James Joyce's Amazing Chronicle

A Review by Dr. JOSEPH COLLINS

ULYSSES. By James Joyce. Paris, France: Shakespeare & Co. 1922. Price 200 francs.

sage.

countered in the forty years of sen- a tient existence; to describe their con-voice. duct and speech and to analyze their motives, and to relate the effect the "world," sordid, turbulent, disorderly, with mephitic atmosphere engendered by alcohol and the dominant ecclesiasticism of his country. had upon him, an emotional Celt, an egocentric genius, whose chief diversion and keenest pleasure is selfanalysis and whose lifelong important occupation has been keeping a notebook in which has been recorded incident encountered and speech and Boswellian fidelity. Moreover, he is determined to tell it in a new way. Not in straightforward, narrative fashion, with a certain sequenis comprehensible to a person of education and culture, but in parodies of classic prose and current slang, in perversions of sacred literature, in carefully metered prose with studied incoherence, in symbols so occult and mystic that only the initiated and profoundly versed can understand—in short, by means of every trick and illusion that a master artificer, or even magician, can play with the English language.

Before proceeding with a brief analysis of "Ulysses," and comment on its construction and its content. I wish to characterize it. "Ulysses" is the most important contribution that has been made to fictional literature in the twentieth century. It will immortalize its author with the same certainty that Gargantua and Pantagruel immortalized Rabelals, and "The Brothers Karamazof" I am."

mon candor and extraordinary rev- Gibraltar. to confide to the world.

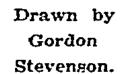

Woods, a renowned Jesuit college near Dublin, and remained there until it seemed to his teachers and his parents that he should decide whether or not he had a vocation, that is, whether he felt within him-FEW intuitive, sensitive vision- | self, in his soul, a desire to join the aries may understand and order. These three novitiates furnished him with all the material that he has used in the four volumes that he has published. Matrimony, parentage, ill health and a number of other factors put an end to his musical ambitions and for several years previous to the outbreak of the war he gained his daily bread by teaching the Austrians of Trieste English and Italian, having a mastery of the latter language that would flatter a Padovian professor. The war drove heard with photographic accuracy him to the haven of the expatriate, Switzerland, and for four years he taught German, Italian, French, English to any one in Berne who had time, ambition and money to acquire tiality of idea, fact, occurrence, in a new language. Since the armisentence, phrase and paragraph that stice he has lived in Paris, finishing "Ulysses," his magnum opus, which he says and believes represents submit to the world through the columns of The Little Review. It is now published "privately for subscribers only."

tive answer. It is particularly in one of the and devoutly pray that we were strangest chapters of all literature, spared. without title, that Mr. Joyce succeeds in displaying the high-water once said: mark of his art. Dedalus and Bloom have passed in review on a mystic stage, all their intimates and enemies, all their detractors and sycophants, the scum of Dublin and the spawn of the devil. Mr. Joyce resurrects Saint Walpurga, galvanizes her into life after twelve centuries of death intimacy with Beelzebub, and substituting a squalid section of Dublin for Brocken, proceeds to depict a festival, with the devil as host. The guests in the flesh and of the spirit have still many. of their distinctive corporeal possessions, but the reactions of life no longer exist. The chapter is replete with wit, humor, philosophy, learning, knowledge of human frailties and human indulgences, especially dutifulness with which a priest reads with the brakes of morality off, and alcohol or congenital deficiency takes them off for most of the be born with a quality which the characters. It reeks of lust and of world calls genius. Nature exacts a filth, but Mr. Joyce says that life penalty, a galling income tax from does, and the morality that he de- geniuses, and as a rule she copicts is the one he knows. In this endows them with unamenability to chapter is compressed all of the law and order. Genius and reverauthor's experiences, all his deter-ence are antipodal, Galileo being the minations and unyieldingness, most exception to the rule. Mr. Joyce of the incidents that have given a has no reverence for organized repersecutory twist to his mind, made ligion, for conventional morality, for him an exile from his native land literary style or form. He has no and deprived him of the courage to return to it. He does not hesitate to bring in the ghost of his mother whom he had been accused of killing because he would not kneel down and pray for her when she was dying and to question her of the verity of the accusation. But he does not repent even when she returns from the spirit world. In fact, the capacity for repentance is left out of Mr. Joyce's make-up. It is just as impossible to convince Mr. Joyce that he is wrong about anything on which he has made up his mind as it is to convince a paranoiac of the unreality of his false beliefs, or a jealous woman of the groundlessness of her suspicions. It may be said that this chapter does not represent life, but I venture to say that it represents life with photographic accuracy as Mr. Joyce

life which we could sincerely wish

In another connection Mr. Joyce

My ancestors threw off their language and took another. They allowed a handful of foreigners to subject them. Do you fancy I am going to pay in my own life and person debts they made? No honorable and sincere man has given up his life, his youth and his affections to Ireland from the days of Tome to those of Parnell but the Irish sold him to the enemy or failed him in need or reviled him and left him for another. Ireland is the old sow that eats her farrow.

He has been saying that for many years, and he tries to make his actions conform with his words. However, every day of his life, if the mails do not fail, he gets a Dublin newspaper and reads it with the his brevlary.

Mr. Joyce had the good fortune to conception of the word obedience, and he bends the knee neither to God nor man. It is very interesting, and most important to have the revelations of such a personality, to have them first-hand and not dressed up. Heretofore our only avenues of information of such personalities led through the asylums for the insane, for it was there that such revelations as those of Mr. Joyce were made without reserve. Lest any one should construe this statement to be a subterfuge on my part to impugn the sanity of Mr. Joyce, let me say at once that he is one of the sanest geniuses that I have ever known.

He had the profound misfortune to lose his faith and he cannot rid himself of the obsession that the Jesuits did it for him, and he is trying to get square with them by saying dis-

agreeable things about them and holding their teachings up to scorn and obloquy. He was so unfortunate as to be born without a sense of duty, of service, of conformity to the State, to the community, to society, and he is convinced that he ought to tell about it, just as some who have experienced a surgical operation feel that they must relate minutely all the details of it, particularly at dinner parties and to casual acquaintances.

Finally, I venture a prophecy: Not ten men or women out of a hundred can read "Ulysses" through, and of the ten who succeed in doing so, five of them will do it as a tour de force. I am probably the only person, aside from the author, that has ever read it twice from beginning to end. I have learned more psychology and psychiatry from it than I did in ten years at the Neurological Institute. There are other angles at which "Ulysses" can be viewed profitably, but they are not many.

Stephen Dedalus in his Parisian tranquility (if the modern Minos has been given the lethal warm bath) will pretend indifference to the publication of a laudatory study of "Ulysses" a hundred years hence, but he is as sure to get it as Dostoyevsky, and surer than Mallarme.
