Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 528, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Minimum Size Requirement

This amendment to Valencia Orange Regulation 528 extends from May 21, 1976, through January 15, 1977, the current minimum size regulation of 2.32 inches in diameter for shipments of Valencia oranges grown in Districts 1 or 3 of the California-Arizona production area, and establishes the same size requirement for the same period for Valencia oranges grown in District 2 of such area. More than ample quantities of the larger more desirable sizes of Valencia oranges are available to fill fresh market demand. Hence, the specified minimum size requirement is consistent with the size composition and available supply of the 1975-76 crop of Valencia oranges.

Notice was published in the FEDERAL REGISTER on April 26, 1976 (41 F.R. 17396), that consideration was being given to a continuation of the size regulation for Valencia oranges grown in District 1 or District 3 and to the establishment of the same minimum diameter requirement for oranges grown in District 2, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The amendment was recommended by the Valencia Orange Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof. The notice provided that written data, views, or arguments in connection with the proposed amendment be submitted by May 10, 1976. None were received.

The minimum size requirement specified herein reflects the Department's appraisal of the crop and current and prospective marketing conditions. The 1975-76 season crop of Valencia oranges is currently estimated at 49,000 carlots. The demand in regulated market channels will require about 36 percent of this volume, and the remaining 64 percent

will be available for utilization in export, processing and other outlets. Fresh shipments of California-Arizona Valencia oranges are now in progress. The volume and size composition of the crop of Valencia oranges grown in the production area are such that ample supplies of the more desirable sizes are available to satisfy the demand in regulated channels. Equivalent fresh on-tree returns for California-Arizona Valencia oranges averaged \$0.68 per carton for the season through April 1976 or 28 percent of the equivalent parity price. The regulation herein specified is necessary to assure shipment of Valencia oranges of the more desirable sizes in the interest of both growers and consumers, and it would contribute to the establishment and maintenance of orderly marketing conditions.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice and other available information, it is hereby found that the regulation of shipments of Valencia oranges, as hereinafter set forth, is in accordance with said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for making this amendment effective at the time hereinafter set forth and for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) notice of proposed rulemaking concerning this amendment was published in the FEDERAL REGISTER on April 26, 1976 (41 F.R. 17396), and no objection to it was received; (2) the regulatory provisions are the same as those contained in said notice; (3) the recommendation and supporting information for regulation of Valencia oranges were submitted to the Department after open meetings of the committee in each of the three districts of the production area which were held to consider recommendations for regulation, after giving due notice of such meetings, and interested persons were afforded an opportunity to submit their views at these meetings; (4) information concerning such provisions and effective time has been disseminated among handlers of such oranges; and (5) compliance with the regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. In § 908.828 (Valencia Orange Regulation 528; 41 F.R. 14859) the provisions of paragraphs (a) and (b) are amended to read as follows:

§ 908.828 Valencia Orange Regulation 528.

(a) During the period May 21, 1976, through January 15, 1977, no handler shall handle any Valencia oranges grown in District 1, District 2, or District 3, which are of size smaller than 2.32 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the Valencia oranges contained in any type of container may measure smaller than 2.32 inches in diameter.

(b) As used in this section, "handle", "handler", "District 1", "District 2", and "District 3" shall have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 14, 1976, to become effective May 21, 1976.

[Nectarine Regulation 7]

PART 916—NECTARINES GROWN IN CALIFORNIA

Minimum Grade and Size Requirements

This regulation for California nectarine shipments sets a minimum grade of U.S. No. 1, except that (1) a slightly smaller area of the surface of each fruit may be affected by fairly light colored, fairly smooth scars, and (2) an additional tolerance is provided for individual fruit not well formed but not badly misshapen. It also prescribes minimum sizes for 45 named varieties. These regulatory requirements are necessary to promote orderly marketing and provide consumers with an ample supply of acceptable-quality fruit.

Findings. (1) Pursuant to the amended marketing agreement and Order No. 916 (7 CFR Part 916), regulating the handling of nectarines grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Nectarine Administrative Committee, established under the aforesaid marketing agreement and order, and upon other information, it is hereby found that the regulation of shipments of nectarines, as hereinafter set forth, will tend to effectuate the declared policy of the act.

(2) This regulation is based upon an appraisal of the current and prospective market conditions for California nectarines. The committee estimates that 9,957,000 packages of nectarines will be available for shipment in the 1976 season compared to actual shipment of 9,595,000 packages last season. Industry reports indicate that 1976 shipments of fresh California peaches will total 9,655,000 packages, 657,000 packages more than last year. Likewise, fresh California plum shipments during 1976 are estimated at 9,317,000 packages, 517,000 packages more than last year. The estimated larger crop of California peaches and plums will provide strong market competition for California fresh nectarines. The grade and size requirements hereinafter set forth are necessary to prevent the handling of California nectarines of a lower grade or smaller size than specified herein for such nectarines so as to provide good-quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such nectarines, which are currently regulated pursuant to Nectarine Regulation 6 (40 F.R. 21693, 28462, 18804), must await the development of the crop thereof; adequate information thereon was not available to the Nectarine Administrative Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such nectarines; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such nectarines are expected to begin on or about the effective date of this regulation; this regulation should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this regulation are identical with the aforesaid recommendation of the committee; information concerning such provisions and effective time has been

disseminated among handlers of such nectarines; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on April 29, 1976.

§ 916.349 Nectarine Regulation 7.

Order. (a) During the period June 1, 1976, through July 20, 1976, no handler shall handle:

(1) Any package or container of any variety of nectarines unless such nectarines grade at least U.S. No. 1: *Provided*, That nectarines 2 inches in diameter or smaller, or 4 x 4 size or smaller, shall not have fairly light colored, fairly smooth scars which exceed the aggregate area of a circle $\frac{3}{8}$ inch in diameter, and nectarines larger than 2 inches in diameter, or larger than 4 x 4 size, shall not have fairly light colored, fairly smooth scars which exceed an aggregate area of a circle $\frac{1}{2}$ inch in diameter: *Provided further*, That an additional tolerance of 25 percent shall be permitted for fruit that is not well formed but not badly misshapen.

(2) Any package or container of Mayred variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 118 nectarines in the lug box;

(ii) Such nectarines, when packed in a standard basket, are of a size not smaller than a size that will pack a 4 x 5 standard pack; or

(iii) Such nectarines, when packed in any container other than the containers packed as specified in subdivisions (i) and (ii) of this subparagraph (2), measure not less than $1\frac{3}{4}$ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(3) Any package or container of Crimson Gold or Mayfair variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 112 nectarines in the lug box;

(ii) Such nectarines, when packed in a standard basket, are of a size not smaller than a size that will pack a 3 x 4 x 5 standard pack; or

(iii) Such nectarines, when packed in any container other than the containers packed as specified in subdivisions (i) and (ii) of this subparagraph (3), measure not less than $1\frac{1}{8}$ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(4) Any package or container of June Belle, June Grand, May Grand, Red June, Spring Grand, Sunbright, Armking, or Zee Gold variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 108 nectarines in the lug box;

(ii) Such nectarines, when packed in a standard basket, are of a size not smaller than a size that will pack a 4 x 4 standard pack; or

(iii) Such nectarines, when packed in any container other than the containers packed as specified in subdivisions (i) and (ii) of this subparagraph (4), measure not less than 2 inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(5) Any package or container of Early Sungrand, Grandandy, Independence, Moon Grand, Star Grand I, Star Grand II, Sun Flame, Summer Grand, Sun Grand, Rose, or Kent Grand variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 96 nectarines in the lug box; or

(ii) Such nectarines, when packed in any container other than in molded forms in a No. 22D standard lug box, measure not less than $2\frac{1}{8}$ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(6) Any package or container of Autumn Grand, Clinton-Strawberry, Fantasia, Flamekist, Flavortop, Gold King, Granderli, Grand Prize, Harry Grand, Hi-Red, Late Le Grand, Le Grand, Niagara Grand, Red Grand, Regal Grand, Richards Grand, Royal Grand, September Grand, Fairlane, Grand Giant, Red Free, Bob Grand, or Tom Grand variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 88 nectarines in the lug box; or

(ii) Such nectarines, when packed in any container other than in molded forms in a No. 22D standard lug box, measure not less than $2\frac{1}{4}$ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(7) When used herein, "diameter," "U.S. No. 1," and "standard pack" shall have the same meaning as set forth in the United States Standards for Grades of Nectarines (7 CFR 51.3145-51.3160); the terms "standard basket" and "No. 22D standard lug box" shall have the same meanings as set forth in § 1387.11 of the "Regulations of the California Department of Food and Agriculture"; and all other terms shall have the same

meaning as when used in the marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: May 14, 1976, to become effective June 1, 1976.

[Peach Reg. 7]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Regulation by Grades and Sizes

This regulation, effective during the period May 20 through July 2, 1976, requires that fresh shipments of California peaches grade at least U.S. No. 1. It also establishes minimum sizes for certain specified varieties and a minimum size for all other varieties. This action is necessary to assure that the peaches shipped will be of suitable quality and size in the interest of consumers and producers.

Findings. (1) Pursuant to the amended marketing agreement and Order No. 917 (7 CFR Part 917; 41 F.R. 17528), regulating the handling of fresh pears, plums, and peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Peach Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of shipments of peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) This regulation is based upon an appraisal of the current and prospective market conditions for California peaches. The committee estimates that 9,655,000 packages of peaches will be available for shipment in the 1976 season compared to actual shipment of 8,998,000 packages last season. Industry reports indicate that 1976 shipments of fresh California plums will total 9,317,000 packages, 517,000 packages more than last year. Likewise, fresh California nectarine shipments during 1976 are estimated at 9,957,000 packages—362,000 packages more than last year. The estimated larger crop of California plums and nectarines will provide strong market competition for California fresh peaches. The grade and size requirements hereinafter set forth are necessary to prevent the handling of California peaches of a lower grade or smaller size than specified herein for such peaches so as to provide good-quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the ef-

fective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 20, 1976. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop thereof, and adequate information thereon was not available to the Peach Commodity Committee until April 29, 1976, on which date an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such peaches. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified was promptly submitted to the Department on April 30, 1976; shipments of the current crop of such peaches are currently underway; this regulation should be applicable to all such shipments during the period hereinafter specified in order to effectuate the declared policy of the act; the provisions of this regulation are identical, as to minimum grade and size, with the aforesaid recommendation of the committee; information concerning such provisions and effective time has been disseminated among handlers of such peaches; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

§ 917.440 Peach Regulation 7.

Order. (a) During the period May 20 1976, through July 2, 1976, no handler shall handle:

(1) Any package or container of any variety of peaches unless such peaches meet the requirements of U.S. No. 1 grade.

(2) Any package or container of Arm-gold, Early Amber, Desertgold, Pat's Pride, Royal April, Royal Gold, Spring-gold, Springtime or Golden Supreme variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 108 peaches in the box; or

(ii) Such peaches, when packed in any container other than molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2 inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(3) Any package or container of Springcrest, Early Royal May, or May Lady variety peaches unless:

(i) Such peaches when packed in moulded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 96 peaches in the box; or

(ii) Such peaches, when packed in any container other than molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2½ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(4) Any package or container of Robin, any type of Babcock, Blazing Gold, Bonjour, Cardinal, Dixired, Gold Dust, June Lady, Merrill Gemfree, Royal May, or Early Coronet variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 88 peaches in the box;

(ii) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack, in accordance with the requirements of standard pack, not more than 75 peaches in the box; or

(iii) Such peaches, when packed in any container other than a No. 12B standard fruit (peach) box or molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2¼ inches in diameter as measured by a rigid ring: *Provided* That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(5) Any package or container of Aurora, Coronet, Indian Red, Merrill Gem, Peterson Elberta, Redhaven, Regina, or Redtop variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 80 peaches in the box; or

(ii) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack, in accordance with the requirements of standard pack, not more than 72 peaches in the box; or

(iii) Such peaches, when packed in any container other than a No. 12B standard fruit (peach) box or molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2¾ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(6) Any package or container of Alamar, Angelus, Belmont, Carnival, Fairtime, Fay Elberta, Fayette, Fiesta, Fortyniner, Franciscan, Halloween, John Gee, Jody Gaye, July Elberta (Early Elberta, Kim Elberta, and Socala), Madera Gem, Mardigras, Merricle,

RULES AND REGULATIONS

O'Henry, Pacifica, Pageant, Parade, Paradise, Preuss Suncrest, Regular Elberta, Redglobe, Red Lady, Rio Oso Gem, Royal Fay, Scarlet Lady, Summerset, Summertime, Suncrest, Toreador, July Lady, Windsor, Williams Gem or Gem Crest variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 72 peaches in the box;

(ii) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack, in accordance with the requirements of standard pack, not more than 65 peaches in the box; or

(iii) Such peaches, when packed in any container other than a No. 12B standard fruit (peach) box or molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2 $\frac{1}{16}$ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(b) During the period May 20 through July 2, 1976, no handler shall handle any package or container of any variety of peaches not specifically named in subparagraphs (2), (3), (4), (5), or (6) of paragraph (a) unless:

(1) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 96 peaches in the box; or

(2) Such peaches when packed in any container, other than molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2 $\frac{1}{8}$ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(c) [Reserved]

(d) Peach Regulation 6 (40 F.R. 21694, 27930) is hereby terminated as of the effective date hereof.

(e) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as given to the respective term in said amended marketing agreement and order; "U.S. No. 1" and "standard pack" shall have the same meaning, respectively, as when used in the United States Standards for Peaches (7 CFR 51.1210-1223); "No. 22D standard lug box" and "No. 12B standard fruit (peach) box" shall have the meanings as set forth, respectively, in § 1387.11 of the "Regulations of the California Department of Food and Agriculture"; and "diameter" shall mean the distance through the widest portion of the cross section of a peach at right angles to a line running from the stem to the blossom end.

Title 18—Conservation of Power, Water
Resources

CHAPTER VI—WATER RESOURCES
COUNCIL

PART 701—COUNCIL ORGANIZATION

Procedural Changes

On pages 15425 and 15426 of the FEDERAL REGISTER of April 13, 1976, 41 FR 15425 there was published a notice of proposed rulemaking to amend Part 701 of the Council's rules and regulations. No objections have been received and the proposed rulemaking is hereby adopted without change.

This rulemaking is done by authority of section 402 of the Water Resources Planning Act of 1965 (Sec. 402, Public Law 89-80; 79 Stat. 254, as amended (42 USC 1962d-1)).

Effective date. This rulemaking is effective on May 13, 1976.

WARREN D. FAIRCHILD,
Director, Water Resources Council.

In consideration of the foregoing, it is proposed to amend Part 701, Council Organization, of Chapter VI of Title 18 of the Code of Federal Regulations as follows:

1. By revising § 701.2 to read as follows:
§ 701.2 Creation and basic authority.

The Water Resources Council was established by the Water Resources Planning Act of 1965 (Pub. L. 89-80, 79 Stat. 244, as amended (42 U.S.C. 1962-5)). The rules and regulations of this part are promulgated by authority of section 402 of the Act (42 U.S.C. 1962 d-1).

2. By revising paragraph (b) of § 701.5 to read as follows:

§ 701.5 Organization pattern.

(b) The Water Resources Council consists of the following Members: The Secretary of the Interior; the Secretary of Agriculture; the Secretary of the Army; the Secretary of Commerce; the Secretary of Housing and Urban Development; the Secretary of Transportation; the Administrator of the Environmental Protection Agency; and the Chairman of the Federal Power Commission.

3. By revising paragraph (a) of § 701.52 to read as follows:

§ 701.52 Definitions.

(a) As used in this part the term "Member" means the Secretary of the Interior, the Secretary of Agriculture, the Secretary of the Army, the Secre-

tary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, and the Chairman of the Federal Power Commission, or Alternates appointed in accordance with § 701.53(a) when the Alternate is acting for one of the above-named.

4. By revising the first sentence of the first paragraph of § 701.53 and paragraph (b) of § 701.53 to read as follows:
§ 701.53 Council decisions by Members.

Council decisions by Members with respect to the purpose stated in § 701.3 and the functions listed in § 701.4 are determined by majority vote of Members present and voting; except that decisions affecting the authority or responsibility of a Member, within the meaning of section 3(b) of the Act (42 U.S.C. 1962-1(b)), can be made only with his concurrence. * * *

(b) A quorum for the transaction of business consists of six or more Members.

(5) By revising paragraph (e) of § 701.54 to read as follows:

§ 701.54 Council decisions by Representatives.

(e) A quorum for the transaction of business consists of six or more Representatives of different Members and the Director or in his absence the Acting Director.

6. By revising paragraph (a) (5) of § 701.78 to read as follows:

§ 701.78 Director—delegation of authorities.

(a) * * *

(5) Procure services as authorized by section 15 of the Act of August 2, 1946 (5 U.S.C. 3109), at rates not in excess of the daily equivalent of the rate prescribed for grade GS-18 under section 5332 of Title 5 of the United States Code in the case of individual experts or consultants.

Title 24—Housing and Urban Development
CHAPTER X—FEDERAL INSURANCE
ADMINISTRATION
 [Docket No. FI-1135]

PART 1915—IDENTIFICATION AND
MAPPING OF SPECIAL HAZARD AREAS
List of Communities With Special Hazard
Areas

The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assist-

ance for acquisition or construction purposes in an identified flood plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by a Federally regulated, insured, supervised or approved bank prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

The effective date of identification shall be 30 days after the date of publication in the FEDERAL REGISTER, or the date which appears in this notice; whichever is later.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish

that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBM's in effect).

PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS
List of Communities With Special Hazard Areas

The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area

having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by a Federally regulated, insured, supervised or approved bank prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

The effective date of identification shall be 30 days after the date of publication in the FEDERAL REGISTER, or the date which appears in this notice, whichever is later.

This 30 days period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that

it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201 (d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked Effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBM's in effect).

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM
PART 1916—CONSULTATION WITH LOCAL OFFICIALS

[Docket No. FI-1103]

Notice of Changes Made in Determinations of the City of Columbia, Tennessee, Base Flood Elevations

On January 8, 1976, at 41 FR 1476, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Columbia, Tennessee.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Columbia. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (P.L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, P.L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 475423A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request

through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mayor J. A. Morgan, City Hall, North Main Street, Columbia, Tennessee.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the City of Columbia Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Columbia, Tennessee map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 27, 1976.

Acting Federal
Insurance Administrator.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for Honolulu County, Hawaii

On June 5, 1970, in 35 FR 8734, the Federal Insurance Administrator published a list of communities with special hazard areas which included Honolulu, Hawaii. Map No. H 150001 45 indicates that 46-205 Alaloe Place, Kaneohe, Hawaii, being Lot 10 of Land Court Application 1044 as shown on Map 128 of

Land Court Application 1100, recorded in the office of the Registrar of the Land Court of Hawaii, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that, with the exception of the easement area as shown on the recorded plat cited above, the above property is not within the Special Flood Hazard Area. Accordingly, Map No. H 150001 45 is hereby corrected to reflect that the above property, with the exception of the easement, is not within the Special Flood Hazard Area identified on June 5, 1970.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Title 12—Banks and Banking
CHAPTER II—FEDERAL RESERVE
SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF
THE FEDERAL RESERVE SYSTEM

[Docket No. R-0012, Reg. B]

PART 202—EQUAL CREDIT
OPPORTUNITY

Miscellaneous Amendments

On January 12, 1976, the Board of Governors of the Federal Reserve System published for comment (41 FR 1769) several proposed amendments to its Regulation B, Equal Credit Opportunity.

After review and consideration of all comments received, pursuant to its authority under section 703(a) of the Equal Credit Opportunity Act (15 U.S.C. 1691b), the Board of Governors has decided to adopt the amendments with the following changes.

SECTION 202.4—APPLICATIONS

The Board proposed to substitute the word "the" for the word "each" in § 202.4 (d) (1), which requires creditors to furnish applicants with a notice regarding the Act. This amendment was intended to make it clear that a creditor need furnish only one such notice per transaction. Thus, where two or more applicants apply jointly for credit, the notice need be furnished to only one of them. In determining which applicant shall receive the notice, the creditor may not select an applicant who is secondarily liable such as an endorser, co-maker (when designated as a surety) or guarantor. Of course, the creditor may, if it wishes, furnish the notice to all joint applicants.

The comments received indicated that the substitution of the word "the" for "each" did not convey the Board's intent with sufficient clarity. Therefore, in addition to making this substitution, the Board has decided to add a new paragraph (3) to § 202.4(d) explaining a creditor's duty to deliver the notice in

a transaction involving multiple applicants.

After consideration of the comments received, the Board determined that the proposed amendment will eliminate unnecessary duplication in the delivery of the notice and, therefore, has adopted it.

SECTION 202.5—EVALUATION OF
APPLICATIONS

The Board proposed to delete the words "under § 202.4(c) (3)" from § 202.5(d) (2) because this language was superfluous and possibly confusing. The Board has determined that deletion of this phrase is appropriate. Therefore, this amendment has been adopted in the form proposed.

SECTION 202.6—FURNISHING OF CREDIT
INFORMATION

The Board proposed to amend § 202.6 (a) (2) (ii) to indicate that when furnishing credit information, a creditor need furnish information only about the spouse who is the subject of the inquiry. After consideration of the comments received, the Board has determined not to adopt the amendment at this time.

SECTION 202.9—PRESERVATION OF
RECORDS

The Board proposed to amend section 202.9(a) to require creditors to retain a copy of the notification of action taken furnished to the applicant and a copy of the reasons for denial, if this document is provided to the applicant. If a creditor explains the reasons for denial orally and makes a notation or memorandum regarding this action, the creditor shall retain such notation or memorandum for the required period.

Several commentators explained that they use computer-generated form letters for purposes of complying with sections 202.5(m) (1) and (2), notification of action taken and reasons for denial. The proposed amendment was not intended to require creditors to retain "hard" copies of these form letters. The words "or recorded notation" have been added to the language of the amendment to indicate that if a creditor uses an automated system for generating form letters, the creditor need not retain copies of each letter. The requirement of the regulation is satisfied if the creditor makes a notation in the applicant's file that a particular form letter has been sent.

The Board has adopted the amendment in substantially the same form as proposed.

