

BANDITS ROB BELVEDERE BANK

POSSE GOES AFTER FOUR WITH LOOT IN AUTO

Shots Fired as Desperadoes Dash Through Suburb Of Los Angeles

LOS ANGELES, Aug. 21.—Four bandits robbed the Belvedere State Bank on the eastern edge of the city shortly before noon today and escaped. The amount of money taken by the bandits is unknown. The bandits quietly entered the bank and while two of them held up employees of the establishment, the other two scooped up all the money in sight and fled in a waiting automobile.

Pedestrians who saw the bandits drive away in the automobile secured its license number, 532-160, and said it was a Buick model. The bank officials believe the loot will aggregate several thousands of dollars.

Fire Shots in Air Several shots were fired into the air by the bandits as they left the bank, to intimidate any persons who might pursue them. A posse of twenty-two deputy sheriffs was hurriedly gotten together and, with several county motorcycle officers, started for Coyote Pass, where the bandits are believed headed.

Authorities were inclined to believe the bandits were led by Jesse Taylor, notorious "yellow slicker bandit," who recently escaped from a deputy sheriff while being returned here from prison to testify in a robbery case. Taylor is also blamed by the authorities for several holdups that have taken place in and near Los Angeles since his getaway.

GOLDEN RAIL AS FIRST MEMORIAL

U. P. Line Commemorates Harding's Official Act In Opening Road

SALT LAKE CITY, Aug. 21.—The first American memorial to President Harding will be laid by the west in the form of a golden section of a railroad rail, set into the main line of the Union Pacific at Cedar City, Utah, to commemorate the president's official opening of the railroad to that point, according to announcement made here today.

