OBJECTS AND AIMS.

"The Industrial School Association of Brooklyn, Eastern District," was incorporated under the general act of 1848, for the incorporation of benevolent associations, by filing in the office of the Clerk of Kings County, April 12, 1860, a certificate of incorporation signed by John A. Brady, George W. Edwards, James Hall, Isaac M. Holly, John Broach and Richard B. Hunt, who, together with Robert Duncan and George Ricard, constituted the Board of Trustees for the first year.

The objects are stated in the certificate as follows:

"To cause the children of the school to be instructed in the elementary branches of English education, to see that they are taught habits of neatness and order, to be instructed in domestic duties, to provide food and clothing for the children, and to procure for them places of employment when they have arrived at a suitable age."

In 1870 an act was passed by the Legislature amending the charter and conferring additional powers on the Association. This act may be found on pages 54 to 57 of this Report.

REPORT OF THE SECRETARY.

To the Association:

Our annual reports are submitted with our usual account of work done, of which the details appear in the accompanying reports from officers and departments.

At our last annual meeting, in October, 1908, Mr. Charles S. Young, who had served this Association as Trustee and Treasurer for many years, attended as usual and submitted his annual report. In December following, he was attacked by a sudden illness of which he died in a few hours. He had always been a generous friend of this Home and its branches, taking great interest in its meetings and enterprises. While he was a bank officer, he often brought from customers of the bank, with whom he came in contact, valued tokens of their good will, and of his own earnest zeal in soliciting their friendly interest. He took pleasure in accompanying the children in their outings of pleasure, and often manifested his interest by calls at the Home and inquiries as to its needs. Under his administration of the funds of the Institution, as its Treasurer, its financial operations had so increased as to require a large share of his time and thought. Shortly before he died he went over all his papers, as Treasurer, having them arranged and enveloped with special care so that, as he said, if anything happened to him, everything would be found in perfect order. And so his successor found them.

A valuable addition has been built during the past year to the building at our Summer Home at Hauppauge, so that all the children of the Home may have the benefit of it at some part of the season. It was completed in time for use during the summer of the present year, and has been greatly

appreciated and promotive of the physical and moral welfare of the children.

Trusting that the year's work will justify the continued support and confidence of the public,

Respectfully submitted,

GEORGE H. FISHER,
Secretary

REPORT OF THE RECORDING SECRETARY.

To the Industrial School Association of Brooklyn, E. D., to friends, contributors and a sympathetic public, the Managers present this review of the year's work, which has been carried on conscientiously and continuously, keeping ever in view the purpose for which this Institution was founded—to offer to the destitute the advantages of a home and school, with training for a useful life and citizenship in heaven.

Faithful performance of duty asks no reward, but in the following reports will be found gratifying results, which bring a message of encouragement to those whose beneficences have aided so signally in this work of unselfish devotion to humanity. Co-operation and the energy and efficiency of an able corps of assistants have crowned labor with success.

In December, Association and Home were overshadowed with sorrow and a sense of personal loss; Mr. Charles S. Young, for many years Treasurer of the Board of Trustees and warm friend of the Association, was called to his reward. Ever ready to apply "the touchstone of native manliness and uprightness" to the occurrences and questions of daily life, his absence from our midst is and will be greatly missed.

The professional skill, special counsel and willing hearts and hands of our physicians are of the greatest benefit to the children, and make health reports most satisfactory. We acknowledge most gratefully their prompt attention and untiring vigilance in preventing disease and restoring to health those who come to us suffering from neglect and privations. Dr. Barrett also has been most faithful in attending to the dental work.

Thanksgiving was a day to be remembered with thankfulness at the Home and branches. Trustees, Managers and

friends co-operated with Matron and assistants in preparation for a grand celebration. A substantial check from Mr. T. W. Weeks provided liberally for James W. Smith and Gillespie memorials. The public responded generously through the Thanksgiving bags distributed annually. A number of interested friends and spectators gathered to hear the exercises and watch the evident enjoyment of the children as the tempting viands disappeared with startling rapidity.

