2. For the calendar year 1983 and each year thereafter, the bureau shall adjust the basic rates in the schedule of basic rates by an adjustment ratio so as to provide a

An adequate trust fund reserve as of October 1, 1983, will be considered to be forty percent of the average annual amount of benefits paid. As of October 1, 1984, and each October first thereafter, an adequate reserve will be considered to be fifty percent of the average annual amount of benefits paid. The average annual amount of benefits paid must be computed by dividing the total amount of benefits paid, or projected to be paid, during the previous thirty-six months by three. An adequate trust fund reserve as of October 1, 1986, must be at least fifteen percent of the average annual amount of benefits paid. An adequate trust fund reserve as of October 1, 1987, and each October first thereafter, must be at least twenty-five percent of the average annual amount of benefits paid. The average annual amount of benefits paid shall be computed by dividing the total amount of benefits paid and projected to be paid during the previous thirty-six months by three. Benefits financed by direct reimbursement must be omitted from this computation. After the bureau has determined the necessary adjustment ratio, each basic rate in the schedule of basic rates will be reduced or increased by that adjustment ratio with the result rounded to the nearest lower one-tenth of one percent in the case of a reduction or to the nearest higher one-tenth of one percent in the case of an increase.

No employer's rate shall be reduced below the standard rate for any calendar year unless and until his account has been chargeable with benefits throughout the thirty-six-consecutive-calendar-month period ending on September thirtieth of the preceding calendar year, except that an employer who has not been subject to the law for a period of time sufficient to meet this requirement may qualify for a reduced rate if his account has been chargeable with benefits throughout a lesser period of time but in no event less than the twelve-consecutive-calendar-month period, the twenty-four-consecutive-calendar-month period for 1985 and each year thereafter, ending on September thirtieth of the preceding calendar year. For the calendar year 1985 and each year thereafter, an employer who is not eligible for an experience rate as provided in subsection 1 and section 52-04-06, shall be assigned the average tax rate of all employers as determined by the bureau on the computation date, but in no event shall this rate be less than one percent. Newly liable employers in these industries shall be assigned the standard rate. An employer with an industry classification code that is without experience in this state for twelve consecutive chargeable months or who has failed to provide correct industrial classification information shall pay at the standard rate. Assignment by the bureau of employer's industrial classification, for the purpose of this subsection, shall be the two digit major group provided in the standard industrial classification manual, in accordance with established classification practices found in the standard industrial classification manual, issued by the executive office of the president, office of management and budget. The standard rate shall be assigned an employer account which on computation date has a minus balance reserve, or has failed to file a contribution report or a corrected or sufficient report as provided in section 52-04-09.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. Definition. "Architect, engineer, and land surveying services" are those professional services associated with the practice of architecture, professional engineering, professional land surveying, landscape architecture, and interior design pertaining to construction, as defined by the laws of this state, as well as incidental services that members of these professions and those in their employ may logically or justifiably perform, including studies, investigations, surveys, evaluations, consultations, planning, programming, conceptual designs, plans and specifications, cost estimates, inspections, construction management, shop drawing reviews, sample recommendations, preparation of operating and maintenance manuals, and other related services, except for professional services related to prefabricated steel for bridge purposes.

SECTION 2. Applicability - Policy. Architect, engineer, and land surveying services shall be procured as provided in this chapter. It is the policy of this state that all North Dakota state agencies shall negotiate contracts for services on the basis of demonstrated competence and qualification for the particular type of services required.

SECTION 3. Procurement procedures.

1. Each using agency shall establish its own architect, engineer, and land surveying services selection committee hereinafter referred to as the agency selection committee, which shall be composed of those individuals whom the

agency head determines to be qualified to make an informed decision as to the most competent and qualified firm for the proposed project. The head of the using agency or his qualified, responsible designee shall sit as a member of the agency selection committee for the purpose of coordinating and accounting for the committee's work.

2. The agency selection committee shall be responsible for all of the following:
 - a. Developing a description of the proposed project.
 - b. Enumerating all required professional services for that project.
 - c. Preparing a formal invitation to firms for submission of information. The invitation shall include but not be limited to the project title, the general scope of work, a description of all professional services required for that project, and the submission deadline. The invitation or notice thereof shall be published. Upon written request, the agency shall also mail copies of the invitation to any interested party. The manner in which this shall be published, the content of the publication, and the frequency of the publication, shall be established by regulation of the agency selection committee.
3. The date for submission of information from interested persons or firms in response to an invitation shall be not less than twenty-one days after publication of the invitation. Interested architect, engineer, and land surveying persons or firms shall be required to respond to the invitation with the submission of the information required in general services administration forms SF 254 and SF 255, architect-engineer related services questionnaire for specific project, or such similar information as the agency selection committee may prescribe by rule.

If less than three persons or firms have responded to the advertisement, the committee shall readvertise or hold interviews with those who did respond. The agency selection committee's determination as to which will be interviewed shall be in writing and shall be based upon its review and evaluation of all submitted materials. The written report of the committee shall specifically list the names of all persons and firms that responded to the advertisement and

enumerate the reasons of the committee for selecting those to be interviewed. This written report shall be available to the public upon written request. The purpose of the interviews shall be to provide such further information as may be required by the agency selection committee to fully acquaint itself with the relative qualifications of the several interested persons or firms.

This data shall be available to the public upon written request.

6. The agency selection committee shall submit its written report ranking the interviewed persons or firms to the governing body of the using agency for its evaluation and approval. 7. The governing body of the using agency or its designee shall negotiate a contract for services with the most qualified person or firm, at a compensation which is fair and reasonable to the state, after notice of selection and ranking. Should the governing body of the using agency or its designee be unable to negotiate a satisfactory contract with this person or firm, negotiations shall be formally terminated. Negotiations shall commence in the same manner with the second and then the third most qualified until a satisfactory contract has been

negotiated. If no agreement is reached, three additional persons or firms in order of their competence and qualifications shall be selected after consultation with the agency selection committee, and negotiations shall be continued in the same manner until agreement is reached.

Any structure or structures used in connection with a retail or wholesale business other than farming, even though situated on agricultural land, shall not be exempt under this subsection.
- b. It is the intent of the legislative assembly that this exemption as applied to a residence shall be strictly construed and interpreted to exempt only a residence which is situated on a farm and which is occupied or used by a person who is a farmer and that the exemption shall not be applied to property which is occupied or used by a person who is not a farmer. For purposes of this subdivision:

- (3) "Net income from farming activities" described in paragraph 2 means taxable income from those activities as computed for income tax purposes pursuant to chapter 57-38 adjusted to include the following:
 - (a) The difference between gross sales price less expenses of sale and the amount reported for sales of agricultural products for which the farmer reported a capital gain.
 - (b) Interest expenses from farming activities which have been deducted in computing taxable income.
- (4) For purposes of applying the income requirements of this subdivision, if a husband and wife reside together in a residence claimed as exempt under this subdivision because both or one of them is a farmer, not less than fifty percent of their combined net income from all sources must be net income from farming activities as defined in paragraph 3 in order for the residence to qualify for the exemption.
- (5) When exemption is claimed under this subdivision for a residence, the assessor may require that the occupant of the residence who it is claimed is a farmer provide to the assessor for the year or years specified by the assessor a written statement in which it is stated that fifty percent or more of the net income of that occupant was, or was not, net income from farming activities; provided, that if that occupant is married and they both occupy the residence, it

shall be stated in the written statement that their net income from farming activities was, or was not, fifty percent or more of their combined net income from all sources.

- (6) In addition to any of the provisions of this subsection or any other provision of law, a residence situated on agricultural land is not exempt for the year if it is occupied by an individual engaged in farming who had nonfarm income, including that of a spouse if married, of more than ~~twenty~~ thirty thousand dollars during each of the three preceding calendar years. The provisions of this paragraph do not apply to an individual who is retired because of illness or age and who at the time of retirement owned and occupied as a farmer the residence in which he lives and for which the exemption is claimed.

Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.
2. For electrical generating plants, the tax shall be at a rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale.
3. For electrical generating plants, in addition to the tax imposed by subsection 2, there shall be a tax at the rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale.
4. For coal gasification plants, the tax shall be either the amount provided in subsection 1 or ten cents on each one thousand cubic feet [28,316.85 liters] of synthetic natural gas produced for the purpose of sale, whichever is greater.

* NOTE: Section 57-60-02 was also amended by section 2 of Senate Bill No. 2257, chapter 654.

SECTION 21. AMENDMENT. Subsection 3 of section 57-62-02 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

3. Twenty percent shall be allocated to the coal-producing counties and shall be distributed among such counties in such proportion as the number of tons [metric tons] of coal severed at each mining operation bears to the total number of tons [metric tons] of coal severed in the state during such quarterly period. Allocations under subdivision a shall be apportioned by the county treasurer within fifteen days from the date the moneys are received from the state treasurer and allocations under subdivision b shall be apportioned by the state treasurer as follows:
 - a. If the tipple of the currently active coal mining operation in a county is not within fifteen miles [24.14 kilometers] of another county in which no coal is mined, the revenue apportioned according to this subdivision shall be allocated as follows:
 - (1) Thirty percent shall be paid by the county treasurer to the incorporated cities of the county based upon the population of each incorporated city according to the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.
 - (2) Forty percent shall be deposited by the county treasurer in the county general fund to be used for general governmental purposes.
 - (3) Thirty percent shall be apportioned by the county treasurer to school districts within the county on the average daily membership basis, as certified to him by the county superintendent of schools.
 - b. If the tipple of a currently active coal mining operation in a county is within fifteen miles [24.14 kilometers] of another county in which no coal is mined, the revenue apportioned from that coal mining operation according to this subsection shall be allocated, subject to the definitions of terms and the requirements in paragraph 4, as follows:
 - (1) Thirty percent shall be paid by the state treasurer to the incorporated cities of the coal-producing county and to any city of a non-coal-producing county when any portion of the city lies within fifteen miles [24.14 kilometers]

of the tipple of the currently active coal mining operation in the coal-producing county, based upon the population of each incorporated city according to the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.

- (2) Forty percent shall be divided by the state treasurer between the general fund of the coal-producing county and the general fund of any non-coal-producing county when any portion of the latter county lies within fifteen miles [24.14 kilometers] of the tipple of the currently active coal mining operation in the coal-producing county. The non-coal-producing county portion shall be based upon the ratio which the assessed valuation of all quarter sections of land in that county, any portion of which lies within fifteen miles [24.14 kilometers] of the tipple of the currently active coal mining operation, bears to the combined assessed valuations of all land in the coal-producing county and the quarter sections of land in the non-coal-producing county within fifteen miles [24.14 kilometers] of the tipple of the currently active coal mining operation. It shall be the duty of the county director of tax equalization of the coal-producing county to certify to the state treasurer the number of quarter sections of land in the non-coal-producing counties which lie at least in part within fifteen miles [24.14 kilometers] of the tipple of the currently active coal mining operation and their assessed valuations.
- (3) Thirty percent shall be apportioned by the state treasurer to school districts within the coal-producing county and to school districts in adjoining non-coal-producing counties when a portion of those school districts' land includes any of the quarter sections of land certified by the director of tax equalization to the state treasurer to be eligible to share county funds as provided for in paragraph 2. The county superintendent of the non-coal-producing counties shall certify to the state treasurer the number of students actually residing on these quarter sections lying outside the coal-producing county and each school district in non-coal-producing counties shall receive a portion of the money under this paragraph based upon the ratio of the number of children residing on quarter sections of that school district within the fifteen mile

[24.14 kilometer] radius of the tippie of a currently active coal mining operation to the total number of schoolchildren from the coal-producing county combined with all the schoolchildren certified to be living on quarter sections within fifteen miles [24.14 kilometers] of the tippie of the currently active coal mining operation in the coal-producing county.

(4) For the purposes of this subdivision:

- (a) The terms "currently active coal mining operation in a county", "currently active coal mining operation in the coal-producing county", and "currently active coal mining operation" mean a coal mining operation that produces more than one hundred fifty thousand tons [136,077.71 metric tons] of coal in a coal-producing county during the quarterly period.
- (b) The term "coal-producing county" means a county in which more than one hundred fifty thousand tons [136,077.71 metric tons] of coal are mined in the quarterly period.

- (d) The terms "non-coal-producing county" and "non-coal-producing counties" mean any county in which not more than seventy-five thousand tons [68,038.86 metric tons] of coal are mined in the quarterly period.
- (e) In computing each amount to be paid as provided in paragraph 1, 2, or 3 for coal severance tax revenue from coal mined during a quarterly period, the state treasurer of the coal-producing county shall deduct from the allocation the amount of coal severance tax revenue, if any, that the governmental body in the non-coal-producing county received from the coal mined in the non-coal-producing county during the same quarterly period.

AGRICULTURAL LAND CAPITALIZATION RATE

AN ACT to amend and reenact section 57-02-27.2 of the North Dakota Century Code, relating to the capitalization rate used in the valuation and assessment of agricultural lands; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-02-27.2 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

57-02-27.2. Valuation and assessment of agricultural lands. "True and full value" of agricultural lands shall be their agricultural value for the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04. Agricultural value shall be defined as the "capitalized average annual gross return". The "annual gross return" shall be determined from crop share rent, cash rent, or a combination thereof reduced by estimated property taxes and crop marketing expenses incurred by farmland owners renting their lands on a cash or crop share basis. For purposes of this section, "annual gross return" for cropland used for growing crops other than sugar beets and potatoes means thirty percent of annual gross income produced, "annual gross return" for cropland used for growing sugar beets and potatoes means twenty percent of annual gross income produced, and "annual gross return" for land used for grazing farm animals means twenty-five percent of an amount determined by the agricultural economics department of North Dakota state university to represent the annual gross income potential of the land based upon the animal unit carrying capacity of the land. The "average annual gross return" for each county shall be determined as follows:

1. Total the annual gross returns for the most recent six years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the six.
2. Divide the figure arrived at in subsection 1 by four.

To find the "capitalized average annual gross return" for years after 1983, the average annual gross return shall be capitalized by a rate which is ~~one-half of one percentage point below~~ a ten-year average of the gross federal land bank mortgage rate of interest for North Dakota. The ten-year average shall be computed from the twelve years ending with the most recent year used in subsection 1, discarding the highest and lowest years, and the gross federal land bank mortgage rate of interest for each year shall be determined in the manner provided in section 20.2032A-4(e)(1) of the United States treasury department regulations for valuing farm real property for federal estate tax purposes, except that the interest rate shall not be adjusted as provided in paragraph (e)(2) of section 20.2032A-4. ~~To find the "capitalized average annual gross return" for 1983, the average annual gross return shall be capitalized at seven and one-half percent. Notwithstanding the other provisions of this section, the maximum increase or decrease in the capitalization rate in any two-year period is three-tenths of one percentage point above or below the capitalization rate for the year preceding the two-year period.~~

It shall be the duty of the agricultural economics department of North Dakota state university to compute annually an estimate of the average agricultural value per acre [.40 hectare] of agricultural lands on a statewide and on a countywide basis, to compute the average agricultural value per acre [.40 hectare] for cropland and noncropland, which is agricultural land, for each county, and to provide the tax commissioner with this information by December first of each year. Prior to January first of each year the tax commissioner shall provide to each county director of tax equalization these estimates of agricultural value for each county.

Prior to February first of each year the county director of tax equalization in each county shall provide to all assessors within the county an estimate of the average agricultural value of agricultural lands within each assessment district. Such estimate shall be based upon the average agricultural value for the county adjusted by the relative values of lands within each assessment district compared to the county average. In determining the relative value of lands for each assessment district compared to the county average, the county director of tax equalization shall, wherever possible, use soil type and soil classification data from detailed and general soil surveys. Where such data cannot be used, the county director of tax equalization shall use whatever previous assessment data is best suited to the purpose.

It shall be the duty of each local assessor to determine the relative value of each assessment parcel within his jurisdiction and to determine the agricultural value of each assessment parcel by adjusting the agricultural value estimate for the assessment district by the relative value of the parcel. Each parcel shall then be assessed according to the provisions in section 57-02-27. If either a local assessor or a township board of equalization develops an agricultural value for the lands in its assessment

district differing substantially from the estimate provided by the county director of tax equalization, written evidence to support the change shall be provided to the county director of tax equalization.

SECTION 2. EFFECTIVE DATE. This Act is effective for taxable years beginning after December 31, 1984.

 5. Under the provisions of this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:

- 1. In any school district having a total population in excess of four thousand according to the last federal decennial census:
 - a. There may be levied any specific number of mills that upon resolution of the school board has been submitted to and approved by a majority of the electors voting upon the question at any regular or special school district election.

3. In any school district in which the total assessed valuation of property has increased twenty percent or more over the prior year and in which as a result of that increase the school district is entitled to less in state foundation aid payments provided in sections 15-40.1-06 through 15-40.1-08 because of the deduction required in subsection 3 of section 15-40.1-06, there may be levied any specific number of mills more in dollars than was levied in the prior year up to a general fund levy of seventy mills on the dollar of the taxable valuation of the school district. SECTION 2. EFFECTIVE DATE. This Act is effective for taxable years beginning after December 31, 1984. After a hearing, held upon notice to the licensee and the bonding company, the commission shall be empowered to order the licensee or the bonding company, or both, to pay to the complainant for any loss or damage suffered by reason of the breach of the conditions of the bond or the default in payment with interest at the weighted average base rate charged by the Bank of North Dakota since the date of the breach or default and to pay the costs incurred by the commission in the administration of this chapter. Where it appears to the commission that more than one person may have been damaged by reason of breach of the conditions of the bond or default in payment, the commission may require that all such damaged persons submit their claims to the commission within sixty days of notice in such manner as the commission deems appropriate. HOUSE BILL NO. 1639
(Representatives Strinden, Mertens)
(Senators Nething, Heigaard)

WETLANDS IMPORTANCE

AN ACT to provide a statement of legislative intent relating to wetlands; to provide for a conditional property tax exemption for wetlands, for payment to counties by the state of the amount of tax exempted, and an authorization for receipt of funds; to amend and reenact sections 61-16.1-41, 61-31-01, and 61-31-10 of the North Dakota Century Code, relating to drainage permits, declaration of legislative intent concerning wetlands, and receipt of funds for the waterbank program; to provide a standing and continuing appropriation; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. Declaration of intent. The legislative assembly recognizes the importance of wetlands in North Dakota as a natural resource of state, national, and international significance. The legislative assembly also recognizes the importance of agriculture and water development in North Dakota, and that each of these activities has an interrelationship and an impact on wetlands. Therefore, the legislative assembly declares that a long-term, comprehensive policy is needed concerning North Dakota's wetlands.

The legislative assembly recognizes that between two and three million acres of wetlands remain in North Dakota, and that North Dakota produces from two and one-half million to six million ducks each year, depending on the wet and dry cycle. The legislative assembly further recognizes that wetlands can moderate the extremes in water flow and have value as natural flood-control mechanisms. The legislative assembly recognizes that wetlands can aid in water purification by trapping, filtering, and storing sediment and pollutants and by recycling nutrients. The legislative assembly recognizes that some wetlands may serve as ground water recharge areas. The legislative assembly recognizes that wetlands function as nursery areas for numerous aquatic animal species and are habitat for a wide variety of plant and animal species.

The legislative assembly also finds that the thirty-two million acres of North Dakota's prairie pothole region north and east of the Missouri River is intensively farmed, and that agriculture is the largest and most important industry in North Dakota. The legislative assembly recognizes that many wetlands, if drained, could be used as prime cropland for the production of food and fiber.

The legislative assembly further finds that the protection, development, and management of North Dakota's water resources is essential for the long-term public health, safety, general welfare, and economic security of North Dakota and its citizens.

The legislative assembly also finds that the United States fish and wildlife service holds easements to prevent the draining, burning, or filling of wetlands covering four million eight hundred thousand acres of land in North Dakota, within which farmers have been paid to preserve seven hundred sixty thousand acres of wetlands; that the United States has easements for an additional sixty-six thousand acres in North Dakota which are a part of national wildlife refuges; and that the United States also owns in fee an additional four hundred thirty thousand acres of land in North Dakota for wetland and waterfowl habitat preservation. The legislative assembly finds that payments in lieu of taxes to counties in which the United States fish and wildlife service owns land in fee seldom make up for the loss in the payments caused by removing these lands from the tax base.

The legislative assembly finds that information upon which to make decisions concerning wetlands is lacking. The legislative assembly finds that a long-term plan must be developed concerning the number of wetlands which exist in North Dakota, the number of wetlands under federal or state government ownership, the location of North Dakota's remaining wetlands, the number of wetlands which should be preserved in public or private ownership in North Dakota, the manner in which wetlands should be preserved if it is determined that additional wetlands need to be preserved, the number of waterfowl that North Dakota produces each year, the agricultural benefits that are foreclosed if wetlands are not drained, the cost to farmers of not draining their wetlands, the tax loss to counties resulting from federal fee ownership of wetlands, the impact of wetlands on water resource development in North Dakota, and other related issues.