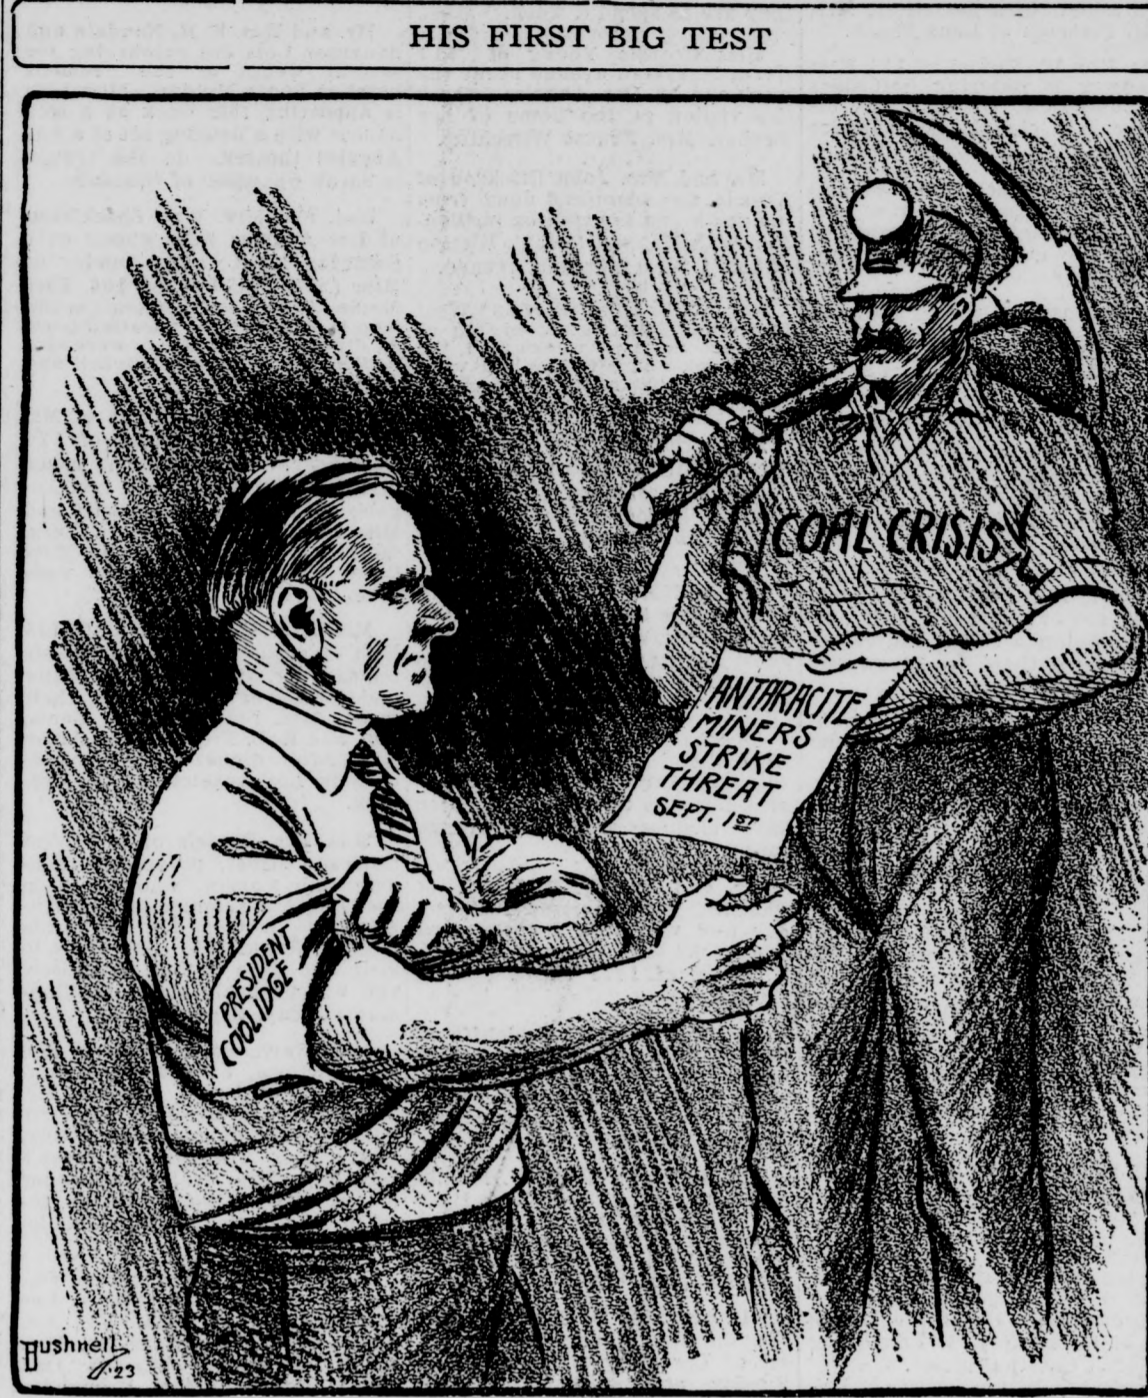

Construction of the new railroad line was rushed to facilitate the passage of the president's special. All speed records were broken in the construction of the new line, forty-nine miles having been built in eighty-seven days. At the time it was considered an almost impossible feat to finish the work in time. When the presidential special rolled into Cedar City, it came over a perfectly finished and ballasted track into a terminal spick and span to the last speck.

Crews Exhausted But the construction engineers who accomplished it never saw the president. They were all lying in an exhausted sleep, after a final forty-eight-hour shift in which the line was completed.

The gold section will be laid to the ties at the spot where President Harding ascended. The golden rail is now being fabricated in Salt Lake City, and will bear the following inscription: "The Harding Memorial Rail, laid by the citizens of Iron county, Utah, to commemorate the opening by President Warren G. Harding of the Union Pacific National Park Line to Cedar City on June 27, 1923."

LINIMENT IS FATAL REDDING, Aug. 21.—Jack Mulvey, laborer, 45, found dead in bed here today, died as a result of mistakenly taking some liniment internally, the coroner's inquest found.

FRENCH REPLY READY PARIS, Aug. 21.—France's reply to the British reparations note of August 21 was delivered at the British embassy at 9 a. m. It will be published by the French foreign office tomorrow.

ADVENTISTS WILL HOLD CAMP MEET

Local Church Members Will Attend Ten-Day Session In Los Angeles

Plans are being completed for the opening Friday of the annual ten-day Southern California camp meeting of the Seventh Day Adventist church.

Los Angeles will be the location of this year's camp meeting. The exact site of the tent city, which is being erected to accommodate about 500 families from all parts of the southwest, will be on the north side of Florence avenue between Vermont and Hoover avenues in the southwest section of Los Angeles. Florence avenue is the first street south of Sixty-ninth street.

The "U" cars of the Los Angeles Railway Company, which run westward on Fifth street and then southward on Figueroa street, pass the camp grounds. These also bear the designation "Florence Avenue" on the front shield.

Between 700 and 1000 members of the local church are expected to be in attendance at the camp meeting, according to their pastor, Elder R. W. Parmelee. He added that most of them would return to their homes each day. For the next two Sabbaths, no services will be held in the local church.

Noted Men on Program The complete program has not been published as yet, but Elder Parmelee stated that all of the ministers of the Southern California and Pacific Union conferences are expected to participate. In addition, he mentioned the names of the following three representatives of the General Conference: Elder A. G. Daniels, of Washington, D. C., general secretary, who was president of the conference for twenty-one years; Elder R. D. Quinn of Eagle Rock, assistant secretary; Elder A. W. Spaulding of Washington, D. C., secretary of the Home Commission.

One of the evangelists will be Elder Luther Warren of the Paradise Valley Sanitarium at San Diego. Principal services will commence at 10:30 a. m. 2:30 p. m. and 7:30 p. m., although sessions will be in progress all day long.

MONEY ORDER PACT WASHINGTON, Aug. 21.—Postmaster General Harry New signed a money order convention with Poland, thus extending to that country for the first time in history the safety and protection now accorded to money remittances to nearly every country on the globe.

Speeding Mail Pilots Flying From Coast To Coast In 28 Hours

Pacific Plane Makes Fast Time in Its Eastward Flight Over Rockies Another Heading West to Chicago Where Race Through Night Begins

SAN FRANCISCO, Aug. 21.—A group of seventy-five individuals gathered in the sunrise of a typical California morning at Crissey Field here as the first twenty-eight-hour cross-continent air mail flight got under way. Promptly at 5:59 the huge plane slowly gathered speed and after circling the field once, rapidly disappeared in the distance. Letters from Mayor Rolph to Mayor Hyman of New York and local officials of the air mail were carried together with eight pouches of mail. Extensive preparations are being made for the welcoming of the mail plane from New York which is due here early tomorrow afternoon.

