SEC. 2. This act is hereby declared to be an urgency measure, deemed necessary for the immediate preservation of the public peace and safety, within the meaning of section 1 of article four of the constitution of the State of California, and as such it shall take effect immediately.

The following is a statement of the facts constituting such necessity:

Pursuant to that certain convention known as the "Migratory Bird Treaty" made and entered into between the United States of America and certain foreign powers, and under the authority of that certain act of congress known as the "Migratory Bird Treaty Act," the period of the open season for the hunting of wild ducks and certain other waterfowl was advanced two weeks, the limits now being October fifteenth to February first instead of October first to January fifteenth as formerly. This change has been made by regulation duly issued by the secretary of agriculture and promulgated by the President of the United States.

It is the known and established policy of the State of California that the laws of this state in relation to the protection of such waterfowl shall conform precisely to the corresponding regulations of the United States, and until the recent adoption of the regulations hereinabove referred to, said laws did so conform.

In reliance upon said known and established policy, and in the sincere and innocent belief that said federal regulations, by virtue of the treaty and the federal statutes, prevail over state law, many thousands of persons resident in this state, unless this act becomes immediately effective, would engage during the last two weeks of January, 1927, in the hunting of such waterfowl, contrary to the mandate of the laws of the state. These illegal practices would occur owing to the confusion produced by the discrepancy between federal regulation and state law.

All such persons would be subject to arrest and fine or incarceration, it being the solemn duty of the peace officers of this state faithfully and rigidly to enforce the mandate of the existing state law irrespective of the fact that the federal regulations permit such hunting. In consequence thereof it is believed that there will be numerous arrests, attended by resistance to officers of the law, and other breaches of the peace, together with an unusual and burdensome congestion in the business of the courts, involving the imposition of

sentences of fine and imprisonment, all against the dignity of the courts and of the state, and to the impairment of the public peace and safety.

In order to prevent all this, it is necessary that the law of this state be made to conform to treaty and the federal law and regulations by an act passed by this Legislature to take effect immediately.

The people of the State of California, at the general election held in said state on the second day of November, 1926, duly approved and ratified an amendment to section 31 of article IV of the constitution of the State of California, whereby irrigation districts were authorized and empowered,

for the purpose of acquiring water and water rights and other property necessary for their uses and purposes, to acquire and hold the stock of corporations owning waters, water rights, canals, waterworks, franchises or concessions, subject to the same obligations and liabilities as are imposed by law upon all other stockholders in such corporations; that the power of the electors of irrigation districts to authorize, at a special election called therefor, the levy of special assessments, and the power of the board of directors of such districts to levy special assessments authorized at such election, is limited by the provisions of said California irrigation district act to the raising of money to be applied to any of the purposes, now expressed or specified in said act or any act supplementary thereto; that it is necessary to make said act conform to the provisions of section 31 of article IV of the constitution in so far as the same relate to irrigation districts, in order that said districts may be empowered to raise money by special assessments to be applied to the purchase of stock in water corporations for the purposes expressed in said constitutional provision; that it is necessary for the uses and purposes of some of the irrigation districts organized and now existing under the laws of this state, that they should immediately acquire stock in water corporations in order to make water available for the irrigation of lands within their boundaries at the earliest possible moment, and for domestic uses; that unless such water can be acquired and used for said purposes during the irrigation season of 1927, irreparable injury may be suffered by the owners of land situate therein and the inhabitants thereof; that unless this act goes into effect as an emergency measure, it can not take effect until ninety days from and after the adjournment of the present session of this Legislature, and the effective date thereof will be thereby postponed until the month of August or September of this year at which time the flow of the streams of California will be reduced to a minimum and no water will be available for irrigation purposes; that the public peace and safety require that this act shall go into immediate effect.

Bonded indebtedness

Whenever the board of directors of any such district shall, by resolution passed by vote of two-thirds of all its members, determine that the public interest or necessity demands the Resolution of intention

acquisition, construction or completion by the district of any public utility or utilities referred to in this act, or any part thereof, or any works, lands, structures, rights or other property necessary or convenient to carry out the objects, purposes or powers of such district, the cost of which will be too great to be paid out of the ordinary annual income and revenue of such district, it may at any subsequent meeting of said board of directors provide for the submission of the proposition of incurring a bonded debt for the purpose set forth in said resolution, to the qualified voters of such district, at an election held for that purpose; *provided*, that propositions for incurring indebtedness for more than one object or purpose may be submitted at the same election. election.

Said ordinance shall be published once a day for at least seven days in some newspaper published at least six days a week in such district, or once a week for two weeks in some newspaper published less than six days a week in such district; and one insertion each week for two succeeding weeks shall be a sufficient publication in such newspaper published less than six days per week. In districts where no such newspaper is published, said ordinance shall be posted in three public places therein for two succeeding weeks. No other notice of such election need be given. It shall require the votes of two-thirds of all the voters voting at such election to authorize the issuance of the bonds herein provided; *provided, however*, should the proposition so submitted at such election fail to receive the requisite number of votes of the qualified voters voting at such election to incur the indebtedness for the purpose specified, the board of directors of such district shall have no power or authority within six months after such election to call or order another election for incurring any indebtedness for the acquisition, construction

or completion of improvements or property substantially the same as voted upon at such prior election, unless a petition signed by at least fifteen per centum of the qualified electors of such district computed upon the total number of votes cast therein for all candidates for governor at the last preceding election at which a governor was elected be filed with the board of directors of such district, requesting that said proposition, or a proposition substantially the same, be submitted at an election to be called for the submission of such proposition and to be held in accordance with the provisions of this act. The bonds so authorized shall mature serially in amounts to be fixed by the board of directors; *provided*, that the payment of said bonds shall begin not later than ten years from the date thereof and be completed in not more than fifty years from said date. Said bonds shall be issued in such denominations as the board of directors of the district determine, except that no bonds shall be of a less denomination than one hundred dollars, nor of a greater denomination than one thousand dollars, and shall be payable on the day and at the place or places fixed in said bonds, and with interest at the rate specified therein, which interest shall be payable semiannually. Said bonds shall be signed by the president of the board of directors of the district or by such officer thereof as the board of directors shall, by resolution adopted by a two-thirds vote of all its members, authorize and designate for that purpose. They shall also be signed by the treasurer thereof, and be countersigned by the secretary thereof. The coupons of said bonds shall be numbered consecutively and be signed by the treasurer. In case any of such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of said bonds to the purchaser, such signatures or countersignatures shall nevertheless be valid and sufficient for all purposes, the same as if they had remained in office until the delivery of the bonds. Said bonds may be issued and sold by the board of directors of the district as they determine, but for not less than their par value. The proceeds of said bonds shall be placed in the district treasury to the credit of the proper fund, and shall be used exclusively for the objects or purposes for which said bonds were voted.

No municipal utility district shall incur an indebtedness for public works which shall in the aggregate exceed twenty per centum of the assessed value of all the real and personal property of such district; *provided, however*, any indebtedness which has been incurred for the construction and operation of a public utility, where the revenue from said utility for three years or more next preceding has been sufficient to pay the interest and principal due on any bonds issued for its construction or acquisition, in addition to the cost of operation and maintenance, shall not be counted and included in ascertaining the limit of indebtedness.

Tax levy.

The board of directors of such district shall, at the time of fixing the general tax levy and in the manner for such general tax levy provided, levy and collect annually each year until said bonds are paid, or until there shall be a sum in the treasury of such district set apart for that purpose to meet all sums coming due for principal and interest on said bonds, a tax sufficient to pay the annual interest on said bonds, and also such part of the principal thereof as shall become due before the time for fixing the next general tax levy; *provided, however,* that if the maturity of the indebtedness created by the issue of bonds be made to begin more than one year after the date of the issuance thereof, said tax shall be levied and collected at the time and in the manner aforesaid annually each year, sufficient to pay the interest on said indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof on or before maturity. The taxes herein required to be levied and collected shall be in addition to all other taxes levied for district purposes, and shall be collected at the time and in the same manner as other district taxes are collected, and be used for no other purpose than the payment of said bonds and accruing interest.

Petitions in lieu of resolution

In lieu of a resolution passed as hereinbefore provided by its board of directors, proceedings for the issuance of bonds for the purposes in this section provided may be initiated by petition of the qualified electors of such district.

Whenever any petition or petitions, each signed by electors of the district equal in number to fifteen per centum of the qualified electors of such district, computed upon the total number of votes cast therein for all candidates for governor at the last preceding election at which a governor was elected, shall be presented to the board of directors of said district asking for the acquisition, construction or completion of the whole or any portion of any utility, or works referred to in this act, or for acquiring any works, lands, structures, rights, or other property necessary or convenient to carry out the objects, purposes or powers of such district, and also asking that a bonded indebtedness be incurred to pay for the cost thereof, then it shall be the duty of the secretary of the district to immediately proceed to examine and verify the signatures of such petition or petitions, and to certify the result of such examination to the board of directors. If the required number of signatures be found to be genuine, the secretary shall transmit to the board of directors an authentic copy of such petition or petitions without the signatures thereto. Upon receiving the petition or petitions with the certificate of the secretary stating that it or they contain the required number of signatures, the board of directors shall formulate for submission to the electors of the district at a special election called for that purpose the proposition of incurring a bonded debt for the purposes set forth in said petition, and thereafter the said election and all things and proceedings with reference to the said bonds and the issuance thereof shall be conducted and

performed in the same manner as if the proceedings had been initiated by resolution of the board of directors of said district as hereinbefore provided. In its discretion the board of directors may defer the calling of said election until the next general election to be held in the district in order that the same may be consolidated therewith.

Any election called for the submission of any question or proposition under the provisions of this section, may be held separately, or may be consolidated with any other election authorized by law at which the qualified voters of such district are entitled to vote; *provided, however*, that in the event any such election called pursuant to the provisions of this section is consolidated with any other election, the provisions of this section setting forth the procedure for the calling and holding of the election called pursuant to the provisions of this section, shall be complied with, except that the ordinance calling such election need not set forth the election precincts, polling places and officers of election, but may provide that the precincts, polling places and officers of election shall be the same as those set forth in the ordinance, notice or other proceedings calling the election with which the election called pursuant to the provisions of this section, is consolidated, and shall refer to such ordinance, notice or other proceeding by number and title, or by other definite description.

SECTION 1. Section 14 of an act entitled "An act to regulate the examination of applicants for license and the practice of those licensed, to treat diseases, injuries, deformities, or other physical or mental conditions of human beings; to establish a board of medical examiners, to provide for their appointment and prescribe their powers and duties, and to repeal an act entitled 'An act for the regulation of the practice of medicine and surgery, osteopathy and other systems or modes of treating the sick or afflicted, in the State of California, and for the appointment of a board of medical examiners in the matter of said regulation,' approved March 14, 1907, and acts amendatory thereof, and also to repeal all other acts and parts of acts in conflict with this act," approved June 2, 1913, as amended, is hereby amended to read as follows:

Unprofes-

conduct of
applicant

Sec. 14. Said board must refuse a certificate to any applicant guilty of unprofessional conduct. On the filing with the secretary of a sworn complaint, charging the applicant with having been guilty of unprofessional conduct, the secretary must forthwith issue a citation, under the seal of the board, and make the same returnable at the next regular session of said board, occurring at least thirty days next after filing the complaint. Such citation shall notify the applicant when and where the charges of said unprofessional conduct will be heard, and that the applicant shall file his written answer, under oath, within twenty days next after the service on him of said citation or that default will be taken against him and his application for a certificate refused. The attendance of witnesses at such hearing may be compelled by subpoenas issued by the secretary of the board under its seal. Said citation and said subpoenas shall be served in accordance with the statutes of this state then in force as to the service of citation and subpoenas generally, and all the provisions of the statutes of this state then in force relating to subpoenas and to citations are hereby made applicable to the subpoenas and citations provided for herein. Upon the secretary's certifying to the fact of refusal of any person to obey a subpoena or citation to the superior court of the county in which the service was had, said court shall thereupon proceed to hear said matter in accordance with the statutes of this state then in force as to contempts for disobedience of process of the court, and should said court find that the subpoena or citation has been legally served, and that the party so served has wilfully disobeyed the same, it shall proceed to impose such penalty as provided in cases of contempt of court. In all cases of alleged

unprofessional conduct, arising under this act, depositions of witnesses may be taken, the same as in civil cases and all the provisions of the statutes of this state then in force as to the taking of depositions are hereby made applicable to the taking of depositions under this act. If the applicant shall fail to file with the secretary of said board his answer, under oath, within twenty days after service on him of said citation, or within such further time as the board may allow, and the charges on their face shall be deemed sufficient by the board, default shall be entered against him, and his application refused. If the charges on their face be deemed sufficient by the board, and issue be joined thereon by answer, the board shall proceed to determine the matter, and to that end shall hear such proper evidence as may be adduced before it; and if it appear to the satisfaction of the board that the applicant is guilty as charged, no certificate shall be issued to him.