The Board proposed to amend § 202.9 (b) to make it clear that a creditor must retain records when credit is terminated and to provide that creditors need not retain records after revoking credit when the revocation is the result of the customer's delinquency or when the creditor changes the terms of a substantial portion of its accounts.

After consideration of the comments received, the Board has adopted these amendments as proposed.

SECTION 202.10—CERTAIN SPECIALIZED
CREDIT

The Board proposed to amend § 202.10 (c), which relates to business credit, to provide that creditors need not furnish an explanation of reasons for denial in connection with applications for business credit in excess of \$100,000. The Board proposed this amendment because it felt that in large commercial transactions, the benefit to the applicant of receiving reasons for denial is outweighed by the cost to the creditor. The amendment to § 202.10(c) also provides that § 202.4(e) and § 202.5(g) shall not apply to applications for business credit. After consideration of all comments received, the Board has decided to adopt this amendment as proposed.

The Board proposed to add a new paragraph (f) to § 202.10. The new provision relates to credit extended under student loan programs. The Board proposed this amendment because lenders who extend credit under Federal student loan programs are required by the Department of Health, Education, and Welfare to inquire about an applicant's marital status, about the income of the applicant's spouse and to obtain the signature of the applicant's spouse for verification purposes. Information about the applicant's spouse is required because access to credit under these programs is determined on the basis of need. Without this amendment to Regulation B, creditors would be prohibited from making these inquiries and from obtaining the spouse's signature.

As proposed, the amendment referred only to student loan programs administered by the Department of Health, Education, and Welfare. The amendment did not mention State guarantee agencies. Public comments indicated that in certain States, State agencies administer Federal student loan guarantee programs and also administer State guarantee programs that are unconnected with the Federal program. In response to these comments, the Board has added a specific reference to State guarantee agencies to indicate that credit extended under State or Federal student loan programs administered by a State agency is not subject to the restrictions of §§ 202.4 (c), 202.5(b) and 202.7(a).

The Board has adopted this amendment in substantially the same form as proposed.

SECTION 202.14—TRANSITION PERIODS

The Board proposed to amend § 202.14 by deleting the reference to § 202.5(d) in § 202.14(b) and adding it to § 202.14 (d). This change would make the effective date of § 202.5(d) consistent with that of § 202.4(c) (3).

The portions of Regulation B that require changes in creditors' application forms become effective on June 30, 1976. Section 202.5(d) (1) also may require changes in forms and, thus, its effective date should be June 30. However, § 202.5 (d) (2) does not require any alteration in application format. Therefore, the Board has decided to change the effective date

of only paragraph (1) of § 202.5(d) to June 30, 1976.

EFFECTIVE DATE

These amendments become effective on June 30, 1976, except for § 202.10(f). Since § 202.10(f) grants an exemption, it becomes effective on May 13, 1976.

1. Section 202.4(d) is amended by substituting the word "the" for the word "each" before "applicant" in § 202.4(d) (1) and by adding a new subsection, § 202.4(d) (3).

§ 202.4 Applications.

(d) Equal Credit Opportunity Act notice. (1) Except where application is made by telephone, or orally for an amount of credit to exceed an existing limit on an applicant's open end account, the creditor shall provide the applicant with the following notice in writing:

(2) * * *

(3) Where two or more applicants jointly apply for credit, the creditor need furnish the notice required by paragraph (1) to only one of them. In determining which applicant shall receive the notice, the creditor may not select an applicant who is secondarily liable, such as an endorser, co-maker (when designated as a surety) or guarantor.

2. The first sentence of § 202.5(d) (2) is amended to read as follows:

§ 202.5 Evaluation of applications.

(d) *Alimony, child support and maintenance income.* * * *

(2) Where an applicant chooses to disclose alimony, child support or maintenance payments, a creditor shall consider such payments as income to the extent that such payments are likely to be consistently made. * * *

3. Section 202.9 is amended by revising §§ 202.9(a) (1) and 202.9(a) (2) by revising (b) (1) and (2) and redesignating them (b) (1) (i) and (ii) as follows, and by adding new §§ 202.9 (a) (2) (i), (a) (2) (ii), (b) (2) (i) and (b) (2) (ii).

§ 202.9 Preservation of records.

(a) For a period ending 15 months after the date a creditor gives the applicant notice of action on an application, the creditor shall retain as to each applicant:

(1) The original or a copy of any application form and all other written or recorded information used in evaluating an application; and

(2) A copy or recorded notation of the following if furnished the applicant in written form (or if furnished orally, and notation or memorandum made by the creditor):

(i) The notification of action taken, and

(ii) If applicable, the reasons for denial provided to an applicant in accordance with section 202.5(m); and

(3) Any written statement submitted by the applicant alleging discrimination prohibited by the Act or this Part.

(b) (1) For a period ending 15 months after the date a creditor adversely changes the terms or conditions of credit for an account or terminates an account, the creditor shall retain as to each account, in original form or a copy thereof:

(i) Any written or recorded information concerning such change or termination; and

(ii) Any written statement submitted by the applicant alleging discrimination prohibited by the Act or this Part.

(2) For purposes of paragraph (1), an adverse change in the terms or conditions of credit for an account does not include:

(i) A reduction of the credit limit on an account taken after the applicant has failed to make payment as provided in the credit agreement; or

(ii) A change in the terms or conditions of credit affecting all or a substantial portion of the creditor's accounts.

5. Section 202.10 is amended by revising paragraph (c) and adding a new paragraph (f) to read as follows:

§ 202.10 Certain specialized credit.

(c) *Business credit.* Business credit shall be subject to the provisions specified in §§ 202.10(a), 202.5, 202.7, and 202.9, except that §§ 202.5(m) (2), 202.5 (m) (3) and 202.9 shall only apply in those transactions involving an application for credit in the amount of \$100,000 or less where the applicant requests in writing that the creditor provide such reasons or retain such records. Sections 202.4(e) and 202.5(g) shall not apply to business credit extended in the name of a business firm. As used in this part, business credit is credit granted for business, commercial or agricultural purposes.

(f) *Credit under student loan programs.* Credit granted under student loan programs administered by the Department of Health, Education, and Welfare or by State guarantee agencies shall be subject to all the provisions of this part except that to the extent necessary or appropriate to ascertain and/or verify the applicant's marital status and the financial resources of the applicant and the applicant's spouse, if the applicant is married, §§ 202.4(c), 202.5(b) and 202.7(a) shall not apply.

6. Sections 202.14 (b) and (d) are revised as follows:

§ 202.14 Transition periods.

Except as provided in § 202.6 with respect to that section, the provisions of this part shall take effect as follows:

(b) Sections 202.4(b), 202.4(e), 202.5 (d) (2), 202.5(e), 202.5(f), 202.5(g), 202.9 (a) and 202.9(b) shall take effect on November 30, 1975.

(d) Sections 202.4(c), 202.4(d), 202.5 (b) and 202.5(d) (1) shall take effect on June 30, 1976.

By order of the Board of Governors, May 12, 1976.

Secretary of the Board.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-12429]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Director of Division of Market Regulation; Delegation of Authority

INTRODUCTION

The Securities and Exchange Commission hereby announces the amendment of § 200.30-3 (17 CFR 200.30-3) of the Commission's Statement of Organization; Conduct and Ethics; and Information and Requests to delegate to the Director of the Division of Market Regulation the authority to make findings that the agreements, safeguards, and provisions of registered clearing agencies are adequate for the protection of investors.

Paragraphs (g) of Rules 8c-1 and 15c2-1 under the Securities Exchange Act of 1934 (the "Act") provide that the Commission can make findings that the agreements, safeguards, and provisions of certain entities, including clearing agencies, are adequate for the protection of investors. These findings must be made in connection with any rule change submitted by a registered clearing agency pursuant to Rule 19b-4 under the Act which has an effect on the safeguarding of securities left in the care and custody of the registered clearing agency. Therefore, pursuant to sections 8(c) and 15(c) (2) of the Act,¹ the rules of the Commission relating to general organization are being amended to delegate authority to the Director of the Division of Market Regulation to make findings, pursuant to paragraphs (g) of Rules 8c-1 and 15c2-1, that the agreements, safeguards, and provisions of registered clearing agencies are adequate for the protection of investors.

DELEGATION OF AUTHORITY

Section 200.30-3 is amended by adding paragraph (21) to read as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

(a) * * *

(21) Pursuant to Sections 8(c) and 15(c) (2) of the Act (15 U.S.C. 78h(c) and 78o(2)) and paragraphs (g) of Rules 8c-1 and 15c2-1 thereunder, to make findings that the agreements, safeguards, and provisions of registered clearing agencies are adequate for the protection of investors.

The Commission finds, in accordance with sections 5 U.S.C. 553(b) (3) (B) and

¹ 15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975).

² 15 U.S.C. 78h(c) and 78o(2).

553(d)(3) of the Administrative Procedure Act, that the foregoing action relates solely to agency organization, procedure or practice and is effective immediately in order to provide an orderly procedure for the approval of rule submissions which require a determination pursuant to paragraphs (g) of Rules 8c-1 and 15c2-1 under the Act and that notice and public procedure are not necessary with respect to the foregoing action.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

MAY 12, 1976.

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Confidential Treatment of Information Filed With the Commission and With Any Exchange

The Commission today announced the adoption of new Rule 24b-2 (17 CFR 240.24b-2) under Section 24 of the Securities Exchange Act of 1934 relating to confidential treatment of certain information filed with the Commission. Section 24 of the Securities Exchange Act of 1934, 15 U.S.C. Section 78x, was amended by Section 19 of Public Law No. 94-29 (the Securities Acts Amendments of 1975).¹

Previously, Section 24 had prohibited, in subsection (a), the disclosure of trade secrets and processes, and had authorized, in subsection (b), the nondisclosure of any other type of information filed with the Commission pursuant to the Securities Exchange Act unless the Commission found disclosure to be in the public interest. See *American Sumatra Tobacco Corp. v. SEC* 1033, affirmed, *American Sumatra Tobacco Corp. v. Securities and Exchange Commission*, 110 F. 2d 117 (C.A.D.C. 1940). As determination under former Section 24 that disclosure of information was not in the public interest could have been made in some circumstances when the information would not otherwise come within the exemptions from disclosure under the Freedom of Information Act ("FOIA"), 5 U.S.C. 552.

Section 24 now defines, in subsection (a), the term "records" to include "all applications, statements, reports, contracts, correspondence, notices, and other documents filed with or otherwise obtained by the Commission pursuant to this title or otherwise." Subsection (b) of the amended Section prohibits disclosure

¹ Public Law No. 94-29 was signed by the President on June 4, 1975 at which time, as provided by Section 31(a) thereof, Section 19 became effective.

of any records in contravention of the rules and regulations of the Commission under the FOIA or in circumstances where the Commission has determined, pursuant to such rules, to afford confidential treatment for information contained in such records.

The amendment to Section 24 removed the statutory basis for Rule 24b-2 and the Commission rescinded it in Securities Exchange Act Release No. 11774 (40 FR 54773).

The rescinded Rule 24b-2 (17 CFR 240.24b-2), promulgated under Section 24, established a procedure whereby persons filing documents with the Commission pursuant to the Securities Exchange Act could request confidential treatment for information contained therein. Pursuant to subsection (c) of the rescinded Rule, and the former provisions of Section 24, until the Commission had made a determination regarding such a request, the information in question could not be disclosed by the staff. Under subsection (e) of the rescinded Rule, a person requesting confidential treatment could also request a hearing thereon. Subsection (h) provided that if the Commission determined that disclosure of materials filed by the issuer of a security registered on any exchange was in the public interest, the issuer could withdraw such materials by withdrawing the registration of each security to which the material filed related.

Under new Rule 24b-2, information will be entitled to confidential treatment only if it is required to be filed and considered nonpublic under the Commission's FOIA rules (17 CFR 200.80). This determination would be made at the time an application for confidential treatment is filed pursuant to Rule 24b-2, but would be reconsidered whenever appropriate, such as when a request for the information is filed under the FOIA. Persons who have applied for and received confidential treatment for information pursuant to the rule will be contacted by the staff whenever additional information is required in order to determine whether continued confidential treatment is warranted. If it is determined that a continuation of confidential treatment is not warranted, the decision to accord such treatment will be revoked and the requesting person will be so notified wherever possible.

Determinations to grant, deny or revoke confidential treatment will be made by the Directors of the Divisions of Corporation Finance and Market Regulation. Persons may petition the Commission for review of their determinations under 17 CFR 201.26 and no disclosure of information will be made until such Commission review has been completed. The Commission will accord expedited treatment to all such petitions for review to the extent necessary to respond to a pending request under the FOIA within the time limits prescribed by that statute. See 5 U.S.C. Section 552(a)(6)(A).

No provision is made in this rule for confidential treatment of information received by the Commission which is not

required to be filed pursuant to the Act. The Commission intends that any records received by the Commission which are not subject to the provisions of any specific rule governing requests for confidential treatment shall be subject to rules which it expects to publish in the near future.

Confidential treatment pursuant to Rule 485 (17 CFR 230.485) of information filed under the Securities Act of 1933 may have the effect of establishing a basis for confidential treatment under Rule 24b-2 when the same information is required to be filed under the Exchange Act. Accordingly, in considering applications for confidential treatment filed under Rule 485 the staff will consider the length of time for which confidential treatment is sought so that the information will not be kept confidential indefinitely for Exchange Act purposes unless appropriate under the FOIA. In the future, applications for confidential treatment pursuant to Rule 485 should justify the length of time for which such treatment is sought.

Pursuant to Section 23(a)(2) of the Securities Exchange Act, the Commission has considered the impact that this amendment will have on competition and has determined that this rule will not impose any burden not warranted by the FOIA on competition. This amendment shall become effective June 18, 1976.

Those who in the past have requested and been granted confidential treatment under the provisions of former Rule 24b-2 are advised that, while that information will continue to be maintained in non-public files until reconsideration of its confidential status, the disclosure requirements of the FOIA are applicable.

17 CFR Part 240 is amended by adopting a new § 240.24b-2 to read as follows:

§ 240.24b-2 Nondisclosure of information filed with the Commission and with any exchange.

(a) Any person filing any registration statement, report, application, statement, correspondence, notice or other document (herein referred to as the material filed) pursuant to the Act may make written objection to the public disclosure of any information contained therein in accordance with the procedure set forth below. The procedure provided in this rule shall be the exclusive means of requesting confidential treatment of information required to be filed under the Act.

(b) The person shall omit from material filed the portion thereof which it desires to keep undisclosed (hereinafter called the confidential portion). In lieu thereof, it shall indicate at the appropriate place in the material filed that the confidential portion has been so omitted and filed separately with the Commission. The person shall file with the copies of the material filed with the Commission:

(1) As many copies of the confidential portion, each clearly marked "Confidential Treatment," as there are copies of the material filed with the Commis-

sion and with any exchange where such material is required to be filed. Each copy shall contain an appropriate identification of the item or other requirement involved and, notwithstanding that the confidential portion does not constitute the whole of the answer, the entire answer thereto; except that in case the confidential portion is part of a financial statement or schedule only the particular financial statement or schedule need be included. All copies of the confidential portion shall be in the same form as the remainder of the material filed;

(2) An application making objection to the disclosure of the confidential portion. Such application shall be on a sheet or sheets separate from the confidential portion, and shall contain (i) an identification of the portion; (ii) a statement of the grounds of objection referring to, and containing an analysis of, the applicable exemption(s) from disclosure under the Commission's rules and regulations adopted under the Freedom of Information Act (17 CFR 200.80), and a justification of the period of time for which confidential treatment is sought; (iii) a written consent to the furnishing of the confidential portion to other government agencies, offices or bodies and to the Congress; and (iv) the name of each exchange, if any, with which the material is filed.

The copies of the confidential portion and the application filed in accordance with paragraph (b) of this section shall be enclosed in a separate envelope marked "Confidential Treatment" and addressed to The Secretary, Securities and Exchange Commission, Washington, D.C. 20549.

(c) Pending a determination as to the objection filed the material for which confidential treatment has been applied will not be made available to the public.

(d) (1) If it is determined that the objection should be sustained, a notation to that effect will be made at the appropriate place in the material filed. Such a determination will not preclude reconsideration whenever appropriate, such as upon receipt of any subsequent request under the Freedom of Information Act (5 U.S.C. Section 552) and, if appropriate, revocation of the confidential status of all or a portion of the information in question. Where an initial determination has been made under this rule to sustain objections to disclosure, the Commission will attempt to give the person requesting confidential treatment advance notice, wherever possible, if confidential treatment is revoked.

(2) In any case where an objection to disclosure has been disallowed or where a prior grant of confidential treatment has been revoked, the person who requested such treatment will be so informed by registered or certified mail to the person or his agent for service. Pursuant to 17 CFR 201.26, persons making objections to disclosure may petition the Commission for review of a determination by the Division disallowing objections or revoking confidential treatment.

(e) The confidential portion shall be made available to the public at the time and according to the conditions specified in paragraphs (d) (1) and (2) of this section.

(1) Upon the lapse of five days after the dispatch of notice by registered or certified mail of a determination disallowing an objection, if prior to the lapse of such five days the person shall not have communicated to the Secretary of the Commission his intention to seek review by the Commission under 17 CFR 201.26 of the determination made by the Division; or

(2) If such a petition for review shall have been filed under 17 CFR 201.26, upon final disposition thereof adverse to the petitioner.

(f) If the confidential portion is made available to the public, one copy thereof shall be attached to each copy of the material filed with the Commission and with each exchange.

(Secs. 23, 24, 48 Stat. 901, as amended, 80 Stat. 383, as amended, 31 Stat. 54; 15 U.S.C. 78w, 78x, 5 U.S.C. 552).

AMENDMENT OF 17 CFR 200.30-3

The Commission has delegated authority to the Director of the Division of Market Regulation to process applications for confidential treatment of information filed under the Act. In order to implement procedures in Rule 24b-2, 17 CFR 200.30-3(a) is amended by adding paragraph (20) to provide as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

(a)

(20) (i) To grant and deny applications for confidential treatment filed pursuant to Section 24(b) of the Act (15 U.S.C. 78x(b)) and Rule 24b-2 thereunder (240.24b-2 of this chapter);

(ii) To revoke a grant of confidential treatment for any such application.

(Sec. 4, 48 Stat. 885; sec. 1106(a), 63 Stat. 972; 15 U.S.C. 78d); (Pub. L. 87-592, 76 Stat. 394).

The Commission finds that the foregoing delegation action relates solely to agency organization, procedure or practice and that notice and procedures under 5 U.S.C. 553 are unnecessary. Accordingly, the foregoing action, taken pursuant to Public Law 87-592, 76 Stat. 394 and to Section 4 of the Securities Exchange Act of 1934, becomes effective May 19, 1976.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

Title 20—Employees' Benefits
CHAPTER II—U.S. RAILROAD
RETIREMENT BOARD
PART 200—PROCEDURES AND FORMS
Privacy Act Implementation

On August 19, 1975, and on October 2, 1975, the Railroad Retirement Board

published notice of proposed rulemaking to implement the Privacy Act of 1974 (Pub. L. 93-579, 88 Stat. 1896) in the FEDERAL REGISTER (40 FR 36262 and 40 FR 45736). Interested persons were invited to comment on the proposed § 200.4 of Part 200 of the Board's regulations. The Railroad Retirement Board received two comments on its proposed rules and has given due consideration to both of these comments. One of the two comments actually concerned the Board's Notice of Systems of Records and Routine Uses which was published in the FEDERAL REGISTER on August 19, 1975. The other comment received concerned subsections (c) and (g) of the proposed § 200.4.

A commenter suggested that § 200.4(c) be revised to provide a more flexible means for an individual seeking information concerning the existence of or access to a record maintained by the Railroad Retirement Board. The Board has agreed with this proposal and has revised section 200.4(c) to include additional information to guide requesters in framing their requests. Section 200.4(c) is amended to read as follows:

An individual can determine if a particular record system maintained by the Railroad Retirement Board contains any record pertaining to him by submitting a written request for such information to the system manager of that record system as described in the annual notice published in the FEDERAL REGISTER. A current copy of the system notices, published in accordance with paragraph (1) of this section, is available for inspection at all regional and district offices of the Board. If necessary, Board personnel will aid requesters in determining what system(s) of records they wish to review and will forward any requests for information to the appropriate system manager. Also, requests for personal information may be submitted either by mail or in person to the system manager at the headquarters of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. Prior to responding to a request for information under this subsection, the system manager shall require the individual requesting such information to provide identifying data, such as his full name, date of birth, and social security number. The system manager shall respond to a request under this subsection within a reasonable time by stating that a record on the individual either is or is not contained in the system.

The commenter also questioned the Board's authority to establish a time limit for filing an appeal of an adverse decision to amend a record (§ 200.4(g)). Since the Privacy Act is silent on time limits for appeals, the Board has reconsidered its position of specifying a time limit to appeal an adverse determination to amend a record. In the interest of fairness and the accuracy of the records that the Railroad Retirement Board maintains, the Board has deleted the time limit for appealing an adverse decision to amend a record. Section 200.4(g) (1) is amended to read as follows:

An individual, whose request for amendment of a record pertaining to him is denied, may appeal that determination to the Board by filing a written appeal with the Secretary of the Board, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. The written notice of appeal should

include a statement of the information in the record which the individual believes is incorrect, a statement of any information not in the record which the individual believes would correct the record, if included, and a statement of any evidence which substantiates the individual's belief concerning the inaccuracy of the information presently contained in the record.

The Railroad Retirement Board hereby adopts the proposed § 200.4 of Title 20 of the Code of Federal Regulations as published in the FEDERAL REGISTER on August 19, 1975 and October 2, 1975, subject to the two aforementioned amendments which the Board has determined to make in accordance with the comments it received on its proposed rules, and several editorial corrections.

Dated: May 12, 1976.

Section 200.4 is added to read as follows:

§ 200.4 Protection of privacy of records maintained on individuals.

(a) *Purpose and scope.* The purpose of this section is to establish specific procedures necessary for compliance with the Privacy Act of 1974 (Pub. Law 93-579). These regulations apply to all record systems containing information of a personal or private nature maintained by the Railroad Retirement Board that are indexed and retrieved by personal identifier.

(b) *Definitions.*—(1) *Individual.* The term "individual" pertains to a natural person who is a citizen of the United States or an alien lawfully admitted for permanent residence and not to a company or corporation.

