## A BIG MOVEMENT

**Churches With Aggregate of 15,000,000 Members Allied to Fight Liquor Traffic.**

**Convention at Indianapolis Sets Aggressive Pace in New Union of Reform Forces.**

Fifteen leading church denominations of the United States, aggregating 15,000,000 members, re-allied their forces in nation wide battle with the liquor traffic at Indianapolis Nov. 10. It was the second biennial convention of the National Interchurch Temperance Federation, and leaders representing the official temperance societies and committees of at least twelve of these great denominations took a prominent part in the two days' program of discussion and decision.

**What the Church Federation Is For.** Perhaps the keynote address of the two days' session was that delivered by Rev. E. L. Sigmund of the Lutheran temperance committee under the title "What the Church Federation Can Do to Unite the Forces of Righteousness to Destroy the Liquor Traffic." His pointed utterances will be of interest to all church workers throughout America. Some of his significant conclusions are as follows:

**The Legitimate Work of the Church Federation.**

It is part of the legitimate work of the Christian church to testify against this giant evil. It is her business to disseminate information concerning its ravages, to warn against its insidious dangers, to reclaim its victims, to fortify the youth of the land against its enticements and to proclaim its unyielding hostility to its continuance.

It is legitimate for the church to use every agency for the accomplishment of the work just named. The pulpit, the Sunday school, the Missionary and Young People's societies, the prayer meeting, the church papers, should all be increasingly used for the cultivation of total abstinence from intoxicating liquors by the individual and for the accomplishment of prohibition by the strong arm of the law.

**The Church and Politics.**

A church temperance federation can therefore and should voice the united judgment of the whole church on the fundamental principles of the temperance reform. It can awaken interest and pursue such investigations as would go far to destroy the sophistries which so largely bulwark the liquor traffic today.

Such a federation can and should take the consensus of opinion of its various constituent bodies, and, while refraining from partisanship or conducting purely political work or engaging in any efforts that would have the semblance of improper interference in the affairs of the state on the part of the church, nevertheless it should voice its own judgment on questions of public policy immediately connected with the traffic in intoxicating liquors. For the church to refuse to do this is practically to leave the vendors of intoxicating liquors and the habitués of the saloon in undisputed control of the situation.

**Work Versus Resolutions.**

Her own adherents and the outside world expect her to be practical in her opposition to this great foe of her life and progress, and it will avail her nothing simply to continue to protest against the liquor traffic without leading her followers in practical lines of operation by which to successfully combat it.

If the liquor traffic maintains its vantage ground and continues its present work of wholesale destruction of the church's efforts to lift up mankind because she fails to employ practical

(Continued on last page.)

## News That Is Interesting

Items That We Gather from the Doings of Our Fellow Citizens

Mrs. Neff returned from the south last Tuesday.

The Boys' Club held its regular meeting Tuesday night.

The thermometer stood at 24 degrees about daylight Monday morning.

Mrs. E. Preston returned from San Jose, where she had undergone an operation.

The Countrymen's Club met Tuesday night. Prof. James was leader with the subject, "Federal Usurpation."

The Methodist Church is having loads of gravel placed along the driveway leading to the rear of the church.

Mrs. G. Matley and children returned Sunday morning from Amador County where they have been spending the holidays.

Mr. and Mrs. Robert Redd, of Los Angeles, were guests at the Putnam Bungalow the first of the week. They are making a tour of California and Washington, and are greatly pleased with this locality.

A few weeks ago we stated that a shipment of a boiler and stack had been sent to the Capitol City Oil Company on the Campbell Spur, but the shipment was intended for Campbell Spur, Oil City, near Bakersfield, and had been missent.

The Improvement Club met Monday night and transacted much business. The flagpole committee was granted further time with power to act in regard to putting halyards on the pole. The Stationery Committee reported the letter-heads and envelopes printed. The permanent quarters committee asked for further time which was granted. The Literature Committee was discharged and another committee of Adams, Kennedy and Curry were appointed to secure samples and prices of literature and present them at the next meeting. The Interurban Committee, consisting of Rodeck, Thomas and Cooper, reported that Messrs. Thomas and Rodeck had called on Manager Chapin who had given them much encouragement and said that he would look into the matter at once.

The committee was given a vote of thanks, the remark being made that it was the first committee to have really tried to accomplish the purpose for which it was intended. It was moved that the Secretary be authorized by the Club to solicit orders for envelopes on which advertisements of the town were placed on the back. Thomas asked for further time on the S. P. letter.