It is hereby declared to be the policy of this state that a long-term policy and plan must be developed for wetlands and waterfowl production in North Dakota. The legislative assembly further declares that if study reveals that additional wetlands in North Dakota should be preserved and that enhanced management and development of wetland and waterfowl habitat in North Dakota are desirable, that the legislative assembly should mandate preservation, management, and development of wetland and waterfowl habitat, and develop additional programs to preserve and develop wetland habitat, and provide adequate funding of such programs.

SECTION 2. Conditional property tax exemption for owners of wetlands. Wetlands qualifying under this section shall be exempt from taxation. To qualify for the tax exemption, the owner of wetlands must annually file with the county director of tax equalization, on a form prescribed by the state tax commissioner, a legal description of the wetlands for which an exemption is claimed and an agreement to not drain, fill, pump, concentrate water in a smaller and deeper excavation in the wetland basin or alter the physical nature of the wetland in any manner that reduces the wetland's ability to function as a natural system during the year for which the exemption is claimed. To qualify for the exemption the agreement must be filed by June thirtieth of the year for which the exemption is claimed. The exemption is not available for years prior to filing of the agreement or for any year in which the terms of the agreement are violated. The county director of tax equalization shall certify to the county auditor, for each landowner receiving the exemption, the landowner's name, the amount of tax which would have been due on the exempt acreage, and that the landowner has filed the required agreement. The amount of the wetlands exemption shall be reflected upon the property tax statement of each eligible taxpayer.

For purposes of this section "wetlands" means all types 3, 4, and 5 wetlands, as determined by the commissioner of agriculture and the game and fish commissioner, in accordance with United States fish and wildlife service circular no. 39 (1971 edition), drainage of which would be feasible and practical.

When wetlands are drained or altered so the land no longer qualifies for the exemption provided by this section, the land is subject to additional taxes which would have been assessed if the property had not qualified for the exemption provided by this section. The taxes which would have been due on the land without the exemption for the ten years preceding the year in which the exemption is terminated shall be computed, and the property owner shall pay the difference between such amount and the taxes which were actually paid on the property in addition to taxes currently due. Absence of water on property qualifying for the exemption under this section, caused by drought conditions, shall not disqualify the property from the exemption under this section.

The wetlands tax exemption provided by this section does not grant the public any additional or greater right of access to the wetlands or diminish any right of ownership to the wetlands. The owner of property exempt under this section may use the property in any manner which does not violate the agreement filed with the county director of tax equalization.

SECTION 3. Wetlands tax exemption payment - Certification. Prior to March first of each year beginning in 1988, the county auditor of each county shall certify to the state tax commissioner on forms prescribed by the commissioner the total amount of property tax which would have been due on property exempt under section 2 of this Act within the county and other information as may be

prescribed by the commissioner. The county auditor shall forward to the commissioner copies of all agreements described in section 2 of this Act in effect in the county.

The commissioner shall audit the claims for exemption, make corrections as required, and certify to the state treasurer for payment to each county on or before June 30, 1988, and each year thereafter, the sum of property taxes due on property exempt under section 2 of this Act for the county in the preceding year.

The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute it to the county and local taxing districts on the basis on which the general real estate tax for the preceding year is apportioned and distributed.

Supplemental certifications by the county auditor and the state tax commissioner and supplemental payments by the state treasurer may be made after the date prescribed in this section to make corrections as may be necessary.

SECTION 4. Authorization for receipt of funds. The state treasurer shall be authorized to receive funds for this program by legislative appropriation and by gift, grant, devise, or bequest of any money or property from any private or public source. Funds appropriated from any source for this purpose are not subject to section 54-44.1-11 and all income and moneys derived from the investment of such funds must be credited to the fund for this program. The state game and fish commissioner, the commissioner of agriculture, and the state engineer shall work with the governor, the United States fish and wildlife service, nonprofit conservation organizations, and any other public official or private organization or citizen to develop a source of funding to implement sections 2 and 3 of this Act.

SECTION 5. AMENDMENT. Section 61-16.1-41 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-16.1-41. Permit to drain waters required - Penalty. Any person, before draining water from a pond, slough, or lake, or any series thereof, which drains an area comprising eighty acres [32.37 hectares] or more, shall first secure a permit to do so. The permit application shall be submitted to the state engineer. The state engineer shall refer the application to the water resource district or districts within which is found a majority of the watershed or drainage area of the pond, slough, or lake for consideration and approval, but the state engineer may require that applications proposing drainage of statewide or interdistrict significance be returned to him for final approval. A permit shall not be granted until an investigation discloses that the quantity of water which will be drained from the pond, slough, or lake, or any series thereof, will not flood or adversely affect downstream lands. In addition, consideration shall be given to the state water resources policy set forth in section 61-01-26. If the investigation shows

that the proposed drainage will flood or adversely affect lands of downstream landowners, the water resource board shall not issue a permit until flowage easements are obtained. Such flowage easements shall be filed for record in the office of the register of deeds of the county or counties in which the lands are situated. An owner of land proposing to drain shall undertake and agree to pay the expenses incurred in making the required investigation. The provisions of this section shall not be construed to apply to the construction or maintenance of any existing or prospective drain constructed under the supervision of a state or federal agency, as determined by the state engineer.

Any person draining, or causing to be drained, water of a pond, slough, or lake, or any series thereof, which drains an area comprising eighty acres [32.37 hectares] or more, without first securing a permit to do so, as provided by this section, shall be liable for all damage sustained by any person caused by such draining, and shall be guilty of an infraction. When temporary ponding of water occurs due to spring runoff or heavy rains, an area not in excess of eighty acres [32.37 hectares] may be drained without first securing a permit.

SECTION 6. AMENDMENT. Section 61-31-01 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-31-01. ~~Declaration of intent--~~ Rulemaking authority. The legislative assembly finds that it is in the public interest to preserve certain wetlands of the state and thereby to conserve surface waters, to reduce runoff, to provide for floodwater retention, to reduce stream sedimentation, to contribute to improved subsurface moisture and replenishment of aquifers, to enhance habitat for resident wildlife, to enhance the natural beauty of the landscape, and to promote comprehensive and total water management planning. Therefore, the The commissioner of agriculture is authorized to adopt rules, pursuant to chapter 28-32, to implement this chapter, including rules setting out the procedures and payment rates designed to effectuate the terms of this chapter and the allocation of funds to those areas deemed most appropriate by the commissioner. This program is intended to supplement and complement the federal waterbank program and the payment rates established shall be at least comparable to federal rates.

SECTION 7. AMENDMENT. Section 61-31-10 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-31-10. Authorization for receipt of funds - Continuing appropriation. The commissioner shall be authorized to receive funds, ~~not exceeding one million dollars in aggregate total,~~ for this program from any private or public source, and shall also be authorized to receive any funds from any North Dakota state agency, which have been specifically authorized for that purpose by the legislative assembly. The commissioner shall work with the

governor, game and fish commissioner, United States fish and wildlife service, nonprofit conservation organizations, and any other public official or private organization or citizen to develop a source of funding to implement this chapter. All funds received from any source, not including state revenues, are hereby appropriated to the commissioner, and may be expended for the purpose of implementing this chapter upon approval of the emergency commission.

SECTION 8. EFFECTIVE DATE. Sections 2 and 3 of this Act are effective for taxable years beginning after December 31, 1986, and section 5 of this Act becomes effective on July 1, 1987.

UNSAFE WATERWORKS

AN ACT to create and enact two new sections to chapter 61-03 of the North Dakota Century Code, relating to inspection and removal of unsafe water works; and to amend and reenact section 61-16.1-38 of the North Dakota Century Code, relating to the state engineer's authority over unsafe or unauthorized works.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. A new section to chapter 61-03 of the North Dakota Century Code is hereby created and enacted to read as follows:

Removal of unsafe or unauthorized works. If the state engineer pursuant to his authority under title 61 determines that works are unsafe or unauthorized, the state engineer shall notify the landowners by registered mail at the landowner's post-office address of record. A copy of the notice shall also be sent to the tenant, if any. The notice shall specify the nature and extent of the noncompliance, the modifications necessary for compliance, and shall state that if the works are not modified or removed within the period stated in the notice, but not less than thirty days, the state engineer shall cause the removal of the works and assess the cost thereof, or such portion as the state engineer shall determine, against the property of the landowner responsible. The notice shall also state that the affected landowner may, within fifteen days of the date the notice is mailed, demand, in writing, a hearing upon the matter. The state engineer shall set a hearing date within fifteen days from the date the demand is received. In the event of an emergency, the state engineer may immediately apply to the appropriate district court for an injunction prohibiting the landowner or tenant from constructing or maintaining the works, or ordering the landowner to remove the works. Any assessments levied under the provisions of this section shall be collected in the same manner as other assessments authorized by this title. If, in the opinion of the state engineer, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in proportion to the responsibility of the landowners. Any person aggrieved by action of the state engineer under the provisions of

this section may appeal the decision of the state engineer to the district court of the county in which the land is located in accordance with the procedures provided under chapter 28-32. A hearing as provided for in this section is a prerequisite to an appeal.

For purposes of this section the term "works" includes dams, dikes, or other devices for water conservation, flood control, regulation, storage, diversion, or carriage of water.

SECTION 2. A new section to chapter 61-03 of the North Dakota Century Code is hereby created and enacted to read as follows:

Inspection by state engineer. Whenever the state engineer is authorized or mandated by law to inspect or investigate an alleged violation of a statute under title 61, the state engineer shall have the authority to enter upon land for the purposes of conducting such an inspection or investigation. Except in emergency situations as determined by the state engineer, the state engineer shall request written permission from the landowner to enter the property. If the landowner refuses to give written permission, or fails to respond within five days of the request, the state engineer may request the district court of the district containing the property for an order authorizing the state engineer to enter the property to inspect or investigate the alleged violation.

SECTION 3. AMENDMENT. Section 61-16.1-38 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-16.1-38. Permit to construct or modify dam, dike, or other device required - Penalty. An application for the construction of any dike, dam, or other device, along with complete plans and specifications, shall be presented first to the state engineer. After receipt, the state engineer shall consider the application in such detail as he deems necessary and proper. The state engineer shall refuse to allow the construction of any unsafe or improper dike, dam, or other device which would interfere with the orderly control of the water resources of the district, or may order such changes, conditions, or modifications as in the judgment of the state engineer may be necessary for safety or the protection of property. Within forty-five days after receipt of the application, except in unique or complex situations, the state engineer shall complete his initial review of the application; and ~~if he approves it,~~ shall forward the application, along with any changes, conditions, or modifications, to the water resource board of the district within which the contemplated project is located. The board thereupon shall consider, within forty-five days, the application, and suggest any changes, conditions, or modifications

If the application meets with the board's approval, the board shall forward the approved application to the applicant, and shall send a certification of its action to the state engineer. The state engineer shall make the final decision on the application and forward his decision to the applicant and the local water resource board. AN ACT to amend and reenact sections 61-04-06.2, 61-04-23, 61-04-24, and 61-04-25 of the North Dakota Century Code, relating to terms of permits for use of water and forfeiture of water rights.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-04-06.2 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-04-06.2. Terms of permit. The state engineer may issue a conditional permit for less than the amount of water requested, but in no case may he issue a permit for more water than can be beneficially used for the purposes stated in the application except that water permits for incorporated municipalities may contain water in excess of present needs if based upon reasonable projections of future water needs of the municipality. He may require modification of the plans and specifications for the appropriation. He may issue a permit subject to fees for water use, terms, conditions, restrictions, limitations, and termination dates he considers necessary to protect the rights of others, and the public interest. Conditions and limitations so attached shall be related to matters within the jurisdiction of the state engineer; provided, however, that all conditions attached to any permit issued prior to July 1, 1975, shall be binding upon the permittee.

SECTION 2. AMENDMENT. Section 61-04-23 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-04-23. Forfeiture of water rights - Inspection of works. Any appropriation of water must be for a beneficial use, and when the appropriator fails to apply it to the beneficial use cited in his permit or ceases to use it for the beneficial use cited in his permit for three successive years, unless such failure or cessation of use shall have been due to the unavailability of water, a

justifiable inability to complete the works, or other good and sufficient cause, the state engineer may declare such water permit or right forfeited; provided, however, that any such water permit or right held by a state agency, department, board, commission, or institution may be declared forfeited only by the North Dakota legislative assembly. For purposes of this chapter, an incorporated municipality has good and sufficient cause excusing the failure to use a water permit, if the water permit may reasonably be necessary for the future water requirements of the municipality. The state engineer shall, as often as necessary, examine the condition of all works constructed or partially constructed within the state and compile information concerning the condition of every water permit or right, and all ditches and other works constructed or partially constructed thereunder.

*** SECTION 3. AMENDMENT.** Section 61-04-24 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-04-24. Forfeiture of water rights - Notice - Contents. If it shall appear that any water appropriation or portion thereof has not been used for a beneficial use, or having been so used at one time has ceased to be used for such purpose for more than three successive years, unless such failure or cessation of use shall have been due to the unavailability of water, a justifiable inability to complete the works, or other good and sufficient cause, the state engineer shall set a place and time for a hearing. For purposes of this chapter, an incorporated municipality has good and sufficient cause excusing the failure to use a water permit, if the water permit may reasonably be necessary for the future water requirements of the municipality. Any holder of a water permit using water from a common source of supply, any applicant therefor or any interested party may request the state engineer to conduct such a hearing, the purpose of which shall be the cancellation of any unused water rights to such common source of supply. Any decision of the state engineer in denying a request for such a hearing may be appealed in the manner prescribed by section 61-04-07. Prior to the hearings the state engineer shall serve notice upon the permitholder and upon the owners of land benefited by such appropriation or works to show cause by such time and at such place why the water appropriation or a portion thereof should not be declared forfeited and canceled.

In addition to the time and place of hearing, such notice shall contain:

1. A description of the water appropriation.
2. The permit number upon the records of the commission.
3. The date of priority.
4. The point of diversion.

* NOTE: Section 61-04-24 was also amended by section 1 of Senate Bill No. 2198, chapter 671.

5. A description of the lands benefited by such appropriation as indicated on the application for a water permit on file in the office of the commission.
6. Notice that the permitholder, the owners of land benefited by such appropriation or works, and other interested parties whose right to use water may be affected by a cancellation of the appropriation are to show cause why such appropriation, or a portion thereof, should not be canceled.

The notice shall be served personally or sent by registered or certified mail at least thirty days before the date of hearing to the permitholder and to the owners of land benefited by such appropriation as indicated on the application for a water permit on file in the office of the commission, or to persons having an interest in works as they appear from the records of the county treasurer or the register of deeds. In addition, such notice shall be published in a newspaper of general circulation in the county in which the point of diversion is located once each week for two consecutive weeks prior to the date of hearing.

SECTION 4. AMENDMENT. Section 61-04-25 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-04-25. Forfeiture of water rights - Hearing - Appeal. At such hearing the verified report of the state engineer or engineers of the state water commission shall be prima facie evidence for the forfeiture and cancellation of such water permit or portion thereof. If no one appears at the hearing, such water permit or portion thereof shall be declared forfeited and canceled. If interested parties shall appear and contest the cancellation, the state engineer shall hear the evidence and if it appears that such water has not been put to a beneficial use or, having been so used at one time, has ceased to be used for such purpose for more than three successive years, unless such failure or cessation of use shall have been due to the unavailability of water, a justifiable inability to complete the works, or other good and sufficient cause, the same, or a portion thereof, shall be declared forfeited and canceled. For purposes of this chapter, an incorporated municipality has good and sufficient cause excusing the failure to use a water permit, if the water permit may reasonably be necessary for the future water requirements of the municipality. DRAIN MAINTENANCE ASSESSMENTS

AN ACT to amend and reenact sections 61-16.1-45 and 61-21-46 of the North Dakota Century Code, relating to assessments for drain maintenance.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-16.1-45 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-16.1-45. Maintenance of drainage projects. If it is desired to provide for maintenance of an assessment drain in whole or in part by means of special assessments, the levy in any year for such maintenance shall not exceed one dollar and fifty cents per acre [.40 hectare] on any agricultural lands benefited by the drain. The district may, at its own discretion, utilize either of the following methods for levying special assessments for such maintenance.

1. Agricultural lands which carried the highest assessment when the drain was originally established, or received the most benefits under a reassessment of benefits, may be assessed the maximum amount of one dollar and fifty cents per acre [.40 hectare]. The assessment of other agricultural lands in the district shall be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full one dollar per acre [.40 hectare]. Nonagricultural property shall be assessed such sum in any one year as the ratio of the benefits under the original assessments or any reassessment bears to the assessment of agricultural lands bearing the highest assessment.
2. Agricultural lands shall be assessed uniformly throughout the entire assessed area. Nonagricultural property shall be assessed an amount not to exceed one dollar for each

five hundred dollars of taxable valuation of such nonagricultural property.

In case the maximum levy of one dollar per acre [.40 hectare] or assessment on agricultural and nonagricultural property for any year will not produce an amount sufficient to cover the cost of cleaning out and repairing such drain, a water resource board may accumulate a fund in an amount not exceeding the sum produced by such maximum permissible levy for five two years.

If the cost of, or obligation for, the cleaning and repair of any drain exceeds the total amount which can be levied by the board in any two-year period, the board shall obtain the approval of the majority of the landowners as determined by chapter 61-16.1 prior to obligating the district for such costs.

SECTION 2. AMENDMENT. Section 61-21-46 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-21-46. Maximum levy - Accumulation of fund. The levy in any year for cleaning out and repairing a drain shall not exceed one dollar and fifty cents per acre [.40 hectare] on any agricultural lands in the drainage district.

1. Agricultural lands which carried the highest assessment when the drain was originally established, or received the most benefits under a reassessment of benefits, may be assessed the maximum amount of one dollar and fifty cents per acre [.40 hectare]. The assessment of other agricultural lands in the district shall be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full one dollar and fifty cents per acre [.40 hectare]. Nonagricultural property shall be assessed such sum in any one year as the rationing of the benefits under the original assessments or any reassessments bears to the assessment of agricultural land bearing the highest assessment.
2. Agricultural lands shall be assessed uniformly throughout the entire assessed area. Nonagricultural property shall be assessed an amount not to exceed one dollar for each five hundred dollars of taxable valuation of such nonagricultural property.

In case the maximum levy or assessment on agricultural and nonagricultural property for any year will not produce an amount sufficient to cover the cost of cleaning out and repairing such drain, the board may accumulate a fund in an amount not exceeding the sum produced by such maximum permissible levy for two years. If the cost of, or obligation for, the cleaning and repair of any drain shall exceed the total amount which can be levied by the board in

any two-year period, the board shall obtain an affirmative vote of the majority of the landowners as determined by section 61-21-16 prior to obligating the district for such costs.

ARTESIAN WELLS

AN ACT to amend and reenact sections 61-20-01, 61-20-02, and 61-20-03 of the North Dakota Century Code, relating to artesian wells.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-20-01 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-20-01. Valve or valves required on artesian well - Flow permitted from artesian wells - Preventing flow. Every person, stock company, association, or corporation owning or controlling the real estate upon which is located an artesian or flowing well shall provide for each such well a valve or valves capable of controlling the discharge from such well and shall keep such valve or valves so adjusted that only such supply of water shall escape as is necessary for ordinary use by the owner, or the person in control, of such land, in conducting his business. In the winter, such flow may be permitted as will prevent freezing of the well, and in those cases where it is necessary, a sufficient flow may be allowed to prevent clogging of for the purposes of developing the well. The owner of an artesian well shall be required, by means of the construction of a reservoir or otherwise, to prevent the flow of his well from running upon land belonging to another or from running into any ditch along any public highway except a regularly established drainage ditch.

SECTION 2. AMENDMENT. Section 61-20-02 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-20-02. Drilling artesian or flowing well - Requirements --Valve below frost level. Every person, stock company, association, or corporation which shall drill an artesian or flowing well, shall drill a small smooth hole through the cap-rock to fit the pipe closely, and shall use every possible means to seal around the main pipe in such a manner that no water can escape from the flow. No dynamite or other explosive shall be used in penetrating the water

covering layer of cap-rock. This does not apply to boulders of granite or other obstacles in non-water-bearing horizons. Where the top part of the water-bearing layers of any given flow are soft and crumbling, yielding muddy or sandy flow, the driller may not end the well at this level, but must test the layers by boring on down a reasonable distance, from five to twenty-five feet at least, and more, if the owner of the land requires, to locate a terminus in a firm sandrock which will stand firm, preventing dirty flow and permitting regulation of the flow. Once the firm stratum is located, the driller shall attach in it at the end of the well pipe a strainer of noncorrosive material, with numerous small perforations to insure clear pure water and nonclogging. If the owner requests, the driller must place a valve below frost level with a handle reaching to the surface so that the well may be entirely shut off at will. He shall extend the outside or surface casing to, and fit the same solidly into, the shale or hard clay formation a sufficient distance entirely to prevent a flow around the casing. He shall seal between casing and pipe comply with the rules of the state engineer regarding such activity.

SECTION 3. AMENDMENT. Section 61-20-03 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-20-03. Well clogged to be left open - Application of chapter-- Wild wells. In case of a new well in any soft formation where clay, sand, or any sediment is liable to cause clogging, the valve may be left open until the well has cleared sufficiently. It then shall be adjusted finally to normal conditions. The provisions of this chapter shall apply to a "wild" well, or a well out of control, except that if it is determined by the state engineer that such well cannot be repaired for use, no valve shall be attached, but every effort shall be made by the owner to seal, plug, or cut off the same, when in the estimation of the state geologist it will cause no less other than a reasonable amount of repair cost. Old wells which might be damaged by so doing need not be shut off, but such wells shall be put in repair at the earliest possible date and shall be regulated thereafter.

