To: Prime Minister
Japanese Government

Subject: Application for your approval for eliminating me from the list of Zaibatsu appointees filed under the Law for Termination of Zaibatsu Family Control, Art 6.

Sir,

In accordance with the provisions of Article 6 of the Law for Termination of Zaibatsu Family Control, I have the honor to submit this application for your approval to eliminate my name from the list of Zaibatsu appointees, for reasons mentioned in the attached documents.

Yours respectfully,
Takeshi Goto
(Takeshi Goto)

Enclos: Reason for application
Questionnaire
Other papers

Reason for Application

I have been in the office of director and managing director of the Kanto Special Steel Mfg. Co., Ltd. (Kanto Tokushu Seiko K.K.,) from July 29, 1943, until now. I, however, did not represent the interest of Fuso Metal Industries, Ltd. (Fuso Kinzoku Kogyo K.K.,) nor did I participate in the management of the Kanto Company, and consider that the Law for Elimination of Zaibatsu Family Control is not applicable to myself. My case is submitted in full detail in the following pages.

CONDITIONS UNDER WHICH I WAS APPOINTED AS OFFICIAL OF KANTO TOKUSHU SEIKO K.K. (KANTO SPECIAL STEEL CO., LTD.) AND NATURE OF DUTIES

1) As indicated in the personal history column of my questionnaire, I entered the Ministry of Transportation to serve with its Maintenance Bureau, Rolling Stock Section in 1922. Subsequently, I was appointed as Plant Director of the Moji Railway Bureau's Kokura Plant in 1937, Chief of the Nagoya Railway Bureau's Maintenance Department 1940, and later returned to the ministry headquarters as Chief of the Maintenance Bureau, Rolling Stock Section and technical supervisor in 1946, thus serving the ministry as a technical specialist of rolling stock maintenance throughout my career.

2) The Kanto Tokushu Seiko K.K. (Kanto Special Steel Co., Ltd. - - hereinafter referred to as the "subject company") was originally organized for the production of steel castings and orlls, and manufactured rolling stock parts as one of its principal products since 1938. However, since 1942, other lines expanded, skilled technicians decreased in number, and consequently production of rolling stock parts decreased to an extent that it jeapordized the maintenance of government railways. As for the Ministry of Transportation, it was next to impossible to change the source of supply at the time, the ministry decided to maintain a certain level of production by providing technical assistance to the subject company in terms of sending technical advisers which the ministry would recommend the subject ocmpany to use as employees. Being a railway supervisor and technical assistant to the Chief of the Supplies Breau, I was recommended as a candidate for this position; although I was never consulted with before hand. Negotiations were being carried out between Mr. Kingo Mukasa, then Chief of the Ministry's Supplies Bureau and Mr. Junichi Akiyama, thensenior managing director of the subject company. It was at this time that Mr. Mukasa requested that I be appointed as an official of the subject firm upon entering its organization, so that my technical assistance could be put to the most effective use. Mr. Akiyama agreed with Mr. Mukasa's recommendations and promised to take the matter up with the Fuso Metal Industries and make necessary arrangements for my appointment to directorship of the subject company. It was only after all of these negotiations were completed that I was informed that it was the request of the Ministry that I accept the offer to this position. As it was expressed as a Ministry request, I could do nothing but comply. Thus on June 12, 1943, I resigned form my official post and entered the subject company as its employee on the 28th of the same month. I was appointed as director on July 29th.

Therefore, my appointment as director was an exception so far as the subject company was concerned. I was not appointed as a representative of the interests of Fuso Metal Industries, but merely given director rating so that I may perform my duties in a satisfactory manner with the strength of such a title. Even after I was appointed director, my name was not included on the Fuso Metal Industries' payroll. Before I entered this company, I had no relations what soever with the Sumitomo Zaibatsu, and my employement and appointment was director was no concern of the Sumitomo Holding Company.

3) I had retained my position as Chief of the Technical Department when appointed as director on July 29, 1943. This directorship was granted me in view of my past record as bureau chief of the ministry, but my actual duties were performed daily within the field of technical supervision in such capacitye as chiefs of the Technical, Inspection, and Maintenance departments. Directorship was merely perfunctory and the chief object of this appointment was to fill formalities required by the Japanese Commercial Code.

4) Later I was appointed as managing director of the subject company during the period commencing May 27, 1944 and ending November 1, 1945. However, this was merely to promote me to a higher rating as an obligation to the subject company's best customer, The Ministry of Transportation, and was purely perfunctory and nominal. When on January 17, 1944, this company was designated as a munitions factory, the president, Mr. Junichi Akiyama was appointed Production Controller where as I, as managing director, was never given that title. Full authority was concentrated on the Production Controller.

