* NOTE: Section 15-40.1-09 was also amended by section 3 of House Bill No. 1549, chapter 225.

within or without this state which is claiming payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a claim on a form prescribed by the superintendent of public instruction stating the number of students registered in high school and elementary grades for which payments are claimed, and such other information as may be reasonably requested by the superintendent of public instruction. Not later than December first, the superintendent of public instruction shall certify to the office of management and budget a list of the school districts and schools not operated by school districts entitled to payments from state funds, together with the amounts to which the several districts and schools are entitled. Per-pupil aid as provided under sections 15-40.1-06, 15-40.1-07, and 15-40.1-08 must be computed on the basis of the previous year's average daily membership or the current year's fall enrollment, whichever is greater. Adjustments must be made if the per-pupil payments for the previous school year were based on the fall enrollment. If the average daily membership for the previous year is less than the fall enrollment for the previous year, the average daily membership for the previous year must be compared with the average daily membership for the second preceding year in the subsequent year according to a comparison between the average daily membership for the year for which the adjusted payment is being made and the year preceding the year for which the adjusted payment is being made, whichever is greater. The greater of the two preceding years' average daily membership must be used in computing any adjustment in a district's foundation aid payments. If the average daily membership for the previous year is greater than the previous year's fall enrollment, then the average daily membership for the previous year must be used in calculating any adjustment to a district's foundation aid payments. For purposes of this chapter, "average daily membership" shall mean the total days all students in a given school are in attendance, including days set aside for the North Dakota education association convention, plus any three holidays selected from those listed in subsections 2 through 10 of section 15-38-04.1 which have been decided upon after consultation with the teachers, the total days all students are absent, and the two parent-teacher conference days authorized in section 15-47-33, divided by one hundred eighty days. School districts educating children of agricultural migratory workers or offering high school summer school programs during the months of June, July, and August shall not be restricted to payments for a one-hundred-eighty-day school term.

Immediately upon the termination of the school term and in no event later than July fifteenth of each year, the clerk of each school district within or without this state which has received payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a verified statement of the name, residence, and membership of elementary and high school students as provided for in this section, and number of units of high school work taken by each high school student enrolled during the previous school year. Such statement shall be attested to by the county superintendent of schools. The county superintendent shall investigate the validity of the statement and shall determine

the residence and other qualifications of each student named in the statement filed with him. He shall certify to the superintendent of public instruction on or before September first of each year the number of enrolled students in each district in his county for the previous school year upon which any adjustment may be based as provided in this section. If any statement is disallowed in whole or in part, notice thereof and the names of students who are disallowed shall be reported to the superintendent of public instruction and to the district filing the statement. Any district may appeal to the superintendent of public instruction from the determination of the county superintendent of schools on or before September fifteenth in the year in which the determination is made. The superintendent of public instruction may change or modify the determination of the county superintendent if the evidence submitted by the district warrants a modification. The judgment of the superintendent of public instruction shall be final.

It is intended that employees receive minimum increases of fifty dollars per month. The actual amount of increases paid an individual employee shall be determined by the director of the agency or institution in accordance, where applicable, with central personnel division classification and compensation plans, except that a director of an agency or institution may grant increases which exceed the maximum limit of salary ranges in such plans. The salary increases are to be based on merit, performance, or equity adjustments, and are not intended to be across-the-board salary increases. Compensation increases may only be granted to employees who are currently employed by the state on the effective date of this Act and who have been continuously employed by the state since July 1, 1984, excluding those employees who have indicated that they will not or who the administrator knows will not be employed by the agency or institution on July 1, 1985, or at the end of their contract period. Notwithstanding other provisions of this Act, any agency or institution may pay an employee a one time payment for amounts the employee would have received pursuant to the provisions of this Act had it been effective earlier, or an agency may use the funds appropriated by this Act to provide increased salary levels during the biennium ending June 30, 1987.

SECTION 2. Revisions to compensation plan. HOUSE BILL NO. 1660
(Strinden)

(Approved by the Committee on Delayed Bills)

PERSONAL PROPERTY TAX REPLACEMENT

AN ACT to amend and reenact section 57-58-01 of the North Dakota Century Code, relating to distribution of personal property tax replacement revenues to counties and local subdivisions; to provide an appropriation for the distribution of funds for the replacement of personal property tax revenue; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-58-01 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

57-58-01. Distribution to counties and local subdivisions. It is hereby provided that any political subdivision which has an existing bonded indebtedness for which a tax levy must be made in 1970 or any year thereafter, shall reduce its levy in each such year for current operating purposes by the amount which its tax levy on taxable property in that year for retirement of the bonded indebtedness is increased because of the exemption of personal property by subsection 25 of section 57-02-08. On or before February 1, 1971, the county auditor of each county shall certify to the state tax commissioner the total amount of taxes levied in the year 1968 for the state, county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes, and levies voted by the people, new or present levies increased by legislative action of such county on those items of personal property exempt under the provisions of section 57-02-08, and, in addition, the total valuation of real estate and taxes levied on real estate for the year 1968. On or before June 1, 1980, and each year thereafter, the state tax commissioner shall certify for payment to the state treasurer an amount, for payment by the state treasurer to each county, determined to be due such county based upon the personal property taxes levied in the year 1968 for the political subdivisions herein mentioned on the items of personal property exempt from the personal property tax under the provisions of section 57-02-08, the per capita school tax under the provisions of former section 57-15-23*,

and the grain tax under the provisions of former chapter 57-03*, together with any adjustments to be made in the manner hereinafter provided. Within sixty days after the receipt of the revenue as provided by this section, the county treasurer shall allocate and remit to the county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes that amount of revenue which is received from the state in the same ratio as he would have distributed the revenue from the personal property tax, adjusting such amount by any increase or decrease in real property taxes as levied by each taxing authority according to the formula hereinafter provided. Any amount that would be apportioned and credited to the retirement of a bonded indebtedness existing in 1970 for which a tax levy was made in 1970 and in any year thereafter, shall be credited to the general fund of the political subdivision. In the years after ~~1971~~ 1985, payments to the counties under this section shall be made based upon ninety-five percent of such payment for 1971 together with a growth factor which shall be based upon the dollar amount of increase or decrease in real property taxes levied within each county. For each ~~seven~~ nineteen dollar increase in real property taxation within a county, the state shall contribute an additional one dollar over that amount which equals ninety-five percent of such payment in the base year. For each ~~seven~~ nineteen dollar decrease in real property taxation within a county, the state shall contribute one dollar less than that amount which equals ninety-five percent of such payment in the base year.

On or before June 1, 1980, and each year thereafter, the state tax commissioner shall certify to the state treasurer the amount determined to be due to the state based upon the personal property taxes levied in the year 1968 for the North Dakota state medical center. The amount so certified shall be computed in accordance with the formula provided in this section for computing the amounts to be certified and paid to the counties. The state treasurer upon receiving the certification from the tax commissioner shall transfer from the general fund to the credit of the North Dakota state medical center the amount so certified.

Any political subdivision which levied taxes on taxable property in the year 1970 for a specific fund or purpose for which a levy was not made by it in the year 1968 shall be entitled to a distribution of revenue from the state in the year 1971 for any such levy. The amount of such distribution shall be determined as follows: the county auditor shall certify to the state tax commissioner as soon as possible after March 30, 1971, the amount of each such levy made by and spread for each political subdivision on taxable real property in the county in the year 1970; the tax commissioner shall forthwith determine the correctness of such amounts and certify to the state treasurer for immediate payment to the county an amount that is determined by dividing the total of such levies made and spread in 1970 on taxable real property in the county by the growth factor that is provided in the first paragraph of this section; the county treasurer within fifteen days after the receipt of such revenue from the state treasurer shall allocate and

remit to each political subdivision its proportionate amount of that revenue.

If the classification of any property for taxation purposes is changed from real to personal property or from personal to real property because of legislative or judicial action, the county auditor of the county in which the property is located shall forthwith certify to the tax commissioner the amount of real estate taxes or personal property taxes that was levied on all such property by each taxing district in the year 1968 and in any other year thereafter that the tax commissioner may request. The tax commissioner, in determining the amount to be certified to the state treasurer for payment to the county pursuant to this section, shall adjust the amounts of taxes certified by the county auditor as levied on real property and on personal property in 1968 and in any other year as may be necessary by adding to or subtracting from each such amount the taxes on the reclassified property so that the distribution by the state to the county will be determined as though such property had been taxed in 1968 and all later years in the classification into which it was reclassified.

SECTION 2. APPROPRIATION. The funds provided in this section, or so much thereof as may be necessary, are hereby appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, to the state tax commissioner for the purpose of replacement of personal property taxes, for the biennium beginning July 1, 1985, and ending June 30, 1987, as follows:

Grants, benefits, and claims	\$24,069,346
Total general fund appropriation	<u>\$24,069,346</u>

SECTION 3. DISTRIBUTION. The distribution of funds appropriated under section 2 of this Act shall be made in accordance with the formula for personal property tax replacement payments as provided for in section 57-58-01. During the year ending June 30, 1986, payments appropriated under section 2 of this Act shall not exceed one-half of the total appropriation provided for in this Act.

SECTION 4. PRORATION. Notwithstanding the provisions of section 57-58-01, which contains the formula for personal property tax replacement payments, the payments shall not exceed the amounts as set forth in this Act. If the appropriation provided for in this Act in any fiscal year is less than the amount determined by applying the formula as contained in section 57-58-01, the director of the office of management and budget shall pay only the amount of funds available under this Act. Under such circumstances, a method of proration shall be used that provides each eligible recipient the same proportion of these funds as the percent share of total funds it would have received under the application of the formula provided for in section 57-58-01.

SECTION 5. EXPIRATION DATE. Section 1 of this Act is effective through June 30, 1987, and after that date is ineffective.

Any additional income, including funds from the federal government and gifts and donations from private sources received by the North Dakota main experiment station, branch stations, and the cooperative extension division, except as otherwise provided by law, is hereby appropriated for the purpose designated in the gift, grant, or donation. However, public moneys from local sources, which shall include receipts from sale of grains, personal services, dairy products, livestock, and other agricultural products at the North Dakota main experiment station, branch experiment stations, and cooperative extension division, may be expended in excess of that specifically appropriated through biennial appropriations bills of the legislative assembly only in the event that an authorization has first been received from the emergency commission. The balances of all existing moneys on deposit in the name of the North Dakota state university main experiment station, the branch experiment stations, and the cooperative extension division, except grants, gifts, and donations from private sources, along with all subsequent receipts of such moneys, shall be deposited in a special fund in the state treasury. Hereafter, this fund shall be referred to as an operating fund and shall also be the depository for transfers from the general fund, and balances therein shall not revert to any other fund under the terms of section 54-44.1-11. SECTION 7. Tax levies - Collection - Reports. Effective July 1, 1985, an assessment at the rate of two cents per bushel [35.24 liters] must be levied and imposed upon all soybeans grown in the state or sold to a designated handler. This assessment is due upon any identifiable lot or quantity of soybeans.

A designated handler of soybeans shall file an application with the council on forms prescribed and furnished by the council. The forms must contain the name under which the designated handler is transacting business within the state, the designated handler's places of business, the location of loading and shipping places of agents of the designated handler, the names and addresses of the several persons constituting the firm partnership, and if a corporation, the corporate name and the names and addresses of its principal officers and agents within the state. The council shall issue a certificate to the designated handler. A designated handler may not sell, process, or ship any soybeans until it has furnished a certificate as required by this section.

Every designated handler of soybeans shall collect the assessment imposed by this section by charging and collecting from the seller the assessment at the rate of two cents per bushel [35.24 liters] by deducting the assessment from the purchase price of all soybeans subject to the assessment and purchased by the designated handler.

Every designated handler shall keep as a part of its permanent records a record of all purchases, sales, and shipments of soybeans, which may be examined by the council at all reasonable times. Every designated handler shall report to the council, in a manner and at a time prescribed by the council, stating the quantity in individual and total amounts of soybeans received, sold, or shipped by it. Quarterly periods end on March thirty-first, June thirtieth, September thirtieth, and December thirty-first of each year. Regular audits of the council's accounts must be conducted in accordance with chapter 54-10 and submitted to the commissioner.

Upon the return of the refund application blank, if it is properly executed by the grower, returned within sixty days of the date it was mailed to the grower, and accompanied by a record of the assessment by the designated handler, the grower must be refunded the net amount of the assessment collected. If no request for refund is made within the period prescribed above then the grower is

presumed to have agreed to the assessment. However, a grower, for any reason, having paid the tax more than once on the same soybeans, upon furnishing proof of this to the council, is entitled to a refund of the overpayment.

The council, to inform the grower, shall develop and disseminate information and instructions relating to the purpose of the soybean tax and manner in which refunds may be claimed, and to this extent shall cooperate with governmental agencies and private businesses engaged in the purchase of soybeans.

SECTION 9. Advisory referendum by growers. Whenever fifteen percent of the participating growers, with not more than fifty percent of the signatory parties from any one district, as disclosed by the records of the council for the preceding year, petition the council, the council shall conduct an advisory referendum among the participating growers of the state to determine whether they wish the legislative assembly to raise or lower the tax imposed by section 7 of this Act. The advisory referendum may be conducted only among participating growers who have paid all taxes assessed pursuant to this enactment for the preceding year, and the ballots must be prepared by the council and mailed to each participating grower at least thirty days prior to the last date for filing ballots. In addition, each ballot must be accompanied by a notice to each participating grower:

1. Of the date of the filing of the petition by the growers for the referendum and the number of signatures contained thereon.
2. Of the date and place where the council will open and tabulate the ballots, which date may not be less than five days after the last date for filing the ballots.
3. Of the last date upon which ballots may be filed with the council, or postmarked if delivered to the council by mail.
4. That any participating grower may attend the meeting of the council at the time the ballots are opened and the votes tabulated.

If a majority of the participating growers voting upon the question are in favor of the proposed change, the council shall certify the result to the commissioner with the request that the commissioner prepare a bill to submit to the next legislative session to modify this Act in conformity therewith.

SECTION 10. Collection of unpaid assessment. If a designated handler fails to pay the assessment provided by this Act, the council may enforce collection in any appropriate court within this state.

SECTION 11. Penalty for nonpayment of assessment. Any designated handler who fails to pay any assessment levied by this Act on the date that the assessment becomes due is delinquent and the council shall levy a penalty on such delinquent payments of ten percent of the assessment due, plus interest at the rate of twelve percent per annum from the due date. The penalty and interest shall be collected in the manner as prescribed by section 10 of this Act.

SECTION 12. Continuing appropriation. All funds received by the council pursuant to this Act are hereby appropriated.

SECTION 13. Records of council - Inspection. Any corporation that fails to comply with the court's order shall be dissolved by the secretary of state.

10-19.1-03. Election prior to mandatory application. A corporation in existence prior to July 1, 1985, which has incorporated under chapters 10-19, 10-20, 10-21, 10-22, and 10-23 as

they existed on June 30, 1985, or under the provisions of chapters 6-05, 10-06, 10-30, 10-31, 26-08, or any other chapter which provides that such corporations are governed by the general corporation laws of this state, may elect after June 30, 1985, and before July 1, 1986, to become governed by this chapter.

1. If the articles of an electing corporation include a provision prohibited by this chapter or omit a provision required by this chapter or are otherwise inconsistent with this chapter, the electing corporation shall amend its articles to conform to the requirements of this chapter. The appropriate provisions of the corporation's articles or bylaws or the law by which it was governed before the effective date of the election made pursuant to this section control the manner of adoption of the amendment.
2. An election by a corporation to become governed by this chapter must be made by resolution approved by the affirmative vote of the holders of the same proportion or number of the voting power of the shares entitled to vote that is required for amendment of the articles, of the corporation prior to the election. The duplicate originals of the resolution, and articles of amendment if required, must be filed with the secretary of state, together with the fees provided in chapter 10-23. The resolution and articles of amendment become effective upon acceptance by the secretary of state or at another time within thirty days after acceptance of the resolution and articles of amendment so provided. If no amendment of the articles is required, the resolution must state that the articles of the corporation conform to the requirements of this chapter.
3. Upon filing an election pursuant to this section all provisions of the bylaws that are consistent with this chapter remain or become effective and all provisions of the bylaws that are inconsistent with this chapter cease to be effective.

10-19.1-04. Mandatory application. After June 30, 1986, this chapter applies to all existing corporations incorporated under any chapter of this code providing for the incorporation of corporations for a purpose or purposes for which a corporation might be incorporated under this chapter or which are otherwise to be governed by the general corporation laws of this state.

All provisions of the articles and bylaws of the corporation that may be included in the articles or bylaws under this chapter remain in effect. All provisions of the articles and bylaws of the corporation that are inconsistent with this chapter cease to be effective on July 1, 1986. Any provisions required by this chapter to be contained in the articles that do not appear in the articles are read into them as a matter of law.

10-19.1-05. Retention of two-thirds majority.

1. If the articles of a corporation described in section 10-19.1-02 or 10-19.1-03 do not contain a provision specifying the proportion of the voting power of the shares required for approval of amendments to the articles, plans of merger or exchange, or sales of assets, a shareholder or shareholders holding more than one-third of the voting power of all the shares entitled to vote for any or all of the above-mentioned actions may, by signed written demand filed in duplicate original with the secretary of state, along with the fees provided in chapter 10-23, amend the articles of the corporation to include a provision requiring the approval of the holders of two-thirds of the voting power of the shares entitled to vote for any or all of the above-mentioned actions for which no required majority was specified, notwithstanding any provisions of section 10-19.1-19, 10-19.1-98, or 10-19.1-104 to the contrary. Notice that the demand has been filed must be given by the shareholder to an officer of the corporation, but failure to give the notice does not invalidate the demand.
2. A shareholder or shareholders holding more than one-third of the voting power of the shares entitled to vote for dissolution of a corporation described in section 10-19.1-02 or 10-19.1-03 may, by signed written demand filed in duplicate original with the secretary of state, along with the fees provided in chapter 10-23, amend the articles of the corporation to include a provision requiring the approval of the holders of two-thirds of the voting power of all the shares for the authorization of the dissolution of the corporation, notwithstanding the provisions of section 10-19.1-107. Notice that the demand has been filed must be given by the shareholder to an officer of the corporation, but failure to give the notice does not invalidate the demand.
3. A signed written demand by the shareholders of a corporation pursuant to subsection 1 or 2 is valid only if filed with the secretary of state before July 1, 1986.

10-19.1-06. Transition. The continuation or completion of any act by a corporation that has not incorporated under, but has become governed by, this chapter, and the continuation or performance of any executed or wholly or partially executory contract, conveyance, or transfer to or by the corporation, if otherwise lawful before the corporation became governed by this chapter, remains valid, and may be continued, completed, consummated, enforced, or terminated as required or permitted by a statute applicable prior to the date on which the corporation became governed by this chapter.

10-19.1-07. Reservation of legislative power. The legislative assembly has the power to prescribe such regulations, provisions, and limitations as it determines to be advisable, which are binding upon any and all corporations subject to this chapter. The legislative assembly may amend, repeal, or modify this chapter.

Every grant of corporate power is subject to alteration, suspension, or repeal in the discretion of the legislative assembly. Any statute of this state relating to corporations may be repealed or amended. The alteration, suspension, amendment, or repeal, or the dissolution of any corporation, does not take away or impair any remedy given against the corporation, its shareholders, or officers for any liability which has been previously incurred.

The legislative assembly, or the house of representatives or the senate, may examine the affairs and conditions of any corporation in this state at all times. For that purpose, any committee appointed by the legislative assembly, or the house of representatives or the senate, may administer all necessary oaths to the directors, officers, and shareholders of a corporation, and may examine them on oath in relation to its affairs and condition, and may examine the safes, books, papers, and documents belonging to such corporation or pertaining to its affairs and condition and compel the production of all keys, books, papers, and documents by summary process to be issued on application to any district court or any district judge under the rules the court prescribes.

5. The use of a name by a corporation in violation of this section does not affect or vitiate its corporate existence, but a court in this state may, upon application of the state or of an interested or affected person, enjoin the corporation from doing business under a name assumed in violation of this section, although its articles may have been filed with the secretary of state and a certificate of incorporation issued.

Any number of amendments may be submitted to the shareholders and voted upon at one meeting, but the same or substantially the same amendment proposed by a shareholder or shareholders need not be submitted to the shareholders or be voted upon at more than one meeting during a fifteen-month period. The resolution may amend the articles in their entirety to restate and supersede the original articles and all amendments to them. The provisions of this subsection regarding shareholder proposed amendments do not apply to a corporation registered or reporting under the federal securities laws, to the extent that those provisions are in conflict with the federal securities laws or rules promulgated thereunder, in which case the federal securities laws or rules promulgated thereunder govern.

3. Written notice of the shareholders' meeting setting forth the substance of the proposed amendment must be given to each shareholder in the manner provided in section 10-19.1-73 for the giving of notice of meetings of shareholders.
4. The proposed amendment to the articles is adopted:

 - (1) The specified proportion or number or, in the absence of a specific provision, the affirmative vote necessary to transact the type of business described in the proposed amendment at a meeting immediately before the effectiveness of the proposed amendment; or
 - (2) The specified proportion or number that would, upon effectiveness of the proposed amendment, be necessary to transact the specified type of business at a meeting.

10-19.1-20. Class or series voting on amendments. The holders of the outstanding shares of a class or series are entitled to vote as a class or series upon a proposed amendment, whether or not entitled to vote thereon by the provisions of the articles, if the amendment would:

3. Effect an exchange, reclassification, or cancellation of all or part of the shares of the class or series;

1. The name of the corporation.
2. The amendment adopted.
3. The date of the adoption of the amendment by the shareholders, or by the incorporators or the board where no shares have been issued.
4. If the amendment provides for but does not establish the manner for effecting an exchange, reclassification, or cancellation of issued shares, a statement of the manner in which it will be effected.
5. If the amendment restates the articles in their entirety, a statement that the restated articles supersede the original articles and all amendments to them.

10-19.1-22. Effect of amendment.

1. An amendment does not affect an existing cause of action in favor of or against the corporation, nor a pending suit to which the corporation is a party, nor the existing rights of persons other than shareholders.

2. If the corporate name is changed by the amendment, a suit brought by or against the corporation under its former name does not abate for that reason.

10-19.1-23. Filing articles of amendment. Duplicate originals of the articles of amendment must be filed with the secretary of state. If the secretary of state finds that the articles of amendment conform to law, and that all fees have been paid as provided in chapter 10-23, then one duplicate original must be recorded in the office of the secretary of state, while the other duplicate original must be returned to the corporation or to its representatives.

10-19.1-24. Effective date of articles of amendment. The articles of amendment are effective upon acceptance by the secretary of state or at another time within thirty days after acceptance if the articles of amendment so provide.

1. Whenever a plan of reorganization of a corporation has been confirmed by decree or order of a court of competent jurisdiction in proceedings for the reorganization of the corporation, pursuant to the provisions of any applicable statute of the United States relating to reorganization of corporations, the articles may be amended, in the manner provided in this section, in as many respects as may be necessary to carry out the plan and to put it into effect, so long as the articles as amended contain only provisions which might be lawfully contained in original articles at the time of making the amendment. In particular, and without limitation upon any general power of amendment, the articles may be amended for such purpose so as to:
 - a. Change the corporate name, period of duration, or corporate purposes of the corporation.
 - b. Repeal, alter, or amend the bylaws of the corporation.
 - c. Change the aggregate number of shares, or shares of any class, which the corporation has the authority to issue.
 - d. Change the preferences, limitations, relative rights in respect of all or any part of the shares of the corporation, and classify, reclassify, or cancel all or any part thereof, whether issued or unissued.

for shares of any class, and fix the terms and conditions thereof.

 - b. Duplicate originals of the articles of amendment must be filed with the secretary of state. If the secretary of state finds that the articles of amendment conform to law, and that all fees have been paid as provided in chapter 10-23 then one duplicate original must be recorded in the office of the secretary of state while the other duplicate original must be returned to the corporation or to its representative. The articles of amendment become effective upon their acceptance by the secretary of state or at another time within thirty days after their acceptance if the articles of amendment so provide. The articles are deemed to be amended accordingly, without any action by the directors or shareholders of the corporation and with the same effect as if the amendment had been adopted by unanimous action of the directors and shareholders.

10-19.1-27. Corporate seal. A corporation may, but need not, have a corporate seal. The use or nonuse of a corporate seal does not affect the validity, recordability, or enforceability of a document or act. If a corporation has a corporate seal, the use of the seal by the corporation on a document is not necessary.

