701.611	Definitions.
701.612	Authority, availability of funds and applicability.

AUTHORITY: §§ 701.601 to 701.612, inclusive, issued under secs. 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended; 49 Stat. 1148, 16 U.S.C. 590g to 590q; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423.

§ 701.601 *Distribution of funds*—(a) *State funds.* Funds available for conservation practices will be distributed among States on the basis of (1) the acreage of cropland, noncrop pasture land and rangeland, (2) conservation needs, (3) materials and facilities available for carrying out conservation practices, and (4) use of cropland in 1945.

(b) *Adjustments.* If the total estimated earnings under the program exceed the total funds available for payment, payments will be reduced equitably in States where the estimated earnings exceed the amount available for use in the State.

§ 701.602 *Conservation practice allowances, practices, and rates of payment*—(a) *Farm allowances.* (1) Farm allowances for one or more practices may be established in any State or area within a State upon the recommendation of the State committee and regional director and the approval of the Agricultural Adjustment Agency for the purpose of limiting payments, materials or services to the available funds. Farm allowances shall be based upon factors which will provide for the equitable distribution of payments, materials and services among farms, on the basis of individual farm conservation needs. Payment for practices performed with conservation materials or services, other than services furnished by a county agricultural conservation association, shall have priority over payment for other practices.

(2) *Combination of farm allowances.* Producers in any local area may agree in writing, with approval of the State committee, to perform designated amounts of practices which the State committee determines are necessary to conserve or improve the agricultural resources of the community, and where applicable, to combine all or any part of their farm allowances for this purpose. For purposes of payment, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms of the producers who performed the practices.

(b) *Conservation practices*—(1) *Basis for approval.* In any State or area the conservation practices for which payment will be made shall be those practices which are recommended by the State committee and regional director and approved by the Agricultural Adjustment Agency as practices best adapted to achieve sound soil and water conserva-

tion and use, and which will not be carried out in desired volume unless payment is made therefor. Practices to be approved will include only those which maintain or increase soil fertility; control and prevent soil erosion caused by wind or water; encourage conservation and better agricultural use of water; or conserve and increase range and pasture forage. In order to encourage the performance of practices which are needed most on all farms or on groups of farms in a county, the county committee, with the approval of the State committee, may designate from the practices approved for the State or area, those practices which will be applicable on all farms or designated groups of farms in the country.

(2) *Practices carried out with State or Federal aid.* The extent of any practice shall not be reduced because it is carried out with materials or services furnished by the Agricultural Adjustment Agency, equipment furnished by the Soil Conservation Service, materials or services furnished by an agency of a State to another agency of the same State, or trees purchased from a Clark-McNary Cooperative State Nursery. In other cases of State or Federal aid, the total extent of any practice performed shall be reduced for purposes of payment by not less than the percentage of the total cost of the practice which the county committee determines was furnished by a State or Federal agency.

(c) *Rates of payment.* In any area the rate of payment for carrying out any practice shall be the rate recommended by the State committee and the regional director and approved by the Agricultural Adjustment Agency. The rates of payment for the application of lime, phosphate, potash, gypsum, boron and mulching materials shall not exceed 80 percent of the estimated average cost of the materials on a farmyard delivery basis. The rates of payment for construction and engineering practices shall not exceed 80 percent of the estimated average cost of construction. The rates of payment for other practices shall not exceed 80 percent of the estimated average cost of performing the practices except where a higher rate of payment is justified on the basis of need for the practice in the area, or lack of familiarity on the part of farmers with the practice.

§ 701.603 *Division of payments.* The payment earned in carrying out practices with conservation materials or services, excluding services furnished by the county agricultural conservation association, shall be paid to the producer to whom the materials or services are furnished. The payment earned in carrying out other practices shall be paid to the producer who carried out the practices. If more than one producer contributed to the carrying out of such practices, the payment shall be divided in the proportion that the county committee determines the producers contributed to the carrying out of the practices. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of each practice on a particular acreage, assuming that

each contributed equally unless it is established to the satisfaction of the county committee that their respective contributions thereto were not in equal proportion. In case of the death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP-122, as amended.

§ 701.604 *Increase in small payments.* The payment computed for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to 71 cents or less shall be increased to \$1.

(b) Any payment amounting to more than 71 cents but less than \$1 shall be increased by 40 percent.

<sup>1</sup> Increase to \$200.

§ 701.605 *Payments limited to \$10,000*—(a) *Individuals, partnerships, and estates.* The total of all payments made in connection with the 1945 program to any individual, partnership, or estate with respect to farms, ranching units, and turpentine places located within a single State, territory, or possession, shall not exceed the sum of \$10,000.

(b) *Others.* The total of all payments made in connection with the 1945 program to any person other than an individual, partnership, or estate with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, and Puerto Rico) shall not exceed the sum of \$10,000.

(c) *Evasion.* All or any part of any payment which has been or otherwise would be made to any person under the 1945 program may be withheld or required to be refunded if he has adopted or participated in adopting any scheme or device designed to evade, or which has the effect of evading, the provisions of this section.

§ 701.606 *Conservation materials and services*—(a) *Availability.* Liming materials, phosphate, seeds, and other farming materials or services may be furnished by the Agricultural Adjustment Agency to producers for carrying out approved practices.

(b) *Deductions for materials and services.* Wherever materials or services are furnished, a deduction therefor shall be made in an amount determined by the Agricultural Adjustment Agency. If the producer misuses any such material or services, an additional deduction for the material or services misused equal to the amount of the original deduction for the material or services shall be made. The deduction for materials or services shall be made from any payment to the person who obtained the materials or services, but if the amount of the materials or services exceeds the amount of payment for the producer, the amount of the difference shall be paid by the producer to the Treasurer of the United States.

(c) *Materials and services in lieu of payment.* Notwithstanding any other provision in the bulletin, materials or services furnished will be in lieu of the entire payment for the farm, (1) if materials or services are furnished against the farm allowance and the increase in small payment, or (2) if the only practices performed on the farm are carried out with conservation materials or services other than services furnished by a county agricultural conservation association or other than materials the credit value of which exceeds the cost to the Agricultural Adjustment Agency.

§ 701.607 *General provisions relating to payments*—(a) *Breaking out permanent vegetative cover.* In any area designated by the Agricultural Adjustment Agency as an area subject to serious wind erosion, a deduction of \$3.00 shall be made for each acre of native sod or any other permanent vegetative cover broken out during the 1945 program year without the approval of the county committee if the county committee finds, in accordance with stand-

ards approved by the State committee, that the land broken out is not suited to the continuing production of cultivated crops and will become a wind erosion hazard to the community. The deduction shall be made from the payment of the person responsible for breaking out the land after the payment has been increased in accordance with the provisions of § 701.604.

(b) *Failure to maintain practices under previous programs.* If the county committee determines that any conservation practice carried out under previous agricultural conservation programs is not maintained in accordance with good farming practices or the effectiveness of any such practice is destroyed during the 1945 program year, a deduction shall be made for the extent of the practice destroyed or not maintained. The deduction rate shall be the 1945 practice rate, or if the practice is not offered in 1945, the practice rate in effect during the year the practice was performed. The deduction shall be made from the payment of the person responsible for destroying or not maintaining the practice after the payment has been increased in accordance with the provisions of § 701.604.

(c) *Practices defeating purposes of programs.* If the State committee finds that any producer has adopted or participated in any practice which tends to defeat the purposes of the 1945 or previous programs, it may withhold or require to be refunded all or any part of any payment which has been or would be computed for such person.

(d) *Depriving others of payment.* If the State committee finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the amount of any payment which has been or would otherwise be made to him in connection with the 1945 program.

(e) *Failure to carry out approved erosion control measures.* Payment will not be made to any person with respect to any farm which he owns or operates in a county if the county committee finds that he has been negligent and careless in his farming operations by failing to carry out approved erosion-control measures on land under his control to the extent that any part of such land has become an erosion hazard during the 1945 program year to other land in the community.