## M. E. CHURCH NOTES

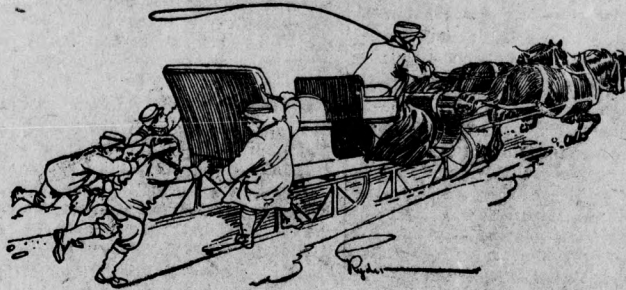

The Pastor, Rev. Bolster, was called to Oakland Tuesday morning returning in the evening.

The regular monthly meeting and social of the Epworth League will be held at the home of Mr. and Mrs. Hays on ist. st. Friday evening.

Next Sabbath morning instead of the sermon, will be a lovefeast, followed by a reception to members, after which the Sacrament of the Lord's supper will be observed. In the evening at 6:30, the regular meeting of the Epworth League will be led by Miss Florence Kennedy. At 7:30 the Pastor will speak on the topic, "Noah, and the Tragedy of the men who built the Ark."

The Official Board met Wednesday night.

## CATCHING ON

This is a mile-a-minute age. The world is rapidly making history. The newspaper man has to hustle to keep the chronicle up to date. You have to read the newspaper regularly or you fall behind in knowledge of what the busy world is doing. Do you CATCH ON to the idea that you should subscribe for this newspaper at once?

Mrs. A. W. Adams is doing hairwork for the ladies around town. She works up combings in the best manner. Many are taking advantage of this and are keeping her busy.

The W. C. T. U. will give a New England Supper and entertainment in the Coffee Club, January 14th. Supper will be served from 5 to 7 o'clock. Admission 25 cents.

Buy one of these pieces and raise your own hay.

10 acres good for hay or to plant young trees. 2 1/2 miles out, near cutoff..... \$1500.00	8.25 acres near Lawrence station. Very best hay land. Price..... \$1350.00

## COAST EVENTS OF PAST WEEK TERSELY TOLD

Interesting News Items From  
States Bordering On the  
Broad Pacific.

Assemblage of Paragraphs That Present  
Important Occurrences  
in Condensed Form.

Merced.—Winter sports are now being enjoyed to the fullest extent in Yosemite valley. Visitors are having good sleighing and skating.

San Francisco.—Chief of Police Cook issued an order to all patrolmen to arrest every small boy who is caught jumping on and off moving street cars.

San Francisco.—The coal shortage along the Pacific Coast, due to the Australian strike and the unusually cold weather, threatens to continue throughout the winter.

Fresno.—Ethel Mae Balch, the daughter of A. C. Balch, living near Reedley, died from the effects of a dose of carboic acid, which was given her by mistake for medicine.

San Diego.—Homer C. Davenport, cartoonist, is at the home of a friend in this city, a very sick man. He is suffering from a complete collapse of the nervous system, and his physician regards his condition as serious.

San Francisco.—Having squandered all of his wife's money on the races and having admitted the same in a note to her, J. A. Hinz, a bricklayer, living at 1310 Devisadero street, committed suicide by shooting himself through the head.

Sacramento.—While being towed down the Sacramento river the big dredger San Francisco struck a snag and sunk in twenty-five feet of water. The dredger is one of the largest on the river and cost \$80,000. It will be raised and repaired.

San Francisco.—While running to catch a ferry boat John Rhone, third officer of the steamer Lurline, was struck by a street car. He was picked up unconscious and carried to the Harbor Emergency Hospital, where he died from a fracture of the skull.

Oakland.—The Building Trades Council adopted resolutions pledging its members to support California's agricultural industries in every possible way. This action was taken after E. F. Ede of Fresno had delivered an address setting forth the competition California products meet with from foreign imports.

Los Angeles.—In a decision rendered by the State Supreme Court, the right of Los Angeles to employ day labor in the construction of the Owens river aqueduct, instead of letting contracts to the lowest bidder, is upheld. Two injunction suits had been filed against the city to compel it to let contracts for construction on competitive bids.

Oakland.—Three score years or more of single blessedness do not grant immunity from Cupid's darts, as was proved when Hugh Griffin, a well-to-do mining man living in Berkeley, applied at the County Clerk's office for a license to wed Miss Mary Gibson of Fort Bragg. Griffin is 68, and his bride-to-be is 60; they are lifelong friends, but neither has ever been married.

Los Angeles.—The Rindge estate's mystic Malibu rancho, stretching from the sea for many miles into the Santa Monica mountains, and famed through many fine relics unearthed there as the home of a giant prehistoric people, is to be made the greatest sheep farm in the Southwest. The first shipment of 3000 high-class animals has been received and turned into the canyons and ranges.

