# NATIVE NORTH AMERICAN Ferns and Wild Flowers for Fall, 1929, Planting

GEORGE D. AIKEN Putney - Vermont

### North American Wildflowers

THIS price list is the result of several years of interesting work which we have spent with our native wild flowers. Everyone knows that they are the loveliest and most charming of flowers, but very little has been done in making them available for general planting, or in disseminating knowledge of their cultural requirements.

While we regret that we have space available in this list for only the very briefest descriptions, yet if you have any particular problems we will be glad to advise you by letter to the best of our ability. This service, however, is for our customers only.

It is only natural that in trying out new varieties that there will be failures. It is human nature to wish to grow grapefruit in Maine and raspberries in Florida, but nature dictates otherwise, and she also has her rules regarding our wildflowers.

It sometimes happens that flowers, which here in Vermont grow in full sun may succeed far south if given shade. But let us suggest that your wild flower garden consist mostly of the reliables, and each season, try a few new sorts which appeal to you.

To assist you, you will find in the back of this pamphlet, lists of plants adapted to certain locations.

ABOUT PRICES. As we ship our plants to all the states and many far corners of the earth, we necessarily make all prices f.o.b. Putney, Vermont. Unless instructed otherwise we will send either by mail or express collect, whichever seems best.

TERMS—Fifty or more plants of one variety will be sold at 100 rates: 250 or more of one variety will be sold at 1000 rates.

TIME TO PLANT—In general, most wild flowers transplant best in late August and September, although there are exceptions to this rule.

And finally, if our customers show sufficient interest in this work we are doing, we will be able to offer you more new and interesting plants each season.

### The Hardy Ferns of New England

Almost the most useful group of all hardy plants are our ferns, for there is scarcely a place where the judicious planting of them will not improve it. Their hardiness and useful beauty should endear them to all. Little fellows for the rockery and big fellows for the field and bog. For sun or shade there is a wide range of varieties.

And Vermont is the home of the best ferns. Almost every variety, native to temperate North America grows here and our plants really are much heavier and stronger than those from other sections.

#### HARDY FERNS

Price for	3	12	100	1000
ADIANTUM pedatum (Maidenhair). Extremely graceful. For shaded rocks and woods. 2 ft	0.60	\$2.00	\$12.00	\$90.00
<b>ASPLENIUM platyneuron</b> (Ebony Spleenwort). Ebony stems. Slender and graceful. 6-10 in. Moist, shaded rocks	1.00	3.00	18.00	
trichomanes (Maidenhair Spleenwort). Daintiest of all ferns. 4-6 in. tall. An essential rock fern. Shade	1.00	3.00	18.00	
ATHYRIUM filixfemina (Lady Fern). Easily grown fern. 2-21/2 ft. tall. For rich sun or shade	.60	1.50	10.00	80.00
thelyptroides (Silvery Spleenwort). 2 ft. fern for moist, partial shade. Backs of fruiting fronds silvery	.90	2.50	16.00	
BOTRYCHIUM obliquum (Ternate Grape Fern). 1 ft. high. Open woods.	1.00	3.00	18.00	
virginianum (Rattlesnake Fern) or Grapefern). 1 ft.tall. Attractive and unusual fronds. Open woods	.60	2.00	14.00	125.00
CAMPTOSORUS rhizophyllus (Walking Leaf). Unusual fern from the limestone cliffs.	.60	2.00		
<b>CYSTOPTERIS bulbifera</b> (Berry Bladderfern). Rather delicate fern for the rocky woods	.60	2.00	15.00	
fragilis (Fragile Bladderfern). Another Bladderfern for the rocky woods	.60	2.00	15.00	
<b>DENNSTEDTIA punctilobula</b> (Hay-scented Fern). Forms dense mats of fragrant fronds 1 ft. tall. One of the best. Open sun or				
woods	.60	1.50	10.00	75.00
Sods of Hay-scented Fern about 10 in. square	1.00	3.00	18.00	175.00

Hardy Ferns in the Rockery

#### PUTNEY, VERMONT

Azalea vaseyi (Pinkshell Azalea)

Azalea viscosa (White Swamp Pink)

### Native Azaleas and Rhododendrons

The most popular group of native shrubs is the Rhododendrons and allied members of the Heath family. While naturally they are found in the Alleghanies, yet they may be grown elsewhere successfully if the soil is made sufficiently acid. This may be done by applying aluminum sulphate. The borders of moist, but not wet, woods are ideal for them. Azaleas, Blueberries and Rhodora may be, and rather should be, grown in sun or only partial shade.

