POETRY.

The Oak Tree.

BY MARY HOWITT.

The Oak Tree was an acorn once
And fell upon the earth,
And sun and showers nourished it
And gave the Oak Tree birth.
The little sprouting Oak Tree,
Two leaves it had at first,
Till sun and showers had nourished it,
Then out the branches burst.

The little sapling Oak Tree,
Its root was like a thread,
Till the earth had kindly nourished it,
Then out it freely spread,
On this side and on that side,
It grandled with the ground,
And in the ancient rifted rock
Its firmest footing found.

The winds came and the rains fell,
The gusty tempests blew,
All who were friends to the Oak Tree,
And stronger yet it grew.
The boy that saw the acorn fall,
He feebly grew and grey,
But the Oak was still a thriving tree
And strengthened every day.

For centuries grew the Oak Tree,
Nor do its verdure fall;
Its heart is like the iron wood,
Its bark like plated mail;
Now cut us down, the Oak Tree,
The monarch of the wood,
And of its timbers stent and strong
We'll make a vessel good.

The Oak Tree of the forest
Both east and west shall fly,
And the blessing of a thousand lands
Upon our ship shall lie;
For she shall not be a man-of-war,
Nor a pirate shall she be,
But a noble Christian merchant ship
To sail upon the sea.

SPARKLING GEMS.—Repentance hath a purifying power, and every tear is of cleansing virtue; but these penitential clouds must be still kept dropping; one shower will not suffice, for repentance is not, by any means, one single action, but a course.

Genius lays its eggs with ostrich like carelessness in the sands of the world, most of them to be crushed under the feet of men and beasts, and some hatch and furnish feathers for the cap of mediocrity or dullness, or to plume the shafts aimed at the parent heron.

The man who keeps a law to keep him from abusing an inferior animal, needs a prison to prevent his violating the law. It ought to be enough to deter any man from cruelty that the objects of it cannot speak for themselves, cannot bear witness against them, are dumb.

There is a class of people who think that to be grim is to be good, that pithy is a sort of facial grandeur; and that a thought, to be really wholesome, must be shaped like a coffin.

Many persons think themselves perfectly virtuous, because, being well led, they have no temptation to vice. They don't distinguish between virtue and good victuals.

Those nervous folks that are annoyed by everybody that approaches them, annoy everybody they approach.

Every good doctrine leaves behind it an ethereal furrow ready for the planting of seeds which shall bring an abundant harvest.

We are told to "take care," but it comes soon enough whether we want to take it or not.

To lead the forlorn hope on the field of carnage, requires less nerve than to fight nobly and unshrinkingly the bloodless battle of life.

We pass for what we are. Character reaches above our wills. Men imagine they communicate their virtue or vice only by overt actions, and do not see that virtue or vice emits breath every moment.

The way to be accounted learned is not to know everything, but to be able to marshal up what you do know, be it much or little, and tell it.

Kinder is the looking glass than the wine glass; for the former reveals our defects to ourselves only, the latter to our friends.

POISON ANTIDOTE.—Sweet oil—says a farmer; it is now over twenty years since I learned that sweet oil would cure the bite of a rattlesnake, not knowing that it would cure any other poison—Practice, observation and experience have taught me that it would cure poison of any kind, both in man and beast. I think no farmer should be without a bottle of it in his house. The patient must take a spoonful internally, and bathe the wound for a cure. To cure a horse it requires eight times as much as it does a man. Here let me tell of one of the most extreme cases of snake bite in this neighborhood, eleven years ago this summer, where the case had been over thirty days' standing, and the patient had been given up by his physicians. I heard of it, carried the oil, gave him one spoonful, and a cure was created. It will cure blots in cattle caused by eating too freely of fresh clover; it will cure sting of bees, spider, or other insects; and it will also cure persons who have been poisoned by the ivy vine.

Success.

Success, we may say, is a hideous affair enough. Men are taken by its spurious resemblance to merit. In the eyes of the multitude, to get on has much the same profile as to be absolutely the best. Success that Menecmus of talent, has one end—history. Juvenal and Tacitus are the ones who kick at it. In the present day it keeps at its back a kind of official philosophy, which wears the livery of success, and dances attendance in its anti-chamber. Get on, and what follows? To be in clover is to be clover. You win a lottery, and you are set down as an able man. It is the winner who is worshipped, be born with a silver spoon and your for use is made. Have bad luck, and the rest won't lag behind. Be but fortunate, and you will be thought great. With five or six immense exceptions, which are the glory of an age, the admiration of contemporaries is mere weakness of sight. Gilding goes for gold—Where you come from matters nothing; where you get to is all in all. The vulgar is an elderly Narcissus, in love with himself and applauding what is vulgar. Those faculties of enormous power, by virtue of which a man is a Moses, an Æschylus, a Dante, a Michael Angelo, or a Napoleon, are awarded by the multitude "at one go" and by acclamation, to any one who makes a good hit in no matter what.