HAZELHURST FIELD, MINEOLA, N. Y., Aug. 21.—Eugene Johnson, United States mail service pilot, hopped off at 11 o'clock eastern standard time today in the DH-4-B on the first lap of a transcontinental relay race that has as its object the establishment of a twenty-eight hour mail service between New York and San Francisco. Johnson was unaccompanied. After circling the field he headed due west in the direction of Cleveland, Ohio, the first scheduled stop.

First Night Flight In Air Mail Service CHICAGO, Aug. 21.—A gigantic air mail plane hops off at Checkerboard air field here tonight for the night flight of the United States mail service. Ample provisions have been made in the way of providing for the night pilots. Every three miles from her to Cheyenne a group of five lights will flash intermittently. Every 25 miles, a huge 200,000 candle power light, mounted on a high tower, will be kept burning throughout the night, to aid the pilot in maintaining his course. These lights will be visible for a distance of 100 miles. In addition, emergency landing fields will be maintained at 25-mile intervals and will be kept well lighted.

Col. Paul Henderson, second assistant postmaster general who supervises the transportation of air mail will head a welcoming committee for the intrepid night pilot at Omaha tonight. The aviator is expected to reach there at 11 o'clock.

Pilot Makes Quick Trip to Reno, Nev. RENO, Aug. 21.—The De Haviland air mail plane piloted by Burr Winslow arrived here at 7:46, approximately 1 hour and 7 minutes after leaving Crissey Field, San Francisco, on the first 28-hour cross-country flight of a plane carrying United States mail. Pilot Blanchfield left here at 7:50 a. m. relieving Burr Winslow who piloted the cross-continent airplane from San Francisco. The next stop is to Elko, Nev., which usually requires two hours. As the plane is making exceptional time, the De Haviland may arrive at Elko at 8:45, Mountain time.

Ahead of Time Crossing Mountains ELKO, Aug. 21.—One hour and a half ahead of time, Pilot Scott took off en route to Salt Lake City in the 28-hour cross-continent air mail dash at Elko today. (Continued on Page 8)

SURE OF FRENCH DEBT SETTLEMENT

Administration Officials Predict Adjustment Will Be Reached

By W. H. ATKINS For International News Service WASHINGTON, D. C., Aug. 21.—A basis for adjustment of war debts due the United States by France and smaller European countries will be reached this fall, administration officials predicted today. The government is also confident that a settlement will be reached by the end of the year.

A hopeful forecast of Europe's economic situation is formed from the impression gathered by high officials who have just returned from Europe. These are now before the president and his cabinet. The treasury department officials said that the American debt adjustment commission has made no plan to resume debt negotiations with France or other nations involved until further definite advances come from the debtor nations with which the negotiations were begun some months ago. Officials said delay is not an unfavorable factor in the debt situation.

Two Held in Slaying Over Poker Stakes

REDDING, Calif., Aug. 21.—The combined efforts of officers of Shasta and Siskiyou counties resulted today in the capture of William Slater, who escaped at the time his companion Aubrey was captured following a hold-up of participants in a poker game at Pit No. 3, Camp of the Pacific Gas and Electric Company Sunday evening. In the fight which followed the hold-up, Joseph Bogdan, 34, a native of Czechoslovakia was almost instantly killed from a bullet fired by Aubrey it developed at the inquest. Aubrey claims to be an automobile painter from Salt Lake City, and Slater gave his home at Oakland, saying he is a blacksmith. Both prisoners are held incommunicado in separate jails. Slater at the time of his capture, said he was on his way to give himself up and added that "he was all in."

MacReady Will Pilot Eclipse Picture Plane WASHINGTON, Aug. 21.—The war department today approved the project of Maj. Gen. Mason M. Patrick, chief of the air service, to photograph the solar eclipse from an airplane at an altitude of 20,000 feet on September 10. Lieutenants John A. MacReady and A. W. Stevens have been ordered to Rockwell field, San Diego, Cal., which will be in the area of the total eclipse. MacReady will be the pilot on the trip. He now holds the present world's record for altitude. Stevens is one of the most expert photographers in the army air service.

COOLIDGE IS STUDYING MEXICO, RUSSIA

President Interviews Those Acquainted With Both Countries' Affairs

By H. K. REYNOLDS For International News Service WASHINGTON, Aug. 21.—Hardly waiting until the ink was dry on the agreements, which are to form the basis for recognition of the Mexican government by the United States, President Coolidge has undertaken a personal study of the Russian situation it was learned here today.

An outline of the policy of the Harding administration towards Moscow was given to Mr. Coolidge several days ago by Secretary of State Hughes and endorsed by the president in principle, but he has decided to go into the question more fully. Without ignoring the official record on the Russian situation as assembled by the state department, the president plans a series of personal conferences with senators and prominent citizens who have investigated conditions in Russia recently.

Holds Conference The first of these conferences was held last night at the New Willard Hotel with former Secretary of the Interior Albert B. Fall, who has just returned to Washington after spending several weeks in Russia and other European countries. Fall told the president that he did not think any government in Europe was as sound financially as the Soviet Union, but he still doubted the willingness of the Soviet leaders to give guarantees for the protection of property rights.

Other investigators of conditions in Russia are to be interviewed in several weeks. The senators have visited Russia during the summer, and all will be welcomed at the public reception when they get back.

Cabinet Members Away Secretary Hughes had planned to meet the cabinet today with the negotiations looking to the recognition of Mexico, but President Coolidge called off the schedule because so few of the members of his official family are in town.

