1. The economic plight of Japan at present is such that every measure must be taken which will permit increased production of food and rehabilitation of Japanese industry. A means which will assist the Japanese to accomplish this purpose is the return of former enemy installations, including land, which are no longer required for use of the occupation forces.

2. This headquarters has received information that rifle range containing twelve (12) targets and a SMG range located in Nara Prefecture are not being used by the occupation forces, and possibly may be returned to the Japanese. The grid coordinates of these areas are as follows:

- a. Rifle range: 1085.3-1290.3
- b. SMG range : 1086.0-1292.0 (Army Map Service, L 571,
Central and Southern Japan, scale 1/250,000)

3. It is desired that in the event action has not been initiated to effect the release of the above listed property, that such action be initiated immediately.

4. Applications for release will be accomplished in accordance with the procedure outlined in paragraph 5, Annex 10, Administrative Order No. 25, Headquarters I Corps, dated 25 August 1947.

1. The rifle range referred to in paragraph 2 a of the basic communication is known as the Fujiwara range. Additional information received from the 25th Division indicates that it is desired that this range be retained for use by the tactical troops.

2. A check of records at both this headquarters and 25th Division indicates that the SMG range referred to in paragraph 2 b is not listed as a separate target. It is believed that this range refers to an area where targets were previously set up and later removed. Inasmuch as the location of this area cannot be accurately ascertained, and in all likelihood constitutes land which was previously vacated and returned to the Japanese, no further action is required.

TO: COMMANDING GENERAL, Headquarters First Corps APO 301

1. Subject property originally designated as the "Awara Airfield" was released to the Japanese government on 17 December 1945 in accordance with existing regulations as will be noted from enclosure 1.
2. Eighth Army letter AG 601 (MG) dated 29 July 1946 authorized the release of a "Mikuni Airfield" believed to be the same installation, so clarification was requested in basic correspondence, this headquarters, dated 12 March 1946. Subsequent indorsements reclassified the installation to class D and approved the release to the Branch Central Liaison Office as shown by enclosure 2. The original release was reaffirmed on 17 July 1946 by receipt signed by Mr. K. Fujisuye, representative of the Home Ministry. Copies were forwarded through channels to SCAP according to directions.
3. Basic correspondence, this headquarters, dated 10 October 1946 requested additional clarifications as shown by inclosure 3 and 2nd indorsement thereto by Headquarters Eighth Army, dated 29 October 1946 affirmed that "no further action is necessary".
4. In view of the fact that original release was completed on 17 December 1945 and subsequent correspondence resulted from misuse of the real name, that release of subject installation be considered valid in accordance with Administrative Order #25, paragraph 5b, sub paragraph 1c, pertaining to releases dated prior to 31 January 1946.