Let an attorney turn himself into a deputy, a sham Corneille write a *Tiridates*, a eunuch become professor of a harem, a military Prudhomme gain by accident the decisive battle of the day, an apothecary invent sops of pasteboard for the army of *Sambre et-Meuse*, and with the paste-board which he sells for leather, makes himself an income of 400,000 francs let a man with a pack on his back take Usury to wife and bring her to bed of even or eight millions, of which he is the father and she the mother, rich on leaving his place as to be made Minister of Finance—men give all this the name of Genius, just as they give the name Beauty to the face of *Moesque-ton*, and that of Majesty to the neck and shoulders of *Claude*. They mistake for the stars of the firmament the splays which a duck makes as it puddles about in the soft mud of a boggy ground.—*Les Miserables*.

MATHEW HENRY beautifully says:—"Women was made of a rib out of the side of Adam; not made out of his head to top him, nor out of his feet to be trampled upon by him; but out of his side to be equal with him; and under his arm to be protected; and near his heart to be loved. A kindred spirit pursues: "Woman had a much finer sense of the beautiful than men. A mere school girl will be thinking and writing about the beauty of birds and flowers, while her brother is robbing the nests and destroying the flowers."

COUNTRY STOCKS.—A travelling gent in passing a farm house saw a boy at work in the cornfield by the roadside, and being of an inquisitive turn of mind, stopped his horse and thus addressed the youth: "My son, whose farm is this?" "Dad's," was the laconic reply. Does your father raise any stock?" "Yes, lots of 'em." "What kind?" continued the stranger. "Cornstocks mostly," was the reply, as he proceeded to hoe a hill of the article, and the stranger went on his way musing.

DYING FOR A KISS.—An inquest was held lately on the body of a young man who, in the attempt to snatch a kiss from the unwilling lips of a girl, fell down stairs and killed himself. Not a great while since a young lady broke her neck in trying to escape a kiss. The question now is, shall kissing be given up as a dangerous amusement?

At the dinner table of a hotel in Gallipolis, Ohio, the other day, a "green 'un," unable to retain the cravings of his appetite, pitched into a large dish of rice that was before him. A waiter mildly informed him that it was intended for a desert, and that he had better eat something else first. Greeney replied,—"Deserts be d—d. I don't care if it's a wilderness, it's good, and I'm going to eat it."

"You know, madam," said a plain spoken gentleman to his wife, "that you cannot make a purse out of a sow's ear."—"Oh, please fan me?" exclaimed the lady; "I have intimations of a swoon."—When you use that odious species of vulgarity, cloth it in refined phraseology.—You should say, "It is impossible to fabricate a pecuniary receptacle from the auricular organ of the softer sex of the genus porcine."

"WHAT object do you see?" asked the doctor. The young man hesitated for a few moments, and then replied, "It appears like a jackass, doctor, but I rather think it is your shadow."

FLATTERY.—Who does not love flattery?

It is a part of the food of our existence; we live on it. Its beguiling voice whips sweet words in our ear, and we press onward, and are lulled to a state of happiness, in order that we may hear its approving tones. What though it come from the idiot's lips, it is prized; the musician spurs not the praise of the deaf person, nor does the belle despise the attention of a clown. Learning always lends a willing ear, though it be fully's incipid voice. Man acts so farcely as he is certain of applause and commendation, and nothing can induce him to proceed further than will gain him such—He would offer any sacrifice, slay all his pet wishes, if they were not to obtain him a name. The teary infant in its mother's arms appears to understand fully the approving look, the sparkling eye and gentle smile, that always follow some amusing trick or action, and it is prompted to repeat it again, knowing that by so doing it will make its mother's heart leap with exulting joy and pride.

Flattery is no new thing. We do not enjoy in only in the summer of life; but it clings to the swaying twig and the firm old oak alike. The aged man, tottering on the verge of the grave, who who sees all his beautiful castles crumble and fade away, relishes flattery as much as the fiery-hearted youth. So, from childhood to youth, from youth to manhood, it becomes the one great aim of life, and leaves us only with the last vital spark.

Flattery is too often like a beautiful rosy cheeked apple, rotten at the core—This deceptive appearance gaining it more admirers, so with flatterers; their honied words of praise draw around them all the butterflies of fashion, those irresolute creatures who come sighing for compliments, which proceed from minds, oh! how deeply steeped in crime and perfidy; but, poor weak things that they are, suppose they are a true spirit of admiration.

