Lord Dexter and his Dog.

PREFACE.

Timothy Dexter, the author of the following curious and unique production, entitled "*A Pickle for the Knowing Ones*," which is here re-printed verbatim et spellatim from the original edition, was born in Malden, January 22, 1747. Having served an apprenticeship with a leather dresser, he commenced business in Newburyport shortly after he was one and twenty, and being industrious and economical, he soon found himself in good circumstances. In the year 1770 he married, and receiving a considerable amount of money with his wife, he was thus put in possession of a moderate fortune. In 1776 he had for one of his apprentices the no less eccentric, and afterwards the no less noted Jonathan Plumer, jun., "travelling preacher, physician and poet," as he was accustomed to style himself, and of whom we shall hereafter speak. In addition to his regular business of selling leather breeches, gloves "soutabel for wimen's ware," &c. he engaged in commercial speculations, and in various kinds of business, and was unusually successful. He traded with merchants and speculators in the then Province of Maine, was engaged to some extent in the West India trade. He also purchased a large amount of what were called State securities, which were eventually redeemed at prices far exceeding their original cost. Some of his speculations in whalebone and warming pans are mentioned by himself on page 23 of this work. Thus in various ways he added to his property, and in a few years he became a wealthy man. With wealth came the desire of distinction, and as his vanity was inordinate he spared no expence in obtaining the notoriety he sought. In the first place he purchased an elegant house in High Street, Newburyport, and embellished it in his peculiar way. Minarets surmounted with golden balls were placed on the roof, a large gilt eagle was placed on the top, and a great variety of other ornaments. In front of his house and land he caused to be erected between forty and fifty wooden statues, full length and larger than life. The principal arch stood directly in front of his door, and on this stood the figures of Washington, Adams and Jefferson. There were also the statues of William Pitt, Franklin, Bonaparte, George IV, Lord Nelson, Gen. Morgan, Cornplanter, an Indian Chief, Jack Tar, Traveling Preacher, Maternal Affection, Two Grenadiers, Four Lions and one Lamb, and conspicuous among them were two images of Dexter himself, one of which held a label with the inscription "*I am the first in the East, the first in the West, and the greatest philosopher in the Western world.*" In order that the interior of his house should correspond with the exterior, the most costly furniture was imported from France, and the walls hung with paintings, brought from Holland and other parts of Europe. A library was also provided, but how large or valuable we are not able to say. An elegant coach with a span of beautiful cream colored horses was procured, on which was painted his coat of arms, with the baronial supporters, after the manner of the English nobility. With this equipage he took the title of Lord Dexter, because, as he said, it was "the voice of the peopel at Large." He was sometimes called the Marquis of Newburyport. Having completed the embellishments of his house and gardens, Lord Dexter busied himself in receiving the visits of the crowds, who were drawn by curiosity to his house. His gardens were thrown open to their inspection, and he was liberal to all. The fame of his hospitality attracted as many visitors as the fame of his images. To gratify his vanity he selected in imitation of European princes, a poet laureate. This was no other than his former apprentice, Jonathan Plumer, jun., a native of New-

