Chapter VIII—Sugar Agency

PART 802—SUGAR DETERMINATIONS

VIRGIN ISLANDS; SUGARCANE WAGE RATES, 1942

Determination of fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1942.

Whereas section 301 (b) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

That all persons employed on the farm in the production, cultivation, or harvesting of sugar beets or sugarcane with respect to which an application for payment is made shall have been paid in full for all such work, and shall have been paid wages therefor at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing; and in making such determinations the Secretary shall take into consideration the standards therefor formerly established by him under the Agricultural Adjustment Act, as amended, and the differences in conditions among various producing areas: *Provided, however,* That a payment which would be payable except for the foregoing provisions of this subsection may be made, as the Secretary may determine, in such manner that the laborer will receive an amount, insofar as such payment will suffice, equal to the amount of the accrued unpaid wages for such work, and that the producer will receive the remainder, if any, of such payments;

and

Whereas the Secretary of Agriculture, on March 26, 1942, held a public hearing in Christiansted, St. Croix, Virgin Islands, for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during 1942.

Now, therefore, I, Paul H. Appleby, Under Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearing and all other information before me, do hereby make the following determination:

AUTHORITY: § 802.51, issued under sec. 301 (b) of the Sugar Act of 1937, as amended (50 Stat. 909; 7 U.S.C. 1131 (b)).

§ 802.51 *Fair and reasonable wages for the Virgin Islands for the calendar year 1942.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met if all persons employed on the farm in 1942 in the production, cultivation, or harvesting of sugarcane with respect to which an application for payment is or will be made under such act, shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates not less than the following:

(a) *Harvesting rates.* For all workers engaged in the harvesting of sugarcane: Not less than \$1.36 per 8-hour day. For a working day longer or shorter than 8 hours, the rate shall be not less than 17 cents per hour.

(b) *Production and cultivation rates.* For all workers engaged in the production and cultivation of sugarcane: Not less than \$1.04 per 8-hour day. For a working day longer or shorter than 8 hours, the rate shall be not less than 13 cents per hour.

(c) *Piece rates.* Persons employed on a piece-rate basis shall be paid at rates which will result in earnings of not less than the applicable hourly rates provided in paragraph (a) or (b) of this section.

(d) *General provisions.* (1) The producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as a dwelling, garden plot, pasture lot, and medical services; and the producer shall not, through any subterfuge or device whatsoever, reduce the wage rates to laborers below those determined above.

(2) Nothing in this determination shall be construed to mean that a producer may qualify for a payment under

PART 802—SUGAR DETERMINATIONS

VIRGIN ISLANDS; SUGARCANE PRICES

Determination of fair and reasonable prices for the 1942 crop of Virgin Islands sugarcane.

Whereas section 301 (d) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

That the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted

to pay under either purchase or toll agreements, for any sugar beets or sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

Whereas the Secretary of Agriculture, on March 26, 1942, held a public hearing at Christiansted, St. Croix, Virgin Islands, for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable prices for the 1942 crop of Virgin Islands sugarcane:

Now, therefore, I, Paul H. Appleby Under Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearing and all other information before me, do hereby make the following determination with respect to the requirements of section 301 (d) of the said act:

AUTHORITY: § 802.53 issued under sec. 301, (d) of the Sugar Act of 1937, as amended (50 Stat. 910; 7 U.S.C. 1131).

§ 802.53 *Fair and reasonable prices for the 1942 crop of Virgin Islands sugarcane.* Processors who, as producers, apply for payment under the Sugar Act of 1937, as amended, shall be deemed to have complied with the provisions of section 301 (d) of said act, if the requirements specified below have been met:

(a) Purchased sugarcane is paid for at the rate of not less than the f. o. b. mill value of 6 pounds of 96° raw sugar per hundredweight of such sugarcane. The average New York price of 96° raw sugar, for the week (or such other period as may be agreed upon) in which sugarcane was delivered, less all costs involved in the marketing of such sugar (other than bags and bagging, storage in company warehouses, war risk insurance, or any item of expense incurred in the marketing of such sugar which is reimbursed in whole or in part by the federal government of any agency thereof) shall be deemed as the f. o. b. mill value of such sugar.

