Mr. Talbert routes, and that such notices would said that the committee had decided be sent to residents of Newport that it would be unwise to include Heights and Fairview Farms.

All other exhibits will be cared for through the Fair free.

Mr. O'Connor reported for the display committee, saying that it was the opinion of the committee that it should have entire charge over all exhibits, as that would be the only way the committee could have anything like an accurate check on the display requirements. He favored closing the entries at 6 p. m., Sept. 30. Mr. O'Connor said that it was impossible to get glass for the fish exhibit, and the only available place would be the seal tank, which could be used by placing a false bottom of wire netting about 18 inches below the surface of the water.

A. J. Young, the potato king, stated that at most fairs he had attended exhibits were received up to 10 o'clock There was an enthusiastic meeting of the first day, and it was decided to

JOPLIN

For Treasurer

County Treasurer J. C. Joplin is a candidate for reelection. His name is to appear on the ballot on Aug. 27, upon which date the selection of a treasurer for Orange County for the next four years will be made. Mr. Joplin is a quiet man, who desires no controversies. He attends strictly to business, and it is with regret that we see that the kind of campaign that has been made against him has dealt with personalities, which are always objectionable. Attacks upon J. C. Joplin are not likely to get anywhere in this county. Mr. Joplin has had the full and complete confidence of the people of this county too long to have it disturbed by the assaults of a "man out of a job;" a man whose conduct in public office resulted in the decision of the people of the county to put another man in his place; a man who, upon running for a city office at Santa Ana after his defeat for a county office, failed utterly of election; a man who is no longer employed by the sugar company where he once held a job; a man who, even in war times, when men in all lines-particularly those as competent as he claims to be—are busy, is out of a job. Friends of Joplin are justified in pointing out this stamp of public decision in regard to the services of the man who is opposing Mr. Joplin's re-election. This is no time for the voters to provide jobs for men just because they want them. When a man has made as good and as satisfactory an official as Mr. Joplin has made, insinuations of an opponent are not likely to cut much figure. It was only recently pointed out that the total cost of running the present county auditor's office was \$1700 less in the last three years than it was in the last three years of C. D. Lester's term as auditor. Lester is the man who wants to be elected county treasurer against J. C. Joplin.

(Authorized Publicity) C. E. Jackson for Sheriff

(FROM THE ORANGE STAR)

Sheriff C. E. Jackson was in this city yesterday loking after his campaign interests. The proof of a man's favor in the minds of his fellow citizens is not what they say to him but the words and looks that follow in his wake and even a casual bystander could not fail to be convinced, from this form of accurate testimony, that the present sheriff holds a place of genuine liking and esteem in the hearts of the people who know him and

whom he has served the past four years.

"Sheriff over here, lookin' after his job—well, he's made a mighty good one and I say he ought to be kept on another term," from one group

"Yes, sir let well enough alone, is a mighty good theory when you got a good man

in office," from another.
"That man—he's all right! Yes, sir—a mighty good sheriff he's made, and a mighty fine straight all 'round man, too."

HE'S ALL RIGHT

HE'S ALL RIGHT

"Sure, he's all right," affirmed another. ,'I was a member of one of the grand juries and while we didn't put it in the reports, I want to say that we were mighty pleased with the looks of the sheriff's office, let alone anything else. Everything ship-shape-reports all up-to-date and where you could lay your hands on 'em—office as neat and orderly as a new pin. Yes, sir—and besides that, the man thought for the people—practiced fore-thought and economy. Just a little thing, but it shows—the law allows an extra ten dollars when conveying prisoners to the 'pen' for a compartment for the officer and prisoners. er, but Jackson saves that by keeping the man chained to himself. Yes, sir-Jackson's

ON THE THEORY THAT "FIGGERS" ARE THE BEST TRUTH TELLERS IT IS INTERESTING, IN VIEW OF THE GENERAL COMMENDATION OF THE SHERIFF'S ADMINISTRATION, TO LOOK UP STATISTICS ON THIS MOST COMMENDED FEATURE OF HIS ADMINISTRATION—ECONOMY. ONE FINDS THAT JACKSON HAS ACCOMPLISHED THAT END BY TWO MEANS—THE LOPPING OFF OF UNINCEST. SARY EXPENSE AND BY PRACTICAL RETRENCHMENT, CUTTING DOWN LEGIT-IMATE EXPENDITURES.