bury. They had once been associated as master and apprentice, but now stood in the relation of patron and poet. From the auto-biography of Plumer a very curious and scarce production of 244 pages, the following extract is taken, which may serve to give some idea of the versatility of his genius.—“I had,” says he, “some practice as a physician, and earned something with my pen, but for several years was obliged chiefly to follow various kinds of business accounted less honorable, viz: Farming, repeating select passages from authors, selling halibut, sawing wood, selling books and ballads in the streets, serving as post boy, filling beds with straw and wheeling them to the owners thereof, collecting rags, &c.” He had previously served one or two campaigns as a soldier, and on his return from the wars he taught school for some time in New Hampshire. The ballads, which he hawked about, were generally his own composition. Every horrid accident, bloody murder, a shipwreck, or any other dreadful catastrophe, was sure to be followed by a statement of the facts, a sermon and a poem. In the capacity of ballad maker and monger he attracted the notice of Dexter, in whose service he entered for a small salary as poet laureate. He wore a livery, consisting of a black frock coat, adorned with stars and fringes, a cocked hat and black breeches. He was crowned in the garden of his patron with a wreath of parsley, instead of laurel, but the ceremony was interrupted before its completion by a mob of boys, and both patron and poet put to flight. One specimen of his laudatory verses may be seen on page 29 of this work, which will give the reader some idea of his qualifications for the office to which he was elected. How well he was satisfied with the praises of the poet we are not informed, but feeling probably that no person but himself could do justice to the ideas, which he wished to present to the public, he commenced writing for the press. Several of these effusions were printed in the newspapers.—The larger part of them written at different times are embodied in the present work, a large edition of which was published by himself and given away. In this edition not a stop or a mark was used in any line of his writings, but in the second edition one entire page was filled with stops and marks, with a recommendation from the author to his readers, to use them where they were wanted in the work, or in his own language, “to peper and soolt it as they pleased.” Dexter had two children, Samuel and Nancy, neither of whom was distinguished for strength of intellect. The son was a dissipated prodigal and died young. The daughter, of whom mention is made by the father in the following pages, was married to Abraham Bishop of New Haven, who we are informed treated her with neglect and cruelty. A divorce followed and she became intemperate, lost what little reason she had, and is still living, a wretched object. Lord Dexter himself, if we may judge from his own writings and from what we have heard, was not happy in his domestic relations. He complains much of his wife, whom he calls the “gost,” and charges the cause of his separation from her for thirteen years to his son Bishop. His own temper was irascible, and several stories are told of the excesses, into which it would sometimes lead him. “He ordered his painter, Mr. Babson, to place the word “Constitution” on the scroll in the hand of the figure of Jefferson, which the latter, knowing the artist designed it to represent the Declaration of Independence, refused to do. Dexter was so incensed by this refusal, that he went into the house, and brought out a pistol, which he deliberately fired at the painter; but he was a poor shot, and the ball missing its object, entered the side of the house. At another time, seeing a countryman, as he thought, rather impudently viewing his premises, he ordered his son to fire at the stranger. He refused to do so, when the father threatened to shoot him unless he complied. His son then obeyed. The stranger escaped unhurt, but entered a complaint, and Lord Timothy was, in consequence, sentenced to the house of correction for several months. He went thither in

his own coach, priding himself on being the first man who had been to the county house in his own carriage, drawn by two splendid horses. He soon grew tired, however, of his confinement, and procured a release, which it was said, cost him a thousand dollars. The individual, who exercised most influence over Dexter was a negro woman, named Lucy Lancaster, or as she was commonly called "Black Luce," a woman of uncommon strength of mind, great shrewdness and remarkable for her powers of memory and knowledge of human nature, but as wicked as she was sagacious. She thought him an honest man, and not so deficient in intellect as many people supposed, and attributed his eccentricities to an excess of animal spirits.— This was probably to some extent true, though it is certain that other spirits contributed in no small degree to the excesses of his temper and the peculiarities of his taste. He was addicted to drunkenness, and with his son and other companions, kept up his revels in the best apartments of his house, by which in a very short time, all his costly furniture was ruined, or very much injured.

"Not insensible that he must share the common lot, Dexter, many years before his death, prepared himself a tomb. It was the basement story of his summer-house, magnificently fitted, and open to the light of day. His coffin, made of the best mahogany which he could find, superbly lined, and adorned with silver handles, he kept in a room of the house, and took great pleasure in exhibiting it to visitors—at other times it was locked up. Soon after his death apparatus was prepared, Dexter got up a mock funeral, which with all but his family and a few associates was to pass as real. Various people in the town were invited by card, who came and found the family clad in mourning, and preparations for the funeral going forward. The burial service was read by a wag, who then pronounced a bombastic eulogy upon the deceased. The mourners moved in procession to the tomb in the garden, the coffin was deposited, and they returned to the large hall, where a sumptuous entertainment was provided. While the feast was going on, a loud noise attracted the guests to the kitchen, where they beheld the arisen Lord caning his wife for not having shed a tear during the ceremony! He entered the hall with the astonished mourners, in high spirits, joined in the rout, threw money from the window to the crowd of boys, and expressed his satisfaction with every thing except the indifference of his wife, and the silence of the bells."

Lord Dexter died at his house, on the 26th of October, 1806, in his 60th year, and by direction of the Board of Health, his remains were interred in the common burying place. His grave is marked by a simple stone.

The Dexter mansion, is yet standing, and is a very fine tenement, but retains few traces of the whims of its late proprietor. Of the images, upwards of forty in number, only the three Presidents now remain, the others having been cast down by the resistless hand of time. Some of them were blown down in the great gale of September, 1815, and were sold at auction.