(b) There is paid, per hundredweight of purchased sugarcane, an amount equal to one-half of the excess, if any, of the net proceeds derived from the sale of blackstrap molasses produced from a hundredweight of sugarcane of the 1942 crop over the net proceeds from the sale of blackstrap molasses produced from a hundredweight of sugarcane from the 1941 crop.

(c) The cost of transportation of purchased sugarcane for distances in excess of one kilometer from the limits of the field where such sugarcane is harvested, or from the way station nearest the field, whichever is shorter, is absorbed by the processor.

Done at Washington, D. C., this 21st day of July 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] PAUL H. APPLEBY,
Under Secretary of Agriculture.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING TEMPORARY RELIEF, ETC.

Order of consolidation and order granting temporary relief and conditionally providing for final relief in the matter of the petitions of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

Original petitions having been duly filed with this Division by the above-named party, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8; and

It appearing that the above-entitled matters raise similar and related issues; and

It further appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with this Division in the above-entitled matters; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That the above-entitled matters be, and the same hereby are, consolidated.

It is further ordered, That, pending final disposition of the above-entitled matters, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith § 328.11 (Alphabetical list of code members) is amended by add-

ing thereto Supplement R-I, § 328.21 (Alphabetical list of code members) is amended by adding thereto Supplement R-II, § 328.34 (General prices for high volatile coals in cents per net ton for shipment into all market areas) is amended by adding thereto Supplement T-I, and § 328.42 (General prices for low volatile coals) is amended by adding thereto Supplement T-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Price classifications and minimum prices are established herein for the coals of the Browning Coal Company mine of G. E. Browning for all shipments except truck under Mine Index No. 830, instead of under Mine Index No. 2336, as proposed in the original petition in Docket No. A-1489 for the reason that records of the Division indicate that Mine Index No. 830 is the correct mine index number for this mine.

The relief prayed in the original petition in Docket No. A-1489 is not granted herein as to the coals of the Derfield Mine (Mine Index No. 2538) of Arthur Derfield for truck shipments for the reason that such relief has already been granted the mine in Supplement No. 2 for the Schedule of Effective Minimum Prices for District No. 8 For Truck Shipments, when it was known as the McBrayer Mine and operated by Ward McBrayer.

The original petitioner in Docket No. A-1489 proposed a minimum price of \$2.35 for the coals of Mine Index No. 5577 in Size Group 4 for truck shipments. Since it appears that a minimum price of \$2.25 has been established in Size Group 4 for comparable and analogous coals, and since the petition does not allege any facts in support of the proposed minimum price of \$2.35 for the Size Group 4 coals of Mine Index No. 5577, a minimum price of \$2.25 has been established by the Order herein for the coals of this mine.

Dated: July 2, 1942.

(d) *Restrictions on the manufacture of stitching thread.* No person shall, during the period from July 1, 1942, to and including December 31, 1942, or, if his books are so kept, and he so elects, during the period from July 1, 1942, to and including January 2, 1943, use more reserved Egyptian cotton in the manufacture of stitching thread than 37 $\frac{1}{2}$ percent of the amount of such cotton used by him during the year 1941 for the same purposes.

(e) *Grading.* The Director General for Operations may require that any lot

of Egyptian cotton entered into the United States after July 1, 1942, be graded by referring representative samples thereof for classification to the Appeal Board of Review Examiners, United States Department of Agriculture, Washington, D. C., or at such office or offices of the said Board which may be designated for the purpose by the Department of Agriculture. The classification and findings of the said Appeal Board shall, for the purposes of this order only, be final in establishing whether any bale of cotton sample whereof has been so submitted, is or is not reserved Egyptian cotton. If upon the examination of any Egyptian cotton entered into the United States after July 1, 1942, by representatives of the United States Customs Service, any doubt or dispute arises as to whether such cotton is reserved Egyptian cotton, samples thereof shall be referred for classification for the purposes of this order only to the said Appeal Board of Review Examiners. The said Appeal Board will, in every case examined by it, transmit one copy of its findings to the War Production Board.