Possession of any handgun upon which any such identification mark has been changed, altered, removed, or obliterated creates a rebuttable presumption that the possessor made the alterations.

62.1-03-06. General penalty. Any person who violates any provision of this chapter, for which another penalty is not specifically provided, is guilty of a class A misdemeanor.

SECTION 6. Chapter 62.1-04 of the North Dakota Century Code is hereby created and enacted to read as follows:

62.1-04-01. Definition of concealed. A firearm or dangerous weapon is concealed if it is carried in such a manner as to not be discernible by the ordinary observation of a passerby. There is no requirement that there be absolute invisibility of the firearm or dangerous weapon, merely that it not be ordinarily discernible. A firearm or dangerous weapon is considered concealed if it is not secured, and is worn under clothing or carried in a bundle that is held or carried by the individual, or transported in a vehicle under the individual's control or direction and available to the individual, including beneath the seat or in a glove compartment. A firearm or dangerous weapon is not considered concealed if it is:

1. Carried in a belt holster which is wholly or substantially visible or carried in a case designed for carrying a firearm or dangerous weapon and which is wholly or substantially visible;
2. Locked in a closed trunk or luggage compartment of a motor vehicle;
3. Carried in the field while lawfully engaged in hunting, trapping, or target shooting, whether visible or not; or

4. Carried by any person permitted by law to possess a handgun unloaded and in a secure wrapper from the place of purchase to that person's home or place of business, or to a place of repair, or back from those locations.
5. A bow and arrow, an unloaded rifle or shotgun, or an unloaded weapon that will expel, or is readily capable of expelling, a projectile by the action of a spring, compressed air, or compressed gas including any such weapon commonly referred to as a BB gun, air rifle, or CO₂ gun, while carried in a motor vehicle.

62.1-04-02. Carrying concealed firearms or dangerous weapons prohibited. No person, other than a law enforcement officer, may carry any firearm or dangerous weapon concealed unless the person is licensed to do so or exempted pursuant to this chapter. For purposes of this chapter, dangerous weapon does not mean a spray or aerosol containing CS (ortho-chlorobenzamalotrile), CN (alpha-chloroacetophenone) or other irritating agent intended for use in the defense of a person.

62.1-04-03. License to carry a firearm or dangerous weapon concealed.

1. The chief of the bureau of criminal investigation shall issue a license to carry a firearm or dangerous weapon concealed upon review of an application submitted to the chief if the following criteria are met:
 - a. The applicant has a valid reason for carrying the firearm or dangerous weapon concealed, including self-protection, protection of others, or work-related needs.
 - b. The applicant is not a person specified in section 62.1-02-01.
 - c. The applicant has the written approval for the issuance of such a license from the sheriff of the applicant's county of residence, and, if the city has one, the chief of police or a designee of the city in which the applicant resides. The approval by the sheriff may not be given until the applicant has successfully completed a background investigation in that county and has attended a testing procedure conducted pursuant to rules adopted by the attorney general. The testing procedure for approval of a concealed weapons license must include an open book test to be given from a manual that sets forth weapon safety rules and the deadly force law of North Dakota, including judicial decisions and attorney general opinions, and a proficiency test consisting of a course of fire to be designated by the criminal justice training and statistics division of the

- attorney general's office. The purpose of the proficiency test is only to ensure a minimal level of competency in the loading and unloading of the firearm or dangerous weapon, use of safety devices and basic firearm or dangerous weapon functioning, and minimal accuracy. A weapons instructor certified by the attorney general shall conduct the testing procedure. The attorney general shall develop rules that ensure that this testing will be conducted periodically. The local agency conducting the testing may assess a charge of up to fifty dollars for conducting this testing.
- d. The applicant satisfactorily completes the bureau of criminal investigation application form and has successfully passed a background investigation or criminal records check conducted by that agency.
2. The sheriff is required to process the application within thirty days after the completion of the testing portion, the chief of police is required to process the application within ten working days of its receipt by the agency, and the bureau of criminal investigation is required to process the application and make a determination within thirty days of receipt from the forwarding agency.
3. The chief of the bureau of criminal investigation shall prescribe the form of the application and license, which must include the name, address, description, a photograph, and the signature of the individual. The application form must require sufficient information to properly conduct a background investigation and be accompanied by two sets of classifiable fingerprints. The license is valid for three years. The license must be prepared in triplicate, and the original must be delivered to the licensee, the duplicate must be sent by mail, within seven days after issuance, to the sheriff of the county in which the applicant resides, and the triplicate must be preserved for six years by the chief. In those cases in which the licensee resides in a city, an additional copy of the license must be made and sent by mail, within seven days after issuance, to the chief of police of the city in which the applicant resides. The individual shall notify the chief of the bureau of criminal investigation of any change of address or any other material fact which would affect the restrictions on or the need for the license.
4. The chief of the bureau of criminal investigation may deny an application or revoke or cancel such a license after it has been granted for any material misstatement by an applicant in an application for the license or any violation of this title.

5. The applicant may appeal a denial or revocation of this license to the district court of the applicant's county of residence.
6. The attorney general may adopt rules to carry out this title.

62.1-04-04. Producing license on demand. Every person while carrying a concealed firearm or dangerous weapon for which a license to carry concealed is required, shall have on one's person the license and shall give it to any law enforcement officer for an inspection upon demand by the officer. The failure of any person to give the license to the officer is prima facie evidence that the person is illegally carrying a firearm or dangerous weapon concealed.

62.1-04-05. Penalty. Any person who violates this chapter is guilty of a class A misdemeanor.

SECTION 7. Chapter 62.1-05 of the North Dakota Century Code is hereby created and enacted to read as follows:

62.1-05-01. Possession and sale of machine guns, automatic rifles, silencers, and bombs - Penalty. No person may purchase, sell, have, or possess a machine gun, fully automatic rifle, silencer, or bomb loaded with explosives or poisonous or dangerous gases or any other federally licensed firearm or dangerous weapon unless that person has complied with the National Firearms Act [26 U.S.C. 5801-5872].

Any federal licensee who purchases, sells, has, or possesses a machine gun, submachine gun, fully automatic rifle, silencer, or bomb loaded with explosives or poisonous or dangerous gases or any other federally licensed firearm or dangerous weapon for the licensee's protection or for sale must forward a copy of the licensee's federal license along with the required weapons transfer form to the licensee's local county sheriff and to the chief of the bureau of criminal investigation within five days of the receipt of those forms.

A person who violates this section is guilty of a class C felony. Upon arrest the firearm or dangerous weapon must be seized and upon conviction and motion, forfeited to the jurisdiction in which the arrest was made and the firearm or dangerous weapon may be, pursuant to court order, sold at public auction, retained for use, or destroyed.

62.1-05-02. Persons exempt from chapter. This chapter does not apply to:

1. The authorized agent and a servant of a person who has a license to purchase, sell, have, or possess a machine gun, submachine gun, fully automatic rifle, silencer, or a bomb loaded with explosives or poisonous or dangerous gases.

2. Any officer or member of a duly authorized military organization while on official duty and using the firearm or dangerous weapon issued to the officer or member by that organization.
3. A North Dakota law enforcement officer.
4. Any federal officer authorized by the federal government to have or possess a machine gun, submachine gun, fully automatic rifle, silencer, or bomb loaded with explosives or poisonous or dangerous gases.

COAL GASIFICATION BYPRODUCTS EXEMPTION

AN ACT to amend and reenact sections 57-60-01 and 57-60-03 of the North Dakota Century Code, relating to definitions for purposes of the privilege tax on coal facilities, to exempt byproducts of the coal gasification process from the gross receipts tax on coal gasification plants, and to annual reporting by the operator of a coal gasification plant of the quantity of byproducts produced.

VETO

February 14, 1985

The Honorable Roy Hausauer
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Speaker:

You all know as well as I how difficult the revenue situation in North Dakota has become. Since I gave my budget message, it appears my worst fears will be borne out.

As you know, I have already recommended agonizing cuts of \$73 million from former Governor Olson's proposed budget. If revenue projections continue to fall, we could even be faced with tax increases.

Because of that, I cannot entertain the idea of tax breaks to any sector of the economy unless it is justified beyond a shadow of a doubt.

As you know, large energy plants in North Dakota pay the coal conversion tax as a substitute for ad valorem tax paid by other property owners in our State. Under our property tax law, the applicable mill rate is applied to the equivalent of 5% of the true and full value of that property. The statewide mill rates average 240.3 mills, which yields an average property tax of approximately 1.2% of value. I have been informed by the Tax Department that the real property portion of large industrial facilities of this type averages approximately 50% of the total cost.

Applying the statewide average of 1.2% of value against half the value of the existing coal gasification plant yields a tax of over \$25 million per biennium. That is how they would be taxed if they were taxed as other property owners are taxed. Our revenue estimates under the current in lieu of property tax law indicate that that plant will pay only a total of \$18.7 million in tax during the next biennium.

Therefore, it is my judgment that the present law provides a very reasonable level of taxation on coal gasification plants when measured by the yardstick of the burden placed on the property owned by others in this state. Because that is true, I cannot justify a tax break that will certainly have, over time, a great impact on North Dakota revenues.

Finally, I believe it is also essential that you realize how strongly I am committed to a fair and balanced tax system. The existing tax appears to be eminently fair.

Therefore, I veto HB 1061.

Sincerely,

GEORGE A. SINNER
Governor

HOUSE BILL NO. 1005
(Committee on Appropriations)

**PERSONAL PROPERTY TAX REPLACEMENT
APPROPRIATION**

AN ACT making an appropriation for the distribution of funds for the replacement of personal property taxes revenue.

VETO

March 20, 1985

The Honorable Roy Hausauer
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Speaker:

House Bill 1005 provides for an \$11.9 million increase over my budget recommendations. It is essential to remember that, even with the \$73 million in budget cuts I have recommended, the State will be spending approximately \$100 million more than it will take in over the next biennium. To add to that spending will create major problems two years from now.

My budget recommendations, recognizing the difficulties faced by political subdivisions, contained a 16% increase in aid for them. This bill would result in a 38% increase. It is clearly in excess of what the State can afford and is unacceptable.

Therefore, I veto House Bill 1005. I am doing so immediately so that the Legislature will have the opportunity to enact a bill which is consistent with my budget recommendations.

Sincerely,

GEORGE A. SINNER
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. APPROPRIATION. The funds provided in this section, or so much thereof as may be necessary, are hereby appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, to the state tax commissioner for the purpose of replacement of personal property taxes, for the biennium beginning July 1, 1985, and ending June 30, 1987, as follows:

Grants, benefits, and claims	\$ 44,540,000
Total general fund appropriation	\$ 44,540,000

SECTION 2. DISTRIBUTION. The distribution of funds appropriated under section 1 of this Act shall be made in accordance with the formula for personal property tax replacement payments as provided for in section 57-58-01. During the year ending June 30, 1986, such payments shall not exceed one-half of the total appropriation provided for in this Act.

SECTION 3. PRORATION. Notwithstanding the provisions of section 57-58-01, which contains the formula for personal property tax replacement payments, the payments shall not exceed the amounts as set forth in this Act. If the appropriation provided for in this Act in any fiscal year is less than the amount determined by applying the formula as contained in section 57-58-01, the director of the office of management and budget shall pay only the amount of funds available under this Act. Under such circumstances, a method of proration shall be used that provides each eligible recipient the same proportion of these funds as the percent share of total funds it would have received under the application of the formula provided for in section 57-58-01.

RETAILERS' DEDUCTIONS FOR SALES TAX COLLECTION

AN ACT to amend and reenact sections 57-39.2-12.1 and 57-40.2-07.1 of the North Dakota Century Code, relating to deductions to reimburse retailers for administrative expenses of collection of sales and use taxes.

VETO

March 22, 1985

The Honorable Roy Hausauer
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Speaker:

During the 48th Legislative Assembly we first provided reimbursement for retailers who file monthly sales and use tax reports. We provided reimbursement in amounts of up to \$1,000 per year. Prior to that time, retailers were not reimbursed at all. Many other states still provide no reimbursement.

This bill would raise that amount and would have a negative revenue impact of up to \$785,000. Much of that would go to retailers outside of North Dakota.

While higher compensation for retailers is a worthwhile goal, at this time of extremely tight revenues, it is inappropriate.

Therefore, I veto House Bill 1375.

VETO

March 22, 1985

The Honorable Roy Hausauer
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Speaker:

Almost every North Dakota retailer would, with or without this bill, stay below the 18% interest rate on revolving charge accounts.

Basically, it is the low and middle income citizens, who must buy on credit, who would lose protection under this bill. If it is necessary to raise allowable interest rates, it is equally important that there be some legal restraint on those rates. This bill removes all such restraints. If a bill were presented to me which increased the amount of interest allowed, with a reasonable maximum amount, I would sign the bill. This bill does not do so.

Therefore, I veto House Bill 1305.

RECORD TRANSFERS**

AN ACT to amend and reenact sections 25-01.1-06, 25-01.1-13, 25-03.1-43, and 50-06-15 of the North Dakota Century Code, relating to the transfer of client and patient records between regional human service centers, and between a regional human service center and the state hospital.

VETO

April 1, 1985

The Honorable Roy Hausauer
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Speaker:

As amended, House Bill 1335 accomplishes exactly the opposite of what was intended by the bill's sponsor and the opposite of what is in the best interest of clients of human service centers and patients of the state hospital.

A very important function of human service centers is to provide after care and follow up mental health services and treatment to patients discharged from the state hospital. Another important function is to provide histories, diagnostic evaluations and

diagnostic information regarding clients admitted to the state hospital.

While I fully understand and appreciate the need for confidentiality of these records, it is also important to recognize that professional judgment and "need to know" are exercised in situations where the best interest of the client or patient dictates. This information exchange must be limited to an exchange within the human service system under carefully prescribed regulations.

Patients leaving the state hospital have fallen between the cracks due to the inability of the hospital to alert human service centers of an impending discharge and to give other information that is vital to follow up care. These patients, then, often return to the hospital because of the lack of such care, including the lack of proper medication. That has resulted in additional trauma and expense to the patient that probably could have been avoided.

This bill would limit access to records of mentally ill patients and clients by those who most need that information to properly care for them.

Therefore, I veto House Bill 1335.

Sincerely,

GEORGE A. SINNER
Governor

LEGAL COUNSEL FOR LEGISLATIVE BRANCH

AN ACT to create and enact a new subsection to section 54-35-02 of the North Dakota Century Code, to provide that the legislative council may appoint or retain legal counsel to protect the interests of the legislative branch in actions and proceedings.

VETO

April 1, 1985

The Honorable Roy Hausauer
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Speaker:

In 1890, The North Dakota legislature first prescribed the duties of the Attorney General. Those duties, in the context of House Bill 1408, remain the same today. (See Section 54-12-01 of the North Dakota Century Code). They include: To appear for and represent the state before the Supreme Court in all cases in which the state is interested as a party; to institute and prosecute all actions and proceedings in favor or for the use of the state and to appear and defend all actions and proceedings against any state officer.

In 1902, in language too clear to misconstrue, the legislature stated:

It is the intention of this Act to make the Attorney General, his assistants, and the state's attorney the only public prosecutor in all cases civil and criminal, wherein the state, or county, is a party to the action. 1901 N.D. Sess. Laws 178.

And the North Dakota Supreme Court has held:

"It seems to obvious for discussion that the framers of the Constitution, in providing for the election of these officers [Governor and Attorney General] by the people, thereby reserved unto themselves the right to have the inherent functions theretofore pertaining to said officers discharged only by persons elected as therein provided." The clear implication of this language is that the legislature has no constitutional power to abridge the inherent powers of the attorney general despite the fact that the constitution provides that the "duties of the . . . attorney general . . . shall be as prescribed by law." State v. Erickson, 7 N.W.2d 865, 867 (N.D. 1943).

The Attorney General has the necessary staff and resources to protect the legal interests of this state. Adding yet another legal staff would be an additional drain on the budget, duplicative and counter-productive. It could also lead to internal disputes, with different branches of state government pursuing different ends or different means to the same end.

The legal interests of this state are best protected by having a single office pursue all legal matters on behalf of the state.

Therefore, I veto House Bill 1408.

Sincerely,

GEORGE A. SINNER
Governor

AN ACT to amend and reenact section 57-61-01 of the North Dakota Century Code, to make permanent the rate of the coal severance tax in effect on July 1, 1987.

VETO

April 16, 1985

The Honorable Ben Meier
Secretary of State
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Meier:

House Bill 1638 would have no impact on revenues for the 1985-87 biennium because of the delayed effective date.

Nevertheless, it is not wise policy to pass legislation which would tend to limit the options of succeeding legislative sessions. It is also not wise policy to provide tax breaks without regard to future revenue needs.

I am not an advocate of the current approach to coal taxation, and the entire area of coal taxation needs thorough review. However, until that review is accomplished this measure may only cloud the issue.

Therefore, I veto House Bill 1638.

GEORGE A. SINNER

SECTION 1. AMENDMENT. Section 57-61-01 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

57-61-01. Severance tax upon coal - Imposition - Computation of increases - In lieu of sales and use taxes - Payment to the tax commissioner. There is hereby imposed upon all coal severed for sale or for industrial purposes by coal mines within the state a tax in an amount to be determined as follows:

1. Eighty-five cents per ton of two thousand pounds [907.18 kilograms]; and
2. For every four point increase in the index of wholesale prices for all commodities prepared by the United States department of labor, bureau of labor statistics, the amount of the severance tax provided in subsection 1 shall be increased one cent per ton of two thousand pounds [907.18 kilograms]. For the purposes of this computation, a fractional point increase shall be disregarded if less than one-half point and treated as one full point if one-half point or more. The state tax commissioner shall determine such increases based upon increases in the wholesale price index from the level of such index as of June 1979 to the level of such index as of December 1979 and of May and November of each year thereafter, and any increases based upon the level of the index in May shall be effective on and after the following July first and any increases based upon the level of the index in November shall be effective on and after the following January first. At no time shall the amount of the severance tax be reduced. If the wholesale price index declines, the severance tax shall remain at the highest level determined prior to such decline, and shall remain at such level until further increases are warranted because of further increases in the wholesale price index beyond the point at which the last increase was determined. Notwithstanding the other provisions of this section, the rate of the severance tax as determined pursuant to this section which is effective on July 1, 1987, shall remain the rate in effect for all coal severed after July 1, 1987.

Such severance tax shall be in lieu of any sales or use taxes imposed by law. Each coal mine owner or operator shall remit such tax for each month within twenty-five days after the end of each month, to the state tax commissioner upon such reports and forms as the tax commissioner shall deem necessary. If the method of determining increases in the amount of the severance tax provided in subsection 2 is for any reason held to be invalid, such decision shall not affect the validity of the amount of the tax provided in subsection 1.

Dear Lieutenant Governor Meiers:

I recognize there is a significant division among veterans on this issue. Even though I am a veteran, I have tried to make this decision on an objective basis.

In making my decision, I realized that it is important that North Dakotans join other Americans in honoring veterans. Having a different day from other Americans will only serve to create problems for families and businesses with ties outside this State.

Additionally, it is important that those of us who need to travel long distances to spend Memorial Day with families and friends have the extra time to travel and be together.

Finally, while I realize that it is impossible to legislate patriotism, those who truly wish to observe Memorial Day will be better able to do so under the current law.

SALES TAX EXEMPTION FOR HEATING GAS

AN ACT to amend and reenact sections 57-39.2-02.1 and 57-40.2-02.1 of the North Dakota Century Code, relating to the rate of sales and use taxes on gas used primarily for heating or cooling purposes in residential or commercial buildings.

VETO

April 1, 1985

The Honorable Ruth Meiers
President of the Senate
Senate Chamber
State Capitol
Bismarck, North Dakota 58505

Dear Madam President:

Senate Bill 2300 does accomplish a worth while purpose by equalizing the tax on natural gas and other energy taxes. In addition, because of the delayed effective date, it would have no impact on revenues for the 1985-87 biennium.

Nevertheless, it is not wise policy to pass legislation which would tend to limit the options of succeeding legislative sessions. It is also not wise policy to provide tax breaks without regard for future revenue needs.

The good ends sought in this bill can be better determined by the 1987 legislative assembly, when the revenue picture for the 1987-89 biennium will be far more clear.

Therefore, I veto Senate Bill 2300.

Sincerely,

GEORGE A. SINNER
Governor

SENATE BILL NO. 2159
(Committee on Industry, Business and Labor)
(At the request of Job Service North Dakota)

UNEMPLOYMENT BENEFITS

AN ACT to amend and reenact subsection 1 of section 52-06-04 and section 52-06-05 of the North Dakota Century Code, relating to unemployment compensation weekly benefit amount and benefit duration.