The management of the subject company is as indicated in the annex. The subject company was managed by its sole stock owner, Fuso Metal Industries, as the latter's branch plant. The management of the subject company was handled by the Fuso Metal officials and their organization, and officials of subject company were vested the power actual operation and the implementation of per-established policies only. At the time I was appointed as managing director, the then president Mr. Akiyama was the Production Controller, and also had a record of a foremer Fuso Metal Industries' director. Therefore all policies regarding the management of subject company were made between Mr. Akiyama and the current Fuso Metal executive. Therefore, even after the promotion to managing director, I was never authorized to participate in management, but merely concentrated my efforts and time into my duties as chiefs of the maintenance and inspection sections.

5) On November 1, 1945, I was demoted to an ordinary director. This demotion was due to the fact that the subject company underwent a decrease in production and I was to head one of the technical sections, the Control Section, and also due to the perfunctory nature of my title as managing director.

This fact should clarify how little weight my appointment as an official had on the management of the subject company.

As indicated and clarified in the above paragraphs, I was not an official of subject company in the sense of representing the interests of Fuso Metal Industries and thus did not participate in the planning or executing of its management, and that I had no relations what soever with the Sumitomo Zaibatsu before entering the subject company; and that even after entering the organization my efforts and time was concentrated on the technical supervision of subject company as the person in charge of technical activities.

PURSUANT TO EXECUTIVE ORDER 13526, SEC. 3.5(b) AND 3.5(c) FOR (E) NNDB # 775012

Outline of The Kanto Special Steel Manufacturing Co., Ltd. (Kanto Tokushu Seiko K.K.)

Trade Name: Kanto Special Steel Manufacturing Co., Ltd.
(Kanto Tokushu Seiko K.K.)
(Former Name: Tsujido Special Steel Mfg. Co., Ltd.)
(Tsujido Tokushu Seiko K.K.)

Date of Establishment: October, 1936

Authorized Capital: ¥20,000,000

Paid-up Capital: ¥14,000,000

Address: No.1110 Tsujido, Fujisawa, Kanagawa Pref.

(1) Capital

(Change of amount of capital up to the present from establishment)

	(Authorized)	(Paid-up)	(Shareholder)
October, 1936 (established)	¥ 300,000	¥ 300,000	Fuso Metal Industries (100%)
1937	¥ 1,500,000	¥ 1,500,000	"
1939	¥ 6,000,000	¥ 3,300,000	"
1940	"	¥ 4,650,000	"
1942	"	¥ 6,000,000	"
1943	¥12,000,000	¥12,000,000	"
1944	¥20,000,000	¥14,000,000	"
Up to the present			Voting rights entrusted ~~with~~ to the Holding Company Liquidation Commission

(2) Scale of Equipment and Number of workers

(Description)	(Area or Number in 1938 yr.)	(Area or Number at the end of war)
Land	11,700 Tsubo	58,300 Tsubo
Buildings	1,960 "	11,000 "
Major Equipments		
Electric Furnace (6 tons)	None	1 Unit
" (3 tons)	1 Unit	1 "
(High Frequency Induction 1 ton)	1 Unit	2 "
	None	2 "
		4 Unit

Heating Furnace	(Coal)	3 Units	4 Units	14 Units	18 Units		
"	(Electric)	1 "		4 "			
Air Compressor	(500 HP.)	None	2 "	2 "	5 "		
"	(300 HP.)	2 "		2 "			
"	(100 HP.)	None		1 "			
Hammer	(3 tons)	1 "	3 "	4 "	9 "		
"	(2 tons)	None		2 "			
"	(1.5 tons)	1 "		1 "			
"	(1 ton)	None		1 "			
"	(0.5 ton)	1 "		1 "			
Press	(1,500 tons)	None		1 "	1		
Machine Tools		20 Units		123 "			
Workers		217		1,309			

(3) Products and Output

(Products)	(Annual Output in 1938)	(Annual Output in 1944)
Chiled rolls made from special steel by forging		402 tons
Die Steels for Casting		5,678 "
Spring Steels for Railway Rolling Stocks		465 "
Parts for Railway Rolling Stocks		
Stainless Steels		
Total output	1,573 tons	6,545 "
Total Amount	¥970,000	¥14,237,000

For the comparison of the equipment scale of the Kanto Company and the Fuso Company we can cite the following figures as to production of steels, that is, the steel output of the former in 1938 was 3,500 tons per annum and this was only about 9 percent of that of the steel making shop in the Fuso Steel Works which produced 40,000 tons. As to the productive capacity of forgings, the former turned out products of ¥970,000 in 1938 and this was about 12 per cent of ¥8,243,000 of the forging shop in the Fuso Steel Works in 1937. (Note; Production of the Fuso Steel Works amounted to ¥27,925,000 and the total production of the Fuso Company ¥116,921,000) To make a comparison of output in 1944 when the production reached the peak during the war, that of the Kanto Company was 6,545 tons amounting to only 6.3 percent of 103,501 tons of the Fuso Steel Works or about 20 per cent of 33,975 tons of the forging shop of that works. Products of the Kanto Company such as rolls and die steels were supplied to the Fuso Copper Works and the Fuso Steel Works, and operation techniques applied in this