(f) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of reserved Egyptian cotton conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or telegram, Reference M-117, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General For Operations may thereupon take such action as he deems appropriate.

All holders of such cotton must be prepared to execute and file with the War Production Board a report of the amount of such cotton held or owned on the said date of this order on such forms as may be prescribed by said Board. Owners and holders of such cotton must be prepared to furnish or cause the original importer to furnish the War Production Board, upon request, with import documents relating thereto, including the customs invoices on which such cotton was entered into the United States and the grade or grades established for the purpose of levying customs duties thereon. In addition, all holders and users of such cotton must be prepared to execute and file with the War Production Board such monthly or quarterly reports on forms that may be prescribed for the purpose and in the detail that may be required by the War Production Board showing stocks on hand, additions to

stocks, withdrawals from stocks, consumption by uses and such other reports or questionnaires as may be required by the War Production Board from time to time.

(h) *Records.* All owners and processors of reserved Egyptian cotton affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales, and copies of all invoices of both purchases and sales relating to such cotton.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance. PART 1194—CANS MADE OF BLACKPLATE
[Conservation Order M-136]

The fulfillment of requirements for defense of the United States has created a shortage in the supply of blackplate for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1194.1 *Conservation Order M-136—*

(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Blackplate" means any sheet steel, other than tinplate and terneplate, suitable for manufacture into cans. The term includes "rejects" arising out of the manufacture of blackplate, but does not include waste or scrap blackplate arising out of the manufacture of cans.

(3) "Chemically treated blackplate" means any blackplate which has been chemically treated to resist rust or corrosion.

(4) "Can" means any container which is intended for packing, packaging, or

putting of products of any kind and which is made in whole or in part of blackplate, and includes closures, crowns, or caps for cans, but does not include any closure, crown, or cap to be used on, or as a part of a glass container.

(5) "Canner" means any person engaged in the business of packing in cans products of any kind for sale to others, whether such person buys some or all of his cans from third parties or whether he manufactures some or all of his cans himself. The term does not include a person who packs products which are not to be sold, or a person who packs products for the individual home consumption of another person furnishing the products to be packed.

(6) "Can manufacturer" means any person engaged in the business of producing cans for sale to others or for his own use in packing products of any kind.

(7) "Pack" means the quantity of blackplate, by area measurement, equivalent to the area of tinplate, terneplate, and blackplate which was required for the manufacture of all sized cans made of such materials and used by the canner for packing a particular product during the period specified.

(b) *Restrictions upon the manufacture, sale, and delivery of cans.* (1) Until further order of the Director General for Operations, no can manufacturer shall manufacture, sell, or deliver to any canner, jobber, or distributor, any cans, except to the extent expressly permitted by this order, and except under purchase orders or contracts validated by delivery to such can manufacturer of a canner's certificate, manually signed by an authorized official, in substantially the form attached hereto as Exhibit "I". No certificate shall be required for the purchase of cans for packing products which are not to be sold, either from retail stores purchasing such cans for resale, or from persons purchasing such cans from retail stores.

(2) No cans for packing any product shall be manufactured with caps, bails, or handles, when such cans are smaller than a 10-lb. syrup or honey can, or an 8-lb. lard pail.

(c) *Restrictions upon the purchase, acceptance of delivery, and use of cans.*

(1) Until further order of the Director General for Operations, no canner shall buy, accept delivery of, or use any cans except to the extent expressly permitted by this order, and all canners shall observe the restrictions imposed by Tables A and B, annexed hereto, relating to can sizes, and the extent and form of packing the particular products therein listed. Subject to the other provisions of this order, a canner may use for packing the products listed in said tables, only cans of sizes specified for packing a particular product, or cans of sizes larger than the largest size indicated for packing that product. If any general provision or restriction of this order conflicts or appears to conflict, with any specific provisions or restriction of Table A or Table B, then such specific provision or restriction shall control.