Whenever any holder of a certificate herein provided for is guilty of unprofessional conduct, as the same is defined in this act, and the said unprofessional conduct has been brought to the attention of the board granting said certificate, in the manner hereinafter provided or whenever a certificate has been procured by fraud or misrepresentation or issued by mistake or that the certificate upon which a reciprocity certificate has been issued was procured by fraud or misrepresentation or issued by mistake or the person holding such certificate is found to be practicing contrary to the provisions thereof and of this act, it shall be the duty of the board and the board shall have power to suspend the right of the holder of said certificate to practice for a period not exceeding one year or to place the holder of said certificate upon probation or suspend judgment in such cases or revoke his certificate, or take such other action in relation to the punishment of the holder of said certificate as in its discretion it may deem proper. In the event of such suspension, the holder of such certificate shall not be entitled to practice thereunder during the term of suspension; but, upon the expiration of the term of said suspension, he shall be reinstated by the board and shall be entitled to resume his practice, unless it shall be established to the satisfaction of the board that said person so suspended from practice, has, during the term of such suspension, practiced in the State of California, in which event the board shall revoke the certificate of such person. No such suspension or revocation shall be made unless such holder is cited to appear and the same proceedings are had as is hereinbefore provided in this section in case of refusal to issue certificates. Said secretary in all cases of suspension or revocation shall enter on his register the fact of such suspension or revocation, as the case may be, and shall certify the fact of such suspension or revocation under the seal of the board, to the county clerk of the counties in which the certificates of the person whose certificate has been revoked is recorded; and said

SEC. 4. Hearing on Petition. When such petition is presented, the board of supervisors shall hear the same, and may adjourn such hearing from time to time. If any hearing or continued hearing shall be continued to a time more than sixty days from the date of the order making such continuance, a notice of such continued hearing shall be published, in some newspaper or newspapers printed and published in each of the counties in which any portion of the proposed district lies, once a week for at least two weeks immediately prior to the time appointed for such continued hearing. On the final hearing said board shall make such changes in the proposed boundaries as may be deemed advisable, and shall define and establish such boundaries. But said board shall not modify said boundaries so as to exclude from said proposed district any territory which would be benefited by the formation of such district; nor shall any land be included within such proposed district which will not, in the judgment of said board, be benefited by the organization of such district. Any person whose lands would be benefited by such district may, upon his application and in the discretion of the board of supervisors, have such lands included within such proposed district. Upon such hearing of such petition the board of supervisors shall

determine whether or not said petition complies with the requirements of sections 1 and 3 of this act, and for that purpose must hear all competent and relevant testimony offered in support thereof or in opposition thereto. Division of district.

SEC. 5. District Directors. When, under the provisions of the preceding sections, the boundaries of the proposed district are defined and established, said board shall make an order dividing said district into three or five or seven divisions, as requested in the petition. Such divisions shall be as nearly equal in area as practicable and shall be numbered consecutively, and one director, who shall be an elector of the division, shall be elected, as hereinafter provided, by each division; *provided*, that, when requested in the petition, and in accordance therewith, no divisions shall be established, and, in such case, three or five or seven directors, according to the petition, shall be elected at large by the qualified electors of the district. No person may be elected a director who shall not be a qualified elector of the district, and who shall not be a resident of the county, or of one of the counties in which the district is situated.

Organization election.

SEC. 6. Election to Determine Proposed Organization. Election of Directors. Notice. Ballots. Candidates for Office of Director. Qualification of Electors. Conduct of Election. Said board of supervisors shall then call an election within the proposed district for the determination of the question whether such proposed district shall or shall not be organized, and also to elect the number of directors which shall be prescribed pursuant to the next preceding paragraph of this act. Said board of supervisors shall divide said district, and the divisions thereof, into convenient precincts and fix a polling place in each precinct; *provided*, there shall be at least one precinct in each division of the district, where the district is divided into divisions. The board of supervisors shall appoint an inspector, a judge and two clerks for each of the precincts thus established to conduct said election. The inspector, judge and clerks of election in each precinct shall constitute the board of election for such precinct. The inspector shall be chairman of the election board, and may administer all oaths required in the progress of an election, and appoint judges and clerks, if, during the progress of the election, any judge or clerk cease to act. Any member of the board of election may administer and certify oaths required to be administered during the progress of the election. If the board of election, or any member thereof, fails to appear at the opening of the polls on the morning of the election, the electors of the precinct present

at that hour may appoint a board or supply the place of an absent member thereof. The election must be held within forty days from the date of the order calling the election.

Notice. Such election shall be called by publication of notice thereof in a daily or weekly paper in each of the counties in which the district is situate, if there be one, at least once a week for three weeks previous to such election, and by posting notice thereof in three public places in the proposed district. If the district is divided into divisions, notices of such election shall be posted in three public places in each division. Such notice shall designate a name for such proposed district, and describe the boundaries thereof and designate the respective election precincts and the polling place in each, and the election officers, and the time of the election, and the hours during which the polls will be kept open; *provided*, that the polls must be opened not later than eight o'clock a.m. and kept open until seven o'clock p.m.

Ballots. Candidates for Office of Director. The board of supervisors shall require the clerk of said board to provide and furnish ballots for said election. No particular form of ballot shall be required except that the same shall contain the words "Water Conservation District—Yes" or "Water Conservation District—No," or words equivalent thereto, and shall also contain the names of candidates for the position of director of the district who shall have been endorsed by a petition to said board of supervisors containing the names of ten or more electors of the district, petitioning that the names of candidates designated in the petition be placed upon the ballot to be voted on at such election; *provided*, that, when the district is divided into divisions, such nominating petitions for a director in any division must be signed by ten or more electors entitled to vote in such division; *and provided*, that, in any case, such petitions be filed with the board of supervisors calling said election within fifteen days from the first publication of the notice calling said election. The ballots shall contain instructions that the voters shall write or print or stamp a cross after the words that indicate his choice, together with the number of votes he is entitled to cast therefor, as hereinafter provided, and that the voter shall vote for one or more persons to fill the office of director (designating the number), according to the divisions of the proposed district as prayed for in the petition and ordered by the board of supervisors, with the right to vote for each director to be elected the number of votes which the voter shall be entitled to cast as hereinafter provided. The ballots shall contain as many blank spaces for the names of directors as there are directors to be elected, and the writing of the name of any qualified person in any of said spaces shall be deemed to be a vote for such person according to the number of votes set opposite such name, not in excess of the number of votes which the voter shall be entitled to cast.

Electors.

Qualification of Electors. No person shall be entitled to vote at any election held under the provisions of this act, unless he is the owner of land situate within the district. Each and every owner of land within the district shall be entitled to vote in person or by proxy, at any election held under the provisions of this act, and shall have the right to cast one vote for each acre of real estate owned by him in the district. An owner of land within the district comprising less than one acre shall be entitled to one vote. In calculating the number of acres owned by any voter any fraction of an acre in excess of the integral number owned by him shall be disregarded. Such ownership shall be determined from the next preceding assessment roll of the county or counties in which the lands of the district are situated, and the board of supervisors of each county in which any part of the district is located, prior to each election held under the provisions of this act, at the expense of the district holding such an election, shall cause to be prepared and certified and furnished to the board of election at each voting place a true and correct copy of the entries upon the next preceding assessment rolls of said counties, so far as such assessment rolls apply to any lands within said district, to the extent of showing the names of the owner and the number of acres assessed to each owner and which said certified entries from said rolls shall be used by the boards of election in determining the number of votes each voter is entitled to cast. In the event the district is divided into divisions, the copies of the entries upon said assessment rolls shall show the number of acres owned by each voter within each division. And, in such case, each voter shall be entitled to vote in each division the number of votes equal to the number of acres owned by him in such division.

Vote
according to
interest.

Where land is owned by two or more persons, the votes shall be divided in accordance with the interests of each owner. Where land is assessed to unknown owners any person producing an affidavit of a searcher of records certifying the true ownership of such land at the date of the election, or at any time five days previous thereto, accompanied by an affidavit by the person certified to be the owner that he is the owner of the property at that time, said person so certified to be the owner shall be entitled to vote in like manner as if his name appeared upon the assessment rolls as above mentioned. Where corporations or partnerships appear as the owners of property, the votes of such owners shall be cast by any person holding a proxy from such corporation or firm. Executors, administrators, special administrators and guardians and trustees may cast the votes of the estates represented by them upon filing with the board of election a certified copy of their letters testamentary or of administration or guardianship or of appointment as trustee. No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing

duly acknowledged and certified in the same manner as grants of real property, and filed with the board of election.

Conduct of Election. Said election shall be conducted in accordance with the general election laws of this state so far as applicable, and except as herein otherwise provided. The election officer in delivering to each voter his ballot shall ascertain and write upon the ballot the number of votes the holder of the ballot is entitled to cast, and in canvassing the returns shall see to it that the number of votes cast does not exceed the number of votes such voter was entitled to cast, but if there is an excess, the ballot shall not be disregarded or invalidated, but only the number which the voter was entitled to cast shall be counted. The election officers shall publicly count the votes immediately after close of the election, and make a report of the result of said election to the board of supervisors within five days subsequent to the holding thereof.

SEC. 7. Canvass of Returns. Declaration of Organization. The said board of supervisors shall, on the first Monday succeeding such election, if then in session, or at its next meeting, general or special, proceed to canvass the votes cast at such election, and, if upon such canvass it determines that a majority of all the votes cast are "Water Conservation District—Yes," the board shall by an order entered in its minutes declare such territory duly organized as a water conservation district, under the name theretofore designated, and shall declare the persons receiving, respectively, the highest number of votes for director to be duly elected to such offices.

SEC. 8. Copy of Order to be Recorded. The board shall then cause a copy of such order, duly certified by the clerk of said board of supervisors to be immediately filed for record in the office of the county recorder of any county in which any portion of the lands embraced in such district shall be situated, and must also immediately forward a copy thereof to the clerk of the board of supervisors of each of said last mentioned counties. From and after such filing, the organization of the district shall be complete.

SEC. 9. Election May be Contested. Such election on organization may be contested by any person holding property within the proposed district liable to be assessed or taxed for the raising of funds to carry out the purposes of the district. The directors elected at such election shall be made parties defendant. Such contest shall be brought in the superior court of the county where the petition for organization is filed; *provided*, if more than one contest be pending, they shall be consolidated and tried together. The court having jurisdiction shall immediately try such contest, and determine, upon the hearing, whether the election was fairly conducted and in substantial compliance with the requirements of this act, and enter its judgment accordingly. Such contest must

be brought within twenty days after the canvass of the votes and declaration of the result by the board of supervisors. The right of appeal is hereby given to either party to the record within thirty days from entry of judgment. The appeal must be heard and determined by the supreme court within sixty days from the time of filing the notice of appeal.

Assumption
of duties.

SEC. 10. When Directors Shall Enter upon Duties. The directors elected at the election hereinbefore provided for shall immediately enter upon their duties as such upon qualifying in the manner hereinafter provided. Such directors shall hold office respectively until their successors are elected and qualified.