The cut fronting the Biography gives a very excellent and faithful representation of Lord Dexter in his walking habits, and the likeness of the dog is equally perfect. The dog was perfectly black and the skin as entirely free from hair as that of an elephant. He differed as much from other dogs as did his master and his friend, the poet, differ from other people. The likenesses of all three were drawn with great accuracy by James Aiken, Esq. now a resident of Philadelphia, and could the patron and the poet be seen in proper person, dressed in the costume of that day, they would be objects of great curiosity. But they are gone, and of each it may be truly said,

We ne'er shall look upon his like again.

Chester, Sept. 29, 1796.

 FOR THE IMPARTIAL HERALD.

Messrs. Blunt & March,

I say to whom it may concern—to the majesty of the people of Newburyport, Greeting—

It costs Eight hundred Dollars a year to support a watch in this town, and yer gentlemen's windows are broken, fences pulled down and Cellars broken open, and much other misdemeanors done at night. Are the watch asleep, or are they afraid to detect those who are guilty of such practises? Boast not of it if you call this Liberty and Equality. Newburyport has had the name of being

a very civil worthy place ; it is a great pity some bad boys or young men should disgrace it. I hope our worthy and honorable rulers will bring those rude lads to see themselves and lick the dust like serpents, and ask forgiveness of their betters, and do so no more, but repent and live.

Now fellow citizens is it wisdom, is it policy, to use a man or men so shocking bad as to oblige them to leave the town where they paid one Dollar a day to support government?

A friend to good order, honor to whom it belongs—to great men a friend—to all good citizens and honest men good bye.

Whereas many philosophers has judged or guessed at many things about this world, and so on. Now I suppose I may guess, as it is guessing times. I guess the world is one very large living creature, and always was, and always will be without any end from everlasting to everlasting, and no end. What grows on this large creature is trees and many other things. In the room of hair the rocks is moulds. This is called land where the hair grows, the belly the sea—all kinds of fish is the worms in the belly. This large body wants dressing to get our living of this creature and by industry we get a living—we and all the animal creation is less than fleas in comparison on the back or belly of this very large immense body. Among the hairs to work this great body is that of nature, past finding out.—All we know is we are here, we come into the world crying and go out groaning. Mankind is the master beast on the earth—in the sea, the whale is the head fish—the minim is the smallest fish—the great fish eat up the little ones, and so not only destroy one another, but they are master over the whole of beasts and fish, even over a lion, therefore man is the masterly beast and the worst of the whole—they know the most, and act the worst according to what they know. Seeing mankind so bad by nature, I think when the candle goes out, men and women is done, they will lay as dirt or rocks till the great gun fires, and when that goes off the gun will be so large that the gun will contain nine hundred million tons of the best of good powder, then that will shake and bring all the bones together, then the world will be to an end. All kinds of music will be going on, funding systems will be laid aside,

the melody will be very great. Now why cant you all believe the above written as well as many other things to be true; as well as what was set forth in the last Centinel concerning digging up a frog twenty five feet below the surface, where it was most as hard as a rock—there was his shape like taking a stone out of a rock—This is from a minister. Now why wont you believe me as well.

WONDER OF WONDERS!

How great the soul is! Do not you all wonder & admire to see and behold and hear? Can you all believe half the truth, and admire to hear the wonders how great the soul is—only behold—past finding out! Only see how large the soul is!—that if a man is drowned in the sea, what a great bubble comes up out of the top of the water! the last of the man dying under water—this is wind—is the soul that is the last to ascend out of the deep to glory—it is the breath from on high doth go on high to glory. The bubble is the soul. A young fellow's for gunning for the good of bodies and souls.

APPENDIX.

IN HONOR OF

TIMOTHY DEXTER, ESQ.

This great philosopher may indeed be styled a phenomenon in nature! The many literary qualifications he possesses rank him foremost among literary characters.—That unequalled production from the pen of this wonderful philosopher, denominated “*A Pickle for the Knowing Ones*,” has not only received universal applause, and been ranked as of the first magnitude in the literary world, but has had such rapidity in its sale, that a copy cannot be procured, though diligently sought after by men of the most transcendent merit.

