

The Dodo

JONES FIELD
BONHAM, TEXAS

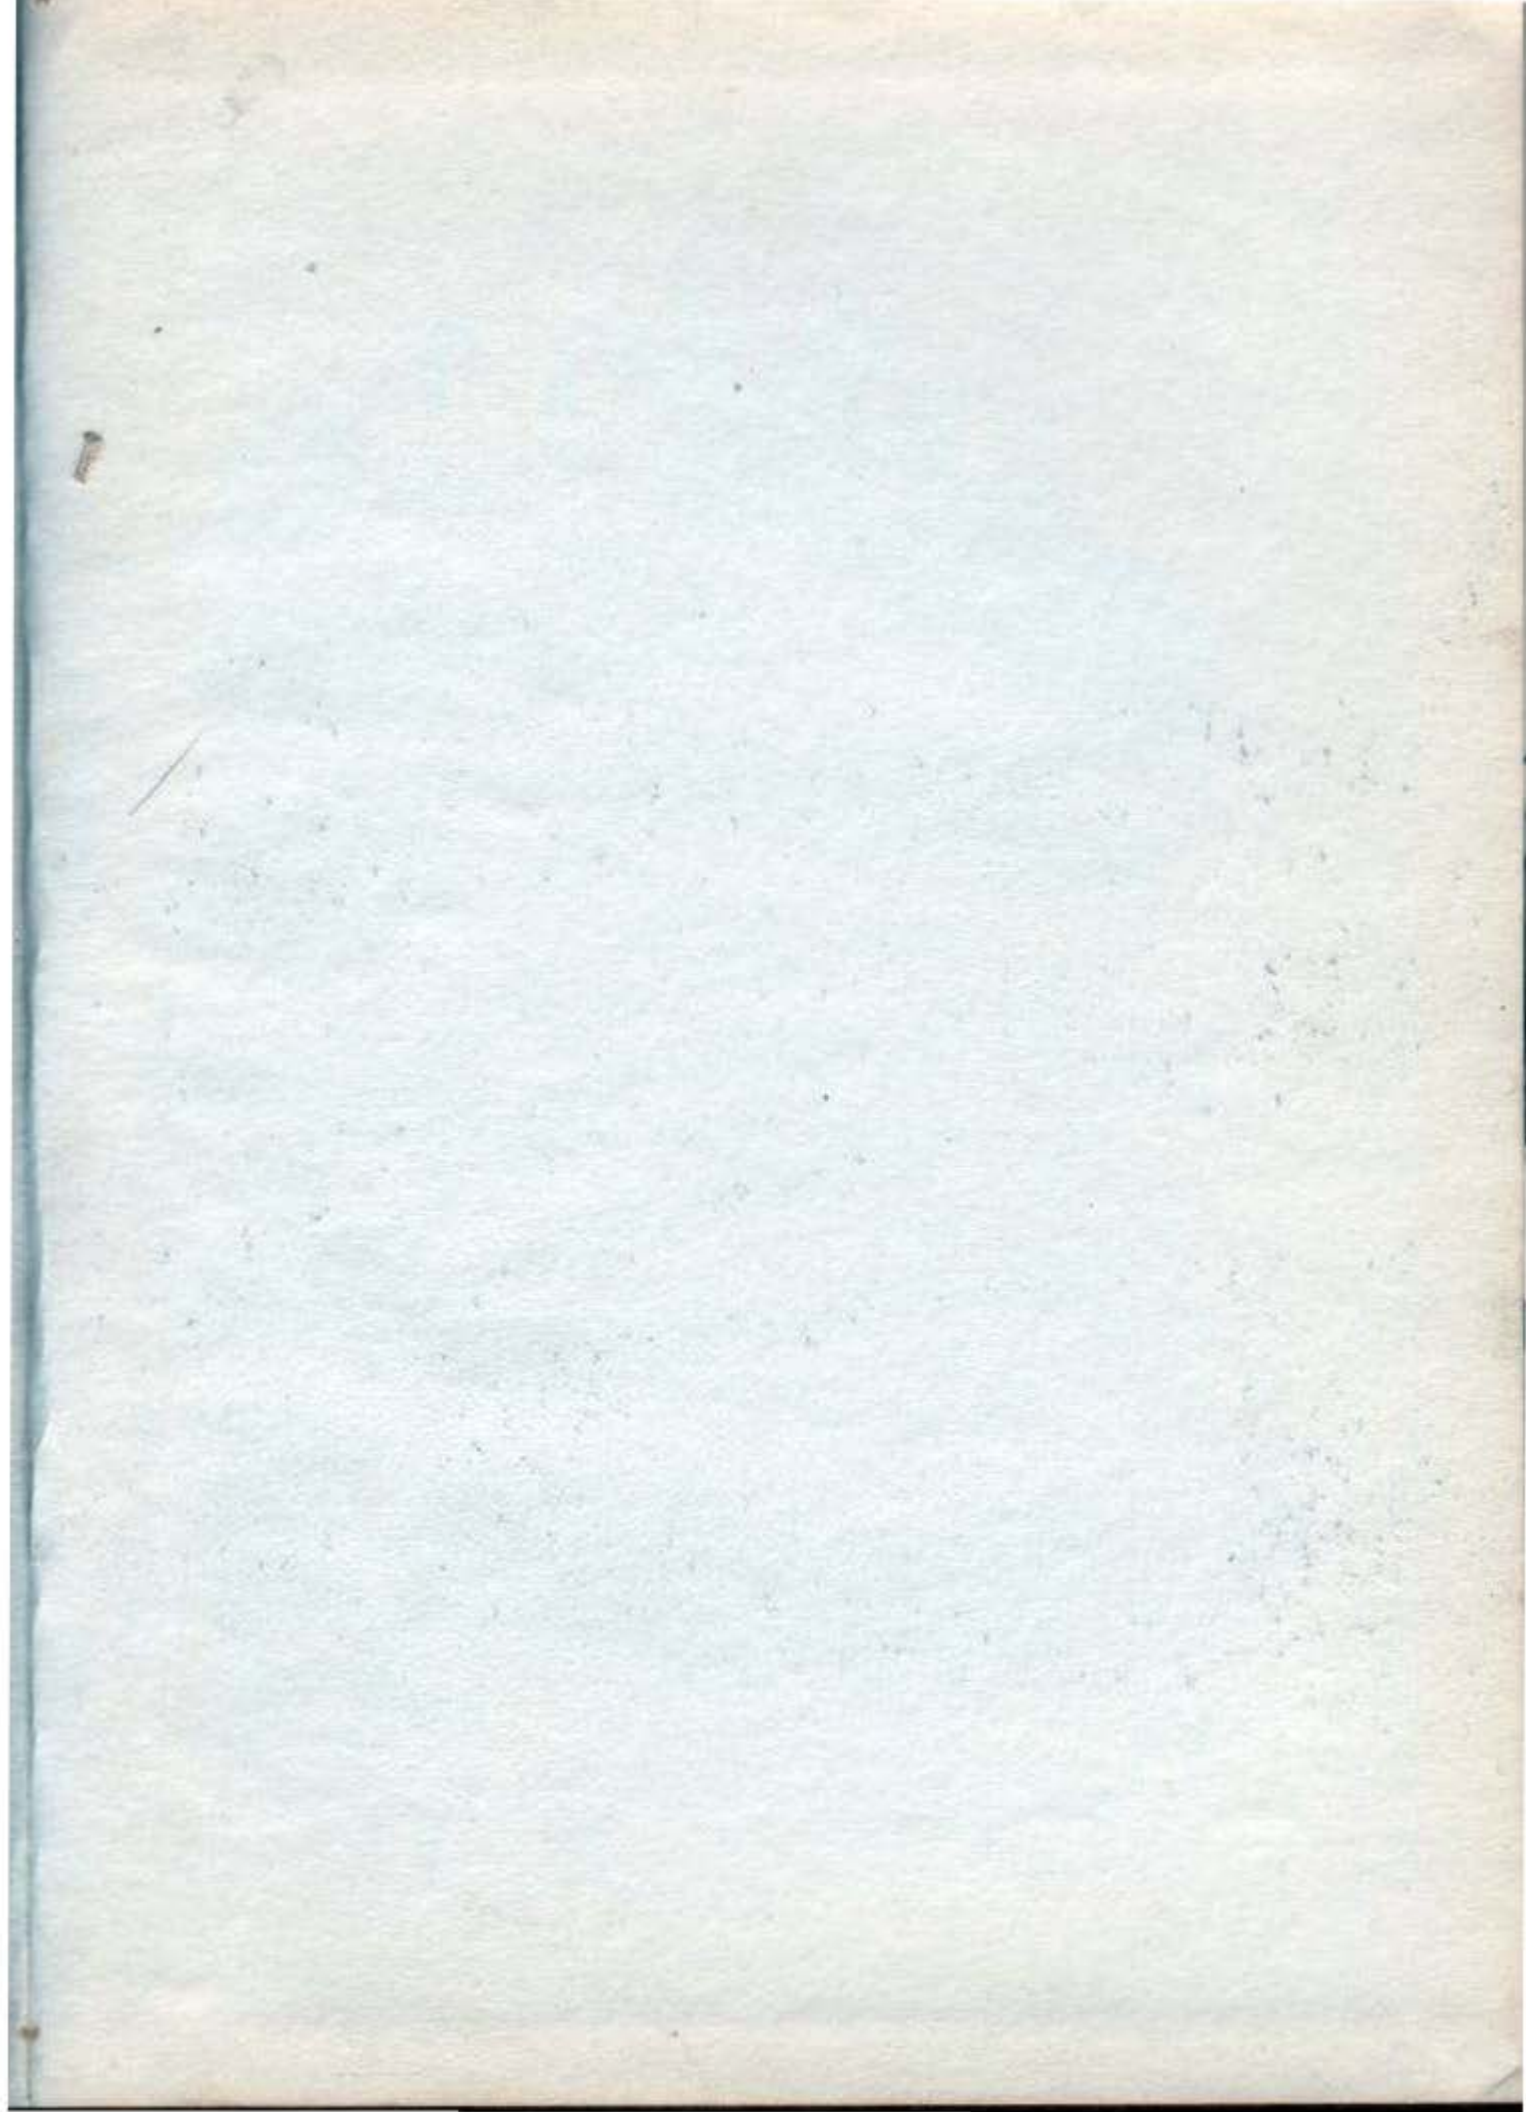

To my mother, Mary

Frank

This is the dear old PT-19 - it isn't as
small as everyone thinks. Turn over to the
picture of Mr. B.S. Graham and you can see how
large it really is. Dazzling good plane now, especially for
acrobatics - you could throw it all over the sky, the
BT is heavier, harder to push around. Turn to
last page to see a man's aeroplane. The PT weighs
1300 lbs. The BT weighs 3300 lbs., same jump eh?

Mechanics did a good job of
keeping planes in condition.