The president conferred this morning with R. B. Creager, of Brownsville, Texas, who has been prominently mentioned for appointment as the new ambassador to Mexico City. Mr. Creager formerly lived in Marion, Ohio, and was offered the Mexican post two years ago by President Harding when it appeared that the Obregon government was to be recognized.

Optimistic Tone Felt While the president and Creager were discussing Mexican affairs at the White House Secretary Hughes held further conferences at the state department which John Barton Payne concluded at Mexico City. A feeling of optimism over the Mexican situation prevailed in administration circles. In sending Creager to Mexico City President Coolidge would bring into diplomatic service the recognized republican leader of Texas. Creager is given credit for the party's organization in the southwest, establishing branches in 240 out of 254 counties during the past two years, compared with 189 in 1921.

Awaits Formal Report It was announced officially at the White House this afternoon that the new ambassador to Mexico would not be appointed until President Coolidge had received from the state department a formal report on the negotiations carried on at Mexico City by Commissioners Warren and Payne. This report is now being drafted by Secretary Hughes. Formal announcement of recognition may be delayed for a few days, according to officials in touch with the status of the negotiations, while the United States advises other powers of the steps it has taken to resume diplomatic intercourse with Mexico.

WOMAN SAVES LIFE REDDING, Aug. 21.—Presence of mind of Mrs. J. F. Pegary here saved the life of Pearl Denison, Los Angeles laborer, after a train ran over and severed one of his legs. Mrs. Gregory, hearing the man's screams, ran across a trestle over the Sacramento river and made a tourniquet of her apron.

Victims of Lash Seal Their Lips Fearing Death

MACON, Ga., Aug. 21.—Officers today were making a desperate battle to overcome the terror which keeps every victim of Macon flogging parties from imparting any information to officers. Those who were kidnapped and flogged apparently are more than satisfied that they were permitted to return alive. They refuse to talk. When asked if they recognized any of their assailants all answer in the negative. Not one person among the large number recovering from beatings has identified a single member of the gang, officers said. There are no official reports in police circles here that a confession is expected soon from the trio of Hudson brothers held in jail, and that it will tear the veil of secrecy from a perfected flogging organization.

NEW RECORD IN SUMMER BUILDING

This August Goes Far Ahead Of Past Performances, Permits Show This month is scheduled to break all records for the eighth month of the year in the building office at the city hall. Although August will not be three weeks' old until tomorrow, her credit already amounts to \$523,753. This is only \$52,792 less than the total of \$576,545 for 1921. It is \$6,475 more than the total of \$570,070 for August, 1920. It exceeds the total of \$393,484 for August last year by \$119,269. Six and a quarter million dollars' worth of permits have been issued so far this year. Books were opened this morning with a total of \$6,257,724 to the credit of 1923. This sum is only \$48,247 less than the entire total of \$6,305,971 for 1922. Permits issued recently include the following:

Table listing building permits with amounts: A. S. Chase, 5-unit court, 615 South Columbus avenue \$35,000; First Lutheran church, house of worship, 233 South Kenwood street 20,000; W. F. Turner, stores and garage, 210 S. Central avenue 16,065; George and Sadie Dundas, duplex, 827 South Maryland avenue 6,000; Mrs. M. T. Brew, 6 rooms and garage, 1750 El Rito drive 5,300; M. C. Purdy, 6 rooms, 518 South Adams street 4,000; S. Berman, tailor shop, 402 South Broad boulevard 3,760; Union Oil company, filling station, 501 East Broadway 3,000; Albert Ahlman, 5 rooms and garage, 1135 Allen street 3,000; Eugene H. Gillies, 2 rooms and garage, 731, 731 Wing street 3,000; Joseph Baudine, store and shed, 323 West Los Feliz road 2,500; J. A. Cheever, 4 rooms and garage, 345 North Concord street 2,500; F. W. Furbeck, addition, 714 North Central avenue 2,500; Gertrude I. Freeman, 4 rooms, 1124 Alameda street 2,000; Henry C. Schmidt, 5 rooms, 1221 Linden street 1,500; N. B. Philippine Murder Gang Held for Boy's Death

HONOLULU, Aug. 21.—Officers of the Hawaiian Constabulary are reported to have rounded up a gang of Filipinos, who, yesterday murdered Francis Wright, 19, employe of the Hawaiian Dredging Company. Wright was shot through the right temple and then beaten with clubs. The murder is believed to be the culmination of a fight in which he bested one of the members of the gang.

U. S. Fiddles While Farmers Fail, Charge

CHICAGO, Aug. 21.—Charging that the federal government "is fiddling while the farmers go broke," Benjamin C. Marsh, managing director of the Farmers' National Council of Washington, here advocates a marketing corporation to handle farm products for the farmers' ills. This solution, he said, was based on a survey of conditions of the farmers in the Middle West and Southwest made during the past few weeks, during which he appeared before members of the farmers. He left here today for a similar trip through the western states.

Former Service Men Shun Soldiers' Job

SACRAMENTO, Aug. 21.—The class of 800 veterans to enter state schools and colleges as wards of the state with the opening of the fall semester includes men training for virtually every trade or profession, with one notable exception. Not a single veteran has applied for admission to a military training school. While he has had applications from potential ministers, doctors, dentists, chiropractors, mechanics, navigators, farmers and even newspapermen, E. R. Caughy, supervisor of education of the Veterans' Welfare Board, says that he has yet to find a former service man who acknowledges he is a potential soldier and wishes to continue the training which he endured during the World War.