Where can we find a man so extensively useful, and so eminently calculated to diffuse light to a dark and ignorant multitude, as this rare philosopher? How penetrating his understanding! How deep his ideas! What a multitude of discoveries which before were hid in embryo, have made their appearance at the nod of his genius! Surely we may say, Blessed are the people who are highly favored with the greatest Luminary that ever gave light to an existing world!!

While aiming at a just portrait of this remarkable Naturalist and Philosopher, his generosity is no less a subject of admiration, than his literary and philosophical abilities. The readiness with which his benevolent soul bestows donations calls forth the grateful acknowledgement of all who have been liberally assisted from his bountiful hand.

See him the first to assist in building a church for the worship of God! See him liberally give for the purchase of bells, the ready cash, without hesitation! See him expending his fortune to preserve in everlasting remembrance, characters who have shone with un-

exampl'd greatness in Europe and America! Here the subject fails. Vain man may as well attempt to stop the course of nature, as to do ample justice to this wonderful man!

Behold all nature stands aghast
To hear thy fame from east to west!
How great how grand of thee we hear,
Thou man of sense—thou eastern star!

All men inquire—but few can tell
How thou in science doth excel!
Great philosophic genius, we,
The meanest reptiles, bow the knee.

At thy majestic shrine we shrink!
What can we do, or say, or think!
When contemplating on thy worth,
Which hath astonish'd all the earth.

Great DEXTER, did the world do right,
Thy name would shine with brilliant light!
Each would declare thy wond'rous fame,
And shout at DEXTER'S mighty name!

SALEM, *June* 14, 1805

MY LORD DEXTER,

By the politeness of Mr. *Emerson* I received the very valuable contents of your package. A new edition of that unprecedented performance, entitled "A Pickle for the Knowing Ones," &c. is very urgently called for by the friends of literature in this country and in England—and I presume with the additions and improvements intended to accompany the second edition, provided it should be well printed, would entitle the author to a seat with the Disciples of Sir Joseph Banks, if not to a place in Bonaparte's Legion of Honor—for my Lord DEXTER is an honorable man. But, sir, the work cannot be executed for the sum named—nor in the time specified.—I will print an edition of 500 copies with the additions, for fifty dollars, and cannot possibly do them for less.

Wishing your Lordship health in perpetuity—a continuance of your admirable reasoning faculties—good *spirits*, and an abundance of wealth—and finally a safe passage over any river not with *Sticks*, but a pleasure boat, I remain yours with the utmost profundity.

W. CARLTON.

The Right Honorable Lord DEXTER, }

Mr. MELCHER,

Your publishing the following extract from a letter said to be from a trader among the Indians to a friend, may amuse some of your customers for the Gazette.

A few days ago one of the Indians paid me a visit. After some conversation, he said that a minister from the United States had been with his tribe to teach them the Christian religion. He says that there is but one only living and true God, who is a good, wise, and powerful spirit (this Indian say too) and that there are three persons in the god head, of one substance and power, God the father, God the Son and God the Holy Ghost, that the Father is of none, neither begotten, or proceeding, the Son is eternally begotten of the Father, the Holy Ghost eternally proceeding from the Father and the Son, and that the Holy Ghost visited a virgin, and conveyed the Son into her; where he continued nine moons and then was born like other children, was born God and man, that when he was about thirty years old began to preach, but the great men no like his preaching, sent their warriors, who took and killed him.

Indians ask what all this talk mean, he say that the first man and woman broke God's law in eating what God had forbidden, that therefore they and all the children that should proceed from them must die, and be punished after death forever; that the Son came and died to save some of mankind from being punished after death. Oh! 'trange that man could kill God the Son, and that his death be of service to mankind—great many people die before the Son of God, and did not know any thing about him—it was then asked whether his dying would do poor Indians any good; he say yes, if they believe; then me say that pappoose no believe them do no good; he say you must leave that with God, and believe for yourself—one say it is hard to believe such 'torics; if Indian tell such 'trange things, the white people no believe um.

A curious Sermon, by the Rev. Mr. Hyberdin, which he made at the request of certain thieves that robbed him on a hill near Hartlgrow, in Hampshire, (England) in their presence and at that instant.

I greatly marvel that any man will disgrace thieving, and think that the doers thereof are worthy of death, considering it as a thing that cometh near unto virtue, being used in all countries, and allowed by God himself; the thing which I cannot compendiously show unto you at so short a warning, and on so sharp an occasion. I must desire you, gentle audience of thieves, to take in good part what at this time cometh into my mind, not doubting but that you, through your good knowledge, are able to add much more unto it, than this which I shall now offer unto you.