VETO

April 16, 1985

The Honorable Ben Meier
Secretary of State
State Capitol
Bismarck, North Dakota 58505

Dear Mr. Meier:

Current law provides that on July 1, 1985, the maximum weekly benefit amount for job insurance payments will be 67 percent of the average weekly wage in North Dakota. Senate Bill 2159 would reduce and freeze the maximum weekly benefit amount permanently, regardless of what happens to the economy, prices or wages.

The 1983 Legislature already took action to cut benefit payments substantially. The cuts in this bill go beyond what is needed and place an unfair burden on the worker.

Very early in the legislative session, I appointed a committee to try to develop a compromise position that everyone could support. Unfortunately, a final compromise was not accepted by the Legislature.

I am directing Job Service North Dakota to continue a strong program of screening recipients who draw job insurance benefits and to begin an immediate review of the entire job insurance program to determine any long-range improvements that can be made. I recognize the need for a realistic tax level for the job insurance program, but I also recognize the need for an adequate program of job insurance benefits.

Therefore, I veto Senate Bill 2159.

Sincerely,

GEORGE A. SINNER
Governor

STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 1 of section 52-06-04 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

1. The procedures, provisions, and conditions of this section shall determine the "weekly benefit amount" of those individuals who establish a benefit year on and after July 1, 1973:
 - a. For the purpose of this section the bureau shall each year, on or before the first day of June, determine the average annual wage paid to insured workers and, from that determination, an "average weekly wage", by the following computation:

The total wages reported on contribution reports for the preceding calendar year shall be divided by the average monthly number of covered workers, whose number shall be determined by dividing by twelve the total covered employment reported on contribution reports for the preceding calendar year, and the quotient obtained by dividing the total wages by the average monthly number of covered workers shall be the average annual wage; and such quotient shall be divided by fifty-two and the amount thus obtained, rounded to the nearest cent, shall be the "average weekly wage".

b. An individual's "weekly benefit amount" shall be an amount equal to one fifty-second (if not a multiple of one dollar, to be computed to the next lower multiple of one dollar) of the individual's total wages for insured work paid during the two quarters of the individual's base period in which the individual's wages were the highest, however, if such amount is less than the "minimum weekly benefit amount" the individual shall be monetarily ineligible for benefits. The "minimum weekly benefit amount" shall be ~~eighteen~~ fifteen times the current federal minimum hourly wage provided under the Fair Labor Standards Act [29 U.S.C. 206]. The "minimum weekly benefit amount", if not a multiple of one dollar, shall be rounded to the next lower multiple of one dollar. The "maximum weekly benefit amount" shall be as hereinafter provided-

- (1) ~~Sixty-two~~ sixty percent of the "average weekly wage", rounded to the next lower multiple of one dollar if not a multiple of one dollar, shall be the "maximum weekly benefit amount" that can be paid to any individual whose benefit year commences on or after July 1, 1983, 1985. However, for the period beginning July 1, 1985, and thereafter, the "maximum weekly benefit amount" may not exceed one hundred seventy-five dollars.
- (2) ~~Sixty-five~~ percent of the "average weekly wage", rounded to the next lower multiple of one dollar if not a multiple of one dollar, shall be the "maximum weekly benefit amount" that can be paid to any individual whose benefit year commences on or after July 1, 1984.
- (3) ~~Sixty-seven~~ percent of the "average weekly wage", rounded to the next lower multiple of one dollar if not a multiple of one dollar, shall be the "maximum weekly benefit amount" that can be paid to any individual whose benefit year commences on or after July 1, 1985.

SECTION 2. AMENDMENT. Section 52-06-05 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

52-06-05. Maximum potential benefits. Any otherwise eligible individual shall be entitled during the individual's benefit year to benefits for the number of times the individual's weekly benefit amount appearing in the following table on the line which includes the individual's ratio of total base-period wages to highest quarter base-period wages:

SENATE BILL NO. 2436
(Senators Satrom, Lips, Reiten)
(Representatives Martinson, G. Berg, Payne)

PUBLIC DOCUMENT PRINTING

AN ACT to amend and reenact sections 46-02-04 and 46-02-09 of the North Dakota Century Code, relating to the classes and definitions of printing and duplicating public documents.

VETO

April 16, 1985

The Honorable Ben Meier
Secretary of State
First Floor, State Capitol
Bismarck, North Dakota 58505

Dear Mr. Meier:

Senate Bill 2436 attempts to define and make distinctions between the terms "printing" and "duplicating" which are unclear and confusing. It would place arbitrary limits upon State printing and duplicating without regard to efficient or cost-effective considerations.

The Central Duplicating Service has, in the past, exceeded the limits mandated by this bill and has done so because there has been a cost savings and better service for the State.

While it is neither wise nor beneficial to enlarge printing and duplicating services excessively, neither is it wise to place arbitrary limits upon those services. State government is not in

the business of competing with private enterprise, but it is charged with utilizing tax dollars as effectively and efficiently as possible. This bill would prevent that.

Therefore, I veto Senate Bill 2436.

Sincerely,

GEORGE A. SINNNER
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE
STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 46-02-04 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

46-02-04. Classes of printing - Contracts - Definition. The printing of the state is hereby divided into classes as follows:

1. The printing of legislative documents for the use of the legislative assembly shall constitute the first class. For the purposes of this subsection, the words "legislative documents" shall mean bills and resolutions. However, certain bills and resolutions may be excepted from this class, as directed by officers of the legislative assembly or as provided for in the rules of the senate and the house of representatives.
2. The printing and binding of the journals of the senate and the house of representatives shall constitute the second class.
3. The printing and binding of the reports and other documents required by state law to be prepared and submitted to the governor and the office of management and budget, and which make up the governmental biennial reports as prescribed by sections 54-06-03 and 54-06-04, shall constitute the third class. This class does not include the official budget report.
4. The printing and binding of the volumes of laws, with such legislative resolutions as shall be included in said volumes, shall constitute the fourth class.
5. Repealed by S.L. 1979, ch. 187, § 108.
6. All printing not included in the foregoing classes shall constitute the sixth class.

Separate contracts for each of classes 3 and 4 shall be let by the office of management and budget under competitive bidding in accordance with the provisions of this title and at a cost and price not in excess of the cost and price as provided for in the Franklin Printing Catalogue. Contracts for classes 1 and 2 shall be let by competitive bidding by the office of management and budget in accordance with the rules of the senate and the house of representatives of the state of North Dakota of the previous legislative session, but at a cost and price not in excess of the cost and price as provided for in the Franklin Printing Catalogue. For purposes of this section, the term "printing" includes the use of process color printing, presses larger than eleven by seventeen inches [27.94 x 43.18 centimeters], die cutting, snap out forms, continuous forms, perfect binding, and the production in excess of ten thousand impressions of any page or fifty thousand impressions in the aggregate of items consisting of multiple pages.

SECTION 2. AMENDMENT. Section 46-02-09 of the 1983 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

46-02-09. Sixth-class items - When bids or quotations required - Costs determined - Definition. All work on sixth-class items amounting to three hundred dollars or over as determined by the Franklin Printing Catalogue, not done by the central duplicating service of the office of management and budget or by departments, institutions, or state offices with authorized duplicating ~~or printing~~ centers, or institutions with printing services or journalistic programs under the jurisdiction of the board of higher education, must be let by competitive bidding or by the solicitation of at least two quotations by the office of management and budget, or by the departments, institutions, or state offices authorized to bid their own printing needs. Printing items amounting to less than three hundred dollars may be given by the department head to the printer of his choice. All departments, institutions, or state offices shall submit requisitions for all printing to the office of management and budget. Departments, institutions, or state offices authorized to do their own bidding must attach the bids or quotations to their requisition for printing. Where practical, all departments, institutions, or state offices authorized to do their own bidding shall take advantage of annual contracts established by the office of management and budget. The office of management and budget shall determine and fix the reasonable maximum cost or price for such printing work. The maximum cost of the work shall not exceed Franklin Printing Catalogue prices. For purposes of this section, the term "duplicating" includes procedures used for bid preparation purposes and production of materials for the legislative branch. The level of duplicating services provided by the central duplicating division of the office of management and budget cannot be enlarged from that provided as of January 1, 1985, and cannot include printing.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. The State Board of Higher Education shall not assume jurisdiction acquired under section 15-10-01.1 of the North Dakota Century Code, over all junior colleges and off-campus education centers that were established under Chapter 15-18 of the North Dakota Century Code, and all off-campus educational centers that were established under section 15-18-04.1 of the North Dakota Century Code. If approved by sixty percent of the electors voting, the school board may proceed with the levy and collection of the tax. The total mills levied under this section may not exceed sixteen. The levy shall be in addition to all other mill levy limitations provided by law, and the proceeds shall be placed in a separate fund, accounted for separately, and used exclusively for the support, operation, and maintenance of the off-campus educational center. Expenditures may be made by the school board without going through the institution of higher education with whom an agreement has been entered.

The levy authorized by this section is over and above any mill levy limitation provided by law. After the approval of such levy, upon petition of five percent of the electors voting in the last preceding countywide election, the county commissioners shall submit the question to the continuance of the levy to the next countywide election, and if the majority of the electors vote to discontinue such levy, the levy shall be discontinued in subsequent years.

The amendment also repeals sections 1 through 13 and sections 16 through 18, and sections 22 through 24 of article IV of the Constitution of the State of North Dakota, and provides that these changes will take effect on December 1, 1986.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the following proposed eight new sections to article IV and the repeal of sections 1 through 13, sections 16 through 18, and sections 22 through 24 of article IV of the Constitution of the State of North Dakota are agreed to and shall be submitted to the qualified electors of the state of North Dakota at the 1984 primary election, in accordance with the provisions of section 45 of the present article IV of the Constitution of the State of North Dakota.

SECTION 1. A new section to article IV of the Constitution of the State of North Dakota is hereby created and enacted to read as follows:

The senate must be composed of not less than forty nor more than fifty-four members, and the house of representatives must be composed of not less than eighty nor more than one hundred eight members. These houses are jointly designated as the legislative assembly of the state of North Dakota.

The legislative assembly shall guarantee, as nearly as is practicable, that every elector is equal to every other elector in the state in the power to cast ballots for legislative candidates. A senator and at least two representatives must be apportioned to each senatorial district and be elected at large or from subdistricts from those districts. The legislative assembly may combine two senatorial districts only when a single member senatorial district includes a federal facility or federal installation, containing over two-thirds of the population of a single member senatorial district, and may provide for the election of senators at large and representatives at large or from subdistricts from those districts.

STATEMENT OF INTENT

This amendment creates five new sections to article IV of the North Dakota Constitution establishing basic procedures for the operation of the legislative assembly. It further provides that all meetings of the legislative assembly and its committees be open and public, and provides a method for the legislative assembly to propose constitutional amendments to be submitted to the voters for approval or disapproval. The amendment also repeals sections 20 and 21 and sections 25 through 45 of the present article IV of the Constitution of the State of North Dakota, and provides that these changes will take effect on December 1, 1986.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the following proposed new sections of article IV and the repeal of the present section 20 and 21 and sections 25 through 45 of article IV of the Constitution of the State of North Dakota are agreed to and shall be submitted to the qualified electors of the state of North Dakota at the 1984 general election, in accordance with the provisions of section 45 of the present article IV of the Constitution of the State of North Dakota.

SECTION 1. A new section to article IV of the Constitution of the State of North Dakota is hereby created and enacted to read as follows:

A majority of the members elected to each house constitutes a quorum. A smaller number may adjourn from day to day and may compel

attendance of absent members in a manner, and under a penalty, as may be provided by law.

Each house is the judge of the qualifications of its members, but election contests are subject to judicial review as provided by law. If two or more candidates for the same office receive an equal and highest number of votes, the secretary of state shall choose one of them by the toss of a coin.

Each house shall determine its rules of procedure, and may punish its members or other persons for contempt or disorderly behavior in its presence. With the concurrence of two-thirds of its elected members, either house may expel a member.

SECTION 2. A new section to article IV of the Constitution of the State of North Dakota is hereby created and enacted to read as follows:

Each house shall keep a journal of its proceedings, and a recorded vote on any question shall be taken at the request of one-sixth of those members present. No bill may become law except by a recorded vote of a majority of the members elected to each house, and the lieutenant governor is considered a member-elect of the senate when the lieutenant governor votes.

No law may be enacted except by a bill passed by both houses, and no bill may be amended on its passage through either house in a manner which changes its general subject matter. No bill may embrace more than one subject, which must be expressed in its title; but a law violating this provision is invalid only to the extent the subject is not so expressed.

Every bill must be read on two separate natural days, and the readings may be by title only unless a reading at length is demanded by one-fifth of the members present.

No bill may be amended, extended, or incorporated in any other bill by reference to its title only, except in the case of definitions and procedural provisions.

The presiding officer of each house shall sign all bills passed and resolutions adopted by the legislative assembly, and the fact of signing shall be entered at once in the journal.

Every law enacted by the legislative assembly takes effect on July first after its filing with the secretary of state or ninety days after its filing whichever comes later, or on a subsequent date if specified in the law unless, by a vote of two-thirds of the members elected to each house, the legislative assembly declares it an emergency measure and includes the declaration in the Act. An emergency measure takes effect upon its filing with the secretary of state or on a date specified in the measure. Every law enacted by a special session of the legislative assembly takes effect on a date specified in the Act.

The legislative assembly shall enact all laws necessary to carry into effect the provisions of this constitution. Except as otherwise provided in this constitution, no local or special laws may be enacted, nor may the legislative assembly indirectly enact special or local laws by the partial repeal of a general law but laws repealing local or special laws may be enacted.

SECTION 3. A new section to article IV of the Constitution of the State of North Dakota is hereby created and enacted to read as follows:

All sessions of the legislative assembly, including the committee of the whole and meetings of legislative committees, must be open and public.

SECTION 4. A new section to article IV of the Constitution of the State of North Dakota is hereby created and enacted to read as follows:

Members of the legislative assembly are immune from arrest during their attendance at the sessions, and in going to or returning from the sessions, except in cases of felony. Members of the legislative assembly may not be questioned in any other place for any words used in any speech or debate in legislative proceedings.

SECTION 5. A new section to article IV of the Constitution of the State of North Dakota is hereby created and enacted to read as follows:

Any amendment to this constitution may be proposed in either house of the legislative assembly, and if agreed to upon a roll call by a majority of the members elected to each house, must be submitted to the electors and if a majority of the votes cast thereon are in the affirmative, the amendment is a part of this constitution.

(Legislative Council)
(Interim Administrative Rules Committee)

ADMINISTRATIVE AGENCY RULEMAKING AND APPEALS STUDY

A concurrent resolution directing the Legislative Council to study the statutes governing the rulemaking procedures and grants of rights of appeal from decisions of administrative agencies.

WHEREAS, the 1979-80 interim Administrative Rules Committee recommended a revision of the definition of administrative agency as used in the Administrative Agencies Practice Act (North Dakota Century Code Chapter 28-32); and

WHEREAS, the revised definition eliminated the requirement that statutes outside of Chapter 28-32 provide a separate right of appeal from decisions of administrative agencies; and

WHEREAS, that committee's intent and objective in revising the definition of administrative agency was correctly applied by the North Dakota Supreme Court in Hammond v. North Dakota State Personnel Board, 332 N.W.2d. 244 (N.D. 1983), by construing Section 28-32-15 as granting a right of appeal from final decisionmaking of administrative agencies, without the necessity that a right of appeal be provided by other statutes; and

WHEREAS, the analysis provided by the North Dakota Supreme Court may also apply to determine that an administrative agency has rulemaking authority under Section 28-32-02, without a separate statutory provision granting rulemaking authority; and

WHEREAS, several statutes throughout the North Dakota Century Code concerning administrative agencies and programs of administrative agencies may refer to rights of appeal and to rulemaking authority and procedures; and

WHEREAS, the presence of these provisions outside of Chapter 28-32 is confusing and may lead to questions as to the correct application of Chapter 28-32 with respect to the rulemaking and adjudicatory practices of state agencies, as well as the right of appeal from decisionmaking of administrative agencies;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council is directed to study the statutes governing rulemaking authority and procedures of state agencies, as well as the statutes granting rights of appeal from decisions of state agencies, with emphasis on standardizing rulemaking and appeals procedures by deleting such provisions in recognition of the provisions of the Administrative Agencies Practice Act; and

BE IT FURTHER RESOLVED, that the Legislative Council report its findings and recommendations, together with any legislation required to implement the recommendations, to the Fiftieth Legislative Assembly.

WHEREAS, the acquisition of these fee lands has resulted in the loss of tax revenues to counties in North Dakota because of the removal of these fee lands from the tax base; and

WHEREAS, under the federal Wildlife Refuge Revenue Sharing Act and the Payments in Lieu of Taxes Act of 1976, the federal government is to make payments in lieu of taxes to these affected counties to ameliorate the effects of the diminished tax base; and

HOUSE CONCURRENT RESOLUTION NO. 3012 (Representatives Strinden, Mertens) (Senators Nething, Heigaard)

POSITION ON GARRISON DIVERSION PROJECT

A concurrent resolution advising the Garrison Diversion Unit Commission of the Legislative Assembly's position on plans for the Garrison Diversion Project now being considered by the commission.

WHEREAS, the North Dakota Legislative Assembly, representing all the people and all the interests of the state, views a sound water resource development program of Missouri River water diversion as basic to the long-term aspirations of North Dakota to accommodate residential growth and improve economic well-being through agriculture and industry; and

WHEREAS, North Dakota has sacrificed the economic gross product of 840 square miles of its choice Missouri River bottomland at an annual loss of \$131 million in economic gross product so that the Pick-Sloan Program can provide flood control, river navigation, and low cost hydroelectric power of most benefit to downstream states; and

WHEREAS, North Dakota's effort to obtain the 1,007,000 acres of irrigation promised in the Flood Control Act of 1944 to offset this state's sacrifice has been challenged by interests fearing a reduction in the production of wild waterfowl, and those who seek to prevent upstream Missouri River water diversion; and

WHEREAS, the Congress of the United States has created the Garrison Diversion Unit Commission to compromise differences between those who fear a reduction in the production of wild waterfowl and those who seek implementation of a North Dakota water development and management program to serve the long-term interests of irrigation, municipal and industrial use, and recreation as well as wild waterfowl habitat enhancement; and

WHEREAS, the Garrison Diversion Unit Commission will meet in Minot, December 13, 1984, to draw up its final recommendations to Congress;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the 49th Session of the North Dakota Legislative Assembly meeting in special session in Bismarck, December 6, 1984, does by this resolution advise the Garrison Diversion Unit Commission as follows:

1. The Legislative Assembly recognizes that North Dakota's vast 32 million acre pothole region has great advantages in the production of wild waterfowl and the state has certain Central Flyway obligations, consequently the Legislative Assembly continually reviews, establishes, and adjusts laws and programs relating to the production and protection of wild waterfowl, and regards such wild waterfowl production in its rightful context as an integral and important part of this state's water resource development and management, but not an integral part that is dominant to the detriment of other beneficial water users.
2. The Legislative Assembly recognizes the need for North Dakota to consider the interests of adjacent Canadian provinces and the need to cooperate with them in our mutual and reciprocal interests, and that our Canadian relationship is under continuing legislative review and adjustment regarding such diverse activities as Canadian hydroelectric transmission and sales in and across the state, Canadian air and water pollution from border developments, sale of Canadian fresh and frozen fish outside of the Hudson Bay drainage in the state, and water resource development including irrigation in the United States-Canadian drainage in the state.
3. The Legislative Assembly recognizes that state lines do not determine the configuration of the projects in the 10-state Pick-Sloan Program, and that those upstream states making an annual sacrifice to provide Pick-Sloan Program benefits downstream include South Dakota, which has a legitimate claim to water development in that state through the continuation of the James River portion of the Garrison Diversion Project.
4. Any final decision that places a limit on North Dakota's potential for ultimate beneficial use and management of this state's share of Missouri River water caused by the elimination of the full design and construction of the Lonetree Reservoir and the Taayer Reservoir or an alternative regulating reservoir is unacceptable.
5. Any final decision that removes South Dakota's legitimate potential for ultimate use and management of a share of Missouri River water through elimination of the Lonetree

- Reservoir and the Taayer Reservoir or an alternative regulating reservoir is unacceptable.
6. Any final decision that would eliminate Lonetree Reservoir because of Canadian opposition would cause an unresolved difference between Manitoba and North Dakota to fester forever, which would adversely affect relations between us on a host of matters. This state's use of Missouri River water in the United States-Canadian drainage can and will be resolved to Canada's satisfaction in time.
 7. Any final decision that attempts to solve future large-scale municipal and industrial water demand, caused by growth and industrial development, by pipelines the size of which establishes maximum future growth, and the costs of installation, operation, maintenance, and eventual replacement of which would be excessive, is unacceptable as a substitute for the thoroughly engineered and designed project which includes the full design and construction of the Lonetree Reservoir.
 8. Any final decision that eliminates Lonetree Reservoir and a regulating reservoir on the lower James River as features of water development and management in North Dakota, in order to make the dominant mission of water development in this state that of wild waterfowl production, is unacceptable.
 9. The North Dakota Legislative Assembly does fully endorse and approve the efforts of the Governor and the Garrison Diversion Conservancy District to have accepted as the Garrison Diversion Unit Commission's final decision the "North Dakota Plan" for development of the Garrison Diversion Unit calling for the potential irrigation of 303,000 acres of irrigation and other multiple uses, and in addition, any associated development, protection, and management for stabilized and enhanced wild waterfowl production, insulated where possible from the wide swings in wild waterfowl production caused by the ever recurring wet-dry cycles.
 10. The Legislative Assembly believes that an equitable compromise consists of two opposing sides achieving their objectives. The National Audubon Society can achieve its objectives of protecting and enhancing the annual wild waterfowl production in North Dakota without crippling and making unworkable the Garrison Diversion Project. The state of North Dakota can achieve the Garrison Diversion Project objective without reducing wild waterfowl production. Any compromise which destroys the objectives of either of the opposing sides is not a compromise. Elimination of the Lonetree Reservoir and a regulating reservoir on the lower James River would make the Garrison Diversion Project so engineeringly unworkable,

environmentally and economically unsound and so limiting in potential for ultimate development as to be unacceptable; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of State to each member of the Garrison Diversion Unit Commission and to each member of the North Dakota Congressional Delegation.