(f) *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in paragraph (g) of this section, and except for indebtedness to the United States subject to set-off under orders issued by the War Food Administrator); and without regard to any claim or lien against any crop, or proceeds

thereof, in favor of the owner or any other creditor.

(g) *Assignments.* Any person who may be entitled to any payment in connection with the 1945 program may assign his payment in whole or in part as security for cash loaned or advances made for the purpose of financing the making of a crop in 1945. No assignment will be recognized unless it is made in writing on Form ACP-69 and in accordance with the instructions (ACP-70) issued by the Agricultural Adjustment Agency.

§ 701.608 *Application for payment—*

(a) *Persons eligible to file applications.* Except where conservation materials or services are furnished in lieu of the entire payment for the farm, an application for payment with respect to a farm may be made by any producer who is entitled to share in the payment for carrying out approved practices.

(b) *Time and manner of filing application and information required.* Payment will be made only upon application submitted on the prescribed form to the county office. Where conservation materials or services are furnished by the Agricultural Adjustment Agency, there need be reported on the application for payment with respect to such materials and services only the total credit and deduction value of the materials and services furnished. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the county office within the time fixed by the regional director, which time shall not be later than December 31, 1946. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed. Such notice shall be given by mailing notice to the office of each county committee and making copies available to the press.

§ 701.609 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The county committee shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the county committee he may, within 15 days after the decision is forwarded to or made available to him, appeal in writing to the State committee. The State committee shall notify him of its decision in writing within 30 days after the submission of the appeal. If he is dissatisfied with the decision of the State committee, he may, within 15 days after its decision is forwarded to

or made available to him, request the regional director to review the decision of the State committee.

Written notice of any decision rendered under this section by the county or State committee shall also be issued to each other producer on the farm who may be adversely affected by the decision.

§ 701.610 *State and regional bulletins, instructions, and forms.* The Agricultural Adjustment Agency is authorized to make determinations and to prepare and issue State and regional bulletins, instructions and forms required in administering the 1945 program.

elected within any county to assist in the administration of the Agricultural Conservation Programs in such county.

(b) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee, in accordance with instructions issued by the Agricultural Adjustment Agency, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

(c) "New farm" means a farm on which tobacco was not produced in any of the five years 1940 to 1944 but on which tobacco will be produced in 1945.

(d) "Old farm" means a farm on which tobacco was produced in one or more of the five years 1940 to 1944.

(e) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(f) "Person" means an individual, partnership, association, corporation, estate or trust or other business enterprise or other legal entity and wherever applicable, a State, a political subdivision of a State or any agency thereof.

(g) "State committee" means the group of persons designated within any State to assist in the administration of the Agricultural Conservation Programs in such State.

(h) "Tobacco" means Burley tobacco as classified in Service and Regulatory Announcement No. 118 of the Bureau of Agricultural Economics of the United States Department of Agriculture, as type 31.

§ 724.712 *Extent of calculations and rule of fractions*. All acreages shall be calculated to the nearest one-tenth acre. All percentages shall be calculated to the nearest whole percent except that in calculating the percent of excess acreage, all fractions shall be dropped if the percentage is more than one percent, and all fractions of less than a tenth shall be dropped if the percentage is less than one percent.

§ 724.713 *Instructions and forms*. The Chief of the Agricultural Adjustment Agency shall cause to be prepared and issued such instructions and such forms as may be deemed necessary or expedient for carrying out §§ 724.711 to 724.723, inclusive.

§ 724.714 *Applicability of §§ 724.711 to 724.723, inclusive*. Sections 724.711 to 724.723, inclusive, shall govern the establishment of farm acreage allotments

and normal yields for Burley tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1945.

**ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS**

§ 724.715 *Determination of acreage allotments for old farms.* The tobacco acreage allotment for an old farm shall be the 1944 acreage allotment for the farm, adjusted in accordance with §§ 724.716, 724.717, and 724.718, below. For the purposes of this section, the 1944 acreage allotment shall include any acreage by which the 1944 allotment for the farm was reduced because of a violation of the marketing quota regulations for a prior marketing year but shall not include any acreage allotted in 1944 from State pools unless the owner of the farm was dispossessed of another farm through acquisition thereof by a Federal agency for National defense purposes. No allotment shall be established under this section for any farm on which no tobacco was grown in any of the five years 1940 to 1944, inclusive.

§ 724.716 *Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* If tobacco was sold or was permitted to be sold in any marketing year on a marketing card for any farm which in fact was produced on a different farm, the acreage allotment established for both such farms for 1944 shall be reduced by the amount of tobacco so marketed; *Provided*, That such reduction shall not be made if the War Food Administrator, through the county committee, determines that no person connected with such farm caused, aided, or acquiesced in such marketing. If proof of the disposition of any amount of tobacco produced on a farm is not furnished as required by the War Food Administrator, the acreage allotment shall be reduced by such amount of tobacco. This section shall not apply if the allotment for any prior year was reduced on account of the same violation.

The amount of tobacco involved will be converted to an acreage basis by dividing such amount of tobacco by the actual yield for the farm during the year in which such tobacco was produced, or if the actual yield cannot be determined, by the estimated yield for the farm for such year.

§ 724.717 *Adjustments by county committees.* An acreage not in excess of two percent of the 1940 acreage allotment for each State will be available for allotment by the respective county committees. An old farm shall be eligible for adjustment as provided hereunder if the committee finds that the 1944 allotment for the farm is relatively smaller in relation to the land, labor and equipment available for the production of tobacco on the farm than the average of the allotments in relation to such factors on other old farms in the county. In making the adjustment in the farm acreage allotment, the county committee shall consider the past acreage of tobacco (harvested and diverted), the land, labor and equipment

available for the production of tobacco, and crop rotation practices. Without prior approval of the State committee, the acreage allotted under this section shall not exceed one percent of the county acreage allotment for 1940.

All adjustments as provided above shall be subject to the approval of the State committee.

§ 724.718 *Reallocation of allotments released from farms removed from agricultural production.* (a) Except as provided in paragraph (b) of this section, the tobacco allotment determined or which would have been determined for any land which is removed from agricultural production because of acquisition by a State or Federal agency for any purpose or by a person for use in connection with the national defense program shall be available to the State committee for use in providing equitable allotments for farms on which tobacco was grown in one or more of the past five years, and which are operated in 1945 by persons who were producers of tobacco on land so removed from agricultural production. Insofar as possible the allotments for farms operated by such persons shall be comparable to the allotments for other old farms in the same community which are similar with respect to land, labor and equipment available for the production of tobacco, crop rotation practices, soil and other physical factors affecting the production of tobacco, taking into consideration the allotment for the land removed from agricultural production. The allotment so determined shall be subject to the approval of the State committee and shall not exceed the larger of (1) the 1945 allotment previously determined for such land, or (2) the allotment which was or would have been determined for the land removed from agricultural production; *Provided*, That in no event shall the allotment so determined exceed the larger of 20 percent of the acreage of cropland in the farm, or three acres.

(b) The allotment determined or which would have been determined for any land acquired on or since January 1, 1940 by any Federal agency for national defense purposes shall be placed in a State pool and shall be used in determining equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farm by a Federal agency for national defense purposes. Upon application to the county committee, any owner so displaced shall be entitled to have an allotment for any one of the other farms owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm acquired by the Federal agency; *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland in the farm. The provisions of this paragraph shall not be applicable if (1) there is any marketing quota penalty due with respect to the marketing of tobacco from the farm or by the owner of the farm at the time of its acquisition by the Federal agency;

(2) any tobacco produced on such farm has not been accounted for as required by the War Food Administrator; or (3) if the allotment next to be established for the farm acquired by the Federal agency would have been reduced because of false or improper identification of tobacco produced on or marketed from such farm.