For instance, the expense of feeding the prisoners during Sheriff Jackson's administration has been \$1627 less for approximately the same number, than the cost during his predecessor's administration, and that notwithstanding the fact of the increased cost of living. Nor has this been accomplished at the expense of the prisoners' fare, but by reducing the feeding of prisoners to a cost basis and the elimination of the chstomary graft that accompanies the placing of supply orders.

More surprising yet is the comparison between the cost of Mr. Jackson's detective hire and that of former administrations. The actual figures are \$3,275.92 as against \$6,956.40 of the previous regime, or saving of \$3,230.48. The item of automobile hire formerly figured large in this department of the county work, but now Sheriff Jackson has at his disposal three county machines and he has used no others than the county's since he was provided with sufficient cars. Nor has the detective work lagged because

of economy.

MORE EVIDENCE FOR PROSECUTION OF LIQUOR AND GAMBLING CASES
HAS BEEN SECURED B THE SHERIFF'S OFFICE THAN FORMERLY AND BUT A VERY SMALL PART OF THE WORK INVOLVED HAS BEEN HANDLED BY OTHER THAN THE IMMEDIATE OFFICE FORCE, WHILE THE COST OF FINES IMPOSED IN THESE CASES HAS AMOUNTED TO THE SUM OF 4,628, A SUM FAR EXCEED-ING THE COST OF DETECTIVE HIRE SPENT ON THE CASES BY SHERIFF JACK-

For himself, the sheriff has this to say, it should be added, with no sound of boast but with the manful self-assurance of a man that knows he knows his job and has hand-

"I'm in the habit of handling the affairs of my office as I would handle my own affairs—with the same attention and the same forethought. When I see a chance to economize without detriment I economize, just as I would in my home or private business. I wouldn't think of spending the county money unnecessarily, any more than I would my own. As for results, I can say that law-breakers are being brought to justice with as much zeal and efficiency as at any former time and the county enjoys a degree of sobriety and security that has not been surpassed in any former administration."

As to the sheriff's "education" for his job it might be added that he cast his first vote in Orange county before Orange county was a county and that he was for eight yeavears—two successive terms—constable of Santa Ana in which "preparatory school" he made good to such an extent that he was re-elected by a handsome margin as county sheriff. Therefore he asks his fellow citizens to consider his claims as the man for the job for another two years.

The News Office for Fine Job Printing

Rolph for Governor A Big Man For a Big Job

HE OFFICE OF GOVERNOR OF CALIFORNIA IS A BIG JOB, AND REQUIRES A BIG MAN TO HANDLE IT SUCCESSFULLY. James Rolph, Jr., Mayor of San Francisco for the past 7 years, is one of the substantial citizens of the West, and is the man for this big job at this critical period in the world's history. The State pays the Governor a salary of \$10,000—only one state, Illinois, pays a higher salary, and the man who holds the office should be one who is capable of earning that salary in the commercial world. Since Mr. Rolph

was elected Mayor, the City of San Francisco has constructed the most successful municipal street railway system in the world, that is now earning big dividends for the people. The privately-owned street railroad said the Twin Peaks tunnel could not be built. The city administration under Mr. Rolph made the long bore and cars are running through it. ¶His administration has given the Bay City one of the most beautiful city halls in America. Mayor Rolph is one of the big ship builders of the country, his yards at Eureka being the largest wooden shipbuilding concern on the Pacific Coast. Director and Vice-President Panama-Pacific International Exposition Co.; President of two banks; owner of Rolph Navigation and Coal Co., one of the largest importers of coal in California; three terms President of Ship Owners' Association of the Pacific Coast.

His administration is also building the great Hetch Hetchy Municipal Water System for the people of San Francisco.

Mayor Rolph was born in the Mission District of San Francisco, and has always been recognized as the laboring man's friend.

He has at all times been highly successful with his private affairs, being endowed with great executive ability, which eminently qualifies him to successfully manage the affairs of the Great State of California.

He is no windjammer and no politician, but a man of large affairs, who is offering his services to the citizens of his state.

He is one of the patriotic citizens of the Commonwealth, and stands for war until the enemy is completely and overwhelmingly crushed.

Vote for him if you want a real business man at the head of state affairs NAME ON REPUBLICAN AND DEMOCRATIC TICKETS

School Clothes

NOW IS THE TIME TO THINK OF THE SCHOOL CLOTHES FOR THE CHILDREN.