Ericaceous shrubs are shipped with a ball of earth to insure success in transplanting.

#### NATIVE AZALEAS AND RHODODENDRONS

Price for	1	10	100
AZALEA arborescens (Clammy Azalea). Tall growing with white flowers.			
12-18 in., clumps balled and burlapped.	\$2.00	\$18.00	
lutea (Flame Azalea). Color varies from light yellow to deep orange. Quite			
easily grown.

  Lilium tenuifolium (Siberian Coral Lily). Small scarlet Lily, good for rock gardens. 35c. each, \$3.50 per doz.

This price list is for Fall, 1929 only and does not apply to orders for Spring, 1930

14 00

#### Peonies

In spite of its higher price the Peony has the reputation of being one of the best of garden investments. A well selected variety, well planted, will increase in beauty for a lifetime. Dig the soil deeply and enrich with old manure. Plant them not more than 3 inches deep and do not allow them to touch the manure. Do not mound up the soil around them as too deep planting causes the shoots to come blind, or without flower buds.

Mixed, Pink, Red, or White, at 35c. each, \$3.50 per 12.

00.

- Albatre. Very large; compact rose type. Milk-white. Strong, vigorous and tall growing. Free blooming. Heartily endorsed as one of the best Peonies in cultivation. \$1.00 each.
- Asa Gray. Large, well formed flower of soft like pink. Very fragrant. Semi-rose type. \$1.50 each.
- **Couronne d'Or** (Crown of Gold). Large, beau-tifully formed flowers with conspieuous golden stamens at the base of the petals. Fragranee and form similar to a Waterlily. 50e. each.
- Dorchester. A full, large flower of delightful clear pink. 75c. each.
- Eugenie Verdier. Magnificent large flowers of delieate flesh pink with lighter margin, over-
- laid with silvery sheen. 75e. each. Edulis Superba. The old fashioned full, double pink; very bright; early. A good variety. 50c. each.
- Felix Crousse. Rich amaranth-red. \$1.00 each.
- Festiva Maxima. Still a prize winning variety. Immense white, with a tiny scarlet mark near the center. Midseason. 50c. each.
- James Kelway. Exquisite white with a golden glow at base of petals. Very strong grower and deliciously fragrant. \$1.50 each.
- Lady Alexander Duff. One of the very finest Peonies. Broad petals of French pink tinted flesh. \$2.50 each.
- Louis Van Houtte. Old-fashioned red. Large and very double. 75e. each.
- Milton Hill. A perfect flower of deeper color than Dorchester. A magnificent full, double flower. • \$3.00 each.
- Mme. Emile Galle. A large, loosely arranged flower. Delicately beautiful. One of our favorites. Late. 75c. each. Mons. Jules Elie. Bomb type. A royal beauty
- among Peonies and possible the largest flowered. Color ideal lilac-pink, overlaid with a silvery sheen which fairly glistens in the sunlight. \$1.00 each.
- Mme. de Verneville. Very beautiful, compact bloom, with large outer guard petals and densely double center. Very reliable and free
- Officinalis rubra. Very early flowering bright red, in bloom usually on Memorial Day. \$1.00 each.
- Pasteur. Soft pink with yellow lights at base of petals. \$1.75 each.

#### Strawberry Plants

For those who did not get their Strawberries set last Spring, but wish to pick berries next June, we offer a very fine lot of pot grown Howard 17 plants. This is probably the best all round variety grown today, ripening early and continuing for a very long season. If planted in August or September, berries may be picked the following season.

