 - (3) That prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the patient; and
 - (4) That the benefits of the treatment outweigh the known risks to the patient.
 - b. The court shall inquire whether the patient has had a sufficient opportunity to adequately prepare to meet the issue of involuntary treatment with prescribed medication and, at the request of the patient, the court may continue the involuntary treatment hearing for a period not exceeding seven days or may appoint an independent expert examiner as provided in subsection 4.

 - (2) The patient's current condition;
 - (3) The patient's treatment history;
 - (4) The results of previous medication trials;

If the factors certified under subsection 1 have been demonstrated by clear and convincing evidence, the court may include in its involuntary treatment order a provision, or it may issue a separate order after notice and hearing, authorizing the treating psychiatrist to involuntarily treat the patient with prescribed medication on such terms and conditions as are appropriate. The order for involuntary treatment with prescribed medication, however, may not be in effect for more than ninety days.

At the hearing, evidence in support of the petition must be presented by the state's attorney, private counsel, or counsel designated by the court. 2. Neither the commissioner nor any person that received any document, material, or other information while acting under the authority of the commissioner may be permitted or required to testify in any private civil action concerning any confidential document, material, or information subject to subsection 1.
3. To assist in the performance of the commissioner's duties, the commissioner:
 - a. May share any document, material, or other information, including any confidential and privileged document, material, or information subject to subsection 1, with any other state, federal, or international regulatory agency; the national association of insurance commissioners and its affiliates and subsidiaries; and any state, federal, and international law enforcement authority, provided the recipient agrees to maintain the confidentiality and privileged status of the document, material, or other information.

However, if any materially false statement with respect to the comparison regarding an insurer's total adjusted capital to its risk-based capital levels, or any of them, or an inappropriate comparison of any other amount to the insurer's risk-based capital levels is published in any written publication and the insurer is able to demonstrate to the commissioner with substantial proof the falsity of the statement, or the inappropriateness, as the case may be, then the insurer may publish an announcement in a written publication if the sole purpose of the announcement is to rebut the materially false statement.

- a. (1) After the change of control, the domestic insurance company insurer referred to in subsection 1 would not be able to satisfy the requirements for the issuance of a certificate of authority to write the lines of insurance for which it is presently licensed.
- b. (2) The effect of the merger or other acquisition of control would be substantially to lessen competition in insurance in this state or tend to create a monopoly therein. In applying the competitive standard in this subdivision:

- (b) The merger or other acquisition may not be disapproved if the commissioner finds that any of the situations meeting the criteria provided by subdivision c of subsection 4 of section 26.1-10-03.1 exist; and
- (c) The commissioner may condition the approval of the merger or other acquisition on the removal of the basis of disapproval within a specified period of time.
- e. (3) The financial condition of any acquiring party might jeopardize the financial stability of the ~~insurance company~~insurer or prejudice the interest of its policyholders.
- d. (4) The plans or proposals which the acquiring party has to liquidate the ~~insurance company~~insurer, sell its assets or consolidate or merge it with any person, or to make any other material change in its business or corporate structure or management, are unfair and unreasonable to policyholders of the ~~company~~insurer and not in the public interest.
- e. (5) The competence, experience, and integrity of those persons who would control the operation of the ~~insurance company~~insurer are such that it would not be in the interest of policyholders of the ~~company~~insurer and of the public to permit the merger or other acquisition of control.
- f. (6) The acquisition is likely to be hazardous or prejudicial to the insurance buying public.
- b. ~~The commissioner shall hold the public hearing referred to in this subsection~~subdivision a must be held within thirty days after the statement required by subsection 1 is filed and ~~shall give at least twenty days' notice must be given by the commissioner to the person filing the statement. Not less than seven days' notice of the hearing must be given by the person filing the statement to the insurance company~~insurer and to other persons designated by the commissioner. Within five days of making the request for a public hearing, the person shall file the statement referred to

in subsection 1 with the national association of insurance commissioners. A commissioner may opt out of a consolidated hearing and shall provide notice to the applicant of the opt out within ten days of the receipt of the statement referred to in subsection 1. A hearing conducted on a consolidated basis is public and must be held within the United States before the commissioners of the states in which the insurers are domiciled. The commissioners shall hear and receive evidence. A commissioner may attend the hearing in person or by telecommunication.

- d. In connection with a change of control of a domestic insurer, any determination by the commissioner that the person acquiring control of the insurer must be required to maintain or restore the capital of the insurer to the level required by the laws and rules of this state must be made not later than sixty days after the date of notification of the change in control submitted pursuant to subdivision a of subsection 1.
- e. ~~The commissioner may retain at the acquiring person's expense any attorneys, actuaries, accountants, and other experts not otherwise a part of the commissioner's staff as may be reasonably necessary to assist the commissioner in reviewing the proposed acquisition of control.  - (2) ~~As~~ as otherwise not comprehended within the purposes of this section.
6. The following is a violation of this section:
- a. The failure to file any statement, amendment, or other material required to be filed pursuant to subsection 1 or 2.
 - b. The effectuation or any attempt to effectuate an acquisition of control of, divestiture of, or merger with, a domestic ~~insurance company~~insurer without the approval of the commissioner.

section. Copies of all lawful process must be served on the commissioner and transmitted by registered mail by the commissioner to the person at the person's last-known address.

SECTION 4. AMENDMENT. Section 26.1-10-03.1 of the North Dakota Century Code is amended and reenacted as follows:

26.1-10-03.1. Acquisitions involving insurance—~~companies~~insurers not otherwise covered —Penalty.

1. For the purpose of this section:
 - a. "Acquisition" means any agreement, arrangement, or activity the consummation of which results in a person acquiring directly or indirectly the control of another person, and includes the acquisition of voting securities, the acquisition of assets, bulk reinsurance, and mergers.
 - b. An "~~involved insurance—company~~insurer" includes an ~~insurance—company~~insurer which either acquires or is acquired, is affiliated with an acquirer or acquired, or is the result of a merger.
2. a. Except as exempted in subdivision b, this section applies to any acquisition in which there is a change in control of an ~~insurance—company~~insurer authorized to do business in this state.
 - b. This section does not apply to ~~the following~~:
 - (1) ~~An acquisition subject to approval or disapproval by the commissioner pursuant to section 26.1-10-03.~~
 - (2) A purchase of securities solely for investment purposes so long as the securities are not used by voting or otherwise to cause or attempt to cause the substantial lessening of competition in any insurance market in this state. If a purchase of securities results in a presumption of control under subsection 2 of section 26.1-10-01, it is not solely for investment purposes unless the commissioner of the ~~insurance—company's~~insurer's state of domicile accepts a disclaimer of control or affirmatively finds that control does not exist and ~~such~~the disclaimer action or affirmative finding is communicated by the domiciliary commissioner to the commissioner of this state.
 - (3)~~(2)~~The acquisition of a person by another person when both persons are neither directly nor through affiliates primarily engaged in the business of insurance, if preacquisition notification is filed with the commissioner in accordance with subdivision a of subsection 3 thirty days prior to the proposed effective date of the acquisition. However, the preacquisition notification is not required for exclusion from this section if the acquisition would otherwise be excluded from this section by any other paragraph of this subdivision.
 - (4)~~(3)~~The acquisition of already affiliated persons.
 - (5)~~(4)~~An acquisition if, as an immediate result of the acquisition:

- (a) In no market would the combined market share of the involved ~~insurance companies~~insurers exceed five percent of the total market;
- (b) There would be no increase in any market share; or
- (c) In no market would the combined market share of the involved ~~insurance companies~~insurers exceed twelve percent of the total market, and in no market would the market share increase by more than two percent of the total market.

For the purpose of this paragraph, a "market" means direct written insurance premium in this state for a line of business as contained in the annual statement required to be filed by ~~insurance companies~~insurers licensed to do business in this state.

~~(6)~~(5)An acquisition for which a preacquisition notification would be required pursuant to this section due solely to the resulting effect on the ocean marine insurance line of business.

~~(7)~~(6)An acquisition of an ~~insurance company~~insurer whose domiciliary commissioner affirmatively finds that the ~~insurance company~~insurer is in failing condition, there is a lack of feasible alternative to improving the ~~insurance company's~~insurer's condition, the public benefits of improving the ~~insurance company's~~insurer's condition through the acquisition exceed the public benefits that would arise from not lessening competition, and ~~such~~the findings are communicated by the domiciliary commissioner to the commissioner of this state.

3. An acquisition covered by subsection 2 may be subject to an order pursuant to subsection 5 unless the acquiring person files a preacquisition notification and the waiting period has expired. The acquired person may file a preacquisition notification. The commissioner shall give confidential treatment to information submitted under this subsection in the same manner as provided in section 26.1-10-07.
 - a. The preacquisition notification must be in the form and contain the information prescribed by the national association of insurance commissioners relating to those markets which, under paragraph 54 of subdivision b of subsection 2, cause the acquisition not to be exempted from the provisions of this section. The commissioner may require additional material and information as the commissioner deems necessary to determine whether the proposed acquisition, if consummated, would violate the competitive standard of subsection 4. The required information may include an opinion of an economist as to the competitive impact of the acquisition in this state accompanied by a summary of the education and experience of such person indicating that person's ability to render an informed opinion.
 - b. The waiting period required begins on the date of receipt of the commissioner of a preacquisition notification and ends on the earlier of the thirtieth day after the date of its receipt, or termination of the waiting period by the commissioner. Prior to the end of the waiting period, the commissioner on a one-time basis may require the submission of additional needed information relevant to the proposed acquisition, in

which the event the waiting period ends on the earlier of the thirtieth day after receipt of the additional information by the commissioner or termination of the waiting period by the commissioner.

4. a. The commissioner may enter an order under subdivision a of subsection 5 with respect to an acquisition if there is substantial evidence that the effect of the acquisition may be substantially to lessen competition in any line of insurance in this state or tend to create a monopoly therein or if the ~~insurance company~~insurer fails to file adequate information in compliance with subsection 3.
- b. In determining whether a proposed acquisition would violate the competitive standard of subdivision a, the commissioner shall consider the following:
 - (1) Any acquisition covered under subsection 2 involving two or more ~~insurance companies~~insurers competing in the same market is prima facie evidence of violation of the competitive standards:

- (a) If the market is highly concentrated and the involved ~~insurance companies~~insurers possess the following shares of the market:

Insurer A	Insurer B
4%	4% or more
10%	2% or more
15%	1% or more

- (b) Or, if the market is not highly concentrated and the involved ~~insurance companies~~insurers possess the following shares of the market:

Insurer A	Insurer B
5%	5% or more
10%	4% or more
15%	3% or more
19%	1% or more

A highly concentrated market is one in which the share of the four largest ~~insurance companies~~insurers is seventy-five percent or more of the market. Percentages not shown in the tables are interpolated proportionately to the percentages that are shown. If more than two ~~insurance companies~~insurers are involved, exceeding the total of the two columns in the table is prima facie evidence of violation of the competitive standard in subdivision a. For the purpose of this paragraph, the ~~insurance company~~insurer with the largest share of the market must be deemed to be insurer A.

- (2) There is a significant trend toward increased concentration when the aggregate market share of any grouping of the largest ~~insurance companies~~insurers in the market, from the two largest to the eight largest, has increased by seven percent or more of the market over a period of time extending from any base year five to ten years prior to the acquisition up to the time of the acquisition. Any acquisition or merger covered under subsection 2 involving two or more ~~insurance~~

~~companies~~insurers competing in the same market is prima facie evidence of violation of the competitive standard in subdivision a if:

- (a) There is a significant trend toward increased concentration in the market;
 - (b) One of the ~~insurance companies~~insurers involved is one of the insurance companies in a grouping of large ~~insurance companies~~insurers showing the requisite increase in the market share; and
 - (c) Another involved ~~insurance company's~~insurer's market is two percent or more.
- (3) For the purposes of this subdivision:
- (a) The term "~~insurance company~~insurer" includes any company or group of companies under common management, ownership, or control.
 - (b) The term "market" means the relevant product and geographical markets. In determining the relevant product and geographical markets, the commissioner shall give due consideration to, among other things, the definitions or guidelines, if any, promulgated by the national association of insurance commissioners and to information, if any, submitted by parties to the acquisition. In the absence of sufficient information to the contrary, the relevant product market is assumed to be the direct written insurance premium for a line of business, such line being that used in the annual statement required to be filed by ~~insurance companies~~insurers doing business in this state, and the relevant geographical market is assumed to be this state.
 - (c) The burden of showing prima facie evidence of violation of the competitive standard rests upon the commissioner.
- (4) Even though an acquisition is not prima facie violative of the competitive standard under paragraphs 1 and 2, the commissioner may establish the requisite anticompetitive effect based upon other substantial evidence. Even though an acquisition is prima facie violative of the competitive standard under paragraphs 1 and 2, a party may establish the absence of the requisite anticompetitive effect based upon other substantial evidence. Relevant factors in making a determination under this paragraph include the following: market shares, volatility of ranking of market leaders, number of competitors, concentration, trend of concentration in the industry, and ease of entry into and exit from the market.
- c. An order may not be entered under subdivision a of subsection 5 if:
- (1) The acquisition will yield substantial economies of scale or economies in resource utilization that cannot be feasibly achieved in any other way, and the public benefits which would arise from such economies exceed the public benefits which would arise from not lessening competition; or

- (2) The acquisition will substantially increase the availability of insurance, and the public benefits of such increase exceed the public benefits which would arise from not lessening competition.
5. a. If an acquisition violates the standards of this section, the commissioner may enter an order:
 - (1) Requiring an involved ~~insurance company~~insurer to cease and desist from doing business in this state with respect to the line or lines of insurance involved in the violation; or
 - (2) Denying the application of an acquired or acquiring ~~insurance company~~insurer for a license to do business in this state.
 - b. The order may not be entered unless there :
 - (1) There is a hearing, ~~notice~~;
 - (2) Notice of ~~such~~the hearing is issued prior to the end of the waiting period and not less than fifteen days prior to the hearing;~~;~~ and ~~the~~
 - (3) The hearing is concluded and the order is issued no later than sixty days after the ~~end~~date of the ~~waiting period~~filing of the preacquisition notification with the commissioner. Every order must be accompanied by a written decision of the commissioner setting forth findings of fact and conclusions of law.
 - c. ~~An order entered under this subsection may not become final sooner than thirty days after it is issued, during which time the involved insurance company may submit a plan to remedy the anticompetitive impact of the acquisition within a reasonable time. Based upon the plan or other information, the commissioner shall specify the conditions, if any, under the time period during which the aspects of the acquisition causing a violation of the standards of this section would be remedied and the order vacated or modified.~~
 - d. An order pursuant to this subsection does not apply if the acquisition is not consummated.
 - e.d. Any person who violates a cease and desist order of the commissioner under this subsection and while the order is in effect, after notice and hearing and upon order of the commissioner, may be subject at the discretion of the commissioner to any one or both of the following:
 - (1) A monetary penalty of not more than ten thousand dollars for every day of violation.
 - (2) Suspension or revocation of ~~such~~the person's license.
 - f.e. Any ~~insurance company~~insurer or other person who fails to make any filing required by this section and who also fails to demonstrate a good-faith effort to comply with any such filing requirement is subject to a fine of not more than fifty thousand dollars.

- g.f. Subsections 2 and 3 of section ~~26.1-10-08~~26.1-10-10 and section ~~26.1-10-10~~26.1-10-12 do not apply to acquisitions covered under subsection 2.

SECTION 5. AMENDMENT. Section 26.1-10-04 of the North Dakota Century Code is amended and reenacted as follows:

26.1-10-04. Registration — Amendments — Termination — Alternative registration — Exceptions — Disclaimer — Violation of insurers.

1. Every ~~insurance company which~~insurer that is authorized to do business in this state and which is a member of an insurance holding company system shall register with the commissioner, except a foreign ~~insurance company~~insurer subject to ~~disclosure~~registration requirements and standards adopted by statute or rule in the jurisdiction of its domicile which are substantially similar to those contained in this section and section 26.1-10-05. Any ~~insurance company~~insurer subject to registration under this section shall register ~~before August 31, 1981, or~~within fifteen days after it becomes subject to registration, ~~whichever is later,~~ and annually thereafter by March first of each year for the previous calendar year unless the commissioner for good cause shown extends the time for registration, and then within the extended time. The commissioner may require any ~~authorized insurance company which~~insurer authorized to do business in the state which is a member of ~~an insurance~~ holding company system not subject to registration under this section to furnish a copy of the registration statement, the summary specified in subsection 10 of section 26.1-10-04, or other information filed by the ~~insurance company~~insurer with the insurance regulatory authority of the domiciliary jurisdiction.

 - (6) Reinsurance agreements.

 4. In addition to the annual filing requirement under subsection 1, each registered ~~insurance company~~insurer shall keep current the information required to be disclosed in its registration statement by reporting all material changes or additions on amendment forms approved by the commissioner within fifteen days after the end of the month in which it learns of each change or addition; provided, however, that subject to subsections 7, 8, and 9 of section 26.1-10-05, each registered ~~insurance company~~insurer shall report all dividends and other distributions to shareholders within five business days following the declaration and no less than ten business days prior to payment thereof.

6. The commissioner may require or allow two or more affiliated ~~insurance companies~~ insurers subject to registration hereunder to file a consolidated registration statement or consolidated reports amending their consolidated registration statement or their individual registration statements.
7. The commissioner may allow an ~~insurance company~~ insurer which is authorized to do business in this state and which is part of an insurance holding company system to register on behalf of any affiliated ~~insurance company~~ insurer which is required to register under subsection 1 to file all information and material required to be filed under this section.

The commissioner shall disallow the disclaimer only after furnishing all parties in interest with notice and opportunity to be heard and after making specific findings of fact to support the disallowance.~~ A disclaimer of affiliation is deemed to have been granted unless the commissioner, within thirty days following receipt of a complete disclaimer, notifies the filing party the disclaimer is disallowed. In the event of disallowance, the disclaiming party may request an administrative hearing, which must be granted. The disclaiming party is relieved of its duty to register under this section if approval of the disclaimer has been granted by the commissioner or if the disclaimer is deemed to have been approved.

SECTION 6. AMENDMENT. Section 26.1-10-05 of the North Dakota Century Code is amended and reenacted as follows:

26.1-10-05. Standards -- Transactions with affiliates -- Adequacy of surplus -- Dividends and other distributions and management of an insurer with an insurance holding company system.

1. Transactions within an insurance holding company system to which an insurance company/insurer subject to registration is a party are subject to the following standards:
 - a. The terms must be fair and reasonable.
 - b. Agreements for cost-sharing services and management must include provisions as required by rules adopted by the commissioner.

 - ~~e-f.~~ Expenses incurred and payment received must be allocated to the insurance company/insurer in conformity with statutory accounting practices consistently applied.
2. The following transactions involving a domestic insurance company/insurer and any person in its insurance holding company system, including an amendment or modification of an affiliate agreement previously filed pursuant to this section, which is subject to any materiality standards contained in subdivisions a through g, may not be entered into unless the insurance company/insurer has notified the commissioner in writing of its intention to enter into the transaction at least thirty days prior thereto, or a shorter period as the commissioner may permit, and the commissioner has not disapproved it within that period. The notice for an amendment or modification must include the reason for the change and the financial impact on the domestic insurer. Within thirty days after a termination of a previously filed agreement, informal notice must be reported to the commissioner for determination of the type of filing required, if any.
 - a. Sales, purchases, exchanges, loans, or extensions of credit, guarantees, or investments provided the transactions are equal to or exceed:

- (2) With respect to life ~~insurance companies~~insurers, three percent of the ~~insurance company's~~insurer's admitted assets as of December thirty-first next preceding.
- b. - d. All management agreements, service contracts, tax allocation agreements, guarantees, and all cost-sharing arrangements.

Additionally, all guarantees that are not quantifiable as to amount are subject to the notice requirements of this subsection.
- f. Any direct or indirect acquisition or investment in a person that controls the insurer or in an affiliate of the insurer in an amount that, together with its present holdings in such investments, exceeds two and one-half percent of the insurer's surplus to policyholders. A direct or indirect acquisition or

- g. Any material transactions, specified by rule, which the commissioner determines may adversely affect the interests of the ~~insurance company's~~insurer's policyholders.

Nothing herein ~~contained in this subsection~~ may be deemed to authorize or permit any transactions which, in the case of an ~~insurance company~~insurer which is not a member of the same insurance holding company system, would be otherwise contrary to law.

3. A domestic ~~insurance company~~insurer may not enter into transactions ~~which that~~ are part of a plan or series of like transactions with persons within the insurance holding company system if the purpose of those separate transactions is to avoid the statutory threshold amount and thus avoid the review that would occur otherwise. If the commissioner determines that the separate transactions were entered into over any twelve-month period for that purpose, the commissioner may exercise the commissioner's authority under the penalty sections of this chapter.
4. The commissioner, in reviewing transactions pursuant to subsection 2, shall consider whether the transactions comply with the standards set forth in subsection 1 and whether they may adversely affect the interests of the policyholders.
5. The commissioner must be notified within thirty days of any investment of the domestic ~~insurance company~~insurer in any one corporation if the total investment in that corporation by the insurance holding company system exceeds ten percent of the corporation's voting securities.
6. For purposes of this chapter, in determining whether an ~~insurance company's~~insurer's surplus as regards policyholders is reasonable in relation to the ~~insurance company's~~insurer's outstanding liabilities and adequate to meet its financial needs, the following factors, among others, must be considered:
 - a. The size of the ~~insurance company~~insurer as measured by its assets, capital and surplus, reserves, premium writings, insurance in force, and other appropriate criteria.
 - b. The extent to which the ~~insurance company's~~insurer's business is diversified among the several lines of insurance.
 - c. The number and size of risks insured in each line of business.

- h. The surplus as regards policyholders maintained by other comparable ~~insurance companies~~insurers.
- i. The adequacy of the ~~insurance company's~~insurer's reserves.
- j. The quality and liquidity of investments in affiliates. The commissioner may treat the investment as a disallowed asset for purposes of determining the adequacy of surplus as regards policyholders whenever in the commissioner's judgment the investment so warrants.

CHAPTER 208

SENATE BILL NO. 2131

(Industry, Business and Labor Committee)
(At the request of the Insurance Commissioner)

AN ACT to create and enact chapter 26.1-10.2 of the North Dakota Century Code, relating to own risk and solvency assessments of insurers; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 26.1-10.2 of the North Dakota Century Code is created and enacted as follows:

26.1-10.2-01. Definitions.

1. "Insurance group" means those insurers and affiliates included within an insurance holding company system as defined in chapter 26.1-10.
2. "Insurer" has the same meaning as set forth in section 26.1-29-02, except the term does not include agencies, authorities, or instrumentalities of the United States, its possessions and territories, the Commonwealth of Puerto Rico, the District of Columbia, or a state or political subdivision of a state.
3. "Own risk and solvency assessment" means a confidential internal assessment, appropriate to the nature, scale, and complexity of an insurer or insurance group, conducted by that insurer or insurance group of the material and relevant risks associated with the insurer or insurance group's current business plan, and the sufficiency of capital resources to support those risks.
4. "Own risk and solvency assessment guidance manual" means the current version of the own risk and solvency assessment guidance manual developed and adopted by the national association of insurance commissioners and adopted by the commissioner and as amended from time to time. A change in the own risk and solvency assessment guidance manual is effective on the January first following the calendar year in which the changes have been adopted by the national association of insurance commissioners and the commissioner.
5. "Own risk and solvency assessment summary report" means a confidential high-level summary of an insurer or insurance group's own risk and solvency assessment.

26.1-10.2-02. Risk management framework.

An insurer shall maintain a risk management framework to assist the insurer with identifying, assessing, monitoring, managing, and reporting on the material and relevant risks of the insurer. This requirement may be satisfied if the insurance group of which the insurer is a member maintains a risk management framework applicable to the operations of the insurer.

26.1-10.2-03. Own risk and solvency assessment requirement.

Subject to section 26.1-10.2-05, an insurer, or the insurance group of which the insurer is a member, regularly shall conduct an own risk and solvency assessment consistent with a process comparable to the own risk and solvency assessment guidance manual. The own risk and solvency assessment must be conducted no less than annually but also at any time there are significant changes to the risk profile of the insurer or the insurance group of which the insurer is a member.

26.1-10.2-04. Own risk and solvency assessment summary report.

1. Upon the commissioner's request, and no more than once each year, an insurer shall submit to the commissioner an own risk and solvency assessment summary report or any combination of reports that together contain the information described in the own risk and solvency assessment guidance manual, applicable to the insurer or the insurance group of which it is a member. Notwithstanding any request from the commissioner, if the insurer is a member of an insurance group, the insurer shall submit the reports required by this subsection if the commissioner is the lead state commissioner of the insurance group as determined by the procedures within the financial analysis handbook adopted by the national association of insurance commissioners.
2. The report must include a signature of the insurer or insurance group's chief risk officer or other executive having responsibility for the oversight of the insurer's enterprise risk management process attesting to the best of the individual's belief and knowledge that the insurer applies the enterprise risk management process described in the own risk and solvency assessment summary report and that a copy of the report has been provided to the insurer's board of directors or the appropriate committee of the board.
3. An insurer may comply with subsection 1 by providing the most recent and substantially similar report provided by the insurer or another member of an insurance group of which the insurer is a member to the commissioner of another state or to a supervisor or regulator of a foreign jurisdiction, if that report provides information that is comparable to the information described in the own risk and solvency assessment guidance manual. Any report in a language other than English must be accompanied by a translation of that report into the English language.

26.1-10.2-05. Exemption.

1. An insurer is exempt from the requirements of this chapter if:
 - a. The insurer has annual direct written and unaffiliated assumed premium, including international direct and assumed premium, but excluding premiums reinsured with the federal crop insurance corporation and federal flood program, less than five hundred million dollars; and
 - b. The insurance group of which the insurer is a member has annual direct written and unaffiliated assumed premium, including international direct and assumed premium, but excluding premiums reinsured with the federal crop insurance corporation and federal flood program, less than one billion dollars.

2. If an insurer qualifies for exemption under subdivision a of subsection 1, but the insurance group of which the insurer is a member does not qualify for exemption under subdivision b of subsection 1, then the own risk and solvency assessment summary report that may be required under section 26.1-10.2-04 must include every insurer within the insurance group. This requirement may be satisfied by the submission of more than one own risk and solvency assessment summary report for any combination of insurers provided any combination of reports includes every insurer within the insurance group.
3. If an insurer does not qualify for exemption under subdivision a of subsection 1, but the insurance group of which the insurer is a member qualifies for exemption under subdivision b of subsection 1, then the only own risk and solvency assessment summary report that may be required under section 26.1-10.2-04 must be the report applicable to that insurer.
4. An insurer that does not qualify for exemption under subsection 1 may apply to the commissioner for a waiver from the requirements of this chapter based upon unique circumstances. In deciding whether to grant the request for waiver, the commissioner may consider the type and volume of business written, the ownership and organizational structure of the insurer, and any other factor the commissioner considers relevant to the insurer or insurance group of which the insurer is a member. If the insurer is part of an insurance group with insurers domiciled in more than one state, the commissioner shall coordinate with the lead state commissioner and with the other domiciliary commissioners in considering whether to grant the insurer's request for a waiver.
5. Notwithstanding the exemptions stated in this section:
 - a. The commissioner may require an insurer maintain a risk management framework, conduct an own risk and solvency assessment, and file an own risk and solvency assessment summary report based on unique circumstances, including the type and volume of business written, the ownership and organizational structure of the insurer, a federal agency request, or an international supervisor request.
 - b. The commissioner may require an insurer maintain a risk management framework, conduct an own risk and solvency assessment, and file an own risk and solvency assessment summary report if the insurer has risk-based capital for company action level event as set forth in section 26.1-03.1-03; meets one or more of the standards of an insurer deemed to be in hazardous financial condition as defined in section 26.1-06.1-11; or otherwise exhibits qualities of a troubled insurer as determined by the commissioner.
6. If an insurer that qualifies for an exemption under subsection 1 subsequently no longer qualifies for that exemption due to changes in premium as reflected in the insurer's most recent annual statement or in the most recent annual statements of the insurers within the insurance group of which the insurer is a member, the insurer has one year following the year the threshold is exceeded to comply with the requirements of this chapter.

26.1-10.2-06. Contents of an own risk and solvency assessment summary report.

1. The own risk and solvency assessment summary report must be prepared consistent with the own risk and solvency assessment guidance manual subject to the requirements of subsection 2. Documentation and supporting information must be maintained and made available upon examination or upon request of the commissioner.
2. The review of the own risk and solvency assessment summary report and any additional request for information must be made using similar procedures used in the analysis and examination of multi-state or global insurers and insurance groups.

26.1-10.2-07. Confidentiality.

1. However, the commissioner may use any document, material, or other information in the furtherance of any regulatory or legal action brought as a part of the commissioner's official duties. The commissioner may not otherwise make the document, material, or other information public without the prior written consent of the insurer.
2. 5. A waiver of any applicable privilege or claim of confidentiality in any document, proprietary and trade-secret material, or other own risk and solvency assessment-related information does not occur as a result of disclosure of the own risk and solvency assessment-related information or document to the commissioner under this section or as a result of sharing as authorized in this chapter.

The notice must provide instructions on how the member can obtain, either by mail or electronically, a full copy of the proposed plan of conversion. If the meeting to vote upon the plan of conversion is held during the annual meeting of policyholders, only a combined notice of meeting is required.
9. The plan of conversion must be voted upon by voting members and must be adopted upon receiving the affirmative vote of at least two-thirds of the votes cast by voting members at the meeting.  - a. The reasons for proposed conversion.
 - b. The effect of conversion on existing policies, including all of the following:
 - (1) A provision that all policies in force on the effective date of conversion continue to remain in force under the terms of the policies, except that the following rights, to the extent the rights existed in the converting mutual company, must be extinguished on the effective date of the conversion:
 - (a) Any voting rights of the policyholders provided under the policies.
 - (b) Except as provided under paragraph 2, any right to share in the surplus of the converting mutual company, unless such right is expressly provided for under the provisions of the existing policy.
 - (c) Any assessment provisions provided for under certain types of policies.
 - (2) A provision that holders of participating policies in effect on the date of conversion continue to have a right to receive dividends as provided in the participating policies, if any.
 - c. The grant of subscription rights to eligible members.
 - (1) For purposes of any plan, the transfer of subscription rights from any of the following may not be deemed an unpermitted transfer for purposes of this chapter:
 - (a) An individual to such individual and the individual's spouse or children or to a trust or other estate or wealth planning entity established for the benefit of such individual or the individual's spouse or children;
 - (b) An individual to such individual's individual or joint individual retirement account or other tax-qualified retirement plan;
 - (c) An entity to the shareholders, partners, or members of such entity; or

(d) The holder of such rights back to the converting mutual company, its proposed subsidiary holding company, or an unaffiliated corporation or entity that will purchase the stock of the converted stock company as provided in item 3 of subparagraph a of paragraph 2 of subdivision c of subsection 1.

(2) The grant of subscription rights to eligible members must include:

(a) A provision that each eligible member is to receive, without payment, nontransferable subscription rights to purchase the capital stock of the converted stock company and that, in the aggregate, all eligible members have the right, before the right of any other party, to purchase one hundred percent of the capital stock of the converted stock company, exclusive of any shares of capital stock required to be sold or distributed to the holders of surplus notes, if any, and any capital stock purchased by the company's tax-qualified employee stock benefit plan which is in excess of the pro-forma market value of the capital stock established under subsection 4, as permitted by subsection 3 of section 26.1-12.2-04. As an alternative to subscription rights in the converting mutual company, the plan of conversion may provide each eligible member is to receive, without payment, nontransferable subscription rights to purchase a portion of the capital stock of one of the following:

[1] A corporation or entity organized for the purpose of becoming a holding company for the converted stock company;

[2] A stock insurance company owned by the mutual company into which the mutual company will be merged; or

[3] An unaffiliated stock insurer or other corporation or entity that will purchase the stock of the converted stock company.

(b) A provision that subscription rights must be allocated in whole shares among the eligible members using a fair and equitable formula. The formula need not allocate subscription rights to eligible members on a pro rata basis based on premium payments or contributions to surplus, but may take into account how the different classes of policies of the eligible members contributed to the surplus of the mutual company or any other factors that may be fair or equitable. Allocation of subscription rights on a per capita basis are entitled to a presumption that such method is fair, subject to a rebuttal of fairness by clear and convincing evidence. In accordance with subsection 5 of section 26.1-12.2-02, the commissioner may retain an independent consultant to assist in the determination that the allocation of subscription rights is fair and equitable.

2. The plan must provide a fair and equitable means for allocating shares of capital stock in the event of an oversubscription to shares by eligible members exercising subscription rights received under subdivision c of subsection 1.
3. The plan must provide any shares of capital stock not subscribed to by eligible members exercising subscription rights received under subdivision c of

subsection 1 or any other individuals or entities granted subscription rights pursuant to section 26.1-12.2-04 must be sold:

- a. In a public offering; however, if the number of shares of capital stock not subscribed by eligible members is so small in number or other factors exist that do not warrant the time or expense of a public offering, the plan of conversion may provide for sale of the unsubscribed shares through a private placement or other alternative method approved by the commissioner which is fair and equitable to eligible members; or
 - b. To a standby investor or to another corporation or entity that is participating in the plan of conversion, as provided in paragraph 2 of subdivision c of subsection 1.
4. The plan must provide for the preparation of a valuation by a qualified independent expert which establishes the dollar value of the capital stock for which subscription rights must be granted pursuant to subdivision c of subsection 1 which must be equal to the estimated pro forma market value of the converted stock company. The qualified independent expert may, to the extent feasible, determine the pro forma market value by reference to a peer group of stock companies and the application of generally accepted valuation techniques; state the pro forma market value of the converted stock company as a range of value; and establish the value as the value estimated to be necessary to attract full subscription for the shares.
 5. The dollar value of a subscription right based upon the application of the Black-Scholes option pricing model or another generally accepted option pricing model. In connection with the determination of stock price volatility or other valuation inputs used in option pricing models, the qualified independent expert may assume that the attributes of the converted stock company will be substantially similar to the attributes of the stock of the peer companies used to determine the estimated pro forma market value of the converted stock company. The term of a subscription right is a minimum of ninety days for the sole purpose of determining the value of a subscription right.
 6. The plan must provide that each eligible member has the right to require the mutual company to redeem such subscription rights, in lieu of exercising the subscription rights allocated to each eligible member, at a price equal to the number of subscription rights allocated to each eligible member multiplied by the dollar value of the subscription right as determined by the qualified independent expert pursuant to subsection 4. The obligation of the mutual company to redeem subscription rights arises only upon the effective date of the plan. The redemption price payable to each eligible member must be paid to the member within thirty days of the effective date of the plan. Alternatively, the converted stock company may offer each eligible member the option of receiving the redemption amount in cash or having the redemption amount credited against future premium payments. An eligible member that does not exercise the member's subscription rights, and which also fails to affirmatively request redemption of the member's subscription rights before the expiration of the subscription offering, nevertheless is deemed to have requested redemption of the member's subscription rights and shall receive the redemption amount in cash in the manner otherwise provided in this subsection.