Truckee.—The shipping of ice from the ponds at this place to fill the great icehouse at Carlin, Nev., is to commence. There will be 200 carloads of ice hauled, this being necessary to ice the city of fruit and vegetables shipped this route next season. It was impossible to save any important proportion of the 18,000 tons of ice at Carlin after the dam, when muskrats burrowed under the dam and let the water flow to the Pacific. This accident will

### SAN JOAQUIN RIVER MAY BE THREE HUNDRED FEET WIDER

Stockton Agent Returned From Washington Says Federal Aid is Near.

Stockton.—Attorney C. L. Neumiller, who was sent to Washington by Stockton business men to appear before the National Rivers and Harbors Congress and urge the necessity of deepening and widening the San Joaquin river from Stockton to a point twelve miles down stream, returned with the report that there was every indication that the desired appropriation will be allowed by Congress and that work on the big undertaking will then be commenced.

President Taft urged that only the work approved by the Government engineers secure appropriations, and Congress adopted this suggestion. The improvement of the San Joaquin river has already been approved by the engineers. With the combined California delegation behind this move, there appears to be little doubt but what it will be carried.

The first work will be the widening of the stream to 300 feet and deepening it to nine feet at this time. This will permit of all craft now operating on the river to move without any delays. Later the stream will be deepened fifteen feet and 200 feet wide.

### KEEP THEIR PATIENTS SICK TO INCREASE MEDICAL FEES

Physicians of Philadelphia Are Charged  
With Contemptible Form of Graft.

Philadelphia.—Charges that some physicians in this city deliberately prolong the period of illness of patients in order to increase their incomes are made by Dr. Joseph S. Neff, director of the Department of Health and Charities, who offers this reason for the increase in diphtheria for the present year, while all other preventable diseases show a decrease. Dr. Neff said he has the proofs that anti-toxine is not administered in either curative or preventative doses by these physicians, because its use reduces the number of visits the physician is required to make.

### Railroad Will Enlarge Yards.

Sacramento.—Plans are under way to increase the size of the Southern Pacific freight yards here until the trackage will be greater than any railroad center in the State. Much land now lying idle back of the Southern Pacific shops will be filled in by dragger from the American and Sacramento rivers until the marsh is raised to the same level as the surrounding property. Considerable freight train handling which is now done at Roseville may be brought to this city.

### Number of Japanese in Seattle.

Seattle.—The federal census of next year will decide a much discussed question as to the Japanese population of Seattle. The Japanese consulate, which is supposed to have a record of every Japanese in this State, gives the number of its people in this city as 4,000. Other estimates run as high as 10,000, with much foundation. Any patriotic demonstration brings out more than 5,000 Japanese.

### Shrinkage in Oil Production.

Bakersfield.—Despite the fact that more than 500 strings of tools have been at work night and day bringing in new wells and developing new territory, the year 1910 will begin with a shortage of production in crude oil as compared with the consumption of 6000 barrels per day in California. On January 1, 1909, the daily production exceeded consumption by 6000 barrels.

### Protective Tariff in France.

Paris.—The Chamber of Deputies passed the tariff bill by a vote of 365 to 42, after a protracted discussion. This represents a victory for the high protectionists and the tariff commission, which practically had its own way. The bill must yet pass the Senate, and the differences between the two houses must be reconciled.

### "Cow Girl" Fatally Injured.

Ponca City, Okla.—Mrs. E. J. Milhan, known throughout the country in wild west shows as the "cow girl," died here today from injuries suffered a few days ago. She was riding for a moving picture concern when her horse fell upon her. Mrs. Milhan lived in New York and was 28 years old.

### Embezzlement Contagious.

Varnado, La.—John Breeland, postmaster here, was arrested on a charge of embezzling \$1,200 from the office. Thomas A. Pettit, whom Breeland succeeded, recently completed a term of six months in prison for a similar offense.

## San Francisco Decides to Try Municipal Ownership

San Francisco.—This city will try its hand at municipal ownership. The Geary street municipal road bonds were carried by a large majority. The total vote cast was the largest which has been polled at any special election in this city, being 43,081. Of this number 70 per cent were in favor of the bonds.

On the main proposition, which was for a bonded debt of \$1,900,000 to construct a municipal street railway on Geary street, Point Lobos and Cliff avenue, from Kearny street to the ocean, the vote was 31,185 for and 11,694 against the bonds.

The two-thirds of the total vote cast, necessary to carry the bonds, was 28,721, which was exceeded by the vote for the bonds on the first proposition by a margin of 2464.