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 713012

company were introduced from the Fuso Company. Such being the case, the Kanto Company was run just as a plant for the Fuso Company. All products of the Kanto Company except the above mentioned were special steel forgings, therefore it was in this point also playing a part as a supplementary plant of the special steel forging shop of the Fuso Steel Works. The management organization of factories under control of the ~~Sumitomo~~ Fuso Company was centered to the Head Office, major works (6 in 1945) were connected direct with this, plants (8 in 1945) formed next lower structure and branch plants (5 in 1945) were attached at the bottom. In consideration of scale, technical and financial relations, the Kanto Company is an unit in a position corresponding to the plant or branch plant in the above mentioned ~~Sumitomo~~ Fuso Company's management organization.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NND # 773012

C E R T I F I C A T E

Mr. Takeshi GOTO entered into the service of the Kanto Tokushu Seiko KK (Kanto Special Steel Mfg. Co., Ltd.) on June 28, 1943, and was appointed director on July 29, 1943. Previous to this he had been an engineer of the Government Railway Department. He was invited to the company for his technical guidance in the manufacture of railway rolling stock parts which were being produced by the company.

The management of the Kanto Special Steel Company was conducted by me, who was then the president of Fuso Kinzoku Kogyo KK (Fuso Metal Industries, Ltd.) with the assistance of other Fuso officers treating the plant of the Kanto Special Steel Company as a branch factory under direct control of Fuso. Full-time resident officers of the Kanto Special Steel Company were only in charge of execution of managerial instructions given out by me and other Fuso's officers. Mr. T. GOTO has all this while been taking charge of technical sides of the problems and did not in any way concern himself with the management of the company as a corporate officer.

I hereby certify that the above statement is true and corect in every respect.

May 28, 1948.

(T r a n s l a t i o n)

C E R T I F I C A T E

I was chief of Materials Bureau of Railway Department from November 1, 1942, to August 25, 1945. I recognized the necessity of Railway Department giving its technical guidance to the Kanto Special Steel Mfg. Co. and have taken good offices to have Mr. Takeshi GOTO, then a Railway Supervisor (Tetsudo Kan) assisting the Chief of Materials Bureau, enter the Kanto Company as a technical leader in June, 1943.

The Kanto Company had been manufacturing spring steels for buffers used for railway rolling stock and other rolling stock parts, but their productions were gradually decreasing towards 1942 due to increased percentage of production for other products and due partly to lack of proper technicians for rolling stock parts, which came to affect the maintenance of rolling stock parts by the Government Railway Department. Under the circumstances prevailing at that time, it was considered difficult to seek manufacturers in other fields, so I have made arrangement to give technical guidance to the company to maintain its production, hence the transfer of Mr. T. GOTO to the Kanto Company for the necessary technical guidance.

In this regard, I had negotiations with Mr. J. AKIYAMA, then chief director of the Kanto Company, who accepted my recommendation and agreed to take Mr. T. GOTO as a suitable person for the position under consideration.

I also considered it fit that Mr. TOTO be given a worthy position not inferior to the one he occupied in the Railway Department and advised Mr. AKIYAMA to give him the title of an officer in the company. I thought that such appointment would serve to make Mr. GOTO's work more effective. Mr. AKIYAMA fell in with my views and made the arrangement for his appointment.

I, as person responsible for the entry of Mr. GOTO into the Kanto Company, do hereby certify that the foregoing were the circumstances surrounding the appointment of Mr. GOTO as an officer of the Kanto Company.

May 28, 1948.

June , 1948

Testimonial

Mr. Takeshi Goto joined the Kanto Special Steel Works, Ltd. on June 28, 1943, and became a Director on July 29 of the same year. Mr. Goto, a railway engineer before joining our works, was recommended by the Ministry of Railways to enter our company as an advisor on technical matters for attaining the required production of the railway equipments needed by the Ministry.

Relative to Mr. Goto's entry into our company a negotiation was made between myself, a senior Managing Director, and Mr. Kingo Mukasa, then the Director of the Material Bureau of the Railway Ministry. At the request of Mr. Mukasa and also in view of Mr. Goto's professional career, I thought it was proper to receive him as an officer, and, after consulting with the Fuso Metal Industry Co., I arranged it so that Mr. Goto was elected a Director to look after technical matters.

Consequently, therefore, Mr. Goto even after being appointed Director's post was only in charge of technical matters as a technical engineer.