(2) *System of records.* For the purposes of this section, the term "system of records" pertains to only those records that can be retrieved by an individual identifier.

(3) *Railroad Retirement Board.* For purposes of this section, the term "Railroad Retirement Board" refers to the United States Railroad Retirement Board, an independent agency in the executive branch of the United States Government.

(4) *Board.* For purposes of this section the term "Board" refers to the three member governing body of the United States Railroad Retirement Board.

(c) *Procedure for requesting the existence of personally identifiable records in a record system.* An individual can determine if a particular record system maintained by the Railroad Retirement Board contains any record pertaining to him by submitting a written request for such information to the system manager of that record system as described in the annual notice published in the FEDERAL REGISTER. A current copy of the system notices, published in accordance with paragraph (i) of this section, is available for inspection at all regional and district offices of the Board. If necessary, Board personnel will aid requesters in determining what system(s) of records they wish to review and will forward any requests for information to the appropriate system manager. Also, requests

for personal information may be submitted either by mail or in person to the system manager at the headquarters of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. Prior to responding to a request for information under this subsection, the system manager shall require the individual requesting such information to provide identifying data, such as his full name, date of birth, and social security number. The system manager shall respond to a request under this subsection within a reasonable time by stating that a record on the individual either is or is not contained in the system.

(d) *Disclosure of requested information to individuals.* (1) Upon request, an individual shall be granted access to records pertaining to himself, other than medical records and records compiled in anticipation of a civil or criminal action or proceeding against him, which are indexed by individual identifier in a particular system of records. Requests for access must be in writing and should be addressed to the system manager of that record system as described in the annual notice published in the FEDERAL REGISTER. Requests under this subsection may be submitted either by mail or in person at the headquarters offices of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611.

(2) The system manager shall, within ten working days following the date on which the request is received in his office, render a decision either granting or denying access and shall promptly notify the individual of his decision. If the request is denied, the notification shall inform the individual of his right to appeal the denial to the Board. An individual whose request for access under this subsection has been denied by the system manager may appeal that determination to the Board by filing a written appeal with the Secretary of the Board, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 within twenty working days following receipt of the notice of denial. The Board shall render a decision on an appeal within thirty working days following the date on which the appeal is received in the office of the Secretary of the Board. The individual shall promptly be notified of the Board's decision.

(3) In cases where an individual has been granted access to his records, the system manager shall, prior to releasing such records, require the individual to produce identifying data such as his name, date of birth, and social security number.

(4) Disclosure to an individual of his record may be made by providing him, upon written request therefor, a copy of the record or portion thereof which he reasonably describes in his request.

(5) An individual, and if such individual so desires, one other person of his choosing, may review and have a copy made of his record (in a form comprehensible to him) during regular business hours at the location described as the

repository of the record system containing such records in the annual notice published in the FEDERAL REGISTER or at such other location convenient to the individual as specified by the system manager. If an individual is accompanied by another person, the system manager may require written authorizations for disclosure in the presence of the other person from the individual before any record or portion thereof is released.

(e) *Special procedures—medical records.* (1) Upon receipt of a request made by an individual for access to medical records pertaining to him maintained by the Railroad Retirement Board, the system manager of the system of records containing the medical records in question shall, within ten working days following the date on which the request is received in his office, respond to such request as follows:

(i) If the system manager has received a written authorization from the physician or practitioner who supplied a particular medical record permitting the individual access to that record, the system manager shall grant the individual access to such record as provided under paragraph (d) of this section; or

(ii) If the system manager has not received a written authorization from the physician or practitioner who supplied a particular medical record permitting the individual access to that record, the system manager shall notify the individual that access to the record cannot be granted without such consent, and he shall further inform the individual of the name and address of the physician or practitioner who supplied the record.

(2) If the physician or practitioner who supplied a particular medical record should need to examine the record in order to determine whether disclosure of the record might be harmful to the individual, the system manager shall inform the individual that the physician or practitioner has requested the record and shall furnish the record or a copy thereof to the physician or practitioner.

(3) If the physician or practitioner who supplied a particular medical record is unavailable to give his authorization for access to that record, the system manager shall inform the individual who requested access that the record may be made available to a physician named by the individual for the purpose of making a determination as to whether disclosure of the record to the individual might be harmful to the individual and as to whether access to the record should be denied for that reason.

(4) Notwithstanding the provisions of subparagraphs (1), (2), and (3) of this paragraph and of paragraph (d) of this section, if a determination made with respect to an individual's claim for benefits under the Railroad Retirement Act or the Railroad Unemployment Insurance Act is based in whole or in part on medical records, disclosure of or access to such medical records shall be granted to such individual when such records are requested for the purpose of

contesting such determination either administratively or judicially.

(5) The procedures for access to medical records set forth in this paragraph shall not apply with respect to requests for access to an individual's disability decision sheet or similar adjudicatory documents, access to which is governed solely by paragraph (d) of this section.

(f) *Request for amendment of a record.* (1) An individual may request that a record pertaining to himself be amended by submitting a written request for such amendment to the system manager as described in the annual notice published in the FEDERAL REGISTER. Requests under this subsection may be made either by mail or in person at the headquarters offices of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. Such a request should include a statement of the information in the record which the individual believes is incorrect, a statement of any information not in the record which the individual believes would correct the record, if included, and a statement of any evidence which substantiates the individual's belief concerning the inaccuracy of the information presently contained in the record.

(2) Prior to rendering a determination in response to a request under this subsection, the system manager shall require that the individual provide identifying data such as his name, date of birth, and social security number.

(3) The system manager responsible for the system of records which contains the challenged record shall acknowledge receipt of the request in writing within ten working days following the date on which the request for amendment was received in his office and shall promptly render a decision either granting or denying the request.

(i) If the system manager grants the individual's request to amend his record, the system manager shall amend the record accordingly, advise the individual in writing that the requested amendment has been made and where an accounting of disclosures has been made, advise all previous recipients of the record to whom disclosure of such record was made and accounted for of the fact that the amendment was made and the substance of the amendment.

(ii) If the system manager denies the individual's request to amend his record, the system manager shall inform the individual that the request has been denied in whole or in part, the reason for the denial and the procedure regarding the individual's right to appeal the denial to the Board.

(g) *Appeal of initial adverse determination on amendment.* (1) An individual, whose request for amendment of a record pertaining to him is denied, may appeal that determination to the Board by filing a written appeal with the Secretary of the Board, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. The written notice of appeal should include a statement of the information

in the record which the individual believes is correct, a statement of any information not in the record which the individual believes would correct the record, if included, and a statement of any evidence which substantiates the individual's belief concerning the inaccuracy of the information presently contained in the record.

(2) The Board shall consider the appeal and render a final decision thereon within thirty working days following the date on which the appeal is received in the office of the Secretary of the Board. An extension of the thirty day response period is permitted for a good cause upon notification of such to the requester.

(3) If, upon consideration of the appeal, the Board upholds the denial, the appellant shall be so informed in writing. The appellant shall be advised that he may file a concise statement with the Board setting forth his reasons for disagreeing with the Board's decision and the procedures to be followed in filing such a statement of disagreement. The individual shall also be informed of his right to judicial review as provided under section 552a(g)(1)(A) of Title 5 of the United States Code. If disclosure has or will be made of a record containing information about which an individual has filed a statement of disagreement, that contested information will be annotated and a copy of the statement of disagreement will be provided to past and future recipients of the information along with which the Board may include a statement of its reasons for not amending the record in question.

(4) If, upon consideration of the appeal, the Board reverses the denial, the Board shall amend the record, advise the appellant in writing that such amendment has been made, and where an accounting of disclosures has been made, advise all previous recipients of the record to whom disclosure of such was made and accounted for, of the fact that the amendment was made and the substance of the amendment.

(h) *Disclosure of record to person other than the individual to whom it pertains.* (1) Records collected and maintained by the Railroad Retirement Board in the administration of the Railroad Retirement Act and the Railroad Unemployment Insurance Act which contain information of a personal or private nature shall not be disclosed to any person or to another agency without the express written consent of the individual to whom the record pertains. Such written consent shall not be required if the disclosure is not otherwise prohibited by law or regulation and is:

(i) To officers or employees of the Railroad Retirement Board who, in the performance of their official duties, have a need for the record;

(ii) Required under section 552 of Title 5 of the United States Code;

(iii) For a routine use of such record as published in the annual notice in the FEDERAL REGISTER;

(iv) To the Bureau of the Census for uses pursuant to the provisions of Title 13 of the United States Code;

(v) To a recipient who has provided the Board with advance written assurance that the record will be used solely as a statistical or research record, and the record is to be transferred in a form that is not individually identifiable;

(vi) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

(vii) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the agency which maintains the record specifying the particular portion desired and the law enforcement activity for which the record is sought;

(viii) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if, upon such disclosure, notification is transmitted to the last known address of such individual;

(ix) To either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(x) To the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(xi) Pursuant to the order of a court of competent jurisdiction.

(2) The Railroad Retirement Board shall maintain an accounting of all disclosures of records made under paragraph (h)(1) of this section, except those made under paragraphs (h)(1)(i) and (ii) of this section. This accounting will include:

- (i) Date of disclosure;
- (ii) Specific subject matter of disclosure;
- (iii) Purpose of disclosure; and
- (iv) Name and address of the person or agency to whom the information has been released.

The Railroad Retirement Board shall maintain the accounting for five years or the life of the system of records, whichever is longer, and make such accounting, with the exception of disclosures made under paragraph (h)(1)(vii) of this section, available to the individual to whom the record pertains upon his request. If, subsequent to disclosure of a record for which disclosure an accounting has been made pursuant to this subsection, an amendment is made to that record or an individual has filed a statement of disagreement concerning that record, the person or agency to whom such disclosure was made shall be notified of the amendment or statement of disagreement.

(i) *Annual notice of systems of records.* The Railroad Retirement Board

shall publish in the FEDERAL REGISTER on an annual basis a listing of the various systems of records which it maintains by individual identifier. That notice shall provide the following for each system:

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The routine uses of the system;

(4) The methods of storage, disposal, retention, access controls and retrievability of the system;

(5) The title and business address of the individual who is responsible for the system;

(6) The procedure whereby an individual can be notified at his request whether or not the system contains a record pertaining to him;

(7) The procedure whereby the individual can be notified at his request how he can gain access to any record pertaining to him which is contained in the system;

(8) How the individual can contest the contents of such a record; and

(9) The categories of sources of records in the system.

(j) *Collection of information and maintenance of records.* With respect to each system of records indexed by individual identifier which is maintained by the Railroad Retirement Board, the Railroad Retirement Board shall:

(1) Maintain in each system only such information about an individual as is relevant and necessary in accomplishing the purposes for which the system is kept;

(2) To the greatest extent practicable, collect information directly from the individual when that information may result in an adverse determination about such individual's rights, benefits or privileges under programs administered by the Railroad Retirement Board;

(3) Inform each individual who is asked to supply information:

(i) The authority under which the solicitation of such information is carried out;

(ii) Whether disclosure of the requested information is mandatory or voluntary and any penalties for failure to furnish such information;

(iii) The principal purposes for which the information will be used;

(iv) The routine uses and transfers of such information; and

(v) The possible effects on such individual if he fails to provide the requested information.

(4) Maintain all records which are used by the Railroad Retirement Board in making any determination about any individual with such accuracy, relevance, timeliness and completeness as is reasonably necessary to assure fairness to the individual in the determination;

(5) Prior to disseminating any record about an individual to any person other than an agency, unless the dissemination is made pursuant to paragraph (h) (1)

(ii) of this section, make reasonable ef-

forts to assure that such records are accurate, complete, timely and relevant for purposes of the administration of the Railroad Retirement Act and the Railroad Unemployment Insurance Act;

(6) Maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual to whom the record pertains or unless pertinent to and within the scope of an authorized law enforcement activity;

(7) Make reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record; and

(8) At least thirty days prior to publication of information under paragraph (1) of this section, publish in the FEDERAL REGISTER notice of any new use or intended use of the information in the system and provide an opportunity for interested persons to submit written data, views or arguments to the Railroad Retirement Board.

(k) *Fees.* The Railroad Retirement Board may assess a fee for copies of any records furnished to an individual under paragraph (d) of this section. The fees for copies shall be \$.10 per copy per page, not to exceed the actual cost of reproduction, and should be paid to the Director of Budget and Fiscal Operations for deposit to the Railroad Retirement Account. If payment is made by check, the check should be payable to the order of the Railroad Retirement Board. Any fee of less than \$10 may be waived by the system manager if he determines that it is in the public interest to do so.

(l) *Government contractors.* When the Railroad Retirement Board provides by a contract or by a subcontract subject to its approval for the operation by or on behalf of the Railroad Retirement Board of a system of records to accomplish an agency function, the Railroad Retirement Board shall, consistent with its authority, cause the requirements of § 552a of Title 5 of the United States Code to be applied to such system. In each such contract or subcontract for the operation of a system of records, entered into on or after September 27, 1975, the Railroad Retirement Board shall cause to be included a provision stating that the contractors or subcontractors and their employees shall be considered employees of the Railroad Retirement Board for purposes of the civil and criminal penalties provided in sections (g) and (i) of the Privacy Act of 1974 (5 U.S.C. 552a (g) and (i)).

(m) *Mailing lists.* The Railroad Retirement Board shall neither sell nor rent information containing any individual's name or address, unless authorized by statute.

(n) *Disclosure of social security account numbers.* Whenever an individual is requested by the Railroad Retirement Board to disclose his social security account number he shall be informed as to whether such disclosure is mandatory or

voluntary. If disclosure of the individual's social security account number is mandatory, he shall be informed of the statutory authority requiring such disclosure.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT LIMITATIONS, GUIDELINES AND STANDARDS

[FRL 545-5]

PART 418—FERTILIZER MANUFACTUR- ING POINT SOURCE CATEGORY

Subpart A—Phosphate Subcategory

ALLOWANCES FOR CERTAIN DISCHARGES

Notice is hereby given that the Environmental Protection Agency is amending 40 CFR 418, Fertilizer Manufacturing Point Source Category, Subpart A—Phosphate Subcategory, §§ 418.11, 418.12, 418.13 and 418.15.

40 CFR 418 was promulgated on April 8, 1974 (39 FR 12832) pursuant to sections 301, 304(b) and (c), 306 (b) and (c) and 307(c) of the Federal Water Pollution Control Act as amended, 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b), and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92-500.

On August 6, 1975 notice was published in the FEDERAL REGISTER (40 FR 33052), that the Environmental Protection Agency was proposing to amend 40 CFR Part 418, Fertilizer Manufacturing Point Source Category, Subpart A—Phosphate Subcategory, §§ 418.11, 418.12, 418.13 and 418.15.

Interested persons were invited to participate in the rulemaking by submitting written comments on the proposed amendment within 30 days of the date of publication.

The following responded to the request for written comment: Florida Department of Environmental Regulation, Mississippi Chemical Corporation and Stauffer Chemical Company. Each of the com-

ments received was carefully reviewed and analyzed.

The following is a summary of the significant comments and the Agency's response to these comments:

(1) One commenter objected to the inclusion of leaks and spills under the definition of contaminated non-process wastewater because it would discourage any incentive for good housekeeping and preventative maintenance within the plant.

Accidental spills and accidental leaks have been included in the definition of contaminated non-process wastewater but with specific limitations on maximum discharges and requirements for prompt repair and control.

(2) One commenter objected to the concentration limits for contaminated non-process wastewater because they are too lenient.

No data is available to the Agency to provide a basis for more stringent limitations for contaminated non-process wastewater.

(3) One commenter recommended that the pH range of process wastewater be 8.5 to 9.0 instead of 6.0 to 9.0.

The pH range has been set at 6.0 to 9.5 based on the performance of double lime treatment of process wastewater. Limitations on phosphorus and fluoride are set at a level where a pH in the higher part of the range will generally be required.

(4) One commenter objects to prescribing operating conditions in addition to effluent limitations.

Operating conditions are not prescribed. The regulation provides for no discharge of process wastewater. Under the conditions described in the regulation, exceptions to the no discharge requirement are made.

(5) One commenter proposes that a provision be added that process water may be discharged untreated by overflow when chronic or catastrophic precipitation events cause the water level to exceed the surge capacity.

Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 10-year, 24-hour rainfall event may be discharged, after treatment to the standards established, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the mid point of the surge capacity. In the unlikely event that despite adherence to the requirements of the regulation, rainfall runoff quantity is so great as to exceed this surge capacity, the bypass provision in the standard permit may apply. The standard permit language for the bypass provision is as follows:

"The diversion or bypass of any discharge from facilities utilized by the permittee to maintain compliance with

the terms and conditions of this permit is prohibited, except (i) where unavoidable to prevent loss of life or severe property damage, or (ii) where excessive storm drainage or runoff would damage any facilities necessary for compliance with the terms and conditions of this permit. The permittee shall immediately notify the permit issuing authority in writing of each such diversion or bypass in accordance with the procedure specified above for reporting noncompliance."

In addition to the above comments, phosphate fertilizer manufacturers have contended that the fluoride, phosphate and suspended solids limitations in the proposed amendment are unachievable. In response to this contention, EPA has obtained results from a program of sampling and testing of process wastewater from phosphate manufacturing facilities. Wastewater samples from nine facilities were made available to EPA and removal of fluoride and phosphate was evaluated by appropriate laboratory techniques. From the results of this study, the fluoride and suspended solids limitations have been revised. In addition, the ratio of daily maximum values to 30 day average values has been altered for phosphate, fluoride and suspended solids.

As a result of public comments, the effluent treatability study and continuing review and evaluation of the proposed amendment, the following changes have been made in the amendment:

(1) The maximum for any one day is increased to three times the average values for 30 consecutive days.

(2) The fluoride limitations for the average value for 30 consecutive days was increased to 25 mg/l.

(3) The TSS limitations were revised and a provision for relief from the limitations under conditions where chemically treated effluent is settled to meet the other pollutant limitations was added.

(4) The upper pH limitation was increased to 9.5.

The technology to achieve the limitations in this amendment is the same as in the original regulations and is described in the manual entitled "Development Document for Effluent Limitations Guidelines and New Source Performance Standards for the Basic Fertilizer Chemicals Segment of the Fertilizer Manufacturing Point Source Category" available from the Government Printing Office, Washington, D.C. 20402, for a nominal fee. Information and data collected have led to changes which have made the limitations less stringent. Therefore, the economic impact, energy consequences and non-water quality aspects are less severe than in the original regulations. A summary of these findings may be found in the preamble to the original regulations, 39 FR 12832 (April 8, 1974).

A summary of findings, the data collected and the information received will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Water-side Mall, 401 M Street, SW., Washing-

ton, D.C. The DEA information regulation provides that a reasonable fee may be charged for copying.

In consideration of the foregoing, 40 CFR Chapter I, Subchapter N, Part 418, Fertilizer Manufacturing Point Source Category, Subpart A—Phosphate Subcategory, is amended to read as set forth below. The final regulation is promulgated as set forth below and shall be effective June 18, 1976.

Dated: May 12, 1976.

RUSSELL E. TRAIN,
Administrator.

Subpart A is amended as follows:

1. In § 418.11, paragraph (b) is revised and (c), (d), (e) and (f) are added to read as follows:

§ 418.11 Specialized definitions.

(b) The term "process wastewater" means any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, by-product, or waste product. The term "process wastewater" does not include contaminated non-process wastewater, as defined below.

(c) The term, "contaminated non-process wastewater" shall mean any water including precipitation runoff which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of: (1) precipitation runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment and which are repaired or the discharge of pollutants therefrom contained or terminated within the shortest reasonable time which shall not exceed 24 hours after discovery or when discovery should reasonably have been made, whichever is earliest; and (4) discharges from safety showers and related personal safety equipment, and from equipment washings for the purpose of safe entry, inspection and maintenance; provided that all reasonable measures have been taken to prevent, reduce, eliminate and control to the maximum extent feasible such contact and provided further that all reasonable measures have been taken that will mitigate the effects of such contact once it has occurred.

(d) The term "ten year 24 hour rainfall event" shall mean the maximum 24 hour precipitation event with a probable recurrence interval of once in 10 years as defined by the National Weather Service in technical paper No. 40, "Rainfall Frequency Atlas of the United States", May, 1961, and subsequent amendments in effect as of the effective date of this regulation.

(e) The term "25 year 24 hour rainfall event" shall mean the maximum 24 hour precipitation event with a probable recurrence interval of once in 25 years as

RULES AND REGULATIONS

defined by the National Weather Service in technical paper No. 40, "Rainfall Frequency Atlas of the United States", May, 1961, and subsequent amendments in effect as of the effective date of this regulation.

(f) The term "calcium sulfate storage pile runoff" shall mean the calcium sulfate transport water runoff from or through the calcium sulfate pile, and the precipitation which falls directly on the storage pile and which may be collected in a seepage ditch at the base of the outer slopes of the storage pile, provided such seepage ditch is protected from the incursion of surface runoff from areas outside of the outer perimeter of the seepage ditch.

2. In § 418.12, paragraphs (a), (b), (c) and (d) are revised to read as follows:

§ 418.12 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) Subject to the provision of paragraphs (b) and (c) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: there shall be no discharge of process wastewater pollutants to navigable waters.

(b) Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 10-year, 24-hour rainfall event may be discharged, after treatment to the standards set forth in paragraph (c) below, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the mid point of the surge capacity.

(c) The concentration of pollutants discharged in process wastewater pursuant to the limitations of paragraph (b) shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
TSS	150	50
pH	Within the range 6.0 to 9.5.	

The total suspended solid limitation set forth in this paragraph shall be waived for process wastewater from a calcium

sulfate storage pile runoff facility, operated separately or in combination with a water recirculation system, which is chemically treated and then clarified or settled to meet the other pollutant limitations set forth in this paragraph.

(d) The concentration of pollutants discharged in contaminated non-process wastewater shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
pH	Within the range 6.0 to 9.5.	

3. In § 418.13, paragraphs (a) and (b) are revised and (c) and (d) added to read as follows:

§ 418.13 Effluent limitations and guidelines representing the degree of effluent reduction attained by the application of the best available technology economically achievable.

(a) Subject to the provision of paragraphs (b) and (c) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: there shall be no discharge of process wastewater pollutants to navigable waters.