First, Fortitude and stoutness of courage, and also boldness of mind, is commended of some men to be a virtue; which being granted, who is there then that will not judge thieves to be virtuous? For they are of all men the most stout and hardy, and the most void of fear; for thieving is a thing usual among all men; for not only you that are here present, but also many others in divers places, both men, women and children, rich and poor, are daily of the faculty, as the hangman at Newgate can testify; and that it is allowed of by God himself is evident from Scripture; For if you examine the whole course of the Bible you will find that thieves have been beloved of God; for Jacob, when he came out of Mesopotamia, did steal his uncle Laban's kids. The same Jacob did also steal his brother Esau's blessing; and yet God said, *I have chosen Jacob and refused Esau.* The children of Israel, when they came out of Egypt, did steal the Egyptian's jewels of silver and jewels of gold, as God commanded them to do.

David, in the days of Abiathar, the high priest, came into the temple and stole the hallowed bread; and yet God said, "David is a man after my own heart." Christ himself, when he was here on earth, did take an ass and colt that was none of his; and yet God said, "This is my beloved son, in whom I am well pleased." *Thus you see that God delighted in thieves.*"

But most of all I marvel that men can despise thieves, whereas in many points you be like Christ himself; for Christ had no dwelling place no more than you—Christ at length was caught, and so will you—he went to hell and so will you. In this you differ from him, for he rose and went into heaven—so you will

never do without God's great mercy, which God grant you. To whom with the Father, Son and Holy Ghost, be all honor and glory, for ever and ever. AMEN.

FROM THE PROVIDENCE PHENIX OF DECEMBER, 1804.

MARQUIS OF NEWBURYPORT!!

[On Monday last arrived in this town the most noble and illustrious Lord *TIMOTHY DEXTER*, of Newburyport, Massachusetts, who has since his arrival requested the publication of the following stanzas in this day's paper, as a humble tribute to the incomprehensible majesty of his name! While they serve as a brilliant specimen of the gifted talents and admirable sublimity of the Laureat, from whose pen they flowed, the virtuoso in genealogies, and the worshippers of noble rank and boundless fortune may derive a rich and delicious satisfaction from the subject to which they are devoted!

ADVERTISEMENT EXTRA.

OF THE CELEBRATED

LORD DEXTER.

LORD DEXTER is a man of fame,
Most celebrated is his name;
More precious far than gold that's pure,
Lord Dexter live for evermore.

His noble house it shines more bright
Than Lebanon's most pleasant height,
Never was one who step'd therein
Who wanted to come out again.

His house is fill'd with sweet perfumes,
Rich furniture doth fill his rooms;
Inside and out it is adorn'd,
And on the top an eagle's form'd.

His house is white and trimm'd with green,
For many miles it may be seen;
It shines as bright as any star,
The fame of it has spread afar.

Lord Dexter, thou, whose name alone
Shines brighter than king George's throne;
Thy name shall stand in books of fame,
And Princes shall his name proclaim.

Lord Dexter hath a coach beside,
In pomp and splendor he doth ride;
The horses champ the silver bitt,
And throw the foam around their feet.

The images around him stand,
For they were made by his command;
Looking to see Lord Dexter come,
With fixed eyes they see him home.

Four lions stand to guard the door,
With their mouths open to devour
All enemies who do disturb
Lord Dexter or his shady grove.

Lord Dexter, like king Solomon,
Hath gold and silver by the ton,
And bells to churches he hath given,
To worship the great king of heaven.

His mighty deeds they are so great,
He's honor'd both by church and state,
And when he comes all must give way,
To let Lord Dexter bear the sway.

When Dexter dies all things shall droop,
Lord East, Lord West, Lord North shall stoop,
And then Lord South with pomp shall come,
And hear his body to the tomb.

His tomb most charming to behold,
A thousand sweets it doth unfold;
When Dexter dies shall willows weep,
And mourning friends shall fill the street.

May Washington immortal stand,
May Jefferson by God's command
Support the right of all mankind,
John Adams not a whit behind.

America with all your host,
Lord Dexter in a bumper toast;
May he enjoy his life in peace,
And when he's dead his name not cease.

In heaven may he always reign,
For there's no sorrow, sin, nor pain:
Unto the world I leave the rest,
For to pronounce Lord Dexter blest.
