(Circle One):      Yes       No      Don't Know.      IF you answered YES, then tell what in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color yellowish-white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

a quarter of the UFO.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes  No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes  No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?  
(Circle One):

- a. Inside a building

Gentlemen;

The enclosed photograph was taken in Rochester, New York, at 8:45 p.m., February 24, 1966 with an inexpensive camera using size 127, black and white film. I am submitting it to you for evaluation.

Being the photographer, I can assure you that the photo is not a hoax, and, to the best of my knowledge, is not the result of misinterpretation of natural phenomena. Accompanying me when the photo was taken were Mrs. [REDACTED], her son, and [REDACTED] all of Rochester.

Thankyou for your cooperation.

Very truly,

1. Reference your recent observation and subsequent photograph of an unidentified flying object. The negative was submitted to Wright-Patterson Air Force Base photo experts for analysis. Examination revealed a lack of image definition which precluded positive identification of the object. A reliable sensitometric examination could not be made because the negative provided was a copy negative, therefore, it does not contain the granular structure of the original. The evidence presented is actually insufficient in terms of determining the exact stimulus.

2. If you ever observe another UFO we suggest you contact the nearest AFB. Each base has its own UFO investigator and such a person is in a far better position to conduct an on-the-spot investigation.

Mr. [REDACTED]

Rochester, New York 14613

Reference your recent correspondence concerning the status of your photograph which you submitted to our office for analysis. I regret the delay; however, at times a backlog does occur. We do not have our own photography experts but must depend on another section here at Wright-Patterson Air Force Base. Your negative has been submitted to the photo analysts and we should be hearing from them in a couple of weeks. We will then return your negative with our analysis.

Dear Sirs;

I have sent a UFO FTD Form 164 and a negative to you over four weeks ago and I have not had an answer as of yet. If you do not have the analysis of the UFO sighting done within the next few weeks I would like the negative back. If it is done please have the analysis and the negative sent to me as soon as possible.

I would appreciate it very much.

Sincerely,