§ 724.719 *Farms subdivided or combined.* (a) If land operated as a single farm in 1944 or any previous year has subsequently been subdivided and will be operated in 1945 as two or more farms, the 1945 tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall be apportioned among the tracts in the same proportion as the acreage of cropland suitable for the production of tobacco on each such tract in such year bore to the total number of acres of cropland suitable for the production of tobacco on the entire farm in such year unless otherwise recommended by the county committee and approved by the State committee; *Provided*, That no allotment established in 1945 for any farm having a 1943 allotment shall be less than one acre or 25 percent of the cropland on the farm, whichever is the smaller, except where such acreage allotment is adjusted downward below one acre in accordance with § 724.716.

(b) If two or more farms operated separately in 1944, or any previous year, have subsequently been combined and will be operated in 1945 as a single farm, the 1945 allotment shall be the sum of the 1945 allotments determined or which otherwise would have been determined for each of the farms composing the combination.

§ 724.720 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the years 1939-43; (b) the soil and other physical factors affecting the production of tobacco on the farm and (c) the yields obtained on other farms in the locality which are similar with respect to such factors. The weighted average of the normal yields for all farms in each county shall not exceed the normal yield established for the county in 1944, unless an adjustment for abnormal conditions is made by the War Food Administrator upon recommendations of the State committee.

**ACREAGE ALLOTMENTS AND YIELDS FOR NEW FARMS**

§ 724.721 *Determination of acreage allotments for new farms.* The acreage allotment, other than an allotment made under § 724.718 (b), for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the land, labor and equipment available for the production of tobacco, crop rotation practices, the soil and other physical factors affecting the production of tobacco; *Provided*, That the acreage allotment so determined shall not exceed

the smaller of (a) seventy-five percent of the allotments established pursuant to § 724.715 for old farms which are similar with respect to land, labor and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco, or (b) fifty percent of the cropland in the farm.

Notwithstanding any other provisions of this section a tobacco acreage allotment shall not be established for any new farm if such farm has any other tobacco acreage allotment and unless either the operator or the person growing the tobacco (a) shall have had experience in growing burley or any other kind of tobacco during the past five years and (b) shall be living on the farm and largely dependent on this farm for his livelihood.

The acreage allotments established as provided in this section shall be subject to (a) the approval of the State committee, and (b) such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. The acreage available for establishing allotments for new farms shall be five percent of the national acreage allotment for 1945.

§ 724.722 *Time for filing application.* An application for an allotment for a farm for which no allotment was established in 1944, shall be filed with the county committee prior to March 1, 1945.

§ 724.723 *Determination of normal yields.* The normal yield for a new farm shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 727.715 *Determination of acreage allotments for old farms.* The tobacco acreage allotment for an old farm shall be the 1944 acreage allotment for the farm, adjusted in accordance with §§ 727.716, 727.717, and 727.718, below. For the purpose of this section, the 1944 acreage allotment shall include any acreage by which the 1944 allotment for the farm was reduced because of a violation of the marketing quota regulations for a prior marketing year, but shall not include any acreage allotted in 1944 from State pools unless the owner of the farm was dispossessed of another farm through acquisition thereof by a Federal agency for National defense purposes. No allotment shall be established under this section for any farm on which no tobacco was produced in any of the five years 1940 to 1944, inclusive.

§ 727.716 *Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* If tobacco was sold or was permitted to be sold in any marketing year as having been produced on any farm which in fact was produced on a different farm, the acreage allotment established for both such farms for 1945 shall be reduced by the amount of tobacco so marketed; *Provided*, That such reduction shall not be made if the War Food Administrator, through the county committee, determines that no person connected with such farm caused, aided, or acquiesced in such marketing. If proof of the disposition of any amount of tobacco produced on a farm is not furnished as required by the War Food Administrator, the acreage allotment shall be reduced by such amount of tobacco. This section shall not apply if the allotment for any prior year was reduced on account of the same violation.

The amount of tobacco involved will be converted to an acreage basis by dividing such amount of tobacco by the actual yield for the farm during the year in which such tobacco was produced, or if the actual yield cannot be determined, by the estimated yield for the farm for such year.

§ 727.717 *Adjustments by county committees.* An acreage not in excess of two percent of the 1940 acreage allotment for each State will be available for allotment by the respective county committees. An old farm shall be eligible for adjustment as provided hereunder if the committee finds that the 1944 allotment for the farm is relatively smaller in relation to the land, labor, and equipment available for the production of tobacco on the farm than the average of the allotments in relation to such factors on other old farms in the county. In making the adjustment in the farm acreage allotment, the county committee shall consider the past acreage of tobacco (harvested and diverted), the land, labor and equipment available for the production of tobacco, and crop rotation practices. Without prior approval of the State committee, the acreage allotted under this section shall not exceed one percent of the county acreage allotment for 1940.

All adjustments as provided above shall be subject to the approval of the State committee.

§ 727.718 *Reallocation of allotments released from farms removed from agricultural production.* (a) Except as provided in paragraph (b) of this section, the tobacco allotment determined or which would have been determined for any land which is removed from agricultural production because of acquisition by a State or Federal agency for any purpose or by a person for use in connection with the national defense program shall be available to the State committee for use in providing equitable allotments for farms on which tobacco was grown in one or more of the past five years, and which are operated in 1945 by persons who were producers of tobacco on land so removed from agricultural production. Notwithstanding any other provisions of this section a tobacco acreage allotment shall not be established for any new farm if such farm has any other tobacco acreage allotment and unless either the operator or the person growing the tobacco (a) shall have had experience in growing flue-cured or any other kind of tobacco during the past five years, and (b) shall be living on the farm and largely dependent on this farm for his livelihood.

The acreage allotments established as provided in this section shall be subject to (a) the approval of the State committee, and (b) such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. The acreage available for establishing allotments for new farms shall be five percent of the national acreage allotments for 1945.

§ 727.722 *Time for filing application.* An application for an allotment for a farm for which no allotment was established in 1944, shall be filed with the county committee prior to March 1, 1945.

No. 10—2

#### PART 3191—CIVILIAN AIRCRAFT

[Preference Rating Order P-47, as Amended Jan. 12, 1945]

§ 3191.21 *General Preference Rating Order P-47*—(a) *Purpose and scope.* The purpose of this order is to provide certain persons operating civilian type aircraft essential to the war effort with a uniform procedure for obtaining material for the operation of aircraft and for aircraft facilities both in the case of controlled materials obtained by use of allotment symbols under the Controlled Materials Plan and in the case of materials or products, including components, obtained by preference ratings.

(b) *Definitions.* (1) "Aircraft facility" means any material, equipment, machinery or structure used in connection with the operation or shelter or the maintenance or repair of aircraft. The term does not include "aircraft and aircraft products" as defined in Order L-48. (The term "aircraft and aircraft products" is defined in Order L-48 to mean airplanes, airframes, airplane propulsion engines, airplane propellers, gliders and aircraft training devices designed to simulate actual flying conditions.)

(2) "Operator" means any individual, partnership, association, business, trust, corporation or any organized group of persons (whether incorporated or not) other than the Army or Navy of the United States which is engaged in:

(i) The operation of a commercial airline, whether or not the airline operates outside the United States;

(ii) [Deleted Jan. 12, 1945.]

(iii) The operation of any aircraft to the extent that such aircraft is based in the Territory of Alaska.

(c) *Preference rating and allotment symbol.* Each operator is assigned a preference rating of AA-1 and is authorized to use the allotment symbol S-4 to get the materials he needs for maintenance, repair and operating supplies and for new aircraft facilities, subject to the limitations contained in the following paragraphs.

(d) *Limitations on the quantity of materials.* (1) Each operator wishing to use the preference rating and allotment symbol assigned in paragraph (c) must, on or before January 25, 1945, file Form WPB-1747, in accordance with the instructions accompanying the form, requesting approval of the War Production Board for the amount of material he will need during 1945 (by calendar quarters) for maintenance, repair and operating supplies and new aircraft facilities. The War Production Board will then issue an approval on that form for the amount of material that the operator may get during 1945 (by calendar quarters) with the preference rating and allotment symbol assigned in paragraph (c). No operator may use that preference rating or allotment symbol to get in any calendar quarter (beginning with the first calendar quarter of 1945) an amount of material costing more than the amount

approved on the form for the particular quarter.