(b) Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 25-year, 24-hour rainfall event may be discharged, after treatment to the standards set forth in paragraph (c) of this section, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the midpoint of the surge capacity.

(c) The concentration of pollutants discharged in process wastewater pursuant to the limitations of paragraph (b) of this section shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
TSS	150	50
pH	Within the range 6.0 to 9.5.	

The total suspended solid limitations set forth in this paragraph shall be waived for process wastewater from a calcium sulfate storage pile runoff facility, operated separately or in combination with a water recirculation system, which is chemically treated and then clarified or settled to meet the other pollutant limitations set forth in this paragraph.

(d) The concentration of pollutants discharged in contaminated non-process wastewater shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
pH	Within the range 6.0 to 9.5.	

4. In § 418.15, paragraphs (a) and (b) are revised and (c) and (d) are added to read as follows:

§ 418.15 Standards of performance for new sources.

(a) Subject to the provision of paragraphs (b) and (c) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available demonstrated control technology: there shall be no discharge of process wastewater pollutants to navigable waters.

(b) Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 25-year, 24-hour rainfall event may be discharged, after treatment to the standards set forth in paragraph (c) below, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the midpoint of the surge capacity.

(c) The concentration of pollutants discharged in process wastewater pursuant to the limitations of paragraph (b) shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
TSS	150	50
pH	Within the range 6.0 to 9.5.	

The total suspended solid limitation set forth in this paragraph shall be waived for process wastewater from a calcium sulfate storage pile runoff facility, operated separately or in combination with a water recirculation system, which is chemically treated and then clarified or settled to meet the other pollutant limitations set forth in this paragraph.

(d) The concentration of pollutants discharged in contaminated non-process wastewater shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
pH	Within the range 6.0 to 9.5.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 228—SOCIAL SERVICES PROGRAMS FOR INDIVIDUALS AND FAMILIES: TITLE XX OF THE SOCIAL SECURITY ACT

Individual Recipient Basic Data File; Revocation

Notice is given by the Acting Administrator of the Social and Rehabilitation Service with the approval of the Secretary of Health, Education, and Welfare, that 45 CFR 228.63, Individual Recipient Basic Data File, is revoked.

In the regulations published on June 27, 1975 in the FEDERAL REGISTER, § 228.63 required, as a condition for Federal financial participation (FFP), that State agencies administering title XX services programs had to assemble and maintain certain data on every individual receiving social services under title XX. When it became obvious that some States could not readily establish such a file while coping with all the other start-up problems of a new program, § 228.63 was amended on October 3, 1975 to give States until May 15, 1976 to establish the file.

The basis for now revoking § 228.63 is to eliminate the May 15, 1976 deadline for establishment of the file.

The purpose is for the Department to avoid denying FFP to States which cannot meet the May 15 deadline. In addition to this revocation, the Department is reviewing the requirement for the basic data file, including the unique identifier. Because of significant issues and strong views which have been raised, the Department will issue a Notice of Intent which will address the pro and con of a State basic data file. Broad public comment will be solicited, after which a decision will be made whether to rein-

state the requirement for a file as a compliance rather than a Federal financial participation issue, or whether the matter should be left up to the States.

The Department finds that there is good cause to dispense with proposed rule making procedures because of the immediacy of the May 15, 1976 deadline for phase-in of the file. Unless the regulation is revoked by that date, some States will be financially penalized. Because title XX is a new program, still in its first year of operation, the Department wishes to provide relief where possible while the State agencies endeavor to overcome their start-up problems.

§ 228.63 [Reserved]

Accordingly, § 228.63 is revoked and the section vacated.

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).)

Effective date: This revocation is effective upon publication (May 19, 1976) or on May 15, 1976, whichever is earlier.

(Catalog of Federal Domestic Assistance Program No. 13.754, Public Assistance—Social Services.)

It is hereby certified that the economic and inflationary effects of this regulation have been carefully evaluated in accordance with Executive Order No. 11821.

Dated: May 13, 1976.

DON WORTMAN,
Acting Administrator, Social and Rehabilitation Service.

Approved: May 14, 1976.

MARJORIE LYNCH,
Acting Secretary.

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME COMMISSION

SUBCHAPTER A—GENERAL PROVISIONS

[General Order 16, Amdt. 14, Docket No. 75-36]

PART 502—RULES OF PRACTICE AND PROCEDURE

Miscellaneous Amendments

This proceeding was instituted by notice of proposed rulemaking published in the FEDERAL REGISTER of September 24, 1975 (40 F.R. 43925). The purpose of the proceeding was to amend various sections of the Commission's rules of practice, primarily to expedite the conduct of formal proceedings.¹

Comments were submitted by F. Conger Fawcett of the law firm of Graham and James (Fawcett); L. A. Parish, a practitioner (Parish); Matson Navigation Company (Matson); Maritime Administrative Bar Association (MABA); Martin A. Herksher of the law firm of Duane, Morris and Hecksher (Hecksher); and the Commission's Bureau of Hearing Counsel (Hearing Counsel). We

¹ For further explanation of the purpose of the proposed amendments, see notice of proposed rulemaking, cited above.

have considered these comments carefully and herewith publish final rules. A section-by-section discussions of the rules and comments thereon follows.

1. Section 502.21 was proposed to be amended to provide for special appearances; to require attendance by counsel at all hearings and prehearing conferences; and to specify sanctions for failure to abide by these rules.

MABA considers the proposal inappropriate on the ground that attendance is a matter for counsel's judgment, subject to proper notice to the presiding officer. MABA further believes that special appearances are covered by the rules on intervention. Fawcett agrees, believing further that the sanctions are too harsh. Hearing Counsel point out that required attendance could lead to unnecessary expense.

We are satisfied that standards of attendance can be left to and established by the presiding officer. Accordingly, we are withdrawing so much of the proposal that relates to attendance and sanctions for failure to abide by the rules. For clarity, however, the provision for special appearances will be retained.

2. Sections 502.64, 502.71 and 502.73 were proposed to be amended by providing that filing of motions to dismiss or for bills of particulars will not stay the time for filing answer to complaint, thus eliminating an element of delay.

MABA and Fawcett suggest that, rather than following this proposal, we adopt appropriate provisions of Rule 12 of the Federal Rules of Civil Procedure.

While we are still concerned with motions which appear to be made for the purpose of delay, the comments are well-taken. Accordingly, the involved sections will be modified to incorporate the time provisions of Rule 12.

3. Section 502.67 was proposed to be amended, in general, to provide for a specially expedited procedure applicable to domestic offshore rate proceedings where suspension of rates is involved.

While generally supporting the concept of the proposal, the commentators point out this is a substantive and not a procedural change and should be made the subject of a separate proceeding.

We are persuaded that the proposal should be withdrawn and a revised version will be noticed in a separate proceeding.

4. Sections 502.69 and 502.73 were proposed to be amended to clarify the procedure for treating petitions by specifying that section 502.69 does not apply to docketed proceedings and that petitions in docketed proceedings will be governed by section 502.73.

MABA and Hearing Counsel do not object to the proposal and suggest minor changes in wording.

The purpose of the proposal was to eliminate confusion in the treatment of petitions. We are satisfied that the rule, as proposed, does this and are adopting it as a final rule.

5. (a) New section 502.95 was proposed to encourage stipulations among parties to proceedings.

MABA, Parish and Hearing Counsel question the need for the proposal, citing other sections of the rules such as section 502.94.

In light of the comments received, we are of the opinion that the current rules² are adequate with respect to stipulations. In withdrawing the proposal, however, we wish to stress that all parties to proceedings should, to the utmost extent possible, stipulate or admit noncontroversial matters. This, in itself would contribute significantly to expediting the hearing process.

(b) New section 502.96 was proposed to provide for the submission of prehearing statements by the parties setting forth issues, facts, witnesses, exhibits and like matters.

MABA and Fawcett question the proposal on the ground that it merely increases paperwork. Parish objects to furnishing witness and exhibit lists prior to hearing. Hearing Counsel, while supporting the concept, object to its binding effect.

We remain of the opinion that prehearing statements will contribute materially to reduce the scope of proceedings and consequent delay. Accordingly, we will adopt the proposal. We are, however, following Hearing Counsel's suggestion and permitting deviation from the prehearing statement upon a showing of good cause therefor to the presiding officer.

6. Section 502.105 was proposed to be amended to require that requests for enlargement of time on motions to postpone or cancel hearings or prehearing conferences be made at least five days prior to the appropriate date.

MABA and Hearing Counsel suggest that a "good cause" criterion be inserted in the rule.

We accept the suggestion of the commentators and the final rule will provide an exception for good cause.

7. Section 502.114 was proposed to be amended by providing that date of filing shall be the date a document is lodged with the Secretary or the date a party certified it to be deposited in the mail.

MABA takes issue with the proposal on a variety of grounds and suggests adoption of Rule 6(e) of the Federal Rules of Civil Procedure. Hearing Counsel wants it made clear that the rule does not apply to protests submitted pursuant to § 502.67. Hecksher supports the proposal.

We are satisfied that, of the myriad alternatives available, this proposal is the fairest. The final rule will be amended, however, to specify that it does not apply to complaints filed pursuant to section 22 of the Shipping Act, 1916, or to protests filed pursuant to section 3 of the Intercoastal Shipping Act, 1933. The filing of complaints is governed by statute and, to some extent, by Commission policy. With respect to filing of protests, the instant proposal would not be practicable

² Sections 502.91, 502.94, 502.157, 502.162, and 502.208(a) (3).

given to severe time restrictions attendant to filing of rates in the domestic off-shore trades. In addition, we are revising the certificate of service set out in § 502.117.

8. Sections 501.118 and 502.201 were proposed to be amended to reduce the number of copies of discovery materials and letters to be provided to the Commission.

All commentators agreed with the purpose of the rule. MABA and Hearing Counsel go further and question whether discovery materials should be filed at all since they are not yet evidence; Fawcett suggests a different procedure for letters.

We are retaining the filing requirement to establish the fact of service. Nevertheless, to allay any fears that non-evidentiary material will find its way into the record, we are striking language in the proposed rule that such materials are for the "use" of the presiding officer or the Commission. As to letters, we believe the rule, as proposed, is most compatible with the Commission's internal procedures. As custodian of the official record, the Secretary should receive the original of any document in the first instance.

9. (a) Section 502.153 was proposed to be amended to distinguish interlocutory appeals from final appeals, to condense leave to appeal and the appeal into one pleading, and to specify that a proceeding need not be stayed pending Commission consideration of the appeal.

No party opposes the proposal but MABA suggests that it allow for oral rulings.

We have accepted MABA's suggestion and provision for oral rulings will be made in the final rule.

(b) The title of § 502.227 will be amended to reflect more accurately its content.

(c) Section 502.227 was proposed to be amended further to provide for appeals from a grant by the presiding officer of a dismissal of a proceeding in whole or in part.

MABA would limit the proposal to dismissal of a proceeding in whole, i.e., a dismissal in part would not grant an automatic leave to appeal. Fawcett suggests that the time for filing appeal be extended to 30 days, "equivalently to that actually now afforded to the filing of exceptions to initial decisions . . ." Hearing Counsel would permit a right of appeal if a petition for leave to intervene is denied or if a grant of intervention is withdrawn.

We cannot accept MABA's position on this proposal; a dismissal in part could be just as crucial to a party's case as a dismissal of the entire proceeding. Fawcett's suggestion is based on an erroneous assumption; current Commission rules only provide for 15 days for the filing of exceptions. Hearing Counsel's suggestion has merit and the final rule will include language to that effect.

(d) Section 502.261 was proposed to be amended to provide that a petition for reconsideration shall not act as a stay

of a proceeding before the presiding officer.

No comment was made to this proposal and it will be incorporated in the final rules.

10. Section 502.156 was proposed to be amended to make the new Federal Rules of Evidence (P.L. 93-595) applicable to Commission proceedings unless inconsistent with the Administrative Procedure Act (APA).

MABA would abolish the present rule and adopt the Federal rules except to the extent they are inconsistent with the APA. Parish states that the Federal Rules are too strict and contrary to the APA. Hearing Counsel are concerned that the Federal Rules not conflict with the Commission's rules as well as the APA.

We are unmoved by the arguments against this proposal. As stated in the notice of proposed rulemaking, the Federal Rules can be of great assistance in resolving evidentiary problems in administrative proceedings. We are, however, further amending the rule to indicate that the Federal Rules will not apply where in conflict with the Commission's own rules.

11. Section 502.162 was proposed to be amended to encourage stipulation during hearings as well as prior to their commencement and to clarify the use of stipulations in the event that one or more parties refuse to enter into them.

MABA and Parish present many of the same arguments which have been made to proposal 5., above. Hearing Counsel want the rule to make clear that the rights of cross-examination and rebuttal of nonsubscribing parties to stipulations are preserved.

We are discarding as unnecessary the language with respect to stipulation at hearing. This, however, should not be construed to mean that the Commission does not encourage such stipulations or admissions. Consistent with our action concerning the proposed new § 502.95 (see 5., above), we likewise are withdrawing the instant proposal. The final rule will also incorporate the suggestion of Hearing Counsel as to rights of nonsubscribing parties to cross-examination and rebuttal.

12. Section 502.166 was proposed to be amended to permit the filing of motions for corrections of transcript within 20 days after service thereof and to delete the current requirement for certification by a party as to the date of receipt.

MABA suggests the 20 days commence after last day of hearing in cases of multi-volume transcripts. Fawcett points out that provision must be made for "service" of the transcript or the time period is meaningless.

Both comments are well taken. Accordingly, we are amending the proposal to indicate that the time period shall commence after the last day of hearing or any session thereof. We are increasing the time period to 25 days in recognition of difficulties currently associated with the postal system.

13. Section 502.201(b) (2) was proposed to be amended to authorize the

presiding officer to order commencement of hearing prior to completion of discovery and inspection procedures.

MABA objects on the ground that the rule is unnecessary in that the presiding officer has the power to set time limits already. MABA also asserts that the proposal has the potential for prejudice to parties.

In the notice of proposed rulemaking instituting this proceeding, we noted that there have been instances in proceedings before the Commission where discovery procedures have been engaged in to an excessive degree causing delay. We remain of that view and are of the opinion that the proposed amendment should be made final.

14. Section 502.210(b)(2) was proposed to be amended to make clear that the presiding officer may draw adverse inferences in case of refusal to answer discovery requests pursuant to order.

Again, MABA contends the rule is unnecessary.

We are of the opinion that this specific provision should be contained in the rules and it will be published as final. MABA properly points out that the proposal refers to "person" which is inappropriate in this context; the term will be deleted in the final rule.

15. Sections 510.210(a) and 502.211(a) were proposed to be amended to require that motions to compel answers to discovery requests and responses thereto be more self-explanatory.

No objections were raised to this proposal and we are adopting it as a final rule.

16. Section 502.221 was proposed to be amended to prescribe the form and length of briefs to the presiding officer.

MABA and Fawcett oppose the page limitations. Fawcett also submits that the order of contents set forth in the proposal be rearranged.

With respect to the contents of the briefs, we do not require that they appear in the exact order in which they appear in the proposal but only that they be included. As to the 50-page limitation on briefs, we are amending the proposal to place the limitation on length of briefs in the discretion of the presiding officer.

17. Section 502.262 was proposed to be revised to permit replies to petitions for reconsideration.

MABA supports the proposal while Hearing Counsel are opposed.

In the notice of proposed rulemaking, it was pointed out that the experience of the Commission under the present rule which does not permit reply has led to confusion and delay. We remain of the opinion that permitting replies is the more practical and expeditious manner with which to process petitions for reconsideration. Accordingly, the proposed rule will be adopted as final.

18. Section 502.223 will be amended to insert the phrase "Administrative Law Judges" for the obsolete phrase "examiners of the Office of Hearing Examiners." Similarly, § 502.42 is amended to insert

"Bureau of Hearing Counsel" in lieu of "Office of Hearing Counsel."

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 553) and sections 27 and 43 of the Shipping Act, 1916 (46 U.S.C. 826, 841(a)), Part 502 of Title 46, Code of Federal Regulations is amended as set forth herein-after.

1. Section 502.21 is amended by adding a new paragraph (c) as follows:

§ 502.21 Appearances.

(c) *Special Requirement.* An appearance may be either general, that is, without reservation, or it may be special, that is, confined to a particular issue or question. If a person desires to appear specially, he must expressly so state when he enters his appearance and at that time he shall also state the questions or issues to which he is confining his appearance; otherwise, his appearance will be considered as general.

§ 502.42 [Amended]

2. Section 502.42 is amended by deleting the word "Office" in the first sentence and substituting the word "Bureau" therefor.

§ 502.64 [Amended]

3. (a) Section 502.64 is amended by deleting the words "twenty (20) days after service of an order denying such motion" in the first sentence and substituting "ten (10) days after service of an order denying such motion."

4. Section 502.69 is amended by adding the following language at the beginning of the rule:

§ 502.69 Petitions—general.

Except when submitted in connection with a formal proceeding, . . .

§ 502.71 [Amended]

5. Section 502.71 is amended by deleting the words "twenty (20) days" in the penultimate sentence and substituting "ten (10) days."

6. Section 502.73 is amended by deleting the first three sentences and substituting the following language therefor:

§ 502.73 Motions.

In any docketed proceeding, an application or request for an order or ruling not otherwise specifically provided for in the rules in this part shall be by motion. After the assignment of a presiding officer to a proceeding and before the issuance of his recommended or initial decision, all motions shall be addressed to and ruled upon by the presiding officer unless the subject matter of the motion is beyond his authority, in which event he shall refer the matter to the Commission. If the proceeding is not before him, motions shall be addressed to and passed upon by the Commission. . . .

7. A new section 502.95 is added as follows:

§ 502.95 Prehearing statements.

(a) Unless waiver is granted by the presiding officer, it shall be the duty of all parties to a proceeding to prepare a prehearing statement or statements at a time and in the manner to be established by the presiding officer provided that there has been reasonable opportunity for discovery. To the extent possible, joint statements should be prepared.

(b) A prehearing statement shall state the name of the party or parties on whose behalf it is presented and briefly set forth the following matters, unless otherwise ordered by the presiding officer:

(1) Issues involved in the proceeding.
(2) Facts stipulated pursuant to the procedures together with a statement that the party or parties have communicated or conferred in a good faith effort to reach stipulation to the fullest extent possible.

(3) Facts in dispute.
(4) Witnesses and exhibits by which disputed facts will be litigated.

(5) A brief statement of applicable law.

(6) The conclusion to be drawn.

(7) Suggested time and location of hearing and estimated time required for presentation of the party's or parties' case.

(8) Any appropriate comments, suggestions or information which might assist the parties in preparing for the hearing or otherwise aid in the disposition of the proceeding.

(c) The presiding officer may for good cause shown, permit a party to introduce facts or argue points of law outside the scope of the facts and law outlined in the prehearing statement. Failure to file a prehearing statement, unless waiver has been granted by the presiding officer, may result in dismissal of a party from the proceeding, dismissal of a complaint, judgement against respondents, or imposition of such other sanctions as may be appropriate under the circumstances.

(d) Following the submission of prehearing statements the presiding officer may, upon motion or otherwise, convene a prehearing conference for the purpose of further narrowing issues and limiting the scope of the hearing if, in his opinion, the prehearing statements indicate lack of dispute of material fact not previously acknowledged by the parties or lack of legitimate need for cross-examination and is authorized to issue appropriate orders consistent with the purpose stated in this section.

8. Section 502.105 is amended by adding the following two sentences:

§ 502.105 Waiver of rules governing enlargements of time and postponements of hearings.

. . . Requests for enlargement of time or motions to postpone or cancel a prehearing conference or hearing must be received, whether orally or in writing, at least five (5) days before the scheduled date. Except for good cause shown failure to meet this requirement may

result in summary rejection of the request.

9. Section 502.114 is amended by terminating the last sentence of the rule after the word "prepaid" and adding the following sentence:

§ 502.114 Service by parties.

* * * Except with respect to filing of complaints pursuant to section 502.62 and protests pursuant to section 502.67, the date of filing shall be either the date on which the pleading, document, or paper is physically lodged with the Secretary by a party or the date which a party certifies it to be deposited in the mail.

10. Section 502.117 is amended by revising the body of the certificate of service set out therein to read as follows:

§ 502.117 Certificate of service.

I hereby certify that I have this day served the foregoing document upon all parties of record in this proceeding by mailing (or by delivering in person) a copy to each such person.

11. Section 502.118 is amended by designating the present rule as paragraph (a) and adding a new paragraph (b) as follows:

§ 502.118 Copies of documents for use of the Commission.

(a) * * *

(b) In the case of documents filed, served, or exchanged in connection with discovery procedures set forth in Subpart L, except for motions filed pursuant to § 502.210 or § 502.211, the original shall be filed with the Secretary, and copies shall be served upon the parties as provided by the procedures set forth in Subpart L. In the case of letters or other written communications to the presiding officer, an original with two copies shall be filed with the Secretary for inclusion in the public docket and for the use of the presiding officer.

12. Section 502.153 is revised as follows:

§ 502.153 Appeal from ruling of presiding officer other than orders of dismissal in whole or in part.

Rulings of the presiding officer may not be appealed prior to, during the course of the hearing, or subsequent thereto if the proceeding is still before the presiding officer except where the presiding officer shall find it necessary to allow an appeal to the Commission to prevent substantial delay, expense, or detriment to the public interest, or undue prejudice to a party. Any party seeking to appeal must file a motion for leave to appeal no later than fifteen days after written service or oral notice of the ruling in question unless the presiding officer for good cause shown enlarges or shortens the time. Any such motion shall contain not only the grounds for leave to appeal but the appeal itself. If the motion is granted, the presiding officer shall certify the appeal to the Commission. Unless otherwise provided, the certification of the appeal shall not operate as a stay of the pro-

ceeding before the presiding officer. The provisions of § 502.10 [Rule 1(j)] shall not apply to this section. [Rule 10(m).]

13. Section 502.156 is amended by adding the following sentence:

§ 502.156 Evidence admissible.

* * * Unless inconsistent with the requirements of the Administrative Procedure Act and these Rules, the Federal Rules of Evidence, P.L. 93-595, effective July 1, 1975, will also be applicable.

14. Section 502.162 is amended by adding the following sentence at the end of the rule.

§ 502.162 Stipulations.

