North Mehoopany, Pennsylvania

PRICE LIST OF

New, Rare and Standard Varieties
of GLADIOLUS

NORTH MEHOOPANY GLADIOLUS GARDENS

NORTH MEHOOPANY, PENNA.

TO MY CUSTOMERS:

I want to take this opportunity to thank you for the many orders received this past season.

I have had some very glowing reports on the success and pleasure you have had from growing our gladiolus.

We have added many new varieties this year and our garden was a beauty to behold, and was admired by the many who visited us this year.

We are not listing all the different varieties we are growing, as many of these are only in a limited number. But if there is any special variety you desire, if you will write us, we very likely have it, or will get it for you. We have now over 500 varieties — the best we could get from anywhere, both in this country and Europe.

If there is any special information you desire I shall be glad to give it if you will write me.

Trusting that I shall again have the pleasure of your orders, I wish you all success and pleasure from growing our gladiolus.

Very truly yours,

M. A. REINHARDT.

DIRECTIONS FOR CARE AND CULTURE OF GLADIOLUS.

Gladiolus, although one of the prettiest flowers and the best for cutting, will grow most anywhere except in the shade.

They should have plenty of sun. Never plant under a tree or among shrubbery that will shade or crowd them. Yet they may be planted among other flowers and will give a good effect.

They should be planted 4 or 5 inches in light soil, a little less in heavy soil.

Plant them about 4 inches apart in a row or 8 inches where you make a solid bed.

It is best to manure your place in the fall, as no fresh manure should come in touch with your bulbs. After planting you may apply any good fertilizer near the row.

In dry weather water thoroughly but do not allow any crust to form but cultivate after each rain or watering.

Plant as soon as the ground is mellow up to the latter part of June.

Don't remove hulls from bulbs before planting.

Don't plant upside down.

Don't allow flowers to finish blooming on plant and form seed if best results are wanted with bulbs.

Don't cut spikes too low, leave 4 or 5 leaves on plant.

Cut off your leaves at digging time. Allow to dry a few days in the open, then store away in a dry place with a temperature between 35 and 40 degrees.

You may clean them during the winter, throwing away the old shriveled bulb.

Keep in shallow boxes or paper sacks.

Order early, bulbs will be mailed in March or April.

PRIMULINUS HYBRIDS

The New Race of Gladioli

A new and beautiful race of Gladioli has been produced by using the fine yellow species Primulinus or Maid of the Mist, in crossing with the older existing strains. The varieties resulting are distinguished mainly for their varying shades of yellow, graceful slender stems, and airily poised and hooded flowers.

| | | |
|---|-----|------|
| ALICE TIPLADY—A grand large Primulinus of most beautiful orange saffron color. Very choice .. | 20c | Each |
| ALTAIR—Extra tall, of finest salmon saffron. A grand color | 20c | ” |
| ARGO—Grand, tall, large. The Primulinus Myrtle .. | 20c | ” |
| BUTTERFLY—Very strong and vigorous. Large pale salmon yellow flowers | 15c | ” |
| CAPELLA—Tall, very bright, fiery orange red. Very large and choice | 20c | ” |
| GOLDEN BUTTERFLY—Grand canary yellow color. Lower petals deeper yellow, faintly blushed on outside of upper petals. Very wide open butterfly form | 50c | ” |
| GOLD DROP—An extra large pure deep yellow, with beautiful red line on petals. Ruffled. | 50c | ” |
| MIDSUMMER DREAM—A large beautiful geranium red. Showy, fine | 50c | ” |
| PRIMUNELLA—A grand ruffled butterfly, orchid-like flower. Beautiful | 50c | ” |
| ROANOKE—A vigorous and large, rich yellow. Very fine | 10c | ” |
| TOPAZ—Finest salmon pink and buff. Very refined and elegant | 20c | ” |

Collection of the eleven Primulinus worth \$2.95 for \$2.50.

GLADIOLUS IN MIXTURE

A good mixture is perhaps the most economical way to buy, especially when you do not care for their names or care to keep them separate.

They are cheaper because we save time and expense of labeling them.

They are grown separately, and mixed when we put up the order. The mixture contains about 30 or more varieties to the 100.

IDEAL MIXTURE—This was well spoken of by all who purchased them last year. 100\$3.50

GRANT MIXTURE—This contains ruffled as well as plain petaled varieties. This was highly praised by every one. 100\$5.50

ORCHID MIXTURE—This is a superior mixture and contains some of our best varieties. This would cost several times the price asked for if bought separately, and this would hardly be equalled anywhere at the price. 100\$12.50

COLLECTIONS

(COLLECTION A)—Twelve bulbs, all different, all labeled, which would cost separately \$1.50 For only \$1.00

The above was so much admired last year that we have been led to put up another one with all different varieties from the above under the name (Collection B)—Thus if you already have the former, by adding this you would have no duplicates.

(COLLECTION B)—Twelve bulbs, all different, all labeled, which would cost separately \$1.50 .. For only \$1.00

(COLLECTION C)—Twenty-five bulbs, all different, all labeled. Contains some choice ones, worth \$5.00 For only \$3.50

Order early, bulbs will be mailed in March or April.

We send cut flowers 200 miles, a dozen in a box prepaid, for \$1.00. Have a box sent to one of your friends or yourself.
