(1) 1. The recommendation by Poland to accomodate 1875 Germans on the same ship that will evacuate the Diplomatic Missions should have been analyzed by reference to G-3 (Repatriation), G-4 (Shipping) and A. G. (Recovered Personnel); the problem is complicated because of the following elements:

a. Public opinion is for evacuation of American Combat Troops rather than enemy aliens, by the thousands.
b. Mixture of Neutral, Allied and co-belligerent Diplomats, on the same ship with alien enemies, a proportion of which are in internee status, is undesirable and requires Military Guard, rigid personnel classifications, etc.
c. Evacuation of Germans, in such large numbers, raises instantly the reciprocal point of evacuation of other Nationals- French, Italians, Spaniards, Siamese, etc.
d. This is a major repatriation problem, requiring
   i- Registry and assembly of nationals.
   ii- Evacuation center or port of embarcation.
   iii- Personnel control, welfare, relief, equipment, etc.
e. The occupation process, to-date, has not envisaged the obligation for evacuation of nationals, as a general principle; machinery involving UNRRA will have to be set up. I question that the Germans could be assembled to make this ship.

iv- Foreign Consuls or agents should bestir themselves, plan and organize the relief and evacuation of their nationals.

2. G-2 recommendations:

The smooth situation of evacuation of the Diplomatic Missions should not be complicated by the last-minute injection of repatriation of other Nationals, on a large scale.

The general problem of relief and repatriation of foreign nationals, on a large scale should be solved by the designation of a proper agency, including the assistance of foreign Consular Representatives. Such an agency will require the usual machinery of repatriation and recovered personnel techniques. G-2 is not the agency as a matter of man power and has only been able to undertake the handling of the Diplomatic Corps, so far. In a previous recommendation, General Crist, Military Government Section has suggested that an existing sub-section of Military Government (Foreign Nationals, property, claims, finances, etc.) take over contact with foreign Consulates or representatives; this matter was held in abeyance, pending the evacuation of the old diplomatic personnel; since the relief personnel, representing the various countries with G.H.Q. is of junior diplomatic grade, the emphasis on Consular Functions, is now partially available, Gen. Crist's recommendation might appropriately be revived. From now, claims for nationals, damages, property losses, etc. can be expected in increasing numbers; these questions affect the State Department, in every instance, and a combined US POLAD-Mil Govt

OFFICE OF THE UNITED STATES POLITICAL ADVISER

Tokyo, Japan, January 31, 1946

No. 236

SUBJECT: Transmitting Data Regarding Persons in Japan Claiming Austrian Nationality

The Honorable

The Secretary of State,

Washington.

Sir:

I have the honor to enclose a copy of a letter dated January 22, 1946, from Mr. C. J. P. Waldbauer, a German national claiming Austrian origin, in regard to the question of the recovery of Austrian nationality by various other residents in Japan. Attached to Mr. Waldbauer's letter is a list of persons residing in Japan who claim a right to Austrian nationality together with pertinent papers submitted by Mr. Waldbauer. Mr. Waldbauer states that he has resided in Japan since October 1943 and that he was formerly an employee of a representative of an American steel company in Shanghai.

Mr. Waldbauer called on an Officer of this Mission several weeks ago in regard to this matter. He was informed that the question of Austrian nationality was, of course, one to be decided by the Austrian Government. In response

The Honorable

The Secretary of State,

Washington.

Sir:

I have the honor to enclose a copy of a letter dated January 22, 1946, from Mr. C. J. P. Waldbauer, a German national claiming Austrian origin, in regard to the question of the recovery of Austrian nationality by various other residents in Japan. Attached to Mr. Waldbauer's letter is a list of persons residing in Japan who claim a right to Austrian nationality together with pertinent papers submitted by Mr. Waldbauer. Mr. Waldbauer states that he has resided in Japan since October 1943 and that he was formerly an employee of a representative of an American steel company in Shanghai.