(2) Until the War Production Board approves an amount of materials on Form WPB-1747 for the first quarter of 1945, each operator may use the preference rating and allotment symbol assigned above to get an amount of materials equalling not more than one and one-third times the amount approved for him on Form WPB-1747 for the second calendar quarter of 1944, or, if no amount was approved for him for that quarter, an amount of materials equalling not more than one and one-third times the amount most recently approved for him by the War Production Board on Form WPB-1747 for a calendar quarter of 1944. In passing on the applications required to be filed under paragraph (d) (1) above, the War Production Board will, in no event, approve for the first quarter of 1945 an amount less than that permitted in this paragraph (d) (2).

(3) Any operator who wishes to get an amount of material in excess of the amount approved under paragraph (d) (1) should file Form WPB-1747 requesting approval from the War Production Board for materials in excess of the previously approved amounts; and if the War Production Board approves the application, it will authorize the use of the preference rating and allotment symbol assigned in paragraph (c) to get a specified amount of materials in excess of the previously approved amounts. Also, any new operator may file Form WPB-1747 requesting an approval for the materials he needs.

NOTE: Subparagraph (4) formerly (3) redesignated Jan. 12, 1945.

(4) In addition, any operator wishing to purchase any aircraft or aircraft products, as defined in Order L-48, must comply with the provisions of that order. The preference rating assigned by this Order P-47 may not be used to get any item for which an authorization is obtained under Order L-48.

(e) *Limitation on the purchase of materials for construction jobs.* Materials obtained under the provisions of paragraphs (c) and (d) of this order may be used for construction jobs needed to carry on an operator's aircraft operations but only if the cost of the material used in the job does not exceed \$2,500. (In determining the cost of material, the cost of any equipment which is being installed for use in the maintenance, repair or operation of aircraft may be excluded. No construction job shall be subdivided for the purpose of coming within the \$2500 limit.) Any such construction job may be carried on without getting permission to begin construction under Order L-41. All other construc-

tion may be carried on only to the extent permitted under the provisions of Order L-41. The term "construction" is defined in paragraph (b) of Order L-41.

(f) *Application for items requiring assignment of ratings to specific quantities and types of materials.* Any operator may file Form WPB-1747 for items which under Priorities Regulation No. 3 (items on List B), or under any other order or regulation of the War Production Board, can be purchased with preference rating assistance only if the preference rating is specifically assigned to deliveries of specific quantities and types of materials. The War Production Board may authorize the use of a preference rating for those items. However, if a War Production Board order or regulation with respect to a particular material provides that a rating for that material must be assigned on a particular form, then the application must be made on that form and not on Form WPB-1747.

(g) *Acquisition of materials.* Operators may obtain materials under this order by placing on their purchase orders the following certification, (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

CMP Allotment symbol S-4 (Serial No. ....). Preference Rating AA-1, S-4. The undersigned certifies subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are within the amounts approved by the War Production Board under Preference Rating Order P-47, and are to be used for a purpose so approved.

Name.....  
By.....  
Authorized Official.

Date.....

The operator should include in his certificate the serial number assigned to him in his approved Form WPB-1747. A purchase order for controlled materials bearing this certification shall be deemed an authorized controlled material order for the purpose of all CMP Regulations.

(h) *Penalties for misrepresentation.* (1) The placing of any order bearing a certification or symbol, as provided by this order, shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this order, to use of the symbol or preference rating indicated thereon.

(i) *Inventory restrictions.* No operator shall receive any delivery if acceptance thereof would increase his inventory above a practicable working minimum, as provided in § 944.14 of Priorities Regulation No. 1, or would exceed the inventory limitations prescribed for such

person by CMP Regulation No. 2, or by any other applicable regulation or order of the War Production Board.

(j) *Applicability of other orders and regulations.* (1) Nothing in this order shall be construed to relieve any person from complying with any applicable regulation or order of the War Production Board (including orders in the "E", "L", and "M" series) or with any order of any other competent authority.

(2) No operator may acquire material by the use of CMP Regulation No. 5 or No. 5A. Persons needing maintenance, repair and operating supplies for aircraft who are not operators within the meaning of this order may use CMP Regulation 5 or 5A where applicable or any other applicable order or regulation of the War Production Board.

(k) *Communications.* All communications concerning this order should be addressed to: War Production Board, Washington 25, D. C. Ref: P-47.

#### PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 5  
as Amended Jan. 12, 1945]

##### PEROXYGEN CHEMICALS

§ 3293.1005 *Schedule 5 to General Allocation Order M-300—(a) Definition.* "Peroxygen chemicals" mean any one or more of the following: hydrogen peroxide; sodium peroxide; sodium perborate.

(b) *General provisions.* Peroxygen chemicals are subject to allocation under General Allocation Order M-300 as Appendix B materials. The initial allocation date is April 1, 1944. The allocation period is the calendar month.

(c) *Small order exemption.* The small order exemption, per month, for each of the peroxygen chemicals (i. e., the amount which any person may receive from all suppliers) is as follows:

- (1) Hydrogen peroxide (100 volume equivalent), 120 pounds.
- (2) Sodium peroxide, 75 pounds.
- (3) Sodium perborate, 25 pounds.

(d) *Supplier's application on Form WPB-2947.* (1) Each supplier requiring authorization to use or deliver the peroxygen chemicals shall file application on Form WPB-2947 (formerly PD-602) on or before the 20th day of the month preceding the month for which allocations are sought. A separate set of forms shall be prepared and filed for each of the peroxygen chemicals for which authorization to use or deliver is requested.

(2) Each supplier shall list, individually, the names of customers who have placed orders for more than the quantity permitted for small orders. No such individual order shall be listed or filled unless the customer has filed with the supplier the required end-use certificate. In addition, an item should be included for "small orders received" which shall show the aggregate quantity requested to fill small orders without listing the names of the individuals placing the small orders. A supplier may also request, as a separate item, an estimated quantity to cover "small orders anticipated."

(3) Normally the War Production Board will issue its authorizations and directions on Form WPB-2947 and, in addition to making individual allocations for listed customers, will allocate a lump sum for small orders.

(4) Form WPB-2947 should be completely filled in. The unit of measure for the peroxygen chemicals is pounds. No grade need be specified except as to hy-

drogen peroxide in which case the volume of the material shall be stated. In Columns 5 and 5-a of Table I the supplier may, but need not, enter the quantity which he recommends for delivery. In Column 7 of Table I the supplier should enter a statement of the average monthly purchases made by each customer listed in Column 1 during the six months period of January to June, inclusive, 1943.

(e) *Customer's certificate of end use.*

(1) Each person ordering for delivery in any month more than the quantities of any of the chemicals permitted by the small order exemption shall furnish to each supplier with whom an order is placed a certified statement of the proposed use of such chemicals. The certification shall be in the form and subject to the instructions set forth in Appendix D of General Allocation Order M-300.

(2) Customers' orders accompanied by such certifications should be in the hands of suppliers not later than the 14th day of the month preceding the period during which delivery is sought. This is necessary to enable suppliers to file on time their requests for allocations with the War Production Board.

(3) A certificate shall separately list each of the peroxygen chemicals ordered and shall also separately state the quantity of each of the peroxygen chemicals required for a particular primary product and end use.

(4) No supplier shall deliver any of the peroxygen chemicals to any person when he knows or has reason to believe such person's certificate to be false; but in the absence of such knowledge or reason to believe, the supplier may rely on the certificate.

(f) *Customer's one-time report.* (1) Each person (excluding government departments or agencies) who orders for delivery in any month more than the exempt quantity of any of the peroxygen chemicals shall file with the War Production Board—one time only with respect to any one of such chemicals—a report on Form WPB-3442. A separate report should be filed for each of the peroxygen chemicals so ordered. This report is required for the purpose of advising the War Production Board as to the quantity of each of the peroxygen chemicals consumed during the calendar year 1943. A report for each of the peroxygen chemicals shall be filed not later than the 20th day of the month preceding the month during which delivery of such chemical is sought, but in any case need not be filed before March 20, 1944.