WHEREAS, 23 million Americans, or 22 percent of the total United States work force, earn their livings in the farm food or fiber industry; and

WHEREAS, high interest rates, the unavailability of farm credit, low farm product prices, devalued land, and the strong United States dollar have resulted in a farm credit crisis for many farmers; and

WHEREAS, the farm credit crisis is having an adverse effect upon all sectors of the United States economy and is adversely affecting every state in the union; and

CONDEMNED**

A concurrent resolution condemning the persecution of members of the Baha'i faith by the government of Iran.

WHEREAS, the civilized peoples of the world are increasingly alarmed and appalled at the persecution and severe repression of the Baha'is in Iran; and

WHEREAS, since the 1979 revolution in Iran, more than 170 prominent members of the Baha'i faith have been assassinated or executed, and more than 700 members are currently imprisoned; and

WHEREAS, since the 1979 revolution in Iran, all Baha'i holy places, properties, and cemeteries have been confiscated or destroyed; and

WHEREAS, hundreds of Baha'is have been dismissed from their jobs or deprived of their business and trade licenses and seizure of members' bank funds and destruction of members' personal property have been widespread; and

WHEREAS, no child of Baha'i parentage has been allowed to register for school at any level; and

WHEREAS, these genocidal practices by the Iranian government clearly violate its obligations under international human rights law, particularly the International Covenant on Civil and Political Rights; and

WHEREAS, the people of the State of North Dakota and all the United States of America are now, and always will be, adamantly opposed to persecution of all kinds, especially religious persecution; and

WHEREAS, all civilized peoples recognized the existence of international legal and moral principles demanding respect for human rights and for fundamental freedoms for all without distinction as to race, sex, language, or religion; and

WHEREAS, on December 11, 1946, in reaction to the genocide practiced in World War II, the General Assembly of the United Nations adopted a resolution denouncing genocide as a crime under international law;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly of the State of North Dakota expresses its shock and revulsion at the present program of the Iranian government to decimate the Baha'i faith and implores the Iranian leadership to acknowledge and abide by its obligations under international human rights law and to put an immediate end to its genocidal practices; and

BE IT FURTHER RESOLVED, that the Forty-ninth Legislative Assembly urges that the United States of America, through its membership in the United Nations, propose that the General Assembly of that organization adopt a resolution denouncing the genocidal actions of the Iranian government, and call on the Security Council of that organization to investigate the persecution of members of the Baha'i faith by Iran and take all necessary actions to assure that this violation of international law is stopped; and

CRIMINAL JUDGMENT CENTRAL FILING STUDY

A concurrent resolution directing the Legislative Council to study the feasibility and desirability of establishing a central filing office for criminal judgments.

WHEREAS, criminal records maintained by the Bureau of Criminal Investigation, Game and Fish Department, and Motor Vehicle Operators License Division of the Highway Department are not comprehensive in that each agency's records concern only violations of laws within the jurisdiction of that agency; and

WHEREAS, misdemeanants who receive a deferred imposition of sentence or a suspended sentence conditioned upon court-ordered terms are not usually placed under the supervision of parole officers; and

WHEREAS, the cost of using parole agents for defendants who have received conditional deferred or suspended sentences for misdemeanor offenses would be unduly prohibitive in both time and money; and

WHEREAS, the criminal records maintained by state agencies are inadequate to allow determination of whether the terms of an individual's suspended or deferred sentence have been violated; and

WHEREAS, no system or procedure exists to notify the appropriate judge or state's attorney of violation of the terms and conditions of the deferred or suspended sentence of a misdemeanant; and

WHEREAS, lack of a comprehensive state recordkeeping system or notification procedure results in many convicted defendants being treated time and again as first offenders; and

WHEREAS, filing of statistical information and criminal judgments concerning misdemeanants with a central filing office and automatic notification of the appropriate judge or state's attorney of a violation by a misdemeanant of the terms under which all or a portion of the sentence was deferred or suspended would improve the administration of justice;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council is directed to study the feasibility and desirability of establishing a central filing office for criminal judgments; and

WHEREAS, there have been numerous confirmed sightings of Americans still being held hostage by communists as a result of the Korean and Vietnam conflicts; and

WHEREAS, more than 2,800 American troops are still unaccounted for from the Korean and Vietnam conflicts; and

WHEREAS, since 1973 there have been more than 4,000 individual sighting reports made with respect to Americans still being held prisoner in Southeast Asia; and

SALES AND USE TAX EXEMPTIONS STUDY

A concurrent resolution directing the Legislative Council to study the exemptions allowed by law from state sales and use taxes to determine their impact on state revenues, their effect on public and fiscal policy and their administrative burden upon retailers who must document exempt sales.

WHEREAS, sales and use tax revenues are the largest single revenue source of state government and the laws of North Dakota provide for exemption from sales and use taxes for certain persons, properties, and organizations; and

WHEREAS, several of the exemptions granted from sales and use taxes have been in effect for many years, and with the passage of time and change of circumstances certain of these exemptions may not presently be justified, and the revenue loss to the state from exemptions from sales and use taxes is substantial; and

WHEREAS, retailers in the state and state tax administration officials are under a burden of identifying allowable exemptions and processing documentation required to support the exemptions; and

WHEREAS, rising costs of state government in response to demands for increased services require substantial sales and use tax revenues which are currently being eroded by exemptions presently contained in the sales and use tax law; and

WHEREAS, a discontinuance of unwarranted exemptions from sales and use taxes could have the effect of increasing revenue for state purposes without increasing the rate of sales and use taxes now levied on persons, properties, and organizations subject to these taxes, and may reduce the administrative burden on North Dakota retailers and tax administration officials;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council study the exemptions from sales and use taxes provided by the laws of this state and determine whether, because of equity, passage of time, administrative difficulties, or the need for increased revenue, certain exemptions should be considered for elimination or modification; and

WHEREAS, Chapter 486 of the 1981 Session Laws placed the functions, powers, and duties of the Social Service Board of North Dakota, Governor's Council on Human Resources, Mental Health and Retardation Division of the Department of Health, Division of Alcoholism and Drug Abuse of the Department of Health, and State Council on Developmental Disabilities under the authority of a newly created Department of Human Services; and

WHEREAS, this combination of agencies was done to make more efficient the delivery of all "human services", to minimize the administration costs of providing those services, and to eliminate the duplication of services; and

DISCHARGE OF TAX ON FARMLAND SOLD IN BANKRUPTCY

A concurrent resolution urging the Congress of the United States to enact legislation to allow the discharge in bankruptcy proceedings of federal tax debts resulting from the sale of farmland to pay creditors.

WHEREAS, due to the severe economic crisis in the agriculture industry it is becoming increasingly common for American farmers to seek protection under federal bankruptcy proceedings; and

WHEREAS, the federal bankruptcy law should allow individuals protection and a chance to begin anew after making all nonexempt property available to their creditors; and

WHEREAS, the sale of farmland in bankruptcy proceedings presently results in a nondischargeable income tax liability for capital gains on the property due to the low basis of most farmland; and

WHEREAS, farmers, having been forced to go through a bankruptcy proceeding and lose their farm, are faced with payment of capital gains tax for the sale of the property, from which they received no benefit, because any benefit from the sale inures to the benefit of their creditors;

WHEREAS, the federal government should act as a responsible neighbor to private landowners; and

WHEREAS, private landowners engage in programs to prevent and combat grasshopper infestations on their lands; and

WHEREAS, federal agencies holding land, including the Corps of Engineers, have provided inadequate protection against grasshopper infestations and have failed to adequately combat occurrences of infestation; and

WHEREAS, spraying and other activities are necessary to keep grasshopper infestations on semiarid lands from spreading to adjoining privately owned tracts of land; and

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress to appropriate additional funds for, and urges federal agencies to work toward, preventing and combating grasshopper infestations on federal lands, and urges the Congress to speed up the approval of funds by reviewing these regulations which nearly inhibit the spraying of federal lands; and

WHEREAS, past legislative sessions have seen fit to enact, over the last 90 years, numerous different kinds and types of statutory liens, many very specific in nature, different kinds of property exempt from process, levy, or sale; and

FARM CRISIS ACTION

A concurrent resolution urging the Congress and the President to reduce interest rates, promote exports, and improve farm income.

WHEREAS, farmers are not currently receiving their cost of production; and

WHEREAS, the length and severity of the farmers' inability to meet the cost of production is causing a crisis situation in agriculture; and

WHEREAS, this crisis is affecting not only farmers, but also financial institutions, rural businesses, and the entire United States economy; and

WHEREAS, the high value of the United States dollar abroad has essentially created an embargo on exports of United States farm products; and

WHEREAS, interest rates are unjustifiably high, creating higher expenditures for farmers, while reducing commodity prices; and

WHEREAS, the farm crisis has already resulted in the bankruptcy of many farmers, financial institutions, rural businesses, and working individuals, which may cause the future collapse of the United States economy; and

WHEREAS, the disruption of farm careers and the dislocation of farm families will cause severe economic and social repercussions; and

WHEREAS, strong federal action is needed to remedy this farm crisis;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress and the President to take immediate action to reduce interest rates, reduce the value of the United States dollar, promote exports of farm commodities, and improve farm income through programs including production controls, support loan prices, and target prices, which will provide farmers with income sufficient to meet the cost of production and provide a decent standard of living; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of State to the President of the United States, the director of the Office of Management and Budget, the Secretary of Agriculture, the Secretary of the Treasury, the chairmen of the Senate and House Committees on Agriculture, and the members of the North Dakota Congressional Delegation.

SURPLUS COMMODITIES FOR STARVING PEOPLE

A concurrent resolution urging the federal government to supply surplus commodities to the starving people of the world.

WHEREAS, mass starvation exists in many countries of the world; and

WHEREAS, agricultural production in the United States greatly exceeds national consumption, causing full storage bins and depressed prices; and

WHEREAS, no other country in the world can match the United States in capacity to provide food aid and agricultural expertise; and

WHEREAS, the capacity to produce food creates a moral obligation on the part of the United States to feed starving people; and

WHEREAS, gaining the goodwill of people in other countries would be in the best interest of this country, to promote world peace and to reduce the need for military expenditures; and

WHEREAS, past recipients of food and agricultural aid have become good customers for our exports; and

WHEREAS, reducing surplus agricultural commodities would result in higher farm commodity prices;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the federal government to institute a program to provide a significant portion of our surplus commodities to feed the starving people throughout the world and to provide expertise to build the agricultural productivity of these countries; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of State to the President of the United States, the director of the Office of Management and Budget, the Secretary of Agriculture, the chairmen of the Senate and House Committees on Agriculture, and each member of the North Dakota Congressional Delegation:

CREDITOR PROTECTION IN BANKRUPTCY

A concurrent resolution urging Congress to review and revise the bankruptcy laws to provide creditors with more protection from losses resulting from debtors filing for bankruptcy.

WHEREAS, the state and the nation have undergone several years of economic difficulty resulting in financial losses and failure for many businesses and individuals; and

WHEREAS, an increasing number of individuals and businesses are resorting to federal bankruptcy relief to discharge debt and resolve financial difficulties; and

WHEREAS, the ready discharge of debt promotes an attitude of irresponsibility within society and severely impairs businesses that have supplied goods or services upon credit and in good faith; and

WHEREAS, the discharge of debt through bankruptcy reduces working capital and impairs cash flow for businesses and individuals, thus compounding financial difficulties, business failures, and job losses; and

WHEREAS, the Bankruptcy Reform Act [Pub. L. 95-598], as amended, and the Federal Judgeship Act of 1984 [Pub. L. 98-353] fail to adequately meet the need for reform in federal bankruptcy law;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress of the United States to review and revise federal bankruptcy law to make voluntary bankruptcy a less attractive alternative of debt relief, to expedite the bankruptcy process, and to provide more protection to creditors from bankruptcy losses; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of State to the President of the United States and to each member of the North Dakota Congressional Delegation.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress of the United States to enact legislation, and the Federal Farm Credit System to enforce the legislation, which would provide for Federal Land Bank income from mineral interests located in a state to be used to determine interest payments on a statewide, rather than districtwide, basis; and

WHEREAS, in order for legal services to be provided to persons with low incomes, Congress has, since 1976, appropriated funds to the national nonprofit Legal Services Corporation; and

WHEREAS, federal funding to the Legal Services Corporation has been reduced in recent years and the prospects for future increases in funding are at best bleak; and

WHEREAS, soil and water are state and national treasures; and

WHEREAS, by the establishment of the United States Department of Agriculture's Soil Conservation Service, our soils were designated as a public resource, inferring governmental assistance in the stewardship of the land; and

WHEREAS, the Soil Conservation Service has the responsibility of providing needed technical assistance to soil conservation districts on all soil and water conservation problems, including programs to prevent soil erosion, provide soil mapping, develop watersheds, and prevent flood damage; and

WHEREAS, these programs were planned and executed in cooperation with numerous state and federal agencies and private cooperators; and

WHEREAS, the 1982 National Resource Inventory showed that 42 percent of this state's cropland, approximately 11.4 million acres, is eroding at a rate exceeding tolerable soil losses and 13 percent of the cropland, approximately 3.5 million acres, is eroding at a rate double the tolerable soil loss limits; and

WHEREAS, the Soil Conservation Service annually provides conservation services to stem soil and water loss to over 18,000 landowners in the state of North Dakota, assisting in the application of over 8,000 conservation practices and the development of resource plans on nearly one million acres; and

WHEREAS, the Soil Conservation Service provides leadership in the cooperative soil survey and supports the North Dakota Soil

Survey Program through the services of 30 soil scientists, resulting in the survey of over 67 percent of the state's land; and

WHEREAS, over 10 million acres of the remaining land in North Dakota which has not been surveyed, is cropland and has high priority to be surveyed; and

WHEREAS, the Soil Conservation Service provides technical and financial assistance to the Great Plains Conservation Program in 38 counties in North Dakota, under 622 contracts with landowners, covering approximately one million acres; and

WHEREAS, the Soil Conservation Program provides technical assistance through the Agricultural Conservation Program which assists approximately 5,600 farmers each year; and

WHEREAS, there are over 220 communities that have flooding problems in North Dakota and over 2.5 million acres of land which receive flood damage each year; and

WHEREAS, the Soil Conservation Service provides technical assistance through the Water Bank Program; and

WHEREAS, the Soil Conservation Service provides assistance through the Small Watersheds Program, with 12 watersheds completed in North Dakota covering approximately 1.5 million acres where flood damages have been reduced; and

WHEREAS, there are five additional watersheds in the construction stage in North Dakota; and

WHEREAS, there have been 17 floodplain management studies completed covering nearly 700 river miles of floodplains, and there is a need for over 25 additional floodplain management studies in the state; and

WHEREAS, the Soil Conservation Service's Floodplain Management Program has assisted state floodplain management programs; and

WHEREAS, through the Resource Conservation and Development Program, the Soil Conservation Service is helping accelerate the conservation, development, and use of natural resources to improve the general level of economic activity and to enhance the environment; and

WHEREAS, citizens throughout North Dakota and the nation recognize that the health, prosperity, and welfare of our present and future citizens depends upon proper conservation of our soil, water, and other natural resources, provided through the assistance of the United States Department of Agriculture's Soil Conservation Service;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress of the United States to maintain the programs and technical assistance now provided by the United States Department of Agriculture's Soil Conservation Service, and the 62 soil conservation districts in the state of North Dakota, to fulfill the intent of assisting in the application of soil conservation practices; and

PRICING AND PATENTING HERBICIDES AND PESTICIDES

A concurrent resolution urging the Congress of the United States to study and investigate the pricing and patenting of agricultural herbicide and pesticide chemicals.

WHEREAS, safe, cost-effective herbicides and pesticides are tools necessary to sustain modern agriculture, and a continued availability of these chemicals is necessary; and

WHEREAS, federal farm policy partially mandates conservation practices and encourages other conservation practices, including the use of herbicides and pesticides; and

WHEREAS, expenditures by farmers in the United States for costly herbicides and pesticides represent a significant investment in agricultural production, adding to the economic stress currently being experienced by farm producers; and

WHEREAS, farm producers are dependent upon a few manufacturers of herbicides and pesticides, operating in an oligopolistic industry; and

WHEREAS, existing federal laws providing 17-year patent grants tend to stifle competitive production of newly developed farm chemicals; and

WHEREAS, shorter patent grants for these chemicals, more competition in the production of these chemicals, and lower pricing of these chemicals would result in a higher volume of sales, greater farm production, and increased soil conservation practices;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress of the United States to study the current pricing structure and patent laws pertaining to the production of agricultural herbicide and pesticide chemicals; and

WHEREAS, constitutional and other legal theories, techniques, and strategies are constantly being developed to meet the objections which have been raised against legislative attempts to control this undesirable element within our society; and

WHEREAS, the Legislative Assembly should study and stay informed of these legal developments regarding the control of pornography; and

WHEREAS, the general public should be informed regarding the harmful effects of pornography;

A concurrent resolution directing the Legislative Council to study all facets of the state's finance formulas used in making payments to public elementary and secondary schools for instructional and transportation services and to determine what, if any, changes in those formulas should be made.

WHEREAS, an adequate and equitable system for determining state contributions to finance the cost of public elementary and secondary instruction and transportation to and from school is critical to the progress of those schools and the ultimate education of this state's citizens; and

WHEREAS, the efficient delivery of uniform quality educational services to this state's elementary and secondary school students, including special education students, is a continuing concern and goal of the Legislative Assembly; and

WHEREAS, the Congress of the United States enacted the Omnibus Budget Reconciliation Act of 1981 on July 29, 1981, thus creating several categories of "block" grant programs; and

WHEREAS, several of the provisions of the Omnibus Budget Reconciliation Act of 1981 require "public hearings" or require "the legislature of the State [to conduct]. . . public hearings"; and

WHEREAS, the Appropriations Committees have held the required public hearings on block grant moneys expected for the next biennium by the Office of Management and Budget, Department of Human Services, and State Department of Health; and

WHEREAS, the Forty-ninth Legislative Assembly cannot hold public hearings on revisions to current block grants or additional block grants that may be approved by the Congress after the recess or adjournment of the Legislative Assembly; and

WHEREAS, many of the best teachers appear to be leaving the profession, and current policies do not appear to counter this trend; and

A concurrent resolution directing a Legislative Council study of the formula for state distribution of personal property tax replacement revenues to political subdivisions.

WHEREAS, the 1969 Legislative Assembly exempted from personal property taxes all personal property not centrally assessed and provided for distribution of replacement revenue from the state to political subdivisions; and

WHEREAS, the formula for distribution of personal property tax replacement revenues uses 1968 as a base year and provides for adjustment of distributions based upon increases or decreases in real property taxes levied within each political subdivision; and

WHEREAS, although the formula for distribution of personal property tax replacement revenues was adjusted in 1971 and payment dates were modified in 1979, there has been no comprehensive review of the formula since its enactment; and

WHEREAS, there is a need to review changes in real property assessment and taxation to determine whether the formula for distribution of personal property tax revenues adequately addresses the interests of the state and its political subdivisions;

STUDY

A concurrent resolution directing the Legislative Council to study the need for comprehensive in-home and community support services to maintain, enhance, or prolong the independence and self-support of the partially dependent elderly population, and the possibility of making additional county funds available for such services by eliminating the county contributions to the medical assistance program under Medicaid.