10-19.1-28. Defense of ultra vires. No act of a corporation and no conveyance or transfer of real or personal property to or by a corporation is invalid by reason of the fact that the corporation was without capacity or power to do such act or to make or receive such conveyance or transfer but such lack of capacity or power may be asserted:

1. In a proceeding by a shareholder against the corporation to enjoin the doing of any act or acts or the transfer of real or personal property by or to the corporation. If the unauthorized acts or transfers sought to be enjoined are being, or are to be, performed or made pursuant to any contract to which the corporation is a party, the court may, if all of the parties to the contract are parties to the proceeding and if it deems the same to be equitable, set aside and enjoin the performance of such contract, and in so doing may allow to the corporation or to the other parties to the contract, as the case may be, compensation for the loss or damage sustained by either of them which may result from the action of the court in setting aside and enjoining the performance of such contract. However, anticipated profits to be derived from the performance of the contract shall not be awarded by the court as a loss or damage sustained.

10-19.1-31. Bylaws.

1. A corporation may, but need not, have bylaws. Bylaws may contain any provision relating to the management of the business or the regulation of the affairs of the corporation not inconsistent with law or the articles.
2. Initial bylaws may be adopted by the first board or by the incorporators, pursuant to section 10-19.1-30. Unless reserved by the articles to the shareholders, the power to adopt, amend, or repeal the bylaws is vested in the board. The power of the board is subject to the power of the shareholders, exercisable in the manner provided in subsection 3, to adopt, amend, or repeal bylaws adopted, amended, or repealed by the board. After the adoption of the initial bylaws, the board may not adopt, amend, or repeal a bylaw fixing a quorum for meetings of shareholders, prescribing procedures for removing directors or filling vacancies in the board, or fixing the number of directors or their classifications, qualifications, or terms of office, but may adopt or amend a bylaw to increase the number of directors.

3. If a shareholder or shareholders holding five percent or more of the voting power of the shares entitled to vote propose a resolution for action by the shareholders to adopt, amend, or repeal bylaws adopted, amended, or repealed by the board and the resolution sets forth the provision or provisions proposed for adoption, amendment, or repeal, the limitations and procedures for submitting, considering, and adopting the resolution are the same as provided in subsections 2, 3, and 4 of section 10-19.1-19, for amendment of the articles. The provisions of this subsection regarding shareholder proposed amendments shall not apply to a corporation registered or reporting under the federal securities laws, to the extent that those provisions are in conflict with the federal securities laws or rules promulgated thereunder, in which case the federal securities laws or rules promulgated thereunder shall govern.

1. The business and affairs of a corporation must be managed by or under the direction of a board, subject to subsection 2 and section 10-19.1-83. The members of the first board may be named in the articles or elected by the incorporators pursuant to section 10-19.1-30 or by the shareholders.
2. The holders of the shares entitled to vote for directors of the corporation may, by unanimous affirmative vote, take any action that this chapter requires or permits the board to take or the shareholders to take after action or approval of the board. As to an action taken by the shareholders in that manner:
- a. The directors have no duties, liabilities, or responsibilities as directors under this chapter with respect to or arising from the action.
 - b. The shareholders collectively and individually have all of the duties, liabilities, and responsibilities of directors under this chapter with respect to and arising from the action.
 - c. If the action relates to a matter required or permitted by this chapter or by any other law to be approved or adopted by the board, either with or without approval or adoption by the shareholders, the action is deemed to have been approved or adopted by the board.
 - d. A requirement that an instrument filed with a governmental agency contain a statement that the action has been approved and adopted by the board is

satisfied by a statement that the shareholders have taken the action under this subsection.

10-19.1-33. Number. The board must consist of one or more directors. The number of directors must be fixed by or in the manner provided in the articles or bylaws. The number of directors may be increased or, subject to section 10-19.1-41, decreased at any time by amendment to or in the manner provided in the articles or bylaws.

10-19.1-34. Qualifications - Election. Directors must be individuals. The method of election and any additional qualifications for directors may be imposed by or in the manner provided in the articles or bylaws.

10-19.1-35. Terms. Unless fixed terms are provided for in the articles or bylaws, a director serves for an indefinite term that expires at the next regular meeting of the shareholders. A fixed term of a director may not exceed five years. A director holds office until a successor is elected and has qualified, or until the earlier death, resignation, removal, or disqualification of the director.

10-19.1-36. Acts not void or voidable. The expiration of a director's term with or without the election of a qualified successor does not make prior or subsequent acts of the officers or the board void or voidable.

10-19.1-37. Compensation. Subject to any limitations in the articles or bylaws, the board may fix the compensation of directors.

10-19.1-38. Classification of directors. Directors may be divided into classes as provided in the articles or bylaws.

10-19.1-39. Cumulative voting for directors. Each shareholder entitled to vote for directors has the right to cumulate those votes in all elections of directors by giving written notice of intent to cumulate those votes to any officer of the corporation before the meeting, or to the presiding officer at the meeting at which the election is to occur at any time before the election of directors at the meeting, in which case:

1. The presiding officer at the meeting shall announce, before the election of directors, that shareholders may cumulate their votes; and
2. Each shareholder shall cumulate those votes either by casting for one candidate the number of votes equal to the number of directors to be elected multiplied by the number of votes represented by the shares entitled to vote, or by distributing all of those votes on the same principle among any number of candidates.

10-19.1-40. Resignation. A director may resign at any time by giving written notice to the corporation. The resignation is effective without acceptance when the notice is given to the corporation, unless a later effective time is specified in the notice.

10-19.1-41. Removal of directors.

1. The provisions of this section apply unless modified by the articles, the bylaws, or an agreement described in section 10-19.1-83.
2. A director may be removed at any time, with or without cause, if:
 - a. The director was named by the board to fill a vacancy;
 - b. The shareholders have not elected directors in the interval between the time of the appointment to fill a vacancy and the time of the removal; and
 - c. A majority of the remaining directors present affirmatively vote to remove the director.
3. Any one or all of the directors may be removed at any time, with or without cause, by the affirmative vote of the holders of the proportion or number of the voting power of the shares of the classes or series the director represents sufficient to elect them. If less than the entire board is to be removed, no one of the directors may be removed if the votes of a sufficient number of shares are cast against the director's removal which, if then cumulatively voted at an election of the entire board of directors, or, if there be classes of directors, at an election of the class of directors of which the director is a part, would be sufficient to elect the director. Whenever the holders of the shares of any class are entitled to elect one or more directors by the provisions of the articles of incorporation, the provisions of this section shall apply, in respect to the removal of a director or directors so elected, to the vote of the holders of the outstanding shares of that class and not to the vote of the outstanding shares as a whole.
4. New directors may be elected at a meeting at which directors are removed.

10-19.1-42. Vacancies.

1. Unless different rules for filling vacancies are provided for in the articles or bylaws:
 - a. Vacancies on the board resulting from the death, resignation, removal, or disqualification of a

director may be filled by the affirmative vote of a majority of the remaining directors, even though the remaining directors constitute less than a quorum; and

b. Vacancies on the board resulting from newly created directorships may be filled by the affirmative vote of a majority of the directors serving at the time of the increase.

2. Each director elected under this section to fill a vacancy holds office until a qualified successor is elected by the shareholders at the next regular or special meeting of the shareholders.

10-19.1-43. Board meetings.

1. Meetings of the board may be held from time to time as provided in the articles or bylaws at any place within or without the state that the board may select or by any means described in subsection 2. If the board fails to select a place for a meeting, the meeting must be held at the principal executive office, unless the articles or bylaws provide otherwise.

2. A board meeting may be conducted by:

a. A conference among directors using any means of communication through which the directors may simultaneously hear each other during the conference constitutes a board meeting, if the same notice is given of the conference as would be required by subsection 3 for a meeting, and if the number of directors participating in the conference would be sufficient to constitute a quorum at a meeting. Participation in a meeting by that means constitutes presence in person at the meeting; or

b. Any means of communication through which the director, other directors so participating, and all directors physically present at the meeting may simultaneously hear each other during the meeting. Participation in a meeting by that means constitutes presence in person at the meeting.

3. Unless the articles or bylaws provide for a different time period, a director may call a board meeting by giving ten days' notice to all directors of the date, time, and place of the meeting. The notice need not state the purpose of the meeting unless the articles or bylaws require it.

4. If the day or date, time, and place of a board meeting have been provided in the articles or bylaws, or announced at a previous meeting of the board, no notice is required. Notice of an adjourned meeting need not be given other

than by announcement at the meeting at which adjournment is taken.

5. A director may waive notice of a meeting of the board. A waiver of notice by a director entitled to notice is effective whether given before, at, or after the meeting, and whether given in writing or by attendance. Attendance by a director at a meeting is a waiver of notice of that meeting, except where the director objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened and does not participate thereafter in the meeting.

10-19.1-44. Absent directors. If the articles or bylaws so provide, a director may give advance written consent or opposition to a proposal to be acted on at a board meeting. If the director is not present at the meeting, consent or opposition to a proposal does not constitute presence for purposes of determining the existence of a quorum, but consent or opposition must be counted as a vote in favor of or against the proposal and must be entered in the minutes or other record of action at the meeting, if the proposal acted on at the meeting is substantially the same or has substantially the same effect as the proposal to which the director has consented or objected.

10-19.1-45. Quorum. A majority, or a larger or smaller proportion or number provided in the articles or bylaws, of the directors currently holding office is a quorum for the transaction of business. In the absence of a quorum, a majority of the directors present may adjourn a meeting from time to time until a quorum is present. If a quorum is present when a duly called or held meeting is convened, the directors present may continue to transact business until adjournment, even though the withdrawal of a number of directors originally present leaves less than the proportion or number otherwise required for a quorum.

10-19.1-46. Act of the board. The board shall take action by the affirmative vote of a majority of the directors present at a duly held meeting, except where this chapter or the articles require the affirmative vote of a larger proportion or number. If the articles require a larger proportion or number than is required by this chapter for a particular action, the articles control.

10-19.1-47. Action without meeting.

1. An action required or permitted to be taken at a board meeting may be taken by written action signed by all of the directors. If the articles so provide, any action, other than an action requiring shareholder approval, may be taken by written action signed by the number of directors that would be required to take the same action at a meeting of the board at which all directors were present.

2. The written action is effective when signed by the required number of directors, unless a different effective time is provided in the written action.
3. When written action is permitted to be taken by less than all directors, all directors must be notified immediately of its text and effective date. Failure to provide the notice does not invalidate the written action. A director who does not sign or consent to the written action has no liability for the action or actions taken thereby.

10-19.1-48. Committees.

1. A resolution approved by the affirmative vote of a majority of the board may establish committees having the authority of the board in the management of the business of the corporation only to the extent provided in the resolution. Committees are subject at all times to the direction and control of the board, except as provided in section 10-19.1-49.
2. Committee members must be individuals. Unless the articles or bylaws provide for a different membership or manner of appointment, a committee must consist of one or more persons, who need not be directors, appointed by affirmative vote of a majority of the directors present.
3. Sections 10-19.1-43, 10-19.1-44, and 10-19.1-45 apply to committees and members of committees to the same extent as those sections apply to the board and directors.
4. Minutes, if any, of committee meetings must be made available upon request to members of the committee and to any director.
5. The establishment of, delegation of authority to, and action by a committee does not alone constitute compliance by a director with the standard of conduct set forth in section 10-19.1-50.
6. Committee members are deemed to be directors for purposes of sections 10-19.1-50, 10-19.1-51, and 10-19.1-91.

10-19.1-49. Committee of disinterested persons. Unless prohibited by the articles or bylaws, the board may establish a committee composed of two or more disinterested directors or other disinterested persons to determine whether it is in the best interests of the corporation to pursue a particular legal right or remedy of the corporation and whether to cause the dismissal or discontinuance of a particular proceeding that seeks to assert a right or remedy on behalf of the corporation. For purposes of this section, a director or other person is "disinterested" if the director or other person is not the owner of more than one percent of the outstanding shares of, or a present or former officer,

employee, or agent of, the corporation or of a related corporation and has not been made or threatened to be made a party to the proceeding in question. The committee, once established, is not subject to the direction or control of, or termination by, the board. A vacancy on the committee may be filled by a majority vote of the remaining members. The good faith determinations of the committee are binding upon the corporation and its directors, officers, and shareholders. The committee terminates when it issues a written report of its determinations to the board.

10-19.1-50. Standard of conduct.

1. A director shall discharge the duties of the position of director in good faith, in a manner the director reasonably believes to be in the best interests of the corporation, and with the care an ordinarily prudent person in a like position would exercise under similar circumstances. A person who so performs those duties is not liable by reason of being or having been a director of the corporation.
2. A director is entitled to rely on information, opinions, reports, or statements, including financial statements and other financial data, in each case prepared or presented by:
 - a. One or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented;
 - b. Counsel, public accountants, or other persons as to matters that the director reasonably believes are within the person's professional or expert competence; or
 - c. A committee of the board upon which the director does not serve, duly established in accordance with sections 10-19.1-48 and 10-19.1-49 as to matters within its designated authority, if the director reasonably believes the committee to merit confidence.
3. Subsection 2 does not apply to a director who has knowledge concerning the matter in question that makes the reliance otherwise permitted by subdivision a unwarranted.
4. A director who is present at a meeting of the board when an action is approved by the affirmative vote of a majority of the directors present is presumed to have assented to the action approved, unless the director:
 - a. Objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened and does not participate thereafter in the meeting, in which case the director

shall not be considered to be present at the meeting for any purpose of this chapter;

b. Votes against the action at the meeting; or

c. Is prohibited by section 10-19.1-51 from voting on the action.

10-19.1-51. Director conflicts of interest.

1. A contract or other transaction between a corporation and one or more of its directors, or between a corporation and an organization in or of which one or more of its directors are directors, officers, or legal representatives or have a material financial interest, is not void or voidable because the director or directors or the other organizations are parties or because the director or directors are present at the meeting of the shareholders or the board or a committee at which the contract or transaction is authorized, approved, or ratified, if:

a. The contract or transaction was, and the person asserting the validity of the contract or transaction was, fair and reasonable as to the corporation at the time it was authorized, approved, or ratified;

b. The material facts as to the contract or transaction and as to the director's or directors' interest are fully disclosed or known to the shareholders and the contract or transaction is approved in good faith by the holders of a majority of the outstanding shares, but shares owned by the interested director or directors shall not be counted in determining the presence of a quorum and shall not be voted;

c. The material facts as to the contract or transaction and as to the director's or directors' interest are fully disclosed or known to the board or a committee, and the board or committee authorizes, approves, or ratifies the contract or transaction in good faith by a majority of the board or committee, but the interested director or directors shall not be counted in determining the presence of a quorum and shall not vote; or

d. The contract or transaction is a distribution described in subsection 1 of section 10-19.1-92 or a merger or exchange described in subsection 1 or 2 of section 10-19.1-96.

2. For purposes of this section:

- a. A director does not have a material financial interest in a resolution fixing the compensation of the director or fixing the compensation of another director as a director, officer, employee, or agent of the corporation, even though the first director is also receiving compensation from the corporation; and
- b. A director has a material financial interest in each organization in which the director, or the spouse, parents, children and spouses of children, brothers and sisters and spouses of brothers and sisters of the director, or any combination of them have a material financial interest.

10-19.1-52. Officers. The officers of a corporation must consist of a president, one or more vice presidents as may be prescribed by the bylaws, a secretary, and a treasurer, each of whom must be elected by the board at such time and in such manner as may be provided in the bylaws.

10-19.1-53. Duties of officers and agents. All officers and agents of the corporation, as between themselves and the corporation, have such authority and must perform such duties in the management of the corporation as may be provided in the bylaws, or as may be determined by resolution of the board not inconsistent with the bylaws.

10-19.1-54. Other officers. Any other officers, assistant officers, and agents, as necessary, may be elected or appointed by the board or chosen in such other manner as may be provided in the bylaws.

10-19.1-55. Multiple offices. Any number of offices or functions of those offices may be held or exercised by the same person. If a document must be signed by persons holding different offices or functions and a person holds or exercises more than one of those offices or functions, that person may sign the document in more than one capacity, but only if the document indicates each capacity in which the person signs.

10-19.1-56. Officers deemed elected. In the absence of an election or appointment of officers by the board, the person or persons exercising the functions of the principal officers of the corporation are deemed to have been elected to those offices.

10-19.1-57. Contract rights. The election or appointment of a person as an officer or agent does not, of itself, create contract rights. However, a corporation may enter into a contract with an officer or agent. The resignation or removal of an officer or agent is without prejudice to any contractual rights or obligations.

10-19.1-58. Resignation - Removal - Vacancies.

1. An officer may resign at any time by giving written notice to the corporation. The resignation is effective without acceptance when the notice is given to the corporation, unless a later effective date is specified in the notice.
2. An officer may be removed at any time, with or without cause, by a resolution approved by the affirmative vote of a majority of the directors present, subject to the provisions of a shareholder control agreement.
3. A vacancy in an office because of death, resignation, removal, disqualification, or other cause may be filled for the unexpired portion of the term in the manner provided in the articles or bylaws, or determined by the board, or pursuant to section 10-19.1-56.

10-19.1-59. Delegation. Unless prohibited by the articles or bylaws or by a resolution approved by the affirmative vote of a majority of the directors present, an officer elected or appointed by the board may, without the approval of the board, delegate some or all of the duties and powers of an office to other persons. An officer who delegates the duties or powers of an office remains subject to the standard of conduct for an officer with respect to the discharge of all duties and powers so delegated.

10-19.1-60. Standard of conduct. An officer shall discharge the duties of an office in good faith, in a manner the officer reasonably believes to be in the best interests of the corporation, and with the care an ordinarily prudent person in a like position would exercise under similar circumstances. A person exercising the principal functions of an office or to whom some or all of the duties and powers of an office are delegated pursuant to section 10-19.1-59 is deemed an officer for purposes of this section and sections 10-19.1-86 and 10-19.1-91.

10-19.1-61. Authorized shares.

1. Subject to any restrictions in the articles, a corporation may issue securities and rights to purchase securities only when authorized by the board.
2. All the shares of a corporation:
 - a. Must be of one class and one series, unless the articles establish, or authorize the board to establish, more than one class or series;
 - b. Must be common shares entitled to vote and shall have equal rights and preferences in all matters not otherwise provided for by the board, unless and to the extent that the articles have created nonvoting shares

- or have fixed the relative rights and preferences of different classes and series; and
- c. Must have, unless a different par value is specified in the articles, a par value of one cent per share.
3. Subject to any restrictions in the articles, the power granted in subsection 2 may be exercised by a resolution approved by the affirmative vote of a majority of the directors present establishing a class or series, setting forth the designation of the class or series, and fixing the relative rights and preferences of the class or series.
4. A statement executed by an officer setting forth the name of the corporation and the text of the resolution and certifying the adoption of the resolution and the date of adoption must be filed in duplicate original with the secretary of state, together with the fees provided in chapter 10-23, before the issuance of any shares for which the resolution creates rights or preferences not set forth in the articles. The resolution is effective when the statement has been filed with the secretary of state unless the statement specifies a later effective date within thirty days of filing the statement with the secretary of state.
5. Without limiting the authority granted in this section, a corporation may issue shares of a class or series:
- a. Subject to the right of the corporation to redeem any of those shares at the price fixed for their redemption by the articles or by the board;
- b. Entitling the shareholders to cumulative, partially cumulative, or noncumulative distributions;
- c. Having preference over any class or series of shares for the payment of distributions of any or all kinds;
- d. Convertible into shares of any other class or any series of the same or another class; or
- e. Having full, partial, or no voting rights, except as provided in section 10-19.1-20.

10-19.1-62. Subscriptions for shares.

1. A subscription for shares, whether made before or after the incorporation of a corporation, is not enforceable against the subscriber unless it is in writing and signed by the subscriber.

2. A subscription for shares is irrevocable for a period of six months, unless the subscription agreement provides for, or unless all of the subscribers consent to, an earlier revocation.
3. A subscription for shares, whether made before or after the incorporation of a corporation, shall be paid in full at the time or times, or in the installments, if any, specified in the subscription agreement. In the absence of a provision in the subscription agreement specifying the time at which the subscription is to be paid, the subscription shall be paid at the time or times determined by the board, but a call made by the board for payment on subscriptions shall be uniform for all shares of the same class or for all shares of the same series.
4. Unless otherwise provided in the subscription agreement, in the event of default in the payment of an installment or call when due, the corporation may proceed to collect the amount due in the same manner as a debt due the corporation, or, if the amount due remains unpaid for a period of twenty days after written notice of demand for payment has been given to the delinquent subscriber, the board may declare a forfeiture of the subscription or cancel it in accordance with this subsection.
5. Upon forfeiture of a subscription, the shares subscribed for may be offered for sale by the corporation for a price in money equaling or exceeding the sum of the full balance owed by the delinquent subscriber plus the expenses incidental to the sale. The excess of net proceeds realized by the corporation over the sum of the amount owed by the delinquent subscriber plus the expenses incidental to the sale shall be paid to the delinquent subscriber or to a legal representative. The payment shall not exceed the amount actually paid by the delinquent subscriber.
6. If, within twenty days after the corporation offers to sell the shares subscribed for by the delinquent subscriber, no prospective purchaser offers to purchase the shares for a money price sufficient to pay the sum of the full balance owed by the delinquent subscriber plus the expenses incidental to the sale, or if the corporation has refunded to the subscriber or a legal representative a portion of the subscription price actually paid, the subscription may be canceled, the shares subscribed for may be restored to the status of authorized but unissued shares, and the corporation may retain the portion of the subscription price actually paid that does not exceed ten percent of the subscription price.

10-19.1-63. Consideration for shares - Value and payment - Liability.

1. Subject to any restrictions in the articles:

- a. The consideration for the issuance of shares may be paid, in whole or in part, in money, in other property, tangible or intangible, or in labor or services actually performed for the corporation. When payment of the consideration for which shares are to be issued has been received by the corporation, the shares must be considered fully paid and nonassessable. Neither promissory notes nor future services constitute payment or part payment for shares of a corporation.
- b. Upon authorization by resolution approved by the affirmative vote of a majority of the directors present or approved by the affirmative vote of the holders of a majority of the voting power of the shares present, the corporation may, without any new or additional consideration, issue its own shares in exchange for or in conversion of its outstanding shares, or issue its own shares pro rata to its shareholders or the shareholders of one or more classes or series, to effectuate share dividends or splits, including reverse share splits. No shares of a class or series may be issued to the holders of shares of another class or series, unless the issuance either is expressly provided for in the articles or is approved at a meeting by the affirmative vote of the holders of a majority of the voting power of all shares of the same class or series as the shares to be issued.

2. The determinations of the board or the shareholders as to the amount or fair value or the fairness to the corporation of the consideration received or to be received by the corporation for its shares or the terms of payment, as well as the agreement to issue shares for that consideration, are presumed to be proper if they are made in good faith and on the basis of accounting methods, or a fair valuation or other method, reasonable in the circumstances. Directors or shareholders who are present and entitled to vote, and who, intentionally or without reasonable investigation, fail to vote against approving an issue of shares for a consideration that is unfair to the corporation, or overvalue property or services received or to be received by the corporation as consideration for shares issued, are jointly and severally liable to the corporation for the benefit of the then shareholders who did not consent to and are damaged by the action, to the extent of the damages of those shareholders. A director or shareholder against whom a

- claim is asserted pursuant to this section, except in case of knowing participation in a deliberate fraud, is entitled to contribution on an equitable basis from other directors or shareholders who are liable under this section.
3. A corporation may issue only shares for which the agreed consideration has been fully paid, delivered, or rendered to the corporation:
- a. The reasonable charges and expenses of organization or reorganization of a corporation, and the reasonable expenses of and compensation for the sale or underwriting of its shares, may be paid or allowed by the corporation out of the consideration received by it in payment for its shares without rendering the shares not fully paid and nonassessable.
 - b. If shares are issued in violation of this subsection, the following persons are jointly and severally liable to the corporation for the difference between the agreed consideration for the shares and the consideration actually received by the corporation:
 - (1) A director or shareholder who was present and entitled to vote but who failed to vote against the issuance of the shares knowing of the violation;
 - (2) The person to whom the shares were issued; and
 - (3) A successor or transferee of the interest in the corporation of a person described in paragraph 1 or 2, including a purchaser of shares, a subsequent assignee, successor, or transferee, a pledgee, a holder of any other security interest in the assets of the corporation or shares granted by the person described in paragraph 1 or 2, or a legal representative of or for the person or estate of the person, which successor, transferee, purchaser, assignee, pledgee, holder, or representative acquired the interest knowing of the violation.
4. A pledgee or holder of any other security interest in all or any shares that have been issued in violation of subsection 3 is not liable under subdivision b of subsection 3 if all those shares are surrendered to the corporation. The surrender does not impair any rights of the pledgee or holder of any other security interest against the pledgor or person granting the security interest.