"True friends never flatter," but warn and admonish, and hold a mirror before us where we can see all our faults and errors depicted. This is true friendship, for thereby are we benefitted. Yet not all censure and reproach, but a word of encouragement now and then, to serve as an inertia to push us onward to a higher attainments. But how often is such love taken for insult, and thrown unmercifully back to the heart that gave it here. Pride has conquered humility, and no acknowledgment of fault can be found in that bosom. Such are flattery's friends; there she finds her colleague.—Though her voice be musical, be not overcome of its fascinations; "but examine well thy heart, and if it deserves this praise, commit thyself.—*Waverley Magazine*.

Mr. Brandytoddy's three reasons for not drinking, are very characteristic of that gentleman.

"Take something to drink?" said a friend to him one day.

"No!" "Why not?" inquired his friend, in great amazement.

"In the first place," returned Mr. Brandytoddy. "I am Secretary of a Temperance Society that meets to day, and I must preserve my temperance character. In the second place, this is the anniversary of my father's death, and out of respect to him I have promised never to drink on that day. And in the third place, I have just taken something."

MINING SUITS.—While the suit of the Ophir and Burning Moseo for an injunction is pending, the Burning Moseo has commenced a suit of ejectment against the Ophir, claiming damages in the sum of \$500,000.

L. A. Both and others have commenced suit against the Ophir Company for \$12,000 damages for alleged non fulfillment of contract to furnish a certain amount of ore.

A lawyer has been arrested in Washington for speculating on the bodies of dead soldiers. He would write to be reaved friends, offer to forward the "departed," packet the fees in advance, and then he would send any corpse he could obtain.

An honest dame standing by the corpse of her husband, bewailing in piteous tones his untimely departure, observed—"It's a pity he's dead, for his teeth are as good as ever they were."

LEGACY.—I will and bequeath to my beloved Bridget all my property without reserve, to my eldest son Patrick one-half of the remainder, and to Dennis, my younger son, the rest. If anything is left it may go to Terence O'Carly, in sweet old Ireland.

A boozey fellow was observed the other day driving a "pig," holding on to his tail, and when asked what he was doing, replied that he was studying ge-hog-graphy.

A Racy Letter.

The Santa Cruz *Sentinel* contains a racy letter from a correspondent in Virginia City, evidently written before he had obtained the desired number of "feet."

"Virginia is a high old place; in fact, it is much like a New York dandy—awfully stuck up; a mile and a quarter nearer Heaven than your beautiful city of Santa Cruz. The altitude is so great and the atmosphere so oppressive that one's throat becomes dry and parched.—Walking up the hills upon which the city is built, makes one puff like a sick cat, and real hard work is out of the question. During the most of the season, high winds prevail from sunrise to sunset, and from sunset to sunrise. The dust mixed up with rock which has become pulverized as fine as flour by the constant passing of heavy teams, has a most insinuating way of getting acquainted with people.

"The water is so mean that it has been ruled out of good society, the people having unanimously declared, that though water may answer occasionally, yet for a constant drink, give them something else.

"The buildings are nearly all cheap one story wooden affairs, built of rough boards placed upright and battened—There are a few brick buildings, and I suppose there will be more—when they are erected.

"The people are all gone mad on 'feet.' It is 'feet' in the morning, 'feet' all the time. They have given up all amusements, except music—retaining that because it has 'feet' They may now and then let fall a word about the war but it ends in hoping that Hooker will perform some brilliant 'feet.' An account of what occurred in an eating house here the other day, will place this 'feet' mania in a clear light. A well known stockbroker and speculator, of this city, went into a restaurant to take a lunch. He took a seat opposite a successful prospector, who wore his hat on the side of his head at an angle of self reliance—sure sign he had 'struck it.' Mr. Stockbroker, who wore his hat on the back of his head, at an angle of speculation, fancying he had a customer before him, tried hard to throw a tincture of piety into his ugly phiz—a sure sign somebody was in danger of being cheated. Just then the polite waiter came round asked, 'What will you have, sir?' Being completely absorbed in speculations, Stockbroker replied,—"Feet"; but amid the roars of laughter that followed, he showed himself master of his subject by coolly remarking in was pigs' 'feet' he wanted just then.

"Amidst all this hurry and breakneck chase after turnpike material, it could not be expected that much attention would be paid to the social amenities of life. True, now and then some gallant beau may be seen promenading the hillsides, with a fair damsel leaning on his arm for support, and he pouring the 'melliferous' strains of love into her subburnt ears.

