THE DAILY BEE. | Grand Fillmore Rally in the Indicate.

He was glad, be said, to meet such an assemblinge of his follow-cutizens, in order to discuss the principles of the different parties, and their condicting means for carrying out these principles. He could not feel such fore-bodings of his country's safety as had been chorened by his friend, Rr. McVes. He came before his audience, feeling that America was the offspring of Deity, and protected as a chold of deating. The protecting aprint of philosophy, he was sure, would be preserved in the genius of her matitutions. Now, was the time to divest ourselves of prejudices—to disregard geographical distinctions. There had been proud eras, he would confess, in the his been proud eras, he would confess, in the his tory of the Democratic party. He had himself

This was not the case. The "whole pack" of American denounced most justly in Mr. Sildell what is not found in Mr. Fillmore's sentiments. But the editor's language is here in extreme bad taste, indicating, when used, a bad cause; and shows the author is really vexed. Bout, sir, lose the equanistity of your temper. You may weaken your cause, if it were possible to make your cause, waster. "Barking" and "howling" are not refined torms as here employed, and are out of place in the columns of a respectable public print.

The Worke's Fam or has Across—daning the sesseshie thongs on exhibition in the Orymal Prime, we are the enterfection of Pieter Palis, Prince the in-borstory of Dr. J. C. Avin, the entire of the credity favours and valued Camery Fromman. As it is empired to express regulations of the Palase to south any quark medicine, this task shows that the remedies are not pieced to the entire of the prince of the prin down the attempt to break the glorious compact. What would he do now if alive? It is wish for the Democratic leaders he is not, for he would dispuse of them as summarify as the threatened to disputch the disturbers of the Union on that occasion.

The editor of the Censier closes his remarks by saying that "the whole pack (of "Americans) which had barked approval "of a sentiment civilent is almost the camer "leangage when used by Millard Pillmore, "how'l out condemnation of his (Mr. Slidell's) disunion feedings."

This was not the case. The "whole pack" of Americans denounced most justify in Mr. Sitcle was and other the summary of the compact o by mesew. Frocat, avans and others.