5. A pledgee, holder of any other security interest, or legal representative is liable under subdivision b of subsection 3 only in that capacity. The liability of the person under subdivision a of subsection 3 is limited to the assets held in that capacity for the person or estate of the person described in paragraph 1 or 2 of subdivision b of subsection 3.
6. Each person liable under subdivision b of subsection 3 has a full right of contribution on an equitable basis from all other persons liable under that subdivision for the same transaction.
7. An action may not be maintained against a person under subdivision b of subsection 3 unless commenced within two years from the date on which shares are issued in violation of subsection 3.

10-19.1-64. Rights to purchase.

1. "Right to purchase" means the right, however designated, pursuant to the terms of a security or agreement, entitling a person to subscribe to, purchase, or acquire securities of a corporation, whether by the exchange or conversion of other securities, or by the exercise of options, warrants, or other rights, or otherwise, but excluding preemptive rights.
2. Rights to purchase may be either transferable or nontransferable and either separable or inseparable from other securities of the corporation, as the board may determine under this section.
3. A corporation may issue rights to purchase if:
 - a. Shares issuable upon the exercise of all outstanding rights to purchase, including the rights to purchase that are to be issued, are authorized under subsection 1 of section 10-19.1-10, and are unissued; and
 - b. The terms, provisions, and conditions of the rights to purchase to be issued, including the conversion basis or the price at which securities may be purchased or subscribed for, are fixed by the board, subject to any restrictions in the articles.
4. The instrument evidencing the right to purchase must set forth in full, summarize, or incorporate by reference all the terms, provisions, and conditions applicable to the right to purchase.

10-19.1-65. Preemptive rights.

1. To the extent allowed by section 9 of article XII of the Constitution of North Dakota, a shareholder of a corporation has the preemptive rights provided in this section, unless denied or limited in the articles or by the board pursuant to subdivision b of subsection 2 of section 10-19.1-61.
2. A preemptive right is the right of a shareholder to acquire a certain fraction of the unissued securities or rights to purchase securities of a corporation before the corporation may offer them to other persons.
3. A shareholder has a preemptive right whenever the corporation proposes to issue new or additional shares or rights to purchase shares of the same class or series as those held by the shareholder or new or additional securities other than shares, or rights to purchase securities other than shares, that are exchangeable for, convertible into, or carry a right to acquire new or additional shares of the same class or series as those held by the shareholder.
4. A shareholder does not have a preemptive right to acquire securities or rights to purchase securities that are:
 - a. Issued for a consideration other than money;
 - b. Issued pursuant to a plan of merger or exchange;
 - c. Issued pursuant to an employee or incentive benefit plan approved at a meeting by the affirmative vote of the holders of a majority of the voting power of all shares entitled to vote;
 - d. Issued upon exercise of previously issued rights to purchase securities of the corporation;
 - e. Issued pursuant to a public offering of the corporation's securities or rights to purchase securities. For purposes of this subdivision, "public offering" means an offering of the corporation's securities or rights to purchase securities if the resale or other distribution of those securities or rights to purchase securities is not restricted by either state or federal securities laws; or
 - f. Issued pursuant to a plan of reorganization approved by a court of competent jurisdiction pursuant to a statute of this state or of the United States.
5. The fraction of the new issue that each shareholder may acquire by exercise of a preemptive right is the ratio

- that the number of shares of that class or series owned by the shareholder before the new issue bears to the total number of shares of that class or series issued and outstanding before the new issue. For purposes of determining pursuant to this subsection the total number of shares of a class or series issued and outstanding at a particular time, all shares of that class or series issuable upon a conversion or exchange or upon the exercise of rights to purchase are considered issued and outstanding at that time.
6. A shareholder may waive a preemptive right in writing. The waiver is binding upon the shareholder whether or not consideration has been given for the waiver. Unless otherwise provided in the waiver, a waiver of preemptive rights is effective only for the proposed issuance described in the waiver.
 7. When proposing the issuance of securities with respect to which shareholders have preemptive rights under this section, the board shall cause notice to be given to each shareholder entitled to preemptive rights. The notice must be given at least ten days before the date by which the shareholder must exercise a preemptive right and must contain:
 - a. The number or amount of securities with respect to which the shareholder has a preemptive right, and the method used to determine that number or amount;
 - b. The price and other terms and conditions upon which the shareholder may purchase them; and
 - c. The time within which and the method by which the shareholder must exercise the right.
8. Securities that are subject to preemptive rights but not acquired by shareholders in the exercise of those rights may, for a period not exceeding one year after the date fixed by the board for the exercise of those preemptive rights, be issued to persons the board determines, at a price not less than, and on terms no more favorable to the purchaser than, those offered to the shareholders. Securities that are not issued during that one-year period shall, at the expiration of the period, again become subject to preemptive rights of shareholders.
9. No amendment to the articles which has the effect of denying, limiting, or modifying the preemptive rights provided in this section may be adopted if the votes of a proportion of the voting power sufficient to elect a director at an election of the entire board under cumulative voting are cast against the amendment.

10-19.1-66. Share certificates - Issuance and contents.

1. The shares of a corporation must be represented by certificates signed by the president or by a vice president and by the secretary, or by an assistant secretary of the corporation.
2. If a person signs or has a facsimile signature placed upon a certificate while an officer, transfer agent, or registrar of a corporation, the certificate may be issued by the corporation, even if the person has ceased to have that capacity before the certificate is issued, with the same effect as if the person had that capacity at the date of its issue.
3. Every certificate representing shares issued by a corporation which is authorized to issue shares of more than one class must set forth upon the face or back of the certificate, or must state that the corporation will furnish to any shareholders upon request and without charge, a full or summary statement of the designations, preferences, limitations, and relative rights of the shares of each class authorized to be issued and, if the corporation is authorized to issue any preferred or special class or series, the variations in the relative rights and preferences between the shares of each such series so far as the same have been fixed and determined and the authority of the board to fix and determine the relative rights and preferences of subsequent series. Each certificate representing shares must state upon its face:
 - a. The name of the corporation.
 - b. That the corporation is organized under the laws of this state.
 - c. The name of the person to whom issued.
 - d. The number and class of shares, and the designation of the series, if any, which such certificate represents.
 - e. The par value of such share represented by such certificate, or a statement that the shares are without par value.
4. A certificate signed as provided in subsection 1 is prima facie evidence of the ownership of the shares referred to in the certificate.

10-19.1-67. Lost share certificates - Replacement.

1. A new share certificate may be issued pursuant to section 41-08-41 in place of one that is alleged to have been lost, stolen, or destroyed.
2. The issuance of a new certificate under this section does not constitute an overissue of the shares it represents.

10-19.1-68. Fractional shares.

1. A corporation may issue fractions of a share originally or upon transfer. If it does not issue fractions of a share, it shall in connection with an original issuance of shares:
 - a. Arrange for the disposition of fractional interests by those entitled to them;
 - b. Pay in money the fair value of fractions of a share as of the time when persons entitled to receive the fractions are determined; or
 - c. Issue scrip or warrants in registered or bearer form that entitle the holder to receive a certificate for a full share upon the surrender of the scrip or warrants aggregating a full share.
2. A corporation may not pay money for fractional shares if that action would result in the cancellation of more than twenty percent of the outstanding shares of a class. A determination by the board of the fair value of fractions of a share is conclusive in the absence of fraud. A certificate for a fractional share does, but scrip or warrants do not unless they provide otherwise, entitle the shareholder to exercise voting rights or to receive distributions. The board may cause scrip or warrants to be issued subject to the condition that they become void if not exchanged for full shares before a specified date, or that the shares for which scrip or warrants are exchangeable may be sold by the corporation and the proceeds distributed to the holder of the scrip or warrants, or to any other condition or set of conditions the board may impose.

10-19.1-69. Liability of subscribers and shareholders with respect to shares. A holder of or subscriber for shares of a corporation is under no obligation to the corporation or its creditors with respect to such shares other than the obligation to pay to the corporation the full consideration of which such shares were issued or to be issued.

Any person becoming an assignee or transferee of shares or of a subscription for shares in good faith and without knowledge or

notice that the full consideration therefore has not been paid shall not be personally liable to the corporation or its creditors for any unpaid portion of such consideration.

A personal representative, conservator, guardian, trustee, assignee for the benefit of creditors, or a receiver is not personally liable to the corporation as a holder of or subscriber for shares of a corporation but the estate and funds in said person's hands are liable.

No pledgee or other holder of shares as collateral security is personally liable as a shareholder.

10-19.1-70. Restriction on transfer or registration of securities.

1. A restriction on the transfer or registration of transfer of securities of a corporation may be imposed in the articles, in the bylaws, by a resolution adopted by the shareholders, or by an agreement among or other written action by a number of shareholders or holders of other securities or among them and the corporation. A restriction is not binding with respect to securities issued prior to the adoption of the restriction, unless the holders of those securities are parties to the agreement or voted in favor of the restriction.
2. A written restriction on the transfer or registration of transfer of securities of a corporation that is not manifestly unreasonable under the circumstances and is noted conspicuously on the face or back of the certificate may be enforced against the holder of the restricted securities or a successor or transferee of the holder, including a pledgee or a legal representative. Unless noted conspicuously on the face or back of the certificate, a restriction, even though permitted by this section, is ineffective against a person without knowledge of the restriction. A restriction under this section is deemed to be noted conspicuously and is effective if the existence of the restriction is stated on the certificate and reference is made to a separate document creating or describing the restriction.

10-19.1-71. Regular meetings of shareholders.

1. Regular meetings of shareholders may be held on an annual or other less frequent periodic basis, but need not be held unless required by the articles or bylaws or by subsection 2.
2. If a regular meeting of shareholders has not been held during the immediately preceding fifteen months, a shareholder or shareholders holding five percent or more or the voting power of all shares entitled to vote may

demand a regular meeting of shareholders by written notice of demand given to the president or secretary of the corporation. Within thirty days after receipt of the demand by one of those officers, the board shall cause a regular meeting of shareholders to be called. If the board fails to cause a regular meeting to be called as required by this subsection, the shareholder or shareholders making the demand may call the regular meeting by giving notice as required by section 10-19.1-73. All necessary expenses of the notice and the meeting must be paid by the corporation.

3. A regular meeting, if any, must be held on the day or date and at the time and place fixed by, or in a manner authorized by, the articles or bylaws, except that a meeting called by or at the demand of a shareholder pursuant to subsection 2 must be held in the county where the principal executive office of the corporation is located.
4. At each regular meeting of shareholders there must be an election of qualified successors for directors who serve for an indefinite term or whose terms have expired or are due to expire within six months after the date of the meeting. No other particular business is required to be transacted at a regular meeting. Any business appropriate for action by the shareholders may be transacted at a regular meeting.

10-19.1-72. Special meetings of shareholders.

1. Special meetings of the shareholders may be called for any purpose or purposes at any time, by:
 - a. The president;
 - b. Two or more directors;
 - c. A person authorized in the articles or bylaws to call special meetings; or
 - d. A shareholder or shareholders holding ten percent or more of the voting power of all shares entitled to vote.
2. A shareholder or shareholders holding five percent or more of the voting power of all shares entitled to vote may demand a special meeting of shareholders by written notice of demand given to the president or secretary of the corporation and containing the purposes of the meeting. Within thirty days after receipt by one of those officers of the demand, the board shall cause a special meeting of shareholders to be called. If the board fails to cause a special meeting to be called as required by this

subsection, the shareholder or shareholders making the demand may call the special meeting by giving notice as required by section 10-19.1-73. All necessary expenses of the notice and the meeting shall be paid by the corporation.

3. Special meetings must be held on the date and at the time and place fixed by the president, the board, or a person authorized by the articles or bylaws to call a meeting, except that a special meeting called by or at the demand of a shareholder or shareholders pursuant to subsection 2 must be held in the county where the principal executive office is located.
4. The business transacted at a special meeting is limited to the purposes stated in the notice of the meeting. Any business transacted at a special meeting that is not included in those stated purposes is voidable by or on behalf of the corporation, unless all of the shareholders have waived notice of the meeting in accordance with subsection 4 of section 10-19.1-73.

10-19.1-73. Notice.

1. Notice of all meetings of shareholders must be given to every holder of shares entitled to vote, except where the meeting is an adjourned meeting and the date, time, and place of the meeting were announced at the time of adjournment.
2. The notice must be given at least ten days before the date of the meeting, or a shorter time provided in the articles or bylaws, and not more than fifty days before the date of the meeting.
3. The notice must contain the date, time, and place of the meeting, and any other information required by this chapter. In the case of a special meeting, the notice must contain a statement of the purposes of the meeting. The notice may also contain any other information required by the articles or bylaws or deemed necessary or desirable by the board or by any other person or persons calling the meeting.
4. A shareholder may waive notice of a meeting of shareholders. A waiver of notice by a shareholder entitled to notice is effective whether given before, at, or after the meeting, and whether given in writing, or by attendance. Attendance by a shareholder at a meeting is a waiver of notice of that meeting, except where the shareholder objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened, or objects before a vote on an item of business because the item may not lawfully be

considered at that meeting and does not participate in the consideration of the item at that meeting.

10-19.1-74. Act of the shareholders.

1. The shareholders shall take action by the affirmative vote of the holders of a majority of the voting power of the shares present and entitled to vote, except where this chapter or the articles require a larger proportion or number. If the articles require a larger proportion or number than is required by this chapter for a particular action, the articles control.
2. In any case where a class or series of shares is entitled by this chapter, the articles, the bylaws, or the terms of the shares to vote as a class or series, the matter being voted upon must also receive the affirmative vote of the holders of the same proportion of the shares of that class or series as is required pursuant to subsection 1.

10-19.1-75. Action without a meeting. An action required or permitted to be taken at a meeting of the shareholders may be taken without a meeting by written action signed by all of the shareholders entitled to vote on that action. The written action is effective when it has been signed by all of those shareholders, unless a different effective time is provided in the written action.

10-19.1-76. Quorum. The holders of a majority of the voting power of the shares entitled to vote at a meeting are a quorum for the transaction of business, unless a larger or smaller proportion or number is provided in the articles or bylaws. In no event may a quorum consist of less than one-third of the shares entitled to vote at the meeting. If a quorum is present when a duly called or held meeting is convened, the shareholders present may continue to transact business until adjournment, even though the withdrawal of a number of shareholders originally present leaves less than the proportion or number otherwise required for a quorum.

10-19.1-77. Voting rights.

1. The board may fix a date not more than fifty days, or a shorter time period provided in the articles or bylaws, before the date of a meeting of shareholders as the date for the determination of the holders of shares entitled to notice of and entitled to vote at the meeting. When a date is so fixed, only shareholders on that date are entitled to notice of and permitted to vote at that meeting of shareholders.
2. A resolution approved by the affirmative vote of a majority of the directors present may establish a procedure whereby a shareholder may certify in writing to the corporation that all or a portion of the shares registered in the name of the shareholder are held for the

account of one or more beneficial owners. Upon receipt by the corporation of the writing, the persons specified as beneficial owners, rather than the actual shareholder, are deemed the shareholders for the purposes specified in the writing.

3. Unless otherwise provided in the articles or bylaws or in the terms of the shares, a shareholder has one vote for each share held.
4. The articles may give or prescribe the manner of giving a creditor, securityholder, or other person a right to vote under this section.
5. Shares owned by two or more shareholders may be voted by any one of them unless the corporation receives written notice from any one of them denying the authority of that person to vote those shares.
6. Except as provided in subsection 5, a holder of shares entitled to vote may vote any portion of the shares in any way the shareholder chooses. If a shareholder votes without designating the proportion or number of shares voted in a particular way, the shareholder is deemed to have voted all of the shares in that way.

10-19.1-78. Voting list. The officer or agent having charge of the stock transfer books for shares of a corporation shall make, at least ten days before each meeting of shareholders, a complete list of the shareholders entitled to vote at the meeting or any adjournment thereof, arranged in alphabetical order, with the address of and the number of shares held by each, which list, for a period of ten days prior to the meeting, must be kept on file at the registered office of the corporation and is subject to inspection by any shareholder at any time during usual business hours. The list must also be produced and kept open at the time and place of the meeting and is subject to the inspection of any shareholder during the whole time of the meeting. The original stock transfer books are prima facie evidence as to who are the shareholders entitled to examine the lists or transfer books or to vote at any meeting of shareholders. Failure to comply with the requirements of this section does not affect the validity of any action taken at the meeting. Any officer or agent having charge of the stock transfer books who fails to prepare the list of shareholders, or keep it on file for a period of ten days, or produce and keep it open for inspection at the meeting, as provided in this section, is liable to any shareholder suffering damage on account of such failure, to the extent of such damage. The provisions of chapter 10-18, except where in conflict with this section, apply and control the transfer of shares.

10-19.1-79. Voting of shares by organizations and legal representatives.

1. Shares of a corporation registered in the name of another domestic or foreign corporation may be voted by the president or another legal representative of that corporation.
2. Except as provided in subsection 3, shares of a corporation registered in the name of a subsidiary are not entitled to vote on any matter.
3. Shares of a corporation in the name of or under the control of the corporation or a subsidiary in a fiduciary capacity are not entitled to vote on any matter, except to the extent that the settlor or beneficial owner possesses and exercises a right to vote or gives the corporation binding instructions on how to vote the shares.
4. Shares under the control of a person in a capacity as a personal representative, an administrator, executor, guardian, conservator, or attorney in fact may be voted by the person, either in person or by proxy, without registration of those shares in the name of the person. Shares registered in the name of a trustee of a trust or in the name of a custodian may be voted by the person, either in person or by proxy, but a trustee of a trust or a custodian may not vote shares held by the person unless they are registered in the name of the person.
5. Shares registered in the name of a trustee in bankruptcy or a receiver may be voted by the trustee or receiver either in person or by proxy. Shares under the control of a trustee in bankruptcy or a receiver may be voted by the trustee or receiver without registering the shares in the name of the trustee or receiver, if authority to do so is contained in an appropriate order of the court by which the trustee or receiver was appointed.
6. Shares registered in the name of an organization not described in subsections 1 through 5 may be voted either in person or by proxy by the legal representative of that organization.
7. A shareholder whose shares are pledged may vote those shares until the shares are registered in the name of the pledgee.

10-19.1-80. Proxies.

1. A shareholder may cast or authorize the casting of a vote by filing a written appointment of a proxy with an officer of the corporation at or before the meeting at which the appointment is to be effective. An appointment of a proxy

- for shares held jointly by two or more shareholders is valid if signed by any one of them, unless the corporation receives from any one of those shareholders written notice either denying the authority of that person to appoint a proxy or appointing a different proxy.
2. The appointment of a proxy is valid for eleven months, unless a longer period is expressly provided in the appointment. No appointment is irrevocable unless the appointment is coupled with an interest, including a security interest, in the shares or in the corporation.
 3. An appointment may be terminated at will, unless the appointment is coupled with an interest, in which case it may not be terminated except in accordance with the terms of an agreement, if any, between the parties to the appointment. Termination may be made by filing written notice of the termination of the appointment with an officer of the corporation, or by filing a new written appointment of a proxy with an officer of the corporation. Termination in either manner revokes all prior proxy appointments and is effective when filed with an officer of the corporation.
 4. The death or incapacity of a person appointing a proxy does not revoke the authority of the proxy, unless written notice of the death or incapacity is received by an officer of the corporation before the proxy exercises the authority under that appointment.
 5. Unless the appointment specifically provides otherwise, if two or more persons are appointed as proxies for a shareholder:
 - a. Any one of them may vote the shares on each item of business in accordance with specific instructions contained in the appointment; and
 - b. If no specific instructions are contained in the appointment with respect to voting the shares on a particular item of business, the shares must be voted as a majority of the proxies determine. If the proxies are equally divided, the shares may not be voted.
 6. Unless the appointment of a proxy contains a restriction, limitation, or specific reservation of authority, the corporation may accept a vote or action taken by a person named in the appointment. The vote of a proxy is final, binding, and not subject to challenge, but the proxy is liable to the shareholder or beneficial owner for damages resulting from a failure to exercise the proxy or from an exercise of the proxy in violation of the authority granted in the appointment.

10-19.1-81. Voting trusts.

1. Shares in a corporation may be transferred to a trustee pursuant to written agreement, for the purpose of conferring on the trustee the right to vote and otherwise represent the beneficial owner of those shares for a period not exceeding ten years, except that if the agreement is made in connection with an indebtedness of the corporation, the voting trust may extend until the indebtedness is discharged. Unless otherwise specified in the agreement, the voting trust may be terminated at any time by the beneficial owners of a majority of the voting power of the shares held by the trustee. A signed original of the agreement must be filed with the corporation.
2. Unless otherwise provided in the trust agreement, if there are two or more trustees, the manner of voting is determined as provided in subsection 5 of section 10-19.1-77.

10-19.1-82. Shareholder voting agreements. A written agreement solely among persons who are then shareholders or subscribers for shares to be issued, relating to the voting of their shares, is valid and specifically enforceable by and against the parties to the agreement. The agreement may override the provisions of section 10-19.1-80 regarding proxies and is not subject to the provisions of section 10-19.1-81 regarding voting trusts.

10-19.1-83. Shareholder control agreements.

1. A written agreement solely among the shareholders of a corporation and the subscribers for shares to be issued, relating to the control of any phase of the business and affairs of the corporation, its liquidation and dissolution, or the relations among shareholders of or subscribers to shares of the corporation is valid and specifically enforceable as provided in subsections 2 and 3.
2. A written agreement solely among persons described in subsection 1 that relates to the control of or the liquidation and dissolution of the corporation, the relations among them, or any phase of the business and affairs of the corporation, including, without limitation, the management of its business, the declaration and payment of distributions, the election of directors or officers, the employment of shareholders by the corporation, or the arbitration of disputes, is valid and specifically enforceable, if the agreement is signed by all persons who are then the shareholders of the corporation, whether or not the shareholders all have voting shares, and the subscribers for shares, whether or not voting shares, to be issued.

3. The agreement is enforceable by the persons described in subsection 1 who are parties to it and is binding upon and enforceable against only those persons and other persons having knowledge of the existence of the agreement. A signed original of the agreement must be filed with the corporation. The existence and location of a copy of the agreement must be noted conspicuously on the face or back of each certificate for shares issued by the corporation and on each transaction statement. A shareholder, a beneficial owner of shares, or another person having a security interest in shares has the right upon written demand to obtain a copy of the agreement from the corporation at the expense of the corporation.
4. The effect of an agreement authorized by this section is to relieve the board and the director or directors in their capacities as directors of, and to impose upon the parties to the agreement, the liability for acts or omissions imposed by law upon directors to the extent that and so long as the discretion or powers of the directors in the management of the business and affairs of the corporation are exercised by the shareholders under a provision in the agreement. A shareholder is not liable pursuant to this subsection by virtue of a shareholder vote, if the shareholder had no right to vote on the action.
5. This section does not apply to, limit, or restrict agreements otherwise valid, nor is the procedure set forth in this section the exclusive method of agreement among shareholders or between the shareholders and the corporation with respect to any of the matters described in this section.

10-19.1-84. Books and records - Inspection.

1. A corporation shall keep at its principal executive office, or at another place or places within the United States determined by the board, a share register not more than one year old, containing the names and addresses of the shareholders and the number and classes of shares held by each shareholder. A corporation shall also keep, at its principal executive office, or at another place or places within the United States determined by the board, a record of the dates on which certificates were issued.
2. A corporation shall keep at its principal executive office, or, if its principal executive office is outside of this state, shall make available at its registered office within ten days after receipt by an officer of the corporation of a written demand for them made by a person described in subsection 4 or 5 originals or copies of:

- a. Records of all proceedings of shareholders for the last three years;
 - b. Records of all proceedings of the board for the last three years;
 - c. Its articles and all amendments currently in effect;
 - d. Its bylaws and all amendments currently in effect;
 - e. Financial statements required by section 10-19.1-85 and the financial statement for the most recent interim period prepared in the course of the operation of the corporation for distribution to the shareholders or to a governmental agency as a matter of public record;
 - f. Reports made to shareholders generally within the last three years;
 - g. A statement of the names and usual business addresses of its directors and principal officers;
 - h. Voting trust agreements described in section 10-19.1-81; and
 - i. Shareholder control agreements described in section 10-19.1-83.
3. A corporation shall keep appropriate and complete financial records.
 4. A shareholder or a holder of a voting trust certificate has an absolute right, upon written demand, to examine and copy, in person or by a legal representative, at any reasonable time:
 - a. The share register; and
 - b. All documents referred to in subsection 2.
 5. A shareholder or a holder of a voting trust certificate who has been a shareholder for at least six months immediately preceding the shareholder's demand or who is the holder of record of at least five percent of all the outstanding shares of the corporation has a right, upon written demand, to examine and copy, in person or by a legal representative, other corporate records at any reasonable time only if the shareholder, beneficial owner, or holder of a voting trust certificate demonstrates a proper purpose for the examination. A "proper purpose" is one reasonably related to the person's interest as a shareholder, beneficial owner, or holder of a voting trust certificate of the corporation.