Between may 27, 1944 and November 1, 1945, Mr. Goto served as a Managing Director of the company. His promotion to the post of Managing Director was due to the fact that the company, after being designated a Munition Company, was trying to give a dignified touch to the composition of officers by increasing the numbers of Managing Directors. Since I was appointed "the man responsible for production" under the Munition Company Law and since every important matter was disposed by myself after consultation with the Fuso Metal Industry Co., Mr. Goto was not in reality carrying out the functions of managing director. He only continued to serve as concurrently the Chief of Inspection Department and Construction Department, the work of which kept him quite busy.

After the termination of the war it was no longer necessary to have a nominal managing director and Mr. Goto was, on November 1, 1945, released from the post of Managing Director. He, however, was permitted to remain as a Director and the Chief of Supervisory Section.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775012

I hereby testify, as the responsible officer in those years that above mentioned circumstances relative to Mr. Goto's entrance to the Kanto Special Steel Works and his activities in the works as an officer are true to the best of my knowledge.

May 1948

Statement

From November 1, 1942 to August 25, 1945 I served as the Director of the Material Bureau in the Ministry of Railway. In June 1943 I felt the necessity of giving a technical assistance, from the Ministry, to the Kanto Special Steel Works and recommended for that job Mr. Takesi Goto who was then assisting me as a Technical Official First Class.

Since 1938 the Kanto Special Steel Works has been engaging in manufacturing various equipments such as spring steel for draft, gears, etc. for the government railways. Since around 1942 the difficulties were experienced by the Ministry as to the repairings of railway cars due to the fact that the Kanto Special Steel Works was busy getting orders for other kind of steels with the decreased number of engineers.

Since we had then no other way of obtaining the equipments than from the Kanto Special Steel Works, we decided to send to the Works one of our technical officials, in the way of giving help for assuring the production of the necessary steels.

About this matter the negotiations progressed between myself and Mr. Junichi Akiyama, then the standing Director (Senmu Torishimaryaku) of the Kanto Special Steel Works. We thought Mr. Takeshi Goto would be most fitted for this position. I urged Mr. Goto to accept, which he did.

I might state that I asked Mr. Akiyama to offer Mr. Goto a position of officer, because I thought that by giving him director's post it would make it easier for Mr. Goto to carry out, more effectively, his work on the technical matters. And also in view of his career in the Ministry I thought that he should at least be accepted as an officer, which Mr. Akiyama did.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775012

As the one who was then responsible for recommending Mr. Takeshi Goto to the Kanto Special Steel Works, I hereby state that the above mentioned is true to the best of my knowledge.

Kingo Mukasa

Kingo Mukasa

June 2, 1948

Testimonial

This is to certify that the Kanto Special Steel Works, Ltd., since 1938, has been engaging in the manufacturing of such important railway equipments as spring steel for draft gears, the shaft for electric cars, piston rod for locomotives, etc., and that Mr. Takeshi Goto, an officer of the Kanto Special Steel Works, Ltd., upon the recommendation of the Ministry of Railway joined the company in June, 1943, to give advice as an engineer and to act as a liaison man for the manufacturing of the above mentioned equipments needed by this Ministry.

It might be added that in order to facilitate the production of the railway equipments this Ministry feels that the company is very wise to keep a man of his ability and character at the Kanto Special Steel Works, Ltd.

Note 1: "Organization or company" mentioned in this column include any organization or company other than Zaibatsu company. With reference to organizations, relationship with economic organizations such as union, association or conference etc. will particularly be given in detail.

Note 2: In case you did not, in fact, handle duties for which you have been authorized, duties and powers which you actually handled and name of the person who dealt with duties originally authorized for you will be given.

Note 3: With reference to the Zaibatsu company where you served as official or as a person accorded with the status of official, the following entries are additionally required.

a. Name and stock-holding percentage of stock-holders owning 10 per cent or more of the total stock of the company at the time of your assumption of office and retirement. SEE SEPARATE SHEET

b. Name, position and dates of appointment and retirement of other officials of the company during the period when you served.

Dates of employment and retirement.	Name of company or organization where you served.	Status of the position (including position as ordinary personnel.)	Duties and powers (in detail).	Substance of business of organization or company where you served and its location.

TO : MR. HITOSHI ASHIDA,
CABINET PRIME MINISTER

Misao Ueda

SUBJECT : PETITION FOR CLARIFICATION OF STATUS

PETITIONER: HYOSUKE HAMURA,
Present Address: No. 709b Tamagawa-Denenchofu,
Setagaya-ku, Tokyo
Present Occupation: President, Toyo Denro K. K.;
Director, Kurobegawa Denryoku K. K.

I. Gist of the Petition:

I, Kyosuke Hamura, was director and also standing director of the Denki Kagaku Kogyo K. K. which was designated as an associated company of the Mitsui Zaibatsu in accordance with the "Law for the Termination of Zaibatsu Family Control" prior to the 2nd of September, 1945, and I request for recognition as an non-Zaibatsu officer on the following grounds.

II. Reasons for Filing This Petition

In accordance with Article 6 and 7 of the said Law, O offer the following reasons.

