SUBJECT: Release of Imported Sugar

TO : See Distribution

1. Reference is made to letter to the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file 436(29 Nov 48) ESS/PD, PDF-41, dated 29 November 1948, subject: "Release of Imported Sugar", (inclosure 1).

2. The referenced letter releases a total of 9,682 metric tons of imported sugar for general distribution during December 1948, and 307,870 kilograms for the January through March 1949 school lunch program, in I Corps area. Allocations will be made according to the plans outlined in inclosure 2.

3. The sugar for general distribution will be distributed at the rate of 300 grams per capita using the coupon system.

4. For the school lunch program, each child and each teacher will receive 2 grams of sugar per lunch. The days of ration are as follows:

January	16 days
February	19 "
March	22 "

5. Surveillance will be exercised in accordance with Operational Directive number 26/2, Headquarters Eighth Army, dated 21 May 1947, subject: "Food Distribution."

SUBJECT: Release of Imported Canned Foods

TO : See Distribution

1. Reference is made to letter to the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file 430(27 Sep 48)ESS PD, PDF-30, dated 27 September 1948, subject: "Release of Imported Canned Foods," (inclosure 1).

2. The referenced letter released 1,728 kilograms of B, C, and D Classes of imported canned foods for distribution to foreign nationals during September 1948. This release is in addition to the July-September 1948 (SCAPIN 5772-A) release and was necessitated by a deficit caused by an increase in population. Distribution was made in I Corps area as follows:

Prefecture	Kilograms
Ishikawa	5
Gifu	56
Kyoto	561
Saga	57
Nagasaki	917
Miyazaki	132

3. During the period September through November 1948, 83,099 kilograms of reprocessed candy was released for distribution to children between the ages of 3 to 8 years in I Corps area. Allocations were made at the rate of 70 grams per child in cities with a population of 100,000 or more. Distribution was made by the Grocery Kodan at the official price as set by the Price Board. Allocations to cities in I Corps area were as follows:

Cities	Number of Children	Amount (kgs.)
Osaka	239,094	16,736
Kyoto	154,029	10,781
Nagoya (Aichi)	131,747	9,222

1. References are:

a. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 423 (27 May 48)ESS/PD, SCAPIN 5653-A, 27 May 1948, subject: Distribution of American Duck to Japanese Manufacturers of Jikatabi and Work Aprons.

b. Memorandum from the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers, to the Economic Stabilization Board, 423(9 Nov 48)ESS/PD, PDD 29, 9 November 1948, subject: Release of United States Army Surplus Duffle Bags for the Manufacture of Gloves as Incentive Goods for Coal Miners and other Industrial Workers.

c. Memorandum from the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers, to the Economic Stabilization Board, 423(3 Dec 48)ESS/PD, PDD 32, 3 December 1948, subject: Release of United States Army Surplus Bags and Mattress Covers for the Manufacture of Work Suits as Incentive Goods for Workers in Essential Industries.

2. The Economic Stabilization Board is authorized to release the following work clothing and gloves processed from United States Army surplus materials as incentive goods to workers engaged in Railway and Maritime Freight Transportation:

250,000 work suits (2 pcs)
47,512 work aprons
50,000 canvas gloves (prs)

3. This is to be a one-time distribution and is in addition to the allocation of Japanese clothing made to the Chemical Fertilizer Industry under the program of supplementary rations to workers in essential industries.

Incl. /

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

Ltr GHQ, SCAP, ESS, 422, subj: Release of Work Clothing and Gloves Processed from United States Army Surplus Materials as Incentive Goods for Workers Engaged in Freight Transportation, 16 Dec 48

4. The work suits are to be taken from those processed from United States Army surplus bags and mattress covers released to the Economic Stabilization Board by letter referred to in paragraph 1c, above. The canvas gloves are to be taken from those manufactured from United States Army surplus duffle bags released to the Economic Stabilization Board by letter referred to in paragraph 1b, above. The work aprons are to be taken from those manufactured from United States Army surplus duck released to the Japanese Government by memorandum referred to in paragraph 1a, above.

