday lines being experienced by the local houses. Among the goods that are being imported are men's suits, including tuxedos and napkins put up in attractive packages. They are being imported in quantities of 200 to 300 packages, and are being substituted for those lines, as they had been ready to do in past years. Silk underwear is another line which is being advanced. The market in wool products continues equally as strong as those in line, with overland conditions also.

Hardware Markets Strong.

Hardware jobbers are reporting their orders to be gaining in momentum. Practically the only item to show any decline in demand is roofing material, which is attributed to competitive conditions, as quotations in cotton and rubber required in construction is higher. The market in builders' hardware is higher and the tendency in all steel product lines is upward. The Duluth houses commented upon the liberal placing of orders for spring delivery.

Grain Active.

Trade in grain is seasonally active with line is imported flour. It is expected that the market will be improved as a result of the fact that the market is strong. Dried fruits are considered to be pointing higher. The market for nuts is also pointing higher. The market for dried fruit is also pointing higher. The market for nuts is also pointing higher.

Business in Bond Market Well Taken Up.

Business in the bond market was comparatively weak but satisfaction was expressed by Duluth houses over the fact that its time was distinctly better at the end than at the beginning of the week. Substantial gains were observed in the lower spots were shown through the market.

The improvement in the last week of the government 4's was a subject of comment. It was taken to indicate that progress is being made in the absorption of new issues of government securities.

Special significance locally was given to the fact that in the sale of \$750,000 of 4 per cent par bonds on Hamilton A. Dill & Co. of New York for \$750,000. The fact that a sale of this size is regarded as evidence of the high standing Duluth holds in the financial markets as a point for making investments.

Commenting upon the current situation in the bond market, W. W. Dickey company says in its weekly market letter:

"The market for the earlier part of the week was generally downward, with the United States treasury bonds selling as low as \$99.50. The whole market reacted sympathetically, although the generally held up just a little better than most of the other investment groups. Later in the week there was evidence of greater firmness and back to around 100, indicating a steady absorption into permanent investments. The municipal market was active although not strong. New offerings were present in limited quantities and were offered at slightly better rates than had prevailed for some time previous. Industrial and public utilities were active. A piece of new financing of special interest to Northwestern investors was the new \$1,000,000 George A. Hormel & Co. street mortgage 6 per cent bonds brought out by a Twin Falls syndicate consisting of the Dickey company, the Minneapolis Trust company and the Merchants Trust Co. Having a coupon rate of 6 per cent and offered at 100 and interest and even in face of a soggy general market, the bonds were well taken up and are secured by a closed first mortgage upon all the Hormel properties, including branch houses, and at about twice the amount of the bond issue. Not earnings have been unusually satisfactory and the dividend averaged over three and a half times the total bond interest requirements during the past year. The Dickey company business has been built up through over quarter of a century and it today occupies an enviable position in the pork packing industry. The rapid absorption of the offering by Northwestern bond buyers was to be expected."

RECENT DECLINE IN BOND MARKET DUE TO BOLD-FACED RAID

Chicago, Nov. 4.—The November financial clear of the National City bank of Chicago says:

"There is a better undertone to business in the West and, while the gains have not been sensational, they contrast very favorably with the conditions of a few months ago. Distribution of grain, merchandises, and general commodities is being hampered by the pressure of traffic upon the railroads, which are having more and more difficulty in handling the relatively limited equipment at their command. The roads are doing their best to remedy this situation by running through the winter without serious distress. It is evident, however, that delays will be unavoidable as the roads are being asked to carry more traffic than they are ordinarily congested with. The heavy grain movement, which has been going on for some time, is a factor in the delay, and the problem now is to obtain an adequate supply of cars with which to move coal, farm products, building materials, and other freight that is offering."

TRADE ACTIVITY SEEN

Railway Tonnage Closely Approximates Maximum of All Time.

(By Special Leased Wire to the Duluth Herald, Nov. 4, 1922.)