Relevant to Article 6

1. Situtations Connected with My Assumption of Office

I joined the Denki Kagaku Kogyo K. K. (hereinafter referred to as "the Company") as a secretary in November, 1919. I successively held the positions of Chief of the Business Section of the Engineering Department, assistant Manager of the Omuta Plant, Manager of the same Plant and Manager of the Omi Plant. At the general meeting of shareholders held in December, 1931, I was elected a director while retaining my position as manager of the Omi Plant, and subsequently, in 1938, I assumed the post of standing director. But in June, 1943, I tendered my resignation. Later, in April, 1947, I assumed the posts of director-president of the Toyo Denro K. K. and director of the Kurobegawa Denryoku K. K. both affiliated to the Denki Kagaku Kogyo K. K. I still hold these positions.

As stated in the foregoing, I was elected a director of the Company in December, 1931, but this has nothing to do with the Mitsui Zaibatsu. I believe that my position was due to my achievements - especially to my efforts made during the depression years around 1928-29 as manager of the Omi Plant in carrying on and consolidating the plant. Furthermore, I was elected a standing director to fill a vacancy in December, 1938, at the meeting of the board of directors, on

the recognition of my achievements as well as my experience as stated above. I was elected to the post of director as well as standing director by free vote during the shareholder's general meeting and directors meeting, and not on the instructions of the Mitsui Zaibatsu. The relations between the Mitsui Zaibatsu and the Company should throw light on the situations, that is to say, when I was elected to the post of director, the shares owned by Mitsui amounted to only 6.7% of the total shares of the Company, while at the time I was elected standing director, Mitsui owned only 4.5% of the total shares of the Company. Mitsui exercised no control over the Company, as a matter of fact, Mitsui was always represented by proxy at the shareholder's general meeting and was never even once represented in person. The management of the company was left entirely to the discretion of the directors who received no prior instructions nor acted under others' consent in the execution of their offices. I can say this with absolute confidence in view of the duties placed in my charge while a director of the Company (at that time, matters relating to the general meeting of shareholders was placed in charge of the chief of the documents section).

2. Situations Connected with the Execution of My Office as Director

I was elected to the position of director in December, 1931, while still retaining my position as manager of the Omi Plant. In September, 1933, I was transferred and simultaneously held the positions of chief of the documents and purchasing sections at the head office. Even after I had been elected to the post of standing director, in December 1938, I retained my position as chief of the documents section and executed duties concerned chiefly with documents and general affairs. In the execution of my above duties, as stated previously, I received absolutely no instructions nor experienced control of the Mitsui Zaibatsu, and as a matters of fact, no control was exercised.

Moreover, during the whole of my term of office as a director, I never once held the representative powers of this Company.

As may be observed in the situations connected with my assumption and execution of office, as a director, as previously stated, I believe that it is obviously unfair that I should be regarded as an officer of the Company connected with the Zaibatsu.

Relevant to Article 7

Relevant to Item 1

I am not connected with the Mitsui Zaibatsu, nor am I in any way whatsoever related to the Mitsui Zaibatsu Family (See attached papers No. 1).

Relevant to Item 2

There is no agreement necessitating the recognition of the Mitsui Zaibatsui in assuming the position of officer of the Company (See attached papers No. 2).

As I have stated under explanations selevant to Article 6, I was elected to the post of director in December, 1931, and standing director in December, 1938. My assumption of office did not require the previous assent or recognition of the Mitsui Zaibatsu or any company under the direct control of Mitsui. I owe my position to a free election.

Relevant to Item 3

As I have previously stated under explanations relevant to Article 6, I was elected a director in December, 1931, and held the position of standing director during the period from December, 193 to June, 1943 and, as previously stated, my position as chief of the documents section placed me in charge of documental and general affairs duties. Moreover, the standing directors of this company are not invested with the powers to represent the company. Their duties consist merely of assisting the chairman of the board of directors who is the highest representative of the company. I possessed no representative powers, much less authority or control, empty or real, corresponding to that of the highest representative of the company.

Relevant to Item 4

As I have previously stated, I have held the positions of director and standing director of the Company but I have never held any position in any other company connected with the Zaibatsu other than that I held at the Denki Kagaku Kogyo K. K.

To: Mr. Kyosuke Hamura

We certify that the following are true:

1. There was no agreement made with this Company in regard to the appointment of officers of the Denki Kagaku Kogyo K. K.
2. It was not through our instruction, nor due to our conseent that you were elected a director of the Denki Kagaku Kogyo K. K. in December, 1931, and managing director in December, 1948.
3. In executing your office as director and again as managing director of the Denki Kagaku Kogyo K. K., you did not represent the interests of our Company, nor did we ever issue instructions to you.