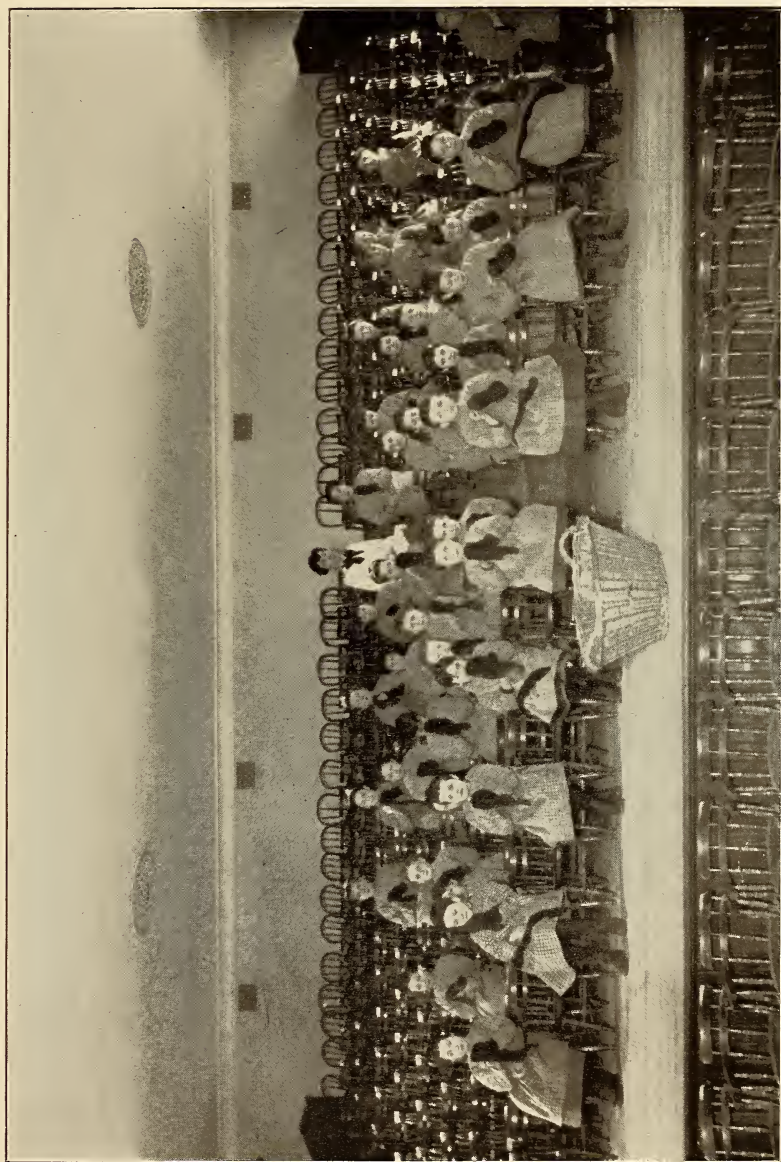

At Christmas-tide, the children of the memorial branches were again graciously provided for by their good friend, Mr. Weeks. Branch No. 2 was remembered by kind friends and the Congress Club. Christmas eve, Santa Claus must have had a busy time at the Home, for Christmas morning found each child's stocking filled to repletion. A Christmas tree laden with the fruit which only that tree bears greeted the delighted eyes of the babies in the nursery, and another one had blossomed in a night for the children in the hospital.

December 29th a never-to-be-forgotten entertainment was given at the Home under the kindly auspices of Clinton Commandery. The Sir Knights appeared in full regalia, performing some of their impressive rites, forming the cross and leaving a lasting impression upon the minds of a very appreciative audience of children; a program of unusual excellence and variety followed. Santa Claus appeared in person to the musical accompaniment of sleigh-bells, and gave each child a gift—box of candy, nuts and fruit. He also visited the babies, and a shower of bright pennies fell from the hand of this patron saint of the children. One bright-eyed toddler looked up into his face and said, "Is 'oo Santa Claus?" Ice cream and cake were served to all, the ladies of the Commandery adding their quota to this part of the entertainment.

The annual reception was held February 17th. A large assemblage of friends honored the occasion with their presence, listening to the children's well-rendered program, which comprised songs, recitations and a very pretty drill, showing the advantage of physical culture in the classes. This pro-

THE DARNING CLASS.

gram was repeated at the children's concert in April. The exhibits of the regular day school and manual training classes were most interesting and gave evidence of thorough work and good progress.

All holidays have been appropriately commemorated, emphasizing patriotism.

A beautiful flag was presented to the School by Harry Lee Post, G. A. R.

The introduction of a new method of "sight singing" has been successfully taught, the children deriving from it both pleasure and profit.

