Starting from Putney on the Thames, the crews rated for the first mile with the Cambridge boat a quarter of a length in the lead. After the first falls the Oxford eight slowly closed upon their rivals and soon nosed into the lead. From then on the Oxford crew was never headed. as never headed.

The average weight of the Oxford crew was 178% pounds; that of Cambridge 172% pounds. The Cambridge oars hit the water at 12.27 and the Oxoars hit the water at 12.37 and the Oxford follwed at 12.30. Cambridge began with a stroke of 36 and Oxford 35. Cambridge clung to the 36 stroke, but after a mile began to tire. At Hammersmith bridge, a third of the distance, Oxford led by three-fourths of a length, and was so confident of winning that she dropped her stroke to 34.

to an even boat length. Oxforter rowed steadily and increase her lead to three and a half lengths, quite a distance before the finish.

Oxford was a hot favorite. At the toss for position Cambridge won and chose the Middlosex side of the river, Oxford having the Surrey side. There was scarcely enough wind to ruffle the water. This was of advantage to Cambridge, as she had a lighter crew.

The race was the sixty-sixth annual tween Oxford and Cambridge, and is along the Thames, from Patnam Mortlake,

The river was lined on both bifnks throughout the entire four and one-half miles of the course, with thousands of shricking enthusiasts who shouted the names of their favorite eights and waved the colors of the respective universities—dark blue for Oxford, fight blue for Cambridge.

Oxford colors predominated. The Oxford eight were in splendid condition. The Cantabs, on the other hand, were generally voted too light. They looked as though they had here overworked. Recent changes in the crew, further-

Most spectators held that Capt. E. G. Williams, of the Cantabs, who pulled number five, should himself have stroked the Cambridge boat. Even Williams obviously lacked the magnetism of his predecessor, D. C. R. Stuarf, the idol of the rowing world.

The Cambridge eight took the water first promptly at 12.30. Oxford followed in lively fashion a few minutes later.

To-night the crews will, as usual, occupy boxes at the Alhambra theatre.

This is for the moving of twenty-five million yacks of earth. No such block of work, it is said has ever been tendered on in the West, although larger contracts involving rock work have

been let. The earthwork is to be in the irrigation district of the C. P. R. east of Gleicheni, Alberta. Last year the contract for similar work was se-cured by Foley, Welch & Stewart, and the same firm will unquestionably tender on the work this season. In 1908 the firm of Corey Brothers, had the job. Moderate Use of Alcohol is Harmless

Manchester, England, March 23.—For citing scripture in support of his claim that the moderate use of alcohol is harmless, Archdeacon, Sinclair, of London, has brought on himself the bitterest nonconformist attack a clergyman of the English established church had to face perhaps in a generation, "Remember always," said Archdeacon Sinclair, in addressing 88. Anne's church here, "that on the occasion of His first miracle our Lord greated a large quantity of wine to in-Anne's church here, that on the occasion of His first miracle our Lord
created a large quantity of wine to increase the harmless merriment and
happiness of the wedding guests."

He further declared that the scriptuers do not condemn the use of alcoholic heverages, but condemn their

abuse.

He concluded by saying that the attempt to crush the liquor rade by "unjust, inequal and disproportionate taxation," was "a part of that Socialistic movement which threatens the liberties of England."

It was this statement that caused the most strenuous opposition.

The present council, like every other council placed in power for nsiderable number of years, appears to be afflicted with a species of paralysis the moment it is confronted with the necessity for prompt and effective action. For some time rumors of a sinister character have been afteat affecting police administration in the city of Victoria. The Prefix Preller's

Not withstanding the great dramatist's assertion there is a great deal in a name. Con-noisseurs of good wines realize this fact thoroughly. They would not dream of ordering Claret or Sauterne without the prefix "Preller's." When you order Wine, name the kind that you want, and you will not be disappointed. Some kinds pay your dealer more profit than others, and the kinds that pay best are the poorest. If you want an ex-cellent, thoroughly aged din-ner-wine, ask for "Preller's Claret." If you desire a deliciously dry wine that is not astringent, delicate, yet full-flavored, ask for "Preller's Sauterne." These can also Sauterne." These can also be procured in the "splits" or half-pint size. G. Preller & Co.'s Clarets, Burgundies and Sauternes are to be found on wine-lists of all the leading hotels, bars, clubs and

Ernest McGaffey Will Continue as Secretary—Vigorous Campaign Planned

The work of Ernest Mollaffey as security of the victory of the victory of the Annouver Island Development can during the past year has been so sa isfactory and marked by so much su nor can it be until the executive know just how much money the league has at its command. There is at present guaranteed \$7.500, and from the city a grant of \$5.000 is expected. It was the opinion of the meeting that there ought to be a fund of at least \$15.000 available to assist in advertising the city and Island. The example of Regina was cited as one for emulation here. Saskatchewan's capital, a city of 12,000 people, has raised the sum of \$25.000 for publicity purposes; and it was felt that there should be no difficulty in alsing \$15.000 in this city. A vigorous canvass will be made among merchants and leading citizens and the railways which are about to establish in Victoria will be asked to contribute.