7. The plan must set the purchase price per share of capital stock equal to any reasonable amount. However, the minimum subscription amount required of any eligible member may not exceed five hundred dollars, but the plan may provide that the minimum number of shares any person may purchase pursuant to the plan is twenty-five shares. The purchase price per share at which capital stock is offered to persons that are not eligible members may be greater than but not less than the purchase price per share at which capital stock is offered to eligible members.
8. The plan must provide that any person or group of persons acting in concert may not acquire, in the public offering or pursuant to the exercise of subscription rights, more than five percent of the capital stock of the converted stock company or the stock of another corporation that is participating in the plan of conversion, as provided in item 3 of subparagraph a of paragraph 2 of subdivision c of subsection 1, except with the approval of the commissioner. This limitation does not apply to any entity that is to purchase one hundred percent of the capital stock of the converted stock company as part of the plan of conversion approved by the commissioner or to any person that acts as a standby investor for the capital stock of the converted stock company for an amount equal to ten percent or more of the capital stock of the converted stock company, if in each case such purchase is approved by the commissioner in accordance with the provisions of North Dakota law following the filing of an acquisition of control statement under section 26.1-10-03.
9. The plan must provide that a director or officer or person acting in concert with a director or officer of the mutual company may not acquire any capital stock of the converted stock company or the stock of another corporation that is participating in the plan of conversion, as provided in item 3 of subparagraph a of paragraph 2 of subdivision c of subsection 1, for three years after the effective date of the plan of conversion, except through a broker-dealer, without the permission of the commissioner. This provision does not prohibit the directors and officers from:

A tax-qualified employee benefit plan may exercise subscription rights granted under this subsection regardless of the total number of shares purchased by eligible members. If eligible members purchase shares sufficient to yield gross proceeds equal to the maximum of the valuation range established by subsection 4 of section 26.1-12.2-03, then the tax-qualified employee benefit plan may purchase additional shares of capital stock of the converting mutual company or the stock of another corporation that is participating in the plan of conversion, as provided in item 3 of subparagraph a of paragraph 2 of subdivision c of subsection 1 of section 26.1-12.2-03 in an amount sufficient to equal ten percent of the total shares of capital stock of the converted stock company outstanding.

26.1-12.2-05. Alternative plan of conversion.

The governing body of the converting mutual company may adopt a plan of conversion that does not rely in whole or in part upon issuing nontransferable subscription rights to members to purchase stock of the converting stock company if the commissioner finds the plan of conversion does not prejudice the interests of the members, is fair and equitable, and is not inconsistent with the purpose and intent of this chapter. Subject to a finding of the commissioner that an alternative plan of conversion is fair and equitable and is not inconsistent with the purpose and intent of this chapter, an alternative plan of conversion may:

1. Include the merger of a domestic mutual insurance company into a domestic or foreign stock insurance company.
2. Provide for the issuance of transferable or redeemable subscription rights.
3. Provide for issuing stock, cash, policyholder credits, or other consideration, or any combination of the foregoing, to policyholders instead of subscription rights.

3. The plan of conversion of a mutual holding company must provide that any outstanding issued minority shares must be exchanged for stock issued by the converting mutual company or the stock of any corporation participating in the conversion of the mutual holding company pursuant to subparagraph a of paragraph 2 of subdivision c of subsection 1 of section 26.1-12.2-03. The mutual holding company shall demonstrate to the satisfaction of the commissioner that the basis for the exchange is fair and reasonable. An exchange in which the holders of outstanding issued minority shares retain approximately the same percentage ownership in the resulting company as the quotient of the number of issued minority shares, divided by the sum of issued minority shares and the number of shares held by the mutual holding company, is presumed to be fair and reasonable.
4. If a mutual holding company seeking to convert under this chapter previously completed one or more minority stock offerings, the conversion of the mutual holding company to stock form may not be consummated unless a majority of the shares issued and outstanding to persons other than the mutual holding company vote in favor of the conversion. This vote requirement is in addition to the required policyholder vote.

26.1-12.2-08. Effective date of plan of conversion.

A plan of conversion is effective when the commissioner has approved the plan of conversion, the voting members have approved the plan of conversion and adopted the certificate of incorporation of the converted stock company, and the certificate of incorporation is filed in the office of the secretary of state of this state.

1. All members whose policies are issued after the proposed plan of conversion has been adopted by the governing body and before the effective date of the plan of conversion must be sent a written notice regarding the plan of conversion upon issuance of such policy.
2. Except as provided in subsection 3, each member of a property or casualty insurance company entitled to receive the notice provided for in subsection 1 must be advised of the member's right of cancellation and to a pro rata refund of unearned premiums.
3. A member of a property or casualty insurance company who has made or filed a claim under such member's insurance policy is not entitled to any right to receive any refund under subsection 2. A person that has exercised the rights provided by subsection 2 is not entitled to make or file any claim under such person's insurance policy.

26.1-12.2-10. Corporate existence.

26.1-12.2-11. Conflict of interest.

1. A director, officer, agent, or employee of the converting mutual company may not receive any fee, commission, or other valuable consideration, other than such person's usual regular salary or compensation, for aiding, promoting, or assisting in a conversion under this chapter. This provision does not prohibit the payment of reasonable fees and compensation to attorneys, accountants, financial advisors, and actuaries for services performed in the independent practice of their professions, even if the attorney, accountant, financial advisor, or actuary is also a director or officer of the converting mutual company.
2. For a period of two years after the effective date of the conversion, a converted stock company may not implement any nontax-qualified stock benefit plan unless the plan is approved by a majority of votes cast at a duly convened meeting of shareholders held not less than six months after the effective date of the conversion.
3. All the costs and expenses connected with a plan of conversion must be paid for or reimbursed by the converting mutual company or the converted stock company. However, if the plan of conversion provides for participation by another entity in the plan pursuant to subparagraph a of paragraph 2 of subdivision c of subsection 1 of section 26.1-12.2-03, such entity may pay for or reimburse all or a portion of the costs and expenses connected with the plan of conversion.

26.1-12.2-12. Failure to give notice.

If the converting mutual company complies substantially and in good faith with the notice requirements of this chapter, the failure of the converting mutual company to send a member the required notice does not impair the validity of any action taken under this chapter.

26.1-12.2-13. Limitation on actions.

Any action challenging the validity of or arising out of acts taken or proposed to be taken under this chapter must be commenced on or before the later of:

1. Sixty days after the approval of the plan of conversion by the commissioner; or

filed with the insurance department or as determined by a financial examination performed by the insurance department, the requirements of this chapter, including notice to and policyholder approval of the plan of conversion, may be waived at the discretion of the commissioner. If a waiver under this section is ordered by the commissioner, the converting mutual company shall specify in the mutual company's plan of conversion:

- a. The method and basis for the issuance of the converted stock company's shares of its capital stock to an independent party in connection with an investment by the independent party in an amount sufficient to restore the converted stock company to a sound financial condition.
 - b. That the conversion must be accomplished without granting subscription rights or other consideration to policyholders.
2. This section does not alter or limit the authority of the commissioner under any other provisions of law, including receivership and liquidation provisions applicable to insurance companies.

26.1-12.2-15. Rules.

The commissioner may adopt rules to administer and enforce this chapter.

26.1-12.2-16. Laws applicable to converted stock company.

1. A converting mutual company is not permitted to convert under this chapter if, as a direct result of the conversion, any person or any affiliate thereof acquires control of the converted stock company, unless that person and such person's affiliates comply with the provisions of North Dakota law regarding the acquisition of control of an insurance company.
2. Except as otherwise specified in this chapter, a converted stock company has and may exercise all the rights and privileges and is subject to all of the requirements and regulations imposed on stock insurance companies under the laws of North Dakota relating to the regulation and supervision of insurance companies, but the converting stock company may not exercise rights or privileges that other stock insurance companies may not exercise.

26.1-12.2-17. Commencement of business as a stock insurance company.

A converting mutual company may not engage in the business of insurance as a stock company until the converting stock company complies with all provisions of this chapter.

26.1-12.2-18. Amendment of policies.

A mutual company, by endorsement or rider approved by the commissioner and sent to the policyholder, may simultaneously with or at any time after the effective date of the conversion amend any outstanding insurance policy for the purpose of extinguishing the membership rights of such policyholder.

26.1-12.2-19. Prohibition on acquisitions of control.

Except as otherwise specifically provided in section 26.1-12.2-03, from the date a plan of conversion is adopted by the governing body of a converting mutual company until three years after the effective date of the plan of conversion, a person may not directly or indirectly offer to acquire, make any announcement to acquire, or acquire

in any manner, including making a filing with the insurance department for such acquisition under a statute or regulation of this state, the beneficial ownership of ten percent or more of a class of a voting security of the converted stock company or of a person that controls the voting securities of the converted stock company, unless the converted stock company or a person that controls the voting securities of the converted stock company consents to such acquisition and such acquisition is otherwise approved by the commissioner.

 - (2) If a certified reinsurer maintains a trust to fully secure the certified reinsurer's obligations subject to subsection 4, and chooses to secure the certified reinsurer's obligations incurred as a certified reinsurer in the form of a multibeneficiary trust, the certified reinsurer shall maintain separate trust accounts for the certified reinsurer's obligations incurred under reinsurance agreements issued or renewed as a certified reinsurer with reduced security as permitted by this subsection or comparable laws of other United States jurisdictions and for the certified reinsurer's obligations subject to subsection 4. As a condition to the grant of certification under subsection 5, the certified reinsurer must have bound itself, by the language of the trust and agreement with the commissioner with principal regulatory oversight of each such trust account, to fund, upon termination of any such trust account, out of the remaining surplus of such trust any deficiency of any other such trust account.

- (3) The minimum trusteed surplus requirements provided in subsection 4 are not applicable with respect to a multibeneficiary trust maintained by a certified reinsurer for the purpose of securing obligations incurred under this subsection, except that such trust must maintain a minimum trusteed surplus of ten million dollars.
- (4) With respect to obligations incurred by a certified reinsurer under this subsection, if the security is insufficient, the commissioner shall reduce the allowable credit by an amount proportionate to the deficiency, and may impose further reductions in allowable credit upon finding there is a material risk the certified reinsurer's obligations will not be paid in full when due.

- (b) If the commissioner continues to assign a higher rating as permitted by other provisions of this section, this requirement does not apply to a certified reinsurer in inactive status or to a reinsurer whose certification has been suspended.
- f. If an applicant for certification has been certified as a reinsurer in a national association of insurance commissioners accredited jurisdiction, the commissioner may defer to that jurisdiction's certification, and may defer to the rating assigned by that jurisdiction, and such assuming insurer must be considered to be a certified reinsurer in this state.
- g. A certified reinsurer that ceases to assume new business in this state may request to maintain the certified reinsurer's certification in inactive status in order to continue to qualify for a reduction in security for the certified reinsurer's in-force business. An inactive certified reinsurer shall continue to comply with all applicable requirements of this subsection, and the commissioner shall assign a rating that takes into account, if relevant, the reasons why the reinsurer is not assuming new business.
6. Credit must be allowed when the reinsurance is ceded to an assuming insurer not meeting the requirements of subsection 1, 2, 3, ~~or 4,~~ or 5 but only with respect ~~as~~ to the insurance of risks located in jurisdictions where the reinsurance is required by applicable law or regulation of that jurisdiction.

- a. 8. If the assuming insurer does not meet the requirements of subsection 1, 2, or 3, the credit permitted by subsection 4 or 5 may not be allowed unless the assuming insurer agrees in the trust agreements to the following conditions:
- a. Notwithstanding any other provisions in the trust instrument, if the trust fund is inadequate because the trust fund contains an amount less than the amount required by subdivision c of subsection 4, or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation, or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner with regulatory oversight all of the assets of the trust fund.

- d. The grantor shall waive any right otherwise available to the grantor under United States law that is inconsistent with this provision.
9. If an accredited or certified reinsurer ceases to meet the requirements for accreditation or certification, the commissioner may suspend or revoke the reinsurer's accreditation or certification.
- a. The commissioner shall give the reinsurer notice and opportunity for a hearing. The suspension or revocation may not take effect until after the commissioner's order on a hearing, unless:
- (1) The reinsurer waives the reinsurer's right to a hearing;
- (2) The commissioner's order is based on regulatory action by the reinsurer's domiciliary jurisdiction or the voluntary surrender or termination of the reinsurer's eligibility to transact insurance or reinsurance business in the reinsurer's domiciliary jurisdiction or in the

primary certifying state of the reinsurer under subdivision f of subsection 5; or

- (3) The commissioner finds an emergency requires immediate action and a court of competent jurisdiction has not stayed the commissioner's action.
- b. During the period of suspension of a reinsurer's accreditation or certification, a reinsurance contract issued or renewed after the effective date of the suspension does not qualify for credit except to the extent that the reinsurer's obligations under the contract are secured in accordance with section 26.1-31.2-02. If a reinsurer's accreditation or certification is revoked, credit for reinsurance may not be granted after the effective date of the revocation, except to the extent the reinsurer's obligations under the contract are secured in accordance with subdivision e of subsection 5 or section 26.1-31.2-02.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 26.1-33-18 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-18. Required provisions relating to lapsing policyholder Nonforfeiture benefits.

In the case of policies issued after December 31, 1978, ~~no~~ a life insurance policy, except as stated in section 26.1-33-28, may not be delivered or issued for delivery in this state unless it contains in substance the following provisions, or corresponding provisions which are at least as favorable to the defaulting or surrendering policyholder as are the minimum requirements ~~hereinafter specified in this section~~ and are essentially in compliance with section 26.1-33-27:

1. In the event of default in any premium payment, the ~~company insurer~~ will grant, upon proper request not later than sixty days after the due date of the premium in default, a paid-up nonforfeiture benefit on a plan stipulated in the policy, effective as of the due date, of the amount as may be hereinafter specified. In lieu of the stipulated paid-up nonforfeiture benefit, the ~~company insurer~~ may substitute, upon proper request not later than sixty days after the due date of the premium in default, an actuarially equivalent alternative paid-up nonforfeiture benefit that provides a greater amount or longer period of death benefits or, if applicable, a greater amount or earlier payment of endowment benefits.
2. Upon surrender of the policy within sixty days after the due date of any premium payment in default after premiums have been paid for at least three full years in the case of ordinary insurance or five full years in the case of industrial insurance, the ~~company insurer~~ will pay, in lieu of any paid-up nonforfeiture benefit, a cash surrender value of the amount as may be hereinafter specified.
3. A specified paid-up nonforfeiture benefit becomes effective as specified in the policy unless the person entitled to make the election elects another available option not later than sixty days after the due date of the premium in default.
4. If the policy has become paid up by completion of all premium payments or if it is continued under any paid-up nonforfeiture benefit which became effective on or after the third policy anniversary in the case of ordinary insurance or the fifth policy anniversary in the case of industrial insurance, then the

~~companyinsurer~~ will pay, upon surrender of the policy within thirty days after any policy anniversary, a cash surrender value of the amount as may be hereinafter specified.

5. In the case of policies which cause on a basis guaranteed in the policy unscheduled changes in benefits or premiums, or which provide an option for changes in benefits or premiums other than a change to a new policy, a statement of the mortality table, interest rate, and method used in calculating cash surrender values and the paid-up nonforfeiture benefits available under the policy. In the case of all other policies, a statement of the mortality table and interest rate or rates used in calculating the cash surrender values and the paid-up nonforfeiture benefits available under the policy, together with a table showing the cash surrender value, if any, and paid-up nonforfeiture benefit, if any, available under the policy on each policy anniversary either during the first twenty policy years or during the term of the policy, whichever is shorter, such values and benefits to be calculated upon the assumption that there are no dividends or paid-up additions credited to the policy and that there is no indebtedness to the ~~companyinsurer~~ on the policy.
6. A statement that the cash surrender values and the paid-up nonforfeiture benefits available under the policy are not less than the minimum values and benefits required by or pursuant to the insurance law of ~~this~~the state in which the policy is delivered. An explanation of the manner in which the cash surrender values and the paid-up nonforfeiture benefits are altered by the existence of any paid-up additions credited to the policy or any indebtedness to the ~~companyinsurer~~ on the policy. If a detailed statement of the method of computation of the values and benefits shown in the policy is not stated in the policy, a statement that the method of computation has been filed with the commissioner. A statement of the method to be used in calculating the cash surrender value and paid-up nonforfeiture benefit available under the policy on any policy anniversary beyond the last anniversary for which such values and benefits are consecutively shown in the policy.

Any of the foregoing provisions or portions thereof not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the policy.

The ~~companyinsurer~~ shall reserve the right to defer the payment of any cash surrender value for a period of six months after demand therefor with surrender of the policy.

SECTION 2. AMENDMENT. Section 26.1-33-19 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-19. MinimumComputation of cash surrender value.

1. Any cash surrender value available under a life insurance policy in the event of default in a premium payment due on any policy anniversary, whether or not required by section 26.1-33-18, must be an amount not less than the excess, if any, of the present value, on the anniversary, of the future guaranteed benefits which would have been provided for by the policy, including any existing paid-up additions, if there had been no default, over the sum of:
 - a. The then present value of the adjusted premiums as defined in sections 26.1-33-21 through 26.1-33-24 corresponding to premiums which would have fallen due on and after ~~such~~the anniversary; and

- b. The amount of any indebtedness to the ~~company~~insurer on the policy.
2. Any life insurance policy issued on or after the operative date of section 26.1-33-24, which provides supplemental life insurance or annuity benefits at the option of the insured and for an identifiable additional premium by rider or supplemental policy provision, the cash surrender value referred to in subsection 1 must be an amount not less than the sum of the cash surrender value ~~as defined in that subsection~~ for an otherwise similar policy issued at the same age without the rider or supplemental policy provision and the cash surrender value as defined in ~~that subsection~~ 1 for a policy which provides only the benefits otherwise provided by the rider or supplemental policy provision.
 3. For any family life ~~insurance~~ policy issued on or after the operative date of section 26.1-33-24, which defines a primary insured and provides term insurance on the life of the spouse of the primary insured expiring before the spouse's age seventy-one, the cash surrender value referred to in subsection 1 must be an amount not less than the sum of the cash surrender value ~~as defined in that subsection~~ for an otherwise similar policy issued at the same age without such term insurance on the life of the spouse and the cash surrender value as defined in ~~that subsection~~ 1 for a policy which provides only the benefits otherwise provided by ~~such~~ term insurance on the life of the spouse.
 4. Any cash surrender value available within thirty days after any policy anniversary under any policy paid up by completion of all premium payments or any policy continued under any paid-up nonforfeiture benefit, whether or not required by section 26.1-33-18, must be an amount not less than the present value, on such anniversary, of the future guaranteed benefits provided for by the policy, including any existing paid-up additions, decreased by any indebtedness to the ~~company~~insurer on the policy.

SECTION 3. AMENDMENT. Section 26.1-33-20 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-20. Minimum Computation of paid-up nonforfeiture benefit~~benefits~~.

Any paid-up nonforfeiture benefit available under a ~~life insurance~~the policy in the event of default in a premium payment due on any policy anniversary must be such that its present value as of the anniversary must be at least equal to the cash surrender value then provided ~~for~~ by the policy or, if none is provided ~~for~~, that cash surrender value which would have been required by sections 26.1-33-18 through 26.1-33-28 in the absence of the condition that premiums must have been paid for at least a specified period.

SECTION 4. AMENDMENT. Section 26.1-33-21 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-21. Definition~~Calculation~~ of adjusted premiums used in ~~obtaining~~ minimum cash surrender value.

1. ~~This section does not apply to policies issued on or after the operative date of section 26.1-33-24.~~ Except as provided in subsection 3, the adjusted premiums for any policy must be calculated on an annual basis and must be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts stated in the policy as extra premiums to

cover impairments or special hazards, that the present value, at the date of issue of the policy, of all the adjusted premiums equals the sum of:

- a. The then present value of the future guaranteed benefits provided for by the policy.
- b. Two percent of the amount of insurance, if the insurance is uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy.
- c. Forty percent of the adjusted premium for the first policy year.
- d. Twenty-five percent of either the adjusted premium for the first policy year or the adjusted premium for a whole life insurance policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less.

In applying the percentages specified in subdivisions c and d, no adjusted premium may be deemed to exceed four percent of the amount of insurance or level amount equivalent uniform amount. The date of issue of a policy for the purpose of this section is the date as of which the rated age of the insured is determined.

2. In the case of a ~~life insurance~~ policy providing an amount of insurance varying with duration of the policy, the equivalent ~~uniform~~level amount of insurance for the purpose of this section is ~~deemed to be~~ the level amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the ~~date of issue~~inception of the ~~policy~~insurance as ~~do~~ the benefits under the policy.
3. The adjusted premiums for any life insurance policy providing term insurance benefits by rider or supplemental policy provision must be equal to ~~(a) the~~ :
 - a. ~~The~~ adjusted premiums for an otherwise similar policy issued at the same age without such term insurance benefits, increased, during the period for which premiums for the term insurance benefits are payable, by ~~(b) the~~ :
 - b. ~~The~~ adjusted premiums for such term insurance, ~~the foregoing items (a) and (b) must be~~ subdivisions a and b being calculated separately and as specified in subsections 1 and 2 except that, for the purposes of subdivisions b, c, and d of subsection 1, the amount of insurance or equivalent uniform amount of insurance used in the calculation of the adjusted premiums referred to in ~~(b)~~subdivision b of subsection 1 must be equal to the excess of the corresponding amount determined for the entire policy over the amount used in the calculation of the adjusted premiums in ~~(a)~~subdivision a.
4. ~~This section does not apply to life insurance policies issued on or after the operative date of section 26.1-33-24~~Except as otherwise provided in sections 26.1-33-22 and 26.1-33-23, all adjusted premiums and present values referred to in sections 26.1-33-18 through 26.1-33-28, for all policies of ordinary insurance, must be calculated on the basis of the commissioners 1941

standard ordinary mortality table. However, for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to any age not more than three years younger than the actual age of the insured and such calculations for all policies of industrial insurance must be made on the basis of the 1941 standard industrial mortality table. All calculations must be made on the basis of the rate of interest, not exceeding three and one-half percent per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits. In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred thirty percent of the rates of mortality according to the applicable table. For insurance issued on a substandard basis, the calculation of any adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the commissioner.

SECTION 5. AMENDMENT. Section 26.1-33-22 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-22. Mortality and interest bases for Calculation of adjusted premiums and present values - Ordinary insurance policies.

This section does not apply to ordinary policies issued on or after the operative date of section 26.1-33-24. In the case of ordinary policies issued on or after the operative date of this section, all adjusted premiums and present values referred to in sections 26.1-33-18 through 26.1-33-28 must be calculated on the basis of the ~~commissioners'~~commissioners' 1958 standard ordinary mortality table and the rate of rates of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits. ~~No such, provided that the rate of interest may not exceed three and one-half percent per annum except that a rate of interest may exceed~~not exceeding five and one-half percent per year may be used for policies issued after June 30, 1977, except that for any single premium whole life or endowment insurance policy a rate of interest not exceeding six and one-half percent per year may be used. ~~For, and provided that for~~ any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than six years younger than the actual age of the insured. In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not ~~greater~~more than those shown in the ~~commissioners'~~commissioners' 1958 extended term insurance table. For insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the ~~company~~insurer and approved by the commissioner. ~~This section does not apply to ordinary life insurance policies issued on or after the operative date of section 26.1-33-24. Upon the operative date of this section, any insurer may file with the commissioner a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1966. After the filing of such notice, upon the specified date, which must be the operative date of this section for that insurer, this section becomes operative with respect to the ordinary policies issued by the insurer after that date. If an insurer makes no election, the operative date of this section for the insurer is January 1, 1966.~~

SECTION 6. AMENDMENT. Section 26.1-33-23 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-23. Mortality and interest bases for Calculation of adjusted premiums and present values - Industrial insurance policies.

This section does not apply to industrial policies issued on or after the operative date of section 26.1-33-24. In the case of industrial policies issued on or after the operative date of this section, all adjusted premiums and present values referred to in sections 26.1-33-18 through 26.1-33-28 must be calculated on the basis of the commissioners' 1961 standard industrial mortality table and the rate or rates of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits. No such, provided that such rate of interest may not exceed three and one-half percent per annum except that a rate of interest may exceed not exceeding five and one-half percent per year may be used for policies issued after June 30, 1977, except that for any single premium whole life or endowment insurance policy a rate of interest not exceeding six and one-half percent per year may be used. In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not greater more than those shown in the commissioners' 1961 industrial extended term insurance table. For insurance issued on a substandard basis, the calculations of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company insurer and approved by the commissioner. This section does not apply to industrial policies issued on or after the operative date of section 26.1-33-24. Upon the operative date of this section, any insurer may file with the commissioner a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1968. After the filing of such notice, upon the specified date, which must be the operative date of this section for that insurer, this section must become operative with respect to the industrial policies issued after that date by the insurer. If an insurer makes no election, the operative date of this section for the insurer is January 1, 1968.

SECTION 7. AMENDMENT. Section 26.1-33-24 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-24. Determination of minimum values Calculations of adjusted premiums by the nonforfeiture net level premium method.

1. This section applies to all policies issued on or after the operative date of this section. Except as provided in subsection 7, the adjusted premiums for any policy must be calculated on an annual basis and must be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments or special hazards and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the date of issue of the policy, of all adjusted premiums equals the sum of:
 - a. The then present value of the future guaranteed benefits provided for by the policy;
 - b. One percent of either the amount of insurance, if the insurance is uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years; and
 - c. One hundred twenty-five percent of the nonforfeiture net level premium as hereinafter defined.

In applying the percentage specified in subdivision c, no nonforfeiture net level premium may exceed four percent of either the amount of insurance, if the insurance is uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years. The date of issue of a policy for the purpose of this section is the date as of which the rated age of the insured is determined.

2. The nonforfeiture net level premium is equal to the present value, at the date of issue of the life insurance policy, of the guaranteed benefits provided for by the policy divided by the present value, at the date of issue of the policy, of an annuity of one per annum payable on the date of issue of the policy and on each anniversary of ~~such~~the policy on which a premium falls due.
3. In the case of life insurance policies that cause on a basis guaranteed in the policy unscheduled changes in benefits or premiums, or that provide an option for changes in benefits or premiums other than a change to a new policy, the adjusted premiums and present values must initially be calculated on the assumption that future benefits and premiums do not change from those stipulated at the date of issue of the policy. At the time of any ~~such~~ change in the benefits or premiums the future adjusted premiums, nonforfeiture net level premiums, and present values must be recalculated on the assumption that future benefits and premiums do not change from those stipulated by the policy immediately after the change.
4. Except as otherwise provided in subsection 7, the recalculated future adjusted premiums for any life insurance policy must be ~~such~~the uniform percentage of the respective future premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments and special hazards, and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the time of change to the newly defined benefits or premiums, of all such future adjusted premiums equals the excess of:
 - a. The sum of ~~the~~:
 - (1) ~~The~~ then present value of the then future guaranteed benefits provided for by the policy, ~~and the~~, plus
 - (2) ~~The~~ additional expense allowance, if any; ~~over~~divided by
 - b. The then cash surrender value, if any, or present value of any paid-up nonforfeiture benefit under the policy.
5. The additional expense allowance, at the time of the change to the newly defined benefits or premiums, is the sum of:
 - a. One percent of the excess, if positive, of the average amount of insurance at the beginning of each of the first ten policy years subsequent to the change over the average amount of insurance prior to the change at the beginning of each of the first ten policy years subsequent to the time of the most recent previous change, or, if there has been no previous change, the date of issue of the policy; and

- b. One hundred twenty-five percent of the increase, if positive, in the nonforfeiture net level premium.
6. The recalculated nonforfeiture net level premium is equal to the result obtained by dividing the sum of:
 - a. ~~The~~ the nonforfeiture net level premium applicable prior to the change times the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of the change on which a premium would have fallen due had the change not occurred; and
 - b. ~~The~~ the present value of the increase in future guaranteed benefits provided for by the policy; by
 - e. ~~The~~ the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of change on which a premium falls due.
 7. Notwithstanding any other provision of this section to the contrary, in the case of a life insurance policy issued on a substandard basis which provides reduced graded amounts of insurance so that, in each policy year, the policy has the same tabular mortality cost as an otherwise similar policy issued on the standard basis which provides higher uniform amounts of insurance, adjusted premiums and present values for the substandard policy may be calculated as if it were issued to provide the higher uniform amounts of insurance on the standard basis.
 8. All adjusted premiums and present values referred to in sections 26.1-33-18, ~~26.1-33-19, 26.1-33-24 through 26.1-33-26, and 26.1-33-28~~ must for all ordinary life insurance policies be calculated on the basis of the ~~commissioners'commissioners~~ 1980 standard ordinary mortality table, or at the election of the ~~companyinsurer~~ for any one or more specified plans of life insurance, the ~~commissioners'commissioners~~ 1980 standard ordinary mortality table with ten-year select mortality factors; must for all policies of industrial insurance be calculated on the basis of the ~~commissioners'commissioners~~ 1961 standard industrial mortality table; and must for all policies issued in a particular calendar year be calculated on the basis of a rate of interest not exceeding the nonforfeiture interest rate as defined in this section for policies issued in that calendar year. However:
 - a. At the option of the ~~companyinsurer~~, calculations for all policies issued in a particular calendar year may be made on the basis of a rate of interest not exceeding the nonforfeiture interest rate, as defined in this section, for policies issued in the immediately preceding calendar year.
 - b. Under any paid-up nonforfeiture benefit, including any paid-up dividend additions, any cash surrender value available, whether or not required by section 26.1-33-18, must be calculated on the basis of the mortality table and rate of interest used in determining the amount of such paid-up nonforfeiture benefit and paid-up dividend additions, if any.
 - c. ~~A company~~An insurer may calculate the amount of any guaranteed paid-up nonforfeiture benefit, including any paid-up additions under the policy on the basis of an interest rate no lower than that specified in the policy for calculating cash surrender values.

- d. In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the ~~commissioners'~~commissioners' 1980 extended term insurance table for ordinary life insurance policies and not more than the ~~commissioners'~~commissioners' 1961 industrial extended term insurance table for industrial insurance policies.
- e. For insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on appropriate modifications of the tables.
- f. ~~Any~~For policies issued before the operative date of the valuation manual, ~~any commissioners standard~~ ordinary mortality tables, adopted after 1980 by the national association of insurance commissioners, that are approved by rule adopted by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the ~~commissioners'~~commissioners' 1980 standard ordinary mortality table with or without ten-year select mortality factors or for the ~~commissioners'~~commissioners' 1980 extended term insurance table. For policies issued on or after the operative date of the valuation manual, the valuation manual must provide the commissioners standard mortality table for use in determining the minimum nonforfeiture standard that may be substituted for the commissioners 1980 standard ordinary mortality table with or without ten-year select mortality factors or for the commissioners 1980 extended term insurance table. If the commissioner approves by rule any commissioners standard ordinary mortality table adopted by the national association of insurance commissioners for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual, then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual.
- g. ~~Any~~For policies issued before the operative date of the valuation manual, ~~any commissioners standard~~ industrial mortality tables, adopted after 1980 by the national association of insurance commissioners, that are approved by rule adopted by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the ~~commissioners'~~commissioners' 1961 standard industrial mortality table or the ~~commissioners'~~commissioners' 1961 industrial extended term insurance table. For policies issued on or after the operative date of the valuation manual, the valuation manual must provide the commissioners standard mortality table for use in determining the minimum nonforfeiture standard that may be substituted for the commissioners 1961 standard industrial mortality table or the commissioners 1961 industrial extended term insurance table. If the commissioner approves by rule any commissioners standard industrial mortality table adopted by the national association of insurance commissioners for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual.
9. The nonforfeiture interest rate is defined:

- a. For policies issued before the operative date of the valuation manual, the nonforfeiture interest rate per annum for any policy issued in a particular calendar year shall be equal to one hundred twenty-five percent of the calendar year statutory valuation interest rate for such policy as defined in sections 26.1-35-01 through 26.1-35-10chapter 26.1-35, rounded to the nearer one quarter of one percent, but the nonforfeiture interest rate may not be less than four percent.

10. Notwithstanding any other provision in this title to the contrary, any refiling of nonforfeiture values or their methods of computation for any previously approved policy form which involves only a change in the interest rate or mortality table used to compute nonforfeiture values does not require refiling of any other provisions of that policy form.
11. ThisUpon the operative date of this section applies to all life insurance policies issued after December 31, 1988, unless the insurance company, by written notice filed with the commissioner, opts for an earlier operative date, any insurer may file with the commissioner a written notice of its election to comply with the provision of this section after a specified date before January 1, 1989, which must be the operative date of this section for the insurer. If an insurer makes no election, the operative date of this section for the insurer is January 1, 1989.

SECTION 8. AMENDMENT. Section 26.1-33-25 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-25. Determination of minimum value of policies with future premium determination — Indeterminable valueNonforfeiture benefits for indeterminate premium plans.

In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the ~~insurance company~~insurer based on ~~then~~ estimates of future experience, or in the case of any plan of life insurance which is of such a nature that minimum values cannot be determined by the methods described in sections 26.1-33-18 through 26.1-33-24, then:

1. The commissioner must be satisfied that the benefits provided under the plan are substantially as favorable to policyholders and insureds as the minimum benefits otherwise required by sections 26.1-33-18 through 26.1-33-24;
2. The commissioner must be satisfied that the benefits and the pattern of premiums of that plan are not such as to mislead prospective policyholders or insureds; and
3. The cash surrender values and paid-up nonforfeiture benefits provided by the plan may not be less than the minimum values and benefits required for the plan computed by a method consistent with the principles of sections 26.1-33-18 through 26.1-33-28, as determined by rules adopted by the commissioner; and

4. Notwithstanding any other provision in the laws of this state, any policy, contract, or certificate providing life insurance under any plan must be affirmatively approved by the commissioner before it can be marketed, issued, delivered, or used in this state.