5. Each item will be clearly and distinctively marked according to instructions from the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers, to indicate that these articles have been officially released and to distinguish them from articles used by the Occupation Forces.

6. Distribution of the clothing will be made as incentives to the workers engaged in Railway and Maritime Freight Transportation, according to a program drawn up by the Economic Stabilization Board and submitted for approval to the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers.

7. The clothing will be sold at the official prices set by the Price Board which include the commodity tax and no import duty or additional commodity tax will be levied.

8. The Economic Stabilization Board will take all necessary action to assure that these articles of clothing are distributed through official channels and do not appear in illegal or unofficial sales and will require all handlers to keep accurate records of the articles received and distributed by them.

9. Allocation schedules by prefectures, names of wholesalers, prefectural receiving agencies and retailers, reports on shipments, arrival at prefectural receiving agencies and distribution to plants are required.

30 December 1948

48/E/A/8

SUBJECT: Pre-planting Quota for Bonus Payment.

TO : Commanding Officer
Kinki Military Government Region
APO 301

1. Inclosed herewith is a petition from the Hyogo Prefectural Government concerning the payment of the three-times normal price for over-quota deliveries of rice.

2. The 31,500 koku referred to in the petition is the amount by which the Ministry of Agriculture and Forestry had over-assessed the quota of this prefecture due to an error. Kobe City had assimilated a large part of Akashi Gun prior to the calculation of the quota and the production of this area (31,500 koku for collection purposes) had been included in computations for both Kobe City and Akashi Gun. This error has been admitted by the Monistry of Agriculture and Forestry but they have refused the revise the pre-planting quota.

3. This prefecture suffered unusual damage during 1948 from drought and insects and was given a substantial reduction from the pre-planting quota (17.8%). However, this reduction serves to discourage over-quota deliveries inasmuch as the payment of the over-quota bonus becomes effective only after the pre-planting quota is fulfilled. Thus a farmer must turn in sizeable over-quota deliveries before he is eligible to receive bonus payment.

4. Several areas in this prefecture had excellent crops, despite the drought and insects which affected less than half of the prefecture. It is believed that more overquota deliveries would be made if the pre-planting quota for 1948 were reduced.

5. It is recommended that the 1948 pre-planting quota for this prefecture be reduced (for bonus payment purposes only) from 1,001,900 to 970,400 koku.

TO: CG, Eighth Army, APO 343

This headquarters concurs with the recommendation that the 1948 pre-planting quota for Hyogo prefecture be reduced (for bonus payment purposes only) from 1,100,900 to 970,400 koku. The reduction of 31,500 koku will serve to stimulate over quota turn in by the farmers. The error made by the Ministry of Agriculture and Forestry in estimating the pre-planting quota for Hyogo prefecture should not be permitted to serve as a barrier to over quota turn in of rice by the farmers.

SUBJECT: Pre-Planting Quota for Bonus Paymenr (30 December 1948)

Headquarters Eighth Army, APO 343

TO: Commanding General, I Corps, APO 301

1. Reference paragraph 2, basic communication, this headquarters has been informed that the over-assessment of 31,500 koku of rice made in the pre-planting quota was taken into consideration and adjusted when the revised quota was established in October, 1948

2. The recommendation contained in the basic communication and approved in the 2nd indorsement has been brought to the attention of the Supreme Commander for the Allied Powers. In view of the fact that reduction of the Pre-planting quota would affect 33 prefectures it is deemed inadvisable to recommend further revision.

20 December 1948

48/M/A/8

430.

SUBJECT: Pre-planting Quota for Bonus Payment.

TO: Commanding Officer
Kinki Military Government Region
APO 301

1. Inclosed herewith is a petition from the Hyogo Prefectural Government concerning the payment of the three-times normal price for over-quota deliveries of rice.

2. The 31,800 koku referred to in the petition is the amount by which the Ministry of Agriculture and Forestry had over-assessed the quota of this prefecture due to an error. Kobe City had assimilated a large part of Akashi Gun prior to the calculation of the quota and the production of this area (31,800 koku for collection purposes) had been included in computations for both Kobe City and Akashi Gun. This error has been admitted by the Ministry of Agriculture and Forestry but they have refused the revise the pre-planting quota.

