For the Governor

Joji Udo

Joji Udo
Chief of
External Affairs Section.

1. Name of Assembly : Yawata City Assembly.

2. Date : Mar. 6.

3. Matters discussed and the progress of discussion and those worthy of mention.

18. The matter regarding the 1950 fiscal year's appropriated fund to be employed for construction of supplementary buildings of the Kurosaki Junior High School being used for construction of the additional buildings of the Honjo Primary School and repair of its existing buildings.

Approved as per draft.

19. The matter regarding a part of the expense borne by Yawata City necessary for the removal of the Fukuoka Prefectural Yawata Central Senior High School.

Approved as per draft.

20. The quorum of Yawata City Assembly.

The draft was introduced by the Social Party to the City Assembly held on Jan. 31. The Social Party supported the plan of 30 members quorum, the Democratic Party was in favour of 35 members quorum and the Shinko Club insisted on the plan of 44 members quorum. Upon this 32 attendants cast open votes, as a result of which the draft for decrease of the existing members to 35 members was voted down with 7 in support and 25 in opposition and the draft for decrease to 30 members was also voted down with 10 ayes and 22 noes. After all, this problem was settled in adopting hereafter the 44 members quorum according to the Local Autonomous Law and increase of 4 members was realized.

D. Japan Communist Party.

The Japan Communist Party had been leading their affiliate organizations and labor unions under their influence through the activity of organ's magazine which they thought is the best and royal road to catch the masses. But, when the "Heiwa no Koe (Voice of Peace)" the substitute magazine for the "Akahata" was simultaneously inspected and seized all over the country and their distributors were arrested, the party was panic stricken. Later the party seems to be attempting to revive the organ paper's activity through their subordinate machinery.

From the viewpoint that the local election is an important stage to wage political strife, mustering power of the masses to an united front of the race for its independence and peace, the party seems to have decided that it would not refuse the unified election for the sake of the consolidation of their political platform and for that purpose it would choose the party's candidates or design electoral countermeasures taking advantage of the local election for manouvering a political strife.

V. Summary of proceedings

29th January

Meeting of Assembly Steering Committee, opened at 10.30 a.m., decided the schedule of regular meetings

31st January

Plenary session, opened at 2.10 p.m.

In the first place, the Bills from No. 1 to 6 were introduced and the Mayor was requested to explain the reasons for proposing them. The Mayor explained about year-end allowances for city employees and other things as the substance of the budgets proposed in the said bills.

Then the assembly went into general interpellation beginning with Mr. Ishii's (independent) question about (1) whether there was any intensinn to set up a personal affairs committee accompanying the enforcement of the Local Public Service-Law, (2) adoption & promotion of officials and (3) preparations of ordinances and regulations. The Mayor answered that (1) would do with a Impartiality Committee but he would investigate it sufficiently, (2) would be based on the principle of proved ability and (3) was under sufficient preparation.

Mr. Kitajima (Democrat) asked (1) whether it was not permissible to employ temporary employees and (2) about the fixed number of children and the ground problem of Gofuku Kindergarten. The Mayor replied that (1) was as it was now by financial reasons but he hoped to see to increase the fixed number of the regular officials in charge and (2) would be investigated into the actualities and be dealt with adequately.

Mr. Mori (Liberal) questioned the reason why the extension to Kawara-machi of the running of the city street-car on its Kawashiri line had not been actualized. The Chief of Traffic Bureau answered that although the extension had been delayed by reasons of other works and the location of Kawara-machi car-stop, it would be actualized immediately. The Chief of Traffic Section additionally explained in details.

With the above, general interpellation was finished and all the introduced bills were committed to respective committees.

Then the assemblymen-proposing bills No. 1 and 2 were taken up and Mr. Ideta (independent) representing the proposers, all the 12 independent, Liberal and Socialist members, explained that the existing Proceedings Regulation and Committee Regulation, having been legislated within only about ten days immediately after the enactment of the Local Autonomy Law, were extremely incomplete and therefore harnful to correct functioning of the assembly, and so they were proposing their amendment.

When voted, the bills were rejected with minority pros.