SEC. 11. Term of Office. President and Secretary. The directors of any district who shall be thus elected, on the first Tuesday after their election, after they shall have qualified, shall meet and classify themselves by lot into two classes, as nearly equal in number as possible, and the term of office of the class having the greater number shall expire at the next general February election in this act provided for; and the term of office of the class having the lesser number shall terminate at the next general February election thereafter. After such classification, said directors shall organize as a board, shall elect a president from their number, and appoint a secretary, who shall each hold office during the pleasure of the board. The secretary need not be one of the directors. The salary of the secretary and the amount of the bond to be given for the faithful performance of his duty shall be fixed by the board of directors. The bond of the secretary of the district shall be recorded in the office of the recorder of the county in which the district is organized and then filed with the district.

Vacancies occurring in the board of directors, by reason of death, resignation or otherwise, shall be filled by appointment by the supervisors of the county where such district is organized. A director so appointed shall hold such office for the unexpired term of his predecessor. On the first Tuesday in March next following the election, the directors shall meet and organize as a board, elect a president and appoint a secretary, who shall each hold office during the pleasure of the board. The full term of office of directors is hereby fixed at four years. more than
one county.

SEC. 29. When District is in More than One County. When a district is in more than one county the total estimate as provided for in the preceding section shall be divided by the board of directors in proportion to the value of the real property of the district in each county, with the improvements thereon. This value must be determined from the equalized values of the last assessment rolls of such counties, as revised by said board of supervisors. When such division of the estimate has been made, the board shall furnish the supervisors and auditors of the respective counties a written statement of the part of the estimate apportioned to that county.

SEC. 30. Water Conservation District Tax Levy. The board of supervisors of each county wherein is situated a district, or any part thereof, organized under the provisions of this act, must, annually, at the time of levying county taxes, levy a tax to be known as the "----- (name of district) Water Conservation District Tax," sufficient to raise the amount reported to them as herein provided by the board of directors. The supervisors must determine the rate of such tax by deducting fifteen per cent for anticipated delinquencies from the total assessed value of the real property in the district within the county, including improvements thereon, as it appears on the assessment roll of the county, and then dividing the sum reported by the board of directors, as required to be raised, by the remainder of such total assessed value; *provided*, that if a fraction of a cent occur on a valuation of one hundred dollars, it shall be taken as a full cent. elections.

SEC. 35. May Call Special Elections. The board of directors, by a vote of two-thirds of the whole number of directors, may at any time, when in their judgment it may be deemed advisable, call a special election, and submit to the qualified electors of the district the question, whether or not a special assessment shall be levied, in addition to the tax herein provided for, for the purpose of raising money to be applied to any of the purposes provided in this act. Such election must be called upon a notice prescribed and the same shall be held and the results thereof determined and declared in all respects in conformity with the provisions of this act governing the biennial elections of directors. The notice must specify the amount of money proposed to be raised and the purpose for which it is intended to be used. At such elections the ballots shall contain the words "Assessment—Yes" or "Assessment—No". If a majority of the votes cast are "Assessment—Yes", the board shall proceed in the manner hereinbefore prescribed for raising the annual funds by taxation. When collected, the money shall be paid into the district treasury for the purposes set forth in the notice of such special election. Such special assessment shall not exceed, in any case, three mills upon each one hundred cents of the assessed values of the lands and improvements thereon situate within the district, according to the last preceding assessment roll or rolls. If the money raised by any such special assessment shall exceed the amount necessary to be expended for the purpose for which it was levied, the excess shall be transferred to the general fund of the district and may be used for any purpose of the district.

Change of
district
boundaries.

SEC. 36. Boundaries May Be Changed. The boundaries of any water conservation district organized under this act may be changed, and tracts of land, which were included within the boundaries of such district at or after its organization, may be excluded therefrom, or tracts of land may be included within the district, in the manner herein prescribed.

Petition for
changes.

SEC. 37. Petition for Change of Boundaries. Notice of Hearing. The owner or owners of any tract or tracts of land which constitute a portion of any such district may file with the board of supervisors of the county in which the district was organized a petition praying that such tract or tracts of land, or some defined portion thereof, may be excluded from

the district, and the owner or owners of any tract or tracts of land, which, in their judgment, would be benefited by being included within the boundaries of any such district, may file with such board of supervisors a petition to have such tract or tracts of land, or a defined portion thereof, included therein. Such petition shall contain a description of the lands which the petitioner or petitioners desire to have excluded from or included with the district, and shall designate the owner or owners of the respective parcels of such lands. Thereupon the boards of supervisors shall set a time for the hearing on such petition, which shall be the next regular meeting of the board after the full publication of the notice thereof hereinafter required, and shall cause the clerk of said board of supervisors to give notice of such hearing by publishing such notice once a week for at least two weeks, prior to the hearing, in some newspaper or newspapers of general circulation published in each of the counties in which any portion of such district is situated. If no newspaper be published in either of such counties then such notice shall be posted for the same length of time in at least three public places in the portion of the district situate within the county wherein no newspaper is published and be published as aforesaid in the remaining counties in which the district is situated. Such notice shall state the filing of the petition, the names of the petitioners, a description of the lands mentioned in the petition and, substantially, the prayer of the petition, and the time of the hearing; and it shall notify all persons, interested in, or who may be affected by, such a change in the boundaries of the district, to appear at the office of said board of supervisors at the time of the hearing, and show cause in writing, if any they have, why the change of the boundaries of the district, as proposed in the petition, should not be made.

Notice of
hearing

SEC. 38. Hearing of Petition. The board of supervisors, at the time and place mentioned in the notice, or at the time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition and all evidence and proofs that may or shall be introduced by or on behalf of the petitioner or petitioners, and all objections to such petition that may or shall be presented in writing by any person showing cause as aforesaid, and all evidence and proofs that may be introduced in support of such objections. The failure of any person interested in said district to show cause, in writing, why the tract or tracts of land mentioned in said petition should not be excluded from or included in the district, shall be deemed and taken as an assent by him to the exclusion or inclusion of such tract or tracts of land, or any part thereof, from or in said district; and the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent by each and all petitioners to the exclusion from such district or inclusion therein of the lands mentioned in the petition, or of any part or parts thereof. The expenses of giving said

Hearing of
petition.

notice and all expenses of the proceedings for changing the boundaries of the district shall be paid by the person or persons filing such petition. And the board of supervisors may require such security for the payment of such expenses at it may deem proper.

Action on
petition.

SEC. 39. Board May Deny Petition or May Grant It in Whole or in Part. If, upon the hearing of any such petition, no evidence or proofs in support thereof be introduced, or if the evidence fail to sustain such petition, or if the board of supervisors deem it not for the best interests of the district that the lands, mentioned in the petition, or some portion thereof, should be excluded from the district, or included therein, as the case may be, the board shall order that said petition be denied as to such lands; but if the said board deem it for the best interests of the district that the lands mentioned in the petition, or some portion thereof, be excluded from or included within the district, and, if no person interested in the district show cause in writing why the said lands, or some portion thereof, should not be excluded from or included within the district, or if, having shown cause, withdraws the same, or upon the hearing fails to establish such objections as he may have made, then it shall be the duty of the board to, and it shall forthwith, make an order that the lands mentioned and described in the petition, or some defined portion or portions thereof, as the board may deem proper, be excluded from said district, or included therein, pursuant to the prayer of the petition.

Record of
change of
boundaries

SEC. 40. Change of Boundaries Shall Be Recorded. In the event said board of supervisors shall exclude any lands from said district, or include any lands therein, upon petition therefor, it shall be the duty of the board of supervisors to make its order, to be entered in the minutes of the board, describing the boundaries of the district, or the territory comprising same, as modified, and, in the case of the inclusion of any lands, shall designate the division or divisions of the district (if it be then divided into divisions) of which the included lands shall become and be a part; and for that purpose the board of supervisors may cause a survey to be made of such portions of the district as the board may deem necessary; and a certified copy of the entry in the minutes of the board, excluding or including any land, certified by the clerk of the board, shall be filed for record in the recorder's office of each county within which are situated any of the lands of the district, and shall also be filed with the clerk of the board of directors of the district; and thereafter the boundaries of the district and the territory comprising the same shall be according to such order; but such district, notwithstanding such exclusion or inclusion, shall be and remain a water conservation district as fully to every intent and purpose as it would be had no change been made in the boundaries of the district, or had the lands excluded therefrom never constituted a

portion of the district, or the lands included therein had been so included at the time of the organization of the district. Nothing herein provided shall operate, in any manner, to release any of the land so excluded from the district from any obligation to pay any tax or assessment levied against said land, for the purposes of the district, prior to the making of the order of exclusion, but said land shall remain liable therefor the same as if no order of exclusion had been made; but any land so excluded shall not be held liable or chargeable for any obligation of any nature or kind which may be incurred by the district after the making of such order of exclusion. Before making any order including any land in the district, the board of supervisors may require, as a condition precedent thereto, that the petitioners shall pay to the district such respective sums as will, in the judgment of the board, be equitable in consideration of the benefits to the petitioners by the inclusion of the lands within the district.

Liability of
excluded
lands.

SEC. 41. Dissolution of District. Special Election. Any such district may be dissolved by the board of supervisors in the county in which it is organized in the manner following: Upon receiving a petition signed by fifty owners of land within the district, or by the owners of one-half of the lands comprising the district, requesting the dissolution of the district, the board of supervisors shall publish a notice once a week for two weeks in some newspaper in the county in which the district was organized, and also in each county in which any part of the district lies, giving notice that such petition has been filed with said board of supervisors, and that the board will hear said petition, and all objections thereto, at the next regular meeting of said board after the expiration of the time of publishing said notice (specifying the date), and directing all persons interested therein to show cause at such time, if any they have, why such district should not be dissolved. At the time appointed for such hearing, or at any time to which the same may be adjourned, the board of supervisors shall hear and pass upon said petition, and may grant or deny the same, and, if its decision shall be against the dissolution of the district, such decision shall be final and conclusive.

Dissolution
of district

If such petition be granted, the board of supervisors shall, by resolution, provide for and order the holding of a special election in such district, and shall submit to the qualified electors of the district the proposition whether or not the district shall be dissolved. The resolution shall recite the filing of the petition for dissolution, and the approval of the same by the board of supervisors, and fix a time for the holding of such election. Such election shall be noticed, conducted, and the returns thereof made and canvassed, in the same manner as is provided in this act for the election upon the question whether or not the district should be organized, excepting that the ballots to be used at said election shall contain the

Special
election

words, "Dissolution of District—Yes" or "Dissolution of District—No," or words equivalent thereto. If votes representing sixty per cent of the total number of acres of land in the district are cast in favor of the dissolution of such district, then the board of supervisors shall enter an order to that effect upon its minutes, declaring such district dissolved, and upon the entry of such order said district shall be dissolved; *provided, however*, if there shall be any outstanding indebtedness of such district, at the time of the dissolution thereof, the board of supervisors shall levy taxes for the payment of such indebtedness in like manner as though such district had not been dissolved, until all such indebtedness shall be fully paid, and shall cause such obligations to be paid according to their tenor out of the moneys raised from such taxes.

Disposition
of district
property.

Upon the dissolution of any such district, any and all real property belonging to the district, shall become and be the property of the county in which the same is situate; and the personal property belonging to the district shall be sold by the board of supervisors of the county in which the district was organized, and the proceeds from such sale, together with all moneys of the district, remaining after the payment of all of the obligations of the district, shall be paid into the general funds of the counties in which any part of the district lies in the same proportions that the assessed values of the lands and improvements thereon (according to the last assessment rolls) within the district in each of said counties bear one to the other.