3. This prefecture suffered unusual damage during 1948 from drought and insects and was given a substantial reduction from the pre-planting quota (17.8%). However, this reduction serves to discourage over-quota deliveries inasmuch as the payment of the over-quota bonus becomes effective only after the pre-planting quota is fulfilled. Thus a farmer must turn in eligible over-quota deliveries before he is eligible to receive bonus payments.

4. Several areas in this prefecture had excellent crops, despite the drought and insects which affected less than half of the prefecture. It is believed that more over-quota deliveries would be made if the pre-planting quota for 1948 were reduced.

5. It is recommended that the 1948 pre-planting quota for this prefecture be reduced (for bonus payment purposes only) from 1,201,900 to 970,400 koku.

Incl 1:
as indicated.

TO: CG, Eighth Army, APO 343

This headquarters concurs with the recommendation that the 1948 pre-planting quota for Hyogo prefecture be reduced (for bonus payment purposes only) from 1,100,900 to 970,400 koku. The reduction of 31,500 koku will serve to stimulate over quota turn in by the farmers. The error made by the Ministry of Agriculture and Forestry in estimating the pre-planting quota for Hyogo prefecture should not be permitted to serve as a barrier to over quota turn in of rice by the farmers.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

430

Subject: Readjustment of the 1948 Crop Delivery Quotas

As reported by Shiga Prefectural Office

1. The delivery quotas of staple food crop for the year 1948 was made under the preplanting quota system that was adopted for the first time this year, and the delivery quotas on national level was announced at a conference of all prefectural governors held in Tokyo on 1 March 1948 as follows:

a. Rice

Total amount of estimated production. 62,851,500 koku
(Planting acreage: 2,912,023 cho
Estimated production amount per tan: 2,158 go)

b. Other cereals

Total amount of estimated production. 3,519,000 koku
(Planting acreage: 683,361 cho
Estimated production amount per tan: 514 go)

c. Total amount of rice and other cereals allowed to be kept by farmers for their own consumption. 34,121,500 koku

d. Total amount of quotas for rice and other cereals to be delivered to the Government. 32,249,000 koku
(d=a+b-c)

The above-mentioned planting acreage is the estimated one of all the arable land in Japan, on which plantation is supposed to be done successfully, judging from soil conditions of the land.

The estimated production amount per tan is computed on condition that no disaster entailing the decrease in crop production take place and that fertilizer be distributed to farmers in due time as was contemplated, and accordingly, it is taken for granted that in the event of the decrease in crop production resulting from disasters, etc. beyond the control of farmers being encountered, the original delivery quotas will later be readjusted by the Government.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17501 3

2. On the basis of national delivery quotas mentioned in paragraph 1 above, the 1948 crop delivery quota applicable to Shiga Prefecture was given as follows:

a.	Rice	
	Total amount of estimated production.	1,534,162 koku
b.	Other cereals	
	Total amount of estimated production.	13,473 koku
c.	Total amount of rice and other cereals allowed to be kept by farmers for their own consumption.	654,100 koku
d.	Total amount of quota for rice and other cereals to be delivered to the Government.	893,535 koku

3. A conference was held in Tokyo on 23 Oct 1948 with a view to discussing the matters relative to the readjustment of the 1948 delivery quotas for rice, other cereals and sweet potatoes, and at this conference prefectural governors made their respective requests, calling for the reduction in the original 1948 crop delivery quotas. The total amount of the reduction requested by prefectural governors amounted to as much as 8,600,000 koku. However, the reduction of only 1,650,000 koku was approved, as a result of consultations carried out by the Government with GHQ.

The Government felt it impossible to make the readjustment of delivery quotas to individual villages and farmers with 1,650,000 koku approved by GHQ, not to mention 8,600,000 koku proposed by prefectural governors, and took this matter up again with GHQ and succeeded to obtain their understanding that about 2,500,000 koku can be reduced in the original 1948 crop delivery quotas, provided that over-quota delivery has to be achieved by all means out of the increased portion of crop production.