The assembly closed at 3.50 p.m.

Water Supply Committee met at 4.40 p.m., and passed the bill committed to it.

1st February

Education and Culture Committee met at 10.30 a.m., and passed the bill committed to it.

2nd February

Rehabilitation Committee met at 10.40 a.m., and passed the bill committed to it.

Traffic Committee met at 1.30 p.m., and passed the bill committed to it.

3rd February

Agriculture and Forestry Committee met at 11 a.m., and passed the bill committed to it.

Welfare Committee met at 1.30 p.m., and passed the bill committed to it.

4th February

Commerce and Industry Committee met at 11.15 a.m., and passed the bills committed to it.

General Affairs Committee met at 1.30 p.m., and passed the bills committed to it.

5th February

At 1.13 p.m., the plenary session was resumed.

Bills No. 7 and 8 were additionally brought up for discussion. The Mayor supplemented his former explanation, and after chairman of standing committees reported about the results of their investigation, questions were made as to the chapters and items of the budgets.

Mr. Nagahata (Democrat) asked whether it was intended to raise wages of city employees up to those of government employees and to take similar steps as to the period of promotion. The Mayor replied he hoped to improve their treatment sufficiently, as far as the city's finance would allow, and explained his improvement plan fairly materially.

Mr. Yamaguchi (independent) inquired about (1) that fire-alarming was hoped to be made thoroughly popular, (2) the bribery scandal aroubd the Kumamoto Bicycle Race,

(3) progress of collection of taxes and (4) whether there was any thought of administrative adjustment in parallel with improvement of wages.

The Mayor replied about (4) he thought that administrative adjustment was at present absolutely impossible and rather than that an increase in personnel to some extent was needed. The Chief of Police Bureau replied about (2) that he had not exactly recognized the fact of crime, and the Chief of Taxation Bureau answered about (3) that there were nothing as would hamper the enforcement of budgets.

Then debations were curtailed and the 2 bills were put to vote, resulting in the ananimous passage of the both.

Then was taken up Resolution No. 1, Resolution Thanking for the Completion of Rice Quota Delivery for 1950 Fiscal Year, which, when read and put to vote, passed unanimously. The Mayor expressed his cordial thanks for what the resolution meant.

The assembly closed at 2.53 p.m.

Bill No.5. Pertaining to the relax of limits placed on floatation of educational loan.(approved)

Bill No.6. Pertaining to the promotion of establishment of the Public Loan Corporation for agriculture, forestry and fishery. (approved)

Bill No.7. Pertaining to the efficient and democratic operation of electric industries. (approved)

Bill No.8. Pertaining to the increase of national subsidy for the Health Center. (approved)

Bill No.9. Pertaining to the problem about the administrative jurisdiction over Health Center resulted from the redistribution of administrative business. (approved; this bill is to be introduced before the nation-wide chairmen's Conference).

Bill No.10. Pertaining to the revenue sources for the water-supply works and sewerage system. (approved)

Bill No.11. Pertaining to the local finance for the fiscal year of 1951 (approved; the petition is to be submitted to the national Diet).

Bill No.12. Pertaining to the state liability system for improvements of roads. (approved)

Bill No.13. Pertaining to the administrative business in regard to the children's welfare - Expenses necessary shall be defrayed from the national subsidy instead of local finance equalization grant. (approved)

Bill No.14. Pertaining to the amendment of the regulations which prohibit the Fire Service and Flood Control Corps members from running for elections.

4. Reasons for presentation of bills:

Bill No.1. (presented by Fukuoka-ken)

Reason: As for the damages rehabilitation, expenses necessary were defrayed, for the fiscal year of 1950, from the national damages rehabilitation funds. However, in view of the current financial stringency at local bodies, the state liability system is requested to be continued for the fiscal year of 1951.

Bill No.2. (Presented by Fukuoka-ken)

In view of the financial stringency in the small and medium scale enterprises, some measures have to be taken in order to relieve them.

(1) It is to be hoped that the local autonomous bodies will be empowered to use the funds reserved at the Deposit Section of the Finance Ministry.