New York, Nov. 4.—It was stated today that the principal subject of discussion in the Wall Street situation was whether the rapidly declining stock market at the time was a feature of a general economic depression or whether it portended a genuine advance in activity. It was pointed out that the market had been advanced to a maximum of 25 to 35 per cent. Lower prices are being taken at an advance of 10 per cent, and another raise of the same amount is expected in the near future. All other finished cotton products are correspondingly active. It is expected that eight-ounce hosiery, for example, that is two-ounce hosiery in a year, is being advanced to 25 per cent, and the New York cotton mills are being curtailed through the cotton shortage. This is regarded as an interesting development in the wool sales of holiday lines being experienced by the local houses. Among the goods that are being imported are men's suits, including tuxedos and napkins put up in attractive packages. They are being imported in quantities of 200 to 300 packages, and are being substituted for those lines, as they had been ready to do in past years. Silk underwear is another line which is being advanced. The market in wool products continues equally as strong as those in line, with overland conditions also.

FINANCIAL TROUBLES OF BOSTON & MONTANA ARE TIDED OVER.

Butte, Mont., Nov. 4.—(Special to The Herald.)—The Boston & Montana Development company has today over its financial condition by the National City bank of Chicago says:

"The Boston & Montana Development company has today over its financial condition by the National City bank of Chicago says:

"The Boston & Montana Development company has today over its financial condition by the National City bank of Chicago says:

STOCK MARKET REACTION WAS CORRECTIVE ONE

New York, Nov. 4.—Reaction in the stock market, which was a natural corollary of a weakened technical condition resulting from the speculative excess of last month, was checked this week when prices resumed their upward course in virtuality of the entire list. Speculative short-covering, which had been the impulse of the advance, but it was not long before the market advanced, and a buying power came into the market in sufficient volume to offset the usual profit-taking.

The initial advance was most marked in industrial shares, which had borne the brunt of last month's advance, but as the movement progressed the leadership was taken by the blue-chip stocks. The market in industrial shares was particularly strong, and it was noted that the market in industrial shares was particularly strong, and it was noted that the market in industrial shares was particularly strong.

DEMAND FOR LUMBER EXCELLENCE BUT CAR SHORTAGE DRAWBACK

Chicago, Nov. 4.—Building remains active, but the shortage of lumber is a serious drawback. The market for lumber is strong, but the shortage of lumber is a serious drawback. The market for lumber is strong, but the shortage of lumber is a serious drawback.

WHEAT ADVANCES IN WEEK'S MARKET AT MINNEAPOLIS

Minneapolis, Minn., Nov. 4.—Wheat market advanced in the week's market at Minneapolis. The market for wheat is strong, and the price has advanced in the week's market at Minneapolis. The market for wheat is strong, and the price has advanced in the week's market at Minneapolis.

PROHIBITION OF FOREIGN ISSUES

London's Position as Money Lender Cannot Be Disregarded.

In an examination of the factors underlying the increasing prominence of foreign issues among the new security offerings in the United States, London's traditional position as money-lender to the world cannot be disregarded, states the current issue of the Guaranty Trust company of New York. Looking at the question from the angle of the Survey continues, it is realized that serious consideration must be given to certain significant developments in the European market in England which have accompanied the growing volume of international financing here.

WEEKLY REPORT BY R. G. DUN CO.

New York, Nov. 4.—Dun's today says:

"Even with statements of buying in some quarters, the improving tendency in business remains sharply defined. Fluctuations in volume of business are naturally to be expected, and it is not surprising that in certain lines this week does not mean that the progress has suddenly halted. Recent purchasing has run beyond precedent in special instances, and has been large in many cases, and some requirements are so well covered for the present that further commitments are temporarily deferred."