4. The Government earmarked 1,650,000 koku to be allotted for the central readjustment of the original 1948 crop delivery quotas, and decided to relieve farmers of their delivery repon-

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17501 3

sibility up to this amount.

About 2,500,000 koku was earmarked by the Government to be allotted for the local readjustment of the original 1948 delivery quotas, and was made available for reducing the original delivery quotas of farmers in case the estimated crop production is decreased due to disasters, etc., provided that over-quota delivery should be achieved to recover the amount more than that was made available for the reduction of the original delivery quotas.

This arrangement was made on national level by the Government, and applied not only to Shiga Prefecture but also all other prefectures throughout this country.

5. In accordance with the arrangement mentioned in paragraph 4 above, Shiga Prefecture was given 7,000 koku to be made available for the central readjustment and 30,000 koku for the local readjustment.

With the target date fixed on 20 Dec 1948 for the completion of 100% delivery, the unprecedented progress is now being made in the 1948 crop delivery, and about 90% delivery was accomplished as of 15 Dec 1948.

SUBJECT: Sale of Fish Allocations at Ports

THRU: Commanding General, I Corps, APO 301

TO: Supreme Commander for the Allied Powers, APO 500.

1. Reference is made to Incl No. 1 for percentage of receipts against allocation of fish for Shiga Prefecture and for comparison with percentage of allocations shipped to other prefectures.

2. Ken MIB officials state that all ports engage in the practice of billing out short weight shipments. That collusion does exist in other prefectures to the extent that incoming shipments are not weighed but are receipted for full amount shown on transportation certificate and that the incoming shipment is then pro rated to dealers both as to actual amount and recorded amounts without any complaints.

3. Ken MIB officials further state Shiga Ken cannot buy its full allocation due to the existance of the practice.

4. A report on this matter has been submitted by the Ken MIB to the National Headquarters of MIB for coordinated action in this matter.

5. The Ken governor has been made aware of this situation several months ago but to date has not taken any known corrective action.

6. Suggest that Japanese officials be required to fill all existing allocations before favoring any particular area with a shipment of fish in excess of their allocation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

BASIC: Ltr, Hq Shiga Mil Govt Team, subj: "Sale of Fish Allocations at Ports" dtd 16 Dec, 48

AG 430 - BA 1st Ind EHN/yy

Hq I Corps, APO 301,

DEC 24 1948

TO: CG, Eighth Army, APO 343

1. Numerous reports received from prefectures in the I Corps area, indicate that the distribution of fish has not been progressing in a satisfactory manner. Favored areas are receiving considerably more than the allocated amount of fish and marine products, while other prefectures are unable to receive the amounts alloted. A specific instance of this injustice is Shiga prefecture which has not been able to obtain the fish and marine products to which it is entitled. An investigation conducted by the Shiga Military Government Team developed the following facts:

a. Incoming shipments of marine product to retailers in Shiga prefecture are checked as to weight, and payment is made only for the amount actually received.

b. Fishing ports engage in the practice of billing out short weight shipments. In many prefectures, these shipment are receipted for as being of appropriate weight. The shortage is then passed on to the consumer. This results in the shipper being paid more for fish shipped to other prefectures than for that shipped to Shiga. The insistence of Shiga retailers on paying only what they actually receive has resulted in the prefecture being deprived of its alloted amount of sea products. Dealers are reluctant to sell to the retailers in Shiga because pro rating of transactions cannot be accomplished.

2. The Osaka Regional EIB has recently started an intensive investigation and surveillance program over the control of marine products. This program will extend to 15 February 1949 and the attention of the Regional EIB has been directed to existing conditions in Shiga Ken.

3. Request that Japanese officials be instructed to insure that existing allocations are met before any area is allowed shipments in excess of allocations.