(2) The fidelity insurance funds system for the small and medium enterprises must be strengthened so as it may play role as banking facilities for citizen.

(3) It is to be hoped that the limits on loan to be granted from the counter-part funds to the small and medium enterprises will be relaxed, and the method in which the said funds be employed will be simplified.

(4) It is to be hoped that to take a legislative measures to enforce the Shinyohosho Kyokai (Credit Security Association System).

(5) The funds at the National Finance Corporation must be increased.

Bill No.3. (presented by Fukuoka-ken)

Reason: The amount of the Local Finance Equalization Grant for the fiscal year 1950 was decided, coming from above, at one

hundred and five billion yen. However, this is toosmall to meet the expenses necessary at the local bodies.

The National Government is requested to abide completely by the Law concerning Local Finance Equalization Grant, Art.3.

(1) The National Government is requested to consider seriously lest the local autonomous bodies should suffer from expenses necessary which might be increased due to the amendments of laws after decision of the amount of the Equalization Grant.

(2) The National Government is requested to give careful consideration lest the local bodies should be pressed for expenses which might be imposed upon due to the readjustment of the budget.

Bill No.4. (presented by Fukuoka-ken)

Reason: In proportion to the sale price of vegetables and fruits, freight rates on them are too high. At the production districts which are far distant from the consumption districts, farmers are being pressed for freight rates on products. The freight rates have to be decreased in order that producers of vegetables or fruits may be lightened from the heavy burden.

Bill No.5. (presented by Fukuoka-ken)

Reason: Most of buildings of primary and junior high schools have elapsed scores of years since their construction. Some of them are in dangerous condition as the result of decay. School-buildings must be reconstructed without delay. In addition, due to the increase in number of pupils, school-buildings have to be enlarged to meet the situation. At present, subsidy for the reconstruction is to be defrayed from the equalization grant. However, it is too small to meet the expenses necessary. We heartily wish that the limits on the educational floatation will be relaxed so as we may be defray the necessary expenses for reconstruction of school-buildings from the loans.

Bill No.6. (presented by Fukuoka-ken)

Reason: The current dull conditions of the agricultural and fisheries industries are caused by the financial stringency. The National Government is requested to set up the Public Finance Corporation for the agricultural and fisheries industries without delay in order to meet the demands for low-rate and long-term loans.

Bill No.7. (presented by Fukuoka-ken)

Reason:

(1) Electric power for the agricultural industries should be supplied enough at low price. The share of electric engineering cost which is imposed upon consumers should be reduced.

(2) The development of the sources of electric power should be encouraged through legislation of laws concerned and establishment of public finance corporation which contribute to the development of electric power sources.

(3) In view of the absolutely shortage of power, some counter-measures should be taken for enabling the private power plants to continue operations.

(4) The development of power sources at isolated islands or remote places should be promoted.

(5) The Koekijigyo-Iinkai (Public Utility Committee) should be empowered in order that it may use its power in regard to the adjustment of electric charges, accommodation of power and development of power sources.

(6) As to the establishment of the new company, Electric Industry Committee should be established at each bloc, in preparation for strengthening staffs of management.

(7) In the process of reorganization of power industries, some counter-measures should be taken to avoid such bad effects as confusion in operation, decrease in power supply, delay of development works of power sources etc.

(8) The new company to be established, should make every effort for contributing to the public utility, by taking such measures as completing facilities, avoiding loss in transmission and decreasing the monopolistic use of power.

Bill No.8. (presented by Fukuoka-ken)

Reason:

As the Health Center is a central organization of the hygienic administration, health conditions of nation depend upon the functions of the Health Center. As for the expenses necessary, it is to be hoped that the total amount of the construction cost of the office, a half of the supplies cost for the first year, and a half of the personnel expenses would be defrayed from the national subsidies.

Bill No.9. (presented by Fukuoka-ken)

Reason: According to the advice by the Local Administration Investigation Committee in regard to the redistribution of administrative business, the Health Center is to be placed under the jurisdiction of the respective city, town and village offices. However, the Health Center has to charge business covering such wide range as prevention of tuberculosis, venereal disease and guidance of hygieny of mother and children.