Many friends have been at work with skillful fingers on garments; the Needlework Guild; Ladies of St. Bartholomew's; Women's Auxiliary and Junior Crumbs of Comfort of Ross Street Presbyterian Church: the Missionary Society and Junior League of Greene Avenue Presbyterian Church, and the Dorcas Society of North Salem, N. Y.

The Association has been represented at state and city conferences.

The Home and branches have been regularly inspected by city and state, favorably commended, and recommendations acted upon.

The Summer Home, which has been enlarged and improved, has proved a blessing indeed; the delicate children remained through the entire summer and the others enjoyed vacations of five weeks' duration.

The scope of our benevolence is continually widening, increasing the weight of responsibility to be shared by all.

Grateful acknowledgment is made to the Ice Company for supply of ice through the year free of charge; to the "Brooklyn Daily Times" for the year's subscription; to merchants and local dealers in city and country for liberal donations and special prices in merchandise, provisions and school supplies. The great assistance rendered through these various channels cannot be overestimated.

This brief summary of the year's work is but an introduction to the annual reports which follow:

The Home has, as usual, received many visits from former pupils. One came from across the ocean. She said: "Oh! how many, many times I have dreamed of this dear Home, and how many times I have wished I was a little girl again and once more one of your little scholars with as light a heart and as free from care as the children here." One of our boys, who is doing well in New York State, was not contented until one of the family came with him to see the Home. His friend said: "Ed thinks there is no place in the world quite equal to this Home." Those who visit it for the first time look with surprise at the clear eyes and skin, and the bright and happy faces of the little ones, and realize it is in every sense a *home*. Visitors are welcome during all school days.

The noble Sir Knights of the Clinton Commandery again filled the hearts of our children with delight. They *brought Christmas* to the Home. Long before the time for the entertainment *great boxes* arrived filled with every imaginable thing that a child could wish for. Then came the Sir Knights with their snowy plumes and scarlet-lined capes, to arrange for a grand success; then the very enjoyable entertainment; then the ice cream and cake, and, following that, the distribution of presents, making the whole into a glorious day, to be long remembered.

The children of the Methodist Episcopal Church Sunday-school, of Sheepshead Bay, through kindness of Miss Toombs, remembered our Home at Thanksgiving time.

Mr. Adolf Whitelaw, Director of the Brooklyn Conservatory of Music, did not forget our children, but both for the "Winter" and "Mid-summer" Concerts sent complimentary tickets for reserved seats. We appreciate his kindness, and the *children and we* greatly enjoyed the concerts.

The Harry Lee Post, upon a request from Miss Henning, donated another flag to our Home. It was *most acceptable*, as our flag had become worn and thin. Our children love the stars and stripes, and this is one to be highly prized, as it is the gift of those who fought to protect it and our glorious Union. There was a presentation speech and further exercises. Then a salute to the flag and the oath of allegiance was given by our children, three cheers for the flag and three hearty ones for the Harry Lee Post.

The Athletic Club, Eastern District High School girls, entertained our children with an exhibition of folk dances. Our children's concert was a success, and added \$21 to the fund for Roll of Honor Prizes.

The Home had its usual visits from the State Board of Charities, and has given satisfaction.

The children have attended church regularly at the South Third Street Presbyterian Church, excepting this third Sunday of each month, when they visit the South Second Street Church, and, on special occasions, when they attend other churches by invitation. Christmas Sunday and Children's Day they enjoyed at St. John's Church. On Children's Sunday each child wore a bright carnation, the gift of Mr. J. Fred Dettmar. They also attended the United Presbyterian Church, on South First street.

We have received notice of several improvements on automobile works, which have been invented and patented by one of "our boys."

We must not forget to mention that Dr. Barrett has always been ready to help our little ones by extracting any teeth that required his skill, and frequently our little ones are so anxious to visit him that they would, if allowed, sacrifice a perfectly sound tooth. They stoutly maintain, "He does not hurt at all."

Respectfully submitted,

MARY E. WHITTELEY,
Superintendent.

Grades—Kindergarten and School Grades, 1A to 5B.