Mr. Waldbauer called on an Officer of this Mission several weeks ago in regard to this matter. He was informed that the question of Austrian nationality was, of course, one to be decided by the Austrian Government. In response to his request, he was further informed that this Office would, in view of the recent resumption of diplomatic relations between the United States and Austria and in view of the lack of normal channels of communication, forward to Washington such lists of persons claiming Austrian nationality together with supporting evidence as he might submit. In gathering together the information contained in the enclosures to his letter, he printed a notice in the local press. He deliberately or inadvertently succeeded in giving initially the false impression that he was acting under a mandate either from this Mission or from Headquarters of the Supreme Commander for the Allied Powers. This impression was corrected promptly and Mr. Waldbauer's activities investigated by the Counter Intelligence Corps. Accusations have been made that Mr. Waldbauer during the course of the war was employed by the German Embassy in Tokyo and was in sympathy, at least on the surface, with Nazi activities. The accuracy of these accusations has not been determined.

The enclosed

Declassified E.O. 12065 Section 3/402/ NNDC NO. 775009

The enclosed letter and documents were brought to this office by a representative of Mr. Waldbauer, who asserted at considerable length that Mr. Waldbauer was acting from the highest motives. In the belief that in justice to those persons who may genuinely be desirous of reestablishing their Austrian citizenship, these papers should be sent to the Department, we have acquiesced in the request that they be forwarded for delivery to the Austrian Government if the Department perceives no objection to so doing.

Respectfully yours,

George Atcheson, Jr.

The Office of the U. S. Political Adviser,
c/o General MacArthur's Headquarters,
T o k y o.

Sirs:

With reference to my conversation on December 20th with Mr Max Bishop pertaining to the clarification of the status of the Austrian residents in Japan, the undersigned begs to enclose herewith a list comprising the sixty-one Austrian nationals who responded to a three-day notice in both the Nippon Times and the Osaka Mainichi (December 26, 27, & 28) for a registration of former Austrian citizens desirous of avowing their allegiance to the newly established Austrian Government and of regaining their citizenship automatically lost through the German conquest of Austria in March 1938.

In view of the fact that the United States Government has now officially recognized the new Figl government in Austria, whereas the United States authorities in Japan are still considering the local Austrian residents as German nationals - an attitude which might conceivably result also in the Austrian Government's refusal to recognize us as Austrian citizens - the local Austrian community would appreciate indeed if either you were so kind as to give us an opportunity to contact your home government or, better still, if you yourselves contacted Vienna with a view of obtaining for us new Austrian passports or some other kind of Austrian identification papers.

Also enclosed herewith, as suggested by Mr Bishop, please

Also enclosed herewith, as suggested by Mr Bishop, please find copies of birth certificates, residence certificates and/or other proofs of their Austrian citizenship on the part of the local Austrian residents, as well as indications as to the length of their stay in Japan, future plans, etc.

The last Austrian consul in this country was Dr Otto Kresta, residing at Tokyo-Omori, Magomemashi 1, Chome 1364, who has expressed his willingness to resume his office if and when he is requested to do so either by the United States authorities in this country or by the new Austrian Government.

On behalf of the Austrian community I wish to thank you in advance for your kind assistance in this matter, and remain, Sirs,

Yours faithfully,

MEMORANDUM FOR: Allied and Neutral Diplomatic, Consular and Certain Non-Official Personnel Desiring Repatriation from Japan through the United States.

SUBJECT : General Information Regarding Repatriation Travel.

1. The following general information is furnished to enable personnel of Allied and Neutral diplomatic groups desiring repatriation to make appropriate plans for the journey. No official information is available regarding the time when transportation can be furnished. When transportation arrangements are completed, Chiefs of Missions concerned will be notified.

2. Baggage All baggage will be plainly marked with the owners' full name and ultimate destination.

a. Cabin-baggage Because of the limited cabin-space available, it will not be possible for passengers to have steamer or ward-room trunks in their cabins during the voyage. Personal effects for use during the voyage should be placed in not more than two (2) regular suitcases and one or two small vanity cases or overnight bags per passenger and should be in the possession of each passenger at time of boarding the vessel. If conditions aboard the ship permit, the officers in charge of embarkation will have authority to relax these restrictions.

b. Hold baggage and Household effects Although it is most desirable to load all the baggage and household effects on the ship on which the repatriates embark, the volume of this cargo and the time available for loading may make this impracticable. If such is the case, the excess cargo will be forwarded by freighter. All such cargo should be boxed or crated to permit ready handling and if loaded aboard the repatriation ship, will be stored in the hold, unavailable to passengers during the voyage.