SECTION 9. AMENDMENT. Section 26.1-33-27 of the North Dakota Century Code is amended and reenacted as follows:

26.1-33-27. Determination of minimum values after January 1, 1987.

1. This section, in addition to all other applicable sections of this law, applies to all policies issued after December 31, 1986. Any cash surrender value available under a life insurance policy in the event of default in a premium payment due on any policy anniversary must be in an amount which does not differ by more than two-tenths of one percent of either the amount of insurance, if the insurance is uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years, from the sum of:
 - a. The greater of zero and the basic cash value hereinafter specified; and
 - b. The present value of any existing paid-up additions less the amount of any indebtedness to the ~~company~~insurer under the policy.
2. The basic cash value is equal to the present value, on such anniversary, of the future guaranteed benefits which would have been provided for by the policy, excluding any existing paid-up additions and before deduction of any indebtedness to the ~~company~~insurer, if there had been no default, less the then present value of the nonforfeiture factors, as defined in this chapter, corresponding to premiums that would have fallen due on and after ~~such~~the anniversary. However, the effects on the basic cash value of supplemental life insurance or annuity benefits or of family coverage, as described in section 26.1-33-19 or 26.1-33-21, whichever is applicable, shall be the same as are the effects specified in section 26.1-33-19 or 26.1-33-21, whichever is applicable, on the cash surrender values defined in that section.
3. The nonforfeiture factor for each policy year is an amount equal to a percentage of the adjusted premium for the policy year, as defined in section 26.1-33-21 or 26.1-33-24, whichever is applicable. Except as is required by subsection 4, the percentage:
 - a. Must be the same percentage for each policy year between the second policy anniversary and the later of ~~the~~:

 - (2) The first policy anniversary at which there is available under the policy a cash surrender value in an amount, before including any paid-up additions and before deducting any indebtedness, of at least two-tenths of one percent of either the amount of insurance, if the insurance is uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years; and
 - b. Must be such that no percentage after the later of the two policy anniversaries specified in subdivision a may apply to fewer than five consecutive policy years.

4. No basic cash value may be less than the value which would be obtained if the adjusted premiums for the policy, as defined in section ~~26.1-33-21 or 26.1-33-24, whichever is applicable,~~ were substituted for the nonforfeiture factors in the calculation of the basic cash value.
5. All adjusted premiums and present values referred to in this section must for a particular policy be calculated on the same mortality and interest bases as are used in demonstrating the policy's compliance with sections ~~26.1-33-18, 26.1-33-19, 26.1-33-21 through 26.1-33-26, and~~ 26.1-33-28. The cash surrender values referred to in this section include any endowment benefits provided for by the policy.
6. Any cash surrender value available other than in the event of default in a premium payment due on a policy anniversary, and the amount of any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment must be determined in manners consistent with the manners specified for determining the analogous minimum amounts in sections 26.1-33-18 through 26.1-33-20, 26.1-33-24, and 26.1-33-26. The amounts of any cash surrender values and of any paid-up nonforfeiture benefits granted in connection with additional benefits such as those listed in subsections 1 through 6 of section 26.1-33-26 must conform with the principles of this section.
7. ~~This section, in addition to all other applicable provisions of sections 26.1-33-18, 26.1-33-19, 26.1-33-21 through 26.1-33-26, and 26.1-33-28, applies to all policies issued on or after January 1, 1987.~~

6. A term policy of decreasing amount, which provides no guaranteed nonforfeiture or endowment benefits, on which each adjusted premium, calculated as specified in sections 26.1-33-21 through 26.1-33-24 is less than the adjusted premium so calculated on a term policy of uniform amount, or renewal thereof, which provides no guaranteed nonforfeiture or endowment benefits, issued at the same age and for the same initial amount of insurance and for a term of twenty years or less expiring before age seventy-one, for which uniform premiums are payable during the entire term of the policy;

A policy, which provides no guaranteed nonforfeiture or endowment benefits, for which no cash surrender value, if any, or present value of any paid-up nonforfeiture benefit, at the beginning of any policy year, calculated as specified in sections 26.1-33-19 through 26.1-33-24, exceeds two and one-half percent of the amount of insurance at the beginning of the same policy year; nor
8. A policy delivered outside this state through an insurance producer or other representative of the ~~company~~insurer issuing the policy.

SECTION 6. AMENDMENT. Section 26.1-35-03 of the North Dakota Century Code is amended and reenacted as follows:

26.1-35-03. Minimum standards of valuationComputation of minimum standard for annuities.

1. Except as provided in section 26.1-35-04, the minimum standards ~~for the standard of~~ valuation ~~of all for~~ individual annuity and pure endowment contracts ~~issued on or after the operative date of this section, and for all annuities and pure endowments purchased on or after the operative date~~ under group annuity and pure endowment contracts, must be the ~~commissioners'~~ ~~commissioners~~ reserve valuation methods defined in sections 26.1-35-05 and 26.1-35-06 and the following tables and interest rates:
- 4-a. For individual annuity and pure endowment contracts issued before July 1, 1977, excluding any disability and accidental death benefits in those contracts, the 1971 individual annuity mortality table, or any modification of this table approved by the commissioner, and six percent interest for single premium immediate annuity contracts and four percent interest for all other individual annuity and pure endowment contracts.
- b. For individual single premium immediate annuity contracts, excluding any disability and accidental death benefits in the contracts issued after June 30, 1977, excluding any disability and accidental death benefits in those contracts, the 1971 individual annuity mortality table or any individual annuity mortality table, adopted after 1980 by the national association of insurance commissioners, that is approved by rule adopted by the commissioner for use in determining the minimum standard of valuation for the contracts, or any modification of these tables approved by the commissioner, and seven and one-half percent interest.

- 2-c. For individual annuity and pure endowment contracts issued after June 30, 1977, other than single premium immediate annuity contracts, excluding any disability and accidental death benefits in the contracts, the 1971 individual annuity mortality table or any individual annuity mortality table, adopted after 1980 by the national association of insurance commissioners, that is approved by rule adopted by the commissioner for use in determining the minimum standard of valuation for the contracts, or any modification of these tables approved by the commissioner, and five and one-half percent interest for single premium deferred annuity and pure endowment contracts and four and one-half percent interest for all other individual annuity and pure endowment contracts.
- d. For annuities and pure endowments purchased prior to July 1, 1977, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under those contracts, the 1971 group annuity mortality table or any modification of this table approved by the commissioner, and six percent interest.
- 3-e. For all annuities and pure endowments purchased after June 30, 1977, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under these contracts, the 1971 group annuity mortality table or any group annuity mortality table, adopted after 1980 by the national association of insurance commissioners, that is approved by rule adopted by the commissioner for use in determining the minimum standard of valuation for the annuities and pure endowments, or any modification of these tables approved by the commissioner, and seven and one-half percent interest.
2. After June 30, 1977, any insurer may file with the commissioner a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1979, which must be the operative date of this section for that insurer. If an insurer makes no election, the operative date of this section for that insurer must be January 1, 1979.

SECTION 7. AMENDMENT. Section 26.1-35-04 of the North Dakota Century Code is amended and reenacted as follows:

26.1-35-04. Determination ~~Computation~~ of minimum standard for valuation -- Interest rates by calendar year of issue.

The calendar year statutory valuation interest rates as defined in this section are:

1. The interest rates used in determining the minimum standard for the valuation of the following are the calendar year statutory valuation interest rates as defined in this section:
 - a. All ~~life~~Life insurance policies issued in a particular calendar year, on or after the earlier of a specified date filed by a ~~company~~an insurer with the commissioner in a written notice of the ~~company's~~insurer's election to comply with this chapter or January 1, 1989.
 - b. All ~~individual~~Individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1984.

- c. ~~All annuities~~ Annuities and pure endowments purchased in a particular calendar year on or after January 1, 1984, under group annuity and pure endowment contracts.
- d. The net increase, if any, in a particular calendar year after January 1, 1984, in amounts held under guaranteed interest contracts.
2. The calendar year statutory valuation interest rates, I, must be determined as follows and the results rounded to the nearer one-quarter of one percent:
- a. For life insurance:

$$I = .03 + W (R_1 - .03) + \frac{W}{2} (R_2 - .09)$$

- b. For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options:

$$I = .03 + W (R - .03)$$

where R_1 is the lesser of R and $.09$, R_2 is the greater of R and $.09$, R is the reference interest rate defined in this section, and W is the weighting factor defined in this section.

- c. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in subdivision b, the formula for life insurance stated in subdivision a applies to annuities and guaranteed interest contracts with guarantee durations in excess of ten years and the formula for single premium immediate annuities stated in subdivision b applies to annuities and guaranteed interest contracts with guarantee duration of ten years or less.
- d. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in subdivision b applies.
- e. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in subdivision b applies.

However, if the calendar year statutory valuation interest rate for ~~any~~ life insurance ~~policies~~ policy issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one-half of one percent, the calendar year statutory valuation interest rate for the life insurance policies must equal the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year must be determined for 1980 by using the reference interest rate defined for 1979, and must be determined for each subsequent calendar year regardless of when section ~~26-1-33~~ 26-1-33-24 becomes operative.

3. The weighting factors referred to in the formulas in subsection 2 are given in the following tables:

- a. The weighting factors for life insurance are:

Guarantee Duration	Weighting Factors
10 years or less	.50
More than 10 years, but not more than 20 years	.45
More than 20 years	.35

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy.

- b. The weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options is eighty hundredths.
- c. The weighting factors for other annuities and for guaranteed interest contracts, except as stated in subdivision b, are as specified in paragraphs 1, 2, and 3, according to the requirements and definitions in paragraphs 4, 5, and 6:

- (1) For annuities and guaranteed interest contracts valued on an issue year basis:

Guarantee Duration	Weighting Factor for Plan Type		
	A	B	C
5 years or less	.80	.60	.50
More than 5 years, but not more than 10 years	.75	.60	.50
More than 10 years, but not more than 20 years	.65	.50	.45
More than 20 years	.45	.35	.35

- (2) For annuities and

guaranteed interest contracts valued on a change in fund basis, the factors shown in paragraph 1 increased by	.15	.25	.05
---	-----	-----	-----

- (3) For annuities and

guaranteed interest
contracts valued on
an issue year basis,
other than those with
no cash settlement

options, which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than twelve months beyond the valuation date, the factors shown in paragraph 1 or derived in paragraph 2 increased by

.05

.05

.05

- (4) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of twenty years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the ~~guarantee~~~~guaranteed~~ duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.
- (5) The plan type as used in the tables in this subsection is defined as follows:
- (a) Plan type A: At any time the policyholder may withdraw funds only with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the ~~insurance company~~~~insurer~~, without such adjustment but in installments over five years or more, as an immediate life annuity, or no withdrawal permitted.
 - (b) Plan type B: Before expiration of the interest rate guarantee, the policyholder may withdraw funds only with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the ~~insurance company~~~~insurer~~, without ~~such an~~ adjustment but in installments over five years or more, or no withdrawal permitted. At the end of the interest rate guarantee, funds may be withdrawn without ~~such an~~ adjustment in a single sum or installments over less than five years.
 - (c) Plan type C: The policyholder may withdraw funds before expiration of the interest rate guarantee in a single sum or installments over less than five years either without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the ~~insurance company~~~~insurer~~, or subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

- (6) ~~A company~~An insurer may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue year basis. ~~As used in this section, an~~ issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract. A change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.
4. The reference interest rate referred to in subsection 2 is defined as follows:
- a. For all life insurance, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on June thirtieth of the calendar year next preceding the year of issue, ~~of Moody's corporate bond yield average—the monthly average corporatesof the~~ composite yield on seasoned corporate bonds, as published by Moody's investors service, incorporated.
 - b. For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of twelve months, ending on June thirtieth of the calendar year of issue or year of purchase, ~~of Moody's corporate bond yield average—the monthly average corporatesof the~~ composite yield on seasoned corporate bonds, as published by Moody's investors service, incorporated.
 - c. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in subdivision b with guarantee duration in excess of ten years, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on June thirtieth of the calendar year of issue or purchase, ~~of Moody's corporate bond yield average—the monthly average corporatesof the~~ composite yield on seasoned corporate bonds, as published by Moody's investors service, incorporated.
 - d. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in subdivision b with guaranteed duration of ten years or less, the average over a period of twelve months, ending on June thirtieth of the calendar year of issue or purchase, ~~of Moody's corporate bond yield average—the monthly average corporatesof the~~ composite yield on seasoned corporate bonds, as published by Moody's investors service, incorporated.

- e. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of twelve months, ending on June thirtieth of the calendar year of issue or purchase, of ~~Moody's corporate bond yield average—the monthly average~~ corporates of the composite yield on seasoned corporate bonds, as published by Moody's investors service, incorporated.
 - f. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in subdivision b the average over a period of twelve months, ending on June thirtieth of the calendar year of the change in the fund, of ~~Moody's corporate bond yield average—the monthly average~~ corporates of the composite yield on seasoned corporate bonds, as published by Moody's investors service, incorporated.
5. If ~~Moody's corporate bond yield average—the monthly average~~ corporates of the composite yield on seasoned corporate bonds is no longer published by Moody's investors service, incorporated, or if the national association of insurance commissioners determines that ~~Moody's corporate bond yield average—the monthly average~~ corporates of the composite yield on seasoned corporate bonds as published by Moody's investors service, incorporated, is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, ~~which is~~ adopted by the national association of insurance commissioners and approved by rule adopted by the commissioner, may be substituted.

SECTION 8. AMENDMENT. Section 26.1-35-05 of the North Dakota Century Code is amended and reenacted as follows:

26.1-35-05. Reserves by commissioners' reserve Reserve valuation method - Life insurance and endowment benefits.

1. Except as otherwise provided in sections 26.1-35-06 ~~and~~, 26.1-35-09, ~~and~~ 26.1-35-11, reserves according to the ~~commissioners'~~ commissioners' reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums, must be the excess, if any, of the present value, at the date of valuation, of the future guaranteed benefits provided ~~for~~ by ~~the~~ those policies, over the then present value of any future modified net premiums for the policies. The modified net premiums for a policy must be the uniform percentage of the respective contract premiums for the benefits that the present value, at the date of issue of the policy, of all the modified net premiums equals the sum of the present value of the benefits provided by the policy and the excess of subdivision a over subdivision b as follows:
 - a. A net level annual premium equal to the present value, at the date of issue, of the benefits provided ~~for~~ after the first policy year, divided by the present value, at the date of issue, of an annuity of one per year payable on the first and each subsequent anniversary of the policy on which a premium falls due; ~~provided, however, that~~ However, the net level annual premium may not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of the policy.
 - b. A net one-year term premium for the benefits provided in the first policy year.

2. For ~~any~~ life insurance policy issued after December 31, 1986, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for the excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than the excess premium, the reserve according to the ~~commissioners'~~commissioners' reserve valuation method as of any policy anniversary occurring on or before the assumed ending date, which is defined as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than the excess premium, except as otherwise provided in section 26.1-35-09, must be the greater of the reserve as of ~~such~~the policy anniversary calculated as described in this section and the reserve as of ~~such~~the policy anniversary calculated as described in this section, but with the value defined in ~~subdivision a~~ of subsection 1 being reduced by fifteen percent of the amount of such excess first year premium; all present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date; the policy being assumed to mature on such date as an endowment; and the cash surrender value provided on ~~such~~that date being considered as an endowment benefit. In making the above comparison, the mortality and interest bases stated in sections 26.1-35-02 and 26.1-35-04 must be used.
3. Reserves according to the ~~commissioners'~~commissioners' reserve valuation method must be calculated by a method consistent with the principles as described in this section for life:
 - a. Life insurance policies providing a varying amount of insurance or requiring the payment of varying premiums; ~~group~~
 - b. Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership, limited liability company, or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the federal Internal Revenue Code, as amended; ~~disability~~
 - c. Disability and accidental death benefits in all policies and contracts; and ~~all~~
 - d. All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts, ~~must be calculated by a method consistent with the principles of this section.~~

SECTION 9. AMENDMENT. Section 26.1-35-06 of the North Dakota Century Code is amended and reenacted as follows:

26.1-35-06. Reserves by commissioners' annuity reserve Reserve valuation - Annuity and pure endowment benefits method.

1. This section applies to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement

accounts or individual retirement annuities under section 408 of the federal Internal Revenue Code of 1954, as amended.

2. Reserves according to the ~~commissioners'~~ commissioner annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in the contracts, must be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by the contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of the contracts, that become payable prior to the end of ~~such~~ the respective contract year. The future guaranteed benefits must be determined by using the mortality tables, if any, and the interest rate, or rates, specified in the contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of the contracts to determine nonforfeiture values.

SECTION 10. AMENDMENT. Section 26.1-35-07 of the North Dakota Century Code is amended and reenacted as follows:

~~26.1-35-07. Minimum aggregate reserves for life policies issued after June 30, 1977.~~

1. ~~A company's~~ An insurer's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued after June 30, 1977, may not be less than the aggregate reserves calculated in accordance with the methods set forth in sections 26.1-35-05, 26.1-35-06, ~~and 26.1-35-09, and 26.1-35-10~~ and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for the policies.
2. ~~In no event may the~~ The aggregate reserves for all policies, contracts, and benefits ~~may not~~ be less than the aggregate reserves determined by the qualified actuary to be necessary to render the opinion required by section 26.1-35-01.1.

SECTION 11. AMENDMENT. Section 26.1-35-08 of the North Dakota Century Code is amended and reenacted as follows:

~~26.1-35-08. Calculation of minimum aggregate reserves by other standards~~ Optional reserve calculation.

1. Reserves for all policies and contracts issued prior to July 1, 1977, may be calculated, at the option of the ~~company~~ insurer, according to any standards which produce greater aggregate reserves for the policies and contracts than the minimum reserves required by the laws in effect on June 30, 1977.
2. Reserves for any category of policies, contracts, or benefits, as established by the commissioner, issued on or after July 1, 1977, may be calculated, at the option of the ~~company~~ insurer, according to any standards which produce greater aggregate reserves for the category than those calculated according to the minimum standard provided in this chapter, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, may not be ~~higher~~ greater than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided in the policies and contracts.

3. ~~Any company~~An insurer that has adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard provided in this chapter may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum provided in this chapter; provided, however, that for the purposes of this section, the holding of additional reserves previously determined by a ~~qualified~~the appointed actuary to be necessary to render the opinion required by section 26.1-35-01.1 may not be deemed to be the adoption of a higher standard of valuation.

SECTION 12. AMENDMENT. Section 26.1-35-09 of the North Dakota Century Code is amended and reenacted as follows:

26.1-35-09. ~~Minimum reserve if~~Reserve calculation - Valuation net premium exceedsexceeding the gross premium charged.

1. If in any contract year the gross premium charged by ~~any life insurance company~~an insurer on any policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve ~~on the policy or contract~~ but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for the policy or contract is the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for the policy or contract, or the reserve calculated by the method actually used for the policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in sections 26.1-35-02 and 26.1-35-04.
2. For ~~any~~ life insurance policy issued after December 31, 1986, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for the excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than the excess premium, ~~subsection 4~~the provisions of this section must be applied as if the method actually used in calculating the reserve for the policy was the method described in section 26.1-35-05, ignoring subsection 2 of that section. The minimum reserve at each policy anniversary must be the greater of the minimum reserve calculated in accordance with section 26.1-35-05, including subsection 2 of that section, and the minimum reserve calculated in accordance with this section.

SECTION 13. AMENDMENT. Section 26.1-35-10 of the North Dakota Century Code is amended and reenacted as follows:

26.1-35-10. ~~Future premium determination~~Reserve calculation - Indeterminate premium plans.

In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the ~~insurance company~~insurer based on then estimates of future experience, or in the case of any plan of life insurance or annuity which is of such a nature that the minimum reserves cannot be determined by the methods described in sections 26.1-35-05, 26.1-35-06, and 26.1-35-09, the reserves which are held under the plan must be appropriate in

relation to the benefits and the pattern of premiums for that plan, and must be computed by a method that is consistent with the principles of this chapter, as determined by rules adopted by the commissioner.

SECTION 14. Section 26.1-35-11 of the North Dakota Century Code is created and enacted as follows:

26.1-35-11. Minimum standard for accident and health insurance contracts.

For an accident and health insurance contract issued on or after the operative date of the valuation manual, the standard prescribed in the valuation manual is the minimum standard of valuation required under subsection 2 of section 26.1-35-01. For an accident and health insurance contract issued after June 30, 1977, and before the operative date of the valuation manual, the minimum standard of valuation is the standard adopted by the commissioner by rule.

SECTION 15. Section 26.1-35-12 of the North Dakota Century Code is created and enacted as follows:

26.1-35-12. Requirements of a principle-based valuation.

1. An insurer shall establish reserves using a principle-based valuation that meets the following conditions for policies or contracts as specified in the valuation manual:
 - a. Quantify the benefits and guarantees and the funding associated with the contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring during the lifetime of the contracts. For policies or contracts with significant tail risk, reflects conditions appropriately adverse to quantify the tail risk.
 - b. Incorporate assumptions, risk analysis methods, and financial models and management techniques that are consistent with, but not necessarily identical to, those utilized within the insurer's overall risk assessment process, while recognizing potential differences in financial reporting structures and any prescribed assumptions or methods.
 - c. Incorporate assumptions that are derived in one of the following manners:
 - (1) The assumption is prescribed in the valuation manual.
 - (2) For assumptions that are not prescribed, the assumptions must:

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 26.1-39 of the North Dakota Century Code is created and enacted as follows:

Electronic notices and documents.

1. As used in this section:
 - a. "Delivered by electronic means" includes:
 - (1) Delivery to an electronic mail address at which a party has consented to receive notices or documents; or
 - (2) Posting on an electronic network or site accessible via the internet, mobile application, computer, mobile device, tablet, or any other electronic device, together with separate notice to a party directed to the electronic mail address at which the party has consented to receive notice of the posting.
 - b. "Party" means any recipient of any notice or document required as part of an insurance transaction, including an applicant, an insured or a policyholder.
2. Subject to the requirements of this section, any notice to a party or any other document required under applicable law in an insurance transaction or any other document that is to serve as evidence of insurance coverage may be delivered, stored, and presented by electronic means if it meets the requirements of chapter 9-16. Electronic means may not be the sole method of providing a notice of cancellation or nonrenewal.
3. Delivery of a notice or document in accordance with this section is equivalent to any delivery method required under applicable law, including delivery by first class mail; first class mail, postage prepaid; or registered mail.
4. A notice or document may be delivered by electronic means by an insurer to a party under this section if all of the following are met:
 - a. The party has affirmatively consented to that method of delivery and has not withdrawn the consent.

- b. The party, before giving consent, is provided with a clear and conspicuous statement informing the party of each of the following:
 - (1) The right of the party at any time to withdraw consent to have a notice or document delivered by electronic means and any conditions or consequences imposed in the event consent is withdrawn.
 - (2) The means, after consent is given, by which a party may obtain a paper copy of a notice or document delivered by electronic means.

 - c. The party:
 - (1) Before giving consent, is provided with a statement of the hardware and software requirements for access to and retention of a notice or document delivered by electronic means; and
 - (2) Consents electronically, or confirms consent electronically, in a manner that demonstrates the party can access information in the electronic form that will be used for notices or documents delivered by electronic means as to which the party has given consent.
 - d. After consent of the party is given, the insurer, in the event a change in the hardware or software requirements needed to access or retain a notice or document delivered by electronic means creates a material risk that the party will not be able to access or retain a subsequent notice or document to which the consent applies, provides the party with a statement of the revised hardware and software requirements for access to and retention of a notice or document delivered by electronic means and complies with subdivision b.
- 5. This section does not affect requirements related to content or timing of any notice or document required under applicable law.
 - 6. If a provision of this title or applicable law requiring a notice or document to be provided to a party expressly requires verification or acknowledgment of receipt of the notice or document, the notice or document may be delivered by electronic means only if the method used provides for verification or acknowledgment of receipt.
 - 7. The legal effectiveness, validity, or enforceability of any contract or policy of insurance executed by a party may not be denied solely because of the failure to obtain electronic consent or confirmation of consent of the party in accordance with paragraph 2 of subdivision c of subsection 4.
 - 8. a. A withdrawal of consent by a party does not affect the legal effectiveness, validity, or enforceability of a notice or document delivered by electronic means to the party before the withdrawal of consent is effective.

b. A withdrawal of consent by a party is effective within a reasonable period of time not to exceed five days after receipt of the withdrawal by the insurer.

9. This section does not apply to a notice or document delivered by an insurer in an electronic form before August 1, 2015, to a party that, before that date, has consented to receive notices or documents in an electronic form otherwise allowed by law.
10. If the consent of a party to receive certain notices or documents in an electronic form is on file with an insurer before August 1, 2015, and pursuant to this section, an insurer intends to deliver additional notices or documents to such party in an electronic form, then before delivering such additional notices or documents electronically, the insurer shall provide the insured with a statement that describes:
 - a. The notices or documents that must be delivered by electronic means under this section which were not previously delivered electronically; and
 - b. The party's right to withdraw consent to have notices or documents delivered by electronic means.
11. a. Except as otherwise provided by law, if an oral communication or a recording of an oral communication from a party can be reliably stored and reproduced by an insurer, the oral communication or recording may qualify as a notice or document delivered by electronic means for purposes of this section.
 - b. If a provision of this title or applicable law requires a signature, notice, or document to be notarized, acknowledged, verified, or made under oath, the requirement is satisfied if the electronic signature of the individual authorized to perform those acts, together with all other information required to be included by the provision, is attached to or logically associated with the signature, notice, or document.
12. This section may not be construed to modify, limit, or supersede the provisions of the federal Electronic Signatures in Global and National Commerce Act [Pub. L. 106-229; 114 Stat. 464; 15 U.S.C. ch. 96].

(Senators Campbell, Anderson, Luick)
(Representatives Monson, Paur, Trottier)

AN ACT to amend and reenact section 32-12.1-03 of the North Dakota Century Code, relating to liability of political subdivisions.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 32-12.1-03 of the North Dakota Century Code is amended and reenacted as follows:

32-12.1-03. Liability of political subdivisions - Limitations.

1. Each political subdivision is liable for money damages for injuries when the injuries are proximately caused by the negligence or wrongful act or omission of any employee acting within the scope of the employee's employment or office under circumstances in which the employee would be personally liable to a claimant in accordance with the laws of this state, or injury caused from some condition or use of tangible property, real or personal, under circumstances in which the political subdivision, if a private person, would be liable to the claimant. The enactment of a law, rule, regulation, or ordinance to protect any person's health, safety, property, or welfare does not create a duty of care on the part of the political subdivision, its employees, or its agents, if that duty would not otherwise exist.
2. The liability of political subdivisions under this chapter is limited to a total of two hundred fifty thousand dollars per person and five hundred thousand one million dollars for injury to three or more persons during any number of claims arising from any single occurrence regardless of the number of political subdivisions, or employees of such political subdivisions, which are involved in that occurrence. A political subdivision may not be held liable, or be ordered to indemnify an employee held liable, for punitive or exemplary damages.
3. A political subdivision or a political subdivision employee may not be held liable under this chapter for any of the following claims:
 - a. A claim based upon an act or omission of a political subdivision employee exercising due care in the execution of a valid or invalid statute or regulation.
 - b. The decision to undertake or the refusal to undertake any legislative or quasi-legislative act, including the decision to adopt or the refusal to adopt any statute, charter, ordinance, order, regulation, resolution, or resolve.
 - c. The decision to undertake or the refusal to undertake any judicial or quasi-judicial act, including the decision to grant, to grant with conditions, to refuse to grant, or to revoke any license, permit, order, or other administrative approval or denial.

-
- d. The decision to perform or the refusal to exercise or perform a discretionary function or duty, whether or not such discretion is abused and whether or not the statute, charter, ordinance, order, resolution, regulation, or resolve under which the discretionary function or duty is performed is valid or invalid.
 - e. Injury directly or indirectly caused by a person who is not employed by the political subdivision.
 - f. A claim relating to injury directly or indirectly caused by the performance or nonperformance of a public duty, including:
 - (1) Inspecting, licensing, approving, mitigating, warning, abating, or failing to so act regarding compliance with or the violation of any law, rule, regulation, or any condition affecting health or safety.
 - (2) Enforcing, monitoring, or failing to enforce or monitor conditions of sentencing, parole, probation, or juvenile supervision.
 - (3) Providing or failing to provide law enforcement services in the ordinary course of a political subdivision's law enforcement operations.
 - (4) Providing or failing to provide fire protection services in the ordinary course of a political subdivision's fire protection operations.
 - g. "Public duty" does not include action of the political subdivision or a political subdivision employee under circumstances in which a special relationship can be established between the political subdivision and the injured party. A special relationship is demonstrated if all of the following elements exist:
 - (1) Direct contact between the political subdivision and the injured party.
 - (2) An assumption by the political subdivision, by means of promises or actions, of an affirmative duty to act on behalf of the party who allegedly was injured.
 - (3) Knowledge on the part of the political subdivision that inaction of the political subdivision could lead to harm.
 - (4) The injured party's justifiable reliance on the political subdivision's affirmative undertaking, occurrence of the injury while the injured party was under the direct control of the political subdivision, or the political subdivision action increases the risk of harm.
4. This chapter does not obligate political subdivisions for an amount that is more than the limitations upon liability imposed by this chapter. Subject to this chapter, any payments to persons constitute payment in full of any compromised claim or judgment or any final judgment under this chapter.
 5. Notwithstanding this chapter, a political subdivision or its insurance carrier is not liable for any claim arising out of the conduct of a ridesharing arrangement, as defined in section 8-02-07.

6. A political subdivision is not liable for any claim based on an act or omission in the designation, repair, operation, or maintenance of a minimum maintenance road if that designation has been made in accordance with sections 24-07-35 through 24-07-37 and if the road has been maintained at a level to serve occasional and intermittent traffic.

HOUSE BILL NO. 1305

(Representatives K. Koppelman, Brabandt, Klemin, Louser, Olson, Paur, Schreiber
Beck)
(Senator Armstrong)

AN ACT to amend and reenact section 32-28-02 of the North Dakota Century Code, relating to requirements for a change of name.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 32-28-02 of the North Dakota Century Code is amended and reenacted as follows:

32-28-02. Change of name of person - Petition - Criminal history record checks - Exceptions.

1. Any person desiring to change that person's name may file a petition in the district court of the county in which the person is a resident, setting forth:
 - a. That the petitioner is a citizen or permanent resident alien of the United States.
 - b. That the petitioner has been a bona fide resident of the county for at least six months before the filing of the petition.
 - b-c. The reason for which the change of the petitioner's name is sought.
 - e-d. The name requested.
2. When an individual files a petition for a name change, the court shall determine whether the petitioner has a criminal history in this state or any other state. The court may require the petitioner to submit to a statewide and nationwide criminal history record check. The criminal history record check must be conducted in the manner provided for in section 12-60-24. All costs associated with the criminal history record check are the responsibility of the petitioner. This subsection does not apply to a request for a name change as part of an application for a marriage license under section 14-03-20, to a request for a name change in conjunction with the annulment of a marriage under chapter 14-04 or the dissolution or separation of a marriage under chapter 14-05, or to the change of a minor's name unless the court has reason to believe the request is being made to defraud or mislead, is not being made in good faith, will cause injury to an individual, or will compromise public safety. If the individual petitioning for a name change has a felony conviction under a law of this state or a law of another state or the federal government, the request is presumed to be made in bad faith, to defraud or mislead, to cause injury to an individual, or to compromise public safety. The name change may not be granted unless the individual requesting the name change proves by clear and convincing evidence that the request is not based upon an intent to defraud or mislead, is made in good faith, will not cause injury to an individual, and will not compromise public safety.

3. The judge of the district court, upon being duly satisfied by affidavit or proof in open court of the truth of the allegations set forth in the petition, that there exists proper and reasonable cause for changing the name of the petitioner, and that thirty days' previous notice of the intended application has been given in the official newspaper of the county in which the petitioner resides, shall order a change of the name of the petitioner. Proper and reasonable cause does not exist if the court determines that the request for a name change is made to defraud or mislead, is not made in good faith, will cause injury to an individual, or will compromise public safety. If the person whose name is to be changed is a minor, the court shall consider the appointment of a guardian ad litem, and notice of the intended application must be published in the official newspaper of the county in which the minor resides and, if different, the official newspaper of the county in which each of the minor's parents reside. If the minor has a noncustodial parent, a copy of the notice must be deposited in a post office in this state, postage prepaid, not later than ten days after the publication of the notice, and directed to the noncustodial parent's last reasonably ascertained post-office address. An affidavit of mailing of the notice prepared in accordance with the North Dakota Rules of Civil Procedure must be filed with the court.
5. If the court issues a name change order for a petitioner who has a criminal history in this or any other state, the court, within ten days after the issuance of the change of name order, shall report the name change to the bureau of criminal investigation.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 18 of section 38-08-02 of the North Dakota Century Code is amended and reenacted as follows:

18. "Underground gathering pipeline" means an underground gas or liquid pipeline ~~that with associated above ground equipment which~~ is designed for or capable of transporting crude oil, natural gas, carbon dioxide, or water produced in association with oil and gas which is not subject to chapter 49-22. As used in this subsection, "associated above ground equipment" means equipment and property located above ground level, which is incidental to and necessary for or useful for transporting crude oil, natural gas, carbon dioxide, or water produced in association with oil and gas from a production facility. As used in this subsection, "equipment and property" includes a pump, a compressor, storage, leak detection or monitoring equipment, and any other facility or structure.

SECTION 2. A new section to chapter 38-08 of the North Dakota Century Code is created and enacted as follows:

Controls, inspections, and engineering design on crude oil and produced water underground gathering pipelines.