"What show has a poor man! About as much as a Virginia speculator has of going to Heaven. Wages have already been cut down; and there are so many seeking work the monopolies talk of making another reduction. The work is killing the men. I was told by a person who works in a quartz mill, that he knew 11 men that were talivated in one day. It is a fine thing for monopolies to have a rush of laborers. To sum up, the work is unhealthy, the climate despicable, living enormously high, the whiskey, like the citizens, nearly lightning, and the water at least forty degrees worse than the washings of an apothecary shop."

YOUNG ladies who faint on being proposed to, can be restored to consciousness by just whispering in their ear you were only joking.

A young lady being asked by a boring politician, which party she preferred, said a wedding party.

SECOND thoughts are best. Man was God's first thought—and woman the second.

The old lady who mended her husband's trousers with a potato patch, is smoothing now her hair with the comb of a rooster.

A French author says: "When I lost my wife, every family in the town offered me another: but when I lost my horse no one offered to make him good."

ONE hour lost in the morning will put back all the business of the day, one hour gained by raising early will make one month in a year.

GREAT men direct the events of their time. Wise men take advantage of time. Weak men are borne down by time.

PRAYER was not invented, it was born with the first sigh, the first sorrow of the human heart.

Declaration of Homestead.

Persons wishing to procure a correct legal form for making out a Declaration of Homestead, as required by the Act of the last Legislature, with the acknowledgment attached thereto, will find printed blanks, on application to the Knight's Landing News Office. By filling out these blanks themselves, parties will be subject to no other expense than the fees for acknowledgment and record.

EAGLE Steam Flour Mills will commence grinding next week.

COURT OF SESSIONS.—On Monday week next, the Court of Sessions will meet at Woodland.

BALL.—Recollect the Ball in honor of the 4th July will take place on Friday Evening next the 3rd, at the Union Hotel, to be given by W. G. Seely, Knight's Landing. This is the only ball, so far as we have heard, that is coming off in this County on that evening.

MORE STRYCHNINE.—Some evil disposed persons are still distributing Strychnine through the streets. On Tuesday last a fine Newfoundland Dog belonging to John O'Keefe was poisoned; several cats has shared the same fate.

TALL WHEAT.—On Thursday last Mr Simmons brought us a fine sample of Wheat, which was sown very late, its height is about five feet, it was grown on his ranch about 2 1/2 miles from Knight's Landing, on the Sacramento River, Sutter County.

THE 4th of July will not be celebrated in this place as was expected some time since. We presume however that the Celebration at Woodland will be a complete success—the names of the Gentlemen composing the committee would suffice to warrant this conclusion.

FARMERS generally, are very busy harvesting. Notwithstanding the unprecedented dry winter and spring, there will be a good deal of wheat harvested in this vicinity, much more than was expected a few weeks ago. The prevailing south winds for a month past enabled grain that had attained sufficient height, to fill quite well.

ACCIDENTS.—During the week two accidents occurred in this place.—Master Kathan was thrown from his horse while riding into town, and considerably bruised about the chin and mouth.—Mr. Alex a teamster, while unloading his wagon of wood on the levee, his horses took fright and in his attempt to reach over for the reins he was thrown off the wagon, the wheels running over both of his ankles. We learn he is doing well; having a pair of very heavy boots on saved his ankles from being broken.

DEMOCRATIC COUNTY CONVENTION.—This day (Saturday) the delegates elected at the different precincts on Saturday last, will meet at Woodland, for the purpose of electing delegates to go to the State Convention which will be held at Sacramento on the 8th of July next.

We presume a county ticket will not be made at this meeting, but that the convention will be called together at some future time for that purpose. It is probably that the delegates to the State Convention from this and Solano counties will nominate a candidate for Senator from this district.

THE balance in the State Treasury on Saturday, June 20th, was \$225,925 23. Controllor's warrants on State Treasurer to No 4,684 will be paid on presentation.

THE Supervisors of San Francisco have passed the bill appropriating \$39,000 out of funds in the city treasury to improve the condition of the military of that district.

THE Democrats of Sutter county have nominated for County Judge, P. W. Keyser; Clerk, C. E. Wilcoxson; Sheriff D. O. Stewart; Treasurer, S. S. Russell; Assessor, James Roth; Assembly, J. P. Rose.

THE Free Masons throughout the State are making the usual preparations to celebrate St. John's Day. Processions, dinners and speeches will be the order of the day among the brethren in the principal towns.

THE rates of passage on the steamer of June 23d were: First cabin—upper deck, \$240; dining saloon, \$215; second cabin, \$160; steerage, \$106.