In addition, the Health Office has to charge the controlling administration over hygieny which was heretofore belonged to the police. Therefore, the Health Office should be affiliated with an administrative agency having a wide power. Viewed in this light, it is to be hoped that the Health Center should be placed under the jurisdiction of the respective prefectural government.

Bill No.10. (presented by Fukuoka-ken)

Reason:

In preparation for preventing epidemics from spreading, it is a matter of great urgency to complete the water supply works and sewerage system. However, the local autonomous bodies have no financial resources to cover the expenses necessary for completing the above works. We request the National Government to increase subsidies for these works.

Bill No. 11. (presented by Hyogo-ken)

Reason:

The budget of local finance for the fiscal year 1951 is estimated at 588,700 million yen. It is higher than the budget of this year by 100,000 million yen. In consequence, the local autonomous bodies are requested to reserve additionally 71,200 million yen, to appropriate to the increased expenses for raising wages as well as carrying out public utility works.

Although the local autonomous entities will make every effort to drive the resources by saving expenses, increasing local taxes as well as local bonds, the equalization grant is requested to be increased by 16,000 million yen compared with it of last year. In spite of the above circumstances, the Equalization Grant for this year is estimated at 110,000 million yen. It is higher only 5,000 million yen than it of last year. We hereby request the National Government to increase the amount of the Equalization Grant and of local bonds.

Bill No.12. (presented by Kanagawa-ken)

Reason:

The national subsidy for improvement of roads is not enough to cover the expenses necessary. It is to be hoped that the all amount of expenses would be defrayed from the national subsidy.

Bill No.13. (presented by Kanagawa-ken)

Reason:

The expenses for children's welfare administration have been defrayed from the national subsidy. However, it is to be included in the equalization grant from the fiscal year 1950. Due to the fiscal stringency at the local public bodies it became difficult to obtain necessary expenses. We hereby request the national government to defray the expenses from the national subsidy as before.

Bill No.14. (presented by Kanagawa-ken)

Reason:

The Fire Service Corps and Flood-control Corps were established in accordance with the regulations of the respective city, town and village. Members of these Corps are to take charges temporarily on the occasion of outbreaking damages. They, in their character, are entirely different from the ordinal public service officials. However, in accordance with the Public Service Election Law, they are treated similar to the public service officials, and in consequence, limitation is put upon them to run for elections. As a result, most of staffs of the Fire Service and Flood-Control Corps are expected to resign their offices. Under such circumstances, we find it difficult, from the standpoint of preventing damages, to meet the situation. We request the National Government to amend the provision of Art.89, the Public Service Election Law.

5. Agreement (proposed by Fukuoka-ken)

Subject: On the way how to get out of the current financial difficulties at the local bodies.

In spite of the recent trend which called for the autonomy of the local public bodies and establishment of sound finance, the financial situation at the eight large population prefectures became worse since

the amendment of the Local Tax Law and enforcement of the Local Finance Equalization Grant System. Prospects are not bright.

The Fukuoka Prefectural Assembly is determined to request the National Government to take some measures for getting out of the current difficulties. Other prefectures which are under similar conditions to Fukuoka-ken are requested to take measures in accordance with Fukuoka-ken.

Concerning the above subject proposed by Fukuoka-ken, agreement was reached among the eight prefectural representatives.

八大都道府縣議會議長會議宣言

八大都道府縣議會議長會

第一号議案

災害復舊費全額國庫負擔制度の存續について

（福岡縣提出）

（理由）

災害復舊事業費國庫負擔の特例に關する法律（昭和廿五年五月十九日法律第一八九号）第二條の規定により國は昭和廿五年度に限り復舊に要する經費を災害復舊費より全額負擔することになつているが、地方財政の窮迫せる現狀に鑑み昭和廿六年度に於ても、本法の適用を受ける如くこれを存續せられたい。

（中央に於ては本法の負擔率の輕減を企圖せられ三分の二の國庫負擔の方向に改正せられんとしている模樣である。）

第二号議案

中小企業金融對策の確立について

（福岡縣提出）

一、理由

吾が國の中小企業は經濟界において極めて特異な地位を占め、その活動分野も廣汎に亘り經濟再建の基礎である輸出産業においても重要な役割を演じている事は周知の事實であるる。

つて從來その維持、育成、助長のため中央に於ても數々の施策が講ぜられ各都道府縣に於てもその財政の許す限り間接的な施策は勿論、直接財政支出による資金供給の對策等でき得る限りの措置を講じて來たのであるが極度に逼迫したる中小企業の現狀から考えて未だ十全とは云い難く反面かかる對策の資金源としての地方財政の實狀は從來の施策の線を伸ばすには行き悩みの狀態に立ち至つている。

かかる見地から中小企業金融の問題を根本的に解決するためには強力な國家措置による外なく次の事項について早急に實現せられるよう要

望する。

一、資金運用部（預金部）資金を地方自治体の中小企業金融対策の資金源として積極且広汎なる範囲に運用でき得るよう措置せられたき事

一、中小企業信用保険基金制度を更に強化し庶民金融としての効果を十全ならしむること。

一、見返資金の中小企業金融枠を更に擴大化し、これが運用手続を簡素化すること。

一、信用保証協會の法制化は種々難點はあるが、之が實現に極力努力せられたきこと。

一、庶民金融公庫に對し更に増資すること。

第三号議案

地方財政平衡交付金法第三條の改正なる履行について

（提出）

（理由）

昭和廿五年度地方財政委員會の交付金の豫算額として天降り的に一、〇五〇億圓を計上し、この予算内において操作する爲、平衡交付金法の趣旨は全く無視せられた結果となり、地財委はこの予算額に地方財政需要額を合致せしめる爲測定單位の數値の算出に苦慮している現況であるがこれでは圓滑なる地方自治の發達は望む可くもなく、又從來の地方配付稅を廢止せられた意味も没却せられる結果となる。よつて政府は地方財政平衡交付金法第三條に定める「國の運營方針」を嚴守履行すると共に左記事項を嚴しまるるよう要望する。

記

一、平衡交付金及び租額決定後法令の制定改正等による財政需要の増加

一、政府の補正予算に伴い新規に地方負擔の増加する經費

第四号議案

青果物の運賃低減について

（理由）

蔬菜、果實等の青果物は國民の保健食糧として不可缺必需食品で、殊に大消費地域における遠境期對策として地方における園藝作物が相當に重要なる役割を果しているのであるが園藝作物の販賣價格に對しては輸送費の影響はまことに大きく特に消費地に遠い生産地ではこれ等の輸送に多くの費用を要してその發展に大きな障害を及ぼしている。でこれ等運賃の低減方について善處されたい。

（福岡縣提出）

第五号議案

教育費の枠の擴大について

（福岡縣提出）

（理由）

小學校、中學校の校舍は建築後數十年になるので現在の校舍中には腐朽甚しく危險な狀態にあり且つ生徒數の增加に伴い相當坪數の增改築を必要としている。

小學校、中學校教育の重要性は万人の認めるところであり、これを放任しておくことは吾人の許し得ざる重大問題である。

現在校舍の增改築等には財政平衡交付金により補助をなしてあるが、現狀は人件費增大に伴い施設面の經費は縮少せられてあるので如斯狀態では誠に由々しき事態を招來せんとも圖り得ない。ここに學校營繕費に充當せらるべき教育費の枠を擴大し、これら增改築に必要なる經費は起債で賄い得るよう措置方要望する。

農林水産金融公庫の設置促進について

（福岡縣提出）

（理由）

明正度において政府は農林水産金融公庫を設置せられるやに仄聞するが現在食糧の増産が強く叫ばれているにもかかわらず農業水産事業が不振の状態にある理由は一にこれが事業資金の圓滑を缺く爲であるとは謂うまでもない。この經營困難を救濟しもつて農漁村を振起せしめるものは金融以外に途はないのである。よつて政府は速かに農林水産金融公庫を設置し、土地改良事業その他一般農業土木並に水産事業その他の融資を圓滑に對して低利長期融資の方法を講じ地方債と地元事業資金の調滑にならしめる樣措置されたい。