Wool Market Trend Continues Upward

Boston, Mass., Nov. 4.—The Commercial Bulletin today says:

"While there is less reason for excitement in the wool market because of the narrow supply of wool, there is no lack of strength. In fact, the market shows a tendency upward, with prices for the goods market generally higher. The wool market trend continues upward, with prices for the goods market generally higher."

changes of the past week were: An advance of 10 per cent in glass, an advance of 15 per cent in lead, and a 10 per cent advance in tin. The market for gold was steady, and the price of silver was 50 cents per ounce. The market for copper was 20 cents per pound in all shapes.

Proposed Amendments to the Constitution of the State of Minnesota

Submitted by the Legislature at Its General Session, 1921, to the People of Minnesota at the General 1922 Election Together With Statements of Purpose and Effect of each.

Prepared by CLIFFORD L. HILTON, Attorney-General of Minnesota. Addressed to MIKE HOLM, Secretary of State.

SPECIAL PUBLICATION NO. 1, Chapter 152, Session Laws of Minnesota for the year 1922, proposes an amendment to the constitution of the State of Minnesota. The amendment is for the purpose of providing for the election of a commission to prepare a new constitution for the State of Minnesota to be in force on the 1st day of January, 1924.

The credit of the state shall never be given or loaned in aid of any individual, corporation, partnership, or other person or entity, except as hereinafter provided. No shall there be any further issue of bonds or other securities of the State of Minnesota, under what purports to be an amendment to section 9 of the constitution, adopted April 16, 1858, which is hereby corrected as follows:

ORDER TO EXAMINE FINAL ACCOUNT.

In Probate Court, in the Matter of the Estate of Peter Johan Oden, deceased.

Ordered, that the account of the executor of the estate of Peter Johan Oden, deceased, be examined and reported to the court.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION.

In Probate Court, in the Matter of the Estate of Peter Johan Oden, deceased.

Ordered, that the petition for administration of the estate of Peter Johan Oden, deceased, be heard on the 10th day of November, 1922.

NOTICE OF PUBLIC HEARING.

The Board of Public Works of the City of Duluth will hold a public hearing on the 10th day of November, 1922, at 7 o'clock P.M., in the City Clerk's office, relative to the proposed changes in the city's water and sewerage system.

—By Bud Fisher

Trustful Women and Treacherous Sharks

Thousands of Women Being Swindled Every Day by Being "Taken In" by Smooth-Faced Gentlemen—Best Men Will Not Urge Women to Invest Their Money.

By Sophie Irene Loeb
Copyright, 1922.

"It was the last man under the sun who I thought would do any wrong." These were the words of a woman who was "taken in" by a smooth-tongued gentleman who got her money and then said, "Well, I cannot help it if things go wrong." In this way thousands of women are being swindled every day. An instance of this is the decision of the general sessions jury in New York a few days ago against a promoter of stock who swindled women out of an approximate \$1,000,000. It would seem that in this day and age women would have learned a lesson and not follow blindly the man who has only one object—getting money. The trait of being too trustful and not seeing through swindlers is one about which women should be wary. The trouble is that women do not

recognize the signs of the swindler right off. He is very suave and just knows how to "get around women." He does not use direct methods. He does not come right out with the proposition when he first meets her. He works and worms his way into the confidence of the woman and then proceeds to take all he can get. One woman, a widow, told me the maneuvers of one particular man. His system was cultivating women socially. So this woman happened to meet him at a dinner party. He became very "sweet" on her and paid her considerable attention. For months he lavished many friendly attentions upon her, invited her to dinner and to the theater and other amusement places, and became very friendly.

Very slowly and methodically he proceeded to tell her how he had a little bit of some very excellent stock. Of course he would not think of the widow putting her money into it—not at all. He would drop the subject and resume it as though it was one which should not be talked about. This was the method he used in arousing the woman's curiosity, and it did get her interest. One does love to make money, and especially such "easy money" from the tip of a good friend.