After the long vacation of rest and play in our Summer Home, it requires a little time to settle the school down again, but the children are now taking up their work with renewed vigor and to the satisfaction of the teachers, who take such an interest in their progress that they spare no exertion to promote the advancement of each child. It can truly be said of our staff of teachers, "Their hearts are in their work," and the thorough training the children receive here will help them onward and upward through life. Transfer cards are generally marked a grade higher for children leaving our school than their standing here, and in no case has it been reported unsatisfactory. Many enter who are not up to our grades, and we have to put them back, explaining that it rests with them to fit themselves for advancement. In most cases they understand, and go into the lower grade willingly and the teacher takes extra pains with them when they so desire it.

The number of names on the Roll of Honor show that many appreciate their school advantages.

A child of twelve years has lately been received into the school on trial. Her sight and speech are imperfect, and, in consequence, she has never been received into a public school. Dr. Ingalls examined her eyes and prescribed glasses, and the girl, even in this short time, shows their good effect. We have placed her in school. She seems anxious to learn, and we hope for good results. The inspection of our school by Mr. Lyons was satisfactory to the inspector, and the rating was gratifying to principal and teachers and pleasing to the managers and trustees. As a large number of our children spent the vacation at our Summer Home at Hauppauge, our Vacation School was much smaller than heretofore, requiring only one teacher. It opened July 6, with 150 scholars. The line of study was varied. Songs, patriotic, were sung, recitations, etc., relating to July 4. Later in the month a brief study was made of Hendrick Hudson and Robert Fulton, with pictures and maps. Compositions were written, and, with drawing and some of the regular studies, the time passed pleasantly, the children enjoyed the one session each day and the teacher did excellent work.

WORK COMMITTEE REPORT, 1909.

REPORT OF SEWING CLASSES FOR 1909.

Miss Mary A. Henning, Chairman, reports:

This is our second year of having a paid teacher, and we feel it is a success.

The attendance is regular and the children are advancing in the art of sewing.

They are learning the different stitches, measuring for garments, bias folds, putting in gussets and gores and many other things which will help make them useful women.

At the annual reception, held in February, their table, with articles for sale, was one of the special features.

We also have a class for little children, who are learning the first rudiments. They have held eighteen sessions.

Our expenses for instruction.....	\$81 00
Our expenses for material.....	3 24
	<hr/>
Total.....	\$84 24
	<hr/> <hr/>

Receipts at reception were \$8.24.

ANNUAL REPORT OF MANUAL TRAINING COMMITTEE.

Mrs. J. H. Mowen, Chairman, reports:

During the school months the manual training classes received instruction every week in cooking, caning and laundry. In November, a carpenter class was organized. The work was very interesting to the boys, and their finished work at the reception in February was a surprise to all. Articles made by them were for sale.

Each class had samples of their work on exhibition.

There were given 64 cooking lessons, 78 carpenter lessons, 39 caning lessons and 37 laundry lessons.

REPORT OF THE VISITING COMMITTEE.

Mrs. Conant, Chairman, reports :

The usual number of visits have been made, with the result that in most cases they have been found to be worthy ones.

Visiting day continues to be a factor of great interest and pleasure to both children and parents.

The goodies brought by the latter have of necessity to be limited by the Committee, lest the health of the little ones might suffer from the too generous fare provided for them. It is a pleasant sight to see the meeting between the children and their friends, and the latter are always pleased to find how well the little lads and lassies are looking and how contented and happy they are.

Here and there may be found children who can expect no relative to make Visiting Day a happy occasion for them, but some of our good managers have made inquiries about their welfare and provided gifts so they will not feel neglected.

If there be any little one who is completely overlooked the Committee in Charge furnish entertainment and refreshments for such a one.

The Committee extends a most cordial invitation to all to attend some of the Visiting Day receptions and promises that a visit on this occasion will be productive of great pleasure.

In conclusion, the Chairman thanks the members of the Committee for their earnest and efficient service.

REPORT OF THE HOME AND NURSERY COMMITTEE.

Mrs. J. H. Schumann, Chairman, reports :

The Home, Receiving House and Hospital are all in very good condition.

Our family of children is a very large one, and, with very few exceptions, all the members are happy and content.

It is always very noticeable that most all children improve in health after having been inmates of the Home for a short time, due, no doubt, to good care and proper attention given to each and every one alike.

We have forty-six babies in the Nursery, and a happier lot of little ones it would be hard to find.

Every one connected in any way with our institution and its work is trying at all times to do their best to gain good results.

A visit to the Home and a few words to some of the children not only makes the children happy, but some of their happiness reflects back to the visitor.