6. On application of the corporation, a court in this state may issue a protective order permitting the corporation to withhold portions of the records of proceedings of the board for a reasonable period of time, not to exceed twelve months, in order to prevent premature disclosure of confidential information which would be likely to cause competitive injury to the corporation. A protective order may be renewed for successive reasonable periods of time, each not to exceed twelve months and in total not to exceed thirty-six months, for good cause shown. If a protective order is issued, the statute of limitations for any action which the shareholder, beneficial owner, or holder of a voting trust certificate might bring as a result of information withheld automatically extends for the period of delay. If the court does not issue a protective order with respect to any portion of the records of proceedings as requested by the corporation, it shall award reasonable expenses, including attorney's fees and disbursements, to the shareholder, beneficial owner, or holder of a voting trust certificate.
7. Copies of all documents referred to in subsection 2 must be furnished at the expense of the corporation. A copy of the most recently generated share register must be furnished at the expense of the corporation if the requesting party shows a proper purpose. In all other cases, the corporation may charge the requesting party a reasonable fee to cover the expenses of providing the copy.
8. The records maintained by a corporation, including its share register, financial records, and minute books, may utilize any information storage technique, including, for example, punched holes, printed or magnetized spots, or microimages, even though that makes them illegible visually, if the records can be converted accurately and within a reasonable time, into a form that is legible visually and whose contents are assembled by related subject matter to permit convenient use by people in the normal course of business. A corporation shall convert any of the records referred to in subsection 4 upon the request of a person entitled to inspect them, and the expense of the conversion shall be borne by the person who bears the expense of copying pursuant to subsection 7. A copy of the conversion is admissible in evidence, and must be accepted for all other purposes, to the same extent as the existing or original records would be if they were legible visually.

10-19.1-85. Financial statements. A corporation shall, upon written request by a shareholder, furnish annual financial statements, including at least a balance sheet as of the end of each fiscal year and a statement of income for the fiscal year, which must be prepared on the basis of accounting methods reasonable in

the circumstances and may be consolidated statements of the corporation and one or more of its subsidiaries. In the case of statements audited by a public accountant, each copy must be accompanied by a report setting forth the opinion of the accountant on the statements; in other cases, each copy must be accompanied by a statement of the treasurer or other person in charge of the corporation's financial records stating the reasonable belief of the person that the financial statements were prepared in accordance with accounting methods reasonable in the circumstances, describing the basis of presentation, and describing any respects in which the financial statements were not prepared on a basis consistent with those prepared for the previous year.

10-19.1-86. Actions by shareholders. No action may be brought in this state by a shareholder in the right of a domestic or foreign corporation unless plaintiff is a holder of record of shares or voting trust certificates at the time of the transaction of which plaintiff complains, or the plaintiff's shares or voting trust certificates thereafter devolved upon the plaintiff by operation of law from a person who was a holder of record at such time:

1. In any action thereafter instituted in the right of any domestic or foreign corporation by the holder or holders of record of shares of the corporation or voting trust certificates, the court having jurisdiction, upon final judgment and finding that the action was brought without reasonable cause, may require the plaintiff or plaintiffs to pay the parties named as defendant the reasonable expenses, including fees of attorneys, incurred by them in defense of such action.
2. In any action now pending or hereafter instituted or maintained in the right of any domestic or foreign corporation by the holder or holders of record of less than five percent of the outstanding shares of any class of the corporation or voting trust certificates, unless the shares or voting trust certificates so held have a market value in excess of twenty-five thousand dollars, the corporation in whose right such action is brought is entitled at any time before final judgment to require the plaintiff or plaintiffs to give security for the reasonable expenses, including fees of attorneys, that may be incurred by it in connection with such action or may be incurred by other parties named as defendant for which it may become legally liable. Market value must be determined on the date the plaintiff institutes the action or, in the case of an intervenor, on the date the intervenor becomes a party to the action. The amount of the security may from time to time be increased or decreased, in the discretion of the court, upon showing that the security provided has or may become inadequate or is excessive. The corporation has recourse to such security in such amount as the court having jurisdiction determines upon the termination of the action, whether or

not the court finds the action was brought without reasonable cause.

10-19.1-87. Rights of dissenting shareholders.

1. A shareholder of a corporation may dissent from, and obtain payment for the fair value of the shareholder's shares in the event of, any of the following corporate actions:
 - a. A sale, lease, transfer, or other disposition of all or substantially all of the property and assets of the corporation not made in the usual or regular course of its business, but not including a disposition in dissolution described in subsection 2 of section 10-19.1-109 or a disposition pursuant to an order of a court, or a disposition for cash on terms requiring that all or substantially all of the net proceeds of disposition be distributed to the shareholders in accordance with their respective interests within one year after the date of disposition;
 - b. A plan of merger to which the corporation is a party, except as provided in subsection 3;
 - c. A plan of exchange pursuant to which the shares of the corporation are to be acquired; or
 - d. Any other corporate action taken pursuant to a shareholder vote with respect to which the articles, the bylaws, or a resolution approved by the board directs that dissenting shareholders may obtain payment for their shares.
2. A shareholder may not assert dissenters' rights as to less than all of the shares registered in the name of the shareholder, unless the shareholder dissents with respect to all the shares that are beneficially owned by another person but registered in the name of the shareholder and discloses the name and address of each beneficial owner on whose behalf the shareholder dissents. In that event, the rights of the dissenter must be determined as if the shares as to which the shareholder has dissented and the other shares were registered in the names of different shareholders. The beneficial owner of shares who is not the shareholder may assert dissenters' rights with respect to shares held on behalf of the beneficial owner, and must be treated as a dissenting shareholder under the terms of this section and section 10-19.1-88, if the beneficial owner submits to the corporation at the time of or before the assertion of the rights a written consent of the shareholder.

3. The right to obtain payment under this section does not apply to the shareholders of the surviving corporation in a merger or of the acquiring corporation in an exchange, if a vote of the shareholders of the corporation is not necessary to authorize the merger or exchange.
4. The shareholders of a corporation who have a right under this section to obtain payment for their shares do not have a right at law or in equity to have a corporate action described in subsection 1 set aside or rescinded, except when the corporate action is fraudulent with regard to the complaining shareholder or the corporation.

10-19.1-88. Procedures for asserting dissenters' rights.

1. If a corporation calls a shareholder meeting at which any action described in subsection 1 of section 10-19.1-87 is to be voted upon, the notice of the meeting must inform each shareholder of the right to dissent and must include a copy of section 10-19.1-87 and this section.
2. The shareholder of a corporation which is a party to an action described in subsection 1 of section 10-19.1-87 shall file with the corporation, prior to or at the meeting of shareholders at which the action is submitted to a vote, a written objection to the action and may not vote in favor of the action.
3. The shareholder, within ten days after the date on which the vote was taken, shall make written demand on the corporation for payment of the fair value of the shares as of the day prior to the day on which the vote was taken approving the action. The demand must state the number and class of shares owned by the dissenting shareholder. Any shareholder failing to make demand within the ten-day period is bound by the action.
4. If the action is effected, the corporation shall pay to the shareholder, upon surrender of the shareholder's certificate or certificates representing the shares, the fair value of the shares.
5. Within ten days after the action is effected, the corporation shall give notice of the action to each dissenting shareholder who has made demand as provided in this section.
6. If within thirty days after the date on which the action was effected, the value of the shares is agreed upon between the dissenting shareholder and the corporation, payment for the shares must be made within ninety days after the date on which the action was effected, upon the surrender of the shareholder's certificate or certificates representing the shares. Upon payment of the agreed

value, the dissenting shareholder shall cease to have any interest in the shares or in the corporation.

7. If within the period of thirty days the shareholder and the corporation do not agree on the value of the shares, then the dissenting shareholder may, within sixty days after the expiration of the thirty-day period, bring an action in any court of competent jurisdiction asking for a finding and determination of the fair value of the shares and is entitled to judgment against the corporation for the amount of the fair value as of the day prior to the day on which the vote was taken approving the action, together with interest to the date of the judgment. The judgment is payable only upon and simultaneously with the surrender to the corporation of the certificate or certificates representing the shares. Upon payment of the judgment, the dissenting shareholder ceases to have any interest in these shares or in the corporation. Unless the dissenting shareholder files the petition within the time permitted the shareholder and all persons claiming under the shareholder are bound by the action.

10-19.1-89. Loans - Guarantees - Suretyship.

1. A corporation may lend money to, guarantee an obligation of, become a surety for, or otherwise financially assist any person, if the transaction, or a class of transactions to which the transaction belongs, is approved by the affirmative vote of a majority of the directors present and:
- a. Is in the usual and regular course of business of the corporation;
 - b. Is with, or for the benefit of, a related corporation, an organization in which the corporation has a financial interest, all organizations with which the corporation has a business relationship, or an organization to which the corporation has the power to make donations;
 - c. Is with, or for the benefit of, an officer or other employee of the corporation or a subsidiary, including an officer or employee who is a director of the corporation or a subsidiary, and may reasonably be expected, in the judgment of the board, to benefit the corporation; or
 - d. Has been approved by the affirmative vote of the holders of two-thirds of the outstanding shares.
2. A loan, guaranty, surety contract, or other financial assistance under subsection 1 may be with or without interest and may be unsecured or may be secured in any

manner, including, without limitation, a grant of a security interest in shares of the corporation.

3. This section does not grant any authority to act as a bank or to carry on the business of banking.

10-19.1-90. Advances. A corporation may, without a vote of the directors, advance money to its directors, officers, or employees to cover expenses that can reasonably be anticipated to be incurred by them in the performance of their duties and for which they would be entitled to reimbursement in the absence of an advance.

10-19.1-91. Indemnification.

1. For purposes of this section, the terms defined in this subsection have the meanings given them.

a. "Corporation" includes a domestic or foreign corporation that was the predecessor of the corporation referred to in this section in a merger or other transaction in which the predecessor's existence ceased upon consummation of the transaction.

b. "Official capacity" means:

(1) With respect to a director, the position of director in a corporation;

(2) With respect to a person other than a director, the elective or appointive office or position held by an officer, member of a committee of the board, or the employment or agency relationship undertaken by an employee or agent of the corporation; and

(3) With respect to a director, officer, employee, or agent of the corporation who, while a director, officer, employee, or agent of the corporation, is or was serving at the request of the corporation or whose duties in that position involve or involved service as a director, officer, partner, trustee, or agent of another organization or employee benefit plan, the position of that person as a director, officer, partner, trustee, employee, or agent, as the case may be, of the other organization or employee benefit plan.

c. "Proceeding" means a threatened, pending, or completed civil, criminal, administrative, arbitration, or investigative proceeding, including a proceeding by or in the right of the corporation.

- d. "Special legal counsel" means counsel who has not represented the corporation or a related corporation, or a director, officer, employee, or agent whose indemnification is in issue.
2. Subject to subsection 5, a corporation shall indemnify a person made or threatened to be made a party to a proceeding by reason of the former or present official capacity of the person against judgments, penalties, fines including, without limitation, excise taxes assessed against the person with respect to an employee benefit plan, settlements, and reasonable expenses, including attorneys' fees and disbursements, incurred by the person in connection with the proceeding, if, with respect to the acts or omissions of the person complained of in the proceeding, the person:
- a. Has not been indemnified by another organization or employee benefit plan for the same judgments, penalties, fines, including, without limitation, excise taxes assessed against the person with respect to an employee benefit plan, settlements, and reasonable expenses, including attorneys' fees and disbursements, incurred by the person in connection with the proceeding with respect to the same acts or omission;
- b. Acted in good faith;
- c. Received no improper personal benefit and section 10-19.1-51, if applicable, has been satisfied;
- d. In the case of a criminal proceeding, had no reasonable cause to believe the conduct was unlawful; and
- e. In the case of acts or omissions occurring in the official capacity described in paragraph 1 or 2 of subdivision b of subsection 1, reasonably believed that the conduct was in the best interests of the corporation, or in the case of acts or omissions occurring in the official capacity described in paragraph 3 of subdivision b of subsection 1, reasonably believed that the conduct was not opposed to the best interests of the corporation. If the person's acts or omissions complained of in the proceeding relate to conduct as a director, officer, trustee, employee, or agent of an employee benefit plan, the conduct is not considered to be opposed to the best interests of the corporation if the person reasonably believed that the conduct was in the best interests of the participants or beneficiaries of the employee benefit plan.

3. The termination of a proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent does not, of itself, establish that the person did not meet the criteria set forth in subsection 2.
4. Subject to subsection 5, if a person is made or threatened to be made a party to a proceeding, the person is entitled, upon written request to the corporation, to payment or reimbursement by the corporation of reasonable expenses, including attorneys' fees and disbursements, incurred by the person in advance of the final disposition of the proceeding:
 - a. Upon receipt by the corporation of a written affirmation by the person of a good faith belief that the criteria for indemnification set forth in subsection 2 have been satisfied and a written undertaking by the person to repay all amounts so paid or reimbursed by the corporation, if it is ultimately determined that the criteria for indemnification have not been satisfied; and
 - b. After a determination that the facts then known to those making the determination would not preclude indemnification under this section.

The written undertaking required by subdivision a is an unlimited general obligation of the person making it, but need not be secured and shall be accepted without reference to financial ability to make the repayment.

5. The articles or bylaws either may prohibit indemnification or advances of expenses otherwise required by this section or may impose conditions on indemnification or advances of expenses in addition to the conditions contained in subsections 2, 3, and 4 including, without limitation, monetary limits on indemnification or advances for expenses, if the conditions apply equally to all persons or to all persons within a given class.
6. This section does not require, or limit the ability of, a corporation to reimburse expenses, including attorneys' fees and disbursements, incurred by a person in connection with an appearance as a witness in a proceeding at a time when the person has not been made or threatened to be made a party to a proceeding.
7. All indemnification determinations must be made:
 - a. By the board by a majority of a quorum. Directors who are at the time parties to the proceeding shall not be counted for determining either a majority or the presence of a quorum;

- b. If a quorum under subdivision a cannot be obtained, by a majority of a committee of the board, consisting solely of two or more directors not at the time parties to the proceeding, duly designated to act in the matter by a majority of the full board including directors who are parties;
 - c. If a determination is not made under subdivision a or b, by special legal counsel, selected either by a majority of the board or a committee by vote pursuant to subdivision a or b or, if the requisite quorum of the full board cannot be obtained and the committee cannot be established, by a majority of the full board including directors who are parties;
 - d. If a determination is not made under subdivisions a, b, and c, by the shareholders, excluding the votes of shares held by parties to the proceeding; or
 - e. If an adverse determination is made under subdivisions a through d, or if no determination is made under subdivisions a through d within sixty days after the termination of a proceeding or after a request for an advance of expenses, as the case may be, by a court in this state, which may be the same court in which the proceeding involving the person's liability took place, upon application of the person and any notice the court requires.
8. With respect to a person who is not, and who was not at the time of the acts or omissions complained of in the proceedings, a director, officer, or person possessing, directly or indirectly, the power to direct or cause the direction of the management or policies of the corporation, the determination whether indemnification of this person is required because the criteria set forth in subsection 2 have been satisfied and whether this person is entitled to payment or reimbursement of expenses in advance of the final disposition of a proceeding as provided in subsection 4 may be made by an annually appointed committee of the board, having at least one member who is a director. The committee shall report at least annually to the board concerning its actions.
 9. A corporation may purchase and maintain insurance on behalf of a person in that person's official capacity against any liability asserted against and incurred by the person in or arising from that capacity, whether or not the corporation would have been required to indemnify the person against the liability under the provisions of this section.
 10. A corporation that indemnifies or advances expenses to a person in accordance with this section in connection with

a proceeding by or on behalf of the corporation shall report the amount of the indemnification or advance and to whom and on whose behalf it was paid as part of the annual financial statements furnished to shareholders pursuant to section 10-19.1-85 covering the period when the indemnification or advance was paid or accrued under the accounting method of the corporation reflected in the financial statements.

10-19.1-92. Distributions.

1. The board may authorize and cause the corporation to make a distribution only if the board determines, in accordance with subsection 2, that the corporation will be able to pay its debts in the ordinary course of business after making the distribution and the board does not know before the distribution is made that the determination was or has become erroneous, and the corporation may make the distribution if it is able to pay its debts in the ordinary course of business after making the distribution. The effect of a distribution on the ability of the corporation to pay its debts in the ordinary course of business after making the distribution shall be measured in accordance with subsection 3. The right of the board to authorize, and the corporation to make, distributions may be prohibited, limited, or restricted by, or the rights and priorities of persons to receive distributions may be established by, the articles or bylaws or an agreement.
2. A determination that the corporation will be able to pay its debts in the ordinary course of business after the distribution is presumed to be proper if the determination is made in compliance with the standard of conduct provided in section 10-19.1-50 on the basis of financial information prepared in accordance with accounting methods, or a fair valuation or other method, reasonable in the circumstances. No liability under section 10-19.1-50 or 10-19.1-95 will accrue if the requirements of this subsection have been met.
3. In the case of a distribution made by a corporation in connection with a purchase, redemption, or other acquisition of its shares, the effect of the distribution must be measured as of the date on which money or other property is transferred, or indebtedness payable in installments or otherwise is incurred, by the corporation, or as of the date on which the shareholder ceases to be a shareholder of the corporation with respect to the shares, whichever is the earliest. The effect of any other distribution must be measured as of the date of its authorization if payment occurs one hundred twenty days or less following the date of authorization, or as of the date of payment if payment occurs more than one hundred

twenty days following the date of authorization. The provisions of chapter 13-02 do not apply to distributions made by a corporation governed by this chapter.

4. Indebtedness of a corporation incurred or issued in a distribution in accordance with this section to a shareholder who as a result of the transaction is no longer a shareholder is on a parity with the indebtedness of the corporation to its general unsecured creditors, except to the extent subordinated, agreed to, or secured by a pledge of any assets of the corporation or a related corporation, or subject to any other agreement between the corporation and the shareholder.
5. A distribution may be made to the holders of a class or series of shares only if:
 - a. All amounts payable to the holders of shares having a preference for the payment of that kind of distribution are paid; and
 - b. The payment of the distribution does not reduce the remaining net assets of the corporation below the aggregate preferential amount payable in the event of liquidation to the holders of shares having preferential rights, unless the distribution is made to those shareholders in the order and to the extent of their respective priorities.
6. If the money or property available for distribution is insufficient to satisfy all preferences, the distributions shall be made pro rata according to the order of priority of preferences by classes and by series within those classes.

10-19.1-93. Power to acquire shares.

1. A corporation may acquire its own shares, subject to section 10-19.1-92. Shares so acquired constitute authorized but unissued shares of the corporation, unless the articles provide that they may not be reissued, in which case the number of authorized shares is reduced by the number of shares acquired.
2. If the number of authorized shares of a corporation is reduced by an acquisition of its shares, the corporation shall, no later than the time it makes its next annual report to shareholders or, if no report is made, no later than three months after the end of the fiscal year in which the acquisition occurs, file with the secretary of state a statement of cancellation showing the reduction in the authorized shares. The statement must contain:
 - a. The name of the corporation;

10-19.1-94. Liability of shareholders for illegal distributions.

1. A shareholder who knows or should have known that a distribution was made in violation of section 10-19.1-92 is liable to the corporation, its receiver or other person winding up its affairs, or a director under subsection 2 of section 10-19.1-95 but only to the extent that the distribution received by the shareholder exceeded the amount that properly could have been paid under section 10-19.1-92.
2. An action may not be commenced under this section more than two years from the date of the distribution.

10-19.1-95. Liability of directors for illegal distributions.

1. In addition to any other liabilities, a director who is present and votes for or fails to vote against, except a director who is prohibited by section 10-19.1-51 from voting on the distribution, or who consents in writing to, a distribution made in violation of section 10-19.1-92 or a restriction contained in the articles or bylaws or an agreement, and who fails to comply with the standard of conduct provided in section 10-19.1-50, is liable to the corporation jointly and severally with all other directors so liable and to other directors under subsection 3, but only to the extent that the distribution exceeded the amount that properly could have been paid under section 10-19.1-92.
2. A director against whom an action is brought under this section with respect to a distribution may implead in that action all shareholders who received the distribution and may compel pro rata contribution from them in that action to the extent provided in subsection 1 of section 10-19.1-94.
3. A director against whom an action is brought under this section with respect to a distribution may implead in that action all other directors who voted for or consented in writing to the distribution and who failed to comply with the standard of conduct provided in section 10-19.1-50, and may compel pro rata contribution from them in that action.

4. An action may not be commenced under this section more than two years from the date of the distribution.

(2) In the case of an exchange, the name of the acquiring corporation;

b. The terms and conditions of the proposed merger or exchange;

c. In the case of a merger, the manner and basis of converting the shares of the constituent corporations into securities of the surviving corporation or of any other corporation, or, in whole or in part, into money or other property; or in the case of an exchange, the manner and basis of exchanging the shares of other constituent corporations for shares of the acquiring corporation;

d. In the case of a merger, a statement of any amendments to the articles of the surviving corporation proposed as part of the merger; and

2. The procedure authorized by this section does not limit the power of a corporation to acquire for money or property other than its shares all or part of the shares of a class or series of another corporation by a negotiated agreement with the shareholders of the other corporation.

10-19.1-98. Plan approval.

1. A resolution containing the plan of merger or exchange must be approved by the affirmative vote of a majority of the directors present at a meeting of the board of each constituent corporation and must then be submitted to the shareholders of each constituent corporation at a regular or a special meeting. Written notice must be given to every shareholder, whether or not entitled to vote at the meeting, no fewer than fourteen days before the meeting, in the manner provided in section 10-19.1-73 for notice of meetings of shareholders. A copy or short description of the plan of merger or exchange must be included in or enclosed with the notice.

2. At the meeting a vote of the shareholders must be taken on the proposed plan. The plan of merger or exchange is adopted when approved by the affirmative vote of the holders of a majority of the voting power of all shares entitled to vote. A class or series of shares of the corporation is entitled to vote as a class or series if any provision of the plan would, if contained in a proposed amendment to the articles, entitle the class or series of shares to vote as a class or series and, in the case of an exchange, if the class or series is affected by the plan of exchange.

3. Notwithstanding subsections 1 and 2, submission of a plan of merger or exchange to a vote at a meeting of shareholders of a surviving or acquiring corporation is not required if:

4. Within thirty days after a copy of the plan of merger is mailed to shareholders of the subsidiary, or upon waiver of the mailing by the holders of all outstanding shares, the articles of merger must be signed on behalf of the parent and filed in duplicate original with the secretary of state, along with the fees provided in chapter 10-23.
5. The secretary of state shall issue a certificate of merger to the parent or its legal representative. The certificate must contain the effective date of the merger.

10-19.1-101. Abandonment of plan of merger or exchange.

1. After a plan of merger or exchange has been approved at a meeting by the affirmative vote of the holders of a majority of the voting power of all voting shares of each constituent corporation and before the effective date of the plan, it may be abandoned:
 - a. If the shareholders of each of the constituent corporations have considered abandoning the plan and the abandonment has been approved at a meeting by the affirmative vote of the holders of a majority of the voting power of all voting shares of each constituent corporation;

- b. If the plan itself provides for abandonment and all conditions for abandonment set forth in the plan are met; or

If the certificate of merger has been issued, the board shall surrender the certificate to the secretary of state upon filing the articles of abandonment.

10-19.1-102. Effective date of merger or exchange - Effect.

- 1. A merger is effective when the articles of merger are filed with the secretary of state or on a later date specified in the articles of merger. An exchange is effective on the date specified in the plan of exchange.
- 2. When a merger becomes effective:
 - a. The constituent corporations become a single corporation, the surviving corporation.

Confirmatory deeds, assignments, or similar instruments to accomplish that vesting may be signed and delivered at any time in the name of a constituent corporation by its current officers or, if the corporation no longer exists, by its last officers. The title to any real estate or any interest therein vested in any of the constituent corporations does not revert nor in any way become impaired by reason of the merger.

- e. The surviving corporation is responsible and liable for all the liabilities and obligations of each of the constituent corporations. A claim of or against or a pending proceeding by or against a constituent corporation may be prosecuted as if the merger had not taken place, or the surviving corporation may be substituted in the place of the constituent corporation. Neither the rights of creditors nor any liens upon the property of a constituent corporation are impaired by the merger.
- f. The articles of the surviving corporation are deemed to be amended to the extent that changes in its articles, if any, are contained in the plan of merger.