As it always happens, in this case the woman approached the subject herself and insisted on knowing more about this "stock" business whereby so much money could be made, but he was always reluctant even in speaking about the matter. It was one where only men should venture. Women had no business in these matters, he told her, etc. But even in his remonstrance with her he got in a few hints as to the value of the stock and how much there was to be made and how quickly it would be materialized. "In fact," said the widow, "I actually had to beg him to take my money and use it and invest it with his own in his great scheme. I was so dead sure of his unwillingness to let me risk it that I even insisted that a woman should be permitted to risk her money even as a man. And he got it. It was not long after that his visits became less frequent and he was always busy. Then I began to wonder what was to become of the money I had invested. I had a few ornamental papers to show for my hard earned cash, but that was all.

"And the hurt to my pride was even more to me than the money," this woman admitted. "To think that he had left me cold in the fashion that he did is again in the case, this woman demanded a "show down," where she saw the money and how soon could she expect to derive some benefit? And then she saw the man in the real light—the light of a thief—for that is what he really is. He knows what he is doing every minute.

While women may not readily discern the ways of him who is seeking to inveigle her into a deal, yet there is one safe rule to follow. When men begin to talk money, be cautious. The best men will not urge women to "invest" their money, especially if they are friends. If they do, they will insist that her best friends or her lawyer shall go over the whole proposition before she puts up a single cent. A girl fellow will never stand for this sort of thing. He will not want any one to know about it. He will insist on secrecy, if possible.

In short, a good friend who really has something of value to give to a woman, in order to help her make money, will not permit her to go into anything unless all those closely associated with her are satisfied that the proposition is the kind it ought to be. And the wisest plan of all is to take no tips from anybody on making money—tips that cannot be thoroughly brought out into the light of day and closely scrutinized.

Life's Little Jokes—Number 940,339

—By Kube Goldberg

THIS LARGE PAINTING'S EXPENSIVE, YOU'D PROBABLY SAY, FOR IT SURE CAN BE SEEN ANY DISTANCE AWAY.

WHILE HERE IS A CANVAS THAT'S SIMPLE AND SMALL, YOU WOULD NATURALLY THINK IT'S WORTH NOTHING AT ALL!

BUT THE LARGE, SHOWY PAINTING—JUST TO SHOW YOU'RE WRONG—WAS SOLD TO TWO SECOND-HAND MEN FOR A DOLLAR.

WHILE THE PLAIN, DINKY LANDSCAPE, I'LL TELL YOU RIGHT NOW, WAS SOLD TO A BANKER FOR SEVENTEEN THOU!

IF YOU THINK YOU GIVE MORE THAN YOU RECEIVE, THINK OF THIS: I DELIVER GOOD LETTERS A DAY AND NEVER RECEIVE ONE MYSELF!

Little Benny's Note Book

The Park Ave. News
Weather. Better.
Sports. The big pushmover race last Saturday afternoon was won by Skinny Martin driving his powerdrill car. The Drednought, wife Artie Alexander came in 2nd in his powerdrill car. The Fearless, Benny Fogg came in 3rd driving his powerdrill car. The Conqueror, among those claiming they lost three axles on skidding, Lew Davis on account of thinking a wheel was coming off, and Sid Hunt on account of not wanting to bump into Flatfoot the dog.

Sleazebag. Mr. Sam Cross got a new watch for his birthday last Thursday but he wound it up so much in public that it stopped the following Friday and since then it only tells the time it stopped, being 20 minutes after 4.

Pome by Skinny Martin.
The Worst is Yet to Come
O his fun to borrow money
From one cent up to 16
But O what a unpleasant sensation
When you have to pay it back again!
Intriguing Packs About Intriguing People. Leroy Shooster can't think in school without chewing the end of his pencil and he says he wouldn't be surprised if he got indigestion some day.
For Sale, cheap, on account of not being allowed to keep. One terrific sneeze to the name of Sport. Very quiet and mite make a good paper weight. See Skinny Martin. (Advertisement.)

