Subject : Statement about Constructing-Materials and Attachments listed in Attached Sheets.

We should like to submit to your study, our statement and contemplated use of our constructing materials and attachments, to which this letter attached, enumerated in the sheets made by the surveyors' team of Japan Constructive Industry Managing Association (Nippon Kensetsu Kogyo Tosei Kumiai).

After we having been designated as a reparations plant, we are continually engaging in manufacture of wood work products such as furnitures and wooden parts of agricultural equipments.

1. We consume monthly 30,000 bd.ft. of rough sawn lumber for manufacture of these products, and also are sawing lumber supplying to war-sufferers. Owing to should be used perfectly seasoned lumber for working with wood as a well-known fact, our stock quantity of lumber is only no more than one month quantity of monthly consumption.

2. Painting materials are necessary stock for manufacture of furnitures. Fire-brick should be used for artificially seasoning lumber chamber now under repairs.

3. The four units of transformer listed in the installed materials sheets (Code number of each one: No.91, 92, 93, and 94) are the ones which are attached to the building occupying Daiken Co., Ltd. at present who is engaging in manufacture of cotton yarn and cotton textile.

Under present circumstances far from possible acquisition of big capacities' transformers like these to substitute in this district, the sudden removal of them shall result interruption of their cotton yarn and cotton textile manufacturing.

4. The two units of transformer (Code Number of them: No.97 and 98) are in use for sawing lumber and manufacture of wood work products. The two units of transformer (Code No. of them: No.95 and are now in use for repairing of spinning machines and looms.

We report you our actual situation of using and opinions respectively as mentioned above for your reference in the case of your studies about the materials sheets which we attached herewith.

Subject: Referential Opinion concerning to Contemplated use of our own Building-Materials.

We, Kureha Cotton-Mill, Daiken Co.,Ltd. should like to your studies the following our actual circumstances and contemplated use in regard to our own building-materials and attachments listed in annex sheets, about what has reported you the surveyors team of Japan Constructive Industry Managing Association (Nippon Kensetsu Kogyo Tosei Kumiai) as result of their inspections.

1. We have reconverted to cotton spinning and weaving works as the Kureha Mill of Daiken Co.,Ltd. under permission granted by the authority of 1 Corps, permit No. IC 116, dated Jan, 21st, 1946. And we are now engaging in fixing up 73,536 spindles of spinning machines and 1,200 looms, and some of them are already in operation.

2. The corresponding Building-Materials and attachments are the ones which we have newly purchased and equipped for reinstallment of our works.

3. We are ordered to schedule the completed reinstatement of 73,536 spindles of spinning machines and 1,200 looms by March of this year, and we have finished up of some 50,000 spindles and 600 looms until December of last year.
The listed building-materials and attachments ought to be used and consumed to 100% for the reinstatement and the full operation of our works.

4. The referential opinions concerning to the listed articles and respective quantities are as follows:

The scheduled consumption of each material and article listed in annex sheets are shown with the follwoing marks:

Mark ○ : By the end of Jan.
" △ : By the end of Feb.
" X : By the ned of March.

Inasmuch as these are the materials and articles to be used and consumed for reinstallment of our plant, we request you have sympathetic consideration about your judgement of this matter.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Jan. 16th.,1947

To : Headquarters, Eighth Army.

From : Kureha Cotton-Mill, Daiken Co.,Ltd.
2247, Odake, Kureha-mura, Nei-gun, Toyama Pref.

Subject : Statement as the Persons concerned, concerning to the 4 units of Transformer listed Materials Sheets which were presented by Kureha Plant, Kureha Industry Co.,Ltd.

Concerning to the 4 units of transformer (Code No.91, 92, 93 and 94) listed in Building-Materials Sheets which presented Kureha Plant of Kureha Industry Co.,Ltd., we have much concern in our own spinning and weaving operations.

We express you, hereupon, our actual situation of using them and our referential opinions.

1. The Kureha Plant of Kureha Industry Co.,Ltd. is a controlled plant.

On the other hand, we, an independent incorporation, have converted at the present address to spinning and weaving works under permission granted by the authority of 1 Corps, permit No.IC 116, dated Jan, 21st.,1946, to manufacture cotton yarn and textile.

In this connection, we have been engaging in spinning and weaving works in this plant during 14 years before transferred this building to Kureha Industry Co.,Ltd.

We are fulfilling at present, to reinstate 73,536 spindles of spinning machines and 1,200 looms. We have accomplished fixing up about 50,000 spindles and about 600 looms until the end of December, last year, and these machines are now in operation.

2. The corresponding transformers are attached to the building which we occupy, and are now in use for lighting the whole cotton-mill. Inasmuch as the sudden removal of them shall result impediment of our regular operations and interruption of cotton spinning and weaving works which take heavy charge of exportation and supply of clothes to the people, we request you let us use them for the time being remaining at the respective places.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

9 Dec. 1949

TO . Mr. John J. Lewis, Tokai-Hokuriku
Civil Affairs Region.

SUBJECT. Confirmation of EX Machines.

We beg to request you to confirm the fact that 34 wood-work machines located at the Kureha plant of Kureha Industrial Co., Ltd., No.2,443, Odake, Kureha-mura, Nei-gun machine as stated below.

(1) Major Morgan of Tokai-Hokuriku Military Govt Region Feb. 20, 1948 gave an instruction that wood-work machines had been excluded from the category of reparations, and that the code number of them should be given cross marks.

(2) On 15 March 1949 when Capt. Russell H. Gunnel of SCAP and Mr. John J. Lewis Civil Affairs Team, Toyama paid the inspection to this plant, Capt. Gunnel mentioned that wood-work machines had no necessity to be registered according to OD 5/4, and that as these machines were being registered, the mark "EX" should be written by the side of each code number. Shortly after that, the mark "EX" has been up to this time written by the side of each code number.

Signed KOSEI KOMATA
Director, Economics
Department, Toyama-ken.

I certify that the above mention circumstance did occur as stated