- 3. When a merger or exchange becomes effective, the shares of the corporation or corporations to be converted or exchanged under the terms of the plan cease to exist in the case of a merger, or are deemed to be exchanged in the case of an exchange. The holders of those shares are entitled only to the securities, money, or other property into which those shares have been converted or for which those shares have been exchanged in accordance with the plan, subject to any dissenter's rights under section 10-19.1-87.

10-19.1-103. Merger or exchange with foreign corporation.

2. A corporation, by affirmative vote of a majority of the directors present, may sell, lease, transfer, or otherwise dispose of all or substantially all of its property and assets, including its good will, not in the usual and regular course of its business, upon those terms and conditions and for those considerations, which may be money, securities, or other instruments for the payment of money or other property, as the board deems expedient, when approved at a regular or special meeting of the shareholders by the affirmative vote of the holders of a

majority of the voting power of the shares entitled to vote. Written notice of the meeting must be given to all shareholders whether or not they are entitled to vote at the meeting. The written notice must state that a purpose of the meeting is to consider the sale, lease, transfer, or other disposition of all or substantially all of the property and assets of the corporation.

3. Confirmatory deeds, assignments, or similar instruments to evidence a sale, lease, transfer, or other disposition may be signed and delivered at any time in the name of the transferor by its current officers or, if the corporation no longer exists, by its last officers.

COUNTY HOME RULE

AN ACT to provide for the establishment and operation of home rule in counties; and to amend and reenact sections 12.1-01-05 and 57-01-02.1 of the North Dakota Century Code, to provide that home rule counties' charters or ordinances may not supersede state laws defining crimes and to allow home rule counties to enter sales tax collection agreements with the tax commissioner.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. Methods of proposing home rule charter. The board of county commissioners may on its own motion cause a home rule charter to be drafted and submitted for adoption to the electors of the county in the manner provided in this Act. A home rule proposal may be initiated in a petition filed with the board of county commissioners and signed by qualified electors of the county not fewer in number than two percent of the population of the county.

SECTION 2. Charter commission - Membership - Preparation and submission of charter - Compensation and expenses - Publication. Within sixty days after proceedings have been initiated for a home rule charter, the board of county commissioners shall appoint a five-member charter commission to draft the charter. The board shall designate one of the charter commission members as chairman of the charter commission. The board shall set the compensation and expenses of charter commission members. The board, from its general funds, may furnish the charter commission with office space, clerical help, supplies, and legal and other assistance. The charter commission shall hold at least one public hearing on the proposed charter and shall prepare and submit the charter to the board of county commissioners within one year after appointment. The charter must contain a list of county offices to be elected and any elected offices that will be eliminated or combined if the charter is adopted. The board of county commissioners shall publish the proposed charter once in the official newspaper of the county.

SECTION 3. Submission of charter to electors. At least sixty days after publication, the proposed charter must be submitted to a vote of the qualified electors of the county at the next primary or general election.

SECTION 4. Ratification by majority vote - Supersession of existing charter and conflicting state laws - Filing of copies of new charter. If a majority of the qualified electors voting on the charter at the election vote in favor of the home rule charter, it is ratified and becomes the organic law of the county on the first day of January following the election, and extends to all its county matters. The charter and the ordinances made pursuant to the charter in county matters must be liberally construed to supersede within the territorial limits and jurisdiction of the county any conflicting state law except for any state law as it applies to cities or any power of a city to govern its own affairs, without the consent of the governing body of the city. No ordinance of a home rule county shall supersede section 49-22-16. One copy of the charter as ratified and approved must be filed with the secretary of state, one with the clerk of district court for the county, and one with the auditor of the county to remain as a part of its permanent records. Courts shall take judicial notice of the charter.

SECTION 5. Powers. After the filing with the secretary of state of a charter approved in reasonable conformity with this chapter, the county and its citizens may, if included in the charter and implemented through ordinances:

A charter or ordinance or act of a governing body of a home rule county may not supersede any state law which determines what property or acts are subject to, or exempt from, ad valorem or sales and use taxes.

3. Provide for county elected and appointed officers and employees, their selection, powers, duties, qualifications, and compensation, and the terms of county appointed officers and employees. However, after adoption of a home rule charter a county elected office may not be eliminated or combined with another office except upon approval of a majority of the electors of the county voting upon the question at a primary or general election. Notwithstanding the other provisions of this subsection, a charter or ordinance or act of a governing body of a home rule county may not supersede any state law concerning the office or jurisdiction of the county court or county judge.
4. Provide for all matters pertaining to county elections, except as to qualifications of electors.
5. Provide for the adoption, amendment, repeal, initiative, referral, enforcement, and penalties for violation of ordinances, resolutions, and regulations to carry out its governmental and proprietary powers and to provide for public health, safety, morals, and welfare. However, this subsection does not confer any authority to regulate any industry or activity which is regulated by state law or by rules adopted by a state agency.
6. Lay out or vacate public grounds, and provide through its governing body for the construction, use, operation, designation, and regulation of a county road system.
7. Provide for zoning, planning, and subdivision of public or private property within the county limits but outside the zoning authority of any city or organized township.
8. Exercise in the conduct of its affairs all powers usually exercised by a corporation.
9. Contract with and receive grants from any other governmental entity or agency, with respect to any local, state, or federal program, project, or works.

The statutes of this state, so far as applicable, continue to apply to counties, except as superseded by the charters of the counties or by ordinances passed pursuant to the charters.

SECTION 6. Amendment or repeal. The home rule charter adopted by any county may be amended or repealed by a proposal by the governing body of the county or by petition of the number of electors provided in section 1 of this Act, submitted to and ratified by the qualified electors of the county. A petition to amend or repeal a home rule charter must be submitted to the governing body of the county. Within thirty days of receipt of a

valid petition or approval of a proposal to amend or repeal a home rule charter, the governing body of the county shall publish any proposed amendment or repeal of a home rule charter once in the official newspaper of the county. At least sixty days after publication, the proposed amendment or repeal must be submitted to a vote of the qualified electors of the county at the next primary or general election. The electors may accept or reject any amendment or a repeal by a majority vote of electors voting at the election.

SECTION 7. Commission - Terms of office - Vacancies. The board of county commissioners shall determine the term of office of the members of the charter commission at the time the members are appointed. The board of county commissioners shall fill any vacancy on the charter commission.

SECTION 8. Restriction on proposals to amend or repeal. Any proposal to amend or repeal a home rule charter may not be submitted to the electorate more often than every two years.

SECTION 9. Manner of calling and holding elections. The elections provided for in this chapter are subject to the laws applicable to other elections of the county. All qualified electors of the county are eligible to vote at the election. The charter commission, for proposals to adopt a home rule charter, or the governing body of the county, for proposals to amend or repeal a home rule charter, shall prescribe the form of ballot so that the voter may signify whether the voter is for or against the proposed home rule charter or the amendment or repeal.

SECTION 10. Effect of amendment or repeal on salary or term of office. On the first day of January following repeal of a home rule charter the county reverts to the form of government of the county immediately preceding adoption of the home rule charter. If positions to which officials were elected under the home rule charter are substantially the same as positions under the form of government to which the county reverts upon repeal, the elected officials shall continue to exercise the authority of their positions for the salary prescribed by the home rule charter until expiration of their terms of office as prescribed by the home rule charter. No amendment of a home rule charter may shorten the term for which any official was elected or reduce the salary of the official's office for that term.

SECTION 11. General powers preserved. All powers granted counties by general law are powers of home rule counties.

SECTION 12. Vested property - Rights of action - Actions saved. The adoption of any charter or amendment does not destroy any property, action, right of action, claim, or demand of any nature vested in the county. All rights of action, claims, or demands are preserved to the county and to any persons asserting any claims against the county as completely as though the charter or amendment had not been adopted. The adoption of any charter or amendment affects neither the right of the county to collect special

assessments previously levied under any law or charter for the purpose of public improvements, nor impairs the obligation of any existing contract to which the county is a party.

SECTION 13. AMENDMENT. Section 12.1-01-05 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

12.1-01-05. Crimes defined by state law shall not be superseded by city or county ordinance or by home rule city's or county's charter or ordinance. CRIMINAL CODE

CHAPTER 173

SENATE BILL NO. 2445
(Senator Christensen)
(Representative Unhjem)

UNIFORM CRIMINAL RESPONSIBILITY AND POST-TRIAL DISPOSITION ACT

AN ACT to adopt the Uniform Law Commissioners' Model Criminal Responsibility and Post-trial Disposition Act, relating to the defense of lack of criminal responsibility; to amend and reenact sections 12.1-04-02 and 12.1-04-06 of the North Dakota Century Code, relating to the use of intoxication as a defense, and psychiatric examinations of defendants for mental disease or defect; and to repeal sections 12.1-04-03 and 12.1-04-10 of the North Dakota Century Code, relating to lack of criminal responsibility as a defense, and the disposition of defendants found not criminally responsible.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. Standard for lack of criminal responsibility.

1. An individual is not criminally responsible for criminal conduct if, as a result of mental disease or defect existing at the time the conduct occurs:
 - a. The individual lacks substantial capacity to comprehend the harmful nature or consequences of the conduct, or the conduct is the result of a loss or serious distortion of the individual's capacity to recognize reality; and
 - b. It is an essential element of the crime charged that the individual act willfully.
2. For purposes of sections 1 through 26 of this Act, repeated criminal or similar antisocial conduct, or impairment of mental condition caused primarily by voluntary use of alcoholic beverages or controlled substances immediately before or contemporaneously with the alleged offense, does not constitute in itself mental illness or defect at the time of the alleged offense. Evidence of the conduct or impairment may be probative in

conjunction with other evidence to establish mental illness or defect.

SECTION 2. Court authorization of state-funded mental-health services for certain defendants. A defendant who is unable to pay for the services of a mental-health professional, and to whom those services are not otherwise available, may apply to the court for assistance. Upon a showing of a likely need for examination on the question of lack of criminal responsibility or lack of requisite state of mind as a result of the defendant's mental condition, the court shall authorize reasonable expenditures from public funds for the defendant's retention of the services of one or more mental-health professionals. Upon request by the defendant, the application and the proceedings on the application must be ex parte and in camera, but any order under this section authorizing expenditures must be made part of the public record.

SECTION 3. Notice of defense of lack of criminal responsibility.

1. If the defendant intends to assert the defense of lack of criminal responsibility, the defendant shall notify the prosecuting attorney in writing and file a copy of the notice with the court. The notice must indicate whether the defendant intends to introduce at trial evidence obtained from examination of the defendant by a mental health professional after the time of the alleged offense.
2. The defendant shall file the notice within the time prescribed for pretrial motions or at such earlier or later time as the court directs. For cause shown, the court may allow late filing of the notice and grant additional time to the parties to prepare for trial or may make other appropriate orders.
3. If the defendant fails to give notice in accordance with this section, lack of criminal responsibility may not be asserted as a defense.

SECTION 4. Notice regarding expert testimony on lack of state of mind as element of alleged offense.

1. If the defendant intends to introduce at trial evidence obtained from examination of the defendant by a mental-health professional after the time of the alleged offense to show that the defendant lacked the state of mind required for the alleged offense, the defendant shall notify the prosecuting attorney in writing and file a copy of the notice with the court.
2. The defendant shall file the notice within the time prescribed for pretrial motions or at such earlier or later time as the court directs. For cause shown, the court may allow late filing of the notice and grant

additional time to the parties to prepare for trial or may make other appropriate orders.

SECTION 5. Examination at request of prosecuting attorney.

1. If the defendant has given notice under section 3 or 4 of this Act of intent to introduce evidence obtained from examination of the defendant by a mental-health professional after the time of the alleged offense, the court, upon application by the prosecuting attorney and after opportunity for response by the defendant, shall order that the defendant be examined by one or more mental-health professionals retained by the prosecuting attorney. The court shall include in the order provisions as to the time, place, and conditions of the examination.
2. If the parties agree to examination of the defendant by a mental-health professional retained by the prosecuting attorney without order of the court, sections 6, 7, 8, 10, 11, 12, 13, 14, and 15 of this Act apply to that examination.

SECTION 6. Explanation to defendant. At the beginning of each examination conducted under section 5 of this Act, the mental-health professional shall inform the defendant that the examination is being made at the request of the prosecuting attorney; the purpose of the examination is to obtain information about the defendant's mental condition at the time of the alleged offense; and information obtained from the examination may be used at trial and, if the defendant is found not guilty by reason of lack of criminal responsibility, in subsequent proceedings concerning commitment or other disposition.

SECTION 7. Scope of examination. An examination of the defendant conducted under section 5 of this Act may consist of such interviewing, clinical evaluation, and psychological testing as the mental-health professional considers appropriate, within the limits of nonexperimental, generally accepted medical, psychiatric, or psychological practices.

SECTION 8. Recording of examination.

1. An examination of the defendant conducted under section 5 of this Act must be audio-recorded and, if ordered by the court, video-recorded. The manner of recording may be specified by rule or by court order in individual cases.
2. Within seven days after completion of an examination conducted under section 5 of this Act, the mental-health professional conducting the examination shall deliver a copy of the recording of the examination, under seal, to the court and a copy of the recording to the defendant. The recording may not be disclosed except in accordance with sections 1 through 26 of this Act.

SECTION 9. Consequence of deliberate failure of defendant to cooperate. If the defendant without just cause deliberately fails to participate or to respond to questions in an examination conducted under section 5 of this Act, the prosecuting attorney may apply before trial to the court for appropriate relief. The court may consider the recording of the examination as evidence on the application, but proceedings under this section involving consideration of the recording must be in camera and out of the presence of counsel.

SECTION 10. Reports by mental-health professionals and expert witnesses. A mental-health professional retained by the prosecuting attorney and a mental-health professional whom the defendant intends to call to testify at trial shall prepare a written report concerning any examination of the defendant and other pretrial inquiry by or under the supervision of the mental-health professional. Any other individual whom either party intends to call at trial as an expert witness on any aspect of the defendant's mental condition shall prepare a written report. A report under this section must contain:

1. The specific issues addressed.
2. The identity of individuals interviewed and records or other information used.
3. The procedures, tests, and techniques used.
4. The date and time of examination of the defendant, the explanation concerning the examination given to the defendant, and the identity of each individual present during an examination.
5. The relevant information obtained and findings made.
6. Matters concerning which the mental-health professional was unable to obtain relevant information and the reasons therefor.
7. The conclusions reached and the reasoning on which the conclusions were based.

SECTION 11. Exchange of reports and production of documents. Not less than fifteen days before trial, the prosecuting attorney shall furnish to the defendant reports prepared pursuant to section 10 of this Act, and the defendant shall furnish to the prosecuting attorney reports by each mental-health professional or other expert on any aspect of the defendant's mental condition whom the defendant intends to call at trial. Upon application by either party and after hearing, the court may require production of documents prepared, completed, or used in the examination or inquiry by the mental-health professional or other expert.

SECTION 12. Use of reports at trial. Use at trial of a report prepared by a mental-health professional or other expert is governed by the North Dakota Rules of Evidence. A report of a mental-health professional or other expert furnished by defendant pursuant to section 10 of this Act may not be used at trial unless the mental-health professional or other expert who prepared the report has been called to testify by the defendant.

SECTION 13. Notice of expert witnesses. Not less than twenty days before trial, each party shall give written notice to the other of the name and qualifications of each mental-health professional or other individual the respective party intends to call as an expert witness at trial on the issue of lack of criminal responsibility or requisite state of mind as an element of the crime charged. For good cause shown, the court may permit later addition to or deletion from the list of individuals designated as expert witnesses.

SECTION 14. Use of evidence obtained from examination.

1. Except as provided in subsection 2 and in sections 9 and 26 of this Act, information obtained as a result of examination of a defendant by a mental-health professional conducted under section 5 of this Act is not admissible over objection of the defendant in any proceeding against the defendant.
2. Subject to the limitation in section 15 of this Act, information obtained from an examination of the defendant by a mental-health professional conducted under section 5 of this Act is admissible at trial to rebut evidence introduced by the defendant obtained from an examination of the defendant by a mental-health professional or to impeach the defendant on the defendant's testimony as to mental condition at the time of the alleged offense.

SECTION 15. Use of recording of examination. Except as provided in section 9 of this Act, recording of an examination of the defendant concerning the defendant's mental condition at the time of the alleged offense may be referred to or otherwise used only on cross-examination for the purpose of impeachment of the mental-health professional who conducted the examination, and then on redirect examination of that witness to the extent permitted by the North Dakota Rules of Evidence. The defendant must make the recording available to the prosecuting attorney before any use of it pursuant to this section. If the recording is so used, this section does not preclude its use for the purpose of impeachment of the defendant in any other criminal, civil, or administrative proceeding.

SECTION 16. Bifurcation of issue of lack of criminal responsibility. Upon application of the defendant, the court may order that issues as to the commission of the alleged offense be tried separately from the issue of lack of criminal responsibility.

SECTION 17. Jury instruction on disposition following verdict of lack of criminal responsibility. On request of the defendant in a trial by jury of the issue of lack of criminal responsibility for the alleged offense, the court shall instruct the jury as to the dispositional provisions applicable to the defendant if the jury returns a verdict of not guilty by reason of lack of criminal responsibility.

SECTION 18. Form of verdict or finding. If the issue of lack of criminal responsibility is submitted to the trier of fact:

1. In a unitary trial, the trier of fact must first determine whether the prosecuting attorney has proven that the defendant committed the crime charged. In a bifurcated trial, the trier of fact must first determine whether the prosecuting attorney has proven that the defendant committed the crime charged and, if so, whether the defendant is criminally responsible. Each determination must be made at the conclusion of the phase of the trial at which the respective issue is tried. If the trier of fact concludes that the prosecuting attorney failed to prove that the defendant committed the crime charged, the appropriate verdict or finding is "not guilty".
2. If the trier of fact determines that the defendant committed the crime charged and the defendant was criminally responsible for that crime, the appropriate verdict or finding is "guilty".
3. If the trier of fact determines that the defendant committed the crime charged, but was not criminally responsible for that crime, the appropriate verdict or finding is a statement that the defendant committed the crime charged but that the defendant is "not guilty by reason of lack of criminal responsibility".

SECTION 19. Post-trial motions and appeal from verdict or finding of not guilty by reason of lack of criminal responsibility.

1. A defendant found not guilty by reason of lack of criminal responsibility may seek post-trial relief in the trial court and may appeal to the supreme court on issues pertaining to the verdict or finding that the defendant committed the crime charged.
2. If the verdict or finding is not guilty by reason of lack of criminal responsibility, and a new trial is ordered on the issue of whether the defendant committed the crime charged, unless defendant elects to waive the defense, the verdict or finding of lack of criminal responsibility is conclusive on that issue in the retrial.

SECTION 20. Jurisdiction of court.

1. Unless earlier discharged by order of the court pursuant to section 22, 24, or 25 of this Act, an individual found not guilty by reason of lack of criminal responsibility is subject to the jurisdiction of the court for a period equal to the maximum term of imprisonment that could have been imposed for the most serious crime of which the individual was charged but found not guilty by reason of lack of criminal responsibility.
2. Upon expiration of its jurisdiction under sections 1 through 26 of this Act or earlier discharge by its order, the court may order that a proceeding for involuntary commitment be initiated pursuant to chapter 25-03.1.

SECTION 21. Proceeding following verdict or finding. After entry of a verdict, finding, or an unresisted plea, that an individual committed the crime charged, but is not guilty by reason of lack of criminal responsibility, the court shall:

1. Make a finding, based upon the verdict or finding provided in section 18 of this Act, of the expiration date of the court's jurisdiction; and
2. Order the individual committed to a treatment facility, as defined under chapter 25-03.1, for examination. The order of the court may set terms of custody during the period of examination.

SECTION 22. Initial order of disposition - Commitment to treatment facility - Conditional release - Discharge.

1. The court shall conduct a dispositional hearing within ninety days after an order of commitment pursuant to section 21 of this Act is entered, unless the court, upon application of the prosecuting attorney or the individual committed, for cause shown, extends the time for the hearing. The court shall enter an initial order of disposition within ten days after the hearing is concluded.
2. In a proceeding under this section, unless excused by order of the court, defense counsel at the trial shall represent the individual committed.
3. If the court finds that the individual lacks sufficient financial resources to retain the services of a mental-health professional and that those services are not otherwise available, it shall authorize reasonable expenditures from public funds for the individual's retention of the services of one or more mental-health professionals to examine the individual and make other inquiry concerning the individual's mental condition.

4. In a proceeding under this section, the individual committed has the burden of proof by a preponderance of the evidence. The court shall enter an order in accordance with the following requirements:
- a. If the court finds that the individual is not mentally ill or defective or that there is not a substantial risk, as a result of mental illness or defect, that the individual will commit a criminal act, it shall order the person discharged from further constraint under sections 1 through 26 of this Act.
 - b. If the court finds that the individual is mentally ill or defective and that there is a substantial risk, as a result of mental illness or defect, that the individual will commit a criminal act of violence threatening another individual with bodily injury or inflicting property damage and that the individual is not a proper subject for conditional release, it shall order the individual committed to a treatment facility for custody and treatment. If the court finds that the risk that the individual will commit an act of violence threatening another individual with bodily injury or inflicting property damage will be controlled adequately with supervision and treatment if the individual is conditionally released and that necessary supervision and treatment are available, it shall order the person released subject to conditions it considers appropriate for the protection of society.
 - c. If the court finds that the individual is mentally ill or defective and that there is a substantial risk, as a result of mental illness or defect, that the individual will commit a criminal act not included in subdivision b, it shall order the individual to report to a treatment facility for noncustodial evaluation and treatment and to accept nonexperimental, generally accepted medical, psychiatric, or psychological treatment recommended by the treatment facility.

SECTION 23. Terms of commitment - Periodic review of commitment.

1. Unless an order of commitment of an individual to a treatment facility provides for special terms as to custody during commitment, the director or superintendent of the treatment facility may determine from time to time the nature of the constraints necessary within the treatment facility to carry out the court's order. In an order of commitment, the court may authorize the director or superintendent to allow the individual a limited leave of absence from the treatment facility on terms the court may direct.

2. In an order of commitment of an individual to a treatment facility under sections 1 through 26 of this Act, the court shall set a date for review of the status of the individual. The date set must be within one year after the date of the order.
3. At least sixty days before a date for review fixed in a court order, the director or superintendent of the treatment facility shall inquire as to whether the individual is presently represented by counsel and file with the court a written report of the facts ascertained. If the individual is not represented by counsel, the court shall appoint counsel to consult with the individual and, if appropriate, to apply to the court for appointment of counsel to represent the individual in a proceeding for conditional release or discharge.
4. If the court finds in a review that the individual lacks sufficient financial resources to retain the services of a mental-health professional and that those services are otherwise not available, the court shall authorize reasonable expenditures from public funds for the individual's retention of the services of one or more mental-health professionals to examine the individual and make other inquiry concerning the individual's mental condition. In proceedings brought before the next date for review, the court may authorize expenditures from public funds for that purpose.
5. If an application for review of the status of the individual has not been filed by the date for review, the director or superintendent shall file a motion for a new date for review to be set by the court. The date set must be within one year after the previous date for review.

SECTION 24. Modification of order of commitment - Conditional release or discharge - Release plan.

1. After commitment of an individual to a treatment facility under sections 1 through 26 of this Act, the director or superintendent may apply to the court for modification of the terms of an order of commitment or for an order of conditional release or discharge. The application must be accompanied by a report setting forth the facts supporting the application and, if the application is for conditional release, a plan for supervision and treatment of the individual.
2. An individual who has been committed to a treatment facility under sections 1 through 26 of this Act, or another person acting on the individual's behalf, may apply to the court for modification of the terms of a commitment order or for an order of conditional release or discharge. If the application is being considered by the

court at the time of the review of the order of commitment, the court shall require a report from the director or superintendent of the treatment facility.

3. The court shall consider and dispose of an application under this section promptly. In a proceeding under this section, the applicant has the burden of proof by a preponderance of the evidence. The court shall enter an order in accordance with the following requirements:
 - a. If the court finds that the individual committed is not mentally ill or defective or that there is not a substantial risk that the individual will commit, as a result of mental illness or defect, a criminal act, it shall order the individual discharged from further constraint under sections 1 through 26 of this Act.
 - b. If the court finds that the individual is mentally ill or defective, but that there is not a substantial risk that the individual will commit, as a result of mental illness or defect, a criminal act of violence threatening another individual with bodily injury or inflicting property damage, it shall vacate the order committing the individual to a treatment facility. If the court finds that there is a substantial risk that the individual will commit, as a result of mental illness or defect, a nonviolent criminal act, it may order the individual to report to any treatment facility for noncustodial evaluation and treatment and to accept nonexperimental, generally accepted medical, psychiatric, or psychological treatment recommended by the treatment facility.
 - c. If the court finds that the individual is mentally ill or defective, but that the risk that the individual will commit, as a result of mental illness or defect, a criminal act of violence threatening another individual with bodily injury or inflicting property damage will be controlled adequately with supervision and treatment and that necessary supervision and treatment are available, it shall order the individual released subject to conditions it considers appropriate for the protection of society.
4. In any proceeding for modification of an order of commitment to a treatment facility, if the individual has been represented by counsel and the application for modification of the order of commitment is denied after a plenary hearing, the court shall set a new date for periodic review of the status of the individual. The date set must be within one year after the date of the order.