Surveys Planned by Reclamation Service

SACRAMENTO, Aug. 21.—Announcement is made by the Sacramento Valley Development Association that the federal government has made an appropriation of \$20,000 for proposed surveys for reclamation work in Northern California, contingent upon a like sum being provided by the state. The principal survey under consideration is the proposed salt water dam across San Francisco of Suisun bay. Survey of a new canal line for the Iron canyon project is also contemplated.

Will Fill Vacancies in Supervisors' Posts

SACRAMENTO, Aug. 21.—The governor's office announced today that three supervisory vacancies, caused by death, will shortly be filled by Governor Richardson. The governor will appoint a member of the board of supervisors in Yuba county, a member of the board of supervisors in Kings county to succeed A. H. Johnson.

Amundsen After Big Plane for Pole Flight

NOME, Alaska, Aug. 21.—Captain Roald Amundsen declared today that he will attempt another flight across the frozen top of the world from Spitzbergen next spring. The explorer arrived last night aboard the cutter Bear. He will await the arrival of his aviator, Lieutenant Oskar Omdahl, here before proceeding to Seattle, he said. Omdahl is coming on the schooner Holmes from Wainwright, where he has been stationed caring for the plane in which Amundsen hoped to make the 3000-mile flight over the polar wastes.

DAKOTAN FAST ON ROCK OFF MEXICO

LOS ANGELES, Aug. 21.—Resting high on a point of rock amidship, with four other vessels standing by ready for the final attempt to pull her off into deep water, the fate of the 11,000-ton American-Hawaiian freighter Dakotan, which ran aground off Cape San Lazaro yesterday morning, today depended entirely upon the fiftieth water of the lower Callifornia coast, according to word received here.

Efforts to Loosen Freighter Renewed; Sister Ship Standing By

According to Captain L. A. Carlisle, in command of the Dakotan, hawsers sent aboard from the oil tankers, standing by her, fouled the propeller, rendering the Dakotan's engines temporarily useless. With the arrival at the scene today of the stricken vessel's sister ship, the Nevada, renewed efforts were to be made to pull the Dakotan off the rocks.

'Garter Peeping' Probe Ends at Sacramento

SACRAMENTO, Aug. 21.—The hearing conducted by the county board of supervisors into charges of "garter peeping" and neglect of patients recently filed against Dr. H. E. Morrison, superintendent of the Sacramento county hospital by former nurses at the institution was discontinued today.

Naval Officer Out Of Work Starts Bar

TOKIO, Aug. 20.—The Washington conference has added another bar to Tokio's great wet way. A good many Japanese naval officers have found themselves out of a job as a result of naval reduction. Among the lot left high and dry was a young lieutenant, and who had learned a lot of things in the navy besides the operation of ships and guns. It seems that as he journeyed up and down and around the globe he specialized, as a sort of side-line, in learning in each land visited all the lore to be had about the gentle art of cocktail compounding.

TODAY—Los Angeles "Death Traps"; The Grade Crossing Peril.

By WILLIAM G. CAYCE For International News Service

LOS ANGELES, Aug. 21.—The road tracks four times in two miles. This danger could be relieved by merely changing the highway, which would be comparatively cheap, East said.

Engineers are unanimous in considering dangerous nearly every crossing on the roads leading to the beach, where traffic is heavier than elsewhere.

Relocation of the railroad tracks at Cardiff on the San Diego road would eliminate two dangerous crossings there, the engineers claim.

Several years ago when the crossings were built it was taken for granted that because the trains carried the greater part of the traffic they would be given the right of way.

An official check was made on one crossing recently and showed the following result: During a period starting at 8 a. m. and ending at 6 p. m. 11,743 vehicles used the highway, while 491 trains used the rails.

The dangerous crossing at Pomona was taken by East as another illustration. There the county highway crosses the rail-

BILLY WHISKERS

The Hooligan boys were hitching Billy Whiskers up to a wagon. One of the boys called him lazy and threatened to pull his beard. It is a good thing Billy heard, for that was something Billy does not allow anyone to lay hands on.

DOEMS THAT LIVE

THE INNER VISION Most sweet it is with uplifted eyes To pace the ground, if path there be or none.

While a fair region round the traveler lies the reins as well as which he forbears again to look upon;

Pleased rather with some soft ideal scene, The work of fancy, or some happy tone Of meditation, slipping in between The beauty coming and the beauty gone.

If thought and love desert us, from that day Let us break off all commerce with the muse; With thought and love companions of our way—

When we complain of the heat we should think of the stoker in the fire room, working in short shifts and getting his breath through wet sponge, where the thermometer registers 140 F.

he gave his head a jerk and prodded him with the sharp nail in his lath. But that was the last time he had a chance to prod Billy or do anything else mean to him, for in that moment he was taken up in holding on to the car for dear life to keep from being upset and thrown out on the hard stone pavement.

HINTS FOR THE MOTORIST

ALBERT L. CLOUGH Editor Motor Service Bureau Review of Reviews

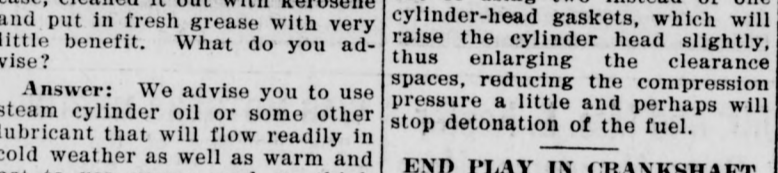

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

BE GOOD TO THE CLUTCH

The Clutch Pedal Is Either a Footrest or a Speed Control. If there were any unclaimed time left on the calendar, somebody ought to start "Kindness to Clutches Week."

