

INNOVATION LAB

Annual Plan 2023

Innovation 157'000 CHF

INCUBATOR

General tools

New tools or activities to serve Wikimedia CH and the whole movement improving operational activities and impact.

Programme tools

These new tools or activities are specifically designed for WMCH programmes. This area also hosts new versions of existing tools if these are changed.

Budget: 49'000 CHF

PIT-STOP

General tools

Existing tools or activities serving Wikimedia CH and the whole movement which need a new version or an improvement.

Programme tools

These existing tools or activities are specifically designed for the programmes. They form part of this area if they need a new version or an improvement.

Budget: 31'000 CHF

FACTORY

Climate change

Specific project to approach the problem of climate change in a new way producing more impact and having a greater appeal than former projects.

Knowledge equity

Specific project to reduce the knowledge gap between dominant cultures and minorities.

Budget: 55'000 CHF

TECH COMMUNITY

Hackathons

Proposing hackathons, this programme will be in contact with a community of technicians and engineers, offering them a new way of contribution to Wikimedia projects.

Datathons

Proposing datathons, the programme will increase the community of people able to use Wikidata efficiently but also to develop new ideas using data.

Budget: 7'000 CHF

ORGANISATION

Team

The team is an important part of the programme because will help to organise the activities in a better way and to have experts onboard .

Wikimedia movement

The "innovation lab"wants to be an example for the movement, introducing innovation as a main driver.

Communication

Quick and efficient communication is a key factor for the programme.

Partnerships

Building strong and active partnerships is a key factor and will help the programme to reach more people.

Safe space

Creating a safe space within innovation is very important.

Budget:
15'000 CHF