\$1.50 per 25, \$1.50 per 100, \$37.50 per 1000

- The nearest approach to a yellow Primevere. Peony. Color a soft sulphur-yellow. Circle of wide guard petals and very double center of a deeper shade. Distinct and very lovely. Easily attracts attention among hundreds of \$4.50 each. kinds.
- Rubra Superba. The best very late red Peony. Large, compact Rose type. Color deep crimson. Very fragrant. 75c. each.
- Richard Carvel. Enormous globular blooms with broad guard petals and high dome-shaped eenter. Color uniform erimson. A "red Jules Elie. \$5.00 each.
- Therese. One of the world's best Peonies. Rich Therese. One of the world's best reonest. Reflex of petals satiny pink of huge size. Reflex of petals glossy and shining. \$3.50 each.
   Walter Faxon. Large, globular type. Strong and vigorous. Color an exceedingly rich and in the base of the pet found in the set found in the set.
- beautiful shade of salmon pink; not found in any other Peony, and wherever seen, gives it the effect of being the pinkest. Easily distinguished among hundreds of kinds. \$5.00 each.

Price, any of the above, except as noted, 25c. each, 3 for 60c., \$2.00 per 12, \$15.00 per 100

#### Our Complete Catalog

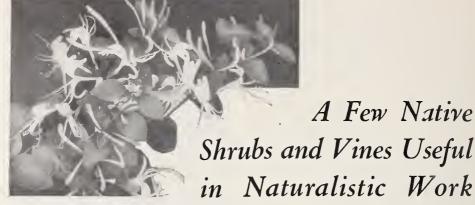

\_\_\_\_\_

If you are further interested in planting Evergreens, Shrubs, Shade Trees, Fruit Trees or Hardy Perennials, and have not received our complete catalog, we will be glad to send you a eopy. Our stock of hardy trees and plants is very complete and we wish to emphasize again that "Grown in Vermont, it's Hardy."

This price list is for Fall, 1929 only and does not apply to orders for Spring, 1930

÷.,

÷ -

Lonicera halliana (Hall Honeysuckle)

- AMPELOPSIS quinquefolia (Woodbine). A native vine, unexcelled for use on wooden buildings. Rapid growing, quickly covering old trees or large surfaces. Bright blue ber-ries and scarlet foliage in Fall. 50c. each, \$4.50 per 10.
- **CELASTRUS scandens** (Bittersweet). A native vine, having a dense growth. Much prized for its orange scarlet berries which are extensively used for decorating. 50c. each, \$4.50 per 10.
- **CLEMATIS virginiana** (Virgins-bower). A dainty and attractive vine, perfectly hardy and very vigorous. White flowers in August. 50c. each, \$4.00 per 10.
- LONICERA halliana (Hall Honeysuckle). Rapid growing vine, bearing all Summer, airy sprays of white and yellow blossoms which are very fragrant. 50c. each, \$4.50 per 10.
- LONICERA sempervirens (Scarlet Trumpet Honeysuckle). Glaucous green leaves and long, scarlet flowers. Beautiful. 50c. each, \$4.50 per 10.
- AMELANCHIER canadensis (Downy Shadblow). In earliest Spring the white blossoms of the Downy Shadblow are very conspicuous throughout the northern forests before any deciduous trees are sending out their leaves. Bears edible red fruit. 3 to 4 ft. \$1.00 each, \$9.00 per 10.
- ARONIA melanocarpa (Black Chokeberry). A small shrub, bearing white flowers in corymbs in early Summer, and black fruit in the Autumn. Foliage very attractive in the Autumn. Prefers moist soil, but will grow anywhere. 2 to 3 ft., 60c. each, \$5.50 per 10.
- CLETHRA alnifolia (Summersweet). Creamy white, very fragrant flowers in long racemes, from July to September. Attains a height of 3 to 10 ft. 2 to 3 ft., 60c. each, \$5.50 per 10.
- CORNUS stolonifera (Red-osier). A native red barked Dogwood, resembling Cornus sibirica. White blossoms in early Summer and occasionally a few throughout the season. Grayish white berries. 2 to 3 ft., 50c. each, \$4.50 per 10.