SEC. 47. A redemption of the property sold may be made by the owner or any party in interest, within three years from the date of purchase, or at any time thereafter before a deed has been made and delivered. Redemption must be made in gold or silver coin, as provided for the collection of state and county taxes, and when made to the collector he must credit the amount paid to the purchaser or his assignees. In each report the collector makes to the board of directors, he must name the persons entitled to redemption money, and the amount due each. On receiving the certificate of sale, the county recorder must file it and make an entry in a book similar to that required of the collector. On the presentation of the receipt of the person named in the certificate, or of the collector for his use, of the total amount of the redemption money, the recorder must mark the word "redeemed," the date, and by whom redeemed, on the certificate and on the margin of the book where the entry of the certificate is made. If the property is not redeemed within the time herein provided, the collector or his successor in office, upon demand, must make to the purchaser, or his assignee, a deed of the property, reciting in the deed substantially the matters contained in the certificate, and that no person redeemed the property during the time allowed by law for its redemption. The collector shall receive from the purchaser for the use of the district two dollars for making such deed. Where the property has been sold to the district and a deed for it has been given to the district as the purchaser, such district shall have the same rights thereto, and to the rents, issues and profits thereof, as a private purchaser. In the event any land has been sold for nonpayment of assessments as herein provided, and no redemption has been made within the time allowed in this act therefor, in any district which may have been dissolved before the expiration of said redemption period, then a deed for the property sold and described in the certificate of sale must be made to the purchaser upon demand by the county treasurer of the county in which said irrigation district is or was situated. Such deed shall contain all the recitals of the certificate of sale, and in addition thereto, a recital that the district has been dissolved, and a deed executed in pursuance of the authority given in this section. [Approved by the Governor April 13, 1927. In effect July 29, 1927.]

The people of the State of California do enact as follows:

New section.

SECTION 1. A new section, to be numbered 1858a, is hereby added to the Political Code, to read as follows:

Unusual
increase in
attendance.

1858a. The county superintendent of schools is hereby authorized to use not more than five per cent of the unapportioned county elementary school fund in any school year as an emergency fund for meeting the conditions stated hereinafter. Whenever in any school year the average daily attendance in any elementary school district has been for a period of one school month and still is more than ten per cent larger than the average daily attendance was in that school district for the next preceding year, and by reason of such increased average daily attendance, the school district will be unable to maintain its schools for one hundred and seventy days of actual teaching, the county superintendent of schools shall investigate the needs of the said district and if he finds that the said district levied the maximum district taxes for the current school year and has used and is using its income wisely and economically for the maintenance of its schools as intended by the laws of the State of California, then he shall have power to increase the apportionment on average daily attendance to the said school district or districts as much as may be necessary to enable the said district or districts to maintain their schools for one hundred seventy days of actual teaching during the school year; *provided, however*, that the total amount thus apportioned to such district or districts shall not in any one year exceed five per cent of the total unapportioned county elementary school fund of the county.

CHAPTER 122.

An act to amend section thirteen of the "State medical practice act," approved June 2, 1913, as amended, relating to reciprocity certificates.

[Approved by the Governor April 13, 1927. In effect July 29, 1927.]

The people of the State of California do enact as follows:

SECTION 1. Section 13 of the "State medical practice act," approved June 2, 1913, as amended is hereby amended to read as follows: Stats. 1917, p. 107, amended.

Sec. 13. Said board must also issue a certificate to practice a system or mode of treating the sick or afflicted recognized by this act or any preceding practice act in the State of California to any applicant, without any examination, authorizing the holder thereof to practice a system or mode of treating the sick or afflicted in the State of California, upon payment of a registration fee of one hundred dollars, upon the following terms and conditions and upon satisfactory proof thereof, viz: The applicant shall produce a certificate entitling him to practice a system or mode of treating the sick or afflicted, as provided in this act or any preceding practice act of the State of California, issued either by the medical examining board, or by any other board or officer authorized by the law to issue a certificate entitling such applicant to practice a system or mode for treating the sick or afflicted either in the District of Columbia or in any state or territory of the United States, or if such certificate shall have been lost, then a copy thereof, with proof satisfactory to the board of medical examiners of the State of California that the copy is a correct copy. Such certificate must have been issued to such applicant within a period of ten years immediately preceding the filing of the application herein at the office of the board in the city of Sacramento, State of California, and the requirements from the college from which such applicant may have graduated, and the requirements of the board which was legally authorized to issue such certificate permitting such applicant to practice a system or mode of treating the sick or afflicted shall not have been at the time such certificate was issued, or in any degree or particular less than those which were required for the issuance of a similar certificate to practice a system or mode of treating the sick or afflicted in the State of California at the date of the issuance of such certificate, or which may hereafter be required by law and which may be in force at the date of the issuance of any such certificate; *and provided, further,* that said applicant shall furnish from the board which issued said certificate, evidence satisfactory to the board of medical examiners of the State of California showing what the requirements were of the college and of the board, issuing such certificate at the Licenses of other states.

date of such issuance. If, after an examination of such certificate, and the production on the part of the applicant of such further reasonable evidence of the said requirements as may be deemed necessary by the board of medical examiners of the State of California and any other or further examination or investigation which said board may see fit to make on its own part, it shall be found that the requirements of the board issuing such certificate were, when said certificate was issued, in any degree or particular less than the requirements provided by the law of the State of California at the date of the issuance of such certificate or that the applicant has not been a resident of the state from which the application is based for a period of one year subsequent to the issuance of such certificate he will not be entitled to practice within the State of California without an examination. An oral examination shall not be deemed to be of equal merit with a written examination and no certificate shall be issued in the case where a written examination was given in California and an applicant was given an oral examination in another state at the same time. The board is hereby authorized to enter into a contract or contracts of reciprocity with other states wherein the standard of such states is not in any degree or particular less than were the requirements in the State of California in the same year, for the issuance of a certificate to practice a system or mode of treating the sick or afflicted, such certificate to be similar in scope of practice as the certificate issued in the other state; *provided, however*, that the board may in its discretion accept an application based on a written examination and certificate to practice any system or mode of treating the sick or afflicted issued in the District of Columbia or any state or territory of the United States within ten years of application to the board of medical examiners of California if it is made to appear, and the board shall so find, that such extra state board maintained and required a standard in no particular or degree less than that required for a similar examination and certificate in the State of California on the date of such examination and certificate. Such application shall be verified and shall contain a statement showing: (a) the full name of the applicant; (b) all institutions at which he has studied and the period of such study, and all institutions from which he has graduated; (c) a statement of whatever certificate or certificates to practice medicine and surgery may have been issued to him, together with the date of such certificate and a description of the same, and, if required by the board, the certificates themselves, or satisfactory proof of their issuance; (d) a statement of all places in which said applicant has practiced medicine and surgery; (e) such other general information as to his past practice, as may be required by the said board. The said board shall make such independent investigation of the character, ability and standing of the applicant as it may deem proper and necessary, if it is determined that such applicant

is so qualified to practice as a physician and surgeon in the State of California and that his reputation and standing in the community in which he has previously practiced is good, the said applicant shall be entitled to receive a "physicians and surgeons certificate." The board of medical examiners shall require an oral examination of an applicant when ten or more years have intervened between the date of the filing of his application with the California board and the date of the certificate issued by a medical examining board or any other board or officer authorized by law to issue a certificate entitling such applicant to practice a system or mode of treating the sick or afflicted either in the District of Columbia or in any state or territory of the United States and used as the basis of said application to the California board. Said applicant must have been a resident of his last state of residence for a period of one year prior to date of filing his application in the State of California, they shall afford him an examination on a day suiting the convenience of the board not more than six months subsequent to the presentation of said application. Said examination shall be oral, practical, and clinical in nature, and full consideration shall be given to the duration and character of the applicant's practice. If after such last mentioned examination it is determined by a majority vote of the said medical examiners conducting said examination, that such applicant is so qualified to practice medicine and surgery within the State of California, and that his reputation and standing in the community in which he has previously practiced is good, the said applicant shall be entitled to receive a "physician and surgeon certificate." Each applicant on making such application shall pay to the secretary of the board, a fee of one hundred dollars, which shall be paid to the treasurer of the board, of which sum ninety dollars shall be returned to him should he not receive a certificate hereunder. All certificates issued pursuant to this section shall be marked across the face thereof "reciprocity certificate." Any person granted a "reciprocity certificate" to practice any system or mode for treating the sick or afflicted recognized by this or any preceding medical practice act in this state, such certificates not being of equal scope with the certificates known and designated as the "physician and surgeon certificate," will not be eligible for the "physician and surgeon certificate" as designated in this act without a full and complete compliance with the terms and provisions of sections 9, 10 and 11 hereof; *provided*, that any person who has been granted a reciprocity certificate to practice osteopathy under the laws of California prior to the date this amended act is in effect, may in the discretion of the board, thereafter be granted an oral, practical, or clinical examination for a physicians and surgeons certificate, after said applicant has filed an application based on a certificate issued by a board of examiners of either the District of Columbia or any state or territory of the United States, duly authorized to issue such certificate; *provided, further*, that the requirements of the

board which was legally authorized to issue such certificate permitting such applicant to practice a system or mode of treating the sick or afflicted shall not have been at the time such certificate was issued, in any degree or particular less than those which were required for the issuance of a similar certificate to practice a system or mode of treating the sick or afflicted in the State of California at the date of the issuance of such certificate. If after such oral, practical, or clinical examination it is determined by the said board of osteopathic examiners, by a majority vote thereof, that such applicant is qualified to practice as a physician and surgeon in the State of California and that his reputation and standing in the community in which he has practiced is good, the said applicant shall be granted a "physicians and surgeons certificate." The fee for filing such application shall be twenty-five dollars, fifteen dollars to be returned to the applicant in the event a certificate is not issued under the provisions hereof.

The amount of the principal due in each annual payment, need not be exactly the same, but with respect to each installment excepting the last may be made to differ not more than one thousand dollars from the amount obtained by dividing the total bond issue by the number of installments. Each installment excepting the last shall be an even multiple of one hundred dollars. The last installment shall be for the balance of the total issue not provided to be paid in the previous installments.

Interest payments.

The interest payment on said bonds shall become due and payable semiannually on such dates as will cause the final

installment thereof to become due and payable on the date of the maturity of the bond in the manner indicated in said form of bond. Sec. 23a. The board of supervisors shall each year, at the time of making the levy of taxes for county purposes, levy an ad valorem tax upon the taxable property in each drainage improvement district in its county organized under this act in an amount sufficient to raise the revenue which will be needed for the current year for maintaining and repairing, making changes in, additions to or extensions of the works and improvements of said district. Said tax, when levied, shall be entered upon the assessment roll and collected in the same manner as state and county taxes. When collected it shall be placed in the treasury of the county in a fund to be designated "drainage district improvement No.----- maintenance fund" (the number being that of the district), and shall be used only for the purpose for which it was raised. If said district includes land within more than one county as above provided in section 2, the ad valorem tax herein provided to be levied, shall, by each of said counties be collected from that portion of the district lying within its boundaries; and said counties shall pay said tax so collected over to the county having jurisdiction of said district. Sec. 24. The engineer of construction shall, subject to the approval of the board of supervisors, do all things necessary for the proper maintenance of the improvement and shall make such changes in, additions to or extensions of the improvement as may be found necessary to more completely drain or protect the lands within the district and accomplish the entire purpose for which the improvement was constructed. The compensation of any assistants or employees or the cost of any material necessary shall be payable out of the maintenance fund. If, for any reason whatsoever, there be insufficient money in the maintenance fund to pay the compensation of any such assistants or employees or the cost of any material, the county shall advance the remainder necessary to pay the compensation of said assistants or employees or the cost of said materials, and shall reimburse itself from moneys paid into said maintenance fund. Maintenance

Reassess-
ments.

SEC. 12. A new section to be numbered 24b is hereby added to said act to read as follows:

SEC. 24b. Whenever any assessment heretofore made or which may be hereafter made, is or shall be void or invalid for any cause, or if bonds have been, or shall hereafter be issued and such issuance shall not have been, or shall not be effective through the curative provisions hereof to make them valid and enforceable; then, in any of such events a reassessment shall be made. The true intent and meaning of this section is to make the cost and expenses of work made and done through an attempted compliance with this act, payable by the real estate benefited by making a reassessment therefor.

Court order.

Whenever any court of competent jurisdiction has set aside any assessment or has enjoined the issuance of bonds for any reason, it shall in and by its decree direct the making of a reassessment to cover the cost of said work and improvement. Likewise, if any such court has set aside any bonds or quieted the title of any lot against the lien of any such bonds or assessments, then it shall in and by its decree direct the making of a reassessment and the issuance of bonds thereon.

Determina-
tion of
amount.

The court in and by its decree shall give directions regarding the determination of the amount for the reassessment and the giving of credit for payments of interest and principal that may have been made—the intent and purpose of this provision being that the contractor, his successors or assigns, shall receive pay in full of the amount of his contract and incidentals together with interest thereon, but that all payments of principal or interest on void and unenforceable assessments or bonds shall be credited to the property against which they were assessed or attempted to be assessed.