COUNTY BUILDINGS.—On Monday last according to adjournment, the Board of Supervisors met at Woodland for the purpose of opening the bids which had been submitted for building a Court House and Jail at Woodland. The building is to be of brick, 60x75 feet in size, two stories in height, with a post of fifteen feet in the lower and twenty feet in the upper story. The structure is to be substantially built and thoroughly finished throughout. Inside it will be plastered and outside covered with stucco work.—In the upper story of the building will be the Court-rooms and offices, in the lower the jail, which will have a yard sixty feet square, surrounded by a brick wall fifteen feet high. The bids sent in were as follows: Turton, \$29,332; Knox & Herndon, \$28,250; McManus, \$24,150; Dutton, \$23,000; Bronnan, \$23,560. The Board having a right to refuse any or all bids, have not as yet decided on any one.

REESE RIVER, LANDER Co., N. T.
June 14th, 1863.

MR. EDITOR:—It is said, "Nothing on Earth was ever made in vain," and one of the best evidences in the world that this Country is rich in minerals is the self evident fact that it cannot possibly be good for anything else under the sun. From what I have seen of Nevada Territory it is certainly the most desolate looking country "the sun ever shone on."—There is a scarcity of wood and water throughout the whole mining Districts, there is no building timber, and such as it is, are only sufficient for fire wood and miners Cabins. The water, although scarce, is of an excellent quality, being free from those mineral properties which render the water in Washoe unhealthy. But as to the richness of the mines there can be no doubt that this is the richest Silver Country in the world yet discovered. The mines are not only rich but extensive, rich ledges, and in great numbers have been found for a hundred miles South of the first discovery at Austin. Assays have been made from a number of claims of rock yielding over \$5,000 per ton, and the ledges are handsomely "opened." This is destined to be a great Country, and the avenues that are opened to those who seek wealth, are innumerable, and if any of my friends in Yolo want my advice, I would say to them, this is the place to make your fortune. Come to Guadalupe, in Snooky Valley, Santa Fork District, and enquire for the undersigned, and he will put you "in the track."

After taking the liberty to send my regards to my friends through the NEWS I have the honor to be, Mr. Editor, your most humble servant.

GEO. WILLARD.

THE DEMOCRATIC PRIMARY MEETING.—Pursuant to call, the Democratic voters of Grafton precinct, having assembled for the object of electing five delegates to attend, and represent the Democrats of this precinct, in convention to be held in the town of Woodland June 27th, 1863.

On motion, W. C. Wright was elected President and E. M. Hiatt, Secretary.

On ballot—Judge H. Gwinn, E. M. Hiatt, Joseph Griffin, D. W. Edson and J. Eriel, having received the greatest number of votes were declared duly elected to said convention.

On motion—John A. Watson, H. Eastham, Dr. Fred. Morse, I. W. Jacobs and A. S. Hughes were requested to act as alternate delegates in said convention in the absence of any of the first named delegates.

After which the meeting adjourned—*sine die.*

HORSE THIEVES.—The Red Bluff Independent says: Information was brought to town that John Laeock had been killed by Mexicans, and that a party of farmers had started out and killed the Mexicans. The particulars which we learned of the affair are, that two Mexicans had stolen a number of horses from the lower end of the county, and were making their way to the mountains with them. Mr Laeock went to one of the Mexicans, whom he knew, to inquire about the horses, and when about to shake hands the Mexican shot him. Some of the farmers, on learning this, started in pursuit, and succeeded in killing one and severely wounding the other. All the horses but one were recovered. The most of the horses belonged to N. Merrill Esq., of Moon's Landing.

THE Orizaba sailed with 945 passengers and one million two hundred thousand dollars treasure.

Woodland, June 24th 1863.

EDITOR K. L. NEWS:—Sir; in your issue of 20th, instant I notice a communication from Woodland in relation to an anonymous letter said to have been found in the streets of that town and charging me with being the author. You will therefore oblige me by giving my answer in your next issue.

