### Agenda discussion

During the 2nd week we had our 1<sup>st</sup> seminar on solar cell characteristics and we were ready to measure our ideal power we can get for our motor from the solar panel. With the help of our coach it went well. We got all our results and got ready to put them all together.

➤ Assignments

By considering the values we have obtained from V-I graph we have calculated the diode factor which was verified by the team member , we saw good results and also some problem . so have agreed to ask our coach and do futher work on them.

➤ Literature Study

The Literature study was planned during the meeting, the tasks are listed in the task list. All the necessary reports, print outs and summaries will be completed for each of the tasks, by the people that are assigned to it.

➤ Miscellany :

Our meeting on 14<sup>th</sup> feb as mentioned in our previous meeting report got cancelled as we could discuss about our team logo through social networking site.

## Future Meeting:

The next meeting will be Friday next week at 9 AM at AGORA.