(2) Copies of Form WPB-3442 may be obtained at local field offices of the War Production Board. One signed copy shall be forwarded to the War Production Board, Washington 25, D. C. In Section I, above Column (c) specify "calendar year, 1943"; Columns (d) to (g), inclusive, may be left blank. No grade need be specified except in the case of hydrogen peroxide, in which case the volume of the material should be specified in Column (b). In Section II, Column (b) the date to be specified is December 31, 1943; in Column (c) the date to be speci-

fied is the last day of the month preceding the month in which the report is filed. Column (d) may be left blank.

(g) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this schedule shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Reference: M-300-5.

NOTE: Forms WPB-2947 and 3442 and the instructions in this schedule and the appendices of order M-300 for applications for the peroxygen chemicals have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 12th day of January 1945.

[Directive 25]

PART 4004—PRICE STABILIZATION; MAXIMUM PRICES

PROCESSED FRUITS AND VEGETABLES

The Price Administrator having submitted his recommendations to me regarding the methods to be used in establishing maximum prices for the 1944 pack of canned fruits and vegetables, and for frozen, pickled and preserved fruits and vegetables, I hereby find it necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 (7 F.R. 7871) and 9328 (8 F.R. 4681) to issue this Directive.

The Office of Price Administration is hereby authorized and directed to establish prices for the 1944 pack of canned fruits and vegetables in accordance with the following principles:

(a) Prices shall be established by formula.

(b) The basic formula shall consist of two parts:

(1) A base price for each canner chosen for a suitable period of sales of the 1941 pack, ordinarily the first sixty days after the start of the 1941 pack of each commodity for the individual canner;

(2) An adjustment factor to cover changes in costs since 1941, modified as explained under (5).

(c) The base price shall be computed for each firm or plant for each variety, commercial grade, and container size. All brands in each commercial grade shall be averaged in that grade. A statement of the AMA grade corresponding to each commercial grade shall be required although the pricing is by commercial grades.

(d) The adjustment factor shall be established for industry groups which have experienced similar cost increases, not for individual firms. The groups may be defined by geographic area, size of firm or other factors which the Office of Price Administration finds relevant. The factor shall cover the bulk line or average increase in cost for the group at the discretion of the Office of Price Administration (See also (7) below.)

(e) The adjustment factor determined to cover cost increases shall be modified

so as to give the industry as a whole normal profits. "Normal" shall here be defined to mean the weighted average percentage of net profit before taxes to sales for the fiscal years most nearly corresponding to the pack years 1940 and 1941 for a group of canners which the Office of Price Administration finds to be representative of the industry as a whole. This profit percentage shall be adjusted for increases in the level of prices for canned fruits and vegetables which have occurred since 1941. The Office of Price Administration need not maintain the profit position of individual firms or the profit margins on individual items of the pack.

(f) The ceiling prices established by the foregoing methods shall be restricted to specified ranges for each AMA grade. The method of determining the range shall be developed by the Office of Price Administration. Any ceiling price below the range shall be moved up to the bottom of the range and any ceiling price above the range shall be moved down to the top of the range.

(g) Ceiling prices for minor varieties of fruits and vegetables and for the less common grades and container sizes and ceiling prices for firms who are not able to apply the basic formula may be established at the discretion of the Office of Price Administration by other methods which will yield prices similar to those which would be established by the basic formula outlined above.

(h) All ceiling prices shall be established on a "gross" basis. The Office of Price Administration shall require reductions from these prices for sales to Government procurement agencies to cover the difference between the cost of selling to the Government and the cost of selling to civilians. For sales to civilians of commodities which are subsidized, the gross price shall be reduced by the amount of the subsidy.

Prices for frozen, pickled, and preserved fruits and vegetables shall be priced according to similar methods modified to meet the technical peculiarities of each of the industries. The normal profit period shall be determined for each industry separately upon an analysis of its profit history.

(E.O. 9250 and E.O. 9328)

Effective date: April 6, 1944.

Issued this 6th day of April 1944.

[Directive 25, Amdt. 1]

PART 4004—PRICE STABILIZATION; MAXIMUM PRICES

PROCESSED FRUITS AND VEGETABLES

The Price Administrator and the War Food Administrator having submitted certain information and recommendations with respect to the necessity, under the processed fruit and vegetable pricing program approved by this office on April 6, 1944, for increasing the gross returns

to those processors whose costs have increased because of certain wage increases approved by the War Labor Board, I hereby find it necessary, in order to effectuate the purposes of Executive Orders 9250 and 9328, to issue this amendment to Directive No. 25.

1. The Office of Price Administration is hereby authorized and directed to compute the increased costs of the 1944 processed pack of fruits and vegetables which result from wage increases to processors' employees approved by the War Labor Board and not taken into account in establishing maximum prices under Directive No. 25, and to increase the maximum prices for sales to government procurement agencies by amounts equal to the increased wage costs which it determines to be allocable to the fruits and vegetables thus sold.

2. The Commodity Credit Corporation is hereby authorized and directed to absorb those increased costs of the 1944 processed pack of fruits and vegetables resulting from such wage increases as the Office of Price Administration determines to be allocable to fruits and vegetables sold to purchasers other than government procurement agencies, but only in an amount necessary to equalize the percentage of any processors' net returns (before taxes) to sales from his fruit and vegetable processing operations during the 1944 season, with the weighted average percentage of net profit (before taxes) to sales for those operations for the fiscal years most nearly corresponding to the pack years 1940 and 1941, of a group of processors found by the Office of Price Administration to be representative of the industry as a whole: *Provided, That:*

(a) If the salaries of officers or owner-operators have been increased by more than 10 percent of the average 1936-1939 salaries of such officers or owner-operators, the amount of such increases in excess of 10 percent shall be deducted from the amount otherwise to be absorbed by the Commodity Credit Corporation, and

(b) Cooperative associations which normally do not compute profits shall, for purposes of justifying claims, submit a calculation of profits that would have been made if the raw product had been purchased at support prices (if support prices for such products have been established), and at prices paid by other local or nearby processors during the processing season for other fruits and vegetables.

3. In order to be eligible for payments under this directive, processors must first certify that they have increased their wages only in accordance with the order or approval of the War Labor Board and that they have not sold products at prices in excess of the ceilings established by the Office of Price Administration.

(E.O. 9250 and E.O. 9328)

Effective date: January 11, 1945.

No. 10—3

[Gen. Order ODT 47]

## PART 500—CONSERVATION OF RAIL EQUIPMENT

## PASSENGER TRAIN OPERATIONS RESTRICTED

**General outline.** This General Order ODT 47 establishes controls over passenger train service in addition to those prescribed by General Order ODT 24. The Director of the Office of War Mobilization and Reconversion has pointed out the necessity of conserving coal. The consumption of coal must be reduced. Manpower shortages in the railway transport field continue to exist. There is a shortage in railway equipment. The purpose of the order is to conserve fuel, manpower, railway equipment and transportation facilities so that essential traffic may continue to move.

The order requires rail carriers to discontinue seasonal passenger service to resort, recreational and vacation areas. It also restricts the operation of passenger trains after March 1, 1945, unless the occupancy thereof during November, 1944, averaged 35 per cent or more. This requirement of the order may necessitate passengers using trains handling both freight and passengers. General Order ODT 24 prohibiting special and excursion trains continues in effect. The war demands upon our transportation agencies will not permit service judged by peacetime standards. People must travel less frequently if war traffic is to move without delay. Passenger trains operated in suburban or interurban service are exempted from the order.

This general outline shall not be construed to alter the meaning of any provision contained in the order.