Four weeks more will see the children again at their desks, and they will need Dresses, Hair Ribbons, Shoes, Underwear, Hose, Trousers, etc. These are the things we specialize in, and we invite you to make your selections here.

We have a big line of Devonshires at 50c per yard, and, as you know, these are the best all-round materials for children's wear you could find. The color and wearing qualities are unsurpassed.

We have Ginghams from 35c to 45c per yard, in very pretty patterns.

We also have a lot of Crepes and Soisettes at low prices and pretty patterns. They make good school clothes, also.

We want to emphasize our Shoe line for children. We have some very pretty and durable footwear for children that is just what they need, and the prices modest as compared with others. Our Shoe at \$2.45 for Children is extra strong and durable. We have had many compliments on our Shoe line, and are sure we can please you, both in style and price. We have a fine line of Tennis Shoes for Children, as well.

Our assortment of Hair Bows is also large and low

Of course, you can always find a fine assortment of Hose and Socks at our store, for we have always made that department one of our best. Prices range from 20c to 45c per pair.

Nazareth Waists at 35 cents, and Boys' Union Suits 60 cents.

LET US FIT OUT THE CHILDREN

FALL FAIR

We believe that this section of Orange county is as rich in agricultural resources than any other equal area in the Great Southwest.

Let us get together and prove it by exhibiting our best products at the Fall Fair to be held here the first week in October. We are at your service in this matter. Call on us for any information we may be able to give you.

Correct Lubrication for the

"V"-Type Engine

This, the "V"-Type of automobile engine, like all internal combustion engines, requires an oil that holds its lubricating

qualities at cylinder heat, burns

The Choice of Those Who Know

Manufacturers and leading motor car distributors recommend ZEROLENE. The majority of motorists use ZEROLENE. ZEROLENE reduces wear and gives more power because it keeps its lubricating body at cylinder heat. Gives less carbon because, being refined from selected California asphalt-base crude, it burns clean and goes out with exhaust.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car. At dealers everywhere and Standard Oil Service Stations.

STANDARD OIL COMPANY
(California)

ZEROLENE The Standard Oil for Motor Carr quaines at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

BERT A. MYERS, Special Agent, Standard Oil Co., La Bolsa, Cal.

HE QUIT THE JOB WHEN ELECTED BEFORE.

TALBERT CHALLENGES OPPO-NENT TO DEBATE.

To My Opponent:

If you wanted the place why didn't you keep it when you had it, instead of laying down on the people after they had elected you? What did you do when you were in office, anyway, for nearly three years? I am sorry you didn't do anything to mention.

you didn't do anything to mention.

Regarding your figures from general fund, they would be all right if you knew what you were talking about, but you evidently do not understand the county's affairs, as you do not state Schumacher's district has several times the value and Leck's district considerably more value than my district, and Struck has the expense of the canyon road to maintain. Also you evidently do not know the completion of the paved road system was financed out of the county general fund for those districts, whereas the Second district was all completed from the bond fund.

From your circulated letter you would try and make it appear that when you vote bonds you don't have to pay them in taxes. Absurd. You are paying these bonds and interest each year, and have been right along.

You seem to be bothered about the growth and prosperity of the county. What did the county or district do during your administration Where were you during all of our hard work and advocacy for good roads? I have to find the first man, woman or child who ever heard you say one word or do one thing in the interest of good roads.

Fifth street bridge. What is wrong with it? It is the best bridge in the county, and is built for \$4000.00 less than actual cost to the taxpayers.

The Santa Ana Canyon road is an engineering problem entirely, and always subject to violent storms—an act of God. How many roads, railroads, bridges, homes and farms have been destroyed by water from the Atlantic to the Pacific? Don't try and make the people believe you would have guaranteed this construction to stand. What do you say about it?

Foolish men can criticise, but it takes a good man to put on the yoke and wear it.

I hereby challenge you for open debate regarding county and district affairs at any time or place you may designate.

T. B. TALBERT.

Chairman Board of Supervisors and candidate for re-election.

CARD OF THANKS.

Mr. and Mrs. S. E. Rust desire to extend their sincere thanks for the many kind acts of friends and for the floral offerings during their recent bereavement.

A FAITHFUL SERVANT.

T. B. Talbert has served this district well for the past 10 years and should be re-elected. Vote for him Tuesday and show that you appreciate good service.