HAMAMELIS vernalis (Vernal Witch-hazel). An attractive Witch-hazel from the Ozark Mountains, and apparently hardy in New England. This is the earliest shrub to blos-com bearing in profession in late Winter and som, bearing in profusion in late Winter and early Spring, flowers which vary in color from yellow to maroon red. 2 to 3 ft., \$1.25 each; 3 to 4 ft., \$1.75 each, \$16.00 per 10.

A Few Native

-- 200

- HAMAMELIS virginiana (Witch-hazel). very interesting and useful native shrub, valued for its golden yellow, thread-like blossoms, which are borne in profusion in November. Attains a height of 15 ft. 2 to 3 ft., 50c. each, \$4.50 per 10; 3 to 4 ft., 65c. each, \$6.00 per 10; 4 to 6 ft., \$1.00 each.
- PHYSOCARPUS opulifolius (Ninebark). rapid growing shrub. Attains a large size in a short time. Flat racemes of cream colored flowers. Blossoms in early Summer. 2 to 3 ft., 50c. each, \$4.00 per 10; 3 to 4 ft., 60c. each, \$5.00 per 10.
- PHYSOCARPUS opulifolius luteus (Golden Ninebark). A tall shrub having golden yel-low leaves and panicles of creamy white flowers in late Spring. 3 to 4 ft., 50c. each, \$4.50 per 10; 4 to 5 ft., \$1.00 each, \$9.00 per 10; 5.17.74 \$1.50 each, \$2.00 per 10; 5 to 7 ft., \$1.50 each, \$13.50 per 10.
- POTENTILLA fruticosa (Shrubby Cinquefoil). Single yellow flowers, borne all Summer. A dwarf grower, preferring a moist place. 18 to 24 in., 50c. each, \$4.00 per 10.
- PRUNUS virginiana (Chokecherry). If it were not so common, the Chokecherry with its wealth of snow white, fragrant flowers, borne in 2 to 3 in. racemes, would be one of the most popular shrubs. 2 to 3 ft., 50c. each, \$4.50 per 10; 3 to 4 ft., 60c. each, \$5.50 per 10.
- RHUS typhina (Staghorn Sumac). A native shrub, popular for naturalistic plantings. Is being planted also more generally in the last few years as a lawn shrub. 3 to 4 it., 50c. each, \$4.50 per 10; 4 to 5 ft., 60c. each, \$5.50 per 10.
- RHUS copallina (Shining Sumac). Dwarf Sumac with shining, glaucous green leaves. Bright red berries. 2 to 3 ft., 50c. each, \$4.50 per 10; 3 to 4 ft., 60c. each, \$5.50 per 10.

Symphoricarpos vulgaris (Indian Currant)