* * * A stipulation may be proposed even if not subscribed by all parties without prejudice to any nonsubscribing parties' right to cross-examine and offer rebuttal evidence.

15. Section 502.166 is amended by revising the second and third sentences to read as follows:

§ 502.166 Corrections of transcript.

* * * Motions made after the hearing to correct the record shall be filed with the presiding officer within twenty-five (25) days after the last day of hearing or any session thereof, unless otherwise directed by the presiding officer, and shall be served on all parties. Such motions may be in the form of a letter. * * *

16. Section 502, 201 (a) and (b) are amended as follows:

§ 502.201 General.

(a) * * * and, except in the case of motions filed pursuant to § 502.210 or § 502.211, are not governed by the requirements of § 502.118 regarding the furnishing of fifteen (15) copies for the use of the Commission.

(b) * * *

(2) * * * Nothing herein shall be construed to preclude the presiding officer from ordering a hearing to commence before the completion of discovery and inspection procedures conducted pursuant to Subpart L.

17. Section 502.210 (a) and (b) are amended as follows:

§ 502.210 Refusal to make discovery: consequences.

(a) * * * Application for any order made pursuant to this section shall also set forth the text of the information as originally requested, the text of the response thereto, and the reason(s) why such response is deemed inadequate. Replies to such application shall specifically set forth the reason(s) why such response is deemed to be in full compliance with the request. Failure of either party to comply with this rule may result in summary denial or granting of the application.

17. Section 502.210(b) (2) is amended by adding the following language:

(b) * * *

(2) * * * or an order that with respect to matters regarding which the

order was made or any other designated fact, inferences will be drawn adverse to the person or party refusing to obey such order made under paragraph (a) of this section;

18. Section 502.211(a) is amended by adding the following sentence at the end of the section:

§ 502.211 Witnesses and evidence located in a foreign country.

* * * Application for any order made pursuant to this section shall also set forth the text of the information as originally requested, the text of the response thereto, and the reason(s) why such response is deemed inadequate. Replies to such application shall specifically set forth the reason(s) why such response is deemed to be in full compliance with the request. Failure of either party to comply with this rule may result in summary denial or granting of the application.

19. Section 502.221 is amended by revising the last three sentences to read as follows:

§ 502.221 Briefs; requests for findings.

* * * Unless otherwise ordered by the presiding officer, opening or initial briefs shall contain the following matters in separately captioned sections: introductory section describing the nature and background of the case, proposed findings of fact in serially numbered paragraphs with reference to exhibit numbers and pages of the transcript, argument based upon principles of law with appropriate citations of the authorities relied upon, and conclusions. The Presiding Officer may limit the number of pages to be contained in a brief. All briefs shall contain a subject index or table of contents with page references and a list of authorities cited. [Rule 13(a).]

§ 502.223 [Amended]

20. Section 502.223 is amended by deleting the words "examiners of the Office of Hearing Examiners" and substituting the words "Administrative Law Judges" therefor.

21. Section 502.227 is amended by revising the title and by designating the present rule as paragraph (a) and adding a new paragraph (b) to read as follows:

§ 502.227 Exceptions to decisions or orders of dismissal of Administrative Law Judges; replies thereto; and review of decisions or orders of dismissal by Commission.

(b) If an Administrative Law Judge has granted a motion for dismissal of the proceeding in whole or in part, any party desiring to appeal must file such appeal no later than fifteen days after service of the ruling on the motion in question. The denial of a petition to intervene or withdrawal of a grant of intervention shall be deemed to be a dismissal within the meaning of this paragraph.

22. Section 502.261 is amended by adding the following language to the last sentence of the rule:

§ 502.261 Petitions.

• • • or of an Administrative Law Judge if the proceeding is before him.

23. Section 502.262 is revised to read as follows:

§ 502.262 Reply.

Any party may file a reply to a petition for reconsideration within fifteen days in accordance with § 502.74 [Rule 5(n)]. The reply shall be served in conformity with Subpart H (Rule 8). [Rule 16(b).]

Effective date. Inasmuch as the expeditious adoption of these rules is desirable and inasmuch as they are procedural in nature, they shall be effective May 19, 1976, and shall be applicable to proceedings instituted on and after that date.

By the Commission.

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

PART 521—TIME FOR FILING AND COMMENTING ON CERTAIN AGREEMENTS

Clarification of Statement of Policy

Section 521.2 of this Part prescribes a notice period for the filing of amendments to extend agreements containing termination dates. It has been the practice of the Commission staff to notify parties that the time for filing such applications has come due. Nevertheless, the Commission notes that, in many instances, parties have filed on less than the prescribed notice. This inhibits orderly consideration of the application and frustrates the intent of the policy and procedures set forth in this Part.

The Commission wishes to make clear that it is the duty of the policy and procedures set forth in this Part.

The Commission wishes to make clear that it is the duty of the parties to the agreement to conform to the requirements of section 521.2, irrespective of any actions taken by the Commission's staff. Accordingly, section 521.1 of this Part, Statement of Policy, is amended by addition of the following sentence:

§ 521.1 Statement of policy.

• • • Although the Commission may, from time to time, advise parties to

agreements that the agreement is due to expire, parties to agreements cannot rely on Commission notice but are themselves solely responsible for the timely filing of amendments to extend agreements containing termination dates.

Inasmuch as this amendment is merely a clarification of existing Commission policy, notice of proposed rulemaking procedure is deemed unnecessary.

Effective date. This amendment is effective May 19, 1976.

By the Commission May 11, 1976.

Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Sherburne National Wildlife Refuge

The following special regulation is issued and is effective on May 19, 1976.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MINNESOTA

SHERBURNE NATIONAL WILDLIFE REFUGE

Sport fishing on the Sherburne National Wildlife Refuge is permitted only on the areas designated by signs as open to public fishing. These open areas, comprising approximately 1,000 acres, are delineated on maps available at the refuge headquarters, Route 2, Zimmerman, Minnesota 55398, and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

- (1) The open season for sport fishing extends from May 1, 1976 to March 1, 1977, inclusive.
- (2) During periods when no ice exists, fishing activity is confined to the St. Francis River.
- (3) Access to all fish areas is permitted only at designated access sites.
- (4) Boats, without motors, may be used on the St. Francis River only from designated access sites.
- (5) The use of snowmobiles, all terrain vehicles, trail bikes, motorcycles,

mini-bikes, and other such conveyances are prohibited on the refuge at all times.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Subpart F—Penalties and Procedures for Their Assessment

On November 24, 1975, notice of an amendment to Part 216 was published in the FEDERAL REGISTER (40 FR 54427). The amendment modified §§ 216.53, 216.54, 216.56, 216.57, 216.59 and 216.60 by deleting the term "administrative law judge" and substituting in lieu thereof the term "presiding officer." The amendment failed to effect one technical change in § 216.54. The purpose of this rulemaking is to correct that oversight.

In view of the fact that cases are awaiting a hearing, this amendment is made without notice and an opportunity for the public to comment, pursuant to 5 U.S.C. 553(b). Under 5 U.S.C. 553(d), it is effective immediately.

Issued at Washington, D.C., on May 12, 1976.

ROBERT W. SCHONING,
Director.

Accordingly, § 216.54(a) is revised as follows:

§ 216.54 Assignment of presiding officer and agency representative; notice of hearing.

(a) If a written request for a hearing has been timely made, or the Secretary determines, pursuant to § 216.53(b), that a hearing should be held, the Secretary shall assign a presiding officer to the case. Written notice of the assignment shall be promptly given to the respondent, together with the name and address of the person who will present evidence on behalf of the Secretary at the hearing (the agency representative), and thereafter all pleadings and other documents shall be filed directly with the presiding officer, with a copy served on the agency representative or the respondent as the case may be.

CHANGE OF ANNUAL ACCOUNTING PERIOD FOR FOREIGN CORPORATIONS

Public Hearing on Proposed Regulations

Proposed regulations under section 442 of the Internal Revenue Code of 1954, relating to the procedure foreign corporations must follow in order to change their annual accounting period, appear in the FEDERAL REGISTER for March 23, 1976 (41 F.R. 12017).

A public hearing on the provisions of such proposed regulations will be held on June 29, 1976, beginning at 10 a.m. in the George S. Boutwell Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202-964-3935. Under such § 601.601(a)(3) persons who have submitted written comments or suggestions within the time prescribed in the notice of proposed rule making, and who desire to present oral comments at the hearing on such proposed regulations, should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by June 16, 1976. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224. Under § 601.601(a)(3) (26 CFR Part 601) each speaker will be limited to 30 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers thereto.

Persons who desire a copy of such written comments or suggestions or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing, at the above address by June 23, 1976. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is ten cents (\$.10) per page.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of this agenda will be available free of

charge at the hearing, and information with respect to its contents may be obtained on June 28, 1976, by telephoning (Washington, D.C.) 202-964-3935.

Notice of Proposed Rulemaking

Correction

In FR Doc. 76-13661, appearing at page 19227 in the issue of Tuesday, May 11, 1976 in the second column on page 19228 the third full paragraph should read as follows:

We have also decided that this proceeding will consider whether Part 296 of our Economic Regulations should be amended to allow cooperative shippers associations to engage in joint loading with air freight forwarders. This second matter also was raised by HACSA, in an application for exemption to allow it to joint load with a particular forwarder, filed in Docket 27267 on December 16, 1974. In that application HACSA alleged that the Board's original purpose in prohibiting joint loading between forwarders and cooperative shippers associations was to prevent the joint-loading forwarder from gaining undue influence over the members of such associations,

thus resulting in tariff abuses and in that forwarder obtaining an undue competitive advantage over other forwarders. These potential problems, HACSA alleges, would not arise with respect to its operations, since it is a strong association and has no business connections with any forwarder.

[12 CFR Part 217]

[Docket No. R-0024; Reg. Q]

INTEREST ON DEPOSITS

Pooling of Funds; Extension of Comment Period

By notice published in the FEDERAL REGISTER of March 15, 1976 (41 FR 10917), the Board of Governors proposed to amend Regulation Q (12 CFR 217) to prohibit member banks from paying interest on time deposits of \$100,000 or more at rates in excess of those established by Regulation Q for deposits of less than \$100,000, where the bank knows or has reason to know that such time deposits consist of funds acquired or solicited for the purpose of pooling such funds primarily to obtain the exemption from interest rate ceilings provided in § 217.7(a).

This proposal was based in part upon the belief that the practice of pooling violates Regulation Q interest rate ceiling limitations and upon the belief that pooling may have potentially adverse effects on member and nonmember financial institutions due to potentially disruptive shifts of funds.

Public comments on this proposal were to have been received no later than May 10, 1976. Requests from the public have been received by the Board to extend the comment period. These requests state that they plan to submit additional economic and statistical data that should prove of assistance to the Board in this matter and that such data will not be available until after May 10, 1976. The Board has reviewed these requests and has decided that it is in the public interest to extend the period for receipt of comments from the public for an additional 60 days. Accordingly, the comment period for receipt of submissions from the public on the Board's proposal of March 8, 1976, to prohibit the payment of interest on pooled funds by member banks in excess of the rate established for deposits of less than \$100,000 is hereby extended to July 9, 1976.

To assist the Board in its consideration of this matter, interested persons are invited to submit relevant data,

Meeting

1. In accordance with section 10(a) (2) of the Federal Advisory Committee Act (P.L. 92-463) announcement is made of the following committee meeting:

Name of Committee: Armed Forces Epidemiological Board.
Date of Meeting: 11 June 1976.
Place: Conference Room 3092, Walter Reed Army Institute of Research, Walter Reed Army Medical Center, Washington, D.C.
Time: 0800-1700.

PROPOSED AGENDA

This meeting was previously scheduled for 16 April 1976 and subsequently cancelled. Subjects to be considered include briefings on disease and environmental problems which have confronted military forces operating in the Middle-East during and since WWI, Army Medical Department planning for Middle-East operations, reports from Preventive Medicine Officers, review of influence vaccine field trial data, discussion of Health and Environment Division objectives, programs and priorities and organizational matters.

2. That portion of the meeting to be held from 0800-1030 will involve discussion of information classified SECRET pursuant to Executive Order 11652 in the interest of National Defense, and will be closed to the public. It is necessary to provide the Board information on the threat to our Nation and on planning for National Defense in order that the Board can formulate recommendations on planning for medical support of National Defense. This type of information is exempt from public disclosure under section 552(b) (1) of Title 5, U.S. Code. Accordingly, it has been determined necessary to close a portion of this meeting to the public pursuant to section 10(d), P.L. 92-463.

3. All subsequent portions of this meeting will be open to the public, but limited by space accommodations. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee. Interested persons wishing to participate should advise the Executive Secretary, DASG-

AFEB, Room 1B472, Pentagon, Washington, D.C.20310.

ARMY BALLISTIC RESEARCH LABORATORIES SCIENTIFIC ADVISORY COMMITTEE (SAC)

Closed Meeting

In accordance with Section 10(a) (2) of the Federal Advisory Committee Act (P.L. 92-463), announcement is made of the following Committee meeting:

Name of committee: US Army Ballistic Research Laboratories Scientific Advisory Committee (SAC).
Date of meeting: 9 June 1976.
Place: US Army Ballistic Research Laboratories, Aberdeen Proving Ground, Maryland 21005.
Time: 0900 Hours.

The agenda includes a discussion of current and proposed research programs of the US Army Ballistic Research Laboratories. The relation of these scientific programs to the future role of the Ballistic Research Laboratories will be considered in detail.

This meeting will be closed to the public since classified research and development programs will be discussed. This information is classified and is specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy in accordance with Section 552, paragraph (4) (b) (1), Title 5 U.S.C., The Freedom of Information Act.

Dated: May 13, 1976.

NOTES FROM.....

Director (FWS/LE)
 U.S. Fish & Wildlife Serv.
 Box 191P3
 Wash. D.C. 20036

Sir,

I require the following birds to cross with my existing stock to prevent inbreeding and provide a strong vigorous captive supply.

Brown Faced Pheasant - Crossptiles, Mantelonein, Szechuan, White Faced Pheasant - Crossptiles, Crossptiles, Crossptiles

Swinho's Pheasant - Japanese Swinho's

Hououes Bai Tardof Symptious Hououes

Mikado Pheasant Symptious Mikado

I shall require 1 each of 1976 Hatch of Each sex. The above subjects will be born in captivity at the premises of Charles Kalum Rt 1 Courtland, Minn 56021.

Birds will be domiciled at the location in #6 of form OMB # 42-R1620.

Birds will be paired with some of my stock to provide good breeding stock in 1977 and subsequent years.

A Continuing Education Program

NORTH CAROLINA STATE UNIVERSITY

NOTES FROM.....

I have been raising pheasants for the past 9 years and have hatched, reared and cared for from 25 to 50 birds of various breeds. I have acquired a local reputation as a good breeder and have a ready sale for all surplus birds.

I will of course participate in any worthwhile "breeding program".

Birds will be shipped in the following container. Fig. 1. by air Express, on same plane I'll be flying on.

Fig I

Mortality's have been very limited losses have been limited to stress, internal physical defects and rigid culling. A strict sanitation program from Bio-hab Inc. Decatur, Ga is followed.

A Continuing Education Program

NORTH CAROLINA STATE UNIVERSITY

NOTES FROM.....

There will be no disposition of subject birds, they will be retained for duration of their life.

No birds will be removed from the wild thus will have no effect on wild population. I will extract no program. I will make available for release if desired.

The expertise, facilities and resources are adequate to accomplish the objectives.

The following information applies directly to part 17.22, Title 50, Code of Federal Regulations as amended 26 September 1975:

1. Species: Peregrine Falcon (*Falco peregrinus anatum*).

Activity: A. To survey the Alaska portion of the Porcupine River for Peregrine Falcons; to re-evaluate nesting habitat and to locate all currently active nest sites and historical nest sites; to gather data on current productivity including clutch size, brood size, hatching success and fledging success; to salvage added eggs, dead young and dead adults for analysis of organochloride residue, PCB resident and other environmental pollutant residue levels; to salvage prey remains from nest sites for identification.

B. To survey the lower Yukon River for peregrine nesting habitat; to locate nesting pairs and nesting sites.

C. To analyse all Peregrine Falcon tissues salvaged in Alaska during 1976 for organochlorine pesticide residues, PCB residues and other environmental pollutant residues.

2. All birds, their eggs and their young which will be studied are in the wild.

3. Added eggs, dead young and dead adults discovered during the study will be salvaged. All surveys and salvage operations will be conducted in a manner which will insure that harassment, injury, death or removal from the wild of all living adult birds, their living eggs and their living young does not occur.

4. N. A.

5. Prey remains will be identified at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and will be placed in the custody of the curator University of Alaska Museum, Terrestrial Vertebrates Collection, University of Alaska, Fairbanks, Alaska 99701.

Pollutant residue analyses will be made at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and the University of California, Bodega Marine Laboratory, P.O. Box 247, Bodega Bay, California 94923.

6. N. A.

7. Logistical support and funding are being sought from the Alaska Department of Fish and Game, the U.S. Forest Service, Bureau of Sport Fisheries and Wildlife, Bureau of Land Management, U.S. Park Service and the National Audubon Society. All solicitations are being coordinated with the Alaska Peregrine Falcon Recovery Team. Copies of the contracts awarded for these studies will be sent to Mr. Henry Hanson, Endangered Species Coordinator, Bureau of Sport Fisheries

and Wildlife, 813 D Street, Anchorage, Alaska 99501.

8. Methods. A. One ground survey along the Porcupine River will be made between its mouth and the Canadian border during the period 1 July 1976-15 July 1976. The survey will be conducted from a riverboat and on foot. Aerial surveys are valuable in certain phases and types of raptor research, however, most interior Alaskan peregrine habitat is poorly suited to the use of this technique except as a preliminary survey tool. In the case of the Porcupine River where previous data are available, where investigators have prior knowledge of the area and where most nesting habitat is located in a restricted canyon situation this technique is unnecessary and undesirable.

Nests will be viewed from distant vantage points whenever possible. When this is not practicable, one investigator will rope down beside the nest. The same method will be used to salvage all specimen material. No visits to nest sites will be attempted until after the eggs have hatched and the young are thermoregulatory. No nests will be visited more than once during occupancy; however, certain nests may be revisited after fledging so that prey remains, added eggs, dead young and dead adults may be salvaged.

B. One aerial survey will be made along the lower Yukon River from Tanana to Mountain Village between 15 July 1976 and 31 July 1976. The survey will be conducted from a fixed-wing aircraft. The flight path of the aircraft will not be near enough to possible nest sites that harassment of young or adult birds will occur.

The major emphasis of this survey will be directed towards identifying and describing potential nesting habitat rather than towards locating actual nest sites and nesting pairs.

C. Dead young and dead adult peregrines will be frozen intact until analyzed. Contents from added eggs will be stored in pre-cleaned and tested glass containers and frozen. Care will be taken to insure that egg shells remain intact so that shell thickness determinations can accurately be made. Aliquots of each sample will be homogenized with anhydrous sodium sulfate and extracted in Soxhlet thimbles using a hot mixture of two parts hexane and one part acetone (vol:vol). Quantification of PCB will be accomplished by saponification on an alkaline side-arm of the main chromatographic column. Comparisons will be made between the resulting chromatograms and chromatograms from injections of standard mixtures of pentachlorobiphenyls and hexachlorobiphenyls.

Justification

Peregrine Falcons in particular appear to be highly susceptible to sublethal physiological effects of certain agricultural and industrial pollutants. Several populations have declined drastically with the accumula-

tion of these residues in their trophic systems. The steady loss of suitable nesting habitat is another major factor which has contributed to recent population declines. In Alaska, where environmental quality is still generally high and resource development is relatively new but rapidly expanding, the habitat factor is increasing in importance.

Arctic and subarctic peregrines depend in large measure on the protection afforded them by the inaccessibility of much of their habitat. The current state-wide trend in resource development could easily jeopardize this advantage. A concerted effort should be made, therefore, to identify all portions of the State in which peregrines are found so that they will be given proper consideration in land use planning decisions. The Porcupine River is known to support breeding peregrines. This region is also proposed as part of

Current data on the utilization of this drainage by peregrines will be valuable in decisions concerning the classification of this river.

Furthermore, this survey will coincide with a survey to be conducted on the major portion of the Porcupine River in Canada and of other rivers in Alaska for peregrines. Data from the Porcupine River will be of particular use in describing the status of peregrines in Alaska in 1976.

Unfortunately the same remoteness which buffers peregrines against certain aspects of civilization does not appear to protect them from the ubiquity of environmental pollution. Peakall *et al.* (1975) suggest that if the current rate of decline continues the last "tundra" peregrines will have fledged from the Colville River in 1975 and that the remaining adult segment of the population will disappear by 1980. White *et al.* (1973) suggest that populations of Peale's peregrines in the Aleutian Islands are considerably more stable. Eggshell thickness has been reduced by 21.7 percent or more and has been shown to be associated with population declines (Anderson and Hickey 1972). Anatum peregrines from interior Alaska have declined drastically in the Tanana River drainage but appear to be relatively stable along the upper Yukon River and its major tributaries above Circle (White and Cade 1975). Shell thickness of eggs from Yukon peregrines have decreased 16.8 percent since pre-DDT years (Cade *et al.* 1971). Anatum peregrine populations in interior Alaska may be critically near DDT induced declines. Current data on the status of the Porcupine River population would be particularly valuable in assessing the status of this subpopulation. Furthermore, because of the precarious position in which peregrines in general find themselves as a result of pollution effects and because they have become a biological index of certain global pollution patterns (Peakall *et al.* 1975; Walker *et al.* 1973; Walker *et al.* 1973), pollutant residues in this species from throughout the State should be continually monitored.

To survey the Alaskan portion of the Porcupine River for Peregrine Falcons; to re-evaluate nesting habitat and to locate all currently active nest sites and historical nest sites; to gather data on current productivity including clutch size, brood size, hatching success and fledging success; to salvage addled eggs, dead young and dead adults for analysis of organochlorine residue, PCB residue and other environmental pollutant residue levels; to salvage prey remains from nest sites for identification.

B. To survey the lower Yukon River for peregrine nesting habitat; to locate nesting pairs and nesting sites.

C. To analyse all Peregrine Falcon tissues salvaged in Alaska during 1976 for organochlorine pesticide residues, PCB residues and other environmental pollutant residues.