Pursuant to Title III of the Second War Powers Act, 1942; Executive Order 8989, as amended, and in order to make available manpower, railway cars, motive power, fuel and other transportation facilities and equipment for the preferential transportation of troops and materials of war, as contemplated by section 6 (8) of the Interstate Commerce Act, as amended; to prevent shortages of manpower, fuel and equipment necessary for such transportation; and to expedite the movement of essential traffic the attainment of which purposes is essential to the successful prosecution of the war, it is hereby ordered, that:

## TITLE 50—WILDLIFE

## Chapter IV—Office of the Coordinator of Fisheries

[Order 1838; Gen. Direction P-17]

## PART 401—PRODUCTION OF FISHERY COMMODITIES OR PRODUCTS

## COORDINATED PILCHARD PRODUCTION PLAN

Pursuant to paragraph (n) of Order 1838 of the Secretary of the Interior, the Pilchard Order, as amended (9 F.R. 7171, 9749), and because it is deemed necessary to accomplish the purposes of that order, General Direction P-14 is hereby amended to read as follows:

(a) *Setting limitations.* Whenever pilchard (sardines) are being brought in to any port in such quantities that in the opinion of the Area Coordinator for Area II, they are being unloaded only after unreasonable delay and resulting substantial loss of fishing time by some of the vessels or are being processed only after unreasonable delay and resulting substantial loss of food value from the product, or when for any other reason in his opinion such action is reasonably necessary in order to accomplish the purposes of the Pilchard Order, the Port Supervisor, pursuant to instructions to be given by the Area Coordinator, shall limit the amount of pilchard (sardines) which each vessel may thereafter bring into such port daily. The limits shall be set by the Port Supervisor for each day at an amount which, in his opinion, will provide the maximum tonnage which will be unloaded and processed properly and without unreasonable delay on that day by the processing equipment and labor then available in that port. The limits shall be changed from day to day as deemed necessary by the Port Supervisor, but except as otherwise provided herein shall be the same for all vessels on the same day. For the purpose of this direction, the term "pilchard" shall be construed to include any fish taken by a vessel operating under a pilchard permit.

(b) *Notice of limits.* Notice of the fixing of limits, and of the maximum tonnage limits set for each day, shall be given by posting a statement thereof at least two and one-half hours before sunset on the preceding day, as follows: at San Pedro, in the office of the Port Supervisor; at Monterey, on the U. S. Coast Guard War Emergency Bulletin Board on Fishermen's Wharf; at San Francisco, outside Fisherman's Hall on Fishermen's Wharf, or if the weather is bad, just inside the hall. If a notice is so posted, ignorance thereof by any person shall not excuse any violation of this direction. If any person interested does not secure information elsewhere as to the limit so fixed for a certain day, he shall secure it by telephone, radio, or other communication with the Port Supervisor.

(c) *Exceptions.* Whenever it shall have been determined by the Area Coordinator for Area II that the catch of any vessel or group of vessels has been materially lowered by reason of their previously operating under permits amended pursuant to paragraph (f) (3) of the Pilchard Order, the Port Supervisor may set a higher limit for such vessels than for the remainder of the fleet. Whenever a permit has been issued subject to the condition expressed in the permit or in a letter to the permittee accompanying the permit when issued, such condition specifying that it might be necessary to limit the catches of the vessel because the permit is being granted at the request of the permittee for a port which is already well supplied with vessels for the season, the Port Supervisor may set a lower limit for such a vessel than for the

remainder of the fleet; moreover, the procedure described herein may be used to set limits applicable to such a vessel, when deemed necessary as set out in paragraph A above, even though it is not deemed necessary to fix limits for other vessels in the port. Whenever a vessel has, because of emergency or otherwise, been allowed to land a load in excess of the limit fixed, limits may be set for the vessel for one or more following days below those for other vessels in the port.

(d) *Violations.* No person shall knowingly bring into such port a load of pilchard (sardines) in excess of the applicable limits so fixed, and any violator of this direction shall be subject to the remedial proceedings described in paragraph (c) of the Pilchard Order; *Provided, however,* That where there has been a bona fide mistake in estimating the weight of the load, a five-ton margin of error shall be allowed so that if any person bringing in a load of pilchard (sardines) has aimed to keep his load within the applicable limit so fixed, but by mistake brings in not more than five tons in excess of that limit, he shall not be deemed to have violated this direction. In addition to the remedial proceedings referred to above the Port Supervisor may, in his discretion, require delivery of such load at another port, or delay dispatching any vessel bringing in such a load for delivery of its load, or may cancel any dispatching direction already given for such load, or as to any part thereof, until delivery of the load will not affect adversely deliveries from vessels which have not violated the order. He may also, in his discretion, set limits for the vessel for following days below those for other vessels in the port; the lowered limits may be such as to reduce actual deliveries by such vessel to an aggregate amount equal to or less than the aggregate tonnage it would have delivered if it had complied with this direction. No person shall take delivery of any part of a load of pilchard (sardines) in excess of five tons over the applicable limit for the load in question except pursuant to a direction expressly applicable to such excess tonnage given by the Port Supervisor or his Assistant with full knowledge of the facts.

(e) *Representative of Area Coordinator, termination of limits.* Any of the Area Coordinator's functions under this direction, in his absence or inability to act, may be performed by his representative. Limitation of pilchard catches as set out herein is a temporary expedient and shall be terminated by the Port Supervisor as soon as possible when by reason of amending permits or other change of circumstances it is in his opinion no longer necessary.

Issued: January 4, 1945.

O. E. SETTE,  
Area Coordinator, Area II.

## FEDERAL POWER COMMISSION.

[Docket No. G-609]

## KANSAS POWER AND LIGHT CO.

## NOTICE OF APPLICATION

JANUARY 10, 1945.

Notice is hereby given that on December 29, 1944, an application was filed with the Federal Power Commission by The Kansas Power and Light Company (Applicant), a Kansas corporation having its principal place of business in Topeka, Kansas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize applicant to construct and operate a natural-gas transmission pipe line, a number of field lines, and a gasoline recovery and dehydration plant, all to be used for the transportation of natural gas from the Lake gas field in northeast Barber County, Kansas, to the company's existing natural-gas pipe-line system at a point south of the city of Pratt, in central Pratt County, Kansas.

The facilities above referred to consist more specifically of the following construction:

(1) 18.5 miles of 16-inch O. D. transmission line extending from a point in section 17, T. 31 S., R. 14 W., Barber County, Kansas, to a point of connection with Applicant's existing 18-inch gas transmission line in section 23, T. 28 S., R. 13 W., Pratt County, Kansas;

(2) 20,500 feet of 8-inch pipe line beginning at a point of connection with the proposed 16-inch line in section 34, T. 30 S., R. 14 W., and extending easterly to section 32, T. 30 S., R. 13 W., all in Barber County, Kansas;

(3) 4,500 feet of 8-inch pipe line beginning at a point of connection with the proposed 16-inch transmission line in section 17, T. 31 S., R. 14 W., and extending westerly to section 18, T. 31 S., R. 14 W., all in Barber County, Kansas;

(4) 14,000 feet of 4-inch pipe line to connect a number of wells, all situated in Barber County, Kansas;

(5) A gasoline recovery and dehydration plant.

Applicant asserts that the proposed facilities will be operated as an integral part of the company's natural-gas pipeline system and will make available to its system 60,000 Mcf of natural gas per day after the second year of operation. It is estimated that the maximum daily demand upon the proposed facilities will be in the amount aforementioned, and that the minimum daily demand will be 10,000 Mcf.

It is urged by the applicant that the proposed construction is necessary in order that the company may continue to render adequate service to customers attached to its system.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 27th day of January 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*  
Paragraph (a) (51) is added to Order No. A-1 to read as follows:

(51) *Modification of maximum prices for clay building brick (common and face, except ceramic glazed), structural clay hollow building tile (except ceramic glazed ware), and clay drain tile (glazed and unglazed).* (i) The manufacturers' maximum prices established pursuant to Maximum Price Regulation No. 188, as amended, for clay building brick (common and face, except ceramic glazed), produced in the States of Delaware and Maryland; the counties of New York west of and including Franklin, Hamilton, Fulton, Montgomery, Schoharie and Delaware; the counties of Pennsylvania east of and including Tioga, Lycoming, Clinton, Centre, Huntington and Fulton; and the District of Columbia, may be increased by adding an amount not in excess of \$1.75 per thousand for standard size brick to the f. o. b. plant prices or delivered prices. If a manufacturer had an established differential in price during the month of March 1942 for non-standard sizes of clay building brick (common and face, except ceramic glazed), he may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formula in use by him during March 1942 in establishing a price differential between the standard size brick and the non-standard size brick under this adjustment.

