NOTE

This list of additional references brings down to date that part of the "Select list of works relating to taxation of inheritances and of incomes" issued in 1907 which relates to incomes. The pagination continues the pagination of the original edition, so that it will be an easy matter to attach the supplement to the earlier part.

When printed catalogue cards exist for any work entered in the list, the Library of Congress card number is printed immediately after the entry at the left. On the same line to the right the class mark, where determined in the new classification, is printed in heavier type.