2. All birds, their eggs and their young which will be studied are in the wild.

3. Addled eggs, dead young and dead adults discovered during the study will be salvaged. All surveys and salvage operations will be conducted in a manner which will insure that harassment, injury, death or removal from the wild of all living adult birds, their living eggs and their living young does not occur.

4. N.A.

5. Prey remains will be identified at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and will be placed in the custody of the curator, University of Alaska Museum, Terrestrial Vertebrates Collection, University of Alaska, Fairbanks, Alaska 99701.

Pollutant residue analyses will be made at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and the University of California, Bodega Marine Laboratory, P.O. Box 247, Bodega Bay, California 94923.

6. N.A.

7. Logistical support and funding are being sought from the Alaska Department of Fish and Game, the U.S. Forest Service, Bureau of Sport Fisheries and Wildlife, Bureau of Land Management, U.S. Park Service and the National Audubon Society. All solicitations are being coordinated with the Alaska Peregrine Falcon Recovery Team. Copies of the contracts awarded for these studies will be sent to Mr. Henry Hanson, Endangered Species Coordinator, Bureau of Sport Fisheries and Wildlife, 813 D Street, Anchorage, Alaska 99501.

8. Methods. A. One ground survey along the Porcupine River will be made between its mouth and the Canadian border during the period 1 July 1976-15 July 1976. The survey will be conducted from a riverboat and on foot. Aerial surveys are valuable in certain phases and types of raptor research, however, most interior Alaskan peregrine habitat is poorly suited to the use of this technique except as a preliminary survey tool. In the case of the Porcupine River where previous data are available, where investigators have prior knowledge of the area and where most nesting habitat is located in a restricted canyon situation this technique is unnecessary and undesirable.

Nests will be viewed from distant vantage points whenever possible. When this is not practicable, one investigator will rope down beside the nest. The same method will be used to salvage all specimen material. No visits to nest sites will be attempted until after the eggs have hatched and the young are thermoregulatory. No nests will be visited more than once during occupancy; however, certain nests may be revisited after fledging so that prey remains, addled eggs, dead young and dead adults may be salvaged.

B. One aerial survey will be made along the lower Yukon River from Tanana to Mountain Village between 15 July 1976 and 31 July 1976. The survey will be conducted from a fixed-wing aircraft. The flight path of the aircraft will not be near enough to possible nest sites that harassment of young or adult birds will occur.

The major emphasis of this survey will be directed towards identifying and describing potential nesting habitat rather than towards locating actual nest sites and nesting pairs.

C. Dead young and dead adult peregrines will be frozen intact until analysed. Contents from addled eggs will be stored in pre-cleaned and tested glass containers and frozen. Care will be taken to insure that egg shells remain intact so that shell thickness determinations can accurately be made. All quotes of each sample will be homogenized with anhydrous sodium sulfate and extracted in Soxhlet thimbles using a hot mixture of two parts hexane and one part acetone (vol:vol). Quantification of PCB will be accomplished by saponification on an alkaline side-arm of the main chromatographic column. Comparisons will be made between the resulting chromatograms and chromatograms from injections of standard mixtures of pentachlorobiphenyls and hexachlorobiphenyls.

Justification

Peregrine Falcons in particular appear to be highly susceptible to sublethal physiological effects of certain agricultural and industrial pollutants. Several populations have declined drastically with the accumulation of these residues in their trophic systems. The steady loss of suitable nesting habitat is another major factor which has contributed to recent population declines. In Alaska, where environmental quality is still generally high and resource development is relatively new but rapidly expanding, the habitat factor is increasing in importance.

Arctic and subarctic peregrines depend in large measure on the protection afforded them by the inaccessibility of much of their habitat. The current state-wide trend in resource development could easily jeopardize this advantage. A concerted effort should be made, therefore, to identify all portions of the State in which peregrines are found so that they will be given proper consideration in land use planning decisions. The Porcupine River is known to support breeding peregrines. This region is also proposed as part of

Current data on the utilization of this drainage by peregrines will be valuable in decisions concerning the classification of this river.

Furthermore, this survey will coincide with a survey to be conducted on the major portion of the Porcupine River in Canada and of other rivers in Alaska for peregrines. Data from the Porcupine River will be of particular use in describing the status of peregrines in Alaska in 1976.

Unfortunately the same remoteness which buffers peregrines against certain aspects of civilization does not appear to protect them from the ubiquity of environmental pollu-

tion. Peakall *et al.* (1975) suggest that if the current rate of decline continues the last "tundra" peregrines will have fledged from the Colville River in 1975 and that the remaining adult segment of the population will disappear by 1980. White *et al.* (1973) suggest that populations of Peale's peregrines in the Aleutian Islands are considerably more stable. Eggshell thickness has been reduced by 21.7 percent or more and has been shown to be associated with population declines (Anderson and Hickey 1972). Anatum peregrines from Interior Alaska have declined drastically in the Tanana River drainage but appear to be relatively stable along the upper Yukon River and its major tributaries above Circle (White and Cade 1975). Shell thickness of eggs from Yukon peregrines have decreased 16.8 percent since pre-DDT years (Cade *et al.* 1971). Anatum peregrine populations in Interior Alaska may be critically near DDT induced declines. Current data on the status of the Porcupine River population would be particularly valuable in accessing the status of this subpopulation. Furthermore, because of the precarious position in which peregrines in general find themselves as a result of pollution effects and because they have become a biological index of certain global pollution patterns (Peakall *et al.* 1975; Walker *et al.* 1973; Walker *et al.* 1973), pollutant residues in this species from throughout the State should be continually monitored.

AUTHORIZED NARROWS UNIT,
COLORADO

Notice of Availability of Final
Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement on a proposed water resource development project designated as the Narrows Unit, Colorado.

The proposed project is for the purpose of supplying a supplemental irrigation water supply providing flood control, preserving fish and wildlife resources, and developing recreational opportunities in the South Platte River Basin in eastern Colorado. A potential project purpose would provide for supplying municipal and industrial water needs of the area.

The Final Environmental Statement includes letters of comment received on the draft statement and addresses those comments as well as comments and issues received at the public hearings held on the draft statement on January 13 and 14, 1976.

Copies are available for inspection at the following locations:

FEDERAL METAL AND NONMETAL MINE
SAFETY ADVISORY COMMITTEE

Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that the Federal Metal and Nonmetal Mine Safety Advisory Committee, authorized to be established under section 7(a) of the Federal Metal and Nonmetallic Mine Safety Act (Public Law 89-577, as amended by Public Law 94-41 on June 27, 1975), will meet on Tuesday—June 29, 1976, Wednesday—June 30, 1976, and Thursday—July 1, 1976, starting at 8:30 a.m. each day until the Advisory Committee concludes its business, in the Sussex Room, Parliament House Motor Hotel, 420 5th Ave. North, Birmingham, Alabama 35205 (mailing address P.O. Box 2245, Birmingham, Alabama 35201)—Telephone Number: Area Code 205-323-7211.

The matters to be discussed at this public meeting include suggested new and revised health and safety standards and revocation of certain standards applicable to metal and nonmetal mining operations and concerning air quality, ventilation, radiation, and physical agents, drilling, rotary jet piercing, use of equipment, material storage and handling, personal protection, safety programs, man hoisting, posting of communication instructions, and loading, hauling, dumping. Copies of the agenda and the suggested new and revised standards are available for the public and may be obtained from or may be examined in the office of the Executive Secretary to the Advisory Committee.

The meeting of the Advisory Committee is open to the public. Public attendance is limited to seating available in the Sussex Room of the Parliament House. Persons desiring to attend this meeting are requested to notify the Executive Secretary in writing of their intention to attend the meeting by Friday, June 25, 1976.

Any member of the public may file a written statement with the Advisory Committee before, during, or within 30 days after the meeting.

The Committee Chairman, if he deems it appropriate may permit members of the public to present oral statements at the meeting.

All written statements, notices, and requests should be addressed to the Executive Secretary as follows:

Mr. Herbert P. LeVan, Executive Secretary, Federal Metal and Nonmetal Mine Safety Advisory Committee, Room 702, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, Virginia 2203, Telephone Number: Area Code 703-235-8686.

Dated: May 13, 1976.

MATERIAL PREPARATION SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Material Preparation Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Wednesday, June 9, 1976, at 9:30 a.m. in Room 4833, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Material Preparation Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Material Preparation Subcommittee was formed to provide advice to the Committee with respect to methods and equipment used for the preparation of semiconductor materials.

The Subcommittee meeting agenda has five parts:

General Session

(1) Opening remarks by the Subcommittee's Acting Chairman.

(2) Presentation of papers or comments by the public.

(3) Preliminary comments from each member on suggested equipment to be reviewed by the Subcommittee.

(4) Set goals and time schedule for Subcommittee actions.

Executive Session

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER (41 FR 4623, appearing in the issue of January 30, 1976).

Dated: May 14, 1976.

PATTERN GENERATION AND IMAGE TRANSFER AND INSPECTION SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Pattern Generation and Image Transfer and Inspection Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Wednesday, June 9, 1976 at 9:30 a.m. in Room 3881, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c) (1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Pattern Generation and Image Transfer and Inspection Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Pattern Generation and Image Transfer and Inspection Subcommittee was formed to provide advice to the Committee with respect to equipment and techniques used in the formation of precision microelectronics artwork and masks.

The Subcommittee meeting agenda has six parts:

GENERAL SESSION

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Discussions of purpose and definition of specific tasks.
- (4) Preliminary comments from each member on suggested equipment to be reviewed by the Subcommittee.
- (5) Establish future activities plan.

EXECUTIVE SESSION

- (6) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (6), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. WAFER PROCESSING SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Wafer Processing Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Wednesday, June 9, 1976 at 1:30 p.m. in Room 4833, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c) (1) of the Export Administration Act of 1969, as amended, 50 U.S.C. The Wafer Processing Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Wafer Processing Subcommittee was formed to provide advice to the Committee with respect to processes and processing equipment including but not limited to cleaning wafer surfaces, applying resist materials, and developing circuit patterns.

The Subcommittee meeting agenda has five parts:

GENERAL SESSION

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Review of technology and equipment currently commercially available in the U.S., and comparison of this availability with the availability of technology and equipment in Western Europe and the Eastern Bloc.
- (4) Specific areas to be discussed: (a) chemical vapor deposition systems; (b) photo resist equipment; (c) photo resist strippers; (d) wet photo resist processes; (e) etching equipment and chemicals; (f) diffusion equipment; (g) ion implantation; and (h) vacuum metalization.

EXECUTIVE SESSION

- (5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Assistant Secretary of Commerce for Administration, with the concurrence of the

delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. OREGON STATE UNIVERSITY

Receipt of Application for a Marine
Mammal Permit: Amendment

On April 21, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 16676) that Dr. Bruce Mate, Oregon State University, Newport, Oregon 97365 had applied in due form for a permit to take forty (40) California sea lions (*Zalophus californianus*) and twenty (20) Pacific harbor seals (*Phoca vitulina richardii*) for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the taking and Importing of Marine Mammals.

The Applicant desires to amend his application in the following manner: eighty (80) California sea lions (*Zalophus californianus*) and forty (40) Pacific harbor seals (*Phoca vitulina richardii*) will be taken over a 2½ year period, with no more than forty (40) seal lions and twenty (20) harbor seals taken annually.

Documents submitted in connection with this application as amended, are available in the following Offices:

Director, National Marine Fisheries Service, 3800 Whitehaven Street, N.W.; Washington, D.C.; and Regional Director, National Marine Fisheries Service, Northwest Region, 1700 Westlake Avenue North, Seattle, Washington 98109.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the amendment to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application as amended on or before June 18, 1976 to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

NATIONAL ADVISORY COUNCIL ON EDU-
CATION PROFESSIONS DEVELOPMENT,
PLANNING COMMITTEE

Meeting

Notice of Public Meeting of the National Advisory Council on Education Professions Development, Planning Committee.

Notice is hereby given, pursuant to Section 10(a) (2) Public Law 92-463, that the next meeting of the National Advisory Council on Education Professions Development Planning Committee will be held on Wednesday, June 9, 1976, 9 a.m. to 5 p.m., Thursday, June 10, 1976, 9 a.m. to 5 p.m., and Friday, June 11, 1976, 9 a.m. to 12 noon, local time, at the Executive Tower Inn, Denver, Colorado.

The National Advisory Council on Education Professions Development is established under Section 502 of the Education Professions Development Act (Public Law 90-35). The Council is charged with the review of the Education Professions Development Act and of all other Federally supported programs for the training and development of educational personnel.

The meeting of the Committee is open to the public. The proposed agenda includes discussion of legislative proposals concerning education professions development, and a report which will address basic issues in that area.

Since the meeting of Thursday, June 10, 1976 involves a site visit, members of the public planning to attend must provide their own transportation and should give advance notice of their intention to attend the meeting by calling the Council (202-653-6169) or by mail no later than Monday, June 7, 1976.

Records are kept of all Council proceedings and are available for public inspection at the Council offices, located at 1111 20th Street, N.W., Suite 306, Washington, D.C. 20036.

Signed at Washington, D.C. on May 14, 1976.

7. Panel on Review of General and Plastic Surgery Devices.	June 24, 8 a.m., Room 4131, HEW-N, 330 Independence Ave. SW., Washington, D.C.	Open public hearing 8 a.m. to 12 m.; open committee discussion 1 to 3:30 p.m.; Mark F. Parrish (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7298.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Presentations will be made by the following: Charles T. Patrick and Alan G. Furler (NDM Corp.), "Patient Return Electrode Requirements for Electrosurgery"; Dr. Leon Goldman (Director, Laser Laboratory, Medical Center, University of Cincinnati, Ohio), "Safety and Efficacy of Surgical Lasers"; Dr. Robert M. Johnson (Evergreen Eye Clinic, Kirkland, Washington), "Flammability of Disposable Surgical Drapes."

Open committee discussion. The Panel on Review of General and Plastic Surgery Devices has made a preliminary classification of the following medical devices into the Class II regulatory category—Standards: drapes and drape packs; electrosurgical units and accessories; surgical lasers.

Following this preliminary recommendation, an inter-panel ranking of devices has resulted in the placement of electrosurgical devices among those judged by all classification panels to most urgently

require the development of standards. Surgical lasers received an inter-panel ranking immediately below that for electrosurgical devices. Surgical drapes have received no inter-panel consideration since these devices were placed in a low priority category by the Panel on Review of General and Plastic Surgery Devices. Because of special interests directed to the agency relative to flammability characteristics of disposable surgical drapes, these devices are being reexamined.

The panel will discuss the above-listed devices, specifically addressing (1) any potential for hazard in their use, and their efficacy and (2) whether the development of standards will be an effective and appropriate method to reduce potential hazards and ensure the efficacy of these devices (Item "2" does not apply to electrosurgical devices since the agency is already having a standard developed for these devices.)

The panel will also discuss and formulate their recommendations for the content of performance and safety standards for these devices.

The panel invites the participation of representatives of the concerned medical device industries.

8. Panel on Review of Antipsychotic Drug Products.	June 24 and 25, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing June 24, 9 to 10 a.m.; closed committee deliberations June 24, 10 a.m. to 4:30 p.m., June 25, 9 a.m. to 4:30 p.m.; Lee Geismar (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. The panel will review data submitted in con-

ference pursuant to the OTC (over-the-counter drug products) review's call for data for this panel (see also 21 CFR 330.10(a)(2)). This will include product names, formulas and formulation process data, sales data, and in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class standards and testing will often be intermixed with discussion of formulas, sales data or

NDA material in such a way that the two discussions often cannot be separated without seriously impeding the progress of the panel's deliberations.

The panel will be reviewing, voting upon and modifying the content of summary minutes and categorization of in-

gredients and claims. This portion of the meeting will be closed to permit discussion of trade secret data, to protect the free exchange of internal views, and for formulation of recommendations (5 U.S.C. 552(b) (4) and (5)).

9. Panel on Review of Ophthalmic Devices.	June 24 and 25, 9:30 a.m., Room 6821, FB-8, 200 C St., S.W., Washington, D.C.	Open public hearing June 24, 9:30 to 10:30 a.m.; open committee discussion June 24, 10:30 a.m. to 4:30 p.m.; open public hearing June 25, 9:30 to 10:30 a.m.; open committee discussion June 25, 10:30 a.m. to 4:30 p.m.; Richard Hawkins, Ph. D. (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7238.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to submit pertinent information in writing or to make an oral presentation to the panel. Any interested person who wishes to make a presentation should inform Richard Hawkins, Ph.D., Executive Secretary, orally or in writing prior to the meeting. Any person attending the meeting who did not request an opportunity to make a presentation shall be given an opportunity to do so at the conclusion of the open session, at the discretion of the chairman and to the extent that time permits. It should be noted

that although 1 hour has been set aside for public participation at the beginning of each day that this is a minimum. Should more time be required, the open session may be extended at the discretion of the chairman.

Open committee discussion. The panel will review guidelines for the development of intraocular lenses including manufacturing practices, preclinical toxicity testing, microbiology and clinical testing. The panel will complete the establishment of priorities for all ophthalmic devices.

The panel, having completed the tentative classification of ophthalmic devices, will begin to summarize the reasons for the recommendations and identification of any risks to health which may be associated with the device.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information relative to the prior classification of neurological diagnostic and monitoring devices to James R. Veale, Executive Secretary.

Open committee discussion. The panel will review the status of the medical device bill; review of previous classification of neurological diagnostic and monitoring devices; establish priorities for devices subject to standards and premarket approval; and identify device applicability for electrical safety standards, electromagnetic interference standards, and environmental standards.

Committee name	Date, time, and place	Type of meeting and contact person
11. Panel on Review of Blood and Blood Derivatives.	June 25 and 26, 9 a.m., Room 121, NIH, Building 29, 8900 Rockville Pike, Bethesda, Md.	Open public hearing/open committee discussion June 25, 9 to 10 a.m.; closed committee deliberations June 25, 10 a.m. to 5 p.m.; June 26, 9 a.m. to 5 p.m.; Clay Sisk (HFB-5), 6110 Executive Blvd., Rockville, Md. 20852, 301-443-1916.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. The panel will review data submitted in confidence pursuant to the OTC (over-the-counter drug products) review's call for data for this panel (see also 21 CFR

330.10(a)(2)). Discussions relating to labeling, drug class standards and testing will often be intermixed with discussion of formulas, sales data or NDA material in such a way that the two discussions often cannot be separated without seriously impeding the progress of the panel's deliberations. This portion of the meeting will be closed to permit the free exchange of internal views, to avoid undue interference with committee operations, and for formulation of recommendations (5 U.S.C. 552(b)(5)).

This portion of the meeting will be closed to permit discussion of trade secret data, to protect the free exchange of internal views, and for formulation of

recommendations (5 U.S.C.552(b)(4) and (5)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published

in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. Both the Federal Advisory Committee Act and 5 U.S.C. 552(b) permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed shall, however, be closed for the shortest time possible consistent with the intent of the cited statutes.

Generally, FDA advisory committees will be closed because the subject matter is exempt from public disclosure under 5 U.S.C. 552(b) (4), (5), (6), or (7), although on occasion the other exemptions listed in 5 U.S.C. 552(b) may also apply. Thus, a portion of a meeting may be closed where the matter involves a trade secret; commercial or financial information that is privileged or confidential; personnel, medical, and similar files, disclosure of which could be an unwarranted invasion of personal privacy; and investigatory files compiled for law enforcement purposes. A portion of a meeting may also be closed if the Commissioner determines: (1) That it involves inter-agency or intra-agency memoranda or discussion and deliberations of matters that, if in writing would constitute such memoranda, and which would, therefore, be exempt from public disclosure; and (2) that it is essential to close such portion of a meeting to protect the free exchange of internal views and to avoid undue interference with agency or committee operations.

Examples of matters to be considered at closed portions are those related to the review, discussion, evaluation or ranking of grant applications; the review, discussion, and evaluation of specific drugs or devices; the deliberation and voting relative to the formation of specific regulatory recommendations (general discussion, however, will generally be done during the open committee discussion portion of the meeting); review of trade secrets or confidential data; consideration of matters involving FDA investigatory files; and review of medical records of individuals.

Examples of matters that ordinarily will be considered at open meetings are those related to the review, discussion,

NOTICES

and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices, consideration of labeling requirements for a class of marketed drugs and devices, review of data and information on specific investigational or marketed drugs and devices that have previously been made public, and presentation of any other data or information that is not exempt from public disclosure.

Health Resources Administration
GRADUATE MEDICAL EDUCATION
NATIONAL ADVISORY COMMITTEE

Notice of Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972, Public Law 92-463, (86 Stat. 770-776) the Health Resources Administration announces the establishment by the Secretary, HEW, with concurrence by the Office of Management and Budget Committee Management Secretariat, of the following advisory committee:

Designation: Graduate Medical Education National Advisory Committee.

Purpose: The Committee shall advise, consult with and make recommendations to the Secretary on overall strategies on the present and future supply and requirements of physicians by speciality and geographic locations; translations of physician requirements into a range of types and numbers of graduate training opportunities needed to approach a more desirable distribution of physician services, taking into account National Health Planning goals, guidelines, standards, and, as appropriate, the health system plans developed by health system agencies; factors which affect physician career choice; the impact of various activities which influence specialty distribution and the availability of training opportunities, including systems of reimbursement of services and financing of graduate medical education; and the relationship of graduate medical education to the provision of services in training institutions, including alternatives for the provision of these services.

The Committee shall advise on data requirements and systems needed to conduct the activities of the Committee; propose national goals for the distribution of physicians in graduate training; and recommend Federal policies, strategies, and plans to achieve the established goals in concert with the private sector and non-Federal agencies.

Authority for this Committee will expire two years from date of the filing of the Charter, unless the Secretary, HEW, with the concurrence of the Office of Management and Budget Committee

Management Secretariat, formally determines that continuance is in the public interest.

Dated: May 13, 1976.

JAMES A. WALSH,
Associate Administrator for
Operations and Management.

Law 90-448) (15 U.S.C. 1701, *et seq.*) received a Notice of Proceedings and Opportunity for Hearing issued November 14, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Thumb Butte Investment Co. No. 2, and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received February 26, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 21, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 6, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 22, 1976.