HEADQUARTERS
SHIGA MILITARY GOVERNMENT TEAM
APO 25, Unit 3, (Otsu, Honshu)

16 December 1948
48/E/FC/12 23 Dec 48

SUBJECT: Rice Collection

THRU: Commanding General, I Corps, APO 301

TO: Supreme Commander for the Allied Powers, APO 500.

1. Reference is made to page 8 of NRS Weekly Summary No. 158, for 17-23 October 1948 relative to "Revision of Collection Quotas for Rice and Sweet Potatoes."

2. Rice Quotas for Shiga Prefecture:

a. Original preplanting quota: 893,600 koku

b. Reduction based on crop damage or other natural disasters: 7,000 "

c. Reduced Ken quota stands at: 886,600 "

d. A "maximum prefectural adjustment" of 30,000 koku was authorized to be made by the governor. This in effect meant that the Governor could reduce and increase quotas throughout the prefecture as long as the total to be collected did not fall below 886,600 koku. The exercise by the governor of this option has operated to the detriment of the surplus rice collection program in this prefecture for the following reasons:

(1) Preplanting quotas and with them the prestige of Local Food Adjustment Committee were nullified or changed by action of the Governor or his representatives in reassigning quotas. (Nominally the Food Adjustment Committee Organization was used to disseminate this data to the farmer, however, there was no doubt among all concerned that it was the "Governor's readjustment" of preplanting quotas.)

(2) Readjustment was Ken wide. Some farmers of all except 5 villages received reductions of their preplanting quotas. In addition to the above some farmers in all villages received increases of preplanting quotas. Confusion and consternation in the villages was brought about as the result of the "Governor's readjustment" of

02901

4789

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

pre-planting quotas previously established and defended by the local food adjustment committees.

(3) "The Governor's readjustment" was completed on 21 November 1948. Prior to the "readjustment" there were several villages that had achieved "surplus" delivery over their pre-planting quotas. As a result of the "readjustment" all surpluses were absorbed as increased quotas and to date there is not one village in the Ken that has achieved over 100% of their new "adjusted" quotas, although there are many individual farmers and villages that have exceeded their original preplanting quotas. This matter is another source of confusion among farmers and villages in respect as to whether or not they qualify for bonuses and when a village may be considered as "qualified" to operate under the "anonymous delivery program". Also there are too many different terms used to describe quotas, ie. farmers responsible quota, governor's excess quota, preplanting quota and adjusted quota.

3. Comments

a. Above situation was forseen by this Team and conferences were held with the Ken officials in an effort to postpone the "readjustment" phase, however, this was precluded by instructions issued to the Governor by the Director General of the Foodstuffs Management Bureau, dated 2 November 1948 to the effect that readjustments must be completed by 20 November 1948.

b. Above actions of the Governor and officials of the Ken are recognized as legal, but are reported due to the effect they have had in negating past efforts of promoting a "surplus" delivery attitude" among farmers.

c. Permitting the Governor an option to increase or reduce the rice collection quotas has to some extent taken this important function away from local food adjustment committees and put it back into the hands of politicians. The integrity of local food adjustment committees and particularly its function "of reducing quotas for reasons of disasters or crop failure only" has suffered in many localities.

d. To date the governor has interested himself solely on the side of "reduction of quotas" and has not taken any positive action that would promote over quota collection.

e. Considerable time has been consumed by this Team in an effort to inform the farmers and village officials of the reasons for the changing situation and to encourage them to deliver all surplus rice regardless of quota. This has, of course, resulted in diverting efforts of all concerned from a "surplus delivery program" that had its inception early in

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

the season to the present problems resultant from the governor's exercise of his rice adjustment option.

4. Recommendations:

a. That Japanese officials take following action:

(1) Publicize the fact that all farmers who exceed their preplanting quotas are entitled to bonus money and bonus incentive goods regardless of whether or not their respective villages completed their pre-planting quotas.

(2) That the "Anonymous Delivery Program" be amended to permit individual farmers to deliver anonymously as soon as they have completed their quotas instead of the present restriction whereby the plan is put into effect only after an entire buraku has met its pre-planting quota.

b. That future optional reductions of quota be withheld until 30 days after area deadline date for collection. (In this case it would be 30 days after 31 March 1949.) This would serve to prevent recurrence of present situation where approximately one half of the Ken farmers have been released from any obligation to deliver their surplus due to their quota being officially reduced and vice versa with the farmers that have received official increases in their quotas.