The application of this section is limited to an underground gathering pipeline that is designed or intended to transfer crude oil or produced water from a production facility for disposal, storage, or sale purposes and which was placed into service after August 1, 2015. Upon request, the operator shall provide the commission the underground gathering pipeline engineering construction design drawings and specifications, list of independent inspectors, and a plan for leak protection and

monitoring for the underground gathering pipeline. Within sixty days of an underground gathering pipeline being placed into service, the operator of that pipeline shall file with the commission an independent inspector's certificate of hydrostatic or pneumatic testing of the underground gathering pipeline.

¹³⁷ **SECTION 3. AMENDMENT.** Subdivision d of subsection 1 of section 38-08-04 of the North Dakota Century Code is amended and reenacted as follows:

- d. The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with this chapter, and the rules and orders of the industrial commission, including without limitation a bond covering the operation of any underground gathering pipeline transferring oil or produced water from a production facility for disposal, storage, or sale purposes, except that if the commission requires a bond to be furnished, the person required to furnish the bond may elect to deposit under such terms and conditions as the industrial commission may prescribe a collateral bond, self-bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which an operator assures faithful performance of all requirements of this chapter and the rules and orders of the industrial commission.

¹³⁸ **SECTION 4. AMENDMENT.** Subdivision l of subsection 1 of section 38-08-04 of the North Dakota Century Code is amended and reenacted as follows:

- l. The placing of wells in abandoned-well status which have not produced oil or natural gas in paying quantities for one year. A well in abandoned-well status must be promptly returned to production in paying quantities, approved by the commission for temporarily abandoned status, or plugged and reclaimed within six months. If none of the three preceding conditions are met, the industrial commission may require the well to be placed immediately on a single-well bond in an amount equal to the cost of plugging the well and reclaiming the well site. In setting the bond amount, the commission shall use information from recent plugging and reclamation operations. After a well has been in abandoned-well status for one year, the well's equipment, all well-related equipment at the well site, and salable oil at the well site are subject to forfeiture by the commission. If the commission exercises this authority, section 38-08-04.9 applies. After a well has been in abandoned-well status for one year, the single-well bond referred to above, or any other bond covering the well if the single-well bond has not been obtained, is subject to forfeiture by the commission. A surface owner may request a review of the temporarily abandoned status of a well that has been on temporarily abandoned status for at least seven years. The commission shall require notice and hearing to review the temporarily abandoned status. After notice and hearing, the surface owner may request a review of the temporarily abandoned status every two years.

¹³⁷ Section 38-08-04 was also amended by section 1 of House Bill No. 1068, chapter 256, section 4 of House Bill No. 1358, chapter 254, section 5 of House Bill No. 1358, chapter 254, and section 1 of House Bill No. 1476, chapter 466.

¹³⁹ **SECTION 5. AMENDMENT.** Subsection 6 of section 38-08-04 of the North Dakota Century Code is amended and reenacted as follows:

6. To provide for the confidentiality of well data reported to the commission if requested in writing by those reporting the data for a period not to exceed six months. However, the commission may release:
 - a. Volumes injected into a saltwater injection well.
 - b. Information from the spill report on a well on a site at which more than ten barrels of fluid, not contained on the well site, was released for which an oilfield environmental incident report is required by law.

The commission has authority to make such investigations as it deems proper to determine whether facts exist which justify action by the commission. The commission acting through the director of mineral resources has the authority:

1. To require:
 - a. The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with the provisions of this chapter, and the rules and orders of the commission prescribed to govern the exploration for coal or commercial leonardite on state and private lands and roads used in coal or commercial leonardite exploration within the state of North Dakota. The person required to furnish the bond may elect to deposit a collateral bond, self-bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which a permittee assures faithful performance of all requirements of this chapter and the rules and orders of the industrial commission.
 - b. The delivery, free of charge, to the state geologist of the basic data collected during the course of the exploration within a reasonable time as may be prescribed by the state geologist. The data so submitted is confidential and available only to the office of the state geologist for official purposes for a period of two years, and such period of confidentiality must, upon application, be extended for one-year periods by the state geologist, for a total period not to exceed ten years unless it is demonstrated that such period should be further extended in order to prevent possible resulting harm to the person, or the person's successors and assigns, who delivered such basic data to the state geologist. The basic data must include, if specifically requested by the state geologist and if the information has been developed by or for a person conducting the exploration:
 - (1) Sample cuts.
 - (2) Drillers' logs, sample logs, radioactivity logs, resistivity logs, or other types of electrical or mechanical logs.
 - (3) Elevation and location information on the data collection points.
 - (4) Other pertinent information as may be required by the state geologist.

2. To require the plugging, covering, or reburial in an appropriate manner so as to protect environmental quality, general health and safety, and economic values of all holes, pits, or trenches excavated during the course of coal or commercial leonardite exploration.
3. To promulgate and enforce rules, regulations, and orders to effectuate the provisions, purpose, and intent of this chapter.
4. To inspect all drilling or exploration sites. For the purposes of this subsection, the director of mineral resources or the director's representative shall have access to all drilling or exploration installations regulated by this chapter for the purpose of inspection and sampling and shall have the authority to require the operators' aid if the director finds it necessary and requests it.
5. Notwithstanding any of the other provisions of this section, the commission acting through the director of mineral resources shall require that any lands substantially disturbed in coal or commercial leonardite exploration, including excavations, roads, and drill holes, and the removal of necessary facilities and equipment be reclaimed in accordance with the applicable performance standards of section 38-14.1-24. The permit application must include a description of the exploration area and the period of proposed exploration. The permit must be granted within thirty days after a proper application has been submitted.
2. This permit may not be required:

Each request must be accompanied by a statement specifying the need for nondisclosure, which statement must be considered part of the permit application to be filed for public inspection as specified in subsection 2. The confidential information is exempt for a period not to exceed ten years subsequent to the date on which the request for nondisclosure was filed, unless it is demonstrated by the permit applicant that such period should be further extended in order to prevent possible resulting harm to the permit applicant, or the applicant's successors and assigns.

consideration to volumetric expansion, to restore the approximate original contour.

¹⁴⁹ **SECTION 16. AMENDMENT.** Subsections 5, 10, and 18 of section 38-14.1-24 of the North Dakota Century Code are amended and reenacted as follows:

5. Remove, segregate, and respread suitable plant growth material as required by the commission within the permit area. The commission may require the permittee to segregate suitable plant growth material in two or more soil layers. The commission shall determine the soil layer or layers to be removed based upon the quality and quantity of suitable plant growth material inventoried by the soil survey required in subdivision t of subsection 1 of section 38-14.1-14. Based on the soil survey, the commission shall also determine whether other suitable strata are necessary to meet revegetation requirements. If other strata can be shown to be suitable and necessary to meet revegetation requirements, the commission may require the permittee to determine the areal extent of other suitable strata within the proposed permit area, and to remove, segregate, protect, and respread such material. If the suitable plant growth material or other suitable strata cannot be replaced on an approved graded area within a time short enough to avoid deterioration of such material, the permittee shall stockpile and stabilize such materials by establishing a successful cover of quick-growing plants or by other means thereafter so that the suitable plant growth material or other suitable strata will be protected from wind and water erosion and will remain free from any contamination by toxic material. In the interest of achieving the maximum reclamation provided for in this chapter, the permittee may, or at the discretion of the commission shall, utilize such soil amendments as described in ~~of subsection 27~~ section 38-14.1-02.
10. Remove or bury all debris and other similar material resulting from the operation and bury all mine wastes ~~and coal and commercial leonardite~~ processing wastes unless the commission approves the surface disposal of such wastes. If the commission approves the surface disposal of such wastes, the permittee shall stabilize all waste piles in designated areas through construction in compacted layers, including the use of incombustible and impervious materials if necessary, to assure that the final contour of the waste pile will be compatible with natural surroundings and that the site can and will be stabilized and revegetated according to the provisions of this chapter.
18. Assume the responsibility for successful revegetation, as required by subsection 17, for a period of ten full years after the last year of augmented seeding, fertilizing, irrigation, or other work, provided that, when the commission approves a long-term intensive agricultural postmining land use, the ten-year period of responsibility for revegetation commences at the date of initial planting. However, for previously mined areas that are affected by remaining, the operator's responsibility for successful revegetation will extend for a period of five full years after the last year of augmented seeding, fertilizing, irrigation, and other work in order to assure compliance with the applicable standards. For the purposes of this subsection, "previously mined areas" are lands that were affected by coal or commercial leonardite mining activities prior to January 1, 1970, and "augmented seeding, fertilizing, irrigation, or other work" does not include normal conservation practices recognized locally as good management for the postmining land use.

¹⁴⁹ Section 38-14.1-24 was also amended by section 14 of Senate Bill No. 2377, chapter 257, and section 15 of Senate Bill No. 2377, chapter 257.

38-14.1-25. Prohibited mining practices.

1. ~~No~~A permittee may not use any coal or commercial leonardite mine waste piles consisting of mine wastes, tailings, coal processing wastes, or other liquid or solid wastes either temporarily or permanently as dams or embankments unless approved by the commission, after consultation with the state engineer.
2. ~~No~~A permittee may not locate any part of the surface coal mining and reclamation operations or deposit overburden, debris, or waste materials outside the permit area for which bond has been posted, except as provided in subsection 24 of section 38-14.1-03.
3. ~~No~~A permittee may not deposit overburden, debris, or waste materials in such a way that normal erosion or slides brought about by natural causes will permit the same to go beyond or outside the permit area for which bond has been posted.

SECTION 18. AMENDMENT. Subdivision b of subsection 1 of section 38-14.1-27 of the North Dakota Century Code is amended and reenacted as follows:

- b. For those surface coal mining and reclamation operations which remove or disturb strata that serve as aquifers which significantly ensure the hydrologic balance of water use either on or off the mining site, the commission, in consultation with other appropriate state agencies, shall specify those:
 - (1) Monitoring sites to record the quantity and quality of surface drainage above and below the minesite as well as in the potential zone of influence.
 - (2) Monitoring sites to record level, amount, and samples of ground water and aquifers potentially affected by the mining and also directly below the lowermost (deepest) coal or commercial leonardite seam to be mined.
 - (3) Records of well logs and borehole data to be maintained.
 - (4) Monitoring sites to record precipitation.

The monitoring data collection and analysis required by this section must be conducted according to standards and procedures set forth by the commission in consultation with other appropriate state agencies in order to assure their reliability and validity.

SECTION 19. AMENDMENT. Subsections 1, 3, and 4 of section 38-14.1-37 of the North Dakota Century Code are amended and reenacted as follows:

3. The commission may provide or assume the cost of training coal or commercial leonardite operators who meet the qualifications in subsection 2 concerning the preparation of permit applications and compliance with the regulatory program.
4. An operator who has received assistance under subsection 2 or 3 shall reimburse the commission for the cost of the services rendered if the commission finds that the operator's actual and attributed annual production of coal or commercial leonardite for all locations exceeds three hundred thousand tons [272155.41 metric tons] during the twelve months immediately following the date the operator is issued a surface coal mining and reclamation permit.

The amount of damages may be determined by any formula mutually agreeable between the surface owner and the mineral developer. The payments contemplated by this section only cover land actually mined, disturbed, or to be mined during the year or years during which agricultural production was actually interrupted and which land has not been restored to the level of agricultural productivity required by the plan submitted pursuant to chapter 38-14.1. The payments to be made hereunder must be made before December thirty-first of that calendar year in which the loss occurred.
2. Unless waived by the owner of a farm building, if the coal or commercial leonardite removal area of a surface mining operation comes within five hundred feet [152.4 meters] of any farm building, the mineral developer shall pay to the owner of the farm building either the fair market value of the farm building or the entire cost of removing the farm building to a location where the coal or commercial leonardite removal area of the mining operation will not come within five hundred feet [152.4 meters] of such building or buildings. Each coal mine owner or operator shall remit ~~such~~the tax for each month, within twenty-five days after the end of each month, to the state tax commissioner ~~upon such~~on reports and forms as the tax commissioner deems necessary. For the purposes of this chapter, commercial leonardite is taxed in the same manner as coal.

SECTION 25. AMENDMENT. Section 57-61-01.2 of the North Dakota Century Code is amended and reenacted as follows:

57-61-01.2. When coal or commercial leonardite considered severed.

Coal or commercial leonardite is considered to be severed for the purposes of this chapter when it is first removed from where it was placed by nature, unless within thirty days of first removal it is placed into a long-term inventory storage deposit, in which case it is considered to be severed when removed from the deposit or it is pledged as collateral on a loan. A long-term inventory storage deposit is one which is so identified in a mining plan approved by the public service commission pursuant to chapter 38-14.1 and which as part of that plan is covered with soil and subjected to reclamation requirements during the time it serves as a deposit and before coal or commercial leonardite is removed therefrom.

SECTION 26. AMENDMENT. Subsection 1 of section 57-61-01.5 of the North Dakota Century Code is amended and reenacted as follows:

1. There is imposed upon all coal or commercial leonardite severed for sale or for industrial purposes by coal or commercial leonardite mines within the state a tax, separate from and additional to the tax imposed by section 57-61-01, of two cents per ton of two thousand pounds [907.18 kilograms]. All of the provisions of this chapter for administration of the coal or commercial leonardite severance tax apply to the tax imposed under this section. The state tax commissioner shall transfer revenue from the tax imposed by this section to the state treasurer for deposit in a special fund in the state treasury, known as the lignite research fund. Such moneys must be used for contracts for land reclamation research projects and for research, development, and marketing of lignite and products derived from lignite. 2. In addition to the taxes under subsection 1, the coal or commercial leonardite may be subject to up to seventy percent of the severance taxes imposed under section 57-61-01 at the option of the county in which the coal or commercial leonardite is mined. The board of county commissioners, by resolution, may grant to the operator of a mine from which the coal or commercial leonardite is shipped out of state a partial or complete exemption from this portion of the severance tax. 57-61-02. When tax due - When delinquent.

The severance tax as provided in this chapter is due within twenty-five days after the end of each month, and if not received by the twenty-fifth day, becomes delinquent and must be collected as herein provided. The tax commissioner, upon request and a proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for paying the tax, and when such a request is granted, the tax is not delinquent until the extended period has expired. The tax commissioner shall require a report to be filed monthly by each owner or operator of a coal or commercial leonardite mine, in such form as the tax commissioner may specify, to list a full description of the mine, the number of tons of coal or commercial leonardite severed, the amount of tax due and remitted, and any other information deemed necessary by the tax commissioner for the proper administration of this chapter.

of the true facts as to the amount of production from any coal or commercial leonardite mine or of any company or other producer thereof and as to the rendition thereof for taxing purposes.

SECTION 30. AMENDMENT. Subsection 1 of section 57-61-04 of the North Dakota Century Code is amended and reenacted as follows:

1. The tax commissioner has the power and authority to ascertain and determine whether or not any return or remittances filed with the tax commissioner are correct, and if the owner or operator has made an untrue or incorrect return or remittance or has failed to make the required return, the tax commissioner shall ascertain the correct amount of taxes due and give immediate notice to the owner or operator filing the incorrect return or remittance or who failed to file the required return. Any coal or commercial leonardite mine operator or owner receiving notice from the tax commissioner that the owner or operator has filed an incorrect return or remittance or failed to file the required return shall remit the tax assessed by the tax commissioner within fifteen days of such notice unless within fifteen days of the notice such person makes application in writing to the tax commissioner for a hearing under chapter 28-32 before the tax commissioner. The tax becomes delinquent if within fifteen days of the notice it is not paid or an application for a hearing is not made. Taxes assessed by decision of the tax commissioner pursuant to chapter 28-32, if not paid, become delinquent five days after the time for appeal from the tax commissioner's decision has expired, except that if an appeal from the tax commissioner's decision is taken to the district court of Burleigh County, such taxes if not paid become delinquent five days following final judicial determination.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 6 of section 39-03.1-01 of the North Dakota Century Code is amended and reenacted as follows:

6. "Salary" means the actual dollar compensation, excluding any bonus or overtime, or expense allowance, paid to or for a contributor for the contributor's services.

SECTION 2. AMENDMENT. Section 39-03.1-10.3 of the North Dakota Century Code is amended and reenacted as follows:

39-03.1-10.3. Military service under the Uniformed Services Employment and Reemployment Rights Act - Member retirement credit.

A member reemployed under the Uniformed Services Employment and Reemployment Rights Act of 1994, as amended [Pub. L. 103-353; 108 Stat. 3150; 38 U.S.C. 4301-4333], is entitled to receive retirement credit for the period of qualified military service. The required contribution for the credit, including payment for retiree health benefits, must be made in the same manner and by the same party as would have been made had the employee been continuously employed. If the salary the member would have received during the period of service is not reasonably certain, the member's average rate of compensation during the twelve-month period immediately preceding the member's period of service or, if shorter, the period of employment immediately preceding that period, times the number of months of credit being purchased must be used. Employees must be allowed up to three times the period of military service or five years, whichever is less, to make any required payments. This provision applies to all qualifying periods of military service since October 1, 1994. Effective for years after December 31, 2008, compensation for purposes of Internal Revenue Code section 415 [26 U.S.C. 415], as amended, includes military differential wage payments, as defined in Internal Revenue Code section 3401(h) [26 U.S.C. 3401(h)], as amended. Any payments made by the member to receive qualifying credit inconsistent with this provision must be refunded. Employees shall make application to the employer for credit and provide a DD Form 214 to verify service. After December 31, 2006, if a participating member dies while

performing qualified military service, as defined in section 414(u)(5) of the Internal Revenue Code [26 U.S.C. 414(u)(5)], as amended, the deceased member's beneficiaries are entitled to any death benefits, other than credit for years of service for purposes of benefits, which would have been provided under the plan if the participating member had resumed employment and then terminated employment on account of death. The period of that member's qualified military service is treated as vesting service under the plan.

SECTION 3. AMENDMENT. Section 39-03.1-11.2 of the North Dakota Century Code is amended and reenacted as follows:

39-03.1-11.2. Internal Revenue Code compliance.

The board shall administer the plan in compliance with the following sections of the Internal Revenue Code, as amended, as it applies for governmental plans.

1. Section 415, including the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code.
 - a. The defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as approved by the legislative assembly, must be adjusted under section 415(d) of the Internal Revenue Code, effective January first of each year following a regular legislative session. The adjustment of the defined benefit dollar limitation under section 415(d) applies to participating members who have had a separation from employment, but that member's benefit payments may not reflect the adjusted limit prior to January first of the calendar year in which the adjustment applies.
 - b. If a participating member's benefit is increased by plan amendment after the commencement of benefit payments, the member's annual benefit may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as adjusted under section 415(d) for the calendar year in which the increased benefit is payable.
 - c. If a participating member is, or ever has been, a participant in another defined benefit plan maintained by the employer, the sum of the participant's annual benefits from all the plans may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code. If the participating member's employer-provided benefits under all such defined benefit plans would exceed the defined benefit dollar limitation, the benefit must be reduced to comply with section 415 of the Internal Revenue Code. This reduction must be made pro rata between the plans, in proportion to the participating member's service in each plan.
2. The minimum distribution rules under section 401(a)(9) of the Internal Revenue Code, including the incidental death benefit requirements under section 401(a)(9)(G), and the regulations issued under that provision to the extent applicable to governmental plans. Accordingly, benefits must be distributed or begin to be distributed no later than a member's required beginning date, and the required minimum distribution rules override any inconsistent provision of this chapter. A member's required beginning date is April first of the calendar year following the later of the calendar year in which the member attains age seventy and one-half or terminates employment.

3. The annual compensation limitation under section 401(a)(17) of the Internal Revenue Code, as adjusted for cost-of-living increases under section 401(a)(17)(B).
4. The rollover rules under section 401(a)(31) of the Internal Revenue Code. Accordingly, a distributee may elect to have an eligible rollover distribution, as defined in section 402(c)(4) of the Internal Revenue Code, paid in a direct rollover to an eligible retirement plan, as defined in section 402(c)(8)(B) of the Internal Revenue Code, specified by the distributee.
5. If the plan of retirement benefits set forth in this chapter is terminated or discontinued, the rights of all affected participating members to accrued retirement benefits under this chapter as of the date of termination or discontinuance is nonforfeitable, to the extent then funded.

SECTION 4. AMENDMENT. Subsection 3 of section 39-03.1-14.1 of the North Dakota Century Code is amended and reenacted as follows:

3. Pursuant to rules adopted by the board, a member who has service credit in the system and in any of the alternate plans described in subdivision a or b of subsection 1 is entitled to benefits under this chapter. The employee may elect to have benefits calculated using the benefit formula in section 39-03.1-11 under either of the following calculation methods:
 - a. By using the final average of the highest salary received by the member for any thirty-six months employed during the last one hundred twenty months of employment in the highway patrolmen's retirement systems as calculated in section 39-03.1-11. If the participating member has worked for less than thirty-six months at retirement, the final average salary is the average salary for the total months of employment.
 - b. Using the final average of the highest salary received by the member for any thirty-six months during the last one hundred twenty months of employment as calculated in section 39-03.1-11, with service credit not to exceed one month in any month when combined with the service credit earned in the alternate retirement system.

The board shall calculate benefits for an employee under this subsection by using only those years of service employment earned under this chapter.

SECTION 5. AMENDMENT. Subsection 1 of section 54-52-05 of the North Dakota Century Code is amended and reenacted as follows:

1. Every eligible governmental unit participating political subdivision employee concurring in, at the time the political subdivision joins the plan must so state in writing if the employee concurs in the plan and all future eligible employees of the participating political subdivision are participating members in the plan and must be enrolled in the plan within the first month of employment. Except as otherwise provided by law, every other eligible governmental unit employee of a participating governmental unit is a participating member in the plan and must be enrolled in the plan within the first month of employment. An employee who was not enrolled in the retirement system when eligible to participate must be enrolled immediately upon notice of the employee's eligibility, unless the employee waives in writing the employee's right to participate for the previous time of eligibility, to avoid contributing to the fund for past service. An employee who is eligible for normal retirement who

accepts a retirement benefit under this chapter and who subsequently becomes employed with a participating employer other than the employer with which the employee was employed at the time the employee retired under this chapter may, ~~before reenrolling~~being reenrolled in the retirement plan within the first month of employment, elect to permanently waive future participation in the retirement plan and the retiree health program and maintain that employee's retirement status. An employee making this election is not required to make any future employee contributions to the public employees retirement system nor is the employee's employer required to make any further contributions on behalf of that employee.

¹⁵⁰ **SECTION 6. AMENDMENT.** Subsection 3 of section 54-52-17 of the North Dakota Century Code is amended and reenacted as follows:

3. Retirement dates are defined as follows:
 - a. Normal retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, is:
 - (1) The first day of the month next following the month in which the member attains the age of sixty-five years; or
 - (2) When the member has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
 - b. Normal retirement date for a national guard security officer or firefighter is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty-five years and has completed at least three eligible years of employment ~~as a national guard security officer or firefighter.~~
 - c. Normal retirement date for a peace officer or correctional officer employed by a political subdivision is:
 - (1) The first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty-five years and has completed at least three eligible years of employment ~~as a peace officer or correctional officer;~~ or
 - (2) When the peace officer or correctional officer has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
 - d. Normal retirement date for a peace officer employed by the bureau of criminal investigation is:
 - (1) The first day of the month next following the month in which the peace officer attains the age of fifty-five years and has completed at least three eligible years of employment ~~as a peace officer;~~ or

¹⁵⁰ Section 54-52-17 was also amended by section 27 of Senate Bill No. 2015, chapter 49, section 28 of Senate Bill No. 2015, chapter 49, and section 4 of Senate Bill No. 2102, chapter 424.

- (2) When the peace officer has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
- e. Postponed retirement date is the first day of the month next following the month in which the member, on or after July 1, 1977, actually severs or has severed the member's employment after reaching the normal retirement date.
- f. Early retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, is the first day of the month next following the month in which the member attains the age of fifty-five years and has completed three years of eligible employment. For a national guard security officer or firefighter, early retirement date is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty years and has completed at least three years of eligible employment. For a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, early retirement date is the first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty years and has completed at least three years of eligible employment.
- g. Disability retirement date is the first day of the month after a member becomes permanently and totally disabled, according to medical evidence called for under the rules of the board, and has completed at least one hundred eighty days of eligible employment. For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:
- (1) Became disabled during the period of eligible employment; and
 - (2) Applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

SECTION 7. AMENDMENT. Subsection 1 of section 54-52-17.2 of the North Dakota Century Code is amended and reenacted as follows:

1. a. For the purpose of determining eligibility for benefits under this chapter, an employee's years of service credit is the total of the years of service credit

A permanent employee or a temporary employee employed before August 1, 2015, may elect to have benefits calculated using the benefit formula in section 54-52-17 under either of the following methods:

- (1) ~~The final average of the highest salary received by the member for any thirty-six months employed during the last one hundred twenty months of employment in the public employees retirement system as calculated in section 54-52-17.~~ If the participating member has worked for less than thirty-six months at retirement, the final average salary is the average salary for the total months of employment.

54-52-17.14. Military service under the Uniformed Services Employment and Reemployment Rights Act - Member retirement credit.

A member reemployed under the Uniformed Services Employment and Reemployment Rights Act of 1994, as amended [Pub. The required contribution for the credit, including payment for retiree health benefits, must be made in the same manner and by the same party as would have been made had the employee been continuously employed. If the salary the member would have received during the period of service is not reasonably certain, the member's average rate of compensation during the twelve-month period immediately preceding the member's period of service or, if shorter, the period of employment immediately preceding that period, times the number of months of credit being purchased must be used. Employees must be allowed up to three times the

SECTION 9. AMENDMENT. Section 54-52-28 of the North Dakota Century Code is amended and reenacted as follows:

The adjustment of the defined benefit dollar limitation under section 415(d) applies to participating members who have had a separation from employment, but that member's benefit payments may not reflect the adjusted limit prior to January first of the calendar year in which the adjustment applies.
 - b. 2. The minimum distribution rules under section 401(a)(9) of the Internal Revenue Code, including the incidental death benefit requirements under section 401(a)(9)(G), and the regulations issued under that provision to the extent applicable to governmental plans. Accordingly, benefits must be distributed or begin to be distributed no later than a member's required beginning date, and the required minimum distribution rules override any inconsistent provision of this chapter. If the political subdivision withdraws from participation in the uniform group insurance program, before completing sixty months of participation, unless federal or state laws or rules are modified or interpreted in a way that makes participation by the political subdivision in the uniform group insurance program no longer allowable or appropriate, the political subdivision shall make payment to the board in an amount equal to any expenses incurred in the uniform group insurance program that exceed income received on behalf of the political subdivision's employees as determined under rules adopted by the board. The Garrison Diversion

Conservancy District, and district health units required to participate in the public employees retirement system under section 54-52-02, shall participate in the uniform group insurance program under the same terms and conditions as state agencies. A retiree who has accepted a retirement allowance from a participating political subdivision's retirement plan may elect to participate in the uniform group under this chapter without meeting minimum requirements at age sixty-five, when the employee's spouse reaches age sixty-five, upon the receipt of a benefit, when the political subdivision joins the uniform group insurance plan if the retiree was a member of the former plan, or when the spouse terminates employment. ¹⁵⁶ **SECTION 6. AMENDMENT.** Section 39-08-01 of the North Dakota Century Code is amended and reenacted as follows:

39-08-01. Persons under the influence of intoxicating liquor or any other drugs or substances not to operate vehicle - Penalty.

1. A person may not drive or be in actual physical control of any vehicle upon a highway or upon public or private areas to which the public has a right of access for vehicular use in this state if any of the following apply:

¹⁵⁶ Section 39-08-01 was also amended by section 1 of Senate Bill No. 2154, chapter 267.

- a. That person has an alcohol concentration of at least eight one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after the driving or being in actual physical control of a vehicle.
- b. That person is under the influence of intoxicating liquor.
- c. That person is under the influence of any drug or substance or combination of drugs or substances to a degree which renders that person incapable of safely driving.
- d. That person is under the combined influence of alcohol and any other drugs or substances to a degree which renders that person incapable of safely driving.
- e. That individual refuses to submit to any of the following:
 - (1) A chemical test, or tests, of the individual's blood, breath, or urine to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, at the direction of a law enforcement officer under section 39-06.2-10.2 if the individual is driving or is in actual physical control of a commercial motor vehicle; or
 - (2) A chemical test, or tests, of the individual's blood, breath, or urine to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, at the direction of a law enforcement officer under section 39-20-01; or
 - (3) An onsite screening test, or tests, of the individual's breath for the purpose of estimating the alcohol concentration in the individual's breath upon the request of a law enforcement officer under section 39-20-14.

The fact that any person charged with violating this section is or has been legally entitled to use alcohol or other drugs or substances is not a defense against any charge for violating this section, unless a drug which predominately caused impairment was used only as directed or cautioned by a practitioner who legally prescribed or dispensed the drug to that person. If the individual violated subdivisions a, b, c, or d of this subsection and subdivision e of this subsection and the violations arose from the same incident, for purposes of suspension or revocation of an operator's license, the violations are deemed a single violation and the court shall forward to the department of transportation only the conviction for driving under the influence or actual physical control.

2. a. An individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state who refuses to submit to a chemical test, or tests, required under section 39-06.2-10.2, 39-20-01, or 39-20-14, is guilty of an offense under this section.
- b. An individual is not subject to an offense under this section for refusal to submit to an onsite screening test under section 39-20-14 if the person submits to a chemical test under section 39-20-01 or 39-06.2-10.2 for the

same incident. Upon the individual's refusal to submit to an onsite screening test, the police officer shall inform the individual that the individual may remedy the refusal if the individual takes a chemical test under section 39-20-01 or 39-06.2-10.2 for the same incident.

3. An individual violating this section or equivalent ordinance is guilty of a class B misdemeanor for the first or second offense in a seven-year period, of a class A misdemeanor for a third offense in a seven-year period, and of a class C felony for any fourth or subsequent offense ~~regardless of the length of time since the previous offense~~ within a fifteen-year period. The minimum penalty for violating this section is as provided in subsection 5. The court shall take judicial notice of the fact that an offense would be a subsequent offense if indicated by the records of the director or may make a subsequent offense finding based on other evidence.
4. Upon conviction of a second or subsequent offense within seven years under this section or equivalent ordinance, the court may order the motor vehicle number plates of all of the motor vehicles owned and operated by the offender at the time of the offense to be destroyed by the office of the police officer that made the arrest. The offender shall deliver the number plates to the court without delay at a time certain as ordered by the court following the conviction. The court shall deliver the number plates to the office and notify the department of the order. An offender who does not provide the number plates to the court at the appropriate time is subject to revocation of probation. The court may make an exception to this subsection, on an individual basis, to avoid undue hardship to an individual who is completely dependent on the motor vehicle for the necessities of life, including a family member of the convicted individual and a coowner of the motor vehicle, or if the offender is participating in the twenty-four seven sobriety program.
5. A person convicted of violating this section, or an equivalent ordinance, must be sentenced in accordance with this subsection. ~~For purposes of this subsection, unless the context otherwise requires, "drug court program" means a district court supervised treatment program approved by the supreme court which combines judicial supervision with alcohol and drug testing and chemical addiction treatment in a licensed treatment program. The supreme court may adopt rules, including rules of procedure, for drug courts and the drug court program.~~
 - a. (1) For a first offense, the sentence must include both a fine of at least five hundred dollars and an order for addiction evaluation by an appropriate licensed addiction treatment program.
 - (2) In addition, for a first offense when the convicted person has an alcohol concentration of at least sixteen one-hundredths of one percent by weight, the offense is an aggravated first offense and the sentence must include a fine of at least seven hundred fifty dollars and at least two days' imprisonment.
 - b. For a second offense within seven years, the sentence must include at least ten days' imprisonment, of which forty-eight hours must be served consecutively; a fine of one thousand five hundred dollars; an order for addiction evaluation by an appropriate licensed addiction treatment program; and at least ~~twelve months'~~ three hundred sixty days' participation

- in the twenty-four seven sobriety program under chapter 54-12 as a mandatory condition of probation.
- c. For a third offense within seven years, the sentence must include at least one hundred twenty days' imprisonment; a fine of at least two thousand dollars; an order for addiction evaluation by an appropriate licensed addiction treatment program; at least ~~one year's~~three hundred sixty days' supervised probation; and at least three hundred sixty days' participation in the twenty-four seven sobriety program under chapter 54-12 as a mandatory condition of probation.
 - d. For a fourth or subsequent offense within fifteen years, the sentence must include at least one year and one day's imprisonment; a fine of at least two thousand dollars; an order for addiction evaluation by an appropriate licensed treatment program; at least two years' supervised probation; and participation in the twenty-four seven sobriety program under chapter 54-12 as a mandatory condition of probation.
 - e. The imposition of sentence under this section may not be deferred under subsection 4 of section 12.1-32-02 for an offense subject to this section.
 - f. If the offense is subject to subdivision a or b, a municipal court or district court may not suspend a sentence, but may convert each day of a term of imprisonment to ten hours of community service for an offense subject to paragraph 2 of subdivision a. If the offense is subject to subdivision c, the district court may suspend a sentence, except for sixty days' imprisonment, under subsection 3 of section 12.1-32-02 on the condition that the defendant first undergo and complete an evaluation for alcohol and substance abuse treatment and rehabilitation and upon completion of the twenty-four seven sobriety program. If the offense is subject to subdivision d, the district court may suspend a sentence, except for one year's imprisonment, under subsection 3 of section 12.1-32-02 on the condition that the defendant first undergo and complete an evaluation for alcohol and substance abuse treatment and rehabilitation. If the defendant is found to be in need of alcohol and substance abuse treatment and rehabilitation, the district court may order the defendant placed under the supervision and management of the department of corrections and rehabilitation and is subject to the conditions of probation under section 12.1-32-07. The district court may require the defendant to complete alcohol and substance abuse treatment and rehabilitation under the direction of the drug court program as a condition of probation in accordance with rules adopted by the supreme court. If the district court finds that a defendant has failed to undergo an evaluation or complete treatment or has violated any condition of probation, the district court shall revoke the defendant's probation and shall sentence the defendant in accordance with this subsection.
 - g. For purposes of this section, conviction of an offense under a law or ordinance of another state which is equivalent to this section must be considered a prior offense if such offense was committed within the time limitations specified in this section.
 - h. If the penalty mandated by this section includes imprisonment or placement upon conviction of a violation of this section or equivalent ordinance, and if an addiction evaluation has indicated that the defendant

needs treatment, the court may order the defendant to undergo treatment at an appropriate licensed addiction treatment program under subdivision g of subsection 1 of section 12.1-32-02 and the time spent by the defendant in the treatment must be credited as a portion of a sentence of imprisonment or placement under this section. A court may not order the department of corrections and rehabilitation to be responsible for the costs of treatment in a private treatment facility.