Proposed Approval or Disclaimer of Jurisdiction

Application of Hawaiian Airlines, Inc., and Aerolinee Itavia, S.P.A., for approval or disclaimer of jurisdiction under section 408 of the Federal Aviation Act of 1958, as amended, Docket 29174.

Notice is hereby given, pursuant to the statutory requirements of section 408 (b) of the Federal Aviation Act of 1958, as amended, that the undersigned intends to issue the attached order under delegated authority. Interested persons are hereby afforded until May 25, 1976 within which to file comments or request a hearing with respect to the action proposed in the order.

HAWAIIAN AIRLINES, INC., AEROLINEEITAVIA,
S.P.A., LEASE TRANSACTION

Docket 29174

Issued under delegated authority

Application of Hawaiian Airlines, Inc., and Aerolinee Itavia, S.P.A., for approval or disclaimer of jurisdiction under section 408 of the Federal Aviation Act of 1958, as amended.

ORDER OF APPROVAL

Hawaiian Airlines, Inc. (Hawaiian), and Aerolinee Itavia, S.P.A. (Itavia), request that the Board approve, pursuant to the third proviso of section 408(b) of the Federal Aviation Act of 1958, as amended (the Act) or in the alternative, disclaim jurisdiction over, the lease of one DC-9-50 aircraft by Hawaiian to Itavia.

The term of the lease is for 12½ months beginning May 10, 1976. Itavia will pay to Hawaiian a basic monthly rent of \$100,000 per month plus a usage charge of \$50 per block hour of flight time.

Itavia will be responsible for maintaining the aircraft to FAA standards, for maintaining U.S. registration of the aircraft, and for securing necessary insurance on the aircraft. The DC-9-50 to be leased to Itavia is currently leased by Hawaiian from Wells Fargo Bank, N.A., as owner trustee.

In support of their request, Hawaiian and Itavia assert that because of Hawaiian's short-range aircraft needs, it would be more advantageous to sublease the aircraft for 12½ months; that the lease, which was entered into as a result of arm's-length bargaining, is a standard form of aircraft lease for the industry; that the lease would have been subject to the exemption provided by Part 299 of the Board's Regulations but for the fact that Itavia is not an air carrier within the meaning of that Part or within the meaning of the Act; and that the aircraft to be leased is not, in fact, a substantial part of Hawaiian's properties.

No objections to this application or requests for a hearing have been received.

Notice of intent to dispose of this application without a hearing has been published in the FEDERAL REGISTER, and a copy of such notice has been furnished by the Board to the Attorney General not later than the day following the date of such publication, both in accordance with the requirements of section 408(b) of the Act.

Upon consideration of the above, it is concluded that the proposed lease may involve a substantial part of the properties of an air carrier, Hawaiian; that Itavia is a person engaged in a phase of aeronautics; and that the lease therefore may be subject to section 408(a) (2) of the Act.¹ However, it is further

¹ The Board has in the past held that it will disclaim jurisdiction under sec. 408(a) (2) of the Act if the equipment constitutes less than 10 percent of the carrier's fleet in terms of market value, lift capacity, and number of aircraft. (Cf. orders 70-11-13 and

concluded that the transaction does not affect control of an air carrier directly engaged in the operation of aircraft in air transportation, or tend to unreasonably restrain trade, substantially lessen competition, or create a monopoly. The lease was entered into after arm's-length bargaining, and there appear to be no interlocking or common control relationships between or among Hawaiian, Itavia, or any of their affiliates. The lease appears to be the result of a decision by Hawaiian's management that the DC-9-50 was superfluous to Hawaiian's operational needs for the next year, and as a result, it does not appear that the lease will impair Hawaiian from performing its certificate obligations. Moreover, the lease itself would have fallen within the exemption of Part 299 of the Board's Regulations but for the fact that Itavia is not an air carrier. On the basis of these considerations, it appears that the lease transaction is not inconsistent with the public interest and will not leave the requirements of section 408 of the Act unfulfilled.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.3 and 385.13, it is found that the foregoing transaction should be approved pursuant to the third proviso of Section 408 (b) of the Act and that all other requests in the application in docket 29174 should be dismissed.

ACCORDINGLY, IT IS ORDERED THAT:

1. The subject lease of one DC-9-50 aircraft by Itavia from Hawaiian, as hereinabove described, be and it hereby is approved; and

2. To the extent not specifically granted herein, all other requests in the application in docket 29174 be and they hereby are dismissed.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within 10 days of the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

By Bruce Cunningham, Director, Bureau of Operating Rights.

Acting Secretary.

PHOENIX-DES MOINES/MILWAUKEE
ROUTE PROCEEDING

Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on July 13, 1976 at 9:00 a.m. (mountain standard time), in the Phoenix Room, Phoenix Civic Plaza, 235 E.

70-11-14, Nov. 4, 1970, and 72-2-60, Feb. 16, 1972.) The DC-9-50 to be leased constitutes 10 percent of the number of aircraft in Hawaiian's fleet, 10.4 percent of the fleet's seating capacity, and 11.4 percent of its market value. In calculating these percentages, certain aircraft which Hawaiian has leased to other persons for a term of more than 6 months were excluded from the inventory base, consistent with the procedure of Sterling Airways A/S and Overseas National Airways, Inc., Dry-Lease Transaction, order 75-9-80 Sept. 23, 1975, n. 2.

Adams Street, Phoenix, Arizona, before the undersigned.

If the hearing has not concluded before July 16, 1976, the session for July 16, 1976 will be held in the Phoenix Ball Room, Hyatt Regency Phoenix, 122 N. Second Street, Phoenix, Arizona.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served March 31, 1976, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

FEDERAL POWER COMMISSION

[Docket No. ER76-659]

ALABAMA POWER CO.

Tariff and Interconnection Agreement
Change

MAY 13, 1976.

Take notice that Alabama Power Commission on April 30, 1976, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by \$9,298,869 based on the 12-month period ending May 31, 1977. In addition, Alabama Power Company filed on the same date proposed revisions and changes to an Interconnection Agreement dated February 23, 1972 (FPC Rate Schedule No. 133) with Alabama Electric Cooperative, Inc. Such proposed revisions and changes would increase the rates and charges for Purchase Capacity transactions under that Agreement. This revision would increase capacity charges by \$4,036,113 for the year ending May 31, 1977. The Company states that it cannot with complete accuracy predict the energy transactions associated with Purchase Capacity transactions with Alabama Electric Cooperative, Inc. because use of Purchase Capacity is within the sole discretion of the Cooperative; however, the Company estimates that it will receive \$1,138,070 in additional revenue from such energy transactions during the year ending May 31, 1977.

The Company estimates its rate of return on its rate base from its sales to distribution cooperatives and municipalities in year ending May 31, 1977 to be (1) 4.96 percent from its sales to municipalities, and (ii) 5.62 percent from its sales to rural electric cooperatives under existing rates. The Company estimates that the Purchase Capacity transactions with Alabama Electric Cooperative, Inc. for the same period results in a negative return on its investment. The Company states that the average rate of return is far below its embedded cost of debt and is inadequate to attract capital required by the Company to pay for necessary expansions of its electric plant.

Copies of the filing were served upon the affected distribution cooperatives and municipalities, Alabama Electric Cooperative, Inc., Alabama Public Service Commission and Southeastern Power Administration.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 27, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RP76-98]

ALGONQUIN GAS TRANSMISSION CO.

Proposed Tariff Sheet Filing

MAY 12, 1976.

Take notice that on April 29, 1976, Algonquin Gas Transmission Company (Algonquin Gas) filed the following proposed tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1:

First Revised Sheet No. 20-A
First Revised Sheet No. 20-B
First Revised Sheet No. 20-C

Algonquin Gas states that the proposed tariff sheets institute a Purchased Feedstock Adjustment Clause (PFAC) applicable to Algonquin Gas' Rate Schedule SNG-1 for one additional cycle. The PFAC would provide, through a Deferred Gas Cost Account with related amortization, surcharges for reimbursement to Algonquin Gas for undercharges or reimbursement to the Company's customers for overcharge resulting from the difference between (i) the actual feedstock costs for manufacturing gas delivered under such Rate Schedule SNG-1, and (ii) the base feedstock costs included in the charges to such customers for service under such rate schedule. The PFAC is proposed to be effective for an additional cycle as follows: (i) the period October 16, 1976 through April 15, 1977, with respect to the accumulation of such Deferred Gas Cost Account, and (ii) the period October 16, 1977 through April 15, 1978, with respect to the effectiveness of the amortization adjustment of such Deferred Gas Cost Account.

Algonquin Gas further states that copies of the filing have been served upon all of its customers and interested state regulatory commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol

Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CP76-361]

COLUMBIA GAS TRANSMISSION CORP.

Application

MAY 13, 1976.

Take notice that on May 5, 1976, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP76-361 an application for a disclaimer of jurisdiction or, in the alternative, pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to The Sylvania Corporation (Sylvania) from the Sylvania No. 1 Well in the Thomas Corners Field, Town of Bath, Steuben County, New York, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that the gas produced by Applicant and its co-owners would be delivered into Applicant's pipeline in Steuben County, in exchange for equal volumes of gas to be delivered to National Fuel Gas Supply Corporation for Sylvania's account at Applicant's Ellwood City compressor station in Beaver County, Pennsylvania. Applicant alleges that the gas delivered from the Sylvania No. 1 Well can not physically leave the State of New York although it would be introduced into Applicant's interstate pipeline system. Applicant submits, therefore, that the sale of the gas would not be a sale for resale in interstate commerce and, accordingly, requests a disclaimer of jurisdiction by the Commission.

In the alternative, Applicant requests a certificate of public convenience and necessity authorizing the sale for resale of the gas from the Sylvania No. 1 Well. Applicant would sell the gas at the rate provided by Section 2.56a of the Commission's General Policy and Interpretations (18 CFR 2.56a). Applicant requests that any certificate authorization terminate August 28, 1982, when its commitment to sell gas expires, and states that after that time Applicant's share of gas from the well would be added to Applicant's gas supply.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 7, 1976, file with the Federal Power Com-

mission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

CONTINENTAL OIL CO., ET AL.

Rate Change Filings

MAY 12, 1976.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972, and in Opinion No. 699-H, issued December 4, 1974. The rates filed pursuant to Opinion No. 699-H, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before May 28, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding must file a petition to intervene in accordance with the Commission's Rules.

GPU SERVICE CORP.**Notice of Filing**

MAY 13, 1976.

Take notice that on April 28, 1976, GPU Service Corporation (GPU) tendered for filing proposed Schedule 4.04, 8.04 and 11.01 modifying the Power Pooling Agreement (Agreement) among Pennsylvania Electric Company (Penelec), Metropolitan Edison Company (Met-Ed), and Jersey Central Power & Light Company (JC), dated July 21, 1969, as heretofore amended and supplemented, which is on file with the Commission under the following Rate Schedule designations:

Penelec, FPC No. 62
Met-Ed, FPC No. 40
JC, FPC No. 31

GPU states that the proposed schedules provide for the accounting and billing among the parties to the Agreement for excess and deficiencies of regulating capability as defined in proposed Schedule 4.04. The parties request that the proposed schedules become effective on June 1, 1976.

GPU states that copies of the proposed tariff have been served on the Regulatory Commissions of Pennsylvania and New Jersey.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this

filing are on file with the Commission and are available for public inspection.

Tender of Stipulation and Settlement
Agreement

MAY 13, 1976.

Take notice that on May 10, 1976, Kansas City Power and Light Company (KCP&L) tendered for filing with the Commission a transmittal letter and a (1) Motion To Approve Stipulation And Settlement Agreement Accept And Make Effective A Revised Service Schedule And Terminate These Proceedings, (2) Stipulation And Settlement Agreement, and (3) a revised Service Schedule. The Stipulation And Settlement Agreement reduces the fixed capacity charge in the initial rate schedule covering the sale of "long-term interruptible capacity" to the Omaha Public Power District commencing on June 1, 1976, reflecting the impact of a drop in the rate of return on common equity from 14.50% to 12.75% and a different capital structure.

Copies of KCP&L's tender are on file with the Commission and are available for public inspection. Any person desiring to comment on matters contained therein should file comments with The Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before May 28, 1976.

[Docket No. RP73-8 (PGA76-9)]

NORTH PENN GAS CO.

Proposed Changes in FPC Gas Tariff

MAY 13, 1976.

Take notice that North Penn Gas Company (North Penn) on May 7, 1976, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA Clause for rates to be effective June 1, 1976. North Penn has included in its filing increases under:

Section 14.1, Pipeline Suppliers.
Section 14.3 and 14.5, Unrecovered Purchased Gas Cost Account and Flow-through of Refunds.

North Penn states that the increase under Section 14.1 was triggered by a revision of a PGA filing from Consolidated Gas Supply Corporation filed April 23, 1976, to become effective May 1, 1976 and will increase jurisdictional revenues by \$25.3 thousand annually.

The rate change under Sections 14.3 and 14.5 reflects a surcharge of 0.324¢ per Mcf which results from amounts accumulated in the Unrecovered Purchased Gas Account for the period September, 1975 through February, 1976, the jurisdictional portion of refunds received by North Penn from its suppliers for the same six-month period and a carry-over balance from the surcharge credit filed April 15, 1975, effective June, 1975 through November, 1975. The 0.324¢ surcharge will increase North Penn's jurisdictional revenues by \$14.1 thousand over the period June 1, 1976 through November, 1976.

North Penn is requesting a waiver of any of the Commission's Rules and Regulations in order to permit the proposed rates to go into effect on June 1, 1976.

North Penn states that copies of this filing were served upon North Penn's jurisdictional customers, as well as interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be

taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

PACIFIC POWER & LIGHT CO.
Filing of Service Agreements

MAY 12, 1976.

Take notice that on May 3, 1976, Pacific Power & Light Company (Pacific) tendered for filing Service Agreements under its FPC Electric Tariff, Original Volume No. 2 for the following additional customers:

PURCHASER AND DATE OF EXECUTION

Puget Sound Power & Light Company,
1/13/76.

Public Service Company of Colorado, 1/16/76.
Nevada Power Company, 1/16/76.

Also submitted was an updated Index of Purchasers under the tariff.

Pacific states that copies were sent to these three additional customers.

Pacific has requested a waiver of the notice requirements of the Commission's regulation to allow these schedules to become effective as of the date of execution.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). PANHANDLE EASTERN PIPE LINE CO.
Change in Tariff

MAY 13, 1976.

Take notice that on April 19, 1976, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing Substitute Sixteenth Revised Sheet No. 3-A to its FPC Gas Tariff, Original Volume No. 1, such sheet proposed to be effective April 1, 1976.

Panhandle states that the Commission issued its Order in Docket No. RP73-36 (PGA No. 76-2) on March 31, 1976 accepting for filing Panhandle's proposed PGA rate adjustment to reflect increased purchase gas costs occasioned by

Opinion No. 749, such rate adjustment to be revised to reflect the elimination of the effects of any supplier costs which would not be incurred by Panhandle as of April 1, 1976.

The Company submits that Substitute Sixteenth Revised Sheet No. 3-A reflects only purchase gas cost increases authorized by the Commission in Opinion No. 749 which are effective at April 1, 1976. Also, the revised tariff sheet reflects the effect of the flow through of amounts relating to Trunkline Gas Company's rate adjustment to be effective April 1, 1976.

To the extent required, if any, Panhandle requests waiver of those sections of the regulations as the Commission may deem necessary for the acceptance of this filing.

Copies of this filing were served on Panhandle's jurisdictional customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. SOUTH CAROLINA ELECTRIC & GAS CO.
Notice of Application

MAY 12, 1976.

Take notice that on May 4, 1976, South Carolina Electric & Gas Company (Applicant) filed an application seeking an order pursuant to Section 203 of the Federal Power Act authorizing it to sell certain electric transmission facilities to the City of Orangeburg, South Carolina.

Applicant is incorporated under the laws of the State of South Carolina, with its principal business office at Columbia, South Carolina, and is engaged in the electric utility business in parts of 23 of the 46 counties of the State.

The Applicant proposes, subject to regulatory approval, to perform its agreement of January 5, 1976 with the City of Orangeburg, South Carolina to sell approximately 25.94 miles of 48 KV transmission line to be located in and near the City of Orangeburg, South Carolina. The City will pay the sum of \$53,734.77 in exchange for said property.

Any person desiring to be heard or to make any protest with reference to said

application should, on or before June 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. [Docket No. CP76-362]

**TEXAS EASTERN TRANSMISSION CORP.,
ET AL.**

Notice of Application

MAY 13, 1976.

Take notice that on May 5, 1976, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001, and Northern Natural Gas Company (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-362 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of natural gas pipeline facilities offshore Louisiana and the transportation of natural gas in interstate commerce, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that in order to obtain additional supplies of natural gas for their systems from a common source of supply in Block 480, West Cameron Area, offshore Louisiana, Applicants have agreed to construct jointly as co-owners a pipeline from Block 480 to a point on Texas Eastern's existing offshore pipeline in Block 245, East Cameron Area, offshore Louisiana, and that Texas Eastern has agreed to use its offshore pipeline system to transport such gas supplies onshore for redelivery to Transco and Northern or to others for their account. Applicants request authorization to construct and operate approximately 11.9 miles of 16-inch pipeline between West Cameron Block 480 and East Cameron Block 245, a connection to Texas Eastern's existing pipeline system, and 2,200 horsepower of compression on the Block 480 platform. Texas Eastern requests authorization to transport the gas for Transco and Northern. The facilities are estimated to cost \$10,418,000 and would be financed initially with revolving credit or short-term financing, the application states.

Applicants state that the cost, ownership, and capacity of the proposed facilities would be shared as follows:

	Ownership share (percent)	Cost	Maximum capacity (1,000 ft ³ /d)
Texas Eastern..	30	\$2,063,000	18,000
Transco.....	60	6,250,800	54,000
Northern.....	20	2,084,200	18,000
Total.....	100	10,418,000	90,000

It is stated that the facilities would be constructed and operated by Texas Eastern and the operating and maintenance costs would be shared in like proportion to ownership.

Applicants estimate that gas is available from Block 480 in the following amounts:

	Reserves (1,000 ft ³)	Initial deliveries (1,000 ft ³ /d)
Texas Eastern.....	22,000,000	18,000
Transco.....	67,000,000	54,000
Northern.....	22,000,000	18,000
Total.....	111,000,000	90,000

Texas Eastern proposes to transport on a firm basis for Transco a maximum daily quantity of 54,000 Mcf of gas and for Northern a maximum daily quantity of 18,000 Mcf of gas from East Cameron Block 245 to points onshore Louisiana and to redeliver such quantities less 1½ percent for gas used and lost and unaccounted for in providing the transportation service and less the volume of fuel and shrinkage lost through processing if such gas is processed. Gas transported for Transco would be redelivered to Transco at an existing interconnection of Texas Eastern's and Transco's pipelines near Ragley, Beauregard Parish, Louisiana, and/or, but mutual agreement, at other points in the supply area where delivery could be accomplished to or for the account of Transco. Gas transported for Northern would be redelivered to Trunkline Gas Company (Trunkline) for Northern's account at the existing interconnection of Texas Eastern's and Trunkline's pipelines in Allen Parish, Louisiana, and/or, by mutual agreement with Northern, at other points in the supply area where delivery could be accomplished to or for the account of Northern. Based upon the maximum daily quantities proposed to be transported, Texas Eastern would charge Transco \$209,090.25 per month and would charge Northern \$69,696.75 per month.

The application notes that Texas Eastern has on file an application in Docket No. CP74-102¹ for authorization to construct and operate a compressor station and liquid receiving facilities near Grand Chenier, Louisiana, and states that authorization for such facilities is required for the service proposed in the instant application.

¹ Notice published November 9, 1973 (38 FR 31080).

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[Docket No. G-6508]

**TEXAS EASTERN TRANSMISSION CORP.
AND TRUNKLINE GAS CO.**

Petition To Amend

MAY 13, 1976.

Take notice that on May 7, 1976, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, and Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. G-6508 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioners request authorization to construct and operate facilities and to exchange natural gas at a point where Texas Eastern's 30-inch pipeline crosses Trunkline's 20-inch pipeline in Beauregard Parish, Louisiana, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

In the instant docket Petitioners are authorized to operate facilities and to exchange natural gas. Petitioners state that due to changes in operating conditions on Petitioners' systems which may

occur from time to time, deliveries of natural gas by Trunkline to Texas Eastern at an existing Allen Parish, Louisiana, interconnection could limit Texas Eastern's ability to utilize its 30-inch Gillis-to-Opelousas pipeline. It is stated that operation of the proposed Beauregard Parish exchange point would increase the operating flexibility on both Petitioners pipeline systems.

Texas Eastern proposes to construct and operate a tap on its pipeline and the crossover, measuring, and regulating facilities. Trunkline proposes to construct and operate a tap on its pipeline. The facilities are estimated to cost \$66,179.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 8, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

**UNITED GAS PIPE LINE CO. AND TRANS-
CONTINENTAL GAS PIPE LINE CORP.**

Notice of Application

MAY 13, 1976.

Take notice that on May 4, 1976, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, and Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP76-359 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas between them, all as more fully set forth in the application on file with the Commission and open to public inspection.

United proposes to deliver or cause to be delivered to Transco up to 7,500 Mcf of gas per day at a point on Transco's 10-inch pipeline in Section 17, T, 15 S., R. 14 W., Cameron Parish, Louisiana; and Transco proposes to deliver equivalent volumes of gas to United at a mutually agreeable existing point of exchange. Existing points of exchange are said to be near Victoria, Victoria County, Texas; near Cameron, Cameron Parish, Louisiana; at the Egan Plant in Acadia Parish, Louisiana; at the Gibson Plant Nos. 1 and 2 in Terrebonne Parish, Louisiana; near Magnolia and Holmesville, Pike County, Mississippi; near Walthall,

Walthall County, Mississippi; and at the Harmony Plant in Clarke County, Mississippi.

Applicants state that the proposed exchange is necessary to assist United in taking into its system volumes of gas available to it in the Johnson Bayou Field in Cameron Parish. Applicants would continue to exchange gas until the later of July 1, 1976, or the date the Williams Brothers Pipeline Company's intrastate pipeline is completed and ready to receive such gas into its system. It is stated that the exchange would be on a Mcf-for-Mcf basis and that there would be no charge for the gas delivered.