Going Down!

Dear Husbands: Would it not be a good idea to spend some of the time you now use in making money to teaching your wives practical business methods?
Of course, this remark does not apply to all wives, for many of them have better ideas of business than their husbands. Faithfully,
ALFALFA SMITH.

Can You Beat It!

By Maurice Ketter

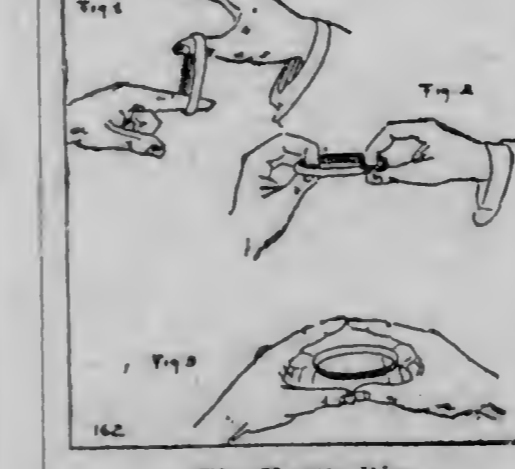

THE COOK WON'T STAND YOUR BEING LATE FOR DINNER ANYMORE.

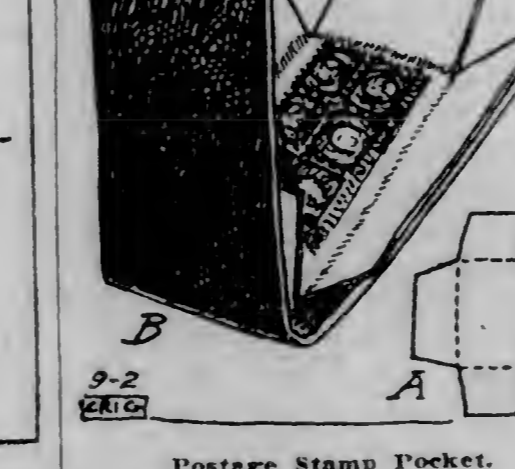

WE'LL HAVE DINNER AT SEVEN SHARP, IF YOU ARE NOT HERE FOR THE FIRST COURSE YOU WON'T GET THE FIRST COURSE.

IF YOU ARE NOT HERE FOR THE SECOND COURSE YOU WON'T GET THAT EITHER.

YOU'LL HAVE TO BEGIN AT THE COURSE WE ARE.

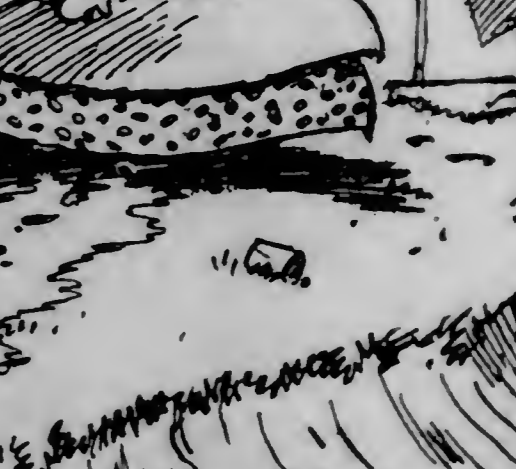

ALLRIGHT ANYTHING YOU SAY.

I TOLD MR. JOHN ABOUT THE NEW RULE FOR DINNER.

YES HE CAME TO SEE ME ABOUT IT.

WHAT DID HE SAY?

HE ORDERED A TWENTY COURSE DINNER.

'SMATTER POP—It Was the Cat That Got the Headache

Copyright, 1922.

—By C. M. Payne

TALK ABOUT RURAL QUIET I SSEN TO THAT.

IT WON'T HAVE MORE THAN TWO OR THREE LIVES LEFT WHEN I GET THROUGH.

