[Amdt. 1]
PART 722—COTTON

SUBPART—REGULATIONS PERTAINING TO ACREAGE ALLOTMENTS FOR THE 1958 CROP OF EXTRA LONG STAPLE COTTON
COUNTY ALLOTMENT, ALLOCATIONS FROM STATE RESERVE, AND RELATED DATA

Basis and purpose. The purpose of this amendment is to establish county allotments showing components thereof (computed county allotment, adjustments from State reserve for trends, and abnormal conditions); allocations to counties from State reserve for small farms, and to correct inequities and prevent hardships; to establish the remainder of State reserve which is available for allocation to counties for new farms, late and reconstituted farms, and correction of errors; to designate whether counties use the historical or cropland basis for establishing farm allotments; and to designate counties which use the 50 percent of cropland limitation. The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as

amended; 7 U. S. C. 1281 et seq.). Notice of the proposed establishment of such allotments, reserves and related data was published in the FEDERAL REGISTER of July 27, 1957 (22 F. R. 5966) pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) and the data, views, and recommendations which were submitted have been duly considered.

Farmers engaged in the production of ELS cotton in 1957 will determine in a referendum to be held on December 10, 1957, whether marketing quotas will be in effect for the 1958 crop of ELS cotton. In order that farm allotments may be established as early as possible and notices of individual farm allotments may be mailed, insofar as practicable, so as to be received by farmers prior to the referendum, as required by section 362 of the Agricultural Adjustment Act of 1938, as amended, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the

public interest and this amendment shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.1516 (h) of the Regulations Pertaining to Acreage Allotments for the 1958 Crop of Extra Long Staple Cotton (22 F. R. 8279) is amended to read as follows:

(h) *County allotments, allocations from State reserve, and related data.* There are set forth below the county allotments showing components thereof (computed county allotments, adjustments from State reserve for trends, and abnormal conditions); allocations to counties from State reserve for small farms, and to correct inequities and prevent hardships; and the remainder of State reserve which is available for allocation to counties for new farms, late and reconstituted farms, and correction of errors. All counties are designated as using the historical basis for establishing farm allotments as provided in § 722.1517 (d). Counties using the 50 percent of cropland limitation are so designated by footnote 1 following the name of the county.

from national reserve, adjustments from State reserve for trends, abnormal conditions, and minimum farm allotments); allocations to counties from State reserve for small farms, and to correct inequities and prevent hardships; to establish the remainder of State reserve which is available for allocation to counties for new farms, late and reconstituted farms, and correction of errors; to designate whether counties use the historical or cropland basis for establishing from allotments; and to designate counties which use the 50 percent of cropland limitation. The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U. S. C. 1281 et seq.). Farmers engaged in the production of upland cotton in 1957 will determine in a referendum to be held on December 10, 1957, whether marketing quotas will be in effect for the 1958 crop of upland cotton. which yields have been determined by State committees pursuant to and under the standards specified in § 729.821 (a) of the Allotment and Marketing Quota Regulations for Peanuts of the 1957 and Subsequent Crops (21 F. R. 9370, 9760; 22 F. R. 6741, 6987). County normal yields are used in some cases under the said regulations (§§ 729.821 (b), 729.823, 729.853) to determine the amount of penalty on peanuts marketed from a farm and as the 1957 peanut crop is now being marketed it is essential that county normal yields for the 1957 crop be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1001-1011) is impractical and contrary to the public interest and the county normal yields specified below shall become effective upon filing of this document with the Director, Division of the Federal Register.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 125, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b) (1) (i) of § 914.425 (Navel Orange Regulation 125, 22 F. R. 9832) are hereby amended to read as follows:

(i) District 1: 1,016,400 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 10, 1957.

Subchapter A—Civil Air Regulations

[Supp. 30]

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY AND ACROBATIC CATEGORIES

DESIGN LOADS AND LOAD DISTRIBUTIONS

This policy permits the use of simplified procedures, published by the Administrator in Appendix D of Civil Aeronautics Manual 3, for determining the loads and load distributions on low speed, low altitude airplanes incorporating wing tip stores.

A new § 3.171-2 is added to read as follows:

§ 3.171-2 *Design loads and load distributions (CAA policies which apply to § 3.171 (b)).* The simplified method in Appendix D¹ to Civil Aeronautics Manual 3 may be used to determine the air loads and air load distributions resulting from the use of tip stores for low speed, low altitude (design Mach number less than 0.4; design altitude less than 15,000 ft.) airplanes with small amounts of sweep (i. e., mid-chord angles of sweep less than 15 degrees):

This supplement shall become effective January 15, 1958.

not detract from the conspicuity of the position lights. If there is no acceptable location on top of the fuselage, a bottom fuselage installation may be used.

(b) The color of the anticollision light should be aviation red in accordance with the specifications of § 6.635.

(c) The arrangement of the anticollision light, i. e., number of light sources, beam width, speed of rotation, etc., should be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute with an on-off ratio of not less than 1:75.

This supplement shall become effective January 15, 1958.

HEARING**

DECEMBER 9, 1957.

In the matters of Wilcox Trend Gathering System, Inc., Docket No. G-13391; Texas Eastern Transmission Corporation, Docket No. G-13392.

Take notice that Wilcox Trend Gathering System, Inc.¹ (Wilcox) in Docket No. G-13391, and Texas Eastern Transmission Corporation (Texas Eastern) in Docket No. G-13392, hereinafter referred to collectively as "Applicants", filed budget-type applications on October 9, 1957, for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of natural gas field transmission facilities, subject to the jurisdiction of the Commission, all as more fully represented in the respective applications which are on file with the Commission and open to public inspection.

Applicants seek authority to construct and operate field facilities to enable them to take into their respective certificated main pipeline systems natural gas which they will purchase from producers in the general area of their respective existing transmission systems from time to time during the calendar year 1958, at a total cost not in excess of \$1,000,000 for Wilcox and \$3,000,000 for Texas Eastern. The Applicants state that the proposals herein will eliminate numerous filings during 1958 for the sole purpose of installing facilities to attach new supplies of gas to their systems where expansions of their overall transmission facilities are not involved.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 15, 1958, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.