Your correspondent starts out by saying an anonymous letter was found and it was written by "A. P. McCarty" "I say so, and my name can be had at the NEWS Office." Now I assert your correspondent knowingly and wilfully stated that which is false. For what purpose he wrote said communication, I can only judge by the tenor of his letter, and had he known as much as many democrats; that I had positively refused being a candidate for anything, he would not have had to endure the pangs of a guilty conscience as now, and still not had to beat me for District Attorney, as I understand he is a candidate for that place. The only motive he could have in writing said communication, and in finding and publishing an anonymous letter, could only be as he states, to inform the Democrats of my unpopularity. And why does he wish to inform them of that fact? that they may succeed! What! he desire the Democracy should elect a single man on their ticket. Well well!! Sprague, certainly you have more audacity than Satan himself, though 'tis said he will deceive the very Elect. Truly you should be ashamed of yourself. Certainly you "thought you would, and did drop a line," from purely generous motives for the Copperheads, you, who has been plotting in the dark hours of night against them, denouncing them as Secessionists, rebels and Southern Sympathizers, who have no rights that ought to be respected. Certainly it was from purely generous motives for their welfare and no personal end of your own, that you wished to inform the Copperheads of Macks' unpopularity. Certainly you thought to drop a line. "Wonder if you didn't drop something else." If Mr. Sprague or Mr. any body else, wants a nomination from the Copperhead Convention, or Republican Convention, so far as I am concerned, they can have it, for I am not now, nor have I at any time previous this year, been, or consented to be a candidate for any office.

But to the letter, no sane man can read it and see anything in it that would make in my favor even had I been a candidate, except it were in a Republican convention, and God knows I would not have the effrontery to receive a nomination from them, much less to seek one. You are very popular I know, but you will have to live longer in this county than six months to get a nomination from the Democracy, or an office either I think. To my friends throughout the county; I would say I love the Democracy, if that is the only trick, certainly you will have an easy canvass this year. I don't wish the Republican party, as a party to understand me as impugning them, for many very many of them are good men, and some of them my personal friends. To my friend Sprague, I will say, my name is.

A. P. McCARTY.

P.S.—Owing to the Editor refusing my first communication, on the grounds of improper language, I have been forced to modify as above

A. P. McC.

FAILURE IN CROPS.—We can now state positively, says the San Jose Mercury, that the wheat and barley crops of this valley will fall at least fifty per cent. below that of last year in consequence of the drought. In some parts of the valley the grain is an entire failure. In the low adobe flats there are some fine fields of grain; and in other soils, where the ground was plowed to a proper depth, there is an average crop. From the fertile nature of our soil, in ordinary seasons, our farmers realize the most prolific crops by shallow plowing; but that system of farming has proved perfectly inadequate for the present year. All experience goes to prove that deep plowing is a strong safeguard against drought. Summer fallowing for wheat is something unheard of in this country, and yet we believe the increased yield, by this method, would more than compensate for the extra expense. Our farmers must learn to be thorough—till less land and do it better—and they will have less cause for complaint from drought, or mustard.

Democratic Meeting.

Proceedings of the Democracy of Grand Island, in Primary Convention, June 20th, 1863.

The meeting was organized by calling J. P. Bullock to the chair, and electing A. C. Cox Secretary.

The Chairman, in a few appropriate remarks, stated the object of the meeting, after which a committee of three, consisting of J. B. Lucas, L. Morris, and A. C. Cox, was appointed to draft resolutions, and submitted the following:

WHEREAS, The Executive of our Government, has usurped powers incompatible with his duties as prescribed by the Constitution, and exceeded the limits of its sacred precincts, which usurpations and excesses are sanctioned by the Abolition Union Party throughout the United States; and,

WHEREAS, The party in power in this State, has shown, by enacting unconstitutional laws, and entering into secret political organizations, that they are unfit and unworthy to control the affairs of State, and, that they have not the interests and welfare of the people at heart.—Therefore,

Resolved, That we are opposed to the unconstitutional acts of the President; that we will not accept the plea of necessity for the infractions of the Constitution; and that we view any such breaches as leading strings of anarchy which will terminate in despotism.

Resolved, That we, unhesitatingly condemn the illegitimate and arbitrary acts of the dominant party in our State; and that we will use all lawful and fair means for the success of the party that will strictly adhere to our State Constitution, and faithfully guard the interests of the entire people.

Resolved, That we consider the organizations called Union Leagues as instruments of arbitrary power, to be used in deterring us from the discharge of our duties as citizens, and for fixing the destinies of our country and State in the hands of the Abolition Republican party.

Resolved, That we firmly believe, the Democratic, is the only law-respecting, national, constitutional party; and we call upon all Democrats, every where, to lay aside nominal differences, and, uniting on strictly Democratic principles, present an undivided front to their opponents.

Resolved, That we further consider the Democratic, the only party capable of bringing our great national difficulties to an honorable, happy and a speedy close.

Resolved, That we regard the further prosecution of the war as unnecessary; that it has been waged sufficiently to show the stupidity of the Republican party, and the patient endurance and bravery of the American people; and

Resolved, That we demand PEACE; not a humiliating and damaging peace, for a section or State; but we demand an honorable and lasting peace, for every section, part and State, of the UNITED STATES.—In other words, we demand the Constitution as it is, and the Union as it was.