(2) For packing a product listed in Table A or Table B, a canner may use during the calendar year 1942, cans re-

quiring for their manufacture an area of blackplate, not in excess of the combined area of tinplate, terneplate, and blackplate which was required for the manufacture of the cans made of such materials and used by him during the calendar year 1940, for packing that product. A canner shall deduct from his blackplate quota for packing a particular product, the area of tinplate and terneplate which was required for the manufacture of the cans made of such materials and used by him during the calendar year 1942, or packing that product. Cans made in whole or in part of chemically treated blackplate shall be used only for packing the products listed in Table B.

(d) *Other restrictions.* No can manufacturer or canner shall use, for sealing cans to be used for packing any product listed in Table A, any compound containing crude rubber or latex, which was not prepared for this purpose on or before the date of issuance of this order.

(e) *Exceptions.* (1) Notwithstanding the restrictions imposed by this order, pertaining to sizes of cans, a can manufacturer may use for the manufacture of cans of sizes for which the material was designed: (i) any component parts of such cans which were lithographed, cut, or otherwise prepared for assembly on or before the date of issuance of this order, and (ii) any sheets of blackplate which were in the possession of the can manufacturer or produced for his account on or before the date of issuance of this order.

(2) Subject to quota restrictions, but notwithstanding the restrictions imposed by this order, pertaining to sizes of cans, a canner may use, or obtain from any can manufacturer and use, for packing products listed in Table A or Table B, cans which were manufactured on or before the date of issuance of this order, or cans which were manufactured pursuant to paragraph (e) (1).

(3) Notwithstanding the restrictions imposed by this order pertaining to the use of cans, a canner may use, or obtain from any can manufacturer and use, for packing products other than those listed in Table A or Table B, cans which were manufactured on or before the date of issuance of this order, and cans which were manufactured from component parts which were lithographed, cut, or otherwise prepared for assembly on or before the date of issuance of this order, as provided in paragraph (e) (1). Nothing in this paragraph (3) shall be construed to modify Order M-126, or any other applicable order of the Director General for Operations.

(f) *Miscellaneous provisions—*(1) *Applicability of order.* The restrictions imposed by this order shall not apply in the following cases only: (i) when cans are to be delivered pursuant to a letter of intent, purchase order, or contract, supported by a preference rating of higher than A-2, to any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), to the Army, Navy, Maritime Commission, or War Shipping Administration of the United States or to such other govern-

mental agency as the Director General for Operations may designate; and (ii) when cans are to be set aside pursuant to Order M-86 and orders supplemental thereto, whether or not purchase orders or contracts for such canned goods have been placed by any governmental agency.

(2) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of blackplate conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense work to defense work, may appeal in writing to the War Production Board, Ref: M-136, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Communications.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: Containers Branch, War Production Board, Washington, D. C.—Ref: M-136.

(4) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance. (d) *Restrictions on the manufacture of stitching thread.* No person shall, during the period from July 1, 1942, to and including December 31, 1942, or, if his books are so kept, and he so elects, during the period from July 1, 1942, to and including January 2, 1943, use more reserved American extra staple cotton in the manufacture of stitching thread, than:

C., or at such office or offices of the said Board which may be designated for the purpose by the Department of Agriculture. The classification and findings of the said Appeal Board shall, for the purposes of this order only, be final in establishing whether any bale of cotton sample whereof has been so submitted, is or is not reserved American extra staple cotton. If upon the examination of any American extra staple cotton entered into the United States after July 1, 1942, by representatives of the United

States Customs Service; any doubt or dispute arises as to whether such cotton is reserved American extra staple cotton, samples thereof shall be referred for classification for the purposes of this order only to the said Appeal Board of Review Examiners. The said Appeal Board will, in every case examined by it, transmit one copy of its findings to the War Production Board.