SUMMER HOME.

Mrs. Marietta Jacobs, Chairman, reports :

The second season of our Summer Home has closed, and we rejoice at the pleasure we were able to afford our children.

The success of the first year induced the managers to make every effort to provide accommodations for a greater number of children, and the Trustees gave unanimous consent to the appropriation necessary to erect and properly equip two large buildings, containing dormitories, dining hall, kitchen, laundry and an indoor playroom.

The building and furnishing of the new accommodations were completed early in the season, and 257 children, accompanied by the superin-

THE KINDERGARTEN.

tendant and assistants, exchanged the confinement of the city for the freedom of the country. The delight of the children in the ride in the train, the drive to the Home and the pleasure found there must be seen to be appreciated. Those of the party who had enjoyed the outing of last year found renewed pleasure in the familiar place, and those to whom "the country" had been only a name enjoyed it to the utmost.

At midsummer 158 of the older children returned to the city, their places being taken by others, the babies and younger children remaining the entire summer.

Our children were again warmly welcomed to Locustdale by the neighbors and friends of the Home. Services were held every Sunday afternoon. A library, donated by the Presbyterian Church of Smithtown, and many gifts and treats were given to the children.

For the cordial aid so generously given by all these friends we return heartiest thanks and hope for their co-operation with us in the future.

Although much has been accomplished, we feel our work can still be more enlarged, and new features are planned for which will be of both benefit and pleasure to the children.

We thank the managers and members of the committee who gave so much personal aid to the success of the summer, and hope for the continued interest and encouragement of all friends.

REPORT OF THE SUNDAY SCHOOL FOR YEAR 1909.

Miss Mary Eva Saunders, Chairman, reports:

Another very satisfactory year has transpired in the Sunday-school, with a good system and a capable superintendent in charge. The first three months elapsed with very little eventful happening.

Christmas was a great success, the children learning carols and recitations for the occasion. We had a fair attendance of visitors, and Mr. Howe conducted the exercises and spoke.

In January, Mr. Gilbert, our new superintendent, arrived; he has been a very entertaining speaker and friend to the children.

February and March were interesting, in so much that the lessons were made very attractive to the little ones through the able interpretation given by Mr. Gilbert. In April we learned the Easter carols, with the help of Mr. Crown. May being the last month of the Sunday-school year, we made the most of it by a regular attendance on the part of all the workers, and in learning anniversary music, for at the close of the month several teachers and Mr. Gilbert left for their summer homes.

No organized Sunday-school sessions were held through June, July, August and September, but Miss Ida Ellis, Miss Ballagh, Miss Bartholomew and the matron very kindly took classes just as usual, the interest never waning.

The year has been a very pleasant, profitable one, and we are starting with renewed zeal on a fresh year, hoping for new benefits.

PHYSICIANS' REPORT.

To the Board of Directors:

The Physicians' Report becomes each year shorter and simpler.

With the acquisition of the Summer Home, where all the children get a five weeks' airing with the concomitant benefits of a sojourn in the country, where the delicate, debilitated little waifs are nursed and built up during the whole summer, the general physical tone of the children has been so improved that the physicians have had practically nothing to do except the examination and vaccination of the new arrivals.

The Medical Staff congratulates the Board of Managers for its foresight and wise use of the above-mentioned Home. The staff also thanks the attendants, one and all, for their intelligent, appreciative co-operation.

The last year has been a very successful one. The school and classes have been well filled and taught by able teachers, who have shown interest in the work. Excellent progress has been made in the school and kindergarten, and the scholars show improvement in scholarship and deportment.

The past winter found many families out of work, and, as the poor only live from hand to mouth, nothing is saved for a rainy day. Sickness also comes with added expenses. Families were visited and help given when necessary.

The kindergarten classes gather very little ones into the sunshine and happiness of play, work and study. Their work is found hung on the walls of their homes and parents often speak of what they learned in kindergarten.

Much good has been accomplished in classes for manual training. The sewing and cooking classes have received careful instruction, and the work has proved profitable and interesting to a large number of girls.

A large class of boys have learned to cane chairs, and have been proud when they could earn money by doing this work for others.

Through the kindness of Mr. Weeks, the holidays were very happy times for the school and nursery. The usual bountiful dinner was given and at the Christmas entertainment the scholars and children of Day Nursery received stockings, books, oranges and candy. A tree was provided and an interesting program was given by the school.