- i. If the court sentences an individual to the legal and physical custody of the department of corrections and rehabilitation, the department may place the individual in an alcohol treatment program designated by the department. Upon the individual's successful completion of the alcohol treatment program, the department shall release the individual from imprisonment to serve the remainder of the sentence of imprisonment on probation, which may include placement in another facility or treatment program. If an individual is placed in another facility or treatment program after release from imprisonment, the remainder of the individual's sentence of imprisonment must be considered time spent in custody.
 - j. If the individual has participated in the twenty-four seven sobriety program as a condition of pretrial release or for the purpose of receiving a temporary restricted operator's license under section 39-06.1-11, the sentencing court may give credit for the time the individual has already served on the twenty-four seven sobriety program when determining the amount of time the individual must serve on the twenty-four seven sobriety program for the purposes of probation, if that individual has not violated the twenty-four seven sobriety program before sentencing.
6. As used in subdivisions b and c of subsection 5, the term "imprisonment" includes house arrest. As a condition of house arrest, a defendant may not consume alcoholic beverages. The house arrest must include a program of electronic home detention and the defendant shall participate in the twenty-four seven sobriety program. The defendant shall defray all costs associated with the electronic home detention. For an offense under subdivision b or c of subsection 5, no more than ninety percent of the sentence may be house arrest.
 7. As used in this title, participation in the twenty-four seven sobriety program under chapter 54-12 means compliance with sections 54-12-27 through 54-12-31, and requires sobriety breath testing twice per day seven days per week or electronic alcohol monitoring, urine testing, or drug patch testing. The offender is responsible for all twenty-four seven sobriety program fees and the court may not waive the fees. For purposes of this section, the twenty-four seven sobriety program is a condition of probation and a court may not order participation in the program as part of the sentence.

SECTION 7. A new section to chapter 39-08 of the North Dakota Century Code is created and enacted as follows:

Partial suspension of sentence for drug court completion.

1. Notwithstanding section 39-08-01, all but ten days of the minimum mandatory sentence required for a defendant charged with a third or subsequent violation of section 39-08-01 may be suspended on the condition the defendant successfully completes a drug court program approved by the supreme court.

2. For purposes of this section, unless the context otherwise requires, "drug court program" means a district court-supervised treatment program approved by the supreme court which combines judicial supervision with alcohol and drug testing and chemical addiction treatment in a licensed treatment program. The supreme court may adopt rules, including rules of procedure, for drug courts and the drug court program.

SECTION 8. AMENDMENT. Subsection 2 of section 39-16-03.1 of the North Dakota Century Code is amended and reenacted as follows:

2. After the period of suspension ceases, an entry concerning a suspension under subsection ~~4, 5, 6, or 7~~3, 4, 5, or 6 of section 39-06-03 or subsection 2, 5, or 6 of section 39-06-32.

SECTION 9. AMENDMENT. Section 39-20-01 of the North Dakota Century Code is amended and reenacted as follows:

39-20-01. Implied consent to determine alcohol concentration and presence of drugs.

1. Any individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state is deemed to have given consent, and shall consent, subject to the provisions of this chapter, to a chemical test, or tests, of the blood, breath, or urine for the purpose of determining the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine. As used in this chapter, the word "drug" means any drug or substance or combination of drugs or substances which renders an individual incapable of safely driving, and the words "chemical test" or "chemical analysis" mean any test to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter.
2. The test or tests must be administered at the direction of a law enforcement officer only after placing the individual, except individuals mentioned in section 39-20-03, under arrest and informing that individual that the individual is or will be charged with the offense of driving or being in actual physical control of a vehicle upon the public highways while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a child under section 27-20-13 or an individual under twenty-one years of age satisfies the requirement of an arrest. The law enforcement officer shall determine which of the tests is to be used.
3.
 - a. The law enforcement officer shall inform the individual charged that North Dakota law requires the individual to take the test to determine whether the individual is under the influence of alcohol or drugs; that refusal to take the test directed by the law enforcement officer is a crime punishable in the same manner as driving under the influence; and that refusal of the individual to submit to the test directed by the law enforcement officer may result in a revocation for a minimum of one hundred eighty days and up to three years of the individual's driving privileges. ~~The law enforcement officer shall determine which of the tests is to be used.~~
 - b. A test administered under this section is not admissible in any criminal or administrative proceeding to determine a violation of section 39-08-01 or

this chapter if the law enforcement officer fails to inform the individual charged as required under subdivision a.

4. When an individual under the age of eighteen years is taken into custody for violating section 39-08-01 or an equivalent ordinance, the law enforcement officer shall attempt to contact the individual's parent or legal guardian to explain the cause for the custody. Neither the law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter. The law enforcement officer shall mail a notice to the parent or legal guardian of the minor within ten days after the test results are received or within ten days after the minor is taken into custody if the minor refuses to submit to testing. The notice must contain a statement of the test performed and the results of that test; or if the minor refuses to submit to the testing, a statement notifying of that fact. The attempt to contact or the contacting or notification of a parent or legal guardian is not a precondition to the admissibility of chemical test results or the finding of a consent to, or refusal of, chemical testing by the individual in custody.

SECTION 10. AMENDMENT. Subsection 2 of section 39-20-04 of the North Dakota Century Code is amended and reenacted as follows:

 - (3) Acknowledges the right to a section 39-20-05 administrative hearing and section 39-20-06 judicial review and voluntarily and knowingly waives these rights; and
 - (4) Agrees that the person's driving privileges must be revoked as provided under this section without an administrative hearing or judicial review, if the person does not plead guilty within twenty-five days after the temporary operator's permit is issued, or the court does not accept the guilty plea, or the guilty plea is withdrawn;
 - c. The person pleads guilty to violating section 39-08-01 or equivalent ordinance within twenty-five days after the temporary operator's permit is issued;
 - d. The court accepts the person's guilty plea and a notice of that fact is mailed to the director within twenty-five days after the temporary operator's permit is issued; and

- e. A copy of the final order or judgment of conviction evidencing the acceptance of the person's guilty plea is received by the director prior to the return or reinstatement of the person's driving privileges.

SECTION 11. AMENDMENT. Subsections 2 and 3 of section 39-20-05 of the North Dakota Century Code are amended and reenacted as follows:

2. If the issue to be determined by the hearing concerns license suspension for operating a motor vehicle while having an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting officer had reasonable grounds to believe the individual had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to an individual under twenty-one years of age, the individual had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the individual was placed under arrest, unless the individual was under twenty-one years of age and the alcohol concentration was less than eight one-hundredths of one percent by weight, then arrest is not required and is not an issue under any provision of this chapter; whether the individual was tested in accordance with section 39-20-01 or 39-20-03 and, if applicable, section 39-20-02; and whether the test results show the individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood or urine sample from the director of the state crime laboratory or the director's designee, or electronically posted by the director of the state crime laboratory or the director's designee on the crime laboratory information management system and certified by a law enforcement officer or individual who has authorized access to the crime laboratory management system through the criminal justice data information sharing system or a certified copy of the checklist and test records from a certified breath test operator, and a copy of a certified copy of a certificate of the director of the state crime laboratory designating the director's designees, establish prima facie the alcohol concentration or the presence of drugs, or a combination thereof, shown therein. ~~Whether the individual was informed that the privilege to drive might be suspended based on the results of the test is not an issue.~~
3. If the issue to be determined by the hearing concerns license revocation for refusing to submit to a test under section 39-20-01 or 39-20-14, the hearing must be before a hearing officer assigned by the director at a time and place designated by the director. The hearing must be recorded. The scope of a hearing for refusing to submit to a test under section 39-20-01 may cover only the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to a person under twenty-one years of age, the person had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the person was placed under arrest; and whether that person refused

to submit to the test or tests. The scope of a hearing for refusing to submit to a test under section 39-20-14 may cover only the issues of whether the law enforcement officer had reason to believe the person committed a moving traffic violation or was involved in a traffic accident as a driver, whether in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the person's body contains alcohol and, whether the person refused to submit to the onsite screening test. ~~Whether the person was informed that the privilege to drive would be revoked or denied for refusal to submit to the test or tests is not an issue.~~

SECTION 12. AMENDMENT. Section 39-20-15 of the North Dakota Century Code is amended and reenacted as follows:

39-20-15. Restricted license upon twenty-four seven sobriety program participation.

Any driver suspended under this chapter may elect to participate in the twenty-four seven sobriety program under chapter 54-12. The director may issue a temporary restricted license that takes effect after ~~fifteen~~fourteen days of the suspension have been served provided that the driver is not subject to any unrelated suspension. Notwithstanding any other provision of law, an individual may not receive a temporary restricted operator's license until after fourteen days after the administrative hearing on the offense under this chapter has been waived or held, or after fourteen days of the final appeal, whichever is longer.

SECTION 13. A new section to chapter 54-12 of the North Dakota Century Code is created and enacted as follows:

15. The failure to furnish the board or the investigative panel or investigators or representatives of the board or investigative panel information legally requested by the board or the investigative panel. The board shall keep a record of its proceedings in a disciplinary action or refusal to issue a license, together with the evidence offered.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 11-23-01 of the North Dakota Century Code is amended and reenacted as follows:

11-23-01. Officers required to furnish commissioners with departmental budget.

1. Every officer in charge of any institution, office, or undertaking supported wholly or in part by the county shall file with the board of county commissioners a departmental budget that is prescribed by the state auditor. The departmental budget must include an itemized statement of the estimated amount of money that will be required for the maintenance, operation, or improvement of the institution, office, or undertaking for the ensuing year. The board of county commissioners may require additional information to clarify the departmental budget.
2. a. The departmental budget submitted by the county social service board in 2015 for the 2016 budget may not exceed an amount determined using the departmental budget submitted in 2014 by the county social service board as a starting point, subtracting the reduction in the county's social service funding responsibility for 2014 derived from transferring the county social service costs identified in this subdivision from the county social service board to the department of human services, and applying to the resulting amount the percentage salary and benefits increase provided by legislative appropriations for state employees for taxable year 2015. For

purposes of this subdivision, the reduction in the county's social service funding responsibility derived from transferring the county social service costs identified in this subdivision from the county social service board to the department of human services includes the following:

- (1) Foster care and subsidized adoption costs that would have been paid by the county after December 31, 2015;
 - (2) The county's share of grant costs for medical assistance in the form of payments for care furnished to recipients of therapeutic foster care services which would have been paid by the county after December 31, 2015;
 - (3) The county's share of the costs for service payments to the elderly and disabled which would have been paid by the county after December 15, 2015;
 - (4) The county's share of salary and benefits for family preservation services pursuant to section 50-06-05.8 which would have been paid by the county after December 31, 2015;
 - (5) The county's share of the cost of the electronic benefits transfers for the supplemental nutrition assistance program which would have been paid by the county after December 31, 2015; and
 - (6) The computer processing costs which would have been paid by the county after December 31, 2015, which exceed the county's costs of operation of the technical eligibility computer system in calendar year 1995 increased by the increase in the consumer price index for all urban consumers (all items, United States city average) after January 1, 1996.
- b. The departmental budget submitted by the county social service board in 2016 for the 2017 budget may not exceed an amount determined using the 2015 departmental budget as a starting point and applying to that amount the percentage salary and benefits increase provided by legislative appropriations for state employees for 2016.
- c. The budget must include a statement identifying the total savings to the county as shown by a reduction in the amounts that otherwise would have been paid by the county to the department of human services for the costs identified in subdivision a. The department of human services shall determine the appropriate amount of what each county's costs would have been to help identify each county's total savings.
- The county share of the human service budget must be funded entirely from the county's property tax levy for that purpose and the county may not use funds from any other source to supplement the human services budget, with the exception that the county may make use of the identifiable amount of other sources the county has used to supplement its human services budget for 2015 and the county may use grant funds that may be available to the county under section 50-06-20.1.
- d. The department of human services shall develop a process to review a request from a county social service board for any proposed increase in

staff needed as a result of significantly increased caseloads for state-funded human services programs, if the increase in staff would result in the county exceeding the budget limitation established under this subsection. As part of its review process, the department shall review countywide caseload information and consider the option of multicounty sharing of staff. If the department approves a request for a proposed increase in staff, the county budget limitation established under subdivision b may be increased by the amount determined necessary by the department to fund the approved additional staff.

The court shall hold a hearing to determine the amount of the bond on the request of either party. A bond ordered under this section may not exceed two hundred fifty thousand dollars. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.
 5. For a county that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year, revenues allocated to that county must be distributed by the state treasurer as follows:

- a. Sixty percent must be distributed to the county treasurer and credited to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if in a taxable year after 2012 the county is not levying a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
- b. Five percent must be apportioned by the state treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis for kindergarten through grade twelve students residing within the county, as certified to the state treasurer by the county superintendent of schools. However, a hub city school district must be omitted from consideration and apportionment under this subdivision.
- c. Twenty percent must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. A hub city must be omitted from apportionment under this subdivision. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.
- d. Three percent must be apportioned no less than quarterly by the state treasurer among the organized and unorganized townships of the county. The state treasurer shall apportion the funds available under this subdivision among townships in the proportion that township road miles in the township bear to the total township road miles in the county. The amount apportioned to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.
- e. Three percent must be allocated by the state treasurer among the organized and unorganized townships in all the counties that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year. The amount available under this subdivision must be allocated no less than quarterly by the state treasurer in an equal amount to each eligible organized and unorganized township. The amount allocated to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.
- f. Nine percent must be allocated by the state treasurer among hub cities. The amount available for allocation under this subdivision must be apportioned by the state treasurer no less than quarterly among hub cities. Sixty percent of funds available under this subdivision must be distributed to the hub city receiving the greatest percentage of allocations to hub cities under subdivision a of subsection 1 for the quarterly period, thirty percent of funds available under this subdivision must be distributed to the hub city

receiving the second greatest percentage of such allocations, and ten percent of funds available under this subdivision must be distributed to the hub city receiving the third greatest percentage of such allocations.

6. Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:
 - a. The county's statement of revenues and expenditures; and
 - b. The amount allocated to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.

Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.

(Effective for taxable events occurring after June 30, 2015) Gross production tax allocation. The gross production tax must be allocated monthly as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:
 - a. Allocate five hundred thousand dollars per fiscal year to each city in an oil-producing county which has a population of seven thousand five hundred or more and more than two percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota. The allocation under this subdivision must be doubled if the city has more than seven and one-half percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota;
 - b. Credit revenues to the oil and gas impact grant fund, but not in an amount exceeding one hundred million dollars per biennium;
 - c. Credit ~~four~~eight percent of the amount available under this subsection to the North Dakota outdoor heritage fund, but not in an amount exceeding ~~fifteen~~twenty million dollars in a state fiscal year and not in an amount exceeding ~~thirty~~forty million dollars per biennium;
 - d. Credit four percent of the amount available under this subsection to the abandoned oil and gas well plugging and site reclamation fund, but not in an amount exceeding five million dollars in a state fiscal year and not in an amount that would bring the balance in the fund to more than seventy-five million dollars; and
 - e. Allocate the remaining revenues under subsection 3.

2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:
 - a. The first two million dollars is allocated to the county.
 - b. Of the next one million dollars, seventy-five percent is allocated to the county.
 - c. Of the next one million dollars, fifty percent is allocated to the county.
 - d. Of the next fourteen million dollars, twenty-five percent is allocated to the county.
 - e. Of all annual revenue exceeding eighteen million dollars, ten percent is allocated to the county.
3. After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.
4. The amount to which each county is entitled under subsection 2 must be allocated within the county so the first five million three hundred fifty thousand dollars is allocated under subsection 5 for each fiscal year and any amount received by a county exceeding five million three hundred fifty thousand dollars is credited by the county treasurer to the county infrastructure fund and allocated under subsection 6.
5.
 - a. Forty-five percent of all revenues allocated to any county for allocation under this subsection must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
 - b. Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis, as certified to the county treasurer by the county superintendent of schools. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of

students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty-five percent share must be deposited instead in the county general fund. The county superintendent of schools of each oil-producing county shall certify to the county treasurer by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the county superintendent of schools required by this subsection.

The countywide allocation to school districts under this subdivision is subject to the following:

- (1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.
 - (2) The next three hundred fifty thousand dollars is apportioned seventy-five percent among school districts in the county and twenty-five percent to the county infrastructure fund.
 - (3) The next two hundred sixty-two thousand five hundred dollars is apportioned two-thirds among school districts in the county and one-third to the county infrastructure fund.
 - (4) The next one hundred seventy-five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.
 - (5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:
 - (a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.
 - (b) Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.
 - (c) Seven hundred thirty-five thousand dollars, for counties having a population of six thousand or more.
- c. Twenty percent of all revenues allocated to any county for allocation under this subsection must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this

subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.

6. a. Forty-five percent of all revenues allocated to a county infrastructure fund under subsections 4 and 5 must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
 - b. Thirty-five percent of all revenues allocated to the county infrastructure fund under subsections 4 and 5 must be allocated by the board of county commissioners to or for the benefit of townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development-impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the county treasurer to the county road and bridge fund for use on county road and bridge projects.
 - c. Twenty percent of all revenues allocated to any county infrastructure fund under subsections 4 and 5 must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.
7. Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:
 - a. The county's statement of revenues and expenditures; and
 - b. The amount available in the county infrastructure fund for allocation to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the

amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.

Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.

SECTION 5. EFFECTIVE DATE. This Act is effective for taxable events beginning after June 30, 2015.

SECTION 6. EMERGENCY. Subsection 2 of section 54-17.8-05 as amended by section 2 of this Act is declared to be an emergency measure.

AN ACT to amend and reenact section 54-27-19 of the North Dakota Century Code, relating to allocation and distribution of the highway tax distribution fund.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 54-27-19 of the North Dakota Century Code is amended and reenacted as follows:

54-27-19. Highway tax distribution fund - State treasurer to make allocation to state, counties, and cities.

A highway tax distribution fund is created as a special fund in the state treasury into which must be deposited the moneys available by law from collections of motor vehicle registration and related fees, fuels taxes, special fuels taxes, use taxes, and special fuels excise taxes. The state treasurer shall transfer the first five million five hundred thousand dollars per biennium from the highway tax distribution fund to the state highway fund for the purpose of providing administrative assistance to other transferees. After the transfer of the first five million five hundred thousand dollars, any moneys in the highway tax distribution fund must be allocated and transferred monthly by the state treasurer, as follows:

1. Sixty-one and three-tenths percent must be transferred monthly to the state department of transportation and placed in a state highway fund.
2. Two and seven-tenths percent must be transferred monthly to the township highway fund.
3. One and five-tenths percent must be transferred monthly to the public transportation fund.
4. Thirty-four and five-tenths percent must be allocated to the counties of this state in proportion to the number of vehicle registrations credited to each county. Each county must be credited with the certificates of title of vehicles registered by residents of the county. The state treasurer shall compute and distribute the counties' share monthly after deducting the incorporated cities' share. All the moneys received by the counties from the highway tax distribution fund must be set aside in a separate fund called the "highway tax distribution fund" and must be appropriated and applied solely for highway purposes in accordance with section 11 of article X of the Constitution of North Dakota. The state treasurer shall compute and distribute monthly the sums allocated to the incorporated cities within each county according to the ~~formula~~formulas in this subsection ~~on the basis of the per capita population of all of the incorporated cities situated within each county~~using the incorporated cities' populations as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to the census.

- a. For counties having no cities with a population of ten thousand or more, a statewide per capita average must be used, as determined by calculating twenty-seven percent of the amount allocated to all of the counties under this subsection divided by the total population of all of the incorporated cities in the state. Each city must be paid an amount equal to the product of the statewide per capita and that city's population twenty-seven percent of the total county allocation must be distributed to all of the incorporated cities within the county on a countywide per capita basis. The remaining county allocation amount must be transferred into the county highway tax distribution fund.
- b. For each county having a city with a population of ten thousand or more, the amount transferred each month into the county highway tax distribution fund must be the difference between the amount allocated to that county pursuant to this subsection and the total amount allocated and distributed to the incorporated cities in that county as computed according to the following formula:
 - (1) A statewide per capita average as determined by calculating twenty-seven percent of the amount allocated to all of the counties under this subsection divided by the total population of all of the incorporated cities in the state.
 - (2) The share distributed to each city in the county having a population of less than one thousand must be determined by multiplying the population of that city by the product of 1.50 times the statewide per capita average computed under paragraph 1.
 - (3) The share distributed to each city in the county having a population of one thousand to four thousand nine hundred ninety-nine, inclusive, must be determined by multiplying the population of that city by the product of 1.25 times the statewide per capita average computed under paragraph 1.
 - (4) The share distributed to each city in the county having a population of five thousand or more must be determined by multiplying the population of that city by the statewide per capita average for all such cities, which per capita average must be computed as follows: the total of the shares computed under paragraphs 2 and 3 for all cities in the state having a population of less than five thousand must be subtracted from the total incorporated cities' share in the state as computed under ~~subdivision a paragraph 1~~ and the balance remaining must then be divided by the total population of all cities of five thousand or more in the state.
5. The moneys allocated to the incorporated cities must be distributed to them monthly by the state treasurer and must be deposited by the cities in a separate fund and may only be used in accordance with section 11 of article X of the Constitution of North Dakota and an incorporated city may use the fund for the construction, reconstruction, repair, and maintenance of public highways within or outside the city pursuant to an agreement entered into between the city and any other political subdivision as authorized by section 54-40-08.

- g. Disability retirement date is the first day of the month after a member becomes permanently and totally disabled, according to medical evidence called for under the rules of the board, and has completed at least one hundred eighty days of eligible employment. For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by

subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:

- (1) Became disabled during the period of eligible employment; and
- (2) Applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

(Representatives Skarphol, Thoreson, Klemin, Rick C. Becker, Kasper, Streyle,
Monson, Pollert)
(Senators Hogue, Carlisle, Armstrong, Larsen)

AN ACT providing for the adoption of an interstate compact entitled "Compact for a Balanced Budget".

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1.

Adoption of compact.

The state of North Dakota enacts, adopts, and agrees to be bound by the Compact for a Balanced Budget with all other jurisdictions legally joining therein in the form substantially as follows:

ARTICLE I - DECLARATION OF POLICY, PURPOSE, AND INTENT

Whereas, every state enacting, adopting and agreeing to be bound by this compact intends to ensure that their respective legislature's use of the power to originate a Balanced Budget Amendment under Article V of the Constitution of the United States will be exercised conveniently and with reasonable certainty as to the consequences thereof.

Now, therefore, in consideration of their expressed mutual promises and obligations, be it enacted by every state enacting, adopting and agreeing to be bound by this compact, and resolved by each of their respective legislatures, as the case may be, to exercise herewith all of their respective powers as set forth herein notwithstanding any law to the contrary.

ARTICLE II - DEFINITIONS

1. "Compact" means this "Compact for a Balanced Budget".
2. "Convention" means the convention for proposing amendments organized by this compact under Article V of the Constitution of the United States and, where contextually appropriate to ensure the terms of this compact are not evaded, any other similar gathering or body, which might be organized as a consequence of Congress receiving the application set out in this compact and claim authority to propose or effectuate any amendment, alteration or revision to the Constitution of the United States. This term does not encompass a convention for proposing amendments under Article V of the Constitution of the United States that is organized independently of this compact based on the separate and distinct application of any state.
3. "State" means one of the several states of the United States. Where contextually appropriate, the term "state" shall be construed to include all of its

branches, departments, agencies, political subdivisions, and officers and representatives acting in their official capacity.

4. "Member state" means a state that has enacted, adopted, and agreed to be bound to this compact. For any state to qualify as a member state with respect to any other state under this compact, each such state must have enacted, adopted, and agreed to be bound by substantively identical compact legislation.
5. "Compact notice recipients" means the archivist of the United States, the president of the United States, the president of the United States Senate, the office of the secretary of the United States Senate, the speaker of the United States House of Representatives, the office of the clerk of the United States House of Representatives, the chief executive officer of each state, and the presiding officers of each house of the legislatures of the several states.
6. Notice. All notices required by this compact shall be by United States certified mail, return receipt requested, or an equivalent or superior form of notice, such as personal delivery documented by evidence of actual receipt.
7. "Balanced Budget Amendment" means the following:

"Article _____

Section 1. Total outlays of the government of the United States shall not exceed total receipts of the government of the United States at any point in time unless the excess of outlays over receipts is financed exclusively by debt issued in strict conformity with this article.

Section 2. Outstanding debt shall not exceed authorized debt, which initially shall be an amount equal to 105 percent of the outstanding debt on the effective date of this article. Authorized debt shall not be increased above its aforesaid initial amount unless such increase is first approved by the legislatures of the several states as provided in Section 3.

Section 3. From time to time, Congress may increase authorized debt to an amount in excess of its initial amount set by Section 2 only if it first publicly refers to the legislatures of the several states an unconditional, single subject measure proposing the amount of such increase, in such form as provided by law, and the measure is thereafter publicly and unconditionally approved by a simple majority of the legislatures of the several states, in such form as provided respectively by state law; provided that no inducement requiring an expenditure or tax levy shall be demanded, offered or accepted as a quid pro quo for such approval. If such approval is not obtained within sixty (60) calendar days after referral then the measure shall be deemed disapproved and the authorized debt shall thereby remain unchanged.

Section 4. Whenever the outstanding debt exceeds 98 percent of the debt limit set by Section 2, the President shall enforce said limit by publicly designating specific expenditures for impoundment in an amount sufficient to ensure outstanding debt shall not exceed the authorized debt. Said impoundment shall become effective thirty (30) days thereafter, unless Congress first designates an alternate impoundment of the same or greater amount by concurrent resolution, which shall become immediately

effective. The failure of the President to designate or enforce the required impoundment is an impeachable misdemeanor. Any purported issuance or incurrence of any debt in excess of the debt limit set by Section 2 is void.

Section 5. No bill that provides for a new or increased general revenue tax shall become law unless approved by a two-thirds roll call vote of the whole number of each House of Congress. However, this requirement shall not apply to any bill that provides for a new end user sales tax which would completely replace every existing income tax levied by the government of the United States; or for the reduction or elimination of an exemption, deduction, or credit allowed under an existing general revenue tax.

Section 6. For purposes of this article, "debt" means any obligation backed by the full faith and credit of the government of the United States; "outstanding debt" means all debt held in any account and by any entity at a given point in time; "authorized debt" means the maximum total amount of debt that may be lawfully issued and outstanding at any single point in time under this article; "total outlays of the government of the United States" means all expenditures of the government of the United States from any source; "total receipts of the government of the United States" means all tax receipts and other income of the government of the United States, excluding proceeds from its issuance or incurrence of debt or any type of liability; "impoundment" means a proposal not to spend all or part of a sum of money appropriated by Congress; and "general revenue tax" means any income tax, sales tax, or value-added tax levied by the government of the United States excluding imposts and duties.

Section 7. This article is immediately operative upon ratification, self-enforcing, and Congress may enact conforming legislation to facilitate enforcement."

ARTICLE III - COMPACT MEMBERSHIP AND WITHDRAWAL

1. This compact governs each member state to the fullest extent permitted by their respective constitutions, superseding and repealing any conflicting or contrary law.
2. By becoming a member state, each such state offers, promises, and agrees to perform and comply strictly in accordance with the terms and conditions of this compact, and has made such offer, promise, and agreement in anticipation and consideration of, and in substantial reliance upon, such mutual and reciprocal performance and compliance by each other current and future member state, if any. Accordingly, in addition to having the force of law in each member state upon its respective effective date, this compact and each of its articles shall also be construed as contractually binding each member state when:
 - a. At least one other state has likewise become a member state by enacting substantively identical legislation adopting and agreeing to be bound by this compact; and
 - b. Notice of such state's member state status is or has been seasonably received by the compact administrator, if any, or otherwise by the chief executive officer of each other member state.

3. For purposes of determining member state status under this compact, as long as all other provisions of the compact remain identical and operative on the same terms, legislation enacting, adopting, and agreeing to be bound by this compact shall be deemed and regarded as "substantively identical" with respect to such other legislation enacted by another state notwithstanding:
 - a. Any difference in subsection 2 of article IV with specific regard to the respectively enacting state's own method of appointing its member to the commission;
 - b. Any difference in subsection 5 of article IV with specific regard to the respectively enacting state's own obligation to fund the commission;
 - c. Any difference in subsections 1 and 2 of article VI with specific regard to the number and identity of each delegate respectively appointed on behalf of the enacting state, provided that no more than three delegates may attend and participate in the Convention on behalf of any state; or
 - d. Any difference in subsection 7 of article X with specific regard to the respectively enacting state as to whether subsection 1 of article V of this compact shall survive termination of the compact, and thereafter become a continuing resolution of the legislature of such state applying to Congress for the calling of a convention of the states under Article V of the Constitution of the United States, under such terms and limitations as may be specified by such state.
4. When fewer than three-fourths of the states are member states, any member state may withdraw from this compact by enacting appropriate legislation, as determined by state law, and giving notice of such withdrawal to the compact administrator, if any, or otherwise to the chief executive officer of each other member state. A withdrawal shall not affect the validity or applicability of the compact with respect to remaining member states, provided that there remain at least two such states. However, once at least three-fourths of the states are member states, then no member state may withdraw from the compact prior to its termination absent unanimous consent of all member states.

ARTICLE IV - COMPACT COMMISSION AND COMPACT ADMINISTRATOR

1. Nature of the compact commission. The compact commission ("commission") is hereby established. It has the power and duty:
 - a. To appoint and oversee a compact administrator;

The commission shall only have such implied powers as are essential to carrying out these express powers and duties. It shall take no action that contravenes or is inconsistent with this compact or any law of any state that is not superseded by this compact. It may adopt and publish corresponding bylaws and policies.
2. Commission membership. The commission initially consists of three unpaid members. Each member state may appoint one member to the commission through an appointment process to be determined by their respective chief executive officer until all positions on the commission are filled. Positions shall be assigned to appointees in the order in which their respective appointing states became member states. The bylaws of the commission may expand its membership to include representatives of additional member states and to allow for modest salaries and reimbursement of expenses if adequate funding exists.
3. Commission action. Each commission member is entitled to one vote. The commission shall not act unless a majority of its appointed membership is present, and no action shall be binding unless approved by a majority of the commission's appointed membership. The commission shall meet at least once a year, and may meet more frequently.
4. First order of business. The commission shall at the earliest possible time elect from among its membership a chairperson, determine a primary place of doing business, and appoint a compact administrator.
5. Funding. The commission and the compact administrator's activities shall be funded exclusively by each member state, as determined by their respective state law, or by voluntary donations.

The compact administrator shall only have such implied powers as are essential to carrying out these express powers and duties; and shall take no action that contravenes or is inconsistent with this compact or any law of any state that is not superseded by this compact. The compact administrator serves at the pleasure of the commission and must keep the commission seasonably apprised of the performance or nonperformance of the terms and conditions of this compact. Any notice sent by a member state to the compact administrator concerning this compact shall be adequate notice

- to each other member state provided that a copy of said notice is seasonably delivered by the compact administrator to each other member state's respective chief executive officer.
7. Notice of key events. Upon the occurrence of each of the following described events, or otherwise as soon as possible, the compact administrator shall immediately send the following notices to all compact notice recipients, together with certified conforming copies of the chaptered version of this compact as maintained in the statutes of each member state:
- a. Whenever any state becomes a member state, notice of that fact shall be given;
 - b. Once at least three-fourths of the states are member states, notice of that fact shall be given together with a statement declaring that the legislatures of at least two-thirds of the several states have applied for a convention for proposing amendments under Article V of the Constitution of the United States, petitioning Congress to call the Convention contemplated by this compact, and further requesting cooperation in organizing the same in accordance with this compact;
 - c. Once Congress has called the Convention contemplated by this compact, and whenever the date, time, and location of the Convention has been determined, notice of that fact shall be given together with the date, time, and location of the Convention and other essential logistical matters;
 - d. Upon approval of the Balanced Budget Amendment by the Convention, notice of that fact shall be given together with the transmission of certified copies of such approved proposed amendment and a statement requesting Congress to refer the same for ratification by three-fourths of the legislatures of the several states under Article V of the Constitution of the United States. 2. Date and location of the Convention. Unless otherwise specified by Congress in its call, the Convention shall be held in Dallas, Texas, and commence proceedings at 9:00 a.m. central standard time on the sixth Wednesday after the latter of the effective date of article V of this compact or the enactment date of the Congressional resolution calling the Convention.
3. Any such waiver shall be limited to the particular action to which it is applied and not construed or relied upon as a general waiver of this provision. The waiver decisions of the commission under this provision shall be final and binding on each member state.
5. The effective date of this compact and any of its articles is the latter of:
 - a. The date of any event rendering the same effective according to its respective terms and conditions; or

6. Article VIII of this compact is hereby deemed nonseverable prior to termination of the compact. However, if any other phrase, clause, sentence, or provision of this compact, or the applicability of any other phrase, clause, sentence, or provision of this compact to any government, agency, person, or circumstance, is declared in a final judgment to be contrary to the Constitution of the United States, contrary to the state constitution of any member state, or is otherwise held invalid by a court of competent jurisdiction, such phrase,

clause, sentence, or provision shall be severed and held for naught, and the validity of the remainder of this compact and the applicability of the remainder of this compact to any government, agency, person, or circumstance shall not be affected. Furthermore, if this compact is declared in a final judgment by a court of competent jurisdiction to be entirely contrary to the state constitution of any member state or otherwise entirely invalid as to any member state, such member state shall be deemed to have withdrawn from the compact, and the compact shall remain in full force and effect as to any remaining member state. Finally, if this compact is declared in a final judgment by a court of competent jurisdiction to be wholly or substantially in violation of Article I, Section 10, of the Constitution of the United States, then it shall be construed and enforced solely as reciprocal legislation enacted by the affected member states.