Sea Bream	292	10%
Sawara	228	10%

Incl 18

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

Report Control Symbol QNR-05

An inspection of Kuki Port was made on 2 November and it was ascertained that:

1. Kuki Port is a Class B Fishing Port.

2. The population of Kuki village is 2,500. Approximately 80% of the working population are members of the Kuki Fishing Association; 90% of the members of the association are fishermen.

3. 49 non-motored vessels and 64 motored vessels are registered at Kuki Port.

4. The distribution of the fish caught at Kuki during November is shown as follows:

Intra-Prefecture	8,821 kan (33,079 kgs.)
Inter-Prefecture	7,847 kan (29,426 kgs.)
For processing	1,250 kan (4,688 kgs.)
Consumed in Area	2,516 kan (9,435 kgs.)
Non-controlled fish	1,054 kan (3,937 kgs.)
Total	21,488 kan (80,565 kgs.)

5. During November, Kuki followed its intra-prefecture shipping plan closely, filling 105% of the 7,400 kan quota. Most of the remainder of the catch was shipped out of the prefecture, as authorized by Central Government.

6. The amount of fish caught during November showed an 85% increase as compared with October's catch. According to port officials, the winter months are always more favorable to fishing in this area. January through March is usually the peak season.

7. According to port officials, their supply of oil was exhausted while laying out the winter fixed nets during October and November. It is anticipated that the November and December fuel allocation will be received at the same time. The present fuel shortage at Kuki is not believed to be critical because fixed-net fishing requires a minimum of fuel.

8. According to port officials, their supply of rope and nets is approximately 50% of the requirement. The officials state that very little rope or netting is available on the blackmarket.

9. Kuki Port authorities state that, since September, it has not been difficult to fulfill their quotas.

HEADQUARTERS
SHIGA MILITARY GOVERNMENT TEAM
APO 25, Unit 3, (Otsu, Honshu)

2 December 1948
48/E/FC/11

SUBJECT: Staple Food Preplanting Quota Allocations and Collections

THRU: Commanding General, I Corps, APO 301

TO: Supreme Commander for the Allied Powers, APO 500.

1. On 26 May 1948, preplanting quota allocations of rice were completed in this Ken and so reported by the governor in a written report to this Team.

2. No known appeals were made on allocations as initially made.

3. On 30 Nov 48, Mr. T. Ibuki, Chief of Shiga Ken Economic Department, published a news article (see incl No. 1) revealing a compromising attitude of Ken and Tobacco Monoply officials toward the staple food program. Following reasons are submitted in support of this allegation.

a. Governor's signed report stating that rice preplanting allocations were completed is subjected to doubt as to its veracity.

b. Tobacco Monoply officials apparently have priority over rice on available farm land. (No preplanting quota for tobacco was issued this year.)

c. Procedure used by Japanese officials to remedy this situation is believed to be wrong as it by-passed action of local food adjustment committees.

4. Ken governor and Mr. T. Ibuki were interviewed on this matter. They do not admit of any collusion with Tobacco Monoply Officials neither do they believe that their procedure in this matter is wrong.

5. The land area in question totals approximately 84 tan and will not effect the Ken rice collection program.

6. Recommendations:

a. That Tobacco Monoply officials be instructed not to encourage tobacco planting on land that is needed for meeting staple food quotas.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

MG

SUBJECT: Staple Food Preplanting Quota Allocation and Collections

2 December 1948

b. That Ken governor be instructed to permit local food adjustment committees to operate without interference from Ken officials.

PD FOOD MEMORANDUM NO. 16

SUPPLEMENTARY RATION FOR FOREIGN NATIONALS

Date: 18 November 1948

Incl. 2[22]

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

SUPPLEMENTARY RATION FOR FOREIGN NATIONALS

1. Revised Supplementary Food Ration for Foreign Nationals.

As of November 1948 the monthly supplementary food ration for foreign nationals will be as follows:

a. "A" or rice dietary.