SECTION 25. Conditional release - Modification - Revocation - Discharge.

1. In an order for conditional release of an individual, the court shall designate a treatment facility or a person to be responsible for supervision of the individual.
2. As a condition of release, the court may require the individual released to report to any treatment facility for evaluation and treatment, require the individual to accept nonexperimental, generally accepted medical, psychiatric, or psychological treatment recommended by the treatment facility, and impose other conditions reasonably necessary for protection of society.
3. The person or the director or superintendent of a treatment facility responsible for supervision of an individual released shall furnish reports to the court, at intervals prescribed by the court, concerning the mental condition of the individual. Copies of reports submitted to the court must be furnished to the individual and to the prosecuting attorney.
4. If there is reasonable cause to believe that the individual released presents an imminent threat to cause bodily injury to another, the person or the director or superintendent of the treatment facility responsible for supervision of the individual pursuant to an order of conditional release may take the individual into custody, or request that the individual be taken into custody. An individual taken into custody under this subsection must be accorded an emergency hearing before the court not later than the next court day to determine whether the individual should be retained in custody pending a further order pursuant to subsection 5.
5. Upon application by an individual conditionally released, by the director or superintendent of the treatment facility or person responsible for supervision of an individual pursuant to an order of conditional release, or by the prosecuting attorney, the court shall determine whether to continue, modify, or terminate the order. The court shall enter an order in accordance with the following requirements:
 - a. If the court finds that the individual is not mentally ill or defective or that there is not a substantial risk that the individual will commit, as a result of mental illness or defect, a criminal act, it shall order that the individual be discharged from further constraint under sections 1 through 26 of this Act.
 - b. If the court finds that the individual is mentally ill or defective, but that there is not a substantial risk

that the individual will commit, as a result of mental illness or defect, a criminal act of violence threatening another individual with bodily injury or inflicting property damage, it may modify the conditions of release as appropriate for the protection of society.

- c. If the court finds that the individual is mentally ill or defective and that there is a substantial risk that the individual will commit, as a result of mental illness or defect, a criminal act of violence threatening another individual with bodily injury or inflicting property damage and that the individual is no longer a proper subject for conditional release, it shall order the individual committed to a treatment facility for custody and treatment. If the court finds that the individual is mentally ill or defective and that there is a substantial risk that the individual, as a result of mental illness or defect, will commit a nonviolent criminal act, it may order the individual to report to any treatment facility for noncustodial evaluation and treatment and to accept nonexperimental, generally accepted medical, psychiatric, or psychological treatment recommended by the treatment facility.

SECTION 26. Procedures.

1. An applicant for a court order under sections 20 through 25 of this Act shall deliver a copy of the application and any accompanying documents to the individual committed, the prosecuting attorney, the director or superintendent of the treatment facility to which the individual has been committed, or the person or the director or superintendent of a treatment facility responsible for supervision of an individual conditionally released. The North Dakota Rules of Civil Procedure, adapted by the court to the circumstances of a post-verdict proceeding, apply to a proceeding under sections 20 through 25 of this Act.
2. In a proceeding under sections 20 through 25 of this Act for an initial order of disposition, in a proceeding for modification or termination of an order of commitment to a treatment facility initiated by the individual at the time of a review, or in a proceeding in which the status of the individual might be adversely affected, the individual has a right to counsel. If the court finds that the individual lacks sufficient financial resources to retain counsel and that counsel is not otherwise available, it shall appoint counsel to represent the individual.
3. In a proceeding under sections 20 through 25 of this Act, the North Dakota Rules of Evidence do not apply. If

relevant, evidence adduced in the criminal trial of the individual and information obtained by court-ordered examinations of the individual pursuant to section 4 or 22 of this Act are admissible.

4. A final order of the court is appealable to the supreme court.

A transfer is made with respect to an asset that is real property other than a fixture, but including the interest of a seller or purchaser under a contract for the sale of the asset, when the transfer is so far perfected that a good faith purchaser of the asset from the debtor against whom applicable law permits the transfer to be perfected cannot acquire an interest in the asset that is superior to the interest of the transferee. A transfer is made

with respect to an asset that is not real property or that is a fixture, when the transfer is so far perfected that a creditor on a simple contract cannot acquire a judicial lien otherwise than under sections 1 through 9 that is superior to the interest of the transferee.

2. If applicable law permits the transfer to be perfected as provided in subsection 1 and the transfer is not so perfected before the commencement of an action for relief under sections 1 through 9, the transfer is deemed to have been made immediately before the commencement of the action.

Except as otherwise provided in this section, to the extent a transfer is voidable in an action by a creditor under subdivision a of subsection 1 of section 7, the creditor may recover judgment for the value of the asset transferred, as adjusted under subsection 3, or the amount necessary to satisfy the creditor's claim, whichever is less. The judgment may be entered against the first transferee of the asset or the person for whose benefit the transfer was made or any subsequent transferee other than a good-faith transferee who took for value or from any subsequent transferee.
3. If the judgment under subsection 2 is based upon the value of the asset transferred, the judgment must be for an amount equal to the value of the asset at the time of the transfer, subject to adjustment as the equities may require.
4. Notwithstanding voidability of a transfer or an obligation under sections 1 through 9, a good-faith transferee or obligee is entitled, to the extent of the value given the debtor for the transfer or obligation, to a lien on or a right to retain any interest in the asset transferred, enforcement of any obligation incurred, or a reduction in the amount of the liability on the judgment.

A transfer is not voidable under subdivision b of subsection 1 of section 4 or section 5 if the transfer results from termination of a lease upon default by the debtor when the termination is pursuant to the lease and applicable law or enforcement of a security interest in compliance with chapter 41-09.
6. A transfer is not voidable under subsection 2 of section 5:
 - a. To the extent the insider gave new value to or for the benefit of the debtor after the transfer was made unless the new value was secured by a valid lien;
 - b. If made in the ordinary course of business or financial affairs of the debtor and the insider; or
 - c. If made pursuant to a good faith effort to rehabilitate the debtor and the transfer secured present value given for that purpose as well as an antecedent debt of the debtor.

3. An issue of unconscionability of a premarital agreement is for decision by the court as a matter of law.

SECTION 7. Enforcement of unconscionable provisions. SECTION 8. Enforcement - Void marriage. If a marriage is determined to be void, an agreement that would otherwise have been a premarital agreement is enforceable only to the extent necessary to avoid an inequitable result.

SECTION 9. Limitation of actions. Any statute of limitations applicable to an action asserting a claim for relief under a premarital agreement is tolled during the marriage of the parties to the agreement. AN ACT to create and enact chapters 15-27.1, 15-27.2, 15-27.3, and 15-27.4 of the North Dakota Century Code, relating to general provisions and school district annexation, reorganization, and dissolution; to amend and reenact sections 15-28-01, 15-34.2-06.1, 15-47-21, and 57-16-04 of the North Dakota Century Code, relating to school board members, schoolbus service fees, tax levies for equalization between school districts, and excess school district levies; to repeal chapter 15-53.1 of the North Dakota Century Code, relating to school district reorganization, annexation, and dissolution; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. Chapter 15-27.1 of the North Dakota Century Code is hereby created and enacted to read as follows:

15-27.1-01. Definitions applicable to chapters 15-27.1 through 15-27.4. In this chapter and chapters 15-27.2, 15-27.3, and 15-27.4 unless the context or subject matter otherwise requires:

1. "Annexation" means an alteration of the boundaries of school districts through the attachment of territory from one existing school district to another existing operating school district.
2. "Contiguous" means two or more tracts of land which are in actual contact with each other at a common point.
3. "County committee" means the county committee for the reorganization of school districts.
4. "County superintendent" means the county superintendent of schools.
5. "Dissolution of school districts" means the process through which an existing school district ceases its

active functions in its present organizational form and the district's territory is attached to one or more adjoining existing operating school districts.

6. "Elector" means a person who possesses the qualifications of an elector as provided in section 16.1-01-04.
7. "Reorganization of school districts" means the formation of a new school district by either the unification of two or more existing operating districts into one larger district or separation of territory from one or more operating districts to create one or more new operating districts.
8. "State board" means the state board of public school education.
9. "Territory" means all or any portion of an organized school district.

15-27.1-02. Reorganization not to include annexation or dissolution - Boundary changes application of chapters 15-27.1 through 15-27.4. Chapter 15-27.3 does not apply to chapter 15-27.2 or to chapter 15-27.4 except where specifically referenced in chapters 15-27.2 and 15-27.4. Chapters 15-27.2 and 15-27.4 are separate and additional methods for changing school district boundaries. The boundaries of school districts may be changed or altered only by annexation, reorganization, or dissolution as provided for in chapters 15-27.2, 15-27.3, and 15-27.4. This chapter and chapters 15-27.2, 15-27.3, and 15-27.4 apply to all school districts in the state, including the board of education of the city of Fargo and the district under its jurisdiction for school purposes.

15-27.1-03. County committee - Appointment - Size and compensation.

1. Each county in this state shall have a county committee formed by the selection of one resident from each of the county commissioner districts within the county. Each member is entitled to receive the actual and necessary expenses incurred in the performance of official duties in the amounts provided by law for state officers and employees. Each member is entitled to receive ten dollars as compensation for each meeting of the committee actually attended by the member. The office of management and budget shall pay by warrant the compensation and expenses as directed by the superintendent of public instruction from moneys appropriated for that purpose.
2. The term of each member is three years, staggered so that one term expires each year. The county superintendent with the approval of the board of county commissioners shall appoint the members of the county committee.

Vacancies shall be filled in the same manner for the unexpired portion of the term. If a member fails, refuses, or is unable to perform the required duties, the county superintendent, upon petition of a majority of the school boards having territory wholly or partially within the district which the member was appointed to represent, shall declare the position of the member vacant, and shall immediately appoint a new member to the committee from that district.

3. If the county is redistricted and as a consequence members of the county committee are placed in the same county commissioner district, a new member must be appointed who is a resident of the new unrepresented district or districts, and as between the members currently serving on the county committee who are residents in the same district, the member whose term expires latest in point of time shall serve. If all the terms shall expire at the same time, the affected members shall decide who shall serve by lot. If the county, through redistricting, thereafter elects its county commissioners at large, members of the county committee must continue to be selected from those commissioner districts established by the districting plan in effect at the time the county is districted at large.

15-27.1-04. County committee - Meetings. The members of the county committee shall select one member as chairman who shall be the presiding officer for one year and until a successor is chosen. The county superintendent is the secretary of the committee, but has no vote. Meetings of the committee must be held upon call of the chairman or a majority of the committee members. The county superintendent is entitled to compensation for actual and necessary expenses incurred while in the performance of required duties. Additional expenses are chargeable and payable as an expense of the county.

15-27.1-05. State's attorney to represent committee. The state's attorney of any county within which a school district is located in whole or in part shall, upon request of the county committee, act as legal advisor of and render written opinions to the committee or its officers. The state's attorney shall also defend the committee or any of its officers in any legal proceedings arising out of the conduct of the business of the committee. If the defense in the proceedings would result in a conflict with the duties of the state's attorney in regard to other public officials or under any law, the board of county commissioners shall employ a special counsel to represent the committee or defend against the proceedings. Compensation of the special counsel, in the amount as may be agreed to by the county commissioners, must be paid out of the county general fund.

15-27.1-06. State board - Powers and duties. The state board shall:

1. Aid county committees in carrying out their powers and duties under this chapter and chapters 15-27.2, 15-27.3, and 15-27.4 by furnishing them, with the assistance of the employed staff of the state committee, with other necessary clerical assistance, and with necessary plans of procedure, standards, data, maps, forms, and other materials and services.
2. Receive, file, and examine plans and data for the reorganization of school districts submitted by county committees, and shall approve such plans and data when they are found by the state board to provide for a satisfactory school district system for the counties and the state and for an equitable adjustment of property, debts, and liabilities. Whenever a plan submitted by a county committee is found by the state board to be unsatisfactory, or whenever the terms of adjustment so submitted are found not to be fair and equitable, the state board shall so notify the county committee and upon request shall assist the county committee in the revision of the plan or terms of adjustment, which revision shall be completed by the county committee and resubmitted within ninety days after such notification.
3. Appoint a county committee, in case no county committee is appointed, as required in section 15-27.1-03, or in case a committee so elected fails or refuses to submit plans, records, reports, and other data as provided for in this chapter.
4. Transmit to the county superintendent of each county affected a copy of the plan for reorganization of school districts approved by the state board; a copy of approved terms of adjustment of property, debts, and liabilities; a statement of the findings and conclusions of the state board respecting such approved plans and terms of adjustment; and copies of maps, reports, records, and all other pertinent material submitted to the state board by the county committee.
5. Establish standards by the adoption of rules to govern the county committees and state board in the development and approval of school district reorganization plans or reorganization, annexation, and dissolution proposals. The standards must require any school district to be formed under any plan or proposal providing for the operation of a high school to have sufficient tax base and fiscal capacity to clearly permit the district to offer the minimum curriculum prescribed by section 15-41-24 taught by teachers possessing the qualifications required by section 15-41-25. Exceptions to the standards may be allowed by a county committee or the state board only in extreme cases where because of sparsity of population or geographical barriers it is impossible to obtain

compliance with them. The county committees or the state board may not approve any reorganization, annexation, or dissolution proposal unless it has logical boundaries following a uniform pattern without undue irregularities.

15-27.1-07. State board - Employees. The superintendent of public instruction shall direct school district annexation, reorganization, and dissolution. The superintendent shall appoint and employ any personnel necessary to enable the state board to carry out the powers and duties imposed upon it by this chapter and chapters 15-27.2, 15-27.3, and 15-27.4 and to fix the compensation for such appointees and employees.

15-27.1-08. County and state officers to cooperate with county committee and state board. The county and state officers shall make available to the county committee and the state board such information from public records in their possession as is essential to the committee and the board in the performance of their duties.

15-27.1-09. Duties imposed upon county superintendent and officers where reorganized districts constitute joint districts. The duties of the county superintendent under the provisions of this chapter or under other provisions of law are imposed upon and required to be performed by all county superintendents affected by annexation, reorganization, or dissolution of school districts involving territory in two or more counties.

15-27.1-10. Transfer of land upon annexation or reorganization. The legal title to all land owned by an original school district which has been annexed to another district or included in a reorganized district which is not subject to a possibility of reverter or right of reentry if title is held by other than the original district, vests in the school board of the reorganized school district or the district to which the property is annexed upon approval of the reorganization proposal by the electors or upon orders of the county superintendent of schools or the reorganization committee, as the case may be. If the reorganized district or district to which the property is annexed includes less than the whole of the former district, legal title to the land of the former district vests in the school board of the district in which the land is situated after reorganization or chapter 15-27.2 annexation. A certificate prepared by the county superintendent of schools of the county wherein the land in question is located, stating the legal description of the land involved, and the fact that the school district formerly owning the land has become either annexed, attached, or reorganized with another school district, may be recorded in the office of the register of deeds of the county in which the land is located.

SECTION 2. Chapter 15-27.2 of the North Dakota Century Code is hereby created and enacted to read as follows:

15-27.2-01. Annexation of contiguous territory to school district - Petition. Territory contiguous to a public school district, whether in the same county or in another, may be annexed to the school district by the county committee after a public hearing upon written petition signed by two-thirds of the qualified electors in the contiguous territory. The county committee shall determine the sufficiency of the petition and the required number of electors necessary to constitute a two-thirds majority.

15-27.2-02. Restricted changes in boundaries - Petition - Requirements. A resident or residents of a school district may request annexation of the property upon which his or their residence is situated to an adjacent school district by a petition for an exchange of property between the district of residence and the adjacent district under the following conditions:

1. The signer of the petition must reside upon the property which is requested to be annexed to the adjacent district.
2. There is an agreement for the exchange of property between the petitioners and the owner of the property in the adjacent district which property is to be exchanged for the property of the petitioner and the owner of the property in the adjoining district need not reside on the property exchanged in order to enter into the agreement.
3. The school boards of the districts involved approve the exchange of property.
4. The difference in taxable valuation of the property involved in the exchange does not exceed one thousand dollars.

Except as provided in this section, the proceedings in this section are subject to the other provisions of this chapter applicable to annexation proceedings generally. Approval of the annexation petition by the county committee and the state board must contain a finding that the requirements in this section have been met.

15-27.2-03. Proposed annexations involving ten percent or more of a school district's taxable valuation.

1. If a county committee receives an annexation petition made under section 15-27.2-01 which involves the transfer of territory accounting for ten percent or more of a school district's taxable valuation, the county committee shall submit the petition directly to the state board without first taking action on the petition. The state board shall make the sole determination of whether the proposed annexation described in the petition would cause the district which would lose the territory to be unable to levy sufficient taxes to carry on normal school operations.

2. In determining whether a school district would be unable to levy sufficient taxes to carry on normal school operations, the state board shall consider the quality and types of programs that are being offered by the school district which would lose ten percent or more of its valuation under the proposed annexation.
3. If the state board determines that the proposed annexation would cause the district losing the territory to be unable to levy sufficient taxes to carry on normal school operations, the board shall find that the annexation petition made under section 15-27.2-01 is a proposed dissolution of the school district.
4. Upon finding that the annexation petition is a proposal for dissolution of the district, the state board shall return the petition to the county committee with the directive that the county committee consider the petition under chapter 15-27.4.
5. Once the state board has made the finding that such a petition is a proposed dissolution of the school district, annexation proceedings may not be applied by the county committee to that petition.
6. If the state board determines that the proposed annexation would not cause the district losing the territory to be unable to levy sufficient taxes to carry on normal school operations, the board shall find that the petition made under section 15-27.2-01 is a proposed annexation.
7. Upon finding that the petition is a proposal for annexation of the involved territory, the state board shall return the petition to the county committee with the directive that the county committee consider the petition under this chapter.
8. The determination of the state board made pursuant to this section is not subject to chapter 28-32.

15-27.2-04. Annexation hearings - Equalization - Notice of hearings.

1. Before detaching territory from one school district or annexing territory to another school district, the county committee shall hold a hearing on the annexation.
2. At least fourteen days prior to the time the hearing is to be held, the committee shall cause notice of such hearing to be published in the official newspaper of the county in which the school district is located, or if no newspaper is published in the county, the notice shall be published in a newspaper in an adjoining county in this state.

3. At such hearing the committee shall consider testimony and documentary evidence with respect to any of the following factors:
- a. The value and amount of all school property and all bonded and other indebtedness of each school district affected by a change in boundaries.
 - b. The amount of all outstanding indebtedness of each district and that which would constitute an equitable adjustment of all property, assets, debts, and liabilities among the districts involved.
 - c. The taxable valuation of existing districts and the differences in such valuation which would accrue under the proposed annexation.
 - d. The size, geographical features, and boundaries of the districts.
 - e. The number of pupils attending school and the population of the districts.
 - f. The location and condition of the districts' school buildings and their accessibility to affected pupils.
 - g. The location and condition of roads, highways, and natural barriers within the respective districts.
 - h. The school centers where children residing in the districts attend high school.
 - i. Conditions affecting the welfare of the pupils in the land area the subject of the annexation petition.
 - j. The boundaries of other governmental units and the location of private organizations in the territories of the respective districts.
 - k. The educational needs of local communities in the involved districts.
 - l. An objective in economizing in the use of transportation and administrative services.
 - m. Projected future use of existing satisfactory school buildings, sites, and playfields in the involved districts.
 - n. A reduction in disparities in per-pupil valuation between school districts and the objective of equalization of educational opportunities for pupils.

- o. Any other relevant factors which, in the judgment of the committee, are of importance.
4. Following the committee's consideration of testimony and documentary evidence with respect to any of the factors listed in subsection 3, the committee shall make specific findings with reference to every one of those factors to which testimony or documentary evidence was directed.
 5. All proposed annexations must be given final approval by the state board following a hearing conducted by the board at which testimony and documentary evidence shall be considered with respect to any of the factors listed in subsection 3. The state board shall make specific findings with reference to every one of those factors to which testimony or documentary evidence was directed.
 6. If the annexation is approved by the state board, the county committee may cause a tax to be levied against each district affected in accordance with section 15-47-21 which will equalize the several interests fairly.
 7. If the school districts involved in the proposed annexation are situated in more than one county, the county committee of the county encompassing the major portion of each school district shall consider and jointly effect the annexation if a majority of the members of each of such county committees approves the annexation. If the annexation is approved by a majority of the members of one of the two county committees, the county superintendent of the county in which the annexing district is located shall submit the annexation to the state board for approval or disapproval, and in such instance approval of the annexation shall have the same effect as approval by all county committees.
 8. Whenever a petition for annexation has failed to be approved by any county committee, a petition involving any of the same area may not be submitted for a period of three months and such petition may not be submitted more than twice in twelve consecutive months.
 9. Whenever a petition for annexation has failed to be approved by the state board, a petition involving any of the same area may not be submitted for a period of three months and such petition may not be submitted more than twice in twelve consecutive months.
 10. If the school districts are situated in more than one county but the major portions of both such school districts are situated in the same county, the county committee of such county shall consider the matter.

11. Any determination made by a single county committee with respect to an annexation proposed under this section may be appealed to the state board. A decision of the state board with respect to a proposed annexation may in turn be appealed to the district court of the judicial district in which the territory proposed is located in accordance with chapter 28-32.

15-27.2-05. Effective date of attachment or detachment - Equalization - Voting places. If territory is annexed to a school district or detached from it, under this chapter, the change in boundaries becomes effective the next July first after the final approval by the state board unless another effective date is provided for by the county committee or in the petition, and all the assets and liabilities of the district involved shall be equalized at the time the annexation petition is approved by the county reorganization committee. If territory is attached to an existing school district, the electors in the attached territory shall vote on school matters at the nearest polling place in the district to which it is attached. Prior to the completion of the annexation of any school district under this chapter, the existing school board of any school district may not contract or place the district under any obligation, except upon the recommendation of the county committee.

SECTION 3. Chapter 15-27.3 of the North Dakota Century Code is hereby created and enacted to read as follows:

15-27.3-01. Comprehensive study by county committee - Considerations - Reorganization plan submitted to state board.

1. The county committee shall make a comprehensive study of:
 - a. The taxable valuation of existing districts and the differences in such valuation under possible reorganization plans.
 - b. The size, geographical features, and boundaries of the districts.
 - c. The number of pupils attending school and the population of the districts.
 - d. The location and condition of school buildings and their accessibility to the pupils.
 - e. The location and condition of roads, highways, and natural barriers within the districts.
 - f. The school centers where children residing in the districts attend high school.
 - g. Conditions affecting the welfare of the teachers and pupils.

- h. The boundaries of other governmental units and the location of private organizations.

The committee shall also give due consideration in the preparation of a plan for the reorganization of school districts to the educational needs of local communities; to economies in transportation and administration; to the future use of existing satisfactory school buildings, sites, and playfields; to a reduction in disparities in per-pupil valuation among school districts; to the equalization of the educational opportunities of pupils; and to any other relevant matters which in its judgment are of importance.

2. The county committee shall prepare and submit to the state board a comprehensive plan for the reorganization of school districts within the county. The plan shall be accompanied by:

a. A description of and a map showing the boundaries proposed under any existing plan for the reorganization of school districts, prepared and submitted in compliance with the provisions of this chapter.

b. Recommendations respecting the location of schools, the utilization of existing buildings, the construction of new buildings, including dormitories, and the transportation requirements under the proposed plan for the reorganization of school districts. The recommendations are not binding upon the proposed school district except as otherwise provided by law.

c. A summary of the reasons for the proposed reorganization of school districts.

d. Recommendations specifying whether the reorganized districts shall have five-member, seven-member, or nine-member school boards, and whether the members shall be elected at large or from designated geographic districts.

e. Any other reports, records, and materials as the state board may require.

