FERN BALLS.

We have imported some of these interesting Ferns from Japan. They are easily grown and occupy little space, being suspended from the roof. In the fall the leaves die off, and the plants need a rest for two months, during which time it is recommended to keep them out of doors. The frost does not hurt them, but when taking them in, they should be gradually thawed out. We handle only the long-leaved variety. Price, No. 1, extra large size, per 100, \$32; No. 2, large size, 100, \$24; No. 3, second size, 100, \$18.

THE THORBURN LAWN GRASS

Practically all the very finest lawns in America were produced from this mixture. We could give thousands of testimonials to justify this high claim, but we have space only for the few given in our general catalogue. These, it will be noticed, all refer to lawns widely celebrated for their beauty.

The Thorburn Lawn Grass Mixture is composed exclusively of permanent grasses that make a finer and thicker turf the older they become, and yet give a rich green sward in three or four weeks from the time of sowing. It should be sown at the rate of 4 to 5 bushels to the acre (15 lbs. to the bushel). Bushel, \$2.50.

THORBURN'S LAWN-RESTORING GRASS SEED

A mixture of grasses peculiarly suited to take firm hold and grow quickly on hard, worn-out or burned spots. The best time to re-sow them is very early in spring, but seed may also be sown in the fall from first of September to first of October. Sow in fall until October 1. Price per quart, 20 cts.; per bus. of 24 lbs., \$4.

THORBURN'S LAWN GRASS FOR THE SOUTH

A mixture of grasses that stand extremes of heat and drought well and that are therefore peculiarly adapted for southern lawns. Per bushel of 20 lbs., \$4.

THORBURN'S MIXTURE FOR SHADY SPOTS

A mixture of grasses that thrive in shaded situations, under trees, or close to walls where there is little sun. Price, per quart, 25 cts.; peck, \$1.50; bushel of 24 lbs., \$5.

PERMANENT GRASS SEED FOR GOLF LINKS

We have given much attention to this subject, and have seeded most of the golf links in the country.

Golf Links Mixture. For the grounds in general. Per bushel of 20 lbs., \$2.

Putting-Green Mixture. A mixture of extra fine grasses, that will make a close, firm, green and lasting turf, which will improve with tramping. Bushel of 24 lbs., \$5.

N. B. We shall be pleased to make special mixtures for particular purposes, or to suit exceptional conditions of soil, situation or climate—for very sandy or clayey ground, for very dry or wet situations, for steep slopes, terraces, tennis-courts, croquet greens, polo-grounds, etc. We invite consultation about any difficulties experienced in getting the right turf for any purpose or in any place.

LAWN GRASS IN CARTONS

These cartons are very handsomely lithographed in colors and give full directions for sowing. They contain our very best mixture, put up of the new crop by ourselves, and should not be confounded with the cheap cartons of the Department stores. They will sell themselves if displayed on the counter.

The Thorburn Lawn Grass. Pint boxes, \$5 per 100; quart boxes, \$9 per 100; 2-quart boxes, \$17.50 per 100; 4-quart boxes, \$34 per 100.

Thorburn Lawn-Restoring Grass Seed. Quart boxes, \$18 per 100.