Procedure.

The several officers whose duty it was under the proceedings in question to proceed with the making of the original assessment shall proceed with the making of the reassessment as follows: They shall first add interest at the rate named in the original proceedings from the date of the bonds, on the amount of the total assessment to the total amount thereof. They shall then proceed with the making of a reassessment for such total amount. Such reassessment shall be made in the same manner that the original assessment was made, following the one of the alternative methods that was pursued in making the original assessment. When the hearing has been had and the reassessment has been confirmed, then credit shall be given as directed by the decree of court for all payments that may theretofore have been made on the original assessments, and bonds thereupon be issued in the same manner provided for their issuance upon the original assessment to represent the amount of the original assessment with interest thereon less the credit or offset directed by the decree to be made by reason of previous

payments, as hereinbefore mentioned. Thereupon credit shall be noted on the reassessment for assessments that may have been paid, and the new reassessments against lands whose owners shall not have paid on the original assessment shall be adjusted in accordance with the decree of court so as to equitably adjust the payment of the amounts of the various reassessments between those that have previously paid some of the original assessments and those that have not.

 water or gas therefor, and may thereupon grant to such district, public corporation, mutual company, public utility company or private corporation or individual the right to attach his or its lines or system or water lines or system to such work or improvement, and to furnish through such work or improvement, water or gas to all lands which were assessed to pay the costs and expenses of constructing such work or improvement. The permission granted hereunder to any private corporation or individual (not a public utility) and the furnishing of gas or water thereunder shall not be construed as a holding out or undertaking of such corporation or individual to serve any and all persons or as constituting such corporation or individual a public utility or being any evidence thereof. Any such permission must expressly reserve to the legislative body granting the same the right to terminate the same whenever such municipality or county can conveniently furnish such gas or water, as the case may be, and if so terminated said county or municipality shall thereafter furnish such gas or water, as the case may be, and such permission shall further provide that if any district or public corporation be formed or extended (if said district or public corporation can conveniently serve the said territory with gas or water, as the

The commission shall have power, after hearing, to issue said certificate, as prayed for, or to refuse to issue the same, or to issue it for the construction of a portion only of the contemplated street railroad, line, plant or system, or extension thereof, or for the partial exercise only of said right or privilege, and may attach to the exercise of the rights granted by said certificate such terms and conditions, including provisions for the acquisition by the public of such franchise or permit and all rights acquired thereunder and all works constructed or maintained by authority thereof, as in its judgment the public convenience and necessity may require. If a public utility desires to exercise a right or privilege under a franchise or permit which it contemplates securing, but which has not as yet been granted to it, such public utility may apply to the commission for an order preliminary to the issue of the certificate. The commission may thereupon make an order declaring that it will thereafter, upon application, under such rules and regulations as it may prescribe, issue the

Upon the presentation to the commission of evidence satisfactory to it that such franchise or permit has been secured by such public utility, the commission shall thereupon issue such certificate.

(d) No corporation or person, their lessees, trustees, receivers or trustees appointed by any court whatsoever, shall hereafter begin to operate or cause to be operated any vessel for the transportation of persons or property, for compensation, between points exclusively on the inland waters of this state, without first having obtained from the railroad commission a certificate declaring that public convenience and necessity require such operation, but no such certificate shall be required as to termini between which any such corporation or person is actually operating vessels in good faith at the time this act becomes effective, under tariffs and schedules of such corporations or persons, lawfully on file with the railroad commission. Every applicant for such a certificate shall file in the office of the commission application and evidence in such form as shall be required by the commission, and the commission shall have power, after hearing, to issue said certificate as prayed for, or to refuse to issue the same, or to issue it for the partial exercise only of said privilege sought, or to issue it for operation between certain points only, and may attach to the exercise of the rights granted by such certificate such terms and conditions as, in its judgment, the public convenience and necessity require. Any right, privilege, franchise or permit held, owned or obtained by any such person or corporation for the operation of vessels between points exclusively upon the inland waters of this state may be sold, assigned, leased, transferred or inherited as other property, only upon authorization by the railroad commission, and the commission may at any time for a good cause suspend, and upon notice to the grantee of any certificate and opportunity to be heard revoke, alter or amend any certificate issued under the provisions of this subsection.

(e) The Legislature hereby declares that the provisions of this section are being enacted under the state's reserved power over public utilities or corporations, or both, as the case may be, for the purpose of acting on the right of the grantee of a public utility franchise granted by a county, city and county or incorporated city or town, to exercise rights thereunder, and not for the purpose of acting on the right of any city and county or incorporated city or town to grant any such franchise. The Legislature hereby declares that the provisions of this section shall be and remain in full force and effect concurrently with the right of any city and county or incorporated city or town to grant franchises for public utilities upon the terms and conditions and in the manner prescribed by law.

An act making appropriations for the support of the government of the State of California and for several public purposes in accordance with the provisions of section thirty-four of article four of the constitution of the State

of California, approved and adopted by the people at the general election held November 7, 1922.

[Approved by the Governor April 14, 1927, with reductions and eliminations attached hereto. In effect immediately.]

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

April 14, 1927.

To the Assembly of the State of California:

Assembly Bill No. 500 is approved by me except for two items specifically set forth which are reduced or eliminated in accordance with the powers conferred on me by the provisions of sections 16 and 34 of article IV of the Constitution, and which are objected to for the following respective reasons:

1. I object to the item on page 5 under the heading "Administrative" reading as follows: "For support of secretary of state two hundred thirty-seven thousand six hundred fifty dollars (\$237,650)" and reduce the amount to two hundred twenty-two thousand six hundred fifty dollars (\$222,650) for the reason that the measure recently passed by the Legislature repealing the corporation license tax act makes possible this reduction in the expenses of the office of the secretary of state, according to the opinion of that office. Items disapproved.

2. I object to the item on page 10 reading: "For support of California highway commission and state highway engineer, forty-one thousand six hundred dollars (\$41,600), payable from highway maintenance fund" for the reason that in my opinion ample provision for such expenditures is included in the language of the item of appropriation on page 10 reading: "For general administration of California highway commission, and maintenance and reconstruction of highways, twenty-seven million one hundred thousand dollars (\$27,100,000), payable from highway maintenance fund"

It was the intention at the time of my recent message to you suggesting amendments to the budget that this item be eliminated and a corresponding reduction in the budget was reported to you in that message.

It is evident that savings will be made as the result of consolidations to be effected under the bills for reorganization of various state departments.

I am convinced, however, that these savings will be accomplished within the budget itself and reflected in unexpended balances to be restored to the general fund at the close of the biennium. I therefore feel that I should not at this time make further changes in the appropriations passed by the Legislature, in anticipation of legislation not yet finally enacted.

Respectfully submitted.

C. C. YOUNG,
Governor.

The people of the State of California do enact as follows:

SECTION 1. The following sums of money are hereby appropriated for the use and support of the State of California for the seventy-ninth and eightieth fiscal years and unless otherwise herein provided shall be paid out of the general fund in the state treasury. Budget appropriations.

Whenever by constitutional or statutory provision the revenues or receipts of any institution, department, board, bureau, commission, officer, employee, or other agency, or any moneys in any special fund created by law therefor, are to be used for salaries, support or any proper purpose, expenditures shall be made therefrom for all such purposes, and not from the general fund, to the extent only of the amount herein appropriated unless otherwise herein stated; *provided, however,* that if no amount is herein appropriated for such purposes or any part thereof, any appropriation therefor heretofore made by any existing constitutional or statutory provision shall continue to be governed thereby. Use of special funds.

Support to include what.

Whenever herein an appropriation is made for support it shall, unless otherwise herein provided, include salaries and all other proper expenses incurred, in connection with the institution, department, board, bureau, commission, officer, employee, or other agency, for which such appropriation is made.

Public works balances.

Whenever herein an appropriation is made for the construction, improvement or repair of any building, structure, or works of any character, any unexpended balance thereof shall not, unless otherwise herein provided, revert to the general fund at the end of the fiscal year or years for which such appropriation was made but shall continue available for the purposes for which the same was appropriated until one year after the close of the biennial period for which such appropriation is made.

If the state commissioner of secondary schools find such charge to be true, he shall at once report his finding to the state board of education which shall notify such publisher and notify the principal of each high school and the clerk of each high school board in the State of California that such book or books shall not thereafter be adopted or purchased by any of the public school authorities in the state. The books so adopted shall be put in actual use in such district not later than the beginning of the school year next following such adoption. A majority vote of the membership of any board shall determine which of said books prescribed by the state board of education shall be used in the schools under its control, and after such books have been selected and adopted by said board, no book shall be changed, nor any other book substituted therefor, except as otherwise provided in this act, for a period of four years after the date of its adoption, as shown by the official records of the board; *provided*, that any such school textbooks as may be in use in the public schools of California when this act goes into effect may be continued until textbooks are purchased and distributed by the high school board in accordance with the provisions of this act, but when said books are changed or other books substituted, the books adopted shall be from the list prescribed by the state board of education in pursuance of this act and shall be used for a full period of four years.

High school boards to adopt and use.

Sec. 9. The high school board of each and every high school district shall at a regular meeting, cause to be ascertained the number of each of such books adopted as the schools under its charge require. The clerk or secretary of each high school board may order the book so agreed upon direct from the publisher, agent, or depository in California, who, on receipt of such order, shall ship the books as directed without delay. It shall be the duty of the clerk or secretary, or other person named by the board for such purpose, to examine the books when received, and if found to be correct and in accordance with the order, a warrant payable out of the county or district high school fund for the proper amount, shall be issued and remitted to the publisher within thirty days. (a) Installment shares shall be either "serial" or "permanent" in form. When issued in "serial" form the periodical dues on shares in each series shall commence with the date of the issue of such series and the holder must pay such dues and such amounts per share and at such times as the by-laws may provide, and such payments must continue on each share until, with the profits allotted thereto, it reaches its matured value or is withdrawn or canceled. On all such issues the dividends shall be apportioned or credited equally to each share in each series. No share of a prior series shall be issued after the issue of shares in a new series, except by way of transfer. Shares issued in "permanent" form may be issued at any time and the dividends thereon may be credited in the pass books of the members. Such shares shall be withdrawable under rules to be provided in the by-laws and fully set forth in the pass books issued. The matured value of this class of shares shall not exceed in volume twenty-five per centum of the matured value of all other shares in force. No membership fee, fine or forfeiture shall be chargeable against such shares.

SEC. 5. The board of supervisors of any county or city and county wherein any garbage disposal district is established, shall be the governing body thereof and shall have the power to make and enforce all rules and regulations necessary for the administration and government of such district, and for the collection and disposal of garbage and other refuse matter therein; to appoint agents and employees for such districts sufficient to maintain and operate the property acquired for the purposes of the district; to acquire by gift, purchase, condemnation or otherwise, in the name of the county, and to own, control, manage and dispose of any real or personal property, or interest therein, necessary or convenient for the collection and disposal of the garbage or other refuse matter of said district, and to perform all of the acts necessary or proper to accomplish the purposes of this act.

The title of all property which may have been acquired for a garbage disposal district created under the provisions of this act shall be vested in the county or city and county wherein such garbage disposal district is located. Whenever all of the territory in such garbage disposal district shall be annexed or otherwise included within any municipal corporation, then such garbage disposal districts shall be deemed dissolved and such property shall thereupon become the property of such municipal corporation. All money in the county treasury to the credit of such garbage disposal district shall upon the annexation or inclusion of such district as above noted, be forthwith transferred to the treasury of such municipal corporation and be used for the purpose for which the same was available prior to such transfer and none other.

Annexation
by municipi-

Tax levy.

SEC. 7. The board of supervisors shall levy a tax each year upon the taxable property in each garbage disposal district sufficient to defray the cost of the disposal of garbage and other refuse in said district, and of the maintenance of said district, and to meet such other expenditures as are authorized by this act in connection therewith. Such tax shall be levied and collected at the same time and in the same manner as general county taxes levied for county purposes and when collected shall be paid into the county treasury and shall be used in furtherance of the purposes of this act.