15-27.3-02. Proposal involving territory in more than one county. If the school districts involved in a reorganization proposal are situated in more than one county, a special committee composed of not fewer than three members of the county encompassing the major portion of each school district shall prepare a proposal for the reorganization of the school districts. The proposal must be submitted to each county committee for its approval. If the reorganization proposal is approved by a majority of the members of one of the two county committees, or the members of one or more of

the special committees fail or refuse to meet with the committee or committees from other counties, the county superintendent of the county in which the largest number of pupils who would be affected by the proposed new district reside shall submit the reorganization proposal to the state board for approval or disapproval. Approval of the reorganization proposal by the state board has the same effect as approval by all the county committees. If the reorganization proposal fails to receive the approval of any county committee, it may not be presented to the state board for review. If the school districts are situated in more than one county but the major portions of both such school districts are situated in the same county, the county committee of that county shall consider the matter.

15-27.3-03. Completed proposals for district or districts may be submitted prior to comprehensive county plan. The county committees, from time to time, may submit to the state board a proposal for the reorganization of one or more districts without awaiting the completion of a comprehensive plan; provided, however, that the proposal fits into and becomes an integral part of a comprehensive plan which the county committee is required to prepare.

15-27.3-04. Determination and adjustment of property, assets, debts, and liabilities among districts. The county committee shall determine the value and amount of all school property and all bonded and other indebtedness of each school district affected in a reorganization proposal, and shall consider the amount of all outstanding indebtedness and make an equitable adjustment of all property, assets, debts, and liabilities among the districts involved after the hearing provided for in section 15-27.3-05.

15-27.3-05. Public hearing on proposals for reorganization - Hearing testimony for adjusting. The county committee shall hold a public hearing on the advisability of any proposal by the committee for the reorganization of school districts. Notice of hearings must be given by publishing a notice in the official county newspaper at least fourteen days prior to the date of each hearing. If the county committee fails to call a hearing or to give the required public notice, a petition signed by twenty-five percent of the qualified electors in the area proposed to be included in the new school district and presented to the committee makes it mandatory for a hearing to be called. Notice of the hearing must be published within ten days after the petition has been filed, and must set forth the date selected for the hearing, which may not be more than twenty days after the date of publication. The county committee shall also hear at such time as may be fixed by it, testimony offered by any person or school district interested in any reorganization proposal of the county committee. The testimony and documentary evidence considered by the county committee must include any information regarding the following factors:

1. The value and amount of all school property of whatever nature involved in the proposed action.

2. The nature, amount, and value of all bonded, warrant, and other indebtedness of each school district affected by the proposed action, including all unexecuted obligations with separate consideration given to the amount of outstanding indebtedness incurred for current expenses, the amount incurred for permanent improvements, and the location of such improvements in order that an equitable adjustment of all property, debts, and liabilities among the districts involved be made.
3. The taxable valuation of the existing districts and the differences in such valuation which would accrue under a proposed reorganization.
4. The size, geographical features, and boundaries of the districts.
5. The number of pupils attending school and the population of the districts.
6. The location and condition of the districts' school buildings and their accessibility to affected pupils.
7. The location and condition of roads, highways, and natural barriers within the respective districts.
8. The school centers where children residing in the districts attend high school.
9. Conditions affecting the welfare of the teachers and pupils of the involved districts.
10. The boundaries of other governmental units and the location of private organizations in the territories of the respective districts.
11. The educational needs of local communities in the involved districts.
12. An objective in economizing in the use of transportation and administrative services.
13. Projected future use of existing satisfactory school buildings, sites, and playfields in the involved districts.
14. A reduction in disparities in per-pupil valuation between school districts and the objective of equalization of educational opportunities for pupils.
15. Any other relevant factors which, in the judgment of the county committee, are of importance.

Following the county committee's consideration of testimony and documentary evidence with respect to the factors listed in subsections 1 through 15, the committee shall make specific findings with reference to those factors to which testimony or documentary evidence was directed in proceedings before the committee.

The county committee shall keep a record of all hearings on the reorganization of school districts and of all findings and terms of adjustment of property, debts, and liabilities among the districts involved, and shall submit the same to the state board at the time of submitting a plan as provided in subsection 2 of section 15-27.3-01. A subcommittee composed of not fewer than three members of a county committee, or three members of the county committee of each county concerned in case territory in two or more counties is involved, may hold any hearing that the county committee is required to hold.

15-27.3-06. Reorganized school districts - Determination of tax levy. Prior to the submission of a reorganization proposal, the county committee or committees shall determine the amount necessary to meet the expenses of the proposed reorganized district and shall propose a tax levy sufficient to meet those expenses. The proposed tax levy must be submitted to the state committee as a part of the reorganization proposal and, if approved by the state committee, must be included as a part of the proposal and submitted to the electors of the proposed new district as provided in this chapter. Tax levies submitted as a part of a reorganization proposal which is approved as provided in this chapter are not subject to mill levy limitations provided by law.

15-27.3-07. Appeal from decision of county committee in making adjustments of property, debts, and liabilities. An appeal may be taken to the district court on any question of adjustment of property, debts, and liabilities among the districts involved in which the power to make an adjustment or adjustments has been extended by this chapter. Any person feeling aggrieved by the decision of the county committee after the hearing provided for in section 15-27.3-05 may appeal from the decision. The appeal must be taken within thirty days after the decision of the committee on the adjustment of the property, debts, and liabilities, by serving a written notice of appeal upon a member of the county committee. If the court finds the terms of the adjustment in question to be not legally or equitably constituted, it shall make an adjustment that is equitable and legal. Any determination by the court with respect to the adjustment of property, debts, and liabilities among the districts or areas involved may not otherwise affect the validity of the reorganization or creation of any district or districts under this chapter.

15-27.3-08. Approved proposal received by county superintendent - Duty of superintendent to call special election - Definition of voting units - Favorable results.

1.
 - a. Upon receipt from the state board of an approved proposal for the reorganization of school districts, and approved terms of adjustment of property, debts, and liabilities among the districts involved, the county superintendent shall call a special election of the voters residing within the territory of the proposed new district.
 - b. The election must be held at the place or places in the territory which have been determined by the county superintendent to be convenient for the voters.
 - c. The special election must be held after July first and no later than December thirty-first of the year in which the approved proposal is received unless there are not sufficient business days left in that year to accomplish the required publication of notice, in which event the special election must be held the following year.
2.
 - a. In holding the election, all existing districts within the proposed new district containing one or more incorporated cities regardless of number or size vote as a single unit, and all existing districts within the proposed new district regardless of number or size which do not contain one or more incorporated cities vote as a single unit.
 - b. For the purposes of this section, all districts containing incorporated cities are considered an incorporated area, and all districts which do not contain at least one incorporated city are considered an unincorporated area.
3.
 - a. Notice of the election, stating the time and place of holding the election, must be published by the county superintendent in the official county newspaper at least fourteen days before the election.
 - b. The election notices shall clearly state that the election has been called for the purpose of affording the voters an opportunity to approve or reject a proposal for the formation of a new school district and must also contain a description of the boundaries of the proposed new district, a statement, if any, of the terms of adjustment of property, debts, and liabilities applicable to the proposal, and the proposed tax levy.
4. The county superintendent shall appoint judges and clerks of the elections and the election shall be held and conducted in the same manner and the polls shall open and close at the same time as specified for elections in public school districts.

5. The result of the elections must be certified and delivered to the county superintendent within three days after the closing of the polls.
6. If a majority of all votes cast by the electors residing within the unincorporated area of a proposed new district and the majority of all votes cast by the electors within the incorporated area of a proposed new district are both in favor of the formation of the district, the county superintendent shall make the proper adjustment of the property, assets, debts, and liabilities as provided in the approved proposal and shall organize and establish such districts and in so doing shall perform all other necessary duties that are required by law to be performed by the county superintendent in connection with the organization and establishment of new school districts of any kind or type.

15-27.3-09. Elections for consolidating or reorganizing two or more reorganized school districts. Notwithstanding section 15-27.3-08, whenever reorganization proceedings are had for the purpose of consolidating or otherwise affecting two or more school districts which have previously been reorganized, each of the reorganized school districts votes as a separate unit and the reorganization proceedings may be adopted only upon approval by each voting unit.

15-27.3-10. Transportation required. A reorganization proposal must provide for the transportation of students and must specify if family-type or public schoolbus-type of transportation shall be used, and if the proposal is approved by the voters of the new district, then the school board of the district shall provide adequate and practical transportation of the type specified, except that if family-type transportation is specified, the school board may later substitute public schoolbus-type transportation. A reorganized school district is not bound by the schedule of payments or limitations provided in section 15-34.2-03, and shall establish a schedule of transportation payments as is proper under the circumstances affecting that district, but the newly established schedule of payments may not be less than the amounts specified in section 15-34.2-03 for family-type transportation.

15-27.3-11. Proposal rejection - Revision - New election.

1. If a proposal for the formation of a new school district is rejected by the voters at the election provided for in section 15-27.3-08, the county committee may at any time after three months from the date of such election, and after a public hearing is held in the manner provided in section 15-27.3-05, make such revision as it deems advisable in the boundaries proposed for the new district, in the terms of adjustment of the property, debts, and liabilities of the district, and the proposed tax levy, as

the case may be, and resubmit the same to the state board for approval.

2. a. If the boundaries of the proposed new district, the terms of adjustment, or the proposed mill levy, as the case may be, as revised, are approved by the state board, notice thereof shall be transmitted to the county superintendent, as provided for in section 15-27.1-06.
- b. Upon receipt of such notice the county superintendent shall call, in the manner and for the purpose specified in section 15-27.3-08, a special election of the voters residing within the revised boundaries of the proposed new district.
3. If a majority of all votes cast by the electors residing within the unincorporated area of a proposed new district and a majority of all votes cast by electors within the incorporated area of the proposed new district are both in favor of the formation of the district, the county superintendent shall proceed to organize and establish the district and to perform the necessary duties related thereto in the same manner and to the same effect as is provided in section 15-27.3-08.

15-27.3-12. School boards in reorganized and original districts. After the establishment of any new school district, the school board for the new school district must be elected at the regular annual school district election or at a special election called by the county superintendent of schools for that purpose. The first election to elect a school board in a newly reorganized district is governed by chapter 15-28. Members of school boards elected in the newly reorganized districts may not enter upon the duties of office until the time specified in section 15-27.3-15 except as provided by section 15-27.3-13. School boards in original school districts included within a reorganized district continue and remain in existence until the time specified in section 15-27.3-15 at which time the new school board elected for the newly reorganized district as provided in this section becomes the governing body of such school districts. Prior to the completion of the reorganization of any school district under this chapter, the existing school board of any school district may not contract or place the district under any obligation, except upon the recommendation of the county committee. Subsequent annual elections in the school district are governed by the laws pertaining to such elections.

15-27.3-13. Board may negotiate prior to assumption of duties - Termination of teachers.

1. Notwithstanding any provision of this chapter, the school board for a new school district established pursuant to this chapter shall negotiate in the manner provided by

chapter 15-38.1 with the teachers of the district in lieu of the old board or boards prior to the effective date of assumption of its other duties pursuant to section 15-27.3-15. The school board may enter into agreements with representative organizations pursuant to chapter 15-38.1.

2. After the establishment of any new school district pursuant to this chapter, the school board for the new school district shall, on or before April fifteenth of the year in which the reorganization takes effect, notify those teachers of the districts which are being reorganized whether, taking into account reductions in staff positions due to the reorganization, they will be offered contracts of employment with the new district.

15-27.3-14. Continuance of elementary schools in reorganized districts. Each elementary school included in reorganized school districts must be kept in session as provided by law, except that any school may be discontinued when the school board in the district where the school is located, by a unanimous vote, approves its closing. The school board may reopen such school at any time upon its own motion. The school may be reopened only at the beginning of the next regular school term which follows by at least ninety days the date of the school board's action.

15-27.3-15. Effective date of approved reorganization proposals - Transfer of all property. Except as provided by section 15-27.3-13, any reorganization proposal voted upon and approved becomes operative and effective on the first day of July following its final approval. Any officer of a school district incorporated in whole or in part into a reorganized school district shall within thirty days from the date the reorganization is effective, turn over to the reorganized school district all of the property and other assets as finally adjusted and determined by the county committee. Unless it is otherwise agreed and provided by the reorganization proposal, debts, obligations, and liabilities of the several districts or parts of districts incorporated into the reorganized district become the general debt, obligation, and liability of the reorganized district.

15-27.3-16. Voluntary proposals for the reorganization of school districts. Proposals for the reorganization of school districts must be submitted by the county committee to the state board for final approval:

1. After a hearing on the reorganization proposal is held by the county committee; and
2. For approval before proposals are submitted to a vote of the electors.

Reorganization proposals may be approved by the county committee and approved by the state board, if in the judgment of the county

committee and the state board, the proposals constitute an acceptable part of the comprehensive reorganization plan submitted pursuant to section 15-27.3-01 for the reorganization of the school districts of the county.

15-27.3-17. Sale or removal of school buildings in reorganized districts. On motion of the school board, or on petition of a majority of the qualified electors in an original school district included in a reorganized district established in accordance with this chapter, for the sale or removal of a schoolhouse in such district, the school board of the reorganized district may have the school building moved or sold. If a petition is submitted, the school building must be moved to the place designated in the petition, or sold if the petition so provides. The proceeds of the sale must be placed in either the general fund or the building fund of the reorganized district, in the discretion of the school board. If the sale or removal is to a political subdivision of this state, it may be made for less than the fair market value of the school building upon motion unanimously approved by the school board.

15-27.3-18. Costs of reorganization elections. Each of the districts affected by the proposal shall pay all costs of any election required in school district reorganization proceedings in the same proportion as the amount of each district's territory relates to the amount of territory of the newly proposed school district, should the reorganization proposal fail to be approved at the election. If the reorganization proposal is approved at the election, the newly reorganized school district shall pay all the costs.

15-27.3-19. Changes in reorganization proposal. At any time after the reorganization proposal has become effective, any provision of the reorganization proposal theretofore or thereafter adopted, including provisions affecting the adjustment of assets and liabilities but excepting provisions defining the boundaries of the district, may be changed by a majority vote of the qualified electors without approval of the state board or the county committee. The school board in the reorganized district may, upon its own motion, or shall, upon the filing with it of a petition signed by a number of qualified electors equal in number to twenty percent of the number of persons enumerated in the school census for that district for the most recent year the census was taken, unless the census is greater than four thousand, in which case only fifteen percent of the number of persons enumerated in the school census, is required. However, not fewer than twenty-five signatures of qualified electors is required unless the district has fewer than twenty-five qualified electors, in which case the petition must be signed by not less than twenty-five percent of the qualified electors of the district. In those districts with fewer than twenty-five qualified electors, the county superintendent for the county in which the school is located shall determine the number of qualified electors in the qualified district. If a majority of all votes cast by the electors residing in each of the geographic areas

is in favor of the proposed change, then the proposed change is effected.

15-27.3-20. Powers of school board in reorganized district - Exceptions. After five years from the effective date of the reorganization proposal, the school board of a reorganized district shall exercise the powers granted to a school board by section 15-29-08 or any other provisions of law regardless of limitations contained in the reorganization proposal. This section does not authorize the school board of a reorganized district to exercise any powers prohibited or limited by sections 15-27.3-10, 15-27.3-17, or 15-27.3-19.

15-27.3-21. Proportionate tax rate on agricultural property. Any school district which imposed a proportionate tax rate for school purposes levied on agricultural property different from the school district levy on other taxable property as permitted by sections 15-53.1-37 and 15-53.1-38, as they existed on December 31, 1984, must continue to levy that proportionate tax rate unless it is discontinued by the school board upon a majority of the voters of the school district. No other school district may impose such a proportionate tax rate for different classes of property within the school district.

SECTION 4. Chapter 15-27.4 of the North Dakota Century Code is hereby created and enacted to read as follows:

15-27.4-01. Dissolution of public school districts - Responsibility of county committee - Duty of county superintendent. The county committee shall forthwith schedule and provide notice of a public hearing to dissolve a school district and attach the territory to other school districts upon the following occurrences:

1. Receipt by the county committee of notice from the county superintendent that:
 - a. A school district can no longer levy sufficient taxes to carry on normal school operations;
 - b. A school district within the county has not operated a school by the thirty-first of December of the year following the calendar year in which such operation ceased, providing fifty percent of the pupils from such school district are not attending schools in another state;
 - c. There exists territory not organized into a school district; or
 - d. Any portion of a school district within the county has been severed from the district by the expansion and growth of a city and the severed portion is not contiguous with the district.

2. Receipt by the county committee from the state board of a returned annexation petition sent back to the county committee pursuant to section 15-27.2-03.
3. When any portion of a school district has been left out of a school district reorganization, the county committee shall, within forty-five days after voter approval of the school district reorganization proposal, order a hearing pursuant to section 15-27.4-02 for the purpose of determining to which school district or districts the remaining territory should be attached.

After approval by the state board of the proposed dissolution, the county committee shall provide for the attachment of the territory of the dissolved district to one or more adjoining school districts effective July first next following the approval unless another effective date is provided for by the county committee. Qualified electors residing in the attached territory are entitled to vote and hold office in the school district to the same extent as all other qualified electors residing in the district, and the territory is part of the school district as fully in every respect as if it had been included in the district when organized. This section does not prevent the district from providing for the education of the children to the extent that its current budget in the judgment of the school board will permit, or relieve the district from any existing responsibility for the education of children attending its schools before the effective date of the order. This section does not change the effect of any election held within the school district pursuant to chapter 15-48 before the effective date of the order.

15-27.4-02. Notice of hearing - Order of attachment - Joint county action.

1. The county superintendent, upon order of the county committee, shall notify the clerk of each school district adjoining any district which is to be dissolved pursuant to section 15-27.4-01, and any unorganized territory recommended for attachment as provided by that section, that a hearing will be held and the time and the place of the hearing by the county committee, for the purpose of determining to which school district or districts the dissolved or unorganized territory will be attached.
2. The county committee shall receive testimony at the hearing for the purpose of determining and considering the factors listed in subsection 3 of section 15-27.2-04 as they relate to the dissolution proceeding.
3. At or after the hearing, the county committee shall by resolution order the district dissolved and its territory attached, or the unorganized territory attached, to one or more adjoining school districts in such manner as will, in its judgment, provide the best educational opportunities

for pupils of the public schools and the wisest use of public funds for the support of the public school system in the school districts and attached territory.

4. The district to be dissolved must be attached to a contiguous operating school district.
5. The order becomes effective July first following the date of the order or resolution and after approval by the state board, unless another effective date is provided for by the county committee, as provided in section 15-27.4-01.
6. If that portion of the order providing for attachment of the dissolved or unorganized territory is rendered ineffective or suspended for any reason, the portion of the order providing for the dissolution is suspended until such time as the attachment becomes effective.
7. If any of the adjoining district is situated wholly or partly in a county other than that which included the district to be dissolved or the unorganized territory affected, any order attaching territory to the adjoining school district becomes effective only upon the adoption of a concurring resolution by the county committee of the other county in which it is situated.
8. If the county committees cannot agree upon an order attaching the territory to adjoining districts, the county superintendent of the county in which the majority of the district being dissolved is located shall submit the dissolution and attachment to the state board, and in such instance the state board shall dissolve and attach the district to be dissolved, or the unorganized territory, in the manner as will, in its judgment, provide the best educational opportunities for pupils of the public school system in the school districts and attached territories.
9. The action of the state board has the same effect as approval by all county committees.

SCHOOL BOARD ELECTIONS AND TERMS

AN ACT to create and enact a new subsection to section 15-28-01 of the North Dakota Century Code, relating to certain school board elections and terms of office for school board members; and to amend and reenact section 15-28-03 of the North Dakota Century Code, relating to certain school board elections and terms of office for school board members.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. A new subsection to section 15-28-01 of the 1983 Supplement to the North Dakota Century Code is hereby created and enacted to read as follows:

If a school board has elected to convert to four-year terms of office for school board members as provided for in subsection 2 of section 15-28-03 and has also increased the number of board members pursuant to subsection 2 of this section, the board by lot or by some other random selection method shall provide for such a combination of initial terms of office not to exceed four years for the new board members. Such a combination must equalize to the greatest extent feasible the number and length of terms for old and new members to be elected during the next three election years. The members' terms must be staggered and must expire in even-numbered years.

SECTION 2. AMENDMENT. Section 15-28-03 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-28-03. Annual and special elections - When held - Officers elected - Terms - Optional joinder with city election or primary election.

1. An annual election shall be held in each public school district on the first or second Tuesday in June, at the discretion of the school board, of each year. At each annual election, members of the school board shall be

elected to fill all vacancies therein caused by the expiration of terms of office or otherwise. Each member elected shall serve for a term of three years, except when elected to serve an unexpired term. Such term shall commence on the second Tuesday in July following his election, and he shall continue until his successor is elected and qualified. In addition to the annual election, a special election may be held at any time if approved by a resolution of the school board. Such election may be held for any purpose provided for by law.

2. The annual election provided for in this section may, upon resolution of the school board, be held in conjunction with the regularly scheduled city election, established by state law or established pursuant to the home rule powers of the city, held in a city located wholly or partially within that school district. The school board may enter into an agreement with the city commission or the city council concerning the sharing of election personnel, the printing of election materials, and the apportioning of election expenses. References in this chapter to the date of school board elections, insofar as they relate to a school board which holds its elections in conjunction with a city, are deemed to mean or to refer to the date of the applicable city election. Such a school board has the further option to convert the terms of office of its members to four years rather than three years in order that school board elections like city elections may be held biennially rather than annually. A school board may convert the future terms of its members to four years by passing a resolution requiring such a conversion. Thereafter, following the expiration of the three-year term of each incumbent in office as of the date of the passage of the resolution, the term of office for that position on the board shall be four years, except that as to any seat where such an extension of the term would result in the four-year term of office ending in an odd-numbered year, for which seat one additional and transitional term of three years shall be provided before the term becomes a four-year term of office. Once the school board has accomplished the transition to biennial elections, references in this chapter to annual elections as they apply to the school board are deemed to mean biennial elections, and the election held pursuant to section 15-28-11 must be held in even-numbered years.
3. If the school election is held in conjunction with the primary election, the school board may enter into an agreement with the governing body of the county or counties in which the district lies concerning use of a single canvassing board, the sharing of election personnel, the printing of election materials, and the apportioning of election expenses.

TEACHERS' PARTIAL SERVICE RETIREMENT

AN ACT to create and enact a new section to chapter 15-39.1 of the North Dakota Century Code, relating to partial service retirement under the teachers' fund for retirement.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. A new section to chapter 15-39.1 of the North Dakota Century Code is hereby created and enacted to read as follows:

Partial service retirement. A full-time teacher, except for an elected official or a member of the alternate retirement program under subsection 13 of section 15-10-17, who is sixty-two or more years of age and has ten or more years of service credit may negotiate a partial service retirement agreement with the teacher's employer which results in not less than a twenty percent reduction and not more than a sixty percent reduction in the teacher's full-time employment. The board shall pay a reduced retirement benefit to the teacher after the employer certifies to the board that a partial service retirement agreement has been approved by the teacher and the teacher's employer. The reduced retirement benefit must equal the full retirement benefit the teacher is eligible to receive at the time the partial service retirement agreement becomes effective less the percentage of full-time employment the teacher is working under the partial service retirement agreement. The board must disapprove any partial service retirement agreement that does not provide for proportionately reduced compensation and, except for any health and dental insurance benefits provided by the employer, other benefits customarily provided to teachers such as vacation and sick leave. A teacher subject to a partial service retirement agreement may further reduce worktime only once each school fiscal year and may elect only once in every five years after initial entry into the program to increase worktime to another less than full-time schedule. The employer shall certify to the board any amendments or changes to the partial service retirement agreement. A teacher who reduces worktime under this section must be given priority by the employer for return to a full-time position to the extent full-time

work is available. A teacher subject to a partial service retirement agreement is not considered retired until the teacher becomes fully retired. Increased compensation and receipt of additional service credit by a teacher while subject to a partial service retirement agreement do not affect a partial service retirement benefit as initially determined by the board. An employer and a teacher subject to a partial service retirement agreement shall pay their respective required assessments under section 15-39.1-09 based on the full-time salary that would have been paid if the teacher had not entered into a partial service retirement agreement. A teacher subject to a partial service retirement agreement must receive at the time of full retirement a retirement benefit based on total service credit earned, including that earned during partial service retirement. The full retirement benefit must be based on the final average salary, as determined by the board, the teacher would have received if full-time employment had been maintained during the period the teacher was subject to a partial service retirement agreement. A teacher subject to a partial service retirement agreement may not elect a joint and survivor benefit payment option under section 15-39.1-16 to be effective while subject to a partial service retirement agreement. Disability and death benefits provided under this chapter may not be reduced under this section if a teacher dies while subject to a partial service retirement agreement.