NOISY TRANSMISSION GEARS

W. A. W. writes: The transmission gears of my car make a grinding noise, when they are in neutral, and when in high, the noise is also noticeable, although not so much so as when in second. I have emptied the

Answer: We advise you to use steam cylinder oil or some other lubricant that will flow readily in cold weather as well as warm and not to use grease, and we think that your instruction book makes this same recommendation.

END PLAY IN CRANKSHAFT

G. R. C. writes: The crankshaft of my car engine has nearly one-quarter inch end play. Will this do any harm? Answer: We cannot see why it should. You do not complain of any thumping sounds from your engine, such as would result from

Lowering Compression to Stop "Pinking"

R. W. S. writes: The engine of my car, when using either low or high test gasoline, makes a knock, like that caused by carbonyl, whenever the car is climbing a steep hill. I am sure, however, that this is not a carbon knock, as the cylinders have been cleaned.

Heart and Home Problems

Dear Mrs. Thompson: I am a seamstress. Being tired, I retire at 9. There is a young man who calls on me once or twice a week. Now and then he does not come for two weeks.

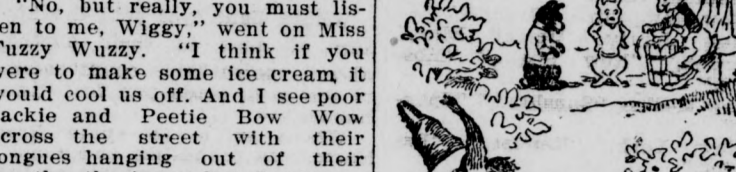

Dear Mrs. Thompson: While out riding recently with a party of friends I offered a girl my handkerchief after she got through eating some candy. She refused it and I was very much embarrassed. Will you please tell me if I did right or wrong?

Dear Mrs. Thompson: I am a girl twenty-one years of age and have been going with a boy steady for two years. Last year, we moved away from that town. He wrote to me for a while and then he quit writing to me. While we lived there he made love to me all the time, but now he does not seem to care for me any more.

Uncle Wiggily Bedtime Stories

UNCLE WIGGILY AND THE ICE CREAM The Bob Cat saw Uncle Wiggily, whose turn it was then, twisting away at the handle of the ice cream freezer, but neither Uncle Wiggily nor the doggie boys saw the Bob Cat for he was hidden behind the bushes.

"Hum! this is very queer," said the Bob Cat. "There is Uncle Wiggily playing a hand organ, but I can't hear any music coming out! I must be getting deaf!"

"I must be getting deaf!" said the Bob Cat. "I'm sure of it," said Nurse Jane. "Then I'll make some." offered the bunny gentleman.

And pretty soon, when Jackie and Peetie, those two little puppy dog chaps from across the street, heard Uncle Wiggily chopping up the ice, and sprinkling it with salt, those two little puppy dogs came right over, wagging their tails.

"What are you going to do, Uncle Wiggily?" asked Jackie. "Are you making an adventure?" Peetie wanted to know.

"Well, I'm going to make ice cream, and perhaps an adventure may come out of it," answered the rabbit gentleman.

"Now," said Uncle Wiggily, twinkling his pink nose, "we'll take turns twisting the handle and when the cream is frozen and cold we'll take turns eating it."

Turn, turn, turn, Uncle Wiggily twisted the handle. Turn, turn, turn, Jackie Bow Wow twisted the handle.

Turn, turn, turn, Peetie Bow Wow twisted the handle. And then—along came the Bob Cat!

EAGLE ROCK NEW SUB-STATION SUPPLIES POWER

Largest Plant on Coast to Furnish Electricity to Residents of City

Eagle Rock now has at her command vast reserves of electric energy, with the new 220,000-volt Laguna Bell sub-station in the Pasadena district functioning.

"This station, which is the largest on the Pacific coast, will be to the southern counties, in conjunction with the Eagle Rock sub-station," says District Manager Wollaber, "what the Vestal station, near Porterville, is to the San Joaquin valley.

"The Laguna Bell sub-station is the second step in making available to Eagle Rock additional energy to be transmitted over the Big Creek lines by reason of their diversion to this high voltage. It will bear the 125,000 horsepower of new electric energy which comes on to the Edison lines this year from the construction of the largest hydro-electric power house west of Niagara Falls and 33 per cent additional generator capacity to the first power house on the Big Creek-San Joaquin project.

Center of System

"Located as it is in the center of the main transmission system supplying the territory between Los Angeles, Long Beach and San Bernardino, from which distributing lines diverge, this station, with a capacity to deliver 150,000 horsepower to the various points in this area, will greatly augment the service rendered and provide for a large increase in the amount of business possible to be supplied.

"The most advanced ideas of outdoor construction, both for 220,000 volts and 60,000 volts, have been designed for this sub-station. The entire equipment is outdoors except the large condenser required for regulation of the 220,000-volt lines and the switchboard equipment. This equipment is housed in a building 113x76 feet by 52 feet high, of concrete construction. It is constructed on a tract twenty-seven acres in area, which gives adequate room for additional equipment as needed to keep pace with this rapidly growing territory. Work on the station has been carried on since June 15, 1922, giving employment to 272 men, who have been taken care of by camp facilities at the sub-station site."