WHEREAS, the elderly population in North Dakota and the nation, particularly over the age of seventy-five, is dramatically increasing in terms of numbers and in terms of a percentage of the total population; and

WHEREAS, independent living for many elderly persons is increasingly difficult, if not impossible, because of failing health, the death of a spouse, lack of in-home and community support services, or numerous other reasons; and

WHEREAS, the institutionalization of partially dependent elderly persons forced by the lack of adequate in-home and community support services tends to result in the deterioration of the elderly persons' conditions, which increases the level of required care and increases the cost to the state as well as to the individuals involved; and

WHEREAS, many, if not all, counties find it increasingly difficult to provide the necessary funds for in-home and community support services at the same time as the counties are providing funds required for the Medicaid medical assistance program and other mandated or emergency services; and

WHEREAS, the past and projected movement of the population of North Dakota has made the distribution of Medicaid medical assistance costs and benefits among the fifty-three counties inequitable; and

WHEREAS, if the state did not pass on to the county governments a percentage of these Medicaid costs, the tax burden would be distributed on a more fair and equitable basis to all the people of the state; and

WHEREAS, study is needed to determine if there is any valid justification for charging part of the Medicaid costs to the county, as many states have chosen not to do so; and

WHEREAS, the county government has little, if any, control over Medicaid expenditures, or over containing health care costs; and

WHEREAS, comprehensive in-home and community support services will extend the productivity and happiness of the elderly who are unable to exercise full independence, thus limiting the related costs of care to the state as well as the individual;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council study the need for comprehensive in-home and community support services to maintain, enhance, or prolong the independence and self-support of the partially dependent elderly population, and also study the possibility of making additional funds available to the counties by progressively eliminating the county contribution to the Medicaid medical assistance program over several bienniums; and

WHEREAS, effective law enforcement depends in part upon stability in personnel and in long-range policy; and

WHEREAS, appointment of state law enforcement leaders whenever certain elective positions change hands tends to destabilize the state law enforcement system; and

WHEREAS, the department heads of certain state law enforcement agencies may be better able to pursue effective long-range law enforcement policies if their recruitment and tenure are protected by some other appointment process; and

WHEREAS, standards for law enforcement training are established by the Attorney General, while the Law Enforcement Training Center is supervised by the State Highway Patrol; and

WHEREAS, there are a number of divisions and departments involved in statewide law enforcement with varying degrees of supervision by different elected officials;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

WHEREAS, a statewide emergency telecommunications system may allow quicker response by state and local officials to emergency situations in North Dakota; and

WHEREAS, the enhanced 911 emergency telecommunications system provides selective routing of calls, which makes it possible for calls to be routed directly to local emergency dispatchers; and

WHEREAS, the enhanced 911 emergency telecommunications system has automatic number and location identification systems which provide the emergency dispatcher with the number of the telephone being used to make the call and its location; and

WHEREAS, the Minneapolis-St. Paul metropolitan area and the state of Connecticut have enhanced 911 emergency telecommunications systems;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council study the feasibility of developing a statewide enhanced 911 emergency telecommunication system;

BE IT FURTHER RESOLVED, that the Legislative Council report its findings and recommendations, together with any legislation required to implement the recommendations, to the Fiftieth Legislative Assembly.

HOUSE CONCURRENT RESOLUTION NO. 3065 (Representatives Strinden, Mertens) (Senators Nething, Heigaard)

WETLANDS STUDY

A concurrent resolution directing the Legislative Council to study North Dakota's wetlands.

WHEREAS, North Dakota's 32 million acres north and east of the Missouri River are the center of the prairie pothole region, containing most of the remaining wetlands in the prairie pothole region of the United States; and

WHEREAS, the legislative assembly recognizes the importance of wetlands, and further recognizes that between two and three million acres of wetlands remain in North Dakota; and

WHEREAS, the legislative assembly recognizes that North Dakota's wetlands produce from 2.5 million to 6 million ducks each year, depending on the wet and dry cycle, that wetlands can moderate the extremes in the water flow and have value as natural flood control mechanisms, that wetlands can aid in water purification by trapping, filtering, and storing sediment and other pollutants and by recycling nutrients, that wetlands may serve as ground water recharge areas, and that wetlands function as nursery areas for numerous aquatic animal species and are habitat for a wide variety of plant and animal species; and

WHEREAS, the legislative assembly finds that 4.8 million acres of land in North Dakota are covered by easements held by the United States Fish and Wildlife Service and that within those 4.8 million acres of land there are approximately 760,000 acres of wetlands for which farmers have been paid to not drain, fill, or burn those wetlands; and

WHEREAS, the legislative assembly finds that there may be many more acres of wetlands within the 4.8 million acres of land controlled by the United States Fish and Wildlife Service, depending on the wet and dry cycle, which cannot be drained, burned, or filled because they are covered by the restrictions contained in the easements held by the United States Fish and Wildlife Service, even though farmers have received no payments for the restrictions on such wetlands; and

WHEREAS, the United States Fish and Wildlife Service holds easements for an additional 66,000 acres in North Dakota which are part of National Wildlife Refuges, and that the United States also owns in fee an additional 430,000 acres of land in North Dakota for wetland and waterfowl habitat preservation; and

WHEREAS, the legislative assembly recognizes that the remaining wetlands in North Dakota not preserved through government ownership are a valuable resource of state, national, and international significance; and

WHEREAS, the legislative assembly is prepared to support existing and additional programs for the preservation of North Dakota's remaining wetlands, including funding of those programs, and also provide for strict enforcement of North Dakota's drainage laws to protect wetlands, if it is in the best interests of our state and our nation; and

WHEREAS, the legislative assembly finds that information upon which to make decisions concerning wetlands is lacking; and

WHEREAS, the legislative assembly declares that a long-term plan must be developed concerning the amount of wetlands which exist in North Dakota, the amount of wetlands under federal or state government ownership, the location of North Dakota's remaining wetlands, the amount of wetlands which should be preserved in public or private ownership in North Dakota, the manner in which wetlands should be preserved if additional wetlands need to be preserved, the number of waterfowl that North Dakota produces each year, the agricultural benefits that are foreclosed if wetlands are not drained, the cost to farmers of not draining their wetlands, the impact of wetlands on water resource development in North Dakota, and other related issues;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council is hereby directed and authorized to study wetlands in North Dakota and all of the issues related thereto, including the economic and other impacts of our drainage permit laws; and

BE IT FURTHER RESOLVED, that the Legislative Council is encouraged to request the assistance of the United States Fish and Wildlife Service, the North Dakota Game and Fish Department, the North Dakota Parks and Recreation Department, the North Dakota State Water Commission, and private conservation organizations to assist in the study of wetlands and related issues and make recommendations concerning state legislative policy and necessary legislation; and

BE IT FURTHER RESOLVED, that the Legislative Council report its findings and recommendations, together with any legislation required to provide strict enforcement of North Dakota drainage

laws, additional programs to preserve wetlands, and funding of such programs, if the findings and recommendations of the Legislative Council are that additional wetlands in North Dakota should be preserved and that enhanced management and development of wetland and waterfowl habitat is desirable, and that such recommendations and proposed legislation be presented to the Governor of North Dakota and to the Fiftieth Legislative Assembly.

(Senators Nething, Heigaard)

MISSOURI RIVER BANK STABILIZATION

A concurrent resolution requesting the United States Congress and the United States Army Corps of Engineers to assume the responsibility for Missouri River bank erosion in North Dakota and to complete a program of bank stabilization and maintenance along the Missouri River between the Garrison Dam and the Oahe Reservoir.

WHEREAS, the Flood Control Act of 1944, as amended by legislation sponsored by Senators O'Mahoney and Milliken, assured all 10 states within the Missouri River Basin equal benefits under a control and management program which came to be commonly known as the Pick-Sloan Plan; and

WHEREAS, the Congress has directed the United States Corps of Engineers to build, operate, and maintain all the elements of the Pick-Sloan Plan; and

WHEREAS, the Pick-Sloan Plan provided for major flood control benefits, recreational benefits, power supply benefits, and certain navigational benefits for states lying below Sioux City, Iowa, through construction of large reservoirs in states lying above that point; and

WHEREAS, the Pick-Sloan reservoirs have been in place for 30 years, thus providing the downstream states all the benefits promised in the Pick-Sloan Plan for the past 30 years; and

WHEREAS, construction of facilities under the Pick-Sloan Plan has, to date, resulted in two billion dollars of flood protection to downstream interests which continue to accrue and has allowed them to develop the floodplain of the Missouri for industrial, municipal, and agricultural uses; and

WHEREAS, the United States Army Corps of Engineers has stabilized and continues to maintain the entire channel of the Missouri River from Sioux City, Iowa, to St. Louis, Missouri, all at federal cost; and

WHEREAS, to provide for the construction of the Pick-Sloan Plan the state of North Dakota has sacrificed over 550,000 acres of land including several cities and many established farms; and

WHEREAS, few, if any, of the commitments made to North Dakota in return for its sacrifices under the Pick-Sloan Plan have been fulfilled despite great efforts by North Dakota's Congressional Delegation, Legislative Assemblies, Governors, and other state officials, and despite continuing strong support by the citizens of the state; and

WHEREAS, almost two-thirds of the 2.25 million megawatt hours of cheap hydroelectric power generated by Garrison Dam in North Dakota built by the Pick-Sloan Plan is utilized in states outside of North Dakota; and

WHEREAS, the lands adjacent to the Missouri River between the Garrison Dam and the Oahe Reservoir have been and will continue to be seriously eroded and permanently lost by the local landowners and state of North Dakota because of reservoir management which releases highly fluctuating amounts of clear water capable of eroding and transporting large amounts of soil; and

WHEREAS, soil eroded from the banks of the Missouri River is being deposited as a delta in the headwaters of the Oahe Reservoir thereby causing the water table to rise in adjacent land, and is increasing the frequency and severity of ice jam hazards and has, according to recent Corps of Engineers' pronouncements, endangered 6,000 acres of land containing 45 homes and valuable farmland; and

WHEREAS, a similar bank erosion problem exists for a 60-mile reach on the South Dakota-Nebraska border downstream from the Gavins Point Dam and also below the Fort Peck Dam in Montana; and

WHEREAS, the United States Army Corps of Engineers have stated in their FINAL REPORT TO CONGRESS dated December 1981 concerning Missouri River stream bank erosion that "Bank erosion in this reach results in a permanent net loss of high valley lands. This process, unless halted, would eventually transform the present river into a wide area of sand bars and channels, occupying an increasing proportion of the valley width between the bluffs";

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly requests the United States Congress to assume the responsibility for the protection of lands now endangered along the Missouri River in North Dakota by the operation of the Pick-Sloan Plan; and

BE IT FURTHER RESOLVED, that the Congress of the United States authorize and provide funds to the Corps of Engineers for a program for the completion of protection of affected lands along the

Missouri River, and for the maintenance of the installed protective works; and

BE IT FURTHER RESOLVED, that funding for this project shall not be a normal federal water project appropriation, but instead shall be charged to the maintenance budget of the Pick-Sloan Plan; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the North Dakota, South Dakota, Nebraska, and Montana Congressional Delegations, the commanding general of the United States Army Corps of Engineers, the Secretary of the Interior of the United States, the Governor of North Dakota, and the North Dakota State Water Commission.

WHEREAS, it is the responsibility of the state to ensure the wisest and most efficient use of the state's resources; and

WHEREAS, to maintain the efficient and effective organization of state government it is properly the duty of the Legislative Assembly to review and coordinate continuously the functions of the various state agencies and boards; and

WHEREAS, the delivery of vocational education services and programs is currently the responsibility of the State Board of Vocational Education, the staff of which carries out a variety of functions regarding the delivery of vocational education services and programs; and

STREET AND HIGHWAY SYSTEM STUDY

A concurrent resolution directing the Legislative Council to study the capability of the various street, highway, and air transportation systems of the state to provide for the efficient transportation of people, goods, commodities, and services and to identify the resources needed to provide adequate and efficient street, highway, and air transportation systems in the future.

WHEREAS, the Thirty-third Legislative Assembly in 1953 declared by legislative enactment, codified as North Dakota Century Code Section 24-01-01, that the streets and highways promote the economic and social progress of this state and that an adequate and integrated system of streets and highways is essential to the general welfare of this state; and

WHEREAS, air transportation is an increasingly vital link between communities within and without the state; and

WHEREAS, transportation of people, goods, commodities, and services via the railroads has declined and will continue to decline in the foreseeable future due to transportation concepts within the railroad industry and the abandonment of various branch lines serving local communities; and

WHEREAS, the diminishing role of the railroads as a provider of transportation services has thrust a greater burden upon the existing street, highway, and air transportation systems of this state to provide for the void created by the lack of railroad service; and

WHEREAS, to meet the transportation needs of the nation and state the legislative bodies of the federal and state governments have provided for the operation of ever larger and heavier motor vehicles; and

WHEREAS, the citizens of this state have grown more dependent upon motor vehicles and aircraft as a means of transportation for social and economic activities; and

WHEREAS, accompanying the changes in the available modes of transportation has been a dramatic change in the economic activity of the state, which has grown more dependent upon the street, highway, and air transportation systems as a means of transportation; and

WHEREAS, these changes have resulted in the necessity of changing priorities for the state's street and highway system; and

WHEREAS, the total mileage of the street and highway system in North Dakota cannot be maintained and preserved at the desired levels of service within the current financial resources available to those entities responsible for such highway systems; and

WHEREAS, the various governmental entities charged with providing an adequate and integrated system of streets and highways have been confronted with continuous and growing demands upon the highway systems of the state without the means or the methods to provide for such demands on a priority basis;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council is directed to study the adequacy of the present street, highway, and air transportation systems of the state to provide for the efficient transportation of people, goods, commodities, and services; to identify major problems impeding state and local entities from effectively dealing with the problem; and to furnish potential solutions whereby the state and local entities are given the means and methods to effectively provide for the improvement of the street, highway, and air transportation systems for present and future uses; and

SOLID WASTE DISPOSAL STUDY

A concurrent resolution directing the Legislative Council to study the problems of solid waste disposal in landfills in North Dakota.

WHEREAS, inefficient and improper methods of managing solid wastes create serious hazards to the public health, result in scenic blights, cause pollution of air and water resources, cause accident hazards, increase rodent and insect disease vectors, have an adverse effect on land values, create public nuisances, and otherwise interfere with community life and development; and

WHEREAS, it is in the public interest to encourage and promote the proper emplacement of material into subsurface strata for the purpose of storage and retrieval of material, and to promote the terminal disposal of municipal, industrial, and domestic waste in such a manner as to prevent the contamination or pollution of surface and ground water sources or any other segment of the environment and to avoid creation of secondary hazards of a geologic nature; and

WHEREAS, North Dakota Century Code Chapters 23-20.2 and 23-29 and regulations adopted pursuant to those chapters, regulating the disposal of wastes and landfill seepage into water sources, restrict the siting of solid waste landfills; and

WHEREAS, local zoning restrictions also limit the availability of landfill sites; and

WHEREAS, the amount and volume of solid waste which must be disposed of increase daily and land suitable and available for landfill sites is becoming increasingly difficult to find;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

WHEREAS, state officers and employees are subject to causes of actions based on negligence and wrongful acts, errors, and omissions while acting in their official capacities or scope of employment; and

WHEREAS, the North Dakota Century Code Section 32-12.1-15 authorizes the state or any agency to insure against liabilities for its own protection and the protection of any state employee; and

WHEREAS, the North Dakota Century Code Section 15-10-17 authorizes the State Board of Higher Education to insure itself, its employees, and its officers against any liability it deems advisable; and

WHEREAS, the types and the amounts of liability insurance coverage obtained by agencies varies greatly by agency; and

WHEREAS, the projected premiums for liability insurance coverage for many agencies for the 1985-87 biennium are substantially higher than premiums paid for the 1983-85 biennium; and

WHEREAS, the amount of liability coverage necessary for state officials and employees should be established; and

WHEREAS, it may be possible to provide liability coverage for state employees under a blanket policy, rather than under separate policies purchased by each agency; and

WHEREAS, the Board of Higher Education has employed a consultant to study liability coverage of state employees at

institutions under the direction of the Board of Higher Education; and

WHEREAS, North Dakota Century Code Chapter 32-12.1 pertains to the liability of political subdivisions, and enables political subdivisions to pay and compromise claims and judgments; and

WHEREAS, political subdivisions must also maintain liability insurance coverage to provide coverage for liability resulting from the actions of its employees; and

WHEREAS, the provisions of North Dakota Century Code Chapter 32-12.1 should be reviewed to determine whether any changes are necessary to the substantive provision of that chapter;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council is directed to study the extent liability insurance coverage is provided for state or political subdivision employees to determine the necessity and desirability of providing that coverage, including which employees need or should have coverage, the kind of coverage and the amount of coverage necessary or appropriate, and whether liability coverage could be obtained at less cost under a blanket policy rather than separate policies; and

BE IT FURTHER RESOLVED, that the Legislative Council study the governmental immunity of political subdivisions and the desirability of expanding the governmental immunity of political subdivisions; and

WHEREAS, the states of North Dakota and South Dakota have generally cooperated in the past regarding the payment of tuition for students crossing the North Dakota-South Dakota border to attend elementary and secondary schools; and

WHEREAS, elementary and secondary school students living along the North Dakota-South Dakota border should be permitted the convenience and freedom, when possible, to attend schools located nearest them even if the school is located in a state other than their state of residence; and

TAX COMMISSIONER CONFIDENTIALITY STUDY

A concurrent resolution calling for a Legislative Council study of the confidentiality statutes governing the office of the tax commissioner.

WHEREAS, the North Dakota state tax commissioner has broad discretionary powers; and

WHEREAS, the tax returns of individuals and corporations are deemed by federal and state law to be confidential records; and

WHEREAS, legislation imposing forms of taxation upon individuals and corporations is often complex and subject to differing interpretations; and

WHEREAS, based upon press releases and press conferences staged by the tax commissioner, large payments, amounts not specified, have been received from "out-of-state corporations", not identified, based upon compromises, details not published, through the efforts of the tax commissioner; and

WHEREAS, it appears that taxes due cannot be constitutionally compromised, but audits and interpretations leading to the assessment of taxes may be administratively adjusted by the tax commissioner; and

WHEREAS, the public determination of whether such administrative adjustments are truly in the best interests of the state of North Dakota cannot be made, as the actions of the tax commissioner are shielded from the cleansing and regulating effect

of media exposure through the operation of the confidentiality statutes; and

WHEREAS, the exercise of administrative discretion by the tax commissioner in the secrecy afforded by the confidentiality statutes may create an unhealthy climate conducive to corruption; and

WHEREAS, the tax commissioner, if accused of improper conduct, would be unable to adequately defend the administrative discretionary actions because of the confidentiality statutes; and

WHEREAS, it may be in the best interests of the state of North Dakota to have final decisions on audit adjustments and interpretations made by a board of elected officials rather than by a sole individual;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council study the existing confidentiality statutes and the possibility of opening the administrative actions of the tax commissioner to the cleansing effect of public scrutiny and the feasibility of creating a review and final approval process of tax dispute settlement by a board of elected state officials rather than leaving it to the sole discretion of one individual operating in secrecy; and

WHEREAS, North Dakota leads the nation with respect to the number of uniform or model acts adopted as a means to promote uniformity in subject areas which need modernization, which are appropriate for uniformity in application, or which may be subject to federal preemption or control; and

WHEREAS, the Legislative Council is statutorily required to study and promote uniformity of legislation in the United States upon subjects upon which uniformity is desirable; and

WHEREAS, state agencies and institutions should use uniform procedures to evaluate employee performance; and

WHEREAS, procedures used by state agencies and institutions to determine the amount of employee compensation increases are not uniform and sometimes not based upon formal evaluation techniques;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council conduct an interim study of state agency and institution policies and procedures used for determining the level of employee compensation and compensation increases, including a comprehensive study of each of the following:

1. The State Central Personnel Division's market survey techniques, including the determination of equivalent job values in setting pay ranges;
2. The problem of the need or perceived need for major equity adjustments in salaries to place state employees in the proper steps in their pay grades based on years of service and job performance;
3. The lack of an agencywide job evaluation system based on uniform standards of objective criteria to be used by supervisors in evaluating employees for pay increases and promotions;

4. The staffing needs of the State Central Personnel Division to adequately perform its functions, including the provision of technical assistance to offices and agencies which do not have staff which specializes in personnel matters; and

WHEREAS, on August 31, 1982, the United States District Court issued its decision in the matter of Association for Retarded Citizens of N.D. v. Olson, 561 F.Supp. 473 (1982) ("ARC"); and

WHEREAS, on March 7, 1984, the district court issued an implementation order expanding on its decision and containing numerous provisions and requirements imposed on the state; and

WHEREAS, the implementation order required the state to seek placement of the developmentally disabled in existing licensed or accredited facilities, or to create community-based residential services meeting standards sufficient to reduce the number of residents at the Grafton State School to not more than 450 persons by July 1, 1987, and by that date to present to the court a program to reduce the residents by at least an additional 200 persons before July 1, 1989; and

WHEREAS, this requirement was amended by a November 7, 1984, district court order that created an additional deadline for reducing the number of residents at the Grafton State School to not more than 552 persons by July 1, 1985; and

WHEREAS, the implementation order requires the state to develop a plan and timetable to ensure that all buildings at the Grafton and San Haven state institutions meet federal and state standards on specified deadlines; and

WHEREAS, the district court retained continuing jurisdiction over the matter until the orders of the court are fully implemented; and

WHEREAS, the state is continuing its good faith efforts to comply with the court-established requirements; and

WHEREAS, such efforts involve the development of plans and procedures with far-reaching ramifications, and involve the appropriation and expenditure of large amounts of tax dollars; and

WHEREAS, certain groups and associations have created insurance plans providing property and casualty insurance; and

WHEREAS, policies under these plans may be issued at rates that are inadequate to pay the cost of underwriting the policies, and may eventually cause the cancellation of the plan; and

WHEREAS, upon the cancellation of these insurance plans, other providers of property and casualty insurance have been unable to meet the sudden, unexpected demands for insurance coverage; and

WHEREAS, review of the authority of the commissioner of insurance to regulate the rates charged under these insurance plans and to regulate the cancellation of these policies is necessary to determine if legislative action is desirable;

WHEREAS, the federal Transportation Assistance for Elderly and Handicapped, Community-Based Transportation Services for Seniors to Facilitate Access to Social and Nutritional Services, Transportation Assistance for Public Transportation in Rural Areas, and the Urban Transit Funds programs were established to assist states in providing transportation assistance to the elderly and the disabled; and

WHEREAS, the approximate annual ridership totals for these respective programs in North Dakota in 1984 were 123,000, 202,800, 350,000, and 900,000; and

WHEREAS, the approximate annual federal funding for these programs in North Dakota is \$187,000, \$250,000, \$385,000, and over \$1.5 million, respectively, in the form of operating grant assistance; and

WHEREAS, the President's fiscal year 1986 budget proposes the ending of all operating grant assistance and a significant reduction in overall mass transit funding; and

WHEREAS, the loss of such operating funds might seriously undercut the operation of these programs in North Dakota and might result in the elimination of services or an increase in user costs to levels above the reach of the intended beneficiaries;

LONG-TERM CARE FACILITY MEDICAID REIMBURSEMENT

A concurrent resolution urging the Department of Human Services to revise its long-term care facility Medicaid reimbursement system.