SEC. 8. Any such garbage disposal district may be dissolved by the board of supervisors as in this section provided. Upon receiving a petition signed by fifty or more freeholders and residents of such district, or by a majority of such freeholders and residents if there are less than three hundred freeholders and residents in such district, requesting the dissolution of such district, the board of supervisors shall fix a time for the hearing of such petition, which shall not be less than ten days nor more than thirty days after the receipt thereof, and shall, at least a week prior to the time so fixed, publish a notice of such hearing by one insertion in a newspaper circulated in such district. At the time appointed for said hearing or at any time to which the same may be continued, the board of supervisors shall hear and pass upon such petition and may grant or deny the same, and its decision thereon shall be final and conclusive. If such petition shall be granted, the board of supervisors shall by resolution order the dissolution of such district and such district shall thereupon be dissolved, and the property of such district shall remain the property of the county in which such district is located, and any money remaining in the fund of such district shall be expended in the maintenance and repair of the highways of such district whether such highways at the time of dissolution are in incorporated territory or in unincorporated territory.

Dissolution
of district.

SEC. 9. Any portion of a garbage disposal district which will not be benefited by remaining within such district may be withdrawn therefrom as in this section provided. Upon receiving a petition signed by fifty or more freeholders within the portion desired to be withdrawn from any garbage disposal district, or by a majority of such freeholders, if there are less than one hundred freeholders within the portion sought to be withdrawn, requesting the withdrawal of such portion from the district on the ground that such portion will not be benefited by remaining in said district, the board of supervisors shall fix a time for the hearing of such petition and for hearing protests to the continuance of the remaining territory as a garbage disposal district, which shall not be less than ten days, nor more than thirty days after the receipt thereof. The said board shall, at least a week prior to the time so fixed, publish a notice of such hearing by one insertion in a newspaper circulated in said district, which the board deems most likely to give notice to the inhabitants thereof of the proposed withdrawal.

Withdrawal
of territory.

Any person interested may appear at said hearing and object to the withdrawal of said portion from said district, or may object to the continuance of the remaining territory as a garbage disposal district, and the board of supervisors shall consider all objections and shall pass upon the same, and if it finds that said portion of the district sought to be withdrawn will not be benefited by remaining within said district, and that the territory not sought to be withdrawn will be benefited by continuing as a garbage disposal district, then it shall

grant said petition. Upon the withdrawal of any territory from a garbage disposal district, as in this section provided, all property acquired for the district shall remain vested in the county and be used for the purpose of the district; *provided, however*, that if the said territory sought to be withdrawn from said district includes any incorporated territory, then such proportion of the money in the county treasury to the credit of the fund of such district, shall be paid over to said municipal corporation as the territory of said municipal corporation sought to be withdrawn from said district bears to the territory of the entire district.

Annexation
of contiguous
territory.

SEC. 10. The boundaries of any such garbage disposal district may be altered, and outlying contiguous districts, whether the same be incorporated or unincorporated, be annexed thereto in the following manner: A petition signed by fifty or more freeholders within the territory proposed to be annexed, or by a majority of such freeholders if there are less than one hundred within the portion proposed to be annexed, designating the boundaries of such contiguous territory proposed to be annexed and asking that such territory be annexed to said garbage disposal district, shall be presented to the board of supervisors of the county in which said garbage disposal district is situated.

At their first regular meeting after the presentation of said petition, said board of supervisors shall cause notice of said petition to be published in a newspaper published and circulated in the territory sought to be annexed, if there be such a newspaper, otherwise, by posting copies of said notice in three of the most conspicuous places in said territory proposed to be annexed, for three weeks prior to the date to be fixed by said board for the hearing of said petition. Upon the date fixed for such hearing, or to which it may be continued, said board of supervisors shall take up and consider said petition, and any objections which may be filed to the inclusion of any property in said district.

Said board of supervisors shall have the power by order entered on its minutes to grant said petition either in whole or in part, and by order entered on its minutes to alter the boundaries of said garbage disposal district and to annex thereto, all, or such portion of said contiguous territory described in said petition as will be benefited by inclusion in said garbage disposal district, and from and after the making of said order, such territory shall become and be a part of such garbage disposal district, and shall be taxed, together with the remainder of said district, for all taxes to be thereafter levied by said board of supervisors for the operation and maintenance of said garbage disposal district. No territory which will not be so benefited, or which is not contiguous to said garbage disposal district, or which is not described in said petition, shall be included in said district; *provided*,

however, that less than the whole of any incorporated city shall not be annexed to such district except by unanimous consent of the governing body of such city.

At the time designated the board must proceed to examine and adjust such claims. It may hear evidence in support of or against them and, with the sanction of the governor, report to the Legislature such facts and recommendations concerning them as may be proper. In making such recommendations the board may state and use any official or personal knowledge which any member thereof may have touching such claims.

668. The controller must not entertain, for the second time, a demand against the state once rejected by him or by the Legislature unless such facts are subsequently presented to the board of control as in suits between individuals would furnish sufficient ground for granting a new trial. Any person interested, who is aggrieved by the disapproval of a claim by the controller, may appeal from the decision to the board of control and if in the opinion of the board of control facts are presented justifying such action, the controller shall reconsider his rejection of said claim. After final rejection of a claim by the controller following such reconsideration any person interested may appeal to the Legislature of the state by filing with the board of control a notice of such appeal, and upon the receipt of such notice the board must transmit the rejected demand, and all the papers accompanying the same, with a statement of the evidence taken before it, to the Legislature.

Claims upon the contingency funds of either house of the Legislature and for official salaries, are exempt from the operation of the provisions of this article.

Audit of
claims by
controller.

670. Whenever the chairman of the board of control has reason to believe that the controller has drawn or is about to draw his warrant without authority of law, or for a larger amount than the state actually owes, or in a manner not in conformity with the rules adopted by the board of control governing presentation and audit of claims, the chairman must notify the treasurer of state not to pay the warrant so drawn or to be drawn; and thereupon the treasurer is prohibited from paying warrant whether already drawn or not, until he is otherwise directed by the Legislature.

No investment shall be made which with the amounts previously invested shall reduce the uninvested portion of the fund below the amount of ten thousand dollars, and whenever a demand presented against said fund will reduce the amount of cash therein below the specific amount of ten thousand dollars it shall be the duty of the director to sell such bonds belonging to said fund as he may deem proper, for the purpose of making good the cash retention of ten thousand dollars. Bonds purchased under the provisions of this section must be delivered to the state treasurer, who shall keep them as a portion of said estates of deceased persons' fund, and the interest upon such bonds shall be paid into the state school fund and apportioned like other moneys employed for the support of common schools.

of said reclamation district, may apply to the board of trustees of said reclamation district for an exchange of said warrants on said terms, and, thereupon, it shall be the duty of the board of trustees of said reclamation district to make said exchange. When any such exchange shall have been effected, it shall be the duty of the board of trustees of said reclamation district to notify the county treasurer of the county in which such land, or the largest portion thereof, is situated, of such fact, and after such exchange shall have been effected, said warrants of said district shall be marked: "Surrendered for warrants of Sacramento and San Joaquin Drainage District," and proper entries of such surrender payment shall be made upon the books of the reclamation district, and also of the county treasurer of the county having the custody of the funds of said reclamation district. If from such determination it appears that the amount that would have been assessed against any tract of land is greater than the amount to which such tract or owner thereof would have been entitled if such distribution had been made, such excess shall be assessed to such tract respectively. If the amount is less than the amount to which such tract or owner would have been entitled respectively, the difference shall be paid to the owner of such tract by the reclamation district.

The commission shall from time to time issue such direction to sell such bonds as in the opinion of a majority of said commission shall be deemed necessary or expedient; and the proceeds from the sale of any

and all such bonds shall be deposited in the state treasury to the credit of the California Tenth Olympiad fund.

The state treasurer shall not accept any bid which is less than the par value of the bond or bonds bid for and to the amount of the accepted bid there shall be added in each case as a part of the purchase price to be paid by the bidder the amount of interest which shall have accrued on the bond or bonds bid for between the date of purchaser's payment for said bond or bonds and the last preceding interest maturity date. Each bid shall be in writing and signed by the bidder and sealed and shall be deposited with the state treasurer not later than the last business day preceding the date of sale. At the time of sale the state treasurer shall open said bids and accept the bid of the highest bidder for cash, save and except that no bid shall be accepted which shall be lower in amount than the par value of the bonds bid for and that the state treasurer shall reject all bids if instructed so to do by the said commission. The purchase price of the bonds sold shall be payable within ten days after the acceptance of the bid therefor, and if not so paid, the successful bidder shall have no right in or to said bonds or by reason of said bid or to the recovery of said deposit accompanying said bid or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the state treasurer upon notice as herein provided in case of original sale. Bonds sold shall be delivered to the purchaser immediately upon and not before the payment of the purchase price therefor. Before delivering any of said bonds, the state treasurer shall detach therefrom all interest coupons which have matured before the date of the payment of the purchase price therefor. The state treasurer may by public announcement at the time and place fixed by him for said sale continue such sale to such time and place as he may at the time of said continuance designate. Reassess-
ments

Sec. 28. Whenever any assessment heretofore made or issued or filed or which may be hereafter made, issued or filed in the office of the clerk is or shall be void, or unenforceable, for any cause or if bonds shall have been, or shall be, issued to represent or be secured by any assessments and such issuance shall not have been, or shall not be effective through the curative provisions in relation thereto, or any curative act that may be passed by the Legislature in relation thereto to make them valid and enforceable, then, in any of such events a reassessment therefor may be issued. The true intent and meaning of this section is to make the cost and expense of work or improvement made through an attempted compliance

with this act, payable by the real estate benefited by such work or improvement by making a reassessment therefor.

Such power of reassessing embraces both a full and a partial reassessment, and is not exhausted by a single attempted exercise thereof.

A reassessment shall be ordered under any one of four When to be ordered circumstances:

First—Where the owner or holder of any assessments, or bonds issued under this act to represent or be secured by assessments, or the person who would own or hold any such assessment or bonds if the same were issued, request the legislative body of the city in which the assessment has been or shall be made, filed or issued to order a reassessment. In such event if said legislative body be of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented or secured by the bonds owned or held by such petitioner, or which would be owned or held by petitioner if issued.

Second—Whenever any court of competent jurisdiction in any suit to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent or be secured by any assessments issued under this act, has for any reason held such lien unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Third—Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment, or in any suit to quiet title against the lien of any such assessment, or bond, or in any suit to enjoin the making, filing, confirmation or issuance of any assessment or bond to pay for the cost and expenses of any work done hereunder, shall in its judgment decree such assessments or bonds to be void, or unenforceable, or shall enjoin the making, filing or issuance or confirmation of any such assessment or bond, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Fourth—Whenever any contractor or assignee of a contractor shall have done or performed any work or improvements pursuant to proceedings had and taken in attempted compliance with the provisions of this act, and whenever prior to the issuance of any assessment, any court of competent jurisdiction in any suit to invalidate the contract or any of such proceedings shall for any reason declare said contract or other proceedings to be invalid, then such court shall in and by its decree direct the making of a reassessment for the reasonable value of the work and improvement actually done and performed in good faith by the contractor, or such portion thereof as was of a kind that could lawfully have been ordered under the provisions of this act.

Manner of
making re-
assessment.

