

Translation

Estimated time length: 60 minutes

Learning Objectives

Students will gain, reinforce, understand, or learn:

- The ability to create expository writing in another language
- The ability to effectively communicate meaning in another language
- Their vocabulary knowledge in another language
- Greater understanding of the other language
- Greater understanding of their native language
- The knowledge of how a large online community works
- How to collaborate with others worldwide in an online community

Resources & Tools

- [Content translation tool](#)
- [“Content translation”](#) (explanation of the tool on MediaWiki)
- [Content translation](#) on the Wikimedia blog
- [Instructional video](#) on the Wikimedia Foundation YouTube channel

STEP-BY-STEP PROCESS

1. Watch an [instructional video](#) on Wikimedia Foundation YouTube channel about how to do translations.
2. Find one article to translate and assign ~500 words or a certain section for each student. (This amount can be changed to whatever you feel best fits your class).
3. Use [content translation tool](#) to enter translations.
4. Translate the article.