On the second proposition, which was for a bonded debt of \$120,000 for a continuance of the proposed municipal road on Market street to the Ferry building, the vote was practically the same—30,916 being for and 11,605 against the bonds. This second proposition was thus carried with a margin of 2195 votes.

The vote was practically twice as heavy as at either of the three preceding Geary bond elections, and while the number voting for the bonds was more than double that which had been cast for them at the other elections, the vote against the bonds did not show the same increase.

During the present campaign, the United Railroads undertook to crush

municipal ownership for all time. A big campaign was mapped out and money was expended with extraordinary lavish hand. A fund of \$250,000 was distributed by the corporation.

After the result of the vote had been announced, Mayor-elect P. H. McCarthy made the following statement:

"The resident voters of our city have now decided that the Geary street railroad be built, operated and controlled as a public utility by the city. It is now up to the same resident voters, at the next bond election, to be held on the 14th day of January, next, to cast their votes in a manner calculated to give the incoming administration the opportunity to realize for the people of this city the building and operating of not only the Geary street railroad in the fullest and most complete sense, but the Tuolumne river and Lake Eleanor water supply, better known as Hetch Hetchy, with due regard to the bonding of our city for a new and up-to-date city hall as well. This done, the people will keep within the bonding limits of our city and make it impossible for the opponents of the projects to thwart the will of the people. The union labor platform will be, by those who stood thereon and who were successful at the polls on the 2d of last November, lived up to the letter and all work decided upon and approved by the people of this city prosecuted in an economical and vigorous manner, to the end that the people as a whole be justly benefited."

## Great Improvement in Breed of California Cattle

Berkeley.—That the California cow as a milk and butter producer will be the superior of any animal in the country was the substance of a bulletin issued from the university department of agriculture last week.

The bulletin issued by Prof. Leroy Anderson, superintendent of the university farm, points out the increase in the production of milk and butter, due to the efforts of dairy owners to improve their stock.

According to a long array of figures quoted of the various States, California cows are a close second to those of Wisconsin and Michigan, which latter claim superiority in the amount of butter and milk produced by their bovines.

The rapid improvement in the California animal in the past ten years,

however, is taken as a sign of the future development and should the increase in production continue in the same ratio, the cow of this State will lead all the country.

Constant attention to choice of stock and breeding is claimed by Professor Anderson as the reason for the increase in the productiveness in milk and butter of the cow here. The constant infusion of new blood and species, he says, is responsible for the betterment of the stock on the coast. He looks forward to the time when California will have a cow second to none.

Right feeding of the animal also enters into its productiveness. A large part of the bulletin is taken up with the question of the most nourishing kinds of forage.

## San Francisco Free From Graft, Says Mayor Taylor

San Francisco.—"San Francisco has been made a decent place to live in," said Mayor Taylor when asked for a new year's message to the people of the city upon the close of the present administration. "A pure air breathes through every department of the city government. The taint of graft has been so far removed that there is no longer even the suspicion of its presence in the management of any commission or any municipal office."

"I regard this as the most important achievement of the administration, that we need not be ashamed of comparison with any American municipality. The city has been made a respectable place to dwell in."

"The police department has been conducted without a single scandal,

and under Chief Cook, at least, with universal respect.

"The civil service has been maintained and established. It has taken quite a struggle to do it, but the thing has been done.

"On the material side we have now building upwards of 40 municipal structures, including the fine San Francisco hospital and some of the best school buildings in the country. During the last fiscal year alone 2,000,000 feet of street pavement was laid, yet some uninformed persons sometimes speak of nothing having been done.

"The completion of the two fireboats and the installation of the fire cisterns have made any conflagration absolutely impossible."

## Imported Fruit Trees Will Be Inspected for Pests

Stockton.—A warning against the influx of pests that damage and destroy fruit trees and vines has been sounded by Horticultural Commissioner J. N. Southrey, who has made a special study of scale and other fungi that cause so much trouble after they once get a start in any large fruit growing district. At this season of the year, when planting is at its height, large shipments of trees and vines are received here from various points and the bundles generally are closely inspected by the proper coun-

ty officials. Often, however, they are unable to locate all of the lots and many trees and vines not examined are accepted by people to their sorrow.

Especial effort has always been made to inspect all trees and vines and a certificate properly signed is invariably attached to each bundle, thus showing that they are free from all disease. Southrey also calls attention to the necessity of orchardists spraying for scale at this particular time.

### UCHIDA SEEKS NEW TREATY GOVERNING IMMIGRATION

Embassador Will Endeavor to Have the  
Root-Takahira Compact Modified.