- **RUBUS odoratus** (Purple Flowering Raspberry). A native shrub, particularly adapted to moist shade. From Midsummer till Autunn, the single, rosy-purple flowers nearly 2 in. aeross, are borne freely. The large red berrices are edible and usually enjoyed by the younger members of the family. Large leaves, several inches aeross. Bush grows 4 to 6 ft. tall. 3 to 4 ft. plants, 40c. each, \$3.00 per 10.
- SAMBUCUS canadensis (Snowy Elder). Ilandsome, compound leaves, and great corymbs of white, fragrant flowers in June. When the beauty of this shrub is more fully appreciated, it will be planted extensively. 2 to 3 ft., 50e, each, \$4.50 per 10; 3 to 4 ft., 75e, each, \$7.00 per 10.
- SAMBUCUS pubens (Early Elder). Panieles of eream white flowers in May. A tall growing, shapely shrub. Searlet berries in Midsummer 3 to 4 ft., 75c. each, \$7.00 per 10.
- SPIRAEA tomentosa (Steeplebush). Native pasture Spiraea, used for naturalizing. Tall spikes of soft, rose colored flowers in Midsummer. 2 to 3 ft., 25c. each, \$2.00 per 10.
- **SPIRAEA latifolia** (Meadowsweet). Native white Spiraea, blossoming in early Summer. 2 to 3 ft., 40c. each, \$3.50 per 10.
- **SYMPHORICARPOS vulgaris** (Indian Currant). Sometimes ealled Coralberry because the long, slender branches are thickly studded with coral red berries in Autumn. Quick growing shrub. 2 to 3 ft., 50e. each, \$4.50 per 10.
- VIBURNUM acerifolium (Maple leaf Viburnum). A very hardy Viburnum, attaining a height of 5 ft. Cream white flowers, followed by black fruit. Especially valuable because of its gorgeous pink tinted foliage in Autumn. 2 to 3 ft., 60c. each, \$5.50 per 10.
- VIBURNUM americanum (Highbush Cranberry). Very hardy Viburnum attaining a height of 12 ft. White flowers in June, and during the Fall and Winter the bushes are literally loaded with gorgeous red fruit resembling the Cranberry in color, size and flavor. Useful for jelly. 2 to 3 ft., 75e. each, \$7.00 per 10.
- VIBURNUM cassinoides (Withe-rod). Flat corymbs of cream white flowers in June and July, followed by red berries which turn black. An attractively shaped shrub which will do especially well in a moist place. 2 to 3 ft., 70c. each, \$6.50 per 10; 3 to 4 ft., 90c. each, 88.50 per 10.

- VIBURNUM alnifolium (Hobblebush). A Spring flowering Viburnum of our native woods. Broad, flat corynthes of ereamy white flowers. Beautiful for a shady place. 2 to 3 ft., 50c. each, \$4,50 per 10.
- VIBURNUM dentatum (Arrowwood). Roughly heart-shaped leaves, assuming rich, dark red shades in Fall. White flowers followed by blue berries. Ornamental as a hedge plant. 2 to 3 ft., 50c. each, \$4.50 per 10.

### Bedding Violas

These cheerful optimists of the garden are almost indispensable. Plant them in early Fall and they go right on blossoming till the ground freezes. Then in the Spring, they can hardly wait till the snow goes before blossoming again. And they keep on right through the heat of the Summer. Use them in rockeries, for edging and almost anywhere there is a bare spot in the garden.

- VIOLA bosniaca (Bosnian Vioła). A delicately beautiful Viola, well adapted to the rock garden. Will thrive in partial shade. Rounded violet-shaped, small flowers of bright rose pink. Continually in bloom. Very ehoice. 3 for 60e., \$2.00 per 12, \$15.00 per 100.
- VIOLA, Bowles Black. Midget faces of real black with tiny golden yellow eye. 3 for 60e., \$2.00 per 12, \$15.00 per 100.
- VIOLA, Blue Perfection. Bright viola-blue flowers cover the plants throughout the entire season. Especially lovely. 3 for 50c., \$1.50 per 12, \$10.00 per 100.
- **VIOLA lutea.** Dainty, pure golden yellow. 3 for 50c., \$1.50 per 12, \$10.00 per 100.
- VIOLA, Sutton's Apricot. Charming little fellow with real apricot complexion and sometimes wearing a wine-colored bonnet. 3 for 60e., \$2.00 per 12, \$15.00 per 100.
- VIOLA, White Perfection. Snow white. Drifts of these white Violas are beautiful at the foot of Iris. 3 for 50e., \$1.50 per 12, \$10.00 per 100.
- VIOLA, Jersey Gem. Flowers dark blue, almost purple. Petals waved. In full bloom from April until November. The flowers are similar to those of a Violet, though much larger and on stems long enough for eutting. Lovely combined with Lily-of-the-valley, Trollius, or many other flowers. We eannot recommend this too highly. 3 for 60c., \$2.00 per 12, \$15.00 per 100.