The Penny Provident Fund is an important feature of our work, and has proved its helpfulness many times to parents as well as children.

The Athletic Club met through the winter months, and, under a good leader, the boys were well trained in athletics, etc.

Appropriate exercises were given at the close of school, and a treat of ice cream and cake was given by Mr. Burrows.

One hundred children were sent to Branchville, Conn., during July, and had a very happy time.

We desire to thank all kind friends who have assisted and remembered us in any way during the year, and trust the coming year will be a prosperous one.

Respectfully submitted,

E. L. PERRY,

Superintendent.

Number of shoes distributed.....	81

Through the kindness of many friends, the children have enjoyed several entertainments.

The usual Thanksgiving bags were distributed, after appropriate exercises. These contained turkey sandwiches, cakes, nuts and oranges.

Christmas brought cheer for the little ones. A kind friend (Mrs. Hand) had taught them many pretty songs, which were sung with a will, and, after recitations and songs were over and prizes for good behavior, regular attendance and perfect recitations were awarded, the tree was opened to view. All gathered around and, as the names were read, each child received a doll, book, game or toy, with a box of candy, an apple, an orange and a pretty Christmas card (which Mr. Dettmar never forgets), and a pair of new stockings was also provided for each.

Thanks are due to the Congress Club, which generously remembered the school at this time, and to the societies of St. John's Methodist Episcopal Church, which are especially interested. The Ladies Aid and Workers-in-Byways (with Mrs. Baird) provided substantial dinners for ten destitute families. The Epworth League Missionary Society and What-We-Can Circles all contributed to the happiness of the children during the year by sending treats of goodies. The Wesley Johnston Circle of King's Daughters and Sons entertained two of the delicate children for two weeks at Jamesport, Long Island.

Washington's and Lincoln's Birthdays were observed, also Arbor and Flag Days, in some patriotic way. After saluting the flag, each child received a small one for himself.

At the close of school, in June, all were treated to ice cream and cake by Mr. Stephen Burroughs. Through Mr. Weeks, twenty-five of the children enjoyed two weeks of vacation at Life's Farm, Branchville, Conn.

The Hudson-Fulton Celebration was noted by anecdotes and patriotic songs, with such decorations as were practicable.

REPORT OF THE GILLESPIE MEMORIAL DAY NURSERY.

Mrs. John S. Yergason, Chairman, reports:

The nursery has had a most successful year, and, for the first time, we have been able to supply our babies with fresh clothing daily, which, in most cases, was a dire necessity for their health, and the comfort of

the matron and nurse. We cared for 9,348 children, with less than the average amount of diseases peculiar to children, viz., mumps and measles. The little ones enjoyed the new sand box during the summer, going a long way toward making them happy. Some of the older girls had a day in the park, dolls and luncheon being provided for all. The building has been painted throughout, also outside. That, with a new sidewalk, makes the building more attractive. We had a musical entertainment for the mothers at Easter, with a treat of coffee and cake. If enough interest is shown, this will be continued monthly throughout the winter. Our friends have been unusually generous during the past year, and, together with the hearty co-operation of the Board of Managers, our success is due.

REPORT OF CEMETERY.

Miss Mary A. Henning, Chairman, reports:

The Home Plot in Evergreen Cemetery has been visited and kept in good order.

We are happy to state that we have had no death this year out of a population of 668 children.

The last death occurred in February, 1908.

It has been truly said: "It is well for a race, as for a man, that it has childhood behind it, and that in its first outpourings of energy in play the beauty of the new day and the young world sinks into its heart and becomes part of its deepest consciousness, for it is out of these memories that the visions of life issue."

To all friends, named and unnamed, we are sincerely grateful and renewedly express our thanks to those whose generosity and untiring efforts have enabled these homeless little ones to have a glimpse of the Vision beautiful and given to them "the possibility of writing on the eternal skies the record of a heroic life."

MRS. M. FACKENTHAL,
Chairman.

EDITH BURR,
Secretary.

REPORT OF CORRESPONDING SECRETARY.