IF THERE'S SUCH A THING AS A CAT HEADACHE I'LL HAND THAT TOM ONE!

CAN YA SEE THEM SI?

NO BUT I KNOW JUST ATS OUT WHERE THEY ARE.

SMATTER POP?

More than 300 business and industrial firms in Great Britain publish their own house magazines, filled with details of position and welfare schemes and the social, athletic and other activities of the workers.

The first of the month comes three times a day on Mars as one of its moons makes three complete revolutions around the planet in one Martian day which is about one-half hour longer than our day.

Where Did You Get THAT WORD?

Copyright, 1922.

MAGAZINE.
The application of the word "magazine" to a periodical publication is an illuminating instance of borrowing of words to supply new needs.
The Arabs during their occupation of Spain established storerooms which they called "makhazan" (plural "makhazin"), from "khaan," to store.
After the reconquest of Spain by Ferdinand and Isabella, the Spaniards adopted the word in the form of "magacen" or "almagacen."
Gradually the word came to mean a place where goods were stored for sale. The word in various forms is still used by the French, the Italians and the Spanish to indicate what we call a department store.
From the wealth of materials stored in a "magazin," the word was applied in the American language to a periodical publication containing a wealth of reading matter.

HOME DECORATIONS

Copyright, 1922.

HOW TO CHOOSE PLAIN RUG.
So much of the new decorating demands plain rugs, and they are very hard to find in good colors, added to which they are very expensive articles of house furnishing. So, when it is necessary for you to buy one, you should see, if possible, that it is a good one for in that way only can you be sure of getting any real value for your money.
The thick, velvet, plain-colored rugs are very nice to own, though some of them are too high priced for the average housewife. She can, however, find good substitutes in the staple values of rug weaving, and she will find, if she is careful in her search, that it does not take so much financing to find a very good one. As for color, it is much better economy and a good time-saver to choose a shade of tan or gray that is not too light. If it is very delicate in toning, there arises that awful difficulty of keeping it free from spots, but if it verges on the darker shades the dirt has a way of blending with the shading of the rug in a thoroughly satisfactory manner. That is, each spot does not arise to accuse you whenever you come in its direction. The darker

rug shows the dust abominably, though sometimes it is a dark rug that you need and nothing else will do. In that case, you will have to dedicate your life to the use of the sweeper and all will be well.

Some of the plain rugs have darker and plain borders. These are very good looking, especially when the rug is a large one, though they are not so good when they break up

smaller rugs that are dotted about the room. They had best be kept plain.

In a small room two small rugs of the same color often look even better than one large one, and this plan holds good when a room is extraordinarily large, for there two large rugs will be, in some cases, more satisfactory than one too enormous to be handled and cleaned easily.

LOT-LET-SALE
BET I WOODA BET M' HAT THE TUNNEL WUZ GONNA CAVE IN WITH HER!

AFTER DINNER TRICKS

The Mystic Ring.
A mystic ring is whirled about between the thumb of the right hand and the forefinger of the left (Fig. 1). The tips of the thumbs and forefingers are brought together and the ring suddenly falls free, although it has apparently been held captive.
The illustrations explain the movements. From Fig. 1 the hands take the position in Fig. 2. The ring is then held quite firmly. Still holding the position, the tips of the forefingers are brought together. They are then opened as in Fig. 3 and the ring falls free. If the trick is done rapidly no one will be able to follow the movements, and you will have freed the ring without spreading your fingers apart.

THINGS FOR BOYS TO MAKE

Postage Stamp Pocket.
One should always carry an assortment of postage stamps with him, and stamps must be well protected.
From waxed paper cut a piece the shape of "A" shown above. The dotted lines show where to fold, and this, when folded, should be just a trifle smaller than the size of a page in your memorandum book. Glue the back of this little folder to the front or back page of your memo book and keep your stamps there, where they will be protected from dampness and where you will always know where to look for them when needed.
