GENERAL ASSEMBLY AND CHURCH UNION

More Men Needed for Work in West-College Methods Attacked

Halifax, June 8.—The Presbyterian General Assembly last evening, after an all day discussion, decided by a vote of 184 to 73 to push the cause of union with the Methodist and Congregational church on one step further. This was done by the adoption of the following resolution.

"The assembly declare their approval of the documents agreed upon which this church may unite with the Methodist and Congregational churches and tiey direct that this resolution with the above mentioned documents be transmitted to presbyteries for the judgment under the barrier act, instructing presbytery clerks to report the decisions arrived at to the clerks of the general assembly not later than the first day of May, 1911. The assembly are of the opinion that in the event of the returns from the presbyteries warranting further steps being taken in the direction of union, the assembly in the morning discussed finances and home missions. In the afternoon they decided to establish a new theological college in Edmonton and authorized the raising of a fund to endow a school in Alberta for the education of Galicians. Dr. C. W. Gordon told the theological colleges that in not superlying more men for the inission fields they are "not on to their lobs." They should take steps that in not superlying more men for the inission fields they are "not on to their lobs." They should take steps that in not superlying more men for the life in the education of Galicians. Dr. C. W. Gordon told the theological colleges that in not superlying more men for the life in the life in the life in the life in the contest of the first three balliots was keen, but on the first three ballots was keen, but on the first three ballots was keen, but on the fact of the lay delegates was keen, but on the first three ballots was keen, but on the first three ballots was keen, but on the first three ballots was keen, but on the fourth victory came to the popular rector of St. 19 being the house of the house of the formation.

The assembly of the morning discussed finances and

Rev. Mr. Hoyle made a brief but impressive address on the purposes of the postoffices on Sunday and regret defegates adjourned to St. George's was expressed that the legislation asked for under the first Miller bill was not enacted. The moderator stated that two tele-grams had come from Orange lodges asking the assembly to protest against changes in the Coronation Oath. He had referred it to the committee on bills and overtures which now asked that it be sent to a special committee. "If I had my own way with it I ould lay if on the table for a year," lid the moderator.

Dr. D. D. McLeed, of Barrie, op-Dr. D. D. McLeed, of Barrie, op-posed doing anything about the matter. It would only be introducing political questions into the assembly. The house called for a committee, however, and the moderator said he would name them as follows: Dr. J. F. Maclaren, Dr. McLeod, Dr. Turnbull, Dr. Sedg-wick: Walter Paul and Pete Lyle.

Dr. C. W. Gordon, made an appea for a committee to devise means for securing men for the home mission fields in the west and he attacked the methods of the theological colleges.

"In the next five years," he said,
"we will need from 500 to 1,000 more
men to undertake the work of the
west if we are not to fall down be-

not one of them for the west, needing 150 men this year and with 1,200 vaant posts." Dr. Gordon told the assembly that he considered this the most 
solemn thing with which it had to deal. 
The theological colleges seem to have 
roken down. They are not meeting 
the needs of the case though they cost 
tageons. He thought the same the needs of the case though they cost \$250,000 a year. He thought the same plan and the same professors should do far more. He did not see why every college professor and college man-should not get right into the amonties. every college professor and college man should not get right into the campaign. If the halls were overflowing it would be different, but when we know that in some colleges there are almost more ofessors than students, he thought

professors than students, he thought college men should "get on to their job" and dig up men.

Dr. Gordon proceeded to attack the curriculum, of the colleges. Latin, Greek and Hebrew are important but a mere important thing is the preaching of the Gospel. Courses might be shortened to make it less of a burden to get through.

Ladysmith would not agree to any requests made by the North Ward team managers. The up-island team wanted everything its own, way, it went to Nanaimo last Saturday and kicked a goal. Now it claims the match. Ladysmith wants North Ward to pay its expenses.

As the result of this general game in the closered game in the championship lacrosse series from Victoria West last night by the score of six goals to three. It was a foregone conclusion that the suburbanites would win but it was not expected that the Wests would make the showing that they did. At times they had the Cloverdale players puzzled and it was only the clever work of Sam Lorlmer at point that saved the situation many times.

Fort George, geographically and strategically the hub of British Columbia, is the focal point of the present colonization and industrial inrush. It was founded in 1896, when John Stuart and Simon Fraser, those hardy explorers, prected there a trading post, naming it after the reigning sovereign. In those primitive days, the gold of the country was extracted through the medium of its furs; placer mining placed its stamp upon the second Carlboo era, quartz mining and agricultural and horticultural industry are to mark the epoch now dawning. 1506, when John Stuart and Simon Fraser,

#### Room for a Million People

"There is room for a million people in this country with Fort George as its centre, with a chance for them all to prosper and help build up a self-contained Canadian nation," wrote that journalistic pioneer, John Houston, to a friend, after his first investigation of the land. "It looks to me as though one of the great cities of America is to grow right here, and so here I stay to help in the garden, and so here I stay to help in the garden-

Government surveys have established the fact that the country surrounding Fort George contains hundreds upon hundreds of thousands of acres well adapted to the purposes of mixed farming, of truit raising in a limited degree of cattle and horse raising and sheep grazing, with insatiable harkets for the products of those related industries, either east or west, and an assurance of easily and economical transportation facilities to bring these markets in touch.

markets in touch.

Climatic conditions and the nature of the soil, according to Mr. J. M. Bledsoe, M. E., who has Just returned from the district, are good, the weather in winter, though cold, being dry, and the soil fertile. Mineral lodes bearing gold and copper are frequent, giving testimony to the richness of the country in minerals. Mr. Bledsoe found that egrly settlers have been successful with both fruits and vegetables to a marked degree. Lack of transportation has, in the past, retarded the development of the country, but with the Railway, and the building up of the water transportation routes this will be obviated. The navigable waterways of the Cariboo are greaten than those of Washington, Oregon and California combined. Five steamers are already plying the waters of the flistrict.

CORONATION OATH

General Assembly Regards it as Inadvisable to Take Any Action at Present

(Special to the Times.) Halifax, June 4-At the Presbyterian eneral assembly this morning the mittees reported. Rev. Dr. Drummond reported for the committee to report on hanges in the form of schedule of statistical returns.

The committee to consider communiagreed to submit a resolution for the assembly's approval. It was to the effect that while holding that the constitutional principle which the coronation oath is intended to guard shall be fully reserved, the committee is of the opinion that it is insdvisable, to take any action with regard to it at present. The resolution carried, and the clerk was instructed to notify the Orange-men.

The financial report of the Winnipeg church office showed an outlay of \$2, 179.33. It was adopted and the agent's work commended.

Prof. Baird reported for the church and manse building fund. Last year 32 applications were granted, of which 8 were free grants for \$1.500 and 24 loans

### Uncle Walt The Poet Philosopher

When the boss suggests to Willie that he do this chore or that, Willie goes a hustling to it, quicker than a circus cat, and he acts as though he liked it; when one little job is through, he comes WILLIE AND loping back inquiring if there's nothing else to do.

And the boss, whose heart is weary of incompetents

and drones, says: "He's earning better wages-I must see he gets more bones." When the boss remarks to Johnnie, "Go and sweep the ceiling now," Johnnie goes about the business with a dark and gloomy brow; in a weary, listless fashion he performs his little chore, always squinting at the clock above the door. And the boss, whose heart is harrowed, sizes up that languid boy, and remarks; 'That blooming youngster isn't worth three whoops in Troy." Oh, the mantle of Elijah falls upon me now and then, and I gaze into the future, see the boys grow into men; and I mark the rise of Willie to the shining heights of fame, and I'm onto little Johnnie losing out at
