## NOTE.

---

THIS Price-list is issued to meet the desire frequently expressed for a Catalogue of reproductions in plaster, of ancient, mediæval, and Renaissance works of art, obtainable at home, to the saving both of time and the costs of transportation from Europe, together with the repair of damages sustained on the way, Custom-house fees, and other charges. It embraces all the more important masterpieces, exclusive of the largest in size, now on exhibition in this Museum, together with a few hitherto unseen from lack of space; and the selection has been made in anticipation of such as would be most naturally wanted.

It does not repeat all the particulars descriptive of the subjects, such as, Names of Authors, Material of original Object, Locality of ancient Exposition or Discovery in recent years, and Place of Exhibition in European Museums to-day, on account of the limitation of length: all these items will be found in Hand-book No. 7, published by this Museum, to which the present arrangement and enumeration conform.

In harmony with the aim of this Museum to create a larger interest and to cultivate a truer taste in æsthetic and artistic subjects, the prices of the casts here offered have, in every instance, been placed below those quoted by foreign makers.

It should be plainly understood, however, that these prices do not cover the expenses of cases and packing for shipment, which will be additional, yet not exceeding the value of material and labor.

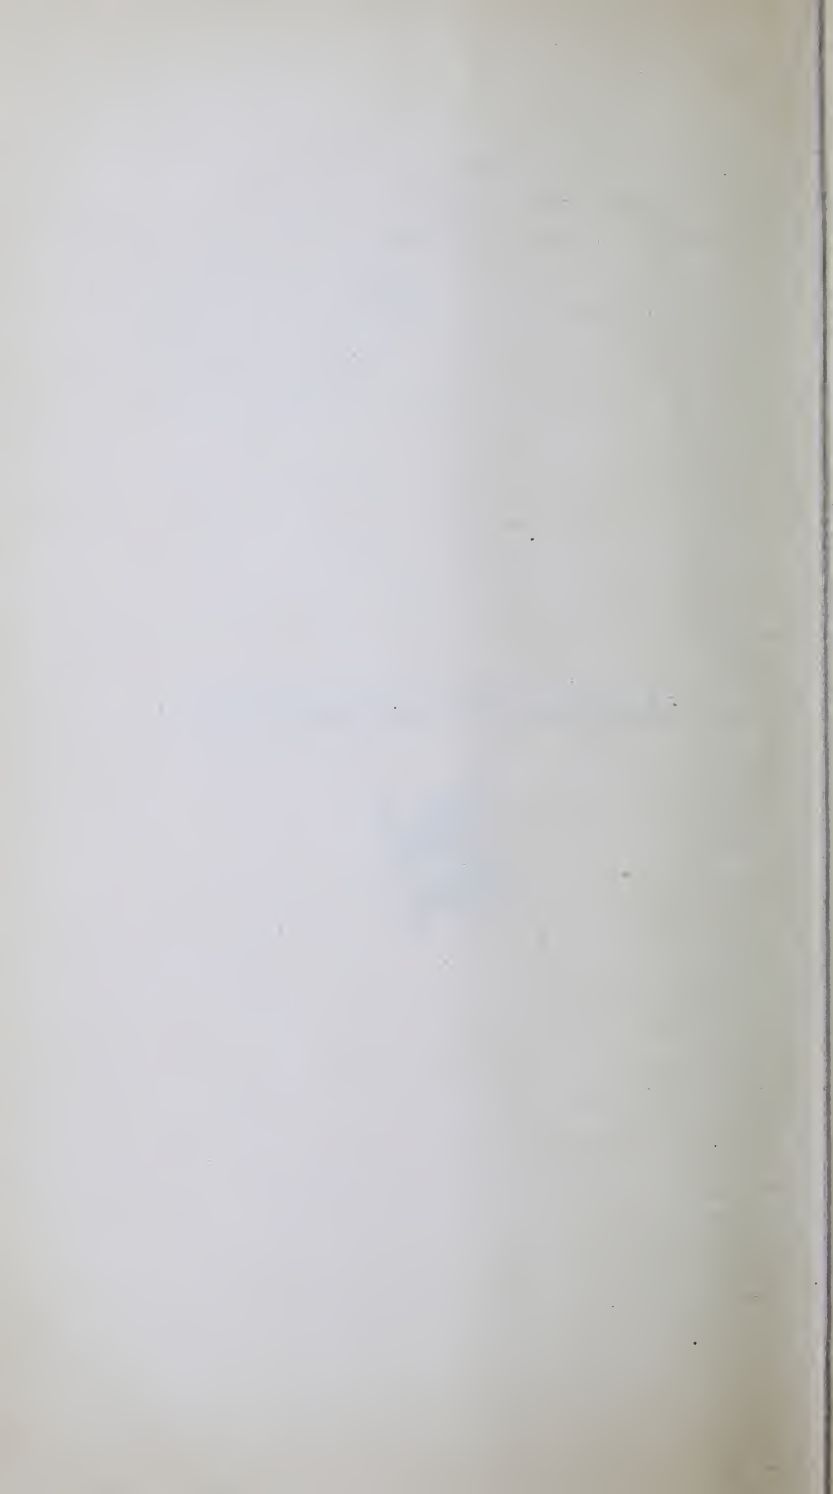

Asterisks indicate that the pieces so marked may be delivered without delay.

Details of statues are subject to order.