R. H. Court. London, representing "Canada," appeared before the executive in geneeting alike an advertising propaganda in that journal.

The members of the executive ager unanimous in the feeling that the methods being followed by the secretary are most efficient and are being productive of excellent results.

EXPIRY OF FRANCHISE.

Dispute Between Vancouver and B. C. Electric Railway Company.

Electric Railway Company.

The date of expiry of the B. C. Electric Railway Company's franchise in Vancouver is generally understood to be 1918. In an argument which took place before the provincial executive yesterday, however if was indicated that the company does not take the popular view.

An application is pending on behalf of Vancouver, Sputh Vancouver, Hastings townsite and District Lot 301. that the franchise of the company in the latter two places be disclared to expire at the same time as in Vancouver. As the franchise is a perpetual one in Hastings and D. L. 201, this overates as in par to any negotiations for their ainexation.

It was claimed by L. G. McPhillips, K.C., on behalf of the company, that its act of incorporation gave it unlimited power to build and operate its lines where it liked throughout the province, eyen in cities.

Witnesses were examined on behalf of both sides, R. H. Sperline and F. R. Glover for the company, and the ex-grative reserved its decision.

STOMACH TROUBLES Often Come From Weak, Exhaust-ed Nerves—Great Results From Using

DR. CHASE'S NERVE FOOD

When the nerves become exhausted the first sign of trouble often comes from the stomach. The nerves which control the flow of digestive fluids fail and the result is loss of appetite, indigestion, nervous headache and sleep-lessness.

Steamer. Tedeer of the Blue Funnel line left the dock to-day at noon bound for Liverpool via Oriental ports. Sho took from this port 26 Chinese passerigers, who are going home for a holiday. She has a heavy cargo loaded at Puget Sound and Biltish Columbia points. In pogard to the departure of the steamer a special dispatch from Scattle says.

The big Hill, liner Minnesota and the Teucer, the greyhound of the Blue Funnel line fleet, are racing out into fracin Yokohama first. The Minnesota going the Food related which the Teucer did not leave Tacoma until 1 o'clock this morning, giving the Hill liner a nig start. The Teucer is probably the faster boat, however. Nothing depends on the race except the natural speed rivalry between the big liness.

Captain Miligan; formerly first officer on the steamer Tees, has returned from a visit to the Old Country. While there he visited a number of the great shipping centres. He expects to again the result is loss of appetite, in-digestion, hervous headache and sleepilessness.

Opiates and narcotics cannot possibly do more than afford temporary relief, and aids to digestion are perely make—shifts. To get well you must get the nervous system back into condition by such treatment as Dr. A. W. Chase's Nerve Food. Here is a letter which illustrates the point:

W. Hamilton, states: "My trouble was principally with my stomach, As a result of weak nerves my appetite was result of weak nerves my appetite.

NEW GRAND THEATTE.

A whiriwind of song, and dance with half a dozen novelties thrown in, that warranta and gets—tremendous applause, is staged at the New Grand this week by Meier and Miss Mary, two at lists from the London music halls. Bag punching and bell dancing to the tunes of Yankee Doodle and Rule Britannia, eccentric dancing and songs English and scotch, make up the work of these two excellent artists. The Grand is fortunate in having such a fine act this week.

The Berinis give a delightful fifteen minutes of Italian opera, presenting the best act of its kind that has been seen on Victoria boards for many a long day. Their selections are from "Il Trovatore" and both performers are accorded a splendid recoption.

L. A. Street, the samous manipulator of rubber balls, is here. There have been many kinds of Juggling acts, but Street has them looking like a nickel with his six tenfils balls which he bounces to the time of many tunes, and varies position, speed and height without stopping. In his work.

The monolegue leader. Ray Snow, has a line of new and serial more than one of the beight features of the bill. "Never Mind Bill," a talking song, goes like a house on fire and Snow becomes more and more popular as his act unfolds. Their regular song by Thomas J. G. Burnett, who is well known in Victoria as an accomplished player. His programme was essentially a popular one, and included an excrept from Chopin, the centenary of whose birth falls this year, and Handel's ever popular "Largo."

He was gasisted by Mr. and Mrs. Gideon Hicks and Jesse Longfield Mrs. Hicks sang with feeling the pathte air from the Messiah, "He Was Despised," to the delight of all present. Mrs. Hicks selected his solo from Sullivan's "Prodigal Son." written for the Worcester festival of 1869, "Bring Forth the Best Robe," and the appended air. "For This My Son, Was Dead," and sang a duet by Howe, a rather florid setting of Sir Asim Bowring's verses "In the Cross of his 1 i Glory." Mr. Longfield contributed an "Andantino" by Lemare, and a "Benedictus" by Poole; both well cheen and well played. It need scarcely be said that these icoms were accompanied by Mr. Burnett with skill and judgment.

A very enjoyable evening was brought to a close by a dignified rendering of "Worthy is the Lamb" from the Messiah.