Local Notes

The merchants of Eagle Rock are planning a "Trade at Home" week, pointing out that where cars run to Los Angeles and Glendale at short intervals, with the roads teeming with autos, there is undoubtedly a great deal of outside business done, much of which is needless and takes away from the potential prosperity of the community.

Chief of the reasons for this outside trading, local merchants feel, is ignorance on the part of the purchasing public to the fact that things may be bought just as cheaply in Eagle Rock as elsewhere.

To combat this state of mind, the "Trade at Home" week will be inaugurated, in the hope that residents may learn to patronize local merchants, thus saving themselves a great deal of bother and incidentally building up the community—with the ultimate effect that real estate values will rise, additional homes will be

TUJUNGA BUS PLAN FOR HILLS OUTLINED

Glendale Franchise Sought By Line Serving Points In Valley

Pending the final decision of the Glendale City Council on the application of the Verdugo Hills Transportation company for franchises to operate busses on Glendale streets, no action has been taken toward improving the service or equipment of the transportation company.

The outcome of the above application will be an important factor in the future plans of the company, inasmuch as the extension of business as outlined in the application would increase the company's revenue and make possible the addition of up-to-date equipment, which is needed at this time.

The Tujuanga Chamber of Commerce has endorsed the plan and at the last meeting, adopted a resolution to that effect, asking the Glendale council to grant the franchise.

The program of improvement and expansion, if carried out, will give Tujuanga and other valley communities a much better means of transportation. Some features of the proposed improvements are contingent upon the granting of the franchises and this, in turn, affects the local situation.

In the event all details are favorably consummated, two new busses of the underlug, one-step type will be added to the line. This type is understood to be very superior to the present busses in both operation and riding qualities.

Plan Commuters' Rates

Commutation tickets will be issued in the form of twelve-ride books, the fare being reduced by the use of these books to 75 cents per round trip between Tujuanga and Los Angeles, with stopover privileges in Glendale in the event the Glendale city franchise is granted. The company also expects to inaugurate an hourly service about the first of September.

Application has been made by the company to operate busses by way of Pennsylvania and Honolulu avenues and connect with the through busses at Montrose, where a distributing station would be established. Some objection to this plan has been voiced, as it would entail one or more changes in busses.

Another plan that is being considered is the operation of a local bus through the streets of Tujuanga as an auxiliary to the main line. This plan depends to a large extent on the improvement of streets.

The Glendale Transportation company was launched recently for the purpose of supplying stages and leasing them to operating companies. The Verdugo Hills company expect to obtain such equipment as is needed from the leasing company.

The directors of the Glendale Transportation company are also officers of the Verdugo Hills Transportation company. It is understood by them that an international manufacturer of trucks will supply the chassis on short notice, making new busses available as soon as bodies could be built.

Give Details of Service

Complete details of the plan for operation in Glendale, upon which the changes in the through service depend, are:

The operation of a line from the intersection of Glendale avenue and San Fernando road north on San Fernando road to Brand boulevard, north on Brand to Broadway, west on Broadway to Central, north on Central to Kenneth road, west on Kenneth to Grand View, north on Grand View to Tenth street and west on Tenth to the westerly city limits of Glendale.

The present franchise allows operation only by way of San Fernando road from the south-easterly city limits north on Glendale avenue and on to the terminus at Sunland.

One proposed branch feeder to this main line is from Brand boulevard and east on Colorado to Verdugo road, north on Verdugo road to Lexington avenue, east on Lexington to Everett, north on Everett to Doran and West on Doran to Central.

Another branch would operate along Broadway from Brand boulevard to Glendale avenue and connect with the main line operating between Los Angeles and Tujuanga valley.

A third proposed branch would operate west on Broadway from Brand to Pacific avenue, north on Pacific to the city limits on the north.

Schedules on all lines would be so arranged that busses would cross the Broadway and Brand corner or Colorado and Glendale corner every thirty minutes between the hours of 6 a. m. and 6 p. m., and thereafter at intervals of one hour until midnight. All busses would be regulated to make the closest possible connection with the through service from Los Angeles.

Transfers would be issued with each zone. Tickets will be available on busses for local points in Glendale from one zone to another or for points anywhere that are served by the Verdugo Hills Transportation company.

Children under 5 years of age not occupying seats, when accompanied in every way prosperity will be augmented.

Mr. Kell has been appointed custodian at the Eagle Rock school, formerly the Central school. He will have one man and possibly a woman to assist him in his duties. It is said that he is popular with the children. He served as assistant to Mr. Holland last year.

COMMENT That's All

'Big Idea' for Peace Who Has It? Asks Bok Real Need of Diplomats Yes, We Have Sour Lemons By Gil A. Cowan

EDWARD W. BOK, noted editor has enlisted the aid of a half hundred of the most important national organizations to form the Co-operative Council of the American Peace Award of \$100,000 for the purpose of presenting to the United States senator a scheme whereby the United States may initiate a permanent peace plan in world affairs.

Practically all great clubs, labor organizations, industrial, political and economic associations are among the list and they will decide by referendum the most feasible project submitted by the policy committee. From all appearances the "big idea" will be a letter perfect when it has been approved by all parties concerned.