(f) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of reserved American extra staple cotton conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegram, Reference M-197, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(g) *Reports.* Each person who, on July 27, 1942, holds or owns any cotton of any specification grown in the Western Hemisphere shall cause an inventory to be taken as of such date showing, to the extent such information is known to him, the number of bales of each variety, staple length and grade of American extra staple cotton on hand, and, to the extent known to each such person, the name of the owner or owners thereof and the address of each owner. All holders of such cotton must be prepared to execute and file with the War Production Board a report of the amount of such cotton held or owned on the said date of this order on such forms as may be prescribed by said Board. Owners and holders of such cotton must be prepared to furnish or cause the original importer to furnish the War Production Board, upon request, with import documents relating thereto, including the customs invoices on which such cotton was entered into the United States and the grade or grades established for the purpose of levying customs duties thereon. In addition, all holders and users of such cotton must be prepared to execute and file with the War Production Board such monthly or quarterly reports on forms that may be prescribed for the purpose and in the detail that may be required by the War Production Board showing stocks on hand, additions to stocks, withdrawals from stocks, consumption by uses and such other reports or questionnaires as may be required by the War Production Board from time to time.

(i) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War

Production Board, Textile, Clothing and Leather Branch, Washington, D. C.—Reference: M-197.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance. DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Administration.

ST. LOUIS MARKETING AREA

EXCEPTIONS, AMENDMENTS TO MARKETING AGREEMENT

Notice of report and opportunity to file written exceptions with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and to order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, Marketing Area.

Pursuant to § 900.12 (a), General Regulations, as Amended, Agricultural Marketing Administration, United States Department of Agriculture, notice is hereby given of the filing with the hearing clerk of this report of the Administrator of the Agricultural Marketing Administration, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and to the marketing order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Interested parties may file exceptions to this report with the Hearing Clerk, Room 0312, South Building, Department of Agriculture, Washington, D. C., not later than the close of business on the 7th day after publication of this notice in the FEDERAL REGISTER.

The proceeding was initiated by the Agricultural Marketing Administration as the result of a written application for hearing filed by the Sanitary Milk Producers, Inc., and the filing of specific proposals for amendments by this organization of producers, by the Square Deal Milk Producers Association of Illinois, by the Cooperative Milk Producers Association of Missouri, by handlers, and by the Dairy and Poultry Branch, Agricultural Marketing Administration. After consideration and investigation, the conclusion was drawn that a hearing should be held, and a notice of hearing was accordingly issued on June 2, 1942. The hearing was convened June 12, 1942, at St. Louis, Missouri.

The major issues developed at the hearing were concerned with (1) the classification of milk, (2) the method

of determining class prices, and (3) the level of prices for milk both inside and outside the marketing area. Minor issues developed in connection with the application of location differentials provided under the order and with the possible pricing of off-flavor milk.

With respect to these issues it is concluded from the record that:

1. Skim milk, flavored milk and milk drinks, and buttermilk should be reclassified from Class II to Class I milk.

2. Prices should be revised so as to reflect the economic conditions which affect the market supply of and demand for milk in the marketing area, to maintain an adequate supply of pure and wholesome milk, and to be in the public interest.

3. A special price relative to off-flavor milk should not be included.

4. No change should be made in the application of the location differentials.

It is concluded also that the base period used in ascertaining prices which will give milk produced for sale in the marketing area a purchasing power equivalent to its purchasing power during the base period, in accordance with sections 2 and 8e (50 Stat. 246; 7 U.S.C., 1940 ed. 602, 608e), should be August 1919-July 1929.

The proposed amendments to the order, as amended, and the proposed marketing agreement, as amended, which follow, are recommended as the detailed means by which these conclusions may be effectuated.

This report filed at Washington, D. C., this 22d day of July 1942.

PROPOSED AMENDMENTS TO MARKETING ORDER

Proposed amendments to the marketing order, as amended, regulating the handling of milk in the St. Louis, Missouri, Marketing Area.

These proposed amendments are prepared by the Administrator pursuant to § 900.12 (a) of the General Regulations, as Amended, Agricultural Marketing Administration, and have not received the approval of the Secretary of Agriculture.