The manner of making, issuing and enforcing the reassessments shall be as follows:

The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, proceed to make a reassessment in the following manner:

If the reassessment be a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. If it be a full reassessment, however, then it shall be upon the lots fronting on said work if the original assessment was one made on the front foot plan; if the original assessment was one made against a district, then the superintendent of streets shall prepare and file with the reassessment a diagram showing the lots, pieces or parcels of land deemed by him to have been benefited by the work or improvement. The reassessment shall assess upon and against each of the lots, pieces or parcels of land contained therein an amount arrived at as follows: The benefits derived, or to be derived by each of the said lots, pieces or parcels of land from the work or improvement estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed. Then there shall be added thereto interest thereon from twenty days after the date of such filing of the original assessment at the rate of seven per cent per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost and expenses of the work or improvement. Such assessment need not be in any prescribed form, but shall refer to the original assessment filed, give the date of filing of said original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time must be at least twenty days after the reassessment is so presented. The city clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the improvement for which the assessment was made, was published unless the legislative body directs publication in some other paper. If the reassessment is to be against the lots fronting the improvement, this fact shall be stated in the notice. If the reassessment is to be against the property in a district, then this fact shall be stated in the notice and a description of the district shall be set forth and the assessment diagram referred to for particulars. Such notice shall

hearing.

be published for five insertions, if the paper be a daily, or by two insertions if the paper be published less frequently. At the time fixed for said hearing, or at such time or times to which the same may be thereafter adjourned, the legislative body shall consider the objections to said reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot, piece or parcel of land thereby benefited the amount of the actual benefits derived from said improvement. When such reassessment shall have been revised, or corrected or modified so as to comply with the judgment of said legislative body, then it shall pass a resolution confirming the reassessment. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city clerk, that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the same, together with interest on such payments at the rate of seven per cent per annum from and after the date of such payments. Such reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable by suit in the same manner provided in this act for enforcing an original assessment, and shall have the same weight in evidence. In the event that bonds issued under or upon the security of the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lots, pieces or parcels of land covered thereby. When the reassessment is recorded the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New bonds shall not be issued until the original bonds are delivered up to the city treasurer, who shall cancel the same. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment.

In the event such work or improvement made in attempted compliance with this act, is fully completed to the satisfaction of the street superintendent or city engineer as the case may be then it shall be the duty nevertheless of the proper officer to make and file an assessment for the costs and expenses thereof, so as to form the basis of a reassessment in the event such assessment should be unenforceable.

Bond for
labor and
materials

Sec. 19. Every contractor, person, company or corporation, including contracting owners, to whom is awarded any contract for street work under this act, shall at the time of signing and executing said contract, file with the superintendent of streets a good and sufficient bond to the satisfaction and approval of said street superintendent, in a sum not less than one-half of the total amount payable by the terms of said contract. Such bonds shall be executed by either two or more good and sufficient sureties, or by corporate surety, as provided by law, in an amount not less than the sum specified in the bond, and must provide that if the contractors, person, company or corporation, or his or its subcontractors fail to pay

for any materials, provisions, provender or other supplies or the use of implements or machinery used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, that the sureties will pay for the same in an amount not exceeding the sum specified in the bond, and also, in case suit is brought upon such bond, a reasonable attorney's fee to be fixed by the court. Such bond must, by its terms, inure to the benefit of any and all persons, companies and corporations entitled to file claims under this act, so as to give a right of action to them or their assigns in any suit brought upon said bond.

Any materialman, person, company or corporation furnishing materials, provisions, provender or other supplies used in, upon, for or about the performance of the work contracted to be executed or performed, or any person, company or corporation renting or hiring teams or implements, or machinery for, or contributing to, said work to be done, or any person who performs work or labor upon the same, or any person who supplies both work and materials and whose claim has not been paid by the contractor, company or corporation to whom the contract has been awarded, or by the subcontractors of said contractor, company or corporation, may at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by section 1187 of the Code of Civil Procedure, file with the superintendent of streets, a verified statement of his or its claim, together with a statement that the same, or some part thereof, has not been paid. It shall be lawful for the superintendent of streets, within ten days after the completion of any such contract or work of improvement provided for in this act, or within ten days after there has been a cessation from labor thereon for a period of thirty days, to file for record in the office of the county recorder of the county where the property is situated, a notice, setting forth the date when the same was completed, or on which cessation from labor occurred, together with the name of the municipality and description of the property or public work or improvement, sufficient for identification, and the name of the contractor or contractors, and the name of the surety, which notice shall be verified by such superintendent of streets, and in case such notice be not so filed, the failure to so file shall have the same effect as provided in section 1187 of the Code of Civil Procedure, with reference to the "owner." Any laborer, materialman, person, company or corporation entitled to the benefit of this act as hereinbefore set forth, whose claim has not been paid by the said contractor, company or corporation, or his or its subcontractors, shall severally have a first lien upon and against the assessment, any partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment. And actions against the said municipality or superintendent of streets to establish such liens brought by any claimant who has filed

Lien for

claims under this act, or by his assigns, shall be governed by the provisions of sections 1184, 1184a, 1184b and 1184c of the Code of Civil Procedure, and the verified notice provided for in the said section shall be equivalent for all purposes to the verified claim provided for herein.

Effect of
assignments
by contractor.

No assignment by the contractor of the whole or any part of the money, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein or after said claim is filed, shall be held to take priority over claims filed under this section, and such assignment shall have no binding force in so far as the rights of the claimants who file claims hereunder, or their assigns, are concerned; *provided*, that nothing in this section shall be construed to prohibit payment to the contractor or his assigns, so long as no verified claim is on file before the disbursing officer shall have actually surrendered possession of the assessment, partial assessment, any reassessment, and any bonds which may be issued to represent any assessment or reassessment, or the payment to said contractor or his assigns of any assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, due him or his assigns over and above the total amount of the claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with said claims.

Action
against
surety.

Suit against the surety or sureties on the bond of the contractor required hereunder may be brought by any claimant, or his assign, at any time after the claimant has ceased to perform labor or furnish material or both and until the expiration of six months after the period in which verified claims may be filed as provided herein. The filing of a verified claim shall not be a condition precedent to the maintenance of such action against the surety or sureties on the bond and an action on such bond may be maintained separately from and without the filing of an action against the municipality and/or officer by whom such contract was awarded. And upon the trial of any such action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs, and to be included in the judgment therein rendered.

Bond to
guarantee
payment
of judgment.

If the contractor, subcontractor or other person against whom any claim is filed as provided in this act shall dispute the correctness or validity of any claim so filed, it shall be lawful for the municipality or superintendent of streets by whom the contract for the improvement was awarded, in its or his discretion, to permit the contractor to whom said contract was awarded to deliver to such municipality or superintendent of streets a bond executed by some corporation authorized to issue surety bonds in the State of California, in

a penal sum equal to one and one-fourth times the amount of said claim, which said bond shall guarantee the payment of any sum which said claimant may recover on said claim together with his costs of suit in said action, if he shall recover therein, and upon filing of said bond by and with the consent of such municipality or superintendent of streets, then such municipality or superintendent of streets, shall not withhold any funds, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment from said contractor on account of said claim. The sureties upon said bond shall be jointly and severally liable to said claimant with the sureties upon the original bond inuring to the benefit of person entitled to file claim under this act and given in accordance with the provisions of this act.

SECTION 1. Section 1734c of the Political Code is hereby amended to read as follows: Stats 1923,
p 265,
amended

1734c. Except as otherwise provided by law, the boundaries of a high school district shall be changed only between the first day of October and the tenth day of February in any year. Boundary changes.

When two-thirds of the heads of families residing in any elementary school district which is a part of any high school district and the nearest part of which is more than six miles by traveled road from the high school building of said high school district, as shown by the affidavit of one or more of the petitioners, shall present to the county superintendent of schools having jurisdiction over such high school district, a petition asking that such elementary school district be excluded from such high school district and annexed to a contiguous high school district, accompanied by an agreement signed by the high school board of the high school district to which annexation is sought, agreeing to such annexation; such superintendent of schools shall, after verification of the signatures thereto and finding them sufficient, transmit such petition and agreement with or without his recommendation thereon, to the board of supervisors of the county in which such elementary school district is situated. Transfer of elementary school district to another high school district

If, by the exclusion of the elementary school district, the assessed valuation of the property of the high school district would be less than five million dollars, except, where an elementary school district has become severed from the other districts comprising the high school district, or if by the exclusion of the elementary school district the outstanding bonded indebtedness of the district would exceed five per cent Election.

of the value of the taxable property remaining in the district, said board of supervisors shall refuse to call an election for the purpose of determining whether said elementary school district shall be excluded. Otherwise, said board of supervisors may, in its discretion, within thirty days after receipt of the petition and agreement, call an election in the district so petitioning, and shall appoint three qualified electors of the district to conduct the election. Said election shall be held at the public schoolhouse of the district petitioning and shall be called by posting notice at least fifteen days before the election in three public places in the district, one of which shall be at the public schoolhouse, if there be such in the district; said board shall also publish the notice once a week for two weeks in a newspaper published in the district, or, if there be none such, in a newspaper in general circulation in the district.

Conduct of
election

Said election shall be conducted by officers appointed for that purpose in the manner provided by law for conducting school elections; the ballots at such election shall contain the words "For exclusion from ----- high school district and annexation to ----- high school district"; the name of the high school district from which exclusion is sought and the name of the high school district to which annexation is desired must be printed on the ballot, whereon the elector shall stamp or make a cross after the word "yes" or the word "no," also printed on said ballot.

Canvass
of vote

It shall be the duty of said election officers to canvass the vote of said election and report the result to the said board of supervisors within five days subsequent to the holding of said election.

Transfer
unless
protested

If two-thirds of the votes cast at such election shall be in favor of such exclusion and annexation, said board of supervisors shall, within fifteen days after receiving such notice, notify the high school board of the high school district of the result of such election, and if said high school board does not protest the exclusion of such district from the high school district, within thirty days after receiving notice, the board of supervisors shall exclude said territory from said high school district and annex it to the contiguous high school district, as provided in said election; however, should the high school board of said high school district protest such exclusion and annexation, the board of supervisors shall notify the superintendent of public instruction of the election and its result, and of the protest of the high school board, whereupon the superintendent of public instruction shall create a board of review composed of three county superintendents of schools of counties not contiguous to the county or counties in which is located the high school district from which the elementary school desires separation.

Hearing
of protest

Said board of review shall, upon a date set by the superintendent of public instruction, survey the situation and conduct a public hearing on the question as to whether or not the

elementary school district shall be excluded from the local high school district and annexed to a contiguous high school district. Said hearing shall be held at the high school building of the high school district to which the territory desiring exclusion at the time belongs; and said hearing shall be conducted under such rules of procedure as may be prescribed by such board of review, which may, in its discretion, require any or all evidence and information to be submitted under oath administered by a member of the board.

The superintendent of public instruction shall notify the county superintendents concerned and said county superintendents shall notify the interested high and elementary school boards, of the date of the inspection and the date and place of the public hearing, and shall give publicity to said meeting by printing an announcement of the same in a newspaper published in the high school district, or, if there be none such, in a newspaper in general circulation in said district. Notice of hearing.

In arriving at its conclusion, the board of review shall take into consideration the present and future effect on public welfare only, and said board shall, before it adjourns, recommend in writing to the board of supervisors either that the petition of the elementary school district be granted, or, if it so decrees, that it shall be denied. Recommendation.

The board of supervisors must, within fifteen days thereafter, act in accordance with the recommendations contained therein, entering upon its minutes an order excluding the territory of said elementary school district from the high school district and annexing it to the contiguous high school district, if such be the recommendation of the board of review; or an order denying exclusion and annexation of said elementary school district, if such be the recommendation of the board of review. Supervisors to act

A certified copy of the order of the board of supervisors shall be entered by its clerk in his record of high school districts, and he shall also send copies thereof to the county clerks of each county in which any part of such elementary school district or high school district is situated; and they shall also enter it in their records of high school districts; *provided, however,* that the district so withdrawing shall not be released from responsibility for any of the bonded indebtedness incurred while it was a part of the high school district from which it has withdrawn. Record

Superintendents of schools are hereby authorized and required by law to perform the duties prescribed herein. The high school board of any high school district wherein the superintendent of public instruction has ordered a review of the petition of an elementary school district to be excluded from said high school district and annexed to a contiguous high school district, is hereby authorized and required to pay the actual and necessary traveling expenses of the members of the board of review, provided for in this section. The people of the State of California do enact as follows:

Stats 1923,
p. 640,

SECTION 1. Section 34 of an act entitled "An act approving the report of the California debris commission transmitted to the speaker of the house of representatives by the secretary of war on June 27, 1911, directing the approval of plans of reclamation along the Sacramento river or its tributaries or upon the swamp lands adjacent to said river, directing the state engineer to procure data and make surveys and examinations for the purpose of perfecting the plans contained in said report of the California debris commission and to make report thereof, making an appropriation to pay the expenses of such examination and surveys, and creating a reclamation board, and defining its powers," approved December 24, 1911, as amended, is hereby amended to read as follows:

In case the amount remaining unpaid, including interest, upon the total of said assessment on any tract of land entitled to such pro rata payment or credit out of the money so received from the state shall be less than such pro rata payment or credit to which such tract is so entitled, then the surplus of such pro rata payment or credit shall be by the reclamation board paid to the owner of such tract in cash out of said money so received from the state and deducted from the amount to be paid over by the reclamation board to the state treasurer as hereinafter directed.