In some of the Old World cities years ago it was the custom at midnight for the watchman on his rounds to cry, "Twelve o'clock, and all is well!"—so at the close of another year we again say of our little wards, "All is well!" and we trust that the friends of our Home will be pleased to learn of the welfare of the children whom their bounty has enabled us to care for. I think that in no better way can their condition be told than by extracts from their own letters to our Home. One of our boys writes: "I am nearly through college, and then I expect to study medicine." A young man writes to our Superintendent, thanking her for preserving and sending him a letter of his mother's, and a picture of himself taken when he was a child in our Home. He is now an architect, and his labor in aiding to build a new church and a memorial window in the church were given in memory of his mother, who died while he was a little boy in our Home. Surely no better answer than this boy's life can be given to well-meaning but ignorant people who state that "institution life" destroys "all family affection." The receiving of this boy in our Home made an invalid mother's last days happy.

A little girl writes: "I was getting along fine when school closed. I can iron and cook supper, and my hair is long enough to braid and tie up with ribbons."

Another little girl writes: "The country is very nice, and my new father and mother are real nice to me, and I like them really well."

Another child tells of a "Happy Christmas" in her new home, and of the gifts she received, adding, "I often think of the good Christmas times we had at the Home."

And so the tidings come. Space would prevent us from giving all the items we would be glad to have our friends know.

The yearly visits of our Superintendent to former inmates of our Home were most satisfactory; the children were well and happy, and had won the kind regards of those who had received them in their homes. The older "girls" and "boys" who had married and were in homes of their own were greatly pleased to extend their hospitality to Miss Whittelsey; the only dissatisfaction expressed was at her "brief stay" with them.

Very few, if any, who were ever inmates of our Home express any feeling but gratitude for the care and kindness they received while with us, but of all the little army of 6,500 children so cared for, the first ones to extend any help to care for others needing the same care that they had received in our Home was Lizzie Raymond, who in 1904 donated \$1, and F. Johanson, who gave \$2, "to help some other child." It was then decided to start a "Remembrance Fund," and we have received the following sums for it: From J. Rowan, \$5; A. Carsen, \$3.27; M. Raney, \$1; B. Augustine, \$5.

It seems reasonable to suppose that out of the 6,500 who have been cared for in our Home, at least 2,000 might be able to contribute even a small sum towards supporting some little child in need of care. Probably the idea has never occurred to them. We trust that no one will hesitate to give because the gift must be small. Even the cup of cold water is not forgotten by One who loved the little children when He was with them on the earth.

Respectfully submitted,

MRS. E. A. WHEELER,
Corresponding Secretary.

In Memoriam.

CHARLES SPENCER YOUNG.

We are not permitted to close our report of a year of prosperity for our Home and its little inmates without a record of sorrow as well, sorrow for the loss of our friend and faithful co-worker, Charles Spencer Young, who for twenty-one years was Treasurer of our Association. We shall sadly miss his deep interest in all branches of our work, as well as his kindly sympathy extended to all connected with it. His greatest pleasure was to bring sunshine and brightness into the lives of all with whom he came in contact. His memory will ever be cherished in our Home as that of one who, like the Master, "went about doing good."

Sunday School and its friends: \$51.34.

AN ACT**TO AMEND THE CHARTER OF THE INDUSTRIAL
SCHOOL ASSOCIATION OF BROOKLYN, E. D.**

PASSED APRIL 27TH, 1870.

*The People of the State of New York, represented in Senate
and Assembly, do enact as follows:*

SECTION 1. The Industrial School Association of Brooklyn, Eastern District, are hereby authorized and empowered to purchase and hold real estate sufficient for the actual occupation and necessary uses of the corporation, and to receive the same by gift or devise, in the same manner and subject to the same restrictions as provided in the general law for the incorporation of benevolent and charitable associations, under which said association is organized, and to hold and convey such real estate; and shall be deemed to be possessed of the rights and be subject to the liabilities of corporations, according to the provisions of title third, chapter eighteen, part first, of the Revised Statutes, so far as the same may be applicable; provided, however, that the amount of real estate to be held by such association at any one time shall not exceed one hundred thousand dollars in value, and the amount of personal property to be held shall not exceed seventy-five thousand dollars in value.*

§ 2. The real and personal property of said association so held by it shall be exempt from taxation to the amount held by it as before mentioned in this act.

§ 3. There shall be a board of female managers of the said association, to conduct the business of the association in a

* By an act of the Legislature passed in 1889, this and other similar institutions are authorized to hold property not exceeding two million dollars in value or the annual income of which does not exceed one hundred thousand dollars.

manner prescribed by the constitution and by-laws of the aforesaid association, as the same now exists, or as the same shall be adopted or altered by the said association, but the same shall be in accordance with the laws of this State, and such managers shall be elected or appointed annually, or otherwise, as is or may be prescribed by such constitution and by-laws.