For purposes of this chapter, "average daily membership" shall mean the total days all students in a given school are in attendance, including days set aside for the North Dakota education association convention, plus any three holidays selected from those listed in subsections 2 through 10 of section 15-38-04.1 which have been decided upon after consultation with the teachers, the total days all students are absent, and the two parent-teacher conference days authorized in section 15-47-33, divided by one hundred eighty days. If any statement is disallowed in whole or in part, notice thereof and the names of students who are disallowed shall be reported to the superintendent of public instruction and to the district filing the statement. Any district may appeal to the superintendent of public instruction from the determination of the county superintendent of schools on or before September fifteenth in the year in which the determination is made. AN ACT to amend and reenact sections 15-47-27, 15-47-27.1, and subsection 5 of section 15-47-38 of the North Dakota Century Code, relating to the dates for the evaluation of teachers.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-47-27 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-47-27. Time for renewal of teachers' contracts. Any teacher who has been employed by any school district or the director of institutions in this state during any school year, shall be notified in writing by the school board or the director of institutions, as the case may be, not earlier than March first and not later than May first in the school year in which he or she has been employed to teach, of the determination not to renew the teacher's contract for the ensuing school year, if such determination has been made; and failure to give such written notice on or before said date shall constitute an offer to renew the contract for the ensuing school year under the same terms and conditions as the contract for the then current year. On or before May first in any year and not earlier than March first, all teachers shall be notified of a date, which shall not be less than thirty days after the date of such notice, upon which they will be required to accept or reject proffered reemployment, and failure on the part of the teacher to accept said offer within such time shall be deemed to be a rejection of the offer. Any teacher who shall have accepted the offer of reemployment, either by the action or nonaction of the school board or the director of institutions, on or before May first, as herein provided, shall be entitled to the usual written contract for the ensuing school year, as provided by law and shall notify the school board or the director of institutions in writing of his or her acceptance or rejection on or before the date specified or before June first, whichever is earlier. Failure on the part of the teacher to provide such notification shall relieve the school board or the director of institutions of the continuing contract provision

of sections 15-47-26 through 15-47-28. Nothing in this section shall be construed as in any manner repealing or limiting the operation of any existing law with reference to the dismissal of teachers for cause. Each district shall have an established system through which two written evaluations are prepared for every teacher employed by the district during each school year. These written performance reviews shall be completed and made available to the teacher no later than December fifteenth for the first review and February twenty-eighth March fifteenth for the second review each year.

SECTION 2. AMENDMENT. Section 15-47-27.1 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-47-27.1. First-year teachers - Evaluation - Renewal and nonrenewal of contracts. Each school district and the director of institutions in this state shall have an established system through which two written evaluations are prepared during each school year for every teacher who is in his or her first year of teaching. The evaluation must be in the form of written performance reviews, and the first review must be completed and made available to first-year teachers no later than December fifteenth and the second review must be completed and made available no later than February twenty-eighth March fifteenth of each year. If a school board or the director of institutions determines not to renew the contract of a first-year teacher, written notification of the decision of nonrenewal must be given to the teacher no earlier than April fifteenth nor later than May first. Failure by a school board or the director of institutions to provide written notification of nonrenewal to a first-year teacher by May first constitutes an offer to renew the contract of the teacher for the ensuing school year under the same terms and conditions as the contract for the current year. Such notification of nonrenewal given to a first-year teacher must contain a detailed description of the reason or reasons for the nonrenewal.

*** SECTION 3. AMENDMENT.** Subsection 5 of section 15-47-38 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

The teacher shall also be informed in writing of the reasons for nonrenewal. The reasons given by the school board for its decision not to renew a teacher's contract must be drawn from specific and documented findings arising from formal reviews conducted by the board with

*** NOTE:** Section 15-47-38 was also amended by section 28 of Senate Bill No. 2086, chapter 82.

respect to the teacher's overall performance. Each district shall have an established system through which two written evaluations are prepared for every teacher employed by the district during each school year. These written performance reviews shall be completed and made available to the teacher no later than December fifteenth for the first review and February twenty-eighth March fifteenth for the second review each year. The reasons given by the board for not renewing a teacher's contract shall be sufficient to justify the contemplated action of the board and shall not be frivolous or arbitrary but shall be related to the ability, competence, or qualifications of the teacher as a teacher, or the necessities of the district such as lack of funds calling for a reduction in the teaching staff. At the meeting with the board the teacher may then produce such evidence as may be necessary to evaluate the reasons for nonrenewal, and either party may produce witnesses to confirm or refute the reasons. The administrator shall substantiate the reasons with written or oral evidence presented at the meeting. All witnesses are subject to questioning for the purposes of clarification. At the meeting, the board shall discuss the reasons and determine whether or not the administrator has, in fact, substantiated the reasons. If the board finds that the reasons have not been substantiated, the nonrenewal proceedings will be dismissed. The meeting shall be an executive session of the board unless both the school board and the teacher shall agree that it shall be open to other persons or the public. The teacher may be represented at the meeting by any two representatives of his own choosing; and the teacher's spouse, or one other family member of the teacher's choice, may also attend the meeting if the teacher so desires. In addition to board members, the school district clerk, and the superintendent, the school board may be represented by two other representatives of its own choosing at such executive session. At the meeting, if the teacher so requests, he shall be granted a continuance of not to exceed seven days. No cause of action for libel or slander shall lie for any statement expressed either orally or in writing at any executive session of the school board held for the purposes provided for in this section. The determination not to renew a contract if made in good faith shall be final and binding on all parties. Final notice of the determination not to renew a contract shall be given in writing by May first as provided in section 15-47-27.

2. "Bulk" means in a nonpackaged form.
3. "Commercial fertilizer" means any substance containing one or more primary plant nutrients which is used for its plant nutrient content and which is designed for use or claimed to have value in promoting plant growth, except unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and other products excluded by department regulation. The term includes:
 - a. "Agricultural fertilizer" which must contain a minimum of fifteen percent primary plant nutrients.
 - b. "Specialty fertilizer" which is distributed primarily for nonfarm use, such as home gardens, lawns, shrubbery, flowers, golf courses, municipal parks, cemeteries, greenhouses, and nurseries.
 - c. "Micronutrient" which contains essential chemical elements which are required at low levels for normal plant growth.

*** NOTE:** Section 19-20.1-02 was also amended by section 2 of Senate Bill No. 2238, chapter 268.

- d. "Fertilizer material" is a commercial fertilizer which:
- (1) Contains no more than one of the primary plant nutrients;
 - (2) Has approximately eighty-five percent of its primary plant nutrient content present in the form of a single chemical compound; or
 - (3) Is derived from a plant or animal residue or byproduct or a natural material deposit which has been processed in such a way that its content of primary plant nutrients has not been materially changed except by purification or concentration.

- e- The addition of a health care service by or on behalf of a health care facility which was not offered within the previous twelve-month period before the month in which the service would be offered which is associated with either a capital expenditure or entails an annual operating cost of at least seventy-five three hundred thousand dollars; or the termination of a health service which is associated with any capital expenditure.
- d- c. The acquisition by any person of major medical equipment that will be owned by or located in a health care facility.
- e- d. The acquisition by any person of major medical equipment not owned by or located in a health care facility if-
- (1) A notice of intent is not filed at least thirty days before a contract is entered into; or
 - (2) The the department finds, within thirty days after receipt of a notice that the equipment will be used primarily to provide services to inpatients persons who are admitted patients in a health care facility. This does not include use of equipment on other than a temporary basis as in the case of a natural disaster, a major accident, or equipment failure.
- f- e. The obligation of a capital expenditure by any person to acquire an existing health care facility if a notice of intent is not received at least thirty days prior to entering into a contract or the department finds that the services or bed capacity of the facility will be changed.
- g- f. An acquisition by donation, lease, transfer, or comparable arrangement must be reviewed if such acquisition would have been subject to review if purchased. An acquisition for less than fair market

value must be reviewed if the acquisition at fair market value would exceed the expenditure minimum.

However, health care facilities and health care services, for the purposes of this chapter, do not include health maintenance organizations, as defined in section 26.1-18-01, when the health maintenance organization, or other entity, is engaged in activities to determine the feasibility of developing and operating or expanding the operation of health maintenance organizations, or planning projects for the establishment of health maintenance organizations or for the significant expansion of the membership of, or areas served by, health maintenance organizations, or initial development of health maintenance organizations. "Planning projects" and "initial development" mean those activities as defined in the Health Maintenance Organization Act of 1973, as amended [Pub. L. 94-460; 90 Stat. 1948, 1950, 1955; and Pub. L. 95-559; 92 Stat. 2131, 2134; 42 U.S.C. 300 e-3].

SECTION 3. AMENDMENT. Subsection 3 of section 23-17.2-04 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

3. Subsequent reviews. A proposed change in a project associated with a capital expenditure for which the state health council has previously issued a certificate of need will require review if the change is proposed within one year after the date the activity for which the expenditure was approved is undertaken. ~~(As an illustration, where a hospital receives approval to construct a new wing for its facility, the hospital will "undertake the activity" when it begins to provide services in the wing.)~~ This applies to changes associated with capital expenditures that were subject to review under this chapter. A review is required under this chapter whether or not a capital expenditure is associated with the proposed change. A "change in a project" shall include, at a minimum, any change in the bed capacity of a facility and the addition or termination of a health service.

HOUSE BILL NO. 1063
(Legislative Council)
(Interim Industry, Business and Labor Committee)

HOSPICE PROGRAM LICENSING

AN ACT to license hospice programs.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. Definitions. In this Act, unless the context or subject matter otherwise requires:

1. "Bereavement" means the period of time during which the hospice patient's family experiences and adjusts to the death of the hospice patient.
2. "Department" means the state department of health.
3. "Hospice care team" means an interdisciplinary working unit including the hospice patient and the hospice patient's family, the attending physician, the medical director of the hospice program, a registered professional nurse as defined under chapter 43-12.1, a social worker licensed pursuant to chapter 43-41 providing medical social services, and trained hospice volunteers. Providers of special services, including a spiritual counselor, a pharmacist, a registered dietitian, or professionals in the field of mental health may be included on the interdisciplinary team as determined to be appropriate by the hospice program.
4. "Hospice patient" means a person diagnosed as terminally ill with a prognosis of an anticipated life expectancy of six months or less, who has received admission into the hospice program. The diagnosis and prognosis must be certified by the attending physician.
5. "Hospice patient's family" means the immediate kin of the patient, including a spouse, parent, stepparent, brother, sister, stepbrother, stepsister, child, or stepchild. Additional relatives or individuals with significant

personal ties to the hospice patient may be included in the hospice patient's family for the purposes of this Act.

6. "Hospice program" means a coordinated program of home and inpatient care providing hospice services directly, or through agreement, using a hospice care team.
7. "Hospice services" means palliative and supportive medical, health, and other care provided to hospice patients and their families to meet the special needs arising out of the physical, emotional, spiritual, and social stresses experienced during the final stages of illness and during dying and bereavement so that when and where possible the hospice patient may remain at home, with homelike inpatient care utilized only if and while it is necessary.
8. "Palliative care" means treatment which is intended to achieve relief from, reduction of, or elimination of pain and other troubling symptoms, rather than treatment aimed at investigation and intervention for the purposes of cure or prolongation of life.
9. "Hospice service plan" means the plan detailing the specific hospice services offered by a hospice program, and the administrative and direct care personnel responsible for those services.
10. "Volunteer services" means the services provided by individuals who have successfully completed a training program developed by a licensed hospice program.

SECTION 2. Hospice program license required. No person may establish, conduct, or maintain a hospice program, or advertise or present itself to the public as a hospice program, without first obtaining a hospice program license from the department.

SECTION 3. Scope of license. A hospice program license is valid only for the premises, person, or facility named in the application for license and is not transferable or assignable. The license must be renewed annually. The license must be displayed in a conspicuous place inside the hospice program office.

SECTION 4. Application for license. An application for issuance or renewal of a hospice program license must be made to the department upon forms provided by the department. The application must contain information reasonably required by the department. The application must be accompanied by:

1. The hospice service plan which must include:
 - a. Identification of the persons administratively responsible for the program, and any affiliation of the persons with a licensed home health agency,

hospital, skilled nursing home, intermediate care facility, or other health care provider.

- b. The estimated average monthly patient census.
 - c. The proposed geographic area the hospice program will serve.
 - d. A listing of hospice services provided directly by the hospice, and hospice services provided indirectly through a contractual agreement.
 - e. The name and qualifications of persons or entities under contract to provide indirect hospice services.
 - f. The name and qualifications of persons providing direct hospice services, with the exception of volunteers.
 - g. A description of how the hospice program plans to use volunteers in the provision of hospice services.
 - h. A description of the hospice program's recordkeeping system.
2. A financial statement containing information determined to be appropriate by the department.
 3. A uniform license fee determined by the department.

SECTION 5. Inspection of hospice program. Prior to the issuance or renewal of a hospice program license, the department shall inspect the hospice program for compliance with the standards established pursuant to this Act. To the maximum extent possible, the department shall coordinate inspections made under this Act with those made for the purposes of determining compliance with other licensing statutes or rules.

SECTION 6. Issuance of license - Renewal. Upon receipt of a completed application for issuance or renewal of a hospice program license, the department shall issue or renew a license if the department finds the applicant in compliance with this Act and the minimum standards established pursuant to this Act.

SECTION 7. Basic requirements for hospice program. A hospice program must comply with the following basic standards:

1. The hospice program's services must include physician services, nursing services, medical social services, counseling, and volunteer services. The services must be coordinated with those of the hospice patient's primary or attending physician.

2. The hospice program must coordinate its services with professional and nonprofessional services already in the community. The hospice program may contract for elements of its services; however, direct patient contact and overall coordination of hospice services must be maintained by the hospice care team. Any contract entered into between a hospice program and a health care facility or service provider must specify that the hospice program retains the responsibility for planning and coordinating hospice services and care on behalf of a hospice patient and the hospice patient's family. No hospice which contracts for any hospice service may charge fees for services provided directly by the hospice care team which duplicate contractual services provided to the individual hospice patient or family.
3. The hospice care team is responsible for the coordination of home and inpatient care.
4. The hospice program must have a medical director who is a physician licensed pursuant to chapter 43-17. The medical director has overall responsibility for medical policy in relation to the care and treatment of hospice patients and their families rendered by the hospice care team, and must consult and cooperate with the hospice patient's attending physician.
5. The hospice program must provide the services of a registered nurse, as defined under chapter 43-12.1, to supervise and coordinate the palliative and supportive care for patients and families provided by the hospice care team.
6. The hospice program must identify a member of the hospice team who will be responsible for providing for coordination and administration of the hospice service plan for patients and families.
7. The hospice program must have a bereavement program to provide a continuum of supportive services for the family.
8. The hospice program must foster independence of the hospice patient and the hospice patient's family by providing training, encouragement, and support so that the patient and family can care for themselves as much as possible.
9. The hospice program may not impose the dictates of any value or belief system on hospice patients or their families.
10. The hospice program must clearly define admission criteria. Decisions on admission must be made by a hospice care team and are dependent upon the expressed

request of the patient; however, if the attending physician certifies that the patient is unable to request admission, a family member may voluntarily request and receive admission of the patient and family on the patient's behalf. Any request for admission must include written evidence of informed consent signed by the person making the request, which contains an explanation, in plain language of the nature and limitations of hospice care.

11. The hospice program must keep accurate, current, and confidential records on all hospice patients and their families. Upon reasonable notice, the records must be made available to duly authorized officers or employees of the department.
12. The hospice program must use the services of trained volunteers.
13. The hospice program must consist of both home care and inpatient care which incorporate the following characteristics:
 - a. The home care component must be the primary form of care, and shall be available on a part-time, intermittent, regularly scheduled basis and on an on-call, around-the-clock basis according to patient and family need.
 - b. The inpatient component may be used only if and while it is necessary. If feasible, inpatient care should closely approximate a homelike environment, and provide overnight family visitation within the facility.

SECTION 8. Rules and standards.

1. The department shall adopt rules establishing minimum standards for hospice programs, including:
 - a. Compliance with the standards of section 7.
 - b. The number and qualifications of persons providing direct hospice services.
 - c. The qualifications of those persons or entities contracted with to provide indirect hospice services.
 - d. Palliative and supportive care and bereavement counseling provided to hospice patients and their families.
 - e. Hospice services provided on an inpatient basis.

- f. Utilization review of hospice patient care.
 - g. The quality of care provided to hospice patients.
 - h. Procedures for the accurate and centralized maintenance of records on hospice services provided to hospice patients and their families.
 - i. The use of volunteers in the hospice program, and the training of those volunteers.
 - j. The rights of the hospice patient and the hospice patient's family.
2. To avoid duplication in rules, the department shall incorporate rules applicable to facilities licensed by the state as hospitals, skilled nursing homes, intermediate care facilities, and organizations licensed by the state as home health agencies which are also applicable to hospice programs in the rules to govern hospices. A person who seeks to license, establish, or operate a hospice program and who has a preexisting valid license to operate a hospital, skilled nursing home, intermediate care facility, or home health agency is in compliance with those rules which are applicable to both a hospice and the facility for which it has a license.

SECTION 9. Inspection and investigation authority. Any duly authorized officer or employee of the department may make necessary inspections and investigations to determine the state of compliance with the provisions of, and rules adopted pursuant to, this Act. The department may inspect any program which the department has reason to believe is offering or advertising itself as a hospice program without a license, but no inspection of any hospice program may be made without the permission of the owner or person in charge unless a warrant is first obtained authorizing inspection. Any application for issuance or renewal of a hospice program license constitutes permission for any inspection of the hospice program for which the license is sought in order to facilitate verification of the information submitted on or in connection with the application.

SECTION 10. Denial, suspension, or revocation of license. Denial, suspension, or revocation of a hospice program license by the department for noncompliance with this Act is governed by chapter 28-32.

HOUSE BILL NO. 1077

(Interim Natural Resources Committee)

DAKOTA INTERSTATE LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT COMPACT

AN ACT entering into the Dakota interstate low-level radioactive waste management compact; to designate North Dakota's representatives to the administrative body of the interstate compact; and to provide an appropriation.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. Dakota interstate low-level radioactive waste compact. The Dakota interstate low-level radioactive waste compact is hereby entered into with all jurisdictions legally joining the compact, in the form substantially as follows:

ARTICLE I. POLICY AND PURPOSE

There is created the Dakota interstate low-level radioactive waste management compact.

The party states recognize that low-level radioactive wastes are generated by activities and services that benefit the citizens of the states. The party states agree that each state is responsible for providing for the management of low-level radioactive waste generated within its borders, except for low-level radioactive waste generated as a result of defense activities of the federal government or federal research and development activities. The party states find that the Congress of the United States by enacting the Low-level Radioactive Waste Policy Act [Public Law 96-573; 94 Stat. 3347; 42 U.S.C. 2021b to 2021d], has encouraged the use of interstate compacts to provide for the establishment and operation of facilities for regional management of low-level radioactive waste. It is further recognized and is the policy of the party states that the protection of the health and safety of the citizens of the party states and the most ecological and economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is also the policy of party states to this compact to require the reduction of the volume of low-level

radioactive waste requiring disposal within the region. It is the purpose of this compact to provide the means for such a cooperative effort between or among party states so that the protection of the citizens of the states and the maintenance of the viability of the states' environments and economies will be enhanced while sharing the responsibilities of low-level radioactive waste management.

ARTICLE II. DEFINITIONS

As used in this compact, unless the context otherwise requires:

1. "Agreement state" means any state with which the United States nuclear regulatory commission has entered into an effective agreement under section 274(b) of the Atomic Energy Act of 1954, as amended and in effect on January 1, 1985.
2. "Commission" means the Dakota interstate low-level radioactive waste management commission.
3. "Compact" means the Dakota interstate low-level radioactive waste management compact.
4. "Decommissioning" means the measures taken at the end of a facility's operating life to assure the continued protection of the public from any residual radioactivity or other potential hazards present at a facility.
5. "Eligible state" means a state qualified to be a party state to this compact as provided in article III.
6. "Facility" means a parcel of land, together with the structures, equipment, and improvements thereon or appurtenant thereto, which is used or is being developed for the treatment, storage, or disposal of low-level radioactive waste.
7. "Generator" means any person who produces or possesses low-level radioactive waste in the course of or incident to manufacturing, power generation, processing, medical diagnosis and treatment, research, or other industrial or commercial activity and who is licensed by the United States nuclear regulatory commission or an agreement-status party state to produce or possess such waste. "Generator" does not include a person who provides a service by arranging for the collection, transportation, treatment, storage, or disposal of low-level radioactive waste generated outside the region.
8. "Host state" means a party state in which a regional facility is located or being developed.
9. "Institutional control period" means that period of time in which the facility license is transferred to the site

owner for long-term observation and maintenance following the postclosure period in compliance with appropriate regulations.

10. "Low-level radioactive waste" means radioactive waste that is neither high-level waste nor transuranic waste, nor spent nuclear fuel, nor byproduct material as defined in section 11e (2) of the Atomic Energy Act of 1954, as amended and in effect on January 1, 1985, and is classified by the federal government as low-level waste, consistent with existing law, but does not include waste generated as a result of atomic energy defense activities of the federal government, as defined in Pub. L. 96-573, or federal research and development activities.
11. "Operator" means a person who operates a regional facility.
12. "Party state" means any state which is a signatory party to this compact.
13. "Person" means any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, agency, political subdivision, or agency thereof, and any legal successor, representative agent or agency of the foregoing.
14. "Postclosure period" means that period of time after completion of closure of a disposal site during which the licensee shall observe, monitor, and carry out necessary maintenance and repairs at the disposal site to assure that the disposal site will remain stable and will not need ongoing active maintenance. This period ends with the beginning of the institutional control period.
15. "Region" means the combined geographical area within the boundaries of the party states.
16. "Regional facility" means a facility within any party state.
17. "State" includes the Commonwealth of Puerto Rico and the Virgin Islands.
18. "Storage" means the temporary holding of low-level radioactive waste for treatment or disposal.
19. "Waste management" means the storage, transportation, treatment, or disposal of low-level radioactive waste.

ARTICLE III. GENERAL PROVISIONS

1. North Dakota and South Dakota are eligible to become a party to this compact. Any state not eligible for membership in the compact may petition the commission for

- eligibility. The commission may establish appropriate eligibility requirements. These requirements must include an eligibility fee and designation as a host state. A petitioning state becomes eligible for membership in the compact upon an affirmative majority approval by the commission, including one affirmative vote from each party state. Any state becoming eligible upon approval of the commission becomes a member of the compact in the same manner as any state eligible for membership at the time this compact enters into force.
2. This compact is effective after enactment into law by the legislatures of North Dakota and South Dakota and federal ratification. However, those provisions in article IV relating to the restrictions on importation and exportation of low-level radioactive waste are not effective until Congress has consented to this compact. Ratification of this compact by an eligible state in substantially the same language contained herein and in full agreement with the provisions contained herein is a complete and legally effective ratification.
 3. Congress may withdraw its consent every five years. Failure of Congress to withdraw its consent affirmatively has the effect of renewing consent for an additional five-year period. The consent given to this compact by Congress extends to any future admittance of new party states under this article and to the power to ban the importation and exportation of low-level radioactive waste pursuant to the provisions of this compact.
 4. A party state may withdraw from this compact by enacting a statute repealing its enacting legislation. Unless permitted earlier by unanimous approval of the commission, withdrawal takes effect five years after the governor of the withdrawing state has given notice in writing of withdrawal to the commission and the governor of each party state. Withdrawal does not affect any liability already incurred by or chargeable to a party state prior to the time of the withdrawal.
 5. A party state that fails to comply with the terms of this compact or fulfill its obligations hereunder may, after notice and hearing, have its privileges suspended or its membership in the compact revoked by the commission. Revocation takes effect one year from the date the party state receives written notice from the commission of its action. The commission may require the party state to pay to the commission, for a period not to exceed five years from the date of notice of revocation, an amount determined by the commission to ensure the continued availability of safe and economical waste management facilities for all remaining party states. Such state shall also pay an amount equal to that which the party

state had contributed to the annual budget of the commission if that party state would have remained a member of the compact. All legal rights established under this compact of any party state which has its membership revoked shall cease upon the effective date of revocation. However, any legal obligations of a party state arising prior to the effective date of revocation do not cease until they have been fulfilled. Written notice of revocation of any state's membership in the compact must be transmitted immediately following the vote of the commission to the governor of the affected party state, all other governors of the party states, and the Congress of the United States.

6. If a party state withdraws from this compact or if its membership is revoked pursuant to this article, that state's representatives to the commission cease to be members when the withdrawal or revocation takes effect.
7. The withdrawal of a party state from this compact under this article or the revocation of a state's membership in this compact under this article does not affect the applicability of this compact to the remaining party states.

ARTICLE IV. THE COMMISSION

1. There is hereby created the Dakota interstate low-level radioactive waste management commission.