7. Termination. This compact shall terminate and be held for naught when the compact is fully performed and the Constitution of the United States is amended by the Balanced Budget Amendment. However, notwithstanding anything to the contrary set forth in this compact, in the event such amendment does not occur within seven years after the first state passes legislation enacting, adopting, and agreeing to be bound to this compact, the compact shall terminate as follows:
 - a. The commission shall dissolve and wind up its operations within ninety days thereafter, with the compact administrator giving notice of such dissolution and the operative effect of this section to the compact notice recipients; and
 - b. Upon the completed dissolution of the commission, this compact shall be deemed terminated, repealed, void ab initio, and held for naught.

2. If two disabled veterans are married to each other and living together, their combined credits may not exceed one hundred percent of six thousand seven hundred fifty dollars of taxable valuation of the fixtures, buildings, and improvements of the homestead. 5. This section does not reduce the liability of a person for special assessments levied upon property.
6. A credit under this section terminates at the end of the taxable year of the death of the applicant.
7. The board of county commissioners may cancel the portion of unpaid taxes that represents the credit calculated in accordance with this section for any year in which the qualifying owner has held title to the homestead property. - ~~9-10.~~ The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute the payment without delay to the county and to the local taxing districts of the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.

If a taxpayer has income from business activity as a public utility but derives the greater percentage of the taxpayer's income from activities subject to this article, the taxpayer may elect to allocate and apportion the taxpayer's entire net income as provided in this article.
3. For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if (a) in that state the taxpayer is subject to

a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or (b) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. ~~Rents and royalties from real or tangible personal property, capital gains, interest, dividends, or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in subsections 5 through 8 of this article.~~
5. (a) ~~Net rents and royalties from real property located in this state are allocable to this state.~~
 - (b) ~~Net rents and royalties from tangible personal property are allocable to this state: (1) if and to the extent that the property is utilized in this state, or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.~~
 - (c) ~~The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.~~
6. (a) ~~Capital gains and losses from sales of real property located in this state are allocable to this state.~~

7. ~~Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.~~
8. (a) ~~Patent and copyright royalties are allocable to this state: (1) if and to the extent that the patent or copyright is utilized by the payer in this state, or (2) if and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.~~
 - (b) ~~A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the~~

- accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.
- (c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.
9. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.
10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.
11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.
12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.
13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.
14. Compensation is paid in this state if:
- (a) The individual's service is performed entirely within the state;
 - (b) The individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or
 - (c) Some of the service is performed in the state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.
15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.
16. Sales of tangible personal property are in this state if:

- (a) ~~The property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or~~

18. ~~If the allocation and apportionment provisions of this article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:~~
- (a) ~~Separate accounting;~~
 - (b) ~~The exclusion of any one or more of the factors;~~
 - (c) ~~The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or~~
 - (d) ~~The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.~~

ARTICLE V - ELEMENTS OF SALES AND USE TAX LAWS

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by the purchaser with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

Exemption Certificates, Vendors May Rely

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

ARTICLE VIIV - THE COMMISSION

Organization and Management

1. (a) The multistate tax commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or the attorney general's designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. - (d) The commission shall adopt an official seal to be used as it may provide.
- (e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular, and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.
- (f) The commission shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix the executive director's duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.
- (g) Irrespective of the civil service, personnel, or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.
- (h) The commission may borrow, accept, or contract for the services of personnel from any state, the United States, or any other governmental entity.

Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount, and conditions, if any, of the donation, gift, grant, or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

Committees

- 2. (a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice chairman, treasurer, and four other members elected annually by the commission. The executive committee subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.
- (b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.
- (c) The commission may establish such additional committees as its bylaws may provide.

Powers

- 3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:
 - (a) Study state and local tax systems and particular types of state and local taxes.
 - (b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.
 - (c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.

- (d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

Finance

- 4. (a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.
- (b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, and sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this subsection.
- (c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under subdivision i of subsection 1 of this article; provided, that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under subdivision i of subsection 1, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.
- (d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.
- (e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.
- (f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII - UNIFORM REGULATIONS AND FORMS

- 1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, the commission may adopt uniform regulations for any phase of the administration of such law,

including assertion of jurisdiction to tax, or prescribing uniform tax forms. ~~The commission may also act with respect to the provisions of article IV of this compact.~~

2. Prior to the adoption of any regulation, the commission shall:
 - (a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.
 - (b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.
3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

ARTICLE VIII - INTERSTATE AUDITS

1. This article shall be in force only in those party states that specifically provide therefor by statute.
2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records, or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.
3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property, or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, the person may be required to attend for such purpose at any time and place fixed by the commission within the state of which the person is a resident; provided, that such state has adopted this article.
4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in

which the object of the order being sought is situated. The provisions of this subsection apply only to courts in a state that has adopted this article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.
6. Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions, or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.
7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.
8. In no event shall the commission make any charge against a taxpayer for an audit.
9. As used in this article, "tax", in addition to the meaning ascribed to it in article II, means any tax or license fee imposed in whole or in part for revenue purposes.

ARTICLE IX – ARBITRATION

1. ~~Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of article VII.~~
2. ~~The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.~~
3. ~~Whenever a taxpayer who has elected to employ article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if the taxpayer is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject the taxpayer to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.~~

- ~~4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this subsection shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if that member is an officer or employee or is otherwise affiliated with any party to the arbitration proceeding. Residence within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this subsection.~~
- ~~5. The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence, or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.~~
- ~~6. The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.~~
- ~~7. The board shall have power to administer oaths, take testimony, subpoena, and require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena, and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoena, and the court may punish failure to obey the order as a contempt. The provisions of this subsection apply only in states that have adopted this article.~~
- ~~8. Unless the parties otherwise agree the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless that person is required on account of that person's service to forego the regular compensation attaching to that person's public employment, but any such board member shall be entitled to expenses.~~
- ~~9. The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.~~
- ~~10. The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board; the board's written statement of its reasons therefor; the record of the board's proceedings; and any other documents required by the arbitration rules of the commission to be filed.~~

- ~~11. The commission shall publish the determinations of boards together with the statements of the reasons therefor.~~
- ~~12. The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.~~
- ~~13. Nothing contained herein shall prevent at any time a written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceeding.~~

ARTICLE ~~XVII~~ - ENTRY INTO FORCE AND WITHDRAWAL

1. This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.
2. Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.
- ~~3. No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.~~

ARTICLE ~~XVIII~~ - EFFECT ON OTHER LAWS AND JURISDICTION

Nothing in this compact shall be construed to:

1. Affect the power of any state or subdivision thereof to fix rates of taxation, ~~except that a party state shall be obligated to implement subsection 2 of article III of this compact.~~
2. Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax; provided, that the definition of "tax" in subsection 9 of article ~~VI~~ may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to subsection 3 of article ~~VI~~ may apply.
3. Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation, ~~limited liability company~~, or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.
4. Supersede or limit the jurisdiction of any court of the United States.

ARTICLE ~~XIX~~ - CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government,

agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

SECTION 4. AMENDMENT. Section 57-60-02 of the North Dakota Century Code is amended and reenacted as follows:

57-60-02. Imposition of taxes.

There is hereby imposed upon the operator of each coal conversion facility a tax paid monthly for the privilege of producing products of such coal conversion facility. The rate of the tax must be computed as follows:

1. For all coal conversion facilities, except as otherwise provided in this section, the tax is measured by the gross receipts derived from such facility for the preceding month and is in the amount of four and one-tenth percent of such gross receipts. For purposes of this subsection, "gross receipts" of a coal gasification plant do not include any amount that is received by the operator of the plant for production of synthetic natural gas in excess of one hundred ten million cubic feet per day. Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.
2. For electrical generating plants, the tax is at a rate of sixty-five one-hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. The board of county commissioners may, by resolution, grant to the operator of an electrical generating plant

located within the county partial or complete exemption from the remaining fifteen percent of the tax imposed by this subsection for a period not exceeding five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. If a board of county commissioners grants a partial or complete exemption for a specific coal conversion facility under this subsection, the provisions of subsection 2 of section 57-60-14 do not apply as that subsection relates to revenue from the specific unit of the coal conversion facility for which the partial or complete exemption has been granted. Notwithstanding section 57-60-14, any tax collected from a unit subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15. If a unit is incapable of generating electricity for eighteen consecutive months, the tax on that unit for taxable periods beginning after the eighteenth month must be reduced by the ratio that the cost of repair of the unit bears to the original cost of the unit. This reduced rate remains in effect until the unit is capable of generating electricity.

3. For electrical generating plants, in addition to the tax imposed by subsection 2, there is a tax at the rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale. For all electrical generating plants that begin construction or complete repowering, the production from the plants is exempt from the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the plant.
4. For coal gasification plants, the tax is the greater of either the amount provided in subsection 1 or thirteen and one-half cents on each one thousand cubic feet [28316.85 liters] of synthetic natural gas produced for the purpose of sale but not including any amount of synthetic natural gas in excess of one hundred ten million cubic feet per day.
5.
 - a. For all coal conversion facilities, other than electrical generating plants, the production from the facilities is exempt from eighty-five percent of the tax imposed by this section for a period of five years from the date of first taxable production from the facility. The operator of each facility applying for exemption under this subsection shall certify to the tax commissioner the date of first taxable production of the facility.
 - b. The board of county commissioners may, by resolution, grant to the operator of a coal conversion facility, other than an electrical generating plant, located within the county a partial or complete exemption from the remaining fifteen percent of tax imposed by this section for a period not exceeding five years from the date of the first taxable production from the facility. Notwithstanding the provisions of section 57-60-14, any tax collected which is based upon the production of a facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.
6. For coal beneficiation plants, the tax is twenty cents on each ton of two thousand pounds [907.18 kilograms] of beneficiated coal produced for the purpose of sale, or one and one-quarter percent of the gross receipts derived from such facility for the preceding month, whichever amount is greater. Any amount of beneficiated coal produced in excess of eighty percent of the design capacity of the coal beneficiation plant or produced for use within a coal conversion facility is exempt from such tax.

SECTION 5. AMENDMENT. Section 57-61-01.4 of the North Dakota Century Code is amended and reenacted as follows:

57-61-01.4. ~~(Effective through June 30, 2015)~~ Severance and sales and use tax exemptions for coal used in certain plants.

No state severance tax may be imposed on coal used in, or coal used to produce steam that is used in, agricultural commodity processing facilities as defined in subsection 4 of section 57-39.2-04.4 located within North Dakota or adjacent states or any facility owned by the state or a political subdivision of the state. No state severance tax may be imposed on coal purchased for improvement through the process of coal beneficiation defined in ~~subsection 2 of section 57-60-01~~ which is subsequently used in, or used to produce steam that is used in, agricultural commodity processing facilities located within North Dakota or adjacent states or any facility owned by the state or a political subdivision of the state. The coal mine owner or operator shall require the person purchasing the coal to certify that amount of coal purchased for use in agricultural commodity processing facilities or for beneficiation and subsequent use in agricultural commodity processing facilities or any facility owned by the state or a political subdivision of the state or to produce steam that is used in any of those facilities.

~~**(Effective after June 30, 2015) Severance and sales and use tax exemptions for coal used in certain plants.** No state severance tax may be imposed on coal used in agricultural processing or sugar beet refining plants located within North Dakota or adjacent states. The coal mine owner or operator shall require the person purchasing the coal to certify that amount of coal purchased for agricultural processing or sugar beet refining purposes. Coal exempted from the severance tax by this section is not subject to sales and use taxes.~~

CHAPTER 457

SENATE BILL NO. 2035

(Legislative Management)
(Energy Development and Transmission Committee)

AN ACT to create and enact a new section to chapter 57-39.2 of the North Dakota Century Code, relating to a sales tax exemption for tangible personal property used to construct a fertilizer or chemical processing facility; to amend and reenact section 40-57.1-03 and subsection 4 of section 57-40.2-03.3 of the North Dakota Century Code, relating to requirements of a city or county granting a property tax exemption and a use tax exemption for tangible personal property used to construct a fertilizer or chemical processing facility; to provide for studies by the legislative management and industrial commission; and to provide for a retroactive effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 40-57.1-03 of the North Dakota Century Code is amended and reenacted as follows:

~~40-57.1-03. (Effective for the first taxable year beginning after December 31, 2013) Municipality's authority to grant or revoke tax exemption or payments in lieu of taxes – Notice to competitors – Limitations.~~

- ~~1. After negotiation with a potential project operator, a municipality may grant a partial or complete exemption from ad valorem taxation on all buildings, structures, fixtures, and improvements used in or necessary to the operation of a project for a period not exceeding five years from the date of commencement of project operations. A municipality may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations.~~
- ~~2. In addition to, or in lieu of, a property tax exemption granted under this section, a municipality may establish an amount due as payments in lieu of ad valorem taxes on buildings, structures, fixtures, and improvements used in the operation of a project. The governing body of the municipality shall designate the amount of the payments for each year and the beginning year and the concluding year for payments in lieu of taxes, but the option to make payments in lieu of taxes under this section may not extend beyond the twentieth year from the date of commencement of project operations. To establish the amount of payments in lieu of taxes, the governing body of the municipality may use actual or estimated levels of assessment and taxation or may establish payment amounts based on other factors. The governing body of the municipality may designate different amounts of payments in lieu of taxes in different years to recognize future project expansion plans or other considerations.~~

3. ~~By November first of each year, the municipality that granted the option to make payments in lieu of taxes shall certify to the county auditor the amount of payments in lieu of taxes due under this section in the following year. After receiving the statement from the municipality, the county auditor shall certify the payments in lieu of taxes to the county treasurer for collection at the time when, and in the manner in which, ad valorem taxes must be certified. Upon receipt by the county treasurer of the amount of payments in lieu of taxes under this section, the county treasurer shall apportion and distribute that amount to taxing districts on the basis on which the general real estate tax levy is apportioned and distributed. The municipality may enter into a written agreement with the local school district and any other local taxing districts that wish to enter the agreement for an alternate method of apportionment and distribution. If such an agreement is entered into, the county treasurer shall apportion and distribute the money according to the written agreement. All provisions of law relating to enforcement, administration, collection, penalties, and delinquency proceedings for ad valorem taxes apply to payments in lieu of taxes under this section. However, the discount for early payment of taxes under section 57-20-09 does not apply to payments in lieu of taxes under this section. The buildings, structures, fixtures, and improvements comprising a project for which payments in lieu of taxes are allowed under this section must be excluded from the valuation of property in the taxing district for purposes of determining the mill rate for the taxing district.~~
4. ~~Negotiations with potential project operators for tax exemption or payments in lieu of taxes must be carried on by the city council or commission if the project is proposed to be located within the boundaries of a city, and by the board of county commissioners if the project is proposed to be located outside the corporate limits of any city. A partial exemption must be stated as a percentage of the total ad valorem taxes assessed against the property. Unless the governing body of the municipality determines that there is no existing business within the municipality for which the potential project would be a competitor, the potential project operator shall publish two notices to competitors, the form of which must be prescribed by the tax commissioner, of the application for tax exemption or payments in lieu of taxes in the official newspaper of the municipality at least one week apart. The publications must be completed not less than fifteen nor more than thirty days before the governing body of the municipality is to consider the application. The municipality shall determine whether the granting of the exemption or payments in lieu of taxes, or both, is in the best interest of the municipality, and if it so determines, shall give its approval.~~
5. ~~By motion approved by the governing body of the municipality before the beginning of a taxable year for which a property tax exemption or the option to make payments in lieu of taxes under this section previously has been approved by the governing body, a property tax exemption may be revoked or reduced and payments in lieu of taxes may be revoked or increased for that taxable year for reasons specified in a negotiated agreement or if the governing body finds that:~~
 - a. ~~Information provided by the project operator during the negotiation and deliberation of a property tax exemption or the option to make payments in lieu of taxes has proven to be inaccurate or untrue;~~

- b. ~~Use of the property by the project operator does not comply with the reasonable expectations of the governing body at the time the property tax exemption or the option to make payments in lieu of taxes was approved;~~
 - c. ~~The property has been improved to a substantially greater extent than the governing body reasonably anticipated at the time the property tax exemption or the option to make payments in lieu of taxes was approved;~~
~~or~~
 - d. ~~There has been a change of ownership of the property since the property tax exemption or the option to make payments in lieu of taxes was approved.~~
6. ~~During the negotiation and deliberation of a property tax exemption or the option to make payments in lieu of taxes under this chapter, a municipality shall include, as nonvoting ex officio members of its governing body, a representative appointed by the school board of each school district affected by the proposed action and a representative appointed by the board of township supervisors of each township affected by the proposed action.~~

~~(Effective for taxable years beginning after December 31, 2014)~~
Municipality's authority to grant or revoke tax exemption or payments in lieu of taxes - Notice to competitors - Limitations.

1. After negotiation with a potential project operator, a municipality may grant a partial or complete exemption from ad valorem taxation on all buildings, structures, fixtures, and improvements used in or necessary to the operation of a project for a period not exceeding five years from the date of commencement of project operations. A municipality may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations. Before a municipality may grant a partial or complete exemption from ad valorem taxation under this section:
 - a. The governing body of the municipality must have received the certification of the department of commerce division of economic development and finance that the project is a primary sector business, as defined in subsection 3 of section 40-57.1-02; or
 - b. The city council or commission, if the project is proposed to be located within the boundaries of a city of fewer than forty thousand population, or the board of county commissioners, of a county of fewer than forty thousand population and if the project is proposed to be located in the county but outside the corporate limits of any city, may grant a partial or complete exemption from ad valorem taxation for a project operating in the retail sector if that governing body has obtained the approval of exemption of property under this subdivision from a majority of the qualified electors of the city or county voting on the question at a city or county election held in conjunction with a statewide general election and if that governing body has established by resolution or ordinance the criteria that will be applied by the governing body to determine whether it is appropriate to grant a partial or complete exemption from ad valorem taxation under this section for a project operating in the retail sector. The ballot for elector approval of

exemption of property under this subdivision must present the question at the election for a yes or no vote on the question:

Shall the governing body of [name of county or city] be empowered to grant property tax exemptions upon application of new or expanding retail sector businesses?

Only a governing body of a city or county that meets the requirements of this subdivision may grant a partial or complete exemption from ad valorem taxation under this section for a project operating in the retail sector. Criteria established by the governing body under this subdivision, at a minimum, must be intended to require:

- (1) Evaluation of the potential positive or adverse consequences for existing retail sector businesses in the municipality from granting the exemption;
 - (2) Evaluation of the short-term and long-term effects for other property taxpayers in the municipality from granting the exemption;
 - (3) A written agreement with the project operator, including performance requirements for which the exemption may be terminated by the governing body of the municipality if those requirements are not met; and
 - (4) Evaluation of whether the project operator would locate the project within the municipality without the exemption.
2. In addition to, or in lieu of, a property tax exemption granted under this section, a municipality may establish an amount due as payments in lieu of ad valorem taxes on buildings, structures, fixtures, and improvements used in the operation of a project. The governing body of the municipality shall designate the amount of the payments for each year and the beginning year and the concluding year for payments in lieu of taxes, but the option to make payments in lieu of taxes under this section may not extend beyond the twentieth year from the date of commencement of project operations. To establish the amount of payments in lieu of taxes, the governing body of the municipality may use actual or estimated levels of assessment and taxation or may establish payment amounts based on other factors. The governing body of the municipality may designate different amounts of payments in lieu of taxes in different years to recognize future project expansion plans or other considerations.
3. Before a governing body may grant a partial or complete exemption from ad valorem taxation or the option to make payments in lieu of ad valorem taxes under this chapter, the governing body shall consult with the department of commerce. If the department of commerce determines that the total project costs are estimated to exceed one billion dollars, the department of commerce shall conduct a public hearing and notice of that hearing must be provided to each affected taxing district and any existing business within the municipality for which the potential project would be a competitor.
4. By November first of each year, the municipality that granted the option to make payments in lieu of taxes shall certify to the county auditor the amount of payments in lieu of taxes due under this section in the following year. After

receiving the statement from the municipality, the county auditor shall certify the payments in lieu of taxes to the county treasurer for collection at the time when, and in the manner in which, ad valorem taxes must be certified. Upon receipt by the county treasurer of the amount of payments in lieu of taxes under this section, the county treasurer shall apportion and distribute that amount to taxing districts on the basis on which the general real estate tax levy is apportioned and distributed. The municipality may enter into a written agreement with the local school district and any other local taxing districts that wish to enter the agreement for an alternate method of apportionment and distribution. If such an agreement is entered into, the county treasurer shall apportion and distribute the money according to the written agreement. All provisions of law relating to enforcement, administration, collection, penalties, and delinquency proceedings for ad valorem taxes apply to payments in lieu of taxes under this section. However, the discount for early payment of taxes under section 57-20-09 does not apply to payments in lieu of taxes under this section. The buildings, structures, fixtures, and improvements comprising a project for which payments in lieu of taxes are allowed under this section must be excluded from the valuation of property in the taxing district for purposes of determining the mill rate for the taxing district.

- 4-5. Negotiations with potential project operators for tax exemption or payments in lieu of taxes must be carried on by the city council or commission if the project is proposed to be located within the boundaries of a city, and by the board of county commissioners if the project is proposed to be located outside the corporate limits of any city. A partial exemption must be stated as a percentage of the total ad valorem taxes assessed against the property. Unless the governing body of the municipality determines that there is no existing business within the municipality for which the potential project would be a competitor, the potential project operator shall publish two notices to competitors, the form of which must be prescribed by the tax commissioner, of the application for tax exemption or payments in lieu of taxes in the official newspaper of the municipality at least one week apart. The publications must be completed not less than fifteen nor more than thirty days before the governing body of the municipality is to consider the application. The municipality shall determine whether the granting of the exemption or payments in lieu of taxes, or both, is in the best interest of the municipality, and if it so determines, shall give its approval.
- 5-6. By motion approved by the governing body of the municipality before the beginning of a taxable year for which a property tax exemption or the option to make payments in lieu of taxes under this section previously has been approved by the governing body, a property tax exemption may be revoked or reduced and payments in lieu of taxes may be revoked or increased for that taxable year for reasons specified in a negotiated agreement or if the governing body finds that:
- a. Information provided by the project operator during the negotiation and deliberation of a property tax exemption or the option to make payments in lieu of taxes has proven to be inaccurate or untrue;
 - b. Use of the property by the project operator does not comply with the reasonable expectations of the governing body at the time the property tax exemption or the option to make payments in lieu of taxes was approved;

- c. The property has been improved to a substantially greater extent than the governing body reasonably anticipated at the time the property tax exemption or the option to make payments in lieu of taxes was approved; or
 - d. There has been a change of ownership of the property since the property tax exemption or the option to make payments in lieu of taxes was approved.
- 6-7. During the negotiation and deliberation of a property tax exemption or the option to make payments in lieu of taxes under this chapter, a municipality shall include, as nonvoting ex officio members of its governing body, a representative appointed by the school board of each school district affected by the proposed action and a representative appointed by the board of township supervisors of each township affected by the proposed action.
- 7-8. A city or county may not supersede or expand the provisions of this section under home rule authority.

SECTION 2. A new section to chapter 57-39.2 of the North Dakota Century Code is created and enacted as follows:

Sales and use tax exemption for materials used to construct a fertilizer or chemical processing facility.

1. Gross receipts from sales of tangible personal property used to construct a fertilizer or chemical processing facility in this state, and any component integral to the fertilizer or chemical processing plant, are exempt from taxes under this chapter. To be exempt, the tangible personal property must be incorporated in the structure of the facility or used in the construction process to the point of having no residual economic value. The exemption provided in this section applies to all phases of construction under the permit or application for permit required by subsection 2. An integral component to the fertilizer or chemical processing plant:
 - a. May be owned directly or indirectly by the fertilizer or chemical processing facility, or by an unrelated third party;
 - b. Must be located at the facility site; and
 - c. Must be necessary for the plant's processing of fertilizer or chemicals.
2. On or before June 30, 2019, the owner of the fertilizer or chemical processing plant must receive from the state department of health an air quality permit or a notice that the air quality permit application is complete. The owner shall provide this documentation to the tax commissioner to qualify for the exemption under this section. Denial, expiration, or revocation of a permit terminates the exemption under this section.
3. To receive the exemption under this section at the time of purchase, the owner of the processing facility must receive from the tax commissioner a certificate that the tangible personal property used to construct the processing facility which the owner intends to purchase qualifies for exemption. If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.

4. If the tangible personal property is purchased or installed by a contractor subject to the tax imposed by this chapter, the owner may apply for a refund of the difference between the amount remitted by the contractor and the exemption imposed or allowed by this section. Application for refund must be made at the times and in the manner directed by the tax commissioner and must include sufficient information to permit the tax commissioner to verify the sales and use taxes paid and the exempt status of the sale or use.
5. For purposes of this section, a fertilizer or chemical processing facility means a processing plant that produces for retail or wholesale a fertilizer, chemical, or chemical derivative from natural gas, natural gas liquids, or crude oil components.

228 **SECTION 3. AMENDMENT.** Subsection 4 of section 57-40.2-03.3 of the North Dakota Century Code is amended and reenacted as follows:

Tangible personal property used to construct or expand a system used to compress, process, gather, or refine gas recovered from an oil or gas well in this state or used to expand or build a gas-processing facility in this state as authorized or approved for exemption by the tax commissioner under section 57-39.2-04.5;
 - d. Tangible personal property used to construct or expand a qualifying oil refinery as authorized or approved for exemption by the tax commissioner under section 57-39.2-04.6;
 - e. Tangible personal property used to construct or expand a qualifying facility as authorized or approved for exemption by the tax commissioner under section 57-39.2-04.10;
 - f. Tangible personal property used to construct or expand a qualifying facility as authorized or approved for exemption by the tax commissioner under section 57-39.2-04.11; or

 - h. Tangible personal property used to construct a qualifying fertilizer or chemical processing facility as authorized or approved for exemption by the tax commissioner under section 2 of this Act.

228 Section 57-40.2-03.3 was also amended by section 2 of Senate Bill No. 2318, chapter 458.

SECTION 4. LEGISLATIVE MANAGEMENT STUDY - ECONOMIC DEVELOPMENT IMPACT. During the 2015-16 interim, the legislative management shall consider studying the impact of large economic development projects on political subdivisions. The study may include a review of the current process for seeking out input from political subdivisions potentially impacted by a large economic development project and any mechanisms in place to address the potential impact. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fifth legislative assembly.

SECTION 5. OIL AND GAS RESEARCH - NATURAL GAS PRODUCTION STUDY. The industrial commission may use the sum of one hundred thousand dollars or so much of the sum as necessary from the oil and gas research fund, or so much of the amount as may be necessary, pursuant to its continuing appropriation under section 57-51.1-07.3 for the purpose of contracting for an independent, nonmatching natural gas production study.

SENATE BILL NO. 2318

(Senator Cook)

AN ACT to create and enact a new section to chapter 57-39.2 and a new subdivision to subsection 4 of section 57-40.2-03.3 of the North Dakota Century Code, relating to a sales and use tax exemption for carbon dioxide capture equipment used for enhanced oil recovery; to amend and reenact section 57-60-06 of the North Dakota Century Code, relating to ad valorem property tax exemption for carbon dioxide capture equipment used for enhanced oil recovery; to provide for a legislative management study; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 57-39.2 of the North Dakota Century Code is created and enacted as follows:

Sales and use tax exemption for materials used in compressing, gathering, collecting, storing, transporting, or injecting carbon dioxide for use in enhanced recovery of oil or natural gas.

1. Gross receipts from sales of tangible personal property used to construct or expand a system used to compress, gather, collect, store, transport, or inject carbon dioxide for use in enhanced recovery of oil or natural gas in this state are exempt from taxes under this chapter. To be exempt, the tangible personal property must be incorporated into a system used to compress, gather, collect, store, transport, or inject carbon dioxide for use in enhanced recovery of oil or natural gas. Tangible personal property used to replace an existing system to compress, gather, collect, store, transport, or inject carbon dioxide for use in enhanced recovery of oil or natural gas does not qualify for exemption under this section unless the replacement creates an expansion of the system.
2. To receive the exemption under this section at the time of purchase, the owner of the gas compressing, gathering, collecting, storing, transporting, or injecting system must receive from the tax commissioner a certificate that the tangible personal property used to construct or expand a system used to compress, gather, collect, store, transport, or inject carbon dioxide for use in enhanced recovery of oil or natural gas qualifies for the exemption. If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.
3. If the tangible personal property is purchased or installed by a contractor subject to the tax imposed by this chapter, the owner of the gas compressing, gathering, collecting, storing, transporting, or injecting system may apply to the tax commissioner for a refund of the difference between the amount remitted by the contractor and the exemption imposed or allowed by this section. Application for a refund must be made at the time and in the manner directed by the tax commissioner and must include sufficient information to permit the tax commissioner to verify the sales and use taxes paid and the exempt status of the sale or use.

4. This chapter and chapter 57-40.2 apply to the exemption under this section.

²²⁹ **SECTION 2.** A new subdivision to subsection 4 of section 57-40.2-03.3 of the North Dakota Century Code is created and enacted as follows:

Materials used in compressing, gathering, collecting, storing, transporting, or injecting carbon dioxide for use in enhanced recovery of oil or natural gas as provided in section 1 of this Act.

SECTION 3. AMENDMENT. Section 57-60-06 of the North Dakota Century Code is amended and reenacted as follows:

57-60-06. Property classified and exempted from ad valorem taxes - In lieu of certain other taxes - Credit for certain other taxes.

Each coal conversion facility and any carbon dioxide capture system located at the coal conversion facility, and any equipment directly used for enhanced recovery of oil or natural gas must be classified as personal property and is exempt from all ad valorem taxes except for taxes on the land on which ~~such~~the facility, capture system, or equipment is located. The exemption provided by this section may not be interpreted to apply to tangible personal property incorporated as a component part of a carbon dioxide pipeline but this restriction does not affect eligibility of such a pipeline for the exemption under section 57-06-17.1. The taxes imposed by this chapter are in lieu of ad valorem taxes on the property so classified as personal property.

SECTION 4. LEGISLATIVE MANAGEMENT STUDY - OIL EXTRACTION TAX EXEMPTION FOR CARBON DIOXIDE RECOVERY PROJECTS. During the 2015-16 interim, the legislative management shall study the oil extraction tax exemption available for incremental production from a tertiary recovery project that uses carbon dioxide. The study must include consideration of the potential benefits and costs to industry, the state, and the environment of using carbon dioxide enhanced recovery methods. The legislative management shall secure assistance from the energy and environmental research center to analyze potential future usage of carbon dioxide in oil recovery operations in the Bakken and Three Forks formations, the potential production and environmental benefits of that usage for energy industries in this state, the economic conditions in which that usage is feasible for oil producers, and the estimated fiscal effect of that usage for the state and political subdivisions. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fifth legislative assembly.

SECTION 5. EFFECTIVE DATE. Sections 1 and 2 of this Act are effective for tax periods beginning after June 30, 2015. Section 3 of this Act is effective for taxable years beginning after December 31, 2014.

Approved April 16, 2015

- d. Allocate to each county that received more than five million dollars but less than thirty million dollars of total allocations under subsection 2 in state fiscal year 2014 a monthly amount that will provide a total allocation of one million five hundred thousand dollars per fiscal year to be added by the state treasurer to the allocations to school districts under subdivision b of subsection 5;
 - e-e. Credit revenues to the oil and gas impact grant fund, but not in an amount exceeding ~~two~~one hundred forty million dollars per biennium ~~for the 2015-17 biennium, and not in an amount exceeding one hundred million dollars per biennium thereafter;~~

 - f-h. Allocate the remaining revenues under subsection 3.
2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:

 - b. Of all annual revenue exceeding five million dollars, ~~twenty-five~~thirty percent is allocated to the county.
 3. After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the

amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.

4. For a county that received less than five million dollars of allocations under subsection 2 in the most recently completed state fiscal year 2014, revenues allocated to that county must be distributed at least quarterly by the state treasurer as follows:
 - a. Forty-five percent must be distributed to the county treasurer and credited to the county general fund. However, a hub city school district must be omitted from distributions under this subdivision.~~
 - c. Twenty percent must be ~~apportioned no less than quarterly by the state treasurer distributed~~ to the incorporated cities of the county. A hub city must be omitted from ~~apportionment distributions~~ under this subdivision. ~~Apportionment Distributions~~ among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.
5. For a county that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year 2014, revenues allocated to that county must be distributed at least quarterly by the state treasurer as follows:
 - a. Sixty percent must be distributed to the county treasurer and credited to the county general fund. However, the ~~allocation distribution~~ to a county under this subdivision must be credited to the state general fund if in a taxable year after 2012 the county is not levying a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
 - b. Five percent must be ~~apportioned by the state treasurer no less than quarterly distributed~~ to school districts within the county on the average daily attendance distribution basis for kindergarten through grade twelve students residing within the county, as certified to the state treasurer by the county superintendent of schools. However, a hub city school district must be omitted from ~~consideration and apportionment distributions~~ under this subdivision.