BIGGEST AND BEST NEWSPAPERS

REAL ESTATE & INSURANCE

SOME FACTS ON ECONOMY

In the Sheriff's Office GIVEN BY LOGAN JACKSON Whose platform is real wartime economy

—A good deal has been said on the matter of economy in the sheriff's office, but perhaps not enough has been said to give the taxpayer a true idea of the real situation. Some surprise may naturally be felt, in view of the claims made for Orange county, when it is known that the expense of administering our sheriff's office, instead of comparing well with other counties, compares badly. Regard the following figures:

| | | | 1917-18 | 1916-17 |
|-----------|---------------------------------|--------|-------------|-------------|
| County | Population | Square | Expenses | Expenses |
| | 1910 | Miles | Sheriff's | Sheriff's |
| | in the sales are the compact to | | Office | Office |
| Humboldt | 33,857 | 780 | 11,657.20 | 13,182.09 |
| Riverside | 34,696 | 3,507 | \$13,063.44 | \$10,996.05 |
| Orange | 34,436 | 7,008 | 8,616.80 | 8,641.24 |

[Data giving the population and area are taken from the California Blue Book 1913-15. Data showing the expenses of the different sheriffs' offices is taken from the auditors' reports and statistical reports of the counties mentioned.]

—Here are three counties of approximately the same population, but Orange having a decided advantage in area. Riverside county is practically nine times the size of Orange county and Humboldt is almost five times the size of Orange county. Yet what do we find? Orange county's sheriff's office is more expensive than either of the other two and is the only one of the three that shows a material increase in expense this year over last year. Riverside's sheriff spent about the same amount this year as last year. Humboldt's sheriff reduced his expenses more than \$2,000. But Orange county's sheriff increased his expenses more than \$1500.

—Riverside county and Orange county may be compared as districts having about the same size population, the same class of people and similar topographical conditions, although Riverside county with its far greater area has much more mountain and desert country and therefore should be more expensive to administer. Yet it cost more than \$3,000 last year and more than \$4,500 this year to maintain the Orange county sheriff's office than it did Riverside county.

—Humboldt county conditions possibly may not be compared to Orange county but Humboldt is a saloon county and has a large seaport. Its population is largely made up of lumbermen. It is nearly 5 times as large as Orange county, yet in 1916-17 the sheriff's office there cost only \$1400 more than here and this year it actually cost \$2100 less than in Orange county, the Humboldt sheriff having reduced expenses more than \$2,000 while the Orange county sheriff increased expenses more than \$1500.

—Two other items of economy that I believe should be called to the attention of the tax-payers are those of auto hire and deputy hire in the sheriff's office. Deputy hire has been increased more than \$2,000 in the last year, according to the statistical report of the county. In 1916-17 this item was \$3,720. In 1917-18 it raised to \$5,772.52. Auto hire has shown similar tendencies to soar, in spite of the fact that the sheriff has been equipped with several machines by the county, including one last year. Another auto has been purchased for the sheriff's office since the start of the present fiscal year and does not show in the report. The figures show that the item "mileage, auto hire and livery" in 1916-17 was \$1,784 and the new car cost \$944. Yet in 1917-18 the expense figures, instead of decreasing, had increased to \$2,529.94, a raise of about \$745, notwithstanding the addition of the new county car.

—I am presenting the above facts for what they are worth to the voters in determining what real economy is. It is my belief that Orange county, with its compact territory and splendid system of boulevards, should be able to maintain its sheriff's office at far less expense than Riverside county with its vast expanse of mountain and desert country and the class of population usually found therein. Could anything but the most unpardonable extravagance account for the fact that Orange county is spending \$4,500 more than Riverside county; or that Orange county expenses have increased \$1,500 within the year while Humboldt county expenses have dropped \$2,000 and Riverside's have at least remained the same. It is, indeed, a time for economy, and it is well that the voters understand whether or not they have been getting it in the administration of the sheriff's office.

—Economy is a big issue in the sheriff's campaign, but I feel that there is another issue just as big. It is that of eliminating the liquor traffic for the good of food conservation and the general benefit to humanity. If elected sheriff, I intend to eliminate from the office all taint of the liquor traffic or liquor interests and keep my surroundings clean of any sympathy toward those interests.

—A vote for Logan Jackson for sheriff is a vote for true war time economy and vigorous, unrelenting prosecution of illegal liquor traffic, with opposition to liquor traffic of any kind.

Respectfully, LOGAN JACKSON Of Orange.