Rice	3.0 kilograms
Shoyu	2.0 go.
Oil	3.0 go.
Sugar	1.0 kin.
Wheat flour	500 momme.
Eggs	10 pieces.
Fish	100 momme.

b. "B" or non-rice dietary.

Oil	2.0 go.
Sugar	1 kin
Wheat flour	500 momme.
Eggs	15 pieces.
Butter	1 pound.
Beef	300 momme.
Potatoes (white or sweet)	2.0 kan.

2. The stated purpose of the supplementary ration for foreign nationals is to provide minimum nutritional requirements at regular periods in a standardized manner. The revised supplementary ration as listed above in combination with the current Japanese ration of staple, non-staple and perishable foods insures foreign nationals a slightly higher caloric diet than they received in the fall of 1946 when the previous supplementary ration was established.

3. The previously stated conditions necessary to receive supplementary rations are in no way altered by this memorandum. Japanese spouses of foreign nationals entitled to supplementary rations and the children of such marriages may receive supplementary rations only when a certificate of Registery has been issued by the respective diplomatic or consular representative of the husband or wife of foreign nationality.

NON-STAPLE FOOD RATION INCREASE

DATE: 1 NOVEMBER 1948

Incl. /22

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

I. NON-STAPLE FOOD RATION INCREASE

On 1 November 1948 a new ration level will be established for shoyu (soy sauce) and miso (soy bean paste).

a. The revised ration allowances for shoyu by area are as follows:

	Present Ration	Revised 1 Nov. Ration	Percent Increase
A 1/ Area	2.0 "go"	2.5 "go"	25%
B 2/ Area	2.7 "go"	3.5 "go"	30%
C 3/ Area	3.7 "go"	4.5 "go"	26%

Shoyu is rationed to approximately 72,500,000 people.

b. The revised ration allowances for miso by area are as follows:

Area	Up to 1 Aug Ration	Aug to 1 Nov Ration	Revised Ration 1 Nov.	% Increase Over Ration Prior to 1 Aug.
A 1/	120 momme	180 momme	240 momme	100%
B 2/	90 "	130 "	180 "	100%
C 3/	60 "	90 "	120 "	100%

Approximately 53,000,000 people are included in the miso ration. The balance of the population are self-suppliers.

1/ Area A consists of Hokkaido, Aomori, Iwate, Miyagi, Fukushima, Yamagata, Akita, Niigata, Toyama, Nagano, Miyazaki, Kagoshima and Tochigi.

2/ Area B consists of Ibaragi, Saitama, Tokyo, Kanagawa, Ishikawa, Gifu, Shizuoka, Aichi, Mie, Tokushima, Fukuoka, Saga, Nagasaki, Kumamoto, and Oita.

3/ Area C consists of Gumma, Chiba, Yamanashi, Fukui, Shiga, Kyoto, Osaka, Hyogo, Nara, Wakayama, Kagawa, Ehime, Kochi, Tottori, Shimane, Okayama, Hiroshima and Yamaguchi.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

c. As of December 1948, 300 grams per capita per month of sugar will be rationed to all Japanese. The ration distribution will coincide closely with the elimination of sugar as a staple food substitute.

d. It is planned to maintain a monthly per capita ration of 60 grams of fats and oils for the urban population and 30 grams per capita per month for the non-urban population either in the form of margerine or edible oil.

II ECONOMIC EFFECTS

While shoyu sauce, miso, fats and oils and sugar are classified as non-staple foods, their importance in the Japanese dietary is only second to that of rice. The orderly rationing of increased quantities of miso and shoyu has already been reflected in the lowered effective prices of these commodities although their official prices were more than doubled in July 1948. With the exception of fats and oils, the 1 November ration of shoyu and miso and the December ration of sugar is closely approximating prewar consumption levels. In conjunction with the increased staple food ration, the increased rations of non-staple foods should result in greatly relieving the pressure to purchase foodstuffs from blackmarket sources.