Signed Jun Taguchi,
Liquidator,

Misao Ueda,

TO: MR. HITOSHI ASHIDA,
PRIME MINNSTER

SUBJECT: A PETITION FOR AN ACKNOWLEDGEMENT OF NON-ZAIBATSU APPOINTEE

PETITIONER: GORO HARADA
Address : #2198, 4-chome, Kamimeguro, Meguro-ku, Tokyo
Occupation: Director, Denki Kagaku Kogyo Kabushiki Kaisha
(Electric Chemical Industry Co., Ltd.)

I. I, Goro Harada, as designated in the Law for Termination of Zaibatsu Family Control; in June 1944, was appointed director (torishimariyaku) of Denki Kagaku Kogyo K. K., a subsidiary company of Mitsui Zaibatsu, but request that I be acknowledged as an non-Zaibatsu appointee on the following reasons;

II. The Reason For A Petition:

a. Petition under Article VII of the Law:

1. Concerning Item 1;

I am not related to anyone who belongs to the Mitsui Zaibatsu family or spouse of same by blood and marriage as per attached family registry which clearly indicates as such.

2. Concerning Item 2;

As to my appointment of directorship, there was no necessity for a preliminary arrangement for an acknowledgement from Mitsui Zaibatsu; and as a matter of fact I received no acknowledgement from them as per attached Statement by Mitsui Honsha.

3. Concerning Item 3;

I was appointed a director in June 1944 and serving ever

since but I'm a common director and at the same time the chief of Planning Department as well. My function of duty concerns mainly with the carry out of technical matters only and as to the management of the company I did not possess authority or power as like chief executive (saiko daihyo torishimariyaku) to represent the company.

4. Concerning Item 4;

I I have never held executive post of Zaibatsu affiliated company other than Denki Kagaku Kogyo K. K.

From above stated reasons I believe it is very obvious that I am not a Zaibatsu appointee but furthermore, under Article VI of the Law, I would like to explain the circumstances at the time of my appointment and function of my duty.

b. Circumstances at the time of my appointment;

I am a chemical engineer and joined the staff of Denki Kagaku Kogyo K. K. in 1929; when industries of Japan were facing crisis and in order to break this deadlock I made a thorough fundamental study of the production methods of calcium carbide and calcium cyanamide; and also to plan and industrialize new derivatives. Hence I have been successful in improving the technical matters concerning the main products but depression has oppressed the chemical fertilizer industry hard and so to counter attack this, with streneous effort and research, was able to industrialize the following electro-furnace products; carborundum, calcium silicide, metallic silicon and organic chemicals such as; guanidines, thio urea, melamine resin,

acetaldehyde, acetic acid, acetylene black. Meanwhile, I was sent abroad to Europe and America to study and inspect chemical industry. In June of 1944, I was appointed to director by Board of Directors and approved by Stockholders; this was mainly due to my distinguished service rendered to the company. Mitsui was one of the stock-holders but they have refrained from controlling the management of the company, especially concerning technical matters. Consequently, as to my appointment there was no directive or understanding with Mitsui; and if any such is groundless.

c. The function of my duty;

As stated previously I was appointed as director in June 1944 but retained my position as the chief of Planning Board and I have chiefly concentrated my work on improving technical matters; and in search for a new product and commercializing of it. I have not participated in the executive work of the company.

As per attached Statement by Mitsui I have never been in the position to represent the interest of Mitsui or either receive directive from them; if there are any such statements are false.

III. Appendices:

十一、本人の役員就任當時その勤務した財閥會社と財閥又は財閥直系會社との間に役員としての就任についての事前承認を必要とする旨の取極の有無

（一）明文の取極の有無

なし

（二）本人の役員としての就任の事情の詳細、特にその就任につき財閥又は財閥直系會社が關與した事實の有無

住友鑛業株式會社の役員選任は主として高級職員中で功績顯著な永年勤續者所謂年功者より候補者を詮衡選擧し、之を財閥會社住友本社の承認を經た上で株主總會に附議選任するのが原則であります。

私が昭和十七年十月十四日取締役に就任しました場合は當時南方セレベス島マカツサルの鑛山開發事業を開始し、その初代鑛業所長を命ぜられましたので詮衡には前記原則に從つたことは勿論であります、その爲昭和十八年四月セレベス島より歸還となるや同年七月廿三日には取締役を辭任せしめられた事實に依つて役員就任が如何に海外勤務の名譽職であつたかを又第二次として昭和十八年十月五日取締役に就任しましたのも同社東京支所を命ぜられました關係で之亦對外的事務折衝上の名譽職としての役員に選任したものであります、翌十九年五月三十一日代表取締役兼常務取締役へ常務取締役に昇任せしめられました關係で常務取締役に就任しましたに過ぎません。

財閥の關與關係は從來は關與した時代がありましたが私の平取締役に就任した昭和十年十月十四日の場合は主要役員社長副社長、專務、常務の如き）に就ては事前承認を要しましたが平取締役は承認を要しませんし又昭和十八年十月五日取締役就任、同十九年五月三十一日常務取締役に就任した場合は戰時中で人事統制は弱化し軍需會社の所謂生産責任者たる社長を除き統制は形式的となり殆んど行はれず住友のアポインティーは「連系會社役員ニ關スル內規」の交付を受けた者とされていたが常務取締役に就任の際も右內規の交付を受けませんで又財閥の事前承認は行はれなかつたと信じます

以　上

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775012

11. At the time of your assnmption of office as official, whether or not the arrangement that the previous approval be obtained from the Zaibatsu or the direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu company where you served and the Zaibatsu or the direct Zaibatsu affiliates.

a. Whether or not the arrangemeut existed in writing.