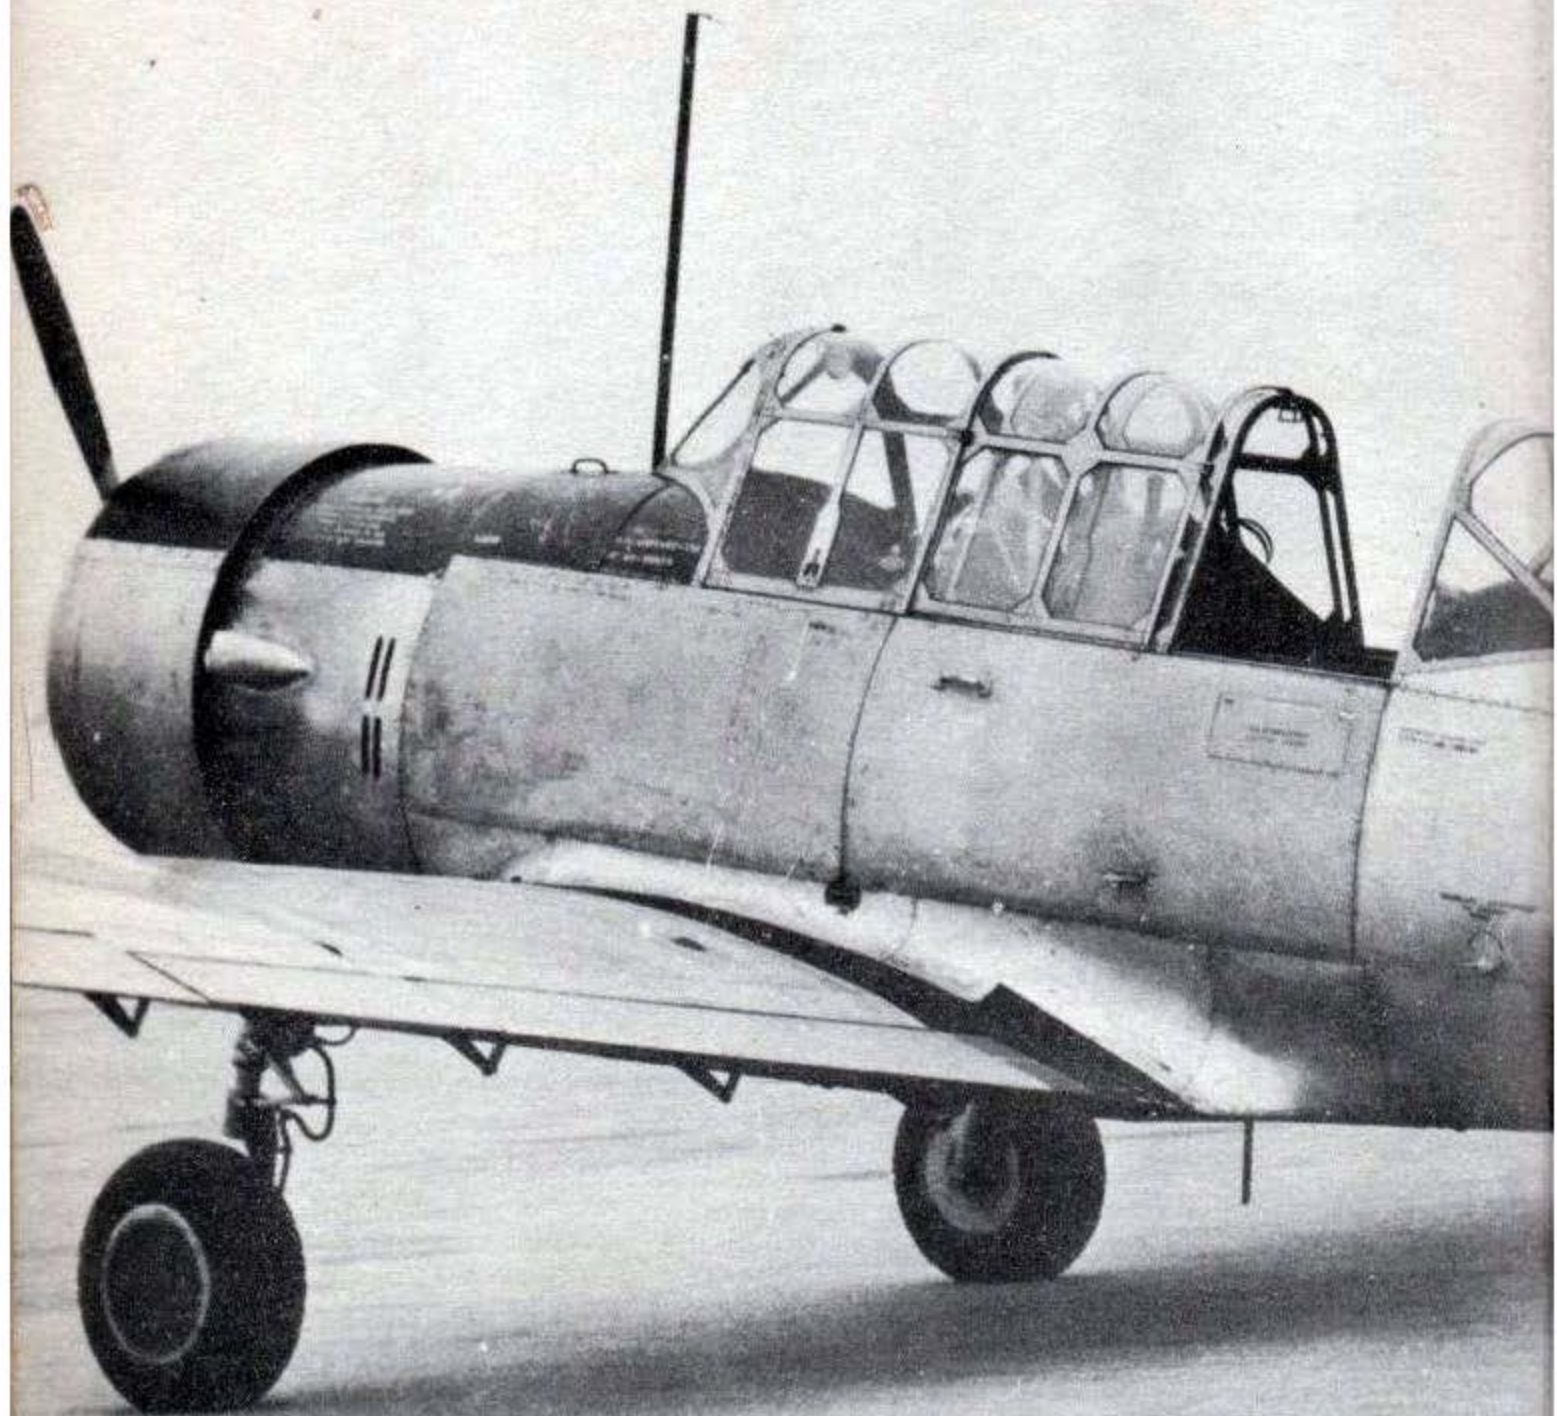

This is to certify that on
the ___ day of ___ 1943
A/c _____ Did take
off and return to _____ field
Texas thereby completing
his first SOLO FLIGHT.
Instructor.....

Damn good airplane. - Had three hours solo in
this plane No. 135. It's much more complicated than
a PT-19. Have a million things to check
before take off such as, safety belt,
peddle & seat adjustment, parking brake,
mixture, propeller pitch, carburetor heat,
oil heat, flaps, trim tabs, form, radio,
all instruments, parachute, etc.