To the people of Glendale, perhaps, the Peace Award means little, yet there is a possibility of some citizen right here having the "big idea" as we may expressively dub what Mr. Bok seeks. In fact, no thinking person should fail to consider the offer of \$100,000 seriously.

The other day while writing of a film expedition to Peru we noted a fine about "motion pictures the universal language." And at the Rotary club meeting the thought flashed through the writer's mind, why not advocate the endowing of a diplomatic service which will enable young men to travel and acquire a first-hand world-wide knowledge. This thought came from the good which is found in Rotarians visiting other cities and getting an insight as to the problems and progress of their fellow-men.

It was tritely said that the late President Harding and his secretary, Charles E. Hughes were unable to lead in a World Court plan when they were inexperienced in diplomacy. Certainly, the European diplomats with their secret treaties ran riot at Versailles when President Wilson endeavored to formulate a workable League of Nations plan.

If nothing more were accomplished by the American Peace Award than to establish a method of training truly experienced diplomats, the effort will not have been in vain.

One of the most effective legislators this last session was none other than A. Burlingame Johnson of Pasadena who represented the local senatorial district. His long experience in consular service and his world-wide travels gave him an unerring insight into matters of state.

And, strangely enough, his course, oftentimes, was the "middle of the road" until a final vote was taken. Others less experienced allowed emotions to sway them, sometimes defeating their purpose by insisting they were right, even though they were obviously misinformed.

The foregoing is an example of the real necessity for diplomats not alone in world affairs, but state and city as well. So we ask to know why it would not be wise for every community to send forth a few selected young people to the financial centers of the world in preparation for governmental work?

We know too little of the world and its ways, too little of other peoples and therefore we fail to appreciate their thoughts and desires.

The San Francisco Journal waxes facetious when it says: "No bananas, but plenty of lemons; large, juicy and sour. For the middle west farmer, dollar wheat. For the Grand Old Party, Magnus Johnson. For the politicians of both parties, Henry Ford. For the householder, anthraxite at \$5. For the prohibitionist, the bootlegger. For the innocent bystander, a lily in his hand. Yes, no bananas, but plenty of lemons; large, juicy and sour."

Southern California grows lemons at a rate that doesn't have the kind reeferred to by our San Francisco contemporary. So we will say, "Ain't Nature Grand?"

BURBANK CITIZENS ENJOY MUSIC BY BAND

Auto Horns Honk Approval Of Director White's Organization

Auto horns honked lusty applause last Thursday night, as the Burbank Municipal Band terminated number after thrilling number, in their first public concert, under the direction of A. G. White, who has been largely responsible for getting this fine musical outfit together.

The concert was given from a roped-off space on the broad walk leading to the city hall, with a stand provided for Director White. Extra lights, strung above the Fourth street, from Angeleno avenue to Orange Grove avenue on Third street, and by the crowds of pedestrians that packed the sidewalk in front of the city hall and overflowed onto nearby lawns.

While a number of musicians were not new to their instruments, and have had years of training, nevertheless they exceeded all expectations, handling difficult phrasings with skill that belied their scant practice together.

Mayor Crawford Speaks

Addressing the assemblage at the close of the concert, Mayor J. C. Crawford wanted to know what the band would do in a year, if they did so well in less than a month. At the conclusion of the first part of the program, F. R. Lese, secretary of the organization, had made a short talk where-in he thanked the big crowd for its support, and the City Trustees for the financial assistance which had made possible this fine musical aggregation.

Mayor Crawford's theme was "Playing Together" and his words should have proved an inspiration for everyone who attended the concert. Harmony, he said, was essential to the success of a city, as of a band, and that by "playing together" Burbank could go forward unhandicapped toward a great future of development and progress.

Lake Street Organizes

As the result of a meeting held last Thursday afternoon at the home of J. W. Fawkes, 140 West Olive avenue, the Lake Street Improvement association was formed.

Cut in Gas Prices May Follow Survey

LOS ANGELES, Aug. 21.—Chief Engineer Fred A. Lorentz is to make a survey as to the feasibility of requiring the gas companies to furnish natural gas to consumers in the city at a low rate.

Lorentz' action was to be taken following instructions from the city council to the board of public utilities. It was asserted by Councilman Criswell that large quantities of gas are being wasted because of the lack of pipe facilities.

"As the price of gas goes down," Criswell said, "the price of gas to the consumer should go down, in accordance with a ruling of the State Railroad Commission.

ACCIDENTS WILL HAPPEN

—and, isn't it strange that it's always your newest and best gown that is the victim of some stupid accident or carelessness?

BUT DON'T LET IT WORRY YOU TOO MUCH

We have just contracted the services of one of the most expert and widely known "Spotters" on the Pacific coast. She has had nearly twenty years' Los Angeles experience, working in one of the largest and best known cleaning establishments in that city.

WHAT THE SPOTTER DOES

Most any garment made of the ordinary or finest fabrics comes through the dry cleaning process with some of the spots still remaining, viz—ink, fruit, medicine, ice cream, etc.

It is the business of the "Spotter" to remove these spots and stains without in the least injuring the cloth. Hence, a first rate "Spotter" is necessarily a chemist, and, therefore, a highly skilled person.

Knowing that we have one of the very best "Spotters" on the Pacific coast we do not hesitate to guarantee satisfaction on all our work. We are making a specialty of handling the most delicate and costly fabrics and are sure that we can please you.

Let us serve you on your next cleaning requirements. Just phone and our representative will call.