It is found, upon the evidence introduced at the public hearing, convened in St. Louis, Missouri, on June 12, 1942, such findings being in addition to the findings made upon the evidence introduced at prior public hearings on the original issuance of the order and on the amendments thereto (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

Findings

1. That the prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and section 8 (e) (50 Stat. 246; 7 U.S.C., 1940 ed. 602, 608c), are not reasonable in view of the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk, and that the minimum prices set forth in these amendments to the order, as amended, are such prices as will reflect the aforesaid factors,

insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

2. That the order, as amended by these amendments, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement upon which a hearing has been held; and

3. That the issuance of these amendments, and all of their terms and conditions, tend to effectuate the declared policy of the act.

Provisions

a. Delete from § 903.1 (a) (9) the colon and the proviso which reads, "Provided, That a handler operating a plant or plants from which no milk is disposed of for fluid consumption in the marketing area shall be a nonhandler with respect to such plant or plants."

b. Insert a period (.) at the end of § 903.1 (a) (9).

c. Delete § 903.3 (b) and substitute therefor the following:

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk the utilization of which is not established as Class II milk.

(2) Class II milk shall be all milk the skim milk and butterfat of which is established (a) by use or disposition as other than milk, skim milk, flavored milk and milk drinks (of any butterfat test), and buttermilk; and (b) as actual plant shrinkage, but not to exceed 3 percent of the total receipts of milk from producers.

d. Delete § 903.3 (c) and substitute therefor the following:

(c) *Interhandler and nonhandler transfers of milk.* Milk or skim milk received by a handler from another handler shall be classified as Class I milk, and cream so received shall be classified as Class II milk: *Provided*, That if a different classification is agreed upon in writing between the receiving handler and the selling handler and is submitted to the market administrator on or before the 5th day after the end of the delivery period, then the milk, skim milk, or cream shall be classified according to such written agreement: *And provided further*, That the amount so reported in any class shall not be greater than the amount used in that class by the receiving handler.

Milk or skim milk moved in fluid form from a handler's fluid milk plant to a plant from which no milk is disposed of for fluid consumption (regardless of whether the latter plant is operated by such handler or by a nonhandler) shall be Class II milk. Milk or skim milk moved in fluid form from a handler's plant to a nonhandler's plant from which fluid milk is distributed shall be Class I milk, except that any of this milk or skim milk in excess of the amount of fluid milk, proved to the satisfaction of the market administrator to have been distributed by the nonhandler during the delivery period, shall be classified as Class II milk: *And provided further*,

That all milk or skim milk moved in fluid form to plants more than 110 air-line miles from the City Hall in St. Louis shall be classified as Class I milk. Milk or skim milk disposed of in fluid form from a handler's plant to retail establishments which disposed of milk for both fluid and other uses shall be Class I milk.

e. Delete § 903.3 (d) and substitute therefor the following:

(d) *Purchases of milk from persons who are handlers under other Federal milk agreements or orders.* Milk or skim milk approved by the proper health authorities for consumption in fluid form in the marketing area which has been received from a person who is a handler, as defined under another Federal marketing agreement or order, shall be deducted from each class in the proportion that the quantity used in each class by the receiving handler bears to the total quantity of milk received by him, after excluding such handler's receipts of milk from other handlers.

f. Delete § 903.3 (e) (2) and substitute therefor the following:

(2) To determine the hundredweight of Class I milk: convert to gallons the quantity of milk disposed of in the form of milk, skim milk, flavored milk and milk drinks (of any butterfat test), and buttermilk, and multiply the total by 0.086: *Provided*, That there shall be added any difference of milk determined under subparagraph (1) of this paragraph, over the Class I milk thus far determined plus the hundredweight of Class II milk determined pursuant to paragraph (3) of this paragraph.

g. Delete from § 903.4 (a) (1) the figure "1.00" and substitute therefor the figure "1.10."

h. Delete from § 903.4 (a) (2) the figure "0.30" and substitute therefor the figure "0.40."

i. Delete the proviso of § 903.4 (a) (3) and substitute therefor the following:
