Twelve FM-2's and one VT struck Chichi Jima. Priority of targets was to be: (a) aircraft in air on or ground, (b) ships and small boats.

Arriving over target, approximately 15 Sugar Dogs were spotted in Futami Bay. Also two large flying boats, believed to be Emilys and apparently operational, were moored in the bay, plus a small float plane next to the seaplane ramp.

Four VF of VC-76 picked the following targets for their first run:

(a) Plane on airfield attacked by one pilot. Plane was burning when strike left, but pilot believes that planes of the STEAMER or SARGENT BAY succeeded in firing it.

(b) Two Sugar Dogs strafed by 3 VF, with no visible results, although it is believed that hits were scored.

(c) Emilys strafed by one VF. No results observed.

Run on the two Sugar Dogs was repeated by three of the VF pilots. Strike then rendezvoused and returned to base.

Intense AA was encountered on all runs.