None

b. Details of circumstances under whicn you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

When Sumitomo Kogyo K. K. elected their officials, rigid selection, as a principal, was made principally rendered distinguished services in their long engagement or men of services. Candidates so nominated, subject to,were submitted for election with the general share holders meeting of the company. When I was appointed director (14/10/1942) the company had just inaugurated mining exploitation at Maccassar of the Celebes island and I was nominated as the initial manager of the establishment. It was granted as honorary post towards the engagement in the oversea operations, while the election was effect in the line of the principal aforesaid. So, upon coming home (april/1943) from the South, I was immediately (23/7/1943) made to resign from the post.
This fact speaks for itself that the directorship was the honorary post for the oversea engagements.
For second time I was elected to directorate (5/1/1943), but this was because I was just installed as Tokyo branch manager of the corporation and because the honorary post was considered usefull in case of various negotiations conducted with those outside the corporations in Tokyo.
As to the standing director to which I was appointed (31/5/1944), it can also be attributed to the fact that during the war time business negotiations with the Central government had increased in importance.
Concerning plutocrat interference, it should be noted that there was a time when such interference, was felt, but when I was appointed director (14/10/1943), only in case of principal official such as President, Vice-President, Managing and standing Directors, previous acknowladgement on the part of Sumitomo Honsha was required, but not in case of ordinary director.

- from page 5 -

Further when I was installed as director (5/10/1943) and standing director (31/5/1944), the personnel regimentation was so weakend on account of the war time, except in case of president, so called person responsible for production of munition company, the control became merely formal and hardly took effect. And despite ~~of~~ the company's stipulation that Sumitomo appointee was confined to those served with the company's by-law concerning the officials of the affiliated concerns, I was granted no such paper when my nomination was anounced. So no previous acknowledgement on part of Sumitomo Honsha is believed to have been made.

MATSUO MINING CO., LTD.

Justifications for Continuance in Office of Plutocratic Personnel for which Approval is hereby Applied.

1. Social position of Matsuo Mining Co., Ltd. (Matsuo Kogyo Kabushiki Kaisha) and necessity of remaining in office of Mr. Narao Hatta, Managing Director of the Company.
2. Remaining in post needed in view of the Company's business operations.
3. Continuance in office requisite in view of the internal management of the Company.
4. Justifications for remaining in office for further one year required.
5. Others.

MATSUO MINING CO., LTD.

(1) Social position of Matsuo Mining Co., Ltd. and necessity of remaining in office of Mr. Narao Hatta, Managing Director of the Company.

Matsuo Mining Co., Ltd., established in August 1914, has a capitalization of ¥ 10,000,000.- fully paid and its business consists of mining of pyrite ore and sulphur, as well as refining of the latter in the Matsuo mine located at Matsuo-mura, Iwate-gun, Iwate Prefecture.

While pressed food problem having been aggravated since the surrender in Japan, the enhanced production policy in view of the self-supply thereof has been enforced under an emergency measure. This however calls for an urgent advanced manufacture of chemical fertilizer, in particular, ammonium sulphate and superphosphates, which in turn necessitates increased output of pyrite ore as the raw material.

The Matsuo mine, largest mine of pyrite ore in Japan, has an ore reserve estimated at 180,000,000 metric tons of excellent quality, including sulphur. Having been designated for this reason as one of the important mine refineries by the Ministry of Commerce and Industry, the Company has been directed to urgently promote its production of the minerals in accordance with a decision reached at the Cabinet meeting of the government. In order to comply with the national request, the Company has resolved to accentuate the production of the mineral ore, disregarding the Company's interestand ignoring various sacrifices encountered. Along with this determined policy, all-out efforts have been made in order to execute this critical task, overcoming the bottlenecks in respect of raw materials, transportation, funds, etc., while completion of of the equipments including construction of various facilities according to the output increasing plan is now under way at a great

cost. In this respect, it is expected that accomplishment of the open-pit works will no doubt bring about a revolution upon the mining operations, whereas the Company's monthly production at present is 30,000 metric tons of pyrite ore together with 1,000 metric tons of sulphur, more than 30% of Japan's entire output. Thus we feel keenly importance attached to the production promoting task.