Washington.—Among the first official acts of Baron Uchida, the new Japanese Embassador, it is said, will be a series of steps leading to a proposal to the United States for a modification of the Root-Takahira agreement, which imposes limitations on the immigration of Japanese laborers to the United States.

While the subject is now being spoken of in a conservative vein, it is said that such a duty is one of those especially imposed upon the new Embassador by his Government.

It is also reported that Japan wishes to terminate in 1911 its treaty of commerce and navigation with the United States.

This treaty would expire in 1912, but, in view of the fact that other powers having similar treaties that expire in 1912, have tentatively agreed to their termination in 1911, the United States probably will be asked to join with them.

To what extent Japan will ask for a modification of the Root-Takahira agreement has not been learned.

### SLAYER OF MRS. GUNNESS DIES IN STATE PENITENTIARY

Tuberculosis Claims Life of Man Who  
Set Fire to Home of Murderer.

La Porte, Ind.—Ray Lamphere, 38 years of age, convicted slayer of Mrs. Belle Guinness and her children, died of tuberculosis in the Michigan City Penitentiary, where he was serving an indeterminate term for arson.

Lamphere on April 9, 1908, set fire to the Guinness home, near La Porte, and incinerated the family. He had been employed by Mrs. Guinness as a workman on her farm. Following the fire, bodies of several persons murdered by Mrs. Guinness were unearthed in the farmyard. It was shown that Lamphere was probably cognizant of some of the Guinness crimes, and that he was angry with her.

### Submarine Rescues Fishermen.

Toulon.—The submarine Cigogne performed a remarkable life saving feat in a recent storm. The boat was practicing diving in the open sea when the commander saw a large fishing boat suddenly sink. The submarine immediately dived right under the fishing craft, of which the mast-head alone was above water. The valves were operated quickly and the Cigogne rose to the surface, lifting the boat and holding it above the water long enough to take off the crew.

### Too Bashful to Live.

Toledo, O.—Lonesome, though at home with his parents and in the midst of a city, because his abnormal bashfulness prevented him from having chums and companionship like other young men, Henry Welt, age 22, shot and killed himself. In a note begging his parents' forgiveness, he wrote: "I am so bashful—I always have to stay in the house. I could not stand it any longer."

### Flint to Select Man for the Pie Counter

Washington.—Senator Flint is considering two or three names for the position of Register of the San Francisco Land Office, to be made vacant by the promotion of General Stone to the naval office. Senator Perkins explains that he has been having the say in so many appointments that he has given this selection to the exclusive control of his colleague.

### Booze Puts Many in Jail.

Washington.—There are 582 people out of every 10,000 population lodged in jail each year, according to Census Bureau statistics just made public. The figures, based on an investigation of conditions in the 158 largest cities of the United States in 1907, show also that 35 per cent of all arrests were made for drunkenness.

### Once Wealthy; Dies in Poor House.

Pueblo, Colo.—Gilbert Noble, once the richest man in Pueblo, his fortune being estimated at from \$500,000 to \$1,000,000, died a few days ago at the county poor farm. He was lavish with his money, and at the time of his death had an interest in a large mine which was tied up in litigation.

### Burned to Death in Wagon Wreck.

Floyada, Tex.—Plunging over a cliff 60 feet high to the bottom of Blanco canyon, Mrs. S. R. Beck, 35 years old, and her 10-year-old son burned to death in the debris of their wagon and household effects. A small stove in the wagon set fire to the wreckage,

## WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres  
Compiled in Pithy Form  
For Busy Readers.

Here You Will Find a Resume of  
Happenings in Almost Every  
Part of the Earth.

St. Petersburg.—The Douma unanimously passed both readings of the bill granting \$5,000,000 for the reorganization of the army.

Toledo, O.—Sent to the cellar because he refused to get his mother a pail of water, Herman Miller, aged 14, son of John C. Miller, hanged himself.

New York.—An increase of \$41,800,502 in customs receipts in 1909 over 1908 is shown in Collector Loeb's annual report. Total duties collected at the port of New York for 1909 amount to \$217,520,897.

Augusta, Ga.—The George ("Honey Boy") Evans trophy was presented to Tyrus Cobb at the local opera house for being the champion batsman of the world in 1909. An immense throng packed the building to see the presentation of the cup.

San Juan, P. R.—Governor Colton's reception in honor of the American Secretary of War, Jacob M. Dickinson, and Brigadier-General Edwards, chief of the Bureau of Insular Affairs, was unsurpassed even by that given to President Roosevelt in 1906.

New Orleans.—With her clothes in a blaze, Mrs. Robert Little, 22 years old, ran a block before she finally fell dead. Every vestige of clothing was burned from her body. Her garments caught fire while she was standing in front of an open grate.