An act to amend section one thousand eight hundred fifty-eight of the Political Code, relating to the apportionment of school funds and to school attendance.

[Approved by the Governor May 10, 1927. In effect July 29, 1927.]

The people of the State of California do enact as follows:

SECTION 1. Section 1858 of the Political Code is hereby amended to read as follows: Stats 1921,
p. 709,
amended.

1858. The school superintendent of every county and city and county must apportion all state and county school moneys for the elementary grades of his county or city and county as follows: Apportionment for elementary grades.

First—He must ascertain the number of teachers each school district is entitled to by calculating one teacher for the first thirty-five or a less number of pupils in average daily attendance and one additional teacher for each additional thirty-five pupils or fraction of thirty-five pupils in average daily attendance, in the district, and one additional teacher for each three hundred pupils in average daily attendance in the district as shown by the annual school report of the school district for Number of teachers in each district

the next preceding school year; and in each school district wherein a separate class is established for the instruction of the deaf, or the blind, or the crippled, as provided in section 1618 of this code, an additional teacher for each nine deaf, or blind, or crippled children, or fraction of such number not less than five actually attending such class as shown by the school report of the school district for the next preceding school year; and in addition to the teachers hereinbefore provided for each school district of the county or city and county, he must calculate one additional teacher for the county or city and county for each five hundred pupils or a major fraction thereof in average daily attendance in the aggregate in those school districts of the county, or city and county, in each one of which there were less than three hundred pupils in average daily attendance as shown by the annual school report of the county, or city and county for the next preceding school year.

Number of
teachers in
county

Second—He must ascertain the total number of teachers for the county or city and county by adding together the number of teachers allowed as provided in subdivision one hereof. He must make an annual report of the schools of his county or city and county under oath, to the superintendent of public instruction not later than August first of each year and must report the number of teachers ascertained or allowed to his county or city and county by the rule or provisions of subdivision one hereof.

Apportion-
ment per
teacher
allowed.

Third—One thousand four hundred dollars shall be apportioned to each school district for each and every teacher allowed to it; *provided*, that one thousand four hundred dollars shall be apportioned to each county or city and county for each teacher allowed on the aggregate average daily attendance of pupils in attendance in the various school districts, each of which had less than three hundred pupils in average daily attendance for the next preceding school year, and the funds thus apportioned shall constitute an emergency and supervision fund under the control of the superintendent of schools of the county or city and county, and shall be used by him as provided by law.

Apportion-
ment of
remainder.

Fourth—All school moneys remaining on hand after apportioning school moneys as provided for in subdivision three of this section, must be apportioned to the several districts in portion to the number of pupils in average daily attendance in each school district during the next preceding school year.

In any newly organized school district where school was not maintained during the school year in which it was organized the county superintendent of schools must apportion one thousand four hundred dollars to the newly organized school district for the purpose of maintaining school therein during the school year next succeeding the school year in which it was organized.

If, in any school year, any existing school district shall be suspended by the board of supervisors upon the recommendation of the county superintendent of schools, one thousand

four hundred dollars shall be apportioned to such suspended school district during the year in which such district was suspended and such portion of such sum of money as may be needed may be used from time to time to insure and maintain the school property of the suspended district.

Fifth—The board of trustees or the city board of education, of each school district shall fix the length of the school day for the kindergarten schools and for the elementary schools. A minimum school day's attendance for pupils of the kindergarten schools shall be one hundred twenty minutes; for pupils of grades one, two, and three of the elementary schools shall be two hundred minutes and for pupils of grades four, five, six, seven and eight of the elementary schools shall be two hundred forty minutes, exclusive of intermissions, and recesses. In fixing the length of the school day each board shall fix a day whose length shall be multiple of twenty minutes and shall place the noon intermissions so that the length of the parts of the day before and after the intermission shall each be a multiple of twenty minutes. The board shall divide its established school day into twenty periods of equal length, and any pupil who is absent one or more full periods shall be marked absent five per cent of his school day for each of such full period absences. The actual attendance of a pupil upon a regular full-time day school for any given length of time shall be the number of days school was actually taught during such time less the sum of his absences. Attendance upon evening schools and special day and special evening classes of day schools of elementary and secondary grade shall be kept according to regulations prescribed by the state board of education. A full day's attendance upon such schools or classes shall be four sixty-minute hours. Units of average daily attendance in elementary schools shall be construed to be the quotient arising from dividing the total number of days of pupils' attendance in the regular full-time day and evening elementary schools including the special day and evening classes of the elementary schools of the district for the school year by the number of days school was actually taught in the regular elementary day schools of the district during said year; and units of average daily attendance in secondary schools shall be construed to be the quotient arising from dividing the total number of days of pupils' attendance in the regular full-time secondary schools, the evening secondary schools, the special day and evening classes of secondary schools, and the part-time vocational courses of the district for the school year by the number of days school was actually taught in the regular secondary day schools of the district during said year; *provided*, that where a high school maintains during the school year four terms of school of at least twelve weeks each, and where the course of instruction is so arranged that students may complete a full year's work in any three of these terms, the total number of days of pupils' attendance, as specified above, shall be divided

by the greatest number of days school was actually taught in any three or the four terms, but in no case shall said divisor be less than one hundred seventy-five; *provided, further*, that in making up the aggregate attendance, if the number of days of attendance of any pupil for the fiscal year exceeds the above-mentioned divisor, the number of days which may be included on account of such pupil's attendance shall equal said divisor.

Uniform regulations governing attendance.

Sixth—Subject to the provision of this code, the state board of education shall adopt uniform regulations governing the keeping of attendance in all secondary schools. In adopting regulations governing the keeping of the attendance of pupils upon the part-time vocational courses provided for in section 1750 of this code, the state board may, in its discretion, provide that the time spent by a pupil in practical vocational work shall be counted in making up each six-hour minimum daily unit of attendance.

Schools closed because of contagious disease

Seventh—Where a school in a district maintaining more than one school is closed for a part of a term by order of a city or county board of health or of the state board of health, on account of contagious disease, or where such school has been closed on account of fire, flood or other public disaster, the average daily attendance of said school shall be estimated separately and added to the average daily attendance of the other schools of the district. The units of average daily attendance of said school shall be determined by dividing the total number of days of pupils' attendance upon such school including the special day and evening classes and the part-time vocational courses by the number of full-day sessions actually maintained in such school during the year; *provided*, that where such number is less than one hundred twenty days the divisor shall be one hundred twenty.

Districts without sufficient funds.

Eighth—Whenever between the first day of July and the last Monday in April of the succeeding year and prior to the receipt by the school districts of their state, county or city and county or special or high school fund, the school districts of a county or city and county shall not have sufficient money to their credit to meet current expenses of maintenance, it shall be the duty of the board of supervisors of said county or city and county to order, and of the treasurer of said county or of said city and county to make a temporary transfer from any fund of said county or said city and county, not immediately needed to pay claims against it, to the proper school fund an amount not to exceed eighty-five per cent of the amount of tax moneys which will accrue to such school district during such fiscal year, and upon the making of such transfer the treasurer shall immediately notify the superintendent of the amount so transferred. The funds so transferred to the credit of a school district shall be retransferred by the treasurer to the fund from which they were taken from

the first moneys accruing to such school district and before any other obligation of such school district is paid from such moneys so accruing.

[Approved by the Governor May 10, 1927. In effect July 29, 1927.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known as the "Metropolitan water district act" and shall apply to the incorporation, organization, government, maintenance and operation of the water districts herein provided for and described, and to the board of directors herein referred to. Short title.

SEC. 2. As used herein the term "municipality" or "city" shall be deemed to mean and include any municipal corporation of the State of California, whether organized under a freeholders' charter or under the provisions of general law; and for the purposes of this act such words "municipality" and "city" shall also include and mean any water district incorporated for the service of water in other than municipal territory. Each such district when so incorporated shall be a separate and independent political corporate entity.

SEC. 4. Such metropolitan water district shall be organized and incorporated in the following manner: Organization

Such contract may contain such other and further covenants and agreements as may be necessary and convenient to accomplish the purposes hereof. The term "public corporation" as used in this subdivision shall be deemed to mean and include the United States or any other public agency thereof or this or any other state or any political district or subdivision thereof.

As a member of the board of directors, each representative shall be entitled to vote on all questions, orders, resolutions and ordinances coming before the board, and shall be entitled to cast one vote for each ten million dollars or major fractional part thereof, of assessed valuation of property taxable for district purposes in the city represented by him as shown by the assessment records of the county and evidenced by the certificate of the county auditor; *provided,* that each representative shall have at least one vote and no municipality shall have votes exceeding in number fifty (50) per cent of the total number of votes of all the members. SEC. 7. (a) Whenever the board of directors of any water district shall, by ordinance adopted by a vote of a majority of the aggregate number of votes of all the members of the board of directors, determine that the interests of said district and the public interest or necessity demand the acquisition, construction or completion of any public improvement or works, or the incurring of any preliminary expenses, necessary or convenient to carry out the objects or purposes of said district the cost of which will be too great to be paid out of the ordinary annual income and revenue of the district, said board of directors may order the submission of the proposition of incurring bonded indebtedness, for the purposes set forth in the said ordinance, to the qualified voters of such district, at an election held for that purpose. Any election held for the purpose of submitting any proposition or propositions of incurring such bonded indebtedness may be held separately, or may be consolidated or held concurrently with any other election authorized by law at which the qualified electors of the district are entitled to vote. The declaration of public interest or necessity herein required and the provision for the holding of such election may be included within one and the same ordinance, which ordinance in addition to such declaration of public interest or necessity, shall recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the public works or improvements, or the estimated amount of preliminary expenses, as the case may be, the amount of the principal of the indebtedness to be incurred therefor and the maximum rate of interest to be paid on such indebtedness, which rate shall not exceed six (6) per cent per annum payable semiannually. The description of precincts may be made by reference to any order or orders of the board of supervisors of the county or counties in which the district or any part thereof is situated, or by reference to any previous order or ordinance of the legislative body of the municipality, or by detailed description of such precincts. Said notice, calling for bids, shall state the time for the receipt of such bids which shall be not less than ten (10) days after the first publication thereof. Such notice may offer the bonds at a fixed interest rate or with the interest rate undetermined, in which event the bids shall contain a statement of the lowest rate of interest at which the bidder will take the bonds and pay par value or more therefor, together with accrued interest. Such action shall be in the nature of a proceeding in rem, and jurisdiction of all parties interested may be had by publication of summons for at least once a week for three weeks in some paper of general circulation published in the county where the action is pending, such paper to be designated by the court having jurisdiction of the proceedings. Jurisdiction shall be complete within ten (10) days after the full publication of such summons in the manner herein provided. Any one interested may at any time before the expiration of said ten (10) days appear and by proper proceedings contest the validity of such bonds. Such action shall be speedily tried and judgment rendered declaring such bonds to be valid or invalid. Either party may have the right to appeal to the supreme court at any time within thirty (30) days after the rendition of such judgment, which appeal must be heard and determined within three months from the time of taking such appeal. If there be more than one action or proceeding involving the validity of any such bonds, they shall be consolidated and tried together. The court hearing any proceeding or action inquiring into the regularity, legality or correctness of the proceedings leading up to the issuance of bonds or the validity of such bonds must disregard any error, irregularity or omission which does not affect the substantial rights of the parties to said action or proceeding. The rules of pleading and practice provided by the Code of Civil Procedure, which are not inconsistent with the provisions of this act, are applicable to all actions or proceedings herein provided for. The motion for a new trial of any such action or proceeding must be heard and determined within ten (10) days from the filing of the notice of intention.