§ 4. It shall be one of the objects of such association to provide a temporary home and relief for adult destitute, unprotected and friendless females.

§ 5. The board of managers shall have power to appoint matrons and such other assistants as they may deem necessary in conducting the domestic and internal concerns of their house or houses of industry and home for the friendless; to make any by-laws and regulations for the government of their own proceedings and those of the persons so appointed, and of the inmates of their houses; to govern the children under their care and prescribe their course of instruction and management to the same extent and with the same rights as exists in the case of natural guardians.

§ 6. In all cases where a child shall have been surrendered by its natural or other legal guardian to the care and management of the said association, by any instrument or declaration in writing, it shall be lawful for the board of managers, at their discretion, to place such child, for adoption or at service, in some suitable employment, and with some proper person or persons, conformable to the laws of this State in regard to the binding out of indigent children; provided, that in all such cases the terms of the indenture shall be approved by the Mayor of the City of Brooklyn, or by the Surrogate of Kings County, which approval shall be signified on such indenture by the signature of such Mayor or Surrogate; but in every such case the requisite provision shall be inserted in the indenture, or contract of binding, to secure the child so bound such treatment, education or instruction as shall be suitable and useful to its situation and circumstances in life.

§ 7. In case of the death or legal incapacity of a father, or of his imprisonment for crime, or of his abandoning and neglecting to provide for his family, the mother shall be deemed the legal guardian of her children for the purpose of making such surrender as aforesaid. And if in any such case the mother be also dead, or legally incapable of acting, or imprisoned for crime, or shall have abandoned or neglected to provide for her child or children, the Mayor of the City of Brooklyn or the Surrogate of the County of Kings shall be, by virtue of his office, the legal guardian for the like purpose; and so, in all cases where it cannot by diligent inquiry be ascertained that there is within the State any parent or other person legally authorized to act in the premises, the said Mayor and Surrogate shall be *ex officio* such guardian for the same purpose; and in either case, whether such surrender be made by the mother, or by the Mayor or Surrogate, and whether before or after admission into said home, it shall be deemed a legal surrender for the purposes and within the true intent and meaning of the sixth section of this act; but no surrender by the mother, as provided by this section shall be valid without the consent of the Mayor or Surrogate aforesaid.

§ 8. If any party to whom the said association shall have entrusted a child shall be guilty of any cruelty, misuse, refusal or neglect to furnish necessary provisions or clothing, or any other violation of the terms of the indenture or contract, towards any such child so indentured, such child may make complaint thereof to the board of managers of said association, or to any justice of the peace of the county in which said child is so indentured, or to the Mayor, Recorder or Alderman of any city in which such child is bound to service, or to any such officer, who shall summon the parties before him and examine into, hear and determine the said complaint, and if upon such examination the said complaint shall appear well founded, such officer shall by certificate under his hand discharge said child from his or her obligation of service, and restore him or her to

the charge and management of said association, in the same manner and with like powers as before the indenture of said child.

§ 9. When children are indentured, the guardian may be required, after said children have attained the age of twelve years, to place annually in the treasury of said association the sum of ten dollars, which shall be the legal property of such children. If a girl, the aggregate, making sixty dollars, shall be paid to her when she has attained the age of eighteen years; and if a boy, the annual payment, making ninety dollars, shall be paid to him when twenty-one years of age; these respective sums shall be duly credited to said children upon the books of the association and receipts of the respective payments placed in the hands of the guardian for safe keeping.

§ 10. The board of managers of the said association shall be the guardian of every child indentured by virtue and in pursuance of the provisions of this act. They shall take care that the terms of the contract be faithfully fulfilled, and that such ward be properly treated; and it is hereby made their special duty to inquire into the treatment of every such child, and redress any grievance in manner prescribed by law; and it shall be the duty of the guardian to whom any such child shall be indentured, and he shall, by the terms of the indenture be required, as often as once in each year, to report to the said board of managers the conduct and behavior of the said apprentice, and anything of special interest pertaining to his or her welfare.

§ 11. The Legislature may at any time alter, amend or repeal this act.

§ 12. This act shall take effect immediately.