1. Reference is made to Operational Directive number 28, this headquarters, dated 13 March 1947, subject: "Rice Collections," and slants thereto.

2. The Ministry of Agriculture and Forestry has issued instructions stating that out of the total rice quota for each prefecture, a specified amount can be polished by the farmer before it is turned in and another specified amount can be polished according to plans set up by the prefectural governor. The farmer will be permitted to retain the bran by-product from the rice he polishes. The by-product from the rice polished according to the governor's plan will be distributed as feed according to his instructions. The remainder of the rice quota will be stored and polished by the Food Kodan and the bran by-product will be distributed according to plans by the Feed Kodan. The amounts authorized to be polished in your area under these two plans follow:

(Unit: Koku in BRL)

Prefecture	Farmer	Governor
Toyama	50,000	250,000
Ishikawa	20,000	80,000

26 October 1948

SUBJECT: Non-Controlled Fish

TO : Commanding Officer
Kinki Military Government Region
APO 301

1. On 31 July 1948 price control was removed for certain high class fish, such as sea bream.

2. It has been brought to our attention that there is absolutely no control on high class fish in this prefecture. Unlicensed individuals are buying and retailing sea beam every-day in Wakayama City. Surveillance team has been numerous Tokushima Prefecture boats selling hundreds of kan of sea bream to Wakayama City agents. Kencho Government officials believe that this situation is correct, that high class fish is completely uncontrolled.

3. It is the belief of this team that only ceiling price of high class fish was removed, that high class fish must pass through regular channels of distribution, that transportation certificates must accompany shipments of high class fish.

4. It is requested that this team be informed of the correct intent of price removal on high class fish. It is requested that the Ministry of Forestry and Agriculture be asked to re-instruct our prefectural government on this matter.

FOR THE COMMANDING OFFICER:

HAROLD C. DAWSON
Major, USAF
Adjutant

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

Hq Kinki Mil Govt Region, APO 301, 4 NOV 1948

TO: CO, Wakayama Mil Govt Team, APO 25

1. The decontrol of high class fish includes decontrol from distribution channels as well as from price. No incentive goods or link materials will be issued in respect to decontrolled fish.

2. Under present regulations, transportation certificates are not required for shipments of decontrolled items. However, transportation officials have generally insisted that certificates accompany the shipments of fish, and this matter has been referred to higher headquarters for clarification.

3. The comments of your headquarters are invited in respect to the price, distribution and shipment of decontrolled fish.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17503

APPENDIX 100 (Perishable Foods)

File

TO: Prefectural Governors

FROM: Director of Grocery Bureau, MAF
Chief of Production Department, Board of Fishery
Chief of Second Department, Board of Price.

Subject: Pooling of Price of Controlled Marine Porducts and Vegetables

Dated: September 10, 1948

1. We hereby notify you that following interpretations have been decided with respect to the above subject in order to avoid ambiguities.

We have informed the Board of Justice, Headquarters of the National Police and the Central Economic Investigation Board of the interpretations.

2. In the following cases, so long as there is no violation of official price in making payment between the shipping agency and the receiving agencies, the payment between the shipping agency and the respective producers does not constitute a cause of violation of the Commodity Price Control Ordinance, since it is a matter of internal division of payment between them, except in case of acts intended to evade the law.

a. In case a shipping agency makes shipments to respective destinations (Classes A, B, C, and D districts in the case of controlled marine products, and Classes A, B, and C districts in the case of vegetables) on unconditional consignment by producers, and receives payment at official price from the receiving agencies of the respective receiving districts, and the sum of money which the shipping agency pays to respective producers by pooling the receipts from the receiving agencies exceeds the amount which the shipping agency is to receive at official price from the receiving agencies of Classes A, B, and C districts in the case of controlled marine products, and from Classes B and C districts in the case of vegetables.

b. In case there is a seasonal variation in the official price(including cases of revision of official price), the payment made by a shipping agency to respective producers by pooling the receipts from the receiving agencies exceeds the sum which the shipping agency is to receive from the receiving agencies at the lower official price.