But it is by no means easy undertaking for the Company to operate in responce to the requirement of the circles concerned, even disregarding its interest, particularly when considerable difficulties are being felt relative to acquisition of production materials, (materials, though rationed, often fail actual delivery) recruiting of labourers, transportation, finance for raw materials, hiking wages for employees, settlement of offensive labour, management of finance in red, etc.

With a view to making a rapid progress towards output advancement, however, a plan was under consideration for introduction of foreign capital investment, and negotiations have been under way with Texas Gulf Sulphur Co., Ltd. The talks, though so far not beyond the limit of preparatory ones, are expected to bring forth a favourable result through their future negotiations.

It goes without saying that upon such juncture of emergency, it is critically important for the Company to enforce rational operations with its excellent members of staff.

Mr. Narao Hatta, Managing Director of the Company, was engaged to plan up the program advancing production of pyrite ore, and ever since the installation in October 1946, he has been in charge of the promotion program. Thus assisting on the other hand the President of the Company, he has succeeded in realizing today's result through his distinguished ability. In view of

the importance of the role now he plays in this program of advancing production as well as negotiations of the proposed inducement of foreign funds, he is indispensable member and it is impossible to replace him with other.

(2) Remaining in post needed in view of the Company's business operations.

The outline and importance of the Company's business have been detailed in previous chapter.

In view of the fact Mr. Hatta is principally in charge of production, it is conceivable that extraordinary efforts are necessary for him in order to accomplish the task imposed upon the Company by overcoming incredible obstacles in various respects. There are number of critical problems which call for emergency measures to dispose of say labour offence, negotiations of transportation as well as matters concerning works of the production increasing facilities, which are now in full swing, and all of them need quick action. Once failed in dealing with them, no advancement in production could be expected.

Management of these matters also needs thorough knowledge of their cause and effect as well as the progress thereof together with sharp insight for the future development. This is particularly the case in the speciality of mining industry. Bestowed with profound knowledge and abundance of experiences, Mr. Hatta, with his integral character, has dealt with all these complicate problems in most satisfactory manner, contributing in the meantime much to the Company's business operations. His capability is appreciated particularly at such confused stage of the industrial and economic world as at present.

(3) Continuance in office requisite in view of the internal management of the Company.

In respect of internal management of the Company, talent of Mr. Hatta is also called for, because his amicable character has played most satisfactorily in every connection; in particular whsnever labour troubles are threatened mostly around wage issue, his remarkable ability for managing such disputes to an amicalble settlement is highly appreciated. He also plays active part in the meetings of the board of directors, whereas indispensable personnel for the operations of the Management Council.

(4) Justification for remaining in post for further one year required.

Establishing of production advancement facilities, which was inaugurated in 1947 with a view to executing the Company's reformatory plan of increasing the output, is expected to complete in greater part through the first half of next year, while the works of the open-cut are also believed to make a fair headway to completion. Thus a period of one year to come is considered the most important one, for which activities of Mr. Hatta, who has taken important part in the planning, is very much needed. Further in view of the fact that he has taken a leading part in the preliminary negotiation with Texas Gulf Sulphur Co., Ltd. since the end of last year in respect of the investment of foreign capital, it is highly desirable that he will remain in the post to carry on the financial talk. This is the reason why he is required to remain in office for further one year.

(5) Others.

The Company has at present 8 standing members of staff, whose

functions are given below and through the execution of their respective task, they are making efforts for promoting production. (Only an auditor exempted from his daily attendance.)

As repeated before, Mr. Hatta is in charge of production, external negotiations and talk of foreign capital investment. Thus the roles he plays are so vast in field to cover and the propriety of his step reflects immediately upon the production. Moreover, as to the introduction of overseas funds, it depends on the economic condition, the government's foundamental policy yet to be established and other various conditions, in which respect the negotiations are by no means simple. For disposing expediently and promptly with all these matters, the Company has no personnel other than Mr. Hatta, who is thoroughly conversant with the situation.

MATSUO MINING CO., LTD.

- Copy -

June 5, 1948.

To : Chosaburo Mizutani Esq.,
Minister of Commerce & Industry.

From: Matsuo Mining Co.,Ltd.
39, 4-chome, Honcho, Nakaku, Yokohama.

Object of the company: Exploitation of Pyrite Ore, Sulphur Ore, and refining Sulphur.

Capital: ¥10,000,000.

Subject: Application for certification.

Our company has been engaged to produce pyrite Ore, indispensable material for the manufacturing of sulphate ammonia, and superphosphate, which are most important materials for increase production of rations upon the national livings. Recently we have been designated urgent increase production of Pyrite Ore, together with increase production of fertilizers.

We hereby request you to certify the fact that our productive quantity of pyrite ore is 30 % of total out-put of Japan, and are executing our duty for the national economic rehabilitation, and an important Mine.