COLUMBIA GAS & ELECTRIC CORP.

#### NOTICE OF FILING AND ORDER FOR HEARING ON PLAN AND ORDER OF CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pennsylvania, on the 9th day of January, 1945.

The Commission, having by order dated November 30, 1944, directed, among other things, that Columbia Gas & Electric Corporation, ("Columbia") limit the operations of its holding company system by severing its relationships with several companies, including The Dayton Power and Light Company ("Dayton"), The Miami Development Company ("Miami Development"), The Cincinnati Gas & Electric Company ("Cincinnati"), Miami Power Corporation ("Miami Power"), West Harrison Electric and Water Company, Inc. ("West Harrison"), and The Union Light, Heat and Power Company ("Union"), in an appropriate manner not in contravention of the applicable provisions of the act and rules, regulations and orders promulgated thereunder;

Notice is hereby given that Columbia, a registered holding company and a subsidiary of The United Corporation, also a registered holding company, has filed an application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for approval of a plan, the stated purpose of which is to enable Columbia and certain of its subsidiaries to comply with the provisions of section 11 (b) of the act and the terms of the integration order of the Commission referred to above. The plan proposes action designed to accomplish a reclassification of the existing Columbia stocks (Preferred, Preference and Common) into a single class of Capital Stock and the distribution of such new stock, and also the Common Stocks of the Cincinnati and Dayton companies (after certain intercorporate rearrangements), to the present holders of all existing Columbia stocks and other incidental and related transactions.

All interested persons are referred to said plan which is on file in the offices of this Commission for a full statement of the transactions therein proposed which are summarized as follows:

(1) Columbia proposes to amend its certificate of incorporation so that (as of the effective date of the plan) the outstanding shares of its 6% Preferred Stock, 5% Preferred Stock, Preference Stock (5%) and existing Common Stock will be reclassified into 6,707,743.7 shares of new Capital Stock. The par value of the new stock is to be fixed upon determination of the amount at which Columbia will carry its investments in subsidiary companies;

(2) Columbia will transfer all of the outstanding indebtedness and Common Stocks of (a) Union (except 124,500 shares of Common Stock held by the public), Miami Power and West Harrison to Cincinnati, for an estimated amount of \$6,628,179; and (b) Miami Development to Dayton for an estimated amount of \$620,276; such transfers to be made on the basis of a sum equal to the principal amount (plus accrued interest) of the indebtedness and book net worth allocable to the stocks of the respective companies;

(3) The articles of incorporation of Cincinnati and Dayton will be amended so as to (a) change Cincinnati's outstanding 771,545 shares of no par Common Stock (all of which are held by Columbia) into 958,249.1 shares of Com-

mon Stock having a par value of \$12 per share, (b) change Dayton's outstanding 360,000 shares of no par Common Stock (all of which are held by Columbia) into 958,249.1 shares of Common Stock having a par value of \$10 per share; and (c) increase the voting power of the presently outstanding Preferred Stocks of both Cincinnati and Dayton by providing in substance that, whenever four full quarterly dividends shall be in arrears on said Preferred Stocks, the holders thereof, voting as a class, shall be entitled to elect the smallest number of directors necessary to constitute a majority of the Boards of Directors of the respective companies;

(4) Columbia will distribute to the holders of its outstanding Preferred, Preference and Common Stocks in exchange therefor all of the new Capital Stock of Columbia and the new Common Stocks of Cincinnati and Dayton (together with a cash adjustment for accrued dividends on the Preferred and

Preference Stocks to the effective date of the plan). Such distribution will result in the holder of each share of Columbia's outstanding stocks receiving new shares of the three companies as follows:

Columbia's outstanding stocks	New shares to be received		
	New Columbia stock	Cincinnati common stock	Dayton common stock
6% preferred stock.....	4	44	44
5% preferred stock.....	3½	34	34
5% preference stock.....	3	34	34
Common stock.....	¾	¾	¾

(5) The presently outstanding shares of each class of Columbia stocks, the new shares to be received in exchange therefor, and the percentage of the new shares to the total to be outstanding upon consummation of the plan are as follows:

Columbia's outstanding stocks		Will receive the following shares			Percent of total new shares
Class	Shares	New Columbia stock	Cincinnati common stock	Dayton common stock	
6% Pfd.....	940,664	3,762,656	537,522¾	537,522¾	56.09
5% Pfd.....	38,695	135,432¾	19,347¾	19,347¾	2.02
5% Pnce.....	121,668	365,004	52,143¾	52,143¾	5.44
Common.....	12,223,256	2,444,651¾	349,235¾	349,235¾	36.45
		6,707,743¾	958,249¾	958,249¾	100.00

(6) Distribution of the new shares to the holders of the outstanding Columbia stocks is to be made as soon as practicable after the effective date of the plan against surrender of outstanding shares of Columbia stocks at such office or agency as may be specified by the company for such purpose. Payment of cash for accrued dividends to the holders of the Preferred and Preference Stocks is to be made on the effective date of the plan to stockholders of record as of a date to be fixed by the Board of Directors of Columbia;

(7) No fractional shares of new Columbia Capital Stock or Cincinnati and Dayton Common Stocks are to be issued, it being the intention of Columbia that the issuance of scrip for fractional shares be held to a minimum or, if possible, avoided entirely. Upon determination of a definitive method of dealing with fractional shares, stockholders are to be given due notice thereof and will be bound accordingly;

(8) The plan, upon becoming effective, will be binding upon all holders of Columbia's presently outstanding Preferred, Preference and Common Stocks and all rights attaching thereto shall cease and become void other than the right to receive new securities and cash as is provided in the plan. Under the terms of the plan, dividends which may be declared on the new Columbia Capital Stock and Cincinnati and Dayton Common Stocks will be withheld until surrender of the outstanding shares of Columbia stocks;

(9) The plan contains several miscellaneous provisions to the effect that (a) personnel of the Cincinnati and Dayton

companies are to remain unchanged, except all or some of the directors or officers of Columbia who are also directors or officers of Cincinnati or Dayton will cease to act in such dual capacities; (b) the Cincinnati and Dayton companies are to withdraw from the Retirement Income Plan for Columbia System Companies and are to enter into a new agreement with respect thereto; (c) the participation or other interests of Cincinnati and Dayton and other non-retainable companies in insurance policies, service contracts and other arrangements are to be terminated; (d) the name of "Columbia Gas & Electric Corporation" is to be appropriately changed to eliminate the word "Electric"; and (e) Columbia will dispose of its interest in several properties heretofore found by this Commission to be non-retainable under the Act (Holding Company Act Release No. 5455);

(10) The plan contemplates that Columbia's outstanding Debentures (\$76,835,000 as of September 30, 1944) will be reduced to an aggregate principal amount of approximately \$60,000,000 by retirement of Debentures for cash, and that the Debentures remaining outstanding will be refunded. It is contemplated that the reduction in the amount of Debentures will be effected through the use of (a) such cash as Columbia may properly spare, estimated as of the date of the plan to be \$5,500,000; (b) the proceeds derived from the transfer by Columbia to Cincinnati and Dayton of the indebtedness and stocks of the several system companies hereinbefore named, estimated to aggregate \$7,248,455 (as of September 30, 1944); and (c) any pro-

ceeds realized by Columbia in cash from the disposition of its interest in the several properties heretofore found to be non-retainable by this Commission. According to the plan, the reduction and refunding of Columbia's Debentures may be effected prior to, or concurrently with, the other steps in the plan, or in one or more successive steps;

(11) Consummation of the plan is made contingent upon (a) approval of the plan in its entirety by the Securities and Exchange Commission in proceedings under section 11 (e) of the act; (b) either (1) the entry by a Court of competent jurisdiction of an appropriate decree finding the plan fair and equitable and directing its consummation, which decree shall have become final and no longer subject to review, or (2) the taking of such corporate action as the Board of Directors of Columbia shall deem necessary to authorize consummation of the plan; and (c) the inclusion in the order of the Commission of recitals required by sections 371 (f) and 1808 (f) of the Internal Revenue Code and an appropriate determination made by the Treasury Department with respect to the tax consequences of the various transactions which is satisfactory to the Board of Directors of Columbia.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said plan, and that such plan should not be approved except pursuant to further order of this Commission;

It further appearing to the Commission that some of the evidence in the pending proceedings under sections 11 (b) (1) and (2) of the act in respect of Columbia Gas & Electric Corporation and its subsidiaries (File No. 59-72) is also relevant to the issues presented by said plan, and that the pending proceedings and the proceedings hereby instituted in respect of said plan involve common questions of law and fact and should be consolidated;

It is ordered, That the proceedings with respect to said plan filed pursuant to section 11 (c) of the act and the pending proceedings pursuant to section 11 (b) (1) and (2) of the act be, and the same hereby are, consolidated.