New York.—The Motor-boat Club of America has accepted the challenge of the British Motor-boat Club for the international cup, and has notified the British challengers that their entry of two boats will be received. The date for the race is Saturday, August 20, 1910.

Cordoba, Mexico.—Jose Santos Zelaya declares that he is still President of Nicaragua, although he may never go back to that country to enjoy the privileges of the office. Madriz, he asserts, is only a provisional President and he (Zelaya) has not relinquished the office.

Peekskill, N. Y.—Mathew J. Clune, for many years one of the best known sporting men in the country, is dead at his home here. Clune was one of the first to recognize John L. Sullivan's ability as a fighter, and was his backer before and after he became champion.

Washington.—Applicants are not scrambling to obtain jobs as census enumerators, and Census Director Durand is considerably perturbed over the shortage of men willing to earn Government money. The difficulty is in the West and South, and especially in the cities.

Washington.—With a view of increasing the efficiency of the naval militia of the various States, Acting Secretary of the Navy Winthrop directed that a four-inch gun, equipped with Morris tubes, be sent to each naval militia armory. There are naval militia armories in twenty-three States.

New York.—Friends and admirers of Commander Robert E. Peary are arranging for a great demonstration in his honor to be held at the Metropolitan Opera House on February 8th. Governor Charles E. Hughes will preside. Commander Peary will be one of the principal speakers, and it is planned to group upon the stage with him as many as possible of the members of his expedition.

Pittsburg.—Hans Wagner, the Pittsburg shortstop, narrowly escaped death in a blizzard here while trying to save his automobile and get it back to his chicken farm at Carnegie. Before Wagner had traveled far the machine balked on a steep hill. When he did not arrive at the time expected a relief party started out in two machines. He was discovered up to his neck in a snowdrift, too much overcome to escape.

Boston.—Neon, a newly discovered gas, is the cause of the aurora borealis, according to a statement by Dr. W. L. Dudley, head of the department of chemistry at Vanderbilt University, before the division of physical and inorganic chemists. Dr. Dudley's conclusions are that at the magnetic poles of the earth neon, under high pressure because of the cold, is acted upon by magnetic currents, thus producing the aurora borealis.

# You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

Many a boy is called dull and stupid, when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills will do such boys a great deal of good. They keep the liver active.

## QUICKEST WITH SAFETY PISO'S CURE

THE BEST MEDICINE FOR COUGHS AND COLDS

For the baby often means rest for both mother and child. Little ones like it too—it's so palatable to take. Free from opiates. All Druggists, 25 cents.

## Sperry Quality Cereals

The confidence felt by farmers and gardeners in Sperry's Seeds to-day would have been impossible to feel in any seeds two years ago. We have made a science of seed growing.

**FERRY'S SEEDS**

always do exactly what you expect of them. For sale everywhere. FERRY'S 1910 SEED ANNUAL Free on request.

D. M. FERRY & CO., Detroit, Mich.

## The New Flavor Mapleine

(Flavor of Maple)

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not send 35c for 2 oz. bottle and recipe book.

**CRESCENT MFG. CO.**  
Seattle, Wash.

## American-Hawaiian Steamship Company

TEHUANTEPEC ROUTE (Freight Only)

New York to Pacific Coast Ports and Hawaiian Islands Sailings every Saturday.

Seattle, Tacoma and San Francisco to New York, sailing about every 14 days; also taking freight for Mexican and European ports under through rates and through bills of lading.

Local Service—San Francisco to Hawaiian Ports

DEARBORN & LAPHAM  
General Agents, 8 Bridge Street, New York

## PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

CUT THIS OUT, mail it with your address to the Sterling Remedy Company, Chicago, Ill., and receive a handsome souvenir gold Bon Bon FREE.

## BROWN'S BRONCHIAL TROCHES

A preparation of superior merit for relieving Coughs, Hoarseness and Irritation of throat of great benefit in Lung Troubles, Bronchitis and Asthma. Free from opiates or any harmful ingredient. Price, 25 cents, 50 cents and \$1.00 per box. Sample mailed on request.

JOHN I. BROWN & SON, Boston, Mass.

## Danger from Impure Ice.

With the coming of hot weather arrives the annual risk to the public from the use of impure or contaminated ice in drinking water and in other ways. How great this risk is is clear from a test recently made of a specimen of ice taken from a Boston club's ice room and examined by Dr. Albert C. Pearce of the Tufts Medical school. This ice was designed for use in drinking water or for serving with butter. A piece of the ice was allowed to melt in a sterilized pan and the water, examined by Dr. Pearce, showed: Color, distinctly yellow; odor, foul; 16 C. of water was centrifuged and the sediment examined, showing (a) two C. of thick sediment, which consisted principally of decomposed vegetable matter, (b) numerous unidentified spores bearing bacilli and (c) bacilli which were Gram-negative and gave color reaction to litmus. The conclusion is that the most dangerous parts of the ice were these apparently colon bacilli, which represent contamination.