WHEREAS, the Legislative Council's Budget "C" Committee during the 1983-84 interim conducted a study of the state's Medicaid reimbursement system for long-term care facilities; and

WHEREAS, the committee determined that the state's present Medicaid reimbursement system may shift some of the costs of long-term care applicable to Medicaid patients to those patients paying for their own care; and

WHEREAS, the committee determined that incentives should be included in the Medicaid reimbursement system to encourage improved levels of care, accomplish efficient management, contain costs, and reduce the differential between Medicaid and private pay patient rates; and

WHEREAS, the committee determined that a revision of the Medicaid reimbursement system with the proper incentives will assist in accomplishing these goals;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Department of Human Services to revise its long-term care facility Medicaid reimbursement system; and

BE IT FURTHER RESOLVED, that the Forty-ninth Legislative Assembly urges the Department of Human Services to:

1. Implement a uniform financial reporting system by January 1, 1985, to ensure that accurate comparisons among long-term care facilities can be made.

2. Design and develop before July 1, 1987, a revised prospective long-term care Medicaid reimbursement system that includes:
 - a. Rates based on budgets developed in accordance with Department of Human Services requirements calculated by using historical cost trends with appropriate adjustments for the type of long-term care facility, level of care delivered, and projected economic and other changes.
 - b. Long-term care facility budget requirements including defined allowable and unallowable costs.
 - c. An incentive formula rewarding high-cost facilities that reduce costs and low-cost facilities that maintain or lower their costs. Only facilities delivering prescribed standards of care should receive financial incentives. Financial disincentives should be provided for facilities that do not reduce excessive costs. The incentive formula should:
 - (1) Provide long-term care facilities with reasonable compensation for services rendered and an adequate return on investment for proprietary and nonprofit facilities.
 - (2) Place limitations on state reimbursement for excessive property costs and established dollar limitations on the required capitalization of acquired assets.
 - (3) Recognize necessary and justified new programs and other necessary changes within long-term care facilities that are included in a facility's proposed budget and affect the cost of future operations.
3. Secure reports from long-term care facilities delineating cost items and categories not reimbursed under the reimbursement formula but charged to private pay patients.
4. Have the revised prospective Medicaid reimbursement system operational on January 1, 1988.
5. Attempt to establish new Medicaid reimbursement rates before the beginning of each facility's fiscal year and no later than three months after that date.
6. Adjust the prospective reimbursement rates to a lower level only if the department determines that information provided by a long-term care facility has been materially or intentionally misstated; and

BE IT FURTHER RESOLVED, that the Department of Human Services report to the Legislative Council, or any committee the Legislative Council designates, during the 1985-86 interim on the department's progress in designing and developing the revised prospective Medicaid reimbursement system for long-term care facilities.

LONG-TERM CARE FACILITY CODE OF ETHICS

A concurrent resolution urging long-term care facilities in this state to develop a long-term care facility code of ethics that includes guidelines to promote uniformity in the basis for charging for ancillary services and miscellaneous supplies.

WHEREAS, many residents of long-term care facilities have limited resources; and

WHEREAS, the factors long-term care facilities in North Dakota use to base their charges for ancillary services (services not necessarily required by or provided to all residents, including physical therapy) and miscellaneous supplies are not uniform; and

WHEREAS, some residents of long-term care facilities and their family members believe some of the charges for ancillary services and miscellaneous supplies are excessive and bear little relationship to the facilities' costs of providing the services or supplies; and

WHEREAS, these residents of long-term care facilities and their family members are frustrated by the amounts charged and the lack of information concerning the basis for the charges for these services and supplies; and

WHEREAS, because the basis used in pricing ancillary services and supplies are not uniform among facilities, residents and family members have difficulty comparing prices;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges long-term care facilities in North Dakota to develop a long-term care facility code of ethics that includes uniform methods of determining the basis for charging for ancillary services and miscellaneous supplies; and

BE IT FURTHER RESOLVED, that every long-term care facility provide a current copy of this code of ethics, and revisions to the code when the revisions occur, to residents of the facility; and

A concurrent resolution urging the United States Department of Education to approve the application for federal funds for a postsecondary special education program at the North Dakota State University-Bottineau Branch.

WHEREAS, the provision of special education services and programs has become an increasingly important consideration in the education of handicapped citizens; and

WHEREAS, appropriate opportunities for classroom and laboratory instruction, practical living skills, and actual work experience must be provided to handicapped persons to bring them toward the mainstream of economic and social life; and

WHEREAS, because approximately 70 percent of all North Dakota secondary school students attend a postsecondary educational institution to develop specialized employment skills and a large number of the remaining secondary school students engage in agricultural related employment, there exists a shortage and need for persons trained with other job skills for entry level positions of employment; and

WHEREAS, the North Dakota State University-Bottineau Branch and the Bottineau Peace Garden Special Education Cooperative have submitted a grant proposal to the United States Department of Education for federal funds to establish a two year college level program for high school graduates with learning disabilities to train them with entry level job skills leading to a two year associate's degree; and

WHEREAS, this program would be the first of its kind in the nation and could be demonstrated as a national model for the training of handicapped persons with needed job skills;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the United States Department of Education to approve the joint application submitted by the North Dakota State University-Bottineau Branch and the Bottineau Peace Garden Special Education Cooperative for federal funds to implement a program designed to train educable handicapped persons with marketable job skills in postsecondary educational institutions; and

WHEREAS, separate reporting forms are required for employers reporting their payroll for unemployment compensation and workmen's compensation purposes; and

WHEREAS, the requirement for separate reporting forms is partially due to the variations in statutory reporting requirements between agencies; and

WHEREAS, the Department of Labor, Workmen's Compensation Bureau, and Job Service North Dakota each perform separate audits of employer payroll records for unemployment insurance contribution compliance, workmen's compensation contribution compliance, and wage and hour compliance; and

WHEREAS, Job Service North Dakota has 14 local offices located throughout the state which could possibly share office space with the Workmen's Compensation Bureau and the Department of Labor; and

WHEREAS, cost benefits may be realized by combining administrative and data processing services of the three agencies; and

WHEREAS, a coordinated and cost-efficient effort may be better achieved by combining the efforts of these agencies of government service;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly directs the Department of Labor, the North Dakota Workmen's Compensation Bureau, and Job Service North Dakota to coordinate their efforts in providing labor and employment services, with special emphasis given to: combining reporting forms and resolving variations in statutory reporting requirements; combining payroll auditing functions; sharing office space; and combining administrative and data processing services; and

WHEREAS, a substantial part of the use of these airports comes from residents of Minnesota who are thus not part of the property tax bases of Fargo or Grand Forks; and

WHEREAS, opportunities for acquiring necessary revenue to meet the operating expenses of these airports are limited when the property tax bases are limited to the cities in which the airports are located; and

WHEREAS, in many cases the area is served by an airport located in one state but serving both states; and

WHEREAS, funds for the operation of these airports are provided in large part by property tax levies within the applicable city limits for a local municipal airport authority; and

WHEREAS, a substantial part of the use of these border airports comes from residents of the other state who are thus not part of the property tax base helping to finance the airport; and

GARRISON DIVERSION UNIT PRIORITY

A concurrent resolution designating the construction and completion of the federally authorized and funded Garrison Diversion Unit as having the first and highest priority for water development in North Dakota.

WHEREAS, North Dakota has provided 550,000 acres of valuable river bottom lands for the construction of Missouri River reservoirs under the federal Flood Control Act of 1944, causing an annual loss of one hundred thirty-one million dollars in economic gross product and an additional annual loss of forty-five million dollars in personal income; and

WHEREAS, North Dakota was assured by Congress in the Flood Control Act of 1944 that the loss of this valuable farmland would be offset by benefits from the Garrison Diversion Unit; and

WHEREAS, the Garrison Diversion Unit promises to enhance the agricultural productivity of the state, assure adequate and needed supplies of Missouri River water for urban and rural water systems, create recreational opportunities, and provide fish and wildlife enhancement; and

WHEREAS, North Dakota is presently receiving only one percent of the benefits promised by the federal government in return for its sacrifice of valuable farmland; and

WHEREAS, the construction of the Garrison Diversion Unit by the federal government has been delayed numerous times with the construction costs rising with each delay; and

WHEREAS, the Garrison Diversion Unit Commission was established by Public Law 98-360 "to review the contemporary water development needs of the State of North Dakota and propose modifications to the Garrison Diversion Unit consistent with the existing authorization"; and

WHEREAS, after three hearings in four months, the Commission submitted to the Secretary of the Interior a final report which

recommends, among other things, that the Sykeston Canal be built instead of Lonetree Reservoir, that Lonetree Reservoir remain an authorized feature of the Project but that construction be deferred "pending a determination of need by the Secretary [of Interior] and satisfactory conclusion of consultations with Canada", that Taayer Reservoir not be constructed, that 130,000 acres of land be irrigated in the Missouri River Basin, including 17,000 on Indian reservations in North Dakota, that water be released into the Sheyenne River through adequate treatment works for municipal and industrial water for cities along the Sheyenne and Red Rivers, that four hundred million dollars be spent for municipal and industrial pipeline systems in North Dakota, and that mitigation for project implementation losses be accomplished on an acre-for-acre basis, based on ecological equivalency; and

WHEREAS, the Garrison Diversion Unit Commission did not accept the policy statement (HCR 3012) adopted by the Legislative Assembly in special session on December 6, 1984; and

WHEREAS, the Commission did conclude that North Dakota deserved a federally funded water development project as a result of lands being lost to Pick-Sloan reservoirs; and

WHEREAS, the Commission recommendations would render extremely remote the ability of the Garrison Diversion Unit to deliver water to the Souris River and Devils Lake Basins, and additional water for future uses to the Sheyenne River and James River Basins; and

WHEREAS, the Commission recommendations would preclude any benefits from the Garrison Diversion Unit to the State of South Dakota; and

WHEREAS, the primary objective of North Dakota concerning the Garrison Diversion Unit is to divert Missouri River water eastward into the Sheyenne, Red, James, and Souris Rivers, and Devils Lake, to provide a long-term water supply for future generations for multiple uses, including irrigation, municipal, rural, industrial, recreation, wildlife, and other water uses;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the construction and completion of the federally funded Garrison Diversion Unit has the first and highest priority for water development in the State of North Dakota; and

BE IT FURTHER RESOLVED, that the Legislative Assembly concurs with the final recommendation of the Garrison Diversion Unit Commission "that the Secretary of the Interior proceed immediately to construct those portions of the Commission Plan that are a part of the 1965 authorized Initial Phase", and urges Congress to

appropriate necessary funds for continued construction of such portions of the project for fiscal year 1986; and

BE IT FURTHER RESOLVED, that the Legislative Assembly urges the Secretary of the Interior to determine the economic feasibility and engineering soundness of the Sykeston Canal, and the capability of the Sykeston Canal to deliver water to the Souris River Basin, the Devils Lake Basin, and the State of South Dakota, and that such findings be presented to the Governor and North Dakota Congressional Delegation before any construction of the Sykeston Canal is initiated; and

BE IT FURTHER RESOLVED, that the Legislative Assembly also urges the Secretary of the Interior to enter into an agreement with North Dakota for wildlife management of lands acquired for the Lonetree Reservoir, in a manner that does not preclude future use of such lands as a reservoir; and

BE IT FURTHER RESOLVED, that the Legislative Assembly also urges the Secretary of the Interior and the State Department to resume immediately diplomatic consultations with Canada on all issues concerning the portions of the Garrison Diversion Unit within the Hudson Bay Basin; and

BE IT FURTHER RESOLVED, that the Legislative Assembly urges the Secretary of the Interior to redesignate the principal supply works and the James River Basin features of the Garrison Diversion Unit as the Dakota Unit, Pick-Sloan Missouri Basin Program; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of State, to each member of the North Dakota Congressional Delegation and to the United States Secretary of the Interior.

(Lashkowitz)ROGER MARIS BASEBALL HALL OF FAME
INDUCTION URGED

A concurrent resolution commending Roger Maris on his major league baseball career and urging the Baseball Writers Association of America to elect Roger Maris to the Baseball Hall of Fame.

WHEREAS, it is a custom of the Legislative Assembly to recognize and honor North Dakota citizens for their national accomplishments; and

WHEREAS, Roger Maris was the recipient of the Theodore Roosevelt Rough Rider Award in 1963, which is the highest recognition the state of North Dakota can bestow upon present or former North Dakotans; and

WHEREAS, Roger Maris went from a career as an outstanding athlete in several competitive sports at Fargo Shanley High School to play professional baseball in Fargo and then on to play for four major league baseball teams in both major leagues in a distinguished 12-year major league career; and

WHEREAS, Roger Maris hit 275 career home runs and drove in 851 runs in major league regular season play and played a key role in the success of seven world series teams and three world champion teams, and is one of only five players to hit a world series home run for a team from each league; and

WHEREAS, Roger Maris captured the attention and imagination of America as few in the sports world have, when his outstanding season challenged baseball's most cherished record held by a larger-than-life American hero, the immortal and beloved Babe Ruth, and Roger Maris accomplished the unparalleled feat of hitting 61 home runs against 46 different pitchers during the 1961 season, a feat made more remarkable by the unceasing pressure exerted upon him by the press and public attention; and

WHEREAS, Roger Maris was a fleet outfielder, renowned equally for his skill with a glove as for his prowess as an outstanding hitter, and displayed remarkable abilities on defense for which he received a Gold Glove award; and

WHEREAS, Roger Maris was selected as the most valuable player in the American League in consecutive seasons, 1960 and 1961, and is one of only nine players in the history of major league baseball to be so honored; and

WHEREAS, Roger Maris has given unsparingly of himself to causes for the assistance of deprived, handicapped, and underprivileged children and adults and served with Shirley Temple Black as cochairman of the national campaign for the Multiple Sclerosis Society in 1962;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

ENERGY SAVING CONSTRUCTION STUDY

A concurrent resolution directing the Legislative Council to study methods to encourage the use of modern energy saving construction techniques including use of super insulation and the feasibility and desirability of requiring use of such techniques in future construction.

WHEREAS, North Dakota's climate places a premium on the efficient use of nonrenewable resources for heating and cooling buildings; and

WHEREAS, energy from nonrenewable resources is wasted by inefficient construction techniques which minimize a building's ability to retain heat during cold seasons or repel heat during warm seasons; and

WHEREAS, modern construction techniques, including use of super insulation, allow buildings to make much more efficient use of energy for heating or cooling, thereby reducing waste of precious resources used to produce energy; and

WHEREAS, it is in the best interest of present and future generations of North Dakotans to make the most efficient use of nonrenewable resources;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council is directed to study methods to encourage use of efficient building techniques, including use of super insulation, with particular emphasis on tax incentives to encourage use of efficient construction techniques, and to study the feasibility and desirability of requiring use of efficient construction techniques including super insulation on buildings in the future; and

ATTENDANCE AT PRESIDENTIAL INAUGURATION

A concurrent resolution authorizing the Speaker of the House and the majority and minority Senate and House leaders, or their designees, to attend the presidential inauguration, excusing their absence, and authorizing expenditure of moneys from the legislative appropriation necessary to cover their expenses.

WHEREAS, the inauguration of Ronald Reagan as the President of the United States will be on January 20; and

WHEREAS, the presidential inauguration symbolizes democracy in action and freedom in the selection of our nation's leaders; and

WHEREAS, harmonious relationships between the three coequal branches of government on the state and federal levels are vital to the success of our democratic society; and

BUSINESS RECORDS REQUIREMENTS

A concurrent resolution urging Congress and the Internal Revenue Service to remove the restrictions of the Tax Reform Act of 1984 upon farmers and small businessmen which require adequate contemporaneous records to substantiate the business purpose of travel deductions.

WHEREAS, Congress passed the Tax Reform Act of 1984 [Pub. L. 98-369] which provides by amendment of 26 U.S.C. 274(d) that a taxpayer must substantiate by adequate contemporaneous records the amount, time, place, and business purpose of travel expenses to enable a taxpayer to validly claim and substantiate the business use deduction for the use of listed property; and

WHEREAS, failure to adequately substantiate business use of motor vehicles prevents taxpayers from using accelerated cost recovery system depreciation or investment tax credits for the property; and

WHEREAS, these new requirements place a heavy recordkeeping requirement on taxpayers, particularly burdensome to farmers and small businessmen who cannot afford to purchase motor vehicles to be used solely for business purposes and who must combine business and personal use; and

WHEREAS, farmers and small businessmen are required by the new regulations to record every use of a motor vehicle to substantiate business use which may take more time to record than the time spent in the actual use of a motor vehicle, and the recordkeeping requirements unduly interfere with the daily activity of such persons;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Forty-ninth Legislative Assembly urges the Congress of the United States and the Internal Revenue Service to remove the restrictions placed upon farmers and small businessmen by imposition of the adequate contemporaneous records requirement contained in 26 U.S.C. 274(d); and

A concurrent resolution urging the President of the United States, the Secretary of Agriculture, and the members of the North Dakota Congressional Delegation to make a united effort to bring the farm credit crisis, the need for full agricultural parity, and the need for a balanced federal budget to the attention of elected officials.

WHEREAS, agriculture is the greatest producing industry in the country; and

WHEREAS, agriculture is the only industry operating under the free market system where the price received by producers is determined by nonproducers; and

WHEREAS, the prices received by agricultural producers do not provide the same purchasing power as in the past; and

WHEREAS, many agricultural producers are currently suffering due to a farm credit crisis; and

WHEREAS, many agricultural producers find it necessary to attempt to borrow money for operating expenses, and machinery and land purchases; and

WHEREAS, high interest rates severely impact the availability and desirability of agricultural loans; and

WHEREAS, decreasing land values have eroded the net worth of agricultural producers; and

WHEREAS, deficit governmental spending, high interest rates, and a poor farm economy adversely affect all segments of the economy; and

WHEREAS, Women Involved in Farm Economics (W.I.F.E.) has made a united effort to bring the farm credit crisis, the need for full agricultural parity, and the need for a balanced federal budget to the attention of elected officials;

SEVERANCE AND PROPERTY TAX STUDY

A concurrent resolution directing the Legislative Council to study the equity of the rate of and exemptions from the coal severance tax, the equity of the farm residence property tax exemption, and recent changes in classification and assessment of real property for purposes of ad valorem taxation and the effects of these changes upon mill levy limitations imposed by law on political subdivisions.

WHEREAS, the rate of the coal severance tax and existing and alternative exemptions from the coal severance tax should be studied with regard to the competitive position of the North Dakota coal industry and the industries which utilize North Dakota coal; and

WHEREAS, the 1981 Legislative Assembly provided for statutory classification of real property for property tax purposes; and

WHEREAS, the equity of the farm residence exemption should be reexamined in light of the difficulty of applying the exemption and recent changes in the assessment of agricultural property; and

WHEREAS, the statutory classification of real property drastically restructured property assessments in the state; and

WHEREAS, at the time of enactment of statutory classification of real property, it was not known what the resulting effects would be on the tax bases of political subdivisions which were limited by law to maximum mill levies; and

WHEREAS, it was necessary to ensure that tax bases did not fluctuate with drastic consequences across the state due to changed valuations, and 1981 legislation provided protection for taxing districts and taxpayers by providing that each taxing district could levy the same amount in dollars as that taxing district levied the prior year plus an additional percentage increase; and

WHEREAS, the protection for taxing districts and taxpayers provided by levy limitation in dollars was intended to be temporary and was continued by legislation passed by the 1983 Legislative

Assembly and may be continued by legislation pending before the 1985 Legislative Assembly; and

WHEREAS, detailed study is required to determine whether it is desirable to retain, revise, or eliminate mill levy limitations for political subdivisions;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study the equity of the rate of and exemptions from the coal severance tax; the changes in political subdivision tax bases due to recent changes in valuation, classification, and assessment of real property, with particular emphasis on the determination of an appropriate means of limiting political subdivision mill levies or on whether it is feasible to eliminate mill levy limitations; and the equity of the farm residence exemption from property taxes in light of the difficulty of applying the exemption and recent changes in the assessment of agricultural property; and

WHEREAS, the Medicaid Program is proposing to spend one hundred seven million five hundred thousand dollars in the coming biennium for long-term care services, which is an increasing public burden; and

WHEREAS, the Medicare Program is a limited resource; and

WHEREAS, the development of private insurance underwriting long-term care services would benefit consumers, providers, and government; and

WHEREAS, spouses are often denied insurance benefits;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study the availability, coverage, and provision of health care insurance plans that would include long-term insurance and that in the absence of reasonable coverage, that recommendations be given which would make available such coverage; and

OUTSTATE SELLERS SALES AND USE TAX

A concurrent resolution urging the Congress of the United States to amend the Interstate Commerce Act to allow states to collect sales or use taxes from outstate sellers.