The application states that the proposed exchange would give Applicants added flexibility and reliability to their systems, eliminate the need for additional facilities, and allow United to take additional gas into its system.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 10, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[Docket No. CP76-364]

NATIONAL FUEL GAS SUPPLY CORP.

Application

MAY 13, 1976.

Take notice that on May 7, 1976, National Fuel Gas Supply Corporation (Ap-

plicant), 308 Seneca Street, Oil City, Pennsylvania 16301, filed in Docket No. CP76-364 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction on gas wells in the West Independence Field in the Towns of Independence and Willing, Allegany County, Pennsylvania, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to engage in construction on 13 gas wells in the West Independence Pool in Allegany County, which pool is said to be a nearly depleted Oriskany sand gas pool which covers approximately 1,491 acres and lies southwest of the East Independence Pool which is currently being used for gas storage. Applicant proposes to engage immediately in emergency construction on each of the wells to alleviate conditions said to be created by increased pressure experienced in two West Independence wells and anticipated to spread to the other 11 wells. The application states that such higher pressures are believed to originate from the East Independence Pool.

Applicant states that it further proposes to complete construction on each of the 12 wells during the summer and fall of 1976 with a view to developing this zone for the storage of gas. Nine of the 13 wells are said to be presently active and would be reconditioned. The other 4 wells are said to be presently plugged and 3 would be replugged and 1 would be reclaimed. The application states that the construction would include the removal of existing casing, redrilling, installation of new casing, insertion of down-hole valves, installation of necessary related surface and sub-surface facilities, and undertaking of testing procedures. It is said that no additional compressor capacity and no new pipelines connecting the wells to be reconditioned or reclaimed are proposed at this time.

The application states that immediate commencement of construction upon wells now experiencing increased pressure levels is necessary to assure public safety, prevent loss of gas, and determine the exact cause of the increased pressure found in these wells. The application notes that pipe which was originally designed to withstand then-existing pressures may have deteriorated since original installation commencing in 1937. Further, Applicant states, it is necessary to undertake well construction to obtain necessary pressure-volume data so as to calculate the volume of gas which may migrate from the East Independence Pool to the West Independence Pool. It is said that the steps which would be taken immediately to meet increased pressure in the West Independence Pool would also be directed toward ultimate development of this pool for gas storage purposes and that in the near future it is anticipated that Applicant and National Gas Storage Corporation will seek authorization under the Natural Gas Act for such storage development and the

rendition by the latter of storage service.

Applicant estimates that the instant proposal would cost \$1,804,270 which would be financed with funds obtained from National Fuel Gas Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 7, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

NATIONAL FUEL GAS SUPPLY CORP.

Proposed Tariff Change

MAY 12, 1976.

Take notice that on April 28, 1976, National Fuel Gas Supply Corporation (National) tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, First Revised Sheet No. 22, proposed to be effective June 1, 1976.

National states that the revised tariff sheet is intended to change the payment date under Section 5.2 of the General Terms and Conditions from the 20th day of the month in which bill is received to the 25th day of the month in which bill is received. The stated purpose of the change is to provide more flexibility in the payment schedule of National's customers. According to National, no change in rates, volumes, delivery points or other aspects of delivery are proposed.

It is stated that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before May 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP76-96]

NATIONAL FUEL GAS SUPPLY CORP.

Proposed Changes in FPC Gas Tariff

MAY 12, 1976.

Take notice that National Fuel Gas Supply Corporation ("National"), on April 30, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by approximately \$6,536,000, based on the 12 month period ended December 31, 1975, as adjusted. The proposed effective date of the filed tariff sheets is June 1, 1976.

National states that the increased rates are required to recoup increased costs incurred in operating and maintaining its system, including, but not limited to, increased cost of capital, increased depreciation, increased wages, and increased taxes and gas costs. The rates proposed reflect an overall rate of return of 10.4%. The filing also reflects a continuing decline in National's gas supply with a consequent reduction in annual sales volumes. Further, National states that the proposed rates do not include the appropriate surcharge as provided by its purchased gas adjustment clause. At such time as the increased rates are to become effective National will make the appropriate filing to reflect the applicable surcharge adjustment in effect at that time.

National states that it has included in this filing costs applicable to facilities acquired from The Sylvania Corporation pursuant to the approved merger of Sylvania and National which was the subject of Docket No. CP75-344.

National states that copies of this filing were served upon the company's jurisdictional customers and the regulatory commissions of the States of New York, Ohio and Pennsylvania.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CP76-340]

NORTHERN NATURAL GAS CO.

Application

MAY 12, 1976.

Take notice that on April 19, 1976, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-340 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon and remove its Keewatin TBS #2 sales measuring station in Itasca County, Minnesota, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application shows that the Keewatin TBS #2 station was used to sell natural gas to Inter-City Natural Gas Limited, Incorporated (Inter-City), for resale to the U.S. Bureau of Mines. Applicant states that the Bureau of Mines dis-

continued operations at this location on March 6, 1974, and that by letter of October 14, 1975, Inter-City advised Applicant the Keewatin #2 was no longer being used and requested that Applicant proceed with removal of the facilities. Applicant asserts that inadvertently, and absent Commission approval, its field personnel removed the measuring station facilities on November 11, 1975.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commissions Rules of Practice and Procedure (18 CFR 1.8 or 1.70) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP76-365]

**TENNESSEE GAS PIPELINE CO., A
DIVISION OF TENNECO INC.****Application****MAY 13, 1976.**

Take notice that on May 7, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP76-365 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for Lowell Gas Company (Lowell) to and from National Fuel Gas Supply Company (National Fuel), all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that pursuant to an agreement between Lowell and National Fuel dated March 9, 1976, National Fuel has agreed to provide Lowell with a storage service from April 1, 1976, through March 31, 1977, of up to 12,500 Mcf of natural gas per day of injection and/or withdrawal volumes and a total storage volume of 1,500,000 Mcf of gas. Applicant proposes to transport and deliver until October 31, 1976, to National Fuel for the account of Lowell up to 12,500 Mcf of gas per day, which Lowell shall make available to Applicant, up to a total of 1,500,000, Mcf of gas. It is stated that the gas would be stored by National Fuel for Lowell during the 1976-77 winter for sale by Lowell to its Priority 1 and 2 customers. Applicant also proposes to transport and deliver to Lowell from November 1, 1976, through March 31, 1977, up to 12,500 Mcf of gas per day which National Fuel would make available to Applicant for the account of Lowell. It is stated that Applicant would deliver gas to Lowell at the point of interconnection of Applicant's and Lowell's facilities at Applicant's existing Tewksbury sales meter station delivery point to Lowell in Middlesex County, Massachusetts. It is stated further that Applicant would deliver gas to National Fuel and receive gas from National Fuel at the point of interconnection of Applicant's and National Fuel's facilities at Applicant's Ellisburg sales meter station delivery point to National Fuel in Potter County, Pennsylvania, or at other existing connections between Applicant and National Fuel as mutually agreed by Applicant and National Fuel.

The application states that Applicant is presently serving Lowell with a contract demand of 34,680 Mcf of gas per day under Applicant's Rate Schedule CD-6. It is stated that the daily volumes which Applicant proposes to transport for Lowell are volumes which Lowell would nominate for such transportation and make available to Applicant from the daily volumes purchased under Rate Schedule CD-6.

Applicant would charge Lowell 39.60 cents per Mcf of gas delivered to Lowell from storage plus 39.60 cents per Mcf of gas not delivered from storage as of

April 1, 1977. Lowell would provide Applicant for system fuel and use requirements a volume of gas equivalent to three percent of the gas transported to Lowell by Applicant from storage. The application indicates that the price to be charged Lowell for transportation is based upon Applicant's system average haul cost per Mcf per 100 miles of 2.958496 cents applied to a haul distance between the Ellisburg and Tewksbury meter stations of 440.08 miles for an equivalent of a 120-day service or a 32.88 percent load factor.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 8, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP76-341]

UNITED GAS PIPE LINE CO.**Application****MAY 13, 1976.**

Take notice that on April 20, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-341 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities in Bienville Parish, Louisiana, and an increase in the capacity of Applicant's Bistineau Stor-

age Field, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate the following facilities at the Bistineau underground storage field:

1. 1.76 miles of 16-inch pipeline; 0.80 miles of 12-inch pipeline; 1.54 miles of 8-inch pipeline; 0.16 mile of 6-inch pipeline; and 8 meter stations.

2. Seven injection-withdrawal wells.

3. Rework one existing observation well for use as an injection-withdrawal well.

4. Two additional 8000 horsepower compressor units.

The application indicates the total estimated cost of the proposed project to be \$15,193,620, which cost Applicant proposes to finance from funds on hand, internally generated funds, and short-term bank loans.

Applicant also requests authorization to increase the capacity of the Bistineau storage field from 123,524,000 Mcf to 134,000,000 Mcf.

Applicant states that it has explored numerous ways to ameliorate the effects of its system-wide curtailments and has concluded that expansion of the Bistineau Storage Field, as proposed herein, would provide a significant contribution in that regard and that the proposed expansion would permit more of Applicant's annual gas supply to be made available during winter seasons when Category I requirements are the greatest. Moreover, it is indicated that the instant proposal would provide added safety and reliability during temporary periods of supply losses due to hurricanes or other unexpected factors.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 9, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or

if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GENERAL ACCOUNTING OFFICE REGULATORY REPORTS REVIEW

Receipt and Approval of a Proposed Report

A request for clearance of a proposed report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on May 4, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice is to inform the public of such receipt and the action taken by GAO.

FEDERAL ENERGY ADMINISTRATION

Request for clearance on an emergency basis for the form entitled, Foreign Crude Oil Cost Report, FEA P328-Q-O. This is a new quarterly report, authorized under P.L. 93-275 and 94-163, to collect detailed information on crude oil acquisition costs from the foreign trading affiliates of United States companies. Data are to be provided for exports of crude oil acquired under concessionary or similar terms and for crude oil purchased under market terms from exporting country governments and their national companies. According to FEA, this information will allow the FEA and the United States Government to carry out its obligations for exchange of information about crude oil costs in the International Energy Program.

Respondents are from 15 to 20 firms which acquired an average of 100,000 or more barrels of crude oil per day in the previous calendar year from countries that are not members of the International Energy Agency. The estimated burden of the new form is 10 hours per response.

According to FEA, an emergency clearance was required for this form because of a number of extraordinary circumstances. The United States is a member of the International Energy Agency. The member countries, under an agreement of November 18, 1974, were to provide foreign crude oil cost data within 90 days. However, many problems arose concerning what data should be reported and how the cost data of individual companies could be provided without revealing proprietary information. After resolving these issues, the member companies agreed that the first collection of data was needed by June 15. FEA states that it is critically important that the United States supply its data by that date.

Because of the need for this information by June 15, GAO cleared this form on May 10. Further information may be obtained from the Regulatory Reports Review Officer, (202) 376-5425.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-12426; File No. SR-DSE-76-4]

DETROIT STOCK EXCHANGE Self-Regulatory Organizations

In the matter of proposed rule change by Detroit Stock Exchange; SR-DSE-76-4.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, § 16 (June 4, 1975), notice is hereby given that on May 10, 1976, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

A. Statement of the Terms of Substance of the Proposed Rule Change. The proposed rule change would amend the Rules of the Detroit Stock Exchange to eliminate any restriction on the ability of members to transact agency business otherwise than on the Exchange.

B. Statement of Basis and Purpose. The proposed amendment to Chapter I, Section 5(a) would permit Detroit Stock Exchange members to transact agency business on any other exchange or over-the-counter with third-market-makers or block positioners as defined in the Rule or "in-house" as agent for both buyer and seller. The proposed rule, moreover, would not require that public limit orders on the books be satisfied prior to, concurrent with, or subsequent to the execution in the over-the-counter market or in-house as agent for both buyer and seller.

On March 31, 1976, Rule 19c-1 under the Act, governing off-board trading by members of national exchanges became effective. The proposed amendment to Chapter I, Section 5(a) eliminates any restriction on the ability of its members to transact agency business otherwise than on the Detroit Stock Exchange.

Comments on the proposed amendment were not solicited from members, participants or others, and no unsolicited comments were received.

The proposed amendment would impose no burden on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reason for so finding or as to which the above-mentioned self-regulatory agency consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written sub-

missions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 18, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

In the matter of proposed rule change by Pacific Clearing Corporation.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, § 16 (June 4, 1975), notice is hereby given that on April 29, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed change establishes a satellite facility of the Pacific Clearing Corporation ("PCC") in Denver, Colorado for handling securities receipts and deliveries for local brokers and banks for processing at the San Francisco and Los Angeles offices of PCC and Pacific Securities Depository Trust Company ("PSD"). The facility is similar to the facilities currently in operation in Seattle, Washington and Portland, Oregon, which were approved by the Commission in Rel. No. 34-11857 (November 20, 1975) and Rel. No. 34-12324 (April 7, 1976), respectively.

Pursuant to the establishment of the satellite facility, participants in the Denver, Colorado area can:

1. Use the facility to make deliveries to and obtain receipts of securities from PCC and PSD;
2. Input forms for bookkeeping movements of securities in connection with clearance and settlement of securities; and
3. Become linked with other clearing corporations and depositories by means of interfaces available through PSD and PCC.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the Denver facility is to provide access for broker-dealers, banks and other qualified users in the Denver area to the clearing operations of PCC and, to the extent permitted by applicable law, the depository operations of PSD.

The Denver facility increases the capacity of PCC to facilitate prompt and accurate clearance and settlement of securities transactions for a broader group of broker-dealers; increases the ability of broker-dealers and other qualified users outside of the San Francisco and Los Angeles area to become participants in the clearing and depository operations of PCC and PSD; and, by making clearing and certain depository services available in Denver, helps perfect the mechanism for a national system for the prompt and accurate clearance and settlement of securities transactions.

Comments were not solicited from participants, PSD and PCC officials did, however, hold meetings in Denver to determine the interest of firms in those cities in the Denver facility. At these meetings several broker-dealers and banks commented that they believed such a facility was needed and that they would expect to use it.

PCC is of the opinion that the Denver facility will not impose any burden on competition. Rather, like the PCC facilities in Seattle, Washington and Portland, Oregon, the facility will encourage competition. It will do this by making available to firms in the Southwest clearing and settlement methods not previously economically feasible for such firms. These firms will thus be better able to compete for business with larger firms headquartered in the nation's money centers.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (1) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (2) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 8, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

THE DEPOSITORY TRUST CO.

Order Approving Proposed Rule Change Submitted by the Depository Trust Company Amending Certain Operating Procedures To Permit the Pre-Authorized Release of Collateral Pledged by Participants Pursuant to Its Over-Night Collateral Loan Program

MAY 11, 1976.

On March 11, 1976, The Depository Trust Company (New York, New York) ("DTC") submitted a proposed change to the Operating Procedures of DTC pursuant to Rule 19b-4 under the Securities Exchange Act of 1934, 15 U.S.C. 78(s) (the "Act").

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, the rule change was published in the FEDERAL REGISTER (41 Fed. Reg. 14453, April 5, 1976) and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 12282 on March 30, 1976. No letters of comment were received.

As described in Securities Exchange Act Release No. 12282, the rule change permits pledgees in DTC's book-entry pledge program to authorize the automatic release of securities pledged for overnight bank loans and, thus, to permit book-entry deliveries by pledgors to other DTC Participants by 9:30 a.m. on the business day following the overnight loan unless the release is cancelled before such time. The rule change is intended to eliminate preparation and processing of separate release forms and to facilitate timely completion of book-entry deliveries which are dependent upon release of the pledged securities.

The Commission has reviewed the proposed rule change and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b) (2) of the Act, that the rule change referenced above, be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

THE DEPOSITORY TRUST CO.

Order Approving Proposed Rule Change Submitted by the Depository Trust Company in Regard to Operating Procedures Respecting Its Institutional Delivery System

MAY 12, 1976.

On March 16, 1976, The Depository Trust Company, New York, New York ("DTC") submitted a proposed change to the Operating Procedures of DTC pursuant to Rule 19b-4 under the Securities Exchange Act of 1934, 15 U.S.C. 78(s) (the "Act").

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, the rule change was published in the FEDERAL REGISTER (41 FR 14798, April 7, 1976) and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 12273 on March 26, 1976. No letters of comment were received.

As described in Securities Exchange Act Release No. 12273, the rule change permits Participants who have been excepting deliveries in DTC's Institutional Delivery System ("ID System") to comply with certain segregation requirements by limiting the exceptions to only that portion of a security position actually required for segregation requirements while permitting the remaining portion of the position to become available for deliveries in the PDQ part of DTC's ID System.

The Commission has reviewed the proposed rule change and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b) (2) of the Act, that the rule change referenced above, be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

**NEW ENGLAND SECURITIES
DEPOSITORY TRUST CO.**

**Notice of Filing of an Application for
Registration of Clearing Agency**

The New England Securities Depository Trust Company has made an application to become a registered clearing agency under Sections 17A and 19(a) of the Securities Exchange Act of 1934 (the "Act") and pursuant to Section (c) (1) of Rule 17Ab2-1 [17 CFR 240.17Ab2-1] under the Act. The New England Securities Depository Trust Company intends to engage in the business of holding, receiving and delivering securities and making book entries with respect to the transfer and/or pledge thereof as a clearing corporation and as a custodian bank for other clearing corporations.

Within ninety days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period as to which the applicant consents, the Commission will, in accordance with Section 19(a) of the Act:

(A) By order grant such registration, or
(B) Institute proceedings to determine whether registration should be denied.

Pursuant to subsection (c) (1) of Rule 17Ab2-1 under the Act, if requested by an applicant, the Commission may grant the applicant registration as a clearing agency in accordance with Sections

17A(b) and 19(a) (1) of the Act, but exempt the applicant from one or more of the requirements as to which the Commission is directed to make a determination pursuant to subparagraphs (A)-(I) of Section 17A(b) (3) of the Act. Registration pursuant to subsection (c) (1) of Rule 17Ab2-1 shall not be effective for more than eighteen (18) months from the date on which registration is made effective by the Commission.

Subsection (c) (2) of Rule 17Ab2-1 requires that, in the case of any clearing agency registered in accordance with subsection (c) (1) of Rule 17Ab2-1, the Commission, not later than nine months from the date such registration is made effective, will either grant registration without exempting the registrant from one or more of the requirements as to which the Commission is directed to make a determination pursuant to subparagraphs (A)-(I) of Section 17A(b) (3) or will institute proceedings to determine whether registration should be denied at the expiration of 18 months.

Interested persons are invited to submit written data, views and arguments concerning the foregoing applications within six weeks from the date of publication of this notice in the FEDERAL REGISTER. Such written data, views and arguments will be considered by the Commission in granting registration or instituting proceedings to determine whether registration should be denied in accordance with Section 19(a) of the Act and subsection (c) (2) of Rule 17Ab2-1. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to the appropriate file number.

Copies of the applications and of all written comments will be available for inspection at the Securities and Exchange Commission's Public Reference Room, 1100 L Street, N.W., Washington, D.C. 20006.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

THE POTOMAC EDISON CO.

Notice of Proposed Issue and Sale of Preferred Stock and First Mortgage Bonds at Competitive Bidding

MAY 12, 1976.

Notice is hereby given that The Potomac Edison Company, Downsville Pike, Hagerstown, Maryland 21740 ("Potomac"), an electric utility subsidiary of Allegheny Power System, Inc., a registered holding company, has filed a declaration and amendments thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6 and 7 of

the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration as amended, which is summarized below, for a complete statement of the proposed transactions.

Potomac proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, up to 150,000 shares of its \$----- cumulative preferred stock ("Preferred Stock"), par value \$100 per share. The dividend rate, to be stated in terms of the dollar amount payable annually, which amount will be a multiple of \$0.04, and the price per share to be paid to Potomac, which price will not be less than \$100 nor more than \$102.75, will be determined by the competitive bidding. The terms of the Preferred Stock also provide that no shares may be redeemed prior to June 1, 1981, if the funds for such redemption are obtained by Potomac through the issuance of debt securities or other preferred stock at an interest or dividend cost, as the case may be, less than the dividend rate of the Preferred Stock.

Potomac also proposes to issue and sell at competitive bidding up to \$25,000,000 aggregate principal amount of its first mortgage bonds ("Bonds"), in one or more series, each such series to have a single maturity of not less than five and not more than thirty years from the date of issuance. Potomac states that it will notify prospective bidders of the maturity and the number of series of the Bonds not later than 72 hours prior to the bidding. The price of the Bonds, which will not be less than 100% (unless Potomac authorizes a lower percentage, not less than 99%) nor greater than 102¾% of the principal amount, and their interest rate, which will be a multiple of ½ of 1%, will be determined by the competitive bidding.

The Bonds will be issued under Potomac's Indenture, dated October 1, 1944, to Chemical Bank and Thomas J. Foley, trustees, as heretofore amended and supplemented and as to be further amended and supplemented by a Supplemental Indenture to be executed in connection with the issuance of the Bonds. The terms of the Bonds prohibit Potomac from redeeming them prior to June 1, 1981, if the funds for such redemption are obtained by Potomac at a lower interest cost than that of the Bonds.

Potomac states that the proceeds realized from the sale of the Preferred Stock and of the Bonds will be applied to pay or prepay short-term debt and to finance its construction program. Potomac states that on March 31, 1976, it had \$13,200,000 of short-term notes outstanding and that it expects to have about \$11,000,000 of such notes outstanding at the time of issuance of the Preferred Stock and Bonds. As of March 31, 1976, Potomac's construction program for 1976-1977 was estimated to cost about \$139,000,000.

Estimates of the fees and expenses to be incurred by Potomac in connection with the proposed transactions and the fees of counsel for the successful bidders, which will be paid by the successful bid-

ders, will be supplied by amendment. It is stated that the Public Service Commission of Maryland, the State Corporation Commission of Virginia, and the Pennsylvania Public Utility Commission (with regard to registration of a securities certificate) have jurisdiction over the proposed transactions and that no other state commission nor any federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 4, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended, or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof:

For the Commission, by the Division of Corporate Regulations, pursuant to delegated authority.

Secretary.

[Notice No. 63]

**MOTOR CARRIER TEMPORARY
AUTHORITY APPLICATIONS**

May 14, 1976.

Important Notice: The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 C.F.R. § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than June 3, 1976. One copy of the protest must be served

on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.