Resolved, That we reverence the Constitution as the most sacred trust, in the hands of the American people; and we regard it as the supreme law of the land, containing all that is requisite for maintaining the dignity of our Government at home and abroad, in peace and in war.

Resolved, That we, the Democrats of Grand Island, will unwaveringly support the State and county nominees of the respective Democratic conventions.

It was moved, and unanimously carried, that the above proceedings be sent to the KNIGHT'S LANDING NEWS and Weekly Express for publication.

ATTACKED BY INDIANS.—The Visalia Delta of June 18th says:

While five teamsters, with freight from Los Angeles, were passing through the Kelsey canon on Thursday last, they were attacked by a band of Indians, about forty in number, who were lying in ambush. They fired from their hiding places with rifles, killing one named Martin Hart, who was hit fairly in the head, while Oliver Burk was shot in the arm. Burke fired twice at the Indians, killing one. Dawson then took him in his arms and was carrying him off, when he was again shot in the side and requested Dawson to lay him down, as he was dying when he again fired at the Indians, and died while preparing for the fourth fire—grit to the last. Dawson, Hertz and Twitty escaped. The Indians after overhauling, everything, dressing themselves finely in store clothes and securing two cases of pistols, left. They were mostly Tehatcheps.

LARGE EMIGRANT TRAIN.—Glen & Wilson arrived in Sacramento Monday from the East with one of the largest droves of horses and mules which ever came across the Plains. They left the Missouri river on the 21st of April, making the trip in sixty two days. The train was composed of fifty six men, two women, fifteen wagons, eighty horses, three hundred and forty mules and three fine Moltese jacks. The animals look well the mules, especially, being of fine size and in good condition.

BY OVERLAND TELEGRAPH.

The following dispatches are from the Sacramento Union

PITTSBURG, June 23—Business has been suspended for a week. The citizens en masse have been digging intrenchments on the surrounding hills four miles out for the defense of the city. The works are nearly finished, and the city is considered safe.

NEW YORK, June 23—The Herald has a Shippensburg (Pa.) dispatch, which states that the rebels, consisting of mounted infantry, cavalry and artillery, entered that place this morning.

The Times Harrisburg special dispatch states that a thousand rebel cavalry advanced to Scotland this afternoon. Captain Boyd reports the rebels as slowly moving this way.

A special dispatch to the Herald tonight gives the following, The rebel General Rhodes, has the thousand men, with thirty pieces of artillery. Five thousand are on the road to Knoxville (Md.). The rebels commenced to move on Greencastle (Pa.), on Monday, 22d. The Williamsport (Md.) aqueduct has been destroyed by the rebels.

Colonel A. K. McClure reports the whole country below Chambersburg to be full of rebels.

June 24—The Baltimore American says: The rebels were driven out of Frederick by a detachment of regular cavalry from Washington. After a brief skirmish in the street our cavalry pursued them until they crossed South Mountain. Recruits gathered by them were left in the panic.

Information from Maryland Heights says the rebels are in small force in the mountains, but have made no attempt to advance on that post. Harper's Ferry is still nominally in our possession. The bridge is fully protected. Nearly the whole force of rebels is at, and near Little Antietam.

June 24—The pirates Alabama and Virginia were at Bahia on the 14th. the latter was brig rigged and without an armament.

A Washington letter dated June 22d, in the Tribune, says: The Government has determined to offer \$200 bounty to the two years and nine months men, who will serve for the war, to form a special corps. The Government is to be reimbursed for this \$200 from the Substitute Fund to be raised under the draft.

The World's special dispatch, dated Washington, June 23d, says: Intelligence from the front to night contains nothing of interest. Hooker returned to headquarters to night. It is said a Court of Inquiry will be had in Wilroy's case as soon as the exigencies of the service will permit.

United States Marshal Murray, of this city, received a letter from Daniel Sargent, United States Consul Agent at Matchtown, Bahamas, dated "June 6th" in which the following interesting postscript appears:

"By an arrival from St. Thomas, via Port au Prince, we have just learned that Semmes and three of his officers have been transferred at St. Thomas on board the frigate just out from England. The new craft is named the Georgia, and has it is said, more and heavier guns than the Alabama."

June 24—The Tribune's letter from Pleasanton's headquarters, dated June 21st, says: Pleasanton learns that the two corps of Euell and Longstreet are near Winchester, accompanied by the corps of A. P. Hill, now coming up the valley to join them.

HARRISBURG, June 24—The city has been in a high state of excitement all day. News from the Cumberland valley show that the rebels are rapidly advancing in this direction in strong force. No troops would be likely to venture so far from their base of operations into an enemy's country without a force sufficient to act on the offensive. So far no opposition has been made to their movements.