WHEREAS, companies selling across state lines and who maintain contact with customers solely by the mailing of catalogs and "flyers" and the delivery of goods by the mail or common carriers are commonly referred to as outstate sellers; and

WHEREAS, as a result of a May 8, 1967, United States Supreme Court decision, the state of North Dakota has not been able to enforce collection of sales or use taxes by outstate sellers who use only the mail or common carriers to send customers the ordered goods; and

WHEREAS, the state of North Dakota is therefore deprived of all sales or use tax collections and moneys that result from such transactions, estimated conservatively to be in the millions of dollars each year; and

WHEREAS, as a result of not having to collect sales or use taxes imposed by the state of North Dakota, those outstate sellers possess an unfair competitive price advantage over sellers who have retail outlets, solicitors, or property within North Dakota and who are currently collecting the state's sales or use taxes;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

WHEREAS, much of the original plan for development and expansion of the Knife River Indian Villages National Historic Site has not been implemented; and

SHELTERBELT STUDY

A concurrent resolution directing the Legislative Council to study problems associated with, and to compile information regarding, the protection and rejuvenation of shelterbelts.

WHEREAS, shelterbelts have many benefits, including shelter for farmsteads and livestock, the protection of soil from erosion, the provision of habitat for wildlife, and the provision of moisture for small grain crops; and

WHEREAS, shelterbelts provide natural beauty and diversify the landscapes of North Dakota, which contain less than one percent forests; and

WHEREAS, existing shelterbelts are declining in number and effectiveness; and

WHEREAS, tree plantings have been on a decline due to the limited selection of hardy tree species capable of withstanding herbicides, harsh growing conditions, insects, diseases, and changes in farming operations; and

RAIL LINE ABANDONMENT APPROVAL AUTHORITY

A concurrent resolution urging the Congress of the United States to enact appropriate legislation to transfer to the states the power and authority to approve or disapprove rail line abandonments.

WHEREAS, the approval of rail line abandonments is presently under the authority and control of the Interstate Commerce Commission with little input from state government; and

WHEREAS, the question of approval of abandonment of portions of rail line, particularly when the line to be abandoned is located wholly within one state, may uniquely affect the citizens of a state with little impact on interstate commerce or the federal government; and

WHEREAS, rail lines have critical value to the farm economy and state regulation would provide for more localized assessment of the need for the rail line subject to an abandonment application;

A concurrent resolution urging Congress and the Secretary of the Treasury to provide for the withholding of state income tax from federal employees who elect to have state income tax withheld from their wages.

WHEREAS, Congress passed a law, 5 U.S.C. 5517, which provided for the Secretary of the Treasury to enter into agreements with a state to withhold state income tax from those federal employees who were subject to state income tax; and

WHEREAS, 5 U.S.C. 5517 restricts the Secretary of the Treasury from entering into an agreement with the state of North Dakota because North Dakota's income tax withholding law would impose a more burdensome requirement upon the United States than is imposed on other employers; and

WHEREAS, North Dakota's income tax withholding law requires an employer to withhold state income tax from only nonresident employees but permits an employer to withhold state income tax from any employee who voluntarily elects to have state income tax withheld from earnings; and

WHEREAS, no greater burden would be imposed upon the United States and other employers if employers, including the United States, would be permitted to withhold state income taxes from those employees who voluntarily elected to have state income tax withheld from wages;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

INDIAN RESERVATION AREA TAXING AUTHORITY

A concurrent resolution citing the existence of certain conditions of mutual concern confronting reservation and nonreservation residents of North Dakota, and urging the Congress of the United States to exercise responsibility and authority in resolving them.

WHEREAS, the establishment and governance of the several Indian reservations within the state of North Dakota and other states have resulted from treaties and other Acts of the United States government; and

WHEREAS, the federal government through Acts of Congress, has established itself as the sole authority governing local taxation within the boundaries of Indian reservations in the United States, and has tied the hands of states in dealing with local taxing problems and furnishing of governmental services in areas within or near the boundaries of Indian reservations; and

WHEREAS, reservation boundaries have been subject to change over the years since reservations were established, some lands within reservation boundaries are owned in trust and some in fee by Indian and non-Indian landowners, and non-Indian landowners were encouraged by the federal government to homestead lands which are now within reservation boundaries; and

WHEREAS, all of these factors have resulted in areas of taxable lands in and around reservations which have necessitated the furnishing of local governmental services and the subsequent creation of local taxing districts supported by levies of taxes upon lands in and around reservations; and

WHEREAS, the taxable status of lands within reservation boundaries is determined by ownership, which is subject to change, and which may cause removal of the land from local tax rolls by operation of federal law; and

WHEREAS, removal of such lands from local tax rolls operates a hardship on cities, counties, townships, and other taxing

districts, as well as on Indian and non-Indian landowners and residents in and around reservations who have come to rely on present levels of local governmental services and to require increased levels of future local governmental services; and

WHEREAS, since Congress has chosen to retain exclusive control of the ability to tax reservation lands, it is incumbent upon Congress to provide solutions to the dilemma of political subdivisions in and around reservations in the many states of the United States which contain Indian reservations;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Congress of the United States is urged to enact legislation to resolve the problem of shrinking tax bases of political subdivisions providing local governmental services in and around Indian reservations to assure continued availability of local governmental services and the existence of local political subdivisions, or, in the alternative, to establish a study commission, with appropriate representation from affected states and Indian reservations, to determine an appropriate solution to this problem; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of the Senate to the presiding officers of the United States House of Representatives and the United States Senate, the North Dakota Congressional Delegation, the Secretary of the Interior, and the governors and legislative bodies of the states of Arizona, California, Idaho, Minnesota, Montana, New Mexico, Oregon, South Dakota, Washington, Wisconsin, and Wyoming.

WHEREAS, many lobbyists and the special interest organizations they represent refuse to disclose the sources of financial support or the membership of the special interest organizations; and

WHEREAS, these special interest organizations thereby conceal from the Legislative Assembly, the Governor, and the public the true interests represented by the lobbyists; and

GAMES OF CHANCE STUDY

A concurrent resolution directing the Legislative Council to study the feasibility of allowing the conducting of various games of chance, on an infrequent basis, by small charitable organizations, and to study the licensing process applicable to such events.

WHEREAS, in the past many small clubs and nonprofit organizations conducted fundraisers known as "stags" and by other names, in which participants played various games of chance, such as raffles, roulette, card games, and wheels; and

WHEREAS, from these events the clubs and organizations obtained money with which to fund worthy projects in many small communities, often in situations where no other source of these funds was available; and

WHEREAS, in many small communities and for many small charitable organizations it is not feasible to operate a continuing operation of games allowed under the present charitable gambling law;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study the issue of whether charitable organizations should be allowed to hold a small number of events each year at which many different games of chance can be conducted, and for which the licensing process is not cumbersome; and

WHEREAS, the adversary method of resolving civil disputes can be traumatizing to all parties involved; and

WHEREAS, arbitration and other nonjudicial procedures may resolve disputes in a more humane and affordable manner;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

DRIVERS LICENSE STUDY

A concurrent resolution directing the Legislative Council to study state laws relating to the issuance, suspension, and revocation of drivers' licenses with specific emphasis on the efficient administration of those laws, the use of uniform terms in the relevant statutes, and the adequacy of drivers' education programs.

WHEREAS, various state agencies, including the State Highway Department, Highway Patrol, and Motor Vehicle Department, are involved in the administration of state laws regarding the issuance, suspension, and revocation of drivers' licenses; and

WHEREAS, state laws providing for the licensing of motor vehicle operators have become increasingly complex and, in some cases, ambiguous or in conflict; and

AIRPORT FINANCE STUDY

A concurrent resolution directing the Legislative Council to study the financial basis under which airports in this state and elsewhere operate, including the manner and degree in which scheduled air carriers are the source of the cost of airports, and the extent to which scheduled airlines should help bear these costs.

WHEREAS, the North Dakota Legislative Assembly is concerned about the quality of scheduled airline service to various North Dakota communities; and

WHEREAS, the Legislative Assembly has on several occasions conducted interim studies of issues relating to airports, but these studies have not resolved the problems of financial support for airports that have scheduled airline service; and

WHEREAS, the previous studies of airport financial needs have not resulted in the establishment of a continuing method through which these airports can be financed; and

WHEREAS, the Legislative Assembly has become aware of the need to replace revenue that has been lost to the airports under federal law and court decisions disallowing state property taxation of airline property; and

WHEREAS, disparity exists between what airport operators recite as their financial predicament in dealing with scheduled airlines and what airlines serving the state indicate as their willingness to participate in paying the costs of operating airports; and

WHEREAS, establishing a sound financial basis for our larger airports is of critical importance as this state seeks to retain and enhance air service as an integral part of its transportation system and economic well-being;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council is directed to study the financial basis under which airports in this state operate, including an analysis of the manner and degree in which scheduled airlines participate in these costs and an analysis of the potential methods through which the state or political subdivisions might tax airlines or others in order to pay costs in operating airports that have scheduled airline service; and

POLITICAL SUBDIVISIONS IMMUNITY STUDY

A concurrent resolution directing the Legislative Council to study governmental immunity for political subdivisions, the desirability of enacting a tort claims act, liability insurance for political subdivisions, and the desirability of enacting a state insurance program to provide coverage for political subdivisions.

WHEREAS, North Dakota Century Code Chapter 32-12.1 provides limited governmental immunity for political subdivisions, including counties, cities, and townships, for acts of negligence or employee omission resulting in civil liabilities; and

WHEREAS, other states have adopted tort claims acts, which limit or eliminate the liability of political subdivisions for certain specified acts, and provide liability for other specified acts within certain recovery limits; and

WHEREAS, other states have enacted state insurance programs to provide insurance for state entities and political subdivisions; and

WHEREAS, many political subdivisions purchase insurance to protect against the risk of liability for civil claims arising from negligent actions as set forth in North Dakota Century Code Chapter 32-12.1; and

WHEREAS, these political subdivisions have found it increasingly difficult to obtain the insurance coverage necessary to protect against these types of risks; and

WHEREAS, the cost of liability insurance coverage for political subdivisions has increased sharply and has become a significant financial burden to political subdivisions;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study governmental immunity for political subdivisions, and the desirability of enacting a tort claims act which specifies the claims for which a political subdivision would be liable; and

COMPARATIVE NEGLIGENCE STUDY

A concurrent resolution directing the Legislative Council to study the comparative negligence laws and their interaction with the products liability, strict liability, and workmen's compensation laws in light of recent North Dakota Supreme Court decisions.

WHEREAS, North Dakota Century Code Section 9-10-07 provides that contributory negligence does not bar recovery in an action by a person to recover damages for negligence if such contributory negligence was not as great as the negligence of the person against whom recovery is sought, but any damages awarded must be reduced in proportion to the percentage of negligence attributable to the person who is seeking recovery; and

WHEREAS, the decisions of the North Dakota Supreme Court in Mauch v. Manufacturers Sales and Service, Inc., 345 N.W.2d 338 (N.D. 1984), and Day v. General Motors Corp., 345 N.W.2d 349 (N.D. 1984) noted that the comparative negligence statute (Section 9-10-07) does not make specific reference to whether the comparative negligence law is applicable to products liability or strict liability actions or any actions other than actions "to recover damages for negligence"; and that products liability was adopted in North Dakota by the courts after the comparative negligence statute had been enacted by the Legislative Assembly; and

WHEREAS, the North Dakota Supreme Court in Mauch and Day said the comparison of causations under a products liability claim should be on a pure comparative-causation basis, unlike Section 9-10-07, which uses a modified comparative negligence scheme; and

WHEREAS, the North Dakota Supreme Court said that until the Legislative Assembly enacts a law covering the subject the courts would apply the doctrine that "contributing causal negligence or fault shall not bar a recovery in products liability or strict liability actions, but the damages shall be diminished in proportion to the amount of plaintiff's causal negligence or fault."; and

WHEREAS, Section 65-05-06 provides the payment of compensation or other benefits by the Workmen's Compensation Bureau to an injured employee is "in lieu of any and all rights of action whatsoever against the employer" of the injured employee; and

WHEREAS, Section 65-01-09 provides that the workmen's compensation fund is subrogated to the rights of the injured employee or his dependents to the extent of 50 percent of the damages recovered up to a maximum of the total amount the fund has paid or would otherwise pay in the future in compensation and benefits for the injured employee, regardless of the proportionate shares of fault of the parties involved; and

WHEREAS, the North Dakota Supreme Court, in Layman v. Braunschweigische Maschinenbauanstalt, 343 N.W.2d 334 (N.D. 1983), said a third party against whom an action has been brought by an injured employee has no statutory right to contribution from a negligent employer immune from suit by operation of the exclusive remedy provisions of the workmen's compensation statutes, and that any changes in the Comparative Negligence Act or the exclusive remedy provisions and subrogation provisions of the workmen's compensation statutes are matters best left to the Legislative Assembly; and

WHEREAS, the Forty-ninth Legislative Assembly considered, but did not, pass Senate Bill No. 2397 that would have amended Sections 9-10-07 and 65-01-09 in response to the Supreme Court decisions discussed above;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study the interaction of the laws concerning comparative negligence, products liability, strict liability, and the exclusive remedy and subrogation provisions of the workmen's compensation statutes, and study the appropriateness of extending application of the Comparative Negligence Act to strict liability, products liability, and workmen's compensation actions; and

CHARITABLE GAMBLING STUDY

A concurrent resolution directing the Legislative Council to study the status and impact of charitable gambling in this state.

WHEREAS, the issue of charitable gambling has been a sensitive one in this state ever since the introduction of legalized charitable gambling; and

WHEREAS, there has been a significant expansion in the types of activity permitted since the passage of the constitutional amendment authorizing charitable gambling, a notable example being the introduction of the game of twenty-one; and

WHEREAS, charitable gambling in this state has resulted in significant revenues being made available to the state and to local governments, as well as significant donations being made to worthy charitable purposes; and

WHEREAS, the Legislative Assembly deems it desirable that the maximum benefit from charitable gambling accrue to the legitimate charitable needs arising in this state, and that charitable gambling be conducted in this state free from any influence of organized crime or other unsavory elements of society; and

WHEREAS, policing charitable gambling activities, enforcing charitable gambling laws, and other exercise of control over charitable gambling, is difficult, complex, and expensive; and

WHEREAS, proposals have been made to establish a state charitable gambling commission, and the attorney general's office, in its proposal to delete funding for charitable gambling enforcement from its proposed budget for the 1985-87 biennium, has indicated its difficulty in enforcing charitable gambling laws and a desire that this enforcement be the function of an independent agency;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study charitable gambling in this state, and that the study give particular attention to the issues of the direction charitable gambling should take in the future, the feasibility of the establishment of an independent commission to regulate charitable gambling, the difficulties attendant upon enforcement of charitable gambling laws, the intertwining of involvement between local government and state government, the level of gaming tax assessed by the state and its purpose, the extent to which charitable gaming proceeds are returned to the state or the communities in which they are generated, and whether the Constitution should be further amended to limit or expand permitted charitable gambling activities; and

BE IT FURTHER RESOLVED, that the Legislative Council seek the input of private citizens in this state, both proponents and opponents of gaming expansion, who have expertise and knowledge of the many facets of charitable gaming, and report its findings and recommendations, together with any legislation required to implement the recommendations, to the Fiftieth Legislative Assembly.

WHEREAS, in 1978 the Congress of the United States passed legislation authorizing the restoration of Fort Union, an American Fur Company trading post on the North Dakota-Montana border; and

WHEREAS, United States Senators Mark Andrews and Quentin Burdick, as members of the Senate Interior Appropriations Subcommittee, along with United States Senators Max Baucus and John Melcher and United States Representatives Byron Dorgan and Ron Marlenee, all support legislation authorizing funds to be included in the 1986 fiscal year appropriations bill for the restoration of Fort Union; and

WHEREAS, the original legislation designating the Fort Union fur trading post as a National Historic Site was passed by the United States Congress in 1966; and

WHEREAS, the intent of the legislation was the reconstruction of Fort Union, but only partial archaeological work has been accomplished; and

WHEREAS, Fort Union's presence beginning in 1828 near the junction of the Missouri and Yellowstone Rivers guaranteed the 49th parallel as the northern boundary of the United States; and

WHEREAS, the Missouri River served as the Oregon Trail of the North with the first steamboat on the Upper Missouri River arriving at Fort Union in June 1832; and

WHEREAS, Fort Union was the finest and most imposing fur trading post in the West and is the only fur trading post in the West which can fully and correctly interpret the western American fur trade; and

WHEREAS, the existence of Fort Union opened the land drained by the Missouri and Yellowstone Rivers; and

WHEREAS, Fort Union became a mecca for internationally famous artists, explorers, scientists, and European royalty; and

WHEREAS, regional support for the project is overwhelming, as evidenced by a doubling in number of visitors to the historic site in the past two years;

WHEREAS, AMTRAK, the corporation designated by Congress to provide a minimum basic national rail passenger service, provides essential passenger transportation services to North Dakota and the nation which may be lost if Congress approves elimination of federal subsidies for AMTRAK; and

WHEREAS, AMTRAK provides the only nationwide passenger rail service available and carries more than 20 million passengers per year; and

WHEREAS, AMTRAK has realized substantial improvements in its revenue-to-cost ratio in recent years, exceeding congressionally set goals; and

WHEREAS, subsidies for other transportation systems far exceed current subsidies provided AMTRAK; and

WHEREAS, AMTRAK provides jobs and other economic benefits, and shutting down the passenger service would result in extreme economic loss and waste;

SMALL RURAL HOSPITAL STUDY

A concurrent resolution directing the Legislative Council to study the problems faced by small rural hospitals in this state and possible alternative courses of action for the state and these hospitals to ensure the continued viability of the small rural hospital in North Dakota.

WHEREAS, delivery of health care in rural areas presents special challenges to both the health care consumer and the health care provider in the areas of access to health care, health care financing, recruitment and retention of health care personnel, modernization of facilities, and acquisition of costly high technology health care equipment; and

WHEREAS, especially in the rural communities, the elderly are becoming a greater percentage of the population, with many small, rural communities in the state having 30 percent or more of their population in the over 65 age group, which has greater health care needs; and

WHEREAS, agriculture has the second highest rate of death and disability of all occupations, thus requiring access to adequate local health care facilities; and

WHEREAS, North Dakota has a greater proportion of small or rural community hospitals than the national average; and

WHEREAS, one of the many adverse factors being faced by small rural hospitals is the changing nature of government involvement, including prospective reimbursement systems and other changes, designed from an urban perspective to deal with urban situations that may or may not coincide with the needs and values involved in providing health care in the rural areas; and

WHEREAS, many of this state's rural hospitals face closure in the near future if present conditions and trends are allowed to continue; and

WHEREAS, the closure of small rural hospitals not only has a direct impact on the local economy and on the access to health care, but also has an indirect effect through increased difficulty in attracting businesses as well as primary care physicians; and

WHEREAS, the closure of small rural hospitals increases travel costs to patients residing in the area and increases their costs of receiving health care at the major health care centers because the time and distance factors lead to longer hospital stays because of the difficulty in monitoring the patients' health after they return to isolated rural areas;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study the problems faced by small rural hospitals in this state, and possible alternative courses of action for these hospitals and the state to ensure the continued viability of small rural hospitals in North Dakota; and

WHEREAS, the Commodity Credit Corporation allows on-farm storage of commodities subject to liens; and

WHEREAS, reserve commodities which are subject to liens may be released to the producer 30 days prior to the date upon which the producer intends to have replacement commodities in place; and

WHEREAS, replacement commodities are normally generated through the harvest of grain; and

WHEREAS, reserve commodities could be released at a time earlier than 30 days prior to replacement, to allow producers to sell reserve commodities and use the proceeds generated from the sale of the commodities to finance that year's crop production; and

WHEREAS, earlier release of reserve commodities could aid in developing more orderly marketing of commodities; and

WHEREAS, rules and regulations could be adopted under the program to make it applicable to commodity producers who are in need of funds to cover operating expenses; and

WHEREAS, the risk experienced by the Commodity Credit Corporation under a program authorizing earlier release of reserve commodities could be reduced by requiring participants to acquire crop insurance on replacement commodities;