It is further ordered, That a hearing in the consolidated proceedings be held under the applicable provisions of the act and rules promulgated thereunder on the 6th day of February, 1945, at 10 a. m., e. w. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated at that time by the Hearing Room Clerk in Room 318. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by its rules of practice, Rule XVII, on or before January 30, 1945.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such manner. The officer so designated to preside at any such hear-

ing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act to a trial examiner under the Commission's rules of practice.

*It is further ordered,* That, without limiting the scope of the issues presented by said consolidated proceedings, particular attention will be directed at said hearing to the following matters and questions (in addition to the issues remaining in the pending section 11 (b) (1) and (2) proceedings as set forth in our notice of and order for hearing of May 2, 1944 (Holding Company Act Release No. 5024)):

(2) Whether the proposed allocations of new stocks of Columbia, Cincinnati and Dayton to the Preferred, Preference and Common stockholders of Columbia are appropriate, or whether such allocations should be changed;

(3) What steps, if any, should be taken by Columbia, Cincinnati and Dayton prior or subsequent to the distribution of their new stocks for any of the following purposes: (a) to ensure a fair and equitable distribution of voting power among the security holders of Columbia, Cincinnati and Dayton; and what provisions should be made and procedure adopted with respect to the eligibility and nomination of directors of Columbia, Cincinnati and Dayton, the use of proxy machinery, and other matters to effectuate compliance with the requirements of the act; and (b) to modify, limit or terminate the existing service contracts, insurance policies, Retirement Income Plan, and other intrasystem arrangements, and take such other action as may be necessary or appropriate to effectuate a divorcement of the revised Cincinnati and Dayton companies from the direct or indirect control of Columbia;

(4) Whether the accounting entries to be recorded in connection with the plan are appropriate and consistent with sound accounting principles and practices;

(5) Whether the provisions for the consummation of the plan are fair and equitable and in accordance with applicable law;

(6) Whether the plan, as filed or as modified, makes appropriate provision for the payment of expenses, fees and remuneration in connection with the reorganization, in what amounts such expenses, fees and remuneration should be paid, and the fair and equitable allocation thereof;

(7) Generally, whether the proposed transactions are in all respects in the public interest and in the interests of investors and consumers and consistent with the Commission's order of November 30, 1944 and all applicable requirements of the Act and the rules thereunder, and, if not, what modifications should be required to be made therein and what terms and conditions should be imposed to satisfy the applicable standards,

*It is further ordered,* That notice of said hearing is hereby given to Columbia and its subsidiary companies and to all interested persons; said notice to be given by registered mail to Columbia Gas & Electric Corporation, The United Corporation, Federal Power Commission, and to the Public Utility Commissions of the States of Indiana, Kentucky, Maryland, New York, Ohio, Pennsylvania, West Virginia and Virginia, and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

*It is further ordered,* That Columbia give notice of this hearing by mailing to each of its public security holders (insofar as the identity of such security holders is known or available to Columbia) to his last known address, at least fifteen days prior to the date of this hearing, a copy of this order.

*It is further ordered,* That jurisdiction be, and is hereby, reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters herein set forth or which may arise in these proceedings, to consolidate with these proceedings other filings or matters pertaining to the plan, and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

#### AMERICAN GAS AND POWER CO. AND SAVANNAH GAS CO.

##### NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 9th day of January, A. D. 1945.

Notice is hereby given that a joint declaration and an amendment thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (act) by American Gas and Power Company (American), a registered holding company and Savannah Gas Company (Savannah), a subsidiary of American.

All interested persons are referred to said documents which are on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Savannah proposes to sell and Savannah-St. Augustine Gas Company (Savannah-St. Augustine), a Georgia corporation organized by or on behalf of H. Hansell Hillyer, proposes to acquire Savannah's fixed properties located in the City of Savannah, the Town of Thunderbolt and in Chatham County, Georgia and certain of Savannah's net current assets, for an aggregate consideration of \$2,205,000, subject to certain adjustments at the date of closing. Out of the proceeds of such sale, Savannah proposes to redeem all of its First Mortgage Bonds now outstanding in the principal amount of \$1,000,000 and its serial notes now outstanding in the principal amount of \$270,000. The bonds are to be redeemed at their redemption price of 107% of the principal amount and the notes will be redeemed at their redemption price of 103% of the principal amount. Immediately following the sale and conveyance by Savannah of its properties and net current assets, it is proposed that Savannah will be liquidated and dissolved and after payment of Savannah's outstanding indebtedness other than the indebtedness assumed by Savannah-St. Augustine, all remaining assets of Savannah will be paid and transferred to the New York Trust Company, as successor trustee under American's Debenture Agreement dated as of May 1, 1928, as supplemented and amended, with which company the common stock of Savannah is pledged, unless such debenture agreement be terminated prior to consummation of the sale.

American was directed to dispose of its interest in Savannah by this Commission's Order dated July 2, 1943 (Holding Company Act Release No. 4395) pursuant to section 11 (b) (1) of the act. The

amended plan of American pending before this Commission under section 11 (e) of the act provides for the sale of American's interest in Savannah.

American and Savannah request, in order that they may have the exemption afforded by section 1808 (f) of the Internal Revenue Code that this Commission approve the transaction as necessary or appropriate to effectuate the provisions of section 11 (b) of the act and specify and itemize the conveyances of the properties of Savannah.

It appearing to this Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters and that said declaration, as amended, should not be permitted to become effective except pursuant to further order of this Commission;

*It is ordered,* That a hearing on such matters under the applicable provisions of the act and rules of this Commission thereunder be held on January 22, 1945 at 10 a. m., e. w. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declara-

tion shall be permitted to become effective.

*It is further ordered,* That Charles S. Lobingier, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearings on such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 of the act and to a trial examiner under the Commission's rules of practice.

*It is further ordered,* That without limiting the scope of the issues presented in the proceedings, particular attention will be directed at the hearings to the following matters and questions:

1. Whether the proposed transactions are fair and equitable to the persons affected thereby and are necessary to effectuate the provisions of section 11 (b).

2. Whether and to what extent it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms or conditions in regard to the proposed sale, having particular regard for the consideration to be received for such sale, maintenance of competitive conditions, fees and commissions, accounts, disclosure of interest, and similar matters.

3. Generally, whether the proposed transactions are in all respects in the

public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder and, if not, what modifications should be required to be made therein and what terms and conditions should be imposed to satisfy the statutory standards.

*It is further ordered,* That notice of the aforesaid hearing be given to American Gas and Power Company, Savannah Gas Company, Savannah-St. Augustine Gas Company, New York Trust Company and to the Georgia Public Service Commission by registered mail and to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the act and by publication in the FEDERAL REGISTER.

It is requested that any persons desiring to be heard in these proceedings shall file with the secretary of this Commission on or before January 19, 1945, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

By the Commission.