The rebels are now two miles from Carlisle, advancing. General Knipe, commanding the forces in the valley, will probably give them battle at the point. The rebels will no doubt appear in front of that town to-morrow. Our cavalry, who fled back as the rebels advanced, have been unable to discover any infantry as yet, but there is no doubt a strong force is in supporting distance.

MCCONNELLSBURG, (Pa.) June 24—Business is at a standstill, the farmers being obliged to keep their horses in the mountains. The prospect, of reaping the coming harvest are very discouraging. The rebels are overrunning Franklin county.

Two rebel deserters from a North Carolina regiment belonging to Ewell's corps came into line this morning. They report that the whole of their commander's force is in Pennsylvania. The rebels are in force at Mercersburg and have driven the pickets in on this side.

BALTIMORE, June 24—Later reliable accounts from Frederick (Md.) say there are no rebels near there, and no force in the valley beyond South Mountain. They have made no movement in this direction. No regiments are east of Boonesboro, which is four miles west of South Mountain.

nia, and are having a number made in the
Atlantic States for this market.

With this combined Machine one man, with
six horses, can do the work of three twelve
inch plows, besides sowing the grain, and
harrowing it in as he proceeds, thus finishing
his work in the best manner possible, without
being obliged to travel over the plowed ground
This Machine was very thoroughly tested by
the farmers of Santa Clara county, where some
eighty are now in use; also, by the Messrs.
Hensel & Kethley, of this county, and Messrs
Hop & Brothers, near Cacheville, Yolo county.
It is made very substantial; is not liable
to get out of order, and being on large truck
wheels, the Gang Plow, Seed Sower and Har-
row, runs lighter than three plows would, cut-
ting the same amount of land.

We are desirous of having these plows gen-
erally introduced throughout the State, and
are therefore prepared to offer very favorable
inducements to farmers and the trade. The
following are some of the names of four cus-
tomers who have used them for the past two
seasons:

- Sacramento county—Hensel & Kethley.
- Yol county—Hopkin Brothers, L M Curtis,
Galeb Davis, C Travers, A J Scroggins.
- Sutter county—M Bouliware, A L Chandler.
- Colusa county—James Timothy, J Crouch.
- Butte county—Vajor J Bidwell.
- Placer county—E Miles.

COLLINSVILLE,

Solano County, California,
At the mouth of the San Joaquin and Sacra-
mento rivers. Title a patent from the
United States.

On Wednesday, July 1, 1863.

The following farms, cottage houses, and
homestead lots will be deeded to the purchas-
ers of the certificates being only five dollars
each, which is the expense of making and ac-
knowledging the deed. So thus you see it is
in the reach of every one to become an owner
of real estate.

The object in distributing this valuable
property at the mere expense of the deed, is
to induce settlers to go to the new City, and
by so doing it will enhance the value of prop-
erty, more than any other way.

Already, at and around Collinsville, there
is a large number of inhabitants. They have
also a Post Office, Store, large Warehouse,
Hotel, School House and a magnificent wharf
300 ft. long by 10 ft. wide, which cost the
present proprietors upwards of \$10,000.
The farming country in Solano county cannot
be surpassed. Fine soil, springs of pure
water, &c., &c. A city with such a situation,
surrounded by so magnificent a country, cannot
but have a great and glorious destiny. A
ferry is established between this port, Antioch
and New York, making the distance only 35
miles by land, to San Francisco, being a saving
of over 100 miles to those who drive stock
to that market.

On the opposite side of the river, at Antioch,
there is located one of the largest Copper
Smelting Works in the United States, with a
capital of one million of dollars, and giving
employment to a great number of men. We
also have coal in abundance and at a low
price; and as all improvements in our vicinity
will benefit our place, we are confident that
we shall have a large settlement at once.

We have a number of Farms for sale vary-
ing from 40 to 60 acres each. Persons wish-
ing maps, or plans, or any information, will
please address us by mail or express.

DR. HOSTETTER'S

STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE
remedy upon the stomach, liver and ex-
cretory organs is singularly soothing and con-
servative. It regulates, recruits and purifies
them. Dyspepsia in all its forms yields to its
control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce
nutritious blood, and nutritious blood a
healthy frame. Does the victim of a dyspeptic
stomach and a disordered liver desire to know
how the digestion may be improved, the bile
and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in
the system, regulating the secretions and ex-
cretions, giving tone to the animal juices which
dissolve the food, strengthen every relaxed
nerve, muscle and fibre, and brings the whole
machinery of vitality into vigorous and health-
ful play.