This test may be taken as fairly representative and the significance is unmistakable. It does not prove, of course, that all ice, whether natural or artificial, is unfit for consumption, but it does indicate very plainly that the use of ice to be taken directly into the system involves a considerable risk to health. Beverages may more safely be cooled by being placed near the ice, in refrigerators, but not in direct contact with the ice itself.

—Boston Advertiser.

### Too Well-Prepared.

The young Nova Scotia girl confided to her mistress, after a few days, some of the trials of her journey from her old home. "Twas an awful time I had on the boat, ma'am," she said, dolefully. "Twas that made me so pale-looking when first you saw me."

"You were very seasick, I suppose," said the lady.

"Oh, no, ma'am, I was not seasick at all," said the pretty Lida, "but I lost my sleep. I read the card about how to put on the life preserver, and I thought I understood it; but most likely I got something wrong, for when once I got it on me, I couldn't find an easy way to lie down, 'twas so clumsy. And I never slept a wink all night, ma'am!"

### As a Matter of Justice.

"Sir," one of your reporters referred to me in your paper this morning as a 'big, greasy, drunken loafer.' I want that corrected. It's an infamous slander!"

"I see it is. You are gaunt and thin. We'll correct it to-morrow. Good morning."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

### Textiles may be rendered fireproof.

according to the Paris Board of Fire Commissioners, by steeping them in a 10 per cent solution of phosphate of ammonia, then drying them in the open air.

### Clip This Out.

At the first sign of rheumatic pains or backache, or a feeling of being generally run down and weakened, the following simple prescription should be used:

"One ounce compound syrup Sarsaparilla; one ounce Toris compound; half pint high grade whiskey. Mix them and take a tablespoonful before each meal and at bedtime. The bottle must be well shaken each time."

Any druggist has these ingredients or he will get them from his wholesale house.

### Dogs, horses, cattle, mice and even fish suffer from cancer.

### WHO IS PERKINS?

The man who makes purely vegetable compound tablets which cure Stomach trouble, Liver and Kidney disorder, Headache, Skin Disease, Rheumatism. Price per bottle 50c and \$1. Agents wanted. Free sample. National Herb Co., 532 Monadnock, S. F.

In British Columbia platinum is found in many alluvial gold workings as a by-product, but its separation is attended by too many difficulties to be practical except in a few instances.

Tastes differ in most things—but all housewives like Port Costa Flour.

The discovery in Maine of a natural alloy of tin and bismuth is said by metallurgists to be the first of its kind on record.

It takes 140,000 sixteen-candle power tungsten lamp filaments to weigh a pound.

"The kind that Mother used to make," was made with Port Costa Flour.

The St. John's river in Florida is the only navigable river in the country that flows in a generally northerly direction into an ocean.

Patronize the merchant who advertises. Carefully read all the ads in this paper. You will find many bargains.

In a series of telephonic experiments a German scientist has made magnets, alternating current transformers and even dynamos talk without the use of vibrating plates or membranes.

THERE IS ONE COMPROMISE FOR A DIAMOND (the recent invention) NEW SAPPHIRE DIAMOND (carbon product) perfect diamond BRILLIANCY, and nearly same HARDNESS, for comparison with real gems. Beware of inferior substitutes, as this new creation can be procured only from John C. Davidson, 729 Market St., San Francisco. Catalogues.

A Pennsylvanian has been granted a patent on an electrical rat trap which resembles a rather flat bell. When a rat climbs upon it to reach the bait it completes a fatal circuit.

You don't know just how good coffee can be till you try Caswell's "National Crest" brand. If not yet for sale in your town we will make a good proposition to a responsible party to act as our agent. Geo. W. Caswell Co., 330 Folsom Street, San Francisco.

## Ancient Water Villages.

"One of the most interesting regions in the 'old fatherland' is the so-called 'Spreevald,' the forest of the Spree, situated not far from the German capital, the province of Brandenburg," says Fritz Morris in his article "In the Water Forest of the Spree," in the Technical World Magazine. "Each village is a little Venice, every house a little island, and these islets are connected by bridges sufficiently raised to allow boats to pass under them. Most of the houses, with their barns and stables, rest on piles, and there is generally a strip of artificial terra firma, either in front or at the rear of every building.