- c. ~~Twenty percent must be apportioned no less than quarterly by the state treasurer distributed to the incorporated cities of the county. A hub city must be omitted from apportionment distributions under this subdivision. Apportionment Distributions among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.~~
 - d. ~~Three percent must be apportioned no less than quarterly by the state treasurer allocated among the organized and unorganized townships of the county. The state treasurer shall apportion allocate the funds available under this subdivision among townships in the proportion that township to each township's road miles in the township bear relative to the total township road miles in the county. The amount apportioned allocated to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.~~
 - e. ~~Three percent must be allocated by the state treasurer among the organized and unorganized townships in all the counties that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year. The amount available under this subdivision must be allocated no less than quarterly by the state treasurer in an equal amount to each eligible organized and unorganized township. The amount allocated to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.~~
 - f. ~~Nine percent must be allocated by the state treasurer distributed among hub cities. The amount available for allocation under this subdivision must be apportioned by the state treasurer no less than quarterly among hub cities. Sixty percent of funds available under this subdivision must be distributed to the hub city receiving the greatest highest percentage of allocations to hub cities under subdivision a of subsection 1 for the quarterly period, thirty percent of funds available under this subdivision must be distributed to the hub city receiving the second greatest highest percentage of such allocations, and ten percent of funds available under this subdivision must be distributed to the hub city receiving the third greatest highest percentage of such allocations.~~
6. Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:
 - a. The county's statement of revenues and expenditures; and
 - b. ~~The amount allocated to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school~~

~~district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year. The county's ending fund balances;~~

- ~~c. The amounts allocated under this section to the county's general fund, the amounts expended from these allocations, and the purposes of the expenditures; and~~
- ~~d. The amounts allocated under this section to or for the benefit of townships within the county, the amounts expended from these allocations, and the purposes of the expenditures.~~

~~Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.~~

- ~~7. Within thirty days after the end of each fiscal year ended June thirtieth, each school district that has received an allocation under this section shall file a report for the fiscal year ended June thirtieth with the commissioner, in a format prescribed by the commissioner, including:~~

 - ~~b. The school district's ending fund balances; and~~
 - ~~c. The amounts allocated under this section to the school district, the amounts expended from these allocations, and the purposes of the expenditures.~~

~~Within fifteen days after the time when reports under this subsection are due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.~~

~~**(Effective for taxable events occurring after June 30, 2015) Gross production tax allocation.** The gross production tax must be allocated monthly as follows:~~

- ~~1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:~~
 - ~~a. Allocate five hundred thousand dollars per fiscal year to each city in an oil-producing county which has a population of seven thousand five hundred or more and more than two percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota. The allocation under this subdivision must be doubled if the city has more than seven and one-half percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota;~~
 - ~~b. Credit revenues to the oil and gas impact grant fund, but not in an amount exceeding one hundred million dollars per biennium;~~

- e. ~~Credit four percent of the amount available under this subsection to the North Dakota outdoor heritage fund, but not in an amount exceeding fifteen million dollars in a state fiscal year and not in an amount exceeding thirty million dollars per biennium;~~
 - d. ~~Credit four percent of the amount available under this subsection to the abandoned oil and gas well plugging and site reclamation fund, but not in an amount exceeding five million dollars in a state fiscal year and not in an amount that would bring the balance in the fund to more than seventy-five million dollars; and~~
 - e. ~~Allocate the remaining revenues under subsection 3.~~
2. ~~After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:~~
 - a. ~~The first two million dollars is allocated to the county.~~
 - b. ~~Of the next one million dollars, seventy-five percent is allocated to the county.~~
 - c. ~~Of the next one million dollars, fifty percent is allocated to the county.~~
 - d. ~~Of the next fourteen million dollars, twenty-five percent is allocated to the county.~~
 - e. ~~Of all annual revenue exceeding eighteen million dollars, ten percent is allocated to the county.~~
3. ~~After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.~~
 4. ~~The amount to which each county is entitled under subsection 2 must be allocated within the county so the first five million three hundred fifty thousand dollars is allocated under subsection 5 for each fiscal year and any amount received by a county exceeding five million three hundred fifty thousand dollars is credited by the county treasurer to the county infrastructure fund and allocated under subsection 6.~~
 5. a. ~~Forty-five percent of all revenues allocated to any county for allocation under this subsection must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.~~

- b. ~~Thirty five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis, as certified to the county treasurer by the county superintendent of schools. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty five percent share must be deposited instead in the county general fund. The county superintendent of schools of each oil-producing county shall certify to the county treasurer by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the county superintendent of schools required by this subsection.~~

~~The countywide allocation to school districts under this subdivision is subject to the following:~~

- ~~(1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.~~
- ~~(2) The next three hundred fifty thousand dollars is apportioned seventy five percent among school districts in the county and twenty five percent to the county infrastructure fund.~~
- ~~(3) The next two hundred sixty two thousand five hundred dollars is apportioned two thirds among school districts in the county and one third to the county infrastructure fund.~~
- ~~(4) The next one hundred seventy five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.~~
- ~~(5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:~~
 - ~~(a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.~~
 - ~~(b) Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.~~

- (c) Seven hundred thirty five thousand dollars, for counties having a population of six thousand or more.
- e. Twenty percent of all revenues allocated to any county for allocation under this subsection must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.
6. a. Forty five percent of all revenues allocated to a county infrastructure fund under subsections 4 and 5 must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
- b. Thirty five percent of all revenues allocated to the county infrastructure fund under subsections 4 and 5 must be allocated by the board of county commissioners to or for the benefit of townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the county treasurer to the county road and bridge fund for use on county road and bridge projects.
- c. Twenty percent of all revenues allocated to any county infrastructure fund under subsections 4 and 5 must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.

7. ~~Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:~~
 - a. ~~The county's statement of revenues and expenditures; and~~
 - b. ~~The amount available in the county infrastructure fund for allocation to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.~~

~~Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.~~

SECTION 4. APPROPRIATION - DEPARTMENT OF TRANSPORTATION - NON-OIL-PRODUCING COUNTIES - EXEMPTION - REPORT TO BUDGET SECTION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$112,000,000, or so much of the sum as may be necessary, to the department of transportation for the purpose of distributions to non-oil-producing counties, for the biennium beginning July 1, 2015, and ending June 30, 2017. One-half of the distributions must be based on county major collector roadway miles as defined by the department of transportation. The distribution to each non-oil-producing county based on county major collector roadway miles must be proportional to each non-oil-producing county's total county major collector roadway miles relative to the combined total of county major collector roadway miles of all the eligible non-oil-producing counties under this section. One-half of the distributions must be based on the most recent data compiled by the upper great plains transportation institute regarding North Dakota's county, township, and tribal road and bridge infrastructure needs. The distribution to each non-oil-producing county based on total estimated road and bridge investment needs must be proportional to each non-oil-producing county's total estimated road and bridge investment needs for the years 2015 to 2034 identified by the upper great plains transportation institute relative to the combined total estimated road and bridge investment needs for the years 2015 to 2034 identified by the upper great plains transportation institute of all the eligible non-oil-producing counties under this subsection. For purposes of this section, "non-oil-producing counties" means the forty-three counties that received no allocation of funding or a total allocation under subsection 2 of section 57-51-15 of less than \$5,000,000 for the period beginning September 1, 2013, and ending August 31, 2014. The amounts available under this section must be distributed on or after February 1, 2016.

1. a. Each county requesting funding under this section for county road and bridge projects shall submit the request in accordance with criteria developed by the department of transportation. The request must include a proposed plan for funding projects that rehabilitate or reconstruct paved and unpaved roads and bridges within the county which are needed to support economic activity in the state or which improve traffic safety. The plan must meet the following criteria:

- (1) Roadways and bridges must provide at least one of the following:
 - (a) Continuity and connectivity to efficiently integrate and improve major paved and unpaved corridors within the county and across county borders;
 - (b) Connectivity to significant traffic generators; or
 - (c) Direct improvement in traffic safety.
 - (2) Projects must be consistent with the upper great plains transportation institute's estimated road and bridge investment needs for the years 2015 to 2034 and other planning studies.
 - (3) Upon completion of a major roadway construction or reconstruction project, the roadway segment must be posted at a legal load limit of 105,500 pounds [47853.995 kilograms].
 - (4) Design speed on the roadway must be at least 55 miles per hour [88.51 kilometers per hour], unless the department of transportation provides an exemption.
 - (5) Projects must comply with the American association of state highway transportation officials pavement design procedures and standards developed by the department of transportation in conjunction with the local jurisdiction.
 - (6) Bridges must be designed to meet an HL 93 loading.
- b. The department of transportation, in consultation with the county, may approve the plan or approve the plan with amendments. Upon approval of the plan, the department of transportation shall transfer to the county the approved funding for engineering and plan development costs. Upon execution of a construction contract by the county, the department of transportation shall transfer to the county the approved funding for county and township rehabilitation and reconstruction projects. Counties shall report to the department of transportation upon awarding of each contract and upon completion of each project in a manner prescribed by the department.
 - c. Funding provided under this section may be used for construction, engineering, and plan development costs, but may not be used for routine maintenance. Funding provided under this section may be applied to engineering and design costs incurred on related projects as of July 1, 2015, and may be applied to construction costs incurred on related projects as of January 1, 2016. Section 54-44.1-11 does not apply to funding under this section. Any funds not spent by June 30, 2017, must be continued into the biennium beginning July 1, 2017, and ending June 30, 2019, and may be expended only for the purposes authorized by this section. The funding provided in this section is considered a one-time funding item.
2. The department of transportation shall report to the budget section and to the appropriations committees of the sixty-fifth legislative assembly on the use of this one-time funding, including the amounts distributed to each county, the

amounts spent to date, and the amounts anticipated to be continued into the 2017-19 biennium.

SECTION 5. APPROPRIATION - OIL AND GAS IMPACT GRANT FUND - GRANT RECOMMENDATIONS - EXEMPTION - REPORT TO BUDGET SECTION.

There is appropriated out of any moneys in the oil and gas impact grant fund in the state treasury, not otherwise appropriated, the sum of \$139,300,000, or so much of the sum as may be necessary, to the board of university and school lands for the purpose of oil and gas impact grants, for the biennium beginning July 1, 2015, and ending June 30, 2017. Grants awarded under this section are not subject to section 54-44.1-11. The commissioner of the board of university and school lands shall report to the budget section and to the appropriations committees of the sixty-fifth legislative assembly on the use of the funding provided in this section, including the amounts awarded, the amounts spent to date, and the amounts anticipated to be continued into the 2017-2019 biennium. During the biennium beginning July 1, 2015, and ending June 30, 2017, the energy infrastructure and impact office director shall include in recommendations to the board of university and school lands on grants to eligible entities in oil and gas development impact areas:

1. \$48,000,000, or so much of the sum as may be necessary, for grants to airports impacted by oil and gas development. The director of the energy infrastructure and impact office, in consultation with the aeronautics commission, shall adopt grant procedures and requirements necessary for the distribution of grants under this subsection, which must include cost-share requirements. Cost-share requirements must consider the availability of local funds to support the project. Grant funds must be distributed giving priority to projects that have been awarded or are eligible to receive federal funding.
2. \$30,000,000, or so much of the sum as may be necessary, for grants to school districts impacted by oil and gas development. Grant funds may be used only for purposes relating to renovation and improvement projects and must be distributed based on oil and gas gross production tax distribution payments to school districts. The distribution to each school district must be proportional to each school district's total distribution payments under subdivision c of subsection 1, subdivision b of subsection 4, or subdivision b of subsection 5 of section 57-51-15, for the period beginning September 1, 2013, and ending August 31, 2014, relative to the combined total of all distribution payments to school districts under subdivision c of subsection 1, subdivision b of subsection 4, and subdivision b of subsection 5 of section 57-51-15, for the period beginning September 1, 2013, and ending August 31, 2014.
3. \$10,000,000, or so much of the sum as may be necessary, for grants to law enforcement agencies impacted by oil and gas development. The director of the energy infrastructure and impact office, in consultation with the drug and violent crime policy board of the attorney general's office, shall adopt grant procedures and requirements necessary for the distribution of grants under this subsection. The grants must be distributed to law enforcement agencies in oil-impacted counties where crime-related activities have increased or in other counties if the crime-related activities in oil-impacted counties originated in any of those counties.
4. Notwithstanding chapter 57-62, \$10,000,000, or so much of the sum as may be necessary, for grants to critical access hospitals in oil-producing counties and in counties contiguous to an oil-producing county to address the effects of oil and gas-related economic development activities. The director of the

energy infrastructure and impact office, in consultation with the department of human services, shall adopt grant procedures and requirements necessary for the distribution of grants under this subsection. One-half of the grant funding must be distributed in January of each year of the biennium.

5. Notwithstanding chapter 57-62, \$8,000,000, or so much of the sum as may be necessary, for grants to certain eligible counties. The grants must be distributed in equal amounts to each eligible county. For purposes of this subsection, "eligible counties" means the two counties that received the fifth and sixth highest amount of total allocations under subsection 2 of section 57-51-15, for the period beginning September 1, 2013, and ending August 31, 2014.
6. Notwithstanding chapter 57-62, \$6,000,000, or so much of the sum as may be necessary, for grants to emergency medical services providers for expenditures that would mitigate negative effects of oil and gas-related development affecting emergency medical services providers providing services in oil-producing counties, including the need for increased emergency medical services providers services, staff, equipment, coverage, and personnel training. The director of the energy infrastructure and impact office may develop grant procedures and requirements necessary for the distribution of grants under this subsection.
7. \$5,000,000, or so much of the sum as may be necessary, for grants to eligible political subdivisions. BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²³⁴ **SECTION 1. AMENDMENT.** Section 57-51-15 of the North Dakota Century Code is amended and reenacted as follows:

57-51-15. (Effective for taxable events occurring through June 30, 2015) Gross production tax allocation.

The gross production tax must be allocated monthly as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:
 - a. Allocate to each hub city a monthly amount that will provide a total allocation of three hundred seventy-five thousand dollars per fiscal year for each full or partial percentage point of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota;
 - b. Allocate to each hub city school district a monthly amount that will provide a total allocation of one hundred twenty-five thousand dollars per fiscal year for each full or partial percentage point of the hub city's private covered employment engaged in the mining industry, according to data compiled by job service North Dakota;
 - c. Credit revenues to the oil and gas impact grant fund, but not in an amount exceeding two hundred forty million dollars per biennium;
 - d. Credit four percent of the amount available under this subsection to the North Dakota outdoor heritage fund, but not in an amount exceeding fifteen million dollars in a state fiscal year and not in an amount exceeding thirty million dollars per biennium;
 - e. Credit four percent of the amount available under this subsection to the abandoned oil and gas well plugging and site reclamation fund, but not in an amount exceeding ~~five~~seven million ~~five hundred thousand~~ dollars in a state fiscal year and not in an amount that would bring the balance in the fund to more than ~~seventy-five~~one hundred million dollars; and

²³⁴ Section 57-51-15 was also amended by section 3 of House Bill No. 1176, chapter 463, and section 4 of House Bill No. 1409, chapter 379.

- f. Allocate the remaining revenues under subsection 3.
2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:
 - a. The first five million dollars is allocated to the county.
 - b. Of all annual revenue exceeding five million dollars, twenty-five percent is allocated to the county.
3. After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.
4. For a county that received less than five million dollars of allocations under subsection 2 in the most recently completed state fiscal year, revenues allocated to that county must be distributed by the state treasurer as follows:
 - a. Forty-five percent must be distributed to the county treasurer and credited to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if in a taxable year after 2012 the county is not levying a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
 - b. Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the state treasurer no less than quarterly to school districts within the county, excluding consideration of and allocation to any hub city school district in the county, on the average daily attendance distribution basis, as certified to the state treasurer by the county superintendent of schools.
 - c. Twenty percent must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. A hub city must be omitted from apportionment under this subdivision. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.
5. For a county that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year, revenues allocated to that county must be distributed by the state treasurer as follows:
 - a. Sixty percent must be distributed to the county treasurer and credited to the county general fund. However, the allocation to a county under this

- subdivision must be credited to the state general fund if in a taxable year after 2012 the county is not levying a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
- b. Five percent must be apportioned by the state treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis for kindergarten through grade twelve students residing within the county, as certified to the state treasurer by the county superintendent of schools. However, a hub city school district must be omitted from consideration and apportionment under this subdivision.
 - c. Twenty percent must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. A hub city must be omitted from apportionment under this subdivision. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.
 - d. Three percent must be apportioned no less than quarterly by the state treasurer among the organized and unorganized townships of the county. The state treasurer shall apportion the funds available under this subdivision among townships in the proportion that township road miles in the township bear to the total township road miles in the county. The amount apportioned to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.
 - e. Three percent must be allocated by the state treasurer among the organized and unorganized townships in all the counties that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year. The amount available under this subdivision must be allocated no less than quarterly by the state treasurer in an equal amount to each eligible organized and unorganized township. The amount allocated to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.
 - f. Nine percent must be allocated by the state treasurer among hub cities. The amount available for allocation under this subdivision must be apportioned by the state treasurer no less than quarterly among hub cities. Sixty percent of funds available under this subdivision must be distributed to the hub city receiving the greatest percentage of allocations to hub cities under subdivision a of subsection 1 for the quarterly period, thirty percent of funds available under this subdivision must be distributed to the hub city receiving the second greatest percentage of such allocations, and

ten percent of funds available under this subdivision must be distributed to the hub city receiving the third greatest percentage of such allocations.

6. Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:
 - a. The county's statement of revenues and expenditures; and
 - b. The amount allocated to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.

Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.

(Effective for taxable events occurring after June 30, 2015) Gross production tax allocation. The gross production tax must be allocated monthly as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:
 - a. Allocate five hundred thousand dollars per fiscal year to each city in an oil-producing county which has a population of seven thousand five hundred or more and more than two percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota. The allocation under this subdivision must be doubled if the city has more than seven and one-half percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota;
 - b. Credit revenues to the oil and gas impact grant fund, but not in an amount exceeding one hundred million dollars per biennium;
 - c. Credit four percent of the amount available under this subsection to the North Dakota outdoor heritage fund, but not in an amount exceeding fifteen million dollars in a state fiscal year and not in an amount exceeding thirty million dollars per biennium;
 - d. Credit four percent of the amount available under this subsection to the abandoned oil and gas well plugging and site reclamation fund, but not in an amount exceeding ~~five~~seven million ~~five hundred thousand~~ dollars in a state fiscal year and not in an amount that would bring the balance in the fund to more than ~~seventy-five~~one hundred million dollars; and
 - e. Allocate the remaining revenues under subsection 3.

2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:
 - a. The first two million dollars is allocated to the county.
 - b. Of the next one million dollars, seventy-five percent is allocated to the county.
 - c. Of the next one million dollars, fifty percent is allocated to the county.
 - d. Of the next fourteen million dollars, twenty-five percent is allocated to the county.
 - e. Of all annual revenue exceeding eighteen million dollars, ten percent is allocated to the county.
3. After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.
4. The amount to which each county is entitled under subsection 2 must be allocated within the county so the first five million three hundred fifty thousand dollars is allocated under subsection 5 for each fiscal year and any amount received by a county exceeding five million three hundred fifty thousand dollars is credited by the county treasurer to the county infrastructure fund and allocated under subsection 6.
5.
 - a. Forty-five percent of all revenues allocated to any county for allocation under this subsection must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
 - b. Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis, as certified to the county treasurer by the county superintendent of schools. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of

students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty-five percent share must be deposited instead in the county general fund. The county superintendent of schools of each oil-producing county shall certify to the county treasurer by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the county superintendent of schools required by this subsection.

The countywide allocation to school districts under this subdivision is subject to the following:

- (1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.
 - (2) The next three hundred fifty thousand dollars is apportioned seventy-five percent among school districts in the county and twenty-five percent to the county infrastructure fund.
 - (3) The next two hundred sixty-two thousand five hundred dollars is apportioned two-thirds among school districts in the county and one-third to the county infrastructure fund.
 - (4) The next one hundred seventy-five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.
 - (5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:
 - (a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.
 - (b) Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.
 - (c) Seven hundred thirty-five thousand dollars, for counties having a population of six thousand or more.
- c. Twenty percent of all revenues allocated to any county for allocation under this subsection must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this

subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.

6.
 - a. Forty-five percent of all revenues allocated to a county infrastructure fund under subsections 4 and 5 must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
 - b. Thirty-five percent of all revenues allocated to the county infrastructure fund under subsections 4 and 5 must be allocated by the board of county commissioners to or for the benefit of townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development-impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the county treasurer to the county road and bridge fund for use on county road and bridge projects.
 - c. Twenty percent of all revenues allocated to any county infrastructure fund under subsections 4 and 5 must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.
7. Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:
 - a. The county's statement of revenues and expenditures; and
 - b. The amount available in the county infrastructure fund for allocation to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the

amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.

Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.

SECTION 2. CONTINGENT EFFECTIVE DATE. This Act is effective for taxable events after December 31, 2015, only if the exemption under subsection 3 of section 57-51.1-03 is ineffective for the completion of any new horizontal well during the period beginning July 1, 2015, and ending December 31, 2015.

- 9-7. "Royalty owner" means an owner of what is commonly known as the royalty interest and shall not include the owner of any overriding royalty or other payment carved out of the working interest.
- 10-8. "Stripper well" means a well drilled and completed, or reentered and recompleted as a horizontal well, after June 30, 2013, whose average daily production of oil during any preceding consecutive twelve-month period, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] outside the Bakken and Three Forks formations, and thirty-five barrels per day for wells of a depth of more than ten thousand feet [3048 meters] in the Bakken or Three Forks formation.
- 11-9. "Stripper well property" means wells drilled and completed, or a well reentered and recompleted as a horizontal well, before July 1, 2013, on a "property" whose average daily production of oil, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] during any preceding consecutive twelve-month period. Wells which did not actually yield or produce oil during the qualifying twelve-month period, including disposal wells, dry wells, spent wells, and shut-in wells, are not production wells for the purpose of determining whether the stripper well property exemption applies.
12. ~~"Trigger price" means thirty-five dollars and fifty cents, as indexed for inflation. By December thirty-first of each year, the tax commissioner shall compute an~~

~~indexed trigger price by applying to the current trigger price the rate of change of the producer price index for industrial commodities as calculated and published by the United States department of labor, bureau of labor statistics, for the twelve months ending June thirtieth of that year and the indexed trigger price so determined is the trigger price for the following calendar year.~~

13. ~~"Two-year inactive well" means any well certified by the industrial commission that did not produce oil in more than one month in any consecutive twenty-four month period before being recompleted or otherwise returned to production after July 31, 1995. A well that has never produced oil, a dry hole, and a plugged and abandoned well are eligible for status as a two-year inactive well.~~

SECTION 3. AMENDMENT. Section 57-51.1-02 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-02. Imposition of oil extraction tax.

There is hereby imposed an excise tax, to be known as the "oil extraction tax", upon the activity in this state of extracting oil from the earth, and every owner, including any royalty owner, of any part of the oil extracted is deemed for the purposes of this chapter to be engaged in the activity of extracting that oil.

The rate of tax is ~~six and one-half~~five percent of the gross value at the well of the oil extracted, ~~except that the rate of tax is four percent of the gross value at the well of the oil extracted in the following situations:~~

1. ~~For oil produced from wells drilled and completed after April 27, 1987, commonly referred to as new wells, and not otherwise exempt under section 57-51.1-03;~~
2. ~~For oil produced from a secondary or tertiary recovery project that was certified as qualifying by the industrial commission before July 1, 1991;~~
3. ~~For oil that does not qualify as incremental oil but is produced from a secondary or tertiary recovery project that is certified as qualifying by the industrial commission after June 30, 1991;~~
4. ~~For incremental oil produced from a secondary or tertiary recovery project that is certified as qualifying by the industrial commission after June 30, 1991, and which production is not otherwise exempt under section 57-51.1-03; or~~
5. ~~For oil produced from a well that receives an exemption pursuant to subsection 4 of section 57-51.1-03 after June 30, 1993, and which production is not otherwise exempt under section 57-51.1-03.~~

However, if the average price of a barrel of crude oil exceeds the trigger price of ninety dollars for each month in any consecutive ~~five-month~~three-month period, then the rate of tax on oil extracted from all taxable wells is six ~~and one-half~~ percent of the gross value at the well of the oil extracted until the average price of a barrel of crude oil is less than the trigger price of ninety dollars for each month in any consecutive ~~five-month~~three-month period, in which case the rate of tax reverts to ~~four~~five percent of the gross value at the well of the oil extracted for any wells subject to a reduced rate under subsections 1 through 5. By December thirty-first of each year, the tax commissioner shall determine an indexed trigger price under this section by applying to the current trigger price an adjustment equal to the percentage rate of change of

the producer price index for industrial commodities as calculated and published by the United States department of labor, bureau of labor statistics, for the twelve months ending June thirtieth of that year and the indexed trigger price so determined is the trigger price for the following calendar year.

For purposes of this section, "average price" of a barrel of crude oil means the monthly average of the daily closing price for a barrel of west Texas intermediate cushing crude oil, as those prices appear in the Wall Street Journal, midwest edition. When computing the monthly average price, the most recent previous daily closing price must be considered the daily closing price for the days on which the market is closed.

²³⁶ **SECTION 4. AMENDMENT.** Subsection 3 of section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

3. For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, ~~except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months.~~ Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. ~~However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~The reduced rate of tax under subsection 1 of section 57-51.1-02 does not apply after November 30, 2015, for oil produced from wells drilled and completed after April 27, 1987, commonly referred to as new wells, and not otherwise exempt under this section.

²³⁷ **SECTION 5. AMENDMENT.** Section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-03. Exemptions from oil extraction tax.

The following activities are specifically exempted from the oil extraction tax:

1. The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.
2. The activity of extracting from the earth any oil from a stripper well property or individual stripper well.
3. ~~For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil~~

²³⁶ Section 57-51.1-03 was also amended by section 5 of House Bill No. 1476, chapter 466.

²³⁷ Section 57-51.1-03 was also amended by section 4 of House Bill No. 1476, chapter 466.

exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

4. ~~The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~
- 5-3.
- a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
 - b. The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide in a well drilled and completed outside the Bakken and Three Forks formations, and ten miles [16.10 kilometers] or more outside an established field in which the industrial commission has defined the pool to include the Bakken or Three Forks formation and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
 - c. For purposes of this subsection, incremental production is defined in the following manner:
 - (1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of

primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.

- (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.
- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a

secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.

- (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. ~~The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~
7. ~~The production of oil from a horizontal reentry well, as determined by the industrial commission and certified to the state tax commissioner, for a period of nine months after the date the well is completed as a horizontal well. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~

8. ~~The initial production of oil from a well is exempt from any taxes imposed under this chapter for a period of sixty months if:~~
 - a. ~~The well is drilled and completed before July 1, 2013, on nontrust lands within the boundaries of an Indian reservation;~~
 - b. ~~The well is drilled and completed before July 1, 2013, on lands held in trust by the United States for an Indian tribe or individual Indian; or~~
 - c. ~~The well is drilled and completed before July 1, 2013, on lands held by an Indian tribe if the interest is in existence on August 1, 1997.~~
9. ~~The first seventy-five thousand barrels or the first four million five hundred thousand dollars of gross value at the well, whichever is less, of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed after April 30, 2009, and before July 1, 2015, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion. The rate reduction under this subsection becomes effective on the first day of the month following a month for which the average price of a barrel of crude oil is less than fifty-five dollars. The rate reduction under this subsection becomes ineffective on the first day of the month following a month in which the average price of a barrel of crude oil exceeds seventy dollars. If the rate reduction under this subsection is effective on the date of completion of a well, the rate reduction applies to production from that well for up to eighteen months after completion, subject to the other limitations of this subsection. If the rate reduction under this subsection is ineffective on the date of completion of a well, the rate reduction under this subsection does not apply to production from that well at any time.~~
- ~~10.4.~~ The first seventy-five thousand barrels of oil produced during the first eighteen months after completion, from a well drilled and completed outside the Bakken and Three Forks formations, and ten miles [16.10 kilometers] or more outside an established field in which the industrial commission has defined the pool to include the Bakken or Three Forks formation, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion.

SECTION 6. TERM OF EXEMPTIONS AND RATE REDUCTIONS. The remaining term of any exemption or rate reduction eliminated in section 5 of this Act expires January 1, 2016. The remaining term of the horizontal well exemption eliminated in section 4 of this Act expires December 1, 2015.

SECTION 7. WAIVER OF LEGISLATIVE CONFIRMATION REQUIREMENT FOR CERTAIN STATE-TRIBAL TAX COLLECTION AGREEMENTS. The requirement of legislative confirmation of state-tribal tax collection agreements under section 57-51.2-01 do not apply, for adjustment of an existing agreement attributable to the changes in the oil extraction tax under this Act, and for agreements under section 54-40.2-04 do not apply, for adjustment of an existing agreement regarding application of tribal tax authority to bulk delivery of dyed or undyed special fuels within the exterior boundaries of the reservation.

SECTION 8. LEGISLATIVE MANAGEMENT STUDY - TRIBAL TAX ISSUES.

During the 2015-16 interim, the legislative management shall consider studying state-tribal tax agreements and allocation of revenues from centrally assessed property and property subject to payments in lieu of property taxes which is located on tribal trust lands. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fifth legislative assembly.

SECTION 9. EFFECTIVE DATE - EXPIRATION DATE. Sections 1, 2, 3, and 5 of this Act are effective for taxable events occurring after December 31, 2015. Section 4 of this Act is effective for taxable events occurring after November 30, 2015. Section 7 of this Act is effective from July 1, 2015, through December 31, 2016, and is thereafter ineffective.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²³⁸ **SECTION 1. AMENDMENT.** Section 15-08.1-08 of the North Dakota Century Code is amended and reenacted as follows:

15-08.1-08. Income - Expenses - Reimbursement - Creation of strategic investment and improvements fund - Legislative intent - ~~Contingent transfer to legacy fund.~~

The income derived from the sale, lease, and management of the mineral interests acquired by the board of university and school lands pursuant to this chapter and other funds as provided by law must, after deducting the expenses of sale, lease, and management of the property, be deposited in a fund to be known as the strategic investment and improvements fund. The corpus and interest of such trust may be expended as the legislative assembly may provide for one-time expenditures relating to improving state infrastructure or for initiatives to improve the efficiency and effectiveness of state government. It is the intent of the legislative assembly that moneys in the fund may be included in draft appropriation acts under section 54-44.1-06 and may be appropriated by the legislative assembly, but only to the extent that the moneys are estimated to be available at the beginning of the biennium in which the appropriations are authorized. ~~If the unobligated balance in the fund at the end of any month exceeds three hundred million dollars, twenty-five percent of any revenues received for deposit in the fund in the subsequent month must be deposited instead into the legacy fund. For purposes of this section, "unobligated balance in the fund" means the balance in the fund reduced by appropriations or transfers from the fund authorized by the legislative assembly, guarantee reserve fund requirements under section 6-09.7-05, and any fund balance designated by the board of university and school lands relating to potential title disputes related to certain riverbed leases.~~

²³⁸ Section 15-08.1-08 was also amended by section 1 of House Bill No. 1176, chapter 463.

SECTION 2.**Political subdivision allocation fund - Oil and gas tax revenue allocations to political subdivisions - State treasurer - Continuing appropriation.**

There is created in the state treasury the political subdivision allocation fund. The fund consists of oil and gas tax revenue deposited in the fund pursuant to chapter 57-51.1. All moneys in the fund are appropriated to the state treasurer on a continuing basis for the purpose of allocations to political subdivisions in oil-producing counties.

1. If the balance of the fund exceeds ten million dollars on March first of each odd-numbered year, within thirty-one days, the state treasurer shall allocate all moneys in the fund to eligible political subdivisions in oil-producing counties based on each political subdivision's oil and gas gross production tax allocations under subsection 4 or subsection 5 of section 57-51-15 in the most recently completed formula allocation year. The allocation to each eligible political subdivision must be proportional to each political subdivision's total oil and gas gross production tax allocation under subsection 4 or subsection 5 of section 57-51-15 in the most recently completed formula allocation year relative to the combined total of all oil and gas gross production tax allocations under subsection 4 and subsection 5 of section 57-51-15 in the most recently completed formula allocation year. For purposes of this subsection, "formula allocation year" means the period beginning September first of an odd-numbered year and ending August thirty-first of the following even-numbered year.
2. If the balance of the fund exceeds ten million dollars on August first of each odd-numbered year, within thirty-one days, the state treasurer shall allocate all moneys in the fund to eligible political subdivisions in oil-producing counties based on each political subdivision's oil and gas gross production tax allocations under subsection 4 or subsection 5 of section 57-51-15 in the most recently completed formula allocation year. The allocation to each eligible political subdivision must be proportional to each political subdivision's total oil and gas gross production tax allocation under subsection 4 or subsection 5 of section 57-51-15 in the most recently completed formula allocation year relative to the combined total of all oil and gas gross production tax allocations under subsection 4 and subsection 5 of section 57-51-15 in the most recently completed formula allocation year. For purposes of this subsection, "formula allocation year" means the period beginning September first of an odd-numbered year and ending August thirty-first of the following even-numbered year.

57-51.1-07.3. Oil and gas research fund - Deposits - Continuing appropriation.

There is established a special fund in the state treasury to be known as the oil and gas research fund. Before depositing oil and gas gross production tax and oil extraction tax revenues in the general fund, property tax relief sustainability fund, strategic investment and improvements fund, or the state disaster relief fund, two percent of the revenues must be deposited monthly into the oil and gas research fund, up to ten million dollars per biennium. All moneys deposited in the oil and gas research fund and interest on all such moneys are appropriated as a continuing appropriation to the council to be used for purposes stated in chapter 54-17.6.

SECTION 4. AMENDMENT. Section 57-51.1-07.5 of the North Dakota Century Code is amended and reenacted as follows:

3. The next one hundred million dollars into the state general fund;
4. The next one hundred million dollars into the strategic investment and improvements fund;
5. The next twenty-two million dollars into the state disaster relief fund, but not in an amount that would bring the unobligated balance in the fund to more than twenty-five million dollars; and
6. Any additional revenues ~~into the strategic investment and improvements fund~~:
 - a. Seventy percent into the strategic investment and improvements fund; and
 - b. Thirty percent into the political subdivision allocation fund.

The study must review the North Dakota association of oil and gas producing counties' uniform county truck permit program, including the system's integration with the highway patrol's online electronic truck permitting and routing system and the communications between county representatives and industry representatives regarding road conditions. The study must evaluate the appropriateness of additional fees assessed by the board of county commissioners and other local authorities to the oil and gas industry related to additional road permitting fees and analyze other relevant data regarding uniform truck permitting fees and procedures. The study must include input from representatives of the North Dakota petroleum council, representatives of the North Dakota association of oil and gas producing counties, and other interested persons. The legislative management shall report its findings and recommendations, if any, together with any legislation required to implement the recommendations, to the sixty-fifth legislative assembly.

TRUSTS

CHAPTER 468

HOUSE BILL NO. 1221

(Representatives Keiser, Sukut)

AN ACT to amend and reenact section 59-04.2-19 of the North Dakota Century Code, relating to a trustee's allocation of receipts from interests in minerals and other natural resources.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 59-04.2-19 of the North Dakota Century Code is amended and reenacted as follows:

59-04.2-19. (411) Minerals, water, and other natural resources.