By means of these land strips and of the bridges the slender land communication is kept throughout the district, but most of the business and amusement is carried on through the canals, which not only form the main highways but penetrate and cross and re-cross the whole region. It is on these lagoons that all traffic is conducted in boats during the period from spring, when the last vestiges of frost and ice are disappearing, until the end of autumn. You see the letter carrier shoot up and down the canals, performing his duties in his frail craft; the police glide leisurely along the banks, watching everything going on; peasants bring the products of their toil to the nearest towns; children go to and from school; young mothers, dressed in their Sunday clothes, are rowed to church, carrying in their arms a small, queer-looking bundle, from which two large eyes in a tiny face stare at the stranger in wonderment—baby is going to be baptized, an important moment with this strongly religious people.

### A Head-Liner.

Incomparable, distinct, alone! A lion heart! By such descriptive terms is known N. Bonaparte.

And wouldn't they look well arrayed Upon the bill? Ah, what a hit he would have made, In vandeville. —Louisville Courier-Journal.

"Where there's a will there's a way." You can get Port Costa Flour if you insist upon it.

The six-mile Gunnison irrigation tunnel in Colorado, when completed, will be the greatest artificial underground waterway in the world, as well as the greatest piece of concrete work.

The Bells, at Bellvue had a phone put into their house last Friday.

Calvin Bohnett returned to San Leandro Sunday as his school opened Monday.

Floyd Bell returned to Hanford, Sunday as his school commenced Wednesday morning.

Mrs. Enos Bohnett and her four sons are visiting Mr. and Mrs. Joseph Bohnett. Enos Bohnett was up for two days, Saturday and Sunday, from his home in Aromas.

Mrs. Curtis E. Hanger entertained Rev. J. C. Bolster and wife and her class of young ladies. A delicious supper was served at 6 o'clock after which the Christmas tree, which was a white elephant tree, was lighted and most amusing presents were distributed. The evening was spent in music and games. The young ladies all came and went in a conveyance fitted up for the occasion.

**UNION DISTRICT**

Mrs. Frank Johnston, of Fair Oaks, is enjoying a visit from her sister, Miss Alice Comer.

Mrs. George Bulmore and children of San Jose are spending a few days at the Bungalow.

Mrs. T. Honger of Grayton is spending this week visiting with her mother Mrs. Robert Loosemore.

Miss Alice O'Rourke of San Jose spent a few days of the past week at the home of her aunt Mrs. Fred Conroy.

Arthur L. Joachimes returned home last week from Klamath Falls, Oregon where he has been spending the past six months.

Oscar Freschlag returned the first of the week from the San Joaquin Valley where he has been spending part of the holidays.

A delightful New Year's dinner was given last Sunday by Mrs. Phoebe Riggs. Those who enjoyed this affair were Mr. and Mrs. Will A. Riggs and baby daughter Mildred, Mr. and Mrs. Zedd S. Riggs and daughter Rachel, Mrs. Emma Staus, Miss Susie Norton and Mrs. Jean Cauz-aux.

On Wednesday evening, Dec. 29th, Miss Hazel Downing was given a birthday party in honor of her eighteenth birthday by her parents, Mr. and Mrs. A. H. Downing. The rooms were artistically decorated with pepper boughs, red crepe paper and bells. The evening passed merrily away with games and music, after which a sumptuous birthday supper was served, covers being laid for twenty-one. Many pretty remembrances were received and best wishes for many happy returns of the day.

**SUMMONS**

In the Superior Court of the State of California, in and for the County of Santa Clara.

Dillie M. Thompson, Plaintiff vs. James A. Thompson, Defendant.

Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the Complaint filed in the office of the Clerk of said County of Santa Clara.

The People of the State of California send greeting to James A. Thompson, Defendant.

You are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this summons, if served within this County, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 3rd day of December, A. D. 1909.

**Our Regular Winter Clearance Sale**

Is On This Week

The balance of Holiday stocks will be pushed out without ceremony. Within the next few days all departments will undergo a thorough house cleaning—and broken lines, odd lots, short lengths, etc. will be speeded away on the wings of the lowest prices ever quoted on goods of the same high standard.

It Will Pay You

To Come To The Store

Only a moderate purchase will more than repay you for the expense of the trip. Remember: ALL departments are involved, embracing such lines as Dress Goods, Silks, Domestic, House Furnishings, Gloves, Shirts, Neckwear, Toilet Goods, Art Goods, Furs, Fancy Linens, Corsets, Infant's Wear, Muslin Wear, Knitware, Suits, Dresses, Coats, Capes, Petticoats, etc.

Mail Orders on Sale Goods cannot be filled as the limited lots render it impossible. To take advantage of these opportunities you must visit the store.