1. To the extent that a trustee accounts for receipts from an interest in minerals or other natural resources pursuant to this section, the trustee shall allocate them as follows:
 - a. If received as nominal delay rental or nominal annual rent on a lease, a receipt must be allocated to income.
 - b. If received from a production payment, a receipt must be allocated to income if and to the extent that the agreement creating the production payment provides a factor for interest or its equivalent. The balance must be allocated to principal.
 - c. If an amount received as a royalty, shut-in-well payment, take-or-pay payment, bonus, or delay rental is more than nominal, ~~ninety~~ninety-five percent must be allocated to principal and the balance to income.
 - d. If an amount is received from a working interest or any other interest not provided for in subdivision a, b, or c, ~~ninety~~ninety-five percent of the net amount received must be allocated to principal and the balance to income.
2. An amount received on account of an interest in water that is renewable must be allocated to income. If the water is not renewable, ninety percent of the amount must be allocated to principal and the balance to income.

A chief law enforcement officer is not required to make any certification under this section the officer knows to be untrue, but the officer may not refuse to provide certification based on a generalized objection to private persons or entities making, possessing, or receiving firearms or any certain type of firearm the possession of which is not prohibited by law.

In making the certification required by subsection 2, a chief law enforcement officer or designee may require the applicant to provide only the information as is required by federal or state law to identify the applicant and conduct a criminal background check, including a check of the national instant criminal background check system, or to determine the disposition of an arrest or proceeding relevant to the applicant's eligibility to lawfully possess or receive a

firearm. A chief law enforcement officer may not require access to or consent for an inspection of any private premises as a condition of making a certification under this section.

4. Chief law enforcement officers and their employees who act in good faith are immune from liability arising from any act or omission in making a certification as required by this section.
5. An applicant whose request for certification is denied may appeal the chief law enforcement officer's decision to the district court for the county in which the applicant resides in accordance with the procedures provided in section 28-34-01. If the court finds that the applicant is not prohibited by law from receiving or possessing the firearm, or is not the subject of a proceeding that could result in the prohibition, or that there is insufficient evidence to support the chief law enforcement officer's determination that the officer cannot truthfully make the certification, the court shall order the chief law enforcement officer to issue the certification and award court costs and reasonable attorney's fees to the applicant.

Partial disability benefits are subject to a maximum of one hundred twenty-five percent of the average weekly wage in the state. The combined partial disability benefits, dependency allowance, and postinjury wage-earning capacity may not exceed ninety percent of the preinjury weekly wage of the employee after deductions for social security and federal income tax.

1. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the organization.
2. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The organization may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
3. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity if the job employs the employee to full work capacity in terms of hours worked per week, and if the job is in a field related to the employee's transferable skills. The presumption may be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

The maximum amount payable on behalf of a loan applicant may not exceed fifty thousand dollars and must be payable within five years. A loan must be repaid within a period not to exceed twenty years. A loan must be repaid at an interest rate established by the organization which may not exceed the rate of one percent below the Bank of North Dakota's prime interest rate. Investment income and collections of interest and principal on loans made from the revolving loan fund are appropriated on a continuing basis to maintain the fund and provide loans in accordance with this section. As determined necessary, the organization may transfer uncommitted moneys of the revolving loan fund to the workforce safety and insurance fund.
- 3-4. The organization may implement a grant program to promote and provide necessary educational opportunities for injured employees within the vocational rehabilitation process. The organization may award a grant to promote necessary skills upgrading and to provide for the completion of remedial educational requirements which allow for optimal transition into the labor force. HOUSE BILL NO. 1033

(Legislative Management)
(Government Finance Committee)

AN ACT to create and enact three new sections to chapter 54-27 of the North Dakota Century Code, relating to definitions for the legacy fund, the legacy fund principal balance, and a transfer of legacy fund earnings; and to repeal section 21-10-12 of the North Dakota Century Code, relating to a definition of legacy fund earnings.

VETO

April 15, 2015

The Honorable Wesley Belter
Speaker of the House
House Chambers
State Capitol
Bismarck, ND 58505

Dear Speaker Belter:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1033 and returned it to the House of Representatives.

I have vetoed this legislation due to language found in sections 2 and 3 of the bill. Section 2 provides that Legacy Fund moneys that are available for expenditure "... may not be included in the draft appropriations acts under section 54-44.1-06." This language would infringe upon the executive authority of the Governor to submit proposed legislative initiatives to the Legislature. Article V, Section 7 of the North Dakota Constitution states: the "governor shall present information on the condition of the state, together with any recommended legislation, to every regular and special session of the legislative assembly." Section 54-44.1-06 of the North Dakota Century Code further asserts the Governor shall present, "recommendations of the Governor for appropriations for the next biennium." The primary function of the executive branch is to manage the affairs of the state, including the careful budgeting of resources. This includes making recommendations to the Legislature pursuant to Article V, Section 7 of the North Dakota Constitution that contain executive branch assessments of the amount and preferred allocation of resources needed to fulfill legislative policies. Section 2 would restrict the executive branch in carrying out its constitutional responsibilities and is therefore unconstitutional.

Section 3 of the bill would require that "any legacy fund earnings that are transferred to the general fund in accordance with section 26 of Article X of the Constitution of North Dakota must be transferred immediately by the state treasurer back to the legacy fund to become part of the principal of the fund." Requiring such a transfer

would clearly contradict the intent of the voters when they enacted section 26 of Article X of the North Dakota Constitution that was approved by voters on November 2, 2010, which provides that "The state investment board shall invest the principal of the North Dakota legacy fund. The state treasurer shall transfer earnings of the North Dakota legacy fund accruing after June 30, 2017, to the state general fund at the end of each biennium." It is the clear intent of the constitutional language that subsequent to the transfer of the earnings to the General Fund the Legislative Assembly shall determine how these general fund dollars are to be used as part of the normal appropriations process, including consideration of the Governor's recommendations. Any provision that establishes an "automatic" reversal of the earnings transfer from the Legacy Fund before it actually occurs is a clear conflict with the intent of voters when they voted to approve the procedures of the Legacy Fund. For these reasons, I have vetoed House Bill 1033.

Sincerely,

Jack Dalrymple
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 54-27 of the North Dakota Century Code is created and enacted as follows:

Definitions for the legacy fund.

For the purposes of section 26 of article X of the Constitution of North Dakota:

1. "At the end of each biennium" means after cancellation of unexpended appropriations pursuant to section 54-44.1-11.
2. "Earnings" means net income in accordance with generally accepted accounting principles, excluding any unrealized gains or losses.
3. "Principal" means thirty percent of total revenue derived from taxes on oil and gas production and extraction deposited in the legacy fund, earnings of the fund accruing prior to July 1, 2017, and any funds transferred by the legislative assembly into the fund from any source.
4. "Total revenue derived from taxes on oil and gas production or extraction" means taxes collected from oil and gas production or extraction pursuant to chapters 57-51.1, 57-51.2, and 57-51.3, excluding the amounts allocated to the Three Affiliated Tribes.

SECTION 2. A new section to chapter 54-27 of the North Dakota Century Code is created and enacted as follows:

Legacy fund expenditure limit determination - Draft appropriation act restriction.

The director of the office of management and budget shall determine, by December first of each even-numbered year and at other times as requested by the legislative management, the amount equal to fifteen percent of the principal balance of the legacy fund, which may be available for expenditure during a biennium in accordance with section 26 of article X of the Constitution of North Dakota. The determined limit on available funds must be included in the budget data presented to

the legislative assembly as provided for in section 54-44.1-07. The available funds may not be included in draft appropriations acts under section 54-44.1-06.

SECTION 3. A new section to chapter 54-27 of the North Dakota Century Code is created and enacted as follows:

Transfer of legacy fund earnings - Intent.

Any legacy fund earnings that are transferred to the general fund in accordance with section 26 of article X of the Constitution of North Dakota must be transferred immediately by the state treasurer to the legacy fund to become part of the principal of the fund. It is the intent of the legislative assembly that the earnings of the legacy fund continue to accumulate as part of the principal of the fund until either oil and gas tax collections for a biennium decrease by at least twenty-five percent from the previous biennium or the earnings of the legacy fund for a biennium exceed thirty-three percent of the oil and gas tax collections for the same biennium. For purposes of this section, "oil and gas tax collections" means total revenue derived from taxes on oil and gas production or extraction pursuant to chapters 57-51, 57-51.1, and 57-51.2, excluding the amounts allocated to the Three Affiliated Tribes.

SECTION 4. REPEAL. Section 21-10-12 of the North Dakota Century Code is repealed.

The Honorable Wesley Belter
Speaker of the House
House Chambers
State Capitol
Bismarck, ND 58505

Dear Speaker Belter:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed section 7 of House Bill 1003.

The language in this section places undue restrictions on the authority of the State Board of Higher Education in fulfilling their constitutional duty to hire a new Chancellor of Higher Education, as well as other key personnel. It prohibits consideration of any negotiated severance package and deletes an existing portion of the Century Code that provides for fixing terms of officers, which strongly implies that any multi-year contract will not be allowable. This conflicts with Article VIII, Section 6(7)(a) of the North Dakota Constitution, which provides that the State Board of Education "shall... appoint for a term of not to exceed three years, a state commissioner of higher education." This is clear permissive language for multiyear contracts. The enactment of these new restrictions would likely discourage well qualified applicants from applying for key positions.

A separate issue arises with the words "at will," which would negate the employee classification system utilized by the State Board of Higher Education.

For these reasons, I have vetoed section 7 of House Bill 1003.

Sincerely,

Jack Dalrymple
Governor

RE: Senate Bill 2003

Dear President Wrigley:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 6 and Section 8 of Senate Bill 2003.

Section 6 requires a district court to pay the expenses incurred by an expert witness, including a witness from the state crime laboratory. The section also tends to encourage witnesses to testify via interactive video by exempting district courts from any costs associated with their testimony in this situation. Section 6 is vetoed because the district courts did not receive funding for this purpose from either the Executive Budget or through legislative appropriations. Additionally, the language was never presented to the appropriations committees in either the House or Senate when they considered the proposed budget for the judicial system.

Further, it is doubtful that witnesses would be able to take meaningful advantage of the cost-saving opportunity for interactive video testimony because North Dakota Supreme Court Administrative Rule 52(4)(B)(2) provides "A witness may not testify by reliable electronic means unless the defendant knowingly and voluntarily waives the right to have the witness testify in person."

It is also questionable whether it is appropriate for the district court to pay the costs of expert witnesses. In addition, section 6 contains an incorrect reference to North

Dakota Century Code section 44-04-04, which pertains to “Aliens convicted of felony or adjudged mentally ill.”

I have also vetoed Section 8 of this legislation. Managing the volume of work and available staff time required to respond to requests for Attorney General Opinions must remain a management decision made at the discretion of the Attorney General. The proposed timeline for producing opinions increases the likelihood that an excessive volume of requests could make it impossible to effectively prioritize the use of staff and resources.

For these reasons, I have vetoed section 6 and 8 of Senate Bill 2003.

Sincerely,

Jack Dalrymple

RE: Senate Bill 2015

Dear President Wrigley:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 24 of Senate Bill 2015.

Section 24 is vetoed because the new language serves no constructive purpose and is an excessive requirement on the human resources management of the university system. Any new chancellor, when entering office for the first time, has the authority to remove vice-chancellors and hire replacements at their discretion, because the vice-chancellors are not "classified" employees. To require vice-chancellors to resign is likely detrimental to the effective operation of the university system during a period of transition and could have a negative effect on the education of our students. Therefore, section 24 of Senate Bill 2015 is vetoed.

I have also vetoed Section 33 which is an attempt to clarify the extent of quick take authority within the use of eminent domain by water resource districts. However, the language does just the opposite, resulting in greater confusion of this issue. There is no definition provided for the term "specific project" which leaves a wide range of possible interpretations. Quick take authority is a serious public policy decision that should be clearly and definitively prescribed by the legislative assembly. House Bill 1095, which was passed by the 64th legislative assembly, requires a study of the use of quick take authority by water resource districts. This study should provide the clear direction as to what policy changes, if any, are needed.

Jack Dalrymple

RE: Senate Bill 2039

Dear President Wrigley:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed subsection 1(c) of Section 6 of Senate Bill 2039.

This subsection would require that the income, including interest payments on loans from the coal development trust fund, as authorized in North Dakota Century Code 57-62-02, be made part of the School Construction Assistance Loan Fund. This language conflicts with the North Dakota Constitution, Article X, Section 21, which requires that "the interest earned on the moneys in said fund shall be used first to replace uncollectable loans made from the fund, and the balance shall be credited to the general fund of the state." I have vetoed this section because the language clearly conflicts with the constitution.

Therefore, subsection 1(c) of section 6 of Senate Bill 2039 is vetoed.

INITIATED MEASURES DISAPPROVED

CHAPTER 490

CLEAN WATER, WILDLIFE, AND PARKS TRUST AND FUND

This initiated constitutional measure would add a new section to Article X of the North Dakota Constitution creating the clean water, wildlife, and parks trust and the clean water, wildlife, and parks fund to be financed by five percent of the revenues from the state's share of oil extraction taxes. Ten percent of that amount of annual revenues would be deposited in the trust with the principal invested by the state investment board; the earnings from the trust would be transferred to the fund to be spent on programs after January 1, 2019. Ninety percent of the annual revenues would be deposited into the fund to be used to make grants to public and private groups to aid water quality, natural flood control, fish and wildlife habitat, parks and outdoor recreation areas, access for hunting and fishing, the acquisition of land for parks, and outdoor education for children. The fund would be governed by a clean water, wildlife, and parks commission comprised of the governor, attorney general, and agriculture commissioner. A thirteen-member citizen accountability board would be appointed for three-year terms to review grant applications and make recommendations to the Commission. Every twenty-five years, the people would vote on the question of whether to continue the financing from the oil extraction taxes.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. A new section to article X of the Constitution of North Dakota is created and enacted as follows:

1. The people of North Dakota create the clean water, wildlife, and parks trust to protect our clean water, wildlife and parks for the benefit of people as provided herein.
2. There is created a clean water, wildlife, and parks fund that shall be used for grants to state agencies, tribal governments, local governments, political subdivisions, and nonprofit organizations for the following purposes:
 - a. Protect, improve, maintain, or restore water quality through the restoration and protection of rivers, streams, lakes or other surface waters, groundwater, wetlands, grasslands, prairies, or forests;
 - b. Improve natural flood control through the restoration or protection of natural areas along rivers, streams, lakes or other surface waters, groundwater, wetlands, grasslands, prairies, and forests;
 - c. Protect, restore, or create wildlife and fish habitat through voluntary programs on private lands, including working farms and ranches, and public lands through grassland, prairie, wetland, stream, lake, and forest restoration, creation, and protection;
 - d. Conserve or acquire natural areas, parks, and other recreation areas or provide access for hunting and fishing; or

-
- e. Create more opportunities and places for children to learn about and enjoy nature and the outdoors.
 3. There is created a clean water, wildlife and parks commission that shall be comprised of the governor, attorney general and agriculture commissioner. The commission shall govern the fund in accord with this section. Any money deposited in the clean water, wildlife, and parks fund is hereby appropriated to the commission on a continuing basis for expenditure upon those programs selected by the commission as provided in this section. The commission shall keep accurate records of all financial transactions performed under this section.
 4. The commission may employ staff and enter into public and private contracts as may be necessary to operate the fund. The salaries of employees and other expenditures for the operation of the fund must be paid out of the fund. No more than three percent of the funds available in a given year may be paid out of the fund to operate the fund.
 5. The commission must allocate no less than seventy-five percent nor more than ninety percent of the revenue deposited in the fund on an annual basis. Ten percent of earnings of the fund shall be reserved and transferred on an annual basis to the trust established in this section.
 6. The commission may not use the fund, in any manner, to finance:
 - a. Litigation;
 - b. Lobbying activities;
 - c. Activities that would unduly interfere, disrupt, or prevent the development of mineral rights;
 - d. Projects outside this state or projects that are beyond the scope of defined activities that fulfill the purposes of this section;
 - e. More than fifty percent of grant awards per biennium for any one stated purpose;
 - f. The acquisition of land through condemnation or the use of eminent domain; or
 - g. Compliance with legal mitigation requirements of any local, state, or federal permit or grant.
 7. The principal and earnings of the trust may not be expended until after January 1, 2019, and an expenditure of principal after that date requires a vote of at least two-thirds of the members elected to each house of the legislative assembly. The state investment board shall invest the principal of the trust. The state treasurer shall transfer earnings of the trust accruing after January 1, 2019, to the fund established in this section at the end of each fiscal year.
 8. Each regular legislative session, the commission must file a report to the citizens of the state at a public hearing before each house of the legislative assembly. The report must include a state auditor's report on the clean water,

- wildlife, and parks trust and clean water, wildlife, and parks fund for the previous two fiscal years.
9. There is created a citizen accountability board consisting of thirteen members. The board shall provide grant recommendations to the commission in accord with the purposes stated in this section. The board members must be qualified electors of the state and shall be appointed as follows:
 - a. Four citizen members appointed by the governor, upon the recommendation of the director of the game and fish department;
 - b. Two citizen members appointed by the governor, upon the recommendation of the director of the parks and recreation department;
 - c. One citizen member appointed by the governor, upon the recommendation of the indian affairs commission;
 - d. Two members of the state senate, appointed by the president pro tempore, with equal representation from the two largest political parties in the senate;
 - e. Two members of the house of representatives, appointed by the speaker, with equal representation from the two largest political parties in the house;
 - f. One energy industry representative to be appointed by the public service commission; and
 - g. One farmer or rancher to be appointed by the agriculture commissioner.
 10. The terms of members of the citizen accountability board will be three years, except the terms of the initial board will vary and be drawn by lot to ensure that no more than five members be subsequently appointed each year. Board members may not serve more than three terms. The board shall select a chairman from among the members. Nine voting members is a quorum at any meeting.
 11. In making appointments to the citizen accountability board, consideration shall be given to the practical experience and demonstrated knowledge in one or more of the following areas:
 - a. Science, policy, or practice of natural resources, conservation, or tribal lands;
 - b. Restoring, protecting, and enhancing groundwater or wetlands;
 - c. Conservation practices, including professional or volunteer work restoring and protecting working agricultural lands, wetlands, prairies, forests, and habitat for fish, game, and wildlife; or
 - d. The maintenance and management of public parks and recreation areas.
 12. This constitutional provision shall be self-executing and shall become effective without the necessity of legislative action.

13. The initial members of the citizen accountability board shall be appointed within ninety days after the effective date of this section. Grant applications shall be considered within three hundred sixty-five days of the effective date of this section and grant applications shall be considered at least annually thereafter.
14. The state treasurer shall reserve five percent of the state's share of total revenue derived from oil extraction taxes for the purposes described in this section. Ten percent of the funds so reserved shall be transferred by the state treasurer into the clean water, wildlife, and parks trust within thirty days after the end of each calendar quarter. Ninety percent of the funds so reserved shall be transferred by the state treasurer into the clean water, wildlife, and parks fund within thirty days after the end of each calendar quarter.
15. Upon voter approval of this measure, the provisions of subsections 13 through 15 herein shall be authorized and continue until the next general election held after twenty-five years from the effective date of this section. In that general election, the secretary of state shall place a question, for approval or rejection by the people, of whether the funds reserved as provided in subsection 14 shall continue. The question presented shall include a report from state investment board indicating the then-existing balance of the clean water, wildlife, and parks trust and the annual estimated earnings to be provided to the clean water, wildlife, and parks fund. At the next statewide general election held twenty-five years after a reauthorization under this section, the issue of whether the reservation of funds described in subsection 14 herein shall be resubmitted to the voters for approval or rejection, accompanied by the report as directed herein. If a majority of the voters fail to approve the continued reservation of funds, subsections 13, 14, and 15 herein shall terminate on the first day of the calendar quarter following the date it is rejected by the voters.

SECTION 2. EFFECTIVE DATE. If approved by the voters, this measure becomes effective for oil produced on or after January 1, 2015, or the first day of the first calendar quarter beginning after the date it is approved by the voters, whichever occurs later.

CHAPTER 491

PARENTAL RIGHTS AND RESPONSIBILITIES

This initiated measure would amend section 14-09-06.2 of the North Dakota Century Code to create a presumption that each parent is a fit parent and entitled to be awarded equal parental rights and responsibilities by a court unless there is clear and convincing evidence to the contrary; the measure would also provide a definition of equal parenting time.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 14-09-06.2 of the North Dakota Century Code is amended and reenacted as follows:

1. It is the policy of the state of North Dakota that no requesting biological or adoptive parent shall be denied equal parental rights and responsibilities, equal parenting time, equal primary residential responsibility, and equal decision making responsibility of a child in a custody case. It is the policy of the state of North Dakota to presume that parents are fit and an award to both parents of equal parental rights and responsibilities, equal parenting time, equal primary residential responsibility, and equal decision making responsibility of a child is in the best interest of the child. The presumption of fitness as a parent shall only be rebutted upon a showing by clear and convincing evidence. The court shall support departures from equal parenting time with written findings of fact and conclusions of law. Fit parents may petition the court for a hearing which the court shall grant to support this statute. The provisions of this section control other provisions of state law that conflict with or are contrary to its provisions. For the purpose of parental rights and responsibilities, the best interests and welfare of the child is determined by the court's consideration and evaluation of all factors affecting the best interests and welfare of the child. These factors include all of the following when applicable:
 - a. The love, affection, and other emotional ties existing between the parents and child and the ability of each parent to provide the child with nurture, love, affection, and guidance.
 - b. The ability of each parent to assure that the child receives adequate food, clothing, shelter, medical care, and a safe environment.
 - c. The child's developmental needs and the ability of each parent to meet those needs, both in the present and in the future.
 - d. The sufficiency and stability of each parent's home environment, the impact of extended family, the length of time the child has lived in each parent's home, and the desirability of maintaining continuity in the child's home and community.
 - e. The willingness and ability of each parent to facilitate and encourage a close and continuing relationship between the other parent and the child.
 - f. The moral fitness of the parents, as that fitness impacts the child.

-
- g. The mental and physical health of the parents, as that health impacts the child.
 - h. The home, school, and community records of the child and the potential effect of any change.
 - i. If the court finds by clear and convincing evidence that a child is of sufficient maturity to make a sound judgment, the court may give substantial weight to the preference of the mature child. The court also shall give due consideration to other factors that may have affected the child's preference, including whether the child's preference was based on undesirable or improper influences.
 - j. Evidence of domestic violence. In determining parental rights and responsibilities, the court shall consider evidence of domestic violence. If the court finds credible evidence that domestic violence has occurred, and there exists one incident of domestic violence which resulted in serious bodily injury or involved the use of a dangerous weapon or there exists a pattern of domestic violence within a reasonable time proximate to the proceeding, this combination creates a rebuttable presumption that a parent who has perpetrated domestic violence may not be awarded residential responsibility for the child. This presumption may be overcome only by clear and convincing evidence that the best interests of the child require that parent have residential responsibility. The court shall cite specific findings of fact to show that the residential responsibility best protects the child and the parent or other family or household member who is the victim of domestic violence. If necessary to protect the welfare of the child, residential responsibility for a child may be awarded to a suitable third person, provided that the person would not allow access to a violent parent except as ordered by the court. If the court awards residential responsibility to a third person, the court shall give priority to the child's nearest suitable adult relative. The fact that the abused parent suffers from the effects of the abuse may not be grounds for denying that parent residential responsibility. As used in this subdivision, "domestic violence" means domestic violence as defined in section 14-07.1-01. A court may consider, but is not bound by, a finding of domestic violence in another proceeding under chapter 14-07.1.
 - k. The interaction and interrelationship, or the potential for interaction and interrelationship, of the child with any person who resides in, is present, or frequents the household of a parent and who may significantly affect the child's best interests. The court shall consider that person's history of inflicting, or tendency to inflict, physical harm, bodily injury, assault, or the fear of physical harm, bodily injury, or assault, on other persons.
 - l. The making of false allegations not made in good faith, by one parent against the other, of harm to a child as defined in section 50-25.1-02.
 - m. Any other factors considered by the court to be relevant to a particular parental rights and responsibilities dispute.
2. ~~In a proceeding for parental rights and responsibilities of a child of a servicemember, a court may not consider a parent's past deployment or possible future deployment in itself in determining the best interests of the~~

~~child but may consider any significant impact on the best interests of the child of the parent's past or possible future deployment.~~

- ~~3-~~ In a proceeding for parental rights and responsibilities of a child of a servicemember, a court may not consider a parent's past deployment or possible future deployment in itself in determining the best interests of the child but may consider any significant impact on the best interests of the child of the parent's past or possible future deployment.
3. "Equal parenting time" is defined as a rebuttable presumption of approximate and reasonable equal time-sharing of a child with both of the child's parents or a mutually agreed and signed parenting plan between the parents.

WHEREAS, Section 1 of article I of the United States Constitution grants all legislative powers to Congress; and

A concurrent resolution directing the Legislative Management to study the impact on owners of land that has been inundated by rising waters in Devils Lake and Stump Lake.

WHEREAS, Devils Lake and Stump Lake have inundated land once owned by landowners surrounding the lakes; and

WHEREAS, as the navigable waters increased the inundated land became sovereign land of the state, which deprives the previous owner of the ownership and use of the land; and

WHEREAS, landowners with land taken by the rising lakes want to ensure that when the lakes recede the land returns to the landowners; and

WHEREAS, some landowners have paid property taxes on inundated land for many years in the hope of regaining ownership when the water recedes and some have been required to do so because the surface area of land used for the assessment determination for property tax application does not take into account the current and exact boundary of the lake; and

WHEREAS, the surrounding landowners have suffered extreme hardship from loss of use and ownership of their land and the added burden of paying property taxes on it, but have not received any compensation from the state or federal government;

HOUSE CONCURRENT RESOLUTION NO. 3024

(Representatives Laning, Boe, Delmore, Delzer, Headland, Kreidt, Seibel)
(Senators Carlisle, Dotzenrod, Unruh, Wardner)

A concurrent resolution urging the federal government to refrain from enacting regulations that threaten the reliability and affordability of electric power in the Northern Great Plains.

WHEREAS, over the course of the 2013-15 biennium, the United States Environmental Protection Agency has proposed two regulations that would enact a de facto ban on the construction of new, efficient, and cost-effective coal-fired power plants, and threaten the continued operation of existing coal-fired power plants; and

WHEREAS, in November 2014, the United States Environmental Protection Agency proposed to further reduce the standard for ambient ozone to levels that could restrict North Dakota's energy industry and impede economic growth; and

WHEREAS, the United States Office of Surface Mining, Reclamation, and Enforcement continues to explore a new regulation that could significantly restrict access to North Dakota's coal resources; and

WHEREAS, in December 2014, the White House Council on Environmental Quality issued draft guidance for assessing climate impacts under the National Environmental Policy Act that will further delay the permitting of coal leases on federal land; and

WHEREAS, in September 2013, the Eighth Circuit Court of Appeals released an opinion upholding the authority of the United States Environmental Protection Agency to reject the State of North Dakota's plan to reduce regional haze; and

WHEREAS, in November 2014, the White House announced an agreement with China by which the United States would significantly reduce its carbon dioxide emissions by 2025 at unknown cost to our economy and China is allowed to continue increasing emissions through 2030; and

WHEREAS, the United States Environmental Protection Agency's Clean Power Plan is estimated to increase North Dakota resident's average electricity and gas bills \$700 by 2020; and

WHEREAS, the United States Environmental Protection Agency's Clean Power Plan is estimated to cost the American economy over \$300 billion, with no measurable reduction in global carbon dioxide levels; and

WHEREAS, the United States Environmental Protection Agency's proposed regulations for carbon dioxide emissions from new and existing coal-fired power plants go beyond the authority provided by existing federal statutes; and

WHEREAS, the North Dakota lignite industry employs over 17,000 individuals in the state, and contributes over \$3 billion in economic activity in North Dakota each year; and

WHEREAS, the North Dakota lignite industry generates enough electricity to power over 2 million homes in the Northern Great Plains, supplies synthetic natural gas to 400,000 homes and businesses, and produces numerous beneficial byproducts; and

WHEREAS, if the federal government continues to issue regulations and administrative actions that are not based on sound science, economic, and technological reality, it will have significant impact on consumer electricity costs, and the North Dakota lignite industry will struggle to provide low-cost, reliable electricity; and

WHEREAS, the cumulative effects of proposed federal regulations present a significant threat to the viability and dependability of the Northern Great Plains' electric grid; and

WHEREAS, under the present federal regulatory agenda, North Dakota is in danger of losing thousands of high-paying jobs as well as hundreds of millions in revenue generated through taxes and business activity;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-fourth Legislative Assembly urges the federal government to refrain from continuing to impose regulations and other administrative actions that prohibit or restrict the ability of utilities to continue providing low-cost and reliable power from North Dakota's vast lignite reserves; and

BE IT FURTHER RESOLVED, that the United States Environmental Protection Agency refrain from finalizing regulations for carbon dioxide emission standards which requires new coal-fired power plants to meet an emission standard that is not achievable with current commercial technology, and which prematurely requires retirement or curtailment of existing coal-fired power plants; and

BE IT FURTHER RESOLVED, that the Sixty-fourth Legislative Assembly urges the federal government to work with the state, the North Dakota Congressional Delegation, and the North Dakota lignite industry to design and implement regulatory programs that are based on sound science, recognize the status of existing technology and development timelines, and that make economic sense for the producers and consumers of North Dakota lignite; and

BE IT FURTHER RESOLVED, that the members of the Sixty-fourth Legislative Assembly support the efforts of the lignite industry to develop technological solutions that will enable the continuation of lignite-based electric generation; and

BE IT FURTHER RESOLVED, that the members of the Sixty-fourth Legislative Assembly support the efforts of the lignite industry to challenge regulations and other actions that will impact the ability of the industry to continue utilizing North Dakota's strategic lignite resource; and

WHEREAS, clean, dry socks are a basic need and a lack of socks can result in frostbite, blisters, ulcer formations, and even amputation; and

(Senators Dotzenrod, Heckaman, O'Connell)

A concurrent resolution directing the Legislative Management to study the feasibility and desirability of the establishment of county or multi-county emergency response centers outside of urban centers that already maintain emergency response agencies with around-the-clock staffing.

WHEREAS, most smaller cities and much of the rural area of North Dakota is served by fire departments and emergency medical response agencies that are staffed largely or completely by volunteers; and

WHEREAS, increased training requirements, more frequent working hour conflicts, as well as the rapidly rising number of incidents for which emergency response is needed have reduced the number of volunteers willing or able to serve and has deterred new people from volunteering; and

WHEREAS, although a few rural response agencies have been able to retain several full-time response professionals, this is not economically feasible for the vast majority of our state's volunteer entities; and

WHEREAS, some response agencies have been forced to discontinue service due to the lack of staff, further burdening the neighboring agencies;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

WHEREAS, local and tribal communities enjoy the economic benefits of walking, running, and bicycling events; and

(Senators Armstrong, Klein, Wanzek)

A concurrent resolution urging Congress and the Internal Revenue Service to end the requirement of capitalization of business and farm machinery repair costs and allow business owners to deduct those costs as a business expense.

WHEREAS, businesses have been subjected to extremely complex treatment under the Internal Revenue Code, most of which adds greatly to the cost of recordkeeping and the cost of doing business; and

WHEREAS, the decision of the Internal Revenue Service through rules in 26 CFR 1.162-3, 1.162-4, and 1.263(a)-3 to require businesses to capitalize business and farm machinery repairs shows little regard for imposing additional cost and regulatory burdens on the business owners forced to comply; and

WHEREAS, business and farm machinery and equipment is put to rigorous use to produce a vital United States economy and that machinery and equipment is subject to frequent and costly repairs, which is a business reality but is largely an unplanned business expense; and

WHEREAS, requiring businesses to capitalize repair expenses and deduct them over a period of years, when businesses must repair equipment and pay for those repairs immediately when the necessity arises, unfairly and pointlessly increases the cost of doing business while an ordinary business expense deduction would recognize the expenditure in the year the expenses are incurred;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-fourth Legislative Assembly urges Congress and the Internal Revenue Service to end the requirement of capitalization of business and farm machinery repair costs and allow business owners to deduct those costs as a business expense; and

WHEREAS, states too often find themselves in a similar position today;

WHEREAS, the United States House of Representatives has passed with bipartisan support the REINS Act to require that Congress approve major new federal regulations before they can take effect;

HOUSE RESOLUTIONS

CHAPTER 549

HOUSE RESOLUTION NO. 5001

(Representatives Headland, D. Anderson, Belter, Boe, Brandenburg, Delzer, Kempenich, Porter, Schmidt, Schreiber Beck, Streyle, Weisz)

A resolution urging Congress to invalidate the rules adopted by the Environmental Protection Agency and the United States Army Corps of Engineers defining the "waters of the United States" under the Clean Water Act.

WHEREAS, in early 2014, the Environmental Protection Agency and the United States Army Corps of Engineers released a proposed rule that would define "waters of the United States" to grant the federal government unprecedented regulatory authority over nearly all bodies of water including prairie potholes, small ponds, creeks, ditches, and other occasionally wet areas, which have historically been under state stewardship; and

WHEREAS, the rule was introduced even after similar proposals before the 110th and 111th Congress failed and after two United States Supreme Court decisions limiting federal jurisdiction under the Clean Water Act and was adopted after a process that included an inadequate, virtually nonexistent, consultation process with state and local government and private landowners' groups; and

WHEREAS, the rule was subject to massive opposition from Congress, states, groups, and individuals, all of which was given little or no serious consideration as the agencies proceeded to final adoption of an unprecedented usurpation of state authority by unelected federal officials; and

WHEREAS, the agencies that adopted the rule lack the capability to properly administer the vast authority they have seized without enormous increases in staff and spending; and

WHEREAS, the state of North Dakota contains many water resources, the use of which for agriculture, municipal water supply, and economic health is needed and the rules will needlessly complicate and may prohibit the safe and intelligent development and management of this state's water resources; and

WHEREAS, the North Dakota House of Representatives will not stand idly by as this state's major industries and the provision of potable water to the people of this state are threatened by these rules that usurp North Dakota's traditional and proper role in the regulation of this state's waters and the North Dakota House of Representatives supports and has authorized funding for use of the court system to challenge these rules, if Congress does not act;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA:

That the North Dakota House of Representatives urges the Congress of the United States to invalidate the rules adopted by the Environmental Protection Agency and the United States Army Corps of Engineers defining the "waters of the United States" in the Clean Water Act; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Administrator of the Environmental Protection Agency, the Commanding General of the United States Army Corps of Engineers, and to each member of the North Dakota Congressional Delegation.
